

Attachment 3: Consumer stories originally submitted May-June 2016.

Name	City	State	Text
Carolyn	Valley Springs	CA	To whom it may concern : Please! Stop this irritation and invasion of our time and peace of mind! I hate them and I think we all do. I don't even use my land line because of all the damn robocalls. Please keep them off of my cell phones. They are not what we are paying for.
Nina	St. Petersburg	FL	No Robocalls to Cell Phones!
Tony	Louisville	TN	Americans have always been given the freedom of choice! We have none with Robocalls! End them now!
Caroline	Hanover	NH	We are overwhelmed by robocalls on both our landlines and cell phones. I rarely answer and if I do by mistake, it's always for a scam. Enough is enough!
tony	evansville	IN	Please do not allow robocalls to cell phones. these calls come at all hours and amount to harassment on my own device. I do not want to solicited by companies for unwanted products.
Millicent	New York	NY	My phone has been ringing since 8:30 this morning. When I pick up I get silence. I don't know who is doing this if it is one person. But that person must be having a ball. I don't know or care why they're calling. This has become a sick epidemic. Try giving to a charity -- I did until recently. Once they have your name, address, phone they write and call ceaselessly. This is not what charity used to be.
Dave	Springfield	PA	No Robocalls
Diane	Vero Beach	FL	Cell phones are private property & owners have the right to such. In contract plans, owners are charged for minutes.
david	lilburn	GA	I get robocalls which do not have a way to opt out from future calls. One calls every Saturday morning to tell me they want me to join a pyramid scheme. Others try to sell me things or get me to donate and either do not offer a button to opt out of future calls or do not comply when I do opt out. there is no live person to request a supervisor and they often change the number from which the calls originate. It is creating a culture where people do not answer their own phones and either never set up their voicemail or leave it full of unreturned calls. This was not the case ten years ago before robocalls became so prevalent and abusive. Let us have our phones back!
Charles	Calhoun	GA	Please do all that is within your authority to stop all robocalls. thank you

Richard N.	Fort Wayne	IN	We are listed on 2 no call lists for our house phones..no attention seems to be paid to these lists..I guess it's just easier to dial any number by some machine! None of our robocall are for debts....sometimes no one is on the other end when we answer. We each have a cellphone and have gotten an advertising robocall on each cellphone recently. When people pay for minutes they talk on these cellphones we don't think that companies or advertisers should use them to call cellphone owners. Let them use the mail! Then they are paying for their ads instead the cellphone owners.
Susan	Seven Valleys	PA	The public should be protected from robocalls, whether for debt collection or scams or cold sales calls. The telephone, which was a convenience all those years ago, has become a necessary nuisance in our lives. Whether to land lines or cell phones, we should not be harassed by robocalls. I limit whom I give my cell phone number to. I expect calls coming in on it are legitimate. It is extremely annoying to be harassed by calls wherever I am.
Timothy	Rock Island	IL	My family gets at least four debt-collection related calls per day. Often when debt collectors call my home, they're asking for someone else. I tell them that I'm not the person they're looking for. They ask my who I am. And then they call the next day and the next and the next. PLEASE PUT A STOP TO THIS LUNACY!
D	austin	TX	I keep getting robotcalls on my cell phone and each time, I block the number. But, apparently, they have multiple/unlimited numbers to use to call my cell phone over and over again. This is getting annoying and very disturbing that the FCC allows this to happen continuously. I don't know how my number is on their computer but the robotcall sales calls are an invasion of privacy when you did not request it or have anything to do with their company.
adrian	washington	PA	Robocalls are never at a convenient time, they waken sleeping children, disturb workers, and make the rest of the time unpleasant. Limit them to no more than 3 per month and only to those directly having the debt.
Roe	Stewart	TN	80% of my LL calls are now robocalls, and am very close to having to shut down my LL phone. We need very affordable robo limiting provided through our phone carriers would very much appreciate having you in our corner on any legislation or partnerships that could help the situation. Thanks: Roe
Daryl	Kenmore	WA	I am on a lot of lists. I receive unwanted calls 3 to 15 a day. Most are on my land line but I do get some on my cell phone. This is an excessive intrusion.
gregory	riverside	CT	almost any robo call I have gotten on my cel connects to India and the firm name is nebulous at best. robo calls are fraud.
Perry	Banning	CA	I lose business time and productivity by these interruptions.

mardy	Largo	FL	Right now, the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone. The debt collection industry is pressuring the FCC to back down, but they are required to review all public comments submitted through their website. We have a limited window to out-organize the robocallers. Send your comment to the FCC right now. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. We've included some bullet points for things you could tell the FCC, but it's important to give your thoughts in your own words. If you oppose robocalls to your cell phone without your permission, simply say why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
patricia	florissant	MO	I expect some freedom and privacy . stop this constant barrage of unwanted robo-calls and save a mind, instead of ruining my day and filling my mind with anger toward ALL business messages,including those with just INFO. give me a break.
Sidney	broomfield	CO	I deplore these horrible calls that interrupt my life all the time. Make them stop!!!!
John	Winsto-Salem	NC	It's time for us to put an end to this constant invasion of privacy through the very devices we pay for. Get this corporate America. If you want to chase me off, seen me unwanted calls and ads, and I will refuse to do business with you!
Nancy	Fort Wayne	IN	We are tired of Robo calls we get on our house phone....none of them are for a debt! Definitely don't want to have them use up minutes on our cellphones either. We're on both Indiana's list and the U.S.no call list...no one pays any attention to those lists. We have both gotten a robocall on our cellphones already too.
Carl	Palos Park	IL	I am constantly harassed by random telemarketers on my cell phone. I am on the do not call list. They use something to cloak the caller ID. They will not give the company names or stop calling. I work odd hours and need to keep my phone on for work while I'm asleep. Please help
John	Austin	TX	It is bad enough to be a victim of a normal robocall, but it is infuriating when you get a number of these with the same caller id but no response when you pick up.
Anthony	Mpls	MN	Ni mire rico calls I get 3 or 4 a day
John	Sun Lakes	AZ	NO to robocalls on cell phones.

Fred	New York	NY	If someone came to your door, and knocked on it, a perfect stranger, and interrupted your family dinner...how would you feel? And what if that happened night after night with stranger after stranger? Whether it's email, text, phone calls or direct sales calls to your front door, we all have a right to quiet enjoyment of our property. Isn't that one of the basic rights that come with real estate ownership? Stop robocallers' invasion of my privacy and infringement on my real estate rights.
Gustav	Franklin	NC	STOP this invasion of my privacy !! Debt collectors should have to tell us that we are allowed to stop receiving these calls. The calls should be limited to the borrower ONLY, no one else. THANK YOU
Bruce	St James	NY	These calls should not be allowed in any way as they serve no practical purpose, except to annoy the unfortunate recipient. The worst part about them is that you can't respond to them as you could a call from a live human. These calls as well as Spam Email are a curse on modern life that should be exorcised by any means available.
Jeff	Johnstown	PA	Consumers should not be harassed by a computer. Creating stress does not make the situation better. People stop making their payments because they have no more resources to pay. Strong arm tactics by financial company's will not be cured by phone calls. Just say NO to cell phone robocalls.
Larry	Indianapolis	IN	Stop all robo calls.
Jim	Towson	MD	These unwanted calls are costing me money at a time when I can not afford to pay for unwanted calls. Please make sure that these calls stop.
LOU	Kingston	WA	Sick and tired, as a tax-payer and former supporter of regulatory agencies, that you choose not to put whatever pressure you have to require the major carriers you presumably regulate to adopt the available technology to stop numerous weekly calls at all hours from the obvious few same sources e.g., "consumer debt" under misleading names and with endless phony calling numbers. Do your job, this is a very old, well identified problem with a tech. /regulatory/civil prosecution set of remedies. DO YOUR JOB.
Jeff	Scottsdale	AZ	Robocalls to cell phones are not only annoying and intrusive, they are potentially dangerous when distracting people. Please keep advertisers and others out of this last corner of our privacy.

Meghan	Lehigh Acres	FL	The amount of robocalls we receive is absurd! There should be reasonable limits on how often debt collectors can call and if you tell them to stop they should have to listen to you. Debt collectors should not be allowed to call anyone besides the debt holder. Robocalls in general should be banned. It is NOT ok to use a computer to randomly call me because you think you might be able to get me to buy something (so many of these are clearly scammers). These people are relentless, calling 5 or 6 times a day and never leaving a message. They just keep at it day after day until you convince them to remove you from their calling list. It makes owning a phone a major stress rather than allowing you a way to communicate.
Edward	Milford	MA	Robocalls are not always identifiable, They cost us fees to open unwanted and unauthorized calls.
Peter	Tallahassee	FL	I hate both robocalls and unsolicited marketing calls (especially when I'm on the do not call list!) When I receive an unsolicited business call, I try to get the name of the caller and the business calling me. At that point, the caller hangs up, preventing me from making a complaint. Both should be banned outright, including from non-profit organizations, political parties, candidates and PACs, with extremely high fines and strict enforcement.
John	ALBUQUERQUE	NM	Regarding the business tactic known as 'robocalling', I request that you regulate this activity in several ways. Please require robocallers to notify us that we have the right to stop receiving calls. It seems reasonable that these businesses limit robocalls to three per month. Please limit calls to the debtholders, not their family or friends. Please write guidelines that are clear and understandable for everyone, and make them available to all citizens.
Barbara	Sacramento	CA	Robocalls are annoying and disruptive. I do not solicit this information and often these calls are scams. I want to be protected from them and I want some peace and quiet. These calls often happen early in the morning, are repetitive (calls several times), and call after 8pm. Please do everything you can to outlaw these calls. If this cannot be done, please help find a way where, if I opt out of these calls, I will never get them again. I have 'opted out' many times, to no avail.
Sandy	Simpsonville	SC	I don't have time, especially at work, to answer robocalls and I don't appreciate strangers calling my phone, day or night. I give my number only to those with whom I wish to speak. I inform all of my charities to please not call me as I do not do business, pledge, or send money based on phone calls----period. Its an invasion of my personal property and time. I especially hate the ones that start off with a live person and then switch you over to a recording that they want you to believe is live. No More Robocalls!!!
CINDY	Vista	CA	PLEASE DO ALL YOU CAN TO STOP ROBO CALLS.

Audrey	Olympia	WA	I am sick of all the robo calls I receive on my cell phone. I am very careful to whom I share my cell number. Now most of the calls I receive are robot calls. please put an end to robot calls on cell phones.
Jeanne	Newark	DE	I am receiving phone calls on a regular basis. Some even wake me up. It is impossible for me to call companies that I want to do business with and ask them to call me because I get so many robo calls that I don't know which are the calls I want. My daughter-in-law was in the hospital and it was next to impossible to ask her medical team to call me because I get so many robo calls that I don't know which ones to accept. Please help stop these maddening calls. Thank you
Hanspeter	Pahrump	NV	The do-not-call program administered by the Federal government is a farce!!!! Tell all the phone companies to provide all consumers with a free robot call block feature.
Nenah	Surprise	AZ	I'm tired of being bombarded by robocalls. I don't even answer my phone anymore. Companies will continue to pester us unless you act.
james	Indio	CA	phone rings all the time
Amory	Middleboro	MA	There must be a limit put on unscrupulous, predatory debt collectors. This is a very important way to do that. Keep them from using robo callers in debt collection activities and thereby protect the American people.
Andrea	New Haven	CT	Please institute strong policies against Robocallers on both cell phones and land lines. They are a total nuisance and in today's world, this vehicle is used to perpetrate fraudulent activities upon citizens. Please stop this! Thank you.
Ron	Topeka	KS	My cell phone & my landline are TOTALLY MINE! I pay for the 2 cell phones & 1 land line in my home & pay enormous TAXES & FEES to be able to have them. These fees & taxes are outrageous in themselves since we have NO chance to see or question WHO is taxing us & what the tax money is spent on - (taxing without representation of any kind). Then to add INSULT we are bombarded with all kinds of calls that are SCAMS to steal our identity & credit cards. Our government listens to most all calls made & they say they can't stop this mess is a LIE. Our President & Congress HAVE CAUSED THIS - IT MUST STOP. Today my wife & I have received at total of 8 calls telling us we have broken the law & must call now & talk to their lawyers - bla bla bla. We don't listen -just delete the voice mails.

James	Milton	GA	Please help me out by stopping robocalls. They are annoying, expensive, even dangerous as they come up as i am driving. When I get call from a know number I know I can ignore them. Unknown know numbers "Robocalls" cause me to want to answer the phone and at minimum they make me think who is calling, taking my attention away from what I'm doing. When complain to AT&T who docent think it is a problem because they are making money from it.
Gary	Mercere Island	WA	I am tired of answer sales, solicitations and computer calls on my supposedly blocked Cell Phone. FIX IT NOW!
N	MONTGOMERY	AL	Robocalls cost money. I need all the savings I can get with my cellphone. Many important calls or Emergency calls are cut off when robocall are intruding and cutting in, when I am on the phone, this has to stop.
Michael	LOUISVILLE	KY	I hate robo calls. They are unwanted obtrusive and costly to people who are paying for their minutes. They should be illegal.
Carol	Venice	FL	When 16 out of 18 calls are robo calls, it's out of control. When robo calls interrupt important medical matters, distract driving, interrupt social activities at my home, make me dash from one part of the house to another, interrupt cooking, showers, and everything in an ordinary life, they are out of control. I always run to see whomever is calling, (as I do not have a phone on me all the time) because I have a 95 year old mother, children, friends and expected, important calls. Unwanted phone calls are overwhelming in numbers and originate from all over America. I have a phone that lists callers numbers and some unwanted callers pester me day after day, week after week, morning, noon and evening. We pay a lot of money for phone services and there is no "service" when robo calls are allowed to interfere with ordinary lives and phone companies allow these calls to continue harassing us.

Richard	Millersville	MD	Robb-Calls are out of control! Hardly a day goes by without (often) multiple calls. Usually at dinner time/family time. Often the same companies - "this is the call back you requested regarding a back brace"; "there is a problem with your Windows computer sending out spam" (I do not own a Windows computer); "this is Julie, there is nothing wrong with your credit cards . . .", etc. The do not call list is, at best, ineffective. Perhaps the legitimate companies comply. The word on the street is that "pushing the button" to be removed from our call list merely confirms to the callers that this is a valid number, which get resold. I suspect many of these calls may originate over seas. The numbers that show on caller ID have been spoofed and are not correct. (I have seen my home number show on caller ID as the incoming call.) Privacy at home is precious. Whether some of these calls are legitimate, though many obviously are not, the disruptions are resentful. Permitting robo-callers to expand to calling cell phones will be a nightmare. Don't permit it!
Sue	Sequim	WA	Please restrain from allowing another method to be used to bombard us with ads. Enough is enough!
Terry	Houston	TX	Telephone calls that mean something to us are taking 2nd place because of the amount of robocalls. Please, stop them.
Brian	Glendale	AZ	My cell phone is pay per use. I'm being forced to pay for these calls and texts.
John	Kearney	MO	Those bastard sons-a-bitches are ignoring the fact that my land line and cell phone both are listed on the gov't no-call list. STOP THEM!!! STOP THEM!!!! STOP THEM!!!!
Richard	Parkland	FL	I have added my landlines and cellphones to the "no call list" but it did not stop the calls
Clay	Chatsworth	CA	Dear Commissioners PLEASE stop allowing we the people's peace and freedom from unsolicited unwanted and unwarranted intrusive interruptions. PLEASE! Restore a modicum of control TO the people and Hear us!
Kara	Houston	TX	No robots on house or cell phones!!!
Norman	Riverside	CA	Senior citizens often are unable to get enough sleep during the night. Additional daytime sleep is essential to good health. Please stop unwanted telephone interruptions.
ALLEN	BALLWIN	MO	PLEASE STOP ROBO CALLS, I GET FROM 2 TO 6 EVERYDAY, AND EVEN ON SUNDAYS! IT HAS TO STOP! STATE LAWSUITS AGAINST THOSE WHO DO NOT ABIDE THE "DO NOT CALL" LAWS ARE FEW AND FAR BETWEEN. I HAVE REGISTERED COMPLAINTS AGAINST NUMEROUS VIOLATORS BUT THEY STILL KEEP CALLING BECAUSE MISSOURI'S ATTORNEY GENERAL DOES VERY LITTLE UNLESS THEY'RE VIOLATORS ARE MAKING HUNDREDS OF THOUSANDS OF CALLS.

Susan	Redding	CA	No one should be receiving robo calls; particularly from cell phones that have plans that can include buying limited minutes. Due to these limited minute plans to have no control over who you may receive calls from (political robo calls or sales robo calls or debt collection robo calls); this can affect the number of minutes you have left by responding to the calls. Therefore, increased restrictions should be applied to cell phones. This should also apply to texts.
Judith	Pawtucket	RI	Predatory lenders and shady companies rely on invasive robocalls. They should be required to notify call recipients of their right to end receipt of such calls. These guidelines should be clearly stated and available on the FCC's website or its phonelines.
Kristen	Covington	LA	Please do not allow robocalls to contact the public by cell phone without regulation. This would be a huge interruption of someone's day, and would be interrupting their concentration at work or school and is a hugely emotionally negative moment for someone to have breaking up their day. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Thank you for reading my comment.
Ted	Hamilton	OH	Stopping robo calls is a quality of life issue. Why should we have to have our lives constantly interrupted by automatic phone calls? It's more obnoxious than many other forms of behavior that are illegal or we have ordinances about. Please use the power of government for something positive that improves lives by banning robo calls
Verlon	Camarillo	CA	Thank you Consumer Reports for helping us to fight back against Robocalls both at home and on our cell phone. I take great care about who can contact me by cell phone --- family, very close friends, doctors and emergency providers only. I consider any person or organization beyond this an invader.
s	miami	FL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Amy	Derby	KS	I'm tired of being bullied, harassed, deceived, interrupted, bothered, annoyed and on and on and on.... by not debt collectors but calls from these unknown, random, unsolicited numbers across the country. I have registered both my home and cell phones with the Fed's Do Not Call List yet I receive 3-4 unsolicited calls every day. Yes, I've reported several of these numbers and blocked many, many more but these calls still continue to be received. I worry for our citizens who may not be educated enough and fall prey to one of these outfits who are only after their money. Oops, I've failed to mention the inability of these callers to communicate effectively using our country's national language. Please note I am not referring to the Spanish speaking population either. I want clear guidelines for opting-out/in of these unsolicited calls as well as those from any debt collectors. All numbers should be clearly identifiable when received if I'm not in a position to answer the call for whatever reason and also, to simply know who's calling me. By the way, do not involve my family or friends, etc in my personal business. Thank you for your time.
Margie	Oconomowoc	WI	I am tired of answering phone calls from vendors and fundraising organizations -- especially political ones -- with whom I do not have an affinity! I have recently been getting debt collection calls and I have always had stellar credit scores. ENOUGH!!! Where are the consumers rights on this issue. If I don't want to receive a call, I should have the right to permanently bar that organization, non-profit or seller from contacting me again. Thank you!
Thomas	Ocklawaha	FL	MUST STOP NOW !!!!
Bruce	Meridian	ID	These calls are very disruptive especially if your family has health issues that require frequent communication. These calls are almost impossible to screen and interrupt normal phone service.
Marty	La Conner	WA	Unsolicited phone calls are an infringement on all of us, we should have a choice to say no!
Anne	Northridge	CA	I receive 2 or 3 unsolicited robocalls EVERY SINGLE DAY. Most of them have no one at the other end. If it goes to my voice mail, there is NO message. Or they are spam calls (several from the "IRS" recently! Or marketing or sales calls. These are an intrusion and an annoyance and an invasion of privacy. It's time to stop these calls!
Chris	lancaster	CA	I am sick and tired of getting unwanted phone calls. It's just like getting unwanted solicitors at your door. I don't need my time wasted.
Charles	North Bend	WA	FCC, please do not allow robo call under any circumstances. they are an invasion of privacy, an open door for those parties whose primary purpose is to commit fraud and harassment.
Paul	Aromas	CA	stop robocalls

Kenneth	Fallbrook	CA	Something has to be done stop the robo calls on my cell phone. I just received another. That makes two today. I have a limited amount of service and this uses those minutes. then i have to pay for the minutes they use to contact me. Unfair. Stop it now.
Harry	Rhineland	WI	Please end robocalls!!!!
Alan	Brandon	FL	I urge you to find a fair balance between the legitimate need of debt collectors to collect money owed them and the privacy of people who do not actually owe money but who may be related to or live near a debtor. It also seems to me that more than three calls per month to the debtor increases his/her annoyance and resistance level without increasing his or her likelihood of paying. Finally, the guidelines should be written in clear, unambiguous English and should be easily available on the Web.
Marcus	Eugene	OR	My phone is besieged with Robocalls that consume my time and resources. Please limit the right of robocallers from accessing my phone without my prior authorization and limit their calls each month to 3.
George	Astoria	NY	Allowing cell phone robocalls is nothing more than you creeps greasing your own pockets and reaming ours. Grow up. Thou shalt not screw thy neighbors.
John & Binti	Stonington	CT	Robo calls can't stop soon enough to home phone or cell phone!
Elaine	Madison	NJ	Debt collector robocallers must state that we have the right to tell them to stop robocalling our number. The number of allowed calls or texts should be limited to no more than 3 per month, and only to those who directly hold federal debt, not friends and family. All guideline should be clear and available for those who seek.
James	Humtinton Beach	CA	Do not allow any type of robocalls . . . this madness and invasion of privacy needs to be stopped.
Dennis	Lynchburg	VA	Stop the awful practice of robo calls to cell phones. I am getting them on a work cell phone too.
GEORGE W.	Jamestown	NY	DO NOT WANT WHAT I DON'T ASK FOR !!!
Michael	Middleburg Hts	OH	I did not go through the expense of getting a cell phone to be bothered by robocalls. It is an invasion of my privacy. STOP!!!!!!!!!!!!!!
Diane A	Walton	NY	We are tired of getting these robocallers. We must get approx. 10 a day.
Jeff	Brooks	OR	Please put an end to all Robocalls!
John	Albuquerque	NM	Please end the practice of robocalls to both land lines and cell phones. I do not want calls from people trying to make a lousy buck and or steal my identity.

Gary	Sandusky	OH	Both my wife and I get several of these calls a day. Often at the most inconvenient time. It does not matter if your registered with the DO NOT CALL LIST. The people behind these calls have no respect for the individual or the law. ROBO calls should be outlawed and serious enforcement taken against the companies who ignore the law. It has gotten so bad it is now a quality of life issue. It is bad enough with the land line to the home now it is just as bad with cell phones.
KEN	LAS CRUCES	NM	I am handicapped, and depending upon where I am in the house or on the grounds, it can be a painful trip to the nearest phone. I is increasingly so when I go to the trouble for a #\$@%&! robocall! Please do your utmost to end these bloody nuisances.
Sandra	Framingham	MA	No more robocalls, waste of time and intrusive. Has a study been done to see what a waste they are , just coureous.
Ellie	Carlsbad	CA	Robocalls violate my time and space. It is so annoying to have my activities interrupted by someone I don't know or care to know. Never once have I found one of these calls a positive addition to my day.
Gerald	Oakdale	CA	I urge that all telephone providers put automatic blocks on robo calls. More than half the calls we get are robo calls.
Lani	Henrietta	NY	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family! The guidelines should be clear and readily available. Thank you.
Sheila	Phila	PA	STOP robocalls from wasting our time and minutes and from keeping our phones captured and stopping us from using our phones.
Paul	The Villages	FL	Please stop the robocalls. They're intrusive and definitely unwanted. I've a phone to stay in contact with friends and family. I get these unwanted calls while I'm driving and have to pull over to find that it's a call that I don't want.
David	Bellingham	WA	I am sick and tired of getting Robo calls all hours of the day and night getting woken up and everything else I'm sick of it please take an action. Thank you
Janet	Albuquerque	NM	I am on the national "Do Not Call" list, but Credit Card Services have resumed placing robocalls to me AGAIN. I have complained to FCC and FTC for the past 6-7 YEARS (at least.) Credit Card Services stopped for about 6 months, now just this week they are robocalling me once again daily. This is on my landline phone. Please mandate them to stop these irritating calls! Thank you.
Daphne	San Diego	CA	Please establish clear guidelines for robocalls of all kind. The public deserves better!
Kim	New Knoxville	OH	I've been getting daily robocalls from companies who want to loan me money. I don't want a loan and I don't need a loan. I can't tell these people to stop calling me, because the calls come from all over the country and it's a recorded message. Please make them stop!!!

Catherine	Boise	ID	Please stop robocalls to cell phones, it would be nice if we could stop robocalls to land line phones also. We are experiencing on average about 8 calls a day on land line phone and that is a unlisted phone number.
Charles	Athens	GA	I get 5-10 robocalls on my cell phone daily. This is an incredible nuisance. I know the technology is available to stop this, so please make the cell phone carriers implement it.
Alan	Los Angeles	CA	We are constantly bombarded by robocalls and I don't see why Congress can't put a stop to it. It interferes with our daily life, calls starting at 8 AM until 9 PM. Where are our rights in not allowing these calls to bombard our home?
D	San Jose	CA	I get about 10 Robo calls a day on my land line and this has to stop.
Kait	Albuquerque	NM	Please implement the strongest rules possible against any and all companies that robocall people. It's an invasion of privacy which needs to be reigned in by the FCC.
Barbara	Southport	NC	Here's a real pain - 212-999-6015 - please get rid of them!!!
Ken & Glenda	Fairhope	AL	I have been signed up on the no call list for years and it does no good.
brandon	burlingame	CA	Robocalls should be outlawed - - - period !
Barbara	Christiansburg	VA	I feel that unsolicited calls to my cell phone is a violation of my rights. I listed my cell number to the Government to block out any calls from unknown callers. I am still receiving sales calls, etc. This action cost many cell owners extra fees due to them not having unlimited texts and calls on their phone. I am a senior and I don't want calls from these people.
LeeAnn	Lawrence	KS	I have several phones that I rely on. One at home and my cell phone. I'm tired of getting calls before 9:00am and after 9:00 pm, clearly criminals and scammers are not following the rules. But now, no one is following the rules. I have received calls from unidentified people from all around the US. I get at least 15-20 calls every week from people who never identify themselves. I can't turn anyone in to the State's Attorney General because these calls are robocalls and they never divulge any information about who they are or why they're calling. If these calls are from legitimate individuals how would anyone know? I have looked these numbers up on the internet, but I don't feel that I should have to pay the phone company to find out who these people are. What a complete scam! I understand that non-profits and companies I have dealt with are free to call me, but it's all these other calls, day after day. I have had several numbers that were calling me 3 times a day, until I blocked them. I believe that it is time for the FCC to set down tougher rules for violators and I want my phone company to exercise its blocking technology to stop these constant calls. Thank you for this opportunity to express my views.
Timeka	Clarksville	TN	Please stop all the robo calls to cell & home phone numbers

D J	Bedford	TX	I view robocalls as an invasion of my privacy.
Gale	vashon	WA	stop robocalls!
Judith	Danville	CA	No robocalls!
John	Ridgefield	CT	Stop the unwanted, unsolicited intrusions into our lives.
Jean	Wenham	MA	In spite of filing probably well over 100 File a Complaints with the Do Not Call folks, we continue to get robo calls because Comcast and Verizon won't block them. Recently the calls increased on the cell phone where I can block the calls from that number but they use another number. We don't answer the house phone, but screen calls. They still call. Comcast and Verizon should be helping their customers.
Kathleen	Hazleton	PA	Robocalls are an invasion of privacy, and, at worse, are a form of harassment.
Dwight	Stoughton	WI	My cell phone is private and no calls from robots should be allowed. It uses my minutes
William	New Milford	CT	Please stop robocalls. The people making them do not stop even when asked. Most times they hang up when you answer. The numbers and names that appear on caller ID are spoofed. If you call them you either get a message that the number is out of service, no answer, a person who has no idea why you are calling them etc. being registered on the do not call database does virtually no good. Our phone service providers generally do nothing to help us stop these calls. Many people have a limited number of cell calls per month thus they incur a charge for many of these calls. These people are relentless, they call daily or even multiple times per day and they ignore the allowable hours. Please help us stop the constant ringing phone that disturbs our lives. Many of us never answer the phone when the name or number in the caller ID is not recognized but we still have to listen to the phone ring. Please help us stop robo calls and bring peace and quiet back to our lives. Thanks, Bill & Sherry Zehrung
Gary	Fly Creek	NY	Give me one good reason to allow robot calls. Has anyone ever heard one from an honest business?
Lyn	New York	NY	Please end robo calls to cell phones
Derald	Goldsboro	NC	I simply do not want any Robocalls or any calls from business, political or others which I have had no prior contact.
Lisa	Plainfield	IL	I oppose robo calls to my cell phone without my permission. If they do want to call they should do the following: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available

jani	henderson	NV	I see little difference between receiving 30 or more robocalls a day (on my unlisted/unpublished phone number) plus the fact that they seldom leave company names on the caller id and the bullying tactics so prevalent in today's media driven culture. If you want to do business with me, stop blocking your identity. calls from other states/unknown/not provided are extremely annoying and I will not answer them! now that the election is nearing, I especially resent all the "surveys" who I vote for is my business and in honest elections there is no way to prove the truth on my answer to "who will you vote for?" so what is the purpose of these surveys? I am caregiver to a family member who has an incurable disease. the constant ringing of the phone from these nuisance callers interferes with her rest and care. stop robocalls!
Peggy	Shreveport	LA	I have considered cancelling my land line because of the ridiculous amount of robocalls to the phone. Please do not allow them to infringe on my cell phone. It is irresponsible to allow access to cell phones. It is an invasion of privacy for private citizens.
Helen	Delmont	PA	I am opposed to Robocalls to cell phones because I use my phone for emergency purposes. It is distressing to decide whether or not a call should be answered. With all the scams aimed at older citizens I should not have to gamble with my family's security.
erich	vacaville	CA	make it illegal for robo calls on my cell phone. Also all other call wanting to sell me stuff or soliciting of any kind
Verlyn	Decatur	IL	NO MORE
Meliss	Pensacola	FL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Claire	NY	NY	Robocalls are devious, misleading and dangerous when they request sensitive ID information. Robocalls need to be stopped to protect consumers.
Aldona	Ellicott City	MD	My family and I are inundated with calls from debt collectors trying to track down a person who has the same last name. We have nothing to do with this person or his debt, but we are hounded by aggressive debt collectors who try to intimidate us. Some have even tried telling us that we may be liable for the debt which is completely untrue. We have asked them to stop, but they ignore the requests. The only option is to block the phone number, but then they start using another number. Please STOP ROBOCALLS!

Ellen	Jerome	AZ	I believe there should be some way to keep the robocalls from being a daily nuisance and inconvenience. For elderly folks to try to get to a phone and then have it be one of those robocalls is not only a nuisance but can cause falls. Also, there are many instances of folks being fooled by hucksters into sending them money for illegitimate reasons.
Thomas V	Levittown	NY	What about a citizen's right to quiet enjoyment. of their home? What about harassment? What about our right to privacy? Make these politicians, charities, and commercial cold callers pay heavy fines, PLEASE!
Jeff	West chester	PA	The calls we receive are not from debt collectors, but from numerous charitable organizations, political organizations and from for profit companies. We get several every day and it's a real nuisance. Why not make all organizations have to use USPS to contact households instead of the phone. That would put the USPS on a sound financial footing and stop interrupting citizens.
Becky	Wylie	TX	Please rule that no one can call my cell phone unless it's from someone to whom I have given specific permission to do so. It was so nice for the first few years I had my cell phone, but the calls are getting more and more frequent. They are interrupting and distracting me.
Walter	Gloucester	MA	This is an outrageous invasion of our privacy!
Raymond	Temecula	CA	Beyond violating the National Do Not Call Registry requirements we consider unsolicited and unwanted telemarketing calls, both automated and human, to be an invasion of our privacy and as such a violation of the Constitution. We currently receive no less than 3 - 5 calls on a daily basis. So far we have received over 250 calls from the solar energy industry alone and almost that many from lending institutions promising to lower our mortgage payments. Many of these calls come early in the morning or late in the evening. They are more than just a nuisance; both my wife and I have been wakened from our sleep and disturbed when under the weather. It has reached the point that we don't answer the phone unless we know the caller via Caller ID but we're concerned that we are likely missing relevant calls that we would have otherwise taken but for fear that we'd be harassed once again by an unwanted call and/or exposed to potential scammers.
Marshall	Sarasota	FL	Robo calls are a terrible intrusion on my Privacy!
Barry	Mayfield Heights	OH	I ask you please to put some restrictions on robo calls to land AND cell phones to protect the public from scams and spam.

Arthur	Tampa	FL	It should be required that debt collection robocallers notify us of our right to stop receiving calls. The number of allowed debt collection robocallers calls or texts should be limited to no more than two per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Establish strong methods for those receiving ANY robocalls to seek relief through the caller and through regulators.
Wendell	Spring Hill	FL	These calls are annoying and time consuming.
Jackie	Chicagos	IL	The robocalls have advanced to our cell phones! The harassment hasn't abated; it's been multiplied and intensified. When is the FCC going to put an end to it?
Alan	Carmel Valley	CA	Please stop these irritating calls-- make large fines a reality.
Mary P	Seattle	WA	Stop all Robo calls, and don't even let them get started on cell phones.
William	Miami	FL	Please outlaw robocalls of all types. And while you are at it, please outlaw all solicitation calls. I value my privacy.
Jeff	Warwick	RI	Robo Calls violate our privacy. I support legislation to abolish them.
Roger	Castro Valley	CA	It seems so obvious to those of us who don't have a private secretary to screen incoming calls. Those of you who do are lucky. Whether it's our land line or a our cell phone - there should be a law that keeps our phone numbers out of the hands of the greed-soaked nuts who hide behind robo machines and those live persons who need a job - any job - even one where they can expect to be cussed out by those of us who courteously answer our phones - only to get a robo message that we are 25th in line . For what? It's reached the point where I try to imagine some civil way to stop the crazy without breaking a law.
Wayne	Knoxville, TN	TN	We no longer answer our phone. Everyone must leave a message, and we only call back close friends. Separately, some call after we are in bed. I wish we could return to trusting that most calls, even from unrecognized callers, was important.
James	Santee	CA	I really hate this spam on my otherwise private cell "line", and request you end this practice...
Charles	Marietta	GA	Please do all possible to stop ALL robo calls. Not just cell phones but land lines as well. We are absolutely sick of getting these call. If people want to make these types of calls, require the receiving end to have to have opted in.
Jane	Poplar Bluff	MO	I get very upset to be interrupted at church, meetings or even while gardening with a robo or soliciation call. Why do they think they have a right to bother me. I only give my cell phone number to a few people in case of emergency.
Brent	Minneapolis	MN	Robocalls are unnecessary and a waste of everybody's time.
Thomas	Woodland	CA	Dear FCC, Please, please, please do not let robocalls continue! Not to landlines, but especially not to cell phones where we have to pay for each and every minute we use!

Dolores	Bolingbrook	IL	I receive several calls a month from companies offering credit cards (that I don't do business with) and especially from time share companies. My cell has always been listed on the Do Not Call Registry and these companies routinely ignore it. Consumers need strong protections from predatory corporations.
Ray	Alhambra	CA	I got yet another robocall yesterday even though my number is on the donotcall.gov . Please make it stop.
patricia	Tucson	AZ	Stop the mind racking calls torturing us all. I get calls from the same company over three times a day. This could make anyone crazy and dangerous. Last thing we all need is acute frustration over nonsense.
JEFFERSON (JE	TULSA	OK	Robocalls are at best an irritation because I only give my cell number to people and entities I want to be able to contact me. Therefore when the phone rings, I answer it, or as I tell my friends, "it is with me 24/7 and I will answer unless I am asleep." Because of the increasing number of robocalls, I have taken to checking the caller ID before answering. The danger comes when I am driving. I use a hands free device, a blue tooth ear bud, but now instead of just hitting the button and answering, my first instinct is to pull the phone from my pocket and check the caller ID. This essentially places me in a position similar to those who text while driving, something I would never do. In fact, I have pulled out of traffic to take phone calls before which presents a danger of its own. I hold that I have a right of privacy as regards my cell phone. I pay for it and these robocallers do not. I have my phone with me 24/7 which puts me in the unenviable position of having my personal tranquility violated whenever and wherever I may be. It is wrong to allow an automated device to call me under these circumstances and I cannot protest too strongly that this is an invasion of my privacy, an usurpation of my right to my private property and a danger to my health and safety and should be curbed by the strongest possible sanctions.
Vincent	Santa Rosa	CA	The robocalls I get on my cell phone cost me money and I am not interested in products from a robocall.
David	Old Bethpage	NY	For years debt collectors were permitted to get away with the most outrageous behavior. Now it seems that they will once again be able to resume their deeds once again. I don't think I need to spell it all out for you. Sensible rules and regulations are called for so the American people don't have to face them and fight that battle all over again to end those abuses.
Susan	Vallejo	CA	I am so tired of picking up the phone to hear a pause or hang up or just as bad , someone trying to sell me something. I signed up on the "do not call list" for all our numbers. It did no good. I am so sick of it. And if you want to call them back ,their number doesn't work. Please do something, this is harassment !

Gregory	South Easton	MA	Every day I receive automated calls both at home and on my cell. i have not given anyone permission to make these calls, and they are unwanted and disruptive. Please do not support any efforts that allow this kind of call. If i want to be called, I will opt in, but the constant barrage of calls is becoming annoying and is a waste of time and energy. Please support our privacy rights by denying robocalls. Thanks
Paul	Dallas	TX	Please stop all Robo calls
r	Orange park	FL	Stop Robocalls. They should Pay us for Wasting Our time and Our Money... This is long overdue ... stop them
alan	bala cynwyd	PA	i purchase minutes for my phone. every time i receive a robo call it cost a minimum of \$0.10. why must i pay for calls i am not intersted in???
Richard	Chhicago	IL	Robocalls have become terribly abusive nuisances, threatening the utility of the telephone. Some people are even beginning to cease answering so they can weed out the robocalls and only take the real calls from their answering machines. We urge that every step should be taken to ban them.
James	Vienna	VA	I do not want robocalls to my cell phone without my express written permission. Such calls cost me money and lost business.
Scott	Clearwater	FL	Dear FCC, I am not a person who has debt or incurs debt that can be quickly paid off, but I do want the FCC to enact rules that allows debtors to opt out of robocalls with reasonable limitations. The rules enacted should be clear and readily available and understood to those who are indebted. I have a cell phone and the number was previously held by someone else. I receive robocalls as a result of that persons activities, not anything that I initiated. There is no way to stop them unless you block the number. If I do block it, the call then starts from another number. This is wrong. My phone is already listed on the national "Do Not Call List". Robocalls are harassment. I am not defending those who owe money to others; they should pay up or negotiate payment terms. In turn, the debt collectors should use real people and documentation to contact the debtor. If the debtor refuses to answer the calls, mail or other communications, there are other legal means to collect debt including placement of liens, repossession and court action to mention a few. I am completely in favor of using existing available tools to collect debt. Harassment is unacceptable. Sincerely, Scott Zygadlo
Daniel	Boston	MA	We get literally a dozen robocalls each day. We have blocked as many as our provider, Comcast, allows but they keep pouring in. This is one of the most annoying things we cope with now. If providers have a way of allowing customers to block all robocalls, they should be required to do so immediately!
Neiland	Llano	TX	I am against all robo calls to my home and cell phones. I have them both listed on the do not call site, which does no good.

Craig	Tacoma	WA	Even after I verified to see if my number is on the 'do not call' list, I'm still receiving un-solicited phone calls. They now use the ruse, "Hell, is Sergio there?" When I reply no and inform them that they have the wrong number, they ask to speak with me instead. I tell them each time, to stop calling. I have had three calls since January and each one is from a different number.
Judith	Jefferson City	MO	Robocalls are not only irritating, but also costly to me. Receiving calls at home are time consuming and irritating, but when I get one on my cell, it costs me the amount of minutes that are wasted. I do not have unlimited calls and texts, and buy time and extra minutes separately. So these robocalls cost extra for me. This refers to all types of robocalls--advertising, political nonsense, collectors, etc.
David	Henderson	NV	No person or company should be allowed to systematically irritate or harass the public. Robot calls disrupt peoples lives and provide no way realistic way to end the constant harassment while companies are completely insulated from negative consumer feedback. It should be made illegal.
nicholas	chicago	IL	My phone is inundated with illegal phone scammers and spammers already, and the FCC and phone companies have done practically nothing to stop them for decades. The National Do Not call list is a joke. The FCC must act to prevent even more unwanted robocalls from harassing people.
Thomas	Red Lodge	MT	Robocalls are not only annoying, but add stress when involved in some important task.
Diane	Pittsburgh	PA	Please end the needless irritation from robo calls, especially those pretending to be from a " shipping clerk with our order" or a " return call " from someone who has supposedly contacted them. These scams are designed to confuse and embezzle, not inform or make a special offer available. And politely requesting to be taken off their list often results in more calls, not less. I am writing as someone who does not have (at present) any age related confusion, but I do have a mother who is easily caught up in such calls. Robo calls are too often predatory and dishonest. Since the businesses do not police themselves in any meaningful manner you should be doing it. I strongly support laws, regulations and directives designed to put an end to this practice.
Edward	Wilmington	DE	Keep these robocalls from invading my privacy!
David	Brooklyn	MI	I am sick and tired of Automated calls to my Land Line! But to my cell phone... enough! Robo calls should be illegal, banned and punished, period!!!

Vincent	Bethel	AK	Customers that have cell phones from GCI, AT&T and other company's should not get any calls from Robocalls. They should just have to work like any other person and try walking to homes in their area they are calling from. It is headache to just think it might be a scammer and we are just getting ripped off. People don't need added stress in their life's to get a call from someone trying to sell something over cellphone calls
Trracy	Lakewood	CO	There should be a no call list for cell phones. There should also be unlimited call blocking to cell phones.
Michael	Egg Harbor Town	NJ	I don't have a debt collector problem. But, I consider my phone to be a private communication device. I simply do not wish those who get my phone number from another source TO BOTHER ME!!!! with their unsolicited messages and sales pitches for things I don't want. Period. Since I can't get them to stop, I want you to stop them for me.
Irene	Ashville	OH	I am a Very busy person, It is sometimes difficult for me to answer the phone. Then to have it be something I don't need or want is distressing .
Shirley	Ashland	NE	I cannot get rid of the "Credit Card lower credit rates" robo call on my phone and now cell phone. I believe after they have called 3 times and you hang up on them, they should automatically, using our lasting programming in electronics, be able to take you off their listing. I have called the phone companies, the State Attorney General, etc. I have told the caller (Heather, and sometimes another name) about 8 times to take me off the list IF you can get to anyone. I now just hang up - sometimes I get about 10 or more calls from them a month. I rush to the phone and one of these days I may fall on the steps. I don't know what to do except try to go to court citing a invasion of privacy or other reason. However, You cannot get their real number, even with caller ID. This borders on stalking via phone.
Peter	Kensington	CA	My home phone has essentially become unusable because it get so many junk calls that the ringer is turned off. So it's no longer used for receiving calls from relatives, friends, etc. No I'm getting robocalls from debt collectors on my cellphone as well. This is really unacceptable. With junk mail, junk phone calls, junk email, billboards, buses, and just about everything else, I'm bombarded with crap. I tired of it and I really don't want it on my cellphone. Please keep these people off my phone!
Dorothy	Loudon	TN	We are 75yo and it is so annoying to have to constantly sift unwanted calls. Hang-ups don't discourage them , neither do loudly screamed responses; it is an invasion of privacy, and a waste of time!!!! Sales by phone (landline or e-mail) should be restricted-- and or the public provided with a hands on BLOCK. Block numbers, passes out in the past no longer seem to work. Life is enough of a challenge without adding the constant irritant of Robo-attempts.

Wanda	Fayetteville	AR	Robocalls interrupt people who are sick, handicapped or demented, not to mention trying to eat a meal. They may scare folks, as the IRS filing suit, or confuse the hard of hearing, or trick people into providing dangerous personal information. Let people opt out of calls placed by machine. Give an option early in the call to click a digit to refuse such calls.
Julianne	Milwaukee	WI	Stop annoying us with these unnecessary phone interruptions!
Frederick	Naperville	IL	I have been disturbed by the increasing frequency of robocalls to my cellphone. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Paul	Winston Salem	NC	Please stop robocalls to cell phones.
Gary	thousand oaks	CA	For years we have received sales calls and robo calls on our land lines. Now that we have cell phones the predators still spam our phones with unwanted solicitations. Please stop them now.
Ann	Williamsburg	VA	Stop the damn robo calls
Dan	Southington	CT	I get between 7 and 10 calls DAILY between 3 and 9 PM. They all have private caller and I can't stop them. It is very disconcerting. Please help me I am 73 years old and fed up!
Connie	Marshallville	OH	For more than 3 years we were harassed by debt collectors for a debt made by someone else. WE NEVER NEW THIS PERSON!!! We had the cell phone number for years before they started calling! There was absolutely no reason for them to call us as our names were not even similar.
Steven	Honey Brook	PA	Nearly everyday I get 1-4 robo calls - mostly from "credit watch" folks wanting to make sure my credit cards remain safe, the rest about various topics. All are scams. If you try to call the number back, it doesn't exist. I sometimes get calls from irate people who insist "you just called me". I explain no I didn't but often it isn't believed. My best guess is these robo-callers are using some security loophole in the VOIP interface and inserting whatever number they want when they make the call - would at least explain why most of the numbers don't exist but sometimes folks see MY number (my cell number and my phone was right beside me not calling anybody). This is really becoming a large problem. It's phone spam that is far more obnoxious than spam emails - at least those I can ignore when I choose to. These calls, not so much.
Gary	North Tustin	CA	Please, no robocalls to cell phones.
Brenda	Lake Worth	FL	Please end robo-calls, and mass mailings...they waste trees and time. thank you.
Doris T	Rock Hill	SC	I hate robocalls and if I receive one, I try to remember who sent it so I can boycott whatever it is they're promoting.
Charles	Brackettville	TX	Please stop the rudeness and annoyance of robocalls as soon as possible. Tolerance of such intrusion is at an end. Thank you.

Carol	Park City	UT	Debt collections robocalls must notify us of our rights to stop receiving calls. The number of allowed calls or texts should be limited to no more than 3 per month, and only to those who directly hold federal debt- no friends or family! The guidelines should be clear and readily available.
John	Ayer	MA	I STRONGLY recommend you put in place the strongest, easily enforceable regulations, with STIFF penalties, for robocalls to cell, traditional landline and internet phones. Such calls are, at a minimum, intensely annoying, low cost attempts by people to selfishly exercise their agenda [legal/legitimate or otherwise/scams]. They usually ignore "do not call" registrations in an attempt to "capture" a fractional percentage of the subscribers they bombard in a massively "shotgun" campaign. I see absolutely NO legitimate reason for the use of this intrusive technology except by governmental Public Safety Agencies to warn citizens of legitimate threats to their well being or ask for their help. That even includes political and "charity" calls -- how receptive to their cause will be a registered "do not call" subscriber be to tons of political calls?
Brian	Nashville	TN	Please stop these people from calling me and trying to sell me things. I joined a do not call list several times and it only seems to limit these.
Linda	Bend	OR	The increase in these calls lately is unbelievable. This is irritating beyond belief and should not be allowed. Don't we all have enough to deal with without this going on?
Joseph	Dryden	MI	It is bad enough to get charity and political calls after working 12+ hours a day. Cellular phones need to remain totally of limits to all and the afore mentioned added as taboo. I have excellent credit but bill collection agencies will do anything they want to try and locate my deceased father of 50 years...their is nothing wrong with your vision! The no call list was passed for a reason. We can't seem to get any consumers friendly legislation passed or even a birth certificate for the highest office in this land! FCC do not change something that is not broken!! That's the least you can do for honest taxpayers.
Richard	Hauppauge	NY	I'm getting very upset with unsolicited calls, mostly by people who barely speak my language trying to sell me something I've not requested or wanting me to donate to a cause I have no intention of supporting. The calls usually interrupt my meals or evening relaxation times. It is an invasion of my privacy, virtually a home invasion !!

Carol	Park city	UT	It's extremely debasing, abusive, and demeaning having someone you don't know, and owe nothing to to have listen to them call you names, make threats against you, and in many other ways assault your dignity!!! By the same token batter your ears and sensibilities with continual insavory comments about your own honesty, when you have already told them many times you don't have any of the information they are demanding of you, when they call trying to find out a relatives name, address, or other information.
sharon	chelmsford	MA	Robo calls are an invasion of my privacy - My cell phone is not listed in any directory and only those I have given permission should be able to access it. If I want a credit card, trip to Bermuda, or a bank loan of \$50,000 I'm sure I could find it on my own. Additionally they take me away from important business at hand and are rude and interrupting.
Daniel	Catonsville	MD	I HARDLY ANSWER MY PHONE THESEDAYS, UNLESS I RECOGNIZE THE NUMBER ON THE I.D. SCREEN. UNFORTUNATELY, THE YOUNGER GENERATION THESE DAYS DOES NOT LEAVE MESSAGES ANY MORE, THEY JUST MOVE ON TO OTHER THOUGHTS. THE RINGING PHONE HAS BECOME JUST A NUISANCE, AND THE NUMBER APPEARS ON MY TV SCREEN. ABOUT ALL I HAVE THE PHONE FOR IS TO CALL OUT!
Claudia	Chicago	IL	Robocalls are a waste of my money, time and an invasion of my privacy that I do not condone and cannot block! Support me as a US citizen by enabling me to block all robocalls to my cell phone!
Oscar	Staunton	VA	These calls are beyond obnoxious because if the callers lack of civility and the cost to me for unwanted calls on my cell phone. I am incurring charges in order to ask them to take me off of their call list and do not call again. Why?
James	Fair Oaks	CA	Debt collectors have no right to call me about my relatives or even friends. I don't have federal debt and I don't want to know about anybody else's debt. They should be required to only use Registered or certified US Mail. Not phone calls at all. A lazy way to do a shady business. I pay for my phone and I am not paying to be on someone's list.
Julie	Belton	TX	I get robocalls every day, it is so wrong. The ones I hate are the ones that call day after day and at least 3 or 4 every day. I can't even tell them sometimes to stop it and they get very threatening. I am so sick and tired of them.
Robert	Green Cove Springs	FL	Robocalls have made an intrusion into our private lives and time. The older we become the more robocalls you receive! As a result we have become sensitized to the point that if we do not recognize the number we do not answer. Unfortunately this results in missed doctors calls or other important calls where the caller ID is not displayed.

Michael	Portage	MI	If someone wants to contact me, they should be someone I know or with whom I already have a business relationship. I expect calls to be checked against the Do-Not-Call Registry, else it is an illegal call to begin with. Further, I expect the call to be courteous enough not to use a recording. We must stop the proliferation of discourtesy.
Mel	Pottsboro	TX	Who has this kind of a right to interrupt another person's life so capriciously and only for profit? Robocalls are the vilest invasion of privacy, and should be stopped all together. Period.
Linda	Macon	NC	It's bad enough that probably 3/4 of the phone calls we get on our home phone are unwanted robocalls ... please don't let this horrible problem be extended to robocalls or robotexting on cellphones that would be pure hell!
Robert	Terre Haute	IN	Unwanted phone calls must stop. They are spoiling my right to live peacefully. Make it stop!!!
David	Ann Arbor	MI	Is there something wrong with you people. We had a restriction on robocalls at one time; did some company raise the amount of money to pay you off and deregulate robocalls. I have 5 rob calls this morning alone; stop this nonsense.
Tom	Kansas City	MO	I hope the FCC will stop all robocalls to cell phones throughout the U.S. Robocalls must not be allowed without a cell owners permission. Please take a stand and protect the privacy of cell phone owners. Thank you.
Carol	Park City	UT	We received calls night and day over an engagement ring they claimed we had bought from them, but hadn't completed payment on. We had not bought the ring, and even though we told them they had the wrong name, continued calling over a period of several months. It was harassment, plain and simple. If they had checked their facts the harassment would never have happened. It's extremely stressful when someone continues in their harassment even when you've explained who you are, and it isn't the name they need to collect from. Another time we received call after call concerning a relative who owed money to the creditor, wanting information about their address and whereabouts....which we didn't have! Nothing would deter them from calling at all hours, or day of the week. It is unfair harassment, unearned abuse, having to listen to someone accuse you of things you hadn't done....is demeaning to ones spirit, and soul!!! And in no way justified!
Gale	Saint Francis	KY	Please stop robocalls. That's not what I pay my phone bill to listen to!
Arthur	Waterbury	CT	No Robocalls to Cell Phones
Larry	Atlanta	GA	I would have more piece of mind if there was a way to block or eliminate all robocalls.
wiet	pineville	NC	no robo calls ever!!! Not to cell phones nor to landlines. Ever!!!!

Scott	New York	NY	Please stop allowing anyone and in particular debt collectors to robocall. If Robo calls are allowed then the companies doing it should inform the people they are calling of their rights and rights to stop robocalls. If robocalls are legal (and I would prefer they were not) then the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family
Dale Clausen	Newark	DE	It is a hazard to any of us if we're expecting an urgent call from someone when the Robo call comes through. What happened to FCC regulations with the handing over the telly lines to robots? Stop using the line I am paying for, to sell me something I'm not interested in, at a time when I need to keep my line clear.
Samuel C.	Adamstown	MD	Please forbid robocalls to cell phones. Suck calls are David (me) vs. Goliath (a powerful computer). Even if and when such intrusions are justified they should be made by a real live person. Even for money owed the federal government, the calls (or texts) (robo or otherwise) should be no more than three per month, and only to those who themselves owe money, not to friends or family. Collectors of other debt must tell us we can refuse to accept such calls, and honor our refusal. The guidelines governing such calls (texts) should be both clear and readily available to all.
Carolyn	Bonita Springs	FL	Please create the strictest laws possible to stop robocalls. They are especially harmful to the elderly.
David	Bellingham	WA	I am sick and tired of robocalls. They come at all times of the day and late at night. I want to be able to eliminate them. Please take action
peter	kings queens	NY	Please help.
Herman	Plano	TX	Please stop robo calls to my cellphone! I receive more robo calls than regular calls from friends and family. I don't owe anyone any money so I should not be getting any robo calls from debt collectors. Please stop those robo calls!!!
frank	clovis	CA	they are driving me crazy
Robert	Pasadena	CA	Debt collection robocallers must notify us of our rights to stop receiving calls. These companies should be severely restricted in the number of calls they can make to an individual per year. There should be severe penalties for companies that fail to comply with new rules.
margret	las vegas	NV	please stop robocalls on our cell phones, please, please, please

Sanford	Va Beach	VA	For years We the Little People have suffered continuously the inconvenience of unwanted telephone calls made for the pecuniary benefit of business, while the US Government has allowed this to continue and grow in magnitude by lack of action. A suspicious and prudent person might reasonably think there are elements and instances of corruption preserving this, at the level of the US Congress and in the halls of Agency. Please stop this telecommunications Hell now, by establishment of meaningful, and actionable penalties for telecommunications directed to anyone for the purpose of sales, marketing and debt collection, such penalties to be far too onerous for violators to consider as an affordable "cost of doing business".
John	Palo Alto	CA	Dear FCC, my cell phone is increasingly receiving robocalls from solicitors of all kinds ... credit card companies, debt relief companies, utility bill relief companies, you name it. I don't need these services, don't want these services, and most importantly, I DON'T WANT ROBOCALLS! They distract me from my business work, and are just plain irritating. Please Please Please stop robocalls to my phone that do not have my permission to call.
joan	Pittsburgh	PA	Please stop robocalls of all kind!!! Regular phones and cell phones.Joan
John	Houston	TX	Please act to limit robocalls to computers in as much as possible. No only are such calls a waste of bandwidth and a serious invasion of privacy, but they pose dangers by way of distraction and annoyance.
Jeffery	Albuquerque	NM	Even though we are not behind on any debt, my wife and I still receive calls every week for debt collectors looking for someone I've never heard of. Nothing makes them stop, and they are a general nuisance. Please do something to restrict this sort of behavior, these people are simply "fishing", if they are not out and out scammers.
Agnes	Springfield	VA	I have to pay for incoming calls to my cellphone. If I don't answer and the caller leaves a message, I have to pay. I most definitely do NOT way junk phone calls (i.e., robo marketing/charitable/political calls). If they are allowed to make those calls, then they should be required to pay for them or a mechanism that actually works should be available to stop those calls across all service providers. Regardless, the rules regarding robocalls should be easily and readily available to the public in terminology that is clear and easy to understand.
Richard	Placentia	CA	Please stop all robo calls to our cell phones!!!
LAZETTE	Dallas	TX	Please stop robocalls to cell phones. Very annoying! My cell phone is my business phone.

David	East Greenbush	NY	I think something should be done about my phone ringing at anytime (day & night) ,picking it up to hear nothing for a few seconds & then a computer/person from another country (who can't be understood) trying to sell me something that I don't need or want! I have had it with these calls, now I am getting calls not only on my home phone but also on my cell,& my wife's cell! It needs to stop NOW! what happened to the no-call list ? Every phone that I own is on that list STILL THEY CALL! DO SOMETHING NOW!
Mary	La Canada	CA	To the phone companies: NONE of your customers want these calls. Why don't you do what all of your customers want you to do???
Beverly	Foster City	CA	It's time to track down and fine those companies and individuals who are making the unsolicited robocalls and texts, even though I have opted out.
Dave	Newark lol	DE	Stop robocalls
John	West Hills	CA	We receive many calls per day for automatic sales calls. same calls over and over when there is no one on the line but a recording. Also, some calls come from disconnected phones when we try to trace them. We don't know how this is possible. Please put a stop to this harassing pratice.
Ed & Terri	Lake Oswego	OR	We're fed up with these constant calls from spam/con artists. They are coming in regularly from two to three daily. They are not only annoying but very rude. We've told them repeadedly that we are on the Do Not Call List. They just ignore it! PLEASE HELP US! We want them to leave us alone. We have no piece of mind because of these crooks.
Chris	Chelan	WA	No uninvited robocalls please. Yes, it is just like telemarketing. NO, NO, NO!
Louann	Akron	OH	I am on the 'DO NOT CALL LIST FOR BOTH MY HOME NO. AND MY CELLS...BUT I KEEP KEEPING THE CALLS..OVER AND OVER AGAIN. I sometimes pick up and tell the person I am on the DO NOT CALL LIST and usually the laugh or hang up. I then call the line to report the call and wait and again in several days either the same no.calls me again or another no...again a ROBOCALL..so what is the use of the do not call list??
Karen	Chicago	IL	Outlaw robo calls to cell phones.
Ruth	Amherst	MA	I don't have any debt so do not get debt collector robo calls, but I am constantly barraged by unwanted robo calls about cruises, the electric company, credit card offers, carpet cleaning, and the like. I get several calls a day. I have limited minutes on my phone and should not have to waste them on these calls! Even if I immediately hang up, time accrues due to the number of calls I receive.

Sandy Heth	Dubuque	IA	Robocalls are downright dangerous. Most elderly people do not get a lot of telephone calls, so when the phone rings, they work hard to to get to it. They can fall or trip. Extra calls simply do not help them because they are sure it must be a neighbor, friend, or adult child. Stop them from making this extra effort to grab that phone.
Cheryl	Brambleton	VA	Debt collection robocallers must notify us of our right to stop receiving calls. Debt collection robocallers must provide an unsubscribe to stop calls belonging to a reused phone number. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear, concise and readily available. The guidelines are to be easily understandable to the average consumer. No legal terms that can be misunderstood.
William	Chapel Hill	NC	Dear Members of the FCC: Please follow through with the strict guidelines that would regulate debt collector calls via cell phones. Personally, I have never had this problem, since I don't have any outstanding debts, but all citizens should have the right to influence, if not control, their electronic communications.
Marie Annette	Hayward	CA	Please NO robocalls period. I, we, do not need this invasion of screening unknown numbers and malicious texts.
Lawrence	LaGrange Park	IL	Keep it simple. No Robocalls.
Sarah	Macdoel	CA	I want the callers to stop harassing me.
NICHOLAS	NANTUCKET	MA	STOP ROBOCALLING TO ALL PHONES, NOT JUST CELL PHONES
Lee	Lumberton	NJ	If someone doesn't stop these robocalls now I think that we should all use the customer service number of the major phone companies and have the robocalls directed there. Maybe then you will fully understand how annoying and obnoxious these are. I should not be harrassed either because of someone else's mistakes. Robocalls prey on seniors that don't understand and that is just wrong. It also isn't fair that just because I have a phone that I have no privacy, even in my own home. STOP ROBOCALLS NOW!!
Rich	Brielle	NJ	I'm tired of the endless calls from all over the country trying to sell me something I don't want.
James	Spring Lake	NJ	There is enough of messages and calls coming to my cell. If I keep getting them, I'll have to switch phone numbers quarterly. I certainly don't want to pull off on the side of the road to respond to a robocall. Please keep them out of cell phones (and home phones). Thanks
Herbert	New Port Richey	FL	Every time i receive a call it cost o the plan I have. This needs to stop.
Johanna	Casselberry	FL	Please stop robocalls.

Ruthann	Louisville	KY	Make ALL robocalls illegal and make all providers supply us with a way to stop and/or report any robocall. All calls should have a real person on the line at the time of the call. We pay for phone services for our convenience and use - not for fund raising, politicians, debt reduction, credit card solicitation or anything else.
Chris	Jackson	TN	I average 10 Robocalls a week. I do not believe that anyone should be able to call me unless I have asked for their services. Please stop Robocalls. I have subscribed to every DO NOT CALL list there is and it does no good.
Martin	Millersville	MD	Robocalls are nuisance and must be stopped.
Steven	HiltonHead Island	SC	Please put an end to Robocalls and respect my right to privacy.
Matthew	Voorhees	NJ	I have been with my elderly mother several time when she has received Robocalls attempting to frighten her into buying unnecessary goods and services, for example, "Did you know that there have been several break-ins on your street?..." My mother lives in a condo in a gated building with round the clock security and no break-ins on an island with no other streets. Please put an end to this and other related types of predatory and/or unsolicited calls
Linda	Avondale	AZ	Please stop robo calls. they usually come in at dinner time or bed time and we are sick of these unsolicited calls. Guidelines should be determined and followed through: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Sincerely, Linda L. Gibson Avondale, AZ
Emita	Joliet	IL	A senior citizen, I cant always get to the phone. I dont need superfluous calls.
Dolores	Whittier	CA	The inopportune and unwanted number of calls received at my home and cell phone are alarming and constitute harassment. Please put an end to this practice by instituting strong regulation prohibiting the abuse.
Monte	Lewisburg	TN	I am bothered three to seven times a day with unwanted calls, and I am on the do not call list, and I would like them to stop!
Tod	Brooklyn	NY	Something that lives in my pocket should not be available to anyone. I am selective with who I give my number to, it is an instant-access portal directly to me no matter where I am. It should not be available to any company I did not give explicit permission to call me. An unwanted call (robo or otherwise) invades my privacy in a very immediate and physical way. I should be able to decide who gets that access.

irene	Dallas	TX	As my husband and I age,I have a fear we may fall rushing to one of the problematic intrusions. My paralyzed mother in law made tremendous effort to wheel to her phone for what turned out to be nuisance calls.
Sue	Mt Vernon	OH	A positive step to protect our privacy and well being would be to eliminate robocalls and texts for debt collection, advertising and other issues for which they are being used. These calls should be directed only to persons with debts or interest in the products or issues for which they are being used. Please help us to keep our homes and work places free of these invasive calls.
William F	Hendersonville	NC	I AM ASKING YOU TO ORDER THE PHONE COMPANIES (OR COMPANY) TO PRE-BLOCK, OR PROVIDE AN EFFICIENT BLOCK SYSTEM TO THE HARASSING ROBO CALLS. WHAT IS THE PROBLEM WITH THE DELAY IN TAKING ACTION?! I UNDERSTAND CANADA HAS ALREADY TAKEN ACTION. IT'S TIME YOU TAKE ACTION!
Winfred	Carpinteria	CA	Please please please help us out here.
Lee	Winston-Salem	NC	Please, please do not allow Robo call's on cell phones. This totally disrupts one's life.
Mary	Leander	TX	It is bad enough that my land line is called incessantly with robo calls even though I am on every "do not call" registry known, the last thing I need is for it start happening to my cell phone, it is also registered. Seems as though none of the carriers for these phones are interested in doing anything so it needs to be taken care of on a higher level.
Barry	Yorba Linda	CA	Please make all robocalls to cellphones illegal unless previously authorized by the cell phone owner. Consumers should not have to pay for minutes of airtime for calls that we do not want. Thank you for your help in this matter.
Lynell	Chicago	IL	Put a stop to robocallers
Daisy	miami	FL	I live in South Florida where Robocalls hound us night and day in various languages, from various sources. We work hard at our jobs all day, only to come home to be accosted by Robocalls! On our few days off, we cannot get piece and quiet because of these constant calls! They come on our land line, as well as our cells. IT NEVER STOPS!!! We are so frustrated! I have a very elderly mom, as well as a mentally and physically handicapped sister, so NO; turning off my phone, is NOT an option. They have to be able to reach me at all hours in case of emergency. Please Stop Robocalls!
Peggy	Pittsford	MI	Please take action to stop these robo calls

Rebecca	Kirklandq	WA	I am thinking of discontinuing my land line because I am so tired of getting robocalls that I do not answer but am interrupted to look at caller ID to see if it is a number I recognize. I have counted up to 10-12/day. This is a huge disruption of my day and my privacy. Now I am receiving calls on my cell phone. I have a limited number of minutes that I share with my family and resent these calls using that precious time. I should not have to pay extra to because robocallers used my cell phone number. It is terrible when they call and I am in a meeting. I know I can silence the phone but sometimes in a busy life you forget. STOP these STUPID ROBOCALLS of all types!!!! Those to both land lines and cell phones from all entities. I don't have problems with calls from creditors but am sure they are even worse when trying to collect debt. Yes, there needs to be restrictions so those who are trying to pay their bills are not constantly harassed but are reminded periodically that they still owe.
Kathyrn	Austin	TX	I have tried for several years to stop the Robocalls to both my cell phone and a home house line with little or no effect. I use AT&T and Vonage services and tried to get them to block the annoying calls--didn't work. It is a huge problem with everyone--regardless of what I do. I went out and bought a Radio shack phone number viewer for my home landline phone-- so I could see the number or person who was calling --before I answered the phone..obviously I don't answer any calls I don't know. But the phone keeps ringing day after day-- morning & night. My cell phone takes "messages" and "text"--that I have to delete --everyday. Please FIX ALL THESE ROBO- CALLS. NOW
Barton	Mt Vernon	OH	Calls and texts for debt collection need to be limited to those persons with actual debts. It is abusive to have other peoples lives interrupted with robocalls. The number of calls should also be limited as excessive calls can interrupt a persons ability to remain employed.
Lee	Lawrenceville	GA	Debt collectors resort to abusive tactics, even when told they have the wrong number. Even the debtor needs protection from them. There have to be limits.
Lowell	La Crosse	WI	We want robo calls stopped on all phones. They would even be more dangerous on cell phones, interrupting people as they drive and perform their jobs.
A	St. Albans	NY	I do not give out my cell phone# for this reason to any bill collector nor do I want solicitors calling to sell me anything. It uses up my paid for talk & text time. Ban unwanted behaviors by these companies & hold the communications company liable for not protecting my phone by blocking these pests.
richard	east greenwich	RI	Please, no robocalls to any phones, ever, other than from a federal, state, or local government agency
Joan	Baton Rouge	LA	Please stop robocalls to cellphones.

M	Cambridge	MA	My landline is on the do-not-call list and I still get bout 9 spam calls a day 9most w/o a message or call-back number. I also get some spam on my unlisted, do-not-call cell phone --so i have set it up to not take messages. Sometimes this is real problem. PLEASE don't permit robocalls!
Bernadette	Cortez	CO	There needs to be an end to robocalls on cell phones. I get an average of two a week. It has become a problem. I have politely asked them to put my number on a do not call list, yet the calls continue. I get call during work and I need my phone to help assist in the care of two ill parents. I take phones calls because it may have to do with the care of my family. I do not give my number out and am sick of the harrassment. I have a limited number of texts and minutes on my phone to keep down the cost, but no one seems to care how much this is costing me. I don't have a lot of extra money lying around and what I do have, I do not wish to spend on harrassing phone calls.
Robert	Columbus	OH	I am sick and tired of answering phone calls that are meant for anyone who will pick up a phone. And they are robo calls because there is a lapse of a couple of seconds after I pick up before the voice begins. And I am getting them on both the land-line and cell phone. Stop NOW.
Brian	Tucson	AZ	Please eliminate robocalls altogether including financial and political calls. The speech rights of the callers do not outweigh my right to privacy.
Les	Jupiter	FL	I receive many auto-dialer junk phone calls from the student loan programs, security companies, insurance sales and others who use nonworking, spoofed or bogus phone numbers on my caller ID. The callers never identify themselves and and ignore your repeated attempts to have your number deleted from their master call lists. Robo calls for all purposes except public safety emergencies should be banned or only be allowed to those individual who explicitly opt in. Non-compliance to regulations should punished with severe financial penalties to discourage these boiler room operations designed to fleece their targets.
Linda	Durham	NC	I expect the FCC to protect the American public, not to bow to the demands of debt collection robocallers. All robocaller must be required to notify us of our right to stop receiving calls, and debt collection robocallers must be prohibited from calling the family or friends of anyone responsible for a federal debt. Any actions taken by the FCC to must be clear, in plain language, and easily accessed by anyone wishing to read the regulations.
Richard	Lynbrook	NY	Obviously even being on the do not call list will not keep these robocallers from calling. And I don't get the purpose of these robocalls as I often pick up just to ask them to stop calling and no one ever picks up on the other end so there's no way of finding out why they are calling.

Don	southington	CT	It must be hard enough for many people to not be able to pay their . Allowing these types of calls just adds to their emotional trauma and can't help with anything other than engendering fear.
Martin	San Diego	CA	Robocallers need to shut up!
Linda	El Prado	NM	I do not want to be harrassed by robo calls. Please allow them to be blocked. Thank you
Andy	Houston	TX	Enforce my privacy, and stop robocalls.
Robert	St Augustine	FL	Even though my phone number is on the "do not Call" list I still get 4-5 calls a day. I have reported the calls to the FCC, but nothing happens. I have asked the organization that is calling to take me off their list, but I continue to get calls. These calls our intrusion into privacy and disruptive to my day. Many our scams. All robocalls or non-solicited calls should be banned.
Philip	Boca Raton,	FL	Will switch to any ohone service which will block robo calls.
David	Mesa	AZ	When I want something I will research it myself and find my own person or company to use. They always wait till dinner, and it is very annoying. I will never buy or use anything from a robo call, so please stop them from their repetitive calls. They just won't stop.
Debbie	Mansfield	TX	Robocalls are annoying. I use a pre-paid cell and use it sparingly. If they need to contact me for any official business, they need to correspond through a letter.
Bala	Laurel	NY	NO MORE TELEMARKETER CALLS; NO MORE POLITICAL CALLS!!! LEAVE US IN PEACE!
Judith	Winter Springs	FL	push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock.
cheryl	Moraga	CA	too many calls given without my consent when I place my cell phone # down on a application...
philip	Boca Raton	FL	Robo calls are the bane of my existence. I believe I am approaching the point of cancelling phone service within months of any election campaign. And then there are the repeated scam calls purportedly fro the Internal Revenue Service, whc=iclh of course never calls. Please remove the thorn of robo calls.
David Gene	Trabuco Canyon	CA	Dear FCC: Please help us consumers to fight unsolicited calls from robocall companies. Help this intrusion.
Carlos	North Bay Village	FL	Debt collectors, advertisers and others rely on robocalls for their business. I receive calls constantly at all times of day and night. Usually when one picks up, there is a long silence until the robocall is routed to whomever answers. Please curb or eliminate this practice especially coming to cell phones in messages, texts, etc.
Joy	Coeur D Alene	ID	We are all sick and tired of these calls interrupting our busy lives!!!!!! They need to STOP NOW!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Ruth	Brooklyn	NY	I am a new widow and just can't afford to be harassed by these calls everyday!!!!!!!!!!!!!!!!!!!!!!

Paula	carlton	WA	debt collectors, credit card ads, traves scams why are they allowed to use my cell phone? Please improve our comunication ability and allow all consimers to block these invasive scams.
Barry	Petoskey	MI	I urge you in the strongest terms, to end robocalls of any kind, but especially debt collection.
Mac	Parkville	MD	Robocalls have to be regulated inorder to safeguard valuable minutes belonging to the cell owner.
Chris	St Augustine	FL	My privacy matters and wasting my time running to the phone costs money and my good will. Stop it.
Joe	Muskogee	OK	SuddenLink, now owned by French "Altice" corp. is guilty of this.
Laura	Shelby	NC	No robocalls starting NOW!
Judith	Bar Harbor	ME	Control the plague of cell phone robocalls.
Joan	San Jose	CA	I got a cell phone for security purposes. But I can't leave it on or I get lots of wild phone calls which I then have to pay for. Does that sound fair? I don't think so. So I am writing to ask you to prohibit robo calls from politicians, debt collectors and any one to whom I have not given my cell phone number. I mean anyone! I don't want to hear from Bill or Hillary or Donald asking for money. I would like to leave my phone connected so I can get family and friend calls. Thank you, Joan
David	Simi Valley	CA	I receive at least 6-8 robo calls daily at all times of day or evening. They are extremely bothersome. If I want to purchase some item or service, I will initiate it myself. I do not need solicitors calling me and interrupting my time at home. Please act to prevent even more bothersome calls.
william	lk ronk	NY	no robo calls on cell phones
Lynda	Lapeer	MI	I recently had 9 calls on my cell phone in one afternoon supposedly from the IRA telling me I owe money. It was obviously a scam and I lost minutes of my phone time that I pay for. I took down the number they wanted me to call and tried to call the next day as I wanted to get as much information on them as I could but the number had been disconnected. I know this isn't the same as bill collectors calling but the problem is the same. Personally I am fed up with robocalls and now receive more scam calls than legtiimate calls.
Michael	Wichita	KS	I pay for my minutes to use as I choose. I do not choose to receive these robo calls. Also, my phone ringing at work is not business related and should no be interrupting my work.
Marjorie	Ah	CA	I get the same calls come every day starting early - four rings (which I don't answer) and then they stop never leaving a message. This has been going on for a couple of years. I did the "do not call thing", but it's not blocking these calls - very annoying.

James	Meredith	NH	Even though I do not owe student loans at this time, I fear that I would be constantly called (robocallers don't care if they have the wrong numbers) and harrassed for a debt I don't owe. You have the power to end this horrible practice. Please vote the right way. I am tired of getting these calls!
Reid	Rockford	IL	Robo calls are only part of the issue. Money has bought the FCC when the FCC used to regulate money. We should start revoking licences for any station that makes pseudo news, news. Thank you Ronnie. And regulate as we used to commercials being decibels louder than standard broadcast. Let's just go back to regulations exactly as they were in the 50's before so much went terribly wrong. Defend the people you represent not corperate-ocracy.
Pearl	Grayslake	IL	I don't want robocalls from any company!
Timothy	Ocean Park	WA	I am sick and tired of having my phone ring and all I hear is some computer telling me to listen and hold for some jerk trying to sell me something I don't need or want using up my minutes!
Carl	Claremont	CA	Over ninety percent of our phone calls are from Robo Callers trying to sell us construction services and bogus requests for contributions with highly questionable agencies. Please force rontier and other phone companies to allow fror a customer to stop robo calls
Eunice	Willow Springs	IL	By sending robocalls to cell phones, you are increasing the cost of phone service to the consumer (depending on their data plan). I receive numerous robocalls from the same number on the same day and from several numbers each day. For people with pre-paid plans this could exhaust their data, thereby leaving them with no available service.
abhay	yucca valley	CA	These calls are an unending harassment and many of them are traps for scams which are aimed at senior citizens and other vulnerable groups of people. This is why I oppose these calls and want them to be outlawed and criminalized with severe penalties for those who continue to generate such calls.
Howard	honolulu	HI	If we got rid of these robocalls you would also cut down on the number of scams. I also am totally against political robocalls. If you are on a DNC list they should not be able to call.
Ro	warren	PA	In this age of most people using their cellphones for their main phones and main modes of communication, robocalls are an increased nuisance and downright hazard since they call at all times of day or night wherever we are and whatever we are doing (for example, driving). So they can be downright dangerous too. Stop them once and for all. Allow us to permanently block them and report them to a registry that will insure they are blocked. Prosecute those responsible for making robocalls.

Pam	Gladstone	OR	I am a mobile notary, and receive calls from various title companies. These companies have various locations and numerous lines, so it is difficult to ascertain who is calling. Usually, these calls come at times that are very disruptive and texts are especially annoying, depending on the data charges individuals may have to pay on their cell plan. Whether it is a landline, or a cell phone, this has always been annoying and I urge you to take action and stop this practice
Esther	Ocean View	NJ	I am receiving robo calls on my cell phone now. I am listed with the gov no call but getting them anyway and they block the number so I can't report them. It's at the point I am going to disable messaging or give up my phone altogether. You know if our elected officials were getting these calls an end would be put to them. WHY CAN'T YOU DO SOMETHING ABOUT THEM???
Carla	Carp	CA	I have had so many calls that were not even for me, I am not even picking up the phone anymore. I also get threatening calls from individuals posing as IRS agents. I KNOW they are all bogus calls! It's time to get some legislation in place to stop this! It's absolutely crazy!
Jean	San Francisco	CA	NO robo calls
Henri	Shelburne	VT	Please put an end to this most annoying intrusion into our privacy
Miles	Palo Alto	CA	I despise robocalls. They are intrusive and illegal, but there seems to be no way to stop them -- at least for us ordinary folks. Government agencies, on the other hand, have the technical, human and other resources to go after these criminals. So DO it! And not just debt collectors, but ALL entities who abuse our telephones and our privacy by invading our homes with unwanted calls -- especially calls that are cheaply mass-generated by automated machines.
John	Baldwin	NY	Robocalls are a form of harassment, an invasion of my privacy and must be stopped. I have almost completely stopped using my landline because of the number of unsolicited calls for advertising, soliciting for "charities", people claiming to be calling from the IRS threatening police action, soliciting for campaigning for politicaliticians campaigns in every state in the union, some calls with recorded messages that continue even when I try to hang up until I have to actually disconnect the phone. All this despite my being on the National Do Not Call List. STOP THIS NOW!!!

Deborah	Fayetteville	AR	I am writing to urge the FCC to implement the strongest possible rules against robocalls to cell phones without the owner's permission. * In the case of debt collectors - robocallers must be required to notify the person called of their right to stop receiving calls. * There must be a limit to the number of calls or texts allowed, which should be no more than three per month. * Calls should only be allowed to be made to the person directly holding the federal debt and not to family members and especially not to unrelated people. * Finally, all guidelines used in the pursuit of debt calls should be very clear and be made easily available to anyone requesting them. Thank you for your time and consideration.
Charles	Fulton	MO	Debt collection robocallers must tell us our right to stop receiving calls and calls should not exceed 3 per month - only to ones who directly hold federal debt - not friends and family and guidelines must be clear and easily available, period!
Merelyn	Maplewood	NJ	These are our - the US people's airways - and we pay for our phones. Why are robocallers allowed to infringe on our privacy? We need regulation on cell phones to eliminate robocalls, and on our landlines as well. Charging the callers and comparably reducing our phone bills would be one way to force them to stop robocalling.
Claudia	QUOGUE	NY	My husband is sick with cancer; I am always waiting for phone calls from doctors. I constantly get robocalls from some credit history place that tells me that my credit is fine but that I must respond immediately about something or other. It is invasive and as many times as I block the caller it comes from another number I don't recognize. This is an agonizing time for me and these bastards get away with murder. I've registered on the do not call list, but there seems to be no teeth in this law!!!!
Danny	McHenry	IL	My phone is a necessity. Most of the calls I get are robocalls. It's an invasion to my privacy and extremely annoying. PLEASE STOP THEM.
SHARON	Spring Valley	CA	I am tired of these intrusive robocalls! I no longer answer my home phone and let it roll to the answering machine. Our friends and family know to begin leaving a message and if we're here we'll pick up. Now I'm getting these calls on my cell phone and very few people have my cell number. Companies are "dialing for dollars" aka robocalls. Many of these calls are scams - like the IRS having a lien that must be cleared up immediately, etc. Naive people are responding to these and have lost money. Please help stop these calls.

Yvonne	Bremerton	WA	All of us need to be able to stop robocalls because more people are falling for false calls that they owe money to the IRS, their grandchild is in trouble and needs money. Also Seniors are more likely to fall trying to get to the phone to answer it, Robocalls invade out privacy. Debt collection agencies should not be allowed to use robocalls.
Rita	Mesquite	NV	I receive about 1 or 2 robo calls a day, mainly about my credit card debt, which I do not have. This week I was cleaning and heard my cell phone ring and I ran to answer it. It was of course "Carmen" or "Heather" etc wanting to discuss my credit card debt. I almost fell on the wet floor trying to get it. This calling is invasive, unsafe when running to get a call, disturbing, harassment just to name a few things. I pay for my cell/home lines, why to I need to have to accept such unwanted calls? They change their number they use all the time, so one can't just recognize the origin of the call and ignore it. Its time for the FCC to stop this.
m. lee	eugene	OR	Being called, unsolicited is an invasion of privacy and a torment.
Theodore	Salem	IL	No Robo calls ever!
Joan	Poinciana	FL	i have been overwhelmed these calls
Rose	Msea	AZ	STILL GETTING LOTS OF CALLS EVEN THOUGH SIGNED UP FOR THE DO NOT CALL LIST. THEY LIKE TO CALL AROUND DINNER TIME WHICH IS VERY ANNOYING.
Roscoe	Blue Springs	MO	We have caller ID at home and can screen our calls, but we get so many robo calls, our machine can't record all those who try to leave a message, which are not all of them. We do answer many of them, and get tired of the attempts to sell, or the fraud calls, and the donation request calls. I now have started getting the calls on my cell phone??? How is that happening?? We need to place some controls on these types of calls.
Ted	no name	CT	Other than the phone advertising community what the hell good is it ? It helps a small majority and annoys the hell out of everybody else! What on earth would the government hesitate for... I assume they have a bigger lobby... Is that all that matters?

Leo	American Fork	UT	My wife and I have cell phone calls at 18 cents per minute and 18 cents per text. There is also a safety concern in that these calls also cause distraction while driving because my wife is the only one that normally calls me. Unwanted robo-calls and telemarketers have essentially stolen our right to use our own cell phones because the very real cost to us has forced us to leave our phones turned off most of the time. We also have the same problem with our home phone. Why can't you come up with a plan to require a country code in the IP header to stop scams from abroad? And require ISP's here to reject packets from any of their subscribers that don't have the valid IP address for that subscriber? Similarly push valid country code up the line. If a node coming into the US refuses to enforce valid country codes coming into it then shut down the connection until they will comply. Great harm is being done to our country and it is your job to do everything in your power to fight these criminals and cyber-terrorists.
Ann	Bountiful	UT	I am really tired of those calls. I am n the do not call list and still get them. Help!
Blanche	San Francisco	CA	I oppose robo calls to my cell phone without my permission. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Sharon	VERNON	CT	Please stop these robocalls from coming to my cell phone. The number has increased in the past year!!
Kathleen	Flossmoor	IL	I'm sick of Corporate America running this country, buying Congress, dictating policy, exporting our jobs and endlessly screwing us. Now Big Business wants to waste our time and tie up or phones so they can make even more money calling us day and night. I say NO ROBOCALLS!. I VOTE, I WATCH, I READ, I VOTE.
Don	Gilmer	TX	We receive two to four Robo calls daily, many of which are scams such as the one that tells us that "the IRS is suing you." This is nothing but harassment. Please do something.
Eileen	Denver	CO	No More Robo Calls
george	st. louis	MO	my problem is not bill collectors but robo calls about credit card offers bill consolidation offers etc. and this is using up my minutes that I have to pay for , and this is on a regular basis several every day , don't know how they got my cell number all / most calls is from other states all solitations which really bothers me and all is automated not live/real people
Franklin	Bow	WA	No RoBo calls! They are disturbing and unwanted!
kathlee	slc	UT	Stop them!
PS	La center	WA	These calls invade my privacy and bend the reasonable rules of conduct. Let's not live in fear of answering our phones anymore!
Nancy	New Orleans	LA	I detest robocalls.

Roger	The Woodlands	TX	This problem is escalating, even after I block them. Its similar to Whack a Mole. Please do everything you can to help stop this headache and waste of time for law abiding, bill paying, American citizens. Thank you.
Bob	San Jose	CA	Please do something to stop Robo calls. About 70% of the calls I get on my home phone are Robo calls! Only 30% of the call are from people I know.
Dianne	Thousand oaks	CA	Please stop the ability of debt collectors to call our cell phones. They call our home phone at all hrs of the day. Our cell phones are personal and should be off limits.
stephen	phoenixville	PA	Please, please put an end to robocalls. If you could also put an end to political robocalls it would be a great relief! They call at dinner time for my family and are a real nuisance.
Fay	Anaconda	MT	I really feel an invasion of my privacy when I receive unwanted cell calls and text. Please make this ability to invade others private life irradiated.
Brenda	Charlotte	NC	Please stop robo calls to all phones. They are annoying and only serve to alienate the receiver from the caller.
Nancy	St Louis	MO	Stay Away from my cell phone!!!!
Gary	Sonoma	CA	The robo calls have gotten to the point that they no longer have any rules that set their activity. They call early and they call late. This must stop.
Gordon	Dallas	TX	I have been a party to one class action suit for repeated calls from one vendor trying to sell me an extended warranty on a car. I've sold the car. The calls stopped for awhile and now they are back. The callers whether a robot or person do not honor the DO NOT CALL LIST. I think the thing that is the most irritating is the fact that the vendors use a VOIP web alias system so that calls show up on the caller id as falsified numbers. This should not be allowed. period! If a company calls they should have a number of record so that if they ignore a consumers request to not call that they can be sued in court. I'm all for regulating the carriers to force them to provide accountability. I plan to write my congressmen and state legislators. I looked at my 2016 call list on my cell phone that I have blocked and I see over 25 numbers that I have specifically blocked. I know that the technology exists to block these calls automatically. If someone provides a third party system to do that for me, I would probably buy it. I have been on the do not call registry for as long as the service has existed. I don't know of a single person I deal with my telephone who does not also share this problem. It is an easy fix and the FCC needs to do something about it...yesterday.
Kathleen	Santa Rosa	CA	I'm so tired of getting unwanted (they are all unwanted) robocalls. Even when I ask the caller to never call again they keep calling. Please use the power of the FCC to stop these unwanted calls!
George	Gold Camyon	AZ	I am getting sick a tired of receiving ROBO calls

Jay	Long Beach	CA	We get many unsolicited calls every day. They are a big nuisance. we have Do Not Call laws now, please enforce them. The phone companies should block automated calls and the FCC needs to fine the offenders.
Arlene	Berkeley	CA	Robocalls are harrassment, plain and simple! No robocalls to cell phones without our express permission should be allowed. And certainly no robocalls should be allowed to friends and family of the one who holds the debt! Can you imagine your mother or, even worse, CHILDREN?!, being hounded by calls about your debt?!?! That's just plain irresponsible, malicious, and heinous. The FCC needs to rein in and regulate these predatory lenders that rely on invasive robocalls.
James	Medford	NJ	It's bad enough that I am inundated with telemarketers calling my land line even though I'm on the "do not call" list, now I'm getting calls on my cell phone. Please make it stop!!
John	Port Crane	NY	Please help end Robo calls. Thank you. Regards John Armstrong.
Harry	Southport	NC	Please do NOT permit robo calls to cell phones, robo calls to our land line are NOT tolerable.
Norma	Colbert	WA	Robocalls are a nuisance and an invasion of my privacy. They use up my cell phone minutes. In that light, I am paying to receive these nuisance calls! That is not fair. I even have my cell phone number on the "Do Not Call List" which makes no difference. They call anyway. Please put a stop to robocalls. Thank you.
Matt	Medina	OH	I have placed both my home phone and cell phone on the Do Not Call list, but I continue to get daily calls from credit card companies that will not let me remove my name and number, when they should not be calling to begin with based on my request. Again, you are protecting the corporations and not the people.
Richard	Corvallis	OR	It is an outrageous intrusion for commercial enterprises to call me on my cell phone AT MY EXPENSE! Please do not allow this practice.
Kata	Tucson	AZ	I oppose allowing robocalls to cellphones including those from debt collectors.
Susan	Atlanta	GA	Ladies and Gentlemen: These !@@#\$\$% robocalls are driving this Irish granny crazy. It's bad enough during most days, but during a political campaign it is unbearable. What is worse is that you can't turn them off by hanging up the phone. They just rant on and on about why you should vote for them. I have made a vow NEVER to vote for anyone who sends a robocall to my telephone.

Val	San Diego	CA	because of DAILY robocalls to my home, I am unable to pick up the phone until I hear someone on the answering machine. This is not fair to my family and friends who must wait 4 rings before I answer. Stop robocalls, they also wake me up and interfere with my business calling on my cell phone. I am registered with Do Not Call registry, and these companies should be fined %500 for EACH robocall. This has been torturing me since 2014 when I called a TV number for a Senior Monitor Service. Thank you.
Laurie	Stillwater	MN	I'm starting to get robocalls on my cell phone now too. For some, cell phone service is charged by the call or text. How can they get away with using our money to make their pitch?! This needs to STOP.
Gary	Bogalusa	LA	i am tired of the junk calls and waste of my mins and time.
Larry	Yorba Linda	CA	Isn't there any way to stop the constant pounding from robo-callers? It starts early in the morning and continues till 8:00 - 9:00 p.m. at night. End this!
patricia	Bethesda	MD	Please, please, please end these unnecessary, unwarranted, obnoxious intrusions on my phone. They are beyond annoying.
Linda	West Windsor	NJ	I get 5 to ten calls per day trying to sell me the same products. The same people call every day. Asking them to stop calling, of telling them I'm on a NO CALL LIST, doesn't help at all. It's the same people every day. PLEASE DO SOMETHING.
Dennis	Newton	MA	I have supported the no landline robocall advocacy movement, and feel that cell phones should have the same protections. Please stop these invasions of our privacy and of our peace of mind. Thank you.
Alan	Estes Park	CO	I get constant cell phone calls from a robo caller who keeps using different phone numbers so the I cannot block it.
Victoria	Ogden	UT	I am a business owner. It is infuriating to receive multiple unsolicited calls a day that I answer in case a new client is calling. Please just stop.
Pat	Houston	TX	My cell phone should be immune to robo calls. I'm paying the bill! Stop it!
KAREN	ACWORTH	GA	Please do not allow debt collectors to bombard us with calls on our cell phones. Please regulate a minimum, if any, amount of calls per month. If someone has a landline, require that robocalls be sent to the landline and not the cell phone. Here are some other things I am asking that you require: Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available

Eric	Walnut Creek	CA	Having been registered on the National Do Not Call Registry doesn't seem to help much in preventing sales calls/Robocalls. I keep my cell phone with me in anticipation of anyone I know needing to reach me, and it's intrusive to be interrupted by unwanted calls.
Linda	Red Hook	NY	It's time for the FCC to put a stop to unwanted robot calls and text messages to mobile #. Tell companies they cannot share our numbers with the business affiliates without our EXPRESS WRITTEN PERMISSION. Most of the calls/texts I receive are from companies with whom I will never do business, yet they continue to call...even when I ask to have my number removed from their system. They know that there is no consequence for their continued harassment. I have gotten robot calls as late as 9:45 PM and as early as 8:00 AM. ENOUGH ALREADY! Put some teeth in the laws and give the consumer some power and peace!
Ed	Tacoma	WA	Continuing to allow these predatory companies to harass the public via their cell (and other) phones is unconscionable. Please put an end to it now!
Michael	Leavenworth	KS	NO ROBOCALLS
Leonard	Sonora	CA	I am repeatedly receiving robocalls on my cell phone from scammers and people claiming I owe them money. These people are rude and are trying to scare me into paying nonexistent debts. Additionally, I get many calls from charities I have never donated to and when I check them out, they are charities that spend most of the money on robocalls.
Linda	Belmont	MI	Please stop robo calls. I do not want to have my pre-paid minutes on my cell phone wasted on calls and texts from people and places I do not want to talk to. They are not paying my cell phone bill. I am ! I am on a fixed income and do not want to pay for extra minutes just to be bothered by robo calls.
shelley	san anselmo	CA	stop robocalls.
James	Gainesville	FL	I pay for cell service for my personal and business needs. Why is it acceptable that I receive unsolicited robo-calls that are trying to sell some goods or service? I get to help pay for their marketing? - That is ridiculous. Many such calls I receive display phone numbers that are spoofed. If I accidentally answer them, then they end up wasting even more of my time and money. Please at least make it illegal to place such calls to cell-phones. Such calls are clearly an abuse of the paying consumer.
Allen	Beaverton	OR	Robocalls to my cell phone cost me time and money. They ought to be illegal without my permission.
Dvid	Elizabeth	CO	Please put a stop on Robo Calls on home phones and cell phones.
Don	Eureka	CA	Please protect our privacy and our right to prevent computer generated marketing calls from reaching us. Please enact the absolute most restrictive regulation on these marketers. Thank you.

Mark	Portland	OR	On cell phones without the owners prior concent. It is wrong to spend a persons resources without their concent.
John	Chimacum	WA	Rob calls cost me Money I didn't choose to spend. Rob calls assume humans like speaking to machines. Can I spend your money with out asking ?
Norma	Mukilteo	WA	There are too many people that drop everything to answer a phone call. It can be dangerous for people that have to be on the road without access to to take calsl hands free. Robo calls could be dangerous in that case. I personally would most likely turn my phone off to ignore such calls. In that case I'd have to miss urgent calls that might be life or death for friend or family. No political or sales calls are that important to anyone other than the the caller.
Albert	Rancho Mirage	CA	Please help stop robocalls. They are a waste of contract parameters.
David	Louisville	KY	The rules for stopping Robocalls should be expanded to include NGO's, political parties, and other nuisance callers.
Robert	Newbury Park	CA	My phone (I pay for it) is intended for communication between myself and friends, and companies with which I do business. It is totally unfair for any commercial, political or charitable organization to use MY phone for their own interests, which generally never coincide with mine. It is my heartfelt desire that the FCC take vigorous and effective action to put a stop to this activity. These calls unfairly intrude on my personal life. Particularly onerous are the so-called 'robo-calls'.
Robert J.	Wahiawa	HI	1. Debt collection robo-callers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
Larry	Oxford	OH	It use to be we only got ROBO calls occasionally but now 2/3 of our calls are ROBO calls. I also am thinking of eliminating our home phone al together but we are starting to get them on our cell phones too. Please HELP US.
Joan	Normal	IL	I'm already swamped by robo calls on my land line, the last thing I need are calls on my cell phone. It's a type of harrassment to all people.

David	Tolland	CT	Since debt collectors want to utilize robocalls to aid them in their efforts, then there is a need for significant rules that they must abide by. I am pleased to know that the FCC is going to enforce such. However, in fairness to those receiving these calls the rules must not be relaxed to any extent that would lead to the callers being abusive as regards language, informative in providing helpful to the debtors, or excessive in the number of calls that are placed over a span of time. Perhaps the tool of robocalls can help both partys in achieving a means of settlement rather than becoming an adversarial confrontation. Additionally, if a collector exhibits any of these non-professional behaviors, they should suffer the consequence of a penalty imposed upon their operation.
juliet	camano island	WA	These calls are clearly annoying and need to stop.
John	MAgalia	CA	Robocalls should be banned, period.
Rebecca	Portsmouth	RI	Please do not allow robo calls to destroy our piece.
Theresa	East Bridgewater	MA	Please stop or do more to curb these annoying robotocalls. I get them all the time at home and work, it is so time consuming.
Dorothy	North Olmsted	OH	The robocalls on my cell are billed to my account and eat up the minutes in my cell phone plan. I also receive texts which demand a response.....which also add charges. This should be illegal. They are totally invasive. We need to stop this with clear guidelines.
Ed	Brentwood	CA	I have had to get a seperate land line just to handle all of the robo- calls I get. Even with that the robo-calls are creeping into my cell phone. Gotta stop this waste of time, stop these robo-callers now!
Thomas	Duluth	MN	The sheer number of calls being made grows apace and more and more of the calls support fraudulent efforts to bilk the elderly. Customers should be able to charge callers who are using robo calling systems to invade their homes.
Bob	Winston Salem	NC	I choose to do my own research when I decide I have a need or want. I have never had a robocall that was pertinent to any part of my life. I have tried Call Blocker, registering with my phone company calls to reject, DoNotCall, and personal requests. Worse, robocalls are becoming more prevalent on mobile phones, which is a great deal like having a third party steal money from you (cost of call minutes). There needs to be a simple way for the receiver of an unwanted call to register the number and, when it calls again, actually cause a fine to be imposed. The current system is unmanageable and mostly unknown. Nothing works. It is my home and I want to choose how I spend my time and with whom I spend my money.

John	Enfield	CT	Robocalls to cell phones should be made illegal, period! Especially for purposes of debt collection, public or private. These unsolicited calls violate our right to privacy, and, at times, could cause employees problems in the workplace and/or unnecessary embarrassment. Please continue your efforts to end these practices. Thank you so much!
Vivian J	Chicago	IL	Stop the robocalls
Tom	Oviedo	FL	I download programs and apps to try and avoid scams and spam on my phones. I think we should be protected from such unwelcome calls. I specially don't like the robo-calls that seem to be increasing lately.
Barbara J.	Vista	CA	Telemarketers are not Welcome in our home. We don't care what you are selling.
Nancy	Glen Ridge	NJ	It's bad enough that each day most of my LAN line calls are robocalls. Please don't allow this on my cell phone too!
Franchelle	San Francisco	CA	Please, please, please stop all robocalls. I hate being disturbed from a nap, having to cross the room to the phone, all for the same robocall that came in last week. Franchelle Howes
Deborah	Oakland Park	FL	This should be a no brainer... Would you want these calls?
Esther	Oak Park	IL	I get many robocalls a day, although my home phone is registered on the do not call registry. Now, I don't want my cell phone, which is my work phone, to receive the same. They are useless, aggravating and interrupting. They will use up battery power, etc. Please prevent this from happening! It is an infringement of my privacy and time. Thank you.
Susan	Fort Collins	CO	This includes ALL the political calls.
Chris	Bethalto	IL	Robocalls waste my time and waste minutes from my cell phone plan. I never consider a robot call to have a legitimate purpose and alerts hang up as soon as I recognize that I've received one. There are times when I cannot simply ignore calls from unknown callers like when I'm looking for a new job. I urge the FCC to apply strict limits on robocalls.
Matthew	Gilbert	AZ	I am plagued by these calls that come from organizations I have no dealings with. They interrupt me at home and behind the wheel. I regard them as another example of how the government is in the pockets of special interests. Maybe not? Do you like getting these calls? I thought so.
Paula	Athens	AL	These people r driving us crazy! Thank goodness for you...wish there was a way to stop any & all before even one ring.too many one ring calls every day ! Incredible
Tina	Venice	FL	I have one of those OLD FASHION flip cell phones and pay for the minutes each time the phone is in use - even when I call for my messages. So when I get these robo cell calls it cost me money - their calling me and me calling for a message that is meaningless!!

William	Peoria	IL	We receive a large amount of of card services calls from Rachel and others. Everytime we block that particular number they are either creating a new phone number, they block their number or they have even used MY telephone number. Other abusive calls come from people who say they are from Windows and there is a problem with our computer and they want to remote in to fix our computer problem. We need to make these harassing calls illegal
Maureen	Lake Worth	FL	Show the American public that you care and please stop these annoying calls.
A	new york	NY	Put an end to predatory collectors!!
Mark	HB	CA	We need to stop the onslaught of telemarketers who have made it a business not just to sell you anything but to sell your phone number to other telemarketing companies because they called your cell and you've simply answered. But I do not have the luxury to decide if the call is legit or not because it's a personal cell and also my business clients call me many of whom are referrals from other clients so I have to take the call because it could be important. And the frustrating thing is now the telemarketers know you will answer even if they hang up or you hang up. It is now a business built on nothing because we do not have the FCC & phone providers putting limits on these type of calls so it is endless. We need NOMOROBO on the cells asap! TWC does it on their phones and now my home phone nuisance calls are virtually zero while my cell has quadrupled.

Amelia	Robbinsdale	MN	American cell phone subscribers pay sizable monthly and per-call amounts for private communication for themselves, their spouses and their children. Wiretapping and recording calls without permission or a court order are already prohibited by law, and the U.S. has a national Do Not Call List for sales calls. Furthermore, continuing to call someone after they have instructed the caller not to call is legally considered "telephone harassment" and is illegal. So it is clear that American phone subscribers and their families have a justified and well-established expectation of privacy and freedom from unwanted interruptions via telephone. Violations of our rights to telephone privacy and freedom from interruption are the calling cards of the notorious debt collection industry. This industry does not verify the validity of second-hand (and third-hand, etc.) debt information they buy in bulk, a great deal of which is untrue and completely unsubstantiated -- and the original creditors have already written off the original debts as business costs. The debt collection industry relentlessly pursues profit from collections of amounts without seeking legal judgment of the amounts owed. In addition, the debt collectors routinely and repeatedly call old numbers which no longer belong to the original debtor and which have been re-assigned to other phone service subscribers. Not to mention all the completely wrong numbers, and the calls to family and supposed friends of the person who may once have borrowed money. Calls to presumed debtors and everyone they may happen to know are no more than parts of a vast and outrageously dishonest industry. There are other. legal avenues for true creditors to seek repayment of truly owed debt, like certified mail and.... um.... the courts! That is, if the debt collector could document that the presumed debtor truly owes anything at all, and how much they actually still owe. This is clearly an area in need of national regulation and strong penalties for violations. Even with Caller ID, it is impossible to block or
John	Louisville	KY	No Robocalls to Cell Phones!
Richard	Clarence	NY	Dear FCC, As an agency created to assist and aid the general public in the communications arena I implore you to take strong action against companies that use Robo-calls as a harassment tool. Additionally there must be something that can be done to shutdown the unsolicited phone calls that are a direct violation of the do not call. I don't care if they ask you if you want to opt out of future calls. Firstly, they don't stop as they say they would and second... I don't want them calling me when my phone is in the do not call registry. Richard Hoekstra Clarence NY 14031
Charles	Mesquite	TX	Please stop robocalls. They aren't doing anyone any good - except maybe the unscrupulous.
Judy	McCook	NE	Please do not allow robo calls to cell phones
Paul	Roy	UT	I receive 10 to 15 robo calls per day which severely disrupts the efficient running of my business... this problem costs me a lot of time and unnecessary expense. Please stop the practice of robo calls to my cell phone and business line!!!

Jason	Lincoln	NE	I believe that debt collection robocallers must disclose our right to stop receiving calls. Also, the amount of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. And finally, the guidelines should be clear and easily available. Thank you.
Paul	Durham	NC	My phones have been registered on donotcall.gov for months if not years and it appears to do no good. Lately, many of these callers are putting false numbers into the caller ID field. Others put nothing in the caller ID field. Frequently, I just don't answer, trusting if it's someone legitimate they will leave a message,, but it's very annoying to have my phone ring so often for no good reason. Please stop or seriously restrict the people who are doing this.
Eleanor	Jacksonville, Fl	FL	Now that I am a little old lady (85) I find it annoying, frustrating, irksome, etc. to get to the telephone and find it is a robot call - esp. as it is for something I do not or have no use for.
Linda	Malibu	CA	A senior citizen I get more than my share of robocalls. I regularly run to the phone and find that the "IRS" is calling me about back taxes or a contractor had been "asked by me to call about work on my house." Robocalls are not just an inconvenience. The only solution is to screen calls and not answer until I hear the caller's voice message. 99% of the calls I receive are robo. Stop them.
Thomas	Sumner	IA	Americans deserve privacy. "Shotgun" tactics like robocalls, designed to make thousands of calls with the hope of a mere 1 or 2% rate of return, is an invasion of privacy we should not tolerate. "Industry" which rely on this business model do relatively little to benefit society when compared to the harms and abuses often reported. They need to have better business plans and less legislative aid.
W.	ALAMEDA	CA	PLEASE, THIS IS A NO BRAINER, STOP THESE ROBOCALLERS. FOR THE PAST YEAR AND A HALF WE WERE THE PRIMARY CARE GIVER'S FOR 2 FAMILY MEMBERS WITH ALZHEIMER, CARED FOR IN OUR HOME, WITH ALL THE CHALLENGES THAT GO WITH THAT SITUATION. THESE G** D** ROBO CALLERS FOR CARPET CLEANING, ALARM SERVICES, ETC. SERVICES WE NEVER REQUESTED, CAME AT BAD TIMES, WHEN WE WERE WAITING FOR A DOCTORS CALL OT MEDICAL NEED . BY THE WAY WE HAVE EXCELLENT CREDIT. BOTH HAVE PAST ON TO HEAVEN. WHEN EVER I HEAR ABOUT FRIENDS GOING THRU THE SAME ROBO CALLING, IT STILL ANGER'S US.
Jamie	Southbury	CT	I receive more than ten calls a week from unknown callers, when I look them up I see that other people also receive these unwanted calls. There needs to be stiff penalties for these violators and better ways to block these calls.

S.S.	Plano	TX	Robocalls are incredibly intrusive. Being on the "donotcall" list has not prevented the daily (including mealtimes and Sundays) calls I receive. Since I have no debt, these many daily calls do not even include debt collectors, although some scammers would have me believe otherwise. Since the "donotcall" list has been ineffective, I have little confidence that the FCC will be effective in this regard.
Beverly	Carson	CA	I'd say that maybe 3 calls a week are from people I know. The rest, which I don't answer (at least 4-5 a day) no message is left. I tell my friends to "leave a message" if they call and I'll get back to them" rather than pick up and deal with these people. I'd LOVE to get rid of them. Most people know I don't answer my phone - a miserable way to live - to have a phone and not be able to pick up.
Gail	Lititz	PA	Upon reaching the age of 21, each person is solely responsible for their debt. I may be my children's parent, however, that does not mean that I have to be responsible for their actions, just as they are not responsible for mine. The biggest problem of robo calls, are those aimed at the elderly who are isolated and lonely and those with diminished abilities/capacities. A friend of mine who is in her 50's has been trying everything possible to stop these type of calls to her mother. Her mother is confused and very gullible and would send money to who ever makes a pitch for it. If there is a problem with federal debt, why not attach a lien on their income taxes. In fact, all future loans should have that included in the contract.
Edward	Gainesville	FL	My wife and I pay for telephone service and should have the right to choose to end robocalls. We are to the point of dropping our land phone due to the annoyance of these calls, many of which are scams or for-profit companies that ignore the federal do-not-call list. Please take a strong position to end these calls.
Barbara J.	Vista	CA	We are never going to buy anything from you and you have no right to interrupt our privacy with your useless yammering!!!
elga	Somerset	NJ	Robocalls are disruptive and very annoying. A person should not have to suffer these unwanted interruptions.
diane	Montgomery	AL	No more robo calls on cellphones!!!!
Patrick	Freehold	NJ	Cell phones and house phones are essential in emergencies. This is true for anybody but especially for the very young, the very old and any kind of incapacitated people. To have phones blocked up by greedy sales promotions is not justifiable.
Martha	Arkadelphia	AR	Robocalls to cell phones should not be allowed, except in the situations listed above.

Michael	Mundelein	IL	In spite of being on the Federal do-not-call list, our phones get frequent robocalls. They are an abomination and complete nuisance. Having once had a charge from Sprint I disputed be given to collection and then being hounded for almost a year by a debt collector regardless of what I said and independent of the facts, I'm not very sympathetic to the debt collection industry. Since I'm a multimillionaire with zero debt, their threats on my credit rating had no impact on me but if I wasn't in that situation, it would have been a problem. That's why I think reasonable rules where debt collection robocallers must notify us of our right to stop receiving calls, limits on the number of calls and only directly to the person involved, and with guidelines that are clear-cut are needed. Please don't cave to squeals of impending doom from a special interest group that leans to abuse anyway.
Tracey	Medina	OH	When we got rid of our land line six years ago the nicest thing happened. No solicitor calls during dinner it was great!! Now it's starting on the cell phones. Please stop them and give our dinner time back. Thank you
Ann Marie	New Port Richey	FL	Please implement strong regulations to stop robocalls. We count on you to stand up for consumers against these powerful lobbyists. Thank you.
Jacqueline	Maitland	FL	I use my phone for emergencies and do not want unwanted calls in the middle of the yoga class or anywhere else that requires silence unless it is an emergency.
Pascale	San Francisco	CA	When we allow robocalls to be made to our phones, our form of communication with loved ones and friends, we are saying humans are not worth anything other than their purchasing power. Why the government would allow this is beyond me.
Fred	Norco	CA	I am fed up with automated phone calls. They even call when I have my number listed on the Do Not Call list.
david	farmers branch	TX	I have been on the fed.government no call list for 3 years at my home and business. in 2015, 3 month period I received 26 calls and thats just the ones I kept a record of. I have received much more than that at my home .The government makes a law then they don't enforce it. They don't care .The phone companies do not care.So we the people suffer from the assaults on our privacy.
Peter	Monmouth Junction	NJ	These calls are a form of harassment. Make them stop. Shouldn't be allowed. The phone is mine; I pay the bill.
Brian	Ann Arbor	MI	No robocalls to my cell phone...please!!
Alan	Marysville	WA	End robocalls to cell phones.
C.	Excelsior	MN	Please DO SOMETHING! This is a good way to improve the creditability of the Washington bureaucrats. Do something for both sides of the damn aisle, something that all ages, religions, colors, economic status will thank you for,

Sherrie	Carrollton	GA	I oppose robocalls to my cell phone. I hate talking to a machine and not a human, I don't have time to deal with unwanted calls, and debt collectors should not be allowed at all.
JUNE	WEST HEMPSTEAD	NY	Please help put an end to robocalls, which are intrusive and mainly fraudulent!
David	Wrightsville Beach	NC	Everyday I get ROBOCALLS from people trying to steal credit card information, everyday! This is ridiculous! You have given credit card thieves the key to the kingdom by allowing it to be so easy to robocall millions of numbers, which they do everyday, over and over and over.
H.	Lake Arrowhead	CA	Robot calls are a constant problem for everyone
Kathleen	Akron	OH	No more licenses to steal for those who ignore the Do Not Call list. Unsolicited robocall steal my minutes. No more robocalls.
Annette	Cottage Grove	OR	There are too many shady companies that rely on invasive robo calls to collect debt. Strict guidelines should be set that are clear and readily available.
Louis	Oro Valley	AZ	Not only are robo calls on my cell phone annoying and cost me precious minutes (which amounts to theft on their part), but they are self-defeating. I will never deal with any company that harrasses me with an unwanted junk call. I have stopped these calls on my land line. Why won't the FCC make it possible for us to eliminate these parasites?
Carolyn	Tuckahoe	NY	These calls must stop on land and cell phones.
Ed	Venice	CA	We get 5 to 10 robocalls a day on our two land lines and I get 1-2 a day on my mobil phone we often do not answer our land lines from 4 pm to 7 pm as they are all robocalls we have been on the do not call list from the beginning all trying to sell us something we do not want or need
Pamela	Creston	CA	You're wasting your time robocalling here. Not only that, you're wasting MY time by distracting me w/a ringing phone!!!!!!!!!!!!!!!!!!!!!! My time is valuable to me! Get off my back!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Jane	Palestine	AR	Please do not allow robocalls to cell phones. Some have limited minutes that will be consumed by a nuisance but all will be disturbed by unwanted interruptions. No one should have the right to simply take a list of numbers and have a machine call them repeatedly hoping to sell them something. If I want to buy something I will make the effort to go get it or inquire where I might order it. This is basically a privacy issue and we deserve to not be disturbed by unwanted calls.

Ethel	Las Vegas	NV	There has to be a way to stop robocalls on cell phones. Cell phones are not a luxury. For the retired on a fixed income they are becoming a costly hardship, though, especially when data is used by robocallers. I know cell phone companies are businesses making money from data use. I know screening software already exists to stop cell phone spam from robocallers. As the consumer of cell phone service regulated by the FCC, I want you to stop third party ads of any kind from using the data I purchase. I never recall relinquishing my right to private cell phone use and service to either cell phone providers or robocallers. Please make cell companies and robocallers STOP. Sincerely, Ethel Quinn
Cheryl	Orland park	IL	Please stop all ROBO calls,!!!!!!!!!!
Rob and Marti	Birmingham	AL	We urge you to STOP robo calls to cell and land line phones. They are driving us nuts. It's an invasion of our privacy!!
Cedar	Alexandria	VA	Phone companies must find a way to stop robo & other junk calls. On my cell phone, I pay about 25 cents per minute or any portion of a minute, for calls. Even if I hang up after a few seconds or if I check my voice mail, I pay at least 25 cents per call. I may not pay for calls to my landline (by the minute) but I am interrupted two to four times each day by robo & fake telemarketer calls. I was harassed for many months by people from "Portfolio Recovery" despite my telling them many times to stop calling. I turn the ringer off & then friends & family who call us don't get through. I have been on the "Do Not Call" list since it started & check periodically to make sure I am still on the list. While this may be a "first world" problem, persons who believe what the robo telemarketer caller tell them are at great risk of identity theft & other crimes against them.
Lynn	Diamond Bar	CA	Yesterday, I got more than a dozen robocalls from telemarketers. Since I've been on the Do Not Call List since 2003, and my number is unlisted and unpublished, this is especially galling. Please make them stop!
Arnold	New London	CT	Robocalls to cell phones place automobile drivers, their passengers, and pedestrians at grave risk by distraction to the driver's attention. There is no excuse to permit that distraction on the basis of marketing, political, or charity solicitations. To do otherwise would be an obscenity to government's first responsibility: Protect the people.
Edward	Norwell	MA	Robo calls always seem to interrupt our dinner or quiet family time. If I try to opt out the process is difficult or allows the caller to know the lines active leading to more calls. I am fed up to the point I am considering getting rid of my land line because at least I can shut off my cell phone when I want some peace and quiet.
jim	bradenton	FL	these calls are completely unnecessary 99% ofn the time, always at the most inappropriate time, and its always something we are not interested in.

Roy H.	Belton	MO	I am charged for any!!! calls to or from my phone regardless of source,the charge is only (1) minute but it adds up to my allowed minutes.
Bill	Madison	MS	Stop Robo calls NOW
Laurel	Seattle	WA	I am retired, and therefore home more often. I am constantly roused up to answer calls that are robo calls for things I have not initiated and have no interest in. This is harassment. The option is to have all calls go to the answering machine, which is unacceptable. It is your agency's responsibility and duty to citizens to see our rights to privacy and avoidable harassment are upheld. Thanks for your consideration.
William	Hendersonville	TN	I get Robocalls to my cellphone every day. I do not hold any federal debt, nor does anyone in my immediate family. I see this as an attack on my privacy and it must be stopped.
Richard	Fayetteville	NC	The law relating to robocalls should be strictly enforced as they are a menace to everyone. I was under the impression there was a law to prevent these calls and apparently it has never been enforced.
Renee	Gardena	CA	Since many do not have land line cell phone are the only vehicle used for emergency and calls to and from my doctor. Robot could fill up my voicemailbox so my doctor could not leave a message. This is dangerous. I am 72 years old. RENEE ANDERSON
Edmund	San Diego	CA	Unless you guys do something in the way cell phone company charge us, we should not be subjected to robocalls that add to the cost of having usually, like people for me, my only phone.
Maribeth	Brooksville	FL	So very fed up with the robocalls, we even get them at the doctors office where I work, taking time away from patients.
Kenneth	Phoenix	AZ	Stop annoying robocalls!
Ron	Culver City	CA	Hit them where it hurts with larger fines for every call made to any phone number that is on the FCC do not call list. Double fine to spoof number callers.
Greg	Indianapolis	IN	I used to get these calls only on my land line. I was going to take it out (and still may do so). But now they call my mobile number too. It has become so bad I screen both my land line and mobile. I know any phone call between 6-8 PM is trash. I have a right to my privacy. Make it stop
Elizabeth	Jacksonville	FL	I should not have to be subjected to robcalls from debt collectors,or political candidates. There needs to be a federal regulation that forbids companies from this harassment!!
Bruce	Minneapolis	MN	Please, please stop the numerous Robo-calls I get each and every day at my home phone number. I get the same recorded messages hundreds of times throughout the year. I also get calls from scam artists from other countries claiming there is something wrong with my computer. I have signed up on the "Do not call" list but that does nothing to stop these calls. I should not be subjected to these daily intrusions coming in to my home. Please help stop these Robo-calls!

Harold	Longview	WA	We elders have limited funds, have cell phones for personal SECURITY, EMERGENCIES and for coordinating medical tests and visits, prescriptions orders, hospitalizations and other reasons. ROBO CALLS interrupt rest needlessly, require re-charging the phone more often and interfere with daily life. Ideally, ROBO CALLS should not be allowed as I PAY THE PHONE BILL FOR MY CONVENIENCE. However, if allowed, ROBO CALLS must be restricted to NOON to 2:00 pm M-F within the appropriate time zone to afford MINIMAL PERSONAL INTERFERENCE. One response to the ROBO caller of DON'T CALL ANY MORE must be adequate to STOP ANY FUTURE CALLS FOR AT LEAST 1 YEAR.
Patricia	Albuquerque	NM	These calls are very difficult to deal with and very intrusive. I work all day and can only use my cell phone on breaks, but I keep it on as I have a 93 year old mother and several emergencies have come up. These robocalls interrupt my work, I get them all day long. There must be some kind of limitations on the number of calls that can be made. Please act on this situation. Thank you.
Chris	Fort Worth	TX	The home phone was a basic utility until the robocallers got so bad that everyone cancelled their accounts. Don't let this happen to the cell phone utility.
Nicholas	Corpus Christi	TX	Robo calls drive me nuts at home. I certainly don't need them on my mobile. These people use abusive and deceptive practice. Legitimate businesses can have a person call.
JOYCE	BROOKLYN	NY	BECAUSE IN MY HONEST OPINION, ROBOCALLS ARE NOT ONLY ANNOYING, BUT UNNECESSARY AND EVEN IN A WAY, BORDERLINE ILLEGAL!!!
Kate	Surprise	AZ	Robocalls to cell phones should be limited to 2 phone calls or 2 text messages per month. These calls or texts should only apply to holders of federal debt, not family or friends. All solicitation robocalls or text messages should be banned from cell phones.
bob	Cohoes	NY	I oppose robocalls to my cell phone without my permission. If you do allow them please setup a do not call registry so we can opt out. (Note: The FCC's disclosure differs from our standard privacy statement. Comments filed with the FCC are a matter of public record and will be viewable online, including name and address, after being submitted to the docket.)
tandy	felton	CA	HI-- let's stop the super intrusion of our home life with rob-callers--it robs our time. and on cell phones we have to pay for them! help protect us all!
Mark	Aurora	IL	I have a pay-as-you-go type cell phone plan that costs me 25 cents for each call or text. I don't want to have to pay for calls/texts from people I don't know!!

Mary Jo	Crossville	TN	It is already beyond annoying getting these calls. I can not count the number of calls I have received from "Rebecca at card holder services!" (or the times I have requested to be taken off their list) I am on the do not call list, not that that stops them. I do NOT want to be getting debt collection calls for debts I don't even owe!! Please stop the madness.
Gilbert	Hayward	CA	Since the phone system left the hard line control of the big telco and arrived on the internet we have been deluged by phony caller ID scammers robo spammers and criminals out to steal ID's and info stop this assault on the general public NOW! ATT charges me money for this privilage! that all these thieves continue to attack is their responsibility to control DO SOMETHING
Lonnie	Asheboro	NC	Too many and too often is a problem that should have been resolved yesterday. Consumer Reports Donate Tell the FCC: No Robocalls to Cell Phones! Right now, the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone. The debt collection industry is pressuring the FCC to back down, but they are required to review all public comments submitted through their website. We have a limited window to out-organize the robocallers. Send your comment to the FCC right now. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. We've included some bullet points for things you could tell the FCC, but it's important to give your thoughts in your own words. If you oppose robocalls to your cell phone without your permission, simply say why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available (Note: The FCC's disclosure differs from our standard privacy statement. Comments filed with the FCC are a matter of public record and will be viewable online, including name and address, after being submitted to the docket.) Give your comment a title An unnecessary problem Please add your comment here* Too many and too often is a problem that should have been resolved yesterday
Kevin	Newport Beach	CA	If a cell phone is on the do not call list, then that should apply to ALL calls, no exception.
Sanford	Covington	GA	I would love to see ALL commercial - AND political - robocalls banned!
Laurie	Jacksonville	FL	I oppose robo calls to my cell phone without my permission because it is an invasion of my privacy. I shouldn't get charges based on unsolicited calls.

Thomas	Douglas	AZ	Even if I don't answer 2 minutes are added to my cell bill ?
Joe	Coeur D alene	ID	75% of the calls I receive on my cell phone are unsolicited robo calls. I now will not answer unless the number is one of my contacts. I block these numbers on my cell phone but they seem to change numbers on a daily basis often using a number with my area code. When you do answer there is a pause until someone on a phone bank grabs a phone. My email provider filters out junk email and the phone companies should allow us to do the same. I would switch to a wireless provider if they could provide this service. I also signed up for the do not call program but the calls only increased.
magali	peoria	AZ	This practice has to be outlawed.
Josh	Spring City	TN	Stop robot or any advertising calls to my cell phone.
Mary Ann	Jonesborough	TN	I don't like getting calls at home or on my cell phone that are not from friends and family. I don't appreciate being interrupted during the day or night with calls I don't want.
Darrel	Sun City	AZ	These cell phone and landline call annoy us all the time! Sales calls, phishing, "you won" calls, and we are wondering where our privacy went! These guys need some tight regulation! No wonder some people are take. By their tripe! You CAN do something about this! DO IT NOW!!!
Jeanette	Muncie	IN	Please stop robocalls to cell phones. They are intrusive and can be expensive to the receiver when minutes are limited. If received while working, they can become an issue for keeping one's job. We should have the option to STOP all unwanted robocalls!!! I pay for my phone minutes -- they should not be used by some company I do not wish to talk to.
Harry	Boyce	VA	Enough is enough - end robo calls now.
dennis	palm desert	CA	I don,t know how I got on these lists. I cannot go to bed before 9:30 pm with out getting a call and waking up to a robocall. I have asked to be taken off their call sheets but they just call back from a different number. FINE OR ARREST THESE PEOPLE>
Paul	Curtice	OH	I am sick and tired of the constant robocalls for politics, fund raising, and memberships, especially at the dinner hour. This is equivalent to harassment and everyone who receives these calls should file a law suit against the callers. It's wasting my time and yours, because I do not answer these calls.
WYNN	GAITHERSBURG	MDTHE HARASSING ROBO-CALLS! PLEASE!
Marge	Yankton	SD	In addition to being annoying, I have to pay for these calls. My cell phone is for my convenience, not for spam, scam or fraud calls. Some of these callers are rude and threatening. Please put a stop to unwanted calls to our cell phones.
Paul	Corbin	KY	I receive robo calls a dozen times a week and sometimes five per day in a bad week. This is an invasion of my privacy and I am sick of it. We the people have a reasonable expectation that our government will protect our rights and not just turn a bling eye to things such as robo calls. Please Help.

marcellus	austin	TX	I get robocalls every d***** day, and scams claiming to be the IRS, etc. This is fraud. Please eradicate these parasites.
Douglas	Bonney Lake	WA	I CAN'T BELIEVE WE ARE STILL TRYING TO GET THIS DONE.
Donald	Windsor	CO	Please STOP the robocalls to my cell phone! One of the advantages - in the past - to not having a land line telephone was the ability to avoid harassing automated telephone calls. Now, you're allowing this to continue - to our cell phones? Is your representation of this country's populace relegated to what you're paid by the debt solicitors? WHY??? I have a great credit rating, and don't get these calls, but I have in the past, and they were downright scary. Please stop this.
Timothy	Pembroke	NH	There needs to be a ruling to protect people from harassing calls !
Andoni	McAllen	TX	Tired of receiving 20-30 call a day on my land line and beginning to get calls on my cellular. Please do s/thing as my peace and quiet is being ruined. Quality of life down. AZEE
Bunn	Roswell	GA	Robocalls should be considered assaults and illegals. We r on nocall list but get 10 to 20 calls a day.
trudy	Surprise	AZ	It is very annoying, to have to answer the phone ,and have this machine in the evening or other times of the day,go on and on. If I need something ,I will get it, do not need some one to tell me what to do. Thank you but No Thank you!!!!!!!!!!!!!!!,
Galadriel	San Francisco	CA	These robocalls can also disguise as a scam call
Robert	Fairfax	VA	Please restrict unwanted calls to my cell phone. It is an invasion of my privacy and a waste of my time.
Pamela	Saugus	MA	Dear FCC: Please, please, please: No Robocalls to Cell Phones!
raymond	knoxville	TN	I get more robocalls on my home phone than any other calls.i am sick and tired of it.do what little you can do to stop or hinder this problem,you,meaning our elected officials have done almost nothing to help stop these harassing and annoying calls.!!
Fred	Clearwater	FL	These calls,especially to mobiles are not simply annoying. They are dangerous! I'm driving on a major highway , phone rings, I must find a place to pull off the road and answer it (?) Time wasted and danger involved. I use the mobile primarily for emergencies. I feel these marketeers are invading my personal space.
Barbara	Freeland	MI	Consumers should not be put in this position in the first place These companies have too many rights that infringe on our solitude and private lives.
Tom	Alameda	CA	These unsolicited call are an interruption and intrusion on my privacy and peace of mind. The sheer number of them that I receive infuriates me. There must be some relief.
Karen	Baltimore	MD	Eliminate altogether

Kenneth	Unionville	TN	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. ALL other robocalls should be blocked.
Brian	Dallas	TX	I understand a company/organization/entity wanting to be able to call the person who specifically chose to do "business" with them when there is a bill/payment issue. However, I DO NOT want debt collectors calling me nor my CHILDREN'S cell phones and saying "We are trying to reach _____ and you are listed as an associate". WRONG, that person may be a member of my extended family, but I am not their "associate" nor responsible for their issues, just because they are related. Also, if they are legally allowed to call me and I ask them not to contact me again, they MUST be required to comply. Right now, they do whatever they want and I can't trace their number or prove who they are because they often won't tell me who they are or where they are calling from.
nancy	corona del mar	CA	Stop robocalls on home and cel phones please!!
Thomas	Soquel	CA	These unsolicited call are an interruption and intrusion on my privacy and peace of mind. The sheer number of them that I receive infuriates me. There must be some relief.
RICHARD	cambridge	WI	UNLESS YOU PERSONALLY ENJOY ROBO CALLS....YOU MIGHT....THEN DO SOMETHING TO STOP THEM FOR EVERYONE.
Linda	Riverside	CA	Consumer Reports Tell the FCC: No Robocalls to Cell Phones! Right now, the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone. The debt collection industry is pressuring the FCC to back down, but they are required to review all public comments submitted through their website. We have a limited window to out-organize the robocallers. Send your comment to the FCC right now. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. We've included some bullet points for things you could tell the FCC, but it's important to give your thoughts in your own words. If you oppose robocalls to your cell phone without your permission, simply say why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Debra	Newport Beach	CA	These robocalls are a terrible nuisance. I no longer ever answer my cell phone unless I know the person calling - and I am not a person with debt! I cannot imagine how harassed I would feel if I did have an outstanding debt and was trying to pay it back. There should be clear cut guidelines as to how many calls or texts debt collection companies can make.
Ramona	Pinckneyville	IL	Intrusive and repetitive robocalls have rendered our land line telephone basically useless! I never answer it because it is almost always someone from card holder services or some charity wanting a donation. Recently I've begun receiving similar calls on my cell phone! We pay a lot of money for these services and we should not be subjected to these unsolicited intrusions into our lives! Do something about this NOW!!
Greg	Golden	CO	I am not interested in anything that any robocaller is trying to sell me, so I should not have to deal with their calls. Plus they could also sell my number to other solicitors...what a nightmare that is!
Michael	Fremont	CA	Please stop automated calls to cell phones. Thank you
Donna	Marshall	NC	Please put regulations in place to stop robocalls! All robocalls! So many of them are about thievery and fraudulent concerns, and then I have to pay for the call on my phone. Please stop these annoying, should be illegal, harassments! Thank you.
James	Barnhart	MO	I pay for my cell phone and service. As a customer of the service provider they should at my request block any callers that I choose.
Karen	Beachwood	NJ	Robo calls to cell or landlines phones are horrible. They interrupt what you are doing. My hearing aides are synced with my blue tooth so I automatically get answered
Carol	Forest	VA	I would like to ask for strict rules governing robo-calls to cell phones. This is a privacy and peace-of-mind issue. I would like to ask you to make it easy to block all robocallers from calling my cell phone. Thank you.
John	Monroe	CT	I already receive illegal and unwanted cell phone calls, and if the regulations on calling cell phones are relaxed, the number of illegal calls will increase dramatically, because they will be hidden in the increased volume of calls. Please do not make it easier for such calls, and give us some tools to aid in enforcement of the existing regulations, as too many shady marketers already abuse them.
Al	Midlothian	VA	Please stop abusive robocalls that I receive multiple times a week. They range from a free home security system to offering car warranties. My phone number is listed on the do not call list, but the robocallers continue to ignore the list and call my number.

Phil	E Haddam	CT	It's bad enough that I get at least 6 robo calls a day on my home landline. Now I'm starting to get them on my cell phone, which is my main business phone. Mostly, these calls are confidence schemes or other scams. "I've won a free trip to....", "The IRS is taking legal action against me...", etc., etc. But it's a huge waste of time, energy and resources. Please do whatever you can to make this practice illegal or to just plain block it. Thank you.
Barbara	Manhattan	KS	Please consider stricter guidelines for debt collectors contacting by cell phone.
Sharon	Springfield,	PA	What an invasion of privacy. 80% of my incoming calls are Robo calls. Please stop this.
Jeffrey	Chicago	IL	Robocalls account for over 90% of our landline calls. We're thinking of ditching our land line just to get rid of the enormous nuisance. Please allow consumers to block these calls.
Paul	Fresno	CA	I am tired of Robocalls and want them to be stopped. They are very annoying and un-wanted.
Christopher	Los Angeles	CA	I'm getting more and more robo calls to my landline and my cell phone. Please crack down on the companies that are doing this. Thank you, Christopher Dill
Chuck	Parker	CO	I have been getting calls for two or three years, at least a couple times a week from the same organization that spoofs a different number on the caller ID routinely that is trying to get me to consolidate my credit card debt. They pretty much lie, saying something like "this is your credit card company." Yet, they will not identify who they are. I have talked with people there asking to be removed and am never removed. This is quite annoying and an invasion of my personal life that I should not have to deal with. Please stop robocalls.
Sue	Altoona	FL	Please restrict all robo calls from calling our cell phones. We are already swamped with pleas for money for political campaigns and charities without having a lot of robo calls as well. Please give us citizens a break. Thank you.
Alan	Lake Toxaway	NC	PLEASE, I implore you stop this intrusive and hideous totally annoying practice. Invention is not the Mother of Necessity. Just because it is possible to have computers make the calls doesn't mean they should be allowed to do it. No one's First Amendment rights will be abridged if this practice is precluded. However, I believe my Fourth Amendment right to be secure is violated by such computerized calls. PLEASE stop these calls. Being registered on the "Do Not Call" list doesn't stop these bozos. Only you can do that. Please do it now!
Tucker	New Kensington	PA	Once again...
Arthur	Bandon	OR	I'm on the do not call list still getting calls. These people don't have any respect for the laws. Do your job. Stop this harassment. This is an invasion of privacy.

Gerald	Rockford,	IL	We are so weary of robo calls all hours of the day & evening. They interrupt whatever we're doing & offer nothing to us. We do not pay for phone service to get these. "Do not call" lists don't always help either.
Christina	Milford	CT	I use a pay as you use your phone for all calls in and out. It is EXTREMELY ANNOYING that I am PAYING for Robocalls on my account when I have not asked for these calls. I am trying to live within my budget as a senior retiree and Robocalls are not helping!!!
AJ	Mesqujite	TX	Robocalls is not what cellphones are for. Give me a break. They have no rights at my expense.
Donald	Arlington	TX	My wife and I are still working despite being senior citizens. Each day, we return home and check our messages on our landline (Wife's job requires it). We receive scam calls such as those that claim to be the I.R.S. and threaten to sue us, political spiels, solicitations by charities, and sales calls. Anyone who we would want to talk to knows to call us on our mobile phones. We delete the messages. If we are home when the phone rings, we either ignore it or pick up the phone and immediately hang up. My 97 year old mother gets similar calls and this concerns her, so she calls me to see if she should return the calls. Sooner or later, she or we will probably have diminished mental capacity and actually be taken in by one or more of these scams. As soon as my wife retires, we will discontinue having a landline at all.
Carol	Portland	OR	These persistent calls invade our private lives and are beyond irritation. They are abusive and invasive and consume critical amounts of human time and energy. There are more respectful ways to do business when it is needed! Please set rules in place to limit on them by clearly notifying people of our right to stop receiving them, and to limit the calls in number and in calling only the person involved, not friends or family; and there must be clear guidelines available to everyone to know.
Michael	Raleigh	NC	Robocalls are driving us insane! Please do anything and everything possible to eliminate these!
Fred	Tamarac	FL	Please consider these points concerning Robo Calls to Cell Phones. *Debt collection robocallers must notify us of our right to stop receiving calls *The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family *The guidelines should be clear and readily available Thank You.
Ken	Scappoose	OR	Why does the No-Call list not stop robocalls? Receiving more and more robocalls all the time and it is disgusting and annoying. Please put an end to all robocalls. They are in invasion of privacy.
Deborah	Fernandina beach	FL	Pleeeeee, pleeeeee stop these calls. I am not well & can not deal with these calls.....the IRS sham makes me really upset.

Bonnie	Lansing	KS	I believee robo calls to cell phones should be illegal. There are still phone plans that charge customers for minutes used and we should not have to pay for fharassing phone calls, especially since the calls don't even have to be for us! My son still gets calls from creditors for an X girlfriend from 5 years ago!
Toya	Pittsgrove	NJ	I'm unhappy that I'm on the Do Not Call list for my home phone & my cell phone & I'm still receiving robo calls to all phones. I don't like that they find a way to bypass the security and use my own number or a person's personal disconnected phone number to make the robo call. Please find a way to STOP them from doing this. Thank you
Budd	Glendale	CA	Please support the end of Robocalls so I may have reason to continue to support you.
Rita	Ridgefield Park	NJ	END ROBOCALLS!!!
jackie	holladay	TN	I work shift work and am on the Do Not Call List. i get woke up all the time because the robo callers ignore the Do Not Call Lists. Pla ease stop the robo callers.
Kathleen	Santa Rosa	CA	I GET TWO TO THREE A DAY
Arthur	Newnan	GA	Please stop robcalls
Robert	Sandpoint	ID	It is not a portal for bullshit commercial exploitation and interruption. STOP robocalls --including political robocalls.
Jeanne	Orleans	MA	I am grateful for this opportunity to weigh in on what I feel are egregious calls to my cell phone by robocallers. Please STOP this invasion of my privacy and STOP unwanted and unsolicited telephone calls.
Stephanie	Rutland	VT	I oppose robo calls to my cell phone without my permission, because I do not want anyone other than those to whom I have given my number to call me. I use my cell phone for family and friends only. If I want to purchase something or a service I know how to do that without a robo call .
Carol	New Brighton	MN	Please make it illegal to use Robocalls on all types of phones. I'm so tired of having to screen my calls.
Orly	PORT ST LUCIE	FL	I'm frustrated that despite my home and cell numbers being unlisted, I continue to received several robocalls daily. My cell phone company will only let me permanently block numbers if I pay an extra fee to block each and every individual number! I shouldn't have to pay extra for peace from unsolicited undesired phone calls. I have no debt collection issues, and I want these calls to stop.
Clifford	Jasper	GA	Thought this was taken care of in GA several years ago but alas there must be a relapse. Let's cure the problem once and for all. Clifford Morse
Vincent	San Francisco	CA	So far, I've been unable to shake off a robocaller on my landline who always does not leave a message. Now I don't need this problem on my cell phone too. Please prevent robocallers from invading our mobile privacy!

Wayne	Greenville	SC	I can recive as many as 10 to 12 robocalls a day please help us stop this redictulous situation now!
Val	Inverness	FL	Each robocaller for collection must clearly advise the called party of his right not to be called, whether by landline or by wireless device. Robocalls should be limited to no more than three per calendar month, none of which may be to numbers of relatives or friends. Guidelines must be readily comprehensible, simple and published widely to all parties concerned.
Harry	Crownpoint	NM	FCC, we should end ALL Robocalls!
Rob	Erie	PA	Some cell phone customers have pay per use cell plans. How can debt collectors justify causing more debt for customers like these by constantly calling, using up the cell customers minutes which they have to re-fill after debt collectors use them up with an over abundance of annoyance calls. The choice becomes, do they pay on their debt or pay to keep the cell phone active?
leon	houston	TX	if i had your phone number i would call you day and night as many times as i get robocalls and see if your stupid butt would like it. stop the calls
Terry	West Melbourne	FL	who likes strangers calling them (often at inappropriate times) to try to sell them something they don't want?
Virginia	St. Louis Park	MN	Robo calls are not only annoying, but they also are a way for the unscrupulous to reach some of our most vulnerable citizens. Why should we be subjected to calls night and day from people who are trying to sell us something or trick us into sendiing them money? This method has now invaded our cell phones as well so giving up land lines is no refuge. These callers do not respect the Do Not Call list, either.
Ella	Huntley	MT	We pay for cell phone usage. Robocalls on my landline means if you answer, it does no good to hang up as the call robs you of phone use until the message is finished. More than a nuisance it can be a very bad situation when the call you want to make is an emergency call (medical, fire, etc.) . If you allow robocalls to cell phones you are sanctioning theft and putting some of us at risk.
Elizabeth	Lehi	UT	I hate the interruption to our home life and the intrusion into our privacy by Robocalls!
Katie	Ashland	OR	Each call to me I pay for. I'm on a limited budget and robo calls eat up my phone usage. They are unwanted and unneeded.
Michael	New York	NY	This is an all out assault on control of the seconds, minutes and hours that comprise our lives. No one has a right to our time, for in doing so they would have a right to control our life. Robo-calls are weapons used by a desperate industry trying to squeeze the last possible thousandth of a cent out of each and every one of us. Allowing industries to do this is capitulating to the insidious temerity of the perverse 21st century tentacles of capitalism. Say to goodbye to control over one's time, one's choices how to live say hello to the greed that continues to warp the American dream, leaving the many behind by the all-powerful few.

ATHENA	WESTPORT	CT	HOW DARE THEY USE OUR NUMBER WITH OUT OUR PERMISSION !!! so MANY PEOPLE PAY FOR LIMITED # OF CALLS. these ROBOCALLERS SNEAKILY GET LOCAL AREA CODES & LOCAL CELL PHONE # TO TRICK PEOPLE INTO ANSWERING THEIR PHONE. THEN IF YOU HAVE RECORDED THE NUMBER & TRY TO CALL IT BACK THE ELECTRONIC RESPONSE IS NON AVAILABLE OR SOME SUCH RESPONSE .
JoAnne	Chiloquin	OR	My home is my sanctuary-----UNTIL unsolicited calls interrupt the peacefulness.
James	Oxford	OH	Please stop all Robocalls to cell phones and landlines.
B.P.	Bala Cynwyd	PA	It's really a pain when I'm at home trying to spend some quality time with my family and I'm interrupted by robocall claiming that there not soliciting a product and then try to sell me something. The only reason that I don't hangup straight away is that my local government uses robocalls to put out Amber alerts, and other emergency information to the community. It's time to stop this shameful practice and allow citizens the privacy of their homes without interruption from unwanted sales pitches.
Hercules	Kensington	CA	*Phone companies must be required by government to prohibit robocalls as each unsolicited interruption in life has a Human cost. My life is precious to me - I do not want to pay this one! Government should promote human dignity, not denigrate it ! *
GENE	LONG BEACH	CA	i only have a pay as you go cell phone for emergencies. robocalls to my cell phone will use up and waste my paid time. it will cost me money to receive these calls if it is allowed. robocalls to my landline are also infuriating and bad enough to deal with. stop this, please !
Ed	Westcliffe	CO	Robo calls violate my privacy rights by invading my home over a phone that I pay for. Make the phone companies limit this access, now!
Jan	Portland	OR	FCC Folk, Please do not allow Robocalls to cell phones. This leads to disruptions in people's lives and pocket books. Land lines have been greatly demolished by your past practices and doing the same to cell phones would be another step towards the destruction of Civilization. I do not know what we would call Society in the future but it would not be Civil.
John P	Orange	TX	They are evil.!!! You pay for your communication tools with the idea of PRIVACY and CHOICE assumed to be present at all times. At seemingly the worst possible timing, you receive calls that you (many times) can't understand due to the difference in accents. And, you can't even complain to them about it. IT'S A MACHINE !! That's ridiculous and should be easy to stop, with all the modern technology available. Your PRIVACY and CHOICE are taken away. "Customer's relations" are a thing of the past. The FCC should fix it. John P. Read. Orange, Texas

Joseph	Tarzana	CA	I am bothered multiple times a day by automatic calls by sales, false surveys and other sources. My phone numbers are on the do not call list: there seems to be very little effect. Limiting all automatic calls to a few (or none) per month would be a helpful step.
Paul	Naperville	IL	Please help end Robocalls as they are a huge waste of time for the general public, not liked by a huge majority of the public and an invasion of my privacy . I see no reason why my time should be invaded just so someone else can try to sell me something or get me to vote for them.
Frank G	Wood-Ridge	NJ	stop Robo salls
Janet	Gilbert	AZ	I am disgusted and angered by the intrusion of telephone callers who have no other goal than to try to get my money and who use devious ways to try and trick me into answering their calls even by using phone numbers that mimic legitimate callers. Please put a stop to their game. Thank you.
G	st augustine	FL	STOP INTRUSIVE, UNAUTHORIZED Robocalls to cell phones.
Tonia	ROCHELLE	IL	Don't allow this!
Thomas	Grafton	WI	Please STOP the annoying calls. I just received 3 robo calls while I'm writing this message. Such an intrusion to privacy . They start at 6 AM and continue all day to 9 PM each day.
Jerome	Issaquah	WA	I pay for each call I make on my cell phone and for each disgusting picture I get sent. I don't want any more robo calls that I have to pay for. I also would like some way to eliminate calls from idiots I don't know.
Tana	Slc	UT	These are annoying, they never get answered by me, and they'd prey on the most vulnerable
Donna	Westville	NJ	These spam calls make me want to drop my landline. Why? PLEASE DO SOMETHING NOW TO STOP THEM.
Art	Powhatan	VA	Our phone rings with nuisance calls all day long, mostly robo-calls. We have caller id and don't answer the phone unless it's someone we want speak with. Still, it's annoying and we waste time having to delete messages. I installed a call blocker but some of the jerks have figured out something to not to allow their numbers to be blocked. It's an invasion of privacy and should be stopped.
Paul	Marietta	GA	We have a first rate postal system. Why do I have to have my home life invaded on someone else's schedule? Make them write a letter and promote the ailing mail service. I don't pay my phone bill so they can abuse it and me with bothersome phone calls when I'm most likely to be at home. Make them stop!
David	Ogden	UT	I have a smart phone that I purchased and pay for service for MY use. I didn't buy it so robocallers could harass me anytime they feel like it. I also feel they use MY phone to invade my privacy. Also, if someone has limited minutes on their plan, why should the minutes be used by robocallers?
Catalino	San Juan	PR	They are nuisance and affect your quality of life.

Thomas	Lenexa	KS	Robo calling, especially now with most folks using cell phones, cannot be allowed! They are. at least, an annoyance, and for many people, a method to be conned or harassed. Please, please follow the will of the people on this issue. You yourselves don't like Robo calls interrupting your lives anymore than us, so please do the right thing!
Jarod	Norfolk	NE	I cannot tell you how much of a problem these "disruptions", and frankly harassments, these calls are. Frustrating isn't a strong enough word. An Invasion of our privacy, is another way to put it. I receive calls, on my CELL phone, almost daily, sometimes multiple times in an hour, from many states phone #s. They don't answer when I answer. They'll leave a 1 second voice mail of dead air. If you do actually get someone, and ask to be put on do not call list, I've been told NO, and hung up on. This is out of control. Something with a penalty must be done to these troublemakers.
Ira	Coram	NY	Robo calls have become a kind of torture. Though I registered in the 'Do Not Call' list, lately such calls BOTH to my CELLPHONE and LANDLINE continue to increase. Some days more calls are robocalls than those from known people. It is an infringement of our freedom. And ... what's happened to the DO NOT CALL LIST anyway? Please take action.
Linda	Oakland	CA	No robocalls to cell phones now !
Ed	Charlotte	NC	I encourage you to establish tight restrictions on these nuisance robocalls. Unless a caller will identify itself nor leave a message, I have no use these disruptions. I find that 99% are merely an infringement on my time and patience. Please take strong action to limit this abuse of consumers.
Gary	Medway	MA	All robocalls should be banned with no exceptions.
Gregory	Ft. Mitchell	KY	I'm so tired of being harassed by the damn sales calls. Please stop them!!!
Michael	Verona	WI	Robocalls are my biggest problem with our telecommunication system! I absolutely cannot stand being called by a machine. If a debt collector or anybody else wants to get in touch with me, they should actually hire a person to make the call. It is just too easy and cheap for shady companies to abusively call people repeatedly if they are allowed to use computers. I implore you to require the following steps: (1) We should be allowed to tell them to stop calling us, and YOU should enforce this. (2) Debt collection calls should only be allowed to call a phone actually registered to the person in debt, and not to their friends or family. (3) There should be strict limits on the frequency of calls. I would suggest no more than once every 10 days. Thank you for your attention to this matter.
David	Norwell	MA	I am on the donotcall list for my cell phones and my home phone, I sign up every few years, and I still get robocalls everyday. It is time to stop all robocalls. Thank you.

George	NYC	NY	I'll bet that YOU hate robocalls, too. Think about it. I cannot see why robocallers think the recipient wants to PAY for being annoyed and interrupted by something equivalent to an obnoxious stranger. The right of Free Speech ALSO includes the right to NOT have to listen to something unwanted - the Right To Privacy, in other words. [This is also a clause in the Universal Declaration of Human Rights - You can look it up.] So, let's start with curtailing debt collection robocalls. Then let's ban robocalls altogether.
Catherine	Leominster	MA	Whether robocallers try to contact me through any of the following methods, landline, cell phone or text, without my permission or invitation to do so is a violation of my privacy. In fact, any unsolicited form of communication (including advertising/print solicitation) is simply a nuisance. Besides, most of the print solicitations that come from companies or organizations that I don't know or have a relationship with automatically go unopened and into the recycling bin. I should be able to easily OPT out or AGREE to receive communication in any form from anyone and to also be able to ASK for my preferred method of future contact. WHY should our government allow ANY unsolicited calls or texts from debt collectors, unless the call directly concerns people who hold federal debt? The proposed Robocall minimum limits of no more than 3 per month is still too much! In fact, WHY isn't there a federal law and enforceable penalties against individuals, companies and organizations who do not "cease and desist" from trying to contact you without your permission? If you can easily opt out or unsubscribe to any email that you don't want to receive in the future or move an unsolicited email to your junk or spam folder to be deleted, then WHY can't an individual do so with phone calls or texts? Furthermore, WHY can't this type of action be also be applied to all forms unsolicited communication? Grist for the mill! I hope you will seriously consider these additional proposed actions, beyond this issue of Robocalls, that I have suggested. If not now, then when? Thank you for your time and this opportunity to weigh in against Robocalls.

stefan	WEHO	CA	There are no need for robo calls what so ever. People are sick and tired of the endless calls about , sales for stuff, not ordered/interested in, and now we are further bothered by the STUPIDITY, CORRUPTION, and the ALL SO IMPORTANT GREED(coveting!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!) It is bad enough the U.S. government sends OUR JOBS OVERSEAS; The American People know BOTH the Senate, & the House ONLY gives a dam about only themselves, and paying off those big donations(THE 1%!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!) w/government favors, and whatever they can sell of their jobs when they retire(to the Millions/Millions they sell out the American People for!!!!!! Do what you were elected/hired to do, FOER A CHANGE!!
Jerry	Valencia	CA	They won't stop.
CARL	WINTER HAVEN	FL	We both have a hearing loss. We both have signed in to the National Do Not Call List and the Do Not Call List for our state of Florida. Yet unsolicited calls continue., especially from campaign robo callers. With a hearing loss, robo calls cannot be understood properly, there is no opportunity for repeated information. With hearing loss, there would be NO SALES OPPORTUNITY for the caller, nor would there be a campaign opportunity. Personally I would not vote for a candidate using a robo caller system.
Samuel	North little rock	AR	I feel that since all mobile phone users buy their minutes no no one should be able to waste any of those minutes giving the user a sales pitch
William	North Bellmore	NY	We are retired and tired of constantly receiving robo calls. We even were harassed when my wife mentioned we were on the do not call list
Chris	Normal	IL	Stop robot calls to cell phones
Marie	St. Louis	MO	Please stop these unwanted and disruptive calls.
Alix	Napa	CA	Enough with the robocalls!
steven	medinah	IL	i use my cellphone for personal and business calls. i dont need stupid robocalls to answer.ban robocalls on phones.
Don	Pittsfield	ME	Debit Collection Robo calls need to be limited to the person owing the debit & sent by U.S.P.O. Registered mail, return receipt requested than by cell phone as the person owing the debit may not have that cell no. anymore. It may now belong to a student who's in class, a sr. citizen, a Dr. or some other person who has no connection to the person owing the debit. Family & friends of this debtor may not even know where the person is or that the person owes a debit to some outfit like L.L. Bean for example. It may even be that the debtor is dead or has recently died.
Bill	Columbia	TN	They are annoying have nothing that I want and are mostly rip offs .I am presently on a do not call list that they totally ignore and when I put a block on the Number that they are calling from they change it often for that reason.

Charles	Louisville	KY	Robocalls are a daily pain in my neck! My wife and I get at least ten each day, split between our landline and our cell phones. As a result we only answer our phones if caller id shows it's someone we know. Nomorobo has helped with our landline by letting it ring just once. We need help with our cell phone lines now. You can do this.
Harold	Garden Grove	CA	I rely on my cell phone to connect with customers. When the phone rings I make a bee line to it. " your business needs us", "I represent" etc etc. This is disruptive to my work. Please do something to stop it. Thank you.
Charles	Allison Park	PA	Please put a stop to this. It is truly an invasion of privacy. Now they spoof caller id too. Should be illegal...
Mary	Poinciana	FL	I'm tired of getting robo calls. sometimes when I look at the number, I don't answer. Or, I answer and hang up immediately.
ROBERT	EAST SETAUKET	NY	NUMEROUS UNSOLICITED CALLS EVERY DAY ARE ANNOYING - NEED OPPORTUNITY TO STOP THEM FOREVER WHEN DEEMED UNWANTED - THANKS
Ann Marie	Evanston	IL	Please help stop predatory lenders and shady companies that rely on invasive robocalls. Please oppose robocalls to cell phones without getting permission. Please ensure that debt collection robocallers notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited and made only to those who directly hold federal debt - not friends or family. The guidelines should be clear and readily available.
Gary	Amarillo	TX	Please help stop annoying robocalls to my cell phone.
tom	paris	TN	please stop the robo calling on my cell number. I get all all night and day I have no privacy any more.
melvin	Sacramento	CA	These call are not wanted by me or any other person, we did not ask to be called, nor did we want to receive these call at dinner time or time being spent helping with homework, or sick or elderly family members, not answering call not solicited by us, me, you. Again, I me, you don't want these calls and they must stop.
Lee	Seaside	OR	Robo calls are just too much noise added to an already chaotic world. They are an unwanted form of advertisement, intrusive to a person's privacy.
Elden	Sequim	WA	No robocalls to my cell phones.
Ray	Manassas	VA	There are so many robocalls now that I typically get many more robocalls than calls from people I know. I'm tempted to just shut off cell calls for good. People I know can always text me I suppose.
Tania	Arlington	FL	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available

Adaria	Leonia	NJ	Robocalls to cell phones are horrible and must be prevented at all costs!
Aaron	Fallbrook	CA	My phone is mine. My number is mine. No one has a right to access it, or to call me. UNLESS.... I have given it to someone for business purposes, then yes, they have a right to contact me regarding debt, etc. Even then, this should be limited. PLEASE CONSIDER MY VOTE TO BE "ENACT THIS LAW TO HAVE THE STRICTEST LIMITS POSSIBLE".
Paul	Berkeley	CA	I have to pay for each and every minute on my cell phone, so it is especially irritating to receive unsolicited robocalls on it. Furthermore, the amount of robocalls on my cell phone has been increasing dramatically. DO SOMETHING ABOUT IT!
Jeff	Austin	TX	I've submitted multiple complaints to the FCC about robo callers who spoof their phone number in order to hide their identity. I get a call on a daily basis from a credit card company trying to get me to take their credit card. I know they spoof their phone number because when I try to return their call, I get an individual's voice mail. I also notice that the spoofed phone number changes every time they leave a message so I cannot block the calls either. This activity is already illegal but the law does not stop them. We need the telephone companies to use technology to prevent this spoofing and force callers to identify themselves accurately. Please take action today!!!!
Michael	Saint Louis	MO	80-90% of my home phone calls are robocalls, I don't even want to answer my phone any more
Anand	Clifton Park	NY	No calls without permission
Lou	Allen	TX	Give me back the right to stop being harassed by automated time wasting junk calls - I prefer to be contacted by Business I have initiated the conversation - Please help us !!
Ronald	Fort Collins	CO	I am tired of the calls from Rachel at cardholders telling me about a lower interest rate
Anne	Evanston	IL	Robocalls, from various numbers, come to my phone three to four times a day. They are relentless and should be stopped.
Marcia	Annandale	VA	I DETEST ANY ROBO CALLS, NOT JUST THOSE ON MY CELL PHONE. NEVER WILL DEAL WITH ANY ORGANIZATION THAT MAKES ROBO CALLS!
joe	Naples	FL	I get at least one robocall a day on my cell phone. Please make it stop. Thank You.
Lyn	Atlanta	GA	These robocalls are annoying and unnecessary. Frequently these calls come back to back with no message and no voice answers when you do pick up the phone. This is plain and simple unsolicited harassment by these companies/individuals trolling for personal information most of which seems an attempt to steal and gain access to personal accounts for money to the unwitting.

Sam	Savannah	GA	Debt collection should only be conveyed in person or personal correspondence. Calls to a cell phone are not the way to conduct this business.
Catherine	Egg Harbor Town	NJ	Our use of cell phones in the US should be protected by our government, restricting possible predatory businesses and fraudulent ones from violating our privacy.
S. K.	Gaithersburg	MD	Robocalls are an invasion of privacy and take away a consumer's right to choose. If I wanted these nuisance calls on my land line and cell phones, I would have opted in. However, I choose NOT to have robocalls in my life. STOP ROBOCALLS -- NOW!
Ed	New Braunfels	TX	I get at least 10 robocalls a day, sometimes from the same people. Some are solicitations and some are debt collections for my partner but none are necessary. They need to be limited.
Richard	Sacramento	CA	Robo calls should be prohibited in all cases unless the receiver has requested to be added to the list.
Herve	South Windsor	CT	These calls are annoying and use resources that I pay for and do not want abuses. End robo calls
Catherine	Hudson	FL	Any debt collection callers must tell people they call of their right to stop receiving calls in a manner that is easily understood. The calls should be limited to no more than 3 a month. Calls should be to only those that directly hold federal debt and not to friends and family of the debtors. all guidelines must be very clear , precise and readily available to all.
Jennifer	Indianapolis	IN	I like my privacy.
Jeffery	Scarsdale	NY	Let's change government and have it responsive to the people rather than the money. Who wants robocalls? Do you? No one but the abusive businesses that depend on abusive practices to make money. They make money, so they are willing to buy the lobbyists and corrupt agencies. Please don't be one of those. Jeffery Smith MD
Wendell	Parker	CO	By allowing robocalls to continue you are ignoring the will of the people. The do not call list is a joke - the administrators a ridiculous group with no mandate. You are allowing business to profit from the disregard for a legitimate system of protection for citizens. You are a disgrace. Please demonstrate some honor and enforce the do not call system. Thank you.

Ric	Anchorage	AK	FCC, say all you want, amend all you want, impose all you want, revise all you want. The problem to robo / telemarketing calls is YOU. Because at the end of all our complaints, your agency is NOT doing anything to these violators! I have complained incident after incident and you have done nothing! These violators continue on their unsolicited invasions because they know they can get away with it. I had one literally laugh at my face after I told them my number was listed in your "Do Not Call" list and proceeded to mock me and your idiotic list. I have given up complaining on your site as you dont even acknowledge that you will do something about my complaints. Your agency is a disgrace.
Christine	san juan capistra	CA	Robocalls are not only unsolicited, they are often political or sales calls.
Stephen	Livermore	CA	Please help stop robocalls! They are just one more invasion into what privacy we do have left. If you can take this one step to help stop them -please act to do so.
Stephen	Austin	TX	Robocalls are invasive as they interfere with our lives, adding irritation and disrupting our normal daily activities.
Gary	Sisters	OR	I urge the FCC to put a stop to the annoying robocalls that invade my private cell phone on an ever increasing basis!
Thomas	Englewood	FL	ROBOCALLS OF ANY KIND (INCLUDING POLITICAL AND CHARITABLE SOLICITATIONS) ARE AN INVASION OF PRIVACY, A TIME WASTER AND, UNFORTUNATELY A BIG BUSINESS. PURSUANT TO YOUR AUTHORITY AND AS PART OF YOUR MISSION TO PROTECT THE PUBLIC YOU SHOULD NOT PERMIT THEM. CERTAINLY YOU SHOULD NOT EXPAND THE GROUPS AUTHORIZED TO MAKE THEM.
Daryl	Bella Vista	AR	Please, please , please address this problem. Not allowing robocalls to mobile phones is a no brainer. It especially affect people like me who are on a fixed income with limited plans. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. Please make the guidelines clear and enforceable.
Thomas	Pence Springs	WV	I am very much opposed to the ability of entities to send unregulated robocalls to my home and cell phone. It is my belief no entity should be permitted to use this annoyingly harmful form of communication unless persons have opted-in to receive these calls/texts. At the very least debt collection robocallers should be required to notify those receiving calls of our right to stop receiving same. If permitted at all, debt collection entities should not be permitted to send more than three calls/texts per month and only to those who directly hold federal debt and not to friends and family. These guidelines should be clear and readily available.

Paul	Freehold	NJ	Consumers should not be subjected to robocalls on their cell phones. It is intrusive and annoying. Anyone who has chosen to opt out from receiving unsolicited calls should have the phone companies on their side to prevent such calls.
Nora	San Antonio	TX	I am sick and tired of receiving calls from all over the nation. My husband also receives the robo calls and feels the same. This must stop.
george	downey	CA	do not infringe on our privacy and peace of mind.
Audrey	Dallas	TX	The Do Not Call lists have not discouraged nuisance phone calls. When I recently blocked such calls on my cell phone, my land phone was the recipient of these same scammers using my name as identified caller. When Apple can block unwanted phone calls, why is this not available by A T and T for land phones?? Various scammers are blatant in leaving phone messages, particularly "being sued by IRS."
Ronald	Live Oak	FL	Please make Robo Calls illegal. I am tired of answering my phone and it just clicks and when you try to call back, it says this is not a working #.
Eileen	White Plains	NY	I'm sick and tired of getting robo calls online and would like legislation enacted to stop those and levy penalties against those who refuse to do so. Thanks.
Peter	Atlanta	GA	As consumers we are already bombarded with advertising. I certainly don't need to get them on a device on which *I* pay for the minutes I use!
Jackie	Loves Park	IL	Please end abusive robocalling. Debt collectors should have rules and guidelines to follow that allow them to pursue legitimate debts, but consumers still need some protections. I do not believe it is fair that debt collectors be allowed to harass people, incessantly call family or friends of debtors, call people's work places, and continually call cell numbers they are repeatedly told are not for the person they are seeking. Calls can come by the dozen and many will call in the middle of the night. There is no reason to offer bad collectors these rights. Please pass legislation to allow people to stop robocalls and to instate rules that protect people. Thank you.
PETER	Scottsdale	AZ	PLEASE DON'T WASTE MY TIME WITH ROBOCALLS ON MY HOME [LAND LINE] OR CELL PHONES. THEY ARE VERY ANNOYING!
Jack	Fayetteville	GA	Plain and simple, robocalls should not be allowed, especially to cell phones.
Anthony	San Clemente	CA	The number of incoming robocalls has reached a state that our family does not answer the home phone, nor do I answer my mobile phone, unless the phone number is recognized. This means that we sometimes miss important calls, but that is a tradeoff against the endless stream of robocalls.

Terry	Topeka	KS	I get at least one daily call from some company wanting to lower my credit card interest. I have repeatedly pushed the key to stop further calls, but they are back again the next day. And this is just one of multiple unwanted calls to my number daily. This should simply be stopped once and for all.
Victor	Webb City	MO	Please stop all robocalls. They are a problem to have these people call at all times. They truly are a bother and it seems that once they start they never stop. Please put a stop to them.
Robert	Wilmington	NC	Robo calls are invasion of my privacy and wastes my valuable time. I have called telephone numbers that supposedly protect me from receiving robocalls on my landline and on my cellphone but the frequency of robocalls is only getting worse. You have the power to fix this so fix it NOW.
Eugenia	Melbourne	FL	I am so tired of receiving telemarketing and robocalls (which do not even pertain to me!). I am registered with the Do not call registry, but it does NO good!. Currently I have at least 50 numbers on my Reject Caller list. But morecall each and every day! Make it stop!!!!
Robert	Park Hill, Ok	OK	I receive robocalls routinely and it complicates my symptoms of PTSD. How is it possible for such a thing to be allowed by AT&T. I am being exploited and if it was possible, I would dismantle AT&T and its predatory ways and start over with more compassionate executive leadership. AT&T is harmful to my emotional well being. STOP THIS NOW! YOU ARE ACTING LIKE A BIG CORPORATE BULLY. THIS KIND OF CORPORATE EXPLOITATION IS HARMING OUR COUNTRY. SHAME ON YOU.
Martin	Pekin	IL	We urge you to implement the following guidelines: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Paul	Phoenix	AZ	No Robocalls to Cell Phones!
Donald	Fairfield	PA	Virtually no one want to be bothered with robocalls.
Charlotte	New Bern	NC	End robo calls
daniel	albuquerque	NM	stop robocalls
Charles	Arlington	TX	Robocalls, originating primarily from "800" number telephones have become such a persistent daily nuisance that we are now seriously considering discontinuing our home's AT&T telephone service.
Bradley	Stevensville	MI	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Tom	Concord	MA	Are robocalls really necessary?
Dixie	Decatur	GA	Please take action to stop robocalls to cellphones!!

Lois	Pewaukee	WI	Please - no robocalls to cell phones! And ideally no robocalls period.
Pete	Naperville	IL	Stop robocalls and all unwanted calls to my cell phone. I pay for them!
Peter	Wakefield	RI	I get a minimum of 5 or 6 Robo Calls a day. Many times they cause me to drop what I may be doing the look at the caller ID and see if I know the caller. If the caller is unknown let the call go to voicemail and discard it later. If I am awaiting an important call I answer and get VERY annoyed with an unsolicited call. This is bad enough with my land line which has unlimited calling time ,however, with my cell I have to pay 10 cents per call which eats up my prepayment. Some of us have to handle our own calls and don't have help to filter our messages. I am on the "no call list" but that doesn't seem to mean anything to these scum.
Michael	Summit	MS	Robocalls are a waste of my time. 99.9% of the time I do not need their products or services plus they normally call at the most inconvenient time. This should also apply to home phones!!!!
Bonnie	Iron Station	NC	I support strong regulations for robocalls to cell phones.
Mike	Fort Stanton	NM	My wife and I constantly get robocalls - they know we are elderly and they are preying on us and likely millions of other Babyboomers. Who knows how often people give in to the robocallers and loose money. We have a few minor debts but the robocalling is incessant and interferes with daily life. I'm still working and they also call my business and cell phone which is not right
Lawrence	Orland Park	IL	I miss legitimate business calls trying to avoid all of the Robo Marketing Calls that I receive. I have rights too. Stop the Robo Calls.
Jim	Fort Wayne	IN	We are bombarded on both of our cell phones with unwanted ROBO calls every day. Most, as far as we were able to tell, are simply SCAMS !! We have at received in just the last few months at least 70 to 90 ROBO calls, however, we have been getting these calls for a much longer period of time. At the present, we receive two to three calls every day on each phone. What a nuisance this is !! It is time for this practice to stop !! The FCC should step in and halt these unwanted and sometimes disturbing calls !! Where is our government when we need it to especially protect our senior citizens from these numerous SCAMS ??
Joseph	Medford	NY	No robocalls

Walter	Maywood	NJ	There is nothing more disturbing, disruptive, annoying and aggravating than getting unsolicited phone calls especially on cell phones. I rarely use my cell phone as I want it to be for important calls and emergencies. When I get a call on my cell my heart rate goes up and my mind starts to feel concerns. Thus, when the call is from someone that is just disrupting my day, I feel hate, tension, and anger which continues for hours afterwards. I have never purchased anything on the phone, preferring to do so on line or in a store, thus solicitations by phone are most aggravating. Please do whatever you can to stop this pestilence Thank you.
Michael	Naples	FL	We can no longer answer our home (land line) phone. If it is someone we need to speak with, they leave a message and we'll call back. If it weren't for the fact my wife needs a land line for a medical device, we would eliminate it. For the past few years important calls from family and friends were easily received on our cell phones. I would readily answer my phone knowing my number was being used by someone I wanted to speak with. No more. Now 40% of incoming calls are from unknown numbers. I don't answer. It is rapidly becoming as bad as home phone calls. The calls can wake you in the morning, wake napping grandchildren in the afternoon, and are increasingly disrupting dinner. Please give us the tools to block these intrusions. Thus far we have found "do not call lists" to be highly ineffective.
Gloria	Fergus Falls	MN	I am sure that this problem can be fixed by AT&T. People pay a lot of money for our phones, etc. please correct this now.
Charles	Chatham	NJ	I spend alot of time screening out unwanted robocalls from my cell phone. I feel the government is selling out its citizens in this regard, as well as many others. Here are my suggestions for rules 1. No spoofing - everytime I screen out a number, it seems I get the same call again from a different number. I've looked up some of these numbers online, some of them aren't even from valid area codes. 2. I want to be clearly notified of my rights to stop receiving these calls. On the other hand, if I have a right not to receive these calls, I'd like to be on a do not call list. Oh wait, I thought I was already on one; FCC does not seem to be paying attention. 3. I want a limit on the number of unwanted calls - 1 every quarter is about right. 4. I want an easy way to know what the guidelines are, and an automated system for enforcing them. If the FCC is going to allow this stuff, then how do I know they are even going to enforce the guidelines?
Dianne	Marcus	IA	Stop these call, we can't get them off our phones
d	manchester	CT	These calls are so annoying and they serve no purpose.
Alan	virginia beach	VA	stop robo calls also, my home phone is being blitzed. I got a robo call from lawyers looking to sue

Jerry	Bloomfield hills	MI	I am against robocalls! The calls are an intrusion into my space and time. Put the shoe on the other foot! No calls without written authorization from the person being called. Fine any person and or company a minimum of \$50.00 per call made without authorization. Use the proceeds to enforce the requirement. Is there anyone, anyone, who wants to receive robocalls? I think not, so how can a government agency think it's ok?
Beverly	Oak Park	IL	Any kind of solicitation calls to my phones are an invasion of privacy and theft of my time and money. I pay for my service. I do not want anyone to steal it!!
John	Bloomington	IL	Dear Sir/Ma'am: Please proceed with the necessary measures to eliminate unwanted robocalls, especially from debt collectors and unsolicited sales promotions. These calls waste my time and are an obnoxious intrusion throughout my day. Thank you for your efforts and time. Sincerely,
Dale	St Louis Park	MN	After my mother died in 2008, I was hounded ceaselessly by a debt collection agency to give them "current" information about her whereabouts. I didn't answer their phone calls or call back because I didn't know what that would mean for my privacy. I found another way to call them directly from a landline at work. I was able to review the multitude of misinformation the agency had on my mother. Their records showed her living at addresses she had never lived at. The quantity of MISINFORMATION the agency had collected on someone with her name was astounding. The agency apparently was totally ignorant of the fact that it is easy to mistake the identity of people who have a common last name, as my mother did. If I had been able to opt out, I would not have had to endure the debt collection agency's irritating calls--especially when the calls are about a relative's "supposed" debts, which are based on the agency's misinformation.
John	Hastings	MN	this is a breach of our privacy
John	Lake Wales	FL	Calls while asleep, while eating dinner are the worst...
Robert	Arlington	VA	I get daily calls: soliciting, perhaps hacking. Wrong numbers are few, but annoying is robocalls. They should be stringently regulated (please).

D	Enid	OK	One of the main reasons that I got a cell phone was to avoid the irritation of being advertised at. I use the cell phone for business and emergencies. The last thing I need is for the phone to ring when I am on top of a ladder, just to have a disembodied voice say "please hold for the next available assistant!". I causes me no not answer the phone at all. What's worse is when they text me - I do not have texting on my phone! I get charged for every one of these wastes of my time! Do I not have the right to not be harassed by corporate america while I am trying to work?!? At least I am working, than's more than I can say for these greedy types who suffer from cranial/rectal inversion.
Dan	The Dalles	OR	Sir, I am sick to death with "RoboCalls" both to my cellphone and my landline. I have done the Do Not Call List for both, and I still receive several a month, which I normally report to seemingly no avail. It is also my understanding that the the exceptions granted to debt collection entities are incredibly liberal, including relatives of the party that incurred the debt, and phone numbers that are connected to the party, whether they currently are or not. It would seem that putting strict controls on this area would be wise also. Perhaps including limitations on calls to the indebted party and ways to totally stop the calls to others that have been affected! Any help you can provide would be greatly appreciated!
David A.	DUNEDIN	FL	I RECEIVE AT LEAST 5 OR 6 UNWANTED ROBO CALLS EVERY WEEK DAY. PLEASE STOP THIS INVASION OF MY HOME.
Joseph	Vicksburg	MS	Way too many robocalls - please help your customers stop this.
Press	Port Orchard	WA	Just like you don't enjoy IVR's, talking to humans is a human's job. You're human as well. Please take the responsibility to make sure we stay a human populas. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Judith	Warwick	RI	I get calls starting at 8AM and going to 9PM. Some days they are one right after the other. I only answer calls from people or numbers I know. If I don't know the number I don't answer the call. But they keep calling
Alwin	Lewisport	KY	Please, Please put a stop to robo calls
Raymond	Syracuse	NY	Please ban robcalls. They are are a major nuisance and are scams to get money or information from the people they target.

Dennus	Gardner	MA	The robocalls start then wont stop. I understand they run a business but enough is enough. I was looking for information about solar roofs. Unfortunately online you have to provide information and have to acknowledge that you will be contacted via phone and email. I got called all the time sometimes minutes apart. I finally got fed up answered the call agreed to have an email sent to me pertaining to solar roof. I got 8 calls in a row from the telemarketer. I called back to find out that my telephone number was in a clearing house and many telemarketers have. Then when I got the email all it had in it was a name of a solar company. Then they started calling over and over again. Now what I find amazing is the first calls are not with a human but rather a machine. You answer but get no reply just dead air. I have tried blocking but the companies use many different numbers to reach you. It has become a mess and if you are requesting information online you're inudated with phone calls. I have requested information for mortgage refi and roof solar panels. Now my number is out there and the calls come, bad mistake on my part.
Joseph	Manchester	MD	We Can not even eat our dinner with out being disturbed by ROBO CALLS!! Please give us the option, by law, to discontinue these annoying calls.
Ed	Fort Lee	NJ	I get half a dozen robocalls a day, minimum. every day, Sunday mornings included. As soon as they detect my answering machine is picking up the call ends. Sometimes my answering machine greeting plays and then the call ends. I've turned off my phone ringer and just let my answering machine pick up so, most of the time my phone lights up indicating an incoming call and then it ends. These are unsolicited calls
Peter	North Windham	CT	RoboCalls are a waste of ALL Americans time and time is money. Stop them now, all of them!
Eric	Berkeley	CA	Turn your back on all of the money those selfish companies are throwing at Washington. Do what's right. Show them you can't be bought.
Mark	Dunwoody	GA	Please show mercy and stop robocalls to cell phones which: - Interrupt my business - Interrupt my personal life - Cause me to ignore wanted and needed calls - Harass me for no reason - Are increasing in frequency
William	Missoula	MT	Robocalls are extremely irritating even when the come to my landline, often because the callers are not required to use their correct Caller ID (why is this allowed?), and so there seems to be no way to get them to stop (assuming they would even stop if asked). It's doubly irritating when robocalls come to my cellphone, as my cellphone is much more "immediate" and expensive.
Angelica	Converse	TX	Please, no robocalls to cell phones!
Debra	San Jose	CA	no robocalls to cellphones!

Anne	Bayside	NY	Robocalls are annoying and unasked for. Prevent these people from calling me. If I want or need something I will call them. Stop them from disrupting my life at all times of the day and night.
James	Port townsend	WA	Unless I grant permission no robocalls should I receive! Please protect my privacy and my personal right of self determination.
fred	LEBANON	OH	If I could get my hands on (Rachael) who calls me almost weekly about my credit card, there might be a murder. Please, Please, stop this nonsense
Dawn	Livingston	TX	We are senior citizens that live in our RV. In order to receive viable Internet it is a part of our cell phone service, which is the only phone we have. Each wasted phone call uses up data on our limited plan besides being annoying. Even though I may block the last number from one of those entities, within a day or two we've received another from the same entitiy, but from a different number in a different state - so we have NO WAY OF BLOCKING THEM UNTIL AFTER THEY HAVE CALLED!
Suzanne	Austin	TX	It is time for this madness to end. I have been besieged with these hellish calls sometimes as many as 8-to times a day starting at 8:00am to 10:00 pm. I have more important things in my life to take care of . I'm sick and tired of this constant aggravation!!! This is totally unacceptable. Stop it NOW!!!!
Michael	North Brunswick	NJ	Robocalls are an invasion of the privacy of my home. They do not respect the no call list.
William	Port Saint Lucie	FL	These calls causes one to miss calls they would accept.
Jim	Cambridge	OH	If a call is so "Very important to us" why is it not important enough to be placed by a real, live, human person? Although I don't have debt collectors calling me, I still hate to be called by a computer which rarely understands my responses no matter how human the programmers try to make it seem. I guess I understand a company's right to use available technologies for their business. However, why am I not allowed to use call blocking (an available, but not provided, technology) for my personal business? It just doesn't seem fair. Also, the "do not call list" seems pretty ineffective. Let's level the playing field and let us telephone customers use as much technology as the telemarketers.
Matt	Harrisville	NY	Many poor and those in the middle class have pay as you go phones or plans that they can afford but does not have a lot of data and with only so many minutes of data needed to communicate with family; children, the elderly, the sick, and loved ones means that robocalls could easily impact the ability for real and meaningful communication. For those precious minutes to be eroded into with unwanted robocalls and solicitations is not only wrong but can be expensive for the phone owner/user. Robocalls should not be allowed to harass mobile phones.
christina	melrose	MA	No Robocalls to Cell Phones!

William	Mill Spring	NC	The number of robocalls I receive each day is maddening. I do not answer my phone unless there is a message I want to respond to. Many calls that I may wish to receive are delayed unnecessarily. Please allow better ways to assist customers and the general public.
Sonia	cambridge	MA	Please end robocalls to cell phones! I pay for the minutes!
Brian	Pequea	PA	Robocalls are not just annoying but suspicious. Half the time there is dead air on the line -- no recorded message or anything. You do not know if it is just a solicitation for money or someone checking if you are home so they can come and break in.
Nick	Red Bank	NJ	Please disallow or at least strictly limit the use of robocalls to cell phones. I will get disrupted by an unknown number that doesn't leave a voicemail for multiple days in a row, then after a few peaceful days the cycle starts again. I get unnecessary calls at dinner time or early in the morning after a hard days work the day before or even while I'm at work focusing on my job. Please do all you can to eliminate this unnecessary nuisance.
Jeffrey	Brooklyn Park	MN	Have you not heard enough from the public for years upon years now to put a stop to robocallers on land lines and cell phones?? There is no reason in this day and age for this B.S. to be going on and on! Time To Stop Them!!
Joyce	Hampton	NH	-
Tom	Groton	MA	Please STOP the endless robocalls! I'm on all the blocking lists: doesn't seem to matter. Thx, Tom S.
Lois	Duxbury	MA	please uphold our Do Not Call status! we're getting MORE junk calls than ever!
Richard	Newark	OH	We are in a different world with all the communication technology we have. It seems to me we should be able to limit the electronic calling to only those organization that we have given specific permission. Robocalling should be eliminated for line and cell phones with this same criteria. This would include political contacts.
larry	brainerd	MN	robo calls need to end, especially for those of us on a limited income, as minutes from robocalls go against our calling minutes.
Robin	Loyalton	CA	We continue to receive unwanted robo calls even later in the evening that wake family members that have early morning jobs and kids that have school the next morning. The phone is paid for by us for our convenience and as a safety measure in an emergency, not for telemarketers and scam artists to harass us at all hours. Please help working citizens obtain privacy and quiet in their own homes by regulating these bothersome calls.
David	Plano	TX	I am tired of answering my phone to talk to a computer. AND then blocking them from calling again. I am tired of them interrupting me and wasting my time.
Rolanda	Brooklyn	NY	Robo calls are annoying. If someone wants to speak with a company, they can look it up!!

Bryan	thornton	CO	I have never been in a position to where I've owed anyone money but I have been on the receiving of debt collectors looking for someone else. Debt collectors are unscrupulous and have no issues about harnessing who ever picks up the phone regardless of whether or not it's the right person or not. They don't follow the existing rules right now, even when they are informed about the laws, they still disregard them. Giving them a slightest loophole will cause this problem to get a lot worse and then we will have to deal with everyone else exploiting these new changes as well.
Frank	Maplewood	NJ	No robocalls to cell phones!
Earl	East Canton	OH	Receiving unwanted calls on your home phone is bad enough, receiving unwanted calls on your cell phone, where you are charged by the minute, adds insult to injury. It's just plain wrong! You can stop this assault on our privacy and pocketbooks.
Kermet	Waterford	MI	Please stop these awful robo calls by Cell Phone or any other phone Please.....
malashon	lubbock	TX	Stop robo calls to all phone lines, whether cell or landlines
Andrew	Pittsboro	NC	No robocalls. They are invasive, deceptive, and you have no right to bother me on my phone that I pay for. If I want something I will call you. Don't call me.
Scott	Everett	WA	The first amendment does not protect unwanted speech that invades a citizen's privacy.
Don	Indianapolis	IN	Please end robocalls to cell phones. They are annoying, waste time and money and are nothing but negative. Thanks.
JOSEPH	Wellesley	MA	I am 74 , retired and frustrated. Almost every day there is at least one unsolicited call on my telephone. Whenever my phone rings I moved as fast as possible to answer it thinking that it might be one of my children calling only to discover 90 % of the time that it's a robocall. I'm tired of this and want it stopped but no one seems to care.
Carrie	Oakland	CA	Robocalls are an invasion of privacy. Please stop them now.
WILLIAM	Charlotte	NC	My phone number is for my personal use and emergency use only. Any non emergency robo calls should be absolutely prohibited. Any solicitation calls, robo, scam or otherwise, should also be prohibited. Any uninvited phone calls should be prohibited unless for emergencies.
Rashid	Oakland	CA	I have a cell phone for use in emergencies. I needed it to call an ambulance just two days ago. I do NOT want to have unsolicited robocalls tying up my phone - ever! I don't want to risk even a remote chance of that happening! NO MORE ROBOCALLS!!
Dana	Brandywine	MD	Please work toward ending the constant flow of robocalls to cell phones and landlines. They are overwhelming. My phones are ringing all day, every day, with pitches and scams, even overloading my voicemail so that I can't get other messages. Enough is enough--it's my phone, and I should have an easy way to stop these unwanted intrusions.

Michelle	Bakersfield	CA	Please stop calling us to harass us - often there is no one on the line, just a computer and then the line is disconnected and receiving call like these while driving, walking and or working could literally be dangerous! Robocalling is an unfair, greedy practice.
Kurt	Las vegas	NV	Privacy is the issue.
Walter	Lake Jackson	TX	Please end ALL robo calls. Robo calls are coming in on my cell phone now and using up my limited minutes. I am on Social Security and do not have unlimited funds.
Douglas	Osseo	MI	Get calls all the time from unsolicited companies. They are robocalls. It must stop!
Steven	Edinburg	TX	There is something wrong with being harassed day in and day out by shady calls. It's impossible to tell what is a genuine call and what is shady. End this nonsense ASAP!
Don	Frederick	MD	Please do not allow debt collectors, or agencies to send robocalls to my cell phone. Please strengthen these proposed rules!!
Nancy	No Palm Beach	FL	No one should be subjected to unwanted interference in their lives! Robocalls are harassment pure and simple!
Tim	bf	NM	I got into a verbal word fight with an unknown ass ,on the other other end of the phone. It's my phone paid for by me, but controlled by an ass with no penalty for the harassment, barrage, verbal assault. It got to the point of whose mother was the worst parent. Since I am stubborn ass it lasted most of the day. Boy the insults flew, but if I had an option for the unwanted barrage I would have opted out. Since the only option was to stoop to their level that's what I did. EXHAUSTED, that's how it left me . No stopping them no relief for the innocent.
Sylvester	Tuskegee	AL	I personally do not want robo calls from anyone that is associated with debt collectors, cruises, or anyone I or my wife have not approved. I want their company they are calling from.
ron	greenbrae	CA	Please assist with stopping cell phone robo calls. I pay by the minute and each one of these unsolicited calls cost me money
Byron	Detroit	MI	Please end Robocalls, post haste! Debt collection robocallers must notify us of our right to stop receiving calls because they call with a relentlessness that's harassing in nature. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. I have family members - who do NOT live with my mother - whose financial troubles, nonetheless, plague my 90 year old mother, which is totally insane! Therefore, the guidelines should be clear and readily available to protect people from persistent, unwarranted harassment. Thank you very much for your time and careful consideration!
David	Denver	CO	Phones are for people to dial and talk.
Cheryl	Duxbury	MA	Please end the endless robocalls we get. Asking to be taken off their calling list doesn't even help. More family/work time gets wasted answering these incessant phone calls. It HAS to end!

Thomas	Stillwater	MN	PLEASE stop unwanted calls to my cell phone from companies I have not contacted trying to sell me products and services I do not want. I am particularly aggravated by robo calls that do not give me an option to have my number removed from their calling list.
Patricia	Wilmington	DE	Robocalls or texts are invasive and add unnecessary costs to cellular service. Stop this now !!
Debra	Douglasville	GA	Robocalls are annoying!
Neil	Torrance,	CA	Could you imagine how much energy and resources are waisting to take care of this unwanted calls? Please think economically. due to vast un-regulated this calls, everyone including seniors are suffering.
dave	lexington	KY	What a nuisance, these endless unwanted calls to our land line. The FCC should take stronger action to identify and prosecute these scoundrels. Enough is enough, why cant they be stopped?
Judith	Annapolis	MD	Please do not allow any robocallers to call cell phones without permission!
Michael	Cincinnati	OH	I am a physician who is increasingly bothered during office hours by robocalls. This is distracting and disruptive and should not be allowed.
Deborah	Marlton	NJ	Whether they are debt collectors or advertisers, nobody wants robocalls on their home phone or especially their cell, where it can affect your bill. That goes for texts too. The Do Not Call List was fairly effective but hard for those who wanted to make these odious calls to follow; guidelines for robocalls need to be crystal clear: DON'T MAKE THEM!!!! It is just a way around Do Not Call, and nobody STILL wants to be called. We ought to have a right about who invades our homes and pockets. End the madness!
Melinda	Springfield	IL	Please stop all robocalls from debt collectors. Despite rules to the contrary, I have experienced calls at all hours and numerous times during the day. I don't have a debt collector problem now, but when I did the calls were more than meddlesome. Contact between debtor and collector should be in writing only.
Tisha	Mesa	AZ	I can't answer my phone to any unknown callers and I have to delete unnecessary voicemails from these awful companies harassing me to buy things I don't need or can't afford and would never be interested in. It should be illegal. It's just like payday loans scamming the poor. They should be illegal.
Lisa	Magnolia	TX	As a consumer and constituent, we urge you to please honor individual privacy and do what is right for us. Robocalls to our cell phones without our permission is a violation of our rights. The laws should protect our rights and give us an avenue to limit the bothering and privacy intruding practice. Thank you
John	Budd Lake	NJ	Stop allowing this invasion!

Lynn	Perryville	MD	My cell rings at least 3-6 times per day from robo callers. Even when I add the numbers to a reject list, they get through again or call from a number one digit different. I am on the Do Not Call list but it doesn't help. This has to stop.
George	Greenville	SC	Robocalls are an outrage, no matter what company's machines are making them. They are, in reality, a blatant and vicious attack and not a means of communication. Interruptions when eating, sleeping, showering, or tending a baby are not only invasions of privacy, but can be hazardous to a persons physical well being should he be forced to leave a child untended, hurry off of a stepladder, or reach for a cellphone while driving. Not only is there a danger factor involved, but a robocall demeans the recipient because there is no way for him to respond with facts or questions. It's time to outlaw every form of robotic interference in a private individual's life. It's time to render the machines obsolete, and prosecute the people who are disrupting our lives by sending them to attack the innocent public.
Louise	Lenexa	KS	These are not productive, they are invasive and can present a hazard - cause distraction from what you are doing: walking across a street, driving a car, assisting an elderly loved one, playing with your children, cooking, etc. We do not need this invasion in our daily life.
Linda	Decatur	GA	Robocalls are a pain in the * **. Stop them now, please!!!
Charles	Circleville	OH	Robocalls have reached the point where they are harassment. One telemarketer calls 8-10 times a day. Yesterday we had 4 calls from the same number by 11am.
Anna	Martinsburg	WV	I am sick and tired of being at the beck and call of every marketing robocall that the companies in the US wish to make. Give me a break....
Caryn	Glen Carbon	IL	Robocalls are inescapable stressful intrusions on the quality of life in my home and business multiple times every single day. Just having a phone should not make citizens vulnerable to these needless assaults on peace and privacy. Please make them stop.
Harry	Kennesaw	GA	Robocalls annoy the American people far more than they help the companies that generate them. Robocalls are an invasion of privacy, a waste of cell and land line phone time and bandwidth. Now is the time for the FCC to step forward and represent the interests of the American people who are paying the salaries and benefits of FCC staffers and ban ALL Robocalls!
Bob	Surfside Beach	SC	Please, please stop the madness from robo callers going on today. They call my home phone and they call my cell phone even though both are on the DO NOT CALL LIST. Sara and her friends from Consumer Services are the biggest abusers of all. Every day between 3:00 and 3:30 PM they call my cell phone. It is so bad I keep the ringer muted. Over the years they have called me over a thousand times. STOP the madness and give us back our peace and quiet.

Richard	Incline Village	NV	Put the public interest ahead of the businesses that are invading our homes with unwanted intrusions from robocalls.
Richard	hendersonville	NC	please do the right thing and stop these robo calls
Donald	North East	MD	I get as many as 4 robo calls per day. It's hard to live with this.
Joan	Berkeley	CA	Please put a stop to robocalls and unsolicited sales calls on cell phones. The DO NOT CALL list needs to be extended to cell phones.
Linda	Santa Barbara	CA	Robocalls are both an invasion of my privacy and a drain on my valuable time. It's not enough that I can block some numbers, since those companies that make robocalls are adept at creating an endless supply of new telephone numbers. One other thing before I go; lately I've noticed that some of these calls begin with "We're returning your call regarding the new back brace." I can easily see how this could trick an older person into believing they might have somehow invited this call. Please end this pestilence.
Richard	Marion	IA	Please do not allow robo calls to cell phones. For the the last 3 years I have been getting both person to person and robo calls to my cellphone which are of the illegal type (I checked the exact type allowed.) I reported these to the DO not Call system and they do not let up. I have no past due debts (always pay within 30 days). As I understand it, the FCC is considering allowing robo calls for defaulted student loans to be made to parents (who are not responsible). Our son has enough money to pay yet will not. This is his issue (along with other issues) Robo calls of this nature will cause a huge public outcry, one the FCC will have to answer to. I request you add more effective ways to punish the wrongful ways I am being robo called right now. It is time to make these type of calls be fined \$10K first offence, \$100K 2nd, 1 Million 3rd and so on. Then let all the people be able to use a class action suit to make these violators pay. I still get the "Expired auto warranty" telemarketing calls and I have never contacted these people about their products and I have a factory lifetime warranty, so they do not have their facts correct and just assuming.. Also If you do decide to make changes, at least include: Debt collection robocallers must notify us of our right to stop receiving calls; The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Jane EG	Raleigh	NC	Our landline phone receives calls daily from scammers telling us that there is a problem with our computer. We know the disruption such persistent calling makes; it has altered our use of the phone and we have considered dropping the line solely because of these calls. How much worse it would be to have one's phone flooded by robocalls for debt - especially if that debt is not one's own. I ask the FCC to restrict the number of calls and texts to a monthly call and those calls should be made only to those who hold the debt. There must be a clear and simple way to stop receiving the robocalls and each robocall must include that information. There also should be a clear and simple way to contact legal authorities to pursue robocall companies who ignore requests to stop or in other ways break the regulations. Finally, enforcement must be fully funded and staffed. Thank you.
Lois	hollywood	FL	We average 10-15 roboocalls each day. These calls upset the lives of elderly people by waking them from naps when they finally fall asleep after dealing with pain throughout the day. These roboocalls make them get up quickly to answer the phone which could cause an accident endangering them. Phone ringers must be left on for them to hear real calls coming in.
Ardythe	Cherokee	IA	I tried to send an email yesterday, but it wouldn't go...Internet overloaded! I am over 70, had 3 Robocalls yesterday...typical day. I have a very bad back, that cannot be helped medically, & it is such an effort to reach the phone, plus totally unnecessary! We still farm, do not have Caller ID as it may be a family member needing help, or livestock that has escaped the fences (we border a busy highway.) These are just plain nuisance calls (a waste of time...don't understand what it gains them?) I've tried to follow the phone trail to a live person, only to hear swearing, obscenities, & threats. Really! How can these intrusions be allowed?! Thank you for allowing our opinion, please act in our favor! We are respectable, God-fearing, hard working citizens of this great country.

Jean	Mequon	WI	<p>We are retired and therefore home a lot during the day and evening. We receive several robocalls each day. Even though we have caller ID and do not answer most of the calls, it is a rude intrusion on our lives each time the phone rings. We have to put up with the ringing of the phone, followed by the loud buzzing of our answering machine. And sometimes we do answer the phone because we are unsure of the number that appears, only to be quite annoyed at being sucked in to the call. We can, and have, blocked the numbers from our phone, but it is a waste of time to do because the robocallers continually change the number by one or two digits and continue calling. Letters to legislators are met with useless form letters in return. I wish there could be a way to forward all robocalls to legislators and FCC members - and by that I mean to their personal phones, not phones that staff members could handle. I think that if the people who have the power to stop this problem would actually have to deal with what the general public does day in and day out that there would be some pretty swift legislation. I know that the FCC, legislators, and phone companies are not as powerless to deal with robocalls as they pretend to be. It is time to step up and respect the needs of the public rather than pander to lobbyists and others with power and money.</p>
Jim	Southport	NY	<p>I have received numerous calls on my cell phone from a debt collector that has my cell phone number for the debtor. it appears that the creditor is switching collection companies in order to collect the debt owed. When I answer the call and explain taht i am not the debtor they advise they will remove my number from their records but it never happens. very annoying</p>
Jon	Cape Coral	FL	<p>I don't care what a robo call is about...they are ANNOYING and time wasting. I have been on the National Do Not Call List for years but I keep receiving MANY unwanted calls, and many of those are robo calls. DO YOUR JOB and START ENFORCING the law.</p>
Sherri	Etna	NY	<p>My cell phone is on the Do Not Call Registry. But despite that I get endless robocalls from Scammers & Spammers. They do not care what the governments rules are in regards to the Do Not Call Registry. I get billed by my Cell Phone provider for all of these phone calls. Phone calls for things I have no interest in. I should only be getting sales calls from companies I seek out. As far as I'm concerned these calls are a form of harassment. An as such, they need to be stopped.</p>
David	Marana	AZ	<p>Robo calls are very disturbing and un necessary -We have same calls all day long on the.. same subject .. they do not take " no " for an answer. This is one of many call receive almost every day Thank you, David Buxbaum</p>

Thomas	Fort Mill	SC	Please issue a ruling that would effectively outlaw robo calls to cell phones. It can be dangerous to have the phone ring when driving or doing other activities and it certainly is a total waste of my time and bandwidth. I try to use a call blocking app but it's not always effective and the callers change phone numbers frequently. I'm thinking especially of a credit card consolidation "service." And of course people who don't have smartphones can't use such a call blocker app anyway.
Marvin	Potomac	MD	Robo calls are an intrusion on our time and energy! Ban them.
Stephanie	Portland	OR	I work as hospice chaplain, and not only do I get robo calls on my personal cell phone, I and my colleagues have begun getting such calls on our hospice field phones. This seriously disrupts our work with dying patients and grieving families, and MUST BE STOPPED! Please.
Tim	Cape Coral	FL	Please stop all robocalls to cell phones. Cell phones have become an intricate part of our lives and are much too important to be used for the convince of a few or the use of scammers taking advantage of the elderly. As a senior, I Vote!
GERALD	FORT MILL	SC	It is beyond ridiculous that I am continually molested by robot calls to me cell phone. I am 76 years old and am really upset by these calls.
Tom	North Palm Beach	FL	I take care of a handicapped family member. With these robocalls coming in at all hours of the day and evening, it hinders my working with the family member and distracts me as well. And I have to answer these calls because it could be a doctor or therapy agency. Needless to say, I am really aggravated by these calls!
Bill	Pottstown	PA	I've joined every do not call list innumerable times and these calls keep coming. Even when I file formal complaints, the State of Pennsylvania does nothing..WHY NOT!!!!
Alan	Merrick	NY	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Chris	Bensalem	PA	Stop the junk now!!!
r.a.	Niles	IL	No More unwanted calls! PLEASE
Karen	Conroe	TX	Just stop it! My phone is for my use and I'm tired of these unwanted and distracting calls even when I am driving my car. Your DO NOT CALL LISTS are a joke. I get more calls now than before I signed up. Please do your job. I've even been called by a sham IRS person which thankfully I knew was a scam before hand. PLEASE DO SOMETHING!!!!
Simone	Mendocino	CA	Stop bothering me with stupid calls about things I don't care about.

Hartold	Fort Myers	FL	I receive about 15 robo calls a day on my cell. They start coming in early in morning (7:30 AM) and as late as 10PM. It's no different than my landline except there is even more calls! I have had it with them and the [people who can do something about it. Make it a punishable crime with a real deterrent penalty PS: While typing this I got 2 robocalls on my landline. (My cell is shut off)
Donald	Scottsdale	AZ	Sick and tired of the numerous Robo calls we are receiving on a daily basis. A lot of these calls are recorded. It appears the FCC has no ability to monitor or enforce these Robo calls even though we are on a "DO NOT CALL" list.
Tom	Saint Louis	MO	Dear FCC, Stop the robocalls. Stop all the robocalls. I'm tired of getting them when I am driving, relaxing, working, eating, etc etc. This is a quality of life thing for an entire nation. You have the power to make things right. Use it. thank you, Tom Ryan
Debby	St. Paul	MN	Debt collectors call without notifying the receiver of their right to stop receiving calls. This must stop! There MUST be a way to opt out without signing up for more calls. There must be a limit to the allowed calls. And there should be NO TEXTS ALLOWED. Many poor people (and others) pay for every text, whether incoming or outgoing. It is inexcusable that an unwelcome robocall would use up limited texts or limited calling minutes. My cell phone is my private way of reaching me. I give it out, but it is not acceptable for outsiders to be calling me. All guidelines for allowing calls to those with federal debt must be clear and must be readily available. This includes providing opt-out information during the call itself.
Teresa Prunty	Rowlett	TX	Robocalls to landlines have been out of control for years & now it's happening with our cell phones as well. We routinely receive collection calls for a relative who does not live with us & hasn't even lived in the same city since 1997 & with whom we have no contact, yet telling collectors that doesn't stop them from calling us again & again. We don't even know how they got our number. Although we have all of our phone numbers registered with the "Do Not Call" list, we still receive unwanted calls from unknown solicitors who simply hang up when we tell them that they are violating the law by calling us. Please, something must be done to prevent robocalls or at least to regulate them on both our landlines & our cell phones. You have the ability to do this & the American public deserves it. Please do the right thing & end the robocall dilemma now.
paul	downingtown	PA	stop robocalls to cell phones
Terri	Marion	OH	Stop these ROBO CALLS NOW!!! When phone rings our adult special needs son SCREAMS!!! SO PUT A STOP TO THESE CALLS ASAP!!!

Harry	Kennesaw	GA	ALL members of Congress are sent to Washington to represent the people who elected them. Generators of Robocalls may contribute to political campaigns but did not elect you and your colleagues. It is again time to put the interests of the American people ahead of special interests and ban Robocalls! Now!
Kate J	Clinton Corners	NY	My God, what ever happened to peace and quiet? It's like being the focus of a swarm -- but blunt-edged, with frequent hang-ups and stumbling.
Larry	Cooper	TX	It's aggravating enough to get robocalls on my home phone. But, it's extra annoying and frustrating to get them on my cell phone. My phone contract charges me for each and every phone call. I'm not interested in anything a robocaller is selling or pushing, and I sure don't want to pay for it.
John T	Walpole	MA	I feel my privacy is being invaded by people and businesses I do not want to talk with or deal with and I have to pay for the call.
Dean	Aiken	SC	We get about a dozen of these calls per day, often from the same caller; that's beyond ridiculous. I call it harassment--what else could you call it? Don't private citizens have some rights too? Enough is enough. Stop the unwanted calls now and forever!
Luke	Midlothian	VA	sick of robocalls
James V	Bloomington	IN	Please consider limiting severely robocalls which frequently plague recipients with attempts to scam them. This is particularly true for senior citizens. Additionally, the obtrusive calls received more and more frequently are annoying while diverting our attention from other more important activities. Currently, having placed one's phone numbers on "Do-Not-Call" lists seems to have little effect in preventing these unwanted calls. Thanks.
Teri	Prairieville	LA	I find it incredible that citizens have no protection against the constant barrage of scam calls, as well as erroneous collection calls and sales calls. There should be clear and swift action that can be taken to stop individuals and companies from engaging in unethical and unlawful calls. Its time for the fcc to actually protect its citizens in a meaningful and effective manner.
Arnold	Plainfield	IL	Access to our cell phones should be limited to a as needed or essential communication. Unwanted solicitations should cease . If debtors are initiating the calls , they should be limited and we should be informed of our right not to receive robocalls. I have my number on the do not call registry and I still receive calls, what good is the registry?
Louis	Rochester	NY	Stop Robocalls they are annoying.
Russell	Atlanta	GA	I support strict guidelines on all robo calls including debt collection calls.
Jan	Soquel	CA	I have a right to privacy and solitude. Disruptive, unwanted calls made to solicit business I did not ask for, and do not want, is unethical and should be unlawful. Stop robocalls!

Sharon	Durham	NC	I urge you to adopt the strictest policies available to protect consumers from robocalls. I resent that companies feel that my phone belongs to them, and I have to pay for their calls. Although I owe no debt, I have often received persistent calls for someone with the same last name and first initial. Asking companies to stop and explaining they have the wrong person were useless. For those who do have debt, robocallers should notify callees of their right to stop receiving calls. Guidelines should be clear and readily available. The number of allowed calls or texts should be limited to no more than 3 per month and only to those who directly hold federal debt. There should be recourse when people repeatedly receive calls in error and the company will not cease calling.
Deborah	Little Rock	AR	I think the FCC should be aware that people who work at home are frequently interrupted by robocalls from commercial entities. I've twice had to contact my state Attorney General's office to get companies to stop sending computerized calls asking me to purchase something. The most egregious example was Google yellow pages ad listings. Often times you are not given the option to be removed from the call list. And, if you can ask to be removed, they'll just call back using a different number so they can't nominally be violating your do-not-call request. The disruptions while I'm working at home are extremely aggravating. I should be allowed to restrict the calls I receive only to those related to my business without unsolicited advertising or robocalls trolling for customers. Every thing else produces a loss of productivity for me and affects my bottom line. Thank you for giving me a chance to comment on this issue.
Emanuel	Nyack	NY	RoBo Telephone calls are disturbing, annoying and unnecessary. Many are from remote areas of the United States as well as overseas.
Todd	Indianapolis	IN	Debt collection robocallers must notify us of our right to stop receiving calls! The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family! The guidelines should be clear and readily available!
gilna	waynesville	NC	Isn't it enough that we are called all day on our land lines?
Robert	Menlo Park	CA	Robocalls are not free or protected speech they are invasive attacks on privacy.
George	Minneapolis	MN	Each week we get more and more robocallers on both landline and cell phones even tho we are on the DO NOT CALL list. They are using up our paid for time and invade our privacy.
Thomas	San Antonio	TX	I am retired and do not need the all the phone calls from the "robocalls).
John	Clemson	SC	Please prohibit the robocalls to ell phones that waste my time and money. I will never buy anything solicited in this way.

Regina	Staten Island	NY	Though I have not ever had a debt collection on my accounts, I have received calls for other people on my home phone, including past babysitters, an ex-boyfriend, and a couple of folks who never lived here or had any association with my address. How is this possible that I can be contacted for the wrongs others have done! If they are allowed to now robo-call cell-phones, people like me will not only be harassed for no reason, but will incur charges. Robo-calls need to be stopped altogether. These companies don't play by the rules and innocent consumers/victims need your protection.
Robert	Arlington	TX	We object to ANY robocalls on cell phones.
Carly	Wellington	NV	I am curious as to whether or not "public figures," i.e. members of the FCC, congress people, lawyers..you know, high profile citizens with money are subject to these obnoxious calls. If not, why must "John Q. Public" suffer these annoying, harassing invasions of privacy?
Barbara	Welches	OR	Robocalls use time, which costs money, on our phones. I have never purchased anything from a robocall and never will. Time is precious too, and I resent the intrusion of robocallers. Please stop this annoying practice now!
George	Scottsboro	AL	No Robocalls to Cell Phones!
William	Spokane Valley	WA	The robot calls cost us money on our cell phones. Not only that, the time and aggravation is very inconvenient.
Jeff	Miami Shores	FL	I am fed up with robocalls. It is an invasion of privacy and harassment when these companies acquire and call my phone number (home, work or cell). My numbers are registered with the Do Not Call Registry. There needs to be stronger penalties and real enforcement of the violations.
Kynne	Fairport	NY	Robo Calls are very annoying. Call at all hours day and night.
M.E.	New York	NY	I have a phone for my purposes. It should not be allowed to be used by thieves. Robocalls telling me there is a problem with my computer, have only one purpose and that is theft, pure and simple. And how much is it costing state governments to investigate and prosecute these thieves? Eliminate their access to victims and save money.
Lindsay	West Lafayette	IN	I get robocalls at my job at a public university all the time! There's no way to get OFF of them, and I get several a week. I have no alternative to stopping these calls. You can opt out of unwanted emails, there are laws against spam, but robocalls are a perfectly acceptable way of doing business? I don't think so. The debt collection robocallers should let us know how we can opt out of receiving those calls, and the number of calls should be extremely limited (no more than 3/month, and only to those who directly hold federal debt - NOT friends and family). The guidelines should be clear and readily available to consumers so we know what we can do to stop the harassment - and that IS what this is, HARASSMENT. NO ROBOCALLS TO CELL PHONES!!!!

KIMBERLY	Santa Ana	CA	Please no ROBOCALLS on my cellphone!
Katherine	Desert Hot Spring	CA	Robo calls use my minutes and I can't afford more. Stop this nonsense and ban them.
Clarence	Greensboro	NC	We are seniors, 80 and 79 respectively. Our day is constantly interrupted by unwanted robocalls which we try not to answer. Unfortunately not answering simply puts us back in queue for calling and another irritation from the same number comes later on. We have never bought from, voted for, or patronized anyone from a robocall, nor do we have any unpaid debts that might go to collections. Please put a halt to these aggravations.
Larry	Boise	ID	I want to add my voice to the many thousands of people who are bothered all the time by robocalls. I am not paying to have my cell phone just so someone can grab my number and then just have a computer start calling whenever! I have been bothered when I was sick with the flu, when I was helping my mother recover from a serious fall, when I was asleep and so on! This has to stop - they don't pay a damn bit of my phone bill and I don't want them to be able to use it for some bogus call or WHATEVER reason. Please just do the right thing for the USA and put a stop to this nonsense.
Dawn	Candler	NC	These calls are driving me nuts, all day and night they call!!! Stop it
Roya	Great Neck	NY	I have a home office and during the day I get multiple robocalls on my home number, office number and cell number I have to interrupt clients to get other false calls that usually don't show a called ID or show a false one this is getting reddiculous
Gerald	Oxford	CT	Please end robocalls to cell phones. Many people like myself are retired senior citizens with a limited number of minutes per month with no rollover of minutes. Robocalls waste minutes that may be needed for emergency calls.
Nora	Portland	OR	Our home phone rings as early as 7:30 am on the weekend to after 10:30 pm on a weeknight. If you answer there is a click and a hangup, or someone speaking spanish, or nothing. If we say were are on the donotcall list, we have been told, "who cares." Now, we are receiving robocalls on our cell phones - those are for our use and convenience - not an unknown entity. Stop the invasion of our personal space.
Alfonso	Louisville	KY	Please help protect our rights to privacy by allowing us to block robocallers on our cell phones.It's bad enough we have to put up with them on our home phones.I would like debit collection robocallers to limit the number of allowed calls to no more than 3 and only to those who hold the debt not to friends and family, and be required to notify us of our right to stop receiving calls.The guidelines should be clear and readily available.

Francine	New York	NY	The calls are aggressive and loud. They disturb us at dinner, in the middle of the day, anytime and seem threatening. They disturb our well-being. They have messages we don't want and would never answer.
Jeffrey	Jamesville	NY	Robocalls to cell phones diminishes the quality of life. Please bring it to a halt.
mary	hermitage	TN	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Herb	Prairie Village	KS	I'm not sure if my last comment got through so I'm sending another: This is not a difficult decision. An infinitesimally small number of people making the lives of millions upon millions miserable for their own short-sighted greedy benefit. There has to be far less than a 1% product take rate from the calls, while the staggering aggravation and loss of productivity is IMMENSE. With current technology if a person wants something they can EASILY find it online. Why do I need someone banging on me for something I don't want 99.999 percent of the time. Regulator ask yourself "Do I personally want to be interrupted by these calls?" Granted, you need to be objective in your job, but common sense MUST come into play on something so obvious. If our system can't make this decision correctly God help us.....truly, God help us.
David	Renton	WA	To all FCC Commissioners, As a consumer I am deeply offended by all the annoying and offensive robo calls that we receive at our home. Many of them are misleading and threatening calls that are related to credit cards, claims of being associated with the IRS, and include threats of legal action if the home owner does not respond. They companies are preying on unsuspecting people including the elderly. Stop Robo calls!!
mary	kennett square	PA	they people often misrepresent some emergency with medicare, social security or taxes as well interrupting home activities. I am Veery wary of these calls but other may not be.

Laura	Knoxville	TN	I just received a call the other day from some entity claiming to be the IRS and threatening to freeze all of my bank accounts unless I called back the number they gave me (it was a recording). It was clearly a scam. It was a recording, the voice was distorted and sort of 'scary' sounding, and it made me really angry to know that these jerks were probably absolutely legally allowed to place calls like that. Because there are absolutely NO guidelines right now regarding random/harassing/predatory cell phone calls, I didn't do anything about it except roll my eyes and wonder how many uninformed people were taken in by these supposed 'IRS agents' who have bizarre, demonic voices and can't even be bothered to call in person, but instead use a recording. We were able to deal with this problem in the days of the 'land line'. Why can't we do something similar with our cell phone? A "Do Not Call" list would be a great start.
Michael	Coral Gables	FL	No robocalls to cellphones.
James	New York	NY	I implore you to stand up for consumers and not give in to the debt collection lobby. Consumers should not be subject to harassing calls on our cell phones. I sometimes get nearly two dozen robo calls a day to my landline phone, and the trend is starting to creep into my cell phones. Please stop this. If anything, I urge the Commission to be stricter on robo calls, not looser. Thanks you, hopefully, for holding firm.
Mary	Live Oak	FL	I am now a senior at age 68. My husband and I need to NOT be bothered by these robo calls. If we do not have a relationship with a caller, WE DO NOT NEED THEM TO CONTACT US!! What has happened to the, DO NOT CALL REGISTRY?
Paul	Louisville	KY	Debt collection robocallers must notify us of our right to stop receiving calls. If said debt is not mine, calls must cease immediately and there needs to be some punitive consequences for lazy collectors who do not verify this information beforehand. All guidelines must be clear, in plain English, and readily available. Please keep in mind, any calls or texts to my cell number (which is not published) cost me money. Unwanted and unwarranted calls/texts are tantamount to theft and should be prosecuted as such. Robocallers have zero regard for the rights of those who have no direct connection to their mission and this disregard should have distinct, measurable consequences.

Allen	New Hope	PA	I consider this to be a very important issue! Cell phones are essential communication tools. They have become almost a necessity for all of us. There needs to be a way to definitively stop unwanted calls. In the same way that it would be unacceptable to allow anyone to barge into our homes at any time uninvited, the same should hold true for cell phones. Because of the advanced technology available for circumventing current regulations, new stricter rules need to be established and enforced.
Mary Catherine	Madison	WI	Consumers should be free from robocall harassment. There need to be easy to understand guidelines accessible to consumers. Friends and family robo calling should be prohibited, as should more than 3 calls per month to an individual regarding debt. Thank you for reading my comment.
Pamela	Ocala	FL	I receive 18 to 21 calls per day, some as late as 11:30pm. I cannot eat, bathe, sleep, feed my dog, watch a movie or make a personal phone call without being interrupted by these calls. In this world of HIPPA regs and all the laws governing the rights of the corporations, where are our privacy rights?! Why do they have the right to barge into our homes, spend our cell phone minutes for their advertising and disrupt every aspect of our private lives? No matter how many times you report them to DO NOT CALL, they still get through. If you purchase a phone that has call blocking and block their number, they change it and get through. The phone companies offer no relief without extra fees if at all. We have no way to govern our own homes, they are allowed to violate everything we do and keep coming at us. THIS MUST STOP!!!!!!!!!!!!!! Soon there will be "phone rage".
Wanda	Ardmore	OK	I get robocalls on a daily basis sometimes as much as 3 times a day. It can be very distraction especially when I'm driving! It's not a law to talk on phone in my state but it should be.
Pamela	Corbin	KY	Please stop the robo calling. Sick of it, so many on my home phone and now on my cell. I don't know anyone from Kingston, Jamaica or South Williamston, Ky. Etc.
Raymond	Navarre	FL	The number of these calls has reached gigantic proportions. It wastes my time and disturbs the peace of my house. Your help in eliminating these intrusions is essential.
Regina	Brigantine	NJ	Too many
Dana	hollis	ME	It is disgusting to see our government let outside non invited intrusions to continue. You all should be ashamed of continuing this practice and making families jump through hoops to attempt to alleviate this personal disruptive situation.
Richard	Boulder	CO	Very annoying and an invasion of privacy and personal space. Please outlaw them. Thanks.

Alan	Philadelphia	PA	These robo calls are cause major interruptions in my ability to run my business, they call at all times of the day and night. I transfer a client's call onto to hold, thinking it is another client, only to answer a robo call and thus jeopardize my business relationship. Google is the biggest violator, I have opted out of receiving calls from at least a dozen times and the calls keep coming. Please stop the madness.
Don	Midlothian	VA	I use my phone at work and do not have time to screen calls . it's not good to have to check my phone when I am with a customer.
Becky	Garland	TX	I constantly get calls for a guy that has apparently given my number or my number is close to his. I've had this number for 15+ years and I'm tired of telling the same people over and over they have the wrong number.
Raymond	Navarre	FL	Please take whatever steps necessary to end these numerous wast of time intrusions on our every day agenda.
Carol	N. Chesterfield	VA	Please implement the strongest possible r by debt collector calls for years and know that many of them totally ignore the restraints currently in place. So I already know whatever restraints you devise for this newest approval Congress has made for them on cell phones will be ignored by many. I happen to have the same name and zip code as someone with debt and have learned that Accurant has mistakenly associated my social security number with the exact address of this indebted individual. So this is a never ending battle for me since Accurant will not clear up the entry. Similar mistakes will no doubt occur under these newest debt collection allowances Congress had authorized. So at a minimum, please require debt collection robocallers (1) to notify the called of their rights to stop receiving such calls (2) to limit their contacts to 3 per month (3) to be permitted to only call those DIRECTLY holding federal debt, not family, friends, or neighbors (4) to state these guidelines each time a call is placed and/or a message is left with the debtor.
Pamela	Lynchburg	VA	I am inundated with Robocalls which are a nuisance. At least several companies that are Robocalls will have an operator who will come on line. I have asked to be taken off of the list and it does not happen or worse, they will hang up on me. These Robocalls have gotten completely out of control and need to be stopped.

Christine	Holden	MA	Dear FDC, Please adopt strongest measures to end robocalls to cell phones and to pressure cell phone providers to provide robocall blocking ability to customers. I have personally been harrassed by repeat robocalls at 3 minute intervals throughout the evening by a robocaller (with whom I have never done business) seeking collection of a debt from (apparently) a previous user of the cell phone number. This is costly in terms of time, money (when the # of calls on my plan are limited) and frustration, and additionally is abusive on the part of the robocaller and on the part of my cell phone provider who should provide the means for me to block the call. This should be against the law.
Peter	Milford	MA	Should not be subjected to this constant harassment
Dale	Benicia	CA	Pay attention to the voters who elected you rather than the lobbyist's of the monopolistic telecoms. The rising tide of voters willing to elect the likes of Trumps and Sanders should be a warning to all that "business as usual in Washington is no longer acceptable" and the voters want meaningful change.
James	Middletown	NY	I do not want my cell phone jammed with Robocalls that cost me time and money.
Dale	Benicia	CA	Pay attention to the voters who elected you rather than the lobbyist's of the monopolistic telecoms. The rising tide of voters willing to elect the likes of Trumps and Sanders should be a warning to all that "business as usual in Washington is no longer acceptable" and the voters want meaningful change.
Mark	Orange Park	FL	In today's technology it should be easy enough to create a program that knows when and how many times each person is contacted regarding an account. These companies repeatedly calling with no regard for number of attempts or time of day has to be regulated!
Robert	Martinez	GA	Due to robocalls, my cell phone service can no longer be trusted. I have missed many legitimate calls because I delete or will not answer an unrecognized number, after learning most of them are robocalls. I have a right to privacy of the service that I am billed- not for ads, collectors, and other invasive calls. You have the power to insure my privacy right-just do it.
Joe	Ft. Lauderdale	FL	Stop harassing us with unwarranted solicitation via robo calling
Dulcy	Brooklyn	NY	I don't even answer the phone anymore due to robocalls. They are an intrusion and I've missed important calls because of them. Make them stop, please. Most people don't even keep land lines, partly for that reason.
STEVE	SHAWNEE	KS	STOP ROBO CALLS
Mike	Leawood	KS	We need to be able to block robocalls. They are a constant interruption in the activities of the day with companies trying to sell us something we have no interest in.
E	Carbondale	IL	I do not want anymore robocalls.
Charles	Cheraw	SC	No ROBOT CALLS

Geraldine	Guilford	CT	Please stop these calls. They are costing me money when they come into my cell phone.
John	New Orleans	LA	Please make them stop!
Diane	Vero Beach	FL	Rococalls to Home Phone and Cell Phones need to stop!!! For over a year I had a company calling my home phone daily sometime 2 times a day. They recording stated that they were my credit card company that nothing was wrong with my account, but, they wanted to lower my interest payments. I pay my bills in full each month so this is not an issue!!! THESE WERE PROFESSIONAL SCAMMERS...I called my credit card company, phone company, police department and the FCC. I was even on the do not call list!! No one could stop this. On my caller ID it would show both long distance and local number (they would change the number every couple of weeks). One time it even showed my own home phone number!!! The phone company told me that the numbers they were calling from were not legitimate phone numbers and they were calling from foreign countries via the internet. THIS IS NOT FAIR THAT AS A PAYING CUSTOMER THAT I AM HARASSED LIKE THIS!!!
Bruce	jefferson	MA	People call with fraudulent names and fraudelent claims that I asked for them to call-they do not give the option to unsuscribe and when you call back the robocall phone numbers-they are cancelled or nonworking numbers. The phone companies are supplying these numbers and they should be able to stop this practice.
Paul	Burnsville	NC	I would like to register my opinion about the robocalls on cell phones. First the collection robocallers must notify us of our right to stop receiving calls. The nubner of allowed calls or texts should be limited to no more than 3 per month, and only to those who directly hold federal debt, not friends and family. And finally the guidelines should be clear and readily available. Thank You.
Bruce	Denver	DC	End robocalls!
Bob	West Allis,	WI	NOMORE ROBO CALLS. I HAVE TRIED TO BLOCK THEM ON MY CELL PHONE BUT THEY JUST USE ANOTHER NUMBER AND ID. I HAVE BLOCKED ONER 125 DIFFERENT NUMBERS. PLEASE HELP! THANKS!!!!!!
Carolyn	Mountain View	CA	These calls are invasive and abusive. Please put an end to robo calls
J.	Franklin	TN	The unsolicited calls continue despite my numerous "no call list" requests. It's a shameful, annoying practice and it is within your power to stop it. Do it now.
JoAnne	Bloomfield	CT	I get 2 or 3 calls a day which disturb whatever I'm doing, including having a nap. This intrudes on my life and at 86 I have enough to deal with.

Terry	Lock Haven	PA	I do not know how many more credit cards I could need, how many more car insurance deals I need to ignore or how many more advanced degrees I need to turn down. I get anywhere from 3 to 12 calls per day from robocallers that usually hang up as soon as I pick up the phone. Make it stop.
Dennis	Ridgefield	CT	Stop me from hating the sound of my cell phone ringing!
Clare	Macomb	MI	No more robocalls it needs to stop on our cellphones
Sudhan	North Wales	PA	No robo-calls please to my cell phone (or my landline phone for that matter) please. We get enough of those already!
Bonnie	Barrington	IL	Also, please eliminate ALL ROBOCALLS !!
Gene	Crescent	GA	robocalls disrupt our limited family time as they are generally sent during early evening.....no one should be forced to be badgered by unsolicited calls!
Barry	Hunt valley	MD	Please ban them for good
JOHN	MIAMI	FL	Please do not allow robo calling of any kind at all! The world is getting more difficult & dangerous everyday. Years ago when technology was different, robo calling was not an issue . As technology advances, new monsters are created and these advances are used in disrespectful & dangerous ways. Please do the correct thing and eliminate robo calling. Thank you!
Joanne	Greer	SC	I pay for the number of calls that come in to me and that go out from me.....robo calls have added to my monthly cell phone bill. They are bothersome and needlessly expensive. Please stop them.
Brian	Washington	DC	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Linda	Bethel	CT	There has to be a way to stop these calls. We are bothered all day and up to about 11pm with these calls. When our ID shows no name we don't answer the phone. It is very upsetting because I have a sick father and when the phone rings at night I stumble to go to the phone only to find it is a robocall. I am on the Do Not Call list but that doesn't seem to matter. I am fed up with the annoyance of these calls!
Elektra	Ferndale	MI	Not only do I have to pay for phone calls I do not want, but these callers are frequently predatory, counting on the elderly to respond to their scams. Allowing scammers to deliberately do their dirty work is criminal, and should be punishable. Allowing businesses to share customer information is equally to blame. Put a stop to the scamming and end robocalls.
Jan	Old saybrook	CT	STOP ALL ROBO CALLS NOW. THEY ARE VERY DISRUPTING

Meredith	Brooklyn	NY	Good Day. I may be my brothers keeper but that does not make me legally liable for their debt. No family member deserves abusive collection calls. Erroneous calls made to the wrong number are equally as bad and as undeserved. Please stop these wrongful calls. Thank you for your anticipated effort on this.
David	Port Isabel	TX	As you read this pretend it's you phone. Ringing answer say hi this is xxxx, there's that tell tale pause and the voice on the phones launches in to "you have been selected", You have won, you say who is this, the voice continues.... Who likes this? Why do you allow these calls? Why should I get these calls if I don't invite them! The answer is simple don't allow them. I don't owe anyone a past due debt. I should not have to get any uninvited marketing calls.
Aimee	Montclair	NJ	I got nomorobo calls on my land line and it's the best thing since sliced bread. Ban them!
JAMES	CALIFON	NJ	PLEASE STOP THESE ANNOYING ROBO CALLS, ON CELL AND HOME PHONES THANK YOU
Deborah	Oro Valley	AZ	Our numbers are on a no call list and we continue to get numerous robocalls to our phones. You know, the federal no call list. HA! What a joke. No robocalls should be allowed at all. We are not paying a monthly fee to be bothered by unwanted and unasked for calls.
John	Cocoa Beach	FL	Day after day; the calls keep coming with total disregard for my privacy, the DNC list and the Florida DNC. It's time to protect the public, and the phone companies, with the FCC's help can do it. They spoof numbers, use phony numbers and do anything they can to invade our homes. We need help now! Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
Stephen	Knoxville	TN	Stop robocalls!
Christopher	Rockville	MD	Life is frantic enough in our always-turned-on society; please prevent our cell phones being bombarded by robocalls!
Erin	New hope	MN	Robocalls need to stop!
Stephen	Kansas City	MO	Please outlaw robocall and punish offenders! At a minimum: -Debt collection robocallers must notify us of our right to stop receiving calls -The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family -The guidelines should be clear and readily available

Richard	North Chesterfield	VA	I am strongly opposed to all robocalls regardless of intention or purpose. I not only consider these all too frequent nuisance distractions an invasion on my privacy but also abuse of modern technology to impose the will of a few on the masses. I also have little confidence that the FCC will do the right thing by prohibiting robocalls because of the powerful lobbies that actually run the federal government but wanted to voice my opinion anyway.
Ellen	St Simons Island	GA	Since my husband had his stroke 4 years ago, the number of robocalls we receive has increased 4 fold. Most are for nefarious solicitations to the most vulnerable of people. Most are dishonest and deceptive and try to suck people in to their schemes. There are so many that you can't put them on a do not call list.
Gayle	Birmingham	AL	My husband and I receive unwanted calls on both our landline and our cell phones--sometimes as many as five or six a day. They offer to lower the percentage rate of outstanding credit card balances, even though we pay our balance in full each month. They offer free vacations, or home security systems, or some other prize or they ask us to donate to some dubious charity--the options seem limitless. To satisfy my curiosity, I have occasionally remained on the line to answer their questions and have been shocked by the information they were really seeking: social security number, credit card number, date of birth, etc. All three of our numbers are listed on the Federal Government's "Do Not Call" list, but that appears to be meaningless. We pay a good bit of money each month to maintain our telephone service and we believe that it is an invasion of our privacy, a waste of our time, and an abuse of our good will to allow businesses, both legitimate and illegal, to use robocalls to harass us and attempt to steal from us. It is our understanding that technology is available to block these calls. We have requested that AT&T and Verizon utilize that technology to prevent this unwanted invasion--thus far, they have not complied. We believe it is time for the FCC to demand that the telephone service providers provide this much-needed protection. Thank you for your assistance!
pat	leawood	KS	Stop the robocalls and predatory practices - Thanks
S.	Bogart	GA	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month and only to those who directly hold federal debt- not friends and family. The guidelines should be clear and readily available.
john	w. orange	NJ	this is a quality of life issue that sways my vote at the polls. i watch and i vote
Richard	St. Clair Shores	MI	advertising should not be forced on someone ever. We pay for a phone and expect our privacy to not be invaded.

John	Harper Woods	MI	This has become an epidemic. I get these calls both on my home landline and my cell phone (even though both numbers are on the "do not call" list. You can put a "no solicitors" sign on your front door, but there's nothing to stop these calls. The numbers keep increasing and if they don't get a hold of you the first time they try repeatedly at different times of the day. As our elected official you must take steps to "protect" us from the onslaught of these calls.
Nancy	Treasure Island	FL	These unwanted calls cost me money every time they come in because I have a pay by the call plan. I had to even disable my voice mail so they couldn't leave messages which also cost me money. So I am unable to have voice mail for the calls I would have liked to have them for. They come in nearly every day, no matter the time of day. They are an intrusion into people's lives.
Pamela	Charlotte	NC	I'm sick of getting unsolicited calls!
Doug	Sandy	OR	I am on the "Do not call" registry. I still get robocalls on my cell phone even though it is illegal. The federal government has an obligation to enforce the laws that are already on the books. This needs to happen or we need to vote in people who will make it happen. I am sick of politicians who will not protect the interests of the people who elected them.
Fran	Downers grove	IL	I pay dearly to be able to use my private device for pleasure, convenience and protection. It should not be available for unwanted intrusion or abuse.
Tom	Reston	VA	The USA is allowing sleazy businesses to harass us at no cost to them. I agree that the debt collectors should not be given rights that other companies don't and should not have.
Lisa	Kearney	MO	Please stop these calls. They are gateways to frauds and scams.
OGDEN	RALEIGH	NC	TIME TO STOP THESE.
Victor	Ft. Walton Bch.	FL	Receiving these calls is like suffering a locusts infestation. The calls are a bane not a boon at whatever time received.
Heather and A	Waynesville	NC	Please stop cell phone robocalls without my permission. There are so many scams and con artists it's hard to decipher who's real and who is not. I don't want my privacy up for grabs. Please help protect it.
Deena	Ogden	UT	Please please!!!give me an option weather or not I want robo calls (which I don't) , it interrupts my family time in the evening, after a full day of this crap...this is my time not yours!!!
Charles	Rockville	MD	We are tired of the phone ringing all hours of the day, interrupting sleep and other activities, when almost all of the calls are robo. The FCC has a job to do, and it is time that you do it.
oliver	germantown	TN	don not like robo calls

James	Myrtle Beach	SC	Having signed up for the national "No call " list, I was hopeful that we would stop receiving telemarketer calls from a variety of phone beggars. It has helped a little but we still get the obnoxious calls from the supposed "law enforcement charities" that give you a hard time if you don't cave to their demands for donations. I just want a little privacy and NO harassing telemarketer calls. We have a unlisted number yet we still get the the jive from every imaginable con artist group. A little help is needed here to get rid of the moochers.. Thank You..
Howard	Torrington	CT	The phone lines I pay for, have become no more than an ad tool for rob-callers. No call lists are a joke, and I'm tired of all the run-around 'laws' that somehow allow a salesperson from some company related to some company that I do business with to access my personal info so they can call my cell (that I maintain for emergencies with my family members) in the middle of the day while I'm working, and that I have to pay for. Not to mention the 4-6 calls per day I receive on average to my land-line, that begin with displaying a bogus number or name in the caller id so they can trick me into answering. STOP! I CAN'T TAKE IT ANYMORE! It's time the carriers blocked these unwanted calls, and to apply serious penalties to both carriers and robo-callers alike that allow this to continue. I pay for phone services so I can communicate with people I know, or to reach out to businesses for information or products. I'm sick and tired of it being "my last chance to get a lower interest rate" from some call center in India. I want rob-calls ENDED all together! And, especially on cell phones.
Marilee	Seattle	WA	My home phone rings with unsolicited calls every day. We are an older household and the calls play havoc with our nerves. The interruptions are particularly difficult for me as I take care of an older spouse. Please do everything in your power to reduce or better to stop these invasive calls.
patricia	wadsworth	OH	please end robo calls now!!
Curtis	Wabasso	MN	Please stop robo calls. Some days, the good ones, I receive none. Other days I will get 4-5 calls; and it will go on for days. It is a huge waste of resources. It is also up to you to do your job. What ever happened to the do not call list: Are you not supposed to be managing that????
Tamio	New York	NY	I use my mobile phone only for business and significant family issues. Please do not allow marketers to intrude on my precious time and attention.
Kyle	Margate	FL	Stop robocaller

D	Baltimore	MD	Everyone has the right to tell a company or individual to stop calling them, no matter how much money you owe. Consumers have the right to be told by debt collection robocallers that they have the right to stop receiving those calls. And no debt collection company should be allowed to call someone's friends or relatives -- they aren't the ones responsible for the debt.
Don	Columbia	SC	Please stop robocalls.
Sandra	Hoffman Estates	IL	As a senior who has trouble getting to the phone several times a day to find it's not really a call for me, being I am not interested in what they're calling about. Thank God for caller ID, but it still makes a hardship for me to screen them -- then to erase them. Arthritis is not conducive to phone handling all the time.
Sheri	St. Louis	MO	I am opposed to robocalls to cell phones. They should be regulated strictly or not allowed. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. I personally am struggling with my battery running down a lot more than it was because of a huge amount of emails I get. I don't want to add more volume to my cell phone usage due to robocallers. The guidelines for robocalls to cells should be clear and readily available.
Charles	Cleveland Heights	OH	Please do something to stop the robocalls on cell phones now! I have recently had to give up my landline because of the overabundance of robocalls. Now robocalls are just beginning to invade my cell phone. I am listed on the "Do Not Call" list to no avail. Please do something about robocalls now. Thank you.
Hillard	Carver	MN	To many elderly citizens are being duped by these gutless criminals.
Yolanda	Scotts	MI	My husband and I are retired and over 65 years old. We get constant unwanted calls from scammers trying to take advantage of vulnerable seniors. We do not appreciate it and it makes our golden years not so golden when we are bombarded with unwanted calls all day. If the FCC can do something to stop these calls, we would greatly appreciate it.
Margaret	Sanford	ME	You are there to protect the consumer, do your job.
Chuck	Dothan	AL	The robocalls must end, they come at dinner time, on Sundays, late in the evening (9 pm), all the time. I'm tired of it and you can't get your name off the list. HELP!!!
Laura	Kingston	NY	Between robo calls and live solicitations, we rarely pickup the phone when it rings. If we don't recognize the caller ID and are by the answering machine we can screen for messages. We don't pickup "unknown" or "blocked" calls. We wait for a voicemail. We get calls from some companies 3-5 times a day. The phone is becoming an intrusive member of our home, causing me undeserved anxiety.

Claire	Cheshire	CT	I don't pay for any service with the expectation that it can be abused and used by anyone I don't explicitly authorize. Please stop all robocalls--PERIOD!
John	Rye Brook	NY	Please do whatever it takes to stop these annoying, unsolicited calls we keep getting on our home phone. We are on the national do not call register, but we get unsolicited calls most days anyway. We would drop our land line if we didn't need it for our child.
sy	Phila.	PA	at 83 I can not believe that Congress insists that I beg for common sense legislation and action...sy hakim
Mary	Chattanooga	TN	Please do your best to end robo calls. I hate them.
Dan	Staunton	VA	I've received calls on my cell phone for the last five years - all looking for someone who had my cell phone number before me. All of them collection agencies. After a painful minute aswering their standardized questions, they always appologize and tell me "We will take you off /our/ list". But then a month goes by and another collection agency begins the calls. It won't stop till answer. It is a painful constant interruption.
Ann	Black Canyon Cit	AZ	Family eating dinner, the phone rings, and rings. Another robo call. This has to stop.
Joel	Davidson	NC	Please end robocalls once and for all time. No person or company should be able to do this!
Marie	Canton	GA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Susan	Silver Spring	MD	Unsolicited sales pitches, whether robocalls or with a human on the line, need to be illegal. This is the same idea as the 'Do Not Call' list, it simply needs to be extended to include cell phones and robocallers.
Jon	Newton	MA	Please stop all robocalls, with the strictest language possible, including penalties for failure to comply. Thanks!
Douglas	So. Weymouth	MA	Robo Calls are a nuisance and may cause extra concerns to many seniors due to stress and worry if they do not respond to these calls in a timely manner. I consider they an invasion o my right to phone privacy.
William	Wytheville	VA	Quit destroying the earth, its our only home.
Della	West Lafayette	IN	I am elderly but care for another elderly person. I need to be able to use my phone, but should not have to be harassed by robocallers either on my landline or my cell phone. Where is your backbone. Stop this harassment, please.!!!
Gerard	Las Vegas	NV	It bad enough they call my land line incessantly, but now they want me to pay for the "privilege " too! Come on, get real
Nezih	Houston	TX	No Robocalls to Cell Phones!
John	Ontario	CA	No robocalls to any phone

RON	OAK PARK	IL	I REGISTERED AT DO NOT CALL.GOV ABOUT 10 MONTHS AGO. THE VOLUME OF ROBO AND LIVE CALLS HAVE INCREASED SINCE THEN. I ANSWER THE PHONE, THEN IMMEDIATELY HANG UP. WITH LIVE CALLS I ASK THEM TO "PLEASE REMOVE THIS NUMBER FROM YOUR CALL LIST, ALL TO NO AVAIL .
Deborah	Fairfax Station	VA	Please stop the robot calls!
lisa	No. Richland hills	TX	People calling late at night to sell you something that at 9:30 pm. Telling to not call than they ask whats a good time, disrespecting your request. People posing on phone concerned when you have no ideal who they are. Asking children questions. Not right. Invasive.
MK	Pittsburgh	PA	We deserve privacy from Robocalls - no more than three a month!
Gregory	Jamaica Plain	MA	Life is not actually about marketing in creating needs to make big profits ~~ it's really about living on the planet together I am very engaged in doing positive things to help all of my fellow people ~~ Cold telephone solicitations waste my time
Michael	Lawrenceburg	KY	Please take whatever steps necessary within your power to end robocalls. Not partially but totally end them. Americans should have a right to phone privacy.
Raymond	Wichita	KS	You can do away with robo calls. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Karen	Gainesville	FL	Please stop robocalls to cellphones. We need you to help us.
Barbara	Raleigh	NC	I regularly get robocalls on my cell phone and my home phone, even though I am on the do not call list for both phones. Many of these calls are scams, and repeat calls that never end. Enough. Do something please. My father regularly gets confusing calls that are scam calls and it is very disturbing to him at his 88 years of age. This should be against the law and followed up on.
Dorothy	Norwich	NY	Thank god for caller ID. At least I don't have to answer those annoying worthless calls.

Ted	Olympia	WA	Every time I receive a robo-call, the phone company automatically cuts them off after their first sentence to me after I pick up the phone. As for the aggressive debt collectors, every time they threaten to repo my vehicle (which I completely own and don't owe anything on), I dare them to try it because I tell them that either they will go to jail for GRAND THEFT AUTO or I will put a bullet in them (now which caliber gun I would use would be beside the point). Then I also get debt collectors calling me for something that happened over 15 years ago (that are more than likely wiped clean to this day) and I just let them waste their time (along with mine) about how much I owe them and where to send the money where I don't send them a single penny. Either that or if I was to pay them, it would be in loose pennies only.
Matthew	Wenonah	NJ	I save each robocall on my phone as "scam01, scam02", so I know when they call again I can choose not to answer. I currently am up to "scam41". Each time I answer my pay as you go, it costs me minutes. Please make it stop! Thank you!
Dennis	Windham	ME	Please take whatever action necessary to stop all ROBO calls. They are most annoying but primarily I pay for my phone service and I should be able to determine how that service is used.
Eric	Narberth	PA	Due to the vast amount of faulty records, aggressive techniques, and, frankly, the "special" privacy cell phone should be allowed, PLEASE STOP Cell Phone Robocalls!
Blair	Charlottesville	VA	we both know you don't want to be called and pestered about something that's not your problem by somebody has no real reason to talk to you. And of course I don't need this abuse either. You know what to do.
Charles	New York	NY	Keep unsolicited advertising off our cell phones.
Paul	Arlington	VA	It is excessive, invasive and useless--none relate to our needs. We must carry our cell phones at all times so that we don't have to scramble constantly to get to the phone to find these unwanted calls
David	Evanston	IL	Robocalls are very disruptive and should be stopped.
Stanley	Bardonia	NY	What would it be like to live in an environment where any person or agency could tap you on the shoulder wherever you may be and whenever they desire and demand your attention? This is essentially what telemarketers and robocalling want the freedom to do. It makes no sense. It's beyond annoying. It's intrusive and harassing and should NOT BE ALLOWED. Rules and laws currently in place are ineffective to say the least. Increase the penalties, strengthen and ENFORCE the laws that should be in place to prevent this disgusting practice.
Gary	Royal Oak	MI	Please shut this intrusive and sometimes fraudulent practice.
steven	ashland	VA	If I wanted their services or products, I would call them. Leave me alone.

Eric	Arlington	MA	More than half of the phone calls I typically receive each day on my landline are robocalls from with whom I don't want to do business. I don't need my cell phone joining that cacophony, particularly with calls for debt collection that don't relate directly to me.
William	Hartford	WI	Why should marketers be allowed to bombard me with unwanted offers I did not request, particularly when their calls add to my phone minutes.
Elliott	Concord	MA	At least 2/3 of my telephone calls are Robocalls. Since I have Vonage as my telephone provider, I can call them to give them the phone numbers to have them block them. A few however use multiple telephone numbers and thus are hard to block. THIS SHOULD NOT BE NECESSARY!. I realize that in this age of computerization, it is fairly easy to set these up. However they are a nuisance and should be eliminated. One thing to avoid however are the reminder calls for appointments but these are not that frequent.
Stephanie	Kennesaw	GA	I got repeated robocalls concerning medical debt when I didn't even owe any money. These types of calls must be restricted.
Rodney	Leonard	TX	We just recently combined AT&T to our Direct TV account and immediately began receiving soliciting phone calls. Why would a respectful company choose to under handedly sell out their trusting customers? Please end robo calls and the selling of personal information.
Cliff	Cypress	TX	Robocalls needs to stop on cell phone as well as land line.
Daniel	Battle Creek	MI	I have spent years putting up with non-stop robocalls to my land line. I sleep days, so robocalls all day long were more than aggravating. Imagine the average person receiving calls at 2, 3 or 4 am in the morning every night. My land line provider has recently provided me with the tools to block those calls. I had forgotten what a peaceful days sleep was like, or being able to relax on the weekends without the phone ringing off the hook. Now it sounds as though my harassment may only just change from land line to mobile. And that is truly what it is, down right HARASSMENT. Please let me keep my peace & STOP cellular robocalls.
Joanna	East Moriches	NY	Hi, I am among the millions of people who've been annoyed by persistent robocalls from marketers. Please end the ability of marketers to reach cellphones with robocalls. Advertisers pursue us in every corner of our lives, please let us use our cellphones without this kind of interference.
John	Franklin	TN	I oppose robocalls to cell phones without my permission. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Kenneth	Peyton	CO	I am tired of receiving robocalls even though all my phones are on the national no call list. What is it for if it doesn't stop the calls?
Sharon	Southampton	NJ	Robo calls are annoying and I would never respond to them
Elisabeth	Damascus	MD	I am sick and tired of not being able to answer my cell phone if I don't recognize the caller ID; I have to let it go unanswered and then see if there is a voicemail message. Every day I receive several robocalls, and I am very angry about my cell phone being held hostage to these predators. Please put strict laws in place to stop them and enforce the laws!
Marge	Wilton	CT	I'm sick to death of spending a small fortune just to have basic service for my cellphone, only to have total strangers calling me and costing ME money to get harassed by them. This HAS TO STOP. Please, please, PLEASE help!
Marcia	Downingtown	PA	I oppose robocall to my cell phone unless I have given the caller permission to contact me by phone. Also, I feel the Debt collection robocallers must notify me of my right to stop receiving calls. If permission is granted, the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. Finally the The guidelines on Robocall should be clear and readily available to the public.
barney	Urbana	IL	These calls are dangerous, annoying, invasive, unwanted and Illegal. DEATH to robo calls and telemarketing
John	Toms River	NJ	I receive 6 - 8 robo calls a day (some after 9:00 PM EST). If I don't recognize the number, or my caller ID says "unavailable," I just let the phone ring. It's annoying and gives legitimate charities no chance to contact me by phone.
Colleen	Burton	MI	We get repeated calls from a credit card company that we don't know always saying this is your final notice...when I have actually answered the call and asked them to remove my name they just hang up. And call again a few days later on cell and land line. We owe not one penny on any credit card! We get other calls but this one is frequent and annoying.
Mike	Thornton	CO	No more robo calls.
Douglas	Grand Rapids	MI	Suppose you rented a vehicle...and someone put thousands of miles on it while you left it parked...then returned it. That's my cell phone analogue. I pay in advance for all those minutes...supposedly for my own use...then robocallers use them up before I get a chance to "drive them." Am I being robbed? Absolutely!
John	Scarborough	ME	Robocalls waste too much time and space.
David	Norcross	GA	Please help get rid of these annoying calls
Todd	Asheville	NC	Please don't pave the way for robocalls to come to my cell phone.
David	Lake Worth	FL	End all robo calls...no robo calls to cell phones

Denise	Lombard	IL	I get some of these calls. They never identify who they are trying to contact or, in some cases, who they are, but provide a phone number that I can't recognize or research (whitepages.com). Sorry, they're too anonymous to respond to. I have an very, very high credit rating and am NOT in default on any loans, yet I get these calls on a regular basis. I try to automatically block these calls using my Virgin Mobile smartphone, but that doesn't always work. Very, very annoying.
Deborah	Houston	TX	Please implement transparent and strict guidelines to protect consumers. These should include: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
James	Billings	MT	Robocalls at all hours with no recourse except to abandon land-lines. So be it. It would be appropriate if there was a way for the consumer to forward robocalls to one's favorite senator/representative!
Alan	Willow	NY	Robocalls frequently come at dinner time (because they figure we're home). Our family conversations are repeatedly interrupted even though were on a no-call list.
Gail	Sunland	CA	Please go back to the "No Call " list. Everyday I get 20 to 30 calls!
Ann	Pensacola	FL	Robocalls have reached the point of harrassment and I am sick and tired of it.
Sally	huntsville	AL	I pay for my phone line and don't feel that just anyone should be able to bother me by using it, Please stop the robocalls
Roger	Clarinda	IA	Some days I get literally dozens of robo calls trying to loan me money or give me a free vacation, The caller id shows the calls originating all over the country even though many times its the same robocaller. Around election time political robocalls get highly annoying. I encourage you to do what ever you can to reduce robocalls.
Vladimir	Williamsburg	VA	There is no reason why citizens should be disturbed by unwanted robocalls at all hours of the day. Regulations should be in place to enforce peace and tranquility by eliminating robocalls. Act now!
James	Lancaster	PA	Robocalls are simply harassment and need common sense control. It's the right thing to do.
patricia	palm bay	FL	all for money profits
Teri	long Beach	NY	unwanted people call our land line regardless of "do not call" lists & both phones if you are involved with a political party!

Rhonda	Lakewood	CO	I personally have never been in debt, I know others who have been, and believe sensible policies are needed. Guidelines on rules about calls should be readily available to those who are in debt and friends and family should not be harassed by robocalls---EVER. Its ridiculous that I could get harassed by robocalls and have my life and my work disrupted as a result of a friend or family member in debt. Thats just wrong. Having a live person call once or twice to see if I can shed light on the issue with the person in debt is ok---but NEVER a robocall.
Robert	Mantoloking	NJ	* Stop all robocalls, including political ones. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
William	Medford	MA	Please end the robo-calls please!!!!
PHIL	HATFIELD	PA	Please put an end to the CONSTANT ROBO-CALLS I receive on my business cell phone. I'm a working Contractor, and need to answer my phone in case it's a client. It is mostly "You've won a cruise" or "You can lower your interest rate" nonsense from spoofed phone numbers that are not in service, yet show as a local call in my area. I'm often covered in caulk, paint, or stucco when I have to stop work, and get the phone. The "DO NOT CALL" list is a joke, that is ignored. This is really getting insane- YOU CAN HELP!!!!!!!!!!!!!!
Brian	Strongsville	OH	The problem is self explanatory. Why should I have to waste my time and have my routine disrupted at all times of the day and night at the whim of another person that wants to sell me something and benefit himself at my expense. If I want his product I will pursue it. I do not need a phone call to tell me I need it. When I am expecting a very important phone call from a client or family member I will drop everything I am doing and rush to the phone when it rings. The frustration is enormous when I hear a robocall offering to help with student loans which I don't even have, What right does that loan company have to disrupt my day when it is only for their benefit, It is a total waste of my time. It can interfere with my job performance and frankly is emotionally upsetting depending on the time and circumstances surrounding the call. I have enough stress in my life without unwanted useless invasions into my time and daily routines.
Mike	Vernon Hills	IL	Stop robo calls under all conditions other than public safety.
Gloria	Towson	MD	My cell phone is restricted to close friends and family. This is what I pay for. My wishes trump any machines.
David	Richmond	MI	I get 3-5 ROBO CALLS per day, its frustrating
Thomas	Howell	MI	I pay for a cell phone, not the right for someone else to abuse it.

Joseph	Mundelein	IL	Robo cell calls disturb me in Europe and I must answer because I think its an emergency. I pay \$ 4 to \$5 for these stupid calls at 2:00 AM in London or Paris or wherever in Europe.
A.	Fresh Meadows	NY	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
James	Holland	MI	It is very annoying to get these phone calls, especially those wanting to sell - I feel many of these calls go to people who are then taken advantage of - We older people are easily swayed and end up doing something we really didn't want to do - think of your parents at an older age - STOP these unwanted calls!
Tanggol	Redding	CT	We are still getting harassing calls even though all our numbers are on the do not call registry. At least twice a week we get you have won a cruise to the Bahamas. Please do more to end robocalling.
Marsha	Glendale	AZ	Please, please stop the invasive robocalls. I am so tired of my phone ringing at all hours of the day and night when I am on the do not call list. Why is this still being allowed. I get calls on my home phone and my cell phone. This needs to stop!!!
Joe	Catoosa	OK	Allow me to decide who can call my phones.
Connie	Richardson	TX	Please end robocalls!
William	Butler	GA	The Do Not Call Registry has not worked in years. We can't begin to stop the continuous credit card, home security and other obnoxious calls coming to our land line. We need a quick notification number with staff ready to pounce immediately when we notify them of a call. Seems like the callers just keep changing numbers and stay ahead of trackers.
Alastair	Herndon	VA	Robocalls should be banned in all cases unless the phone subscriber has actively opted in to receiving the calls. If exceptions are made for any industry or activity, I support the guidelines and limits proposed by Consumer's Union.
Robert	Bowie	MD	Telemarketers - Ring but no one answers - something has to be done to stop these calls, often when I call back it is a non working number. There is technology but were is the will to stop these calls.
jim	huntington	VT	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock.
Angela	West Warwick	RI	It is about time these irritating calls stopped. No one likes them and yet it continues.
Jon	Waterloo	IN	The calls always come at the wrong time and subject we really do not care about.
Gerrie	Selbyville	DE	Enough already. When Every third call received is a robo call, it's gone too far and must be stopped not enhanced.

Marcus	Austin	TX	There's a pull down menu on my phone, that when you receive an unwanted call, you can add it to: "Add to Auto Reject List". My auto reject list happens to be FULL !!, Full of unwanted calls from credit card solicitors, mortgage loans companies, etc. How about it ! ,.....when is someone going to step in and stop this. With all our electronic gadgetry today, there must be some way to stop this.
MIKE	TOMS RIVER	NJ	PLEASE STOP ALL THR ROBO CALLS. THEY ARE WASTING OUR TIME AND MONEY.
Kathleen	Tinley Park	IL	I am on the Do Not Call Registry. I am not in arrears on any debts. There is no reason for any robo calls to be reaching my phone, yet I'm getting them constantly. This needs to stop. Now. Laws regarding the rights of people to not be harassed need to be strengthened, not weakened. Thank you.
Joseph	Middleton	MA	Robocalls are a significant disruption to our daily lives. You need to protect the privacy rights of citizens and limit the number of allowed, unsolicited nuisance calls.
Gerald	Hazle Township	PA	Please stop these calls from occurring. They are disruptive and not wanted.
Leslie	Oro Valley	AZ	Please! We already don't answer our land line because of robocalls. Let us at least know that we can answer our cell phones without being disturbed.
Chris	Newark	MD	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Debbie	Cheektowaga	NY	I have a cell phone for my family to be able to reach me in the event that something has happened and then I get all these other Robocalls, it scares me
mike	North Chesterfie	VA	I oppose robocalls period. No exceptions.
Douglass	Sachse	TX	Unsolicited Robo call are a bane to my professional and personal life. They take time away from my work and are an intrusion on my limited personal life. Please do something to more aggressively regulate this matter.
Conrad	Kennett Square	PA	STOP all robocalls ! Why should anyone have the right to interrupt me and steal my personal time ?
James	W. Palm Bch.,	FL	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three oer month, and only to those who directly hold federal debt, not friends and family, The guidelines should be clear and readily available. Robocalls are an annoyance but some limits should be placed on just how much harassment a cell phone user should have to tolerate!
Richard	Turner	ME	As a voter, taxpayer and senior, I ask you to protect all cell phone users from the invasive use of robocalls by debt collectors. Thank you

Margaret	Pensacola	FL	I hate these inane calls. Make them illegal....period!!!
Donald	jonesboro	GA	Please stop robo calls!
Helene	NY	NY	It is an invasion of privacy to have these awful calls at home. We don't need them on our cells.
john	gainesville	GA	Please do not allow robocallers, whether debt collectors or advertisers or politicians, to be able to call cell phones. Also, we need a way to block, or opt out of these calls that work!!
Craig	Poughkeepsie	NY	To Whom It May Concern, Debt Collection should be using ONLY what the lender has on file and collection should not be allowed to use other means like my cell phone that is not published or given in my case to lenders. I feel this is a violation of my privacy. Also these debt collectors should be held responsible for any breach of private citizen data. There needs to be VERY strict rules governing them.
Glenn	Buffalo	NY	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock.
Frank	Commack	NY	I have a home office and the land line phone used only for faxes now receives several calls a day from unknown sources. Fortunately I can see where it is originating most of the time and do not answer. There seems to be a pattern where there are few robo calls for a month or two then many a day.
Ed	Easley	SC	These calls are most annoying and disrespectful.
Donna	Chickamauga	GA	HATE these calls that waste time and cell minutes. Disgusting
Shirley	Fayetteville	GA	Please stop the Robo calls which are an invasion of my privacy
Mark	Carlisle	PA	Stop the robocalls. They are annoying, interrupts your day, deceiving to the elderly, and wrong!
John	Wilmington	OH	I do not want unsolicited calls on my cell phone.
Judith	Bowling Green	OH	PLEASE set and enforce strong rules against cell phone robocalls!
Ruchir	Chapel Hill	NC	Friends and family should not be notified for those holding debt.
Amanda	South Milwaukee	WI	It is outrageous! They hang up on me when I ask to stop receiving calls!
Sheila	Savannah	GA	We are bombarded by robocalls and marketing on our land phone, and to have them on our cell phone would be a double insult and intrusion.
Abby	Columbus	IN	Robo calls are an invasion in a person's space. They should not be allowed or they should be better regulated so when you request to be off the robo call list you are off forever.
Paul	Cape Coral	FL	If you want to contact us, don't use a computer, do it like a friend. Make a call that is wanted, send an email that is requested. If we don't want to hear from you, just like that friend who is looking for something...so they are no longer a friend, then you'll be cut off, deleted, made to go away.

Ted	Englewood	FL	I guess I'm lucky because I get "only" one or two of these a day on my cell phone. Usually it's a recording, really a commercial for something I don't want but which ties up my cell phone. Please, enough is enough. Stop these daily interruptions for things that are most certainly scams.
John	Houston	TX	One debt collector: Portfolio Recovery, for some reason will not leave me alone. I have never even owned the card they're calling about; yet the harassment continues. There has to be a way to get these jackals to leave me alone.
Nolan	Savannah	GA	Please end robocalls and all unsolicited calls.
Eric	Nashville	TN	My wife left her name as a contact at a hospital after helping a homeless person. We have been receiving phone calls from a collection agency up to three times a day for six months. We can't stop them. This is not right.
bob	Albuquerque	NM	not just cell phones no calls at all!!! MY phone my quite home blasted by rob cals and people trained to answer a round robin calling system leave us alone
joe	londonderry	NH	I do not want to waste my cell phone minutes on robocalls, and as we all know the "do not call" registry is a total failure and is completely ignored by many marketers. So for once do your job and protect the American public from this annoying distraction and predatory practice.
Gretchen	Adrian	MI	We have received hundreds of debt collection robo calls on our land line because someone stole our address and phone number and uses it to get credit. We live in Michigan, he lives in Alabama. This has been going on for years. We don't have to pay for incoming robo calls but we would have to pay for incoming cell phone calls. We are also constantly annoyed by robo political calls to the point where we no longer make contributions to political candidates in order not to get on more lists. We are elderly, 74 and 77 and are constantly having to get up when the phone rings in case it might be an important call. Ninety-nine percent of the time it is only a robo call. Now at least these calls only come on our land line, it would be worse if we had to find our cell phones every time they ring.
John	Zephyrhills	FL	My phone numbers are on file with the Federal and State, on the "Do Not Call" registries. Yet I continue to receive robocalls, in violation of Federal and State laws. Each time I answer a call with my cell phone, I am subject to time used against my senior package. I intend to be compensated for these illegal activities, and now must use court precedents established by Mr. Bull. STOP ROBOCALLS NOW!
Barbara	Dewitt	NY	Robo calls on land lines and cell phones are annoying and destructive. We should have a right to stop receiving calls. The number of calls debt collectors are entitled to make should be limited. And the guidelines should be understandable and available.

Ronald	Shreveport	LA	It is time that Consumers get some protection from unwanted phone calls
Keith	Williamsburg	VA	please stop these robo calls
David	Douglasville	GA	End all robo calls!
Robert	Brooklyn	NY	Thanks to robocalls, ot a day, or a meal, or an evening movie goes uninterrupted in my home. I get 5-to-10 per day, and they even come from my home area code so there is no way to tell whether a call is from a local source or some far-flung robo-business. It is an invasion of privacy, and my friends must start speaking when they hear my answering machine, because I don't pick up the phone anymore. Robocalls have invaded my home, and negatively changed the way I use a phone. It is not fair. If the government is going to allow this calling technology to continue, then the consumer should have the option to screen it out before they reach his phone. And it should be free - I should not have to pay extra to restore life to more like what it was before this technology came about.
Glen	Edwardsville	IL	You need to get serious and take action against these abusers. I have been on the no call list for several years. They still come. When I get by the robot to speak to one, they hang up. So they know they are violating a law. The phone companies are guilty also, they have to know this is going on yet do nothing. You are assisting in letting them by doing next to nothing. I have even had a few that "spoofed" my own phone number to get by the no call and number blocking technology. ENOUGH, do something.
Doug	Norfolk	NE	My cell phone is my private communication device. I should be able to choose who enters my "private space" via my phone. I truly believe debt collectors should be REQUIRED to tell me I can stop them from calling me. There must be some kind of reasonable limits on how often they can call me so I am not harassed. I should NEVER be called about sebt of friends or family. That's just totally unfair!
louis	west babylon	NY	No Robocalls to Cell Phones My cell is with me all the time. If i don't know who is calling i now don't answer. I have lost important calls doing this. i get 3 or 4 robos a day.
S	Eunuce	LA	I oppose robocalls to cell phones without permission because they are annoying and should be considered harassment. Cell phone numbers should be private and off limits to creditors and advertisers. I hate that I must screen all calls on my cell phone.
Robert	Mahwah	NJ	These robocalls are just toxic. Calls on house and cell come at all hours. They also prey on older folks to share info and then steal identity . But you know all of this FCC so do something.
Mark	Winston Salem	NC	Please stop RoboCalls to all cell phones. They are disruptive and irritating.
TOM	SOMERSET	NJ	PLEASE MAKE IT SSSSSSTTTTTTTOOOOOOOOOOOOOOPPPPPP

Sam	Winston Salem	NC	I am very close to removing my ATT phone service for a cellphone only. There will be less tax revenue for you and the Government.
Pamela	Morehead City	NC	I am tired of getting the same calls day after day,both on my landline and on my cell phone. A real and complete phone number needs to appear on the caller ID,
Jim	Shelbyville	KY	Robocalls are a nuisance and invasion of my privacy and freedom. Please do not allow robocalls on mobile phones. Please provide effective measures to prevent these calls and stop the calls that disregard the rules. (My landline is on the no-call list, but we are daily assaulted by unwanted calls.)
Claire	Milton	VT	I have my number on a no call list but I still get calls from time to time!
Ralph	Hudson	FL	I have registered both my land line and cell numbers on the do not call list. I keep these updated regularly. Yet I continue to receive numerous computer generated calls. The majority of these are " lower my credit card debt". I carry no credit card debt! I have attempted to file complaints through the FCC. This process is generally impossible to use. The numbers caller IDed are most often "not in service" or "changed". The information required to complete a complaint is nearly, or actually, impossible to acquire. These companies actively evade your supposed enforcement policies. It should be the FCC's function to at least enforce it's regulation. The major carriers seem to be in collusion with these robo-callers or how else would numbers be immediately out of service or changed? Please act to enforce at least the existing regulations and stop these companies from continuing the practice. I am sure these are scams which take advantage of those least able to protect themselves.
Harold	Houston	TX	I am recently retired, but before retirement I was working full time in an important position with industry. Since I used my mobile phone in my work, I could not ignore any calls coming in. I would receive an average of 6 calls a day during regular working hours, and as many as 3 calls a night on my mobile phone. My home land line would receive even more throughout the day. These calls are clearly computer originated in many instances. I take advantage of any opportunity to ask for removal of my number from their call list. I cannot tell if this makes any difference. I have had my phone number on no call lists, but it does not deter these mass marketers. Please use legislative powers to enforce a no call list giving me the option of accepting or declining to receive solicitation from these services. Please require the phone companies to employ technologies to detect and block these types of calls.
Jan	Evans City	PA	Stop robo calls

Charles	Dunedin	FL	Just because we have cell phones doesn't mean we should be subjected to breaches of our privacy. Give us back our privacy now!
Earl	Waterville	OH	I pay for my house and I don't let un-invited people to enter, I don't want un-invited people to use my phones.
Juan	monroe	NC	We only use Tracfone in our house so getting unwanted text or robocalls is costing us money. They need to notify us of our right to stop receiving calls and the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. These guidelines should be clear and readily available. Thank you!
Glenn	Venice	FL	Robo calls are an invasion of my privacy. It is not the right of free enterprise to invade my privacy. Please stop this invasive practice
Donald	Flint	MI	Please help stop the harassment ! ! !
anne	mclean	VA	Please ban all robocalls to land lines and cell phones.
Julia	Cullowhee	NC	NO ONE, including you, wants robocalls on either home or cell phones. Those calls actually use up minutes on those cell phone plans with limited minutes, are always disturbing, and open people up to financial scams and loss. Please follow Consumer Reports recommendations on limiting those calls, as follows: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Please consider what you want for yourself and your family. We need your protection.
Diana	Shepherdstown	WV	I got rid of my land line to get rid of the daily robocalls. Now they are after my cell. Please don't allow them to go there! Enough is enough!
David	Marshfield	MI	Robo calls should be limited to police and weather alerts and any other safety issues. Solicitors and debt collectors can use the U.S, Postal service.
Gary	San Diego	CA	Please set up strict regulations on how and when debt collectors can call on cell phones. They should be required to notify us that we can stop receiving calls and they should be limited in the number of times they can call and they should only be able to contact the debt holder, no one else. Please make the guidelines clear and readily available.
Noel	Cleveland	OH	I registered on the donotcall list - and recently, I have been receiving so many scam calls on my cell. This is an invasion of my privacy, not to mention annoying.

Tom	Akron	PA	I used to have a block on my phone (land line) that I paid for with my provider. It woked well. Not a single call in several years. I changed providers and they do not have such a provision and now receive unwanted calls everyday. Why can't they pass a law giving people the onclick option to stop robo calls? I did sign up to be put on the do not call list, but that is not completely effective. Please stop this annoying practice.
Ty	San Antonio	TX	i changed my cell number hoping these calls would stop. i get about approximately 10 a day, it is a waste of my time and i wish it could a situation where there was a strict penalty.
Dorothy	Leicester	NC	They waste our minutes. Unfair.
William	Saint Marys	PA	The number of unsolicited calls has risen dramatically in the past 2 years on our home phone and our cell phones in spite of trying everything we can to block them. Most, but not all, are from debt collectors trying to collect a debt from someone who shares a similar last name which is absolutely ridiculous. These calls come everyday, 7 days a week from morning to 9 PM at night. Because we are so annoyed by these calls we do not answer unless we recognize the number. This has caused us to miss some very important calls from Doctors and Surgeons who have called from private phones but cannot be return called. With my diagnosis of stage 4 cancer, this has led to delays in important scheduling and medicines. DoNotCall.gov is pretty much a joke and it is time to put a stop to it, especially now that the cell phone is no longer immune.
Stephen	Whittier	CA	Please stop these Robo calls!!!
Kendal	Auburn	AL	I oppose robocalls to my cell phone without my permission; Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Robert	Chathaam	NH	Should include political calls also
Ron	Mpls	MN	It's bad enough that you get solicitation on your land line but having them on your cell phone is going too far. STOP this now.
Pat	Dandridge	TN	Not only are these calls annoying, many are criminal attempts to steal money or private information. These include recent, regular calls allegedly from "your credit card company." Many times we will rush to the phone and find no person or even message on the phone.
Herbert	Houston	TX	Robo calls interfere with my capacity to provide medical care to my patients. If I have to shut off my cell phone, my accessibility to legitimate calls is reduced.

Nancy	Douglasville	GA	These calls are not only annoying, but they also cost me money (use of my cell time) for their use. I boycott all firms using robocall. Other points are: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
frank	carmel	NY	why should I have to use their equipment we already pay to much for content,this is a complete ripoff .and this by companies who get away without paying any income tax.
Bruce	Hull	MA	This problem is typical government hypocrisy! The government is putting people at risk to placate the bankers. With many robocalls a day, people turn off their phones. This puts them at risk of missing critical calls from emergency services.
Anthony	Haverhill	MA	I get robocalls every day. I have no interest in what they're selling. I'm on the FTC Do Not Call list, but my requests are just ignored. Please stop this harassment. WE have a right to be left alone if we wish.
Jim	Minnetonka	MN	Both my wife and I receive too many Robocalls on our cell phones even though we are on the "don't call" list.
Carl	Essexville	MI	Useless calls, phony advertising, bothersome, to name a few are the calls that need to stop. People call with unknown numbers Caller ID that come up as disconnected and most of all just plain stop. If this type call is received it should have a return number of who and what. As it is the do not call list is a joke.
Roger	North Royalton	OH	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available I already receive too many robocalls to my land based phone, now also to cell phones?
Gary	Raleigh	NC	Please end robo-calls. They waste time, are insulting and they waste cell bandwidth.
JE	Sylvania	OH	So many of these callers are scam artists who particularly excel in targeting and cheating seniors. It is just wrong. I have our number on the do-not-call list and yet I continue to get calls. Please help stop this!
Roberta	Schenectady	NY	I get more phone calls on both my landline and cell phone from robocallers and organizations on my do not call list than I do from family and friends. Many of the calls come in and tie up my phone when I'm waiting for an important call back from my doctor. I may die waiting for that call.
william	Lincoln	NE	Please STOP the ROBOCALLS!!! I'm tired of them

James	Lexington	KY	It is ridiculous how many calls my wife of 50 years and I get each day. Usually at least 5 and usually between 9 AM and 9 PM. Lately one from Chicago around 9:30 PM. Answered one time and was selling sexual enhancement products. Told them to not call again.....didn't stop them. Something needs to be done. Coming in on land line and each of our cell phones!
Czes	Charlestown	MA	Consumers should have a right to stop receiving calls, especially since they pay for their phone service.
Larry	Greenbelt	MD	Robocalls are invasive - period.
Mike	Caledonia	MI	There you go again---- caving in again to some campaign donor. Be sure to hide the regulation on the tail end of a bill on kelp gardens so it is not in the public eye.
Shafik	Oak Ridge	TN	This is a difficult topic since Freedom of Speech is involved. I get several calls on my home and cell telephones a day from no name caller IDs. This is an interruption and imposition on my privacy and time, . My only option is to turn off or unplug the phone.
Elijah	Norcross	GA	I don't need to decide whether or not to answer an unknown number calling my phone!
Wayne	Fort Lauderdale	FL	American traditions are drastically changing with telephone communications due to robocalls, telephone solicitations, telephone fraud attempts. Most Americans are no longer answering telephone calls from unknown numbers; most of these calls are unanswered -- going to voice mail. If a message from the caller is not left giving reason, phone number, etc. the call is blocked from future calls. Legitimate business calls are becoming less productive; requiring inefficient operating procedures and un-needed additional expense.
William	Centreville	MD	Sensible limits on robocalls are needed now more than ever. They are an unreasonable invasion of privacy.
Sarah	Riverdale Park	MD	Please implement the strongest possible rules against robocalls to cell phones. These calls waste my time and cost me minutes (my money!).
Ron	Toano	VA	No robo calls
J	Bellwood	IL	Don't let consumers be harassed by robocalls.
Laurice	Trumbull	CT	Let's put a stop to robo calls
Dalton	Marietta	GA	Please use your power and position to stop all robocalls now!
Rick	Portage	MI	Robocalls must stop. All calls to all numbers. Protect our privacy and our phones.
Peter	East Northport	NY	Please implement rules to protect consumers from debt collection companies from using robocalls or texts to their cell phones.
Bill	Cape Coral	FL	We no longer have a land line, so no robo calls from there, but now they are coming on our cellphones. Please do what you can to stop them also.
Tony	Massena	NY	Everyday I get these calls everyday interrupting my business. So I have to stop what I'm doing to monitor the calls.

Mary	Boston	MA	Please make sure that debt collection robocallers must notify us of our right to stop receiving calls. And the guidelines should be clear and readily available. Thank you
Paul	Southport	NC	I urge you to ban robocalls to cell phones. On my home phone I get 3-4 robocalls a day. None of them are calls I want to receive and if I don't answer they keep calling, sometimes several times a day. Recently the number of such calls to my cell phone has increased. My wife and I now get about 1 cal a day from unknown numbers which if answered are the same robocalls we get at home. This is more than a nuisance it infringes on normal daily activities gettiing calls while shopping, driving, golfing. All robocalls should be stopped, but especially on cell phones. Most of these companies ignore the DoNOTCall list where I have entered all of my numbers.
Victor	Vista Center	NJ	I support the FCC's proposed rules to set sensible guidelines for the types and frequency of calls and messages that debt collectors are allowed to make and send. They would also guarantee that anyone receiving a debt collection robocall is clearly told he or she can opt out, and is able to do so painlessly. Failure to abide by rules would result in a fine and jail time for the calling entity employees and company officers.
William	Silver Lake	OH	Robocalls of any sort whether it be by cell phone, corded phones or any communication device should be outlawed punishable by law. We demand and deserve our privacy from any and all of these leaches. We pay for these services and should not have to be harasses by these people.
Molly	Spring Lake	MI	Please ban robocalls to cell phones. I have received harassing phone calls regarding my ex husbands new wife's student debt!
jeannine	boynton beach	FL	Please end the robo calls.
Patricia	Somerville	NJ	end robocalls to cell phones
Jamie	South bend	IN	Absolutely no robo calls to my phone. My cell phone is for emergencies only.
Mark	New York	NY	No Cellular Robocalls!
ARTHUR	LEONARDTOWN	MD	Robocalls are totally annoying and are an invasion of privacy. Please do something to eliminate them. Thank you.
Matthew	Cambridge	MA	Plain and simple: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. Thank you,
David	Braselton	GA	This is an opportunity to make things right regarding this issue. PLEASE consider this legislation. Thank you.

William	Kittery	ME	If someone owes a debt, it is useful to have a phone call to remind them of that fact. But more than one phone call a month only serves the purpose of badgering debtors and should not be allowed. Debtors who are avoiding robocalls tend to send all their calls, even friendly ones, to voicemail, so it interferes with normal communication.
Dorothy	Yonkers	NY	Robocalls are harassment and a violation of my Constitutional rights. All robocalls should be illegal.
Suzanne	Savannah	GA	I am tired of receiving calls unsolicited! Please ban cell phone robo calls!
Kenneth N	Newton	NJ	Debt collectors seem to think they own the world and can make up their own rules. They can harass anyone at any time they please. It must stop!
Helen	Boonville	MO	With the exception of emergency notifications for safety, all robocalls should not be legal! This includes all political calls! Only shady businesses use them, so there is no reason for them! Enough is enough! Stop them now!
Ramsay	Milford	DE	NO robot calls to cell phones or land lines
Stephen	Warren	RI	Please enact and enforce the strict guidelines possible regulating how and when debt collectors and others are allowed to contact customers on cell phones.
Kathleen	Hillsborough	NJ	Robo calls constantly interrupt my day. The same thing over and over. It is harassment
James	Newton	MA	Robocalls have ruined landline phones; ours is unplugged almost all the time. Email is plagued with spam. Cell phones are our last resort for swift communication via calls or texts. Please implement strict guidelines to limit how debt collectors can contact cell phones. Certainly an initial contact over debt is legitimate. But the debtor receiving it should be notified of his or her right to stop receiving calls. Calls or texts should be limited to a reasonable number per month.
Sheila	Alpharetta	GA	Please use your position to help control robocalls. Thank you
Thomas	Baltimore	MD	I oppose robocalls to my cell phone without my permission. I carry my cell phone with me all the time, and I don't want to be interrupted by robocalls, which are a nuisance and in which I'm not interested.
Judith	Torrance	CA	These calls to my cellphone are a waste of my time and costly also. They interrupt me and take me away from my work. I have to get this too stop. My life is being taken over by these robots calls. Please help!
John	Birmingham	AL	Stop Robocalls to my phone that use my minutes and are sent in error with no recourse for me to stop them. All these calls must be stopped including those that are not for debt collection.

John	Roanoke	VA	I receive calls frequently from "unavailable" and "private caller" 6 or more times a day. Most of the time I am not sitting by the phone waiting on a call, I am outside doing yard work. I usually have to stop and go to the phone only to find out it's a "robocall" for a timeshare or a "free Vacation". When I tell the caller I am on the do not call list, they hang up. The calls are endless!!! Please enact laws to stop them.
Bill	Macon	GA	It must be made a crime to make robocalls to cell phones!
Roger	Reno	NV	Stop all robot calls. We receive at least 6-12 rob calls per day. It is endless and we never answer the phone because of it. Robo calls infringe on our right to peace and quiet. Please stop the robot calls.
Michael	Clarendon Hills	IL	Please find a way to stop the incessant calling on my cell phone from businesses that want to sell me products and services that I don't want. the calls come morning, mid day and evenings, sometimes with ominous sounding messages. this is an invasion of my privacy.
Gary	El Centro	CA	Please let us defend ourselves from the onslaught of automated calls.
David	Syosset	NY	Stop it!
Karen	Greeneville	TN	I'm sick of Robo calls on all my devices!
Tom	Austin	TX	Boy, am I tired of calls, NO CALLER ID, and no one responds when I answer. Calls daily from some place in Jamaica.
Mark	Holts Summit	MO	I am tired of getting calls from all over the world, yes, I said all over the world Egypt the most recent
Loraine	Lincoln Park	MI	The robocalls are so annoying. When the phone rings off the wall all day long you just want to throw it away.
Larry	New Braunfels	TX	We can't have computers against humans! It is simply inhumane!
Raymond	Amissville	VA	All robocalls are extremely annoying as they disrupt your day by pulling you away from whatever you are doing. As you get older, you have to answer calls from doctors, dentists, important business, family, and friends and can't always see who is there on the call monitoring screen, especially when you are expecting an important call. This is an invasion of my privacy. When they call me on my cell phone they use up my important minutes and cost me money to try to sell me snake oil or junk or even some scam - including braces that my doctor says I do NOT need (and Medicare pays for). That is ROBBERY!
Neal	Liberty Twp	OH	Please take action to end unsolicited robo calls to all phones, cellular as well as land lines. They are unwanted and disturbing to our days. They interrupt activities and can be an enticement for individuals to be drawn into scams causing financial and emotional ill effects

Mosetta	Gainesville	FL	Getting unwanted robocalls or faxes is a form of theft--theft of time, privacy, and money. I am unable to leave my home fax plugged in because of them. Robocalls at home are invasive, but robocalls on cell phones are more than invasive. They are annoying, frustrating, expensive depending on a person's plan, and should be stopped.
Glenn	Koloa	HI	Living in Hawaii, I receive annoying robocalls at all hours of the day or night! What ever happened to our right to privacy? Stop Robocalls !!!
Suzanne	Windsor	CT	Robo calls to friends and family of someone who owes on a debt is intrusion of one's privacy. Secondly, it adds fuel to the fire of many American citizens mistrust of the Federal Gov't, if allowed; this isn't a win-win for either party. Furthermore, in this day and age of shipping jobs overseas, many are experiencing a sudden loss of income and had no intention of not paying their bills, until their job was ripped out from under them. Improve the job climate and end the robo calls.
james	Mesquite	TX	Please stop these types of calls.
Richard	Houston	TX	I am sick and tired of unwanted calls being directed at my phone. I should be able to receive only the calls I want and authorize. That is what I pay the phone company for!
Gloria	Morehead City	NC	It started with just calls around lunchtime, but now I get calls all day long about helping my credit score, reducing my bill, I don't want to hear from these people, make them stop, please. I pay my credit card bill off each month I do not need their services, nor their phone calls!
Victor	Jeffersonville	IN	I am sick of hearing, "Hi, this Anne...." or "Hi, this Rachel...."! I have tried opting out, which that doesn't work. I've also tried asking the next available representative to remove me from the list. She stated that pressed 1 to save on my credit card. She argued with me about that for a minute as to why she wouldn't remove me from the list and hung up once I confirmed I did not want save on my credit cards.
Sue	Bryan	TX	Robocalls are unwanted period. They tie up your phone lines when you are waiting for calls from physicians and other life changing calls. You cannot even take naps because of robocalls. Now we just let the phone ring Not only do they call on the land line but the cell phone as well. Please, I beg you,, stop this madness. This includes charities and politicians!!!
Michael	Lititz	PA	Robo calls are a blatant intrusion on our privacy.
Jan	B.P.	CA	Please stop this activity.
Clifford	Comanche	TX	I pay my bills and taxes!!! But I get these call for people I don't even know and they won't stop even after talking with them. Please stop this abuse. Thanks
Sherry	Gainesville	GA	Robo calls are a an annoyance and I do not want to receive them anymore!
Linda	Rochester	NY	No robo calls at all! to cell phones or landline phones

Lee	Jacksonville	FL	I absolutely hate it when my cell gets a "junk" call. This number is not "listed" anywhere. I want the option to turn off junk !
Dan	Chestnut Hill	MA	Bothered for years by these jerks. Do Something About It!
Barrie	New york	NY	I do not answer my phone anymore. It rings 5 to 10 times per day with robocalls. Please do something!
Rosemarie	Conyerd	GA	No Robocalls to Cell Phones.
Diana	Wooste	OH	Being a financially responsible person I will never need to be called about a debt collection issue. Stop wasting my time. If I decide to buy a product it will be from my personal researching said product, not random unsolicited phone calling. Stop all robocalling.
Philip A.	Chicago	IL	Please end these unsolicited robocalls. They are disruptive and an invasion of our privacy.
Joseph	Murrysville	PA	Please stop all these unnecessary calls on cell phones and land lines.
Linda	Branchburg	NJ	We need strong legislation to stop robo calls to cell phones. Also, cell phone providers should be required to stop some or all robo calls from reaching cell phones if requested by the customer. Most robo calls to cell phones are scammers.
TIMOTHY	Eugene	OR	NO ROBO CALLS TO ANY PHONE. SYSTEM
James	Geneva	FL	Enough already , these parasites ignore do not call lists , the law and common courtesy . End Robo calls .
Jackie	Alliance	OH	Enough already. I get 2 or 3 robocalls per day, often more. With a young adult away from home, kids in school, and elderly parents with health problems, I have to answer the phone. These calls are often disguised with "cell phone" numbers, sometimes with a local area code, so screening them is difficult. I am sick to death of being bothered while trying to make dinner, driving, or whatever by these calls. Being on the "Do not call" list doesn't work. Talking to a person and asking to be removed from the call list doesn't work. Calling back doesn't work because some of the numbers that show up on caller ID are not even in service. Internet and telephone, both of which have become necessities in society today, are my biggest expenses. They cost more than the gas bill, more than the electric bill, and yet cause more annoyances than every other monthly bill combined for the entire year in our household ON A DAILY BASIS. I do not know a single person who wants these calls but I know plenty of people bothered by them. Political calls should not be exempt from any legislation. Charitable organizations should not be exempt from regulations. Just LEAVE US ALONE. Don't call us, we'll call you.
John	Lancaster	PA	No robocalls.
Jackie	Foster City	CA	I receive at least 5 robo calls per day... Some leave threatening messages. This should be illegal and there should be a punishable system in place for these scum!

Steven	New York	NY	I do not want the robot alleys around. Kindly tell the telemarketers to shut the damn, fuck and hell up, and that God is dead and Alvin has killed him.
Pamela	Bloomington	MN	Not everyone has unlimited calling on their cell phones. I want the robocalls to STOP... Its not fair that I have to pay for robocalls to my cell phone. It should be illegal to harrass cell phone owners with unwanted calls. I agree with this petition.
Paul	Plymouth	MA	Phones should not be used for any solicitation.
Hartmut	Quincy	MA	Seems the only call we get on our land telephone line are robocalls! Just about for every call we want to receive, we get 10 robocalls! Why do we have to pay Verizon to have our lifes disrupted all day long? Thank you for your effort to establish strict guidelines eliminating robocalls!
Michael	Cincinnati	OH	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
steve	harrogate	TN	I spend over \$200 per month for cell phone service. I resent advertisers using the service I am paying for.
James	Summerfield	FL	I receive 2-3 unsolicited phone calls on my cell phone everyday. Blocking those numbers does no good they simply use different numbers every time they call me. I also just started getting unsolicited text messages about 3 per week that also comes from a different phone number every time so again blocking them on my phone is ineffective. Please force these companies to provide a way for opting out.
Charlie	Tampa	FL	Robo calls are complete nuisance. They are uninvited and actually rude incursions into our privacy and peace of mind. Stop them or severely their transmission.
Doris	Northridge	CA	I have a "no contract" cell phone plan that charges me not only for outgoing calls, but I am also charged for all Incoming Calls! I resent having to pay 10 cents a minute for Robocalls to my Cell phone.
robyn	Twenty Nine Palms	CA	Invading personal privacy
howard	San Jose	CA	please regulate them, they are ruining my day with 3 to 10 calls daily.
Christopher	Methuen	MA	Please stop the useless phone calls to my cell phone.

Jesse	West Covina	CA	Please help protect the public from all the ILLEGAL HARASSMENT that continues day and night for some people. Worse is when the people being harassed are not even the debtors they're after. Please make it official that the debt collectors: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Must declare and show full business I.D. and Number on Caller I.D. information when calling.
Jacynth	West Covina	CA	Please help protect the public from all the ILLEGAL HARASSMENT that continues day and night for some people. Worse is when the people being harassed are not even the debtors they're after. Please make it official that the debt collectors: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Must declare and show full business I.D. and Number on Caller I.D. information when calling.
Laurie	Liverpool	NY	These are annoying phone calls. We don't answer numbers we don't know but sometimes they stay on the line long enough to trigger our answering machine to answer and beep but they leave no message. People shouldn't be hassled in their own homes.
Henry	Stow	OH	These annoying calls are pure nuisance please find a way to stop all of them!
Bill	Signal Mountain	TN	On our personal cell phones we have the ability to block any unwanted phone call. Please give us, the Consumer, the ability to block all phone calls that come to our homes. I'm retired but was a business owner, I would think the business owners would like that ability for their business also. Doesn't this fall under our 2nd amendment rights.
Kristen	Boyne City	MI	I have to constantly clear my recent-calls list, and block numbers from telemarketers, but they just call again from another number. I shouldn't have to do this!! Make it stop-- please!!!!
Reuel	Tamarac	FL	It is imperative that your Government Agency protects the wishes and rights of us citizens. Corporations are ONLY interested in their profits, that is why they are spending so much \$\$\$\$ trying to influence your decision. It comes down to Morality over Corruption - that is your basic decision on this
sSteven	Marina del Rey	CA	Stop ALL robocalls!!!

Jason	Burbank	CA	Enough is enough!! Stop all robocalling activity! Support legislation to stop all robocalling including ones from debt collectors and any company using the phone or cel phones to sell or contact users without permission. These calls are bothersome and unwanted. There isn't a service or product that I would buy as a result of a phone solicitation. These calls are intrusive and waste precious time to ones day while having to answer unwanted calls. The FCC needs to do its job and regulate these activities and protect consumer interests. Don't be a "lap-dog" to unscrupulous businesses. All of these parasitic businesses don't add any value to the consumer experience.
SAM	Orlando	FL	Please block Robocalls to cell phones.
Luciano	Philadelphia	PA	When you wait for an important call and receive an unsolicited robocall you not only waste time, but feel your privacy has been invaded. And what to say about those many messages in one's phone memory accumulating during long absences. It's more than privacy invasion. These are just two examples of privacy invasion that must not be permitted. Thank you.
John	Charlotte	NC	Privacy is hard enough to come by. My phone is part of me. Keep strangers out please!
Mick	Santa Maria	CA	My wife and family are all constantly receiving debt collection calls. The problem is, the person they want is in Fresno and the debts are from Fresno and we haven't been there in years. My wife's first and last names are the same as this woman, who is the debtor, but her middle initial is different. We have consistently and repeatedly told the debt collector that we are in no way related to this woman and we have had no transactions in the Fresno area and to please take our numbers off their call list but they called my son again last night. This has been going on for moths and we are getting very tired of this poor treatment.
Terry	Little Rock	SC	I have been getting calls from debt collectors for twenty-five years because an acquaintance listed our phone number when he went to the emergency room. He's been dead for several years, and I'm still getting his calls. I am adamantly opposed to robocalls to any phone for any reason. I don't owe anyone any money for anything, and they can still annoy me at their convenience.
Joe	Parma	OH	My phone is for me and my family, not for some assholes trying to sell me their crap.....
Tom	Rochester	NY	They have my cell number and I get up to 3 a day and always 1. Who do you work for
Dorothy	Snohomish	WA	I have been pestered by robocalls from businesses (not debt collectors) who are ignoring the fact that I am on the Do Not Call list and have been for at least 5 years. Those robocalls need to stop too.
Steven	Upper Nyack	NY	we're entitled to our privacy and quiet

charles	thomasville	GA	tried of answering a call and no one is there,,also on cell phone it is using up my my time and i have to pay for the extra time.. also it uses up my text time also...why cant something be done about it????
Gary	Woodbridge	NJ	Please end all the annoying robocalls by making it mandatory for the phone carriers to allow robocall blocking. We get them all the time despite being on the "DO Not Call List" that just doesn't work.
Ja'Meka	Detroit	MI	Please stop the harassing calls
Kristine	Univeristy Place	WA	Please stand up to the debt collection industry and regulate robocalls.
Veronica	Evergreen Park	IL	I'm angry I do not like those call. My telephone is for my family not them. They do not even follow the no call list.
Lane	Oroville	CA	Ten or more times a day I get these calls-----today--we have 3 million 9 hundred dollars for you --just send us \$950----another for 1 million & on & on---some don't even say anything---from NM, & 918 area----very upsetting !!!!
John	Charlevoix	MI	Home should be where we unwind,reflect on our day and spend time with our famlies .All to often robocalls destroy our cherished home time. Lets put an end to robocalls.
Joan	Mountain View	CA	We already get about a dozen robocalls every day starting in the AM and continuing through about 9PM. Once we got a call at 4:15 AM! Many of these calls are from companies we've never heard of claiming we owe money on an existing account. These are mostly on our land line. Strict, rigorous guidelines must be applied to all phones: cell phones and land lines. These calls are not only annoying; they're intimidating. You must find away to stop them.
STEPHEN	LOS ANGELES	CA	Robo Calls are an invasion of privacy and facilitate fraud and larceny by unscrupulous individuals and groups. They use threat, intimidation, long and short cons and frequently victimize the unwary. They also don't care whether the persons they call work days, swing or night shifts and will call at all hours of the day and night. We need you, the FCC to end this capacity for harm by making it possible through our existing telephone services and companies to opt out of all Robo Calls, with the telephone providers under mandatory compliance to provide this capacity for all of us as their customers. There also needs to be real teeth in Civil and Criminal charges against Robo Call offenders that ignore peoples rights to not be contacted by them, by Law Enforcement response as appropriate. Retired Police Officer
mark	east machias	ME	please pass the required bill etc. to stop all robo calls , calls made to some cell phones cost that person money and is a distraction from work ,driving etc.
Dennis	Boyertown	PA	Stop robocalls. They are a waste of my time.

Erv	Hereford	AZ	No Robo calls We pay for our phones for personal or business calls, not to have to pay for incoming calls that we don't want or need.
Leslie	Santa Clarita	CA	I am incredibly frustrated by companies and individuals that continue to contact me for purposes of solicitation, via my cell phone--particularly since it "uses up" my allowance and "ties up" my cell phone, which I use only for emergency purposes as opposed to general social and/or business purposes. Please fight on behalf of the consumers you represent to end cell phone abuse!
Doris	Northridge	CA	I have a "no contract" cell phone plan and I Have to Pay for All Incoming Calls! I am angry at having to pay for "robocalls" at 10 cents a minute!
LINDA	MILLSBORO	DE	HELLO, PLEASE HELP STOP THESE ANNOYING CALLS. IT IS AN INVASION OF PRIVACY. THANK YOU
Larry	Albuquerque	NM	Pass such huge fines, coupled with rewards for information leading to identification of perpetrators, that citizens can make money by helping the gov't catch an prosecute offenders. I get about 6 robocalls a day that are scams, and not legal political ads.
Kay	Lexington	KY	I don't see how it is fair to allow these shady companies to harass friends and families and call them at all hours of the day. The calls should be to only the debt holder and that only a couple of times a month. These calls should be allowed only at certain hours of the day and not all hours.
Colin	Concord	MA	Stop unlimited robocalls. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Jeffrey	Boynton Beach	FL	The robot all are nonstop and annoying. Please place laws in place to stop these unwanted calls.
Ronald	Hudson Oaks	TX	Sick and tired of Robo Calls. Please drive phone companies to provide an easy way to block these types of calls.
roy	beaverton	OR	All robocalls including sales should be eliminated. They are a huge harrassment
Anita	Kingsville	MO	I receive many cell phone robocallers from unknown numbers. I can not understand the messages that the callers leave because the first part of the call is not recorded on my phone and more often than not, the message is so garbled I can't even understand the part of the message that was recorded. The robocallers run my valuable battery time down. As an example, just last week my car wouldn't start and I was unable to make an emergency call for a tow because the robocallers had run my battery down. I only use my cell phone in case of an emergency, i.e. car trouble, running late for an appointment or needing directions to the doctor's office.

Ellen	Austin	TX	I am on No Call Lists, but am receiving unsolicited calls. My TX Attorney General office is no help. They told me to just not answer the calls. The FCC must step in and apply significant fines on these violaters.
Nanlouise	Santa Cruz	CA	I appreciate that the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone. If robocalls are to be permitted, please limit the number of calls per month and make sure that debt collection robocallers are required to notify us of our right to stop receiving calls. These guidelines need to be very clear and accessible. Thanks.
Dian	Boise	ID	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Geri	Whittier	CA	My mom's 100 years old and we are awakened several time a day by hustler's trying to sell us solar, contractor's needing work, etc. We have no way out. Now we're being attacked via our cell phones. Please protect us from being victims of predators. We're giving up our home phone now.
owen	Antioch	CA	When American's spend their hard earned money, on the basic needs for there household, they don't expect to be harassed daily by call's that they did not ask for. Please put a stop to the constant robocall's that happen daily.
Kathleen	Lincoln	CA	Please consider our time as a valuable, never to be re-lived precious treasure. Please guard it by stopping all robocalls. If I want to contact someone, I will personally call them. Robocalls are invasive. I should not have to use my personal time to stop each robocall. Thank you
Jeannie	Joliet	IL	Please do everything to stop these calls. I do not owe any money to anyone yet I receive these calls.
Matthew	san diego	CA	Please adopt strong robocall rules to cell phones. Repeated calls or texts from any one person or organization is nothing less than criminal harassment and not everyone, especially the poor, are on unlimited cellular plans. Robocalls allowed to cell phone are nothing less than a regressive tactic that adversely affects the poor. Please require that the robo-caller pay for all phone and text charges to the recipient.
Donna	Watertown	MA	Robo calls are more than a nuisance, they are a huge waste of time money and an invasion of my privacy. This problem is getting worse. A solution is needed.

d	Fairbanks	AK	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Mark	Traverse City	MI	I strongly urge you to protect my right to privacy by strictly limiting the amount & target of the calls. There should be limits on the frequency of calls (3 or fewer per month). Calls should be limited to only the person responsible for the debt. It should be mandatory that there be an opt-out provision & callers should be required to inform the call recipient of this provision at the very beginning of the call. Thank you for your consideration of my comments.
Joyce R.	San Francisco,	CA	Robocalls are disruptive--if one is working at home, attending to her/his children or busy with anything and to have to stop whatever one is doing constantly to answer robocalls is an unbelievable intrusion into one's life
Martha	San Antonio	TX	Caller ID should indicate or flag robocalls.
William	Holiday	FL	I sympathize with consumers who are in debt -BUT what about those of us who are not....the telemarketers never stop. They use robocalls to reach 1000's of people in only minutes -blocking their phone numbers -that would allow a consumer to refuse the call -What is worse, these predators rudely hang up on you when politely asked to be taken off their list ...and then keep calling back -if you're lucky enough to get a phone number displayed -the call back won't go thru. The robocallers are using technology to invade our privacy, and so far there has been NO WAY to stop them.
Heather	Moreno Valley	CA	I do not want unsolicited calls on my home phone, or my cell phone. I feel that is an invasion of my privacy, especially when I receive calls when I am at work. I prefer not to receive unsolicited calls at ANY time. These people have no parameters regarding time, or frequency. I will NEVER do business over the phone like that.
Estther	Battlelake	MN	I will hang up on you
Billie	Rathdrum	ID	I am a 74 year old widow with an arthritic ankle joint that causes immense pain when I have to get up from my chair and answer the phone. I hate it when it is a robo call. I receive at least one a day. Sometimes I receive as many as 5 or 6 of these maddening calls telling me that my credit is good, but they can help me get lower finance rates. I don't need credit. My house is paid for so i s my car. I don't charge things. I just want to be left alone from these darn calls. PLEASE STOP ROBO CALLS. THEY ARE ANNOYING AND THEY USE UP MY MINUTES ON MY CELL PHONE. I am on a limited monthly pension. Minutes cost money. Don't let robo calls use my minutes up PLEASE

Shirley	Veneta	OR	I do oppose robocalls on my cellphone without my permission because they come at the most inopportune times. Some are not only annoying; but, they are threatening, as well! Enough! Tell us how to stop receiving these calls when we are doing the best we can!
Dave	Ankeny	IA	Respect privacy and consumer rights.
John	Chicago	IL	No more ROBO CALLS.
Julie	Mill Valley	CA	We must be able to opt out of receiving such calls! In my case, the former owner of my current phone number had the student debt. I do not, but I do get calls for him.
George & Kare	San Marcos	CA	How much longer do we have to wait to have our lives free from our telephones being used as the medium used by scammers and suspicious companies. I have been threatened with jail and lawsuits by some of these calls - real people and recordings. These callers hide their true identity behind phony numbers and even other peoples names. We have had our name on the Do Not Call List for years, but it doesn't matter. These people are predators seeking to take advantage of others. The telephone companies will not use the technology available to protect the consumers. We can only hope the FCC will put a stop to these practices and set clear standards, along with effective consequences for those who continue to flaunt the rules.
william	plymouth	MI	No Robocalls to Cell Phones! Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Sheila	Edgewood	NM	For a do nothing Congress this body has a amen goodcareof special interest groups! Where has integrity gone? Stop sending me political emails asking for donations! For all Congrss gets for salaries Congress should be paying me for all the intrusion on my phones and emails
James	Dolton	IL	Please do not let marketing companies sell to the public via cell phones.
Phyllis	Marysville	WA	I hate them. Everyone hates them. Let's discontinue them. Sneaky, untruthful altogether. Most of them are to destroy. Filled with misinformation to deceive the recipient. Who needs them. Let's stop them & return to honesty. No wonder the kids of today are so inured when they hear nothing but sneaky lies & other dishonesty to emulate.
Roark	Sacramento	CA	Robocalls to cell phones are an invasion of privacy and cost me valuable minutes in extra charges too my cellular bill.

Herman	New Orleans	LA	It is extremely aggravating to have a telephone call that features some idiot trying to sell a product that someone is not interested in purchasing. I have enrolled in the o call program to no avail I still receive these annoying calls. How would you feel if you were the recipient of these non-solicited calls?
Harmony	Minneapolis	MN	Help STOP or limit Robo calls to my cellphone by limiting: *Debt collection robocallers must notify us of our right to stop receiving calls *The number of allowed calls or texts from any company to no more than three per month, and only to those who directly hold federal debt - not friends and family and assuring that the guidelines on how to be removed from a robo call list should be clear and readily available
Mary	Berkeley	CA	I receive several robo calls a week from "credit card services", "you've wine a cruise", "your loan application was approved". My number has been on the Do Not Call list for years, and all these calls started recently. These calls indicate that naive people are victimized, and I am seriously annoyed for myself as well. I want one-click reporting of thes illegal calls and I want the perpetrators prosecuted for both offenses. Please protect us from these calls!
Pat	Los Angeles	CA	STOP ROBOCALLS !!!!
Stephen	Bossier City	LA	While never having incurred a debt, cost or even experience. Still, I'm awakened on my third shift job, by calls from people I never heard of, impacting my rest and performance in my Fortune 2000 job. Deleteriously, I'll add. I've recorded such deficient actions in my employee log. It's costing us effort and hence, money, from people we never heard of. Way to suck!
Sigrid	Van Nuys	CA	Come on--stop this predation!
John	Phila.	PA	The constant, disturbing, interruptive calls have got to stop !!!
Thomas	Washoe Valley	NV	One quickly tires of poorly punctuated and articulated threats of imminent danger of lawsuits and ultimately bankruptcy if one does not call this number of a law firm in New York. Others threaten to collect on some unknown debt unless you call them immediately. This is nonsense and must be stopped.
kevin	acton	MA	Please block robocalls from my mobile. This is a waste of my time and a waste of my minutes and I should have tools to control this. Please work to eliminate this problem as soon as possible.
Marht	Seattle	WA	Yhey accomplish nothing that a live human being can't do better.
Christina	Roseville	CA	It is bad enough I have a phone who blocks calls that is constantly full, I do not want this for my cell phone. Why are these robocalls have more liberty and power than the individual American who does not want this. Please take care of loopholes & help us!

Michael	Walla Walla	WA	I was managing my demented aunt's mail for my cousin, who lives in London and is her power of attorney, but during this time, without any notice being given I soon was deluged by a range of robo calls, threats, and a range of psuedo to down right false legalist demands regarding my aunts affairs. None of these were by human beings nor were they particularly interested in the human tragedy associated with what was going on. Yet, despite having a excellent credit rating myself, I too was harassed and referred to as "UNKOWN DOMESTIC PARTNER", even though my aunt has been widowed for 15 years. The last thing the world needs is to turn these vultures loose on the cellular services, harassing people who are trying to work or otherwise conduct their daily affairs. Please deny this unscrupulous industry access to another dimension of America's privacy.
Sally	Laguna Woods	CA	Disgusting!
Eric	Fullerton	CA	Enough, no more calls
Kristen	Fullerton	CA	PLEASE STOP, with the calls.
James	Teaneck	NJ	Debt collection robocallers do not have, and further, should never be allowed, the right to interrupt me for any reason whatsoever. I have a right to be free of harassment and that de facto is precisely what those are. Three other points: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available
Bill	Lafayette	LA	It is so annoying-- And it wastes my time-
Wm	Vancouver	WA	I have found the FCC is not our friend. If they were this situation would be over. They by no means are willing to help the public. Only to accept/take our tax dollars to play the game. I know since I tried to have them help and was turned down several times, its a waste of time, a waste of time and time is what the Government agency gives out.
Shawn	Newbury Park	CA	I'm getting robocalls on my cell phone at an increasing rate. It has to stop.
Tanya	Glendale	CA	Make it possible to stop the calls that should be considered an illegal business.
Ibrahim	Minneapolis	MN	Harassing citizens on the their cellphones. Unacceptable for that kind of practices. We can't allow to continue their harassment. It needs to stop immediately.
J	Allen	TX	Stop these idiot machines from waking me up constantly. Shut them up.
Brian	Methuen	MA	This past week I got a robocall from someone claiming that I owe student loans. I was frightened, annoyed and upset. I had made my last student loan payment on May 3, !1997, the day of my baby sister's 28'th birthday. It was paid in full.

Jason	Modesto	CA	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Carolyn	Oro Valley	AZ	A phone subscriber pays for calls he/she wishes to make and receive. They should NOT have to put up with unsolicited calls, especially those calls made by a computer--Robo Calls. Please make them stop now!! Thanks.
P	Salem	OR	These can be very bothersome to many people.
Robert	Lacey	WA	Please prohibit robocalls on cell phones.
Caryn	Glendora	CA	I am so tired of my phone ringing 15-20 times a day. The RoboCalls must stop as well as all of the solicitation calls. What happened to the Do not call list? Did it disappear? Thank you.
Shelly	Grants Pass	OR	Why should "I"/"WE" have to put up with this? I pay enough for my phones/monthly bill I should have RIGHTS to who I like to call me and who I like NOT to call me. Unless YOU are supplying me with a free phone and paying my monthly bills as well, you should HAVE NO RIGHTS to force ROBO calls on me/us.
Kay	Mesa	AZ	WE get 10 to 15 Robo calls a day! Don't even answer phone anymore. Wait for message identification on answering machine etc.
Roger	Whittier	CA	NO robocalls to cell phones, or ANY phone !!!
Paul	Escondido	CA	It is really distracting to have these robocalls. When I am expecting an important call regarding a relatives health and status, I answer these dumb calls. Most of the time there isn't even anyone on the other end. Probably because the boiler room operation that they are in has them on another line of the many they called at the same time. They should be banned and made illegal. I had one friend (elderly) who had identity theft. He had someone swipe his personal information. From what we think was his personal information given when he entered a medical facility for care. He lives in the Los Angeles area, someone took out a payday loan using his info somewhere on the East Coast. Then a collection agency started harassing him to collect money. The local police department refused to take a report! This crap is getting out of hand. Then the collection agency started a robo call to his home phone every day. Unfortunately, or fortunately, he got ill and entered a nursing facility, and his phone was disconnected. The collection agency then tried to contact via a phone his daughter. I have a suggestion. all robocalls be forwarded to the FCC, lets see then how fast before this crap gets shut down. I demand my privacy and lets stop these intrusions.
Ken	Edmonds	WA	PLEASE STOP ROBOCALLS!

Georgw	Newaygo	MI	NO ROBO CALLS TO CELL PHONES. My cell phone number is on the No Call List and I am getting Robo calls. No Robo Calls to any phone.
Laura	Flagstaff	AZ	I have NO debt, but my cell phone is the target of one to three unsolicited calls every day. A large percentage are hang up calls from all over the US. The rest, recorded messages from illegal telemarketers I have no use for, nor would I dream of responding to. I block each number as it comes in. Why can't we have a rule that automatically disables a phone number if 50 or 100 people block it? My landline has been rendered useless; I don't answer and am probably going to disable the ring. I only keep it since it's bundled. Calls are beginning to come in overnight. When will the harrassment stop?
george	el cerrito	CA	No more robocalls
Bethany	Byron	GA	Robocalls are terrible and intrusive. My cell phone number should be sacrosanct and not used for Robocalls, telemarketers, etc.
Marianna	SOQUEL	CA	No more robocalls to cell phones or any phones.
JOSEPH E	EAST PROVIDENCE	RI	YOU THINK "DEBT COLLECTORS" ARE THE ONLY ASSHOLES CALLING US @ DINNER TIME?" DO YOU? BLOCK THE NIGERIAN INSECTS TRYING TO SELL US LIGHT BULBS AND STEAL OUR TAX RETURNS! HOW 'BOUT THAT?
Leo	Corpus Christi	TX	Please stop this miserable annoyance yesterday. This is totally out of control. This is what government is for to stop this when the private sector doesn't.
Jill	Medford	MA	Stop robo calls. It costs us money and time. It benefits big companies and harasses individual people
Eric	Marquette	MI	I oppose allowing debt collection robocallers to call without notification of the right to stop receiving calls. The number of allowed robocalls should be limited to no more than three per month and only to those who directly hold the federal debt - not to friends or family.
David	Headrick	OK	I had my fill of abusive robocalls when I had a landline. Persistent robocalls, including debt collection calls to some unknown debtors, eventually compelled me to terminate my landline and change to cellphone. I find robocalls to be extremely antagonizing, and I ask you to establish strong measures to preclude robocall abuse and harassment on cellphones.
Anke	Sunnyvale	CA	Get rid of those pesky calls
Olivia	Sacto	CA	Predatory tactics scumbag debt collectors use must be stopped.
david	Everett	WA	i absolutely rage when i receive a robocall. If i hear the name of the entity i make sure to never do business with, vote for, or anything else that may reward these effing calls.

Marilyn	Glastonbury	CT	The FCC must do more to stop robocalls including: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
Eva	New York	NY	Robocalls are an infringement of our privacy- whether to cell or land line phones and should be banned, period. ROBOCALLS TO ANY PHONE SHOULD BE BANNED!
Marion	Auburn	CA	No to robo calls on cell phones or home phones
Richard	Renton	WA	I carry my cell phone at work and my employer does not pay me to address personal calls of any kind on company time. Do not allow Robocalls that my affect my employment negatively! That is not why I have a cell phone, there are other ways companies can advertise.
Dale	Benicia	CA	In the words of Will Rodgers "we have the best government that money can buy" If you want to get re-elected please do the right thing and the job you were elected to do, if not and you continue to pander to the lobbyists and the moneyed interests of the monopolistic phone and cable companies you will soon feel the wrath of the voters and be replaced by the Donald Trumps and Bernie Sanders and an army of similar candidates that sense the end of business as usual in Washington.
Theodore	Los Angeles	CA	Creditors should be required to seek funds owed them by a live person and should leave a message if the debtor does not or cannot answer the 'phone. No Robocalls. The number of calls should be restricted to no more than one call per week and only to those who directly hold commercial or governmental debt. The guidelines should be easily understood and in common language containing no legalese or threats.
Brett	Huntington Beach	CA	Please help the citizens by preventing unwanted solicitors and Robo call hours from calling our mobile phones
Richard	Charleston	WV	Debt collection robocalls should be eliminated. Why can't a real person call to collect debt. Robocalls are a cheap and sleazy way to contact people and harass them. The FCC should require debt collection robocallers to notify us of our right to stop receiving calls; calls and texts should be limited to no more than three per month and to only those who directly hold federal debt - not friends and family; and finally, guidelines should be clear and readily available to everybody.
Joe	Paris	IL	I am retired and I am home most days. I receive 2 to 5 robo calls daily. Of course I have to run to the phone each time to make sure it's not an emergency call from my wife or one of my sons or another relative. It's not fair to put us through all this so someone can attempt to sell us a Bond or a condo or something else that's not necessary.

Patrick	Carson	CA	With these incessant robocalls that I receive, it get downright disgusting. Sometimes you just want to unplug the phone so as not to be bothered. When will it end?
Edwin	Mount Washington	KY	Tired of robo calls to home phone and not getting them on my cell phone. I am about ready to get rid of my land line and cell phone since the telephone companies must be making money off of them and don't want to stop this harassment. Find this law breakers and give them some hard prison time. Fines don't work.
WILLIAM	ALBUQUERQUE	NM	WE PAID MONEY TO BE ABLE TO COMMUNICATE WITH PEOPLE WE NEED TO TALK TO AND NOT TO BE DISTURBED OR INTERRUPTED BY ROBO CALLS. END THEM NOW!
Jerome	Poway	CA	Robo calls on my cell phone cost me minutes which forces me to either increase my plan, for added money, or not use my phone for purposes for which I purchased it. Additionally these robocalls are annoying on my landline. They need to be stopped NOW!
Calvin and Dee	Adams	TN	To Whom This May Concern: We find robocalls an annoying nuisance! We both work in the marketing and sale industries. Many times, we are in a conference with clients discussing serious financial options. Suddenly, the phone beginnings ringing or if we have it on vibrate; it buzzes until we either answer or reject...IF we answer and a computer begins, we typically hang-up! When this occurs three or four times while with the same clients, it gets to be an invasion of their appointment time. We are blessed NOT to have credit issues or student loans. So, we are at a complete loss as to how companies are getting our cell numbers. We assume some must be done randomly as we get calls frequently about paying off student loans. Our loans were paid -in-full in the late 80's! There should be a way that once a consumer opts-out or IF a company calls the same number a specific number of times and gets NO answer or does NOT get a returned call, the company making the call should be REQUIRED to REMOVE that number from their list. Learn to use reasonable deductions€; your call is NOT being answered intentionally. There should also be a way that ANY parent company or affiliated company (ies) be immediately notified and required to keep a list of consumers NOT wanting calls continuing to harass us. IF we need or want a particular service, we are intelligent enough to Google or research the company and find a contact number and address. Otherwise, we do not want random people or computers calling our cell numbers. Penalties should be severe and enforced! Companies are NOT respecting nor listening to consumers when we request to remove our names and numbers off their mailing list. Additionally, it appears IF the company making the call removes your name; they send or sell the name to another company under the umbrella of the parent company. It continues to be a vicious cycle. Please help us STOP the insanity! We seriously want out! We love our peace and tranquility. Please assume, IF I have NOT personally given you

James	Madison	WI	Robocalls made to cellphones are more predatory than robocalls to landlines, because the cellphone recipient of such calls pays for receiving as well as making calls. But even if this wasn't the case, robocalls are not something that people should have to endure if they don't want to get them.
Alice B.	Mt. Kisco	NY	Utilize cellphones purposely! One must be in tune with one's surroundings, not arbitrarily interrupted with a robocall on one's cellphone to address an issue that is not of priority when that robocall is received.
Leslie	Santa Cruz	CA	I oppose robo calls of all kinds. They are an invasion of my home and my privacy. I especially oppose them to my cell phone. I do not need to be driving, in a restaurant, or just relaxing, only to be called by some individual who feels his sale is more important than my sanity and time off. If I must be forced to receive these because your body of rule makers feels they have more rights than I do, then I must be told that I have a right to stop these calls and they MUST follow my wishes or there should be a penalty. Further, the number of calls and/or texts must be limited to a specific number to an individual telephone number, 2 or 3 come to mind. Further, I should never receive a call regarding a friend or family member. This should not be my problem. Please however, deny the right to robo call my cell phone, that would be the best outcome. thank you.
Charles	Pittsburgh	PA	NO ROBOCALLS OF ANY KIND MORE THAN 1 PER MONTH !!!
Claude	Berkeley	CA	very disturbing don't know what to do to deter them willing to automatically refuse anything sold in that way
Betty	Andrews	TX	I've already had someone call me on my cell phone dunning me for bills from over 10 years ago, I didn't have a cell phone until about 6 year's ago I'm like how'd they get my number this crap shoot!
Constantine	Walnut Creek	CA	Unless I have contacted a company I do not want any call from them. Calls to my cell phone cost me money and the DO NOT CALL LIST has yet to stop these robcalls to me cell phone.
Keith	Saint Louis	MO	Robocalls waste people's time and money. They cut into family time and work time, especially for people who work at home. We ought to be able to control who calls and does not call on our cellphones, just as we can on our landlines.
Dorset	Lafayette	LA	I am tired of getting phone calls in early morning and night....Please help to stop this.
Roland	Pleasanton	CA	We get an average of 20 calls per day from numbers we don't recognize and don't answer. Most importantly, none of them leave a message so we know it is spam. We are starting to get spam calls on our cells too. This all CRAP and must stop.
Myron	Landrum	SC	Robo calls to cell phones of people who work nights means I do not get a good nights (days) sleep. I am a night nurse and phone calls wake me meaning my patients will not get the carw the deserve!

Jim	Silver Spring	MD	I have cancer and I am undergoing chemothearpy. It greatly disturbs to have to go and see who is calling. Is it my Doctor or a Robo Ca;;?
Carol	San Rafael	CA	It is terribly harassing to receive an unwanted and unsolicited phone call that is made simply for the purpose of obtaining something from us. It would be much more peaceful not to dread, every time the phone rings, that the caller is a solicitor. I am old enough to remember the days before there were robocalls and solicitors and to long for the time when all calls were personal calls, and the phone was a convenience for the consumer, not a liability. Please give us back our peace.
kerry	austin	TX	please stop the robocalls to cell phones. it is disruptive and wasteful.
Kathy	Warren	MI	Don't like getting unsoliced calls. Very ANNOING .
Dale and Kare	Bay City	WI	Stop this breach of our privacy, immediately. They are really disgusting.
Jeff	Burbank	CA	I'm a senior citizen and several times a day I'm forced to get up to answer the phone, knowing ahead of time it's probably not a legitimate call from a friend. This is very distressing, not to mention difficult because of my arthritis. I pay for the line, only to have it abused by these callers. As I have been writing these words, my cellphone rang with a robocall from Marriott - please stop cellular robocalls as well as landline calls. It's my phone!
Dixie	Tampa	FL	Robocalls are so obnoxious ! I do not owe anyone money & am not interested in receiving even LIVE phone calls to sell me things. Especially on my cell phone in the U.S. (the only country that I know of where you have to pay for incoming calls as well as outgoing - which is another outrageous thing in our country). Whatever you can do to eliminate Robocalls completely, I'm all for. No one needs to receive them for any reason that I can think of ! Regards,
Marita P	Charlottesville	VA	Robocalls are invasive and reduce quality of life. They are invasive. I never answer my telephone anymore unless I recognize the number or or name. But they invade my private time, interrupting sleep, and calling me away from activities. At least my cell phone does not get them. I think if it did I might consider giving up the phone completely or keeping it turned off.
Vivian	Denver	CO	Robo calls are an invasion of privacy and costly to both the receiver and the environment in terms of wasted energy. There is no reasonable argument for giving permission to machines to call us anytime day or night. Stop them before we need a do not call list....which is not 100% effective.....for our cells.
Stevan	Atascadero	CA	Please ban robocalls to cell phones. We the people shouldn't have to deal with this type of interruption and harassment. Especially from companies to cheap to hire a human being to make their calls.

Roberta	Sunderland	MA	No robo
Stephen	Stroudsburg	PA	Please consider my request to NOT allow debt collectors to use robocalling and texting to my phone. We need guidelines for these types of callers, especially when debt collectors call friends and relatives of the debt holder. Thank you for your consideration in this matter.
Allan	Claremont	CA	I find all robocalls, whether to my landline or my cell phone, annoying. I regard them as a violation of my privacy and an invasion of my home and my personal space. Certainly they are an annoyance and an interruption to my concentration as I work at home, attend a meeting, or am driving. Allowing calls to people who are not even the true targets of the call, such as to family members to get information on people owing debts is but one example of the intrusive nature of this kind of call. Please prohibit this and other similar types of unwanted intrusiveness.
Sharon	Whittier	CA	Please stop robocalls to my home phone and to my cell phone.
Dana	Torrance	CA	My son was recently over and said "My goodness how do you stand that?" Gives you an idea what our phone is like everyday. ...AND we are on the "Do Not Call" list. The worst part is that your in the middle of something important, you stop to listen to who it is, can't understand the voice on the phone so you stop ,maybe have to dust off (as in Garden) or eating your dinner and number of things that you are busy doing and it interrupts my day at least 10 times on a light day. Some call everyday and if you ask them to stop, they do for maybe 2 or 3 days and they are back again with another number. Because I have elderly parents I can't always take the phone off the hook and they can never remember my cell. Just a pain to be as polite as I can!!!
William	Columbia	MD	We cannot allow cell phones to become as useless as land lines. Outlaw all cell robocalls except those from official government emergency services in actual emergencies. Compel carriers to implement one-click blocking of individual callers or of everyone not in contact list of subscriber. Executives of groups that make robocalls to be fined and serve jail time equal to the sum of all the wasted time of the recipients of their calls. Extradite or rendition of guilty foreign executives to be tried swiftly in absentia in U S Courts. Destroy all robocalls equipment found. License and track forever any robocalls equipment used by emergency services with yearly inventory and recertification. Destry it at the end of use by emergency services.

Cathy	Issaquah	WA	Since I don't have credit issues, I am 100% against all ROBOCALLS whether they are to cells phones or land lines. Those calls are a complete invasion of privacy, a waste of my time, and should become against the law....period. If we are given notification from such callers that we have a right to stop receiving them, that would be great as long as we don't have to 'jump through a bunch of hoops' to opt out. In my opinion, there should be zero (0), calls or texts allowed per month, and especially if they are trying to get ahold of a relative or friend of mine. Even for those who do have credit issues, it would be an invasion of their privacy if their relative or friend was contacted by a creditor.
Gerald	Howell	NJ	Now more then ever Americans need you to stand up and do the right thing and put an end to the bothersome calls we all have received from unwanted Robocalls. Show us you care and that you will do the right thing and stop them from happening. Thank you for you help on this issue. Concerned American.
Saran	Los Angeles	CA	No robocalls NEVER!!! Too time consuming.
Janiece	Beaverton	OR	Over the past six months, despite the fact I have an unlisted telephone number, I have received at least two dozen phone calls, some as early as 6:00 am and many from businesses/organizations that avoid clearly identifying themselves, in which the robocaller was attempting to gain personal identity data, sell merchandise/services, engage in research questions, collect debts, and engage volunteer services. These unprofessional and often illegal telephone disruptions have ruined sleep, interrupted meals and visits from guests, along with delaying and/or disturbing all sorts of important health care and community responsibilities within my household. It is unacceptable to permit robots or humans to invade my time, privacy, sleep, family commitments, meals, health care routines, educational activities, and other crucial activities. My telephone, whether a landline or a cell phone, is in place for the convenience and needs of those within my household, not every corrupt, unethical, and unprofessional corporation and organization on the planet! It's time to stop this abuse of private telephones by the greedy, self-centered corporateers who are indifferent to the needs, wishes, or intentions of American telephone owners/users.
Karen	Chesterfield	MI	Debt collection calls are the worst!
Jared	Edmond	OK	Please allow recipients to opt out of robocalls and not allow debt collectors to call relatives of those who owe money.
Kyle	East Wareham	MA	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family, otherwise they are blood sucking The guidelines should be clear and readily available.

Milton	Memphis	TN	Please stop Automatic dial calls. They are a burden to receive and have NO BENEFIT. Legit calls serve a purpose, not so Robo.
Luis	Alice	TX	Our cell phones were the last bastion of communication over which we had exclusive ownership. It's a pity that there, too, our right to freedom from harassment has also been encroached upon. It was my impression that collectors were not to contact us at work. Many of us use our cell phones at work, for work. But we also want to stay in touch with our children, other family members and loved ones at all times. I don't believe collectors, or unsolicited sales calls, should preempt our family, work or leisure time. It's enough that they bombard our home computers. Our right to use our cell phones, which we carry as an extension of our bodies, should be sacrosanct.
clinton	marrero	LA	stop calling me they are annoing
Jacquelin	Clifton Park	NY	I feel that they are a bother and use my minutes. I feel that there should no robo calls allowed cells or other.
James	Tarzana	CA	Robocalls cause innumerable interruptions to my business day - both on my business landline, as well as my cell phone. Not to mention the robocalls I receive on my personal home phone number. All in all, I receive at least two to three robocalls each day from companies with whom I have never done business, and with whom I shall never do business. Please end these calls immediately! The Do Not Call list is a joke - I have been listed there for years and still receive robocalls every day. The landline and cell phone providers have the facilities to assist me in blocking many of the robocall numbers, but few of the providers make blocking technology available to their customers. Some, like AT&T, even want to charge their landline customers to block calls. This is so unfair - why should I pay to block calls to my cell and landline phones that are prohibited by law in the first place? Please help!
Robert	Pittsburgh	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Helene	Long Beach	CA	Please do not allow robocalls to be made to our cell phones!
Tammy	Kearns	UT	Robocalling to harass is abusive and wastes time and money and can really make a day hard. Why allow grown ups to be abusive in such a way. Stop all bullying and abuse!
Bill	Covington	WA	The no call list that we put ourselves on is a worthless, toothless joke the government told us would prevent unwanted calls. Robo calls are now performed by machines that can call any time of the day and you cannot talk to a person in many cases to tell them to not call back so the only thing to do is hang up or not answer the phone.

D.	Tujunga	CA	I've had it with robocalls and telemarketers. These nuisance calls are an invasion of my right to privacy and should be outlawed and considered criminal behavior.
Dee Ann	Upland	CA	Two to three calls a day on my cell phone is ridiculous! What good does it do to be on the no call list! Stop this inconvenience for all of us, now!why are their rights more important than ours!we have to pay for the extra minutes they rob from us, when we get these calls!
Barry	Los Angeles	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Gary	Seattle	WA	Please do not allow robocalls to cell phones! In the days before cell phones, I had a land line. Like everyone else, I had it for MY convenience not for the convenience of people wanting to sell me something. I was paying for the service, they weren't paying for it but it became that they were getting the majority of the use of MY phone! Over the years, answering systems and caller-id has helped. I don't need to answer the phone if I don't recognize the number and, if it is important, the caller will leave a message. Note, however, that I don't consider a call from a salesperson an important call. With robocalls, they don't tend to leave a message...they just continuously dial your number. They are not phased by the fact that days, weeks, months go by and no one answers their calls. They just keep calling! Cell phones offered a respite from that because, supposedly, such calls would not find their way to cell phones. However, that seems to be on the table now. I do NOT want to get almost non-stop calls on my cell phone. Besides the fact that they are annoying, there is the added problem that, due to their very nature, one is almost never away from their cell phone. That means that, whereas my family and friends may know not to call during certain hours, robocallers can victimize me whenever they want. I can be in a noisy restaurant, in a quiet library, in the bathroom, etc. and there is that phone ringing! Please do not allow robocalls to cell phones!
Hattie	Magnolia	TX	We are tired of getting robo calls constantly every day.We are seniors and this is very annoying to deal with.
Bill	Theodore	AL	As a cell phone user it should be my choice whether I want someone to have and use my number, especially since my usage is metered and not unlimited. Also, this does not even take into consideration my time, if I want to buy something or participate in something I will research and make my own decisions of who to go to.

Stanley	Chicago	IL	Robocalls when I am on a do not call list are annoyances that should not be happening. Robocalls to a cell phone should not be allowed.
Linda	San Ysidro	CA	please stop these calls.i have at least 30 on my blocked list on vonage and get more everyday.
John	Rochester	NY	I do not want robocalls to my cell phone. It is had enough sorting trough missed calls without adding a bunch of spam to the list.
William	Richland	WA	I oppose all robocalls to my cell phone for any reason! I feel the same about robo calls to any phone too.
Jennifer	Farwell	MN	No Robocalls to Cell Phones!
Alice D	Port Orchard	WA	Robo calls are phone spam. S.T.O.P. I.T.
Noreen	Glendale	CA	Because of the constant robo calls from businesses advertising and those attempting to swindle money, we don't pick up our phone anymore. We don't answer our phones but screen them through the voice mail machine. It starts in the morning and continues through the evening. Please stop the robocallers.
Jeff	La Mesa	CA	We are receiving a multitude of robo calls, attempting to get us to give out our information.
Frank	Studio City	CA	How many intrusive calls a day are enough? 2,3, 5? What is to prevent 100 calls a day?
Carol	Levittown	PA	Robo calls should be illegal & those who do this should spend a few years in prison. Everyday, I get robo calls trying to tell me I owe money for this & that. I'm not stupid, thank God & so they are getting quite nasty. On the phone, in the mail, & on line. People who shouldn't are in my charge card helping themselves to what is not theirs & the card doesn't stop it. I'm beginning to hate living in America. Not the country, but these greedy people who don't want to work for a living. These horrid people should be imprisoned, made to pay back every cent they steal & heavily fined. I no longer want to get out of bed to face another day of being harassed & it's making me sick. No one has the right to do this to anyone, so why do we have to sign petitions to try & get the right to get things done. Why aren't the Americans being protected, while illegal aliens are just about getting free handouts & offered a cup of tea. I'm one mighty fed up American!! Stop these robo calls they are harassing, wrecking our moods & they are trying to rob us blind. Tell me, why aren't you protecting us, I'll tell you why MONEY while you give non Americans free money while we have to work to pay the taxes. Something smells rotten in Denmark, if you ask me !!!!!
Max	Las Vegas	NV	It is absolutely ridiculous that companies be allowed to make unwanted calls to either a house phone or a cell phone that we consumers pay hundreds of dollars to maintain for our personal use. If they will agree to pay my monthly bill for both types, then and only then, would I be obligated to listen to their spiel.

George	Newaygo	MI	Robo calls disturb our tranquility and quiet time. We have never received a Robo Call that offered or informed us of anything of interest to our family. Our phone number is on the Do Not Call List and we still get Robo Calls. Please get us some peace. Stop All Robo Calls.
Marilyn	Ft. Myers	FL	I am in my late 60s and have been a caregiver for my husband and mother for several years. Invariably when I am in the midst of caring for them I will get a phone call, only to find that it is an automated call trying to sell me something. THIS IS SO ANNOYING AND DISRUPTIVE TO MY LIFE. Please reinstate and enforce the no call list. Thank you.
Cheryl	Milwaukie	OR	Please, I get a lot of Robocalls from the same companies on my phone, but I have no way of asking the company to put me on their Do Not Call List.
Renee	Bremerton	WA	Robocalls are harassment. Businesses which robocall without consent are infringing on my personal freedom and civil rights with their continued harassment. This sustained conduct further draws from my finances without my consent all too often. Debt collection robocalls are impersonal and increasingly harassing as well. All robocalling needs to lessen to three calls or less per month, provide full guidelines for the basis of their calling, notify recipients of their rights regarding such calls and make guidelines clear and readily available. Robocalls need to end with a return to individuals on the other end of a phone conversation.
Terance	Lincoln	NE	The government of the united States of America does not need to be in partnership with private business. The US Postal Service is the worst kind of example of bureaucrats acting as the paid servant of direct mail marketing companies. In the same way, the FCC does not need to be and should not be the hand-maiden of businesses grabbing access to my cell phone. Robo calls are essentially free of any cost to the marketer - let them pay for a stamp if they want to "reach out and touch" someone. The government should not be in the business of providing cheap ways for businesses to do marketing. In the same way, debt collectors have possibly found a bonanza of sorts in that they can harass someone at any hour of the day or night no matter where the person is. It used to be the person had to be at home when the debt collector called, but thanks to the target carrying a cell phone, they are ALWAYS in the debt collector's cross-hairs.
Stella	Holiday	FL	These calls are disruptive to my business
Donna	Long Beach	CA	Please stop them. I am tired of being disturbed by them. Also early am wake up calls, because I am west coast and they're east coast, just sets my day on a bad note.
Roy	Mineola	NY	These calls are not only annoying, they cost me money and affect my business.

gene	Tacoma	WA	There needs to be strict rules and regulations for any unwanted calls similar to the "do not call list". After being warned there needs to be some type of penalty in place where it discourages the robocallers.
William	Castro Valley	CA	Why do people (companies) believe they can call and disrupt anybody anytime they want? You wouldn't allow anyone to come to your house or work anytime they felt like it. The technology is there to stop someone or a machine from being able to call you. Did I say it's irritating? EXTREMELY
mary	LA	CA	we all pay for our phone lines and taxes added to bill only for this instrument/ services to be stolen +taken over + abused by lying commerecial companies...who make roboalls and telemarketing and even surveys - all using OUR PHONES without our permission. And usurping our property and paid services. Any companies identified doing these SALES calls and claiming they 'can do whatever They Want to Do to us' is being put on lists of DO NOT USE THEM ever for anything ever and ruin their reputation. We share those abusers' names and info publicly so they can be damaged and boycotted,dismissed and avoided for anything they are trying so desperately to sell us. Bad actions lead to bad results.
David	Oakland	CA	Why is it that only when members of Congress get robo calls, the rules change. Remember when some of the members of Congress were getting robo calls about their auto warranty ending and asking them to renew, the calls ended immediately for everyone. Why do we have to put up with this time wasting, frustrating, minute burning annoyance? I know that the corporations are running the country, but are they running the FCC???
Dionne	AVENTURA	FL	Please Stop! FCC stay strong against debt collectors who want to open the floodgates to calls or texts robocalls. It's long been illegal for debt collectors to robocall your cell phones without permission. Stop this allowing debt collectors to robocall anyone with federal student loans or back taxes. Even if you don't owe money, but a relative does, or if your phone number once belonged to someone who does, you could be robocalled. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available and punishable by law.
Gloria-Jean	Mineola	NY	Robo calla to my cell phone not only invades my privacy, it costs me money and time.
Gloria-Jean	Mineola	NY	Robo calla to my cell phone not only invades my privacy, it costs me money and time.

Susan	Garfield	AR	Why should I have to pay for air time for unsolicited harassing robocalls? They are pushy, won't take no for an answer, and keep calling even though I tell them to remove me from their call list!
C. W.	Upstate	NY	There's not a day that goes by that we don't receive one or more unwanted solicitous phone call! Many are not identified and all too often I receive fraudulent calls making false and sometimes claims with criminal intent. Among those are the frequent phishing calls claiming to be from Microsoft technicians stating that my computer is sending harmful signals! If I follow their instructions it provides them with complete access and control of my computer, mail, passwords, account access, etc. These calls are from constantly changing numbers, or scrambled or unidentified... Sometimes even showing from my own number! YOU must put a stop to this.
Vicki	St. Louis	MO	Constant Robo Calls are an annoying nuisance. This needs to be stopped.
John	Portland	OR	On my home phone I routinely get more "spam" calls than legitimate calls today, and that's despite being on do not call lists. Please, please, please don't make me have to respond to every one of these low-lives who are trying to reach me only as a means of making money. It's not in my interest, only theirs, and it eats up a great deal of time and my mobile minutes to deal with them. Who accesses my phone should be up to me, not up to marketeers and spammers.
Jody	Stowe	VT	We pay for our phones and our service, and we deserve the right to control who calls us. Robocalls are an assault on my privacy.
David	Santa Rosa	CA	I do not support rules that allow any individual, business or organization to make unsolicited calls to my cell phone. Those calls are an invasion of privacy. In general, I believe the following points should be incorporated into guidelines that regulate how and when debt collectors are allowed to place calls to cell phones: * Debt collection robocallers must notify us of our right to stop receiving calls; * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family; * The guidelines should be clear and readily available. Thank you for considering my comments.
Crystal	Glendale	AZ	No one wants robocalls. My cell phone is a private phone. I do not want to be deluged with robocalls of any type. Thank you.
Lori	Whitefish bay	WI	You are not welcome to invade my world.
Paul	North Augusta	SC	How can I eliminate unwanted and/or unknown callers from calling my phone? I receive numerous calls per day from callers that are either unidentified or unknown. I even received a call that showed the caller as unknown but the number calling as my number. These calls are a real nuisance. HELP !!!

J. A.	Trussville	AL	Fake calls all the time on my cell phone. Some from my local area code. When they call I always ask where are they calling from. They never can tell me the right city and state that the caller id shows. I am sick of getting these almost every day. I have an app called mr number. It helps but some still get through.
Arlene	Elyria	OH	Please don't allow robocalls to any phone.
Jeanne	Dudley	MA	I get robocalls on both cell phone and land line. I have not answered some important medical calls because they resemble the robocalls. Charter Communications, my land line company, has a difficult process to block up to 10 numbers. I've received over 100 different robocalls. ADT&T, my cell phone company, really has no process to block robocall numbers.
Humberto	Diamond Bar	CA	The cell or smart phone has become an invaluable device in today's world. To many people it is as essential and important as a wallet. Therefore, since it is such a personal item, it should be protected and treated as such. My personal possessions must not be "messed with" without my permission.
Ron	Oakland	OR	Robo calls are completely disrespectful, rude, and annoying, not only that but they interrupt service that would be available to the recipient. This can and most certainly has caused disruption of the safety of the individual receiving the call by tying up the line when an emergency occurs. As the governing commission in charge of communication oversight I ask that you curtail the use of robo calls in the United States of America. Thank you
Ken	Lawrence	KS	I am very disappointed that our government has not already taken effective steps to protect our citizens from the tremendous amount of bogus, scam robo-callers. I am actually ashamed for us as a country. Please do something to stop this abuse for good.
Kathy	Phoenix	AZ	I am 68 years old; and cannot afford a smart phone or data plan. So I have a small flip phone, with limited minutes. I use those minutes to chat with my children and grandchildren, and am careful not to go over my allotted time. I constantly receive automated phone calls on my phone! I have no connection to these people, don't know who they are, and every time they call I try to indicate that I don't want to hear from them again. But I think that when I leave messages, etc. at the end of their call, it actually leads to more calls! I pay for every minute talking on my phone, and I shouldn't have to pay when someone I don't know or want to talk to, calls me! Please make this stop! Every time I ask to be put on their "Do Not Call" list; but they just keep calling. I am too old to deal with this, and can't afford any more unwanted phone calls! Thank you.
Constance	Meridian	MS	I am a retired female and I don't like that foolishness in my ear. Please leave me alone.

Billy	Hamilton	MT	Every once in a while, I get recorded messages from so--called "companies" who make phony claims about some big deals on grocery shipping sprees and/or telemarketers making recorded claims that I won a cruise.... Well, thankfully, have an answering machine the picks up such calls and I delete that garbage. Nevertheless, it's time to crack down on robocallers and impose stiff penalties of heavy fines and prison sentences on individuals and companies who willfully and repeatedly violate the law.
Steven	Hollister	CA	Block robo calls
Ina	Freeport	NY	My husband and I are senior citizens. We find these calls intrusive, invasive and just plain offensive and annoying.
Shannon	Holladay	UT	It is intrusive to get robo calls and particularly annoying on a cell phone
Caroline	Maywood	NJ	I'm so tired and angry that I get cold calls from all types of companies. STOP the MADNESS. Its just not right that my cell phone and home phone receive multiple call daily from all types of ASSHOLES. CUT this SHIT OUT!!!!!!!
Iris	Yelm	WA	ROBOCALLS ARE SO DISTURBING. NO CELL PHONE, BUT THEY FIND ME. Caller I.D. does not help...can't have it in all the rooms of the house. What those who use ROBOCALLS should know is this: I hang up right away when I recognize it is a recording. IF it is a political call, I make sure I don't vote for the candidate. THEY GAIN NOTHING BY USING THIS INTERRUPTING OF PEOPLE'S LIVES!
Lenora	Boulder	CO	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Dianne	Lincoln	CA	These robo and scam calls just don't let up. If we can put a man on the moon, we should be able to have this nuisance resolved. Thank you.
Sharon	Lewisville	TX	I enjoy a quite phone. And I enjoy my privacy. Allowing robo calls to a cell phone would take away things I cherish most, especially in a time when we are bombarded everywhere we go, and everything we do with solicitations. And the possibility of being scammed, identities stolen, etc. Please do not allow robo calls to cell phones.
Peter J.	Manlius	NY	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Ivar	Tucson	AZ	Robocalls are an unnecessary intrusion. Debt collection or not, we have a right to privacy, particularly if we are paying for the incoming calls. Please stop it.

Carl	Oceanside	CA	Please, I don't want calls on my cell phone from people I did not give permission to call me! It's simple: I have a right to my privacy. I don't like interruptions by intruders, and I 'll bet you don't either!
Hugh	Seattle	WA	I oppose robocalls to my cell phone. Debt collection robocallers must notify us of our right to stop receiving calls, and clear and readily available guidelines are needed to limit the number of allowed calls or texts.
Kathy	Redway	CA	I am so, so Sick of the Robocalls. It has to Stop! Do Something to End this to End this Forever!
Vidal	Highland	CA	Why should I pay for outside unwanted robocalls on my phone? These calls use up my personal time in having to listen to, and delete each individual call. This is very, very wrong. This is my phone that I pay hundreds of dollars for, using my data which I pay for, to be forced to listen to calls I do not want to hear. How unAmerican can you get?
David	Elk Grove	CA	I am sick of receiving robocalls on my cell phone. I urge the FCC to ban robocalls to cell phones without the prior explicit permission of the person who has that cell phone number. No wiggle room for crooked companies to get around it. The current FCC has not been pro-active in the interests of the American people. That should change, and change NOW.
Rolando	Vancouver	WA	I dropped my land lines several years ago because of nuisance rob calls or unwanted solicitors. Our family only has cell phones. I value my privacy and request you do all you can to preserve that for the average consumer. As a federal employee retired, I trust you will do what is best in the publics interest. Thank you
Robin	Little Rock	AR	Stop Robocalls on both cell phones, and home phones also immediately now!
Lori	East Meadow	NY	My cell phone accompanies me to places where I need to receive only emergency phone calls. Lately I have been receiving robocalls on my cell phone when I should not need to answer or check them. I need to check all calls to be sure they are not about my son, who is highly allergic to several foods & could be experiencing an emergency, or about my elderly parents. It is extremely annoying to be at a doctor's appointment or at work and have to check a call that turns out to be a recording. Furthermore, I have a finite number of cell phone minutes per month, & it is totally unfair when those are used up by a robocall.

Patricia	Ellicott City	MD	Robocalls drive all of us nuts, but worst of all, it uses up precious limited minutes on my cell phone. My home phone has the problem too. And even though I belong to the "National Do Not Call Registry", I still get calls from spammers and other persons trying to sell me something. Both have to stop. In addition to being annoying, it wastes my time and fills up my caller ID box. If I don't recognize the number I have to choose to answer, in case it is an emergency for a family member, or let it go to the answering machine, and often they drop the call once the answering machine takes over. However, this does not happen with cell phones.
Timothy	Beaumont	CA	Pure harassment from relentless sales representatives. Oh wait. I just won another cruise. FCC does nothing to protect the people it is supposed to represent. This is where unscrupulous sales people get their foot in the door to pick the pockets of senior citizens and our federal representatives don't see a problem or don't care enough to do anything about it. This is why people are so fed up with the status quo. This is why Donald Trump and Bernie Sanders are so successful.
Karina	Wake Village	TX	No robocalls to cell phones.
Bonita	Fuquay	NC	We receive at least a half dozen robocalls on our home phone each day. I thought the Do Not Call registry would address this. Apparently, it didn't. We are also getting robocalls on our cell phones. They interrupt our day to day lives. They need to be stopped.
Deborah	Kingston	NY	They drive one mad. They don't help solve a problem. They merely harass the victim. I can't go solar because of shade around my house. I don't want advertising space on Google any more than I want a free cruise. I pay for the use of my phone. I resent it being used to invade my privacy.
Renate	Carson City	NV	When you're caring for a dying family member, you are on stress overload. Having what little sleep you do get interrupted (late at night, at 6:55 am this morning) is acceptable. The phone does have to be for specific monitoring - I agree - but that is no reason to require me to pay fees so unwanted, unnecessary, pernicious call manufacturing sites can intrude into my life Stop ALL robo calls. Annihilate the industry..
S	Aurora	IL	Our personal phones are just that!
John	Irvine	CA	Very Annoooooooooooying!!!!
Linda	Cochiti Lake	NM	Please regulate how and when debt collectors are allowed to contact by phone. Debt collection robocallers must notify us of our right to stop receiving calls. Calls should be limited to no more than 3 a month and only to the person directly holding federal debt Guidelines should be clear and available

georgia and jo	Fort Collins	CO	We receive countless Robocalls daily, including one that has been ongoing for around 6 months. That one says the IRS is going to arrest us for owed money. At the least this is irritating. At the worst, it causes people to pay money to the callers, that is not warranted And, in many cases, they cannot afford to give the money. These calls need to be stopped. It is the citizens right to not have to endured countless calls every day, that are unsolicited. Please help citizens get rid of this menace.
Laurence	Baltimore	MD	It is a matter of time that I injure myself going to answer one of these robocalls. Seriously, I have tripped trying to get to the phone. They also often disrupt my train of thought when I am trying to work. They invade my privacy. They wake up members of my household. They need to be stopped.
Carole	Eagan	MN	Some of the worst are the callers who use a fake number to call you so your caller ID looks legitimate.
don	san jose	CA	We're tired of getting 8-to-10 or more robocalls a day on our home phone as well as several on our cell phone. Make these annoying parasites disappear and stop them wasting my time and resources. They serve no useful purpose to me or anyone else and invade my privacy each and every day. I should be able to sit at home, or in my office, without being annoyed by irrelevant and unwanted calls from people with whom I have no relationship and in whose business or products I am not interested in and did not solicit. Stop them NOW!
Jeff	Atlanta	GA	Every day I receive 3 to 5 robo calls on my cell phone form companies I have not given my permission to call me. I know there is technology available that could be used to prevent unscrupulous companies from placing those calls in the first place. I am registered on the DO NOT CALL LIST, however, that does not stop these calls. It wastes lots of my time daily, multiplied by the number of consumers and it becomes a staggering waste of time and money and a huge annoying frustration. Please do the right thing and impose strict restrictions on cell providers to implement the technology to block these robo calls from going through. The cell phone providers need o be made accountable to their customers by providing the option to block these unsolicited calls from going through for millions of cell phone customers.
Marvin	Monroe Twp	NJ	Robocalls are time consuming and very annoying. Robocallers should be required to give you their home number so you can call and annoy tham
Billy	Memphis	TN	Sick and tired of these dam robocallers!
Gary	Los Angeles	CA	Please stop these incessant, disrupting and annoying sales calls. It is not right that I have to pay my phone company to receive these calls and take my valuable time and money with these irritating phone calls. I receive these calls even though I am on the DO NOT CALL REGISTRY.

Barbara	Staten Island	NY	Today, I've had five or six robocalls that interrupted work, trains of thought, clogging my answering machine - an annoying invasion of privacy. I haven't included the "hang-ups". And most have poor connections and heavily accented callers, causing ear strain and drain on my patience. Please take pity on hapless recipients of these calls and put an end to our misery.
M.	Rockville	UT	Have been getting 3-6 calls a day, weekdays from the same number for several weeks. I didn't do business with them before and they had no reason to call my number. Finally today, I actually caught someone on the line today (they usually hang up after the second ring making it hard to answer). When I said I would be filing a complaint with FCC, and to remove my number from their database, I have not received any calls since.
T.S.	Spotsylvania	VA	Robocalls are only getting more frequent and more bothersome, especially to senior citizens such as my wife and me. Many robocallers seem to be purposefully preying on seniors. Our only defense now is to individually block bothersome callers. But, anymore, these bothersome calls have become so frequent and varied that most phone systems lack the capacity to block all robocall sources. WE REALLY NEED YOUR HELP NOW. PLEASE TAKE ACTION!! Thank you.
Delbert	Manhattan	KS	We often get 1-3 robocalls a day and we are very, very tired of it. It wastes our time through interruptions and simply should not be allowed.
Roger	Silverthorne	CO	Please do not allow robo calls
Stephan	Watsontown	PA	Robocallers are running ruthlessly and lawlessly over the public's cellphone and landline systems. I discontinued my landline because of this issue, but they call my cellphone, anyway, requiring me to employ a call blocker, which causes me to miss important calls. The "no-call" list is useless. Please take these steps, at a minimum: Debt collection robocallers must notify us of our right to stop receiving calls, The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family, The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. There should also be a commonly easy way for users such as me, the average citizen and not an attorney, to enforce this law with accompanying serious and significant penalties.

Jan	Portland	OR	I am probably one of a small minority of people who still have a landline in my home. I keep it and pay the monthly fee for safety and security reasons, but I am seriously considering dropping this service due to the fact that 95% of the calls that ring through on this phone are from solicitors or robocalls. You can help the phone company retain customers like me by providing better containment of these calls. None of mine are for debt, but for the most part, they are all interruptions to my time.
Toni	Baltimore	MD	I oppose robocalls to my cell phone without my permission.
Chris	Tacoma	WA	Prohibit debt collection agencies from calling people with a similar names. After nine calls I finally called this collection agency. They had the wrong person, but they caused me a lot of stress that I didn't deserve. I wasn't hesitant to call them because I prefer not to give out personal information. I am getting so many robo calls that I don't answer the phone if I don't recognize the number, therefore keeping me from receiving legitimate calls.
Heidi	Wilmette	IL	I never answer my home phone. I am on the do not call list and still cannot answer the phone. I do not want the same thing to happen to my cell phone!!
Joel	North Miami Beach	FL	Dear FCC, As a former Bell Labs engineer and AT&T manager, I know a little more than most about telecommunications, but you don't have to be an expert to know how annoying robocalls are. I have been getting them on my landline for years, despite being on a "no call list". Now I am getting them on my cell phone and, frankly, enough is enough. I urge you to put a stop to all marketing calls and scams. The telecoms have the technology to do this and it is up to the FCC to require it. In addition, -Debt collection robocallers must notify us of our right to stop receiving calls -The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available Sincerely, Joel Kurtzberg

Anthony	Houston	TX	I personally don't like receiving calls because I am not a phone person. When I have to give a phone number for whatever reason, I give my home number because I have caller ID and I automatically look first to screen if I want to answer or let the recorder catch it. My cell phone is my personal phone and I don't give that number unless it is someone that I want to talk to. When my cell phone rings I answer because I know that this number is only given to special people. Now, when these unwanted people call on my PRIVATE line, my blood pressure shoots thru the roof, because this is an invasion of my privacy. I am basically a mild mannered person, but this burns me up and I usually say things that are not very nice which upsets me because I do not like to speak ugly to others. I paid very good money for my cell phone and I consider this my private number, and I don't agree that these people should have the right to use my PRIVATE number for there advertisement at my expense. Furthermore I would never patronize anyone who invades my privacy as these people do, so it is a waist my time and theirs anyway.
Wendy	Claremont	CA	I am totally against Robocalls. I had a recorded message which continued playing even though I tried to hang it up. I needed to make an emergency call to a hospital regarding a family member and could not access the phone line I pay for. Fortunately I have a cell phone and could use that. I am against Robocalls and do not want them calling my phone lines...EVER!
Thomas	Chicago	IL	I am tired of getting robocalls at all times of the day. Early Sunday morning and late at night on a work day. Ban the RoboCalls.....Please help.
THOMAS	El Cajon	CA	UNWANTED ROBOCALLS RING MY PHONE DAILY. SOME CALLS COME FROM THE SAME SOURCE ("CARMENT FROM CARD SERVICES") AND AS SOON AS A QUESTION IS ASKED THEY HANG UP. OTHER TIMES THE PHONE RINGS A COUPLE TIMES AND THERE IS NO ONE THERE; A SCAM TO GET ME TO PHONE THEM BACK AT SOME SPECIAL CHARGE OR TOLL FOR THE CALL. GIVE US THE ABILITY TO BLOCK UNWANTED CALLS. COX LETS ME BLOCK UP TO 31 NUMBERS BUT THAT'S NOT ENOUGH. WE NEED HELP. THE TELEPHONE IS A VITAL LINK AND YET THESE UNWANTED CALLS MAY FORCE ME TO TURN OFF THE PHONE AND ONLY USE IT FOR OUT-GONG CALLS.
Russ	Willow Springs	MO	Please help stop the unwanted harassment on cell phone users. Stop all robocalls.
Tonm	Belle Mead	NJ	Robocalls are annoying as well as disruption. If you can stop them please do. They serve no purpose!
Marion	kalispell	MT	Can't we be safe from advertising anywhere?

L	Escondido	CA	Week before last I had two calls, one robocall claimed to be from the local police that the IRS had put out a warrant for my arrest (yeah that's why I got a refund already) the second call claimed to be from my computer service that someone was trying to hack into my computer (not a robocall but I bet that guy's ear will really hurt). Then there are the calls from collection agents looking for my ex-hubby who took out a couple of loans and skipped after giving them my phone number. Even after I've told them he hasn't been here in over 10 years they continue to robocall!
Frederick	Cromwell	CT	These calls are extremely annoying
allen	woodway	TX	please, we want no robo calls on cell phones!!!
Lynn	Glastonbury	CT	the phone rings and it's "ANONYMOUS". or "Name Not Known". or a string of numbers and letters. rarely is there a message left on my machine, though just today, the voice said that if i would just push a number, i'd get my free help alert button in the mail. because a friend or relative had given them my name as someone who needed an help alert button. i have no friend or relative who would ever have done that. and then there's the guy- Kevin- who offers to do just about anything - the same long message that is left on my machine every time- he's been running it for YEARS. it has already started on my cell phone- please don't let them take that over too.
Don	Twin Falls	ID	I get three to five robocalls per day and I don't have any outstanding debt! This is extremely annoying and uses up my cellphone minutes needlessly. Please stop Robocalling completely!
Kim	Marietta	GA	I've never met anyone who seems to be ok with robocalls. Most of them are audio-spam, and all of them should be illegal.
Peter	Minneapolis	MN	Intrusive automated calling puts a burden on everyone with a cell phone. It's time to limit corporate access to my private life.
Curtis	Ashtabula	OH	They won't stop, all day long. Who is selling my number? I am on a cell do not call list, yet I still get them All day long.
Peter	Minneapolis	MN	Intrusive automated calling puts a burden on everyone with a cell phone. It's time to limit corporate access to my private life.
Laura	Eugene	OR	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Janice	Colton	OR	We need to pay for mobile calls by each call. When we get unwanted calls, we still need to pay. You need to make this unjust policy go away.
Barbara	Torrance	CA	Robocalls drive me up the wall. I would not under any circumstances buy anything advertised that way. All they do is anger the recipient, who will then swear NEVER to patronize the robocaller's business. Please, please end this practice!

Brian	Murphysboro	IL	I ask for your assistance to end robo calls. Our phone service is for our private use especially for family members who have compromised health conditions. Emergency phone calls become important to families and we do not need interference with robo calls. These calls also cause stress among family members when health issues arise. Again, our phone service is for our private use and not for solicitations by credit card companies/creditors/banks nor requests for donations by a variety of organizations including political parties. These need to stop!
Justin	Heath	TX	Stop allowing any individual or company to call our cell phones with robo-call systems. PERIOD.
Jacqui	Tehachapi	CA	Please stop these annoying calls. If I want to buy something I will call them.
Steve	Kennewick	WA	I always allow correspondance through e-mail or landline, but never through my cell phone due to charges and privacy. There should be fines for telemarketers that call cell phone numbers, unless they are going to contribute to the monthly amount of my cell phone bill. There should also be a LAW against calls going out to family and friends, this is a form of harassment, and unethical. Thank you for listening.
Ann	Casper	WY	I am soooooo tired of answerint the telephone and no one is there. With robo calls the first person to answer the call gets the message. PLEASE PUT A HALT TO THIS INTERFERENCE IN OUR DAILY LIVES.
Mike	Upland	CA	No more!
alvaro	modesto	CA	Please do all you can to limit robocallers to our cellphones. Thank you, alvaro
a	summit	NJ	My privacy should be mine. Since robocalls started there have been extremely few, if any that were of any interest. Those one or two calls ended up being scams. The only good out of robocalls would be for a service that I or whoever would sign up for. Like an emergency call from City Hall or a utility which you/I have signed up for. Anything else should be outlawed. Then we can start working on nuisance 'live' calls. Thank you.
douglas	scottsdale	AZ	plz limit greatly use of robo calls
J A	Lubbock	TX	I do not like robocalls of any kind, but especially not on my cell phone. I have a Tracfone and turn it on when I want to use it. I do not want some robocall that happens to call me when I have it turned on to :suck away" my minutes .

Cynthia	Rio Rancho	NM	Navient and its student loan debt collection affiliates already call me on my landline phone DESPITE the fact that the calls are for a relative who lives 2,000 miles away, and DESPITE the facts that Navient etc. have the relative's phone number and address and DESPITE verbal and written notices to Navient etc. to never again call my landline phone or me. They now are calling my phone number but asking for other relatives at my house, still trying to contact the relative who lives 2,000 miles away. Nobody at my house or who might answer my landline phone has any control over the relative, nor are we cosigners on any of the loans Navient etc. call here about. Even after letters to Sallie Mae and Navient and CFPB, Navient etc. still call here. Cell phones must be excluded from all robocallers! The debt collection industry continually proves itself to be UNCONTROLLABLE, DECEPTIVE, HARASSING, and INTENTIONALLY HARASSING. Phone service, especially mobile phone service, should be viewed primarily as a safety service. How can we call for emergency or urgent care when robocallers have our phones tied up? And, robocalls that just ring and hang up, throughout the day, almost every day, are dangerous (as people run to answer their phones), distracting, and so often not even to or for the recipient but, instead, for someone who no longer has that phone number (especially in the case of mobile phones). Only intentional HARASSMENT comes from robocalls!
RICHARD	melvindale	MI	STOP THE DAMN ROBO CALLS. OR MAKE THEM PAY TO MALE THE CALLS; THAT WILL STOP THEM.
Barbara	North Babylon	NY	I am tired of receiving unwanted robocalls. I have done the do not call website, but with robocalls, there seems to be no way to stop them. Please do something to make it more difficult to make the calls in the 1st place, like imposing strict fines.
Lorraine	Woburn	MA	Dear FCC: Robocalls are a dangerous nuisance as they could be preventing someone from calling out for emergency. Also, many infirm adults are inconvenienced and could have a fall rushing to answer the phone. Also, many scammers find it VERY convenient to use robocalling services. Please do what you can to prevent these calls. I also feel they are an invasion of one's privacy.
David	Brea	CA	There must be an end to this intrusion in privacy. Maybe people should sigh a pledge not to respond to ANY calls of this sort.
Nancy	Dallas	TX	Family members and friends should not be contacted by lenders and companies trying to collect debts incurred by someone else.

Carolyn	Austin	TX	Robocalling is unethical, plain and simple. Not only are these callers annoying, but many of them are scammers as well, preying on unwary victims. Their successes are saddest when they prey on the elderly and mentally infirm. I have even received threatening phone calls regarding a debt I never had! These people were trying to obtain personal information. Even legitimate callers should be given guidelines to follow so that they do not interfere with the recipients' privacy and daily activities. Thank you.
Kimberly	The Woodlands	TX	I have received robocalls from a company calling themselves Credit Services, that claim they are able to lower my interest rates, multiple times a week for the last few years. I have gotten to the point where I don't feel comfortable answering my home phone anymore!! Also, they use ever-changing caller ID information, saying they are a local restaurant even, on my caller ID. The funny thing is that my husband and I have no credit card debt!! Please help end this situation!! I have asked multiple times to be taken off of there caller list with no success. Thank you for your consideration in this matter.
Jan	Elsah	IL	I'm so sick of robocalls on my cell phone!!! Fortunately, I know have a call blocker app on my phone -- but should this be necessary? I don't think so. Please get rid of these obnoxious callers once and for all!
Janet	San Francisco	CA	I receive so many robo calls it's hard to process. I almost don't answer the phone anymore assuming it IS a robo call. Just today I received 4 on my home landline, 2 on my cell phone and 1 on the landline of a second location. It's ridiculous. It's unfair and rude and offensive.

Donna	Lewisville	TX	No Robocalls to Cell Phones! No Robocalls to Cell Phones!
Cheryl	Hugo	OK	Please stop Robo Calls to our cellphones. Its bad enough that we get them at all hours of the day and night. We don't want them on our cellphones. I've out all our phones on the DO NOT CALL LIST and it has done absolutely no good. We still get 10+ calls a day. Now we get them on our fellphones. STOP ROBO CALLS. WE DON'T WANT THEM OR NEED THEM!!!
Charles	Fairfax	VA	Ladies & Gentlemen, I pay a lot of money for the privilege of carrying a mobile phone with me so that I am able to communicate when and where I need to. I am not paying this premium to be reached by those with whom I have no relationship. When robo-callers reach me on my cell phone, they are intruding upon my private activities and introducing disruptions and interruptions to my activities. Please prohibit all robo-callers.
Constance	Akron	OH	We as consumers, as people, have certain rights and there need to be more limits in place to protect against harassment if and when we owe money!

Gary	Arlington	TX	Since it would appear there is very little being done to deter robocallers and spammers I think everyone should get caller ID and call waiting caller ID for free. I have that service and can see, and thanks to my phone, hear who is calling. If I did not have the feature I'd probably be answering calls that it would be wise not to answer. Obviously prosecuting the perpetrators would deter some of these calls but until that happens the caller ID service allows me to determine which calls I can answer and those I shouldn't.
O.	Clifton	NJ	Stop companies from wasting my time. Gaaaa!!!!
Susan	Long Beach	CA	Day and night I get these intrusive calls. I need my land line or I would cancel the service because I have to take the phone off the hook if I want to have some peace and quiet for a while. Please find a way to stop these vultures that intrude on our privacy. I can't believe that people fall for their spiels and scams.
Alan	Longmont,	CO	Some 15 years ago, someone in my family with the same last name incurred debts she was unable to repay. To this day, people in this area with the same last name (some not even related) still get unwanted calls from collectors for that person's debt. When I contacted an attorney specializing in stopping unethical and illegal debt collection, I learned is that (1) most debt collectors will always use the shotgun approach that hits as many people as possible, (2) one reason some do this is to get some people to pay debts they no longer (or, as is often the case, did not ever) owe, and (3) illegal collection tactics persist because debt-collection regulation has always just fallen through the cracks when it comes to enforcement. Giving the debt collection industry's too-many unscrupulous practitioners the ability to automate their aggressive and harmful dishonesty via the telephone only gives them more access to our most vulnerable citizens and greatly inconvenience exponentially more innocent Americans. It's OK for legislators to provide help to honest debt collectors targeting federal debt, but not when it will so obviously let the unregulated and less-than-honest segment of that industry victimize so many of us.
Willim	E. Chatham	NY	Robo-calls to me, at my home phone number, engenders hatred i me for the robo-dialer.
chuck	redwood city	CA	So sick of so many robocalls. Please end these calls!!!! .
BILL	CHESAPEAKE	VA	I would like to see a stop put on all robocalls. When you call them back and ask to be removed from their call list, it does no good.

Gerilyn	Lakewood	CO	I am a retired person whose only solution to robocalls at this point is to ignore any calls from numbers I don't recognize so I don't run my minutes up. As I get older I'm concerned when my memory fails me and I can't remember the numbers of my friends and family. Plus the concern of people being caught up in some of these scams, I hope I will never fall victim to one but who can say what my mental capacity will be in 10 or 20 years. Thank you for your cooperation in this matter.
Raymond	Arlington	VA	Enough is enough - please enact appropriate laws to stop this nuisance.
Doug	Seattle	WA	These calls cost me money, time and aggravation. Please limit them as much as possible!
Gerald	Brooklyn	NY	It's bad enough that robo calls on home phones is totally out of control now I am getting them on my cell phone. This is of epidemic proportions and something needs to be done about it. I get calls from scam artists claiming they are from the IRS to phony police associations asking for donations to scam artists who claim they are from Microsoft and have detected something wrong with my computer and need to verify personal information from me. Enough is enough!!!!!!!!!!
Ralph	Mount Pleasant	SC	I think that robocallers should be required to announce their own personal private cell phone numbers whenever they invade the privacy and disrupt the life of another citizen! I think that I should be able to return the favor for any thoughtless person who wakes me from sleep after I have worked all night. Why should they not be liable to reap what they sow? Commissioners, would you like to share YOUR personal cell phone numbers?
Chadi	Shelby Township	MI	This invasion of privacy needs to stop!
Daniel	Saint Ann	MO	I remember having a home phone with a land line. Several times a week I received unwanted calls from automated dialers. This is one of the main reasons I no longer have a land line. Please keep this from happening with my cell phone.
John	Sanger	TX	how about we forward all those calls to you.
Lara	Cordova	TN	Please make them stop!
Joan	Barneget	NJ	These robo calls are now also affecting my cell phone. I'm so tired of these constant interruptions of my life. I want to be able to stop them totally. These phones are my personal property and I resent that my privacy is being invaded. It's time the government and the phone companies did something to stop it!
Stuart	Irvine	CA	Please enact the strongest possible consumer protections against robocalls. These are a scourge in modern life. Please develop something with more teeth than the useless Do Not Call program.
Robert	Henderson	NV	I've been getting more and more robo calls on my cell phone... These people do not have the right to eat-up my minutes!
Steve	Suisun City	CA	Stop the unsolicited robocalls to all numbers, not just cell phones. I have had enough!!!

Veronika	New York	NY	I do not want any robocalls on my cell phone which I hardly use, and do not even give to people I know. It is totally inappropriate for me.
Drew	Columbia	SC	On an almost daily basis, I am receiving robocalls or robocalls that turn into live calls that are attempting to scam me of my personal financial information or promising me cruises if I agree to talk with someone. I do not ask for these calls and I attempt to ask to be removed from a call list but they just hang up and the calls continue. They have to stop!!! I have even called the numbers back and they are invalid when I attempt to call them. There has to be technology out there that can block these calls! The Do Not Call Registry does no good. Enough is enough!!! 1) A clear law needs to be put in place that lays out penalties. 2) Technology availability needs to be mandated so carriers like Verizon provide it across the board. 3) Follow through on enforcement of law needs to happen or the law is just empty threats. If there is a site we can report the numbers and any other info we can gather, that would be huge as long as there is followup. I will certainly gather info from caller and play along.
Helen	Rehoboth	MA	Stop invading my home with robocalls
Michael	Saco	ME	I really don't like having robo calls to my phone. They are never from any company that I have given permission too or even do any business with. I do not have credit card issues that they call me about. I do not need the loan or credit they offering me a GREAT deal on. The IRS is not really trying to get in touch with me so I can pay taxes that I owe, because I pay all my taxes and then some on time and in full! Please help stop these Robo calls. They interrupt my work day, were I make my money, to pay my taxes and other bills, EVERY DAY, at least once and sometimes two to three times a day!
Dan	Owensboro	KY	We are inundated with unwanted intrusions into our daily life. I must sleep during the day sometimes and it is VERY frustrating to get 2 or 3 calls that wake me up. My parents are in poor health and I cannot shut my phone off.
PAT	LA	CA	I nevr use the services of anyone who calls and disturbs me at home, particularly at the dinner hour. Nonetheless, the phone rings reguiring that I get up to turn it off. Stop this invasion of mly privacy.
Barry	Plano	TX	Robocallers waste consumer time and carrier bandwidth. They willfully disregard the Do Not Call lists operate completely outside the law. When confronted they simply laugh and continue to call. It appears that many of the calls are linked to identity theft and other illegal activities.
John	Oakdale	MN	Please do something about all the unwanted robo calls we are getting on our cell phones. There seems to be nothing I can do to stop them and I believe you have the ability to stop them. Please please please do something!

Thomas	Austin	TX	Both my wife and I receive multiple robocalls per week on our cell phones. The phones are listed on the National do not call list and the Texas list, but that doesn't stop them. We understand that the phone companies can prevent them, but they haven't notified us as to how to set it up, if it is available. Please make them fix this.
David	Scottsdale	AZ	Bad enough are robo calls that violate my privacy at home and call in spite of a "do not call" registration. They also infiltrate my cell phone, also listed on the "do not call" registry. This should be stopped. Period. I pay for this service and they are abusing it. Forget the insupportable argument that the phones are public space: this is an extremely limited argument and should not be applied to advertising. If they want to advertise on my phone, it should be with my permission, and then they pay me and the government collects royalty taxes from them. Giving advertisers a free ride into my home shows just how much the legislators are in thrall to these guys.
erin	sherman oaks	CA	No more robocallers.
Richard	Los Osos	CA	People trying to hustle money using fear tactics. They make up false accusations.
Owen	Baltimore	MD	Athene we are receiving 9+ calls a day. And the number seems to grow. Any effort to stop this activity will be appreciated.
cora	riverdale	GA	No No No calls to cell phones.
James	Los Altos	CA	Over 90% of the calls we receive are robo calls. We have caller ID and only answer the phone when we recognize the caller, but it is a nuisance and inconvenience to continually check the phone to see who is calling. Please stop them now!
Roy	Boxborough	MA	Robocalls are a major annoyance.
Barry	E. Brunswick	NJ	I have been receiving robocalls on my personal cell phone as well as my home phone. This is an invasion of my privacy and it also uses up minutes and data which I have to pay for. There just has to be a way to control this and stop these telemarketers from calling me. We have to impose strict fines and repercussions to companies who violate consumers like this.
Kristine	Camas Valley	OR	As a senior citizen, I am on a fixed, limited income. We have given up our land line and have limited minutes on our cell phones. I do not want or need robocalls eating up our precious minutes. Thank you for your help with this most serious issue!
Diane	Los Angeles	CA	Please implement the toughest rules against robocalls to cell phones. Thank you.
Arsalan	Anytown	CA	Please this is a nuisance to all!
Judith	Omaha	NE	I zm fed up with receiving as many as 6 rob-calls every day. I get them on my home phone and my cell. I signed up to stop them but it is getting worse not better.
j	Chico	CA	We have been receiving calls regarding a past due debt for someone we don't know. I'd appreciate it if you would make it stop.

Joseph	Lynn	MA	end robocalls
Diane	Cartersville	GA	Consumers should be protected from ALL robocalls, and the way to PROTECT them is to institute serious consequences for robocall violators, and then to FOLLOW THROUGH with lawbreakers. Robo call centers are ahead of the curve on technology. Just today I had a robocall from a company whose ACTUAL phone number was masked on my phone screen by a phony number, so that I could not call to report it. How do I know it was a phony number?? Because I received another robocall half an hour later from the same company, but a different number appeared on my phone screen. HELP!!!!
Henry	Chino	CA	Robocalls decrease the productivity of good citizens. Aggressive enforcement is required and clear standards about what is legal and what is not. The only calls I want are from real people, not computers.
tom	vadnais hts	MN	Robocalls are an ineffective method of collection and only useful in allowing the collection company to harass the debtor. To permit them to call cell phones only adds insult to injury.
Yosef	Brooklyn	NY	Please put and end to this madness!
Bruce	Langley	WA	I oppose all unsolicited calls to my cell phone, period. Unless I've given my permission to use my cell phone number, nobody should be allowed to call me. Thanks, ~Bruce
Lance	American Falls	ID	I have been harassed by robo calls for my daughters student loan which is way over the interest rate of other loans . These calls at late hours when i am trying to get required hours of rest for my work are even dangerous and distracting if i am driving . One call a month to the person who has the loan not just a relative ,during business hours 8-5 might be acceptable. These calls make you mad when overdone and only cause you to not want to pay someone who is harassing you.
Larry	LaCrosse	WI	These are an insult.
Carolyn and R	Los Angeles	CA	No more robocalls! Please stop them!
David and Suz	Annandale	VA	We receive a minimum of 6 of these calls EVERY DAY. These calls interrupt our meals, activities, conversations, sleep, and personal moments. There is currently no way to stop this. I understand the reasons for the calls, but since I pay for phone service, and do not want these robo- calls, I should have a means to block them, or even better, the FCC should stop them.
Barbra	San Francisco	CA	I am retired and living with my husband. We answer the phone every time it rings, hoping it is a family member or friend. 90% of the time it is a robocall from someone trying to trick us or sell us something we don't want or need. I pay for the phone service, Why do they have the right to abuse my time and patience and privacy? Stop these robocalls now.
Jeffrey	Carlsbad	CA	I'm tired of getting junked on the phone. Please stop these now.

Robert	Vassar	MI	I recently received a call which came up on my ID as a "local number / prefix" with the name attached to said number. When I answered, I was met with a "foreign" accent which I was barely able to understand, representing "card service members". I called the resident whose number was displayed and explained to them that their phone number had been "hijacked" by the ubiquitous "card service member" organization whom I've been getting calls from for YEARS! My only defense of identifying these intruders via my caller ID has now been compromised by stealing local numbers for display.
Curtis	Merritt Island	FL	I get several "RoboCalls" almost every day. Recently, most of them have been to offer me services related to a company that I sold 12 years ago. Not only are the call annoying, but there database of information is sadly out of date making their calls totally without value to anyone.
Beverly	Oak Park	IL	Phone solicitations are always an invasion of privacy. Robot calls are also an invasion of privacy. Robot calls on a cell phone are terribly intrusive. Not only are all these unwanted calls an invasion of privacy but they are theft as well. Theft of my time and theft of the money I pay for my phone service!!! They must be stopped!!!!
Robert	Howell	MI	I don't want ANY more robocalls but at a minimum I think the following limits are quite reasonable. These calls waste my time, interrupt my activities, cause distractions while I am driving and none of the benefits are to my account. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Laura	Kalispell	MT	We who use prepaid cell phones (such as Tracfone) often pay by the minute for both incoming and outgoing calls. That means robocalls waste our money since we have to pay for received calls. And of course robocalls waste everyone's time.
Sue Keith	Pea Ridge	AR	Please, do not allow robocalls to cell phones. There is no good time to answer a robocall. Thank you.
Richard	San Luis Obispo	CA	Please end this unfair practice. It's like the commercials on TV that used to pay for free TV but now it's now free. I shouldn't have to pay to allow them to robocall me!
Ken	St Joseph	MN	I get unwanted robocalls on my cell phone and this costs me minutes and money each time they call. Some days I get a number of calls in one day. Nothing I have tried works to stop these unwanted calls. I also get these unwanted calls on my land line. Some time the ID on the phone shows that the call is coming from my own phone number.
Barry	Marble Falls	TX	Please, Stop ALL "robocalls" today! Thank you!
David	St. Clairsville	OH	PLEASE do not allow robocalls to my cell#

Steve	Coral Springs	FL	Please stop all robocalls. Many time during the day I answer my cell phone and my landline only to be greeted with a recording or a well rehearsed script for something that I have heard before and have no interest in. worse yet is to answer and hear nothing because the telemarketer was directed to call that answered first. I understand that people need to earn a living but not at the expense of my happiness.
John	Georgetown	TX	It's annoying, completely unnecessary, and an invasion of my privacy.
George	Scottsdale	AZ	I get on average 6 robo calls each day, some from unlisted numbers. No one leaves a message. Despite my phone company providing a service to block such calls, it is limited to 30 callers. It's pretty obvious that the robo callers have an abundance of numbers they can use to call me anyway, thus getting around my efforts to block their calls. The end result is that I simply do not answer ANY call unless I recognize the caller's number. All other calls I delete from my phone at the end of each day. Frankly I want robocalls eliminated from my landline as well.
Ken	Ramona	CA	Please continue to legislate less robo calls to any phones (home, office, cell). These calls are unwanted and unjustified.
Mark	Scappoose	OR	I do not want Robo calls to my cell phone period. And I shouldn't have to opt out. I pay \$180.00 per month for me and my wife's phones. I should be able to expect privacy and security. Thank you
Maurice	Sacramento	CA	There can't be anyone who welcomes robocalls. Yet electeds continue to allow them.
Janet	Rockville Centre	NY	My cell phone is for my convenience, not the convenience of corporate entities or scammers.
Alice	ramona	CA	It is bad enough to get robocalls on a landline phone, but to receive them on a cell phone is ridiculous. These callers have no mercy. I realize that the person on the other end is usually someone just trying to make a living, but the person that runs the system is the real money maker. These calls interrupt your life. In most cases the party receiving the call is not interested in whatever the caller is selling. I personally try not to answer these calls. Even if you are told that if you push another number your phone will be removed from their calling list, this is not true. The calls also leave people open to scams. Do us all a favor and end robocalling.
William	Santa Fe	NM	Please outlaw robocalls; they are annoying and potentially dangerous to unwitting victims (especially seniors, like me). Thank you.
Diann	Springfield	MO	We had the privilege of no robocalls previously....what happened to that. If I do not recognize the incoming number , I do not answer. My number is private as far as I am concerned... This is an invasion of privacy.

Paul	Aurora	CO	I get so many Robo calls that it takes hours to answer them or go thru your messages. It is very annoying and a waste of time. We need your help to block these calls. That's why we have your agency to help us citizens. We need your help. Thanks
John	Westminster	MD	I'm SO SICK AND TIRED of getting dozens of these G.. D..... calls EVERY DAY !!! I answer NONE of them and the answering machine cuts them off after 4 rings. SOMEONE is wasting a whole S... LOAD of MONEY with this crack-pot scheme and REALLY TICKING OFF MILLIONS OF PEOPLE !!!!!
Rose Mary	Staples	MN	Please stop robocalls from calling you more than 2 or 3 times period. I get calls from "Bridget from card services" about every other day. There is no way to stop her even if we listen to all the call and push 3 to get her off our number. This has been going on for more than 2 years. Most discouraging! Can you stop them?
Mary	Honolulu	HI	For caregivers like me (and there are more and more of us every day with our aging baby boomers), our cell phones are critical tools to receive and send emergency calls and text messages, so we don't even have the option to simply turn them off to avoid calls at any rest times, bathing, bathroom or feeding times for our disabled or aged loved ones. Receiving unsolicited robocalls would easily disrupt and interfere with caregiving, not to mention tying up a line when an emergency occurs. In the past, I have received wrong number robocalls and extremely persistent debt collector calls looking for someone I never heard of, so I know how utterly disturbing and harassing those types of calls can be. Such calls could cause chaos and add an unneeded burden to our already stressful caregiving situations.
Barry	Berkeley	CA	I implore you to protect my privacy and peace of mind by implementing the strongest rules possible against robocalls, both at the source and at the phone companies.
Albert and Ray	Yucaipa	CA	I get 5-8 robocalls a day. I don't even answer my phone unless I recognize the number. Im paying to not answer half my calls, THIS IS RIDICULOUS!
Richard	Centerville	UT	Robo calls are a grave intrusion into our personal lives. When they call they should notify us of our right to stop receiving them from their company, and should be obligated to act on our request. Robo calls to cell phones are even worse because we pay for our minutes, so they are essentially obligating us to pay for their marketing. Please stop allowing these bad citizens to send robo calls to our cell phones.
Jeff	Champaign	IL	Robocallers have made it so most people (my family included) won't even dream of answering a call unless they're in your contact list and you know who they are. We shouldn't have to live in fear of a robot or scam on the phone. Please make it stop!
Warren	Parker	CO	I'm fed up with getting calls from Cardholder Services. I've complained to my carrier (Verizon) but don't even get an acknowledgement. We need the FCC to take action!

Raymond	Arlington	VA	Dear FCC: I'm fed up with Robocalls, telemarketer calls, and scam calls. First, my landline home phone was the target. Now my cell phone is also a target. I'm angry about all the unwanted calls I get. I try NOT TO ANSWER MY PHONE NOW! I try to watch the Caller ID and see who is calling. I wait to see if someone leaves a voicemail. Only then do I call back if the voicemail is from a friend. I'M CONSTANTLY ON GUARD. I NO LONGER TRUST ANYONE WHO CALLS ME. Unlike Pavlov's dog, I do not salivate when the phone rings. Rather, I get angry and my blood pressure goes up! This drives me nuts because I have missed important phone calls concerning family and business matters. The whole country is fed up with Robocalls. And, the whole country is pissed off because the FCC and the US Government do nothing to stop this constant harassment in spite of the fact that WE PAY OUR MONTHLY PHONE BILLS and WE PAY THE SALARIES OF FCC EMPLOYEES WITH OUR TAX DOLLARS. I must assume that the FCC is corrupt and has been bought off by phone company lobbyists. Look, we pay your salaries. Stop the Robocalls, stand up for us, quit lining your pockets, and do your job. What is your job? I'll remind you: serve the American people.
Matt	Madison	CT	Stop the calls!
Jerry	Arlington	TX	I do not know why robocallers are not subject to the same restrictions as the federal "Do not call" list. They should be!!!!
Herschel	San Francisco	CA	Please outlaw all robocalls! People are entitled to privacy without being interrupted, just like the Do Not Call Registry. This is an election year, and if you don't listen to the people, they will not vote for you.
Linda	Castroville.	CA	No Robocalls to cell phones!
Robert	East Troy	WI	Please stop the madness!!! No-one wants, needs or deserves getting Robocalls!! Please stop them at the origin and save us from screening the countless useless calls, INCLUDING POLITICAL CALLS!!!! No one listens to this rubbish, please stop them!!!! Now we are getting them both on our home phone and our cell phones, twice the misery! Give us a choice to accept or block certain types of calls ie political and fund raising for instance if you cannot just block them completely!! It should (MUST) be my choice what types of phone calls I'm willing to receive and I should be given the ability to make this happen!!
Bud	San Francisco	CA	stop robo calls now please!!
Tuan	Grand Prairie	TX	It is necessary for robocalls to be regulated: - option to stop receiving calls - only to person holding the debt - no more than 3 times month -
Robert	Tucson	AZ	Please send me your personal numbers so that each time I get an unwanted call I can forward it to you!

Mary	Bardstown	KY	A person should be able to have some peace in their own home. Robo calls are nothing short of Harassment. I have trouble sleeping. When I finally get to sleep, I am often awoken by telemarketers. After they wake me up, I can't get back to sleep. Telemarketers call me at all hours. People have to check their phones, because it could be an important call. If I want a product, I will contact a person. I tell the telemarketers I am not interested and please stop calling me. But the same groups keep calling. Why are these people allowed to constantly annoy people? It is as if a person is not allowed to have any control of their own home. Please stop this invasion in my home.
Thomas	Antioch	CA	No Robocall on a cell phone is acceptable.
Janae	Kingman	AZ	Stop these stupid calls. They are asinine. They should be outlawed.
Dennis	Anniston	AL	It is annoying when they call because it would be better talking to a human and not hearing those nerve wracking recorded voices
Kevin	Louisville	KY	These companies need to be stopped,period!!
marjorie	Yardley	PA	I have a cell phone for emergency use only I am unindated with all kinds of robo calls. I am on the national do not call list but to no avail,. I have tried answering the calls and asking to be removed from calling lists, again to no avail, I've tried ignoring the calls but they are relentless. I pay the phone bill and should have the option of choosing who calls me. I don't buy products over the phone and would like my privacy. Thanks for any help you can give
BRIAN	Glendale	CA	They are so annoying and are usually associated with a shady company.
Rosemary	Brooklyn	NY	This is an assault on the public. Stop these calls.
Paul	Palatine	IL	Lately I've been getting more and more robocalls to my cellphone. I give my cellphone number only to people who are family or friends, or with whom I do frequent business. The unwanted calls are annoying, distracting, and increasing in frequency even as I block the numbers calling. Please help by doing everything possible to restrict these unwanted calls from strangers.
Annette	Healdsburg	CA	I am a senior who is still in control of my faculties. I know when I am being duped or preyed upon. But what about other seniors, whose faculties are failing. They become easy prey for shady companies. I've received these calls, and they can be very persuasive. Normally, I just tell them to get lost. Not every senior has the ability to do that and before they know it, they've lost a great deal of money and they are still in debt. Please keep these unethical folks from calling and duping us.
Chris	KC	MO	There is no reason to allow robocalls for any reason.

Christine	Marion	IL	NPR did a series on debt collection and the excesses of the collectors. If you have ever had a dinner interrupted by robocallers, imagined what could happen if debt collecting robocallers are set loose. Most people do not know that they have the right to stop receiving calls, or that texts should be limited to no more than three a month, and that only the debt holders should be called, not friends or relatives.
Michael	Madison	WI	I don't owe anyone any money and yet I get 2 to 3 robo calls per day. Why do we have a government except to protect us? The federal and state no call lists are a joke. Nobody is afraid to call. Please require companies providing phone service to let us cut off numbers which call us. Citizens need and deserve some way to defend themselves.
Paul	Albuquerque	NM	At age 86 these calls are not only irritating but also disrupts my day having to answer so many irrelevant calls.
Bruce	Cincinnati	OH	Dear FCC, please stop this unwarranted harassment of robo-calling that takes my time and tests my patience to the limit. I know we live in a capitalist world, and the company that wants my business can send me mail which wastes trees, but at least I can junk and re-cycle the paper. Robocalls waste my time and are an invasion of my privacy on my private telephone line, possibly blocking important calls. It's time to stop it and make it illegal.
Darren	San Antonio	TX	Let's end this practice now. My time is important and Robocalls are intrusive, unprofessional and aggravating. Please pass legislation to eliminate unwarranted Robocalling.
Wayne	Baltimore	MD	My cell phone is my bastion of relief from the endless calls from "windows", trying to scam me into a remote take-over of my computer, HVAC companies calling to clean my ducts (I do not have central air), scammers trying to get me to donate to the Police Benevolent Fund(the calling number is listed on line as a scammer), people trying to help me get out of my time share(I like my time share), and other similar such calls. Because the "Do Not Call List" has no teeth, these are 75% of the calls that I get on my landline. I definitely do NOT want any calls to my cell phone, other than my personal contacts.
Truman	Thompsons Station	TN	I get them from Kentucky schools for no reason. Please put a stop to all such unsolicited, unwanted calls.
Deborah	Lubbock	TX	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Art	St Paul	MN	It's very unfortunate that our privacy is disrupted and out time wasted and for what? So a robo-caller solicitor can call to sell us goods and/or services in our valuable free time or busy time. Some of us also have to use up our phone minutes for these intrusive calls. I thinks it's safe to say that the robo-callers would be pissed off if the roles were reversed. There's no good reason that making a buck should take place at the expense of people whose phone number happens to get on a phone list and with little or no regard for their time and privacy. All too often these lists are also shared/sold to others marketers. ENOUGH IS ENOUGH!!!
Charlene	Otho	IA	No Cell Phone Robocalls!
Joan	San Francisco	CA	Please move to give us an easy but effective way of blocking ALL robo calls, on home, business and cell phones!!! I am tortured with them every day, starting in the morning!! My phone is ringing CONSTANTLY! They need to STOP! STOP! STOP!!! It's not fair, it's not reasonable, it's AGGRAVATING and IT MAKES ME MAD!!!!!!!!!!!!!!
Angie	Santa Ana	CA	I want FCC to regulate robocalls going to my cell phone. It's becoming more frequently and even though I have tried to block many numbers, new numbers keep coming. It's a form of harassment that needs to be stopped immediately.
Gerald	Red Bluff	CA	I have and pay for a cell phone for my personal use. I do not pay for this service to be harassed or receive unsolicited corporate calls. Please respect my privacy and allow me to provide my number to those I wish to hear from.
Paul	Tehachapi	CA	Dear Sir: You need to due something to discourage robocallers because right now they control the phones. I do not have debt collectors calling so they are not my problem. I get at least 10 robocalls per day and I can not block them as they change their phone number and identification each time they call so they can not be blocked as the phone company only provides 99 numbers to block. If you do not answer then they change their number and ID and call you again in one minute. I have even had them call me displaying my name and number. They call anytime of the day or night and seem to have all the power and the phone company's help. I'm on both my state and federal do not call files which have proven to be worthless. The robocallers know there is no downside to due anything they want and the phone companies seem to back them up like they are the most important customer. Please do something to stop this abuse. Thank You.
Ronald	Atascadero	CA	Now they're calling my cell phone.
Randy	Virginia Beach	VA	I do not want any robocalls at by home and def6not on my cell phone!
John	Escondido	CA	Just go it!

nellie	elizabeth city	NC	please put a stop to this madness. we do not have the desire or time to waste on this disgusting kinds of junk. thank you for your help on the do not call registry. we even had 1 idiot that said it was my responsibility to tell him after he called that he was not supposed to call because of the registry. please try to stop this as well. cell phones for us are for emergencies, business calls, and other private uses. we do not give our cell numbers to everyone that asks to stop all that we can.
Peter	Colo Spgs	CO	Please do whatever necessary to stop robocalls. I am so sick of scammers and requests for money from groups I have never heard of. It used to be every week: "HELLO SENIORS, blah, blah, blah." And No, they do not know about my Windows computer. Please do something
Tim	Garland	TX	I seem to be getting more and more Robocalls. I use my phone for work so I'm inclined to answer calls even if numbers aren't familiar. I've requested these companies that call to take me off their list which does no good. It's getting worse please help stop these people from invading our lives. Thank you!
Wanda	Scappoose	OR	We pay a hefty price each month for our cell phone. I feel we as consumers need to be protected from this evasion of privacy. I am currently receiving Robo sales calls. it needs to STOP.
Rosemary	Perry Hall	MD	Robocalls are an invasion of privacy, a disrupter of family, and a very frustrating part of life.
Lynne	Oswego	IL	FCC, put a Stop to Robocalls to Personal Cell Phones!! Thank you, Lynne Rooney-Katsma
Geralyn	Tucson	AZ	No Robocalls -- Period
Eric	Danville	CA	Please stop ROBOcalls. These call are Spams! Designed for committing fraud and misrepresentation by shady business operations. This is indeed a no brainer decision.
Yecheng	Woodside	NY	I got so many robocalls that I am thinking about screening my calls. I don't even greet my callers anymore if they are not in my contact list. As soon as the robot started talking, I hangup and put that number into reject list. I also started giving out fake contact phone numbers if I suspect the info may end up in the wrong hands.
Dennis	Northport	AL	Please help us stop the unethical and annoying calls made to my cell phones. This MUST be stopped as soon as possible.
Bill	Glendale	AZ	PLEASE Don't allow Robo calls to cell phones or landlines. Thank you Bill Light

Ed	Piedmont	CA	My wife and I am sick and tired of ROBOCALLS. We have our phone ringing day and night from people who do not leave a message, do not use REAL phone numbers, or REAL names. Here are some examples of phony numbers and names: Name Not Found, Unknown, Local Call, and Local Ranking. On May 4, 2016, we received EIGHT (8) phone calls from Uzan Shai. It turns out that Uzan Shai did not know that someone was using his name and phone number to harass thousands of people with useless phone calls. Here are some phony phone numbers: 01187456226534 and 187456226534. Then there was this name and phone number: Name: 3884831510 and number: 5103884831. Do you see what the person or group did? They changed the phone number into a NAME! When I research the phone numbers, I see that other people have received the same phony name and phony number. The telephone companies have lost all control of their phone company! Why would any company allow groups to use phony names and numbers? It makes the CEO and their company look stupid!
Marcia	Pinckney	MI	Robocalls are intrusive enough on landlines. Fully 75% of the calls that come into my home are unwanted robocalls. Soon I will be among the many who have dropped landlines because of the constant interruption of robocalls. To now allow robocalls to my cellphone is unconscionable. I don't give my cellphone number to anyone but family and a small handful of people. I cannot imagine being pestered day and night no matter where I am or what I am doing. MY phone is just that -- MINE. I shouldn't have my own property tied up by someone I don't know or care to know.
ken	wichita	KS	stop robot calls from card services on our home land line att
harry	angelus oaks	CA	FTC cannot do anything to protect the consumer, the calls continue
ed	ocean springs	MS	hell no
Donald	Baton Rouge	LA	I hate to receive Robo Calls on my telephone. Give me the ability to block Robocalls to wired phones and cell phones. Robocalls are a violation of my privacy.
ted	hollywood	SC	I do not pay for my phone service to listen to useless drivel from robocallers. PLEASE STOP THEM!!!

John	Irving	TX	I am opposed, as is all of conscious America, to unidentified and uninvited callers for collection of debts or commercial solicitations of any kind. The public is entitled to privacy at their homes, in their email inboxes, and certainly on their cell phones. Robocalls are cell phone spam. Exceptions to a complete ban are invitations to abuse by a historically abusive industry of debt collectors and solicitors. Debt collectors who are refused communication with debt holders have other avenues of communication that are far less susceptible to abuse. Allowing communications with relatives and friends is tantamount to a breach of privacy. This type of breach would never be tolerated with regards to an individual's medical records, and the privacy of a citizen's personal financial records should be treated with similar respect. Any consent to communication with persons other than the debt holder is terribly abusive. Furthermore, debt collectors should be required to identify themselves on Caller ID as "Debt Collector." I submit this opinion as a debt free citizen of many years.
william	st augustine	FL	As Americans we have the right to freedom of speech. In no way does that mean that we have the obligation to listen to the speech of others. Robo calls are an unwarranted invasion of our personal space and privacy. Please put a stop to these intrusions.
Ruby	Blacksville	WV	I ge so tired of getting these annoying call. Please do SOMETHING to stop them.
Lori	Fox Island	WA	Stop robocalls
Isaac	Rancho Palos Ve	CA	These calls come all day. They are unwelcome interruptions and don't stop if requested. The do not call list is now useless with the fake numbers and the hijacking of real numbers not belonging to the callers. I received a call from myself i.e. Caller ID listed my name and number. The phone company said that they couldn't do anything about it.
Linda	West Linn	OR	Please keep robocalls from accessing my cell phone. I am already overrun on my landline and will be dropping the service for that reason. The Do Not Call list is ignored and there is no hope the same will not be true for cell phones. Debt collectors do not deserve this additional harassment tool. I saw their methods first hand when they hounded my 84-year old father for a debt that was never his and were relentless. Please protect the public from robo calls!
Linda	Dover	NH	These are the most annoying and threatening calls. I get them even though I have no credit cards and no debt. People leave threatening messages and change their number before the police can find them. I have to pay for calls received whether I answer them or not. How is this fair?

Kevin	Rockaway	NJ	This needs to end. I am tired of the harassment that robocalls allow. The debt collection industry needs to let us know that we can optout, and stop receiving calls. Guidelines need to be easily discovered and written in simple language. Again, please stop the debt collection industry from harassing us with robocalls.
Cynthia	Park City	UT	I receive junk calls on my work phone, which interfere with my efficiency.
Dennis	Trenton	MI	They are driving me crazy. The do not call list is not being enforced.
doug	deland	FL	Robo Calls waste my time and money.
Hugh	Elgin, Texas	TX	Robo Calls are the most annoying thing to put up with - There is no reason Citizens have to have their privacy invaded in their own homes... Please take this opportunity to STOP Robo Calls to Cell phones and ALL Phones.
Dawn	Zephyrhills	FL	Please help the consumer in providing a way to block robocalls to cells (and landlines).
John	New York	NY	Harassment of consumers is wrong and NOT cost effective for businesses. Eventually the power of dunning loses its clout.
Fred	Lakin	KS	With the fact that we now pay for every thing that comes through a cell phone, it is especially outrageous that robo-callers are tapping into your phones and harassing us no end!! Please do all you can to stop this outrageous behavior, and make it a serious crime! It wouldn't hurt to require the phone companies to provide blocking technology on our phones either. It is better than standing idle while we lose our minds fighting these horrible callers! Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Querido	Oakland	CA	I oppose robocalls to my cell phone without my permission. At the very least we should have the following protections: 1. Debt collection robocallers must notify us of our right to stop receiving calls. 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt--not friends and family. 3. The guidelines should be clear and readily available. Thanks for your consideration.
Kathleen	Marietta	GA	Please forbid any collector from harassing people on their cell phones.
John	Leland	NC	Please take clear action to permanently stop all robocalls. Thank you.

Doug	Great Falls	MT	When we received our new phone # we started receiving persistent robo calls from different collection agencies who were after the person that previously had our phone number. Finally we called their 800 and explained that the person they were after didn't live here and that we did not know the person they were after. Even though we were assured that that the matter would be "taken care of". We continued to receive these annoying calls for approximately five years. Every time the account was turned over to a new collection agency the calls started over again.
Brian	SaddleBrooke	AZ	Your "Do Not Call List" is impotent. Just stop the robocallers.
Michael	Sterling Heights	MI	Even though my cell number is on the DO NOT CALL list, I still get calls that are solicitations, usually for credit card debt forgiveness. All calls that are solicitations or "courtesy" calls should be blocked if one's number is on the DO NOT CALL list.
Pamela	Chicago	IL	I have received very few dunning calls in my life, but hate robocalls so much that I feel the need to comment. robocalls are SO annoying that one usually just hangs up. So allowing unlimited calls won't help collections, just annoy anyone who gets them. They should ONLY be allowed to those who hold debt, not any friends or family. I don't doubt that debt collection is a difficult business, but that doesn't mean people should be harassed. Most people try to pay their bills and those who don't won't be shamed by robocalls anyway.
Richard	Dublin	CA	Please prevent me from receiving annoying and inappropriate Robo Calls.
Clyde	Tucson	AZ	Please, please, please do not allow any more robocalls! What an incredible time waster. Too many companies are using them to try to give me free trips to various places., including the moon.
Suzanne	Berrien Springs	MI	We disconnected our landline because of the robo calls we received. What will we do if robo calls are allowed on our cell phones! My phone is very personal, I shouldn't have to be bothered by unwanted unsolicited phone calls.
Michael	Wood Ridge	NJ	Please help us to stop robo calls WITH NO STRINGS ATTACHED. No one would want to be stopped in the middle of the street and talked to by a total stranger selling me stuff...RIGHT. Why would we allow that to happen with our phones. Their has to be a level of trust when communicating with our phones. We want to talk only to people that we WILLFULLY gave our number to. Please help to establish trust with our phones again. Thank you for listening.
william	Tempe	AZ	I pay for my phone service for me and not for commercial annoyance.
Douglas	Kansas City	MO	Please put a stop to robocalls.

dennis	Peoria	IL	I don't like robo calls and I don't give my number out,so I do not want calls from some one or some company that did not get my number from me. That is the reason I got rid of my landline phone.I do not pay the big taxes that I have to pay to be hassled by unwanted cell phone calls. Is nothing private in this land of the free anymore ? STOP THIS NOW !!!!!!!!!!!!!
Ann	Oxford	WI	Please stop tying up communications resources for those of us who neither want nor need this type of call.
Patricia	Sterling Heights	MI	We are SO sick of these robocalls. Getting them on our cell phone is pure theft because WE have to pay for that unwelcome/unwanted call coming in to us. This is a further invasion of our privacy, time & lives. All day we put up with the robocalls from our landline. The cell phones are even worse since it costs US money. We, personally, do not owe any money to anyone so the calls re bills/credit cards do not even apply to us. Ban these annoying calls from these criminals.
Mike	Moorpark	CA	Robocalls are a huge annoyance and often are perpetrated by those who don't care about the Do Not Call Registry. Please do everything you can do prevent these calls to our cell phones as it is bad enough we have to deal with them on our landlines.
Thea	Vernon	CT	Cell phones need protection from Robocalls too. Why should robocallers have a loophole like that ? Get rid of them for good.
Annaabelle	Glendale	CA	Please help those of us whose work is constantly interrupted by these calls. Thank you.
Sarah	Esanaba	MI	Cell phones are private communication devices. Your account is charged for calls received. Robocalls cost people money. Automated calls should not be permitted for any reason.
Ellen	Madison	WI	Please stop robocakls. So annoying.
Richard	Hoffman Estates	IL	I speak for a large group of people who believe that there should be a limit on robocalls to any phones. These people also believe that Debt collection robocallers must notify us of our right to stop receiving calls,The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available to all clients.
Mimi	Melrose Park	IL	Please, please restrict texts and robocalls - it truly is harassment not to mention annoying. I should have the right to my privacy and not have to screen calls to MY phone that are unsolicited. Is anything private anymore?
Don	Spring Lake	MI	This is the ultimate invasion of our space. It's one thing to give out one's number but to get a call from someone we don't know at an inconvenient time is totally unacceptable.

Greg	Saratoga	CA	Please add regulations the the PHONE company stop robocalls and telemarketing at the phone users request. It is so bad now I pick up the phone and immediately hang up, if some I they will immediately call back. 98% no one calls back because robocall or telemarketer. I should not have to be constantly annoyed by theses unwanted calls!!
Earl	Tustin,	CA	Will the Feds actually enforce any rule that they make? Look at the telemarketers. Please put some teeth into any law.
akshai	pebble beach	CA	Please allow me the privacy and ability to spend uninterrupted time with my family. It is becoming harder and harder to focus on family with the necessary distractions, let alone these robocalls
Janice	Pittsburgh	PA	This number 814 423 2060 has called my cell 5 times yesterday threatening me with legal action claiming to be the irs - something has to be done to secure that no seniors or handicapped people fall for this scam.
Clarice	Concord	CA	Robo calls have to stop. We are entitled to privacy and the right to not be invaded in our homes.
K.L.	Davisville	NH	Stop robocalls to cell phone. They are invasive and they are used by predatory companies that prey on people.
Peter	Lookout	TN	End robo calls
Shylda	Huntington Beach	CA	I receive an average of 10 calls a day on my landline from robo calls, most of them selling what I don't want or trying to fleece me by instilling fear (because of taxes, failure to pay bills, a threats to my computer, etc.). I have blocked at least twenty numbers, and that number keeps growing. Now I'm getting robocalls on my cell phone as well. It is such as invasion of my privacy. I have yet to fall for these schemes, but I know some very bright people who have. We need protection against these con artists. Signing Do-Not-Call lists has not worked. What can we do now except seek the help of the FCC? I've had to protect my elderly parents, sibling and children from this menace, but the problem is so widespread, a more powerful force has to step in.
Steve	Salinas	CA	I hate ROBOCALLS!. I do not receive many calls on my cell but I do get them there. It was why I disconnected my wired phone at home. Two types of calls are the worst. Early morning/late at night and calls while I am driving offering me a lower credit card interest rate. Distracted driving is obviously dangerous, distracted driving after getting ANOTHER DAMN ROBOCALL IS WORSE! The Do Not Call List is next to worthless. It does not stop these companies at all. Spoof phone numbers are being used to they cannot be identified. STOP THE MADNESS. My madness needs to be stopped. PLEASE!
William	Holland	MI	Stop them!
owen	charlottesville	VA	Too many interruptions for reasons I do not care for.
Nancy	Raleigh	NC	Please protect cell phone users from robo calls
MH	Ocala	FL	All calls should have a NAME AND NUMBER if not their hiding something !!!!!

Barbara	Pleasant View	UT	My cell phone is charged by the minute unlike a land line.i do t want them wasted by unsolicited robo calls. I've been called twice in one day. Hanging up doesn't stop them. Please help us!
A. M.	Rome	NY	People should not suffer harassing robocalls especially not those calls directed at friends and family. There needs to be definite limitations and clear guidelines regarding robocalls. I believe that people should have a right to have robocalls stopped.
Maria	Bernardsville	NJ	How is it right to bother friends or family about financial debts they are not responsible for? This must stop!
Daniel	Boise	ID	Stop robocalls to cell phones.
BILLY	MONTGOMERY	AL	PLEASE PUT AN END TO ROBOCALLS
Justina	Wausau	WI	I'm tired of all the telemarketers calling my phone.
Rebecca	Los Alamos	NM	Robocalls should be limited and controlled; otherwise, they represent yet another form of harassment used by predatory lenders and illegitimate companies.
David	Westerville	OH	Robo-Calls are way out of control. They are more than a nuisance. They are an invasion into my home using my equipment to do it. And many try to fool folks into giving out personal information. Put a stop to it or force phone companies to offer me a reasonable, easy tool to do so.
Richard	Prospect	KY	The robocall is an unwanted intrusion that is numb to consideration and interface. It is not the caller's right to interrupt and have no "skin" in the game. They do not deserve my time if they aren't investing their time. Who knows what sort of pfishing their up to. Provide a lawful and effective means of blocking robocalls WITH TEETH!!! Thanks.
James	Manhattan	KS	If you called me one and I DID NOT respond leave me the heck ALONE.....
Jonathan	Chicago	IL	Please help all Americans and take this action!
Jerry	Victoria	MN	Unless the robocallers pay for my phone and service they ABSOLUTELY SHOULD NOT be continually harassing me with unwanted calls. I get these calls day after day, week after, month after month, year after year, this is insanity! There should be little debate and no hesitation in stopping this. Here is an opportunity for politicians to demonstrate they REALLY care about the average Joe and Jane.
Ashala	Nyack	NY	These robocalls to cell phones use up paid minutes and are an invasion of privacy.

Ron	Missoula	MT	<p>Recently, I was the victim of a robocall error. They were calling every day before 8AM and there wasn't anybody on the line. I called the number and they requested my account number, which I didn't have and then they asked for my social security number which I refused to give. I asked them to look up my account by my phone number and they told me THERE WAS NO ACCOUNT! I asked them to quit calling and they said they would, but the calls kept coming for weeks. I called them back 3 times and NOTHING STOPPED THE CALLS! Finally, I answered one of the calls and an operator was on the line! He asked for someone I do not know. I have had this phone number since 1975, so it's not a case of someone's old line. I have never done business with this bill collector nor the company they represent and their calling practices didn't allow me to get them to stop...so consumers need your help to protect us. Thank you</p>
KAREN	NORTH PORT	FL	<p>WHATS THE POINT OF HAVING AND SIGNING UP ON THE DO NOT CALL REGISTRY WHEN YOU STILL GET CALLS. ITS A DISGRACE AND HUGE ANNOYANCE ESP SINCE THE PHONE COMPANIES DONT FEEL THE PAIN.</p>
Joe	Boone	NC	<p>I don't need extended automobile warranties. I don't need lower interest rates on a credit card. I have never had a college loan and probably will not need one at age 72. I don't need to consolidate credit card date.</p>
lesa	warren	AR	<p>Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than once per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available No 7:00 am to 10:00 am calls</p>
Tehama	Oak run	CA	<p>Thank you</p>
Margaret	Citrus Heights	CA	<p>These "robo" calls are costly, as a senior citizen on a limited income I buy each minute on my "flip phone". I purchase time for emergencies, family & friends, not to be bombarded with unwanted calls from companies, They are irritating interruptions in my life that are not needed and certainly will not induce me to use their products or services. MAKE THEM STOP! You have the power (You just permitted these calls). I earned my peace & quiet, how do you put up with these calls. Is there a way to block them????????? Again- YOU HAVE THE POWER STOP THEM - Please use it.</p>
Beverly	Ft Lauderdale	FL	<p>Robocalls by both soliciting marketing companies and political people are invading my privacy. The law passed which costs a supposed fine is never used. If it were I would be retired by now. I have one number which I am about to cancel because the only calls I get are robo calls. At least on my cell I can block them.</p>

Wynell	Orland Park	IL	Any and all so-called robocalls are annoying since I created the target with my money and I did not do so to give my control over to Congress or anyone else. I do not want any robocalls from charities or political or public surveys or anything else. I have been retired since 1993 and I like to sleep in and go undisturbed and even with some of the company's that you tell them to stop calling they continue. I WANT THEM ALL GONE FOREVER FROM ALL PHONES FOR WHICH I PAY THE COST OF USAGE. Congress does not have a legitimate reason for allowing even charities to call. I still pay the bill.
William	Ormond Beach	FL	The quantity of robo calls has become maddening, even though I am on the "Do Not Call" list. These companies have no sense of decency or respect for privacy. I any many others I know, do not want unsolicited sales or fundraising calls. Please say no to this practice.
Joshua	Fort Oglethorpe	GA	??
Esther	Danville	CA	We are overwhelmed by the number of calls from Unavailable, No Name Known, Anonymous, Name Not Given, and calls when no one answers, besides call from identifiable charities to whom I have already donated.
Frank	Boerne	TX	We are receiving an average of 5-6 robocalls per day on our land line, our primary phone. Some calls when answered have no response from the caller. I assume these calls are simply to determine if someone is at home so as to improve the efficiency of a real person making a followup sales call. Such calls could also be to determine if no one is at home so as to facilitate a burglary. Many of these calls show up as 'Private Caller' on caller ID. Please stop them and eliminate the 'Private Caller' designation for a caller ID.
Peter a.	Greenlawn	NY	So tired of getting several unwanted calls a day!
James	Toms River	NJ	unwanted calls waste my time and use my minutes and create a hazard while I'm driving if I try to see who's calling!
George	Pocahontas	IA	I can't set up my cell phone message box because it fills up with garbage from robocallers that have no business calling my number. Have some guts and do something! I vote in EVERY election!!
Diane	Littl Falls	NJ	Why aren't robo calls included in the do not call lists? Stop unwanted robo calling now!
Jay	Chapel hill	NC	Robocalls should be stopped,they have no place on a utility that we pay for !
John	Moosup	CT	I'm 85 and don't need to be harassed by my phone which I paid for, but other unwanted people are using.
David	The Villages	FL	Please do not allow robocalls to cell phones. I pay for the air time for my family's cell phones. I do not want my paid air time wasted on robocalls, or similar, which are only annoying anyway. It seems to me that most robocalls are only to see whether someone answers.

Susan	Millinocket	ME	We should not be pawns and victims of spam and robocalls! We pay dearly for our phone service and should not have to be hounded relentlessly.
Ste	Estero	FL	It is time to END all Robocalls
Hunter	Zion	IL	I am tired of the numerous robo calls I get each day to my landline phone. We block many of them, but it still rings once when they call back. This is a great time waster. I almost don't want to even check our phone when it rings but I might miss an important call. Please figure out how to stop these nuisance calls. Thank you,
Marianne	Bellerose	NY	Let's hang up permanently!
David	Savoy	IL	Debt Collectors pry on Poor People.
Kari	Brentwood	CA	Debt collectors should not be able to robocall any phone. Especially if the number no longer belongs to the person who owes the debt.
Julie	Charlotte	NC	Your calls are disruptive and I have no interest in them.
Marina	Boring	OR	Only my daughter & son-in-law have my cell phone number, or the airline, train or bus company I am traveling on. When I get a robot call I refuse to answer it. My cell phone is for MY use, and I refuse to be a slave to it. I have received several robo calls, but since I did not answer them I have no idea who they were from, and I intend to keep it that way. If I don't recognize the number, I don't answer, but I do get tired of grabbing my phone in case it's my daughter, therefore important, only to find a number I know is a robo call. Very aggravating!
Larry	Liberty	MO	Please put a stop to robocalls that are not approved. It is important to allow robocalls that the user approves from such places as schools and churches. But the random robocalls need to stop!!!
Algie	Bronx	NY	No more robocalls please. I should have the right to privacy.
Connie	Cape Girardeau	MO	We DO NOT WANT robot calls of any type to our cell phones or land lines
Beverly	Honolulu	HI	I particularly resented a robocall purporting to be from the IRS. The voice stated that I was being audited and I should call a certain number. At that, I hung up.
William	Mansfield	OH	Robocalls, especially to cellphones, and not only annoying and time wasting, they can be dangerous. Try fumbling with a cell phone while driving - VERY distracting. I nearly had a wreck doing that. Also, in that they eat up minutes, they are costly to the recipient. IF they are permitted, the CALLER should have to pay the full cost on BOTH ENDS of the call.
Heather	Omaha	NE	End robocalling!
Duy	Arlington	TX	I think allowing robocall is wasting people time and very annoying.
Murray	Hilton Head Island	SC	I find myself at times very reluctant to turn on my cell phone. They seem to know when to send the stupid ads for extended credit, new interest etc. Murr

Robert	Warren	OH	I thought we could stop robo calls with 1-800-Do Not Call? What happened? Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
michael	aledo	TX	tired of the annoying and persistence calls on my home phone and now my mobile phone .Tired of excuses ,the means are available so use them! Enough is enough.
Christopher	Wappingers Falls	NY	The flood of robocalls I receive, bith on my land line and my cell phone has negated the Do Not Call registry and I want it stopped
katie	chicago	IL	Please take action against the do not call list and robo calls. They are unwelcome, disruptive and do no good.
Spencer	overland Park	KS	Stop them now!!
Richard	Silver City	NM	It is just ridiculous that people can call me on my cell phone (which I HAVE TO PAY FOR).. since I have a minimal cell phone type, for which I must purchase air time !! Do your job, and keep companies and political parties from calling me with unsolicited messages ! I also think you should go a step further... and change the pricing structure of cellphone communications here in the United States, so that ONLY the party who is calling should pay for ANY call... and the party receiving the call should not have to pay at all... In fact, this is the way it is in Europe. Why are we here in the U.S. paying the highest prices in the world for cell phone use... and for many other things (like pharmaceutical drug prices ?) Answer: Because YOU ALL (who are put in your jobs in order to PROTECT the rights of U.S. citizens (from corporate abuse)... are NOT doing your job !!! So.... DO YOUR JOB !!
Margaret	Silver Spring	MD	Please enact the strongest possible rules forbidding robocalls to cell phones. These violate the spirit of the federal Do Not Call list. In some instances the person called pays for the call - totally unfair and an invasion of privacy.
Vincent	Ossining	NY	I am sick of spam and other robocalls coming every single day. Under any other circumstance it would be considered harassment. And please don't allow them to say 'press 2' to stop receiving calls; we all know this us a scam to identify a live number. For once put a bill through with teeth that does not cater to a few so the many of us can be pestered by the multitude who are trying to rob us. Debt collectors don't need a robo call. Debts are a personal matter to be handled by the business. That's why they get paid. Save the rest of us from their laziness and greed for the previous reasons.
Maria-Luise	Brevard	NC	I am definitely opposed to robocalls because of privacy and security.

Linda	Ozark	MO	Please do everything you can to stop Robocalls to cell phones. Companies should NOT be allowed to call on a phone where we get charged for the minutes used in answering their stupid calls. This is an invasion of my privacy.
Linda	Chattanooga	TN	These calls disrupt my time and energy and serve NO Purpose, as they market products which have NO application to me whatsoever. Example: "Reduce your Interest Rate". I DO NOT PAY INTEREST ON ANYTHING! And do not intend to, having NO Mortgage, NO car Loan, NO Credit Card Interest FEES, etc. Yet, I get a recorded solicitation EVERY DAY, and sometimes twice a day!! STOP THIS INVASION IN MY LIFE!
Ronald	Mesa	AZ	Since I have good credit, I don't have a personal issue with Debt but I have an issue with all Robocalls. They come at all hours of the day and, in every instance, have no relevance to me or my family. All of my family's phones (land & cell) are on the DNC list to no avail. Furthermore, these calls basically 'lock' your phone until the recorded message is complete therefore denying me my right to lead my life, hold me hostage and prevent my pursuit of happiness.
ronald	bradenton	FL	getting by day to day by hard working americans is hard enough these days they don't need to be harassed by these bloodsuckers at home.
PAUL	PHILA	PA	these call are a real pain...they don't speak English and sometimes they are recordings
don	Albuquerque	NM	The robocall menace must be stopped. The phone system is being abused and regulation is weak at best. Every day, these nuisance calls interrupt daily life, and many times it is the same caller using a cheap and unpoliced vehicle to conduct unwanted solicitation. The so called "do not call" list, which we've have been on for several years now, is simply not recognized by the callers. Going further, I request you regulate political calls as well. At least let us CHOOSE to NOT receive polling and political messages.
Teddy	Mt. Juliet	TN	Please stop them.
Betty	Panton	VT	I have to pay for all these calls so I do not want any calls or texts on my cell phone.
Mike	Shawnee	KS	Debt collection robocallers must notify us of our right to stop receiving calls, The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Jack	Cedarhurst	NY	No robocalls to cell phones!
Barbara	Lancaster	OH	They are not only annoying but waste data. Stop this.

Sheree	Hutchinson	MN	I am getting more Robocalls each day. I have no late bills and no reason that vacations are being offered, out of the country pharmacy, etc are calling our phones! We need to have a say that Robocallers - including debt collection services - are not give a free reign to call whenever they want.
R.	creston	NC	We should not be subject to robocalls and debt collectors harassing consumers.
Greg	Austin	TX	Please set strict guidelines on how and when debt collectors may call on cell phones. Debt collection robocallers must notify customers of their right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who hold federal debt, not their friends or family. And guidelines should be clear and readily available.
Marvin	Norfolk	VA	Having already received the "IRS scam" message on my cell phone it seems that the US (FCC) is determined to undermine the privacy of every American citizen! Since even the US IRS and DoD sites have proven vulnerable to hacking what's going to prevent sham "debt collectors" from exploiting weakened FCC guidelines?? It makes me very angry to pay for a service only to have it compromised so I can be exploited by criminals!!!
Mark	Columbus	OH	STOP ROBO CALLERS
William	Joliet	IL	Robo calls need to stop NOW! And fix your broken do not call list, which ISN'T working!! If the people currently working for the FCC cannot fix this issue, put people in the positions to make it happen!
Linda	Talent	OR	It was better for quite a while after I put my number on the Do Not Call list. Now however, these calls have become an epidemic. I pick up to tell them to take me off their call list and there is no one there! The other thing that is now occurring is that insurance (health and auto so far) have started taking information from anyone browsing on the internet who views an insurance site. If I look but fill anything out, they are still harvesting my information and then giving or more likely selling it it insurance companies. Those companies then inundated me with phone calls. Once I was investigating Long Term Health Insurance and I got a lot of odd calls, including one that said it was calling about my interst in insuring an specific model of automobile - one which I have never owned and certianly didn't view online. Please put a stop to RoboCalls and misuse of personal information by these companies!
Melanie	Dublin	OH	No robo calls.
Louise	San Antonio	TX	Please stop the robo callers and the debt collectors from calling cell phones. There are many like me that are on a very likited budget barely able to have a cell phone with limited time allotted.

Richard	North Highlands	CA	Stop the insanity. Don't allow these companies to invade our privacy.
Robert	Whittier	CA	I get 10 to 15 robo calls every day. I do not answer them but let them go to voice mail. No one leaves a message. I am sure that I miss calls that I should answer . I do not have caller ID. Please help.
Kenneth	Lake Forest	CA	Stop these dam Robo calls. I am getting more of these calls every day.
DIANORA	New York City	NY	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.
Paul	Steamboat Sprin	CO	We the public demands that the FCC act to ensure privacy on our cell phones and do whatever necessary to end robo calls.
Rich	hephzibah	GA	Since the FCC governs the RF spectrum. I would be in violation of FCC regulations if I tried to start my own private network using the bands reserved for military or law enforcement. Likewise I would be just as guilty if I jumped on those frequencies and started calling all the military or police radios trying to sell them something or scam them for money or try to collect a debt from an officer or servicemember. ROBOCALLERS are in violation of my rights to keep them from harassing me. EVER. Likewise, the FCC has the authority to compel cellular companies to shut down Robocalls which are clearly in violation of FCC regulations that govern the frequencies reserved for cellular use to include its various forms of modulation such as FSK, GSM or CDMA. Robocalls are guilty of INTRUSION, JAMMING, and INTERFERING with cellular service. The number of allowed calls or texts should be limited to ZERO per month.
Derek	Lockport	IL	Stop the robo calls to cell phones. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Todd	Newington	CT	As a retired physician, I appreciate the peace and quiet of relaxation at home and do not appreciate the incessant interruption of a ringing phone. Robocalls whether answered or not are an invasion of my right to peaceful relaxation in retirement. Please institute the strongest rules possible to restrict robocalls to all phones - landline and cell.
Kathy	Henderson	NV	Robo calls must stop. It is an invasion of privacy and a costly expense to the cell phone subscriber.

Linda	Telford	PA	In the last few months, I have started receiving so many calls ON MY CELLPHONE from cities where I don't know anyone that I get WAY more of them than I do of genuine calls from people or businesses I actually know (and want to talk to). It's gotten to the point where I don't even bother to look at my phone any more when it rings; I just send any call that doesn't have a personalized ringtone to my voicemail. And let it just be said for the record that NONE of those callers has left a message: a sure sign it's a robocall--or at the very least a telemarketer, but my cellphone number is supposedly on the Federal No-Call list, so we see how well that's not working either! But that's a complaint for another petition. PLEASE PLEASE PLEASE make your rules as strong as possible to limit or eliminate robocalls. Getting multiple calls EVERY DAY from the same unknown phone numbers is getting very annoying.
Lorri	Palm Bay	FL	We are getting these calls constantly, all day , everyday. They call my son in Chicago and are calling even about an ex husband who I divorced in 1985 and who died last yr. I havent seen them in since 1978 and they still call me for his depts. Please put up some rules as these people do what they want....: We want: *Debt collection robocallers must notify us of our right to stop receiving calls *The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family *The guidelines should be clear and readily available We are getting these calls , some from the same company 3-5 times a day from 8am to 10pm est every day of the week. We never answer our phone anymore. We are seniors in our 60s and find these calls very upsetting thank you
Jo	Hillsboro	OR	Honor the federal do not call list!
Larry	Sun	AZ	No more Robo calls from ANYONE!!!
William	university Park	IL	Privacy is mine own and not given away to to the intruders.
Alicia	St peters	MO	I strongly oppose robocalls to cell phones.
richard	Hayden	ID	Please `stop robocallers from bothering everyone who makes the mistake of putting theyre phone # on some internet scam. I put my my name on the do not call list twice. Id really like the fcc do something for us for a change.
Rob	Delray Bch	FL	Ban on land lines and cell lines
Karen	Jefferson	LA	Please help us with this. American citizens should not be harassed in this way!
Hannah	San Mateo	CA	Robo calls are an invasion of privacy, and most of the time, they're recordings, not live people. We don't need to put up with this crap! STOP them NOW!

Z	Orangevale	CA	Please stop robocalls, automated dialers from calling cell phones. I'm getting more and more of them interrupting meetings at work, workouts at gym and time with family at home. I don't give out my number to anyone unless I want them to call. Thank you!
Eileen	Lisbon	OH	I got a cell phone for many reasons one of them being that I would not be subject to robocalls. I do not like it on my landline and like it even less on my cell phone. Please put a stop to this as I pay for minutes and surely do not want to pay for minutes wasted on these type of calls.
Marie	Sedona	AZ	Every morning at 8:07 am , there is this very disturbing robot call 1 866 856 9607 calling itself e miracle .it is a debt collector . My family , my husband , myself never had any debts . I am a 71 y old widow and I do not deserve to be disturbed and harassed that way . I pay taxes , I never had any trouble with law , I own my house and pay my bills . We need a law and reenforcement of the law to protect decent citizen from that kind of abuse . Thank you for not letting our country into the hands of crooks and greediness .
D.	Brookville	PA	Stop ROBO Calls on all landlines & cell phones
STEVE	BERKLEY	MI	PLEASE HELP STOP ALL ROBOCALLS, AND HANGUPS !! IM SO SICK OF THEM THAT IM READY TO HIRE AN ATTORNEY TO START SUING.
Janet	Boxborough	MA	Please outlaw robocalls to cell phones
Jimmy	McKinney	TX	Stop robocallers from calling cell phones PERIOD. We should not have to have our cell phone minutes eaten up by robocallers calling cell phones.
Elisabeth	Albuquerque	NM	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls should be nil, and only to those who directly hold federal debt - not friends and family. And many times these calls target the wrong person, they are only in it for the money by fooling people! STOP THEM! This is harassment.
John	Orlando	FL	No robocalls please
Kristoffer	Port Townsend	WA	We've already been getting robocalls and telemarketers for years, now they are starting on my cell phone. There is no stopping them once they start. Please take action to put an end to this. Nobody wants junk calls.
Paul	Long Beach	CA	i agree with the above proposed guidelines

James	Garland	TX	I am a independent Businessman and I am very tired of the robocalls even on my mobile phone which I use strictly for business and they know my name and I can not get theirs. I believe I should have their information and be able to bill them for the time and harassment That I am receiving or a way to block them as it is costing me my time and sometimes business?I am paying for communications and expect to use my communication the way I want and not the way other companies want. I want what I am paying for as the technology is in place to block this calls and I find it very frustrating that the telecom industry can charge us to trace a call but we can not block them? My rights are being violated for greed.
Robert	Haddon heoghts	NJ	I support your every effort to stop the robo calls.
BODHI	Miami	FL	I am listed to block robocalls, and I get several a day on my home phone and my cell. I demand my right to privacy!
Samuel	Hopkins	SC	Stop the calls now!!!
Larry	Rossville	GA	Robo Callers should be prosecuted.
Brenda	Marion	IL	Stop Robocalls to cell phones, to homes,to relatives and friends from debt collectors. Stop them from calling people at work and putting jobs in danger. Stand strong and protect Americans rights not to have to listen to robocalls on cell phone and when they aren't the person with the debt.
Kathy	Brookville	PA	Stop all ROBO Calls on all land lines & cell phones
Lydia	Clinton	OK	ALL of them! Invasion of privacy, so disruptive & annoying!
DEIRDRE	MIAMI	FL	I am listed to block robocalls, and I get several a day on my home phone and my cell. I demand my right to privacy!
Walter	Lexington	MA	Dear FCC, Please prevent any commercial or political entity from making robocalls to mobile phones under any circumstances.
Susan	South River	NJ	No robocalls to cell phones
Tom	Walnut Creek	CA	End this intrusion on cell phones or landlines...this includes calls from politicians!
Willis	Fredericksburg	VA	Please stop all robo calls. Tired of having my cell phone tied up by these calls. And the same goes for my land line. Interruptions all day long. My privacy should have More rights than an attempt to sell me something. Stop the uninvited, unwelcome calls..
Maureen	Portland	OR	No robocalls to cell phones, we as cellphone customers should have MORE rights!
Deborah	Rayne	LA	I do not have time nor money to waste on annoying robocalls/ callers. It us bad enough on my landline but now I have them using up my valuable minutes on my cell phone!! Really!! Please stop this nonsense!!
theresa	huachuca city	AZ	stop robocalls

David	Mt. Royal	NJ	I'm so tired of receiving robo calls. I've had the same number for more than 15 years you would think they would know not to call me. I still receive calls about owing someone money (I don't), congrats! you have won, blah, blah, blah, collecting on behalf of the IRS (I don't owe them either), I could go on and on. It's obvious these nitwits don't care one iota about anyone's privacy and if you give them any exceptions on when they can call, they will definitely abuse it. Please end the calls now! No robo calls at all! Nada, never for any reason!!!
Kathleen	Queensbury	NY	Dear FCC, Robocalls are disruptive and unnecessary. For Debt collectors to call us at any time and with unlimited frequency is not right. Please limit them to one per month, and only to those who actually hold a debt, certainly not to friends or family!
Paul	Momence	IL	If I wanted these calls I would have asked for them.
Patricia	Grants Pass	OR	I finally had my land line disconnected because I could no longer deal with the calls about people who are deceased. My brother who died 7 years ago and a family friend who died 3 years ago. It's hard enough living with the premature death of loved ones without these calls adding insult to injury, reminding me of the indignity of someone living their final days unable to clear obligations. Neither of these were suicides, a choice was not made to leave debts/obligations unpaid. Some people have phone plans which limit the number of minutes they can use without incurring extra costs. Robo-calls have a negative effect as many can not afford the increased costs
DAVID	CLEARWATER	FL	We receive at least four robocalls in an evening at least 5 days a week. This is time consuming and a nuisance since we pick up the calls and have to listen for a while before needing to hang up. We should have the right to opt out of robocalls if we do not want to receive them.
Arthur	Ann Arbor	MI	Please prohibit robocalls to mobile phones
Carl	Brookville	PA	Stop all ROBO Calls on all phones land lines & cell phones.
Thomas	Sparks	NV	I average about 6 unwanted calls per day, I do not answer my phone any longer (there is an answering machine). IRS scams threatening legal action, requests for contributions, etc., etc. HOW ABOUT A LITTLE RELIEF! OR DON'T YOU THINK I DESERVE THE USE OF MY PHONE?
Hannah	Las Vegas	NV	I receive at least 2 or more calls every day from different telephone numbers from Credit Card Services and I do not know how to stop it. I get them both on my home phone and cell phone. Please help me stop these annoying calls
Joe	Punts Gorda	FL	I'm sick of them! I get multiple calls every day! Solicitations all the time. Also scam calls! Don't allow it anymore!!! I don't answer legitimate calls if I do not recognize the number anymore.

Phillip	Little Rock	AR	I have had the same cell phone number for over 15 years. About 3 out of every 4 or 5 calls is either marketing, robo, or collection calls. The most resent collection is for someone who I never heard of and they keep calling regardless of what I tell them.
Paul	Kennebunk	MA	As a cell phone as well as a landline user I feel that my cell phone should be safe from robo calls that often do not say anything just cause me to answer the phone for nothing. On my landline I am on a do not call list which usually works. There at present is nothing available along these lines for my cell phone. I actually still get charged by the 1/10th of a min that I am on my cell phone. This is if I make the call or someone calls me. The robo calls that do get through on my cell phone I have to pay for. This isn't right. If I had a lot of money I would just pay for an expensive cell phone plan. Can the FCC do something about Robo call directed to cell phones before this practice gets out of hand. Thank you,
Laura	Melrose	MA	I get enough robo calls on my land line. I do not want to be driving my grandkids in the car and get distracted by these calls. It is a matter of safety.
Philip	West Olive	MI	Robo calls have truly gotten out of control. Over 80% of the calls to our phone are now robo calls.
Hugh	New York	NY	I own a cell number that used to be owned by a person with an apparent bad debt. I would often get several calls a week (in the middle of meetings, rehearsals, etc.) looking for this person, and nothing I could do would convince any of them that he didn't own the number anymore. These guidelines would help people like me avoid similar frustrating predicaments. I heartily support your efforts to allow us to opt out of receiving such calls, to limit them to 3 times a month, and to limit them to the debt holders themselves and not other parties.
Robert	Wexford	PA	I am getting robocalls daily now, on both my home and cell phones. The callers spoof the calling number, changing it constantly, making them impossible to block. It is to the point where I am not answering the phone if I don't know the number - which could cause me to miss a potentially important call from, say, my child's school, if they should happen to call from a number I don't know. Unsolicited automatically dialed calls should be illegal and serious money should be devoted to enforcement.
Wayne	N. Merrick	NY	I get on the average about 8 to 10 robo calls a day, if I block the number, I get the same call from a different number! I get calls where the Caller I.D. shows no name, recently as today a number that was only listed as " 30 ", no name again. I don't even answer the phone if I don't recognize the number or name!
Eileen	Denver	CO	Do not allow robo calls to be generated to my cell phone. so sick of your big overpowering government take over on everything!

Judith	Creedmoor	NC	We have a number that belonged to someone that must owe everyone and for ten years have put up with calls to our phone looking for them. I don't want to endure calls on my cell phone.
Harold	New York	NY	Please stop the practice of Robo calls.
Frank	Weston	MA	Rebocalls cost receivers time and money.
David	Kenmore	WA	I would appreciate a government that can protect my right of privacy within my own home. Please stand up for all of us in this great country of ours.
Robin	St Louis Park	MN	PLEASE stop the robocalls. I am already receiving robocalls on both my landline and cell phone. They are a major inconvenience and can cause distractions when when driving. No one wants them, please make them stop.
Laura	Los Angeles	CA	I get unsolicited calls on my home number nearly every day and sometimes multiple times in a day. Most of the time I let them go to my answering machine, but when I do answer, the callers are almost invariably trying to scam me for money. And then there was my "favorite" - a message saying that the IRS had filed a lawsuit against me but giving no other details. These calls are a very unwelcome INTRUSION into my time and my life, and I want them stopped. My phone line is my own, for me to speak with my friends and family as well as conduct personal business. They should not be a conduit whereby I can be annoyed and harassed by scammers.
G L	Pine Bluff	AR	I am a retired 73 year old male. I receive at least four and up to ten robocalls a day. I attempt to engage them all and confront them with the immorality as well as the illegality of their activity. While many just hang up as soon as they realize where I'm going (giving me the minor satisfaction of at least 'making their day'), some stay on, some arguing and a very few, believe it or not, taking it seriously. Over the years, two have even broke out crying and admitting they hate their jobs. I share this to point out that those subjected to these calls are not the only, and possibly not even the main victims of these crimes. AT&T, Verizon, and the other 'pole based' phone service providers are motivated by the same factor as the other perpetrators - PROFIT. The FCC needs to address this aspect and take steps to remove this motivation at both ends. Just as an aside, some are so brazen that they reveal their correct phone number on caller ID and a very few have given me correct phone numbers when I stated I needed a call back number? I used to submit reports on such instances, but never received any acknowledgement from either a state or federal agency.
William	Dallas	TX	Cell phone calls have the potential to distract drivers and people operating hazardous equipment. Limiting these calls is important to the safety of everyone.

Ruben	Smyrna	SC	I don't know why this debt collection was allowed to be snuck in and done via robocalls, but it needs to be removed! Free our paid phones for our own use, and not for things that have no business driving us to run to the phone for such as this. USPS mail can handle such, and that will be limited due to the expense. Robocalls cost them nothing and drive us crazy. Have it stopped on wired phone, too. I can't carry my wired phone in my pocket. To have to run every time it rings, when it's just a robocall, makes me angry, my blood pressure rise, and me hate AT&T.
Thomas	Manchester	NH	the number of robocalls has increased, I cannot count the number of calls I answer only to hear space before the recorded call begins
Vicki	Hacienda Heights	CA	Please stop letting cold calls to cell phones. I use mine for emergencies only. It is bad enough to get this type of calls all days and nights on the land lines. Thank you for your help for stopping this.
Eliot	Amherst	MA	While I am perfectly happy to receive relevant robocalls for things like public safety alerts or school closings, I think that we should all be able to opt out of most robocalls. Even debt collectors should live within reasonable limits - we should have a right to stop receiving calls, such calls should be limited in number (such as few per month) and should be placed only to the debtor, their family members or friends. This not to mention the robocallers who are already violating the do-not-call list rules. It's past time for the phone companies to stop dragging their feet and to offer free techniques to screen out these calls while letting through the ones we opt into.
Arthur	Lakewood	NJ	These callls are insane!!!!
james	belton	MO	stop all robo calls
Jules	San Bernardino	CA	I receive them both on my landline and my cell. I now pick up the phone and wait for the other party to say something so I will not trigger the computer that transfers you to a person. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Teresa	Las Vegas	NV	NO more robocalls - I cannot afford it.
PJ	portland	OR	i'm 74 years old for and i don' t have time i need to save all the time i have left. Stop robo calls now.
Susan	Grand Junction	CO	Our cell phones go with us to the work place, to church, and to a family get-to-together. Many of us have purchased cell phones so family can get in touch with us in emergencies. However, since the cell is in our pocket, we should not have robocalls disturbing us in our work place, church, and family get-to-togethers. There needs to be strict guidelines on who can call and how many per month are allowed on our private lines!
Mark	St. Paul	MN	NO robocalls

Therese	Winchester	VA	As someone who takes call, I have to have my cell phone with me at all times. It is disruptive to receive calls at certain times, times my friends and family know not to call, but these telemarketers do not care.
Dan	austin	TX	Please don't allow RoboCall on Cell phone
Jim	East Norriton	PA	Please stop these harassing robo calls. We get upward to 20 per day. It is almost worth never answering a phone call and just using e-mail and texts. This is an invasion of privacy that was once illegal. What happened?
Elaine	Venice	FL	Please stop these robocalls!
Walter	Meriden	CT	It's a bother to get a Robacall. I hang up immediately or ignore it.
Ann	Ann Arbor	MI	I receive robocalls almost daily and they disturb both my work and personal life.
Carolyn	Slidell	LA	Please stop the nerve-wracking robo calls!
Roger	Strafford	PA	Almost everyone I know terminates robot calls within 3 or 4 seconds...however they persist. This tells me that the small percentage that actually get through is viewed by those utilizing this questionable form of communication as justifying the intrusion made on people's lives. It is this thoughtless attitude which is a new reality in our culture and the real damage done to all of us by these rude intrusions.
Diane	Morris	IL	Why should I pay a phone bill so robocalls can be made to it? Why not have the robocalls companies pay me to get their calls? Seems fair to me.
Philip	Chicago	IL	Some days I get as many as 4 robo calls. Some days none... But it's intrusive and I have to share in the cost of the intrusion. It's outrageous to be made to pay to have someone randomly market something/anything to you. In a sense it is an example of taking without due process.
Karie and Bill	Sheffield Lake	OH	NO ROBOCALLS TO CELL PHONES
frances	N.Y.	NY	Meaning NO robo calls at all: political, suveys, 'helps' for your aiments, advertisements, etc.!!
Jean	Sugar Creek	MO	We get at least 2 or 3 unwanted calls every day. Now it has stated on our cell phones also. I am 80 years old and have a severe balance problem. Having to get up and answer the phone for some scam call is not only irritating but dangerous for me. Whatever can be done to stop robo calls is what we want. We have friends of similar age that feel the same way. It is an invasion of our privacy.
Delia	Rialto	CA	Dear FCC, I feel that all Robo calls need to stop because I get calls all day long 7 days a week on my land line as well as my cell. I think companies need to inform us off our right to stop receiving calls. I also think in the debt collection calls it should only affect the debtor directly, not any one else in the family and definitely not friends! I think the companies should be forced to make all guidelines clear and easily accessible. Thank you

Brian	Philadelphia	PA	I am opposed to allowing robo-calls on cell phones. This is an important privacy issue.
Robert	Marana	AZ	Stop this privacy invasion! These are computer-generated nuisances, not personal calls.
Ken	Eugene	OR	I was the victim of robo calls to my cell phone last summer. They came from two sources both of which were looking for a woman that owed money to Huntsvill Hospital. I contacted both Huntsvill Hospital and the collection agency (known for robo calls) who was trying to collect on their behalf and explained that I was not the person they were looking for and that I had had this same cell number for over twenty years and I was not Debra Coffman the person they were looking for. Both assured the robo calls would stop, but they didn't. These calls would begin at 6:a.m. and were up to over a hundred calls per day for over a week. I had to turn my cell phone off. These robo calls stopped only after I filed a notice of intent to sue huntsvill hospital for \$500,000. I have never been so stressed out and angry in my life as I was when I was victimized by these robo calls. Robo calls must stop and never be allowed again.
Mary	Arlington	TX	I put myself and the company I work for on the Federal "Do not call list", and now both I and the company I work for get five times as many robocalls. It is completely asinine.
Barbara	Dallas	TX	To whom it may concern, In the last 2 months I have been deluged with robo calls. Not only are they invasive but in many cases they are outright scams. Common calls relate to urgent - call immediately about my credit card activity or IRS calling urgent. Such calls are especially dangerous for the elderly or uneducated. Please stop robo calls to cell phones. Thank you for your action on this matter.
Kathleen	Palm Coast	FL	These unwarranted calls are a TOTAL invasion of privacy, a source of aggravation and a total waste of time. It's disgusting we the people have to be subjected to this. I have sometimes received as many as 5 calls a day, and I easily get 25 a month. No message is left, but out of curiosity I have to spend a couple minutes to do a search of the number online to see if it's legit or not. 99.9% of the time it's linked to a scam. PLEASE make this stop. I'm on the do-not-call list which is a TOTAL joke. Thank goodness for the website 1-800 that makes these ticks ?? easier to check on.
kenneth	arnold	MD	We need your active support and good offices helping us to stop this . Thank you.
Joseph	Bronxville	NY	I am sick and tired of receiving robocalls. I would like to see some sort of device that would destroy their equipment when they call you and you are on the do not call list. Or at the very least the person receiving the call should be able to collect a fine of \$100.00 from the abusers for each call he receives.

pam	Bradenton	FL	Paying lots of money every month for a cell phone/smart phone I use seldom with a fixed price on it is a luxury for me as a 62 year old teacher looking to retire. If calls come to me, and I do not know from whom they come, I am first inconvenienced and next, I'm charged for the call that comes in. Finally, if I all the entity back, I'm often listening to a recording which I did not solicit. It is annoying and costly for me. I cannot often decipher which are my calls intended for me, or a costly robo call as the messages left are vague. I hope it will stop. I thank you for working to kill the opportunity companies have of robo-calling cell phones. I must also mention that some of the calls are from overseas hackers who want to hack into my information, I know this because I probe by asking where the caller is from, what company the person represents, and so it goes. It's a ridiculous and costly scenario. Pam Steen Teacher, Bradenton, FL
Tom	Landenberg	PA	My god why not solve this problem. We who pay should not be abused!! And abused!! Do you get that significant amount of money from these thieves the warrant the negatives or your "private" customers?
Don	PALM DESERT	CA	I get about 12 calls each week. It has to stop!
Doug	Middleton	WI	Please do not allow robocalls to cellphones. In addition to being unsolicited, they use up minutes for persons with call plans having limited minutes.
James	New Lenox	IL	Stop all robocalls
Henrique	Lansing	IL	im not interested in telemarketers soliciting for my opinions and my hard earned money! Stop it please
Linda	Panama City Bea	FL	I am tired of receiving robocalls on my cell phone! Asking to be removed from their call lists is a waste of time too as they call you over and over again anyway! Additionally, the Do Not Call List has been a joke. PLEASE put an end to this harassment!! Regarding debt collection calls, those should ONLY be directed to those that hold the debt, NOT family members or friends. The debt collectors are entitled to recover the debt when applicable, but strict ENFORCED guidelines are warranted.
CARL	Grosse Pointe W	MI	I am not delinquent on any loans, I am not interested in receiving unsolicited sales offers, and I AM already on the National Do Not Call list. I should not be forced to tolerate the unwarranted intrusions of robocallers and their like. Most of them ignore the list anyways. Stop the calls.
Dan	Middletwon	DE	Stop it now before it gets out of hand. bad enough constant calls on home phone don't need them on cell phone.
Margaret	Monroe	WI	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Thank you

Helen	Canfield	OH	Please, no robocalls to cell phones, land lines, pay phones, hospital patient rooms, etc.
Pat	Asheville	NC	I submit incidences of bogus, unwanted, and unsolicited landline phone calls to our home to the DoNotCall.gov website. Many times, it's 3 times per month. That's about 36 complaints a years. Yet we continue to receive these damn calls. Why the hell can't the FTC crack down on these? Why can't you prosecute for about a 20 year jail term if convicted? The FTC needs to act as a watchdog agency and TIGHTEN safeguards against these damn calls!
Alexander	Richland	WA	I have cell phone service for the the convenience of myself, my family and my friends. I don't have it to be interrupted by robocalls. I don't have cell phone service for the convenience of businesses for which I did not initiate the conversation. The choice of when to use my cell service should be mine, not some robocaller.
Edward	Riverside	CA	Receiving robo calls wanting to sell me something is an invasion of my privacy. Make them stop
ted	henrico	VA	I discontinued my land line because of the robocalls. I want one phone service that has no robocalls at all.
Floyd	Marietta	GA	Please approve and enact strong regulations to protect us from robocalls and other unwanted commercial and debt-collection calls.
Katherine	Concord TWP	OH	No Robocalls to Cell Phones!
Michael	Providence	RI	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. I oppose robocalls to my cell phone without my permission. They end up, costing people, outrageous amounts of money on their phone bill. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. Big business needs to be held accountable for their ruthless business practices, outrageous fees, molesting, harassment, ect. Many big businesses write off their debt loss on their taxes at the end of the year, and they still try to collect a debt that they have all ready received by writing it off as a tax loss. What a business, only in America. United States Taxpayers should be able to do the same, write off our debts on our taxes, just like big business. We need to take back our Government from big business.
Bryn	Middlbry. Cntr.	PA	I strongly resent receiving ANY calls from someone [or worse, a machine] who doesn't know me, whether it's to sell me something, make a contribution, whatever!!

Lindalee	Blossvale	NY	I m sick to death with getting these calls constantly,we have had calls as late as 11:00 at night.And if we don't answer they won't leave a message on our answer Phone.This has got to stop N O W!!!!!!!!!!!!!!!!!!!!!!
Christine	hanover park	IL	I have over 150 robo calls auto rejected on my cell phone. I have written numerous times to the FCC about these calls as I am on the DO NOT CALL list for my house and cell phone!! I STILL get these very annoying calls. I tried to opt out and I got MORE of them! If I am on the DO NOT CALL list that YOU are supposed to maintain and it is NOT working, what recourse do we as consumers have?
Racehel	El Paso	TX	Get calls up to 12 times a day from the same number and they start as early as 6.30 in the morning, Some calls are every 30 minutes.
Pamela	Murrieta	CA	After 6 years of constant robodials while trying to conduct a home business, I had to disconnect my landline. I couldn't even be on another call without an interruption from "Unavailable" or some other random call. The phone companies provide no relief except for a weak program that takes too much time to consistently try to block a number, that will just change again and again. It's abominable that nothing has been done up until now.
Dougie	Anywhere	KY	Your robocalls do nothing but push people away!!! You provide no community service with your greed!!!
Jessica	Houston	TX	I am so tired of Rachel from Card Holder Services calling me from random numbers. She has tracked me down and called me from almost every state. Every once in a while I get the scammers who try to tell me my computer has a problem, but the robocalls are the worst. Please make it stop.
Margaret	Austin	TX	Please work to stop the Robo calls. It is really annoying, rude and for someone who pays their bills on time it is utterly disruptive
Francis	Franklin	MA	I receive about 15 unwanted phone calls a week. Even unlisted numbers wont help. They interrupt working on the computer. Eating dinner with the family. Favorite TV shows and more, I make a point of not ever using, buying or contributing to their causes.
Greg	Los angeles	CA	They should be shut down with call-blocking software at the phone vendor level.
Joseph	Grand Island	NY	Everyone I know hates robocalls. Please legislate to end them.
Carol	Fort Collins	CO	I am tired of receiving calls from people I don't know, marketing nothing I want. It is an invasion of our personal privacy to have telemarketing and robocalling accessing our cell phone numbers.
Ron	Estes Park	CO	Robocalls are not only a nuisance but most are poorly designed and thought out. Most robocalls I receive have already begun their message so I usually have no idea what the call is about. They are a waste of the caller's money and of my time.
Dixie	San Antonio	TX	Individuals shouldn't be harassed if relatives owe a debt.

Patrick	La Grande	OR	Please enact rules that protect us from ALL unwanted calls (except from Emergency Services and necessary calls from government agencies), and especially robocalls. We are on the national no call list and still get a ridiculous number of calls. My mother is on the no calls list, and has call blocking, but still has people harassing her on the phone to get money for sales or donations. The laws should allow us to block ANY unwanted calls from anywhere or anyone, and protect us from this invasion of our privacy.
Marcia	Merrick	NY	Stop the automated phone calls if someone wants to tell you something. Someone should call
David	El Dorado Hills	CA	My recent experience with a lender that was pursuing a family member for money (that they didn't owe and were able to prove it, but the debt collectors care little about this!) tells me that we need to have some way to control and stop debt collection robocalls to our cell phones. It's just not right that they can harass us without any means of stopping them and use up our allowance of minutes -- especially when they are calling someone who isn't even directly involved with the alleged debt. Please enact guidelines that will allow us consumers to stop robocall harassment to our cell phones. Thanks for standing up for us!
Douglas	Dallas	TX	We have already been forced to give up our land line because of robocalls and other invasions of our privacy. Now they are starting to come to my cell phone. It's truly alarming! My son just asked for and got a new cell number because he was getting so many unwanted calls at the cell number he's had for fifteen years. FCC, please don't let them ruin our cell phones the way they have ruined our landlines!!!!
Jean	Midlothian	VA	Every day I receive a robocall on my cell phone it costs me one dollar. I want to be in control of how those dollars are spent. Robocalls should be declared a public nuisance.
K. C.	Houston	TX	Debt collection efforts, while valid, should not be directed through friends, family and neighbors at those responsible for the debt. They should ONLY involve the specific parties to the debt.
Rich	Santa Barbara	CA	Stop all robocalls.
Jim	Chantilly	VA	These calls, in addition to being NEVER WANTED OR USEFUL TO ME/US IN ANY WAY, invariably come at times of the day which are inconvenient and annoying if not intrusive on other activity. Things like family meals, or naps for us retired old folk. Makes me want to go back to the days of party lines! Get RID OF THEM PLEASE!
John	Westerly	RI	Please stop the robocalls. My wife and I are each in our late 70's and constantly getting up to respond to these calls is one day going to cause one of us to fall and result in a serious injury. Please stop them!

Lee	Hoboken	NJ	It's disturbing and distracting to get robocalls on my cellphone! M
Dick	Fayettevill	NY	There are few things that annoy me more than the mindless, too-easy-to-set-into-motion, scourge of intrusive robocalls. Why has this been allowed to continue? Enough already!
Nancy L.	Ashland	OR	Life is too short to answer the phone to every unsolicited ring. Robocalls are invasive, intrusive, and rude beyond measure. If I want a product of any kind, I will make my own phone calls, email researches, or trips to the store.
james	ballston lake	NY	its gone on long enough,time to cut the crap and give us our phones back
RICHARD	WAYNE	NJ	My telephone is for my convenience, not marketers,
Marc	Silver Spring	MD	I get plenty of robocalls every day on my landline, and they're always annoying. I have no debts, but the idea that a relative could get debts and i might be inundated with robocalls on my cellphone is scary.
Jean	Chesterfield	MO	Considering the importance cell phones play on our lives, robocalls are a serious nuisance and unnecessary challenge to quality of l've. Lease take action to seriously curtail their use.
ANGEL	MIAMI	FL	I've been receiving this kind of calls from different businesses, politics, vendors, etc. and sometimes I do not really know what I did to be on this lists. I always renew the donotcall.gov subscription, block numbers when they appear on caller ID, and nothing. I think is time to take really serious steps to stop and punish the disrespectful people, companies or institutions violating our privacy and peace.
Glendon	Brandon	FL	Robo calls are disruptive and they can't even have a live person there for you to tell don't call me again. It's always a recording.
joseph	glen ellen	CA	please no robo calls on my cell
Robert D	Lakewood	CO	I am tire of having to answer calls that are robocalls. We are on the do not call list, but it does not seem to do any good. There should be significant financial penalties for making robocalls to people that do not want to receive them.
Larry	Battle Creek	MI	I too frequently get calls about a student debt. I have no student debt nor never had one nor has my wife. I have not signed for my kids any student loan papers. I have not granted permission for anyone else to use my name regarding student loans! Because I am over 65 I get all sorts of unsolicited calls about health related topics. Please stop these on going robot calls!
andrew	hidden hills	CA	this has got to stop. im getting more robo calls then real Ones...and they are even less interesting. we are on every 'do not call' list possible...and they just keep on coming. STOP THEM PLEASE.

Dennis	Clermont	FL	Robo calls are rude at best and an invasion of privacy and a violation of rights at worst. I have a right to peace privacy and quiet in my own home. Robo calls violate those rights as well as my right to choose who I speak to on my cell phone. They also waste the minutes on my cell phone plan, e.g. They STEAL from me.
Janet	Collinsville	IL	Stop those damnable robocalls to our phones
Linda	Cayucos	CA	I am so tired of trying to get to the phone to either receive a robot call or having no one on the line. I use a wheel chair and it is not easy to get to a phone or move around the house. I always want to answer in case it is important as one of my children might need my help. I could have an accident trying to get to a phone that is one of these robocalls and it really upsets me. Please don't call me any more, what ever it is I don't want any.
Ken	Fairview	TX	Robocalls are increasing and so are calls to home phones. Perhaps we can increase the punishment or fines for those who are caught. This is out of hand Thank you.
Billie Jo	Fresno	CA	Please stop those calls. I get two to three daily, and I'm on the do not call list!
Syble Anne	Ottumwa	IA	Point taken... Yes, I have debt... I know this already, as do millions of other people... Debt is a stressful burden that weighs a person down... But there is nothing some can do about it at this time, with no job, No money and no assets of any kind... As my grandmother always said, "you can't get blood out of a turnip". The robocalls have gotten out of hand and out of control... Some days I will get as many as a dozen, Some days its only 2-3, but not a day goes by except for a Saturday/Sunday that I don't get any robocalls... If you don't answer they never leave a message except for an automated system telling you to give this # a call between the hours of ? and ?- never saying who they are or what they want... They just call back as soon as it quits ringing, back to back, to back... When you've had enough of them calling 3x in a row, you just finally answer it and there is nobody there... You hang up and not too long later its ringing again... That's when I proceed to just open my phone and close it, if they call again I do the same, open it and close it... If they keep it up, I will open my phone to answer it and just leave it lay somewhere in the next room... Which I have very limited minutes on my phone per month, as it's a government phone because I cannot afford a regular cell phone... I don't live a frivolous lifestyle, I can afford to go nowhere and do nothing and sometimes I don't eat as I have no \$ even for food... I would pay my debts if I could, but at this time, I cannot- for this, I am truly SORRY... As a general rule I don't answer my phone if it's just a phone #, especially one I don't recognize, because if I know you, have talked to you and you are one of my friends- you are a contact in my phone that will come up as a name- not a phone #.

Chuck	Idah Springs	CO	Please stop all Robo calls and faxes. I can't afford "Caller Id" and am annoyed when no one answers right away. It is a waste of my limited time left here on the planet. Thanks for doing something about this beside the "Do Not Call " feature.
Michele	Los Gatos	CA	I am sick of getting these calls. When I go through and talk to one of these idiots and ask to be put on their "Do Not Call" list, they don't do it. I don't understand why they keep calling when I am clearly not interested.
Kathleen	Salem	OR	No robo calls on cell phones,it is more than enough to have them on landlines
Robert	Hubbard	OH	I'm sick of companies calling my business phone and home phone and cell phones, with unsolicited calls, over and over daily..
Jarrett	Dundee	IL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Paul	Spring City	TN	Please stop the robo cellphone calls. They are so annoying.
James	Vienna	VA	Please STOP the robo calls!!!
Robert	Monrovia	CA	Please make robo calling illegal. This annoying practice has become widespread and we are also receiving robo calls on our cell phones.
Kathleen	Tucson	AZ	Robocalls are beyond an annoyance, they disrupt dinners, call too late & way too early. When you get at least 4 to 5 robocalls each day it disrupts daily life. I believe the companies behind these call should not have the right to constantly bother people. It's just not fair they can have so much control over our lives. Now, do I not only receive robocalls on my home number but also on my cell phone. What has happened to the American citizen's rights for privacy? Please restrict in these callers, it's just not fair to start and end your day answering this type of call.
Yong	Jersey city	NJ	I get robo calls everyday. Please stop.
Fred	Kimberling City	MO	Stop allowing harrasment by collection agencies and other robo calling organizations. Protect our privacy.
Jon	Texas City	TX	While already on the "DO NOT CALL" list, I am bombarded with multiple robocalls a day. The numbers are often "spoofed" to appear to be local calls, but are simply unsolicited attempts at sales.
Tom	Cary	NC	Its bad enough these calls come on my land line phone, but to have them come in on a cell phone when I have to pay to get the call is just not right.

Katherine	Greenfield	WI	I and all my associates truly feel that our personal privacy is horribly invaded by robocalls, and we are demanding that they are stopped. For those individuals who directly hold indebtedness to the federal government, they should be advised that they will be called and guidelines should be made clear. Friends and family's privacy should never be intruded upon because of the debtor. All robocalls are obnoxious and intrusive and we demand they be stopped immediately!
Ruth	Roslindale	MA	Please make them stop!
Susan	Albuquerque	NM	It good to know that the FCC is considering strict guidelines to regulate how and when debt collectors may call their clients. Following ar suggestion on the guidelines: - Debt collection robocallers must notify us of our right to stop receiving calls. - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. - The guidelines should be clear and readily available. Thank you.
Gerald	Starke	FL	I am getting three to five robo calls per day-many coming from supposedly phones that are no longer in service. Please get them to STOP.
Janet	Yamhill	OR	Robocalls are very annoying, Especially to the elderly they start calling at 6 am and don't stop until 9pm. I sometimes get as many as four calls from the same person in a day and they call everyday. I have asked them to remove my name and number from their lists to no avail. I have tried ignoring the calls when I see the caller ID but that hurts my dogs ears because they keep ringing until the machine picks up Most of them don't speak English very well and you can't understand them anyway. I have used the do not call list regularly, for the house phone and our cells but they don't follow the rules and call anyway. My cell phone voice mail is full of robo calls and I just leave it that way. There needs to be some way for junk calls to be blocked so they don't get thru, I am not a teenager with the phone in my hand 24/7 and it is hard for me to get around so takes awhile to pickup and when I get to the phone it isn't important anyway, very stressful. I have an old lady that is a neighbor who won't answer her phone any more unless you leave a message so she knows who is calling. If I wanted new windows, Life Alert, my windshield replaced or a trip on a cruise ship I would call them, most are scams anyway.
paula	elmhurst	NY	cell phones are for our private use, not to be used as yet another intrusion which is so irritating.
James R.	New Iberia	LA	Privacy and peaceful dinners and family times are barraged by scammers (Bridget and "Card Services" is one of the worse) and sellers of unneeded and unwanted merchandise and/or services, also cuttinginto my allotted service hours on personal devices.

Judith	Albuquerque	NM	These calls are a nuisance and I see no reason we have to pay extra on our phone bills to block them.
Marsha	Chelsea	AL	Please stop robo calls PERIOD Thank you.
Deborah	Valparaiso	IN	Please stop these people from thier annoying & bothersome calls. In the 90s I signed up for the " Do not call list ", but now I no longer have a land line, I use a cell phone for all my communication needs now. I'm tired of family members or friends using me as a reference (sometimes without me knowing about it or my permission) and then getting threatening phone calls from collection agency's. Many times I do not answer the call if I do not recognize the number, but when I have they can be very rude and obnoxious in thier efforts to track down whoever it is they are looking for. They also leave thier messages on voicemail which I don't appreciate either.
Wilfred H	New Braunfels	TX	Receiving these calls costs us money. They are unsolicited and usually serve no useful purpose other than harassment!
christine	flushing	NY	Robocalls annoying because they usually call when I'm doing something important.
Mitchell	Townsend	MA	Stop Robocalling. I neither need, want or desire this invasion of my privacy. Please, stop this activity.
Ed	Fallston	MD	I am on the Do Not Call list AND a user of NoMoRobo service yet I continue to get 3 to 4 unsolicited phone calls per day. Either false dept collectors, bogus police and firemens funds, alarm companies, etc. They are finding ways around NoMoRobo to get past their filters and call our home. I do not answer for months in hope they will stop calling... They still do. This needs to stop.
Thomas	Cary	NC	I have received several robo calls to my cell phone while driving - I am tempted to answer but I do not as it would distract me from driving. I can imagine that young drivers would be too tempted and will answer the calls while driving thus putting them and others on the road at risk. Stop the Robo Calls !
kate	new york	NY	debt collectors repeatedly harass the public Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Harlan	Apache Junction	AR	I would sincerely like to see an end to Robo-Calls. It is especially annoying when we are travelling. Sometimes we will answer a call and if it is a live person we will tell them to stop calling but that doesn't even work. I am not alone in this frustration with these unwanted calls. The sooner they end the better.
Richard	McKinney, TX	TX	I receive between three and five calls a day, on average, often several from the same scam company . These are more than merely an annoyance, they are always interruptive and unwelcome. They are also an invasion of my privacy.

steve	syosset	NY	Shouldn't Americans have the right to quiet enjoyment of their home time? These calls are steadily increasing in frequency and I'm really fed up with them; why is the FCC dragging it's feet on this?? All robocalls should be strictly outlawed at once!
Roland	Madison	WI	I am seeing a tremendous increase in the number of calls to my cell phone from commercial enterprises which which I have no previous connection. I have always understood such calls were illegal, but they are becoming a greater and greater problem. I have to pay for my cell phone calls, after some threshold, so I may be paying for someone else breaking the law. Please put a stop to this.
Nadia	Morton	PA	Stop robocalls now.
Thomas	Monticello	IL	I am sick and tired of these calls. They tell me to press one to be removed from their list but never do. It Is Time To Stop These CALLS.
Gayle	Arbuckle	CA	These calls are a real pain and should be eliminated all together. Gayle Kalfsbeek
Roberta	Orlando	FL	Regulate robocalls
Gary	San Francisco	CA	The National Do Not Call List does not work. Robo calls make the problem worst.
Deepak	cherry hill	NJ	Please stop this harassment once and for all - listen to your citizens and end all robocalls.
Joyce	Glenview	IL	I have cellphone for family only. Please no Robo calls.
Robert	Cape Girardeau	MO	End robocalls now
Carol and Rob	Wakefield,	MA	Robocalling does not serve the general public well in any way, since it is focused on selling anything and everything to its cold-call victims. It can be relentless in the case of many companies who use this means of communication. It is an unwelcome invasion of the privacy and contentment of ordinary citizens and interrupts the peace and quiet of them. If individuals wish to be communicated with they are always able to arrange this with the firms they're interested in.
Koan	Elburn	IL	We made our wishes clear when we asked for do not call designation. Incoming calls use minutes on cell phones. Robo calling cell phones is wrong!
Joseph	Janesville	WI	I continually get robo calls from a debt collector for a person that doesn't live at my phone number. In my answering message I even state whose residence they have contacted but they don't pay any attention because it is a robo call. It has forced me to ignore all calls even if it is for me.
Donna	Louisville	KY	Please, please do what you can to make the robocalls stop. I've done all I can-- I've asked them not to call me back, etc. but the calls do not stop. Please help.
Hattie	Shreveport	LA	I'm tired of my phone ringing with these nonsense calls.
Elizabeth	Cape Vincent	NY	I ask to be taken off lists if given the opportunity. The same people call the next week. Some don't ask my preference. I don't have student loans or federal debt or need a senior phone deal.

Barbara	Cary	NC	Implement the strongest possible rules against robocalls to cell phones.
Robert	Greenview	IL	Robocalls to our family cell phones have been on the increase and it's nearly impossible to stop. Please do all you can to end this practice. Thank you.
Paul	Holden	MA	It's bad enough that we still get rob calls on our land line, we are not willing to get more robo calls on our cell phones.
Kenneth	Montclair	NJ	The use of my cell phone by those who use machines to deliver messages regardless of time or place and without my permission is an invasion of my privacy and personal space. It violates the principle that people deserve to live their lives without unwarranted intrusions. FCC, please place strong controls on these calls and enforce them with tangible penalties!
ken	traverse city	MI	We have a right to decide if we do not want robocalls.
Linda	Peru	IL	Robocalls to cell phones should not be allowed. Many still have pre-paid plans that allow only limited minutes of usage. We don't want to waste those minutes. We should not be subjected to badgering calls that are meant for friends, family, or someone who may once have had the same number. We are not financially responsible for others. Please adopt rules that allow for easy was to stop receiving such calls.
Paul	Oakland	CA	I am sick and tired of receiving 5-10 robocalls a day.
Brian	SR	CA	The fact that this robocalling was not thrown back in the laps of the telecommunications giants, is an outrage in itself. There is an overwhelming amount of support to stop these calls and for years it continues to fall on deaf ears as lobbyists and money exchanges take the front seat. The term "throw these people out of office" is quickly being replaced with : "throw these fucking people out on the street"
James	Copley	OH	Robo calls should be stopped completely, especially when someone is attempting to collect from a friend or relative. I have no responsibility for these and consider them harassment.
Bill	Azusa	CA	Please stop these unwanted nuisance calls made by machines.
john	wadmalaw island	SC	get rid of the lowlife callers
Spencer	Camarillo	CA	Please stop all these robo calls to my cell phone and home phone!

Marilyn	Denver	CO	When a former foster son ended up in jail for his inability to pay a debt, our phone did not stop ringing day and night, every Saturday and Sunday, from the debt collectors that wanted to squeeze blood from a turnip. Although he had not lived with us at the time for several months when he was jailed, our phone number was on some of his records and the debt collectors shifted their efforts to us. They were aggressive with their robocalls that did not allow you a chance to say stop calling or even that they had a wrong number. We'd get calls at 6:00 a.m. through 11:00 p.m. typically. This is wrong and I'm looking forward to you making changes so that we are not affected like this ever again. Please.
Michael	Johnson Creek	WI	We changed our landline number and usage (more cell phone use) in part to escape unwanted calls pushing sales, seeking contributions or votes, touting politicians, and "surveys" from so-called PACs. Many of these were clearly targeted at elder retirees (that's us), suggesting some very sophisticated data mining. This happens despite our use of no-call services at federal and state levels. Rather clearly, such blocks do not work. Now we are getting cell calls from investment "brokers" and from unknown callers we believe are not legitimate. We believe the firms that sell, assign, or otherwise allow use of numbers of disguised origin (e.g., seeming domestic area codes that are not at all domestic) should be held accountable for aiding and abetting fraud. We also believe cell phones must remain protected from nuisance calls by pre-emptive policy, not by after-the-fact programs that too often fail. After-the-fact opt-out programs do not produce timely responses and often are simply ignored with little or no consequences.
Lisa	Plant City	FL	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
karen	Evanston	IL	They are so annoying - you run to the phone and it is garbage. Please prevent these robocalls!
Al	Hopkins	MN	Stop the robocalls
Richard	Selma	AL	Please do whatever you can to eliminate or restrict robo calls.
Hans	Perkiomenville	PA	I am so Sick of being disturbed by people who want to harass me into buying something, thinking it may be a loved one calling.
roscoe	louisville	KY	annoying-rude
Roslyn	Boca Raton	FL	I am not responsible for another person's debt so do not call me because I am related to a debt owner. That is not fair and is harassment.
karen	Evanston	IL	These calls are so annoying and they are always the same: the offer for the credit cards, the roof repairs, etc PLEASE NO MORE!

Dennis	Piedmont	MO	I am so tired of robo calls interrupting while I'm trying to eat , watch TV, or just relax. We don't owe student loans or back taxes,or anything we should get these kind of calls for. We are listed on the no call list,but they ignore that,and we receive 4 or 5 calls every day!Please Stop This Harrasment!!!
Andrew	Huntingdon Valle	PA	The video "Secrets Police Don't Want You To Know" at http://youtu.be/B3nok7Cby28 is 2.5 hours long but it's totally worth your time to watch the whole entire thing because it exposes how the cops, judges, prosecution attorneys, politicians, and car insurance salesmen have stolen BILLIONS from the common people as well as the secrets that anyone can follow to prevent them from stealing that money. Also check out the scripts related to the video at http://logosradionetwork.com/tao/ This video can help put a stop to tyranny and in turn bring freedom and higher consciousness to all! So please help me in my crusade to spread this info like wildfire on a global scale.
David	North Olmsted	OH	Please stop the robo calls now. They are becoming more and more frequent than our regular calls. They are are interrupting our daily lives with useless information. They interrupt or prevent our important incoming calls when we are patiently awaiting crucial calls from our doctors, pharmacists, and other important issues. They don't just stop when we ignore the calls. They continue to persistently call using other phone numbers or they display no number available or bogus numbers on caller ID which can't be traced.
Susan	Moravia	NY	Nobody has the right to robocall me on my cellphone or home phone. I have signed up all my numbers for the Do Not Call registry and am still receiving unsolicited calls at all hours of the day. LEAVE ME ALONE !!!!!
Linda	Rome	GA	Individuals are now being bombarded with unsolicited Robocalls, and not from debt collectors necessarily. Sales calls or prize award, scams, you name it. Please make it stop!

Elizabeth	Richmond	CA	I receive robocalls any time of the day or night regarding someone I do not know, have never met and hope (for her sake) to never meet. I do not know if she had my landline number (the only phone I have, btw) over 5 years ago before I received it, but she is apparently still telling people it is hers, thus collectors of all kinds robocall me at all hours of the day and night. I stopped calling them back or even answering their calls long ago, after realizing they simply sell her name along with my phone number to someone else. I received threats when I returned the calls telling them to take me off of all their call lists--and that yes, according to law they had to do so when they argued with me--and told them all I am not Sylvia Snow, didn't know a Sylvia Snow and have never known anyone with that name. For more than 5 years I have been harassed and there is absolutely nothing I can do about it. STOP THE ROBOCALLS. THEY ARE NOT SIMPLY SOME KIND OF NUISANCE, THEY ABUSE!!! EVERY TIME THE PHONE RINGS NOW, IT MAKES ME JUMP, WHICH IS SIMPLY AWFUL.
Deborah	Tigard	OR	As a business owner of a small business, robocalls are not just an annoyance, they cost em money! RObocalls unnecessarily distract me from productive business activities. As often as not, the call disconnects before I get to it--or worse yet, I head back to work and they call again! My homw phone is also my work phone and recently I have received robocall as early as 6:30 am! Recently I have also seen a disturbing trend of receiving robocalls on my cell phone. This cannot be allowed to happen. People should not have to pay for these aggravating and time wasting interruptions. At least if there is another person on the phone, you can tell them not to call again. Robocalls give you little if any choice. Please ban this annoying and expensive practice.
JL	Sparks	MD	The robocalls must be stopped. Over the past 120 days, I have received an average of 17 robocalls per week on my home (landline) phone, and 13 calls per week on my cell phone, a total of 125 calls per month. Please issue swift and firm requirements to put an end to these unwarranted and unsolicited calls. Thank you.
Jerry	Hollis	NH	Unsolicited Robo Calls must pay for each call they make. We should not pay anything.
Linda	Novato	CA	Please stop robocalls to landlines as well as cell phones. I happen to have only a landline and it is very aggravating to come home and find your voicemail box full because of Robo calls. It is also annoying to get woken up to answer the phone and it's a robocall. I have been sick in bed or with back pain and have to get up and answer the phone only to find it's just another robocall. PLEASE MAKE THIS STOP!

mark	fayetteville	NY	i get several calls a week on my cellphone, always from unknown. They are a pain in the neck,. Why would anyone do anything to answer their requests, which are annoying at best.
Bernadine	Nottingham	MD	Robocalls are an invasion of privacy and causes disturbing intrusions in our lives. Who needs to be interrupted all day and night to answer an unwanted phone call And sometimes miss an important incoming call.
James	Forked River	NJ	I am sick to death of these criminals allowed to operate on a precious communications system that is vital to our economy and security. Do what you can to end this abuse.
Delia	Smith Station	AL	No robo calls after a certain time in the evening. Taking a person off the list if it is the WRONG person they are calling for. Getting robo calls for a person that had the number before me Stop Robo calls for someone you are divorced from that you have no contact with.
John and Mar	Elkhart Lake	WI	Capitalism's short-term profit motive is incompatible with long-term public health and safety, and/or long-term environmental health and safety, and/or animal welfare!
Gary	Parkville	MD	Please stop robocalls to my cell phone.
Sheila	Novato	CA	I AM VERY OPPOSED TO ANYONE CALLING MY CELL PHONE WITHOUT MY PRIOR KNOWLEDGE AND APPROVAL...AMEN!
Diane	Cicero	NY	These calls are increasing and have literally taken over my home phone. I am even getting them on my cell. I no longer answer if I don't recognize the number on my caller ID. I have missed some important calls but there are just too many coming in. It's like an invasion of my privacy. Thank you for your consideration in ending this nightmare.
John	Putney	VT	This robo-call crap has to stop. I'm about to cancel my landline phone because the majority of those calls are spam or robo. Who needs it? Also, why should I get penalized by loss of my minutes when these DBs call me?
Anthony	Milford	DE	My wife and I have to leave our phone off the hook between 8AM and 9PM because all we keep getting are robo calls. Can't the government do ANYTHING right. The "Do Not Call" list is useless, and so is the government. When I wrote our useless Senators asking for them to do something about it, they told me to put our names on the do not call list. How out of touch can these morons be? They said if a bill comes to the floor, they will keep our thoughts in mind. In other words, they are not even behind a bill. I'm sure they are getting paid off by these companies. Our government is so corrupt, they deserve to all be thrown out of office,
ELMER	WORTHINGTON	OH	I am sick and tired of getting these automated calls. I really want them to stop, PLEASE!!!!!!! I am on the "DO NOT CALL LIST" and I continue to get these annoying calls. Is there any way to stop them??? I really would appreciate not receiving them anymore. Your help would be greatly appreciated.

Daniel	Norfolk	VA	No robocalls t cell phones!
Joe	Malden	MA	Stop wasting valuable telecommunication time and resources with these ridiculous irritating unwanted calls. How about using all this energy on something positive, like curtailing the hackers from their next wave of malware and malicious viruses. Just Stop It !!!!
Susan	Bakersfield	CA	I get dozens of robo calls every week. They keep my l'll husband awake and are very annoying. Please stop them.
Michael	Harrisburg	IL	I get a lot of these calls on my landline and cell phone.
Paul	Marblehead	MA	Debt collectors ought not to dictate policy, or water it down. They ought notify debtors of the right to stop receiving calls, and ought to limit them at the very least, and certainly only to the debtor, not relatives or friends. And whatever the ultimate rules, they ought to be simply and clearly written, and be easily accessed.
Edgar	Shawnee	KS	This would help to cut down distracted driving because the phone rang/
Carol	Tehachapi	CA	We pay for the privilege of having telephone service, whether it's a land line or cell phone. Unsolicited sales calls are an intrusion into our privacy and many times, they wind up costing us money, especially if you buy your minutes like we do. Protect the public's phone service and make robo-calling illegal. Furthermore, develop plans to go after those who break the law and continue to harass people through automated calling systems.
Elaine	Phila.	PA	I am 86 years old. I sleep til 10 and am awakened constantly by robo calls at 9;30 and at 10:00 when I have to get up due to these calls. I earned the right to sleep until 12:00 if I want and these calls are telling me I don't have the right to sleep if I want to. Who is in charge of my life?? Why do I have to be awakened when I do not want to be. Apox on these robo calls.
Debbie	Colorado Springs	CO	Unless those who use "robocalling" start paying my phone bill I consider the calls an invasion of my privacy. DO YOUR JOB and start protecting the citizens of this nation. My guess is you aren't plagued with this problem.

Ginger	Arcade	NY	I am getting robocalls on my cell phone these days. Even though I do not have any debt, student or otherwise, they call. I do not have outstanding credit card bills, but they call anyway. Typically the message is referring to my credit card, quickly followed by the statement that there is nothing wrong with my credit, but they could get me a lower interest rate. Since I have no outstanding bills, I do not have any amount to "roll-over" to a lower rate, this is just an unneeded annoyance. It's bad enough at home, but I especially hate these calls when I am at work, perhaps waiting on someone at our library's circulation desk. My phone is on, because I sometimes get important messages from my husband, who is a doctor. I have also gotten calls claiming I owe the IRS money & if I don't call back the number they leave I will go to jail. I understand there are rules for robocallers to follow: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available The people who call me follow none of these rules. We need a way to stop these annoying calls!
Joseph	Tulsa	OK	Please put the strongest possible restraints on the robocallers that are harassing Cell Phone owners!
William	Idaho Springs	CO	Robocalls are in contempt of rights to privacy, freedom from harassment and respect for a persons dignity without even considering the frustration and waste of time that can transpire and the abuse and fraud they too often promote. The only exception should be government and responsible authority alerts and emergency warnings.
Peter	Gaithersburg	MD	Please promulgate rules that eliminate robocalls of all sorts. I pay for the service and should not have unwanted, non-emergency calls wasting my time , my money, or my patience.
John	Belmont	MA	No cell phone robocalls, please!
Charles	Olympia	WA	I have gotten repeated calls asking for a person who never lived here and of whom I have no knowledge. I have explained this ad nauseam to no avail. This needs to stop.
I	honolulu	HI	This is serious -- not everyone has an unlimited plan -- marketing and robo calls of any kind to my cell phone creates extra charges -- that goes for unwanted text messages as well!
David	Hummelstown	PA	My phone is to stay in touch with family and friends not be bothered by people who I have not given consent to contact me
Kenneth	Milton	NY	As someone with a cell phone, I ask that no ROBO calls be made to cell phones. Many cell phones have numbers new to that subscriber. My number may have been in the possession of someone who has a debt problem. I don't want their calls.

Thomas	Manlius	NY	Our home phone gets 3 to 8 robot calls a day. We are ready to get rid of it but are afraid we'll start getting those calls on our cell phones if we put it down as a contact number.
Glenn	Vancouver	WA	It costs me time from my calling minutes to answer robocalls.
James	Phoenix, AZ 8504	AZ	six calls warning method I am being checked by th IRS oFBI ion one day.
SHEILA	NOVATO	CA	I HAVE BEEN RECEIVING MANY ROBOCALLS PER DAY-WHICH IS A WASTE OF MY TIME AND MAKE ME ANGRY! PLEASE STOP THIS SITUATION...IT IS VERY DISRUPTIVE TO BE RECEIVING CALLS FROM NUMBERS THAT ARE TOTALLY UNFAMILIAR TO ME AND CALLERS THAT ARE IDENTIFIED AS "UNKNOWN"....I DO NOT CARE TO BE SOLICITED...AM NOT INTERESTED...NOR DO I CARE TO MAKE ANY POLITICAL OR CHARITABLE DONATIONS...IF I DO I WILL INITIATE THE PROCESS...THANK YOU!
Mary	River Forest	IL	Dear Sir/Madam, I strongly support your proposed guidelines to regulate how and when debt collectors are allowed to contact people on their cell phones. Debt collectors should not be allowed to call personal cell phones without the owner's permission. Debt collectors should not be allowed to call anyone other than the person with the outstanding debt. Family members of people who have outstanding federal student loans should not be subjected to calls from debt collectors. Debt collection robocallers should inform every person they call that they have the right to opt out of receiving their calls. Your proposals are reasonable and fair. Please do not cave in to the debt collection industry's pressure to change or eliminate these guidelines. You have the support of countless citizens. Thank you for your work on this effort - please don't back down, please don't let us down!
Scott	Charleston	SC	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Lee	San Antonio	TX	Help give us privacy and the option to get calls from whom we want.
Dian	Hallandale beach	FL	I have never had a useful robocalls and consider them to be an intrusion
Jon	Hampton	GA	I cant afford to pay for these calls I can't afford unlimited minutes either so don't do this!
Douglas	North Haven	CT	Please end RoboCalls.
Glenn	Altadena	CA	I hate getting robo calls and I wish they would stop altogether. I ask them to take me off there list but, they still kept calling me back. Make them stop.
Richard	Studio City	CA	Pl help us in stopping this robo calling.. I'm a senior citizen so I'm home most of the days and theses call don't stop
Michael	Dix Hills	NY	Please do not permit robocallsespecially to cellphones

Haydn	Scott Twp	PA	When I want someone to call me I will ask them. If they don't hear from me don't call
karyn	Breckenridge	CO	It's time that our politicians and government start protecting the rights of we citizens . It's clear in the 2016 presidential election, the people are rebelling Robocalls protection by the FTC, is just another big business protection and unfavorable against we American Citizens not it the 1%. I often wonder how many people are injured in their homes, diving to answer a phone call at an inconvenient time, and get injured as a result. The whole idea of having the privacy we have come to expect in our own homes, disturbed during dinner or late evenings, but a robocall.
Robert	Battle Creek	MI	I NEVER want a Robo Call. Please make them Illegal, and let phone companies block ALL of them.
DUANE	Tremont	IL	Robocalls are nothing short of harassment. I accept calls because my cell phone is my business and there is no reason I should have to put up with this. It is senseless to not put a stop to this nonsense!!!
Ed	Pittsburgh	PA	PLEASE make all robocalls illegal, and please enforce it. Nothing works. I'm besieged by such calls.
Clyde	Ritzville	WA	NA
Thomas M	Traverse City	MI	Robocalls are without any cell phones that are excessive junk that don't even care who is the junk. In addition, calls are costly for consumers and leary of using any call at all.
Barbara	West Lafayette	IN	it is my opinion that no robo calls should be allowed to cell phones, without explicit permission and I should be told at the beginning of the call that I have a right to stop receiving the calls. And, they should be required to honor my request. It would be really rare that I would give permission. I would also appreciate clear and easily understood guidelines to avoid confusion and mis-application. Your help with this would be greatly appreciated.
Matt	Murfreesboro	TN	Please end the Robocalls.
Carol	Yonkers	NY	Just stop the intrusion of these call.
Russ	Batavia	OH	Please - no robocalls to cell phones! Please do what you can.
Kris	austin	TX	People need help getting back when they experience difficult times. Subjecting them to the repeated anxiety of debt collectors won't help.

Bethany	buellton	CA	There is absolutely no reason why I should have to put up with unsolicited, unwanted, and frankly, predatory robocalls. On any telephone line I have, be it a landline or a cellular phone. It is ridiculous how many calls I receive on business numbers, too! Ending them on cell phones, especially when those phones are primarily business lines, is a strong step in the right direction. There are additional circumstances that apply to cell phones as well. The portability of cell phone numbers means that an area code does not necessarily correspond to a timezone. Ever had a robocall at 5 am on a work day or worse yet on a weekend? It truly sucks. This is a wonderful opportunity for the FCC to step up and take action on behalf of those of us who have only a quiet, single voice. I sincerely hope our single voices are enough to get attention, and that we receive a positive response- an end to incessant robocalls!
Patricia	Westerly	RI	Please stop robocalls now
Fil	Saratoga Springs	NY	Robocalls are an invasion of privacy.
colin	Moraga	CA	I pay for every minute for calls that I make and calls that are received - why should I pay for a robo call that I do not want??
Karin	Denton	TX	I have a cell phone which has a number that a previous cellphone user was assigned.I'm so tired of these companies calling both at home and on my cell,countless times a day and taking up minutes and time,especially when these intrusions are not aimed at me personally.Total invasion of privacy!
Dale	Newark	NY	You set around having a nice dinner with friends and the telephone rings and you answer it and find a computer on the other end or someone you could care less about their damn message. I should be able to stop that type of invasion on my privacy. Since the telephone companies will not give us that opportunity then you should STOP those kind of calls. Lets think about the general public not the money greedy companies that cause us this grievance.
Robert	San Antonio	TX	We get at least 5 robocalls throughout the day! Please take action to stop these annoying interruptions in our homes.
Robert	Beaufort	SC	These calls intrude on my privacy and serenity. The calling times are indiscriminate. Complaining and demands to be removed from call lists are ignored. Regulatory action is the only way to ensure that these robocalls cease. The harsher the regulations the better.
Bruce	Chester	NJ	I will greatly appreciate being accorded the benefit of phone privacy.
Virginia	Nashville	TN	My husband and I are in our mid-eighties and it is annoying, to say the least, to be interrupted often at mealtime by an unwanted robocall. We'd be very happy if you would limit these calls or, better still, have them stopped entirely. Thank you !

Cody	Hoover	AL	Dear Folks at the FCC please hold firm on restraining robocalls, especially to my cell phone. I try to keep that personal and also limit overage on my cell phone. Thank you.
Shirley	Omaha	NE	Robo calls to cell phones!
Richard	San Antonio	TX	Robocalls are the worst. You can't even protest to a person at the other end of the line. Please help eliminate this nuisance. Make the do not call list mean something.
Robert	Wrightsville Beach	NC	Robocalls have forced me to abandon my land line. We must now stop robocalls of every type to cell phones. No one should be allowed to call your cell phone for commercial or solicitation purposes without your prior written approval. This could be obtained through US Mail.
Robert (Bob)	Camarillo	CA	I get an endless stream of calls - mostly to my cell phone - from offshore pharmaceutical companies. They ignore my request to stop calling - as I buy locally. I tell them I always buy locally, and they continue to call (sometimes 2-3 times a day), but the calls keep coming - mainly with East Indian accent personnel. I did purchase 1 med 4-5 years ago, and regretted it. The calls come from a wide variety of area codes and numbers, and is impossible to trace. It's an incredible annoyance.
Donna	South Riding	VA	Please implement the strongest possible rules against robocalls to cell phones.
Robert	BRAINTREE	MA	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Edward	Chantilly	VA	I received on average 5-10 Robo calls a day and I feel this violates my freedom as a US citizen and veteran. Something has to be done to guarantee my right to privacy!
Stan	Greensboro	NC	Please actively stop robocalls.
Gerald	Spartanburg	SC	Stop Robo calls to cell phones. It was bad enough when we got them on landlines but now they are intruding on our cell phones as well.
Ryan	Austin	TX	This is way beyond ridiculous that this is still an issue for consumers. No organization has any rights to contact me on my phone (not even so-called charitable and tax-exempt organizations). I pay for my phone and services and expect to be free of this harassment. Get it done already and stop screwing around.
David	Marana	AR	Were my service to be a "free" service, then I probably could not complain. However, I PAY for this service, and to have robocalls violate my privacy is simply wrong. The problem, though, as I see it is that our Congress will do NOTHING. Our concerns are NOT their concerns. Vote the bastards out, then maybe something will get done for the electorate.

Karen	East Greenwich	RI	I am so annoyed when I continue to get phone calls from around the country that are trying to sell me something on my cell phone. It is enough that I get so many of those irritating calls on my land line.
Michael	Calabasas	CA	I have to answer all calls because I am on call for emergencies. Robocalls are completely useless and intrusive. I am entitled to privacy as a citizen of this country.
Melissa	Newport News	VA	NO, it's NOT okay to me that the FCC thinks it's acceptable to allow robocalls to suck up the cellular service I'm already paying too much for! If I've disconnected my land line because I grew tired of receiving CONSTANT annoying solicitous calls - both manned and robotic - the absolute LAST thing I'll be okay with is these bastards being allowed to ring my cell phone as much as they please! THAT is NOT what I'm paying for cellular service for!
Leslie	Philadelphia	PA	I have had robocall texts and calls after midnight. Has to end
Bruce	Olathe	KS	I have to pay for cell phone calls or Text Messages. If I have a problem with paying bills, these calls would only add to my expense. The method of receiving statements should be the same as for receiving any communications from creditors or companies seeking payment. I personally have no debt nor am I behind on any obligation. However, the current invasion of private space by debt collectors is tragic and truly harassment.
Terence	Nokomis	FL	Stop the robocalls. Dangerous when I am expecting an important call and risk my safety to answer a robocall.
Kay	Jamestown	NY	I am sick and tired of receiving robo calls on my cell phone!! Please make it stop!!
Jim	Mobile	AL	There is too much fraud by phone. I think it's called wire fraud, and I think it's a crime. Why doesn't the federal government investigate and prosecute crooks who attack innocent, ordinary citizens with their fraudulent schemes? After being bombarded by numerous unwanted, intrusive, aggressive phone calls on my home number, I'm now receiving such calls on my cell phone! It cost me money out of my pocket to subsidize these damned crooks who disregard the "Do not call" law, which seems to have no teeth at all. I am so disenchanted with our government because of its abject failure to protect innocent citizens from criminally fraudulent activity.
Rosemarie	Santa Rosa	CA	Stop robocalls!
Nancy	Hamilton	OH	Even though I have an unlisted number, I still get robocalls. Very, very tired of the ongoing annoyance on my cell and home phone!!!

John	Loveland	OH	I dropped my landline to get away from Robocalls. Drove me crazy. Sometimes they would even show my own phone number on caller ID. Got as many as 12 calls a day. So far only a few on my cell phone. I think displaying fake phone numbers on caller ID should be illegal. Sometimes the area code displayed on caller ID would be 010, which I think is Europe. I asked one caller where he was calling from, he said Minnesota. I asked him why caller ID showed it was from overseas....he had no idea.
Bett	Skaneateles Falls	NY	Robocalls are an invasion of my privacy. A huge inconvenience and should not be allowed. Please pass any laws to stop them.
John	Brooklyn	NY	It's common sense to end Robocalls.
Stan	Clermont	FL	Please stop Robocall, it is costly and time consuming.
Karen	Blaine	WA	I pay for my phone for my use, not for every scammer to invade my privacy. I have never met one person who finds these calls useful or helpful. When I want to purchase a product or service I can research legitimate companies when I decide to do so. These companies use all kinds of ruses to get you to answer. In this day and age, it is very difficult to tell who is calling by the number that comes up on the phone. I get calls from my doctor's office using a cell phone with a different area code. I can't just ignore any number I don't recognize. I'm 70, and I can't tell you the number of times I have almost injured myself running to get the phone because I am expecting an important call. What do I get for my efforts, a computer voice. There is no excuse for this kind of marketing
Dave	Henderson	NV	They should all be ALL be stopped. They are a nuisance and of no value - just a bother.
spence	hudson	NY	Please stop these annoying and expensive robot calls to our cells phone. We have trac phones and every call reduces the small amount of money we put in our phones, Retired seniors.
Linda	Milpitas	CA	I receive repeated robocalls that are wrong number.
Carol	Grand Rapids	MI	No cell phone robocalls.
Benjamin	Gahanna	OH	Stop all robocalls to cell Phones.
Janice	La Quinta	CA	I am 79 year old woman and I have all kinds of health issues. There are times when I try and nap during the day because I can't sleep at night. These calls are cruel. I've tried everything: not answering, picking up the phone and hanging up. They keep calling, and these calls are like water torture. This is abusive toward the public. Can't you do something to help us.
Paul	Minneapolis	MN	I get these robo calls all the time on my cell phone all the time even though my number is on the Do Not Call List.
Sandi	Danville	KY	Cell phones should be private
george	hollywood	FL	we must stop the illegal harasment we must take back america
Jan	Santa Barbara	CA	No More Robocalls!!!
Martha	Hendersonville	NC	We get numerous calls every day and are pretty upset with this kind of harassment. Please help to get it to stop. Thank you

Gary	Thomasville	GA	Robocall calls have ruined ours land lines Please protected our cell Phones.
AL	Norman	OK	If we can put a washing machine on a comet, we should be able to put a stop to robocalls. There are already laws in place, so lets put some teeth in them. Also, who are the people who "bite" these come-ons that make it worth doing for these despicable companies?
Jacquee	Tucson	AZ	I don't want someone trying to sell something I don't want using my iPhone! I don't want people I don't know calling me for this purpose or using my talk time!
John	Lexington	MA	To whom it may concern I am writing to ask you to use your regulatory powers to halt robo calls to my phone. I am extremely unhappy that I get random robo calls that use up my time and waste my phone minutes Thank you for consideration of this matter
Micah	Fort Wayne	IN	No one likes Robocalls-- you can end them. Please do!
Keith	Kissimmee	FL	I'm on the do not call list. I've blocked 13 numbers - near the limit I'm allowed to block - and yet we get 5 or 6 robocalls every day now. Surely the technology exists to stop this mass invasion of privacy!
Pat	Creston	NC	I am a 69 year old retired accountant. i would like to ask your help in putting an end to all ROBO calls. To me, the phone is a personal instrument that should be used by me, and for me as a convenience to communication. Rebo calls take convenience from me, and make my phone a nuisance, and a form of harassment. Information in today's computerization allows me to find all types of information I need. I don't need to be called about random information that i may or may not need. Why should another person or entity be allowed to use my phone to reach me at all hours with info I am not seeking. My solution to this is to require those companies to use some other method of advertising, at their cost, to reach out to those who may be interested. Don't let them harass me on MY phone.
John	Baytown	TX	Nobody likes unwanted calls,please put a stop to them. John Robelia
Dave	Lapeer	MI	I've been harassed by so many credit card companys, banks and out right scammers I don't even answer my phone any more. I tell my friends and family when they call, my answering machine will take the call. If I hear a friend's or loved one's voice I will pick up and we can talk. I sometimes get the same credit card company calling two or three times a day. This is not business, it is harassment and the fact this is allowed is ludicrous. The FCC needs to put a stop to this constant invasion of our lives now!!!
John	Key West	FL	Robocalls at work disrupt the workflow. Multiplied by millions, the cost to employers in decreased productivity is huge.
Amelia	Laguna Woods	CA	Please stop robot alls to cell and landlines.
Gary	San Acacia	NM	Put an end to all robo calls NOW....!

Scott	Elk Grove	CA	I've gone from 1-2 robocalls to 8-10 robocalls per day. Since I also get as many as 10 robocalls per day I now no longer answer my phone until the answering machine reveals the caller. I find this situation extremely frustrating and ask that you take immediate action to restrict robocalls for both mobile and land lines.
Joe	Crete	IL	Don't waste my time!
Adam	Evanston	IL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Tom	Porterville	CA	Dear FCC: If you do allow robocalls your regulations must include that federal debt collection callers first info people of their right to stop receiving robocalls. The number of calls or texts be limited to no more than one call or text per month, and only to those who hold a legitimate federal debt, not to friends or family members. Any FCC regulations must be clear and readily available to the public. Such regulations must be provided first by the robocallers. Thank you for your attention to this important matter.
Cindy	Stamford	CT	Every day when I get home from work between 5:00 and 6:00, the telephone rings, and when I answer it, there is hesitation, so I know it is a robocall. I hang up before they even start talking. Other times, when I get home from work and I am tired and I just want to lay down on the sofa and watch the news on TV, and the phone starts ringing, and I can see on the TV screen caller I.D. that it is an out-of-state phone number, or it comes up "unavailable", I just let it ring and ring and don't answer it. Other times when I do answer it I pick up the phone, click the button to answer it, then click the button to hang up right away. The last thing I want to do when I come home from work and I am tired, is to talk on the phone to solicitors. These phone calls are SO ANNOYING - THEY HAVE TO STOP!
Eli	Brooklyn	NY	There should be severe penalties after the robocall prohibition law goes into effect and financial incentives for those to report robo callers who persist. Also there should be heavy fines for phone companies who do not act to block or assist customers to block robo callers. Robocalls are more than a nuisance.
George	Garland	TX	Please enforce the National Do Not Call registry and make all robocalls illegal.
Karin	Schaumburg	IL	My elderly parents who are both ill are constantly being plagued by robocalls. Enough already!

Bill	Midlothian	VA	Our home phone number for our Verizon FIOS phone is on the "Do Not Call List" and we still get calls on our land line, but "Nomorobo" usually catches them on the first ring, so we are living with it. However, even though the cell phone number is listed on the Cell Phone "Do Not Call List", we still get robocalls on the Cell Phone, which is annoying and uses up plan minutes. Please enact some meaningful legislation to protect consumers from these unscrupulous merchants. Thank you.
Daryl	Cincinnati	OH	Whether cell or home phone, robocalls of all types keep coming often more than one per day. Robocalls can be about our this and that. Often the call comes at our mealtimes as well for inconvenience and harassment of unkindness. ROBOCALLS MUST BE STOPPED, PERIOD!!
Kay	Dallas	TX	No Mo Robo!..Not ever. None. Zilch. You can do it by passing the strongest laws possible. Make Americans happy when their phones no longer ring with Anonymous, Caller Unknown, Name Unknown.
Susie	Fort Pierce	FL	Robocalls waste time and potentially block business transactions for the mobile phone owner.
Michelle	Aliso Viejo	CA	I pay my cell phone bill and resent being charged for time and money on my cell phone by robocalls of any type. I consider this to be an invasion of my privacy and urge you to take every step towards opposing this.
Pam & Jim	Austin	TX	Stop the robo calls now!
Mirka	San Pedro	CA	No more robocalls!
aardis	philadelphia	PA	It's call after call after call. Sometimes 5 to 6 a day. I don't answer but the calls keep coming.
Brenda	Cincinnati	OH	The phone rings and I just don't pick it up anymore. No reason to. no one I know and I don't want to waste my time talking to some idiot. Phones have become instruments of torture.
Wayne	Victor	NY	Please stop the annoying robo cell phone calls.
Lynne	Desoto	TX	These robots disturb me at home and at work. Is anything sacred? Please stop them now!
Ron	Newtown	CT	Robocalls to my landline are bad enough and should be prohibited, but I urge you to prohibit them to cell phones with zero tolerance except companies a person is doing business with (NOT their affiliates, divisions, etc).

Hollis	Spokane	WA	I detest calls from ANY company or charity or business, even those I have done business with in the past! I despise any organization, phone company, charity, mortgage network, political campaign, polling agency that calls my cell phone for ANY reason what-so-ever. Please leave my PHONE ALONE! I have signed the Do-Not-Call List with direct marketing for both home phone and cell phone. Why do I still get calls? Must be a loop-hole somewhere that allow harassing phone calls from people WITH WHOM I WILL NEVER, EVER, NEVER DO BUSINESS! It's just harassment. I will now report all phony phone numbers to the Washington State Attorney General's Office!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Jeanette	Memphis	TN	I get a variety of calls all day, everyday! Please, make it stop!
Bob	Holland	PA	No robocalls
Gerald	Raleigh	NC	I am sick and tired of receiving constant (ROBOCALLS) on my (Home) Phone everyday. I am on the DO NOT CALL LIST and still receive these annoying calls (Daily). I want them stopped and I mean (NOW)! DO ME A FAVOR and give them your Number and see how you like receiving them? I have changed my phone number twice due to these annoying calls and have made it (Unpublished) and I still receive the calls? I (Refuse) to change my number again? I just DON'T answer the phone anymore at all? if it is important enough they can leave a message on my machine but they sure shouldn't (Expect) a call back because they won't get one? I report every number that calls me to the (FCC) DO NOT CALL LIST!
sue	westerville	OH	Our phone is for our use not that of a Robocaller
David	Vestal	NY	The ceaseless interruption by robocalls of the quiet enjoyment of my home must be stopped.
Terry	SEATTLE	WA	On average, we get 10 or more robocalls each day. We no longer answer the phone. We rely on friends and significant notices to leave a message on our answering machine. Such a situation is as absurd as the 1-2 pounds of junk mail we receive daily, usually from low postage non profits seeking contributions. We implore to take action to stop the unwarranted intrusion on our privacy that robocalls impose. Please help. Terry Weaver Seattle, WA
Bonnie	Las Vegas	NV	Please don't allow robocalls ! I have enough trouble using my smart phone. I can't deal with any more complexities. Have pity on us poor seniors who need the benefits of a smartphone but can't juggle the complexities.

Tiffany	Boulder	CO	I find it incredible that I should be forced to pay a call premium to my carrier for unsolicited calls to my cell phone - these calls then become predatory as well as onerous. This practice is unacceptable, and it must stop. if they want to reach me on my home phone, then fine (within reason), but my cell phone is an entirely different beast with monetary fees and limits built in. Moreover, I should not be forced to engage in such personal dealing while at work, or elsewhere away from my home, my privacy and my records; which are necessary to appropriately respond to any such calls.
Peter	Columbia	SC	Every day I get interrupted a couple of times with robo calls. I cannot ignore out of area phone calls. It might sound trivial, but getting interrupted for some garbage call telling me how I can get more credit or that I "won" something is unreasonable. You block every number, they still get you. It is against the law in South Carolina for a person to harass a person by telephone. This is harassment, but I cannot do anything about it. The government can. Don't let their lobbyists convince you this is some kind of service. It is garbage.
Bob	Berkley	MI	Please don't allow robocalls to cell phones. I have a by the minute plan and would like to keep calls to necessity only
Stuart	Arlington	VA	I have the right to say NO to RoboCalls, and NO means NO. I honor the freedom America gives me, and it is my right to reject RoboCALLS; kindly honor that right, FCC. Thank you. Signed, Stuart Carlson
Steven	Foster City	CA	I don;t want to have to pay to get harassed, which is what would happen if robocalls go to cell phones.
Peter	Redwood City	CA	Many services require a phone number as identification, so it is not possible to avoid some sharing. However, that should not give number-holders the right to resell the number, nor allow advertisers to impose unwanted and unsolicited costs on cell phone subscribers, who often must pay by the minute, unlike internet users and print subscribers who pay a fixed fee regardless of content. The rules for cell phones should restrict unsolicited use to the highest degree possible, since the costs are most severe for those who can least afford them.
Landis	Milton	FL	We are so harassed by robo calls on our home phone, and if we have the same problem with our cell phones they will be useless! When the consumer count? Something MUST be done to protect the people paying the bill!
Selma	North Benningto	VT	As a handicapped senior, I can't tell you how many times I have rushed to the phone, only to be harassed by a robocall. Please put an end to them.
Mara	Berkeley	CA	I'm getting so many calls, it's overwhelming. I don't want to miss important calls actually intended for me, but it's gotten to the point where sometimes I get multiple robocalls each day and it's really stressful. It interrupts my work as a childcare provider.

Lawrence	Saint Petersburg	FL	Why do paid people who are paid by the United States taxpayers consistently ignore the people's wishes? If this was a private company, they would all be fired for insubordination. We want ALL robocalls to stop. Congress, the FCC, and any other agency involved and who are influenced by "contributions" should all be aware that their jobs are on the line at the next election. Let's put an end to this terrible intrusion in our personal space.
Kathy	Sarasota	FL	Do not call soliciting should be followed. Many people still pay per call and those "Minutes" should not be wasted by trash calls!
Deborah	Fairview	TN	I get robo calls from all kinds of people. Including fake IRS, sales calls from India call center, & more. Being on the Do Not Call list doesn't stop them. I get at least 6 calls a day!! There has to be a way to stop this.
Debra	Sewickley	PA	I'M paying for my cell phone and landline service, and none of it comes cheaply. And these companies can call and call with no repercussions. I have to leave my phone on during work hours in case a school calls with an emergency about my kids, and I get these infernal robocalls. Do something!!
Jim	Derwood	MD	Let's get real. I cannot imagine ANYONE desiring to receive (and thus pay for) a robocall on his cellphone. As it's apparently possible for a cellphone to be identified as such by the caller (or caller software) and for robocalls to also be detected, it shouldn't be rocket science to initiate appropriate software (on a cellphone) and on networks that block robocalls. The, when FCC makes the transmission of robocalls a crime with appropriate large fines, we might have a chance to return to quiet normalcy.
Henry	Los Angeles	CA	I do not answer the phone between 4 and 8 pm. Hope you can get rid of the "SURVEYS". Henry Wilf
Richard	St. Augustine	FL	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines on robocalls should be clear and readily available online.
Tim	Tulsa	OK	It's one thing if a business calls me on my cell at work or at home for a legit reason/business, but randomly calling this is blah from card holder services? any time they feel like it? Absolutely unacceptable! and of course there are not many tools to block /report these types of calls, the do not call registry is a joke, and those of us who have older phones, early smart phones, or just regular dumb phones what are we suppose to call our phone company and give them 100000000 numbers to block when the spammer/company keeps calling from a different number and harassing? Unacceptable. I myself use MR Number to block calls and text, my dad though is with at&t and has an older phone and gets calls like this, I told him to ditch them and go with someone else change numbers etc but this is ridiculous.

Lawrence	Hamilton	OH	Robocalls to cell phones are getting out of control. Please do everything possible to eliminate robocalls to cell phones. It's really not fair for the people who are paying for minutes, etc. to have to put up with this. The power to fix it is in your hands - please listen to the people, not the few robocallers who make us all miserable.
john	east falmouth	MA	At least 50% of my cell calls and 90% of my land line calls are robocalls. I'm on the no call list but the calls keep coming , and I feel totally defenseless from these infuriating calls. the no call is useless.I want to throw my phones in the ocean !!!!
Joanne	Hampton	FL	I am sick and tired of getting these numerous calls day after day after day! And I get them sometimes at 8am in the morning up to as late as 9 pm at night. Enough Is ENOUGH! I'm tired of the harassment from these companies! It must End Now!
Rick	Brigham City	UT	Please stop it, please !
Paul	Smithville	TN	I continually receive Calls from various credit card companies trying sell me something.
Margaret	Lafayette	CA	We are bombarded with robocalls as well as "out of area" and spoofed calls from callers that can't be identified or blocked by telecom providers. Please find a way to help consumers identify who is really calling and be able to block them. Something also has to be done about corporations selling our numbers to third parties without real consent, which is likely a cause of our numbers being released without our knowledge. Sometimes these agreements are put into contracts that give us only one option--"agree to let us give or sell your information to third parties or you can't use our product". We want our phone numbers and other personal information to be restricted to people with whom we do business or to whom we personally give our numbers. Thank you.
sam	winter springs	FL	i get robocalls on my home phone all day also.

Mark	Platteville	WI	Unlike land line phones, cell phones may be used to contact their owner at any time, specifically including work hours. A debt collector calling during working hours is intrusive and implicitly involves the employer in the debt collection process. 1. Debt collectors attempting to collect debts owed to the U.S. Government - or any other government or agency - should not have privileges beyond those given to other debt collection agencies. 2. For all collection agencies, robocalls and texts should be limited in the hours they may be made (not during working hours and not before 8 am nor after 9 pm, local time). 3. All debt collection calls should be limited to be made only to phones known to belong to the debtor and not to family, relatives, friends, or other acquaintances. 4. Cell phone users should have an option to block all robocalls, regardless of their origin or purpose. 5. A robocall should clearly and unambiguously give the option to receive no further robocalls regarding the debt. There should be strict limits on the number of robocalls permitted - perhaps 1 or 2 per month. While I have written in the context of robocalls to cell phones, it seems to me that the restrictions reasonably apply to robocalls to land lines as well.
John	Sunnyvale	CA	We are fed up with the constant robocalls whether it's on the cell or home phone. It is an invasion of privacy & harassment. These calls use fake phone numbers or none at all, this should be enough to have the FCC do something. Please stop them as we cannot take it anymore, it is driving us crazy.
Rex	Phenix City	AL	Stand with the people. End robo calls for good. Thanks
Laura	Arlington	MA	Please regulate robocalls and do not allow them to invade my privacy on my cell. If there is a debt, this can be pursued by mail. And, as consumers we should have the right to block unknown callers or automated calling systems. Right now, there is a lot of fraud going on if you just answer the phone, validating that the number is a legitimate phone line. I never answer calls by a number that is not in my contacts list for this reason. Yet, because I have a child, I must keep my phone on while I work and go places. Any calls that are not in my interest, are still disturbing me and those around me.
Michael	Acworth	GA	I did not purchase a cell phone or any phone for that matter to be disturbed by ROBOCALLS. The default should be you have to opt-in rather than opting-out. Also, there should be no exceptions for the freaking BIG banks or any business just because you have had a recent relationship with them. I did not want to be bombarded with even more advertising, it is already everywhere. It is Orwell's 1984 coming true. Please make it very hard for companies to use robocalls. Or make it very easy to opt-out and then make the punishment for not following the phone owners wishes severe.

Gerald	Raleigh	NC	I am sick and tired of receiving 10 to 12 (ROBOCALLS) per day on my Landline phone @ (Home) and my (cellphone). We're entitled to our (Privacy) and the right to be able to answer our phones without it being a (ROBO) Marketeer. These calls need to stop and I mean Right now! Period
Tim	Naperville	IL	Please take some action to eliminate Robocalls. You've got to be able to do something!
John	Indianapolis	IN	I am sick and tired of getting RoboCalls and want a one-click solution to end it forever.
Rick	Fairfield	OH	We are tired of getting junk calls on our cell phones. We buy the minutes for those phones and I do not buy them for spam callers to use!!!
C M	Huntsville	AL	Robocalls are so frustrating.....I want them stopped!
John	Pacific Palisades	CA	These multiple calls concentrate around evening time, although they occur anytime in the day after 6:00 am!
Lin	Mebane	NC	I have a phone number that I still get calls for especially Robo calls, from the previous person. She doesn't pay her bills and I get her Robo calls. The only thing I can do is change my number, my time is worth more to me than having to change my number with everyone. Maybe we should give out the number of the FCC to get the Robo calls, and see how they like it!
Arlene	Standish	ME	FCC: Please do not allow robo calls on our cell phones. We are harassed day and night when we are at home via our land lines. Please don't allow robo calls to follow us out of our home. I want to be able to control who can call me while out and about in my community.
Rick	Nicholasville	KY	Robocalls are a nuisance, an invasion of privacy and a waste of cellular minutes. I urge to restrict the calls to the absolute minimum.
Jack	Toms River	NJ	Robo calls are extremely annoying especially when you get them several times a day. Calls and up not being answered as not to get aggrieved but it never stops.
john	raleigh	NC	please put an end and financial fines on robo callers or computers controlled by robo call companies. I have 2 services to stop or no have to hear robo calls but I am still bothered by 5 a day or more.. PUT AN END TO IT.. PLEASE
Bill	Spokane	WA	Ironically are unnecessary and annoying!
Nancy	Laurel	MD	Please give the American phone consumers relief from robo calls. I don't answer my phone any more without checking the caller id because more often than not it is a miserable robo call. Stop robo calls!!!!
Rick	Sandy	UT	No more robot calls. It's a freedom we should enjoy. It's a form of harrassment.
Don	Gloversville	NY	What do you do in the face of a plague? As you battle it on land lines do you willingly let it spread to cell phones too? No robo calls to cellular!

Robeert	Berkeley	CA	Robocalls are an intrusion that lower my quality of life. Running to answer the phone is particularly unpleasant for a senior (in my 85th year) with a gimpy knee. In my experience, requests to be removed from call lists are routinely ignored. Modern technology permits the carrier to trace robocalls. If the caller does not desist, then the regulatory agency, you, should levy fines on the carrier sufficiently severe to persuade them to stop the bad behavior.
Kathleen	Allentown	PA	Robocalls are a violation of privacy and should not be allowed.
Cindy	Pittsburgh	PA	So annoying! Especially for seniors and others who have trouble getting to the phone. Please, please put a stop to this disruption to our lives!
Brian	Port Orange	FL	Please stop robo call to our cell phones. I canceled my home phone because of robo calls. Now my cell phone gets robo calls. Not as bad as my home phone did yet. Stop this needless annoyance. Thank you.
Nance	Colchester	CT	I am a senior living on a fixed income. I have limited minutes on my phone and have to pay for these horrible calls. Please help
Qinghu	New Hyde Park	NY	stop the robocalls to cell phones.
Martha	South San Franis	CA	I receive on the average, 3 robo calls a day. I have a land-line and will rush to the phone only to see it is no one I know. Or when I pick up the phone no one is answering or I hear the sound of a bubble like pop. I am 75 years old and this is very disturbing and a real nuisance. Something need to be done. I pay for telephone service each month and find these calls harassment.
Jeaneane	Greensboro	NC	I have a serious illness and need to rest and sleep a lot, including during the day. Robo calling is seriously affecting my sleep. I cannot turn the phone off all the time (doctors, pharmacy, family calling), but the robo calls are really bad. Can you please end them?
Lesley	Lynnwood	WA	Please stop allowing robocalls to personal mobile devices. This unacceptable practice costs people money and is designed to keep the poor down. Debt collection robocallers are legally required to notify the recipient of the call that they have the right to stop receiving calls. If they do not, they would be in violation of the Fair Debt Collection Practices Act. If it is not possible to ban robocalls, or you are unwilling, I hope you would consider limiting the number of allowed calls or texts per month to three. It is also necessary to limit the collection practices to those who directly hold federal debt and not extend to friends or family. The guidelines and/or regulations should be clear and readily available to the public. There is no reason whatsoever to allow these disreputable practices to continue. Please stop robocalls to mobile devices now.
Jimmy	Tupelo	MS	Please block all robo calls to cell phones. We have no need for these worthless calls. and they should be made illegal.

MICHAEL	OWINGSVILLE	KY	Please put a stop to the Robo calls. Card Member services calls at least 4 or 5 times each week....."important news about your credit card interest lowering, etc.". These calls usually are at mealtime. Very annoying and time consuming.
Paulette	Chicago	IL	Robo calls to cell phones are an unmitigated nuisance. Stop this bane of modern life.
James	Cary	NC	Robocalls are disrespectful. Please abolish them.
LoAn	Butke	VA	This is an invasion of privacy and I can't even tell them to take me off the calling list! Stop this unwanted tobi calls. I can block them and then they use someone else's number.
John B	Lewisburg	PA	A government which does not regulate in the public interest deserves no respect. The public is being defrauded, deceived, and annoyed every day by such vermin as robocallers and neither elected nor appointed functionaries are performing the job they are properly expected to do despite complaint and petition.
William	Spring	TX	The FCC needs to adopt strong rules to stop telemarketers from using robocalls and provide a method to enforce them. Eliminate loopholes and require phone companies to provide blocking mechanisms.
Jess	Baltimore	MD	No Robocalls to Cell Phones!
Donald	Alexandria	AL	Please stop robocalls to cell phones. They shouldn't be allowed because after a certain number of calls, the person who answers the call on a cell phone has to pay for the damn annoying robocall. Stop them!
Lawrence	Schroeder	MN	I oppose robocalls to cell phones. I have signed up for the "Do Not Call" list for my land line. I do not want my cell phone clogged with robocalls which are equally as offensive. Telephone companies reuse old phone numbers. I don't want robocalls from debt collectors which are intended for the previous person who had my phone number.
Karen	Clearwater	FL	Stop them from bugging me, PLEASE! I never answer my phone if I don't recognize the number and they don't leave a message, but the calls are still annoying and disruptive.
Debbie	Anaheim	CA	It is frustrating and to invasive that they can call and call and I can't fight back, help us block robocalls to our cell phones
Suzanne	Oakland	CA	We frequently have robocalls at our home. My son that is seriously ill may call, so I answer all calls; and so when I find out that this is a robocall, it increases my stress. Please help us stop all robocalls. I sometimes push a number that says I will be removed from the call list, but that never happens.
Carol	Santa Barbara, C	CA	PLEASE stop robocalls! I am being harassed by these calls all day for years now. I don't understand how its legal for these callers to harass people in their own homes, and there's no way to block the calls.
fred	moraga	CA	THere waste consumer's time
pamela	w. henrietta	NY	I have a limited number of minutes that would get used by robo callers.

Bob	Sonoma	CA	We receive as many as ten (10) robocalls every day. Put an end to these calls now!
Gerald	Manteca	CA	Please stop these calls. I receive them, not only on my home phone, but on my cell phone. They are a strain on my minutes, and on my temper. There is no reason whatsoever that these companies should use our phone services to sell their products or collect donations. We pay for our phone services. Why should they be allowed to use that which we pay for free of charge?
Frank	New Orleans	LA	Please, no Robocalls to Cell Phones!
Allyn	Hilton Head Island	SC	NO ROBOCALLS!
William	Baton Rouge	LA	I am against allowing any company to robocall my cell phone. I am already getting robocalls for Payday Loans and on my home phone for Debt Collectors who have called me at all hours of the night!! I simply do not want to allow it!!!! I also want to be giving the option to do it for the life of that phone number if I so elect to do so. Please kindly make this happen.
Marie	Granger	IN	I hate robocalls and want them to end immediately. They are an intrusion on our lives and privacy. NO more robocalls, now or ever!
Eve	Waban	MA	My time is too precious to be taken up by robocalls. I should have a way to stop and prevent them. I have no debts but I am still being harassed by robocallers.
Donald	Reston	VA	I'm inundated constantly with robocalls. There calls to me do absolutely no good as I immediately hang up on them. Help!
Janan	Tucker	GA	Our privacy is precious, and technology should not be allowed to intervene in such an annoying and uninvited way.
Anne Marie	Los Angeles	CA	To whom it concerns. I work from home and receive many robocalls, both on my landline and cell lines. Rachel from cardholder services, at least two solar energy companies a day, locat contractors--that seem to constantly be "in our area", the police and firefighters, environmental charities, AND the charities that I do give money to regularly. I do not wish to be disturbed, but because I receive some of my work communications through these lines, I continue with them. I am on the do-not-call list. One solicitation caller told me that the DNC list does not means anything. Apparently it doesn't to her. I also get informative calls from my children's schools. I received five today already. These calls are too distracting, interruptive and can be very frustrating. I would like a way to block these calls. No more than one call from ANY organization should be allowed per day without an emergency circumstance. Off shore robocallers must be blocked. Charitable organizations should not be allowed to solicit by phone. Contractors who solicit by phone should get their licenses revoked. Thank you.

Davd	White Plains	NY	The opportunity for abusive harassment on mobile devices outweighs the small benefit debt-collectors would enjoy by gaining unfettered access to our mobile phones. In short, the risk to the consumer far outweighs the benefit to those seeking unrestrained access. And what's worse is that the ruling here creates precedence, which then sets the tone for other industries who want the right to harass consumers.
RICHARD	DOWNINGTOWN	PA	I RECEIVE AN AVERAGE OF FROM 3-10 ROBOCALLS A DAY ON MY LAND LINE. I AM SICK AND TIRED OF THEM. NOW I AM STARTING TO GET THEM AS WELL AS TEXT MEASAGES ON MY CELL PHONE. ALL OF THIS WASTES MY TIME AND SOME OF IT COSTS ME MONEY. PURE AND SIMPLE THEY ARE INVADING MY PRIVACY AND GETTING AWAY WITH IT AND THIS HAS BEEN GOING ON FOR YEARS. IT MUST BE STOPPED.
Rick	Huntington Beach	CA	Please pass a law that prohibits Robocalls to cell phones just as they are prohibited to landlines. I'm sick and tired of receiving these calls on my cell phone and being annoyed and aggravated. Our phones are for our own use, not the robocallers!
Heather	Ringwood	NJ	I have nomorobo on my home phone and it does help a great deal by intercepting these annoying calls but the cell phone calls are worse since usually those calls interrupt important meetings and business.
J	Snohomish	WA	Please block robocalls to cell phones. They are a traffic hazard because I receive a lot of robocalls while I am driving
Nancy and Ben	Martinsburg	WV	Please take the strongest actions possible to stop robo calls. When we moved to Martinsburg, WV some years back, the telephone number we were issued apparently had been assigned to someone who skipped out on some debts. As a result, for many years we got call after call from collection agencies and other people who threatened all kinds of problems if we didn't pay. That is when they admitted who they were or were representing. Many times they would pose as a relative or friend looking for the previous "owners" of the phone number. If I convinced them it was not us and we didn't know these people, the calls might stop for a few weeks or months, but then they would start again. It took us years to apparently get them to stop. This only happened after I convinced a Manager to check the latest listings by phone number and he finally admitted that we were listed and not the other people. He promised to get our number off the list and we, thankfully, haven't heard from anyone in a couple of years. This represents only one type of robo call we get the others continue constantly. We don't think we should have to pay for caller ID or only accept calls after we screen them on the answering machine. We think we have a right to privacy including our telephone. Thank you in advance, Nancy & Ben Brown
Melodie	Columbus	OH	This is ridiculous! I get 10 calls (robocalls) a day for nonsense!

David	Mesa	AZ	No Robocalls. We don't need them. We don't want them. Please regulate this nuisance out of existence. Cell phones cost way to much money to waste on robocalls.
Maurine	Portland	OR	Calls should only go to those who directly hold federal debt; not friends and family. Debt collection robocalls must notify us of our right to stop receiving calls. Guidelines should be clear and readily available.
R David	jacksonville	FL	Stop robocalls!
Ross	Seattle	WA	I don't want to have to pay for robocalls on my cell or for service to block the calls. I gave up my land line because of robocalls.
Carmen	Chandler	AZ	I get robo-calls on a daily basis. I where a Lifeline and when I get a robo-call it holds onto my phone line even when I hang up. I pay for my telephone service, I do not pay for anyone to call me when I don't need them and I don't want to buy anything from them. A long while back we were led to believe that if we didn't want these types of calls all we had to do was fill out paper work and it would stop. Low and behold what a line that was! I never get calls from debt collectors because I am never late. The only horrible calls I receive are robo-calls and I want it to stop now.
Holly	South Burlington	VT	Please stop robo calls on my land line & my cell phone. These are interruptions I DO NOT WANT! Thank you
Carol	Wolfeboro	NH	Please do NOT allow robocalls to cell phones. The ones to our homes are bad enough.
Larry	Oakland	CA	Dinner should be a peaceful, uninterrupted time with the family.
Margaret	Pelham	MA	Never an uninterrupted dinner any more!! We'd be so psyched to have the calls end!
Robert	Fairport	NY	4-5 calls perday
Ronald	Hamden	CT	Please stop robo calls - I do not want sales calls
Lewis	Apple Valley	CA	Stop Robocalls now! They are abusive and invasive. Establish a system that will protect citizens from this invasion.
Daniel	Kailua	HI	These robo calls are unwanted, if you support or could careless about robo calls, please send your personal phone numbers so we can call you, every time we receive a robo call.
Robert	Graham	WA	No Robocalls to Cell Phones!
James	St Charles	IL	I understand that the debt collection industry is swarming the FCC to demand wide-open access to us at home, at work and on the go. Please do not give in to this intimidation. Thank you.
Fred	Montrose	CO	I got six calls today. Four of them were robo. this is unacceptable
David	Fort Lauderdale	FL	I get robocalls at least 5 times per week, sometimes more than that. Each time I get one of these calls, I report it to the National Do Not Call List as well as the Florida Do Not Call List. Some of the time, the calls are not even related to something I would be interested in - for example, offering to reduce the interest rate on my Student Loan - I haven't had a student loan in more than 30 years! I also block the number on my phone, but it seems like they have numerous numbers to call from, so they keep getting through using another alternate number.

Elizabeth	South Yarmouth	MA	I am not personally affected by debt collection robocalls, but I do receive multiple calls related to senior citizen products each day on both my cell phone and landline. I have registered both numbers with the DNC registry, but still am getting daily calls. " Rachel at cardholder services " is another frequent and annoying call. Asking to be removed from calling lists often gets a rude hang up and does nothing to stop the calls. I have a minimal cellular phone plan and resent my valuable minutes being used by these unwanted calls to say nothing of the inconvenience of getting unwanted calls, which are frequently hang ups when I do answer !. Please do whatever it takes to stop this practise. Thank you
Corki	Stockbridge	GA	Some people have to WORK, I don't have time for all your BS stupid calls to sell me some junk I don't want, need or can afford.
Natalie	Los Angeles	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Thomas	Prescott	AZ	If I must receive robocalls, those callers should pay for my phone and service.
Sally	Costa Mesa	CA	Total intrusion of privacy!!!
Becky	Campbell	TX	I am against robocalls they are invasive and I think predatory if I want a service I will contact and research who is best, robocalls allow for misuse and fraud of products and scams to consumers
Gerry	Trinidad	CA	They are such a waste of time and money.
John	Santa Cruz	CA	It is an invasion of my privacy and if received will adversely affect my relationship with the sender.
Michelle	Austin	TX	I'm frustrated with the unsolicited calls to my cell phone. I pay for minutes used whether I place the call or not. I shouldn't have to pay for unwanted calls. Please make them stop.
J.R.	Portland	OR	We do not need robocalls on landline or cellphones. If it is a debt collector they can send a letter through the post office. I have received collection calls for someone who is not related because my husband's first name is just 2 letters. They kept calling and were very nasty to us.
Paul	Maryland	NY	Thanks to our cable system, we have largely become immune to Robo calls on our landline phones, but now we are starting to get slammed by Robo calls on our cells. We consider them an invasion of our privacy, which should be stopped. In many instances, these calls represent interest in which we have absolutely no interest, and repeated attempts to stop them have met with abject failure.

Philip	Los Angeles	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Sharon	Mercedes	TX	I get calls everyday even though I'm on the 'do not call registry'. I have told them repeatedly to take my number off and they won't do it. I have filed complaints with the registry and the calls will stop for a few weeks but then they start again. This is not right.
Elissa	Rancho Santa Fe	CA	Cellphone robocalls are a serious invasion of privacy and a considerable annoyance when they occur during the middle of the night when I'm traveling internationally.
Richard	San Francisco	CA	Are robbing me & family of our precious time ! Please help ending.
Mark	Vasho Island	WA	It should not be legal for a business to harass hard working people with obnoxious automated calls. Please do whatever it takes to end this practice.
Michael	Mount Clemens	MI	We have our home and cell phones listed on the do not call register yet these calls keep coming though. It has got to stop.
John	Pensacola	FL	Please stop these unwanted intrusions.
Cyrene	Ypsilanti	MI	It seems to me robocalls are an abusive action by the robocaller, one that could be averted by the carrier. The technology is there, it needs to be put to use. Thank you for your attention to this.
Christine	Lewisburg	PA	Why should we be subjected to messages from those we don't know? They are doing it for furtherance of their motives, not for any wish of ours. Please pass strict guidelines for robocallers.
Edward	Sewell	NJ	I am a busy person all day long and have many important incoming calls to attend to. Robocalls are very interrupting and decreases my effectiveness to attend to real business. Stop this nonsense so that mobile phones are adding to business effectiveness not a means to detracting to efficiency. Robocalls are disruptive, decrease efficiency of legitimate business and intrusive to those who have no interest.
Barbara	Alameda	CA	These calls are very invasive. There should be a monthly limit to those calls; they should be monitored in terms of veracity and language too! No family and friends should be included!
Ron	Winston Salem	NC	Robocalls are a pain and a nuisance. They are sent by selfish companies/individuals who wish to waste other people's time. These need to be stopped. About half of my calls are robocalls and I resent them very much.
arlene	ewing	NJ	Protect us from these foreign people who take up our time, refuse to hang up, call from different United States listed areas. PUT A STOP TO THIS PLEASE.....Someone has to step in and STOP THEM.....
Bryon	Fayetteville	AR	#NAME?

Robert	Austin	TX	There is no longer a private phone. We are bombarded with needless calls at all hours. We are forced to ignore or otherwise block all calls except those we know.
Judith	Conway	SC	Please do not allow Robocalls to cell phones. Scammers bother seniors, Time share places waste cell minutes & tie up our time with ridiculous & specious calls. Thank you for protecting us from this practice.
EJ	Decatur	GA	I'm opposed to any robocall to any line land or mobile.
gerry	prospect	PA	please stop robocalls. I want MY privacy
Stephanie	Clifton	NJ	Robocalls should not be allowed on cell phones or landlines. They are annoying, tying up lines, and using up your minutes.
Maureen	Mashpee	MA	robocalls are an unwanted nuisance. They are intrusive.
Rose	Kennewick,	WA	I am 84 years old, and delighted to be living in such an age of marvels. That is why I find it unbelievable that companies can ding me endlessly with robo calls. That someone somewhere has access to something I own I am paying for and feel privileged to have. But someone tell me how this has happened, unwanted calls I am helpless doing anything about. And now it appears there is more of this to come in the wings with debt collectors. How has this happened? Where will t end? What can I do about it? There are days when I decide to ignore my phone, answer no calls, check no numbers but alas I return and find I have missed a call from my Dr. office or perhaps a call from someone who has gotten my number from a volunteer list where I do look ups for both Franklin and Benton County in the state of Wa. for seekers of genealogical information available only through local information that I have access to... Please help, I am writing this to tell you I am depending on you. Will you take this as a plea for help? I know you can do this, you have the power. I am asking you to use it. Thank you , Rose Sullivan
Jeff	Prescott Valley	AZ	Robocalls are annoying and unwanted. I do not know a single person that wants to receive robocalls of any kind. This includes robocalls from political candidates and causes. They should not be permitted unless person opts in. My telephone is for my convenience, not for robocallers.
Gerry	Cleveland	TN	We have to pay for our phone usage and resent the fact that we no longer have the freedom to use our phones for our enjoyment. We are being held hostage by criminals. I do not answer any calls unless a message is left that I understand. I have been threatened by the treasury department, the IRS, and the FBI according to messages left. When we report them to the police, nothing is done. How can this be called free enterprise? Stop this nonsense, please. We are also harassed on our Bluetooth in the car. This could cause accidents.

Steve	San Francisco	CA	More stringent rules and enforcement is needed to stop illegal robocalls. Our landline and cell phone numbers have been on the Do Not Call register for many years, and yet our landline receives from 3-7 unsolicited calls per day, mostly robocalls. It has gotten to the point that we monitor every call and only answer if we hear a message being left (robocallers never leave a message). We do not want to see this same thing happen with our cell phones, which, so far, only receive these calls once or twice a month.
Spencer	Rochester	NY	Why must I be continually harassed by telemarketers that I have absolutely no interest in dealing with? Please stop them from calling me!
JOYCE	Winter Springs	FL	i am so sick of these calls. They keep changing numbers. They never give you a chance to say something when they begin their speech. I am answering--when I answer--"No solitators please" and they hang up!
George	Berwyn	IL	Dear Sir or Madam, Please do everything in your power to eliminate spam robocalls on both cellular and landline telephones. It is technologically feasible to accomplish this, as the calls are both annoying and fraudulent. Violators should be prosecuted if they continue to violate the law. Thank you for your assistance in this important and urgent matter. Sincerely,
Steven	Hesperia	CA	When I got a new phone number 5 years ago apparently it was previously owned by someone who owed money. 5 years later I'm still getting collection calls. I've received literally hundreds of these calls and I've asked them to stop these calls each time which usually requires me to call them back. I'm not sure if these calls are all from the same company or not. I also get daily unsolicited sales calls. I could have changed phone numbers but the number would have just been given to another innocent person and the new number I got could have been worse. Maybe a solution would be for phone companies to make a list available to all collection agencies of phone numbers that have changed hands and force them to delete these numbers from there data bases or incur a penalty. I realize this would take these parties maybe a minute per phone number to do this or I guess we could just continue with the way things work now. Take dozens and dozens of hours over multiple years from people like me that are not responsible for this happening and have absolutely no way to stop it. Many days now I keep my phone turned off unless I want to make a call. This means that if my elderly mother needs help from her son she needs to wait until I call her. Hope it's not too important. Why people need to spend so much of there day dealing with these things seems a safety issue and so unproductive for our country. Peoples life are stressful enough. I believe this is one that should be fixed.

Wyatt	Panama City	FL	It is unfair to have to pay for robocall I do not want to my cellphone! Even three calls or texts per month is quite a lot. Texts are slightly less intrusive than calls but are still consume time to screen. It is only correct to be reminded that we have a right to stop receiving debt collection calls. Calls to friends and family of the debt holder are extreme harassment and should not be allowed. All of the robocalls on a landline are annoying enough that one certainly considers dropping a landline but now they are spreading to cellphones. Calls should only be allowed from 8 AM to 8 PM local time, otherwise they are very intrusive. Strong rules from the FCC limiting calls from debt collectors are extremely important.
Don	Vermilion	OH	I am sick of these robocalls! I am 80 years young and have a wife that is going into dementia. These calls are very upsetting to her and this make my job as care giver very stressful. Daily living is a challenge for us. I am going to get some coding to limit my hard line phone calls or have it removed. My cell phone was a secure number, but as of late nothing is secure. I am very, very upset about this lack of privacy. DO SOMETHING ABOUT!
K	Minot	ND	'Nuff said!!
David	Gainesville	FL	I have often been in the middle of something important, when my cell phone rings. I have two kids, a wife and a business, so not answering it is not an option. So, I answer and it's some obnoxious robocall. or worse, some fast talking person who simply will NOT take "no" or "I'm not interested" for an answer. Sadly, there's no recourse for me when my time and privacy are invaded.
David	Carmel	IN	STOP the ROBOCALLS!!!
Catherine	Encinitas	CA	There is nothing worse for anyone, but especially if you conduct business on your cell phone, (as most of us do these days) than to receive calls from unknown numbers, that I am compelled to answer for the sake of my business, only to find out they are robocalls!!! DRIVES ME CRAZY!! STOP IT! STOP IT! STOP IT!!!!!!
ADRIAN	CORAL GABLES	FL	Please, stop the robocalls. They call my house, and my cell phone non-stop, and I am in the Florida "DO NOT CALL LIST".
Linda	Omaha	NE	I hate calls from unknown sources made to my phone that I pay for. NO ROBO CALLS!!
William	Woodbridge	VA	I'm getting spam robocalls at such a rate that I can't block them fast enough. I thought that was an automatic violation, but I guess they don't care. I have both my home and cell phones listed on the do not call registry, and that's been useless. Please do something! Thank you, Scott

Erik	Ann Arbor	MI	I am constantly inundated by robo calls that "check my lines" (home and cell) and then hang up - they interrupt my peace to identify me as a target for future calls from their spam-clients. And they call me In an effort to sell me products I have no interest in. This, despite having been registered on the do not call lists (home and cell) for years. How is it OK for these fucked up aggressive telemarketers to free-ride on top of communications infrastructure that I PAY FOR through nearly \$2500/year of cell and landline services AND taxes. It is an outrageous THEFT to allow these shitty scam marketers to take my time amd attention whether at work or at home with my family. PUT AN END TO THIS NOW.
Duane	Saint Paul	MN	Robocalls should not be sent to cell phones. No texts eighther. An opt out should be included if robocalls do happen, and only to those who directly hold the debt, not family or friends. Guidelines should be clear and easily available.
Shirley	Ashland	OH	Please place very strong rules on the debt collectors who want to place robocalls. We are tired of aggravating and continuous calls that we never asked for. The rules need to be very strict on number of calls, with clear guidelines. Thank you.
Conrad	Munster	IN	My landline phone is ATT-Uverse and cellphone is Verizon. Please give us a way to block all the robocalls we get every day!

Monique	Loveland	CO	<p>We purposely removed a landline due to the over calling of debt collectors when we had no debt issues, the harassment, the person not giving us the right to be put on a "do not call list" and our concern was not just for ourselves but the elderly, those who could be taken advantage of because of the scare tactics used and more. I used to have a business where I assisted home owners with short sales to work with the banks to relieve them of their debt and have the lien removed. I also would recommend seeking out professionals in bankruptcy, debt consolidation with the hope of forgiveness of some debt or all once their financial situation was documented and presented to the comp its or individuals owed money, etc... The harassment was out of control and even though most of my clients were trying to pay what they could, they were hounded on their landlines and then their cell phones. There is a better way to handle this situation and strict guidelines must be put in place due to predatory lenders and shady companies who make it their job to use scare tactics and many times get people to pay on debt that is not theirs or misrepresent themselves and the money paid is not going to the debt they are trying to pay off. I have seen this first hand and did my best to try and stop the harassment and get my clients in good hand so they were working with a professional to help them and they ignored the calls. However, the harassment should not be allowed on cell phones or in general. Most of the public is not educated in this area and the media needs to have more coverage on this very important issue while the FCC works on improving this predatory practice.</p>
Michael	Livonia	MI	Robocalls are effecting my quality of life. It is only increasing.
Sarah	Hamden	CT	<p>Yesterday I received - just when I was deep in complicated work but expecting an important call, so that I quickly answered - a nasty, worrying robocall claiming to be from my credit card company and commanding me to check about lower interest rates before it was too late. Who was this calling? My bank gone bad? An identify thief based in Russia? (More likely!) And they had my personal contact data? What about financial information on me? From where? Should I follow up and report this intrusion? How long would this take? What about my pressing work? We will take vengeance at the polls on any politician who can be bought off to allow this! We will reward a crack-down on these abuses! No legislator, state or federal, will get my vote after cozying up to corporate cronies of these thugs. If all the legislators cozy up, I'll stay at home and not vote.</p>
Maureen	Palm Coast	FL	I will seek legal action if it doesn't stop.

Pat	Sykesville	MD	These Robocalls are not only annoying and inconvenient, but don't we as citizens, pay for phone services? If that's the case, why do these companies have the right to advertise using a service WE pay for? Many families have a short time when they are all together. That time is precious. How dare they interrupt us at the most important time of the day???
Anoop	Tucson	AZ	Some form of heavy punishment for robocallers could be an effective solution
harrison & no	rolla	MO	they are a nusceince !!!
ORLANDO	Coral Gables	FL	Please, stop the robocalls. They call my house, and my cell phone non-stop, and I am in the Florida "DO NOT CALL LIST".
Jill	Milwaukee	WI	I do not pay for phone service so that businesses can spend my minutes trying to manipulate me into buying something I don't want. To make it worse, they're not even paying a human for that decidedly crappy job.
Madeline	Slate Hill	NY	I absolutely do not want robocalls on my cell..nor do I want them on my land line.
Tracy	Centennial	CO	I work hard all day talking to people on the phone. These people want to speak to me. I don't call them. I also do not call them after they go home from work, or when they are in their car or out to dinner. Please, follow my lead. Thank you.
Jim	Enid	OK	How do you feel about one robocall? How about 5 or 6 per week! This is the minimum I receive on my land line.
Adama	Ashland	OR	Please eliminate ALL but emergency Robo calls
Elizabeth	Broadwater	NE	Texts and incoming calls can cost consumers actual money with some plans and cellular services. Especially when these are done robotically, these can add up to hundreds of dollars per month - and they do not even have to be directed to the person who owes the money, or who borrowed the money. They may be a relative, neighbor, former friend or acquaintance, or even a stranger who just happens to have a number assigned to his or her account which was once associated with the debtor. These numbers may be attached to business phones, who have valuable time taken out of their day to deal with these nuisance calls, which they are powerless to stop. These annoying calls may be directed toward a disabled person, causing injury or worry to the person, exasperating their medical condition. Yet, they cannot be without a phone for safety reasons.
Genevieve	Aurora	IL	No more robocalls!
ROXANNA	Coral Gables	FL	Please, stop the robocalls. They call my house, and my cell phone non-stop, and I am in the Florida "DO NOT CALL LIST".

Arthur	Austin	TX	I owe no one any money yet I get a dozen robo calls each week for all kinds of things I have not solicited. Aside from being annoying, these calls come in on my land line and cell phone. When they are on my cell, they go against my minute allowance. Please stop allowing these predators from using excuses to sidestep the no-call list. At a minimum, robo callers should be charged for not only their telephone charges but also for the charges inflicted upon the cell phone number they are calling. It's no different than the US Mail, the sender pays. This would allow the phone companies to retain the profits that are motivating their reluctance to end this despicable practice, and it would make robo calling less desirable as a communication medium. Stop robo calls to all types of phones! End the harassment of the American people.
ed	Ronceverte	WV	I want strict rules prohibiting robocalls to cell phones for any reason.
Bob	Winter Haven	FL	Please, no more robo calls of any kind, any time, forever!
Herbert	Washingtonville	NY	Outlaw robocalls to cell phones. They cost consumers way to much - for nothing!
Rufus	Granite Falls	NC	I am getting these calls when I am on the no call list. Please get them stopped.
Ken	Garland	TX	Please do something about Robocalls. It's my phone and I pay for the time on it. If I get a Robocall it wastes my time and my money. They should be paying for my minutes. -Ken
Rebecca	Lansdale	PA	Uninvited, unwanted, impolite, abusive at times, loss of privacy, loss of peace, not why I have a phone. Make them stop PLEASE!
Maria	Arlington Hts	IL	Robo calls are annoying and intrusive. I have stopped answering calls that I don't recognize on call ID. If it is important, they can leave a voicemail.
LINDA	Garden Grove	CA	GET RID OF THIS CANCER!!! THEY'RE DRIVING ME CRAZY!! ALL HOURS OF THE DAY & INTO THE NIGHT!! STOP THEM!!!!!!!!!!!!!!
Roy	Huntley	IL	I'm retired and don't need to spend sooo much time telling companies to stop calling me . Please do something about this . Please !
Wayne	East Lyme	CT	If I want something, I'll call you!!!
Larry	Beachwood	NJ	Help stop the harassment.
Joanne	Columbia	MO	I am sick of robo calls on my landline and cell phone. I am on the No Call list but still get calls. More than ever now calling my cell. Please toughen the regulations!
Dee	Benicia	CA	I am receiving calls from one company for over a month, several a day. Have had no connection this company . I will have to change my cell phone # because of this!!!!!!!!!!!!!!!!!!!!!! I can't BLOCK them!! Help!
Dennis	Cleveland	OH	Just get these guys off my back and off my phone.
Charlotte	Thornton	CO	Stop robo calls to cell phones!

Patricia	Laguna Hills	CA	I am so tired of being interrupted in my activities by robocalls that I have to pay for because they are to my cell phone. They are for things and services that I have no use for . My phones are listed on the National Do Not Call Registry.
Kathletes. A	Port Ludlow	WA	Disgusted with these. I no longer answer any call that I cannot ID, thus hurting politicians I might otherwise donate toward.
Don	Sedalia	MO	This is my phone that i pay for not through taxpayers money! I should be able control who calls me.
DONALD	PALM COAST	FL	END CELL ROBO CALLS
don	carmichael	CA	I pay good money for mobile access, I did not sign up for calls from persons, other than those I give my number. unwanted calls should be classified as harassment ! I find it very irritating that these unwanted calls occur. Please help us (the consumer) eradicate these vermin.
Rita	Brooklyn	NY	This is a quality of life issue. Being bombarded by robocalls is unpleasant, distracting, and aggravating. Time of day or night is not an issue for the computerized calls. Sit down to eat a meal and the phone keeps ringing with these calls. Late in the evening is fair game for them to call. It is totally out of hand and something has to be done to stop this invasion of of our privacy and the right to a peaceful existence.
Joanne	Marietta	GA	I received 10 calls in three days from the same "caller" who used a different number on my caller ID. You can't tell them to stop because if you answer you can't get to a real person. I also would like political calls to be eliminated.
William	Pacific Grove	CA	I get 2-3 robo calls every day on my land line. Most don't just hang up. I have stopped answering most calls from numbers I don't know. Please stop these. I have just started to get a few of these calls on my cell phone. Make the cell phone carriers give their subscribers a way to block these call. Thnak you
Hilarie	New Haven	VT	Stop them now
Tracy	Centennial	CO	I work hard all day talking to people on the phone. These people want to speak to me. I don't call them. I also do not call them after they go home from work, or when they are in their car or out to dinner. Please, follow my lead. Thank you.
Karl	Jacksonville	FL	Why should I have to take calls from people I don't know or want to know? I should not, of course! I don't have to answer the door to strangers, so why should I take calls from strangers! It is an invasion of my privacy! Stop it!
Angela	Aurora	CO	No robocalls

Judith	Scotia	NY	I get bombarded by robocalls on my cell phone and on my home phone multiple times a day even though both numbers are listed with the Do Not Call list and Nomorerobocalls. One company even stole my home phone number and caller ID. I know because I went to answer my home phone and saw I was being called by my own number. I called my phone provider to report that my number and ID were being spoofed and my provider said there was nothing they could do to protect me. I can't tell you how many cruises I've supposedly won. I can't tell you how often I've been offered a better deal on my credit card if only I would press 1 to talk to an agent. All these companies are criminals and only the FCC can stop them by outlawing all robocalls. Thank you.
Harvey	Seaford	NY	I HATE getting robocalls to my cell and want it stopped IMMEDIATELY.
Norman	Happy Jack	AZ	Robocalls are unsolicited and unwarranted. They should be outlawed.
Robert	Chula Vista	CA	ATT makes no attempt to solve this problem. They are bullies. They make money selling phone service to Robocallers and that is all that matters to them.
Barbara	Healdsburg	CA	We are seniors and we dropped our land line because of robocalls. Increasingly we are having more and more of these unwanted calls on our cell phones. Many are for our adult son because of his repeat hospitalization so. Please stop and control these companies. Thank you.
c	hancock	NH	We've had enough of this. These calls come in relentlessly. They disrupt our evenings, our conversations, our lives. YOU can do something about this! No one wants to be harassed by these mindless boobs, day after day. Can't you step up to the plate and stand behind the millions who are asking you for your help?
James	Nevada City	CA	Very annoying and a waste of valuable time. Please take action!
Jane	North Tustin	CA	Please stop the robocalls to cell phones. They are an outrageous invasion of our privacy!
VM	middle village	NY	no robo calls
david	chatsworth	CA	I rely upon my cell for emergencies only since I am disabled. Robocalls interfere with my safety and cost me charges for calls received, often leaving blank voice messages,.
Carol	Kingman	AZ	No robocalls.
Josephine	Birmingham	AL	The continuous onslaught of robocalls is a violation of privacy. Worse, these calls are often from scammers targeting the elderly. Please put a STOP to this practice.
LL	Mt pleasant	SC	Please ban these invasive unwanted pests from our phone lines!
Michael	Ashland	MA	I agree that: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

k	hemet	CA	please fix the problem of annoying robocalls, even being on the do not call registry doesn't always help.
Elizabeth	Studio City	CA	I am an elderly woman. These calls interrupt my sleep, my bathroom visits, etc. I have signed up to not get these calls, to no avail.
M.	San Antonio	TX	Robocallers have no idea how difficult they make my life. At 85 years of age, I must identify which phone is ringing, then find the right phone, stop what I'm doing to answer the phone on which the caller has often disconnected. I walk with a cane. Let's let these robocallers know they have no right to barge into our lives on a service WE PAY FOR in order to speak with our choice of business associates, friends and family, In the same way I don't want to be buttonholed on the street by someone in my face telling me who he is and what he can do for me.
Thomas	Garden City	NY	Robo Calls are nothing but harassment. Please end this annoying unending aggravation.
Pat	Parsonsborg	MD	We need to band these phone calls! Most of the time, no one talks to you!
Mike	Florence	OR	I'm hoping that there will be a day when robocalls will be history. The whole family receives these robocalls on their individual cell phones and on our phone at home. Please do something about this I'm tired of having unknown people abuse our phones, tired of pulling over on the road to answer my phone to find out it is a robocall. Thank you for reading my response to end all robocalls to cell phones.
Maryann	Radford	VA	It is important that robocalls are stopped to cell phones and land lines.
MOYE	GALLATIN	TN	Robo callers should at least have to identify themselves. We get calls all the time with no I.D.

Marjorie	Rancho Cordova	CA	I am 78 years old. I am severely hearing handicapped and severely mobility-impaired. When I installed a new medical response alarm system, I had to switch from a computer/TV/ phone bundle to a land line in late 2014. I began receiving robocall after robocall. I began a log of them, in 2015. By the time a year had passed, I had documented OVER 1,000 ROBOCALLS ON MY CALLER ID!!!! They came day and night, even on week-ends, even on Sundays. I finally would disconnect my hearing aids to disallow me from hearing the phone ringing. I recall a time when the phone in your home rang and you always answered it because you knew it was someone you wanted to speak with and not some fool trying to sell you something you didn't want, or a scammer attempting to gain information from you pretending to be an IRS person, etc. My hearing disability precludes me from using a cell phone as I cannot hear over them. I have specialized equipment provided me by the State of California for the hearing impaired. In order to answer my phone, I must get up out of my chair and make my way to the land line telephone. It is not easy! In fact, it is a major challenge for me and I LIVE ALONE. ROBOCALLS ARE DEMEANING, TIME-CONSUMING, UNWANTED, UNSOLICITED, UNDERHANDED AND A THREAT TO MY PERSONAL SAFETY AND PRIVACY!!!! GET RID OF THEM!!!! A.T.&T. IS MY SERVER!!!! SURELY THEY HAVE THE EXPERTISE AND KNOWLEDGE TO DO SOMTHING ABOUT ROBOCALLS?????
Jeremiah	Mission Viejo	CA	Please stop robot calls they waste our time.
Barry	Flagstaff	AZ	The use of debt collection robo calls continues, despite prohibitions. The organizations that rely on these calls should be strictly controlled, AND a central database of off-limits cell phone numbers needs to be established and the debt collection agencies forced to abide by this do-not-call list or face severe penalties. Please do not give them free reign, which is what they want. Thank you
Pauline	Columbia	SC	I'm tired of people using my phone line that I pay for to make unsolicited phone calls to me. Please STOP it NOW. The paying public should be considered instead of these obnoxious callers.
Sudhir	Richardson	TX	Robo callers waste a lot of time and negatively impact productivity and are annoying
JANET	LIVERMORE	CA	Please end the robocalls. I am sick to death of them. I get at least 5 every stinking day. Since I have a business, I have to answer the phone. I can't just ignore it. Also, please do not allow debt collectors to have access to ANY cell phone numbers without the owners permission in advance.
Rick	Southwick	MA	We have enough real live idiots calling every day . We don,t need automatic calls !!!
Ed	E. Lansing	MI	Hi, I am on the federal do not call list and I still get calls! I want stronger rules about stopping this abuse.

Donna	Norcross	GA	Please stop them. I have been harassed about a deceased sister's debts being told I owed the money. Then the scam calls come day after day from the same numbers. The no call list is not enforced. I just want the freedom to use the phone I pay for without this nonsense. Some days when they call repeatedly and hang up if don't answer, I feel like a character in an Alexander Dumas novel being slowly driven mad! Please help to stop this!
Steven	Louisville	KY	Stop robocallers from reaching cell phones.
Edwin	Pukalani	HI	I don't want robocalls to my cell phone at anytime. Permission should be granted, by myself, before anyone is permitted to call my cell number. Why should I have my total minutes in my plan be deducted for robocalls? We consumers have a right to determine what constitutes a legitimate deduction of minutes. Furthermore, guidelines should be clear and available to anyone with a cell phone. Please consider the desires of us consumers and assist us in receiving the rights that we need to have. Much aloha to you and mahalo!!!
Paul	Charleston	SC	Create legislation banning robocalls from political campaigns all robocall telephone solicitations for products, services, telephone surveys, etc. via cell phone or land line.
sharon	lexington	ME	stop robo cell phone calls
Lorraine	Atlanta	GA	Please stop robot calls to our cell phones.
Ashley	Adkins	TX	Robocallers should not decide to screen my phone. Our phones are ours to use, to call our friends and family. Robocallers will not give us that choice. Show your love for our loved ones. Stand up to the robocallers.
Charles	Geneva	IL	These calls are very intrusive and need to be banned immediately!
Al	Dade City	FL	1) Debt collection robocallers must notify us of our right to stop receiving calls. 2) The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. 3) The guidelines should be clear and readily available. 4) Cellular providers (e.g., ATT, Verizon, Sprint, T_Mobile, etc.) should be required to offer FREE unlimited call blocking. 5) Cell phone manufacturers should be required to make it easy to block unlimited numbers (e.g., an app on the phone, not having to go to the providers website and having to search for the sub-sub-sub page to do so) 6) Cellular providers should be required to develop technology to stop callers from spoofing the number they are calling from.
John	West Babylon	NY	please no more they are annoying and I'm on the do not call list
Emily	Chicago	IL	Peace is important in everyone's life; I don't want mine disturbed by TOTALY UNECESSARY robo calls. Stop them!

Anne	Wilson	OK	I believe ALL robocalls should be stopped. I continually receive calls wanting to do something about my credit cards. These people are using other people's phone numbers. I have even had calls from my own phone number. I seldom answer calls from people I don't know or from out of my state or even the United States. I have called a few of the numbers back and they say they didn't call me. I have all my phone's on the Do Not Call lists and still get calls. I have even stayed on the phone and tried to talk to the caller and told them to remove my number. Nothing works. It should be illegal.
vincent	Albany	CA	A provision snuck into the federal budget last fall will allow debt collectors to robocall anyone with federal student loans or back taxes. Even if you don't owe money, but a relative does, or if your phone number once belonged to someone who does, you could be robocalled. I oppose robocalls to my cell phone without your permission Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Thomas	Las Vegas	NV	Despite being on the do not call list, these companies continue to ignore my pleas to be taken off of their calling list. I want these people to be fined \$10000 per violation.
Dan	Dalton	GA	At home I can let the answering machine pick up and see if they are willing to actually speak but on the cell phone I don't know if it is a work call or some sells pitch with out answering it. Being on the do not call list is of very little use the same call can come in on different #'s sometimes in the same day.
Robert	Sewickley	PA	These people robocall me constantly, interrupting my life several times a day, day after day. This is more than a nuisance, they are interfering with my life when I keep stopping my activities at home and work for these senseless calls. Please stop this for all Americans! They are robbing us of our personal time.
Jim	Navarre	FL	Continuous calls don't accomplish what they are calling for. They just infuriate the receiver, and waste time and clog up networks. Robocalls should be severely restricted, if not outlawed completely. And penalties should be extremely severe to the perpetrators that violate the regulations.
Florence	Peachtree City	GA	Please stop all robo calls!!! They interfere with my life and what I am working on. I have to stop what I am doing to answer the calls and I am very tired of them!!
Tricia	Pawling	NY	Please do whatever is in your power to end robocalling. It is venom!
Phyllis	Huntingdon Valle	PA	These calls are irritating, annoying and of no purpose other than to try to get my money. I answer them as I am never sure if it is something important. Please put a stop to these robocallers
Tracey	Austin	TX	Please end robocalls to cell phones.

Harry	Freeport	IL	Personally, I'm sick and tired of receiving Robocalls. It is an invasion of my privacy and time trying to block these callers.
David	Akron	OH	I already get more robocalls than actual human calls on my home phone, please nip this robocalls to cell phones in the bud.
Charles	Suffolk	VA	Stop all robo calls
Roma	Provo	UT	End all to robocalls
Freddie	Baton Rouge	LA	I have a mild form of autism, and the ringing of the telephone is very irritating to me--especially when it happens too often. When the phone rings, I want it to be important to offset the irritation. when someone calls to try to sell me something, ask for a donation, or ask me questions about whatever, it really upsets me. I would also greatly appreciate limits on political robocalls--the most irritating form of robocalls.
Donna	Vancouver	WA	This is really and invasion that I don't want to happen to me. I do pay my bill on time and have a phone number someone else had before me. I would be really upset if I started getting robocalls on my phone. This call would be charged to my account and take away minutes from my calling plan. Very unfair to me and shame on them for adding minutes to my bill. As it is I have stopped calls to someone else as I've had this number for some time now but would really resent it if I were robocalled on this phone.
Steve	Orland	CA	I'm opposed to receiving unsolicited robo calls on my cell phone without my permission. I would never sign up from a loan or service from any of these companies and feel that my right to privacy is being violated by these potentially distracting calls.
David	Bellingham	WA	This is such a no-brainer I'm stunned I have to petition for it. Robocalls use up my minutes WHICH I PAY FOR! I don't want any more robocalls and you have the power to make them stop. DO THE RIGHT THING!
Patricia	{rospect	OH	Every call can cost some people money. Some cannot afford to pay for those calls, so they will lose their line of communication.
Henry	Williamstown	MA	Please get these things to stop. They are the most disruptive thing in my life and there is no way to stop it. This is not fun and I have never invited them into my home. Debt Collectors--fine--as long as the only have permission to to pursue the maker of the note.
Jon	Cazadero	CA	No robo calls.... enough...
William	Arlington	TX	I'm tired of junk phone calls with the same number calling over and over at all hours. They want to sell me something or in a lot of cases there's no one on the line
Edward	San Antonio	TX	It think it is imperative that robocalls be ended. They are an unnecessary burden that cost time and money to those being solicited. They should be illegal. The amount of calls are ridiculous and are a useless interruption. I strongly support the complete abolition of all such calls. Sincerely, Ed Howarth

Sheila	White plains	NY	Morning , noon and night. My number previously belong to an irresponsible plumber who o believe 8yrs later still might be giving my number out to people such as bill collectors and insurance agencies. It is on every blasted website for plumbers and I cannot get it removed and believe me I have tried. My number is on lists that get sold over and over again and repopulates websites. And this is a great source of tele # for robo-callers. I often work from home and they call non stop while I am in conference calls! I have complained to Verizon and nothing!!! Fix this it is in your power. It's is abusive!
Rick	Oceanside	CA	We get 10 robo calls a day. Too Much!
K & J	New Port Richey	FL	People are not stupid, and do know that these robo calls can be stopped.
James	Keller	TX	I do not need an automated message calling me on a land line or a cell line! Just put a stop to all of them! They do not serve a useful purpose and when driving my car, I do not need the distraction of a ringing phone with an automated message that serves no purpose.
Christi	Coral Gables	FL	Please put a stop to robocalls, period. If it isn't important enough for the company to personally call, then it isn't important enough for them to violate my privacy. As to debt collectors specifically: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Vickie	LEander, TX	TX	Please push for the strongest rules against robo calls.
Susan	Vulcan	MI	Tired of getting these calls on my CellPhone. OUTLAW / STOP THEM
Danny	Reidsville	NC	NO MORE ROBO CALLS !!!!!
Janet	Baltimore	MD	I don't want robocalls on my land line nor on my mobile, period.
Brent	Durham	NC	Please establish reasonable standards for debt collectors to use in dealing with debtors.
vivian	palm desert	CA	Calls at all hours of the day & evening, interruptions while on another line. soooo sick of it
Harold	La Mesa	CA	Robocalls interfere with daily routines and are an annoyance. Please end them.
Rick	Estacada	OR	I do not wish to receive unsolicited phone calls robbing me of my airtime. Robocalls are an annoying consequence of companies with to much advertising money available.
Noah	Bristol	RI	They are without a doubt the worst kind of call, and that's counting political phone calls! No more!!
B	Baltimore	MD	Please legislate to,stop these incessant ro ovals that never end!
Alfred	Marietta	GA	My phone is my private property and NO ONE should be allowed to invade my privacy without my permission. Please stop these unwanted intrusions. Thank you.

Karen	Fresbi	CA	I am interrupted 4 or 5 times a day by robocalls. Many times I recognize the caller id from a previous call. I don't deserve this. I don't owe money to anyone and I already know how I want to spend my money. What a waste of my time and energy.
Julie	Laguna Beach	CA	Please stop annoying calls.
Donald	Mattituck	NY	Please listen to Consumers Union and millions of Americans and take a stand against robo calls.
Bruce	Edwardsville	IL	AS a retired person, I find all the trash calls for credit cards and unwanted or unneeded sales pitches totally invasive. Thee need to stop.
Evette	Grass Valley	CA	No one should have to pay their cell phone company to hear robocalls. It is distracting and unfair. We have the right to be notified that we can stop receiving robocalls from debt collectors. Friends and family should not be receiving calls for the debtor. Calls and texts should be limited to 3 times a month. Please make sure that the guidelines are made clear. Thank you.
Steven	Nebo	NC	Dear FCC Please stop ROBO calls to cell phones
Lawrence	Glenshaw	PA	I agree that the proposed rules are fair. It would be outrageous for the FCC to cave to spurious debt collection industry pressure causing unfair annoyance and call charges to consumers. FCC, please do your job and pass the rules you formulated and know are right.
Kris	Tampa	FL	I got at least 8 scam robocalls last week!
Jennifer	Charlevoix	MI	Pure & Simple. Cease and desist alllllllll robo calls.
Art	Houston	TX	Robo-calls are getting worse and beginning to impact the use of cell phones as well as landlines.
Fritzie Lee	Dillard	GA	Please no more Robocalls. You can't imagine how stressing that is to an 83 year old to get 3-4 (or more) calls a day where the caller has hung up before I can get to the phone, & the number is not a working number. Have mercy on Senior Citizens, stop robocalls.
John T.	Clovis	CA	FURA, FRESNO UNIFIED RETIREE'S ASSOCIATION, REPRESENTING ~3000 MEMBER/LEGAL CLASS. As chairman, please note that we had our Annual Meeting May 4, 2016. One topic that we presented to attending members was ROBOCALLS/UNWANTED CALLS -- no matter what the source. I will consult the FURA Board, however, i cannot imagine any member or board member that wants any of these calls. when robocalls was placed on a temporary agenda, the whole board agreed that it must be placed on the membership agenda May 4th. Personally, I want these cheat put in jail. Or, I want an easy- to- make complaint that will be acted upon
Laura Ann k	Hartsdale	NY	I am sick of robo calls at dinner hour . Dinner hour should be able to converse with family and friends and not on phone with Verizon .
norman	Bay Shore	NY	I pay for my minutes to use as I want to not to have some Robocall waste my money. A little privacy would be nice, if I want their product I will call them.

Bonnie	Berkeley	CA	I have a home phone, and no one needs to call my cellphone to contact me!
marybeth	columbia	VA	after the legislation congress has passed for landlines and wants to allow for cellphones, i am convinced they hate the american public. i owe no money to anyone yet my phones are bombarded with robocalls. they are by companies that know how to circumvent the do not call list. i receive robocalls up to 10 pm in the evening and and unto 5 time times a day from from the same company. it can range from dead air to long spiel for a product i keep telling them i do not want. and then there are the fraud calls trying to steal my money and identity. i've given up thinking government is of, by and for the people.
Veronica	Coirvallis	OR	I have been experiencing the 800-328-0355 phone calls almost three times a day! I have been experiencing the phone calls from the (727)800-1056 twice a day! It is unacceptable that we have to receive the unwanted robocalls and persistent onew despite our requests to stop calling! We have a very intrusive and overwhelming system of robocalls and the businesses behind it won't stop calling unless there is a strong law against their actions and enforcement of that law. The damage of the robocalls is not just inconvenience and annoyance and frustration; it is dangerously intrusive and it negatively affects our lives on daily basis; there is a psychological damage due to the robocalls and I can testify to that fact! I feel being harassed and belittled by the people who do not have the right to unwanted and unprivileged contact with me via the phone. Please stop our nightmarish robocalls industry from ruining the American people's lives!
Joe	Sherman Oaks	CA	I don't want anyone to call me on my cell phone but those to whom I give my number. Nine out of ten calls on my land line are robocalls or solicitations. I don't want my cell phone to get like that.
Bill	Palm Desert	CA	These Robo-calls are getting out of hand. The Do Not Call list does Nothing, and these idiots don't stop !
melissa	pleasant hill	CA	I hate robo callers! they call me at all hours and I am tired of them interrupting my day.
Paul	Bethesda	MD	Please end robocalls to cell phones as soon as possible. They are annoying and costly.
Richard	Grand Rapids	MI	Enough is enough. Even when a robocall offers an opt-out, it is ignored. Some of these calls boarder on fraud i.e. they start by stating that the call was initiated by an action taken by the person being called, which is pure fiction. The volume of these calls has consistantly increased since I turned 65; an obvious ploy intended to take advantage a person's advanced age (although I hardly think that 65 is very advanced, which makes these call insulting, to boot).

Bettie	Granada Hills	CA	The robo calls make a mockery out of the DO NOT CALL law. They start at 7:00 Am and continue til 9:00 PM. Please make these stop.
Greg	Kent	WA	We get them daily. Should be stopped.
paul	ann arbor	MI	These calls are annoying and scary.
Matthew	Brookfield	MA	My number is on the Do Not Call list but that doesn't stop interruptions from robocalls. I'm self-employed and each time one comes in I have to stop what I'm doing in case it's a customer and study the number to see if it's familiar at all. This needs to stop. I'm paying for this phone for my benefit, not for the benefit of people trying to sell me things with cold calls I've never expressed an interest in receiving. These same people refuse to take me off their lists when asked. As if I might pay them something in the future to reward such persistent irritations? Nonsense.
Louis	Leeds	MA	Stop rob calls to cell phones and land lines
margaret	timberville	VA	Stop robocalls.
Liana	Miami	FL	I have absolutely No Debt and I still receive annoying robocalls about my debts !!!!!
Harold	La Mesa	CA	Robocalls are annoying and a waste of time. Please end them.
Hal	Madison	WI	I have received numerous robocalls on my cell phone. It turned out that all were related to scams. I do not want my minutes used up by robocalls. They should be prohibited.
Shirley	Topeka	KS	Receiving robocalls on any phone is irritating, and this is particularly irritating on a cell phone.
Gina	Dallas	TX	Let Congress take robocalls for one month, then there will be no more problems.
Frederic	Seattle	WA	I continue to be harassed by robocalls from Card-Services and other scam artists despite multiple complaints filed with the Federal Communications Commission. My complaints are not stopping these robocalls under present laws. Stricter regulations are necessary.
Marc	Flushing	NY	It is an invasion of privacy for tonic alleys to access our cell numbers
Suzanne	Mesa	AZ	I find these calls offensive when they are used as cold calling! There is no way to get removed from the call list either! Should only be used as reminders for business you initiate engagement with.
Sheila	White plains	NY	I get calls morning new and night. It is thanks to the A-home plumber hmwho had my # 8years ago and it is on every freakin website for plumbers and I cannot get it removed and verizon refuses to do anything about it. My phone rings at the crack of dawn! Stop this invasion already !!!!!

Richard	Jurupa Valley	CA	I receive one to three Robo Calls a day even though I'm on the Federal "Do Not Call" list. Some are for Home Owners, which I am not. All of these calls are annoying and I want them to stop. What good is it to be on the "Do Not Call" List with the Federal Government if you allow these calls.
Francis	Vail	AZ	We let millionaires and billionaires steal the economy blind, but people who have encountered financial hardship must endure these predatory debt collectors calling cell phones at any and all hours at their leisure? Enough is too much - what next, debtor's prisons? We must have a means to reign these firms in and restore some modicum of dignity and privacy to our citizens. My having a cell phone does not give anyone the right to contact me as often and whenever they please without my explicit permission.
Paul	Cerritos	CA	As a highly selective consumer, I am frustrated by the unending barrage of robcalls that I receive on my landline phone every day inspired of the fact that I have DNC status. The majority of these calls use spoofed numbers so the callers can never be identified if one attempts to call them back for this purpose. As I am now beginning to receive these calls on my mobile cell phone as well, again even though I have DNC status, I am blocking the numbers from future attempts, but the list of blocked numbers is growing rapidly. I have found a very useful internet based app from nomorobo.com that has at least limited robocalls to a single ring on my home phone before it is blocked by the app, but this service is not available for cell phones, at least not at this time. Our right to some modicum of privacy ought not to be so easy to violate and be without penalty for unscrupulous telemarketers. Please do not let this problem become any larger than it has already become on cellphones. It is my understand that the phone companies have the technology that could block these calls if they chose or were ordered by regulatory action to do so.
June	Ridgewood	NJ	These robo calls are going to cause phone rage. I block when I can, but I have limited blocking capacity. These calls rob us of our phone freedom. Please stop them asap. Thank you!
David	Fort Worth	TX	I would actually suggest that "any" robo calls, whether cell calls or land line calls, be disallowed. Too many companies use this form without the enduser being allowed to call it to a halt. We can't even send information to the .gov because the numbers are too simple to spoof. Simply ignoring these types of call is really not acceptable.

Thomas	Plano	TX	Please implement the strongest possible controls on these predators. We registered long ago for the both Federal and Texas No-Call Lists (joke that they have become). As senior citizens we do not like the intrusive nature of these calls and resent their methods. Your help would be greatly appreciated. Since you publish my name with my comments, please provide me the names and states of our elected representatives who amended the budget to permit the increased intrusion of these vultures.
Deborah	Lacey	WA	Hi- I am asking that the FCC to protect our right to privacy by not allowing automatic phone calls. Unless I have formally signed up for a service, unwanted phone calls take up my time and are intrusive. Thank-you for your attention to this matter.
Daniel	York	PA	Please stop the cell phone Robocalls. Also, Stop the robocalls to phones on the "DO NOT CALL LIST" Thank you.
martha	chapel hill	NC	My husband and I are getting robocalls all the time. It is not only annoying but also frightening in case we aren't able to recognize the scam. My sister in law is falling for them. She runs it by us but is again talking to this fund person who is ready to fly to her to collect her \$. She asks my husband if the economy is really going to crash and shouldn't she really put her \$ with this scam. These people make friends of these lonely people and I might be one of them some day.
James	Los Angeles	CA	Unless someone desires a call from a specific industry, loans, sales, roofing, solar or any other enterprise, we should be able to restrict those calls, but whether you have a do not call on your phone or cell phone, we still get the calls and they hang up without leaving a message etc. and it is downright disruptive; please do something about this; I don't want people knocking on my door or calling me without an invitation...
Darin	Memphis	TN	I get 2 or 3 calls a day from numbers all over the country that are either about my credit card or a loan opportunity for my business. I am on a No Call list and I still get the calls. It should stop.
Mchael	Germantown	WI	Please address the annoying robo calls. Allowing the debt collectors to contact cell phones is unconscionable.
Carol	Baltimore	MD	Dear Sirs: I would like to ask that the robo calls stop. They call at all times of the day and they are a real nusiance. Any help to have the robo calls stopped would be a relief to millions of Americans.
Mr. Walton P.	Lehighton	PA	Please prevent "Robo Calls" from accessing our cell phones. In fact, please prevent "Robo Calls" from accessing our land line phones. Robo Calls are an immense distraction and irritation. If we citizens want to contact some organization about a subject, then, that is our choice. "Robo Calls" do not give us a choice; and, they eat into, and waste our precious cell phone minutes and our precious time.
val	st. charles	IL	Just do it!

Sharon	Carlisle	PA	I quit answering my phone AT ALL for several years after being hassled by nasty bill collectors (or their surrogates, or their affiliates...) Now I must respond to calls due to personal responsibilities (all the bills have been paid in full for years. NOW the phone calls are all asking if I have health insurance -- YES I HAVE AMPLE COVERAGE. But I get these calls continually -- they are intrusive, frustrating and Unnecessary. Please stop NOW!
Gary	Raleigh	NC	Please eliminate ALL forms of robocalls! They serve no useful purpose, are a nuisance, and burn up precious air time.
nancy	winnetka	CA	Please do not subject us to this nuisance calling. Thank you
Maureen	Derwood	MD	I get somewhere between 10 and 20 robocalls a week. Please make it stop! Thanks for your support!
jardane	beaumont	CA	please stop ROBOCALLSj
Robert	Newry	ME	Robocallers should not be calling cell phones period; If the call is important enough to make, a real person should initiate the call. It is harassment to call friends and relatives of debt owners and should be banned with heavy penalties applying to non-compliant parties. Robocallers should be limited to a small number of calls, if any, so they have no chance to harass debtors.
Carol	Allentown	PA	I value my privacy and my security. I do not want robocalls from anyone unless I sign a paper authorizing them. An example would be accepting reminders of office visits from my doctor or my dentist and I already sign a paper as to how I want to be notified by Dr's offices. I do not think that I should be subjected to robocalls from ANYONE ELSE and that includes politicians. It is getting to be a very scary world when you can be interrupted any time of the day or night by a robocall. Sometimes the phone rings and there is no one talking on the other end of the line. I have a 92 yr old mother in skilled care so I need to keep my phone handy at all times in case her caregivers need to reach me. By the way when I was visiting my mother today, her phone rang (not a cell phone) and it was a robocall. Really!!! People in skilled care facilities definitely should not be subjected to ROBOCALLS!!!! Please put a stop to this intrusion.....
Cathy	South Deerfield	MA	Debt collectors should not be allowed to make Robocalls to cell phones without our permission
Frederick	Bonita Springs	FL	Stop robocalls now! I get at least 4 per day, always the same ones. It is very irritating. It is a violation of my privacy. It is something that government can stop now. Just pull the communications company's license if they don't comply.
Ellen	Los Alamos	NM	I really resent robocalls on my landline and on my cell phone. Please don't allow them!
Riichard	Lansdale	PA	Robo-calls need to stop for all purposes including political. The only acceptable Robo-Call would be for Emergency Management Purposes Only

Salvatore	Sherwood	OR	We receive Robo calls Daily. We receive them on our cell phones and land lines. Please help.
Jack	Boise	ID	Robo calls are a menace anywhere. They interrupt normal conditions and are unnecessary. I Robo calls to cellphones would also be a danger to the motoring public since some people will attempt to answer the cell while driving interfering with the ability to drive safely. No robo calls anywhere especially to cell phones.
Joyce	West Hills	CA	Your policy of allowing robocalls from Legislatures, businesses, and health care marketing agents is wasting my time. We cannot even take a nap, without being bothered.
Fred	Oak Park	IL	8am to 8pm non stop no call list a joke
Katherine	New York	NY	Robocalls to cell phones are more than an invasion of privacy--they're annoying and we should be able to stop them. Please adopt stricter guidelines for these annoying, sometimes fraudulent calls! Thank you--
Linda	Palm	PA	I continue to receive calls despite being on the Do Not Call list. The calls are from persons or companies that I have no relationship with. If I request to be off their list I am laughed at. They also use names with local numbers to hide their identity. I have even gotten 2 calls which showed as myself being the caller on my caller ID! No calls to either cell phones or landlines!!!!!! Stop them!!!!
Robert	saint louis	MO	please get the robots off my phone.live pests are bad enough,
George	Fort Worth	TX	Mr. Randall Thompson, AT&T has been my wireless and landline provided for many years. At age 86 I still remember the old Ma Bell era which was a heckuva lot easier to deal with. I am SICK AND TIRED of receiving an average of 3 robo calls a DAY. I don't know how often your phone rings, but being a widower, living alone, I don't want to miss calls from my children and grandchildren. But, no, I get a call about my credit card (how do they know I have a credit card?) I get a call about a clothing pickup (which never comes by), I get a call about an auto warranty deal (they evidently don't know that I can drive any more), etc., etc., etc. I always pickup the phone so as not to miss a personal call of value, but 3 robocalls every day is ridiculous. Mr. Thompson, if I had your number, I would call you 3 times a day, but you would sick the law on me for harassment. Why can't something be done about this idiotic invasion of my privacy?
Wendell	long beach	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Rita	HARVEY	LA	I get robocalls way too often on my cell phone. Rachel from card services just about an hour ago. I don't know how they even get my phone number. Please get this issue taken care of. Thanks in advance.
Henry	Tazewell	VA	I believe that robocalls should not be allowed without the permission of the person who has the phone (either landline or cell phone). First, it is a nuisance - especially most suppress their identity on the caller ID, I must stop what I am doing to answer the call, which is annoying, especially when I am expecting an important phone call. And with cell phones, it is worse because the recipient has minutes added to their total phone bill. In addition, it can compromise highway safety in many cases because it unnecessarily takes the recipient's attention to the road. Ideally it this intrusion of privacy should be outlawed, except where express permission is given by the recipient to the specific caller.
Larry	Pottsville	PA	It is extremely annoying and a major invasion of privacy allowing robocalls to interrupt my families daily life. Why should I be harassed through a utility service I pay for?
William	Park City	UT	I have a pre paid cell phone plans with limited minutes. I have to pay for the minutes I use answering RoBo calls. Nation wide that adds up to a lot of money.
Patricia	Kennesaw	GA	I am so tired of robocalls on both landline and cell phone. I have registered with The No Call List for both phones every year. I think it needs to be done every month or more often. They don't work. Also, most of the messages have someone you understand speaking and when you push the #1 butt on to speak to someone, you get someone in a new country. I will be glad to send you all of the numbers that I have received calls from. I need your address. Thank you. Now you are asking for my email address. Are you going to sell that too?
Phil	Ponca City	OK	You know, this is really very simple. We pay for our telephone and cell service. As such, we should be able to block robocallers, and the phone companies should be required to provide us with a simple tool to activate to do so. Since we have to pay for our service, we shouldn't be plagued by people who could care less about "Do Not Call" lists nor anything else in the way of proscriptions. The phone companies and cell services make loads of bucks, all you have to do is look at their stick. The Commission should REQUIRE them to provide a blocking service for those of us who don't want to be inundated by BS calls at all times of the day and night. After all, most phone and cell service is not a government give-away!
James	Napoleon	OH	No Robocall to cell phones. If I want to make a purchase I go to the store. I don't need people call me/

Lawrence	Norwalk	CT	As someone who is afflicted with 5-10 unwanted robocalls daily to my landline, and another 3-5 to my cell phone, I would like to make an impassioned plea to the FCC that they NOT allow robocalls to be made AT ALL to cell phones without explicit prior authorisation from the cell phone user/owner. Nearly all of the robocalls I receive are from scammers - irrespective of whether they're pretending to be from the IRS or Microsoft, or alternatively pushing some shady credit card deal or questionable charity. I am simply fed up with these calls. IF, however, the FCC intends to allow debt collection companies to call cell phones, please ensure that: - the debt collectors notify us of our right to stop receiving calls - the number of allowed calls or texts is limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - the guidelines are clear and readily available
Michael	Lexington	KY	in the past 2 hours I have received 2 robocalls on my cell phone from unwanted sources. That is just a sampling. Please, PLEASE, PLEASE, PLEASE make these illegal.
Robert	Leland	NC	We would like our privacy back. I receive 2 or 3 Robocalls a day on my cell phone. Some are obviously fishing for confused Seniors. Please end this practice.
John	Ellington	CT	I understand the need for companies to make a profit and also feel that those companies should also respect our right to privacy. Rather than find the loopholes that allow the companies to harass us, they might do better to consider becoming known as one of the first companies to forgo using robocalls altogether. I do have a tendency to remember those that annoy me and it only makes me stay away from the products they are selling. Perhaps seriously exorbitant fines for offenders might help curb the abuse.

Julianne	Bend	OR	Most robocalls are scams and the FCC should be protecting Americans from such calls. In the case of predatory lenders ... they have that name for a reason; they prey on Americans, lend at rates that keep people in debt and build the debt to such a level that paying down the principle is impossible because people can't get beyond paying the interest. This kind of usury should be illegal. In the case of debt collectors, there are many Americans who have pre-paid cell phones, or phones with limited minutes and data. Allowing debt collecting robocalls to harass these people constantly is in effect stealing their limited usage of their cell phones. I have dealt with debt collectors who would not leave me alone when my purse and credit cards were stolen. Even though the cards were stopped almost immediately, there were still charges on them. These limited charges were covered by the credit companies, and still the companies that had made the sale kept coming after me personally for over a month until I threatened legal action against them. These people have no scruples and serve the lowest of the lowest and, in my opinion, allowing them to have access to robocalls is morally wrong.
Pamela	Lansdale	PA	The National Do Not Call list is a joke. I have signed up all of our phones and we still are harassed by telemarketers. Please stop these unsolicited , totally annoying phone calls. PLEASE!!!!
Camille	Horn Lake	MS	Please help us stop robocalls to our cellphones. I get several a day sometimes, these calls are unsolicited and annoying.
Kelly	Nokomis	FL	Please block legislation for robocalls.
Al	Novato	CA	It is so intrusive to receive so many robocalls on both my cellphone (at least 4 per day) and landline line (3-6 per day.) With all the other stresses of daily life, this is one that CAN be fixed. So PLEASE fix it for the 10's of millions who would agree with me!!!
Michael	Mooreville	NC	Please, please outlaw debt collectors robo calls. To think that non-debtors can be harassed by these companies is unconscionable. Personally, I would like to see all solicitation robo calls outlawed.
john	Mound	MN	I'm very tired of unwanted calls.
James	Tujunga	CA	Despite adding my cell phone number to the Do Not Call list (and repeated live requests to removed from lists), I continue to get robo-calls to my cell phone. If the caller leaves a message, it eats up my phone plan minutes. If I answer the call by mistake, that also eats up my minutes. That's THEFT. Yet they're also STEALING MY TIME! I didn't ask for these calls. These calls add NOTHING positive or useful to my life. Therefore, the time I waste dealing with them is STOLEN TIME. Please end it. End it NOW. Thank you.

Charles	Augusta	NJ	These robo calls are an intrusion on the privacy of cell phone owners. Some cell phone owners have to be careful of their minutes that they pay for. These phones are private property not public.
Jim	Conyers	GA	Either CALLER-ID should be free or Jyou need to stop these robocalls
A.J.	La Mesa	CA	For many Americans, cellular telephones are their only telephone service; most plans have call and/or data caps. These instruments are also carried with the subscriber virtually all of the time. Personal privacy and dignity must be respected. Every number entered in the National Do Not Call Registry must NOT be contacted by robocallers. Period. Again, as most plans have call and/or data caps, the number of allowed calls or texts to cell phones must be limited; no more than three per month is a reasonable number -- and only to those who directly hold federal debt - not friends nor family members. Finally, guidelines should be clear, unambiguous and readily available.
Jerry	Astoria,	NY	The worst time to get these calls is while I am driving. I have a hands free device in my car, for emergencies. I don't want these calls at all, and neither does anyone else. Stop rob calls.
Judy	West Richland	WA	I don't like to be rude over the phone,but how come they can tie up the phone lines. I have things to do 3-5 calls at times is to much, I ask to remove our number from there list ,, 5 minutes later .phone rings .ask to remove our number don't call again. Lets Get this Stop!
Robert	Sahuarita	AZ	There is not a day that goes by that I don't receive 8 to 10 robocalls on my cell phone and 5 or 6 on my landline. I have been signed up for the "Do not call" list for years, but they just keep coming and are now getting worse! I have never done business with these companies and they are not legitimate charities or political organizations. It is getting to the point where I am considering dumping my cell phone. I have already turned off the ringer on my land line, which I only keep for calling 911 if necessary. PLEASE try to do something to stop this!! If they are using spoofed numbers, try to set up a system where the call does not go through if the number is a fake. Or give us the name and address of the people/companies who continue to flout the law can be dealt with on a personal basis!
Joel	Oakland	CA	Limiting collection agencies' tactics is a small step. Please take it.

Nancy	Boyces Hot Spring	CA	<p>I do not oppose debt collectors trying to call to collect monies owed - if people paid their bills, they would have nothing to worry about. HOWEVER! I am totally opposed to the many, many calls I receive trying to sell me services. When I built a new home, I asked AT&T to transfer the same service I had previously for over thirty years, including unlisted numbers, to my new home. They made an error and listed my numbers as I have two lines to my home. Well, since then, I am constantly getting calls (apparently many from other countries, judging by the accents of the callers) from energy companies, etc. This is an intrusion on my peace and privacy and the sanctity of my home. I called and complained and they gave me a year free from "unlisting" charges. Well, wow. Too late. My number is apparently "out there" and I am being inundated by unwanted calls. I pay AT&T a large monthly bill and they are not providing the quality of service that I pay for by allowing these calls. I cannot BELIEVE that AT&T and the government can do nothing to stop this - the technology is available - USE IT! No one in the USA should be being harassed in this manner and yes, when one of the callers used profanity and vulgarity and was offensive, MY rights are being violated. Where are MY rights to MY home not being violated? I am not in a public place where EVERYONE has rights, the only one to have rights in my home is ME!!</p>
Michael	Laurel	DE	<p>I am inundated with calls each evening, and on weekends. Ignoring does no good, picking up and not starting the voice activation doesn't deter. They get to auto hang up and clear their lines. I don't. It's harassment, and intrusion I don't want to pay for.</p>
Maia	Tustin	CA	<p>Everyone in my household works and drives to get there. And we all get telemarketing robocalls while driving!! I am a nurse and sometimes receive work calls while driving, from numbers I am not always familiar with. I cannot tell you how many times I've answered to a robocall!!!! Stop now Please!!</p>
Mike	Cheyenne,	WY	<p>Rob calls and spam email should be totally banned unless someone OPTS IN. Why should we have to take the time and effort to OPT OUT. That is not the American way.</p>
Bob	Lexington	KY	<p>I believe that the FCC should drive clarity around the issue of debt collectors robocalling mobile devices. I believe that debt collectors should have the responsibility to notify people of their right to stop receiving calls. And that further debt collectors should be severely limited in their ability to call debtors phones. Their family and friends should be excluded from any such calls.</p>

Warren	Mulino	OR	FCC: Please hear me clearly. END ALL ROBOCALLS, on all phones, regardless of source. Debt collection robocallers must notify us of our right to stop receiving calls and then follow through when informed. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available all.
Soren	Beaverton	OR	The robocalls should be stopped all together, not just limited. It's a waste of time and is an invasion time since you don't know who it is until it's too late. The penalties should be enforceable and automatic for any for profit organization - if they can profit from the illegal call, then they need to pay for the invasion of privacy.
Henry	West Palm Beach	FL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Ann	Brooklyn	NY	Sick of all robo calls and telemarketers!! Get rid of all of them!!!
Diana	Danville	VA	Please consider helping to free us from the awful nuisance of robocalls. They intrude on our lives by calling us about things we don't want. I once had the same source call me 32 times in 4 days trying to sell me a computer service I couldn't even use. I frequently get "courtesy calls" offering to lower my credit card interest rate if I act quickly. I don't owe any interest on anything because I pay in full every month. I really wish these callers would leave me alone. I have never done business with any of them and I never will. They waste their time while harassing me. Please do something to end this situation!
william	columbus	OH	these calls always come in while I am eating dinner.They bug the hell out of me !!!!!!
Eric	North Hills	CA	My landline has long been rendered useless by robocalls, and now my cell phone is increasingly under attack by them. I cannot fathom why, if the FCC's mandate has any meaning, the FCC has not already taken strong measures to end the plague of robocalls.
bob	overland park	KS	Please do whatever you can to give the public ways to get relieve from robocalls.
valerie	M,issoula	MT	I am a disabled woman who has a hard time getting to the phone and cant sleep well at night. The phone ringing with these fishing calls should be completely illegal , They interrupt my life all the time for no good reason. Thank You!
Charles	Rochester	NY	I don't pay the phone company for continued harassment 2-4 times a day of my handicapped wife. Do your jobs jokers or do you work for the telecoms!!!!!!!!!!!!!!!!!!!!!!!!!!!!

art	Los Angeles	CA	I pay a lot for cell phone use, and am at the mercy of contracts and fees which continue to rise. Same for my land line. I can't answer my landline anymore--I must "screen" the incessantly interrupting calls, letting the answering machine pick up: people I know, or have business with, will begin to leave a message--and I pick up the phone. Robocalls hang up. It's a burden on me and those who I wish to have call me. Worse, 7 of 10 daily calls are robos. Answering them keeps you on a list that can be sold. Now having been interrupted, my line is tied up and I have to disengage in conversation from a stranger committed to keeping me on the phone to make a sale. I'M PAYING FOR PARTIAL SERVICE because the phone company won't do enough to prevent this degradation of their service to its customers. My CELL PHONE used to be my safe place: only rarely penetrated by a robocall or fee-spoofing ring. However, I was once relentlessly harassed on the phone by brutish Debt Collectors as a result of identity theft. And believe me once is enough. Please DO NOT ALLOW DEBT COLLECTORS ACCESS TO CELL PHONES. I know cellualars are increasingly becoming the majority of accounts and users, but don't make everyone pay for our reliance on them in pursuit of our lives.
Jody	Fresno	CA	As many in my generation are finding it harder and harder to get up to answer the phone at inconvenient times (and often there is no one on the line), I would like to stop all robocalls. We pay for our phones for our convenience and to stay in communication with the world. I think robocalls are intrusive and often interrupt meals. At this point, we are about ready to drop our land line because of the unwanted calls. Please do what you can.
Daniel	Prescott Valley	AZ	My wife has Lyme disease and sleep is a big part of her treatment regimen. We need our phone to communicate with her doctors, so can't just shut it off. Robocalls dilute the whole communication process and make it far less than ideal. If we never received another robocall, we would not be missing anything and our lives would be much improved. Consider it akin to robbery - it robs us of the little time we have left. Please do all you can to curb this spam.
Margaret	Ballwin	MO	I receive several robocalls a day, everyday!
John	Malvern	PA	I get charged for each text I send or receive. I don't want to pay for sales pitches or requests for donations from organizations I don't have an affiliation with.
Joseph	Naples	FL	A society can not be free without privacy and unwanted calls are an intrusion on ones privacy.

Lou	Lafayette	IN	I am retired and the last thing that I want is a robocall. I have lived a responsible life and am not behind on any payments, but robocalls do nothing good for me. Why should I receive and incrementally pay for calls that I neither desire nor appreciate. They are a waste of time and a diversion of my efforts to do good. They represent yet another loss of privacy and that's assuming the call is not from a scammer. Older people have enough difficulties in life without having to deal with this issue. Thank you for your consideration of my comments.
Janet	Colgate	WI	No robocalls should be allowed on cell phones. We have a landline and robocalls are disrupting our lives constantly! The interruptions come at any hour and are more than annoying. They should be outlawed altogether.
Ron	Parkville	MD	Robo calls are annoying at best. Those using them, in general, are not considerate of others. Can also add political robocalls
Martha	Chattanooga	TN	I pay for my phone and should be able to control who uses my number!!! I'm tired of having to block numbers to keep them from calling me multiple times a day about reducing my student loans. I am 62 years old and have never had a student loan!
Susan	Greensboro	NC	I am not interested in what Rachel has to say about decreasing my credit card debt, since I have none. When I try to be removed from their list by pressing 1, it doesn't work. When I use the block calls method, somehow they get through. I will call who I want to call.
Chris	Philadelphia	PA	Put me on the do-not-call list.
Bob	San Francisco	CA	A landline can be ignored, filtered, turned off . . . all without missing important calls because of messaging systems. A cellphone is often more, something that needs to be left on for purposes other than ordinary calls. Debt collection services will not be polite about bugging people day or night every day. There must be strict limits with severe penalties for overstepping such boundaries. We have a right to stop receiving robocallers and debt collection robocallers MUST be required to notify us of our right to stop getting such calls. In addition, any such calls or texts must be sharply limited as to number per month - three - and to whom directed - debtholders and not their friends or family. And PLEASE make these guidelines easy to read and understand, and available to all without difficulty.
Rod	Destin	FL	Robo calls are as much an intrusion as door knockers. This form of privacy invasion has gone on for way too long. It is time to stop this invasive practice. I demand that laws be made to stop this form of harassment.

Barbara	Circle Pines	MN	Please do what you can about stopping those annoying calls that when you pick up the phone there is dead airtime or they try to sell you something you don't need. If I want something I will hunt out the company I want to buy from. I, fortunately, do not have collection agencies contacting me but that must really be irritating to receive call from those people.
Tim	Lebanon	CT	Robo calls are not only intrusive they can be frightening to seniors. ie: "this the FBI' or "your bank account has been compromised". Give us some legislation to combat and end robo calls to land lines and mobile phones.
Teresa	Hamburg	AR	Please do not allow robocalls to cell phones. It can be a nightmare with a land line, but receiving these calls on a cell phone is much worse.
GL	Morgan Hill	CA	Harassment from robocalls is at an all time high, and they cost me money. I pay for all incoming and outgoing cell phone calls and text messages. In addition, I pay a daily fee for accessing my cell phone. My Caller ID only gives the alleged caller's number, so I can't tell whether the call is legitimate or spam or a scam without taking the call or accessing voicemail. We need a free blocking service or system to block all robocalls now.
Wanda	Harvest	AL	n/a
Anthony	Commerce, Twp.	MI	Dear Sirs, Robocalls are an invasion of our privacy & come at any given time of day or night. We haven't the control over what these people do but we've elected you as our government & fully expect you to do the will of the people in these matters. I truly believe the people have spoken & would like these calls to stop & those creating these calls brought to justice & made to pay a high price if & when the rules & law are not followed, Thank you
Tom	Rodanthe	NC	Please pass the strongest possible regulations to end footbaling to cell phones. Thank you
Kerry	Schaumburg	IL	I am really sick and tired of all the calls, "This is Rachel from card services..." And they are from a different phone number every single time.
Richard	Whitwell	TN	I'm sick and tired of getting these calls. I hang up as soon as I hear the 1st hint of the pitch but would like it very much to not have to deal with it in the 1st place.
Lisa	Los Gatos	CA	It's important that debt collection robocallers notify us of our right to stop receiving calls.
Martin	Hagerstown	MD	I'm on the do not call list. I am getting robo calls. Why? What can be done? Please help me. Sincerely, Martin Chamberlain
leonard	norfolk	VA	It's more important to consider your customers wishes and needs which are to not be harassed by incessant robocalls. Enough

HOWARD	OXFORD	FL	PLEASE STOP ROBOCALLERS. I AM TIRED OF THIS HARASSMENT BY SOLICITORS THAT ARE IGNORE THE NATIONAL DO NOT CALL LIST AS WELL AS MY STATE OF FLORIDA DO NOT CALL LIST. THEY CALL MY LAND LINE AND MY MOBILE NUMBER. LATELY I ACKNOWLEDGE THEIR PRESENCE BY ANSWERING THE CALL AND I USE EXTREMELY FOUL LANGUAGE. THE CALLERS OFTEN GET UPSET BUT I AM NOT ABOUT TO APOLOGIZE FOR THEIR LACK OF UNDERSTANDING OF THE PURPOSE OF DO NOT CALL LISTS.
Carol	Plymouth	IN	I do not want robocalls to my cell phone. Please protect my privacy from these nuisance calls.
Steve	Naples	FL	I am on the Do Not Call list for my cell phone but I still get unsolicited calls from entities I have no business relationship with. Please do something to enforce the Do Not Call list.
Darcetha	van buren	AR	I want to add, if debt collectors call the last known number of a debtor, and are told the debtor does not live at that number, they need stop calling. I'm tired of getting debt collection calls, on my landline, for the previous person, who had this number. I tell them they have the wrong number, and the wrong person, and these debt collectors get very aggressive, hostile and threatening. I have to threaten to call the police, and they stop calling.
Mike	Jackson	NJ	It's about time to put an end to these harassing calls with action! Why can't the FCC serve the people?? Just do it!!
Keith	Houston	TX	Nobody wants to be called at all hours of the day for something they don't want.
Ruth	Chevy Chase	MD	I have no interest in someone invading my privacy to yell about things I do not care about. It needs to stop.
Michelle	Media	PA	The Do Not Call List doesn't do enough. I get plenty of calls that have nothing to do with legitimate business. Robothreats should be illegal. The public is tired of corporations having more rights than the individual! Make it stop!!! Or make them give us THEIR cell numbers in return so we can call them at inappropriate times to tell them how irritating they are.
John	Fernandina Beach	FL	I'm sick and tired of the daily bombardment of robocalls to my land line. Now I'm getting a few on my cell phone. Stop it. Stop it ALL! No exceptions for politicians or anyone, under any circumstances except national emergency.
Nancy	Waco	TX	Please stop robocalls to cell phones! Thanks for your consideration.
Elaine	Newnan	GA	Please stop all RoboCalls!
Jane	Cameron Park	CA	My cell phone is for family and emergencies, not for unwanted soliciting.
Phil	Meriden	CT	my cell phone is now being called constantly by robot callers. When I got through to a live person and asked to be removed from his call list, he refused!
Annette	Irvine	CA	Taking so much time, those robocalls interfere with normal business and personal existence.

George	Fort Worth	TX	I'm an 86 year old widower living by myself, and I don't want to miss any calls from my children and grandchildren. If the number of allowed calls or text should be limited to no than three per month, somebody has missed the boat. If my lawmakers had to answer an AVERAGE of 3 calls a day, they sure as heck would put a stop to it. I know they won't do anything about it though. I'M SICK OF IT, AND I WANT IT STOPPED.
Peter	Royse City	TX	I received a robocall on my cell phone while I was driving. To answer it, I would have had to divert my eyes from the road had I not been able to pass the cell phone to my wife. Distracted driving is a growing problem and the cause of many deaths. Allowing robocalls to cell phones that could cause a driver to look down at a phone is an invitation to an accident. Please take action to ban robocalls from cell phones, and indeed, from all phones, and save a life.
Debra	Melvindale	MI	We get, on average, 2-6 ROBOCALLS every single day! We are a retired, elderly couple and my husband has Dementia. These calls are very unsettling for me, but they upset my husband even more when he tries to talk to these calls and gets no response. Please, please, please help us resolve this annoying practice. Several days ago I canceled my husband's cell phone because when he gets these calls he could not understand who was calling. This is causing undue stress in our household and we pray every day that someone will make them STOP!!!
John	New Kensington	PA	They cost me money and they don't care. YOU should care about the public. They come at all times of the day and are increasing in frequency. We need your help to stop them.
Gary	Oklahoma City	OK	Please do everything in your power to stop robocalls. Thank you for your help.
Joe	Walnut	CT	Really tired of robocalls. It's happening several times a day on my land line and has started on my cell phone. I'm very careful giving out my cell number. Hasn't helped. Land line and cell number have been on "Do not Call List" since it started. Most calls seem to come from remodeling companies. Not sure why. Stop this nonsense calling. The calls are unwanted and annoying.
Raymond	Marion	IL	Any excuse allowed for placement of ROBO calls to land line or cellular phones, is one too many! I currently have both my cell and land line phones registered on the Do Not Call List. Unfortunately, it does not appear to make any difference, as the calls keep coming. I can only imagine how that will all increase if any allowance is made to allow ROBO Calls to be made to anyone. The only time I should expect to receive a ROBO Call, is in the case of Code Adam Alerts or emergencies in the area. Our community uses a dialing service to alert residents in the town, of disasters and Code Adam alerts. Stay strong and do not allow ANY group to pressure you into something that you know is not right and will not be lived up to.

Frederick	Upland	CA	Sick and tired of intrusion by daily bothersome robocalls.
Robert	Concord	MA	Receiving robocalls, especially on my cell phone, is annoying, intrusive and expensive. It's expensive because I travel overseas on business quite a bit and every time I get a call i have to pay for it. I resent having to pay for trash. Moreover, when I am not in my home time zone, the calls come at terrible hours. Please do whatever you can to stop these calls.
Patricia	West Bend	WI	My husband and I are retired and in our 70's. Some days we get more than 10 robo calls. This is a huge intrusion. I should add that these are not during election times. They come from a variety of area codes. I'm ready to have our phone disconnected and just rely on my cell phone.
Christine	Oroville	CA	I'm not sure why but it feels like so much more of an invasion of privacy to get robocalls on my cell phone. There needs to be a way to stop/block these calls. I have to pay quite a fee for my cell phone service and it is really aggravating to get these calls. Please set clear guidelines for when they should be acceptable and when they shouldn't.
Elizabeth	Beaufort	SC	I am getting unwanted calls targeting me based on information that must be gathered from my Facebook interest! I have never called these people or these types of businesses from my phone. Based on the fact that they are calling meâ€¦ I know that they have gotten my information from another source. This is an invasion of my privacy. Please, make them stop!
Penney	Dunsmuir	CA	This whole business with these dumb robocalls has to stop. Not only do these calls happen at ridiculous times of the day and night but most of the time the call is about something you have no interest in or you can not understand what it is about.
George	Virginia Beach	VA	All robo calls, commercial and political should be stopped.
Michelle	Portland	OR	A robocall is a machine-based form of harassment. A debt collector needs to spend the money and go to court and file for the money due. A debt collector should not have the right to harass the family members of the creditor.
Gary	Cumming	GA	Robo calls are annoying and you have to help stop them.
Thomas	Palo Alto	CA	I want robocalls to my cell phone stopped immediately. They are an invasion on my right to privacy and freedom to not be disturbed by those persons or entities I have not personally asked to call me on my cell phone.
Connie	Cripple Creek	CO	Every morning I get at least a half a dozen phone call from these fools. As a result I turn off the ringer & I've missed important phone call! I try to keep an eye on my phone, I have it vibrate since I turned the ringer, but I get busy & I don't notice someone called!! Very aggravating!!
John	Omaha	NE	Stop robocalls from political parties and candidates.
Richard	Anacortes	WA	I and my family are so tired and frustrated over repeated robocalls interrupting our days.

William	Summerville	SC	I do not want Robocalls sent to my cell phone. This is a form or harassment, and should not be permitted.
Carol	Hamburg	NJ	They serve no purpose and waste my time and cost me extra money. Get rid of those junk calls.
Thomas	McKinney	TX	No Robocalls
Gary	Waterford	MI	As soon as I get a recording a I hang up and block the number. The calls always come at a bad time but they are not wanted anyway. Stop the noise!!
Sally	Dallas	TX	#NAME?
Susan	Inglewood	CA	We have to screen ALL our phone calls to avoid having to listen to dreck! I am 82 years old and the extra effort to avoid robo calls, is getting harder and harder for me. I DON'T want anymore calls.
George	Morgantown	WV	No Robocalls to Cell Phones, Please!
William	Daytona Beach	FL	We previously signed up for the no call list. It is so annoying getting unwanted phone calls from early morning to evening. Something needs to be done to correct the situation.
Ellen	Drayden	MD	I strongly oppose ALL robocalls to cellphones, including those from debt collection agencies. Debt collectors should be required to inform customers of their right to stop receiving these calls, and should make it easy to opt out. There should be a limit of three calls or texts from debt collectors per month, and they must be prohibited from contacting family or friends of the debt holders. All applicable rules must be easily understandable and clear. Thank you for considering my comments.
Arnold	San Francisco	CA	These robocalls are a disruption while I'm trying to take care of time issue work. No one answers and the call repeats two to three times within 2 hours apart. I consider these calls as harassment and I want something done about it.
Stephanie	Sanbornville	NH	My phone should be for me to receive and make calls to friends and businesses that I wish to interact with. My phone should not exist for robo callers who want to sell me something, or worse, who want to intimidate me. I have to leave my phone on vibrate and will not answer calls that are not from those in my contact list. I would like my phone back!
Tina	New Orleans	LA	Receiving a robocall on our cell phone or our home phone is an invasion of privacy and impinges on our freedom to choose to whom we would like to speak.
David	San Diego	CA	I receive at least six (6) Robocalls daily. Each is a distraction and worthless to me. I am hesitant to answer and tell the caller to desist, because (a) I may get a robot answer, and (b) it would only encourage the caller to call again. The calls are anonymous and many appear to originate outside the U.S. Please stop this invasion of my peace, my privacy and my comfort. Thank you for your help.
Maria Carmen	Oak Lawn	IL	Deptcollector robo callers must notify us of our right to stop receiving calls.

Mark	Pflugerville	TX	Unwanted calls on my cell phone cost me time and money. There are millions of mobile phone owners who do still have a land line and THAT is my published number if you want to give me an unwanted call. My answering machine will be happy to listen. People that I DO want to talk to, I give them my mobile number. So when my mobile phone rings, it might be someone I want to talk to so I need to answer it. It costs me time and money. If I wanted robots to be calling me night and day, I would have given them my number. Oh wait, I did ! It's published in the phone book.
Artie	Albuquerque	NM	how much economic damage do robocalls do?
Jeanne	Castle Pines	CO	Please limit robo calls for debt collection only to those who owe debts, not family and friends. Also, force cell phone companies to screen out robo calls. It is ridiculous that 75% of the calls to my cell phone are from numbers I do not recognize and who do not leave a message.
Francis	Coronado	CA	Robocalls are already illegal in most cases as most cell phone users have registered on the Federal Do Not Call Registry. They cause dangerous distractions as we drive our cars, ride our bicycles or cross the street as pedestrians. Real teeth should be put into the enforcement of laws that prohibit calls to phone numbers that are on the Do Not Call Registry. Repeat offenders should be subject to fines and imprisonment that are sufficiently severe as to create a disincentive to violating the law. Debt collectors should not be able to disturb debtors by phone. We have a court system that can provide them with the relief they seek.
Yoram	Milford	CT	Now they come in with my own phone number. Please get control over these pests.
Robert	Gaffney	SC	STOP ROBO CALLS !!!!!!!!!!!!!!! NO ONE SHOULD HAVE THE RIGHT TO HARASS A CITIZEN.. NOW EVEN I EVEN RECEIVE THEM ON MY CELL PHONE. I DO ON NEED UNSOLICITED CALL!!! DO YOUR JOB. PROTECT HONEST CITIZENS. THANK YOU,
Michael	Albany	CA	Dear FCC Please end robocalling by debt collectors on cell phones. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. Thank You, Michael Friel
Kevin	Marietta	GA	This is a Government responsibility to enforce very strict guideliness with the Big Phone Companies. Stop calling my phone.
Robert A	Aiken	SC	Please stop the unwanted cell calls. I do not have the time for them nor use for them. Calls marked unavailable are a waste of my time. Some calls I get are from myself, how can that happen - my phone calling its self? Please do something for the people not the money makers. Thanks

c	cumming	GA	Stop all these stupid calls. I look at the number and do not answer, but if you are outside, just busy, run to answer--you want to kill the SOBs. If you are not my friend--don't call. If I get a real person, I cause a shrill sound in their ear!
Janice	Arnold	MD	End robocalls now!
Irene	Houston	TX	An opportunity to end the harassment long illegal but endemic nevertheless in the debt collection industry. It is time to toughen the laws, strengthen consumer protection and stop the calls to family, friends and employers. Calls should be limited in number, time of day and plainly state the way a consumer can stop these calls. It's time to help the average American not the average American big business with questionable practices. Don't reward their skirting the laws all these years by now making that behaviour legal. When are the lives and peace of mind of struggling Americans going to be important enough to fight for? Where is the bailout for the taxpayers? Do the right thing. Provide a way for family units to survive and succeed instead of feeding the ever more growing corporate greed.
Rocky	Richmond	CA	Robocalls are aural trespassers in my living room. This should be illegal.
Karen	Sarasota	FL	Please stand up for consumers and adopt strong robocall rules right now.
Carol	Orland Park	IL	Please stop Robocalls. Senior Citizens do not need or want this. It's a hardship when your disabled to get up to answer a bothersome call. PLEASE STOP THIS !!!!!!!
Judy	Longmeadow	MA	Stop Robocalls!
Carol	Kingwood	TX	I average 14 robo calls per month. These calls come in at all times of the day or night, oftentimes appearing from area codes I've used recently. I am on every DO NOT CALL list and yet - they keep coming. One month I had 33 phone calls! ENOUGH...we can put a man on the moon but can't seem to stop a phone call or enforce regulations we've already put in place? And you wonder why Donald Trump looks good to voters...not me personally but he's getting there!
Roger	Kempton	PA	How can you allow these people invade our privacy? Our phone rings every half hour or so from callers we do not want to speak to.

cody	westminster	CO	<p>I can take care of myself (for now) but my father isn't so lucky. Currently he is still in his home, and doesn't need to be moved elsewhere for care.</p> <p>Unfortunately, I can't screen his calls while I'm away at work. I can't begin to tell you how many calls I see on his caller ID when I get to his home and how many come in while I'm there. And I'm sure those numbers will increase the more calls he answers. This, of course, leads to stacks of mail coming in expecting him to send them money the probably said he would. We've taken away his credit card, and being on a fixed income, there is no way he can possibly handle all those "contributions" and other sellers on the robo-end of the call. Put an end to all this.</p>
Guy	Fayetteville	NC	<p>The FCC is supposed to be the watchdog for the citizens. They have completely failed in not stopping unwanted calls, especially robo calls. Please take action to eliminate this problem.</p>
Adrian	Albuquerque	NM	<p>I have been receiving calls like this for a medical bill for 3 years that was not processed properly through medicaid which was the medical facility's fault not mine. After several calls to the facility they ignored my proof & turned my bill over to an agency which calls my home frequently even though they have been given the same info as the facility. If they called my prepaid emergency cell I would be out of minutes in no time. I had also recently made the mistake of applying for a small loan to assist with closing costs on a new home. The amount of loan & the amount of interest offered was ridiculous so I chose not to accept it. They shared my info with every predatory lender & shady company out there. I am now receiving emails & robo & human calls several times daily offering me this type of loan from every company out there. Regardless of how many I have told I am no longer needing a loan - the calls continue. Today we changed our phone number of 10 years as a result. I can not even imagine if I actually took one of their offers... This victimizing needs to stop.</p>
Ted	Silver Spring,	MD	<p>We are tired of having our privacy invaded by robocalls from a variety of oc companies and organizations. This should be brought to a stop. It an in invasion of privacy.</p>
Frederick	San Diego	CA	<p>I use my cell phone sparingly and have been bothered and annoyed by the increasing frequency of this kind of call. Please do the right thing and make them stop. Thank You.</p>

Susan	Flat Rock	MI	getting calls during the day from solicitors, while sleeping, after working midnights sucks. i block the numbers, but they call back with almost the same number. i understand people have to work but i don't harass people while they are sleeping. i also suffer from insomnia, so after the rude awakening, i'm up for 2-3 hours, fall back asleep again, to have the same people try to sell me a warranty for my car, or an alarm system for my house, ect. i already have a camera set up at my house and i have a warranty on my car. after a crappy day of disturbed sleep, i have to go to work, when they go to sleep. not cool man
Linda	Danvers	MA	Every Wednesday at around 11:30 pm DST I receive half a robocall to my cellphone as a voicemail. It's always either a second of dead air and then "Thank you and Goodbye" or half a message about loan rates. They leave no number I can block. I have spoken to Verizon and they tell me without a number they can do nothing except to block all calls with number withheld. That would include my doctor's and dentist's offices as well as any emergency call. This has been going on now for over three months.
Gretchen	Warrenville	IL	I purely detest having my life interrupted by automated telephone calls! I don't have debt collectors calling me, but I seem to attract everybody else in the world. It happens nearly every day. If there is any way to make them stop, PLEASE do so!!
Thomas	Shelby Township	MI	Their must be a way to stop these calls!!!!
Jane	Casper	WY	I am tired of receiving robo calls. They interrupt our dinner hour and continue even after we ask the caller to refrain from calling us again. The "members only" calls continue from another number after we ask for no more calls. We need to answer our phone due to aging parents who may need medical care and believe these calls could be controlled if our legislators would take some positive action.
Michael	Alta Loma	CA	The guidelines being considered for debt collectors contacting debtors on their cell phones are fair and just for all involved. It is an embarrassment - and an outrage - that business cannot operate in a civil manner and must have restrictions and guidelines imposed upon them by government to assure that our rights as citizens are protected. The guidelines should include the following requirements: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
William	Temecula	CA	I have had numerous calls from collectors which aren't answered because of caller id. The reason for calling has been corrected by the agency which filed a charge incorrectly.

Daniel	falmouth	MA	I am getting more and more annoying robocalls on my cell. I am in full support of strict guidelines to limit all robocalls.
Judy	Lancaster	PA	Stop Robocalls period! They are disruptive and infringe on people's lives and privacy.
carol	haverhill	MA	I pay for both a landline for conducting business and a cell phone for friends and family. I don't want business calling my cell phone.
Gary	Murfreesboro	TN	Not only are these scam and robot calls mostly illegal and terrible annoyances, they are also ruining our nation's phone service. Require phone companies to at least give consumers the option to opt out. Caller ids and call blockers help but very little. These criminals spoof the id and have access to more numbers than can reasonably be blocked. NoMoreRebot technology works pretty well on robos but is not available for cell. Stop these stuff right now.
Elizabeth	Ann Arbor	MI	Please pass legislation to stop robo calls. I receive them daily and it is a violation of my personal time and privacy
Sian	Columbia	MO	To whom it may concern: Robocalls to my mobile leave me open to hackers who are going after my information. It's gotten so bad that unless my phone says the call is coming from my contacts I can't answer it. I lose some important calls because of this. I would appreciate you acknowledging my situation and stopping the robocalls in their tracks. Regards,
Marion	Casper	WY	We pay for good service and this is not the way customers should be treated. We don't want robocalls!
James	White Plains	MD	Unless and until the company robocalling me pays my cell phone bill, they DO NOT have my permission to send texts to me. Put me on a Do Not Call/Text List.
Colby	Thompson	OH	I have to unplug my phone line to sleep after a night shift, otherwise it rings repeatedly. This crap has got to stop.
Alan	contact to use	CA	Chase bank filed a foreclosure against me even though I sent Chase Bank every mortgage payment on time and in full. They broke into the property and stole things, admitted it and in a recorded statement, agreed to pay for it all and then filed a foreclosure to avoid paying me. I have received literally hundreds of robocalls since then. One robocaller has called me at least 50 times and won't stop. Not one is a collection call and all are just trying to sell loans. I don't need a loan. And if I did, their type of loans would certainly not be the type I would need. It constitutes harassment and with all the phony telephone numbers, I can't stop them. Please stop all robocalls. If a human being isn't important enough to the caller to use a human being then the call isn't any more important to the receiver. The rest is just legal or illegal harassment.

Caryl	Webster	MA	Robocalls interrupt my day at least 5 times per day. I'm all set with student loans (don't have any), home security (already got it), can't get solar panels on our home (too many trees), don't need another credit card(no matter what rate they spew out of their mouths) and more that are just endless. We have no power to stop them any other way. Do this for everyone!
Nancy	Brighton	MI	Please let's stop this unwanted intrusive invasion into our private lives. This is particularly troubling when one is waiting of an important call in cases such as job hunting, medical concerns, etc. Just another brick in the wall we are building of greed and lack of concern for others.
Justin	Idaho Falls	ID	Dear FCC, Please add strong regulations to end robocalling. Robocallers need to Notify me of my rights to stop receiving calls. The number of calls and text needs received in a month should be limited to 3 or less. -
Peggy	Branford	CT	Please adopt strong robocalls rules. It is not fair for anyone to have to get calls from people they don't know. Personal cell phones should not be targeted for such abusive calls from anyone. My cell phone is private and everyone deserves the right to privacy. Loopholes should not be allowed to be included in other bills. I have the right to give my number to only those people that I want to have it, and no one else should be calling me.
Dennis	Albion	MI	More of a nuisance if the call is misdirected - ie, mistaken identity. Can't stop this menace. Eliminate it,please.
Nancy	Santa Monica	CA	I am being driven crazy with probably 10 different calls per day. This has to stop before I have a total nervous breakdown.
Robert	Bastrop	TX	I do not want robo calls on my cell phone. Tired of getting calls everyday from Canadian pharmacy. I did not solicit these calls. I do not want any robo calls of any kind. Please help us
Jerry	Hickory	NC	Stop all Robocalls to Cell Phones
Daniel	Idaho Falls	ID	Letting debt collectors contact me on my private device is legal harassment. The voters should watch who votes for these kind of bills.
Fidel	Atlanta	GA	Enough is enough
David	Ramsey	NJ	No one likes getting robocalls, but getting them to your cell phone, where you end up paying for the incoming call, just adds insult to injury
James	Chapel Hill	NC	End the robocalls now
Twila	Grangeville	ID	no robo calls.
Alan	Sutton	MA	Robocalls and robocall messages interrupt my work day, adding unwanted and unneeded minutes to my cell phone usage. They are a nuisance and are unfair to consumers. Stop robocalls now!
Daniel	Fresno	CA	According to any deaf user device using VRS and TRS. Robot caller will not work, robot caller do not have the function to be patience to wait for an interpreter to relay the calls. Robot do not have the concept as human trail error while making the calls.

sandra	louisville	KY	Please help regulate these annoying robocalls to cell phones.
Mohammad	East Brunswick	NJ	Stop Robocalls which are quite irritating.
Kelly	Seattle	WA	I urge you to make available to the general public a way to stop receiving robo calls on a PERMANENT basis, for both land lines and cell phones.
Clifford	Dennison	OH	I've been on the no-caller list since it's beginning. Now, they are pounding my cell phone. These calls cost me! Please stop them and make them pay us for slimming our phones! They are running up our bills.
S	Berkeley	CA	Everything possible should be done to eliminate robocalling, and to make it possible for individuals to prevent them
Wayne	Albany	LA	If unsolicited phone calls continue, perhaps the calls should pay for the use of personally owned telephone equipment. I suggest a fee of \$5.00 per minute. This could be applied to monthly telephone company fees.
ruben	San Diego	CA	Sales persons are taking my time and they are mostly robocalls.
Annick	Bonner	MT	It is shocking that debt collectors and then perhaps politicians or anyone else can access our cell phones. Privacy matters. It is your job to protect it!
Donald	Delano	MN	Please do not allow robocalls to dial my cell phone for any reason. They are incredibly annoying and they cause me to use my minutes.
Linda	Arvada	CO	STOP ANNOYING ROBOCALLS!
Charles	Rogers	AR	Annoying
Robert	Palo Alto	CA	We have been on the Do Not Call list since it was established, and we still get three to five robo calls or calls from companies trying to sell us products or services every day. In the past I've complained to the FCC with dates, time, and phone numbers (and names if known) of the callers, but nothing has happened and I get no FCC notices of any actions taken against these callers. The system is broken, and the FCC must act to fix it.
wayne	ashland	OR	I strongly oppose robocalls to my cell phone without my permission: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available Thank you for reading my comments... Wayne Kelly
garry	Pleasant Hill	IA	I am tired of wasting my time with these robo calls. they have to stop
Robert	Franklin	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Larry	Hope Mills	NC	I would appreciate it if you would STOP ALL ROBOCALLS and put a STOP TO TELAMARKETERS in general. I do NOT appreciate getting calls unsolicited and unwanted all hours of the day & night. I signed up for the no more calls. GOV. It has NOT WORKED. Please HELP !!! Stop all calls. Keep our privacy private. Only you can make this happen !!!
Suzanne	Chicago	IL	I get robocalls on my landline and my cell phone. It is totally maddening as well as just plain invasive. Those calls seem to come at the most inopportune times and interrupt business calls with the sounds made by the incoming call. I have both numbers listed (and updated) on the Do Not Call list but that seems to be worth nothing at all, unlike what we were promised. As this is an election year it is even WORSE than usual -- and should be stopped. The phone companies don't seem to care but hopefully the government can put an end to it.
Daryl	Valrico	FL	It is past time to take care of this problem of nuisance calls to cell phones. Show us that you are earning your keep by giving the public the tools to end robocalls.
Don	Groveland	MA	Please end all Robo calls the land line & cellphones. Thanks
jim	Pueblo	CO	Please eliminate annoying , disruptive and intrusive use of my personal communications systems access!
Margaret Ann	North Chesterfie	VA	I have to keep my cell phone turned OFF at all times unless I am actively using it for an outgoing call. In addition, I have set voice mail to say "FULL" so no messages can be left. I did not choose to have a cell phone under these conditions.
Bob	Charlotte	NC	Robocalls to my landline and cell phone are very annoying and serve no legitimate purpose as far as I can tell. I get at least one call every day and often more, from some caller ID that I don't recognize. It usually shows some city and state on the caller ID. Do you have the power to stop these shady calls? If you have the power, please exercise it and make life better for us all by putting a stop to the robocalls.
stephanie	Las Vegas	NV	Please end robocalls! The public hates them and the FCC should serve the public. Thank you.
Robert	San Diego	CA	People should be given the means to block all robocalls to any or all of their phones. Those frequent calls spoil a big portion of my life.
Ross	Topeka	KS	I have my cell phone for MY convenience, not for the convenience of robocallers! I do not like unsolicited advertising calls.
Fuad	West Dundee	IL	Stop Robocalls! They are an incredible burden.
darlene	SCS	MI	annoying!

Donald	Toledo	OH	My cell number isn't even listed and I still get robo calls from unknown numbers. Since we use Consumer Cellular we do not have unlimited minutes in our plan having only what we really need. These annoying calls eat into our bucket of minutes. The federal government should be stepping in and regulating against this. Though I fear if they enforce it as well as they do the "Do Not call" list it really won't matter. We are registered on that list for both cell numbers as well as our landline home number. We get the telemarketing calls constantly from the "you qualify for... to just about anything. Not sure what the point of the list is if it doesn't stop anything. Would really like to see the "Do Not Call" registry enforced and violators put out of business or making the fines so high that it discourages violations. Most telemarketers of any size look at the fines as a cost of doing business and are not deterred by them.
Fred	Roseville	CA	These robo calls are even more frustrating for cell phones than they are for wired phones which at least can be identified with caller ID service. They also are charged against your service adding insult to injury!
Paula	Bloomington	MN	Robocalls are a dirty business period. Guidelines should be clear and readily available and there should be strictly limited to those directly holding federal debt, not to their friends and family.
Mark	Aurora	CO	To the FCC Chair and Members: I urge you to exercise prudence in controlling Robocalls to cellphones. For example, 1) require debt collection robocallers to notify us of our right to stop receiving calls 2) limit the number of allowed calls or texts to no more than three per month, and only to those who directly hold federal debt - not friends and family 3) require transparency - the guidelines should be clear and readily available Thank you for considering my opinions.
William	Chesterfield	NJ	It truly amazes me that we can put a man on the moon, cure horrible diseases, and the government has the ability to wipe out an entire continent with its nuclear arsenal, but we cannot control or stop scammers preying on seniors, and anyone who falls for their non-stop thieving scams via the telephone!!!
Dennis	Thatcher	AZ	I own my phone. I pay for the service to use it. It is for MY use and mine alone. It is not for some jackass chit trying to sell, beg, scam or lobby me at any hour of the day. Stop this Robocall crap. Protect me and not the damn grifters.
Joyce	Miami	FL	Receiving 5-6 robocalls a day at all hours is annoying!!
Alberts	Ellington	CT	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family

Therese	Whittier	CA	Recently I witnessed and was first responder on a car accident in which I had to communicate back with 911 - While answering (what I'd thought was) a call back to be from 911 regarding whether more ambulances were necessary and the status of the accident, I received a robocall putting delay between the help at issue! Unbelievable!
Stephen	Aliso Viejo	CA	Please FCC Please: No More RoboCalls to land lines or cell lines!! Its an epidemic and its not right and its not fair! These endless calls are so incredibly annoying! Thank You!
Jason	Detroit	MI	Some people have minute phones and wasting them answering Robocalls is not what people want
Mary	Vinton	VA	Thank God for caller I.d. These Cretins interrupt meals. They never stop-- early morning, large at night. I no longer answer the phone unless I recognize the caller.
William	Port Angeles,	WA	End all Robo calls !
Carol	Azle	TX	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal deb-not friends and family The guidelines should be clear and readily available.
Darrel	Shamokin	PA	Please find a way to stop these annoying and unwanted calls at all hours of the day and night ! The ability of this access only opens a path for scam artists to access people of all ages especially the trusting elderly !
Vern & Jeanne	Westlake	OH	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Ashley	Virginia Beach	VA	I find robo calls most disturbing during my quiet time This includes marketing and poloticans
Ted	Hillsborough	CA	We often get 5 to 10 calls a day. Robocalls are so annoying that we often do not answer our phones thinking that it is just another robocall. This means that in an emergency, we might not answer our phone. This could be dangerous to us and to whomever is calling.
Cholton	lexington	SC	Our phones have become a continuous link to our world. To have a robotic call interrupt me, may endanger me if I am driving; it may interrupt any of a thousand things that are important to MY day. The robotic calls invade our phones--just as burglars do homes--uninvited. And they steal something precious from us--time.
ed	new philadelphia	OH	Please promote a law and/or policy to eliminate robo calls of all kinds. Thank you
Frank	Hobe Sound	FL	Stop all robo calls to cell phones and home phones. PLEASE!!!
tim	louisville	KY	Robocalls cost me money by wasting minutes of my plan
Leslie	Hollywood	FL	Ill

Jo Ann	Leander	TX	Please stop all Robocalls.
Yvonne	Kinmundy	IL	Collectors & Solicitors don't bother to find out if the number they are calling actually belongs to the party they want - numbers are re-cycled by the phone companies and if you get a number that used to belong to a debtor, you're the one harassed! Being on a "do not call" list, like Illinois has, does not seem to matter to many businesses. They don't buy the list as they should. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Karen	West Deptford	NJ	My mother has told this one company that she did not need their service and has asked them to stop calling. They call her at least once a month and sometimes weekly for the past year or so. It has gotten to the point that she screams at them to stop calling. It's too much for an 80 year old lady. My husband even answered a call for her and asked them to stop calling and to take the phone number off the list. But they still call. And if you ask for a supervisor they hang up on you. It should be against the law. They call on house phones and even cell phones. I get calls on my cell phone everyday from two different numbers that are trying to sale something or a service. It's distracting for me at work. On my way home from work, I can hear my phone ring. While I don't answer it, I know there are others out there that do. Some states are holding people responsible for texting someone who is driving who then gets in an accident. So should the companies and advertising agencies of Robo calls. It's distracting for those who are driving and at their work. I hear some older ladies that get very concerned with information about a call they received. And it is because how the information is presented to them. It's deceiving and twisted. It has to stop.
Emily	Ann Arbor	MI	Please eliminate robocalls from personal cellphones
John	Ivins	UT	Stop robo calls
Jay	Elk Grove	CA	Enough already! These calls are not good for my blood pressure,
Mary	South bend	IN	You used to work for the people; you used to mean something. Show that you can still be a force for good.
Ronald	Evanston	IL	PROHIBIT CELL PHONE ROBOCALLS. Bad enough I have to see and hear pervasive advertising, but to have to pay minutes for it is disgusting. I control my cell phone usage by limiting who and why people get my cell phone number. Robocalls take away my control and choice.
Wayne	Albany	LA	I don't like the fact robocalls use my cell phone to conduct business without my authorization. These calls cost me money as well as being irritating. Additionally, text messages should also be banned because these also cost me money. To sum up, these companies are using my equipment without my permission.

Judy	Mesquite	NV	Robocalls continue to be a nuisance even if on is on the do not call list. Particularly offensive are the political robocalls. I do not want them anymore than any others. It is a travesty of the do not call list to allow political robocalls. Stop this immediately.
Jane	Portland	OR	I am 73 years old. I receive at least one Robo call a day on my landline and infrequent calls on my cellphone. I'm sure I'm targeted because of my age. While I'm able to get to the phone, I'm sure many seniors are not. They risk tripping and falling try to answer the phone. These call are from crooks -- telling me the IRS is after me, I'm about to be arrested, etc. This is just plain harassment. For those who fall for these cons, it's must worse. The FCC must do what it can to stop these calls.
Johnny	Tyler	TX	THIS IS A PAID FOR SERVICE AND TO ALLOW ADVERTISING IS ROBIN THE CUSTOMER OF HIS PRIVACY. YOU SHOULD BE ABLE TO OPT OUT OF ALL ADVERTISING OR RECEIVE A DISCOUNT IN PROPORTION TO THE AMOUNT OF ADVERTISING.
herb	Mt Pleasant	SC	recently my mother in law was on life support. I.m on a ladder replacing a burned out light bulb and my phone "rings". I literally drop everything to answer what I am sure is the final call--guess what it was rachel from credit card services. Only some skinned knuckles.
Kirk	Mountain Home	AR	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Donald	Matawan	NJ	It is totally wrong for people to pay for cellphone service in order to keep in touch with family and business associates and to be subject to the irritating Robocalls. Now is the time to put an end to this abominable practice.
Gary	Del Mar	CA	Please stop the day after day calls from the same people. Five to ten calls per day is an invasion of my privacy.
Ronald	Omaha	NE	I object to robotics calls costing me cell phone minutes and disturbing my life and violating do not call request
David	Ann Arbor	MI	People have a right to privacy in their homes. I can't even take a nap due to the nuisance calls, let alone get through dinner. They ignore the no-call list. Every time I'm interrupted like this, I think of Congress and their inaction.
Mark	New Lenox	IL	Robocalls placed by debt collectors and mass marketing callers will make cell phone users lives miserable. Cell phones will be ringing non-stop making them another task to be dealt with during the course of a day. One the great benefits of having a cell is not being inundated with useless calls. Please don't let Robocallers have their way and destroy the privacy and peace that cell phones provide.

Kathi	St. Paul	MN	I've had to hire an attorney to end harassing calls from debtors. I am talking about SEVERAL calls from the same collector PER MINUTE! The reason for this is ZERO enforcement and a negligible penalty if by some miracle they are caught. In my case law evidently applied to me but not the debt collector.
Dara	Sacramento	CA	I never used to get so many sale calls on my cell phone but over the last year it seems to be increasing. It is a great annoyance as some call at 8 am on the weekend.
Keith	Rescue	CA	Cease all robocalls
Aspen	Glendale	CO	Please stop allowing companies to use automated robotic service to make calls to us humans, over and over, it's an invasion of our privacy, it's just down right annoying.
Mark	Tenino	WA	Plz stop the most annoying and ridiculous harassment by device!
paul	Paradise	CA	if the want to speak to me so bad,Why dont they come to my front door so I can blow them away ????
Robert	San Jose	CA	I receive more than a dozen robocalls each day on my landline. They are a nuisance, a distraction and a time waster. Don't let robocalls get to my cell phone. Take action now to eliminate this possibility.
George	Patchogue	NY	It's bad enough to be inundated by "Robocalls" on our home telephone, that we were forced to get a phone that displayed the incoming number. And now we are getting those unwanted numbers on our cell phones. That is too much and we want it to stop. No Robocalls on cell phones!!!!!!
eve	lafayette	CO	stop all robo calls
Brian	Auburn	AL	stop the irritating and expensive robo calls.
Denise	Rockaway Park	NY	There are several steps that could help to push this in the correct direction: The direct phone line of the caller MUST be unblocked, so that the "callee" would have the SAME privilege in returning the call. Be sure that ALL return phone calls are made at the dinner hour with NO Voice Mail capabilities. Paper or email requests, ONLY.
Richard	Quinton	VA	My privacy is being destroyed by companies that don't care one whit about imposing themselves into my personal space. I am very much in favor of strong restrictions on robo-calling, including an outright ban.
D.	Bellingham	WA	QUIT FAVORING BIG BUSINESS AND REAPING THOSE BENEFITS - PROMISES OF PERSONAL BENEFITS/ENRICHMENT, JOBS AFTER LEAVING THE FCC, AND JUST FAILING TO DO THE JOB IN AN HONEST MANNER THAT TAXPAYERS PAYERS PAY YOU TO DO! OUR GOVERNMENT IS FOR THE PEOPLE - start representing America's people in an honest, transparent, and forthright manner. The FCC is another example of why America's people distrust many of their government officials. The FCC ought to be embarrassed and ashamed of their behavior - STARTING WITH MANAGEMENT AND MANAGERMENTS' DIRECTION TO FCC EMPLOYEES. Quit the BS and delays and clean up the FCC now!

Karen	Gainesville	FL	Please stop robocalls to cell phones. i keep using up my minutes with calls i don't want. They shouldn't be allowed to keep bothering me. I'm a senior citizen and hate being harassed.
John	Corpus Christi	TX	They call all the time and it ,is a distraction and it serves no purpose!
Michael	Nolensville	TN	Please stop this ASAP.
Joseph	Albuquerque	NM	Telemarketing and robo calls should be punishable by death.
John	San Diego	CA	I have had bill collectors calling me twice a day for months everyday asking for a person that I didn't even know. I tried calling to make it stop and it made it worse. Please stop the nonsense.
Debby	Yardley	PA	I completely agree!
Hall	Sterling	VA	Please safe us (you, me & everyone) from annoying robocalls.
Dulcie	Auburn	CA	No more robocalls: no more "phone number unknown", no more robocalls from the same people 3-4-5 times a day. Not on land-lines, cell phones, or computers. If companies want to place cold calls to people, let them hire a living person to do the calls, and pay a living wage to that person! End our misery, please!
Ethan	Bloomington	IL	I get more robocalls than real ones. Make the carriers responsible for their customers' robo allying. After all, the carriers make money from it.
Claudette	Waterford	MI	Stop all robocalls from reaching both my cellphone and my line phone.
gloria	lexington	KY	And they should not be allowed to call a neighbor.
John	Las Vegas	NM	Multiple calls per day - sometimes only 15 minutes apart is really too much. This is where legitimate collection turns into abject harassment. And I definitely do not need this type of harassment when it is not even my own debt but simply someone I know.
Susan and Gle	Indianapolis	IN	Please stop robocalls! Please give us peace!
Frank	Asheboro	NC	EVERY day! Over and over. Do-Not-Call lists only work foe legitimate businesses. Let's put teeth into rules to stop those that continue to disregard rules.
Joanne	Hollis	NY	Debt collection robocallers should not be permitted to harass citizens without clear guidelines. Limited calls only to individuals who are the named principal of the debt should be permitted. Not to relatives or reassigned phone numbers. Lastly there should be an automated immediate way to opt out of these Robocalls.
David	Douglassville	PA	Radio, Tv and newspapers are enough. If you don't think so....see you in November.
Roger	Lawrence	KS	Stop the endangerment and confusion of "Unknown" caller ID messages for people with disabilities. This is not business it is harassment. Regulate robocalls and punish the violators!

Larry	Polk City	FL	There is nothing more aggravating than getting an unsolicited telephone call at an inappropriate time while I'm enjoying conversations with my Spouse, Family, Good Friends or even more concerning while I'm driving. This is a pure invasion of privacy that the FCC can and should end.
Margaret	The Villages	FL	Please stop the nonsense!
Nicola	Largo	FL	These calls act very predatory if one doesn't answer!
Gary	Kihei	HI	No Robocalls to Cell Phones!
Tim	Little Compton	RI	When some are paying by the minute for their phones not having the ability to block these calls is just not right. Most times there is no one there or they say well you call me, because it rings through to a third party.
Suzanne	Haverstraw	NY	Please end robo calls to my cell phone!!!
kimberly	la fayette	GA	No Robocalls to Cell Phones! My Cell Phone is for my family to stay in touch with me in case of emergency but these ROBOCALLS are interfering with that. STOP THE ROBOCALLS!!!!
Eudora	Riverside	CA	We get so many robocalls that we leave our phone on the answering machine. Many of the calls are for people we have never heard of and no matter what you do or say, they keep calling. Many of the calls just call and hang up over and over. So we just check our messages and call people back. Which is inconvenient.
k	brooklyn	NY	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Susan	Providence	RI	Without strict rules to regulate how debt collectors can contact people, abuses will continue to happen. There must be a reasonable limit on how many times they can call each month (perhaps no more then three), they should not be allowed to lie to or threaten people, only the person who owes the money should be contacted, and that person should clearly be told that they can opt out of receiving debt collection calls. Without common sense regulation the debt collectors will relentlessly call over and over again, pointlessly harassing people.
Laura	Beaverton	OR	Please limit or forbid invasive robocalls from debt collectors to cell phones. People who owe debt already know it; harassing them by cell phone can run up charges for no reason to a person who is already having financial difficulties. Protect these people from the predators.
Theresa	New York	NY	As a senior citizen, I want to use my cell phone only for emergencies. Please - stop robocalls to cell phones.
Barbra	Wilmington	NC	Please take the initiative to implement the strongest possible rules against robocalls to cell phones. They are annoying and a nuisance to us all.

Keith	Peck	KS	Robo calls are an invasion of privacy. This is the same as private property rites. It is also a constitutional right like free speech or not to speak.
John	Garland	TX	My cell number has gone through several previous people, all of whom seem to have had problems with paying their bills. I get frequent calls from collection agencies making threats about arrest if I don't pay this or that bill, and there is usually no human on the other end to tell them that I'm not the person they are calling.
Richard & Susan	Agua Dulce	CA	We are sick and tired of having our phone ring, getting up to answer and no one is there or some idiotic computer starts asking questions or pushing some product; recently more often than not, its solar panels. We would like them to stop or have some method of preventing them from bothering us like fast forward on our TV. HELP!!!!
Robert	La Mesa	CA	I would like to see robocalls to cell phones prohibited. I already receive plenty of them daily on my home phone. We pay for our home and cell service and we should have the right to determine which calls that we receive. I believe that we are all tired of running to answer a ringing phone only to find a recording, pushy telemarketer or a hang up. Thank you for listening.
Keith	Loomis	CA	We constantly receive robocalls. It makes us seriously consider cancelling our landline telephone service. All robocalls should either be barred completely or a fool proof system of opting out installed.
kevin	Irondale	AL	Why should I pay for a phone and service to be harassed by it?
Sandra	Omaha	NE	Calls are intrusive, distracting, time wasting and exasperating!
David	Syosset	NY	Robocalls in general are harassment. The practice must end
Garnet	Centereach	NY	I have gotten over 20 robocalls to my cell phone which are all spam in the last month alone. I get calls every evening at home from Robocalls. This is just plain abuse. There is no positive effect from these calls and they are wasting my time. This needs to stop. I have even considered shutting off my phone. I have it for emergencies, but 99% of all the calls I get are spam and garbage. PLEASE stand up and say no more robocalls.
Gary	Hayward	CA	It is bad enough to receive robocalls on a landline, let alone to follow one on a cell. Please consider NOT allowing robocalls on cell phones. Give us SOME privacy.
Stacey	Beaufort	SC	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Arnold	Jax Beach	FL	I am sick and tired of all of these calls. FCC you work for us. Stop this madness.

Sheila	Deerfield Beach	FL	There must be a stop to not only robocalls, but also to unsolicited marketing calls whether it comes from misrepresenting sales calls and or people who claim they are exempt from honoring the do not call list because they are fundraisers for a charitable entity. I know that fundraisers are professional people who earn commissions from raising money with a small percentage going to the charity which they claim to represent. But there are many senior citizens who do not know how to separate the fundraiser caller's rights, which are can be fraught with frauds from the true charity. We need to educate the public more on this distinction.
michael	concord	CA	These calls are sent out by people who could care less about how an intended recipient feels about it . Think of a robot knocking on your door everyday regardless of whether you answer !
Alan	Orchard Park	NY	Robo calls are very disruptive and very annoying. They constantly disrupt our daily routine. I also consider robo calls to be an invasion of my privacy. I constantly stop to answer the phone and find it is a robo call talking about something I do not want. Then I have put the phone down and go back to what I was doing. Before Long another robo call. This happens over and over all day long!
Janet	Adamstown	MD	The FCC has the opportunity to support a clamp down on robocalls. Now is the time Federal Communication Commission. Agree with annoyed Americans and make robocalls stop!
Aloysius	Columbus	OH	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available My phone should NEVER be billed to receive these spurious calls from phony debt collectors, sales schemes, and rip offs.
Donna	Edison	NJ	Please stop robocalls to my cell phone right now! My cell phone is kept on during business hours while I'm at work, solely for the purpose of allowing my family to contact me in case of emergency. My company has a very strict policy about receiving personal calls at work. It is very disturbing to the work environment when my cell phone is ringing all day long. Debt collectors should only be allowed to call land-line phones, which are not going to disturb anyone at work.
Alan	San Jose	CA	Please stop robocalls to cell and land lines. It is a waste of my time and a great annoyance to be receiving such calls.

Noelle	West Palm Beach	FL	Please put strict rules on robot calls. I've had my cell phone number for 8 years, and I still receive calls from collectors looking for the person who had my cell phone number before I did. The calls are annoying, border on harassment, and they continue even after I tell the callers that the person they want no longer has the number they're calling. There should be a limit on the amount of time collectors can continue calling the number of the person they're looking for.
Alan	Westcliffe	CO	Prohibit all calls to cell phones for marketing, debt collection, and other schemes including calls to family members and friends. Calls to my cell phone cost me real money. Robocalls and crank calls are especially annoying when I have to pay to receive them or review a recorded message. Robocalls and unsolicited marketing and debt collection calls to land lines must also be prohibited. They come in at any time of day or night and interrupt my sleep or whatever else I am doing. Caller ID spoofing or using the privacy setting for commercial calls must also be prohibited. The telephone number logged in to my received calls log must be truthful, traceable, and correct.
Zoe	Portland	OR	Please, please stop the robocalls. I only have a cell phone and still get robocalls from commercial enterprises even though I am on the Don't Call List.
Theodore	Chicago	IL	Robocalls to cellular phones cost consumers cellular minutes (money) and time!
John	Lexington	KY	Please help free us of this frequent bother.
May	Albany	OR	Please stop robo-calls. Ad pervasion has ruined the US postal service -that's all that gets delivered anymore; we don't take magazine subscriptions or newspapers because they are mostly ads; we're afraid to pick up the ringing phone for it is most likely another robocall !! Now they're invading our cell phones, too !! And I suppose using the time WE PAY FOR !! STOP this misuse of technology.
Laura	Wood Dale	IL	Please stop this madness! I do not want robot ally, or any unsolicited calls!
Matt	Anchorage	AK	RoboCalls continue to be increasingly annoying. I have had to purchase an answering machine just to screen the multiple calls we get nightly. Now they are calling our cell phones! We do not have any debt in collection. These are just annoying sales calls and surveys. Please adopt the strongest rules possible to stop this.

Peter	West Haven	CT	PLEASE----Do not allow any exemptions to the existing restraints on robocalls to cellphones. Robocalls to ANY phones are bad enough---and should be banned ---but robocalls to cell phones are especially wicked in that many of us maintain our cell phones under plans that count our time. How can it be permissible for someone to cost me money to receive a call that I don't want, and for me to have no choice in the matter? The fact that our government NEEDLESSLY leaves us prey to perfectly solvable problems like robocalls--which NO ONE wants to receive---is emblematic of the kind of thing that adds up to the well-publicized discontent that is animating the current election season. In this regard, as in so many, people correctly perceive that the government that they have instituted to safeguard their well-being is in fact insensitive to their needs and actually in thrall to the powers that would like to prey upon them. Please do YOUR part to move our government to SERVE the people!
Angie	Colombus	OH	No one needs more irritation. Being bothered at inconvenient times
Ardis	Loveland	CO	Please pass the appropriate laws/regulations so no one can call with robo calls of any nature. This should certainly include any and all businesses of any nature, but I believe it should also include political calls and charities asking for donations.
William	Renton	WA	I'm getting two or three of these a week, despite having put my number on the no-call list.
Steven	Farmingdale	NJ	Please enable robocall blocking on cellphones, Make it mandatory that providers comply without exception.
Arthur	Columbia	SC	I urge the FCC to take action to force ATT&T to block robocalls. The harassment is endless.
Betty	Redwood City	CA	I would like to see all robocalls stopped. I don't have debt collection people calling me. I do get a lot of sales type calls, political calls, charities, etc. I don't want any of them. All robocalls are intrusive, who ever they come from and to which ever of my phones (landline or cell) they come to. I want it stopped. I should have the right to privacy and shouldn't have to be disturbed. Enough already!!!
CONNIE	Austin	TX	I'm 66 years young & my husband is 75. We live on a fixed income...& now my husband has been diagnosed with a debilitating disease & the cost of doctors, medicine, treatment & eventually put into an assisted living facility is more than we can bear. I resent having robo calls anytime...but, it's serious...when the calls come in 8 am or 9-10 pm. NO MORE CALLS!!!!
David	Mountain Top	PA	Stop robocalls!

Kathleen	Long Beach	CA	I have received at least 15-20 calls a week on my cell phone from solar companies (I don't qualify for this). Also get hang up calls from "unknown" callers, miscellaneous calls who don't say who they are or from where they are calling, and when I request they remove my number from their list, tell me that they don't have a list. The other hang-up calls only give a city (usually somewhere else in the United States) and should not even be calling California residents. When I tried to call back one of these number, I got a recording that it was no longer in service - amazing how a number not in service can call me! I have had my cell phone number on the do not call list for several years, but it does not seem to stop these irritating calls.
Robert	Supply	NC	Please stop the incessant robo calls. We are constantly bombarded with these, and they MUST be stopped. We should be free from this unwelcome intrusion into our lives, and you, the FCC, have the power to make it go away. PLEASE!!!!
Rick	Corona	CA	Read title for my opinion on robocalls.
Joseph	San Antonio	TX	Please stop Robo calls Many debt collectors, Phisher's, , people trying to sell things, and all sorts of annoying calls with no person on the other end, Those who call and say you have something is wrong and they do not know just looking for your information should have to pay and pay big.
Carol	Sparks	NV	Why do I not have the right to privacy? I simply have to not answer my phone or hang up with every unwanted call. This is just a form of harassment! I can't believe I live in what is suppose to be the greatest country in the world, yet I have to tolerate this ridiculous robocall. Who protects the citizens of the US?
Barbara	Ammon	ID	I really dislike the robot calls. They interrupt my peaceful time!
david	Marietta	OH	I do not want robocalls anymore and ever.
Tina	Imperial	MO	Robocalls are a terrible invasion of privacy! Please do something about this blight!
john	vista	CA	we need a way to stop robocalls. even ones that do not leave any message. we need to be able to block the calls.
Pam	Kettering	OH	It's bad enough I get constant calls on my landline even after getting on the do not call list and using nomorobo, I certainly don't want to have the same issue with my cell phone. Most robocalls are nothing but scammers, money solicitations and irritating political messages. Why do I have to pay for a service used by jerks to harass me? Let them send a letter and help fund the US Postal Service.
Alan	New York	NY	please tell them to leave us alone - I must get 10 robocalls a day. Its disruptive, annoying and generally a scam.

Mark	Toledo	OH	I oppose the nuisance of companies using the method of robocalls to bring attention to their cause to their intended target whether on cell phones or land lines. It is both an invasion of privacy and tiresome to constantly screen my calls no matter what the call is about. It's bad enough during this campaign season that I get political messages. I have a job which requires me to answer the phone to get assignments. I don't need to be at the phone unnecessarily taking up my time just to listen to my caller ID or message recorder some company's ad or whatnot. Plus I may be missing a call that I want to actually answer.
Weldon	Summerville	SC	It is completely unreasonable and indefensible that debt collectors or commercial interests should be able to incessantly harass and intimidate Americans via unwanted phone calls or text messages. I urge you, in the strongest sentiment, to put a stop to such abuse! Specifically, debt collectors must be compelled to notify their "victims" of their legal rights to stop receiving such calls; also, if the calls are in pursuit of legitimate debts, they must be limited to no more than THREE phone calls OR text messages--combined--in a calendar month. Finally, these calls must be made ONLY to the number belonging to the individual actually owing the debt--NEVER to friends or family! Thanks for your strongest efforts in the defense of Americans' privacy and dignity,
Nerina	Houston	TX	Stop the harassment!
Bracha	Delray Beach	FL	Stop Robocalls to Cell phones
Gregory	Huntington Beach	CA	Please Ban Robocalls to Cell Phones! Do the same for landlines if possible. I get at least 20 unwanted calls a day from persons not affiliated with charities or politics.
Miriana	NY	NY	No Robocalls at all!
Randy	MPLS	MN	Please implement the strongest guidelines to control Robocalls. I have heard so many people complain about the 'No Call' list. Many times I have gotten calls that are very cagey so they can avoid you telling them not to call again! So please be much stricter about ways to prevent these unwanted calls to my CellPhone
Shawn	Lima	PA	My State of PA is a FULLY CORRUPTIVE State, and the majority of their citizens receive extensive amounts for receiving soliciting & immigrational time. Please stop that now.
Lois	DENVER	CO	Enough is enough! We already have too much invasion of privacy and private space. Please do your part to show respect for and us help protect some remnant of a basic human need. Thank you.
Robert	Exton	PA	There are several services that call as much as four times per day. These are not from debt collectors, but other companies - the old telemarketing firms. Enough is enough! Didn't want to talk to them the first time, definitely don't want to hear from them three-four times a day.

Darlene	Napa	CA	When a call is coming in, I don't even pick up the phone anymore! Over 90% of my calls are robocalls, and they don't stop until I block them. It is irritating, frustrating, and just damn annoying. I had one place that called me everyday, so I called them: they were belligerent and rude, and would not stop the twice daily calls. I called another persistent called; it was a debt collector for a person who had my cell number over 4 years ago! No one leaves a message. They have taken over my phones and I want it to stop!
Alfred	Manasquan	NJ	Please institute new rules that can limit robo calls as much as possible on landlines as well as cell phones. On my land line I have blocked thirty numbers and still can't keep up with the influx of harassing robo calls. Our phone still rings 8 to 10 times a day often during inconvenient times like when I am sleeping with these robocalls.
Cindy	Ft worth	TX	Please put an end to the Robo calls. Their recordings say "this is your final notice" but they keep calling. I don't need or qualify for the credit "help" they are offering but they won't take me off their list. The calls come in spurts. Always from a different (masked)number. At the peak I may get 3 or 4 calls in a day. Over the years this has gotten very old and I stopped reporting the calls to the do not call registry. Thank you in advance for your help
Edwin	La Habra Heights	CA	We are nearly driven to distraction by the twelve to fifteen robo calls per day sometimes even more.. Many of them let our phone only ring once or twice then gone. We have had to advise our family and friends that they will have to go to our answering machine. You are surely aware of all the spoofing of false names and phone numbers. Our entertainment system records the calls which go three or more rings. Periodically or more often the numbers are completely fictitious. Folks like us can not be getting to the phone uselessly.
Joann	Lebanon	CT	Robocalls are both annoying and rude. Why should my already-busy life be further complicated by companies who can't even be bothered to hire real people? I don't have the TIME to talk to robots! OR to 'call back' a company rude enough to use such Thank you
Howard	Fresno	CA	After 68+ years of always living with a landline, we dropped outs last month as 90 percent of the calls were robo calls. Now, we are getting them on our cell phones. This is annoying and an invasion of our privacy. PLEASE BAR ROBO CALLS TO CELL PHONES!!!
Judi	Henderson	NV	I wish to make Robocalls to Cell Phonesillegal..

Irene	Fresno	CA	Please do what is necessary to stop the annoying robocalls. We do screen our calls and do not pick up on phone numbers we do not know. We get the same numbers calling over and over again, several times a day and night. Very disruptive and annoying. We are able to 'block' a limited number of phone numbers, but then new numbers take their place. Must be something the phone company providers can do to stop these unwanted and unsolicited calls. Thank you.
James R	Naperville	IL	The DO NOT CALL list is an abject failure; as an 83-year-old retiree, I receive far more prospecting or harassing calls than needful ones, often more than a half dozen per day. That is even true for my cell phone, although it is frequently out of service. There is now a glimmer of a possibility of eliminating part of this nonsense, i.e., that portion which is automatic, but a broad exception for debt collection would gut its effectiveness, as would failure of enforcement (which is why DO NOT CALL fails). Harassment ought not be a sanctioned collection technique in any case. But I am father, grandfather and uncle to more than a dozen adults who remain barely solvent, and I would be an obvious target. PLEASE don't allow my limited remaining years to consist of wallowing in a sanctioned morass for the benefit of a few...
robert	east nassau	NY	If I wanted these calls I'd send my phone number to the callers. Since I did, robocalls are NOT FOR ME>
Louise	milford	MA	Please do not permit Robocalls to cell phones from debt collectors.
Nancy	Oakland	CA	I strongly oppose robocalls to my cell phone, invading my right to privacy potentially increasing the cost of my cell bill.
Christopher	Benton	AR	Debt collection robo-callers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Julie	Bloomfield	NY	Shady companies can use invasive robocalls, and we will be forced to screen unknown numbers and malicious texts at all hours. This is an invasion of privacy! END ROBOCALLS!

cliff	South Jordan	UT	It is time that the FCC put this matter to bed. Literally everyone who has a cell phone has been frustrated to very upset when they receive robocalls. NOBODY wants to get unwanted solicitation! The FCC should have never let any company make computer business calls at the public's expense. It should be illegal for any person or company make a cold call to anyone without a person on the line and a phone number that can be returned and talk to the same person that made the cold call. If one company is allowed to cold call by computer to everyone than every company should be able. Then nobody would be able to use their phone because the robocalls would never stop. PLEASE STOP ALL ROBOCALLS NOW AND IN THE FUTURE. MAKE THE FINES FOR VIOLATIONS SO SEVERE THAT NO COMPANY COULD SURVIVE THE FINE!!!!!!
Liz	Huntley	IL	Please put a stop to robocalls.
David	Richmond	TX	Despite registering my cell on the Do Not Call List, I get at least 3 robocalls a day. I have reported some to the registry, not sure if it does any good. Please stop this nuisance now.
Richard	Nampa	ID	I'm sick of robocalls, charity calls and political calls. Stop all of them. A Do Not Call list should mean exactly that. No calls from anyone without my expressed permission. By the way, the Do Not Call list does not work. I continue to get calls even when I inform them I am on the list and even after I tell them to take my number off their call list. Do something now.
Paul	Appleton	WI	We all hate them, so please do the common sense thing and eliminate them.
Joe	Midlothian	IL	I never bought or wanted to buy anything from a sales phone call. Robo calls are a pita. NOTE: The phone provider that will be robo call free I will go with that provider.
timothy	bedford	TX	It's simple - the technology is here. Stop Robocalls
John	Worthington	OH	It was irresponsible for elected officials to give companies that make robo call the right to call my cell phone which costs me money for their actions. This action by congress shows their lack of respect for the population that elects them and the ability of companies that donate money to get what they want from congress. This is just another action that shows the lack of our government official's ability and willingness to understand and support what is best for the public interest.
Jerry	Ann Arbor	MI	We've already stopped robocalls on our old landlines. Now it's time to end them on our new phones.
Henry	Lawrence	KS	End Robocalls on both land line and cell.
Rich	Vallejo	CA	Why do we even have to take any action to prevent unwanted calls. The people that want them can sign up and everyone else should be left in peace.
john	berlin	NJ	no s

Susan	Adamstown	MD	What's going to take to place strong stringent consequences on the random companies that are making ROBO Calls on a daily basis & multiple times a day. I have a cell phone for emergencies NOT FOR ROBO CALLS. As a Government agency what's it going to take for the FCC to use their weight to PUT AN IMMEDIATE STOP TO THESE ANNOYING ROBO CALLS THAT NOBODY ASKED TO RECEIVE!!!!
Feyna	Berkeley	CA	Struggling families are suffering and harassed enough.
Darby	Murphysboro	IL	:O(
Rick	Hereford	AZ	I pretty much assume that any robo call is some kind of scam. They've made it where I don't answer my phone unless it's from a number that I recognize. This causes me to ignore some calls that I rather would answer. If you can do anything to stop this, please do.
Hazel	Fort Mill	SC	Please Please put a stop to all the ROBOCALLS my cell phone rings constantly with all the ROBOCALLS it drives me crazy. I'll soon be 80 years old and I need piece in my life not my cell phone ringing with all the ROBOCALLS and when my cell phone is not ringing my house phone is ringing with all the ROBOCALLS (WILL YOU PLEASE PUT A STOP TO THESE BOTHERSOME CALLS)
Timothy	Greencastle	PA	Please stop the phone harassment called robo calls. They serve no purpose other then to fip off your grand parents.
Helen	Baltimore	MD	Please stop robocalls to cell phones, including these restrictions: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available.
KRISTINE	CLERMONT	FL	These calls are terrible. They interrupt your life where ever you are-in church, at the Dr. or trying to sleep. Nothing seems to sopt them. Please, please do something to help.
Robert	McDonough	GA	It is extremely annoying to be interrupted by the automated diapers. They ignore do not call regulations.
Tom	Slingerlands	NY	I still think a citizen has a right to privacy in their own home. Robocalls are a direct violation of that privacy !! Please insure that robocalls are very limited in your rules on robocalls
David	Lisle	IL	All consumers should have the option of blocking robocalls. The number of robocalls that I receive is probably three time the number of "legitimate" calls. This technology is already available, and should be accessible to all consumers.

Betty J.	Watervliet	NY	Robocalls are a scourge of today's society. They are annoying and time consuming and should not be allowed anywhere at any time. Regarding cell phones, however, robocalls have the added annoyance of not merely taking our time and attention, but also taking our dime as we're paying for these unwanted calls as part of the time we buy for our own calls. It seems that they even get trough to our phones if the phone is turned off! Now they're taking up storage space as well. Rather than having to sign up somewhere to end these calls, there should be a law that we would have to sign UP to receive them.
Barbara	Hopedale	MA	Please be fair to consumers.
Kenneth	Aloha	OR	Please extend the ban on robocalls to cover cellphones. The ban on land line phones has reduced these annoying calls significantly. Extending this ban to cover cellphones would be a great help.
Deborah	Charlotte	NC	I have been receiving ROBOCALLS trying to collect debts for a person I don't know for YEARS and they will not stop. They start as early as 9 am and go until as late as 9 PM. This is on top of at least three ROBOCALLS a day collecting for charity, taking surveys or trying to sell something. I have a list of probably 63 numbers from which I regularly receive ROBOCALLS which is a total invasion of my privacy. The FCC needs to take action to prevent further "ROBO INSANITY".
Renae	Chehalis	WA	Stop spending my money . Stop the robo calls.
Linda	Emory	TX	I want you to push back against predatory lenders and shady companies that rely on invasive robocalls to further their causes. I do not want robocalls coming in on my cellphone and invading my privacy. I do not want to be hassled because some relative owes somebody money or has a student loan. I do not want to be stuck trying to screen unknown numbers or read malicious texts around the clock. Please limit the number of allowed calls or texts to no more than three per month, and then only to those who directly hold federal debt. Please make the guidelines clear and readily available to the companies who will be using robocalling to do their nefarious duties. I value my privacy and my time!
Gregg	Neenah	WI	Please respect my privacy.
Deirdre	Los Angeles	CA	Please, no robocalls to cell phones! we have enough nonsense in our lives. It is not right that we have to pay to get such junk.
Evan	Mendon	MA	We are constantly bombarded with advertisements. Our phones should be private and we should be able to determine who has access to that privacy.
Adrian	North Little Rick	AR	Please stop this interruption of my peace and quiet and theft of my airtime
Ryan	Crescent City	CA	The useless people are costing me money in used-up minutes & my time. PLEASE stop them!

Sandra	Portage	IN	Have been on the Do Not call List for years and now, more than ever, am getting these calls on a daily basis!! Now they are calling the cell phone! This has got to stop! Please!
Mickey	Havertown	PA	They call when I'm sleeping, they call when I'm eating, they call and they call and they call. I am sick of the calls. Please end them.
Paula	Billerica	MA	I have a limited number of minutes per month and I hate having them used by robocalls. They are annoying and disruptive.
Aaron	Stockton	CA	We need robocalls on our cell phones like a hole in the head
Tom	Meeker	CO	Please stop the unwanted calls we all seem to get!
steve	santa monica	CA	The FCC is proposing sensible regulations regarding debt collection calls. Please move forward on them, and continue to work to limit unsolicited calls in general.
Thomas	Ellicott City	MD	I rarely make or receive calls on my cell phone, However, I receive at least one unsolicited call per day, most of which are computer generated. I always block the number on my cell phone, but that hasn't helped - I get calls from new numbers, Please take whatever action you can to stop this practice!
thomas	franklin square	NY	i get calls everyday,each time its a different number or just a bunch of numbers put together. i am on the do not call list and my voice mail states i do not accept solicitation calls. but i still get them, on my home phone and cell phone.
stephen	norwalk	CT	tell them to please not call them. if they persist blow a police whisle or cj one (tin not plastic, or use remintgion dog adjustable if you have perfect pitch, 440 0
George	Tucson	AZ	When I am waiting for an important call or a family member is sick I have to answer the phone. I don't know if it's the hospital or a robo call. Often it's a robo call.
Robert	Gainesville	FL	You need to reverse it so that we aren't getting robocalls. At the least, those people don't call but a few times a month and only those who have federal debts. For people who are being called in error, we need to be able to get our number removed and stop any future calls.
Dennis	Rehoboth	MA	Safety is compromised by the distraction of unwanted calls ??
Joe	Pablo	MT	I've been on the Do Not Call list for my land line and my cell phones. But I still receive robocalls... and I have no recourse to prevent getting the calls, unless to keep changing my phone number.
Jody	Marshfield	WI	PLEASE do not allow robocalls to cellphones. These cost the phone owners money and time
Dave	Frederick	MD	Please save us from robo calls. They disrupt our lives and are totally unwanted and we should have the right not to take them on the phones we pay so much for!
Ed	Indpls.	IA	Calls are usually received when I am driving or busy on a project, but maybe expecting a call from member of the family.

James	Phoenix	AZ	Thanks to the never ending call on my home landline it is premanently attached to an answering machine so that my calls or screened. I shouldn't have to do this. Please do the right thing .
Janice	Reston	VA	The majority of the calls to our home are robocalls. We are elderly and tired of running to the phone to answer these unsolicited, unwanted intrusions in our life. They need to stop!
Jane	Taylorsville	NC	We have a "go" phone and every 3 months we pay 20\$\$ for minutes. We pay for calls that are made to us on this phone, so it is especially annoying to get a Robo call. If I pick up I am charged for an entire minute even if I hang up right away. This should not be allowed.
Gary	Berkeley	CA	My cell phone is just beginning to be invaded by robocall and other sales calls. PLEASE BLOCK THESE and retain my right to privacy before all hell breaks loose, as on our land lines.
Jacquelyn	Miami	FL	Respect people's privacy. We don't have time to deal with robocalls
Marshall	Asheville	NC	It is not right that companies can call me without my requesting contact with them especially by computer operated call machines. My time is valuable and calls cost me money. Please stop this inappropriate sales technique
Emmett	Kingston	MA	For years I have been receiving calls from telemarketers, as many as five or six per day and some as late a 9 PM. Apparently my list on the Do Not Call list does no good. I am fed up with this nuisance and wish you could do something to make it STOP. Thank you.
Anita	Colorado Springs	CO	These robocalls to cell phones is invasive and disturbing. Please stop them and let me lead my life in private without robocalls on my cell. Do it now!
john	Boyce	LA	STOP THE CALLS!!!
Sheila	Concord	CA	Stop ALL robocalls!
Willard	Cary	NC	I still have a land line and ended up buying a new phone system that announces the name of the caller. Every day I get 10 to 20 calls from "incoming call", "blocked call", "caller not found", or a phone number -- probably spoofed -- one which hangs up on the 3d ring. Perhaps every three to four days I actually get a call from someone who actually wants to talk to me (other than to sell me something, or try to get personal identifying information from me. The phone has become almost useless because of this type of call. If this type of call is allowed to infest cell phones it wliil make them utterly useless as well.
Jeanne	Chardon	OH	I am bothered at least twice a week by calls on my cell phone that come from area codes that I don't recognize. I ignore them, but when I do answer them, they turn out to be robocalls, a waste of my time and an irritant!
Ralph	Hamilton	VA	Please stop Robo Calls!!!

Sara	Richardson	TX	Please stop Robocalls on cell phones. I am interrupted by them at work almost daily. The calls disrupt special education meetings and services.
George	Missouri City	TX	Blocking rob calls is a service that if provided would be a good advertising for the provider. I will switch to the providing company.
Melissa	Manitou	OK	We are sick of getting harassing phone calls from debt collectors when we don't even owe anything. These phone calls should only be made to the person that owes, not friends or family of the person. And debt collecting calls should be limited to no more than 3 calls per month.
STEPHANIE	LAWRENCEVILLE	GA	For over 3 years I have been getting debt collector calls for the woman who had my phone number before me. Its unacceptable, especially when the calls continue after I informed them of their error.
Anita	Goodyear	AZ	Please vote against robocalls to cell phones.
Marianne	Brooklyn	NY	No calls!
Walter	Port Hueneme	CA	Robocalls are irritating. Someone demands your time with a robot. Just this minute I received a robo call from Marriott Hotels telling me that "Your telephone number has been selected..." Worse than junk mail.
Kathryn	Austin	TX	Yes, I've been robocalled, even though I'm supposed to be on the "Do Not Call" list. Thank God my phone has Caller ID, so I don't have to pick up and then ask these people to go away. Not everyone has that. Robocalls are obnoxious and should be banned.
Steven	North Haven	CT	Please stop robocalls! They are disruptive, annoying, and emotionally tolling. I'm a senior citizen and nothing irks me more than being tormented by the constant assault on my pursuit of happiness and peace of mind.
James	Loomis	CA	Enough with those annoying, unwanted robocalls !
Dennis	Pocatello	ID	Come on now. This has been going on to long. It's is terrible for a day sleeper or an elderly person trying to nap in the afternoon,
Debra	Kihei	HI	Please stop the stupidity of any involvement by the FCC, in the low intelligence scamming of individual tax payers with these forms of businesses.
Judy	Irvine	CA	People who owe money to collection agencies have the right to discuss the matter with a live person and not to be harassed by robo calls. The number of calls to debtors should be limited to no more than live call per month once the person is actually personally contacted. Friends and family of debtors do not own the debt and must never be contacted.
Dennis	Meadville	PA	I don't think it is necessary to have debt collectorsor any other organization use robocalls on cell phones,
Sheila	Lawrenceburg	TN	I am sick of getting these ridiculous on my cell phone at work and other inconvenient times!! It must stop!!!

Joseph	Amery	WI	Even on the "do not call" list on home and cell phones I keep getting robocalls!
Lisa	Mesa	AZ	Please put a stop to these never-ceasing calls.
jerry	lenoir city	TN	arfter still getting unwanted calls even though im on the do not call list . at least stop the robo calls so it will give us some rest.
Candace	Silverdale	WA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Marilyn	coronado	CA	Please, I'm 79 years old and these robo calls are driving me crazy.
Edmund	Brookhaven	GA	I work in the behavioral health field, and I sometimes get urgent calls from families, along with the large volume of other calls that I get. Unfortunately screening calls isn't possible, so every time I get harassed by a robocall, it's time that I may need to be on the phone with a family. I want this unsolicited "stalking" to stop!
John	Rancho Palos Ve	CA	Please put a stop to robocalls to landlines and cellphones.
Lisa	Brockton	MA	I get at least 3 robocalls a day on my home phone and now get about 2 a day on my cell. Please do something to stop this nonsense.
Paul	Monee	IL	These people call at all times and some leave the same computer message time after time. The vast majority do not even have a displayed phone number. Even though I am on the do not call list I still receive a number of these calls each day. Please help us everyday people stop this stupidity. ATT only allow a few numbers to be blocked and I cannot block 800 numbers at all.
John	Hawley	PA	NO ROBOCALLS
d'Anne	Mesa	AZ	I'm a disabled Senior scraping by on Social Security only and have no miscellaneous (disposable) income. At my age cell phone is for emergencies only - cheapest plan. I can't afford to have robocalls use up minutes/data on my plan. I have ended up in the ER due to hurrying to answer home phone to find it is a "#@%*^!@" robocall! Most of these intrusions are not even geared to people in my age bracket... I have received these abominations at 5 AM on a Sunday morning and as late as midnight on a weekday - with multiple major health/medical problems - I need my sleep. I wish that the Strongest Restrictions Possible are placed on these _____ robocalls!!!!!!!!!!!!!!!!!!!!!!
Mike	Plano	TX	My family and I are so tired of receiving calls at our home from 8:00 AM until 9:30 PM. Can we clean your carpet? Who are you going to vote for? Would you contribute to this cause? We are desperately in need of your support, would you consider donating \$200.00 or would \$300.00 be okay. Can you put this on your credit card? STOP THIS INTRUSION OF OUR PRIVACY.
Mark	Fort Worth	TX	Please do anything you can to stop robot calls!

Tyra	New Orleans	LA	Please stop. Just stop please.
Marian Linda	Gainesville	FL	I already can't answer my landline because of robocalls and other unsolicited telemarketing calls. Please protect our cellphones from marketing harassment.
Troy	Richmond	TX	Please, make them stop!!!
Janette	Port Ludlow	WA	Please help end Robocalls to cell phones. They are very intrusive to my life and usually come in during dinner. In fact, I have not ever been "past due" on ANY bill for many, many years, and having debt collectors call just to "troll" is uncalled for. Thank you very much for helping to limit these calls.
Richard	Hendersonville	NC	It's time to knock off all these idiotic Robocalls attempts. While I rarely answer an unknown call it's a nuisance and an invasion of privacy. Include political messages and non profit solicitation as well.
Yolanda	Orlando	FL	More often than not, the robocalls are nit for our household. Such wars of resources. I rarely answer my land line. If the call is legit. The caller will leave mr a message. Stop this wasted resource.
Martin	Morgan Hill	CA	Please end robocalls on cell phones.
Robert	Lebanon	OH	I have problems using cell phone in any case. Getting messages from people wanting to sell me things is more than annoying, it causes additional discomfort. Wasting time and energy of the calling organizations as I am not buying or joining any thing from phone sellers, and not voting for anyone who phones me.
Kay	Lady lake	FL	Please be sure cell phone users do not get any robo calls. Thanks
James	South Amboy	NJ	It's gotten tom the point that I don't answer my phone unless it's from a personal contact. Threats, scams, etc... all a waste of my time. And I've been on the so called "Do Not Call List" for years. I think I finally got through to the Canadian Pharmacy callers, no calls from them lately.
Thomas	Hopkins	SC	Please stop all robocalls including the ones from politicians. We get enough politician information from TV and Radio commercials without having to endure telephone calls.
Janelle	Okemos	MI	I hate robocalls. If they come on my cell, it will cost me more money. I don't want to have to pay money for something I don't want in the first place, but unless you allow us to block these unwanted calls, it's going to cost me, and others, our hard earned money. Maybe your cell phone plan has unlimited minutes, but I'm watching expenses and I can't afford to have unlimited minutes - it's too expensive for my family - especially when it's something I DON'T WANT!
Vernell	Chicago	IL	Help us gain our security ,and privacy back.We deserve the right to have uninterrupted lives.
Kenneth	Huntsville	AL	Robocallers cancellation -- please do what you can to stop this practice.
John	Yorba Linda	CA	Robocalls are an obnoxious affront and need to be categorically outlawed! Thank you. John Kasper

R.	Bklyn	NY	We don't need this nonsense at any point in our day. I needed to use my phone and I was unable to disconnect the phucking robo caller. It continued to occupy my line even though I hung up. I pay for a service and do not wish to be bothered by unwanted, un needed and annoying calls. If I need to make contact, I can do so without a solicitation. STOP THIS NOW.
Kenneth	Huntsville	AL	Robocallers cancellation -- please do what you can to stop this practice.
Robert	Ypsilanti	MI	Please limit robocallers from making peoples lives horrible. We do not need to allow corporate harassment into tax payers lives,if they want to intrude then they should be forced into hiring American (United States) workers to make personal calls. Stop selling the American peoples lives and privacy to corporate interests.
Barb	Valley Center	KS	Please put an end to robocalls!!
Ed	Blaine	WA	Robocalls have one underlying purpose - to get money from the recipient. This is bad enough when received at a landline, however, with cell phones the recipient often gest stuck with paying for the cussed robocall.
John	Riddle	OR	I cannot tell you how many calls I get each day that are unsolicited and not applicable to anything that I do. I can certainly NOT answer if the call is UNKNOWN but many times there is only a city or state listed and I just don't know who is calling so I answer. More often then not the robo on the other end just starts blurting out the c__p and I hang-up BUT not before I get charged for a minute or more of my cell minutes. VERY annoying! There has to be a way.... I've registered both my cell and home numbers with DO NOT CALL but that is a JOKE. The bad guys don;t subscribe so there is no effect. PLEASE do something to STOP this run away train!
Roger	West Bloomfield	MI	Robocallers are already ignoring the "Do Not Call" list, so my wife and I have already taken to leaving our phones permanently on vibrate and not answering when a call isn't from someone in our Contacts list. And we don't have to worry about debt collectors, I can't imagine how bad it would be for someone who did! You must tighten the rules.
Susan	Madison	WI	Please stop ALL robocalls.
Barry	Roslindale	MA	This is too much! I receive multiple calls daily on both my landline and my cell phone. Make them stop.
Ralph	Cary	NC	Please stop robocalls! I now get more robocalls than the necessary ones and none is about debts!
Jim and Emily	Truckee	CA	Debt collection robocallers must notify us of our right to stop receiving these calls. The number of allowed calls or texts should be limited to no more than 3 per month and only to those who directly hold federal debt, not friends and family. The guidelines should be clear and readily available. Our right to privacy is at stake here - we are tired of all these robocalls.

Stephen	Kelseyville	CA	My privacy should include my cell phone. I do not want unknown persons or organizations to invade my privacy.
Janice	New Bern	NC	I can't afford to pay for robocalls. I am on Social Security & I don't get that much money. I don't want these calls coming in on my cell phone. I can barely pay for my service as it is. NO ROBOCALLS WANTED!!!!
chetan	reno	NV	I own a very small business and virtually everyday I have to waste time answering unwanted, un-asked for and inappropriate automated phone calls. Errg! It is so frustrating as there seems nothing I can do. Please help.
Paul	Diamond Bar	CA	Stop annoying and invasive rob calls. They are an invasion of privacy and unwanted. They clog voice mail boxes and are a nuisance to clear away. Provide us with the ability to block rob calls. Thank you
Rosanne	Nashville	TN	I get 6-10 robocalls a day, most of which do not identify the caller or the number. It drives me crazy to be in the middle of something, the phone rings, and it is someone wanting campaign donations, offering special deals in roofing or debt management. Most offensive of all are the smarmy callers who want to offer "the elderly" special deals in medications or handicap assistance. Thank goodness for caller ID. If I don't know the caller, I don't answer any more. It's still extremely annoying!
Leonard	Wichita	KS	Put an end to all robocalls.
Bert	Andover	MA	Would like them stopped. Am getting at least 2-3 calls per day on my cell.
William	Palm Springs	CA	Please stop or limit unsolicited calls of any type.
Ira	Midville	GA	Stop them
Lynn	Scranton	PA	Please, I am disabled and not a well person. Having my phone ring very often throughout the day is making me sicker!!!! I feel my well being and privacy is not allowed!!! I am on the Do Not Call List and it seems not to make a difference. Please, I beg you to stop allowing robo calls. I also want chariteis and political calls to stop. If I want to give to a charity, I know which ones I want to give to...I do not need a call. Thank you
Richard	San Francisco	CA	In an overstressed world, we don't need junk calls interrupting our work or our leisure. They're not in our interest, and we hate them. You should stop them. Please!
Bob	Mint Hill	NC	I'm NOT interested in ANYTHING or ANYONE I don't know calling my phone for ANY REASON.. AT ANYTIME. This INCLUDES charities, AND companies I have a business relationship with. They too should NOT be calling. DO NOT CALL should mean just that.. DO NOT FREAKING CALL ME!
mary	wichita	KS	I have a prepaid Net 10 "flip" cell phone. Every minute that I use calling someone or when someone calls me on this phone, it costs me ten cents each minute. I use this phone ONLY for emergencies and when I am traveling. I do NOT want to receive any robocalls on my flip, prepaid cell phone!

Sean	West Suffield	CT	No Robocalls to Cell Phones!
Charles	Manahawkin	NJ	I can't even begin to describe how many times our family has been harassed through these annoying and interrupting phone calls, Almost all the time, there is not a human at the other end of the line, only a machine! What is especially irritating is the fact that these imposters can make any phone number and name appear on your caller id. Why can't we, the people, prevail over this obvious breach of personal privacy? It's about time to end this lunacy!
Robin	Girard	PA	Please think about how it feels to be harassed on a constant basis and there is nothing you can do about it, especially family and friends that have no idea or responsibility to the predatory lenders. If we have so many people in the U.S. being constantly harassed, the emotional health of this country will not be good. I understand that people who are truly in arrears need to be notified but harassment on a continuous basis is not necessary. Please set limits of times and amount of calls, NO NO NO calls to family and friends, they are innocent of any wrong doing and the company that does this should have severe penalties . Life can be hard enough, why ruin everyone's day. Someday it could be you. Please stand by your fellow Americans and Stop this Madness!
Jerry	Laurel	MD	The robo calls to say the least are annoying and interfere with daily life on a daily.
L. P.	Murphysboro	IL	Just like the title of my comment says NO CELL PHONE ROBO CALLS.!
Pete	Mayfield Hts.	OH	Please, please please stop the robocalls!!!!
Laurie	Gratiot	WI	I am chronically disabled and my cell phone is my lifeline. I not only get robocalls on my cell phone, we get them on our landline. I can't have computer virus scam artists, political pacs, financial institutions, mortgage lenders, and insurance companies ringing and tying up my phones.
Becky	Sudbury	VT	I co-signed a student loan to help my son-in-law finish college, not to become a "target" for unwanted calls. Why should my privacy be invaded and my time used by Robocalls. Leave us alone!!!
Javier	Alamo	TX	The right to privacy defines us as Americans. We have the right to unwarranted intrusion into our lives, be it by our government, individuals, or business. We should have the right to be advised by robocallers of our right to stop receiving calls. Robocalls should be limited to no more than two per month, and only to the holder of federal debt, not their friends, nor family. Finally, guidelines must be clear and easily available.
Michael	Newbury	VT	Robocalls are insidious intrusive.
Charles	anywhere usa	VA	Stuff the bastards into a closet and feed them oatmeal.

Diane	Milford	MI	I agree with Consumer's Union position regarding debt collection by robocallers. However, I would like to have robocallers eliminated completely or for them to have to respect the "Do Not Call list". I have not received one useful (to me) call via robocaller and yet I have to pay for these annoyances with my cell phone costs.
James	Lake Forest	CA	Robocalls to my phone cost me money and time. Outlaw them.
Joan	Newark	DE	I am very angry when I get Robocalls for credit card "fixe,s" especially when I am at work. They interrupt me, my boss, and meetings. My cell is for my family to get in touch in case of emergencies, not for ads from people I never had previous interaction with.
Edna	Merced	CA	STOP the robocalls PLEASE STOP them!!!
Josh	Cicero	IN	Please block all robocalls!
Linda	Decatur	GA	These calls are not only a nuisance but also expensive for some of us.
LB	Morgan Hill	CA	Robocalls have gotten out-of-hand. Telephone carriers are reluctant to provide free telephone number blocking of robocalls. Something to remedy this robocall harassment must be done now. If not on the individual telephone carrier level, then on a national regulatory level. I am tired of being harassed by robocalls. I feel as if I am paying not for telephone service for my benefit, but for telephone service for the benefit of robocallers. Please put and end to this type of harassment now.
Angela	Conway	SC	If a person cannot call, do not use robots to call me. Time I hear it is a robot, I hang up!! They are useless for me because I don't stick around long enough to hear what they say!
Thomas T.	San Diego	CA	Stop robocalls!!!!!!
Robert	Burnsville	MN	Please do not allow robocalls tp be made to cell phones!
Julia	Sewanee	TN	Life is busy enough without useless, unwanted calls that take time to note and delete. Please spare us from more commercial trash coming our way.
John	York	PA	I get call after call from robo-callers. They never quit, but they keep trying to convince me that I need their services. Some times they start with: "don't hang up! This is the product that you called about".
Rebecca	New York	NY	I never signed up for these and am on the Do Not Call list. I get them anyway.
Edward	Jonesboro	GA	My wife and I receive multiple robocalls weekly. We are on the Do Not Call list for both our home phones and our cell phones. Apparently the list is ineffective because we receive calls from organizations with which we have had no interaction before. Stopping robocalls will end a large number of these type calls we receive.
Norma	Bristol	RI	I am tired of receiving robocalls at all hours of the day & night even though I have registered my cell phone number at DONOTCALL. Please stop these calls immediately. Thank you

henry	fair lawn	NJ	Robocall scripts must immediately announce the purpose of the call and place opt-out as the first menu choice. The agencies must display their real calling number so that violators can be reported. Use of a false caller id should result in IMMEDIATE loss of their license in all states.
Carole	Keene	TX	We can't answer our phones for having so many robo calls!
Robert	San Diego	CA	This concern should not be limited to cell phones but to all calls, including land line calls. They are unwanted, unsolicited, arrive at the most inconvenient times [e.g. meal times, late at night, on Sunday] and almost always interrupt some other activity - some very important and significant.
Ken	Ontario	NY	They shouldn't be allowed
James	Lenox	MA	Please do not permit robots from debt collectors, marketers, campaigners or solicitors to call or text my cellphone without my permission. I deserve privacy.
Vic	Chesapeake	VA	No robo calls and no telemarketers at all.
Jennifer	Tucson	AZ	It has gotten out of hand. Please end the Robocalls to cell phones (and land lines as well.) It is intrusive, interruptive, and increasing in frequency. It needs to stop.
Robert	Shaker Hts	OH	The endless call offering a reduction in my credit card interest rate....suggesting the offer is time limited and that the current call is my last...is laughable but more annoying than that. The credit card is never named...I have no balances on credit...but the calls come so frequently. When I ask for them to stop, they don't. I have been hounded for years by a collection service for someone who used my phone number. The calls come in ...and don't disappear with my updating input...I am not the debtor they seek. The intrusion into household life, the disruptive nature and its utter dishonesty needs to cease.
Brian	Galax	VA	Please stop ALL unwanted calls to my cell and home phone. DoNotCall worked for years but for the last two years it is a joke.
George	Rancho Cordova	CA	no robocalls
Florence	North Haven	CT	My mother taught me to be kind to people...and I have been all these years, but now, sad to say, I hang up on these annoying people with little or no explanation. There are just too many of them.

star	somersworth	NH	<p>i constantly get robo calls on my life line cell phone which the provider refuses to allow 'nomorobo' to be used on. i used to get them an awful lot on my house phone but i got nomorobo and now i don't get them. spoofed numbers are still a big problem. i watched the hearings on c span and i'm glad some mostly non-republicans think it's not ok to PIRATE our phone service and forcibly invade our homes for profit. i have no debt but if debt collectors kept calling me and i couldn't pay, i'd switch my number so allowing debt coollectors to pirate phone service and force themselves into people's homes should never be tolerated, just like debt collectors aren't allowed to force themselves into our homes or take over our stuff to BULLY debtors. courts should deal with debtors since so much debt is falsely claimed or unavoidable. i also believe that reassigned numbers should b e on a database wittth the name of old and new customers an d date of reassignment which businesses could use a search software to scan and delete reassigned numbers from their databases. the courts need to punish abusive, entrapment and frivolous lawsuits to free up our legal system to protect real victims from the gargantuan problem of abusive and negligent corporations and businesses. lifeline programs need to be forced to allow call blocking, number changing and 'nomoro' also they must be made to allow short code text messages for important messages and notifications and must be forced to allow those switching from one crappy lifeline company to another crappy lifeline provider to keep their old number and not be falsely accused of having two lifelines during that process and those providers must be forced to provide the consumer's account number without an argument and on the website in customer account section so we don't have to deal with their horrible, lying customer service. congress should be made to use the crap phones lifeline customers have so they'd know how useless the internet function is. if it's true</p>
Mickey	Mustang	OK	<p>They are an intrusion to one's privacy, your cell phone is an integral private extension of YOUR private conversations. Unless invited to call or to accept my call, DO NOT CALL !!!!!</p>
Patrick	Knoxville	TN	<p>Enough already. I get two to three a day and none of them are pleasant. Bring this practice to a halt.</p>
Robert	Morton Grove	IL	<p>They are dangerous and annoying. People may be driving when the robocalls come in. They also are an invasion of privacy. What good do they do?</p>
Chris	Hartly	DE	<p>We need stronger protections and regulations against robocalls. No exemption for political use. No exemption for telemarketing firms. Phone companies need to be able to track down rogue telemarketers and the FCC needs to put these people out of business. Every week I receive calls from spoofed numbers. The telecom companies could stop this if they wanted.</p>

John	Columbus	OH	It is not only a huge annoyance but it also costs me money ...every call that I get is a charge on my phone! These calls to all phones, cell and land lines, should be considered an invasion of privacy, These calls can be such a huge intrusion that they can reduce people's productivity to a large degree as they have mine.
marianne	seattle	WA	Intrusive, unwanted, just more garbage.
Amit	Monroe	NJ	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Elizabeth	Minneapolis	MN	Robocalls are a form of harassment.
John	Peoria	AZ	Please stop robocalls... all of them. It's bad enough to have my privacy invaded by calling my land line, but it's completely unacceptable to have them go to my cell phone. I think all robocallers should be completely prohibited from calling, but if they are not outright prohibited, there should be a single action that a consumer call call to block everything... and it should have some teeth so it actually works (the Do-Not-Call certainly doesn't work!). Also, robocalls, if allowed at all, should be required to be licensed and prohibited from frequently changing their numbers.
Bob	Fox River Grove	IL	Please stop the invasion of our privacy and property. It's time to outlaw robocalls! Bob
Karen	Roseville	CA	Please do not allow robo calls to cell phones without my permission. Please do not allow any calls about a family member that owes money to the federal government to my cell phone. Please do not allow anyone to call my cell phone about someone else's debt not my debt. I should have a way of opting out from these phone calls. They should not be allowed to call my phone repeatedly day after day. There should be a limit to the amount of calls they can make. Sometimes they have the wrong number and you tell them yet they keep on calling. That should not be allowed either.
Robert	Conyers	GA	Please make these telephone companies END ROBO CALLS! We get ROBO CALLS from early morning to late in the evening, but we shouldn't get them at all. It is time that the FCC did something. Thanks!
Linda	Davenport	IA	Stop annoying robo calls to both land lines and cell phones.
Tom	Woodland Hills	CA	Can you please stop these annoying rob calls to my cell phone.
James	Pasadena	CA	It is illegal to break into another person's home and steal things. Why is it still legal for robocallers to break into my home, by way of my telephone, and steal my time and tranquility? The DO NOT CALL list has been totally ignored by the robocallers. We need to be able to permanently stop these unwanted callers and their unwanted calls.

Shannon	Elkridge	MD	Please put an end to robocalls. I no longer answer my phone for fear of there being a computer on the other end waiting to connect me to the next waiting rep. I would love to feel I could actual use the phone I pay for every month.
Barbara	Pompton Plains	NJ	I use my personal cell phone to run my independent public relations consulting business and stay in touch with my nanogenarian (93 and 95) parents and their caregivers. I can't tell you how many times my conversations get interrupted by unwanted solicitors, robocalls and phishing scams. I report them diligently to the donotcall registry, but nothing seems to change and they just keep coming in. I call back using *67 just to see what will happen, and inevitably it is not a real working number. Please undertake measures to thwart these abusive tactics and intrusions on our private lives and important matters? I owe no debt except a small mortgage balance on my house. But I've only owned my current cell number for three years and have no idea who used it before that.
gary	chicago	IL	Its gone ontoo long. Time to end it.
Ann	Annandale	VA	Please stop anyone from using cell phones to advance their robocall agenda.
PAT	SALT SPRINGS	FL	It would be absolutely wonderful is we could stop these unnecessary/unwanted calls to our phones. They happen to be causing us waster of time, aggravation and money! It's getting beyond ridiculous. It would be greatly appreciated by many if these calls would be STOPPED! Thank you!!
Colleen	San Diego	CA	Put an end to it now.
Karoan	Hudson	FL	Please stop robocalls
Ed	Los Alamitos	CA	Please end the rude, useless robocalls! Thank you for taking action on this critical consumer nuisance!
RoseMarie	Fremont	WI	Please stop all robocalls.
M K	SACRAMENTO	CA	There is no reason I or anyone else should be subjected to robocalls. I have muted the ringer on my home phone and keep the line only for emergency in case of electrical outage. I show 4 or 5 missed calls daily on the call log. It's ridiculous to have to take these measures in order to NOT have my daily routine constantly interrupted by these unwanted calls. I am now starting to get them on my CELL phone. That is TOTALLY unacceptable. I pay a lot of money for the convenience of a cell phone. I don't need to be distracted or have my time wasted by answering these useless calls. They are like annoying mosquitos constantly buzzing around your ears. No one should have my cell number that I haven't given it to. Period. PLEASE do something to stop them.
Lori	Norfolk	VA	No Harrassing Debt Collection robocalls to cellphones !
Gerald	Las Cruces	NM	Please do the right thing and protect us the consumers by putting an end to robocalls. These calls are a nuisance and should not be permitted to continue.

Jessica	Menlo Park	CA	Dear FCC, Please stop cell robo calls. 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available Thank you, Jessica K.
Gordon	Larkspur	CO	The number of robo calls on my phone and fax lines have created a situation wherein I have had to disconnect my fax line, and we no longer answer our phone unless we recognize the caller ID or number. Politicians, solicitors, surveys, charities, extc., make up about 80% of the calls we receive. Telling or attempting to get them to stop the calls is totally ineffective, and a fax sender has to call me in advance so that I can reconnect the machine.
Steven	El Paso	TX	I have a good credit record. I am not in arrears on payments. But even if I were, I would be annoyed and insulted to receive robocalls from bill collectors on my wireless phone. When those calls are launched by a computer there is no real consideration of the time of day or what the recipient may be doing. It's bad enough to receive such calls on a land-line phone, particularly when it is unnecessary. Such calls to wireless phones should be illegal and costly to those collection agencies who employ robocalls. If the collector really expects to collect the debt, do it the old fashioned way, have a live person who understands the credit code make calls to speak with the debtor, not a computer which annoys everyone. Harassment is not a civil right to which debt collectors are entitled.
Sharon	Greenville	IL	This afternoon I received 4 [four] robocalls in a 2 hour period. Please, Please stop allowing these.
Nikki	Pembroke Pines	FL	Use your office to protect the people you are supposed to protect, and that is not businesses.
Joanne	El Cerrito	CA	We receive so many calls that purport to be IRS, our bank or credit card company threatening action if calls are not answered or returned. All of know of elderly that have fallen for this.....surely accountability for illegal activity of this sort can be addressed by FCC
David	Woodland Park	CO	A robocall is similar to an intruder into my private space. If I don't open to door to a stranger, why should one be allowed into my space electronically? I have telephones for my personal use and my convenience. To have that instrument abused by someone I do not know is wrong and an insult to my reasons for owning a phone and paying for the right to use it.
Pennelloppe	Beaverton	OR	As a poor person with only a prepaid phone card phone which I only use for necessary calls, I can't afford to get robocalls that waste my money (units). It is especially annoying when the call is for someone else's debt collection or sales of something I don't want.

Christine	Amarillo	TX	I get Robocalls at all hours of the day on my cell phone. Almost 3/4 of the time they call, I say hello 4 times before anyone responds. My elderly mother also gets Robocalls on her cell phone. She only gives her number to family so she assumes she should answer every time. Some of the Robocalls are scams that prey upon the elderly who are concerned about the IRS, car warranties and bank fraud. It makes me angry that there is no method to block these calls. In this day of amazing technology, I honestly can't believe phone companies cannot allow customers to block Robocalls.
Stephen	Burlington	NC	I am fed up with robo calls on my land line at home, to the point we are dropping the old stand by because of it! What a shame, 100 years of high quality calls destroyed because we can't agree to let the phone companies block calls WE, the end user defined as unwanted! Please don't let these pirates destroy another system.
Jack	Temecula	CA	Please stop the robocalls now both on land lines and cell phones! They are extremely annoying and I won't buy from any of them.
James	Hampton	NJ	Sirs, The "Do Not Call" list has been a dismal failure due to your lax enforcement and a lack of penalties for the offending companies. It's time to stop robocalls to my phones - all of them!
Jonathan	Newton Highland	MA	It is enough to drive the American people crazy?
Roy	Pacific Palisades	CA	I already don't answer my hard line phone because of so many robocalls. Please do not allow robocalls to cell phones!!
Simone	Orchard Park	NY	I would like you to ensure the following with RoboCalls: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
Sue	North Olmsted	OH	Please stop these on our land lines and cell phones, it's an intrusion and waste of my time...
Donald	Candler	NC	We need to stop all robocalls. I receive numerous calls daily from organizations looking for people that I do not know, or people that do not live at my house. I should not have my privacy disturbed by calls that do not pertain to me. Telling these organizations to stop calling is fruitless, they ignore my comments.
Ned	Asheville	NC	The debt collection industry is swarming the FCC to demand wide-open access to us at home, at work and on the go. I have received many of these calls and request that you regulate these unwanted calls from the debt collection industry.
Elizabeth	Rochester	NY	I feel this is harassment and a true invasion of privacy.
Fendrick	Shalimar	FL	I receive numerous robocalls each day on both my home phone and my cell phone even though they are on a no call list. Please ban them once and for all.

Maureen	Brooklyn	NY	Please do NOT support Robo Calls to calls. This is a privacy right that must be supported.
Kevin	Easthampton	MA	Please stop all Robocalls.
Penelope	Lenexa	KS	I work nights. And I'm sick and tired of being woken up in the morning from a telemarketing call. I've already registered with the federal no call list, but it doesn't seem to phase them as they are normally calling internationally and are unaware of our laws. Please do something!!! Make the companies enlisting this international assistance responsible for following the federal laws and regulations.
Ron	Broken Arrow	OK	I am not sure why but the number of robocalls I am getting now on my cell phone has more than tripled this year. I have listed all of my phone numbers on the Do Not Call Registry but it does not seem to work.
Kim	Santa Clara	CA	Robocalls are annoying enough on landlines, but on your cell phones when you have a limited budget of minutes to use, it's unthinkable. Robocalls should be eliminated. Period.
chet	arlington	VA	extremely rude
Bonnie	Port Hueneme	CA	Robocalls are an intrusion and offensive. There seems to be no way to tell them to STOP so please control them on our behalf. Is that not part of your responsibility?
James	Otto	NC	It time to srep up and stop robo calls on cell phones and landlines. We deserve our privacy and should not have to be answering these calls, we should not have to look at a number to see where the call is coming from, now they even send numbers out listing our local number to get us to answer. We already have laws to regulate this it's now time to procsecute these people. What good is a do not call list if we don't enforce it. Stop ALL unwanted calls robo call, medicare calls, back braces you ordered, POLITICAL CALLS, and charitable donation calls. Send them the message you can't do that. Thank You James Halpin
Dave	Peoria	AZ	Please end Robocalls immeadiatly and without exception
Rick	Lompoc	CA	Robocalls can be a deadly distraction while driving. I can personally testify to one fatal accident caused by a robocall when a seventeen year old girl thought it might be her mother. She didn't answer the call. She was just trying to see if it was her mother calling. It wasn't. She hit a large tree at 55 mph and was killed instantly.
Sara	Martinez	GA	I get 3 to 4 robo calls per day from phones all over the map. Some are from card member, some are from student loans (I have no student loans). I can't make dinner for my family without interrupting phone calls. This has got to stop!! Help us please.

Larry	Marysville	OH	Unwanted calls to our cell phones should cease! There should be an easy way for cell phone consumer customers to block repeat calls from robo-callers and other scam and nuisance callers. This should be a capability provided by the cell phone service provider. My personal cell phone blocking capacity was maxed out long ago. I miss legitimate calls every day because I refuse to answer calls from suspicious numbers. I pay for service which I am unable to fully use because of misuse by crooks and other uncaring and inconsiderate persons.
mark	weston	PA	it stinks for the pay as you go phone users
William	Centennial	CO	Robocalls cost me money because we pay by the minute. They are also annoying and time consuming.
Steve	Loveland	OH	I have not given any group to make robo calls yet my wife and I receive too many. We receive these calls on our cell phones at partially bad times. Please pass rules which will eliminate or drastically reduce these robo calls. We should certainly be notified by robo callers of our right to stop receiving such calls. Clear guidelines should be known by senders and receivers. Please resist the lobbying of the robo callers. Preserve my privacy!
J Philip	Morgan Hill	CA	I oppose robocalls to my cell phone without my permission, otherwise I will be stuck screening unknown numbers and malicious texts around the clock. Conditions for allowing calls must include: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available to everyone Thank you for giving consideration to my concerns
Charles	Yucaipa	CA	Robo calls waste time and money, please outlaw all robo calls for cell phones and landlines.
Len	Boise	ID	I've had a belly full of robo calls, AND those who support them!
Eldin	Kawkawlin	MI	I have a prepaid cell phone and pay for every minute used so everytime I get an unwanted call it costs me money even if I hang up right away it still costs me a per minute charge.
Terry	Westwin dr.	AR	Please Stop the annoying RoboCalls Calls. They waste my time and cell minutes! !!!
Shirley	Lakeside	CA	I receive 4 or more calls daily all the way up to 10 P.M. There has to be some way this can be stopped. No matter how many times I ask them not to call or take me off the list, it still continues.
Robert	Villa Rica	GA	STOP ROBO VALLS ON LANDLINES & WIRELESS PHONES
CAROL	DOVER	DE	WE PAY FOR OUR PHOINES AND THE SERVICE, WE CERTAINLY DON'T NEED THIS HARASSMENT.
Travis	Dacula	GA	The FCC should ban all robo calls to both land lines and cell phone numbers.

Harold	Parker	CO	Enforce your own laws! Even though all my phones, cell and landline are on the Do Not Call list I still get lots of calls and robocalls I don't want. Don't allow Robocalls to those of us (everyone?) who don't want them.
Eliud	Jacksonville	FL	Shouldn't be allowed for any reason. It's annoying knowing they can contact you anywhere and anytime.
michael	Mpls	MN	I pay for a cell phone and have limited minutes. Why must I pay to have robocalls I don't want from people I don't wish to do business with. Make them stop.
Randy	Auburn	CA	Robo calling should be illegal on both land lines and cell phones
Linda	Muskegon	MI	We use our cell phone mostly as an intercom between floors as we're elderly and my husband is bed-bound. We do not need these irritating calls waking him or interrupting me! Plus, it costs me minutes and they are not free.
roy	Patchogue	NY	In addition to the bullet-points from Consumer reports, below, Simply stated robo-calls are invasion of privacy, and they are annoying calling between 4 pm and 9 pm. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available I oppose ALL robo-calls; and they should be reined-in if not stopped completely
Richard G	Madison	WI	Enough of this marketing via robo-calls!
Louetta	Auburn	WA	Even though I have registered my cell phone number on the "Do Not Call List" I continue to receive irritating "robocalls." This needs to stop. They hound a person, calling every day, sometimes multiple times in a single day, and continue calling for many many weeks! This really needs to stop.
Russell	Madison	WI	I want this to stop now.
mark	franklin	NJ	Robocalls and other unsolicited calls are the most annoying thing in my day on a daily basis. They call at all hours, and are extremely annoying.
Lisa	Dallas	TX	Do not allow these types of unauthorized/unrequested calls!!!
e	cary	NC	We pay for the phone service we use. Robo calls are an invasion on our life.
Dave	Fort collins	CO	I have been being called all day long by mortgage companies, solar companies, companies, insurance companies and scam artists. I am tired of having to leave my chores to answer my phone for no reason.
leslie	Weston	CT	I must get 8 to 10 robocalls a day. I am in my 80's, have difficulty getting to the phone, only to find out it's these hucksters. I try to hang up immediately--or tell them that I can use what they're selling. Sometimes there is only silence on the other end of the phone, and I worry that they are somehow hacking into my private material. These people are not only pests and time wasters, but may well have criminal intent.

Suzanne	Memphis	TN	Please stop Bridget and all of her co-workers!
Robert	Fremont	CA	Robo calls to cell phones are a DANGEROUS distraction to people on the go.
Cheryl	Palos Heights	IL	Please end the robocalls immediately! They are intrusive, inconvenient, disruptive, inconvenient, and at times even disturbing. They must end.
Danny	Atoka	TN	STOP ROBO CALLS NOW!!!
Wim	Orchard Park	NY	I would like you to ensure the following with RoboCalls: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
Kathrine	Newcastle	CA	Robocalls are a gross violation of my personal privacy. I do not invite them into my home or my person via land line or cell phone, have asked to be on a no-call list and want no more of them. I want then ALL to be blocked.
Lanora	Marion	TX	I do not pay to get robo calls on my cell phone. I use it for personal calls. My husband has cancer and I do not need my cell phone tied up with robo calls. It is bad enough that I get them on my landline and now I am getting them on my cell phone. ENOUGH IS ENOUGH.
Monet	Houston	TX	End text messaging to achieve impossible ends and gains.
Marie	Langhorne	PA	Why do we have to be subjected to these interruptions in the privacy of our homes. My husband just passed away and every time the phone rang while he was dying marieI thought it was the doctor or the nursing home. Most if the time it was robo calls.
Willie	Pensacola	FL	I received four to five calls every day. Stop the calling.
Richard	Montgomery	AL	It is irritating and a waste of time to continually receive robocalls. Please help!
Anthony	Minneapolis	MN	I am very irritated both by robocalls and by the inaction of government regarding this issue
Michael	San Fernando	CA	My cell phone has become almost useless because of the high number of Robo Calls i receive almost every day. My Verizon cell service only lets me block five numbers at a time. I useless anyway because most of the numbers are fake!
David	Akron	OH	As an involved voter I will keep tabs on how my representatives are looking out for my interests, not special interests.
maurice	boca raton	FL	telephone service is bad as it is now(waiting for dial tone,long waiting times etc,) high prices for phones.
John	Thousand Oaks	CA	Robo calls are ruining my life. They are not just an inconvenient, they are very intrusive.
Sandy	Port Washington	NY	Please stop the robo calls it happens every day it's almost like having a stalker.

Sandra	San Antonio	TX	Internet and phone users deserve to feel confident that we will be able to use our phones without being harassed by robocalls and malicious texts.
Clotilda G.	Bernardsville	NJ	Robo calls come when I am expecting an important call from my daughter, my doctor. I am sometimes listening to important information on the news.
Lawrence	Sparks	NV	When you are no longer allowed to pick who you give your number to, I consider that an invasion of my privacy. And there are some people that pay by the minute and lose their ability to use their minutes as they wanted, because somebody thinks it is a good idea to robocall them.
Gail	Everson	WA	I am so tired of all these robocalls. Stop it please.
brad	pompano bch	FL	common sense tells you this should not be allowed. Complete intrusion of privacy.
Lorraine	Chicago Heights	IL	I have been receiving an increase number of robocalls on my cell phone. Please put measures and penalties against companies who use robocalls.
Roger	Homer	AK	Individual owners of cell phones should have absolute control of them by not allowing ANY robocalls at any time. Maybe allowing this horrible practice should begin with members of Congress having to put up with them as a demonstration of how welcome they are!
Joseph	La Jolla	CA	Please stop robocalls to cell phones, including those from debt collectors. They must send requests in writing. It is distracting and costly to receive robocalls and this must stop. I urge you to impose strict guidelines and not be pressured by special interests. Thank you.
Keith	Belleville	MI	Why should we have to deal with these robo calls when no information was solicited in the first place. It is just a huge waste of our time.
Christine	Cleveland Hts	OH	When a customer signs up with a telephone company, and pays for a service, it is the company's responsibility to ensure that their customers are not plagued with unwanted calls which intrude in the privacy of their home. Some calls start at 8:00am and do not stop before 9:30pm (the Red Cross for example). It is a nuisance and must stop.
Peg	Vienna	ME	Every time I get a robocall it costs ME money. I pay for the phone, and it is very costly on my retired teacher pay. The calls are annoying and interrupt getting medication. Thank you for this opportunity to speak. Sincerely, Peg Lang

Kay	Hemet	CA	I pay EVERY month a fee so my telephone number is NOT listed in order to avoid calls I don't care to receive. It is a waste of money because of these robocalls being able to get through to my number even though it is blocked. I am a senior and live on a very small fixed income. I really do not appreciate both paying for an unlisted number when calls can get through in spite of it being unlisted, AS WELL AS having my privacy invaded and flooded with these obnoxious robocalls. STOP THEM FROM BEING ABLE TO PLACE ROBOCALLS!!!! P L E A S E!
Brent	Van Alstyne	TX	The FCC must take immediate action to stop Debt Collectors from making these calls. Not only should they stop these calls but not only stop calling friends and family. The penalty for violation should be immediate the CASH amount must be extremely HIGH to stop these corrupt business from making these calls.
David	Fairhope	AL	Please limit robocalls get for debt collections! But more importantly, please end robocalls for solicitation purposes!
Earl	Bonnors Ferry	ID	I continue to receive Robocalls from illegitimate businesses with scams that ignore the existing rules. My phone numbers are all on the do-not-call list. Some other way is needed to stop these Robo calls. It is apparent that businesses that are trying to defraud consumers are not going to follow the rules or the law. We need a way to block these calls at the source and the Telephone Companies are well positioned to provide this. Please order the Telephone Companies to provide efficient affordable blocking services. The reasonable fee would be appropriate to defer the cost of this service.
Byron & L.	La Mesa	CA	I recently had heart surgery. My poor heart would jump awake during my recovery at home as up to 6 robocalls a day woke me or made me walk toward the phone. Turning off the phone was not an option due to calls from my doctor's office. Ringing begins at 9 a.m. and sometimes lasts as late as 9 p.m.
Velda	Roseville	CA	I am the only driver and caregiver for two disabled family members. Several times a week now I am driving and calls come to my cell phone which are robocalls. Because I don't know until I look if it's legitimate, I have to Pull off the road and pick up the phone because it COULD be a emergency about my family, so I have no choice but stop to check. It's vital these robocalls stop Now !
sheila	SCARSDALE	NY	I am tired of constantly being bothered by unwanted and bothersome calls that impede upon my privacy.
Jane	Milan	MI	I need my mobile phone free to receive calls from my husband's many doctors- he's very ill. I don't need calls from machines tying up my phone!
Erwin	South San Franci	CA	Please stop this harassment of businesses calling me at all hours, for things I do not care about; I had to turn the ringer off on my land line sets and I do not answer ever. I feel hunted in my own home and sometimes I miss calls from family and friends.

hatty	dallas	OR	Robocalls are indeed a disturbance to every household and should not be allowed on any landline phone or cell phone,
Rodney	Roseburg	OR	So many unwanted calls that I have to empty my blocked numbers que every few months to start over, many of the same numbers or credit card inquirie companies with a new number. This needs to stop.
barry	oakland	CA	Please stop allowing robo-calls to cell phones! Thank you.
Bruce	Leavenworth	WA	I pay my bills and have an excellent credit rating. So, why am I getting twice weekly Robo-calls from entities who are randomly dialing people that they shouldn't? I am sick and tired of having my privacy violated by the lazy bottom-feeding debt-collectors that have NO REASON to be calling me. THIS HAS GOT TO STOP.....NOW!!!
Eldon	Eugene	OR	My wife has dementia, and I have had to change her cell phone # 3 times. The calls were excessive, untimely, and served no purpose other than to bother her/us. They need to stop.
Debbie	Asheville	NC	There should be clear guidelines for collectors and end users restricting robocalls to cell phones. Unlike land lines, many users pay per minute for cell phone use, including incoming calls. Disclosure should be required at the time of loans or financial obligations and users should have to opt in to allow calls to cell phones at the time of the commitment. Calls should be limited in number and frequency to cell phones by the debt collection industry and should only be legal for the guarantor of the debt, not family and friends and acquaintances.
anthony	syracuse	NY	A cell phone is now an necessity. Privacy is nonexistent.
Jane	Chatham	NJ	I only use my cell phone to send and receive emergency messages. So when the phone rings, I do not want to hear the voice of a telemarketer who refuses to be interrupted.
Nancy	Cypress	TX	Please help the American people control access to unwanted robocalls regarding scams and business deals we have no use for. We should be protected from scams coming from overseas call banks. The Do Not Call list is ineffective. I have stopped reporting calls because Rachel always has my number and the Do Not Call list has not stopped her from bugging me several times a week. If I press 1 to talk to a person, they hang up on me immediately when I ask to be taken off their call list. I am a senior and jumping up to go get my phone to answer a call is painful and exasperating. My cell phone is for emergencies. Personal and business call come to my home phone which also gets multiple robo calls a day. I am so exasperated. Place restore my privacy from robocalls and scams. Thank you!
Hannah	Newton	MA	In spite of the fact that I have been out of school for 36 years, and have no student debt, lately I have been getting numerous calls on my cell phone regarding my supposed debt. Can you get this to stop? Thanks for listening.

Kathleen	ocean	NJ	I don't answer my landline anymore because of the constant harassment from robocalls, even though I am on the Do Not Call list. Consumers pay for telephone service that ends up abused by commercial interest. DO NOT allow them to take over our cell phones too. If they want to be able to reach us for their profit, let them pay for the service.
Jennifer	Taylorsville	UT	The Do Not Call list should be updated to make all robocalls illegal. It is an annoyance beyond compare to have registered for a government sponsored do not call list only to have to find out about loopholes that the FCC seems unconcerned with eliminating. Do Not Call means DO NOT CALL, period.
john	los angeles	CA	I get several robocalls a day. The scams are the worst (IRS, Felony litigation). I had enrolled in the do not call program, which is worthless.
John	Boulder	CO	Robo calls are one of the greatest annoyances involved with having any phone. They severely squander valuable resources, and should be stopped by any means possible.
Norman	Tustin	CA	Please stop all the Robocalls we keep getting on our house phone. ease stop all the Robocalls we keep getting on our cell phones. These phone calls are dangerous and can be expensive AND they keep coming and coming and coming. PLEASE HELP US ALL NOW.
Ah-li	Columbia Heights	MN	It is more than just annoying to constantly receive robocalls on my cellphone. I end up paying for someone else's advertising. That's not right. I opted out long ago, but I still receive them. It's time to stop them!
Dana	San Diego	CA	I am retired and stay home most days. My phone rings at least 6 times a day. all of them Robo calls. I no longer get up to answer my own phone. That just irritates the hell out of me
Bernard	Bumpass	VA	These robocalls are invading my personal life. It is important that we stop this form of terrorism. I'm depending upon governmental action to act on my behalf.
Jean	Coconut Creek	FL	Robocall rob you of your time, peace, and work momentum. They offer little or nothing in return- assistance with credit card debt you don't have, business loans for your non-existent business, and it goes down hill from there when "Heather" and "Candy" get going. No adult, let alone children, should be exposed to this!
Sarah	Pacific Palisades	CA	NO MORE DISRUPTIVE CALLS!
Edna	Plainview	NY	PLEASE STOP ALL ROBOCALLS TO HOME LANDLINE PHONES AND CELL PHONES!
Van	Little Rock	AR	I'm sick and tired of stopping what I'm doing to get my cell phone out of my pocket only to get these useless calls. I have my phone on the do not call list and it does not matter. Turned my landline off because the only calls I got on it were from these robocalls.

Clarence	Granby	CO	The robocalls are at an all time high, they invade every day and disrupt all normal communication when I have to block 5 or 6 numbers a week, yet they still call. The do-not-call list is not being followed, and worse, the robocall telemarketers laugh at when you tell them this number is on that list. Please stop this
Robert & Linda	Del Valle	TX	I am so tired of receiving robocalls from scam artists, etc. There are more every single day. My numbers (both home and cell) have been on the federal "do not call" list for years. Please help end the calls NOW.
John	New Carlisle	OH	Robocalls to any of my phone lines are a nuisance. On my land line, at least they don't cost me anything other than my time and energy. On my cell phone, they also cost me minutes that I have paid for. Please do everything you can to ban them completely.
Greg	Dublin	OH	I view the actions of business, political and all others that utilize "robocalls" as an invasion of my privacy. Even if I don't answer, I must screen and delete these messages throughout the week. Please prohibit this business practice. Thanks you.
Donna	Rock Hill	SC	It's so annoying to get calls from people who do not know me. If I want something the caller is selling, I would not buy from them. I'd do my own research and call the seller of the product I want. I do not want to answer research questions, either.
Tim	Spring	TX	Please take action to make a significant reduction in the number of robocalls to both land lines and cell phones. Restricting debt collectors (who are usually *so* rude, even when they have reached the wrong person) is only the first step. Please put the brakes on debt collectors by making them follow some basic rules, then take it further to stop solicitation, overseas spoofing of phone numbers, etc, etc. I am amazed at how many times my cell phone and our landline rings with BS calls. Help!
Ronald	Lehighton	PA	Please give those of us with cell phones the ability to choose whether or not we want to be annoyed with robocalls.
Dennis	SNOHOMISH	WA	FCC please enact the strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone.
John	Newark	DE	People who are owed money should be allowed reasonable efforts to be made whole, but in no way should those allowable efforts be expanded. In fact, those efforts should be strictly limited to comply with the three statements above. Enough is enough. Have some common decency.
CAROLINE	NAUGATUCK	CT	STOP THESE CALLS FOR HARASSMENT TO ANYONE, IM SICK OF IT!
Monica	Columbia City	IN	Stop calls
DAVID	Valley Village	CA	No robo calls of any kind.
BILL	wagarville	AL	PLEASE STOP THE ROBOCALLS!
Chad	Pleasant Grove	UT	Robocalls should and need to be banned from cellular phones.

Tom	Cameron Park	CA	I pay for a private landline, a cell phone, satellite tv, the newspaper, and Internet service because they provide me with what I want or need. Yet somehow advertisers have hijacked all of these services and get a path directly to me...which means I am paying to be advertised to! How did this happen and how does it make sense? I do not want to be bombarded with advertisements to buy products! Have manufacturers use the US postal service to send me advertisements. They certainly could use the extra business!
Lynn	St. George	UT	Just read in the Salke Tribune about 84,000 robocalls from Utah companies, most were on the do not call list.
Karen	Clayton	DE	Businesses should be restricted from calling people on their cell phone unless that number has been given to them to contact the person. Not everyone uses their cell phone exclusively and not everyone has unlimited minutes. Businesses should not be allowed to call people for debts or text people for debts with robots. if you are not the person they are looking for you have to take to much time that you don't have to try to get them to stop. Even if you are the person, you should be able to address the issue with a person that can hear you out and do something about it. I find robo calls harassing and in my situation, they were disrupting my sleep and I wasn't even the person they were trying to reach. I had to file a complaint to get it to stop. The company refused to stop the harassment until the complaint was filed.
Dean	Goose Creek	SC	Please implement the strongest possible rules against robocalls to cell phones. The FCC's proposed rules set sensible guidelines for the types and frequency of calls and messages that debt collectors are allowed to make and send. They would also guarantee that anyone receiving a debt collection robocall is clearly told he or she can opt out, and is able to do so painlessly. These are obvious and fair rules, but the debt collection industry is swarming the FCC to demand wide-open access to us at home, at work and on the go. This is not fair, don't let it happen.
Terry	Grand Rapids	MN	Please tell the telecommunications industry to treat their customers as customers and not as victims
Bill	Sausalito	CA	A flood of robocalls from anonymous callers has all but rendered my land line useless. Please don't let the robocallers attack my cell phone.
Ocean	Waterford	CT	Robo calls are harassment in my mind. They are also a great nuisance. They should especially be outlawed when they cause a charge to the person being called.
Sandra	Moreland Hills	OH	I hate robo calls. EVERYONE hates robo calls. They don't have the right to invade my home.
faith	Long Beach	CA	Something must be done to eliminate access to personal numbers by people and orgs that have never been given permission to access by the owner. This is simply unacceptable.

Sheri	Waterloo	IA	Since it costs money/minutes to answer a robocall on your cellphone, I believe they should not be allowed. I believe all robocall so should end. You can't tell anyone that you don't want to receive them anymore, but you'd need an actual person on the line. It's harassment and we don't deserve to be treated this way, in regards to robocalls.
Bruce	Austin	TX	I do not want unsolicited calls to my cell phone. It is s gross violation of privacy.
Sharon	Dayton	OH	Please don't allow the robocalls on any phone. They call over and over and many of them are ugly and threatening. Please protect us!!
rick	Anaheim	CA	stop,stop,,,,,,,,
Nancie	Shelbyville	KY	I am a senior citizen assaulted by robo calls . Student loans , win a cruise , a medical alert or security system , my credit card is OK but Give ATT customers a break , please . Perhaps my grown son has incurred bills and gave my phone number as a contact ??? I do not know he hasn't lived here for many years and NO I have no idea how to reach the homeless unemployed estranged person they are seeking . I get more robo calls and messages on my home phone than I do from friends and legitimate callers . I feel sure it is within your control to stop it - SO , STOP IT !
James	Pearland	TX	Please stop all robocalls and unsolicited call to both land lines and cell phones. There should be no distinction between the two. I maintain my telephone for my use. Telemarketers should not be able to use services that I pay for their gain without my express and explicit permission. Also, debt collectors should be required to notify people of their right to stop receiving their calls, The number of allowed debt collection calls should be limited to two calls per month and they should be made only to those individuals that directly hold federal debt. They should not be able to call friends or family. All of the guidelines should be readily available for public access.
Joseph	Yellow Springs	OH	Please stop allowing Robocalls on cell phones! Some of us pay by the minute, and these calls cost us money. It is rude, and an invasion of privacy to allow robocalls.
Paul	Thousand Oaks	CA	I have had a product called nomorobo on my land line for several years and not a day goes by without several unwanted calls blocked. We call screen the non robo calls and only respond if we recognize the caller or they leave a message we wish to return and we receive several of these daily. The FTC should stop ALL ROBOCALLS PERIOD for all phones, land or cell. In my case I am on a measured cell phone plan and all these unwanted calls use up my minutes as well as my right to the quiet use of my home. Even if I could call screen the minutes are still lost on my cell phone.
Diana	Mill Creek	WA	I do not appreciate robocalls at all and especially do not want them on my cell phone.

Duane	Conshohocken	PA	Automated calls are essentially audio spam messages - they are low-cost to the sender, but provide a widespread, general nuisance to their audience. Please rein in the abuse of these unwelcome mass messages.
Susan	Germantown	TN	You will NEVER convince me that with all of ATT's technology, that they can't eliminate Robocalls. They say it's the FCC rules that ALL calls MUST go through. I think Robocalling allows them to sell more phone services that they otherwise would lose. Not to mention that Robocalls are usually show up on caller ID as non-working numbers when you try to call the number back! Really, they can't stop these calls before they get to my phone?
Robert	Fresno	CA	I am over 78 years old and since the first sales calls to phone numbers started I have objected because my home phone number is not their personal sales tool. The joke is on them, too, because I add to my Blacklist anyone making a sales call to my phone and they will never get a dime of my money! I now receive 27-30 sales calls, robo and otherwise on my home phone everyday and I am on the Do Not Call Registry! My cell phone is also on the Registry and I so far have received sales calls from 2 companies. You really need to not allow ANY calls to cell phones for sales purposes. Many thousands of people, myself included use our cell phones for business purposes only. Even my family does not call me on my cell phone...except emergencies. My cell phone is only for my Notary work and I don't know what I'll do or can do, if I start getting lots of sales calls while I am sitting in front of borrowers trying to get their loan documents signed. This is a sad state of our privacy if they can invade our cell phone life as they have ruined it for us on our landlines. I cannot fathom any legal reason to allow sales calls, robocalls or otherwise to disrupt our peace and quiet. There are enough other ways to advertise, it doesn't have to be this nastiness.
Alexis	Alvarado	TX	Absolutely no robocalls to cell phones is to be tolerated. We want to have peace and not be harassed by someone trying to sell us something. They use deceptive marketing and approaches and I want no part of it.
Lewis	Victoria	TX	Debt collectors should NOT be allowed to contact anyone on their cell phone. They should not be able to use up the minutes a cell phone user has in his account. This should apply to all, not just debt collectors.
Paul	Wishon	CA	STOP THE ANNOYING CALLS _ USUALLY AT DINNER OR BED TIME!!!!

j	rescue	CA	Debt collection robocallers must notify us of our right to stop receiving calls, which they do not currently and have someone enforce any such violations. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family--I get far more than that every week from someone who has a wrong number not related to me or anyone I know. The guidelines should be clear and readily available.
David	Scottsdale	AZ	As a physician who needs his phone available for emergency communications, Robocalls interfere with patient care.
Laura	Pacific Palisades	CA	Please stop robocalls to cell phones.we are plagued by them hourly!
Mark	Clearwater	FL	End robocalls!!
Ronald	Lehighton	PA	Please put a stop to this unnecessary and annoying calling.
Heather	Chapel Hill	NC	The number just keeps increasing, and none of them are worthwhile!
David	Williamsport	PA	I pay good money for my cell phone account and deeply resent anyone being permitted to abuse me in this fashion for any purpose.
Rhonda	Harrison City	PA	I find it very intrusive for these robocalls. We receive them on our cell phones and our land line. They have a different number every time and sometimes they show up as a local number. It's really annoying and makes me angry that I won't answer my phone when a strange number comes in. If it there was an emergency and my family is calling on a strange number, I wouldn't know since I hate those robocalls and don't answer unknown numbers.
Patricia	Indio	CA	I am getting robo calls on my cell. consequently, I don't answer, I try to block all I can, but somehow other numbers pop up. I am getting inundated. I can't keep up with the blocking. Also, those calls that are from unknown and you can't block them are frustrating. What can we do?
John	Jupiter	FL	I get several robocalls a week. Most do not apply to me and my living style. They are very irritating. And this is on a no call number too.
Chris	Durham	NC	FCC, do your duty and put a stop to these damned robocalls!!! I absolutely resent receiving them, and since you have the power to do something about it, I expect you to take action.
Ross	Walnut	CA	I'm about one or two calls away from canceling my land line . No real calls just junk!!!

Dana	Lexington	KY	I have placed all our phones on the no call lists. But we are still bombarded with robo calls offering to reduce the interest on my student loan (I don't have one), keep me from being arrested by the IRS, reduce my interest rate or tell me I've won a trip. Not to mention the computer technicians who don't speak good English or know anything about computers. Many of these calls are spoofing my home phone number--not hard to figure out that one is not real or have area codes that do not exist--If I can tell they are not legitimate calls, why can't the phone company? I think more guidance should be given for guideline on how to opt out or make these callers stop wasting my time and phone minutes--the guidelines should be clear, available, and enforced! I even think that charitable causes should be limited--we have had some who call the home phone and when they are turned down--continue to call the home phone while calling cell phones too. My phone, and my family's phones, should be ours to use free from unnecessary, unwanted, scam laden calls. I worry about my elderly father being scammed by some of these people--and many elderly are! Please set limits and stop these callers!
Rebecca	North Kingstown	RI	I oppose robocalls to my cell phone without my permission. They invade my privacy and take up valuable time.
Kathleen	San Francisco	CA	As a disabled senior, I receive 6 or more robocalls a day. They outnumber regular calls by at least 10 to 1. If I am waiting for an important call (ie from a doctor), I rush to the phone, increasing my risk of a fall, only to find that it is a robocall. Robocalls have even prevented important personal calls from coming through. I use a walker and a leg brace, have multiple diagnoses. Rest is important for managing my physical condition, but the robocalls ring and prevent that as well. I have entered numbers on the national do not call list multiple times to no avail. Recently I have had such calls at 10:30 PM. You could do something about this if you wanted to, but apparently you don't care about the health and safety of the American people who are disabled and elderly.
Roger A	Chattanooga	TN	I am a widower who gets frequent calls that have no connection with me, offering services or merchandise I can neither use nor want. I do not have a mortgage, but regularly get calls about help in saving money on one. I do not need insurance, but have gotten calls regarding that. Each call interferes with my meals, my reading or my working on my hobbies.
Linda	Dickson	TN	All Pare a nuisance. I have even been called at 4 a.m. Please put some teeth in the law which allows people to opt out and not be bothered with all these calls.

janet	Saint Paul	MN	These robo callers are criminals trying to scam you out of your money. They swear at you, wake you up when you're napping, raise your blood pressure when you get so mad you could scream. I pay for my phone and I should be able to screen my calls and as long as they are illegal because I am on the do not call list, I demand that the law be enforced and these criminals stopped
Harold	Powell	OH	I receive 20+ robocalls every day. This is a major nuisance that has an impact on my family's quality of life. Please help us live in peace.
Carl	Norfolk	VA	Please stop the continuous invasion of my privacy! Is the alternative removal of my phone service? Your choice!
John	Sioux Falls	SD	More and more we are hearing of distracted drivers causing accidents and how many times is someone answering a Robo call to a cell phone? Additionally, cell phone numbers are not associated with a specific address or even geographic area so these calls are not related to local interest or relationship. Finally, unsolicited calls are like unjustified searches, they are invasions of our privacy. They should not even be allowed by political, religious , nonprofit, or organizations with whom we may have or have had a business connection. Phone systems should not have any role in fund raising or marketing, that is what the USPS and the internet is for. Stop calls especially to cell phones for safety's, privacy's, and technology's sake.
joel	pasadena	CA	please no rob calls
Ghanshyam	Holmdel	NJ	I would like FCC to help to stop the robo calls that I receive so many times each week. They are extremely annoying and waste of my time. Please help!
Robert	Saint Charles	IL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Chris	Torrance	CA	We receive at least 5 calls a week. They are very annoying and should be terminated. We desperately need immediate congressional action again it.

Martin`	Freehold	NJ	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. We've included some bullet points for things you could tell the FCC, but it's important to give your thoughts in your own words. If you oppose robocalls to your cell phone without your permission, simply say why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Christina	Philadelphia	PA	Robo calls have no respect for time we get these calls at all hours of the day and night. They are annoying because most of the calls are rerouted I've answered calls that had my name and phone number show up.
Jaye	San Antonio	TX	Stop these calls please!
Susan	Edina	MN	Our ability to sign up for NOMOROBO for our landline has made a huge difference in our lives. The intrusive robocalls were invasions of our privacy. The same technology needs to be put into effect for mobile phones. There is no reason they should be treated differently.
Helen	Jupiter	FL	We should not have to be inundated with machines calling our cell phones while at work or home. Let m mail us instead.
shirley	bakersfield	CA	please stop robo calls to cell phones it cost us money to try and stop them
Ron	Danville	IN	Not just Robocalls but also the seemingly unending stream of commercials that are increasinly taking over the internet. Literally nothing may be examined without paying a tidy amount of our skin to a vendor's pleas to buy. Unending, increasing and disgusting!

GAIL	EL CENTRO	CA	It is in the best interest of consumers that ALL ROBOCALLS be either eliminated or severely restricted. Relatives and friends should never be subjected to ROBOCALLS intended for the actual debtor. Family and friends are just that, family and friends and should not be included as targets for harassment to put pressure on the debtor. The holder of the debt should be required to be identifiable through Caller ID. The title "Debt Collector" should be attached to the caller's phone number. Restriction to a combination of no more than 3 contacts per month with the debtor (calls and texts combined) and NONE allowed to family or friends. The ROBO message must be preceded with the comments "In accordance with Federal Law we are required to identify this call as an attempt at debt collection" then identify the debt collector, the company, the name of the intended recipient, and a phone number to call, then end with the phrase "In accordance with Federal Law we are required to state that this was an attempt to contact (name) to collect a debt"
Rosemary	Yonkers	NY	Robo calls need to stop
Kathleen	Huntington Dr.	CA	Stop to robo calls to cell phones
Anita	Fairport	NY	These robot calks are annoying and a waste of my time
Mary	MILLINGTON	TN	Harrassing calls meed to be stopped its an everyday accurance if I block them from calling they send voicemail or emails please put a stop to robocalls now amd forever
Ciara	Redwood City	CA	Please take action to stop these types of calls.
Jeff	Travelers Rest	SC	Absolutely NO Robocallsor solicitation calls especially to cell phones.
Robert	Toledo	OH	The same calls come from a variety of phone numbers. Impossible to block.
Brenda	Battle Ground	WA	robocalls are distracting, annoying and wrong. There is no use for them. They take up phone time.
Susan	Anderson	IN	Robocalls make my life a misery, torment my 90 year old mother and interfere with my business. They will NOT take NO for an answer and no matter what we say to them, they continue to call. Even though we rarely answer those types of calls, they occur all day and well into the evening. This has to stop! Do something besides talk.
Don	DesMoines	IA	My cell phone is for emergencies. My privacy is being attacked at home on our land line,why would these bastards need to harass me or anyone else on the cell phone. Do your job,and stop these morons dead in their tracks.

John	Newark	DE	There is nothing that annoys me more than the unsolicited phone calls we receive constantly from sleaze bags trying to lower my interest rate, help with my college loans, some non-English speaker claiming he is calling from Windows, notification that my several warranties are about to expire, etc. I really believe I should be protected from this constant harassment and that my government should protect me rather than giving free rein to the jerks I have no interest in talking with. By the way, your "do not call list" doesn't work and is a waste of time.
Joel	Bellingham	WA	Robocalls are a form of harassment and should be stopped. I am an intelligent and capable adult, if I wish to know more about politics, fund raisers, or anything else then I will take the time to research it myself. I do not need anyone, especially a computer, to call me and try to 'inform' or persuade me. That ties up lines of communication unnecessarily, and the information is both useless and unwelcome. I pay my bills on time so I don't have the bill collector issue, but any rational human being can identify the potential for abuse by allowing repeated calls, especially when such harassment can be done effortlessly by computer. Harassment of this kind directed at persons other than the subject of conversation should be strictly forbidden. It is not only an attack on the recipient, but also against the subject, and cannot be considered reasonable in any way, shape, or form. These are just some of the examples illustrating why robocalls and other forms of spam are unreasonable and harassing. We should have a reasonable expectation of being free of this form of attack, as harassment is indeed an attack. To protect the people there must be regulations in place that limit the number of calls one receives concerning any given subject as well as limiting the number of calls from any given entity. There must also be regulations requiring those who would contact us to provide us a clear and concise way to stop further contact except through legal paperwork delivered through the postal service. These regulations should pertain to all forms of communication, be they voice, texting, email, or otherwise. They should also be clear and concise and easily available.
Jessie	Phoenix	AZ	Communicating with whomever I so desired to was my choice and reason for purchasing my telephone systems. I do not enjoy or appreciate unwarranted calls from persons or corporations of no interest to me. VERY DISTURBING !!! PLEASE END THIS INVASION OF PRIVACY!!!!
Myriam	Bellflower	CA	Stop debt collectors to robotcall anyone. It is illegally to robotcall your cell phone without your permission.

Tim	Palm Desert	CA	In spite of using "do not call" registries, they are generally ignored. 5 political calls from the same fund raiser in one week is too much (examples: RNC, Injured Firemen Families, Injured Police Families, Wounded Warriors). A given fund raiser will use multiple callers with different telephone number I.D. to avoid reporting. And they will use caller ID blocks to prevent your complaint. The FCC should restrict solicitation to specific hours of the day (avoiding early morning calls, calls at 5-7PM, and require them to use message systems if such a phone service exists, rather than hang up and call again, and again, and again. Robo calls designed to hang-up if a human does not answer should be prohibited. Professional fund raisers should be required to give their names and call back numbers.
Rev. John	San Leandro	CA	I am really tired of these unnecessary interruption doing the day.
Donna	Brooklyn	NY	PLEASE! LET ME HAVE A LIFE!
Amy	Kimball	MN	There is nothing more annoying than receiving a robocall at home, except receiving one on your cellphone in the middle of a meeting, night out, church, nap, etc. What exactly if the no-call list for? Just another way to spend money on something that means nothing? My phone is my property. I do not like people I don't know trespassing on my property!
Elizabeth	Guilford	CT	Please limit text and robo calls. It seems to me an invasion of my privacy.
Charles	Mount Shasta	CA	Robo calls are very annoying and costly. I should not need to pay for their time.
Vivian	Ocean Isle Beach	NC	Please stop all the unsolicited phone calls that we're getting on our cell phones. We're on a Do Not Call List, but we still get a large number of unsolicited calls.
Michael	Oceanside	CA	I would really appreciate it if I NOT receive any calls that I have not solicited.
marilyn	Albemarle	NC	No Robocalls to Cell Phones!
Ric	Kansas City	MO	Please stop robocalls to all cell phones. I have to pay for all incoming calls. I should not have to pay for nuisance calls. If i want to talk with someone, I will call them.
Dennis	Des moines	WA	I am in poor health and robocalls are particularly bothersome.
Steve	Sioux Falls	SD	No Robocalls to cellphones
Carol	Lady Lake	FL	We pay for the privilege of using our cell phones. It is for our personal use. Robot callers shouldn't have access to our personal numbers without our permission
Phillip	Huntington	WV	Please block the annoying robot calls. I don't even want to talk to a telemarketer (or surveyor, etc.) in person, let alone an annoying recording.
Thomas	Seattle	WA	Please stop robo-calling my cell-phone
Ed	Monterey	CA	These calls have neither justification nor utility. Please eliminate them. This is a place where government can do good!!

Valerie	Framingham	MA	No more robocalls. It is my phone, and I want to choose who calls me. I really do not want a 'free trip to the Bahamas', and if I want credit card insurance, I will ask for it. Robocalls are a waste of time, so STOP.
Paul	Lewisburg	PA	I am in my late 70's and am thoroughly disgusted with robocalls. I assume many are recordings but they come at all times of day and night and assume that the person being called has nothing to do but rush to the phone and listen to their 'important' message. The producers of robocalls have a total lack of courtesy.
Robert	Houston	TX	PLEASE BAN all robocalls to cell phones. Regardless of their origin, advertisers, debt collectors, etc. They are merely trying to get the FCC to let them around the fact that many of their targets no longer have "landline" telephones. Robocalls are VERY disruptive and they should be completely banned !
Mary	Sharon	CT	No question that the ORIGINATOR of the harrassing, endless, perverse, unethical, devious, non-transparent, misrepresentational robocalls should, at BARE MINIMUM, pay when sending out these robocalls. But, more importantly, Americans should be able to BLOCK ALL ROBOCALLS - NO MATTER WHAT!! As an American, I fully resent being charged for calls which I do NOT wish to accept; do NOT wish to have continue; do NOT wish to pay for in cellphone minutes; do NOT wish to be a target. HAVE I made myself clear ??????
Pete	Pahoa	HI	Why should consumers have to pay for calls from debt collectors that have nothing to do with the consumers? Those are my minutes and i have to pay for them and the waste of my time in the bargain. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Debt collection robocallers must notify us of our right to stop receiving calls.
Peter	Syracuse	NY	These annoying calls serve no practical purpose, they are just a daily distraction that cost consumers time and money. In my opinion, they are a form of harassment and should be illegal.
James	Rockfall	CT	Do you personally like receiving unsolicited calls on your home or cell phone? I didn't think so... I don't know anyone who does. So please do the right thing for consumers and block this abusive and annoying practice.
Charles	Huntersville	NC	It is not right!
arthur	prescott valley	AZ	Just once; give the little guy a break from these rude interminable phone calls that are so annoyingly invasive. PLEASE!!!
Stephen	Marcellus	NY	We average five calls a day. We now let all calls go to voicemail to cut down on the aggravation. They at all hours and it is very annoying.

Gary	Ridgewood	NJ	Phone calls generated by computer are an invasion of my time and life Stop what your doing run for the phone only to find you've been harassed by a computer Sales calls are bad enough from human beings but at less the sales person has invested his time. The computer is just wasting my time
Amy	NY	NY	It's invasive and annoying to get these calls on both cell and landlines. Most are scams, or threatening, others are for unwanted services. Enough already!
Lani	Laporte	MN	Robo call in the evening are the worst one and when you tell them to take you off their calling list they hang up before you finish.
James	Phoenix	AZ	it's bad enough to get all these calls on the landline.
Michael	Maryland Heights	MO	I am so tired of getting called, interrupting my day, only to hear a recording. I hang up immediately, so there is no point in the call being made at all. Please stop them.
Gail	Oak Brook	IL	Help us
Bob	Fort Lauderdale	FL	Robocalls are offensive.
Barbara	Valhalla	NY	End robocalls immediately.
Ferdinand	Bethesda	MD	Something needs to be done about this problem!
Harry	Machiasport	ME	Don't allow robocalls to my cell phone!
Eleanor	NY	NY	People who have cell phones often have to pay for calls they receive as well as those that are went to them. If someone is trying to collect a debt, does it make sense to use up a poor person's resources so they can't earn what they need to to pay their debt? Using up someone's limited minutes is adding injury to the insult of a robo-call.

Greg	Dallas	TX	I have a land line and a cell phone. The only reason I even have a land line is so that when some situation arises that requires me give out a phone number, I give out my land line number. Then I screen all my landline calls by letting everything go to an answering machine. My landline number must get sold to every entity out there because on some days I have more than a dozen robocall messages when I get home from work. I am fearful of this happening to my cell phone....and on some days it is presently happening. My cell phone is my business lifeline. Every call that comes in I answer because it can be an opportunity to increase the revenue of my business. And I have both phone numbers on national "do not call" list and I still get these calls. I have been in the middle of a conference call (with a client) when an unidentified call is trying to come through...and I put my conference call on hold because I am assuming it is some other participate of the conference call trying to get on....only to discover it is a robocall. Please, I beg you not to let robocalls permitted access to cell phones...they have ruined the use of landlines. ROBOCALLS (TO THE CELL PHONES) WITHIN THE U.S. WILL EFFECT THE ECONOMY OF THIS COUNTRY. IT WILL CAUSE ADDITIONAL ENEFFICIENCY IN THE DAY-TO-DAY COMMERCE OF THIS COUNTRY.
grigoriy	oceanside	NY	No robocalls to cell phone
Peter	Alexandria	VA	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family
Nancy J	Colfax	WA	Please help! Now we are receiving robocalls on our cell phones. What can be done to prevent this?
Debbie	Plainfield	IN	Years ago the government came up with a do not call list... I even listed my cell phones on that list along with my land line at the time. And now, these calls are not even from people but from robots!!! PLEASE allow us our privacy, especially as we are paying for these phones and calls! Thank you for your consideration,
James	Loomis	CA	Stop robocalls to my cell phone. I have a limited number of minutes and these calls use them up. PLEASE stop this nusience.
Irene	Montrose	CA	Stop robocalls!
Dolores	Bethpage	NY	Robocalls are a nuisance. Thank you for helping end them Even when they have an incorrect number they are difficult to stop. Please help curtail them
Chris	Stevens Point	WI	I strongly object to cell phone robocalls. People carry their phones with them just about everywhere, it's not like a home landline. This is beyond intrusive in that it is not only annoying, it disrupts the activities of not just the phone owner but everyone around them. Are we suppose keep our phones turned off most of the time to avoid these unwanted calls? The FCC is suppose to work for the American people, not just corporations. Protect America's citizens.

Christopher	Zephyrhills	FL	1. Debt collection robocallers must notify us of our right to stop receiving calls. 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. 3. The guidelines should be clear and readily available. These guidelines should have been the law years ago.
Marilyn	Hillsboro	OR	I am sick and tired of being unable to answer the phone without receiving threatening calls from the IRS(supposedly), Cardholder services, someone wanting to tell me that my windows pc isn't working right(I own a MAC). So now when my phone rings, I let it go to voicemail unless I can identify who is calling. Sometimes I get 4 or 5 calls a day. I also get calls for the person who previously had my number and didn't pay her bills at least once a week. I also have gotten calls from a payday lender who thinks my daughter-in-law borrowed money. Since she doesn't live here, I don't think she did.
Peter	Manhattan Beach	CA	Robo calls are interrupting and very annoying. I tried to get my landline provider to permit me to control them but without any effect.
Howard	Hollidaysburg	PA	Please eliminate robocalls. They are a waste of time and money! Over 50% of my received calls are robocalls. I never respond or answer the calls. However, I must pay for the received calls!
Robert	Anderson	SC	Please stop robocalls by debt collectors. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Leo	San Francisco	CA	Please enact legislation that would outlaw all robocalls to mobile telephones without advance permission from the owner of the telephone. Also, please enact legislation that would require telephone companies to provide subscribers with a means of blocking all robocalls at the subscriber's request. Robocalls are a nuisance generally. In my case, I use my mobile telephone a lot for my work. Robocalls reduce productivity. Thank you for your consideration of my comments.
Robert	Decatur	GA	About 30 years ago I actually wrote scripts for robocalls, but as more and more of them proliferated, I gave it up. Now I am on the no-call list and report every instance, which I hope will actually do some good, though I sincerely doubt it. We need to put an end to this technology everybody hates and severely punish those who robocall anyway, as we can be certain they will do. They figure it's all right to intrude on thousands to get one favorable response. I hope we will make that one response far too expensive to be worth their time.

Mark	Leesburg	VA	I have many calls on all my family phones that are Robocalls. All our phones are on the Do Not Call Registry, but, that doesn't seem to help. I often file complaints on the Do Not Call FCC site, but, often I don't have enough information as the number or organizational information is also blocked.
James	Chicago	IL	Stop this annoyance, please
Patrick	Santa Cruz	CA	I know this is about robocalls to cellphones, but my elderly wife and I have a land-line and we get several unwanted calls every day asking us to buy something or take a "survey" that winds up, again, asking us to buy something . We are signed up to the National Do Not Call Registry, but this is ignored. We are both handicapped and getting up to answer a spam call is a real inconvenience for us. We don't want to have every call go to our answering machine. We want to be able to answer the phone and not be subjected to unauthorized and unwanted calls. Please, do something!
Paul	Covington	KY	Stop companies from placing robo calls to cell phones! Otherwise companies will continue with annoying and harassing robo calls to everyone's cell phone, INCLUDING PEOPLE THAT WORK FOR THE FCC that have cell phones! Think about that.
Blair	Boca Raton	FL	I really really HATE unsolicited cell phone calls. It enrages me that I pay for the privileged of listening to taped ads that sometimes even wake me up. Whatever you can do to stop this I will be eternally grateful for.
Douglas	Bend	OR	Stay out of my phone.
Edward	Ware	MA	I am very sick of the constant harassment we get day & night even Sunday. The fcc has made it too difficult to report this & why should I have to do anything to be free of this!
Robert	Los Angeles	CA	Cell phones are radio devices meant to enable communications that their users intend between themselves and others. There is no reason why possession of one should be considered automatic agreement to receive communications from strangers, much less from automated systems. If robocalls are not banned outright, then the guidelines should limit the contacts to no more than three per month, and require the contacting organization to provide a mechanism by which the recipient can block further contact attempts.
Patrick	La Vernia	TX	More than half of our calls are nuisance robo calls. They use false caller IDs, so we never answer the phone unless we know for sure who is calling. If something does not allow us to block, we will discontinue our land line service, so Frontier Communications will loose another customer.
Ciara	Redwood City	CA	These calls are intrusive & unacceptable. They need to be outlawed.
Tim	Fort Lauderdale	FL	I had signed up with the Federal Government's no call program 2 years ago and resigned up recently, but the calls are coming more frequently than ever. Please do something.

Fay	New York	NY	Please do not allow this invasive and disturbing marketing technique. I give my cell number only to close friends and family so they can reach me in an emergency. I do not pay for marketers to disturb me.
Jack	St. Petersburg	FL	Enough! The robocalls are escalating. Please put an end to them. Thank you.
Kelly	Fresno	CA	I understand that a provision snuck into the federal budget last fall would change, allowing debt collectors to robocall our cell phones THIS IS ABSURD!! HEY LAWMAKERS, HOW ABOUT WORKING FOR THE PEOPLE INSTEAD OF CORPORATIONS FOR A CHANGE - WE ARE SICK OF IT! WE NEED MORE PROTECTION FROM ROBOCALLS ON BOTH OUR LANDLINE AND CELL PHONES --- NOT LESS!! AS USUAL, THESE SHADY COMPANIES HAVE BOUGHT THEIR WAY IN BY SLIPPING A PROVISION INTO THE FEDERAL BUDGET LET THE LAWMAKERS THAT TOOK MONEY FROM THESES COMPANIES, TO GET THE PROVISION INSERTED INTO THE BUDGET GIVE THEIR PHONE NUMBERS TO THE ROBOCALLERS!
TJ	Seminole	FL	Robocalls are a further intrusion of impersonal corporations into our private lives. It is unnecessary, unwarranted and definitely not desired. Please eradicate the practice entirely.
William	Shelby	AL	I get far too many on my land line phone. I certainly don't want to be inconvenienced to the same extent on my cell phone. Besides the inconvenience, at 89 years of age, I use the cell phone mostly in case of an emergency. Robocalls on it would be a safety hazard to me.
Richard	Wilbraham	MA	Why is it that when Congress passed this law, there were NO exceptions....NOW there are more EXCEPTIONS than to the law's is committed to! Congress, if you want to keep your fat pay checks for a little while longer, do the right thing for Americans or go home! YOU have and are committing your self to looking for a job!
Charles	Costa Mesa	CA	Constant calls, sometimes cloning your own number, so that you cannot block them. Please put an end to this waste.
Gil	Mt. Pleasant	SC	Please, please take action and hear my voice...Oppose Robocalls
David	Galloway	OH	Robocalls are using up my data plan. They don't even apply to me.

Carol	Ajo	AZ	I have a landline so I can have access to the internet. I no longer answer that phone unless I see a number that I recognize or unless the caller leaves a message on my answering machine. I warn friends that that is my policy. I can hear the message and then answer if it is someone I am willing to talk to. I will not interrupt other activities to answer the land line because most calls are junk calls. Family and friends will usually call my cell phone because I will answer that if I hear it. Please don't allow robocallers to damage that line of communication as well. My phone plan charges me for each text message. I am on a fixed income and do not want to have to give up my cell phone due to the additional expense of unwanted robotexts.
Alecto	Oakland	CA	Do your job, please.
Lois	Palatine	IL	PLEASE stop the annoying robocalls. There must be something you can do to help stop these calls from coming to my cell phone!
Tony	Seattle	WA	I am a senior citizen on little income and have to pay 10 cents per minute. The Robocalls are costly and a real burden . Please stop them!
John	Bristol	TN	A robo call every 15 to 20 minutes is no way to live.
Paul	Hudson	NY	Please End robocalls now!!
Lauren	Burtonsville	MD	FCC -- Please do NOT allow robocalls at all. They are unwarranted and extremely annoying. Some days, I get four or five calls from the same company yet from different numbers. This is ridiculous. Please do not allow any robocalls or texts. No guidelines of an allowed number - just allow ZERO calls. Let these companies/people pay to send a notice through the mail if they must bother us at all. Thank you for paying attention to my letter.
Linda	Brigham City	UT	It is not always easy to answer the phone due to physical problems. When I keep having to answer the phone it makes me weaker. I do not need this additional stress. If I simply do not answer the phone I worry my children who call to check on me. Please stop this madness.
Ron	Bend	OR	Stop these damn calls!
Michael	Montevallo	AL	These excess calls will generate needless deaths on the highways. It is bad enough having to deal with continuous interruptions on a land line; they create anger and frustration. such distraction on the road will cause inattention to driving and aggressiveness towards other motorists. - Notify the insurance companies, besides the dilatory reluctance of the FCC to address public requests over corporate. Let us rid ourselves of lobbyists that create our laws for corporate gain, generating misery for the mainstream taxpayers who foot the bill.
Paul	Lake Harmony	PA	Please put strong laws in place to stop robocalls Thankyou
pam	Rapid City	SD	Please get rid of the annoying robocalls.

John	Foster City	CA	Debt collection robo callers should notify those folks they call of the right to stop receiving calls. The number of allowed calls or texts should be limited, and only to those who directly hold federal debt - not friends and family should get the call. Please make the guidelines clear and readily available to all. thanks, John
Gretchen	Olympia	WA	Why do I have to put up with these calls, usually at dinner time, when I pay the phone bill and these companies who are calling don't? This is a total invasion of my right to privacy and tranquility. They also totally defeat their intended purpose because I absolutely will never buy anything from these companies.
George	Whiteville	NC	Please stop all unnecessary robocalls to any phone. The only permissible robocalls would be those warning us of storms or from schools to parents.
Beatrice	New York	NY	they are extremely annoying and cost me to receive them -- so I have to pay to be annoyed
Sally	Sequim	WA	I am so tired of our wispy-washy, do-nothing congress. Each time I receive a robocalls, my intention to vote ever member of the Senate and House of Representative out of office just gets stronger. I tell anyone I meet that this is my goal. I suggest you stop taking donations from the robocalls companies so that you can try to clean up your very sullied reputations.
Phillip	Media	PA	Please end robocalls to cell phones. This is an obtrusive and invasive form of marketing that should not be legal.
n	lakeway	TX	The volume of robocalls and other unwanted calls has skyrocketed. Something needs to be done. It's as though the DNC list doesn't even exist.
Sheena	Denver	CO	I receive about 3-4 robocalls a day on my cell phone, distracting me from work and personal time. As a business woman, it's hard to tell if an unknown number is a robocall or a valid person or client trying to reach me. As such, I've had to stop answering unknown numbers. This is frustrating for me, because it does cause me to miss valid calls from medical provider, clients, etc. that I would like to answer - but don't because I have to weed out the many robocalls I receive every day. Please help end this harassing behavior from companies who should not be able to contact us on our private numbers!
Harriette	Louisville	KY	These robocalls are irritating invasive and I thought illegal. We need to stop them v
Joanne	Pittsburgh	PA	I am an eighty nine and a half year old woman with multiple balance and gait issues. The perpetual wringing of my phone has gone from being annoying to making me frantic. Please enact measures that will m, and other elderly people some respite from this harassment . Thank you

Elizabeth	Montpelier	VT	We are senior citizens and we get several every day, sometimes late enough that we are in bed, and then, aside from the nuisance value, they are a health hazard as one rushes to the phone in case it's important.
Craig	Portland	OR	Make it so that people can signup for NO ROBO CALLS when they signup for the NO CALLS list!
Frank	Diamond Bar	CA	I am a 73 year old disabled veteran and my life is a living hell with constant unwanted robocalls. There must be action taken to prevent this harassment. This is not business it is pure harassment. We cannot afford call screening and have to answer many calls because of important doctor and medical calls. Effective legislation is long overdue on this issue. Please. please help us!
John	Cedar Falls	IA	Robocalls use up my minutes , I do not request them and I should have to be annoyed by then and should not have to pay for the annoyance.
Simon	New Milford	CT	Please stop the to robocalls. They are wasting our time and our money. They distract us and bring nothing good to the society.
James	Lynchburg	TN	I get at least 4 robocalls each day on my land line and 4 or more on my cell phone and I hate paying for a service that I have no control over when I get a call that the caller id is masked to the point that it looks like a local call but when I answer it is a telemarketer.
John	San Benito	TX	These calls distract me when I'm driving, wake me up when I'm sleeping, interrupt my train of thought when I'm engaged in projects. Etc. They prey on people suffering from cognitive decline and/or who are otherwise impaired. Recorded messages. Callers who won't take "no" for an answer. Callers who can't be trusted. Interruptions, frustrations, swindles. Hard or impossible to block most of the calls. Someone's even devised a way to leave voice mails. Opt out doesn't work. Stop the robocalls. Stop them. Stop them. STOP THEM NOW.
roger	bristol	CT	someone please do something I feel we no longer have a right for privacy.Political calls say we can call because were not included on the no call lists. we still get calls with numbers that go no wheres.Helppppppppppppppppppppppppppppppppppppppp!!!!!!!!!!!!!!
Carl	Mcleansville	NC	This has got to change. No company should have the right to do this.
Jon	San Jose	CA	Robo calls are bothersome and time wasters. Please stop robo calls.
Sabina	Emeryville,	CA	Getting cell phone robocalls is harassment. End robocalls to cell phones!

Gilbert	Torrance	CA	I have a prepaid plan. \$1 is deducted each day when I use the cell phone to call or to receive. I use my cell phone only occasionally to minimize my cost. I am a retired senior. Each robocall triggers a \$1 usage deduction whether I answer or not. If this cannot be stopped, can you reverse the charge and place my \$1 expense on the sender?
Sheri	Creswell	OR	These calls come almost all day and night and I NEVER want anything they are hawking. I'm on the Do Not Call List and that is ignored. This needs to stop.
ARTURO	DORAL	FL	PLEASE FCC : GET TO WORK AND REGULATE THIS ROBOCALLS. THIS IS SPAM. THIS NEGATIVELY AFFECTS EVERYONE. DO YOUR JOB AND END THIS NOW
c	Williamsburg	VA	Stop robocalls. I pay (plenty) to have a cell phone for my own safety and my own business. I DO NOT WANT robocalls .
Michael	Batavia	IL	I understand that the FCC is considering strong restrictions on how and when debt collectors are allowed to contact cell phones. I am strongly in support of these measures, and I urge the FCC to enact them. I also urge that these guidelines should be clear and be made readily available to citizens. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt, not friends and family. Finally, debt collection robocallers must notify us of our right to stop receiving calls. Again, I urge the FCC to approve these strict guidelines. Thank you for your attention.
Garry	Somerset	NJ	No cellphone robocalls, please.
Julee	Charlevoix	MI	I have been routinely mistaken for someone else and get their credit repair calls. They should stop. Help me.

Christian	Newton	MA	Debt collection robocallers must notify us of our right to stop receiving calls. In my view this is non-negotiable. But more importantly, they should be held accountable. The brazen impunity and rudeness with which some of the robocallers, or for that matter some unsolicited callers telephone my residence is such, that I'm addressing this to you now. If no number shows in the caller ID screen, and as soon as I ask them for the number, some hang up or become combative. This is outrageous. I can understand the argument that jobs are at stake. Frankly, I value my privacy more. I'm paying for a service that provides for caller ID, but some of my friends and family who call from overseas use services that use "private caller" caller ID. It's reached a point, that unless I don't recognize the number, I don't pick-up. I shouldn't have to decide whether or not to answer a call simply because some parties choose not to honor my being on a "DO NOT CALL LIST". Getting back to debt collection robocallers; the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. So far, I have not been plagued with unsolicited calls to my cellphone. I'm very selective about giving out my cell phone number. My right to privacy should trump all unsolicited calls, period. As frequently inform most unsolicited callers, "I'm on the 'DO NOT CALL LIST'; please do not call here again". Thank you.
Paul	Sacramento	CA	I carry my cell phone everywhere to keep in touch with my family. The last thing I want is to have annoying robocalls invading my privacy. Please protect us from these invasive and annoying robocalls.
Allen	Hanover Park	IL	Please put a stop on robocalls from debt collectors. Even though the calls are for my daughter who no longer living with us, we continue to get the calls.
Mabel	Hillsborough	NC	I rarely use a cell phone, but I get too many robocalls on my land line daily and spend too much time erasing them from voicemail. Please stop all this phone soliciting and conning.
tony	los altos	CA	Ban robot calls -- make 'em get in touch with me through snail mail box!!! --- that's it's for. Require them to use first class!! More money for the ailing US Postal System!! Please!!!
Betsy	lakeway	TX	Please initiate stronger rules against robocalls to cell phones. This is a invasion of my privacy. I only give my cell phone number to friends, relatives and a few people I do business with. Please stop this intrusion now.
steve	speedway	IN	Adopt strong robocall rules right now.
Jim	Medway	OH	Nothing like being interrupted at dinner with my family or while we're watching a movie and someone calls to offer me the deal of a lifetime on widgets or sprockets or something. Please stop this abuse. Thank you

Karen	Tillamook	OR	I never do business over the phone, just as I never respond to pop-up ads, just as I have my computer get rid of junk mail. It is only understandable, then, that I don't want anyone calling me that I don't WANT calling me. It's an invasion of my privacy just like any other invasion of my privacy. I don't have debt or receive calls from collection robocallers, but it only seems logical that if someone doesn't have enough money to pay bills, having someone harangue them day and night to pay isn't going to magically produce money. Hello??? I liked the old method of "Do not call list." Unless I've invited you to call, do not call me. Continuing to call me when I've stated "Do not call me," is harassment. Just like we can block someone on Facebook, we should be able to block someone on our cell phones.
Ed	Flowery Branch	GA	Please enact and enforce guidelines that prohibit robocalls to my cell phone. Please publish the guidelines so that we all understand what our rights are. Limits on the number of harassing phone calls that can be made to cell phones and home phones should be implemented (including those running for political office) and enforced. In addition, I should have the ability to block any phone numbers that I choose, especially those that repeatedly harass me.
Anne	NY	NY	Robocallers have been an invasion of my privacy. I ve been harassed and even frightened at times given the aggressive tactics of these individuals, companies and organizations. For example, I was called immediately after my father passed from cancer by a group claiming they needed money to help their cause to fight cancer several times. And I am on the national Do Not Call List and it doesn't work. Robo calls need to stop. Thank you.
June	Rego Park	NY	I watch for Texas and Florida because that is where my robocallers come from and I have no friends there, yet.
Adrian	Santa Maria	CA	Please stop the cell-phone robocalls! I do not want to have to use my minutes to receive calls I have no intention of responding to. I don't consider or buy anything I receive from a robo call. Thank you.
Beth	flushing	NY	As I was about to start writing, "Carmen" just called about my credit card account, trying to get my information to "switch" me to a new credit card. I don't have a credit card, only debit cards. Carmen is back, she was replaced by Bridgett and Susan and too many others to remember. I don't have debt collectors calling, but I know that I would if I took these cards. All of this nonsense must stop. People cannot receive these calls at work, they don't need to pay for the minutes, and so much of this is bogus.
Ron	Lincoln	NE	I pay for my phone service and the minutes that enable it to work. Robo callers steal our minutes!! Please stop the thieves!!

Sidney	Stoneham	MA	The robocalls coming to my cell phone (which is on the Do Not Call list) are out of control. The existing laws and regulations are being blatantly ignored. Something needs to be done. NOW. I have a feeling that the FCC knows it too. Let's not send this to some committee which will take a year to come up with something.
Stephen	Akron	OH	Robo calls are a bad thing. I expect you to stop them
George	el cerrit	CA	THese calls are a breach of my privacy.
john f	lomita	CA	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available to everyone.
Jeff	Prairie Village	KS	Please help address the problem of robocalls that constantly bombard consumers with unwanted and unsolicited calls. Thank you for any help in this matter.
William	Sanibel	FL	PLEASE PLEASE stop these obnoxious invasive robocalls. It is bad enough to have them on our land line, violating the no call lists, but on cell phones is too much.
Alan	Lathrop	CA	Please stop mobile robocalls now.
Richard	Berkeley	CA	As a physician, i cannot have robocalls to my cell.
Joyce	Wilmington	NC	We get robot calls all day long, starting at 8 am. It is so annoying and time consuming. They range from political calls, scams and sales pitches. Please help get rid of them.
Bedros	Montebello	CA	making money does not mean bothering people by shoving your products or services down people's throat.
Catherine	Gainesville	FL	These robocalls come at all times during the day now. They used to just come at lunch and at dinnertime. Now it's all the time. I never answer the calls because I have caller ID and can tell when it's a robocall. Surely most of the rest of us are equally astute at avoiding their harassment. The trouble is that they are so very extremely disruptive - of a sick person's first chance at a nap, in the middle of a meditation, during an important dinner. My registration with both the national and the state Do Not Call lists apparently have lost all of their effectiveness. Charities and political calls are just as annoying and I will not answer them either. Never. Ever. Stop the invasions.
Roberta	Cincinnati	OH	I am constantly receiving unwanted calls on my land line and cell. They r on my answering machine and call back in the evening. They r a nuisance and unnecessary.
Thomas	Portland	OR	No more robe-calls on cell phones. Please!
Jan	Troy	MI	These calls are a total nuisance & invasion in our lives!

Catherine	Baton Rouge	LA	I am retired and get robocalls and other unwanted repetitive calls to both my landline & cell phone. I am on the Do Not Call list but it appears to now be a list that harassers get to known phone numbers & constantly call. It appears nothing is being done to fix the problem. If the FCC told phone companies that if they didn't fix the problem they would lose their license to operate it WOULD get fixed. They are constant and don't care that you tell them to stop calling as you won't buy the virus protection they say Microsoft is demanding on my supposed virus infected computer. Rachael wants to get me a better credit card and every person running for office does polls which I don't want to participate in. I am on the Do Not Call list & I don't care if you are exempted. I didn't exempt you. I should be able to say NO!!!! And get ZERO calls from these people. I don't want the police benevolent society to ask for money or politicians to call or remind me I have voted yet. I am about to remove my landline and change my cell phone to get some relief. My retirement has turned from a peaceful quiet tranquil time to a constant aggravation of many calls each day. Yes I can screen but I still have to hear that blasted ring. Please help!
Ronald	Wake Village	TX	Robocalls burn minutes and/or data for the people who can least afford it. Many people have cel phones they have to buy minutes for because they cannot afford a home phone or a monthly plan.
JAMES	park ridge	IL	THESE CONSTANT PHONE CALLS ON OUR HOME PHONE AND NOW ON OUR CELL PHONES WE DONOT NEED THE ADDITIONAL STRESS! THANK YOU
Missy	Madison Twp	PA	We pay good money for phone and Caller ID service only to have the majority of our calls be dead air, hangups, or recording like "Rachel from Cardholder Services" or an Indian saying our computer has problems. Prohibit robo calls we haven't opted in to (like doctor appointments, emergency alerts, and school messages).
MARGARET	Shaker Heights	OH	As a cell phone user, I resent having to have my phone right invaded by the robocalls that come-either directly or into my voicemail. This is costly in terms of my bill as well as my time. I believe we should have the right to be on a "do not call" list just as land line users can. Although even that is not a perfect option, it far exceeds having no control at all short of hanging up and/or erasing the messages.
Sankari	Keendall park	NJ	Thee calls come at an inopportune time and is annoying. I just don't pick up calls from numbers that i am not familiar with.
g	elma	WA	No more calls
Sharon	Fairfield	CA	I do not & have not given any robocaller permission to contact me. These incessant calls come early in the morning (7:00 am) and end late evening (9:00pm). These calls are disruptive & the callers are rude & disrespectful of my time & privacy. Stop this madness please!

Joyce	Madison	TN	It is beyond appalling that predatory marketers are allowed to bombard people with intrusions on our privacy, even after politely asked to please not call again - not interested. I am intelligent enough to seek out and find what I want to buy or contribute to.
Ken	Bridgehampton	NY	Hate them.
Daniel	Edgewater	NJ	The technology to stop Robo calls is available. Telephone service providers do not want to spend the money on the software. They prefer their consumers to be annoyed Half to death, day and night. Put the money up to end the annoyance for your loyal customers.
James	St Albans	WV	I am tired of hitting the play button on my phone and having 10 robcalls or more a week. Make it stop, please.
Judith	Bloomington	IN	I don't have any debt, but I object to all robocalls that exploit a service that I alone pay for. In effect they are stealing from me. They have no right to "use" and harass me.
Jaime	Brownsville	TX	We are a retired couple. We often have very important calls pending from physicians, pharmacies and important family matters. Robocalls disrupt our life in ways that are beyond description. We are both disabled and always find ourselves risking injury trying to reach our phones in anticipation of a legitimate call. When we ask politely for the calls to stop, these people are rude and declare they have a legal right to harass us. We are not in debt or soliciting services from anyone. We want to be left alone, period! Using the same legislation which makes it illegal to make frivolous calls to 911 or other first responders. Citizens should not be burdened with unwanted calls. Smoking has been banned in public, why can't phone phishing be banned. Another simple solution, if you receive an unwanted call, the recipient presses "*" and automatically is awarded \$5 credit to the recipient's provider from the caller's phone provider. Bottom line the FCC should simply make robocalls and telemarketers illegal and prosecute them vigorously.
DRJA	Tulsa	OK	Invasion of personal space is grounds for harrassment complaints as well as for cease-and-desist police and court orders.
Dana	Mastic	NY	I cannot take the constant interruptions and disregard for my so called "do not call listing
Alan	Huntsville	TX	I already receive robocalls on my landline, even though I block most of them. I do not wish to pay for robocalls to my cell phone. Furthermore, if I receive them while I'm driving, the distraction can endanger my and other people's lives. For sanity and safety ban robocalls to cell phones.
LAVERNE	BROADLANDS	VA	Robocalls to Cell Phone

T. A.	Falls Church	VA	I have turned my landline into an emergency only device because of the huge number of spam and robocalls I receive (50-60 a week). Since I am 74, I am the target of scam artists who assume I am vulnerable. (I am not, but I worry about my peers who are taken advantage of--and I wonder how long I will be safe). I thought that using cell phones would prevent that, so I have a cell phone for work and another for personal use. I have signed up for every DO NOT CALL list available, but it seems to make no difference. Day, night, early morning I get calls from people I have had no business with--including debt collectors who have the wrong number or wrong name. I am appalled that legislators are considering making you back down on the guidelines that would regulate these amoral people. Please stand strong!
Ron	Bowling Green	KY	All RoBo calls are seeking money or service not ask for. Calls usually come at inconvenient times. My cell phone is for my private use, not for calls unwanted.
Gloria	Pembroke Pines	FL	We receive, on average, 1 robo/spam call at least once a week. Fortunately, since the last year or so those calls, which then averaged 1-2 per day, have become less frequent. It's still extremely annoying to have to stop whatever we're doing to check the caller ID to ascertain whether it's a legitimate call. Although we're on the National No Call list and the State of Florida's No Call list, neither of those agencies that I contacted were able to stop the overwhelming amount of daily calls we we'd been subjected to. For some reason, the calls have become quite a bit less this year. I sincerely hope that with all the technology available, these calls can be eliminated from being able to call our phone numbers.
Gerald	Frisco	TX	I get collection calls from organizations that are looking for my son. I tell them he doesn't live with me nor has he ever since he graduated from college. He is now 50 yrs. old and on his own. I tell the collection co. to stop calling me but to no avail.
Douglas	West Palm Beach	FL	I do not think robocalls should be permitted more than three times a month, and not to friends or family. I certainly don't want them on my cell phone. I also think the robocallers should notify us of right to stop receiving them!
Maryann	Gatesville	NC	We have the right not to be harassed by advertisers/collectors
Marjorie	Seattle	WA	I say it over and over; again and again! I do not want robocalls to neither my cell phone nor to my land phone.
Frank	Obvious	OR	BRING AN IMMEDIATE END TO UNWANTED AND UN SOLICITED CALLS NOW!
Julie	Gainesville	GA	No robocalls to cellphones. This is a serious invasion of privacy!
Teresa	Kirkwood	MO	Typical day with robo calls (Monday, May 23) 1-435-750-4933. Unknown Caller 1-314-720-5649 1-282-357-2537 1-818-206-4554 1-314-526-8299 1-636-224-3292 1-435-750-4933 1-877-336-7200 1-877-336-7200 1314-681-3916 1-818-206-4554

moira	Surry	ME	I have a very ill family member who is repeatedly aggravated by these calls. Sleep is interrupted and health impaired. Please HELP.
Jeffrey j	Orion	MI	It seems as though a signed amount of these calls are directed towards our senior community.
Raymond	Azle	TX	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Peter	Chicago	IL	Please adopt regulations and then enforce them to end robocalls. They are an irritation and a waste of time. They rarely have someone on the calling end of the line so I hang up. Therefore, they are ineffective and are so burdensome that I am considering cancelling our landline which would not be good for the economy.
S Beth	Wahiawa	HI	NO robo calls to anyone whatsoever for any reason. Please end this NOW.
Sandra	Alachua	FL	Robocalls to our cell phones without our permission should not be allowed: Consumers should not be harassed or bullied by predatory lenders and shady companies. Please ensure that debt collection robocallers must notify us of our right to stop receiving calls, limit the number of allowed calls or text to no more than three per month, and only allow calls to those who directly hold federal debt - not friends and family. Importantly, the guidelines should be clear and readily available. Thank you.
Marian	Los Altos	CA	Stop Robocalls!!!
James	Tacoma	WA	It's time to end the robocall nonsense. The common carriers have the technology to control and in essence end this intrusion. I urge you to ensure that every step is taken to stop these calls.
Michael Scott	Oklahoma City	OK	I have a Spam Contact on my cell phone with 43 entries! These are people who call again and again trying to sell me something. I have asked to be removed and it seems I get MORE calls! Please stop this harrassment!
Alfonso	Oxnard	CA	Stop these calls!
Cherub	Spotsylvania	VA	Shouldering the cost of robo calls to my cellphone is 100% unacceptable I do not agree to this activity and want it stopped.
Ana	Chicago	IL	Please regulate debt collectors and keep them from abusing the recipients of their calls.

Joetta	Swansea	ID	Please, please, please stop these predatory robo calls. Because I have several family/business/medical contacts that call from other area codes, I am not always able to discern at a glance that the call is a robo call. The majority of these calls are predatory in nature, and are really confidence games, asking me to check my computer, my credit card account, etc., so they can extract personal information from me. These calls should be STOPPED, no questions asked! Only organizations that I have previously given permission to should be able to contact me. My privacy is important!
David	Sevierville	TN	The daily call volume from telemarketers, few leave phone numbers, no ID, no messages stating purpose of call. The ineptitude of and do nothing Congress who seem to foster these practices. Rid the nation of congressional slugs. Fire the bunch.
peter	urbana	IL	The constant interruption of my day by robocallers is getting really bad. Many of them are outright scams and most of the others are just useless. The phone/communications companies do not provide adequate tools to block this invasion of my space.
Richard	roslindale	MA	The amount of Robocalls and unwanted sales calls to both my home and cell have become a serious hassle. This has got to stop.
Jeanne	Baldwin	NY	Please put a stop to robocalls. They are a invasion of my privacy and a nuisance
William	Santa Paula	CA	I have noticed an exponential increase in robocalls to my business phone. Many of the calls I receive are potential clients so I feel obligated to answer an unrecognizable phone number. More and more, these callers are not clients but annoying sales people. Please help!
Sharon	Tulsa	OK	Debt collection by robocalls is an invasion of privacy and a taking of private property. They are using my property for their purposes against my will. How is this constitutional?
Janelle	Garden Valley	ID	No robocalls to the cells, god knows they are bad enough to my landline, I sure don't need them on my cell phone too! Please stop them!!
Lucia	Cranston	RI	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Robocalls are disturbing, interferes with my privacy and is unacceptable.
Judith	Bolingbrook	IL	Do not allow uninvited and intrusive calls on our cell phones. Many people actually have to PAY to be harassed...call by call. These are totally UNNECESSARY AND UNWANTED CALLS.

Joan	Ingleside	IL	Starting to get robocalls on my phone, even though I have registered all our phones with the DoNotCall site. My solution at present is to not answer any call from a number I do not recognize. It is very annoying to have the phone ring all day long. We need rules in place that apply to all who would use my private phones to conduct their business.
Sylvia	Brooklyn	NY	Even tho for years this was supposed to stop. It still goes on.
Dale	Grand Rapids	MI	Robocalls are a major irritant simply because they have become more numerous and the problem will continue to grow. At some point, we consumers must get relief. Consumers embraced the do-not-call registry specifically to curtail such soliciting.
Colette	Genoa City	WI	They are very annoying and most of them are scammers!!!
John	Denver	CO	Please stop these callers. They are intrusive and unwanted. Companies should not be allowed to use techniques that harass or intimidate and that is what these callers do.
Henry	Winston Salem	NC	I must pay for each individual minute of air time I use on my cell phone; my plan is a prepaid one with limited minutes. I do not want to waste my money receiving debt collection robocalls and debt collector calls. There needs to be a limit to the number of calls allowed per month and I should have the option of requiring callers never to call that number again. The only time I should ever have to deal with debt collector calls is when I actually am the person who incurred the debt.
Zach	Los Angeles	CA	I oppose robocalls to my cell phone without my permission. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Rusty	Huntsville	AL	NO robocalls. No exceptions, no excuses, no loopholes. No one should be subjected to random interruptions of one's life to satisfy the probing of politicians, bankers, market researchers, or anyone else. NO robocalls on any communications devices, for any purpose, at any time.
Chester	Sparta	IL	I do not want unapproved robocalls coming to my cell phone. My wife and I have serious health issues and need to know that incoming calls are warranted and from people we know. Neither of us have the physical stamina nor emotional tolerance to deal with this type of call.
ANDY	AGOURA HILLS	CA	PLEASE STOP THE ROBOCALLS TO CELL PHONES AS WELL AS REGULAR LANDLINE PHONES.
Carolyn	Pittsfield	MA	Please, no robo calls on cell phones. Thank you so very, very much.
NICK	ALVA	OK	These CLOWNS call at all hours, even 7:00 in the Morning. My mom is 87 and hurries to the phone for this CRAP!!! BLOCK ALL OF THEM.

Sharon	Annapolis	CA	It is bad enough to get unsolicited calls from sales people we don't know or whose gimmicks we have no interest in, but to get bombarded with calls from a recording is extremely invasive. In addition to the sheer annoyance factor, we must pay for their unwanted use of our phone time. Please prohibit these calls, not only to cell phones, but to our land lines as well.
Jack	Pittsburgh	PA	To FCC Members: The FCC has not yet succeeded in the epidemic of robocalls on hardline phones, so this may be in vain; nevertheless, to allow this disease to spread through the cellphone population would be nothing short of relentless injury to the entire cellphone population. On the other hand, this is an opportunity for the FCC to do the right thing and perhaps to be loved. (Well, maybe liked!) Thank you, Jack Etzel
Wanda	Hilton Head island	SC	At 75 my body has better things to do than jump up to see who is calling at dinnertime or anytime. None of us need this.
Joseph	Rancho Mirage	CA	I'm a hard of hearing disabled senior. Trying to understand people that are trying to get their speal out is very difficult for me and I do not appreciate them inviting themselves into my home and disturbing my peace of mind without being invited. Please do all that you can to stop the robo calls from anybody be there Charities or whatever. Thank you
Moe	wheeling	IL	No more mega corporations ruining the world.....

Naomi B	San Marcos	CA	<p>Why do I have a cellphone at all? Most importantly, aside from convenience, I am a point person for my elderly, frail mother and three grandchildren. I need to be available 24/7 if something happens to my mother or young grandchildren (Heaven forbid). More often than not, I jump when a call comes in -- especially at early morning or late hours of the day. Robocallers have no knowledge that I live in California, despite my Florida area code. Those on the East coast may start their day at 8 or 9 in the morning, but I am sound asleep at that time in California (i.e. 5 or 6 a.m.). I always rush to answer the phone because there may be a emergency to which I need to attend. These robocallers have no respect. They want to "warn" me that the IRS has filed a lien against me. Or, that a product or service in which I was interested is now available for purchase. I am an educated, healthy woman and know that if the IRS has filed a lien, I would know about it by now. I also know that there is no possible way a retailer with whom I do business would contact me by phone for such matters. But, what about elderly people? These types of calls are frightening, at least, and acting on the information provided could be dangerous in many ways (credit fraud, etc.). My home phone service is through Vonage and it provides a service by which these robocalls are redirected and blocked. My cellphone carrier is through AT&T. Although I can individually block these numbers AFTER the fact, there is limited space available for such calls. For the pretty price I pay AT&T, they should also provide the same type of service as Vonage does. It costs practically nothing and the service is invaluable. Please make them stop, so my heart doesn't. Thank you.</p>
Lynell	Houston	TX	3rd party collectors calling for the wrong person even. When you deny knowledge of same or wrong number we have been seriously harassed to the extent of being accused of lying.
marianne	kent	WA	No Robocalls to Cell Phones!
Rod	Albuquerque	NM	If we must allow debt collection robocalls, then the Debt collection robocallers must notify us of our right to stop receiving calls
Ed	Woodcliff Lake	NJ	I oppose robocalls to my cell phone without my permission. It is invasion of my privacy. It's long been illegal for debt collectors to robocall your cell phones without permission, and it should stay that way. Any guidelines should be clear and readily available.
Gary	Brunswick	OH	Please do not give away my privacy to businesses which have no right to contact me in the first place much less call me on my private cell phone which I pay for.
Arlene	Los Angeles	CA	Robo calls almost got me injured recently and need to be stopped !!!

William	Los Angeles	CA	In spite of having registered my cell and landline phones with DO Not Call, I get multiple calls each day from solicitors. These calls violate the requirements of that registry. They are more than annoying and must be curtailed.
Erik	Lynnwood	WA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Robert	Edmond	OK	Unsolicited, ILLEGAL robocalls are costing this nation thousands of dollars in time wasted daily. I am a physician, and expect calls from doctors referring patients in and out of my state. A robocall that uses a local number has been harrassing me for over a year now. I have stopped patient care to answer these stupid calls. They represent a risk to my patient's care, and interrupt my normal job flow on a daily basis. Please, fine these companies in a way that will make them stop calling. I am begging you,
Robert	Elgin	IL	Like clockwork, as lunch is on the table, the phone rings and it's Rachel from credit card services. The caller id lists some of the most obscure cities in America. Please make it stop.
Margaret	Saylorsburg	PA	I do not like having my phone ring at all hours of the day and night from robocalls. That goes for a landline or a mobile device.
nancy	wayzata	MN	having to use up my minutes (thereby paying) on phone calls I do not want is infuriating! Please make this stop....once and for all
Dennia	Bernalillo	NM	I resent encroachment into my privacy. I should not be subject to unsolicited callers. Please do not allow these predators increased opportunity to violate my privacy and safety.
Susan	Leslie	AR	Please forbid robocalls! If someone needs to call me they can have a real person call. Thanks for listening!!
Donald	Olathe	KS	No Robocalls to cell phones, it's bad enough on regular phones. They should be shut down too. Let us live in peace and quiet.
Violet	Yachasts	OR	NO ROBO CALLS TO CELL PHONES. I don't want my cell number called by robots. They can us the mail system.
Thomas	Sunnyvale	CA	I am so tired of a collection company calling me 3 or4 times every week for the last six months wanting to talk to Joan. No Joan lives here, has never lived here and will never live here. The rude bastards won't give up. I ignored them, hung up on them, cursed them up one side and down the other almost daily, reported them to the Do No Call bureau- What a waste of time. We citizens are fed up with our legislators being bought off by lobbyists, corporations and the useless feckless stand of our so called regulators. It seems our regulators are picked by the corporations they regulate and congress appoints them and gives them no power to regulate This must STOP.
Dennis	Cleveland	OH	Simply stated, WE DON'T WANT ROBOCALLS.

Ronald	Saint James City	FL	Robocalls should be outlawed. If I wanted the services that they offer, I would seek them out. They are costing me money to receive calls that are nothing but a nuisance.
Robert	Essexville	MI	Robocalls are time wasters and annoying as well as an intrusion on our privacy.
Dee	Placentia	CA	These calls are non stop & they don't take no for an answer. It's time for these people to be stopped for good.
Johanna	Worcester	MA	Friends, family, coworkers, and businesses with whom I choose to do business, may call my personal cell or home phone. Otherwise, it is extremely annoying to leave whatever I am doing to answer a call made by a machine (never mind the scam calls wanting to access my computer!). Please make them STOP! And, when we ask them to stop, please have consequences in place for when they ignore our request.
Deanna	Ogden	UT	I don't like these calls whether to my land line or my cell phone. There are times I am busy and I have to stop whatever it is I'm doing to answer the phone only to find out it's a nuisance call. The "do not call" list is worthless.
John	Thousand Oaks	CA	Please do not permit the ongoing abuse of robocalls to my cellphone! These robocalls are even more annoying than firms that send unsolicited advertising via fax to me.
Dave	Lawrenceville	GA	Please stop robo call to cell phones
Sandra	North Richland H	TX	I do Not want robo calls made to my cell phone (or my home)!! I consider it an invasion of my privacy.
Mary	Mount Dora	FL	Both my husbands and my cell phones receive unwanted robo calls on a daily basis. Both numbers are registered with the Florida and National Do Not Call registries. These calls are unwanted and a true form of harassment that must stop.
Ronald	Beach Haven	NJ	Phone service is something I pay for. I should expect reasonable privacy, and not to have to pay for harassing calls. Legal routes are available to collect debt without harassment and violation of privacy.
Ruben	San Pedro	CA	Getting calls from out of area numbers, and answering them just to find out that it is a robocall offering something that I didn't ask for or want, or telling me that I "won a cruise" or whatever is becoming an ever increasingly common occurrence. Enough already! Please outlaw this practice so that we are not disturbed, not only during inconvenient times, but anytime. They are annoying and unnecessary, and should be prohibited.
Vincent	Oakland	CA	Please end this hideous practice of robocalls. I get them both on my cell phone and my landline.
Terry	Taylorsville	NC	It would be wonderful if the FCC would stop robocalls. I cannot imagine what it would be like to not have to worry about answering the phone. Thanks, Terry Bowman
Chris	Port Saint Lucie	FL	I Wish no I Want you to end these annoying robot calls. My wife and I are handicapped and it is a problem answering these calls. I WANT THEM STOPPED..

Larry	Billerica	MA	If these Robocalls don't stop, I will lose my mind; and, as a clinically insane person, my contribution to society may suffer.
DONALD	HORSEHEADS	NY	STOP ROBO CALLS TO MY CELL PHONE..WHY SHOULD I PAY FOR THE TIME TO ANSWER THESE CALLS WHEN IT'S FOR SOMETHING I DON'T WANT OR EVER HAD....
Cyril (Cy)	Mankato	MN	Please stop Robocalls. I receive them on my cell phone / home phone and the minutes are counted against my minute plan. Sometimes robocalls take me over my phone plan and that costs me MONEY for cell / long distance overages. Plus it interferes / interrupts my work and pleasure time. Stop these nuance calls on Cell phones and our mainline phone lines.
ken	new york	NY	I get so many unasked for, unwanted robot calls that at times it seems as if I am hiding in my own home, just waiting for them to hang up. It doesn't seem to mae any difference that I am on the "do not call" registry. Please make it stop.
Richard	Rancho Cordova	CA	As the 'Do Not Call' registry doesn't seem to work, we need another, better way to deal with this harassment.
Andrew	Castaic	CA	I have written to you several times about several different issues but you have yet to respond let alone take action. If you continue to ignore your responsibilities then you shall be held accountable by "we" the people and the act of God. Your actions of today shall be judged by those of tomorrow...
John	Seattle	WA	Please stop ALL robo calls. When you consider the interruptions and the fact that many people don't answer their phone anymore unless they are certain of who is calling, the personal and societal cost of this illegal activity must be STAGGERING. ENOUGH! If it's possible to stop it please do so.

Val	Laguna Niguel	CA	<p>I am soooooo very tired of unsolicited robocalls to my home phone and cellphone. And I am concerned about unsolicited call to my young son's cellphone. These are intrusive and infuriating. I answer a call from a phone # (usually fairly local), only to hear a click and then someone comes on the line to tell me how I asked to be called back because I might need their services. When I tell them that that I have not spoken with them before and would like to have my # removed from their calling list, I am then subjected to berating and threats that he or she will continue to call back every day until I speak with them; or they will show up on my door to make sure I really understand what I am missing; I have even been told that I have already entered into some kind of contractual obligation for which they will follow up and make sure to enforce! Then there are the solicitors for non-existent charitable organizations. When I thank them and tell them that I already donate to a particular "related" charity, they then try the "bully with guilt" approach. These calls are endless. I receive at least 15 in any given week., and sometimes as many as 35. The phone companies do not even allow you to block that many phone #'s! And when I do use "the last # that called your line" feature on my phone, the call back # either is "not in service" / "not a valid # / or a call center where they hang up when you ask to have your phone # removed from their call list. All of my phone #'s have been on the "DO NOT CALL" REGISTRY" since it began. It does no good. THIS IS INTOLERABLE AND UNCONSCIONABLE! It has NOTHING to do with the right to free speech, or the right to conduct commerce. It is a complete invasion of privacy. And to allow it condones commercial bullying and emotional assault. ENOUGH ALREADY!</p>
Esther	Winter Haven	FL	<p>They lie, scam, and interrupt our lives. If I am babysitting the phone wakes my grandchildren. My husband isn't well and it upsets him. The IRS scam phone call was up to 3-4 times a day. Sadly we know that it is a scam, but obviously there are others that don't, this needs to stop PLEASE</p>
Andrew	Englewood Cliffs	NJ	<p>I can receive up to 10 unwanted robo calls a day. Sometimes the calls continue til 9:00 PM. At night. I have already complained to the FTC by E mail. This harassment has to stop.</p>
Terry	Hanna City	IL	<p>It is imperative that Robocalls be stopped. Consumers are currently powerless in this area and have no opportunity to insist that their number be removed from such lists.</p>
Denise	Bainbridge Island	WA	<p>This is totally ridiculous. Please stop. It's illegal for debt collectors to robocall our cell phones without permission. This provision snuck into the federal budget last fall would change that, allowing debt collectors to robocall anyone with federal student loans or back taxes. Even if you don't owe money, but a relative does, or if your phone number once belonged to someone who does, you could be robocalled. I'm against thsi.</p>

Susan	Hilliard	OH	Robocalls are very annoying and I suspect that there is almost no cost to them. This means that these companies can really pile it on and make many repeated calls. Even more disturbing is the fact that many times I cannot get the name and phone number of the company that is calling me. I respond to the prompts, get a real person on the line, and ask them the name and phone number of the company and- because I not buying there promotion-they immediately hang up on me. It should never be the case that a party calling with a promotion of any kind should not be required to give that companies or entities name and contact information. and I resent this and think it odd that there are not sufficient legal guidelines in place now.
Wendell	Overland Park	KS	I'm sick of running to my phone several times a day to see that I don't recognize the caller.
FRANCES	Springfield	MA	They invade my privacy, interrupt my time, use my minutes, and at times they even use my own name as their identity. This should be illegal!!! So, yes, stop all robocalls.
Robert	Ann Arbor	MI	We get 4-5 robocalls per day to our home tel and now more to our cells !! yet we always ask to be put on Do-not-call lists !!
Rob	Warrenton	VA	Please do something to end the annoying practice of robo calls - I get at least one a day on my cell phone - EVERY DAY!!! They waste my time and interrupt me while trying to care for my family.
Ed	Bainbridge Island	WA	The FCC must make it a priority to stop the RoboCalls. The cell phone carriers are using a public asset, the radio frequencies. If they want to continue making money with these frequencies they have to be better stewards of their resource.
Delwin	Austin	TX	I pay for my phone service so my friends family and business associates can contact me. I do not pay for phone service to receive unsolicited and often times inconvenient calls from some body trying to sell me something or tell me who to vote for.
Rose	Shoreline	WA	Please put an end to robocalls. They are so annoying!
Maradel	Bainbridge Island	WA	Please adopt rules that strictly regulate debt collectors' practices of contacting people on their cellphones. They should not be able to harass people who do not hold the debt and they must advise people of their right to stop these calls. Our cellphones are often an extension of our lives, and allowing robocalls to bug us is so NOT OK! I personally don't have a problem with debt collection, but I hate the fact that I get any robocalls at all, on my cell or on my land line. My wish is that these are regulated out of existence.

Barbara	Bakersfield	CO	While we do not answer phone calls we are not familiar with, still, the ringing of the telephone up to 12 times a day are intrusive! We will not buy or do any business with any telemarketers, including charities! We do believe that many of the telemarketers may be legit, but we don't want the business, and many telephone calls are shams. We've already tested enough to know that a sham is on the other end of the line. Oh, my, the good old days are gone! The Hearshmans
Iris	Irving	TX	Please stop now offensive robocallers and debt collectors Thanks for your consideration
Emilio	Miami	FL	It is very annoying when I receive a call from a complete stranger asking me about my insurance ! When I asked him which one, he told me to hold and he was going to look it up.! I shut the phone down with an expletive. It happened this morning 5/19/16. I receive a minimum of one call a day! MAKE IT STOP PLEASE.
Alan	Westlake Village	CA	Robocallers are now bombarding my Cell Phone. The phone Co. should be required to provide robo call blocking as an option. Another option is to only allow robo calls to congress tonal members between Midnight and 4 AM.
Mike	Roseville	CA	My number is on the Do Not Call list yet I still get these calls. Please help me stop them.
LORRAINE	ABERDEEN	NJ	THESE CALLS ARE SO ANNOTING. I AM GOING THROUGH CHEMO AND RADIATION RIGHT NOW AND I DON'T NEED THESE ANNOYING CALLS!
Elaine	Tucson	AZ	I get 5 and 6 robocalls a day sometimes. Many of the calls are the same day after day. If I did not answer they were able to leave a loud, unpleasant sound on the answering machine. Please put the strongest controls on these calls that is possible.
Lisa	Hobe Sound	FL	Please stop Robo calls
Fred	Chesnee	SC	I should not be subject to an unwanted invasion of privacy from robocalls on cell phones no less. We should be allowed to opt out of these calls. Appears to be nothing but harassment and our Government should be on the side of the consumer, not big business.
james	adams	MA	calls start @8am and go on till 9pm pls stop this B.S
Michael	Parlin	NJ	I'm against robocalls to my cellphone because I don't want calls while I'm driving & they are an invasion of privacy. They also use up my minutes

Craig	Trona	CA	Robocalls are an invasion of our privacy. The FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact a person's cell phone. These regulations are, unfortunately necessary as overzealous debt collectors use these insidious methods of harassing honest people who often have nothing to do with any debt in question. Debt collectors should retain a right to properly attempt to contact persons who need to be reminded to pay a debt - within reasonable guidelines set by the FCC. This is the FCC's duty and in part its function. I feel the following guidelines are a good start, and fair: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available
Wayne	Unlisted	NC	I have a pre-paid cell phone, so every call I receive costs me a small fee. I have been receiving dozens of these robocalls a day, even though I'm on every do not call list known to man. If I don't answer, then I still have to pay to be able to hear the voice mails they leave, even when the voice mail is just ten seconds of dead air. This has to stop. It's a crime for me to have to pay for these scammers calling me. Please stop them. Not everyone can afford an unlimited calls plan.
Mary	Dallas	TX	No robocalls to cell phones. I depend on this phone to keep in touch with my family. I can only use it limitedly at work, I need it for family emergencies.
Carolyn	Royal Oak	MI	I don't want Robocalls of any type on my phone or landline...
Bruce	York	PA	Its time to stop this. They do care when they call or the amount of times they call. We are really tired of this.
Larry	San Jose	CA	I get a few Robo Calls to my Cell Phone every day. Last night one came in at 9:30PM. I am on the Do Not Call List. It doesn't work. Please do something about it. Thanks for your help...Larry Hedberg
kyle	watseka	IL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Elizabeth	Rochester	NY	phone calls every week from the same organizations! We tell them we have given, we won't be giving any more, and the next week we receive another call. We're at the point where we don't take the calls, just let them ring. Some of these organizations, we have been giving to for years in the same pattern and yet we receive weekly calls. Just too much! Nonprofit organizations are going to be hurt as people are tired of being Constantly badgered. With the technology now out there, there has to be a better way of tracking donations, particularly the large groups.

Frank	Anaconda	MT	I called you rotten KOCHSUCKIng MFN sobs 10 fucking years ago about these GD rob calls! STOP THEM, ASSHOLES!!
Lyn	Bay City	MI	Even though I will not answer my phone while driving, it's still a distraction. And if I'm not in the car, it takes time to get to it, and by that time they've hung up because they don't want voice mail.
Robert	Los Angeles	CA	I am tired of getting 5 to 10 Robocalls a day. You have the power to stop them, so do it NOW!!!
Carl	Los Angeles	CA	Fully half of all calls coming in to my home office are robo calls! I have lost business as a result of missing calls, messages and important messages get bumped by sales calls. The do not call list is pathetic, but it's all we have, so let's get it enforced. These calls have become more than a nuisance. Please protect our time and effort we put into our business. It's hard enough to make it without these inconsiderate people interfering.
William	Fort Worth	TX	My cell phone is my personal home phone as well as my business phone. I work all over the country and travel quite a bit. These phone calls interfere with my work and need to be stopped or at least controlled.
Bruce	Playa del rey	CA	I got rid of my land line due to political robocalls. Now I'm getting phished on my cell. I appreciate businesses seeking new business, but enough is enough. Aren't I entitled to peace of mind in my retirement.
Lynnisse	Murfreesboro	TN	The robocalls have become so prevalent that I can ignore my phone 9 out of 10 rings with impunity. It's beyond ridiculous. Here's a list of unknown numbers I've received three or more calls from but no voice mail messages when I don't answer: 502-242-2091, 502-369-3491, 206-237-0127, 585-376-6016, 615-904-2545, 859-648-0544, 862-204-5504, 918-274-1659, 502-370-2718, 213-217-9999, 614-783-9871, 720-639-8043, 615-810-0226, 901-300-7417, 304-743-8823, 423-604-5421, 615-810-0227. In just the last 90 days. I've become so deaf to my phone's ring that I risk missing important calls. Please make it stop.
Teri	Santa Cruz	CA	Please make it stop!
Robert	Buffalo	NY	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
John	Brentwood	CA	These calls are a malignancy on communication
Fay	Lafayette	LA	I am sick to death of having my meals disrupted by these aggravating phone calls . Especially when they are from GOP candidates!
grif	san carlos	CA	robocalls are an unacceptable imposition. especially when the robot has been mistakenly programmed and is targeting the wrong person. please suppress this annoyance. stop robocalls.

Tom	Torrance	CA	My three cell phones are on the Do Not Call Registry. My wired Land Line is on the Do Not Call Registry. Often Robocalls break through to interrupt me with a fake number displaying on the Caller ID. Do something to stop this.
John	Chipleay	FL	I get Robocalls daily on my home phone and now my cell. The Do Not Call Registry is a joke and doesn't work. The calls are extremely annoying please take action to stop them as soon as possible.
Dennis	Stoughton	WI	No one should have unlimited, unwanted access into my life without my written permission. It's an invasion of my privacy and should be against the law.
Sue	Framingham	MA	The robocalls on landlines are just as annoying as on my cellphone. Can't it be stopped?
Lora L	Bothell	WA	My cell phone is MY PRIVATE communication device. Hands off, Robbos. Give me peace.
bob	Cupertino	CA	Please end robocalls in the fairest way possible
George	Friendswood	TX	Please especially block cell robo-calls
Veronica	Forestville	MD	I receive about 2 unsolicited robo calls daily. Luckily, I can block numbers, but my list of blicked numbers is becoming as long as my address book. All they do is get another number and call again. Please stop this madness. It's unfair that I pay for minutes that are wasted on these calls. I ask them to remove my number from the database and they hang up. I'm frustrated and would like your help, please.
Carolyn	Alvarado	TX	I receive 10 to 12 calls a day. This needs to stop. It is time consuming and causes phone issues. I have calls and if I answer they hang up. Some calls I don't answer and there is a lady that leaves a threat. None of it makes sense.
William	Munster	IN	We do not need or want robocalls on our cell phones. Thanks.
Kathy	Loveland	CO	Please do not allow ANYONE to make robocalls to my cell phone. We have already almost stopped answering out landline unless we know who is calling (and even when we get those calls that ID as calling FROM OUR LANDLINE TO OUR LANDLINE). Please protect our peace and our privacy and do not allow these crooks (most of whom are calling from outside the United States) to harass us on our cell phones the way they now harass us on our landlines. If everyone I know didn't have my landline number, I would just get rid of it so I would NEVER have to get another one of those calls.
Ronald	Warrenton	VA	I was care taking someone who was dying and every day he was disturbed by robocalls. Just awful.

Robert	Scotch Plains	NJ	I'm on the government do not call list and STILL receive endless calls from people I have no prior business relationship with. This comment was to be solicited for new laws, I'm saying how about enforcing the laws already on the books. I STILL get calls from spammers I already reported NUMEROUS times through the official reporting form and have given full info on the caller. What's the point of having laws if they're not going to be enforced. Start cracking down on these people. NOW!!
Susan	Corvallis	OR	I oppose robocalls to my cell phone without my permission. I use the phone for my business, so can't just ignore answering it. The robocalls are invasive and detrimental to my business. I support strict rules to stop predatory lenders and shady companies from calling cell phones. Thank you.
Leslie	Blackwell	OK	Please do something to stop the robo calls. They're driving us crazy! Now it's even on our cell phones.
David	Keller	TX	Most calls we receive on our Verizon land line are robo calls, to the point that we no longer answer this line and are considering dropping it. In some cases the caller has been told to remove us from their list but have not done so. We are on the No Call List. This does no good. I have gone on line and filled out a violation report but the callers only change phones or location. Note: I'd like political hgroups blocked as well. !!
John	Essex	MT	It is time for the FCC to step in and end the curse of robo-calls once and for all. I do not see any material restriction on the rights of the businesses that employ these tactics if they are restricted to single, real-person calls rather than the computer-generated harassment of robo-calls. The public needs to be protected and the FCC is the agency with the mandate to do so.
Richard	Howe	TX	I owe nobody , yet I have to tolerate these calls
Joseph	Dayton	OH	Dear Sir: I and numerous cell phone owners would appreciate the FCC to do all it can to stop Robocalls to our cell phones and some harassing calls to cell phones also. Thank you for your help in this matter.
Patsy	Seattle	WA	I don't have a cellphone but just about all of my friends and family do so on their behalf I am signing this petition to stop robocalls on cellphones.
MICHAEL	PARKERFIELD	KS	ROBOCALLS ARE AN INTRUSION ON MY LIFE. PLEASE STOP THEM.
Tamara	asan	CA	Please limit robocalls. People want to pay, but robocalls are not the answer for creating an economic situation where people can process their debt repayment activities in a straightforward, timely manner. Thank you!
Robert	Poulsbo	WA	We are both over 65, have no debt yet have received more than 75 calls in the last couple of weeks. Initially I answered and advised the above information and requested removal from their call list. This has not worked and the fpcalls continue, sometimes 5 times a day. Please, please make this harassment stop Robert L. Ferguson

Angela	Deerfield Beach	FL	Many People have limited minutes on their cell phones but others do not. I think that lists of cell numbers should not be sold to telemarketers as it is an invasion of privacy. As I am sure many people would agree, this issue needs to be addressed. Thank you for taking my thoughts into consideration.
Richard	Hokies Bluff	AL	I receive multiple robo calls on my landlines and my cell phone daily. I am now getting robo text messages. Please give me a no-cost means of stopping them. Or better yet, make them illegal with a penalty strong enough to make someone think twice before making the calls.
Joel	Allons	TN	I have had my home and cell phones registered on the National No Call List since it was created. I still get robocalls both at home and especially on my cell. I get 3-5 daily and sometimes more. I, like a lot of other people, are getting really tired of it. I block each number, but they simply move on to the next. Please do something to end this practice. It would be highly appreciated.
Martin	Valencia	CA	It's bad enough that I have been on the do not call list since inception and still my home land line rings up to 10 times per day, sometimes before 08:00AM and often after 09:00PM. Now it is beginning on my business cell phone. This is unacceptable as it further the invasion and disrupts my productivity while conducting real business!
Linda	Shoreline	WA	I was harassed multiple times over the years because my neighbor's daughter had listed my name as a reference on a student loan without my knowledge. It was not my daughter, it was my NEIGHBOR'S daughter. If they had been stalking me on my cell phone, I would have been even more furious than I was. Please do not allow any type of unsolicited robocalls on cell numbers. I already receive them EVEN THOUGH MY NUMBER HAS BEEN REGISTERED ON THE DO-NOT CALL LIST for YEARS! Yes, I am being dramatic, but this is important to me. I would HOPE that you will also block those EXTREMELY irritating calls from political organizations. I do not give out my number without great thought, ESPECIALLY to political organizations, and yet, I still receive them. NO ROBOCALLS, EVER!!! I'm the one paying for this phone service, why should my privacy be invaded? Just like the NO SOLICITORS sign by my front door, I do not approve of this type of TRESPASSING.
John	Ventura	CA	Robo calls can come at any time and they are annoying. Often it is at dinner time. Calls while I am in the shower are vile. I have slipped and almost fallen trying to answer the phone only to discover another damnable robocall. Enough! Put a stop to them.
donald	surprise	AZ	stop robo calls
Robert	Evanston	IL	If you like robocalls, you can have ALL of mine
Thomas	Parsippany	NJ	Enough with the robo calls, it's beyond disturbing.

Michael	Long Grove	IL	Robocallers are just like uninvited solicitors who arrive at our front doors, but they do not have to obey "No Solicitor" signs, and they do not have to pay for a soliciting license at the village hall. Require all robocallers to pay for a solicitor license in every local city/town/village they call, and pay phone companies to support a 'robocall opt-out' list with heavy fines for violations administered by the FCC and this problem with shut itself off.
Jean	Portland	OR	Dear FCC, Please understand how intrusive and frustrating unsolicited robocalls are for citizens. These unwanted interruptions to home life and now to work life as well (with cell phone robocalls too) must stop! Cell phone calls can actually be dangerous as they interrupt whatever one is doing and can distract when you are crossing a street or driving or doing any number of activities where you should be focusing on the task at hand. In the specific case of debt collectors, I agree with the guidelines set forth by Consumer Reports. We count on you to protect our interests. Thank you for your help.
james	adams	MA	the calls start at 8 am and continue till 9pm pls.stop this B.S.
Carl	Pensacola	FL	Robocalls should have a clear and legal purpose.
John	Seattle	WA	I've had my identity stolen. We still get fake calls from the IRS---please stop these unwanted calls from the thieves.
Steve	Atlanta	GA	Please no robocalls to cell phones. I now received 3 a day and it doesn't stop. I wouldn't do this to people so please stop the ones who do.
Isaiah	Montrose	CO	Remove RoboCalls by legislative action.....
Barb	Osprey	FL	I am sick and tired of getting calls about free vacations or new credit card rates. STOP THESE.
Ben and Karen	Kensington	CA	We oppose robocalls to our cell phones without our permission. Among other reasons, we have to PAY for each minute our cellular phones are used. We do not want to pay for robocalls with our money or our time. Allowing the debt collection industry to make such calls will be the camel's nose in the tent! Don't make exceptions. Please. Thank you.
Steve	Whittier	CA	There is nothing more frustrating than receiving unwanted phone calls for unwanted products at all hours of the night and day. Make them stop. Please!
Lyle	Shawnee	KS	Please put me on the record as as being against "RoboCalls on cell phones. I agree with the following conditions: a) Debt collection robocallers must notify us of our right to stop receiving calls b) The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family c) The guidelines should be clear and readily available Please consider that the user of cell phones should have some peace from useless calls, currently incoming calls on my landline are about 10 to one annoying calls to useful calls. Thank you for your consideration. Lyle Van Vleet

Christine	Kabetogama	MN	Even when i call them back and press 1 to be removed, they STILL keep calling. So annoying!
Chuck	Nokomis	FL	Stop these annoying and unsolicited Robocalls.
Greg	Moorpark	CA	If one has a minute plan, the unexpected, usually clandestine CID allows for my answering to find an unwanted call. My service automatically deducts two minutes. Is that fair? Is it fair if your number has been sold to a number of vendors that use robocall systems on the minute plan? If a person receives 3-6 calls per day, the minutes are used up and all savings gone. Not only do we need to stop robocalls, but we honesty with the CID when a person or company calls. No more robocalls to cell phones!
Nancy	Chicago	IL	It is bad enough to be harassed in my home all hours of the day and night by unwanted robo calls. It is egregious to allow these scum to bother me on my cell phone! MAKE. IT. STOP!!
Justin	Huntingotn	MA	Robocalls are almost never helpful, usually phishy and just annoying as fuck. To cell phones where you often pay for minutes, it's inexcusable.
Charles	Massapequa Par	NY	Please help to stop robo calls on cel and home phones,it is really annoying and constant,I get an average of aprox thirty to forty calls per day.It takes up a lot of my time that I could be doing something more important,such as Doctor calls and other business calls that are constantly being interrupted and on my cel phone it uses up my minutes so please help us.....
Tim	San Francisco	CA	Robocalls need to be stopped to all of our phones.
Michael	New York	NY	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Jack	Wilmington	MA	You must put an end to this intrusive behavior.
Rachel	Oakland	IL	No Robocalls to Cell Phones!
Brad	Wabasha	MN	I'm writing to ask you to do something about these robocalls. They are irritating, abusive, and fraudulent. I think that everyone who has a phone should be able to have their phone company to put a block on all robocalls without charge. I get these robocalls everyday! I'm asking you to implement the strongest possible rules to end these aggravating robocalls. Thank you.
warren	enfield	CT	Robocalls should not be allowed to be used to collect any debts! Two non-robocalls only, per month, should be allowed to directly contact the debtor. Harassment of friends and relatives of the debtor should be illegal.

Robert	Newport News	VA	I would even vote for Clinton if I thought for an instant that she would get rid of ROBOCALLS To ALL phones. I have a prepaid cell phone and only use it when I need it. I'm 86 and may need help. Sometimes I don't use it once a month. I only turn it on when I want to make a call. It cost 25 cents a minute to answer a call. If its been more than a couple of weeks since I've turned my cell phone on I will have 10 to 20 messages. Almost all of them are robocalls. I don't give this phone number to any one but my kids. My home phone receives an average of 2 calls a day of robocalls. At least 2 or 3 of them a week are from BRIDGET wanting to lower my credit card interest rate. Always from a different phone number. My cell phone is Verizon and my land line is Cox.
Gabriel	Menlo Park	CA	Please stop the robocall and collection calling madness.
Andrew	Leverett	MA	I pay for phone service to communicate with people I want to, not to be solicited by scum bags. Do kindly place heavy restrictions on these parasites. Half of our calls are robocalls even though we are on the no call list.
Ariadne	Walnut Creek	CA	There should be no circumstance by which it is acceptable to make an unsolicited call to a cell phone with the exception of a law enforcement agency in the case of emergency. Absolutely no loophole. It is bad enough that we must endure unsolicited phone calls on our landlines. Too much fraud and abuse occurs as a result of these calls.
Allen	Mpls.	MN	I am called every day. Sometimes several times a day. As early as 7:45AM which wakes up my wife and the cats. When I answer to try and get them to quit the incessant calls I get "There are 64 calls ahead of yours". I have waited 20 minutes and finally get to an operator and ask to be taken of the list and the next day I get a call from the same company. They use different numbers. Some are local some are out of state.
Mathew	Reseda	CA	So sick of the predator loan cause I get 10 to 50 a week! I have asked every time to be removed and they still call from 5 am till 10 at night
Thomas	Rockville	MD	My phone is for Friends and private calls only. Fine and penalize robocallers. \$100 per second
MJ	Wellesley	MA	STOP THE ROBO CALLING!!!! I am SO F**KING sick of running up or downstairs or stopping what I'm doing to hear "Congratulations! You've won..." or "Hello seniors!" or "Hello. Are you there?" The FCC process to report the calls is RIDICULOUS! If I WASTED my time logging everything in your ABSURD form, I'd waste 10X more time than it takes to hang up. Besides, the FCC DOES NOTHING! NOTHING! You are WORTHLESS!!! I'M MAD AS HELL AND I'M NOT GOING TO TAKE IT ANYMORE!!!
Ted	Clifton	NJ	I have a tiny cell phone minute plan and I don't want to pay for advertising. No one wants to talk to me, only my wallet!

Yvette	Passaic	NJ	I am sick and tired of answering calls on my cell phone that are not welcome at all. I've opted out and placed myself on do not call lists and it doesn't seem to screen out these robocalls. It needs to stop permanently. Outlaw robocalls!
Steven	boynton beach	FL	robocalls are a scourge on American consumers. The governments response has clearly been against the interests of the public. I don not think I have ever received a robocall that I wanted or was interested in. As a senior getting up to answer these calls is an effort and can be painful at times. Please put an end to them and enforce the laws already on the books.
James	Midland	TX	Please help to stop robocalls. Considering getting rid of home phone due to increasing calls, often from the same company that keeps changing its name and number to bypass caller block.
Joan	Shippensburg	PA	No more ROBOCALLS!!!!!!!!!!
John	La Jolla	CA	These should be illegal, invasion of privacy and waste of time and resources.
Charles	Kent	WA	Please end robo calls. They are not asked for and are nothing but a nuisance.
Daniel	Buda	TX	They are increasing exponentially and the callers will not desist when asked to delete me from their list.
Anthony	Romney	WV	I pay for each second of call. I am paying for robocalls that I do not want. As a senior citizen on a budget, this is a needless expense. Please end robocalls.
Christopher	Largo	FL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Jim	Navarre	OH	Please stop this nuisance! It's not even just lenders or debt collectors. Most of the calls I get are shady solicitations about credit cards. I'm sure you have received at least one call from "Rachel at Card Member Services". I've even gone through the process of waiting to speak with a live operator only to be hung up on when I ask them to stop these calls. And then a few days later I get the same thing. Being on the Do Not Call List means nothing to these people because nothing is enforced. Put some teeth in a law and force them to stop!
Carole	Maplewood	MN	Robo calls are a form of harassment!!!
Charles	Lake George	NY	Please put an enforceable end to robocalls on land line telephone and cell phone calls.
Carl	Lakeville	MA	If you do your job, you will prohibit robocalls from cell phones. You really should prohibit them from land lines too, but for cell phones, they are far more invasive.
Carol	Weidman	MI	I think ALL Robo call should be outlawed. They're disruptive and they just make people mad.

Roger	Aurora	IL	The permission to use robocalls has had a deleterious effect on phone courtesy. Before robo-calls were permitted, people would answer all calls politely. Now most of the calls we receive now are robo-calls and the only defense is to allow the call to go into the voicemail to learn if we want to answer them at all. And if we do happen to answer, it is a "what do YOU want!" tone of voice which is used. These calls always come at some inconvenient time such as lunch or dinner time. We pay for these calls with our phone bills. Since we are paying for the service, we should be able to control who calls. Robo-calls infringe on our rights as consumers. Please stop forcing us, the people who pay for the service, to listen to these annoying unwanted ads.
Kathryn	Rochester	MI	I have a personal experience. My mother received robocalls from a collection agency. Neither she nor my late father owed the bill in question. This was extremely upsetting for my mother. She doesn't have caller ID or any of the more modern features most of us have-- and she doesn't want them. And really, she shouldn't have to have them and shouldn't have to be disturbed by a machine. Thank you.
Edwin	Augusta	GA	I am quite frustrated with the robocalls that I get every day; an average of 15 calls per day. They are on a half day schedule; i.e., from 0800 to 2000 hours.
Diane	Fort Collins	CO	Please consider advocating for the public in the menacing robocall epidemic!! The FCC always seems to operate in the shadows of corporate influence and does little for the public sector. How about showing us you still know how to advocate and stop this predatory practice.
No Robocalls to Cell Phones!	No Robocalls to Cell Phones!	CA	No Robocalls to Cell Phones!
Jo Ann	Rochester Hills	MI	No one needs a robocall while driving downtime road or when in church or taking a class or in an important meeting at work. Do not allow bill collectors access to our cell phones!
Steven	Roanoke	VA	I thought when I got rid of my land line and filled out "no call" requests, I would stop getting unwanted phone calls. I get message machines telling me that I'm being sued, pollers who won't identify themselves, callers who ask one question and then hang up, prisoners I don't calling from jail, all costing me time and money on a very limited cellphone service. I thought that having an unlisted number would put an end to this but obviously "someone" is just dialing random number, probably in a row and probably using a machine. Please put a stop to this. I have an elderly relative with sever health problems so I feel I have to answer the phone because he ends up in trouble places I can't predict or know before I answer the call.
Carole	St. Louis	MO	Please end Ro-Calls.
William	Morrisville	NC	No Robocalls to Cell Phones

john	San Jose	CA	You are part of the government which is supposed to serve the people. Serve the people not these idiots that do not and are not wanted by the people. Stop robo calls everywhere.
Patricia	Perris	CA	Several years back I knew someone who was behind on payments for a debt. Collection agencies called all over the U.S. not only to people related to him but people related to THEM whom he didn't know and had never met. Chasing down people who directly owe a debt is one thing. Ceaseless calls by rude collectors to someone not directly involved is stepping way outside the line - whether they're calling a cell phone or a landline. STOP robocalling NOW!
Gilberto	Miami	FL	These people are calling at all times of the day and evening. Calls on weekends, especially in the early mornings are affecting my peace of mind and rest. This has to stop. They have to be disallowed!
Kevin	Palm Springs	CA	FCC: No more Robocalls to Cell Phones!! - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available
Linda	Bradenton	FL	I have been offered "free cruise if I will just", energy efficiency advice "if I will just", survey to participate in if "I just..", the IRS is going to call you about back taxes, etc. Oh yes, and these calls have come at least twice each this week, and yes, I have told them I am registered for non-solicitation in Florida AND federally. They don't care. Oh yes, and an elderly friend is having to cancel her phone as she is no longer able to bear the constant calls all day and into the night. Yes, she is also registered for non-solicitation. It is not enough.
Bonnie	Honolulu	HI	Such calls are unsolicited,unwelcome, and disruptive. Please end theses nuisances . . . including those at election times!!
MICHAEL	GIG HARBOR	WA	Any number of robocalls is absurd. Getting robocalls every week is obscene.
Joan	Oklahoma City	OK	We actually disconnected our landline phone because of DAILY ROBO CALLS! There needs to be strict regulations to protect consumers.
Mark	Grants Pass	OR	RoboCalls by and large are scams. In best of cases they are advertising. Cell phone users pay incoming as well as outgoing. We should NOT have to pay for unwanted advertising or scams, whichever they happen to be. Get off the fence and do something for the U.S. citizen.
Nawal	Richmond	CA	I get so many of these calls on my home phone, please do not allow them to use our cells.....
No Robocalls to	No Robocalls to	CA	No Robocalls to Cell Phones!
Arthur	norwich	CT	Please end

Jeff	Portland	OR	<p>To whom it may concern: I have grown up using a cell phone for most of my life. Until last year, I had never owned a home phone of my own. After learning about the potential limited functionality of cell phones in a regional emergency, I decided to purchase a home phone to only be used in emergency situations. While the idea seemed good at the time, I canceled my land line subscription after just one month due to the high number of robocalls I received. My number was part of the "Do Not Call Registry", but it didn't seem to help. Worse still, none of the calls I received were actually intended for me. While I'm still concerned about what I might use in an emergency, fortunately, I was able to disconnect my landline and cut out robocall interruptions. I am very worried about the day robocalls/texts can be sent to cell phones, as I keep my phone with me all the time for work. I hope that cellphones can never be used for robocalls/texts, but if new industries (like debt collectors) are allowed to begin using robocalls, I also hope strong restrictions are placed on their ability to do so. I would hope that the recipients of these calls would have the ability to opt-out of future calls, and that the robocaller would be required to disclose the right to be removed from such lists. I hope debt-collection robocalls would be limited to only those who are directly responsible for the debt--not friends and family of those in debt. And finally, I hope these new rules are made clear and well socialized both before and after the new regulations are put in place. As far as I'm concerned, robocalls have already placed me in a dangerous situation, since I do not have a backup form of communication in the event of an emergency. I am very concerned that *any* expansion of robocalls will cause significant life disruptions that threaten my health and safety. Thank you for your consideration.</p>
Ed	Bethesda	MD	<p>Please STOP your !@#\$\$%^&*!! Robocalls. They are annoying; unwelcome; intrusive; and downright abusive. Please tell me how many Robocalls per day you get; I am happy to tell you mine!! Sincerely yours, Disgusted</p>
Thomas	Fremont	OH	<p>Please stop all robocalls</p>
Harold	St Pete Beach	FL	<p>As an American citizen, 71 years of age I do NOT want these people hounding me on my cell whenever they please. I am getting calls from all over the US. The only ID that shows is some state that the call "supposedly" is coming from. Also my carrier does not allow us to Block unwanted callers. Thanks for consideration in this matter.</p>
Michael	Louisville	KY	<p>I receive no less than 10 robocalls a day both at home and on my cell phone--before breakfast, during work, at dinner, and even while relaxing at home. I have no debts--these are sales and donation related. Enough is enough!</p>
Adil	Van Nuys	CA	<p>Robocalls disrupt people. Unwanted human callers are bad enough, but answering the phone with a machine calling is worse. Punish companies that use robocalling to promote their wares, and stop these robocalls.</p>

Linda	Clackamas	OR	I HAVE TIRED OF BEING WOKE UP AT 8AM EVERY DAY BY ROBOCALLS! I jumped up from a sound sleep to answer the phone and fell. I want to answer the call before it woke my roommate who was ill. We are to ladies 69 and 74 years old. When we normally receive calls that early something is wrong. I know the robo callers say it is their right to call to spread their scams. However, how about my rights to have a home that is private, safe and unbothered. Can't something be done to stop this JUNK from happening?
Brian	Venice	FL	The vast majority of my robocalls are senior scams. My brain works fairly well now, but when I get really old,... well, this is a problem for seniors who are still meticulous about answering calls in case it is a granddaughter. I haven't had an honest robocalls in years, and worst are cell calls. This is a real problem with driving as well. This is predominately not a problem for legitimate companies, just for shady ones and the phone companies making money on (our) time. Thanks.
Floyd	Oak Park	CA	Please make these annoying vultures go away!
Michael	Los Angeles	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available All robocalls should be stopped as they are a invasion of my privacy.
Jeffrey	Enfield	CT	I'm angry, frustrated, annoyed & perplexed! I pay, what I consider a high fee to use a mobile phone [a premium cost I choose to do]. Not only do I have to pay the monthly fee but I have to pick up the cost for telemarketers and politicians, I don't want or welcome. It's like watching free broadcast TV and being forced to pay for the commercials.... I pay for me and my family to use, not for every spoofed, telemarketer or politician. I would have no problem with any marketing or political call as long calling plan was free.... The do not call system is not effective because it is not enforced effectively enough. If I have to block a regular robocall number through my provider it will cost me \$60 per year per number, that's if isn't blocked or spoofed. Please make the madness stop.... I hate having to screen every call I get...
Peter	Santa Fe	NM	I pay for every call, and should not be forced to pay for calls I don't want.
Ken	Clarendon	PA	Please stop all robo calls
Hu	Peoria	IL	I'M TIRED OF BEING DISTURBED BY ROBOCALLS. MAKE IT ILLEGAL TO DO ANY SORT OF ROBOCALL. ALSO STOP CANDIDATES FROM USING ROBOCALLS. I ALWAYS HANG UP ON ANY TYPE OF ROBOCALL.

ETHEL	NEW YORK	NY	I run to answer the phone only to be greeted by a name I don't recognize with a message from Con Edison or credit cards. I don't have a Con Edison account and haven't had one for almost 50 years. I pay my credit cards off every month - don't care at all about lower rates. I also resent being interrupted at whatever I am doing.
Carole	Austin	TX	I've had the same landline number since 1978, and I get between 20 and 40 robocalls a day. I block most of them with NOMOROBO. But now they are starting on my cell phone. I am on the national and Texas do not call lists - those do nothing. Now it's starting on my cell phone and texts. These are not debt collection calls or calls from anyone I've ever done business with.... this is people selling siding, asking for donations, political crap, wanting to sell me drugs from Canada, wanting to give me a credit card =-- it is SO annoying. PLEASE DO SOMETHING to stop this!
Kenneth	San Diego	CA	Stop all unwanted commercial solicitation calls to all phones, not just robocalls to cell phones. Make the Do Not Call list effective by empowering the consumer/offendee to take action against offenders. Nothing else is going to have any significant effect against this plague. Congress: Tell the lobbyists to take a hike and DO SOMETHING REAL for your constituents.
G	columbus	GA	We are inundated with telemarketers calling our home phone and cell phones on a daily basis.
Joe	The Villages	FL	Dear FCC: If you personally don't like or it is not allowed where you live for someone to ring your door bell a dozen plus times a day every day and evening than please PLEASE outlaw robo calls. Robo calls and unwanted multiple daily home door solicitations are much the same except one may distract your driving. I can't understand why something 99% of people (my guess at %) are totally against has not been taken care of already. If you don't appreciate interruption of your privacy then please do something long over due. Time to act, action is needed now.
Robert	Mokena	IL	Because many robo calls come during work hours, the time wasted answering these calls contributes to lost productivity. It is not just the time it takes to answer the call, but also the time it takes to get re-engaged in my work. It is an irritating intrusion on my privacy and should not be allowed to continue. Please do all you can to ban this practice of unauthorized marketing. Thank you
J. Mark	Middlesex	NJ	I am tired of having my personal life invaded by unwanted and unsolicited robocalls to by cell p hone. These invasive calls should not be allowed under any circumstances.
Lonnie	North Richland H	TX	Why should a robocaller be able to determine how and when to use my phone? My phone is my personal device with whom I should be able to establish contact. Robocallers could easily establish their own call list on which people could choose to register to receive calls from the robocallers.

Michael	Camarillo	CA	This is an unnecessary and annoying intrusion on our lives.
Gerry	Gloversville	NY	End cellphone robo calls!
Rodger	Ship Bottom,	NJ	We have gotten to the point where we don't recognize the caller ID we don't answer. We miss important calls occasionally because of this.
Frank	Holbrook	NY	It has to stop!
Martha	Chicago	IL	Debt collection robocallers must notify us of our right to stop receiving calls--otherwise, those companies will run up the phone bills for those already strapped for cash.
c	Shoreline	WA	Robocalls have effectively destroyed the peace of our homes: robocalls on our cell phones will destroy our peace everywhere we are. Most of the robocalls I receive are completely random sales calls, and I should be allowed to control which products contact me--with my permission--and which ones don't--all of those without invitation from me.
Justin	Tucson	AZ	Robo calls have caused me to stop answering my land and cell phone forcing legitimate callers to leave a message. Is this the America we want?
LEONARD	ADA	MI	I am fed up with unsolicited phone calls interrupting my dinner or disturbing my Sunday family time. Also resent calls on my cell phone. The "Do Not Call List" doesn't stop the calls.
John	West Newton	MA	Each day, I receive four to five unwanted sales calls on my phone, predominantly from US Pharmacy and "Bridget" and others who want to lower my credit card interest rates. US Pharmacy uses live callers from India, and "Bridget" is a recorded pitch. You cannot filter these calls out with caller ID, since they spoof where the calls originate from. Since they rotate phony originating numbers, blocking certain calling numbers is not effective either. I have blocked nearly two hundred originating calling numbers, yet I still get four or five of these unwanted calls each day, all from new spoofed numbers. All of my phone numbers are on the do not call list. These boiler room and automated call operations should not have the ability to make calls, and the FCC should shut down those operations that persist in making these unwanted unlawful calls.
Ray	Bellingham	WA	Robocalls and telemarketers have no right to use private phone lines we paid for to try to sell their services. This must be stopped.
Jean	Huntington	NY	Ironically waste my time, and do not achieve any purpose. Please outlaw them.
John	Akron	OH	Please stop robocalls to both landlines and cell phones. This is an invasion of privacy. Also, please increase the penalties against organizations that use robocalls.
susan	saline	MI	Please stop all robocalls to cell phones. Thank you
W Edward	Tucson	AZ	Under no circumstances should robocalls be allowed to call my cell phone.

Frank	San Rafael	CA	And privacy cannot be measured in PROFIT! Stop the intrusive robo calls interrupting my life!
Dave	Kensington	MD	Give the power to end robocalls to the people.
DOCTOR	.	CA	No Robocalls to Cell Phones!
Gerald	Eupora	MS	Our time on earth is very limited, especially for us (senior citizens). PLEASE help stop the robo callers from wasting what precious time we have left.
Ms M	Atlanta	GA	My cell phone is overwhelmed with calls from all over the United States!!! I don't know who they are, don't owe them, don't want their services, and don't appreciate their unsolicited calls to my phones. Being deaf, I have enough problems to deal with communicating with uncaring and insensitive people that I am forced to try connecting with for my needs. No ones privacy should be invaded like this when they have zero ties to the caller!!!!!! Just way to darn intrusive!!
Chad	Salt Lake City	UT	Please end Robo-Calls. Thank you!
Richard	Ralston	NE	Please! No robocalls to cell phones.
Joseph	Nashua	NH	It is an outrage to even consider allowing robo calls -- especially to cell phones. The owner of the phone can be charged for unwanted incoming calls. What next? Do we have to go back to a pair of tin cans and a length of string? Or must we turn off our phone to avoid such intrusions? In which case why have a phone.
Frank	San Marcos	TX	Stop robo calls.
Donna	Tucson	AZ	Stop Robocalls to my cell phone. I pay for those unwanted calls and consider it theft. I would never donate or buy anything from a Robocall contact.
Mark	San Carlos	CA	I pay for the phone and service. Robocalls, and all undwanted uninvited telemarketing calls are an invasion of privacy, theft of my time and money, and should be stopped
Jane	Oceanside	CA	Please pass strict regulations on robocalls and texts from debt collectors and others. I feel it is an invasion of my privacy to receive robocalls, especially on my cell phone. It is disruptive to my life, annoying, and stressful. I don't feel robocallers should have more right to bother me than I have to my privacy.
ROBERT	ROSEDALE	NY	THESE CALLS WILL BE DEDUCTED FROM OUR MINUTES.THIS IS INCREDIBLE THAT LEGISLATION HAS TO BE PASSED REGARDING THIS COMMON SENSE SITUATION.
Jennifer	Danville	VA	Just say NO to robocalls.
Mark	Casper	WY	My 84 year old mother's land line receives 10 robocalls per day and lately I've been receiving two a week on my cell phone. Robocalling should be illegal, especially marketing cold calls to cell phones. Penalties must be levied on these illegal callers immediately. Please protect us from these predatory criminals.

Thomas	West Newbury	MA	Dear FCC, Despite being on the Do Not Call list, we receive dozens of robocalls each week on our landline. The majority are scams with phony caller IDs, unidentified and unresponsive callers, followed by surveys, mostly phony, political calls, and debt collectors calling for somebody else or fishing for information about neighbors we don't know. We would like them ALL stopped. Now there is a proposal to extend this incessant robocalling to mobile phones. This not only escalates the constant annoyance, but adds another distracted-driving hazard to our roads, and, for those like me who travel overseas, adds overseas roaming and local connect charges to our phone bills. DO NOT permit this use of mobile phones. Thank you.
Larry	Sebastopol	CA	I object to any robocalls to cell phones. If I can opt out to robocalls to my landlines, why should cell phones be different?
Freda	Dallas	TX	Cell phones should be held private, and there should be no robocalls allowed to cell phones!
B	Cincinnati	OH	Take action to stop Robo calls
Norm	San Antonio	TX	I received calls advising me that my auto loan has expired when in fact I still have two more years on my warranty. This is a sneaky way of selling extended vehicle warranties.
Marty	Milwaukee	WI	Adding the unwanted burden of Robocalls to cell phones is an invasion of privacy as well as an added cost in some cell plans. This is not a corporate right!
Joseph	Eastham	MA	I have no interest in hearing from people who are contacting me to sell me something I have never expressed interest in or more likely would express distain for if I had any knowledge of.
Bob	San Diego	CA	Please, do not allow robocalls to cell phones. It is unacceptable that we have to put up with these. Thank you
Frank	Tucson	AZ	No robo calls to cell phones!
Robert	Chesapeake	VA	I receive 6 to 10 robo calls a day even though I am on the Do Not Call list
Lisa	Lake Mary	FL	Suddenly I seem to be getting more and more robocalls while driving. It is dangerous in traffic!!!
Marla	Leadville	CO	I can not believe that I need to file a public comment concerning this issue. That's right, I'm in complete disbelief, that in this day and age, this commonsense consumer protection is up for grabs. How about supporting main street over wall street for once. I once received up to six of these calls a day in the middle of my work day, when stopping to answer the phone I was required to carry, or even to see who it was could have caused an accident and cost me the job I needed to pay the debt in the first place. It's tough enough as it is for main street right now.

Gloria	Houston	TX	Its bad enough that our landlines get 10-20 calls per day from robocalls, and now cell phones are to be targeted. Please protect us from these time consuming calls. Not only time consuming but irritating and annoying. Our privacy should be protected as much as possible. Sick people, babies, the elderly, those with irregular working hours shouldn't have to be disturbed by these calls. Please do something to curb these robocalls. Scammers have taken advantage of us by calling many times a day.
Russell	Efland	NC	I have received Robo calls to my cell phone, and it is annoying at the least. I had to unplug my landline due to these calls . Enforce the laws,and don't allow any Robo calls to cellular phones.
Alex	Cupertino	CA	Several people I know, including my elderly mother, don't have an unlimited calling plan and these calls cost real dollars per minute to those people and virtual dollars to everyone else. I'm too busy to have my life invaded by these time suckers. Any loophole will most certainly be taken capitalized by would be scammers targeting people like my elderly mother. This ridiculousness must be ended once and for all.
Louis	Delancey	NY	Robocalls to cell phones are not only very annoying but dangerous. Such a call while driving, even hands free, could distract the driver and cause an accident. They must be eliminated!
Jim	Lincoln	NE	I don't give out my phone number to many people. I do not need to be disturbed by unwanted phone calls.
Charles	Chicago	IL	It is time to stop the affect robocalls have on our peaceful lives, They do not show there true identity on Caller I.D. It has caused me to reject any calls from unknown sender. This requires that I must review my Caller I.D. each time my phone rings. Calls from the same number are received as often as three times in a day and often repeat in subsequent days. Everyone I know has the same aggravation with robocalls.
Lawrence	New York	NY	Robo calls are a disturbance and a great nuisance. There is no reason for them to be legal. In a balance or rights, it should be in favor of telephone subscriber.
Mary	Salem	IN	My cell phone and also my home phone are for my convenience, not for robo calls. They are intrusive, unwelcome, and to block them is expensive and NOT effective. At my age I don't need to break a leg trying to pick up an unwelcome phone call. I consider them an invasion of my privacy and they are unwelcome. No robomo calls!!!
Lorri	Oklahoma City	OK	I oppose any robot making calls to anyone only a human being should be making calls! If debt collection calls need to be made, then the family members or friends of debtor should not be included. Only the person/persons who directly owe the debt.

Gwen	Belchertown	MA	A lot of people pay for minutes on their cell phones, it is unconscionable that we should have to put up with unwanted calls on our cell phones. We pay the bill, we get to choose who we want to talk to
Farid	Elk Grove	CA	Please do not allow robocalls to cell phones.
Luis	Alexandria	VA	Clear and strict rules for robocalls please
Patricia	Tyler	TX	Please stop robocalls coming to my cell phone using my minutes to ask for a donation. This makes me angry to know they are allowed to use my cell phone. I am a widow on social security and cannot afford their calls. It is not fair for them to use my phone without my permission. Please stop these obnoxious calls. Also stop them from calling me on my land line, they seem to know when I am watching TV or eating. That is when they choose to call. I am tired of this objectionable calling. I don't have time for the jokers. They need to stay off both phones.
Janise	Melbourne	FL	It is difficult for my elderly husband and me to get up for the phone. It is wrong to get so many calls from folks wanting our money. They keep calling eventhough I say please remove this number from your call list.
Larry	Destrehan	LA	I still receive these calls even after registering my cell phone twice.
Amy	Milwaukee	WI	Please protect American Citizens from predatory Robocalls calls
Christine	Lafayette	LA	This type of call is so annoying, especially at dinner time when we seem to receive them the most. Please stop these calls. We don't even listen to their message.
Matt	Spokane	WA	They are flat out harassment, cost me time/money and it pisses me off EVERY time I get one!!
Grant	Conway	MA	I regularly receive 10-20 disruptive robocalls each day despite both my cell and home numbers being on the federal no-call list. Blocking robocall numbers no longer works since robocallers now routinely use multiple and/or randomized faux numbers to call their intended victims. And it's not just debt collection companies (they don't call me)...robocalls are also used illegally by a huge range of sales operations as well as numerous scammers claiming that your computer needs to be fixed or attempting to steal your financial information. It's time for you to do something to stop this outrageous, illegal use of our phone system!
Marco	Kirkland	WA	My privacy against intrusive FRANKEN-phone and ROBO-calls is protected by law and the U.S. Constitution... The FCC needs to STOP Robo-caller abuse !!
everett	torrington	CT	Stop these calls these people are ruthless ccall all times of the day
Robert	Pittsburgh	PA	It is a dangerous thing for elders to be called to their phones needlessly. Chances increase for falls, stumbles, etc. This crap is an invasion of privacy, please stop it. (My wife and I are in our 70s, and each has a mobility disability.)

Ronald	Bastrop	TX	I dumped my home landline phone because, all I ever got on it was commercial robocalls. I thought a law was passed to prevent robocalls on cell phones. Now, half my phone calls are robocalls on my cell phone. YOU HAVE TO DO SOMETHING!, Fed Up, Ron Whipple
M.	Orlando	FL	No robocalls to cell phones!
Walt	Roseville	CA	Robocalls are a costly infringement on people's (MY) privacy!!!
Valerie	Portland	ME	Surely everyone withba cell phone resents these intrusive time and cell plan wasters. Until they pay my cell phone bill, keep me off their lists!
Susan	Boxford	MA	Constantl interruptions during work or leisure time. Please stop robocalls
George	Fairfax Station	VA	I receive numerous solicitation robocalls daily and find these irritating and time wasting. These callers don't pay for the costs of our cell phone services, but we actually have to pay for the receipt of these calls. They interrupt our work and life and cost us money and should be stopped.
Atwell	Dallas	TX	I need my cell phone as a free line separate from my land line. This is a method of separating my business calls from my personal calls.
Maggie	Greenville	SC	Please stop the invasive and abusive practice of robocalls and advertising texts to cell phones. Even though I am signed up on the Do Not Call registry for both my home and cell phones, many companies still disregard this list and make multiple phone calls. We do not have a cell phone policy which allows unlimited minutes, and invasive robocalls take away the cell phone minutes we have already had to pay for. This is abusive and potentially expensive, as well as being extremely annoying. Why should some company we are not interested in be allowed to invade our privacy by calling or texting our cell phones? If we need their help, we can find them through regular means. Many of these companies that call our home or cell phones are not satisfied to call once and then leave us alone if we are not interested; no---they feel free to call over and over again, even calling multiple times in one week. Please stop this invasive abuse of our privacy.
Thomas	Meniffee	CA	please take action to stop the Robocalls what an invasion of privacy.
Stuart	New York	NY	Robo calls are very inconvenient and annoying. They also cost money if you do not have a plan with unlimited minutes. Please put an end to it. Thank you
David	Portland	ME	Please stop all cellphone robocalls. Robocalls to land lines are bad enough!
John	Boynton Beach	FL	Stop wasting my time and money
Jerry	Fortson	GA	I have had it with robo calls on both my cell and house phones!!!!!!!!!!!!!!

Mike	Missouri Coty	TX	I am tired of constant interruptions for no good purpose. Technically I doubt stopping this practice much of a challenge. We need Draconian penalties to halt this practice
john	Raleigh	NC	Don't let the machines win. The calls are invasive, difficult, very difficult to deter much less stop and makes you ignore your phone.
James R.	Sierra Vista	AZ	Please stop these calls! I have found no way to stop these callers from wasting my air time which costs me money. I don't even owe any money to anyone, yet these machines have me on some list that I cannot get off of. Plus, the calling numbers constantly change so I cannot even block them. I believe that: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Please give us a way to opt out of these calls similar to the do not call list. Thanks.
Al	Richmond Hill	NY	We can no longer remove ourselves from their list . They no longer respect the Do Not Call me.I have tried to block their phones but they Dial with a spoofed caller ID so the blocking doesn't work
Robert	Rowland Heights	CA	Please, please make robocalls illegal.
Petra	Oro Valley	AZ	I do not want to want ANY Unwanted texts or phone calls!
J	MISSOULA	MT	I'm beyond sick and tired of these annoying calls coming in several times a day. Also sick and tired of out of country calls with foreign voices demanding business etc! My phone number is on the do not call website- what a joke!!! There might as well not even be a website ... Here is another Prime example of wasted federal tax dollars on a worthless website!'
Mary	Mobile	AL	I am looking to you to adopt strong guidelines to stop robot calls and other abusive, unsolicited calls to my cell phone. These invasive calls are unwanted by me and the majority of the American public! We just want to CHOOSE WHO WE RECEIVE CALLS FROM ON OUR CELL PHONES. If you want to know what is behind the strong support of Bernie Sanders and Donald Trump, just look at the lack of backbone in supporting the AMERICAN PUBLIC by making rules "we the public" do not support. Instead a ad the rules are made o. Behalf of predatory, lobbieists!!!! Please STOP ROBOCALLS TO MY CELL. PHONE!
Myron	Pacifica	CA	I'm tired of receiving practically everyday robocalls, especially on my cell phone since that costs ME minutes!

Lucienne	San Jose	CA	To whom it may concern, Please STOP ALL ROBOCALLS to CELL PHONES and Landlines for once and for all, enough is enough !! Also, as a general rule (for ALL Businesses, Companies, Financial Institutions, Phone Companies, Third Party Companies and the like) and this is what the LAW should be; One should be able to 'Opt in' to something if they so desire and Not Having to Have to 'Opt out'. Debt collection Robo Callers must notify us, and only those who directly hold federal debt not friends and family, of our right to stop receiving calls. And the number of allowed calls or texts should be limited to no more then three (3) per month. The guidelines should also be clear and readily available. Please make sure our Privacy is always Respected and Protected, it would be very much appreciated. Thank you for your time.
Stephen	San Jose	CA	Marketing robocalls are both annoying, wasteful and inefficient. Please stop them.
John	San Francisco	CA	The FCC must not back down in the face of pressure from the unseemly debt collection industry. I oppose completely any ruling that would permit the industry to make robocalls to my or anyone else's cell phone. Such calls should not be allowed. Do your job, which is to represent the interests of the American people, not the particular interests of an especially unsavory industry!
Laurry	Dallas	TX	Carmen, with Cardholder Services, has called me almost every weekday for over two years. I've blown an air horn into their ears and cursed them a blue streak. Please do something.
Carol	Clearwater	FL	In 3 months, I have had ONE legitimate call and HUNDREDS OF ROBOCALLS. Please help!
Dick	Northbrook	IL	It's time to stop the illegal robocalls. Most of us have signed up for the Do Not Call Lists and yet we still get calls. Telephone companies have the skills and tools to stop these time wasting calls. Stop them now.
Craig	Saugus	MA	Robo calls to home phones are bad enough but when I start getting robo calls on my cell phone - enough is enough! I'm a contractor and it always seems that robo calls come at the most inconvenient times. Not wanting to miss a call about a potential project, I tend to answer all calls.
Heather	Carol Stream	IL	I have been seriously ill this year, it really is annoying to get sales calls for BS when I am in bed. Do not offer me a better credit card rate, to clean my furnace etc. When you try to call these numbers back they will not accept your call, it should go both ways.

Ellen	Mundelein	IL	The number of robocalls I receive has gone up substantially despite being on the do not call list not to mention the extreme annoyance. Just last night I received 2 calls within 60 seconds of each other from the same company. As citizens, we pay for our phone service and should not be constantly subjected to these types of calls. For myself, I didn't ask for these calls so the companies robocalling on the telephone line that I pay for should not be unless they wish to compensate me. Having just come out of a personal financial crisis, the debt collectors should not constantly call me and especially not call family or friends. I've never had a debt collector inform me that I have the right to ask for cessation of the calls.
barry	Flushing	NY	No Robocalls to Cell Phones!
John	Lincoln	NE	Not only are these call a huge nuisance, they are also a invasion of privacy. Please do whatever is necessary to stop them.
Charles	Kyle	TX	Please stop ROBOCALLS. ALL of them cost me money and time.
Kent	Austin	TX	If your family is anything like ours, we're swamped with robocalls....even on our our cell phones. We run to catch the phone, pull over if driving, and get unwelcome call from A to Z. Please promptly act to shut down these unsolicited calls, as they're not only a nuisance but a safety issue. In summary, have the balls to stand up to robocalls!
Albert	Drexel Hill	PA	I am getting robocalls on my cell phone and I pay for each minute of use. I also get them on my home phone. Both numbers have been registered on the "Do Not Call List".
John	Kansas City	MO	I taught on a high school level (retired now), and I used my cell phone only for important communications--my mother was in her late 70's and my brother is epilectic--and it was, and remains, important to me that calls to my cell phone are important enough to warrant an interruption to whatever business I am engaged in when the call comes.
Curtis	So Jo	UT	Robocalls have forced me to turn off the ringer on my phone. most days the majority of calls I get are robocalls. Many people are abandoning land lines because they don't get robocalls on cell phones.
Jeff	New York	NY	I want sales calls less on my mobile than at home. Just don't call me. Period!
Kenneth	Shoreview	MN	Harassing robocalls are as bad if not worse than louder commercials then programing!!!
Roger	Rock Hill	SC	Robocalls require the me to navigate towards, and then answer of the telephone. This is an extremely inconvenient burden for me, who is a disabled person.
Gordon	Las Vegas	NV	Please stop all Robocalls to cell phones. I have things I would rather do than be bothered by these damn calls.
Edward	Northborough	MA	No robocalls to cellphones.

Ursula	Asheville	NC	Please, make it illegal for these unwanted intrusions in to our lives. I have a right to a peaceful meal at night. Tired of the same credit card calls beginning with a veiled mention of problems with my account that don't exist.
Linda	Hemet	CA	Robocalls are uninvited guests in our homes and elsewhere. I primarily use my cell phone for calls to and from my family. I get the same calls over and over on my land line as well as the cell and it is always at an inconvenient time! We have health issues in our family and being disturbed by these calls are not welcome. Often, they call after we have retired for the night. I feel the penalty needs to be severe for all these advertisers & for the record, I would NEVER buy from someone who calls my home to advertise their products, robocall or by a person. There is no way out from either type of call. I have had as many as four in a row. For example, I have had more energy related calls than I can count. Telling them my energy bill has never been 150.00 EVER, I am not interested in their product, I am on a "Do not call" list, etc. does nothing to stop the calls. As for the robocalls we feel there is no recourse. I have even tried dialing the number back but that doesn't work either. We are totally frustrated over this!!
MICHAEL & CA	VENTNOR CITY	NJ	STOP THE ROBO CALLS FROM HAPPENING. WE HAVE ILLNESS IN THE HOUSE. IT,S SERIOUS.
Robert	Clovis	CA	We receive multiple robo calls at all hours of the day on our home phone and our cell phones. We tried blocking the numbers but they keep calling on other numbers anyway. They call from numbers that appear to be local but are not. From sales pitches to scams e.g. "the IRS is filing suit against us and we need to call now..." We are on the "do not call list" but it doesn't matter. We also have an unlisted home phone number but it doesn't matter either. We have a generic message on our phone now and don't answer any calls that we don't recognize. The calls are forwarded to our message machine after four rings but they generally don't leave a message unless they pretend to be bill collectors or the IRS. Please help us stop these annoying, threatening, and disturbing calls by robocallers. Thank you.
Frank	Hawthorne	CA	Apparently, what we were taught in school about the U.S. Constitution was a complete lie, because we have no privacy rights, no right to know what poisons the chemical companies are adding to our foods, and no right to make our own decisions to improve our health.
Frederick	Rosedale	MD	Stop unwanted robocalls
Linh	Santa Ana	CA	Please stop these spam calls on our cell phones
Tim	Oshkosh	WI	We get enough robo calls on our land line phone, DON'T want them on my cell phone too!
Thomas	Houston	TX	On do not call list for years now, has not stopped calls at all. Have registered complains, but never get a response back.

Duane	West Lafayette	IN	Please end this abominable practice and provide the absolute maximum privacy protections for cell/smart/mobile phones. simply ending these calls would be best.
Jane	Austin	TX	We need clear, understandable guidelines so calls are not made to family members or friends and are also restricted from being made to cell phones
John	Philadelphia	PA	The consumer should be able to contact the State's Attorney General to file a complaint against the business harassing the consumer, and the consumer should not need a lawyer to do so. Perhaps the FCC should establish a new regulation allowing the consumer to have the action noted above. More regulation of businesses acting as predators and practicing unethical, immoral, and fraudulent business practices should have their business licenses revoked for this inappropriate conduct. JL 051916
William	Los Angeles	CA	Please allow those with landlines and cell phones to have robot call stopped. Each user of a phone has the right to be able to place stops in place thru the carrier, without extra billing charges, to stop robo callers. This infringes on the privacy of the user and disturbs the home from morning times thru night times, up to 9pm. Communication companies must have technology in place to prevent this. Please make it so.
Ron	Hudson	WI	I get 3-4 call per weeks on my cell phone and home phone from Rachel and her friends from card services. I have signed the do not call but it will not stop.
Tom	Alamo	TX	Stop endless robocalls from debt collectors, at east limit them severely and make them play by rules that they must announce to targets (victims) and make them call only the debtor, not debtors' relatives, friends and neighbors!
Stephen	South San Franci	CA	End robocalls forever.
LARRY	Lake Charles	LA	No Robocalls to Cell Phones!
Paul	Chapel Hill	NC	Several robocalls each day. Over a hundred each month! That's too much! I want a way I can block those calls and I also want the people who place those calls to be penalized for wasting my time and money.

Jackie	Tampa	FL	These calls and text come in day and night at any time. Some of these call are for the person who had the number before you even though I've had this number since 2009! They call your kids phones and even though you ask them to stop call, on any phone, they call anyway. If you ask them to stop they hang up on you, I guess so they can say, nope I was not told not to call, or they cuss you out! These calls need to stop for every person who does not want them, it's harassment. People should not be inundate with these kind of calls every single day. Some of these calls are even straight up lies of people trying to say you owe a debt with a company you've never dealt with. Some elderly people probably fall for this and give these people money. I sent the bill back and stated never dealt with that bank they were saying I owed, thankfully it was removed from my credit but I did threaten to call an attorney, maybe that's why they removed it.
Davis	Norman	OK	In addition to having to answer he call, I lose minutes because I am on a pay as you go plan. Every unsolicited call or text costs me \$\$\$. Please stop this madness
JOSE	MIAMI	FL	Don't give in to the crooked, bought and sold politicians. The American people DO NOT WANT ROBOCALLS.
Steve	Lakeside Park	KY	Please act to stop robocalls from creditors, including marketers offering credit cards and loans, as well as push-polls from politicians and any other kind of unsolicited calls.
Rita	Abilene	KS	The intrusions into our daily lives has to stop! We are depending on you!
Bill	Leominster	MA	Please take the strongest measures possible to stop abusive robocalls to cell phones now. 95 percent of the calls to my landline every day are from robocalling telemarketers, phishers, and outright scammers and I absolutely do not want this same harassment to follow me everywhere on my cell phone. Thank you!
Robert	Austin	TX	Robocalls to my cell phone, and business phone, are not just an annoyance, but hurt my ability to be a productive worker. Please do what you can to enforce greater protection for consumers!
Linda	Charlevoix	MI	No Robocalls. Period. We are retirees with limited cell phone service. It is not ethical to use up our minutes with calls we neither want nor asked for. It is hard enough to be able to keep in touch with family with a limited plan. The amount of time and energy spent dealing with constant Robocalls drove us to give up our land line. The constant interruption of the phone ringing is maddening. No Robocalls!
Craig	Warwick	RI	Please Stop these unwanted incursions into my peace and quiet
Lon	Tracy	CA	Please stop cell and all phone auto dialing/ robocalling!

Elizabeth	Massapequa	NY	I'm asking the FCC to require debt collectors to follow strict guidelines for cell phone contacts. The consumer must be notified of an easy way to eliminate robocalls and texts from unwanted callers. A limitation to 3 of the TOTAL number of texts and calls must be strictly adhered to by robocallers. Only those who hold the debt can be contacted, not their friends and not their families. They do not hold the debt, have no liability whatsoever, and should NEVER be contacted. Finally, the guidelines for the consumer must be clear and readily available so that people know their rights under the law.
Tom	Allen	TX	Cell phones are personal items and should be afforded the same protections as home phones.
Nanci	Indianapolis	IN	If I pay my phone bill, which I do, it is not for the convience of anyone but my friends, relatives, and whom I wish to receive phone calls from, it is not for advertizers, collectors, or con people. If I continue to get unwanted phone calls, I will cancel my phone. simple as that.
Celia	Nashville	TN	Please stop these annoying robocalls!!
Paul	Nevada city	CA	I was getting over 30 calls a day on my office phone. I installed a software robo-blocker several months ago, and since then the calls have dropped from about 30/day to maybe 7/week or less. HOWEVER some friends need to enter a numeric password to be put through, or the software asks for a 'mail box number' - which doesn't exist, so some return calls from friends are screened out -- better to have the local service provider (for me ATT Uverse) place FAR more effective software so that my software is not 'hackable' as I'm not certain how to update it. thank you for your time, /s/ Paul Galioni, Ed.D., Ph.D.
Victor	Ballston Spa	NY	I am on the do not call list and it is useless. I get at least three robo calls a day. What a waste of time. Please end this nuisance.
David	Lee's Summit	MO	Call back to reduce your debt. Call back to claim your prize. Call back to stop the IRS. Call back to refinance. Call back, call back, call back. . . .
John	Estherville	IA	I get robocalls on my business line all the time. I have gotten to where I don't answer if it shows "unknown number, unknown caller". I don't like "not answering" my phone and want robocalls to end. They never leave a message so they're a complete waste of time.
Karen	Melbourne	FL	Why don't people have the right to stop receiving robo-calls? To make matters even more troublesome, now there are SCAM robo-calls! People do not deserve this constant intrusion on their lives. Such things make me hate the companies who call. I won't buy their products.
Linda	Mesa	AZ	If I want their product I will call them!!
Robet	San Francisco	CA	The telephone was never meant to be used as a nuisance device. Stop allowing people to be predatory callers.

Robert	Phoenix	AZ	Please do what you can to stop calls to my cell phone, whether they be RoboCalls or unsolicited calls. The national Do Not Call list that I have registered my phones on is not working. Please stop this practice.
Judith	Wheatland	WY	No robocalls on cell phones.
Joe	collegeville	PA	Earlier this week I got a robocall about a wireless security system coming from Michigan on my cell phone. This may only be one call, but it is one call too many.
Gary	Kingwood	TX	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available.
William	Houston	TX	I'm sick to death of getting trash calls on my cell phone as well as my home phone. Both numbers are listed on the Do Not Call list and we get them anyway. The companies just ignore it. What good is it? Please do something to stop this abuse!
Dennis	Terrebonne	OR	I get repeated calls from Asian people who say they are from Windows support or Dell support. These people call multiple times during they day and completely out of hand. This has got to stop.
David	Hartsville	SC	Six months ago I discontinued my home phone service because of too many robo calls , requests for money etc. Since then I have been receiving more and mre unwanted calls to mey cell phone. Please stop them from calling me. I get very mad that they can intrude on my life. Please.
Mark	Napa	CA	Robocall so ruin the cell phone experience. They are very annoying! They waste our time. NO to robocall!
Wayne	Prior Lake	MN	It's starting to drive me nuts! I'm CHARGED for these. I'm on the "do not call" list for both my home phone and cell. Doesn't make any difference. These calls MUST be blocked somehow.
Rachel	Evanston	IL	We don't answer our landline any longer for the bother of robocalls. My cell phone is what I rely on not to be disturbed by unnecessary, unwanted solicitations. Keep our privacy and quietude safe!
Karen	Macomb	MI	I was beleaguered with calls for the person who had my number before me. I don't need to deal with someone else's mess. Do what you can to help stop the problem. PLEASE, or I'm going to call you repeatedly and ask you to do so. After all... you don't mind do you?
SHARON	RENTON	WA	We absolutely need to put a stop to these calls now! I have been scammed more than once by these criminals and nobody but me pays for it!!! UNACCEPTABLE!!!!
Pamela	Dayton	OH	I receive as many as three robocalls a day. The calls start as early as 8:00 am and end around 9:00 pm. It is very frustrating!
Ruth	Woodland hills	CA	These calls are invading my privacy and sanity!

Steve	Decatur	GA	<p>Dear FCC, Recently I have started getting regular robo calls on my cellphone. About half the time they come in from an undisclosed number, so that there is no way to block them. The other half of the time they use a local area code, but as far as I can tell, its not a real local number at all. They call at dinner. They call at lunch. I am sick of it. I oppose robocalls to my cell phone without my permission. Debt collection robocallers and sales robocallers must notify me of my right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Please, we are depending on you to take action on this matter and stop these infernal robocallers. Thank you very much. Steve Mclaughlin</p>
Debbie	Altoona	PA	<p>We receive a lot of robo calls every day. We get hit with organizations asking for money all the time. Not only phone calls, but through emails and through the mail!! Enough is enough. I'm considering taking my landline out of our house because of these robo calls.</p>
BOB	Damascus	OR	<p>WE get 6 to 12 robo calls a day. With the tricks that they play it is impossible to actually tell where the call is coming from. Please put a stop to these people now. Thank You</p>
Russell	Sodus	NY	<p>New rules do no good if they are not enforced any better than the existing ones!!!! The Telemarketers just ignore them, maybe even use the lists as a source of numbers to call. I have been on the "DO NOT CALL LIST" almost from the beginning, The FCC has made such an impossible task to file a complaint about telemarketers none can be filed. People across the country are called by RACHAL, warning that this is the last opportunity to take advantage of their "Speciat OFFER", They will not be called again! From their mouth to GOD's Ear! If you wait until the recording gives you a number/ digit to dial to be removed from their list, all you are doing is to waste several of the precious minutes of life you are allotted. To file a complaint you have to have the name of the person calling and the number they call from. Gosh there is no Rachael working here, that number is not one of ours. These CLOWNS even "Spoof" your caller ID. I have seen them transmit My own name and number on the ID screen as an incentive to answer the call. And one of my favorites, " You were recommended by a relative or friend". or the old standby " Get out of Jail Free Card", " You must have clicked on our like". My personal opinion is that the Entire FCC (Friendly Candy Company) be disbanded and all the useless employees have to go get a real job!</p>

Donald	Los Gatos	CA	I receive 5-15 robocalls every day! I also receive 3-6 robocalls daily from spoofed numbers, or at least from numbers with spoofed area codes and fake caller names. All of these calls are unsolicited, unwanted, disruptive, distracting, intrusive, and obnoxious! Luckily my Caller ID service helps me to identify the strange calling numbers and ignore them. Nevertheless, they are still all of the above negative adjectives. I demand that the FCC and the telephone companies do something to block robocalls and put the robocallers and spoof callers out of business!
Kate	Poway	CA	These calls are annoying, but worse they are often misleading, especially to the old and confused or the young and inexperienced. To blithely assume a robocall will only be received at a convenient time by a person between 25 and 70 is fatuous.
John	Longmont	CO	STOP THEM NOW.
Robert	Mt. Pleasant	TX	Robocalls are a nuisance and should be stopped.
David	Florence	AL	Stop all robocalls to cell phones.STOP THEM!!
Paula	Bradenton	FL	Please!
Penny	Saratoga Springs	NY	These Robocalls drive us nuts--they constantly interrupt us while we are working. Please STOP them! Penny Jolly
Russell	Austin	TX	Do you want robocalls? We don't either Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Robert	Palmetto	FL	I get six or seven robocalls a week that tell me my business has been approved for a business loan up to \$500,000 (from different numbers, but always the same voice and recording). I am retired, 66 years old, and do not have a business. These calls count against my monthly allotment of minutes, and are simply not fair.
Rafael	ashburn	VA	Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available
Tom	Danbury	CT	Robocalls? More like Rob- ocalls. They're distracting, annoying and a total waste of my time.

Betty	Las Vegas	NV	The FCC's proposed rules for the types and frequency of calls and messages that debt collectors are allowed to make and send are reasonable. They would also guarantee that anyone receiving a debt collection robocall is clearly told he or she can opt out, and is able to do so painlessly. Stay strong against debt collectors who want to open the floodgates to these robocalls. Make sure that rules include: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
Bill	Tucson	AZ	I received three (THREE) robocalls within an hour this morning. That is too much! I'm now unplugging my phone for most of the day--but that sort of defeats the purpose of a phone, doesn't it? NO MORE ROBOCALLS! I realize my country now belongs to the Big Corporations, but this is getting ridiculous. NO MORE ROBOBALLS!
lester	winston salem	NC	Please help end the robo calls. I am just so fed up with getting them. Thanks
Manley	Troy	MI	ROBOTS??? Really???
Charlene	Nashville	TN	They are intrusive, unacceptable, an invasion of privacy, intruding on our dinner times, quiet Sundays, evenings, etc. Plus it is totally unfair that they have my cell number, a phone I use primarily for emergency purposes. I have absolutely no credit card debts, no student loans, I am an oldish woman longing for peace and quiet. This is distinctly un-American in its intrusion.
Joseph	Las Vegas	NV	I DON'T BOTHER THEM AND I DON'T WANT THEM BOTHERING ME ON MY CELL PHONE!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
Kathleen	Newport	OR	I'm disabled. Getting to the phone is not easy. Hearing from a machine is maddening!
Tim	El Paso	TX	Please dis-allow robo calls.... Very disruptive...
Cecil	Mount Dora,	FL	FCC Rule Making Body, Please implement strong, easy to understand, rules to restrict robocalls. I'm tired of getting calls to my cell phone, to my Google Voice computer phone, and to my Voice Over IP phone line. Even though I have each number on the do not call list, I still get robocalls. I don't have any past due debt, don't have any unpaid medical bills, don't want to refinance a mortgage, don't want to buy bogus "home protection" services, etc. I already have gigabit broadband via fiber to the premises, have many HD TV channels, so I don't need Dish Network or Direct TV, don't want slow 25 mbps DSL service from CenturyLink, don't want coax cable service from Comcast, or other such services. I just want to be left alone by the various people wanting to sell me dubious services by phone. If you can better regulate robocalls, it would, I believe, make life more peaceful for me.
Steve	Nashville	TN	Stop robo calls to cell phones and land lines.

Phyllis	Neptune	NJ	Robocalls are a terrible nuisance and must be stopped. This is especially true of those related to robocalls pertaining to debt but should be true of all robocalls. Such calls should be screened out just as spam is funneled to spam folders in email accounts. Please institute such regulations at the earliest possible moment!
MARTA	Pacific Palisades	CA	WE CONTINUE TO RECEIVE MANY CALLS A DAY FROM UNWANTED SOURCES.
James	Colonia	NJ	Please force the phone companies to give us the ability to block all robocalls and texts.
Deb	Chillicothe	IL	Please put an end to the robocalls to cell phones and landline phones from any type of caller (including charities). If I want to talk with someone I will call them. Invading my privacy and interrupting my day is no way to win my support. STOP IT NOW!
Lavina	Grandville	MI	Dinner time is the prime time for robo calls. I do not want a robo call ever never. Stop them!
Roy	Fort Myers	FL	On average I get at least one call per day including occasionally on a weekend. Usually these calls come from Rebecca at Credit Card Services. The number comes in from all over the country including my home area code and cell prefix. Yesterday a call came from Azerbaijan and then 2 hours later from Holly. MI. I have also had many calls from a company that says " Congratulations you have won an all expense paid vacation...." Even though I block every number that comes from one of these companies they call from a different number daily.
Chuck	Lagunitas	CA	These people are relentless. Morning, noon, or night--it doesn't matter to them. And for older people, such as myself, getting to a phone when it rings isn't often easy.
Elizabeth	Livonia	MI	I only give my cell phone number out as an emergency contact. I pay by-the-minute by choice, and shouldn't need to fund someone else's "commercial" on my dime! A couple years ago, when my son's school was calling all the time due to his hyperactivity, my blood pressure spiked anytime the dang thing rang. I pay for my cell phone for MY convenience, not anyone else's.
Harold	Atlanta	GA	With the advent of Robo Calls we no longer answer the phone when no recognizable caller is displayed. In some cases we learn through voice mail messages that the call is valid and we then have to return the call. But overall it is very unpleasant to have to listen to the phone ring constantly during the day. These are call from businesses that lack any integrity especially when they circumvent the do not call list and most likely are scams . It is beyond my comprehension why anyone will want to talk to these people and possibly do business.

R L	Bakersfield	CA	On average I receive 3 robocalls per day. they start as early as 6:00 AM and I ve gotten some as late as 9:00 PM. Robocalls are hard to beat, if you don't answer and they go to voice mail, they know they have a live number. If you answer and hang up they know they have a live number. I get robocalls from 1 number and if I don't answer I get another call from another number within seconds. Please make the phone companies give us the ability to block robocalls without the phone ringing.
Floyd	Clinton ohio	OH	No robocalles to cell phones.
Edward	Sharon	MA	Robocalls are an invasion of our privacy. They should not be allowed.
Estelle	Fort Lee	NJ	I'm interrupted inconveniently by calls re reduced electric rates (I live ina condo and don't control who supplies my electricity); to reduce my credit card debt (I have none) and assorted unwelcome deceitful come-ons. PLEASE PUT AN END TO THIS.
Glenn	LILBURN	GA	Please consider passing laws to stop all Robo call's and sell phone solicitations.
Dawn	Windsor	WI	Stop robo calls.
Lewis	Brooklyn	NY	Robocalls are intrusive, irritating and invite scams that abuse consumers. I strongly agree with efforts to curb them and end the incentives to engage in these irritants. The new proposed guidelines should be clear and ENFORCEABLE.
Lari Tiller	Albuquerque	NM	I don't even answer my cellphone anymore because of robocalls. I get at least two a day even though I'm on the do not call list. Every call goes to voicemail and if they leave a message I call them back if I choose. Robocalls have caused me to miss calls from friends who happen to call while some robot is on the line. All to get me to buy something I don't need.
Phill	W Barnstable	MA	Fed up, Tired, annoyed, DONE Done with these RoBo calls that just get transferred to some other lame country for lies to be spoken to me Trillions of dollars are used to protect this country Real good job our government does now a days
M.A.	Cranford	NJ	I receive 5 - 7 robo calls a day, some very early in the morning, others during dinner time. I'm sick of it.
Sarah	Tempe	AZ	My mother is 100 years old, and she gets robocalls every day from people who are trying to scare her. I get them on my cell phone, on a number I don't give out to ANYONE but friends and family. Please stop robocalls to cell phones!
James	WHEATON	IL	Please block robo calls for cell phones.
Beth	Altadena	CA	We all deserve privacy, peace and tranquility in our own homes and that includes the freedom from harassing Robocalls. Clear guidelines fair to all are needed.
Myra J	Tucson	AZ	I continually get robocalls several times per day and within 10-12inutes of the previous one. One is to forgive my student loans. I am 77 and have not gone to school for 50+ years. One is time share laws??

David	Cabin John	MD	Please stop Robo calls to cell phones. It is terrible, particularly if you're driving. Please try to allow blocking of the the same as with land lines. Thanks,
Alida	Hudson	NY	For YEARS I've gotten calls for someone who must have had my phone number years ago; evidently he skipped out on a debt. There has been NOTHING I could do about these calls (some of which were also from individuals at collection agencies). I had never even heard of this person before I started getting these calls. Please make it possible to put a stop to such calls.
OLIVIA	TUCSON	AZ	I AM VERY ILL WITH NO HELP AND TRY TO SLEEP. ROBOCALLS ARE INFURIATING. I JUST GOT ONE, WOKE ME UP, NOT JUST POLLSTERS. SALES, PHARMACIES, HOSPITALS, AND NOW MY DOCTOR TO CONFIRM AN APPOINTMENT TAKING 5 MINUTES. RIDICULOUS. YOU HAVE TO WAIT THROUGH THE WHOLE MESSAGE JUST TO PRESS FU TO GET OFF THE DAMN LIST. END IT NOW. IT IS WORSE THAN THE PEOPLE CALLING, AT LEAST I COULD BLOW A POLICE WHISTLE IN THEIR EARS.
William	Little Rock	AR	I don't want calls from anyone let alone vultures
Ron	Claremont	NH	There should be no ironically to households that do not want them. The whole reason for them has no value. If companies want to advertise something, then do it the right way. Use television, periodicals, mailings, or on the web. That way customers can choose if they want to call you about a product. At least with junk mail home owners can trash them and not be bothered by a phone ringing during meals, early morning, evenings, and on weekends. That is so not right!!
Dana	Las Vegas	NV	I get hundreds of Robocalls to my cell phone each week. I get tired of screening my calls because they have to waste another person's time. I wish that robocalls would be made illegal. You have that power. Please use it to do what is right.
Thomas	Newport	OR	chasing calls that are machine generated any time of the day is bad, but during dinner is worst!
Wyatt	Modesto	CA	I should not have to receive Robo calls from anyone. Please help stop this invasion of my privacy and my time. I pay for a phone service and I'm not O.K. with anyone calling me without my express consent. I don't feel that I should have to do anything to stop them but just the opposite, I should have to agree to accept them.
Karla	Arlington	VA	I nearly break my neck getting to the phone to only find out it is a robocall. I have caller ID but I've already made the run to the telephone. I'm 68 and it is highly irritating to find out it is a robocall. I have never bought any of their stuff and will not. I also get tired of the political calls for money at this time as well. I call a place of business if I need something or to ask a question or use the Internet. Please stop this!!

GLENN	SAINT JAMES	NY	EVERYONE INCLUDING ME HATES THESE UNWANTED AND IRRITATING CALLS! PLEASE END THESE ROBOCALLS TO ALL PHONES INCLUDING CELL PHONES! THANK YOU.
Jeff	Darien	IL	Please do something to stop annoying, unwanted calls.
Robert	Roseburg	OR	Please protect our privacy and tranquility from these annoying robots!
Jeff	South Lake Tahoe	CA	I oppose robocalls to cell phones and home phone: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
robb	Grand Rapids	MI	It's MY phone and MY time. I should decide who I let into my life, not some damn corporation that wants to sell me shit I do not want.
Kathleen	Issaquah	WA	Incoming calls are still charged by the minute, even listening to voicemail. Robocalling in general is just another name for harassment, and should not be tolerated. Creditors owed money on a legitimate debt should not get to harass innocent family members; they shouldn't get more rights or the right to disrupt the peace of other people.
Richard	Riverside	CA	Robocalls to my cell phone are costing me money. Please do something about it!!
Colleen	Acworth	GA	I oppose robocalls to my cell phone without my permission. Debt collection robocallers must notify me of my right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. Please work to end robocalls now!
John	Allen Park	MI	Why should people have to put up with this crap!
Silvio	Philadelphia	PA	End robocalls, they are an intrusion.
Mary	truckee	CA	Annoying calls to cell phone
William	Camarillo	CA	Please stop these robocallers, I receive about 15 a day. I have a phone for personal calls and to conduct business. not to be harassed daily.
Larry	Benicia	CA	I have lost personal control of my phone and receive on average 6 unsolicited robo calls a day. We cannot yell 'fire' in a crowded theater when there is no fire, but we can be interrupted at any hour of the day or night from robo calls. Surely these are intrusive and invasive actions that cannot be passed on as a 'freedom' nor supported as a 'right'.
Don	Royalton	MN	Stop Robo Calls, make the providers like AT&T stop robo calls at once!
karla	san jose	CA	stop these stupid call that invade my privacy

Michael	Park City	UT	Robocalls are invasive and offensive. Cell phones should be private, and users should be able to limit access. I have had experience, on a landline, of receiving robocalls from debt collectors, trying to reach the person who held the phone number before i did. The lists of deadbeat borrowers are sold from one company to the next, and as soon as I got off one company's call list, I found myself on another They are not reputable companies. Please keep them off the cell network.
Tewfik A	Greenwich	CT	It is unacceptable to be bombarded by robocalls and marketing companies willfully invading our privacy. I urge you to deny robocallers and marketing companies violating our rights. Especially since the calls are at indecent hours of the day. Thank you.
Richard	Palmetto	FL	I do not want to receive robocalls on my cell phone. Ever. Period!
Ralph	Crystal River	FL	Right now, the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone. The debt collection industry is pressuring the FCC to back down, but they are required to review all public comments submitted through their website. We have a limited window to out-organize the robocallers. Send your comment to the FCC right now. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. We've included some bullet points for things you could tell the FCC, but it's important to give your thoughts in your own words. If you oppose robocalls to your cell phone without your permission, simply say why.â€¢Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available (Note: The FCC's disclosure differs from our standard privacy statement. Comments filed with the FCC are a matter of public record and will be viewable online, including name and address, after being submitted to the docket.)
Carol	Clarkrange	TN	Not everyone has unlimited minutes on their cell phones,therefore Robo calls will cost them minutes and or money.
Dennis	Harahan	LA	Stop all these nonsense sales calls. I cannot stand a machine attempting to talk to me.

Linda	San Antonio	TX	Please don't allow robocalls to cell phones. I pay my debts and don't want someone I don't know calling me on my cell phone to collect money I do not owe. At the very least put a strict limit of 3 calls per month to only the person that they are trying to collect a federal debt from, not their family or friends. Make debt collectors inform people of their right to stop receiving calls. Provide clear guidelines that are easily available to everyone.
William	Spring Hill	TN	To robocalls to my cell phone need to be stopped. They interrupt everything. I just got two while I am trying to write this. Further, they almost always do not disclose who they are or what they are calling about.
Pamela	falmouth	KY	I can't imagine how anyone could "like" robocalls or why they are even allowed to persist. They are rude, intrusive, obnoxious and a waste of my time. I will never intentionally answer one but occasionally I get tricked into it if the sun is glaring and I can't see the screen to see the number or if the number is similar enough to ones I might recognize. I get so fed up with them that I truly wish I could literally reach through the phone and strangle the perpetrators.
Margot	Nashua	NH	No robocalls at all from anyone!
Michael	Los Altos	CA	Everyone I know is aggravated over the never-ending robocalls we get daily, and now I understand that with Congress approving even debt collector robocalls to cellphones, the intrusion in our lives is likely to get worse. Stand up for the rights of the citizens that you serve!
Thomasine	Rio Rancho	NM	Husband has MS and I am a care giver, need my sleep and rest when I can get it. But thanks to these unwanted calls, I get disturbed and bothered. We need to stop this.
Susan	Sonoma	CA	Robo calls destroy my peaceful cocktail hour as well as my attention for whatever is transpireing, prior to the invasions!
Emerson	Providence	RI	Rob calls are a real nuisance and invasion of our privacy. Please stop them!
Peter	Northridge	CA	Why would anyone want robocalls. I'll bet you wouldn't. A big No THANK YOU Please do the right thing. Thanks
Lauren	Montclair	NJ	How many calls a week do I need to hear that I have won a free cruise? None. I do not need spam on my cellphone!
Shirley	Jamestown	NC	These calls are very annoying and interruptive. And my spouse has been getting them for 3 years on a cellphone. The robotcallers are attempting the reach the previous owner of the phone number about bad debts. He has responded to the note and told the human who answered that he's not the person they want and that the person hasn't had that number for 3 years. They promise to take his number off the list -- but of course they don't

Sssuan	Everett	PA	I us my cell phone working in homes taking care of people. The phone keeps ringing when answered there is nobody there. Then I start ignoring the calls, but I still have to get the phone and look to make sure it is not an important call coming in. It's a robo call and the way I see it even at my home if nobody says anything. It's a waste of my time air time everybody's time. Guess not the computer though. Ten call's in one day there is no reason for that. If I didn't work as a health aide and have to have my phone on it would be off. It is time somebody stops the harassment of robo call and it's a machine with a human programming it to harasses people. If you don't want to call it harassment then stress, annoy, or waste time for people.
jim	Golden Valley	MN	I have a business phone and I get these Robo calls all day long.
Ronald	Fort Myers	FL	As a medical professional, it is extremely annoying to receive a robocall. This costs me time and hurts patient care.
Olaf	Minneapolis	MN	You would not allow a total stranger to walk into your home any time he felt like it. Your phone line should not be a back door for self-serving con artists to invade your privacy.
Roslyn	Riverside	CA	Make them stop, especially at dinner time. They are disruptive and I will not donate to a hard sell on the phone.
Maggie	New York	NY	We are inundated daily with advertising every where you look. Enough is enough with their ability to call a private phone, either land line or cell. It has also been my personal experience that there is a tremendous amount of calls from criminals trying to extract personal information for nefarious purposes. Please stop these unwanted calls now.
rex	tiburon	CA	These guidelines sound no different than those used for land lines. Why is this even a question?
sarah	San Diego	CA	Not only are robo calls awful to receive, but they are bad for business as well. Potential customers hate getting them ... there's no one there when they answer the phone so they are irritated by the time the stressed-out sales person gets on. It means sales people no longer have territories or accounts or personal relationships. Instead it's a quick close, instead of doing an in-depth analysis and helping customers with personal follow-up. This alienates existing customers who also get robo calls because it's too complicated and difficult to cull the hundreds of thousands of phone records -- maybe millions -- it takes to run a call center. This alienation is costing business money, not saving them!

William	Flowood	MS	Our cell phones are used for family calls and emergency calls. When the telemarketers call it costs me money that I have ear marked for family use not somebody trying to con me out of money. They use bogus caller ID's that try to fool you into thinking it is your family calling. I personally think it should be fixed where they must use their real name and number for the caller ID. Robot calling machines should be outlawed. Rachel calls me at least 5 times per month about credit cards and some guy calls about GE Alarms systems at least 5 times per month. This is very annoying to senior citizen when they have tons of other things to worry about.
david	bethesda	MD	I think robocalls to cell phones should be under strict controls. Right or wrong, we take calls when we're otherwise involved (driving, for example). At a minimum, they should require our "approval". If we don't control them soon, more and more irresponsible entities (politicians?) will be making them.
Ralph	Amityville	NY	I get 10 ROBO calls a day. I can't screen/mute them, because they continually rotate the number they use. I want the FCC to require Tele carriers to effectively block ROBO calls
PAul	Decatur	IL	Although I know how to HANG UP, this will save time and interruptions.
ELLIOTT	Topsham	ME	Robcalls have repeatedly interrupted dinner.. Please, PLEASE, stop this.
Jill	Falls Church	VA	The same company called me 3 times in one day. Telling a company to take me off the list or do not call, does not work. Getting on the "Do Not Call List" seems to have increased my calls. I have to disconnect my phone if I want some uninterrupted time.
Susan	Thornton	PA	I have limited number of minutes to use each month, including calls and texts received. If I go over, I pay a premium. I don't want robocallers costing me any of my minutes or costing me money when I answer their call or listen to their message. That's not right.
Michele	Sarasota	FL	As long as I am paying for my phone service, then I should be able to choose who calls me. I don't want anyone calling me and I'm interrupted many times per day even though I use a call blocker. The robo-callers keep changing their numbers, so their calls continue to come in.
Paul	Chula Vista	CA	I get at least ten robocalls a day. Most on my home phone, but some on my cell phone. Early in the morning and late in the evening. Robocalls are a constant annoyance which can be stopped and must be stopped. Please take action to stop robocalls.
harriet	oceanside	NY	i am tired of these unnecessary calls and the money they make me pay

Mars	Rancho Cordova	CA	A few years ago my wife and I gave up our landline because of all the robocalls we were getting. Now I am increasingly getting the on my cell phone because I list it on my website as a business phone number. I'm frustrated and angry and I WANT IT STOPPED!
Robert	Hollywood	CA	This is just silly!!!! Who in their right mind would answer a call from an unknown caller? End this behaviour now!
J	Chesterfield	MO	Pls put a stop to robo calling.
Bruce	Salt Lake City	UT	Please forbid robocalls from all callers, including debt collectors.
Mary	Lynnwood	WA	My cell phone is used for emergency calls only. If there are robocalls I am physically put in danger trying to get to the cell phone. I am disabled. Robocalls are a waste of my time. They are not going to sell me anything. Most robocalls are scams. I am not going to fall for it mentally or physically.
Bonnie	San Jose	CA	Probably 80% of the incoming calls on our unlisted home phone is robocalls or some scam - often with them using local exchanges now. I no longer can answer my home phone or mobile device either without screening calls. That includes if a doctor calls me from another number. I have been called from fraudulent IRS agents, for mortgage reduction rates, solar panels, to see if it is a working number they can then sell to hundreds of companies - it;s runs the gamut. The do not call lists are a total joke. Maybe reputable companies honor it but they are not the problem, In addition, these calls are disruptive to our home, many having no respect for the time or time zone they are calling, I implore you to take action against robocalls. All phone providers shoud have this software installed. As long as they can get away with robocalling with no consequence, it will not go away. Thank you for taking the time to read my concernss and angst.
D	Scottsdale	AZ	We are seniors and are overwhelmed answering robot call from solicitors. We pay for our PRIVATE and PERSONAL phone line, and these unwanted phone calls are irritating and harassing. These unknown people send out robotic and harassing phone call interruptions at all hours of the day. We are on the government DO NOT CALL LIST but the calls just keep coming.
Eric	Newport Beach	CA	These calls are very annoying and getting worse. Please do something to stop them.
Carole	Greenwich	CT	Congressial representative, Senator / Representative, You must respect the public's demand that Congress stand with the annoyed citizens of the country and pass legislation to ban all robocalls on cell phones. Do not let the usual lobbyists control your vote. Citizens voted you to Congress to do what is best for them not the robocall establishment. Act courageously and vote to keep cell phone calling free of robocalling, especially from debt collectors.

Thomas	San Gabriel	CA	We have no unpaid debts. So we should not receive any robocalls of any kind on our cell phones. We ignore all unidentified calls to our cell phones but that still does not stop the irritating noise from these calls. The amount of lost personal time caused by robocalls/nuisance calls is incredible! Also, we have had to silence our phones to avoid irritating others in public places when we would prefer to have the ringers on. As a result, we have missed emergency calls and others which have been important to us.
Preston	Houston	TX	Robocalls have absolutely ruined landlines as a personal communication device and now the greediest, uncaring "people" on the planet are trying to spread this cancer to cell phones. STOP THIS NOW! Robocalls are the most egregious, maddening form of mass invasion of privacy ever invented by mankind. WE HAVE HAD ENOUGH!
Seth	Pflugerville	TX	I get tons of robocalls already, more than half of them to the wrong number or as spam... They need more rules about who and how often they can contact you, and how to get off their lists!
Kathi	Meridian	ID	My cell phone was being called from cities around where I live now in Idaho and around where I used to live in Colorado. I accidently answered one given I was doing business with someone who has their # blocked (doctors/nurse line) and couldn't miss the call given urgency for 6yo sick kid. They tried to say I had a computer problem and I am not stupid so hung up. If we as a nation can stop this fraud with one simple law/device DO IT! PLEASE!! I can't imagine someone with an even sicker child dealing with this call after call after call.
Bob	Pocatello	ID	I regularly receive robocalls on my cell phone. Some of them appear to be phishing attempts others are come ons with ostensibly free vacations. They waste time and cost me minutes on my cell phone plan. Robocalls should be stopped by the cell phone provider and not have the cost and liabilities passed on to the customer.
Jeffrey	ARlington	TX	I get 5 to 10 robo calls every day from 8:00am until 10:00 pm. Please stop them. I am on the do not call list but they still come. HELP
Gina	Philadelphia	NM	Business phone calls should only be made in a reasonable and professional manner, and consumers should have clear and simple ability to opt out. Also, unknown and spoofed numbers should be prohibited.
John and Sally	Highland Park	IL	Robocalls should absolutely be blocked to cell phones. And the FCC needs to do something about all the telemarketing and robocalls to any phone. The Do Not Call List is a joke.

David	Lexington	KY	I do not want robocalls for any reason -ever- unless I have given permission. That also means I do not want opt-out statements in any business dealings. I do not want exemptions for charities or politicians. The technology exists to put a stop to robocalls by tracing the source and seizing the equipment. Until that is done, the calls will continue. Calls from outside the US can be stopped by blocking them at the gateway exchanges.
Tom	Haslett	MI	If you are actually serious about doing something about the robocalls (which I personally don't believe you are, and you do this stuff here, knowing full well that you aren't going to actually do anything), then you need to hit these companies where they will pay attention, and that is with a huge, serious hit on their bank accounts. Then if that does not work, start throwing the top people in jail. That is the only way you will ever stop these lowlifes, who WILL NOT respond to anything less.
Julia	Holland	MI	I find it an extreme nuisance that robo calls are apt to come in at the time of our evening meal. Even though I try to screen them, they are invasive. I am sick and tired of it. Occasionally I think a number is a robocall, and it turns out to be a legitimate call from someone I know who has an area code other than the one I am in.
David	Waynesville	NC	Not a day most of the time not an hour goes by that I do not receive a robocall, from free security system, someone representing the IRS saying that I was being sued for tax evasion and must call immediately, my credit card company needing to talk to me, special offer for this or that. I bought with my money my home phone and cell phone, I pay for the service to these phones, I have the right to receive call that I want not what others want me to receive. The phone companies need to find a way to block calls that I wish not to receive. I have had enough the FCC needs to step up and get all phone companies to offer call block. By the way National Call Blocking is not working.
Gary	Urbana	IL	I am tried of all the Robo call on my cell phone
Wayne	N Las Vegas	NV	There is nothing more aggravating than unwanted and unwarranted cell or land line calls.
Elizaneth	Madison	WI	Robocalls have interrupted my life on so many occasions. They have awakened me from sleep and interrupted my life repeatedly. And I am helpless to stop them. Please help!

Stanley	Wilmington	NC	Despite being on all the Do-Not-Call-Lists my wife and I continue to receive unwanted solicitations at all hours of the day and evening. The nature of these calls range from merely irritating to attempts to extort money, falsely obtain personal financial information, to outright fraud. It is amazing to us that with all the Federal Government resources and money (NSA, etc) spent to surreptitiously monitor our private calls and emails/business, that the FCC...with appropriate assistance...cannot identify and shut down the people behind all this. These scoundrels have no shame and are flaunting their violation of the law and apparently operate without fear of identification and prosecution. Please fix it!
Thomas	Lynn	MA	I've been getting 3 to 4 of these calls every day for the past couple of months. I ignore them, but I would appreciate it if you would make them stop!
Jim	Petaluma	CA	Please stop robocallers!!!
Rene	Scottsdale	AZ	We have registered on the 'do not call' list, yet we receive dozens of unsolicited calls on both our land line and on our cell phone. We need to be protected from this pollution of our communication media. When robots call, we are powerless to complain or to request to be removed from their list.
Charles	Marietta	GA	In the absence of common sense by predator businesses, it is mandatory the govt step in and stop this madness of never ending robo calls!!!! Are we forever to have our peace and freedom from harassment denied by rude businesses? And please, no nonsense about "free markets". That's a cover for criminals and sociopaths to hide behind. Stop these calls now!!!!
Terri	Wichita	KS	Please!!
Ken	Wilton	NY	We should not be subjected to Robocalling for any reason. Our phones are our own personal property that we pay for as we do for any calls that are placed or received on them. No one should have the right to infringe on our privacy or cause us to spend our money for their marketing against our will. STOP ROBOCALLING NOW!
John	Shepherdstown	WV	I pay for my cell phone minutes, so I should not have to pay because someone wants to talk to me. I am paying to have a private number so that I can talk to the people I want to talk to. I never want solicitations for anything, business or political.
Sheila	Santa Clara	CA	All Robocalls should be banned on cell phones and land lines. Total invasion of privacy and with cell phones, it is stealing my minutes and data to buy stuff I have no interest in. In my business we get 6-10 robocalls a day. Such a waste of time.
Gil	Turlock	CA	My cell phone is used approximately 85% for work and the rest for family. I DO NOT want unsolicited telemarketing calls on my cell or office phone. Period. If I need a service I will initiate the call. Thank you.
Aeyrie	Yorba Linda	CA	NO robocalls. Period. Had enough!

Nick	El Dorado	AR	Cellphone robocall are annoying. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Philip	Arlington Hts	IL	End all Robo calls to all phones
Larry	Bridgeton	MO	Debit robocallers should not be allowed to call relatives of someone that has a federal debt. They should not be able to robocall anyone.
Janie	Tulsa	OK	Please STOP these annoying calls
Judith	Sacramento	CA	Stop all robocalls, to land line as well as cell phones!
Susan	Simi Valley	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Cal	Lynnwood	WA	Regulation needs to keep up with modern technologies abuses.
Lawrence	Oceanside	NY	It has gotten out of hand. It is abusive and wasteful of time and resources. Please stop the robocalls on cell phones.
blakely	newark	OH	I am on a limited cell phone plan and need all my minutes for my personal and business calls. getting robocalls are a nuisance and should be outlawed.
Dennis	Brea	CA	I can not believe there is not a regulation that prevents unwanted robocalls. What an invasion of privacy !!!
Paul	Mary Esther	FL	Most all of my robo-calls are from companies I have never had anything to do with. If you can't police it, require the phone companies to allow us to block all unlawful robo-calls.
David	Cleveland	TN	Robocallers are not just debt collectors. Solitations are frequent and these callers know what to leave out of their calls to avoid legal trouble from the Do Not Call List. I do not like paying by the minute to get calls I do not want.
job	staten island	NY	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Doug	Apex	NC	Please stop this barrage of robocalls to my cell phone. I've been on the do not call list for years.
Pam	Springfield	MA	Unwanted, unsolicited, untimely, irritating, often not pertinent to me, interferes with expected calls, wastes time, ETC!!! Please halt these " invasions "!!
Frank	Warner Robins	GA	Please do not allow robocall's to cell phones. It's bad enough I get them during dinner on my land line, now they will start eating up my minutes.

Deena	Mendham	NJ	How much is the Obama group making on all the robo calls. Oh, that's right, Obama doesn't care about dealing with the rules that are on the books. He only cares that his cronies are making money.
Charles	Louisville	KY	STOP the abusive use of robocalls. I am seriously considering getting rid of my phone. I am tired of receiving up to a half dozen robocalls per day.
RICHARD	BLUFFTON	SC	ROBOCALLS HAVE TO GO. THEY INTERRUPT MY DINNER, MY TV AND MY QUIET TIME. I PICKED UP CALL S THAT APPEAR TO BE LOCAL NUMBERS ONLY TO FIND THAT SOME SPAMMER HAS TAKEN OVER MY NEIGHBORS PHONE AND WHEN I PICK UP WHAT LOOKS LIKE A LOCAL CALL IT IS FROM A ROBO CALL. LAST WEEK MY LAND LINE RECEIVED A CALL SHOWING IT WAS ME FROM MY PHONE NUMBER!!! THIS HAS TO STOP!!!!
Franklin	Latham	NY	These calls continually encrouge on my privacy. I do not want to continue to get these calls ..
Rowe	Phoenix	AZ	What happened to our civilized society? Has everyone become selfish, greedy, dishonest, and rude? I have no debts, and yet my phone rings constantly all day every day. I refuse to answer until someone I know identifies himself. Most robocallers just hang up on my voice mail, which is still an annoying invasion of my home. Do they care if they wake a baby or frighten a grandmother? Some leave fraudulent threatening messages claiming to be collection agencies which I know have to be scams. Alexander Graham Bell never intended his invention to be misused and abused in this way. Exterminate these pests, please!
Peter	Florham Park	NJ	I carry a cell phone for two reasons: to call for help in case of a medical issue, or to receive calls from my family or friends when they need to contact me. I do not appreciate calls from agencies willing to reduce my debts (of which I happily have none), or to sell me products. Every day I receive 3 to 5 calls from area codes in which I definitely do not know anyone. Please remove all commercial robocalls, they have no place on cell phones.
Cari	Two Harbors	MN	Please make the practice of robocalling illegal. It is so disruptive and distracting! If I want to purchase something, I will call them. Please respect the privacy and peace of my home and ban robocalling!
Claire	San Diego	CA	Robocalls to cell phones should be banned for many reasons that have already been stated and seem obvious. Thank you.
Deb	Carrboro	NC	I do not want any kind of robo calls, whether it is from a charity, a political party, a realtor, etc. No robo calls, period.
Harvey	Madison	WI	Please stop all robocalls. They are a serious intrusion on our privacy.

Pat	Pomona	CA	My phone ringing that is. With invasive, bothersome calls. They should doing the following: -Debt collection robocallers must notify us of our right to stop receiving calls -The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family -Make the guidelines clear and readily available
Laura	Saint Augustine	FL	These calls harass me throughout the day, while I'm trying to work and take care of my family. It's a tremendous distraction and annoyance. What if I miss an urgent call while they are busy tying up the phone line that I pay for.
Laura	Cincinnati	OH	You don't like them, I don't like them, nobody likes them. They are irritating and costly! I really don't want to pay for these types of calls, it just isn't right. That said, in a more reasonable tone, please consider the following: Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available At least that is more responsible. Thank you for listening.....
s	New York	NY	Though I have no personal stake in robocalls from debt collectirs, I feel strongly that they should be limited as proposed. Would like to go even farther and limit soliciting and other robocall types, but the above will do for now.
Carol	Sparks	NV	I don't know where or how my number is distributed but the incessant calls early in the morning and late at night continue. I own no one money, why am I getting threatening calls? Please do something to help this insanity stop. If I want to be in touch with a company, I will call them, I do not want them to be able to call me. Under no circumstances do I want robo calls to my cell phone.
Christopher	Westborough	MA	Please create strict guidelines that will prevent robocalls to cellphones. It's really annoying when I get one of these calls.
Joe	North Egremont	MA	All robocalls must be prohibited, no exceptions, no political group, religious group or business should have the right to harass anyone. These unwanted call waste our time and intrude on our lives. If you do not have unlimited texts or call they waste our money. The politicians pay more attention to the lobbyist than the people who they supposedly represent and we are stupid enough to keep voting these politicians back into office. We need representatives in office that are willing to represent the will of the people and not represent the lobbyist who contribute to their campaigns and wine and dine them. Could this be bribery? Will this get posted or pulled for expressing the truth??
Frank	Bellingham	WA	Please forbid ALL robocalls to cell phones. They are an annoying and outrageous nuisance, with no counterbalancing justification.

Daniel	Greenville	SC	Please, for the sake of all of us who have elderly, ill family members living both here at home and out of state, End Robocalls Now! When we get a robocall, even with caller ID, it's unsettling to not answer because it could just be a call from a stranger alerting us to a healthcare emergency for an out of state, elderly, ill family member. And we get numerous robocalls every day. From obvious IRS scammers, telemarketers who may or may not be legitimate to unreal phoney phishing calls. This must end. There must be a way, especially for UNKNOWN NUMBER on CID. We're on the Do Not Call listing, which only stops a few "good guys."
Katherine	Streetsboro	OH	For years, I have received robocalls from a debt collector, even after they took me to court, and lost, because I did not owe them any money! They call from spoof numbers, and I have saved over 50 of them in my phone and put them on silent ringer, so I am not disturbed when they call again from that number. I can only answer my phone if I already have the number in my phone, for fear of having to talk to a debt-collector! I shouldn't have to do this! They call several times a day, sometimes, from different spoof numbers. They call repeatedly during the week and month. They do not ever leave a message. The number of calls permitted should be limited. Also, they should not be allowed to call friends and family. And if we have the bad luck of having a phone number that once belonged to someone else who had a debt, there should be a way to stop those calls, too. There must be some method devised by which debt collection robocallers must notify us of our right to stop receiving calls. It must be set-up so that asking the calls to stop does not count as communication that gives them the right to re-age the alleged bill. And new rules or guidelines should be very clear and available to all. Repeatedly telephoning someone, and never leaving a message is not a productive business practice, and is really only telephone harassment, as they know it annoys the person called. I have heard from others that re-dialing the number does not connect them to anyone! I have sent a cease and desist letter, but still I am called. Please, make them stop!
Stephen	Manchester	MA	I get many robocalls every day. So many I don't bother answering the phone anymore unless the caller ID is someone I know. Many of the same robocalls come day after day. They come to my home phone and to my cell phone. These robocalls only happen because they don't cost the callers much to make them. This can't continue. They must be stopped.
LYLE	NAMPA	ID	STOP ALL OR ANY ROBO CALLS
Larry	MADISON	AL	I can't tell you how sick I am of harassing robocalls. We get them at all times of day and night, even on our cell phones. Something must be done to prevent them from coming through.

J	Chelsea	MA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Bradley	San Diego	CA	Think of the lost productivity from all of the time spent answering robocalls. If it is my debt then i am fine with getting a couple of calls a month but only if it is my debt.
Ann	Oakland	CA	I am a senior citizen and have trouble walking. I do not usually talk on the phone, so if it rings I assume it's a close friend. When I have to hobble across the living room to get the ringing phone, I am upset when I find it's some organization asking for money, some political candidate. etc. Could we please have some say about who is allowed to call us>?
Roger	Stamford	CT	For mercy's sake, please put a stop to the robo-callers that are making my life a misery. Please.
Kathleen	NY	NY	Robo Calls are an abuse of access to our personal cell phone numbers which I use primarily for family communication. Debt collectors should not be permitted to haunt and harass people who are trying to get back on their feet after a sickness or a problem with finances. It is an invasion of our privacy and a disruption to our workplace to be getting these robocalls. They should not be allowed.
Jacqueline	Naperville	IL	Please, please end robocalls to cell phones! Please also make it illegal to spoof the number they are calling from. we have a right to know who is calling us and what their number is.
William	Mobile	AL	Please make the disruptive calls STOP!
Cathy	Hobart	IN	why do I have to deal with machines and the companies behind them on my cell?
David	Deerfield	NH	Please provide a No-Call List option for cell phones. I consider it a violation of my Constitutional Right to Privacy to have an uninvited caller interrupt my peace and happiness.
Raymond	Jamestown	RI	No robo calls on or only cell phones but land lines also
Deloris	Kensington	MD	Tired of getting robocalls re student loans and payday loans, neither of which I have.
Tim	Riverside	CA	At the very least a phone call could cause a dangerous distraction.
Bryson	Lutherville	MD	I have repeatedly told these people not to call me,but they persist.Some sort of scam operation I have heard
Jim CR	San Jose	CA	Unwanted robocalls and the shady companies that rely on them are an absolute harassment... These need to be monitored and to the best of the FCC's ability eliminate them -or - at the very least minimize them...
Timothy	Chapel Hill	NC	Robocalls need to be stopped at all levels.

Joseph	Aberdeen	NJ	It is extremely annoyed nag to get all these robocalls about solar energy, credit card balances, charities. The political calls are especially annoying, as are those that do not identify themselves. Let's put a stop to them now!
Lisa	San jose	CA	Robot calls are not wanted by consumers. Please eliminate these nusiance calls.
Laurence	Honolulu	HI	Robocalls are invasive, irritating and offensive. They should be carefully regulated and controlled.
Roger	Santa Barbara	CA	Allow no robo calls... How can I say it more clearly.
Joe	Seattle	WA	The number of robocalls is growing daily. They interrupt private moments and call at all hours of the day and night. Please ban these now!
Constance	Gainesville	GA	Over 50% of calls are robo calls to my cell. It is on the 'DO NOT CALL' list, for what that's worth. These calls are harassment. I have tried the 'opt' out, to no avail, they keep calling or they give the number to another group and the calls continue. A few months ago I received a collection call, regarding an account closed out nine years ago, through a robo call. This is of great concern, as to how someone can have access to this history? Better yet, how are they able to attempt collecting, for a closed out account? Please protect our rights to privacy by stopping the robo calls.
Ian	Mooreville	NC	Almost every day, I receive calls on my cell phone from numbers I do not recognize and from areas of the country in which I know no one. When I check the numbers against "who is calling" databases on the internet, virtually all of them are scam calls that may or may not (1) be engaged in identity theft or (2) other types of fraud. We should not have a telephone system that allows this kind of thing. It is cybercrime v2016 and it needs to stop. The FCC needs to stamp it out. Thank you
Diana	Farmington	CT	Please stop robocalls. I have been harassed with what feels like non stop calls about lowering my interest rates. The calls come from different phone numbers - sometimes they are even made to look like they originate from my own phone. This has to stop!
H.	Bethesda	MD	It is long past time to STOP ALL ROBOCALLING: DO YOUR JOB!
James	New York	NY	Stop this intrusive, disgusting practice of merchants and hired guns bothering people at home.
Eileen	Lakehills	TX	I am badgered by robocalls on my landline to the point I may have it disconnected. I "opted out" of robocalls and telemarketer calls to no avail - I still receive up to 10 calls a day, at least 3 robocalls. Who do you work for, the American people or the morons who create robocalls. Now you want to allow them on my cell? I will discontinue the phone and just use text. Start working for the American people!!
Scott	Oak Park	IL	No one likes robocalls except the companies who robocall.

James	Graceville	FL	It is very irritating to be called before 8:00am, or busy times. Also irritating to try to sell or give funds. To or for causes you care nothing about.
FRANK	Ballston spa	NY	the robo calls are atrocious, Especially the ones that try to take advantage of the elderly. These people ought to be put in jail.
James	Durham	NC	please end Robo calls: they are very inconvenient!
Dan	Carlinville	IL	Dear Sir or Madam, I am a small business owner in a small town in Carlinville, Illinois. It is a rare day when I do not receive a robocall on my business line, home line and cell line. They are from all over the country. If I try to talk to a live person I often cannot. The IRS and Credit Card scams are constant and as an attorney I am disappointed that these abusers are not regulated in a meaningful manner. It should be illegal to be called and then be unable to call the number back. How can a number that just dialed me be "not in service." This calls cost small businesses time and effort. My secretary and I get interrupted constantly when we are in the middle of work. These non customer calls also interfere with the ability of our customers to reach us in a timely manner. Please address the debt collectors situation where they call a former debtors number that has been transferred to another unrelated customer. It is shameful the way senior citizens are harassed by these and other robocalls.
Kimberle	St. Petersburg	FL	Please act in the best interest of Americans rather than these horrible companies and ban all robocalls to cell phones. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family
Paul	Harrodsburg	KY	This is an intrusion into our privacy and lives and needs to be eliminated.
Carole	Tigard	OR	It's wrong, it's invasive, it's annoying, and I don't want them...
william	long beach	CA	I get sales calls and robo calls day and night enen tho I'm on the do not call registry (only seems to make it worse) why have a registry if there is no penalty for abusing it.
RICHARD T.	Buchanan	GA	Please listen to the people who are so tired and disgusted with robocalls, It would certainly make our lives better.
Richard	Audubon	PA	Robocalls ought to be illegal to mobile and landline devices, and there should be real enforcement - they ignore "do not call" lists with apparent impunity. Landline companies should be required to provide call blocking, too, like we have on our mobile phones.
Ed	Houston	AL	No Robocalls!
Anne	Hagerstown	MD	Robocalls interrupt home life with land line use as well as most recently, all other times with cell phone use. It is bad for us young people but it is very disconcerting to old folks and 'shut-ins' as their days are almost constantly interrupted with calls. I am at my sister's house and there are usually about 9 calls each day. I think there should be some way to stop this annoyance.

Edward	Staten Island	NY	The robocalls are not only annoying bit are the ultimate intrusion of privacy. Stop them now!
Dennis	Vallejo	CA	I'm tired of all these calls.
Davie	San Antonio	TX	I can not tell you how many robo calls I receive each day. I feel they are an invasion of my privacy. I am on the national "do not call list" but it does not stop all the unwanted calls. Please stop this invasion.
Norton	Wichita	KS	On the no call list, and it is pretty worthless. You need to chase some of these guys down and lock them up.
Don	St Peters	MO	even with my wife and me signing up for the no call list it seem we are getting more and more calls.
Susan	New York	NY	Advances in telecommunications have made it easier for users to be harassed non-stop! Please help consumers decrease the extent of this problem! I understand that the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact people on their cell phones. Do not back down to the debt collection industry! Robocallers must offer everyone an easy opt-out option. The number of calls must be limited in number and sent only to those who actually hold debt. Please supply clear, accessible guidelines. We're counting on you.
Sam	Wimberley	TX	Robocalls from several industries have gotten out of hand. Particularly those concerning auto extended warranties, credit cards, offers of a free cruise trip, solicitations of all kinds. They continue to call, even though I have made it clear that I do not want any calls of this sort. Each of these types of calls is received every two or three days. The frequency of calls is much more than a year ago. It is very obvious that some of these calls are from out of the country. Sometimes, I get more than one call per day from the same caller.
Judy	Harrison Twp.	MI	Where do these people think they have more rights than us??? There are more of us then the people that use robocalls...WE WIN!!!
Dale	Renton	WA	I am getting 5 plus calls per day from these crooks! This invasion of my privacy is ridiculous! If our "esteemed" politicians can't do something to stop this, it will only get worse!!!!
Danny	Scottsboro	AL	It's time, stop all Robo Calls. I dropped my land line and number i'd had for years. Now my cell number is bombarded with unwanted calls. Do I have to give up my cell phone now?

Pauline	Freeport	ME	I've received call after call from idiots pretending to be the IRS, from jerks wanting to "help" with my mortgage (I don't have one), from utter pains in the tookas who call hour after hour about my credit cards, credit reports, or some great cause that I should donate to. No matter how many times I sign up for the DO NOT CALL list, or how many times I ask to be taken off THEIR call lists, the phone just keeps on ringing, And now, I'm beginning to get this nonsense on my cell. It's not right. It's abusive. There should be a law to make it stop.
Tammy	Houston	TX	They should be required to leave a detailed message stating who they are and why they are calling
Darwin	Mineral	VA	Please, Please put a STOP to these Robo and solicitation Calls. I am receiving them on my cell phone numbers. Please take action to stop them !
victoria	pittsboro	NC	Please support my right for choice about who I want using my number. Please support my right of privacy. Please do the right thing.
Matthew	Los Osos	CA	Cellphones are not just cordless landlines. Whether for good or ill, they have become our personal assistants, our most important tools, and our constant companions. Many of us use them as alarm clocks and white-noise machines while we sleep. For all of those reasons, robo calls are even more invasive and annoying on cell phones than they are on landlines (where they are plenty annoying already). Please ban robo calls to cell phones, so that our most important tools don't become our most potent sources of annoyance.
Harold	Oceanside	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Needs enforcement of these rules
Michael	New Hope	MN	It is important to everyone's privacy that cell phones be excluded from this type of harassment. Robocall should not be allowed using any media.
Paul	Indianola	WA	Please stop robot calls
mathy milling	laytonsville	MD	I am sick and tired of constantly worrying about whether or not to pick up my phone due to the DAILY onslaught of fraudulent calls from the "IRS", disabilities, mortgage issues, etc. We should not have to be wary of answering our own phones. DNC requests are not being honored. There HAS to be a way to remedy this epidemic of "sickness".
Conrad W	Cedar Falls	IA	We, the ordinary people with telephones are sick and tired of you doing absolutely nothing to stop Robo Calls to our phones. Please do something to put and end to this. Do what you were elected or appointed to do. I don't mean sending out thousands and thousands of messages to us asking for more money either.

Kristina	Granville	VT	I pay for each call I make and receive. I have to pay to listen to my voicemail. I shouldn't have to pay to listen to junk sent to my phone.
Dory	creston	OH	I have 350 minutes per month....Robo calls use up my minutes! I can't afford to lose minutes.
Mary	Brooklyn	NY	These calls are invading peoples' homes and interrupting their lives. As a senior citizen, I get scores of calls directed at my supposed infirmities -- deafness, blindness, frailty, home security. Disgusting preying on old people.
Bill	Plano	TX	First don't suggest the "Do Not Call List". IT DOES NOT WORK!!!!. I believe the telemarketers use the list to compile their call lists. I am a 74 year senior. I receive between 5 and 12 telemarketer calls EVERY DAY. I have had to purchase a call screener to give me some sort of piece. Many of the calls are scams involving the IRS, Credit Card scams etc. Have you had calls from Rachael or Bridgett wanting detailed information? Please do something.
David	Muncie	IN	We have never received a call about our debt! However, we do receive robo calls too many. We have advised the IN state office that we were advised; assumed it would at least slow down the number of calls that we received. That was indeed not the case! The calls seem to have increased! Since my wife and I are 75 years old, we do not want these calls! I hope to receive some help to prevent, or at least limit, these calls.
Maurice	Tampa	FL	Please stop robo calls to my cell phone. I hate it
Jerry	Atlanta	GA	Robocalls 6-8 times per day on my land line for several years in spite of being listed on the "do not call" and now getting robocalls on my cell phone. This needs to stop!
Rafael	Celina	TX	It is bad enough that even though a person is registered in the national do not call registry , calls still continue coming in. It is so much worse when we cannot even have our privacy from incoming calls from collectors day or night several times daily without end to our cell phones. This unwanted calls are a constant interruption of privacy and peace of mind. This should not be permitted. I am dumbfounded how our phone service providers do not care to support nor honor their customers tranquility. This is another reason US citizens are so tired of the establishment and lack of action.
Jim	Hansville	WA	After several years of getting more and more CRAP robo-calls - early morning, afternoon, evening and even night! - usually with recorded "msgs" to clutter up our answering machine, in 2012, I began making note of many of these JUNK calls. At this point, I have a list of 633 such calls ... with MANY MORE that I failed to note. I know the Commissioners are starting to feather their beds for if'n'when they leave their FCC political-appointee positions, but ... PLEASE! Do something SUBSTANTIVE - and EFFECTIVE, to STOP THESE CONSTANT, DAILY (and nightly!) HOME INVASIONS!

Arthur	Bala Cynwyd	PA	I have a "pay as you go" cell phone. Every call that I receive costs me money. Recently, I have started to receive robocalls from businesses that I have no prior dealings with. The Federal Do Not Call listing has no effect on these people. They spoof their calling numbers and move around the country. We need the government to put them out of business.
Sidney	Starkville	MS	WHY DO THAT DO IT? i CAN'T BELIEVE THEY MAKE ENOUGH MONEY TO WARRANT THE EXTREME IRRITATION THEY CAUSE. Only today, I received one while I was driving on a busy street, and thought "Oh, no, they've even gotten to the cell phone..."
Rich	Ridgewood	NJ	Please make sure we are not bombarded with constant spam and junk callers trying to sell warranty or low cost electricity service !
James	Somerville	MA	It's time to stop the annoying robo-calls!
Fred	New Albany	PA	I experience the cold calls in unnecessary intrusion and use of my telephone. They need to be stopped!
Alice	Dallas	TX	Please, please stop robo calls! We are counting on you to do something to prevent these annoying calls invading the privacy of our homes! They continue despite the "Do Not Call" list!!! And now they have started on my cell phone!!!
James	Bandera	TX	While not in the situation of receiving bill collection calls, I am JUST as aggravated about unsolicited calls about 'free cruises' or other scams, and I want ALL robocalls prohibited. The right of commercial enterprises to try to sell me their junk should END when they invade the personal privacy of their potential customers. If their products truly are worth buying, then let word of mouth be their loudest supporters, NOT their own voices calling my personal telephones.
Ellen	Midlothian	VA	We must have someone's previously used number. We get an average of 6 calls/day that caller-ID informs us are Robocalls. That's almost 400/month! Ridiculous!
Janet	Reno	NV	Please stop these robo calls. I have been threatened by these callers & have had to turn off my phone. Unable to get these calls stopped because they use the number "1" Unknown Name."
Skye	Scituate	RI	Extremely disruptive useless robocalls must be stopped and are not an effective way to do business. They fill up our answering machine with busy signals and partial recordings, interrupt our dinner, wake us up, and spoof caller ID. We have a policy of never ever doing business or donating to any cause that calls us, period. They don't need to be using their money for that.
Les	Albuquerque	NM	Please act quickly to stop robo calls to mobile phones. The valuable time that I waste trying to avoid, delete, or, heaven forbid, respond to the various calls take away from my business and ties up my staff. The only entities that benefit from these calls are the call sponsors and the companies that administer these calls. Please act quickly to stop these unsolicited calls!

Warren	Nashua	NH	I use my cell phone principally for emergencies. I get more robocalls than any other type of call. Stop robocalls to cell phones.
Gretchen	Windsor Mill	MD	My cell phone is regularly bombarded with unwanted and unwarranted robo calls. All landline and cell phones in my name are registered on the do not call list. I don't have any overdue indebtedness. Why on earth would I be deluged with these calls??? My cell phone is for my personal use and should only be called by those I've given the number to. I pay dearly for the luxury of having a cell phone. I have an app on my phone that will catch the calls and 'hang up' on these callers. But sometimes it fails. In most instances the calls are repeated at least 4-5 times before the computer will finally stop trying to ring my phone. It's annoying at the very least, to hear my phone ping several times in succession at least 4-5 times weekly. Please, please do SOMETHING to stop this!!!!!!
Wayne	McKees Rocks	PA	Only 2 things change behavior, incentive or CONSEQUENCE. Continue to receive robocalls that are on our do not call list since 2003. Put them out of business, please. Thank you. Cheers!
Gregg	Glendale	CA	I get at least a dozen robocalls on my home and cell phones every day. I can't block numbers in sufficient quantity, and the robocallers just change their number anyway to circumvent call blocking. Stop the madness!
Brian	Dove Canyon	CA	Please stop debt collection robocallers for private debt collection purposes. Please limit debt collection robocallers to only those persons who have defaulted on government backed debt. Please allow for free public access and review of robocaller records, to ensure that only allowed calls or texts have occurred. Please limit the phone numbers used by debt collection robocallers to an authorized list that can be verified by the recipient of the call, to minimize the opportunity for identity theft.
Karen	Orefield	PA	Cell phone users pay by the minute. Therefore, unwanted calls STEAL money from cell phone owners. This should never be allowed.
Claudine	San Clemente	CA	Please stop ALL robo calls. It is to the point we do not even answer our own phone because we do not want to listen to another spiel about solar, home repair or fake IRS messages. Please give us our phones back! Thank You!
Gary	Sacramento	CA	Please stop robocalls. They are sometimes more than distracting when you are waiting for an important call.
MERLE	MISSION VIEJO	CA	I get 3 - 8 unsolicited calls a day and on a really bad day more than 10. Our household is comprised of two people over 70 so we are targeted. I started paying for call identification 2 years ago and that has helped somewhat but they local area names and numbers. Please make the telephone companies take action and stop the practice of robocalls.

James	Arcata	CA	Please don't allow unsolicited robocalls for any reason. Thank you!!
Gloria	Greenwood	CA	No consumers want robocalls. I'm inundated with robocalls multiple times a day. I no longer answer my landline and most of my cell phone calls are spammers. I may be on the Do Not Call list, but they still call my cell phone and my land line. Robocalls are just like spam emails, but even more intrusive. They work just as spam does yet we have no way to end the calls, and no recourse. They send out thousands and thousands of robocalls in the hope that one person might actually connect. Block one number and they use another to call. Ban them completely. They should be treated as we treat spam and mailing lists. If someone wants to opt in that's fine. But I don't.
David	Burlington	VT	I am sick and tired of these calls! What happened to the "do not call " list? How many Americans are being ripped off by the jokers?
Shereen	Mooreville	NC	Please put a stop to this madness!!
Gabriel	Fort Lee	NJ	I have two lines on the do-not-call list, oine a home phone number, constantly inundated by automated calls for the previous resident. Even the call blocking service misses half of the random calls. It's basically at the point where I ignore any inbound calls on that line. Now, my mobile is getting a half dozen calls per day offering to lower my [non-existent] credit card debt. None of these conform to any "acceptable" business relationship, do-not-call list, nor anything that might be excusable. Why have our phones become the next area for crap-tastic advertising? The fact this garbage is legal and tolerated is sad, just sad. We've allowed technology to ruin our lives instead of improve it at this point. Ban this garbage, utterly and without excuse, and offer automated methods to block it effectively.
Ira	Hollywood	FL	Robocalls are just an unjustified pain in the butt! I strongly dislike having people take up my time with garbage that they want to sell me!
Julia	San Antonio	TX	I have received one or two robo calls on my mobile phone while I am at work. I have blocked every one of them every time, but they just call from a different number. It is so frustrating! Where are our rights? Last Saturday morning, I have 4 calls in the early a.m. from some group claiming to be the IRS. I blocked them too. This has become a daily event. For all of the taxes and fees we pay for phone usage, the government should be protecting the consumer, not the criminals.
Pat	Golden	CO	Dear FCC Robocalls are costing consumers time and irritation. Please limit the robocalls or texts to no more than 3 per month...and not friends and family. The robocall guidelines need to be clear and readily available to everyone. Thank you for this opportunity.

Andre	Santa Fe	NM	Please end ALL UNSOLICITED CALLS AND ENFORCE THE DO NOT CALL LIST.
John	Cincinnati	OH	Even spam detection software has troubles catching these thieves. Stop the robocalls NOW.
Jeanette	Itasca	IL	We had 12 robocalls in the last 5 days. They leave no message or possibly just a recording alleging how important the call was. We have been on the Do Not Call list for years. Thank goodness for caller ID and call blocking. Robocalls are intrusive and obnoxious and sometimes threatening.
ray	houston	TX	STOP ANNOYING US.
Francis	Alexandria	VA	Robocalls to cell phones should not be allowed because they are disruptive. They also cost the cell phone user in terms of minutes used, not to mention the potential distraction of drivers while operating a motor vehicle and the interruption to one's daily activities.
Mark	Woodhaven	MI	Can't something be done to stop these calls and for that matter stop and soliciting calls ?
Susan	Richmond	NH	We are sick of receiving calls from false caller id numbers which turn out to be hang ups or unwanted solicitations or scams. We cannot block the calls because they keep changing the caller id numbers they are using. One time the caller id showed up as our home phone #, the number they were calling!
Eric	New York	NY	Please prevent robocallers from calling family members and friends of debtors. It is not fair to responsible consumers to have to endure harassing phone calls from companies who are trying to collect a debt that a third party owes.
Carl	Forest Park	IL	I get 5-15 of these per day
Michael	Warren	MI	I purchase minutes for my cell phone. I do not have a monthly plan. Each call I receive uses my minutes. I do not want to waste minutes answering robocalls.
Wendy	Sedona	AZ	These calls are intrusive and predatory. Please take action to end them.
A W	Riverside	RI	We hate them. There must be a right to opt out, especially given the expense incurred when a cellphone is targeted by this technology. Also, a mechanism is needed to opt out, and the related laws must be enforced.
Clauda	Westmont	IL	I am annoyed at the frequent robocalls that interrupt me because they come to my cell phone. I have signed up for the Do Not Call registry and updated my status but I don't know who is calling repeatedly. Please find a way to stop these.

Robert	Napa	CA	We are inundated with robocallers, scammers and telemarketers on our telephones. We must have the right to stop receiving calls. We need to be able to restrict calls made to legitimate debtors only and not give robocallers the right to contact friends or family. Guidelines and rights should be known to receivers of the calls and should be clearly stated by the callers. There should be an easily accessed way to report offenders and punishments should be in place. Thank you for your consideration of these concerns.
Cecil	Georgetown	TX	Please end robocalls; they are so annoying!
Robin	Ridgefield	WA	Please stop the robocalls to cell phones! It is terrible to be invaded and hammered this way and we have to PAY for the calls..â€¢Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available Thank You!
Nancy	Sweet Home	OR	Evidently someone from my neighborhood that I'd never met gave out my phone number before going on one or more spending sprees. For the next four years, every couple months I'd get daily calls from credit agencies. Can you imagine if those were robocalls to my cell phone? While driving? With modern technology, the robocallers keep switching the phone number they call from, so we can't even block the calls. If you don't protect us, we are helpless to stop this annoying practice.
James	Chicago	IL	Incredibly intrusive. Never of any value. Repetitive.
Stuart	Reisterstown	MD	No Robocalls to Cell Phones
Tiffany	Spotsylvania	VA	This has gotten so outrageous that I've blocked over 100 phone numbers because they were Robo calls and I still get three calls a day from numbers I haven't blocked yet. I've gone as far as to get in touch with my cell phone provider to block these numbers from their end, however, I still get these calls! When they come from area codes that I live in or work in, it's difficult to not answer my phone especially considering I have no home phone and strictly rely on my cell...not to mention, I have restricted minutes on my cell phone and this drives me absolutely crazy!
Elliott	Palm Springs	CA	I am sick and tired of getting these calls, especially on my cell phone. I travel frequently around the world and am sick and tired of getting these BS calls at 2, 3 or 4 in the morning because these idiots have no idea where I am. Please pass rules and regulations prohibiting them from continuing and imposing VERY hefty fines for violations of the rules. Thank you
Jacomina	Scottsdale	AZ	It is unconscionable to allow ANYBODY for ANY PURPOSE to use minutes on MY phone for their purpose. It is a form of THEFT let alone an INVASION OF PRIVACY. (Of which there is little enough these days.) DO NOT ALLOW IT!..

Jake	Midlothian	VA	Imagine this. You're a solopreneur working hard to establish yourself. Money is tight, but prospects are good. And you've never felt more alive. A large company requested a proposal from you! The all-important follow through call is scheduled for today at 10:00am. You're as focused as a laser on this client. But just as you pick up the phone to dial, another robocall comes in. It's the 9th time this week! **And there's nothing you can do to stop them.** The best way to pay off your bills is to FOCUS ON YOUR CLIENTS. But every time another robocall comes in, you get distracted. Then you lose one big client. Then you lose confidence. Then you start losing more clients. And ultimately your business fails. The FCC is our ONLY protection against this. Please write strong laws to ensure that consumers, solopreneurs (like me), and all other Americans have real power to control and SHUT OFF all robocalls. Thank you!
Gloria	Jacksonville	FL	I am able to stop robocalls to my landline so I should have the same ability with my cell. These calls are coming from companies that I have never contacted. They need to stop!
Marybeth	Painted Post	NY	Please help us end robocalls.
DAVID	Franklin	TN	Nobody wants these calls and that includes all the political junk.
Michael	Kendall Park	NJ	Debt collectors and other commercial interests should not be allowed to robocall or text consumers without their permission. Specifically regarding debt collectors and the guidelines you are considering, you should: 1) require debt collection robocallers to notify consumers of their right to stop receiving calls; 2) Limit the number of allowed calls or texts to no more than three per month, and only to those who directly hold federal debt - not friends and family of debtors and 3) guidelines should be clear and readily available to consumers.
Brian	Springfield	PA	Please help prevent robocalls from further invading our privacy. I believe they should not be permitted to any phone number, landline or cellular. Why can't my telco block them? Please help! Thanks!
Roger	Converse	TX	Robocalls interfere with normal life. If expecting an important call, robocalls tend to come through at the worst time, interfering with responses to the needed call. Too often, it is someone asking for donations from an illegal operation or seeking business for a business that is certainly not rated by BBB. Even if you ask to be removed from the calling list, this seldom happens!! The robocalls continue!!!
James	Alpena	MI	I gave up my land line because of all the bothersome crap calls I was receiving, let's stop these unwanted calls forever.
michael	logan	OH	Robocalls should be banned.
Andrea	Ames	IA	Half of the time robocalls come from scammers, or debt collectors trying to collect debts that have already been paid off. I work hard for my money, and I shouldn't have to pay for minutes wasted by robocalls.

Tracey	Fuquay Varina	NC	I am vehemently opposed to any robocalls or texts to cellphones without my express permission. If I have a limited-minute or pay-per-text plan, these calls and texts cost me money without giving me the right to refuse, unless I program every phone number of every company I want to do business with into my contacts -- which is impossible! If debt collection robocalls are allowed, the robocallers must notify us of our right to stop receiving calls. My elderly mother must know how to stop the calls without turning off the cellphone she uses to keep in touch with her family members.
Gloria	Greensboro	AL	I AM 76. I LIVE ALONE, AND I DONT REALLY NEED MY PHONE EXCEPT FOR CONTACT WITH MY FAMILY MEMBERS IN OTHER STATES, AND FOR EMERGENCIES. STILL, MY PHONE RINGS 3 OR 4 TIMES A DAY, EVERY DAY AND WHEN I GET THERE (TO MY LAND LINE PHONE) IT IS A ROBO CALL. THESE NEED TO BE BLOCKED. IT IS SOME TIMES DANGEROUS FOR ME TO GET TO MY PHONE (DOGS IN THE WAY) ONLY TO FIND ITS SOMEONE I DONT KNOW AND DONT WANT TO TALK TO. AT&T SAYS I HAVE TO BUY THEIR INTERNET SERVICE IN ORDER TO BLOCK THE ROBO CALLS. THIS WOULD BE UNAFFORDABLE FOR ME.
Ed	Campbell	CA	If a call is important enough to interrupt my work, my sleep, my family, THEN the caller should call in person.... Not by machine. This would naturally LIMIT the number of calls I am disturbed by. I personally am a Disabled Senior, and am awakened during the day by junk calls. We need our phones for emergency and family matters, not for junk.
Wesley	Monticello	GA	I had to disconnect my home phone the calls of 10 to 20 Robo call's a day. Now the same thing will happen with my cell phone. Please do not allow these horrible people to do this to the people you were represent.
Patricia	Mobile	AL	If I wanted someone to call me and tell me about the deal of the day, I would contact them, and set it up. This is past ridiculous to jump up and answer your phone, only to hear; "Your credit card debt is in danger" or you can get help with your student loans. Get this under control NOW! I pay for my phone, and not to be called by unwanted disrespectful idiots. I do not want to be bothered!!!
A. M.	Minnetonka	MN	I strongly encourage the FCC to adopt strict guidelines to regulate how and when debt collectors can contact anyone using cell phones. I oppose robocalls that are unregulated. Guidelines should include when and how individuals can be contacted and must include notification of how to stop robocalls, preferably using a one touch button system. Sincerely, A. M. Kaphingst

Ned	Bellevue	WA	Dear FCC: When I'm teaching private drum lessons, when I'm driving in the car, when I'm sleeping, robo calls come in. They give me the opportunity to press a button so that I'll never receive a call again. But, then they cynically, just call from different numbers the next day. Student loan breaks. And small business loans. Over and over and over. These people are probably not even legitimate lenders. But, their marketing practices are so out of whack, even if they are legit, that they're torturing US Citizens who need to get their work done, drive their cars, sleep. It's awful. There is no way to successfully opt out. Therefore, I'd appreciate it if you'd just make it a policy to hunt down and prosecute predatory lenders, or any lenders for that matter, who depend on robocalls. Robocalls to cellphones, and anytype of phone should only happen if you've agreed in advance to opt in. So, you fill out a form on the internet, and one of the questions is, Would you like Robocalls from us? Of course, for 99.999999999999999% of the citizenry, the answer will be NO WAY. If follow through and do this, I just want to say in advance, THANKS SO MUCH FOR HELPING ME, and EVERYBODY ELSE.
Rachel	Divide	CO	I am busy and do not want robocalls. Call me in person, if you must, so that I can be just as annoying to you, in person.
Ximena	Doral	FL	Please stop robocalls to cell phones, they are total invasion of privacy! I understand there must be some cell phone communications but then, there should be some rules here are some suggestions: * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available
Joe	N Las Vegas	NV	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available It's so annoying getting these robocalls.
Maria	Glendora	CA	Please make the robocalls stop as they are annoying and disrupt our days.
William	Colorado Springs	CO	If you represent the citizens, Stop the Robocalls
Gerald	Yorktown	VA	Please stop Robot Calls to cell phones!
Jimmy	Paterson	NJ	Please stop robot calls
Dave	Lockhart	TX	I run a real estate company, and although I get a lot of legitimate phone calls, I would estimate that 25% of my calls are robo calls unrelated to folks actually buying or selling real estate. I can't put my business phone on the do not call list, as that would keep legitimate folks from calling me. If you can do anything to solve this problem, it would be great!

Sharon	Newbury Park	CA	We were waiting for a return call from our doctor. As a rule, we don't answer numbers we don't recognize. My doctor was calling on his cell phone which we don't know. Almost missed his call because of all the telemarketer calls we get - now even on my cell phone! From India! Selling solar!
Ron	Huntington Wood	MI	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Mike	Old Forge	PA	I don't know why you can't use a little common sense in regulating robocalls. No one should be harassed when in their own home. Seems like special interests are running this country anymore. Please stand up for the citizens and not the special interests.
Ronald	Arcadia	IN	Please do not allow robocalls to be instituted for private citizens.
Walter	St Petersburg	FL	Robocalls create financial hardships for the many people who must pay for incoming calls on their cell phones. Most of the calls are unwanted solicitations or surveys, and are made regardless of whether the recipient is registered with the Federal and State Do Not Call lists. As an example, I am registered on both lists for both my landline phone and cell phone. In a typical month, I receive up to 100 robocalls. It gets worse during election time. I don't have to pay for incoming calls and can just ignore them even if they leave voice messages when I don't answer the call. For many cell phone subscribers, that alone will add charges and use minutes from the subscriber's phone.
Rechele	Andover	NJ	I receive at least 2 to 5 robocalls every day. It is extremely disruptive during my work day to have to deal with this unwanted solicitations and scams. The more you answer the call the more they call so you just have to let the phone ring and hope they go away. If a consumer is registered on the national do not call list, junk solicitors should not be allowed to bother you.
Amelia	Charleston	SC	Stop it now. Enough with the robocalls. The public should be able to opt out of these annoying calls. i get calls from all over the US. When I see what state it is, I don't answer. Sometimes it doesn't show the location of the calls. They are all annoying. Please give us a number where we can sign up to be off the list.
Barbara	Las Vegas	NV	Debt collection robo callers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Craig	Leander	TX	I should not have to be hassled by Robo calls on my cell phone or my house phone.
David	Hanover	NH	DON'T PERMIT ROBOCALLERS TO CONTINUE SENDING PEOPLE THE SAME CALLS DAY AFTER DAY!!!!

Henry	Pensacpla	FL	Please stop all robo calls to cell phones and land lines. Only emergency alerts should be robo called. ALL others stopped. This includes political robo calls!!
Laura	Pittsburgh	PA	Leave our cellphones alone!No one wants to be harassed day and night by debt collectors, push polls, or aggressive sales people. I support the following rules: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Please put consumers first and protect us from constant pestering on our cell phones.
Lola	Los Angeles	CA	These calls are driving us nuts! Many are computer originated with multiple calls being sent simultaneously and then the sender selects one while the others dialed ring 3 or 4 times before a disconnect. When I have tried to reach the phone number from "Missed Calls", the number is not a working phone number. They sometimes disguise the call by having Caller ID show "Private Caller" and I have several friends who have their personal telephones listed this way, so I have to answer. I do not pay for my telephone to receive unwanted/uninvited solicitation calls selling solar, home repairs, refinancing and all other imaginable products. Stop them before they get through to our land line (and sometimes cell phones) even though our phone numbers are on the Do Not Call list.
Thomas	Navarre Beach	FL	I have blocked at least 100 phone numbers that call me offering debt services. The only thing that Verizon will do for me is sell me additional services to allow blocking more than their standard 5-number block. I am a computer engineer who has worked in the industry on building LEGAL telemarketing systems. I know for a fact that a system can be built to automatically block these calls. Feel free to contact me.
Randy	Bellevue	WA	Robocalls are a waste of everyone's time, energy, and resources. Eliminate robocalls and force businesses to adopt other ways to reach people and customers. Consumers shouldn't be unnecessarily bothered and financially impacted just to make it easy for a company to do business. I will personally support any politician who backs this proposal and recommend against any who choose to fight this change. Just because there is technology that allows companies to make these calls, doesn't make it one of their rights to do so.
Ron	Chicago	IL	It is irritating enough to receive robocalls soliciting money or promoting products at home. But it is even worse to receive them on cell phones in meetings or doing grocery shopping or spending time with friends or at a family member's home, etc. Please ban robocalls for cell phones.

Joseph	Thornton	IL	Have been receiving robocalls from my own phone number, even with caller ID showing my name but with a different middle initial!
Gary	Davidson	NC	I don't have any debt so I am not directly affected by these guidelines. However, until I blocked a telephone number, I received constant phone calls on my cell phone from a debt collection agency looking for someone else. This continued even though I had indicated to the company that the person they were looking for was not me! Nor would I expect to receive calls or texts regarding debt owed by other family members or friends. That would be a breach of my rights and I would consider it to be harassment.
Tom	San Mateo	CA	I have begun getting robocalls on my cell phone. I have no student loans and I am not delinquent on any debt. These calls are generally selling something. I consider it an invasion of privacy and am worried that some of these outfits are phishing for personal data in order to steal it. These should be illegal.
Joanne	Lufkin	TX	We receive minimum of five robocalls per day on our home phone and cell phones despite the fact that all our numbers are on the Do Not Call registry. These calls are exasperating as well as costly and disruptive. In the past three days we have received calls from fraudulent IRS agents claiming they have filed a law suit against us! PLEASE do everything in your power to make these calls stop. Thank you.
Wayne	Statesville	NC	it is time to protect the citizens from robocalls that have no merit or reason. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Jerene	Torrance	CA	I get robocalls on my land line phone several times a day--very annoying. I also get an occasional robocall on my cell phone which costs me money when they leave a message since I have limited minutes. I am on the National Do Not Call List which seems to be useless. All of my friends and I are sick and tired of these calls. HELP!
Diana	Philadelphia	PA	PLEASE do something to help eliminate this scourge! Robocalls are a constant nuisance. I get an average of 10 robocalls a day, so must screen every call before answering. It is extremely disruptive.
Wendy	Aromas	CA	I have been receiving robocalls, even though I am on the National Do Not Cal Registry. I feel like I'm being harassed.
Marcia	Parker	CO	I signed up for donotcall.gov years ago and constantly am sending robocall numbers in for abuse. I still get them. Make them end please. Need fines really high.

John	Hamburg	NJ	Robocalls are beyond annoying - they are terribly intrusive! It is fortunate that we have Caller Id and can ignore the "Unavailable", "Private Caller", "Out of Area", "New Jersey Call", various other states, etc. However, the calls still interrupt our routines to check the phone id to determine whether the call is important, family, business and the like. It is far past the time to put an end to these invasions of privacy that come from 8 am to 9 pm every day without fail - even holidays. Enough!!!
Karen	Fairfax Station	VA	Stop ironically at once. Do you like having your day/meals interrupted. Didn't think so. So what are you waiting for.
Patricia	Mobile	AL	If I wanted someone to call me and tell me about the deal of the day, I would contact them, and set it up. This is past ridiculous to jump up and answer your phone, only to hear; "Your credit card debt is in danger" or you can get help with your student loans. Get this under control NOW! I pay for my phone, and not to be called by unwanted disrespectful idiots. I do not want to be bothered!!!
E	austin	TX	For pay as you go customers this is an added cost, for anyone with a cell phone, it is a vial intrusion.
David	Atlanta	GA	PLEASE, NO MORE ROBO CALLS. They are rolling in on my no calls phone. PLEASE STOP IT!
Bob	Jackson	MS	NO robocalls to cell phones!
Chris	Ogdensburg	NY	My wife and I are in our seventies and she is bed ridden. She's more comfortable when she can sleep than when she's awake. Nevertheless, she is frequently awakened by irrelevant, useless phone calls. We've had periods when we received six calls from the same source in less than ten minutes. We end up turning off our cell phone. Please let us keep using our cell phone. Please establish a way that we can block robocalls. We would appreciate it.
James	Farmingdale	NY	Robocalling has reached the point where half to two-thirds of the calls I receive are from Robocalls. They not only affect my landline but more and more I am getting them on my cell phone (which I pay per minute charges not unlimited calling). I urge you as a government agency to crack down on these abusers!
Paula	conroe	TX	I for one do not want debt collectors calling me for my friends or family.
Michael	Sarasota	FL	You can and should stop all robocalls. Why wont you?

Kate	St. Paul	MN	When I purchased a cell phone, it was for my convenience and safety. There are alot of taxes reflected on the monthly bill, and for that, I expect the state and federal government to protect my privacy and identity. These robocalls and companies behind them are totally disrespectful. They act as if they have every right to abuse my device and my time. I would like to see strict laws implemented to prevent such actions and and more importantly harsh penalties for non-compliance. The law would specifically target debt collectors who are abusive and threatening without any regard that the recipient may be the person they're targeting, like "a dog with a bone". It needs to stop!
Lasha	Saint Petersburg	FL	Don't really get much but they shouldn't be allowed
mike	mcpherson	KS	i don't have time to waste answering them. how do we know they are legit?
John	Mokena	IL	Enough with the robocalls all day into evening at dinner even if you pick up the phone no answer they hang up. If I want to buy something by phone I will call then. And then the credit card last chance foe a lower rate. These people need real jobs.
Durand	E. Fallowfield	PA	Please vote to stop these unwanted Calls!
Thomas	Kennewick	WA	Robocalls, by their very nature, constitute an invasion of privacy. They require no effort on the part of the caller, and give the recipient no way to decline, as a class, all calls of this kind. Cell phones provide people with a high degree of privacy and a way to contact emergency services. Allowing commercial interests (including collection agencies) to reach these devices robotically will dicourage their use and deprive people of rapid access topotentially life-saving interventions.
Gregory	Detroit	MI	Please consider my concerns: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
Brenda	Phoenix	AZ	Robocalls are a great nuisance and interruption of my day, and night. These calls should be blocked from my cell phone as each call costs me cell minutes as well as taking time from my busy day. I give my cell number only to people I need to talk to so it makes me angry to receive unsolicited calls with dubious 'offers'.
Eldon	Tallmadge	OH	Please stop Robo-Calls to my cell. They wake me at night. They eat my minutes. They are not wanted. The warden only allows 1 incoming call each week.
Paul	Barrington	IL	This is already a travesty, no, no, no.

Larry	Cloverdale	CA	Please put a stop to the endless robot calls. I get a countless amount of calls trying to sell me all sorts of products. Even calls from Washington state claiming to be from the IRS. Before that calls from India claiming I will be arrested because I owe the IRS. These calls continue today. Put a end to the abuse and waste of my time.
Philip and Bett	New Hartford	NY	My wife and I are bothered, typically, a few times a day, by robocalls. That is an unwanted intrusion, they sometimes wake us up when we are sleeping, or interrupt something that we are doing. It would be wonderful if there was a way to stop this. (The calls we receive have nothing to do with debt, as we owe nobody anything, nor do they come to our cell phone, which is almost never on: they come to our home phone.) It is ridiculous that these hucksters are allowed, at so little cost to them, to intrude in the lives of so many people.
Kent	Fritch	TX	Please stop robo calls to cell phones.
Joan	University Park	FL	Robocalls are disruptive and unwanted. They are an intrusion on our private lives. Please stop them!
Neil	Goodlettsville	TN	Please end all robo and other solicitation calls.
Howard	Cudahy	WI	PLease stop these robocalls to my cell phones.
Pat	Ocala	FL	I was inundated with robocalls before I disconnected my AT&T land line a month ago. I had been an AT&T customer since 1971 and told them exactly why I was getting rid of the land line, but they insisted that I could register YEARLY on the DNC registry to solve my problem. I told them they were absolutely wrong and had no concern for their customers. Now that I only have a cell phone, the robocalls are starting on it. THIS HAS GOT TO STOP!! I have not EVER responded positively to ANY of these callers, but that has no effect on the number of them I receive. My cell is registered on the DNC registry, but when you tell the caller that, they laugh!! They know there is no way that they are ever going to be caught. THE ONLY OPTION IS TO STOP THEM IN THEIR TRACKS WITH CALL BLOCKING!!!
Wayne	West Chester	PA	Dear FCC, Please stop letting Robocalls clog up our phone lines. Things are to the point where no one wants to answer the phone. Most times now, it is a robot dialer calling and half of the time it hangs up and calls right back again. Please stop these calls for any solicitations, surveys, political announcements etc. Sincerely, Wayne T. Balmer
Gary	Haines City	FL	Robocalls to my cell phone cost me money and waste my time.
Richard	San Marcos	TX	My cell phone (s) are purchased for use by family and friends. I have no interest in providing a free forum for advertising or interest groups. They have not ask nor do I want anyone using my phone for their benefit. My phone is intended for the private use by my specific family, friends and for emergencies only. No robo or advertising calls on cell phones please!!!

Robert	Raleigh`	NC	Please, please - do whatever you can to stop the robo calls to my cell phone. It rings incessantly. I HAVE put my number on the do not call list, numerous times, but it does no good. I am a disabled veteran, 69 years old, and I would like to have a few years peace in my life before I go to the other side of the grass.
Rose Ann	Phoenix	AZ	Please end the annoyances. Our phones are for our use. They don't pay our bills, & are NOT invited to use OUR phones.
Carol	Temecula	CA	Now, we need to hit robocalls at the source. It's long been illegal for debt collectors to robocall your cell phones without permission. But a provision snuck into the federal budget last fall would change that, allowing debt collectors to robocall anyone with federal student loans or back taxes. Even if you don't owe money, but a relative does, or if your phone number once belonged to someone who does, you could be robocalled.
Daniel	Sherman Oaks	CA	I'm in bed. The phone rings. No name no number. Great! Is a friend or family member in need of help? No! The recording starts asking me if I want to save money by installing solar panels. Um no. I Live In an apartment. Stop these robo cells. Land lines and cell phone numbers. Even some non profit organizations use a recorded intro. Stop them to.
Larry	Csnton	OH	I'm on the 'do not call list' which appears to be a big joke. It stop nothing!! I'm disgusted with the robo calls. I'm on limited income and cell data minutes. These calls eat up and wait too much of those limited minutes. Stop these calls!!!!
Richard	watertown	CT	Stop it, its my privacy!
Russ	San Clemente	CA	Please, Please, Please do something to end the numerous, time consuming and costly robocalls and texts received every day and all hours of the day. If someone wants to receive robocalls they should have to opt in to do so. Otherwise the default for all phone numbers will be opt out. Don't succumb to the the debt collectors and robo calling marketers. Resist political pressure from politicians and special interest groups representing robocallers. Make them pay pay pay for violations. Please stand up for the privacy of individuals.
Paul	Reno	NV	I am feeling besieged by these unwanted calls and would love to have my home life returned to some sense of normalcy
Carol	Morgan	UT	Please help to stop these annoying calls - most of which have nothing to do with me!

Harry S	Collingswood	NJ	<p>Personally, I couldn't care less about debt collectors - I am senior citizen who has never incurred debt that I could not pay on time. That said, I do have to watch my finances. Currently, I have both a landline and cell phone. I have been getting robocalls - and other solicitations - on my landline for a long time, despite the fact that both phones numbers are on both the New Jersey and federal Do Not Call lists. With regard to the land line, it is a major annoyance to have to ignore a ringing phone and/or stop what I'm doing in order to go to it to answer. With regard to my cell phone, I do NOT have unlimited minutes for receiving and making calls. So, when a robo- or other call appears to be local, I answer the cell, often only to find that the area code showing is fraudulent. You need to stop robocalls immediately. Enforce the laws and make rules calling for huge fines and prison sentences for any individuals and companies using robocalls and/or ignoring the Do Not Call lists. Laws are already on the books to forbid such calls, but there is no way to trace the calls, since they use technology to mask where they are calling from. However, we have the technology to stop them, just as the technology they employ recognizes answering machines and voice mail and ends the call.</p>
Craig	Farmington Hills	MI	<p>Please do not allow invasive robocalls on cell phones. Debt collection robocalls must notify us of our right to stop receiving calls. Number of allowed calls or text should be limited to no more than 3 per mo., and only to those who directly hold federal debt. Guidelines should be clear and readily available. Thank you.</p>
Paul	Rockville	MD	<p>I sometimes get 5 robocalls a day. Anymore, if I don't recognize the number, I don't even answer the phone...this is ridiculous! The thought of allowing debt collectors (even those retained by the government) to legally circumvent existing laws is just going to make a bad situation even worse.</p>
Howard	New London	CT	<p>Any call after one contact by a live person is Harassment !! NO ROBOCALLS at all !</p>
Curtis	Eden Prairie	MN	<p>It's about time!!</p>
Obie	Coral Gables	FL	<p>I'm tire of my cell bandwidth being abused by unsolicited robocalls. Please help stop these wasteful calls.</p>
Scott	Chicago	IL	<p>Please abolish robocalling altogether. It is both annoying and unnecessary.</p>
Lawrence	Bartlett	IL	<p>I feel it's an invasion of my personal province to be continually harassed by robocall telemarketing. They call at all hours and try to disguise their nature by using false names that appear on caller ID I've registered dozens of times on do not call lists bit nothing seems to deter them.</p>
Susan	Stamford	CT	<p>Please stop the robo calling. It is very disruptive and continuous. Thank you</p>

Lindsay	Charlotte	NC	Please stop the Robo Callers. They have hi-jacked my landline and call me constantly. Some are legitimate and some not ... but I don't want the intrusion.
Joseph	San Antonio	TX	I have received debt collections on my home phone in the past and I just could not get them to stop even when I provided all the info I could that I was not the person they wanted. Is this what will now happen on on cell phone? Please get this to stop. These debt collector robocalls just blanket all people on their calls leaving us ill seniors to fight them. Where is our government when we need them.
Stephen	Los Angeles	CA	Robo calls are intrusive they are a daily phenomenon and they are invasive into my personal space. Please stop them.
Ronald	Watsonville	CA	No robo calls to cell phones!
JULIE	COLORADO SPRING	CO	It's a complete waste of my time to continually answer calls that I think might be legitimate and find that I'm listening to some pre-recorded voice trying to sell me something for my business. If I need a loan, credit card machine, line of credit or new business opportunity, I will find it myself!
David	Chesterfield	MO	Robocalls are a nuisance and I would like them to stop.
Janet	Pine Brook	NJ	Enough already. Stop all robocalls which require an interruption of my time and mealtimes, too. Recently they have increased in frequency to my cell phone, which had been somewhat immune to them until recently.
Wayne	Falls Church	VA	Please - stop this scourge!
Hans-Volker	Huntsville	AL	It is time to stop unwanted and life-interrupting annoying calls of all kinds, on top of all robocalls.
Larry	Georgetown	TX	Make it much easier to stop robocalls; Better still, stop them! They are obnoxious and invade my privacy.
Sima	Rockville	MD	I oppose Robocalls to cell phones. I have a robocall blocker on my home phone, and would hate to have to do the same thing for my cell. If they are allowed: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available There must be an easy way to stop the calls
Debbie	St Louis	MO	Every single day I receive about 6 -8 calls a day per phone! That is on one landlines and two cell phones! That's 16 - 24 calls each day. I'm sick and tired of these intrusions. It's frustrating to know you could stop it should you choose to do so. PLEASE do so now!
Thomas	Clarksville	TN	I do not appreciate robocalls, or for that matter any solicitation calls. In fact, so long as I remember the name of the company I will neither use their services nor support their causes. I have my phone for my personal use, not the use of big business
Tom	Orinda	CA	I get about 10 unwanted robocalls or telemarketers per day. Fortunately, I am able to use www.robocall.com to automatically transfer them away. It is a long list.

Bernie	Philadelphia	PA	please put an end to these robocalls. They are very annoying!!!!!!
Myrna	Wimberley	TX	No one should be able to use up our valuable call minutes or the amount of text messages we use per month. Calls and texts are not free therefore no one should be allowed to use up what we pay for. There should be NO junk or spam directed to our cell phones. Potentially, if this is allowed, as it is on email, we might not be able to use our cell phone minutes for our personal calls and texts. Stop ROBOCALLS!
Mark	San Antonio	TX	I truly believe time has come for once and all to put an end to this horrific practice of what is now known as "Robocalls". It is intrusive and upsetting, to have the phone ring at all in opportune times. This NEEDS to become a Criminal Offense with real consequences. Please Make This Happen!!!
Leon	Medford	OR	Make robocalling and equipment, a crime with appropriate penalties for those convicted of owning, using, employing, possession of, sales of, as owners, shareholders, stockholders, employees, executives, designers, manufacturers, repair companies and suppliers.
James	Shelburne	VT	Almost daily my workday is interrupted by at least one robocall that isn't applicable to me. I pay good money to have a cell phone to conduct my business and there is no place for robocalls in the formula. It is an insult and injurious to my productivity to have these ridiculously useless call coming through my phone just to interrupt whatever I am doing. Robocalls are a disservice to everyone and should be altogether banned but especially to cell phones. By the way my phone is listed on the National Do Not all Registry and i get these calls anyway.
Donald	Las Cruces	NM	I continue to get robocalls even tho I am on the do not call register. These calls upset my delicate mental balance and bring out latent homicidal feelings. Please put a stop to these calls.
Jim	Clinton	NJ	The robo calls are driving us crazy, both on the land line and the cell phones. We receive calls from all over the world, we never answer, but I thought that we were on a "no call" list. It sounds like Indiana has the right idea.
Nikki	Helena	MT	In the last 2 years, I had bilateral knee replacements. Since I was receiving calls from medical providers and my health insurance, I needed to answer the phone calls, even if I didn't recognize the name. Several times, I almost fell trying to get to the phone, only to discover It was a robocall. So, the robo calls are not only aggravating, they can be dangerous.
C. Alexander	Dover	NH	As a resident of New Hampshire I receive many, many robocalls in the political season â€” sometimes as many as 20 a night. As well, I received many calls trying to collect a debt from someone who does not live here and, to the best of my knowledge, never has and has never had this phone number! This has got to stop.

judy	HuntingtonBeach	CA	I urge you to protect the citizens rights to privacy and freedom from harrassment. Limits on robocalls to cell phones are necessary.
JULIE	COLORADO SPRING	CO	It's a complete waste of my time to continually answer calls that I think might be legitimate and find that I'm listening to some pre-recorded voice trying to sell me something for my business. If I need a loan, credit card machine, line of credit or new business opportunity, I will find it myself!
Kiwibob	Seattle	WA	Dear FCC, It's time to BAN ROBOCALLS ALTOGETHER! Nobody has the right to invade my privacy without my expressed written consent, and I don't consent to any "fine print" provision pre-authorizing any such invasion of my privacy!!!
Marcia	Hampstead	NH	Every night I come home from a long day at work and find at least 5 and often more calls on my home phone answering machine. The calls continue to come in until as late as 9:00PM. Now I'm beginning to get them on my cell phone, too. I have an elderly parent (98 years old) who often tries to get up to answer the phone, only to find that it's a robocall. They're invading our lives. Phones should be for important communication, not stupid sales calls for products (or candidates) I'm not interested in. Please stop these unsolicited robocalls.
NORM	HONOLULU	HI	DEAR FCC... ROBOCALLERS ARE A TIME WASTER & NUISANCE FOR EVERYONE THAT RECEIVES THEM! REQUEST YOU AND OR CONGRESS MAKE THEM ILLEGAL!! SINCERELY, NORM WINTER, HONOLULU
Leslie	Richmond	VA	NO SALES CALLS ON MY CELL PHONE. I PAY FOR THIS SERVICE AND DON'T TOLERATE ABUSE. I ABUSE BACK WHEN THEY CALL.
H.	La Canada	CA	See above
WILLIAM	EVERETT	WA	PLEASE STOP ROBOCALLS NOW. THANKS
Charles	Las Cruces	CA	My cell phone is for my personal use only. Business calls are a use of my minutes for free. No pay, no play!

Ann	Alexandria	VA	<p>First, I would like to know how debt collection agencies, predatory lenders, scammers, etc. get cell phone numbers in the first place. Cell phone numbers are not easily or freely accesible to the public. Why and how are these companies or persons accessing this information? Phone numbers, land line or mobile, should be private. Period. Phone companies used to offer land line users the choice of keeping their numbers "unpublished." For a monthly fee, of course. But I have had a mobile phone for the better part of 15 years and was never offered the opportunity to keep my number private. I asked my cell service carrier once, I believe it was AT&T at that time, if an unlisted number was possible. I was told it wasn't necessary, because these numbers weren't listed in any public directory and were not given out. That was one of the reasons why your number could stay with you when you changed cell phones and/or carriers. Well, that is not the case now. I receive unsolicited calls regularly on my cell phone. True, I can block them after they've called once. But that doesn't stop me from receiving new ones from new numbers. NO ONE should have unsolicited access to me or any one, whether it's through a cell phone or a land line. If you want to harrass individuals, it should be allowed ONLY via their mailing address. This information is public and there is really no way to privatize it. Plus, the USPS could use the business to justify keeping them in business. Harrassment is bad and in many cases illegal. I realize debt collection agencies are a necessary business. If an individual is not paying for goods or services they have already recieved, I am sure it is cheaper for the vendor to outsource to a collection agency than to pursue recoupment via the US legal system. But let them do their business through the mail. As for predatory lenders and scammers...well, we live in a "free enterprise" society, so it's likely they will always be a part of citizen's enterprise of living. But if it is illegal to sell or give out individual's cell numbers, I think their enterprise would</p>
BETH	BOISE	ID	<p>I RECEIVED 6 ROBOCALLS IN TWO MINUTES AND THAT WAS JUST FROM ONE COMPANY. THERE ARE MANY THRU OUT THE DAY. NOW THEY ARE USING LOCAL NUMBERS SO WE ANSWER. STOP THE ROBOCALLS. HOW MANY ELDERLY PEOPLE CAN TAKEN IN BY THESE CALLS.</p>
John	Peoria	AZ	<p>Please take action to regulate Robocalls. They are becoming an ever increasing intrusion into everyones lives, and will just get worse as the election in November approaches. Do your jobs and regulate communications!</p>
WJ	Newark	CA	<p>Calls cost me, money callers aren't paying, please stop them!!!</p>
Dennis	Westlake	OH	<p>I receive on AVERAGE 10 robocalls per day! This is out of hand. There appears to be no concern for stopping this intrusive practice into the lives of American citizens. Please act now to stop these annoying practices that intrude into my right to a peaceful daily life.</p>
Marshall	El Paso	TX	<p>I am tired of paying for cell phone service only to find that I am in fact paying to receive robocalls!! The pace is increasing and it's a nuisance. I have not given permission for such calls and want to turn them off!</p>

Michael	Carmichael	CA	Stop the constant robocalls, it has gotten to the point where I don't answer the phone unless I recognize the number.
Debra	Kihei	HI	Please stop the stupidity of any involvement by the FCC, in the low intelligence scamming of individual tax payers with these forms of businesses.
Luz	Phoenix	AZ	I receive calls daily from robocallers. Even after I report or block the numbers, they call from other numbers the very next day.
Lee	Pataskala	OH	Allowing debt collectors to harass family and friends is unconscionable and needs to cease immediately. Thank you
mary	quincy	MA	Robocalls are a big nuisance in my life. We need more peaceful lives;ending them would really help.
Don	Kemah, tx	TX	Put a stop to robo calls. Make robo callers deposit \$0.25 in the account of number called each time they call that number.
Boots	Olympia	WA	Please end the annoying robocalls. They take up my minutes that I have on my phone n' take my time away from what I am doing being a mother, housewife n' grandmother.
Charles	Newton	MA	Please make ALL robocalls illegal on ALL phones at all times. OK, perhaps there should be an exemption for public service messages (like "your street is going to be closed for repair...").
Randy	Santa Rosa	CA	My landline is more of a nuisance, these days, because of unrelenting robocalls. Please do not allow robocalls on the cellular network. Besides the reduction in available bandwidth for legitimate uses, some plans charge by the minute, which would make un-solicited calls a criminal act. There may need to be an exception on calls from legitimate debt-collection services, however. Thank you.
Penny	Alachua	FL	These calls have gotten out of hand...I receive at least three daily.
Francis	Seattle	WA	Regulate how Debt collectors are allowed to contact me on my cell phone!
Howard	New York	NY	Debt collectors must stop calling and harassing people. For violating a robo call ban there should be heavy fines by the FCC for debt collectors' violation of the guidelines set by law for robo calls.
Amanda	Buffalo	MO	We should not have to go through this...begging for the right to privacy. Enough Already. NO ROBOCALLS cell or landline. We the people...NOT we the corporation.
Robert	NY	NY	Please get rid of robocalls once and for all.

Helen	Vallejo	CA	I do not appreciate paying for my cell service, only to waste my money on robo calls. Bad enough to receive them at home, during dinner, but often they are recorded calls who do not even respond to your "Hello", thereby wasting my money and my time unnecessarily. It is bad enough when the same company calls once a day, but often they call twice, or even three times a day, and they all tell me they will remove my number from their call list, but it never seems to happen. have registered with the "Do Not Call List" for both of my cell phones and my home phone, and the list does absolutely no good. It is very frustrating to deal with these calls, which I do not want, do not need, and plain do not want to be bothered. If wanted to have a service provided, I would initiate a call. If these companies want to offer me a service, or ask for a contribution, they can mail me an offer, or details, that I can read or recycle...that is all I need from these companies. In that way they can support the United States Post Office, who certainly needs the revenue.
Mark	Meridian	ID	I conduct my business on my telephones (both mobile and landline) and I detest the impertinence of unsolicited "robocalls" from any and all types of sources. My time is valuable and I do not want to waste it -- or have legitimate and important conversations interrupted -- by unwanted incoming calls. These types of calls must be stopped -- permanently!
John	temple	TX	There is no reason to allow unsolicited or undesired robo calls to cell phones. Congress could easily stop this if they did not want the loop hole for their use for political calls!
Lasha	Saint Petersburg	FL	Don't really get much of them but robot calls shouldn't be allowed.
Troy	Miami	OK	You have the power to stop robocalls. Use it. You are there to serve us, not the corporations and activists. Stop the robocalls now!
LARRY	MOLINO	FL	IF I DIN'T CALL THEM I DON'T WANT NEED ANY CALLS.
Brenda	Springfield	MO	I grow so tired of receiving unwanted calls hiding behind fake phone numbers that change as soon as you add them to your blocked callers list. I pay for my cell phone and service - why can't I easily get unwanted repeated calls stopped? I learned early on the hard way that responding to get them to stop is much worse than battling to avoid their calls. Thank you.
John	The Villages	FL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Dennis	The Villages	FL	Please eliminate Robocalls from my cell phone
Matthew	San Diego	CA	Stop Non-Human generated phone calls to my cell phone. I hate calls from non-humans.

John	Kihe	HI	Please stop the stupidity of any involvement by the FCC, in the low intelligence scamming of individual tax payers with these forms of businesses.
Virginia	Elyria	OH	I can't tell you much I hate robo calls. I never answer the phone anymore until I know who is calling. I'm about ready to switch to cell phone only. Please do something about this harassment!
Leon	Medford	OR	Make robocalling and equipment, a crime with appropriate penalties for those convicted of owning, using, employing, possession of, sales of, as owners, shareholders, stockholders, employees, executives, designers, manufacturers, repair companies and suppliers.
Ned	Bellevue	WA	Dear FCC: When I'm teaching private drum lessons, when I'm driving in the car, when I'm sleeping, robo calls come in. They give me the opportunity to press a button so that I'll never receive a call again. But, then they cynically, just call from different numbers the next day. Student loan breaks. And small business loans. Over and over and over. These people are probably not even legitimate lenders. But, their marketing practices are so out of whack, even if they are legit, that they're torturing US Citizens who need to get their work done, drive their cars, sleep. It's awful. There is no way to successfully opt out. Therefore, I'd appreciate it if you'd just make it a policy to hunt down and prosecute predatory lenders, or any lenders for that matter, who depend on robocalls. Robocalls to cellphones, and anytype of phone should only happen if you've agreed in advance to opt in. So, you fill out a form on the internet, and one of the questions is, Would you like Robocalls from us? Of course, for 99.999999999999999% of the citizenry, the answer will be NO WAY. If follow through and do this, I just want to say in advance, THANKS SO MUCH FOR HELPING ME, and EVERYBODY ELSE.
Michael	White Hall	WV	I believe the technology is here to stop all robo and telemarketer calls especially since the do not call list is a joke. But since the same methods are used to scam unsuspecting people the FCC has a duty to protect these people. My phone should not a marketing tool for any business or scammer. It is time for the FCC to do the right thing.
Michael	Mahopac	NY	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Tina	Warrensburg	NY	Please stop this annoying invasion of our time and privacy. I run for phone only to realize it's not even a person, trying to sell me something I don't want. This is an unwelcome annoyance.
Robert	Conway	SC	Give the consumer a break for a change. Do not permit robo calls to our I phones.

Frank	Wayland	MA	1 Without limits, robocalls specifically for debt collection, can be abused and too many can be considered harassment 2 Limit to a maximum of 1 call/week and 1 text/week 3 Calls/texts must be to the person who holds the debt. No calls to relatives or friends. That is harassment. 4 Calls/texts cannot be marked private or unavailable on caller ID. Calls should be from real telephone numbers that people can see on caller ID and call back to.
William	Burbank	CA	Please enact reasonable restrictions on the use of robocalls to cellular phone numbers and to land lines. Such calls are invasive, irritating and time consuming. Although I have registered my number with the "Do Not Call" list, I continue to receive unwanted robocalls. Stronger action is needed to eliminate these uninvited distractions. Thank you for your consideration.
Tony	Bristow	VA	It is annoying and bothersome to have your phone ring randomly to be solicited. If I am seeking a service I will initiate a call. When asking a company to stop calling, sometimes you cant because its a computer and sometimes when you begin to say stop calling they hang up on you! Enough!
Carmine	Brooklyn	NY	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family
Thomas	Richboro	PA	For the past several years I have been constantly plagued by robo calls. My carrier Verizon suggested the Do Not Call list. This is a total waste of time. It's the Telecoms Plecbo. I average 10 calls a day from all over the world. The DNC list doesn't work. I did subscribe to an on line service called "nomorobo" it blocks these calls after 1 ring but that's still 10 rings a day I'm getting. " Please help".
Edna	Saint Charles	MN	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available These calls are often intimidatory, especially to vulnerable and elderly persons; we need to regulate them, and wherever possible, stop them.
Amy	Simi Valley	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Phyllis	Clancy	MT	Robocalls on my cell phone are an outrageous invasion of privacy. Please set up guidelines and regulations that will prevent robocalls to cell phonesâ€ including those from bill collectors. ~ Thank you, Phyllis Lefohn
Andrew	Somerville	MA	STOP ALL ROBOCALLS TO ALL DEVICES! THEY ARE AN UNWARRANTED INTRUSION.

Melody	San Diego	CA	Please do everything possible to STOP robocalls to not only landlines but also mobile phones. It is an invasion of privacy! AT&T makes it very difficult to block these callers. There should be harsh penalties not only for the robocalls but for the service providers who permit these callers to continue harassing us. When I ask the callers to stop calling me, it only makes them call me repeatedly.
Tony	Redding	CA	Please outlaw the abusive use of robocall devices. The calls reduce productivity. They disrupt leisure, rest and simple personal communications. Please make sure the fines and/or sanctions for any violation of the ban are punitive enough to disrupt the abusers operations.
Susan	Palm Beach Gardens	FL	Elderly very vulnerable. Calls annoying and invasive Hard to block and screen
sid	dallas	TX	give us back our privacy and end annoying robocalls.
Ronald	Champlin	MN	It was bad enough calling my home ;phone. Now that they opened up access to cell phones I am getting between 5 to 10 calls a day. The last one called 4 times on 5/17 as I did not answer the first three. I informed the caller that I am on the do not call list and one more call I will be reporting them. Most robocalls have phony numbers and you can not call back and have no idea who they are. Most frequent calls are we can lower your credit card interest, I get over 5 a week. Next is you have applied for a loan, (I have not applied for a loan. I get 2 to 5 a week. Also there is this phony call this is Microsoft and your computer has a virus, (I have a Mac computer). PLEASE PUT A HALT TO THIS GARBAGE!! this a waste of air time, my time as I look to see who is calling and press the ignore button. When they don't get an answer they keep calling back.
Robert	San Diego	CA	Robocalls are an harassment by individuals and companies too greedy to deal business properly. Please allow us to tell such sites to stop, if you will not prevent them completely severely limit the the number per month and make the guidelines clear and available.
Wesley	Gahanna	OH	Please take action to stop robocalling! So annoying and disrespectful. Ask any person about robocalling and the response will be negative.
J.	Lafayette	CA	Nearly 90% of the calls I receive to my home are uninvited solicitations and robocalls. I want it to stop.
Kam	Whitestone	NY	All robocall of sales in natural should be totally banned. The least thing FCC can do is to mandate an "OPT-OUT" option
Thomas	Clearwater	FL	Please implement the strongest possible rules against robocalls to cell phones. Thank you!

Arlene	Norwood	MA	I am tired of receiving 5-10 robocalls a day. They come on my landline and on our two cell phones. We don't give out our cell phone numbers to anyone but family. Our cell phone minutes are being used up. All our phones are Verizon. My husband is disabled and I'm retired, we don't need this. Most of the calls are about electric bills, solar panels, credit cards and my computer. I just hang up. I also really hate all the political calls. Please do something about this.
Thomas	Lewisville	TX	Robo calls are an unwanted and unnecessary intrusion into one's privacy. We continue to get "IRS" calls, credit card rate reduction calls, advertisements for rug cleaning and for buying a security system, to name a few. The consumer should be allowed to "opt in" for these calls, and no incoming calls allowed without specific permission is given. Please order phone providers to block these calls.
Barbara	Madison	TN	These people have no right to call me all the time over and over, even when you block their calls they just use another number!!!! I am so very angry!!!!
keith	hewlett	NY	Please stop robocalls
Gary	Wayside	NJ	I am a doctor and my cell phone is my pager for hospitals and patients to reach me in an emergency. The Cell Phone robocall problem has completely gotten out of control, interfering with ability to separate out the important calls.
Marcia	River Edge	NJ	Debt collection robocallers must notify us of our right to stop receiving calls
Paul	River Vale	NJ	I find it difficult to attend to my work and maintain focus due to almost constant interruption by robocallers. "Brigitte", great news about my "Electricity Bill" and "gas supply," save on this and that - they're a waste of time, money, privacy, and maybe legality. Please stop them as soon as possible.
Chris	Pflugerville	TX	My cell phone is private, for my use and those people or entities to whom I choose to disclose my personal number. It is not for sale and certainly not for businesses to solicit or harass me for any reason!
Mark	Angier	NC	I am having continuous calls from unknown telephone numbers trying to sell me or my spouse something. I am just fed up with this problem. I refuse to answer my telephone now and could be missing important calls from reputable businesses. These Robocalls folks uses local numbers in my area under the pretense of a local business and must be stopped. I don't want some business harassing me or spouse to purchase whatever product there are trying to sell. It has got to end. I tried blocking certain numbers but they would change numbers and keep calling. When I return a call to these numbers, normally I receive a message the number is out of service.

Charla	Egg Harbor City	NJ	I got on the do not call list to stop these endless calls. Calls about reducing the interest rates on credit cards that I do not have, medicare benefits when I am not on medicare phony free whatever and my computer problems that Microsoft who does not monitor computers has discovered. Now I am getting these stinking calls on my cell phone. That just kills your battery for no reason. Most of these calls come from India, Pakistan, and god knows where else and are scams. I have an unlisted number and we pay extra for that, we should not be getting these calls.
Pat	Greensboro	NC	Stop all rob calls. An annoyance and unwanted.
Thomas	Richboro	PA	For the past several years I have been constantly plagued by robo calls. My carrier Verizon suggested the Do Not Call list. This is a total waste of time. It's the Telecoms Plecho. I average 10 calls a day from all over the world. The DNC list doesn't work. I did subscribe to an on line service called "nomorobo" it blocks these calls after 1 ring but that's still 10 rings a day I'm getting. " Please help".
Manou	Vista	CA	Stop Robocallers. Stop this madness! We are subject to all kinds of Unsolicited calls DAY and NIGHT. If you think Business has some rights, so do we as citizens! Robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available.
Ronald	Champlin	MN	I get more robocalls than all other calls. I am on the do not call list and that does not slow them down. May 16, I got four calls on my cell phone from the same number. I hit the ignore button on my phone on the first three calls. I tried the number and to my surprise it was a good number. I got the fourth call a little while later. I informed the caller I am on the do not call list. On May 18 they called again. This must stop. Most of the time you get a phony number they are calling from. I tell them not to call and the laugh at me and state that won't help. I am ready to give up all phones i am so upset with these stupid interruptions. PLEASE PUT A STOP TO THIS NONSENSE BEFOR I GET ONE OF THESE ROBOCALLERS TO PUT YOUR PHONE NUMBER ON IT.
Robert	Lander	WY	This is getting out of hand. I need my phone for work and it must be on. When I am in a meeting and I get robo calls it is very intrusive and disruptive. My phone is for private use and I ask that you stop cold all robo calls period. If I want to opt in to something then that is certainly fair to receive a call but if I do not take action on my own to open my phone to marking, solicitations, etc. then it should remain a private form of communication just as my letters are. Thank you. Robert Spengler

Brent	omaha	NE	It's long been illegal for debt collectors to robocall your cell phones without permission. But a provision snuck into the federal budget last fall would change that, allowing debt collectors to robocall anyone with federal student loans or back taxes. Even if you don't owe money, but a relative does, or if your phone number once belonged to someone who does, you could be robocalled.
Kathy	Chicopee	MA	Robo- calling to cell phones and landlines should be totally illegal. No one including collectors political organizations or charities should ever be allowed to make robo-calls to anyone. They are intrusive and obnoxious.
Susan	Denver	CO	When it comes to phone calls on my cell phone, if I don't recognize the number, I do not answer. If you are legit, you will leave me a message so I can decide whether or not to call you back. Robo calls are an unwanted, uninvited, distraction and a nuisance. We the People ought to have the right to opt out of receiving Robo calls. Period, end pf story.
Kate	Oakland	CA	As the FCC must know, a very large number of people who are in financial difficulties to begin with, pay for every call they receive, and also for every VM automatically recorded on their cell phone. To make people pay to be harassed is beyond ironic. This has to stop! Thank you for considering taking action.
Derry	Tucson	AZ	We receive these robocalls too early in the morning; i.e. 7:00 am and also too late at nite after 8:00 pm. My husband has colon cancer and needs rest, not telephone calls coming when he is resting.
Mildred	San Francisco	CA	Please stop robo-calls! They drive me crazy!
Larry	St. Louis	MO	I average two to three robocalls per day and most are from companies with whom I have never done business. These calls are annoying and have and do occur morning, afternoon and evening. For the past six months, I have been receiving MOHS surgeries and topical chemo treatments on my scalp for skin cancer and ergo I am often at the doctor's office. I don't need robocalls interrupting my driving to, my time at, and my driving from such appointments. I am registered with the State of MO and the National Do Not Call lists, which to date have provided little positive protection from calls of the aforesaid nature. Please act to stop these annoying calls. Thanks!
Diane	Gaston	OR	Robo calls have increased on both my cell and home phones in the last couple of months.
Diane	Clifton Park	NY	Please help! I am bombarded with robocallers and junk calls on my cell phone and my home phone!
John	Sisters	OR	Do not permit debt collectors to call my cell. I have been called repeatedly on my landlines even though I have never missed a payment.
Joe	Philadelphia	PA	It's my phone, and I deserve the opportunity to control who makes use of it.

Aaron	Cambridge	MA	I don't even answer my house phone anymore even though it rings 3-4 times a day. It is always, ALWAYS an unsolicited call or robocall. I'm so sick of it. Please make it stop. I think: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available Help!
Robert	Baltimore	MD	The Do Not Call list is a joke. I get from 3 to 5 robocalls everyday, EVERYDAY. The phone companies have the know how to stop them, yet nothing is being done. Both my cell and land lines are called daily, why is this allowed to continue? Do your duty and stop these annoying calls.
Warren	Palm Bch Gdns	FL	I have no debts that would activate a robocall, but, I receive robocalls on my wired phone 10-15 times a day. My cellphone is seldom on (emergency use only), but I still receive a robocall once a month or so.
John	Daytona Beach	FL	Stop the Robo Calls now!!!
Marika	Redwood City	CA	Please stop robocalls to my landline and my cell phone. Thank you
Andrew	Austin	TX	Do you enjoy having dinner prayers interrupted at home by unwanted callers. WE don't.
Richard	Quinault	WA	Stop all robocalls to any device! Stop them all!
Tom	Reno	NV	Stop the outrageous robocalls to my cell phone!
Loretta	Thousand Oaks	CA	We receive 7-12 calls a day depending on the day of the week. I never run to the phone and tell my friends to leave a message and I will call them back Most are from people I am certain I have never done business with and would never do business with or donate to based on a cold call so it is a worthless way to do business and an invasion of my home.
David	Tulsa	OK	Please limit or stop all robo calls, especially to cell phones. If anyone really wants to contact me, they can do so in person. Also, if I so not want return calls, I should have an easy and sure way to stop any calls.
Eric	Olathe	KS	I get too many unasked for phone calls to my cell phone to sell me various things and to help me as an elderly person. (I'm in my 50's.) Please help get rid of the calls from automated phone systems.
Kenneth	Ipswich	MA	I can't tell you how many times the phone rings at mealtime and telling us we won a trip, we need a security system, a great mortgage rate is available (even though we don't have one). Stop this.
Arlene	N. Brunswick	NJ	I am a senior citizen. Just the other day I fell as I was running to answer the phone. It was a robocall. If I knew that it was not an important call, I would never have run to answer it. Needless to say, I was extremely irritated when I saw that it was another robocall. I would like to never receive any more robocalls!

Don	Macon	GA	I am already receiving unwanted cell phone calls. Please stop anyone else from calling me without my permission. Not only is this invasion of my privacy annoying, it could cost money I don't have.
Peter	Minneapolis	MN	If I am on the Do Not Call list I mean I don't want to be called - end these intrusive jerks antics (spoofing numbers and other nonsense) now!
John	Santa Rosa	CA	Stop Robocalls and other unwanted calls that destroy our privacy and disrupt our daily life. No calls of any kind from debt collectors or others that we did not agree to except if we owe debt. Not friends, neighbors or relatives but only those who directly owe federal debt. Our telephone network is being destroyed by these useless and unwanted calls. Stop them now..
Michel	San Diego	CA	I am receiving 2 or 3 calls a week. It happens at the most inconvenient of times. Please make them stop.
Maren	Tucson	AZ	I am tired of these calls. They are a waste of my time. If I want something I search for it. I do not want to be hounded by robocalls.
Scott	Taylors	SC	ALL Robocalls should be illegal. It is an ugly business with no benefit to anyone receiving such calls. We all get them. I do not want robocalls from Donald Trump or Bernie Sanders or Trey Gowdy or any politician. I do not want calls from supposed Credit Card improvement companies. I cannot think of a single robo call that I DO want, so why are these businesses even allowed to call me in the first place? It is called SPAM on the internet, but you can hit delete and you can control when those messages are viewed. With robocalls, they are free to interrupt you at ANY time of THEIR convenience. Nuts to that. Ban them ALL. Make that business illegal, please.
Billy	Arlington	TX	Please do not allow Robo Calls on Cell Phones. These calls on my cellphone would be very disturbing for me. I finally got a home phone that will block robo calls. I now block all of the robo calls I get at home. My cell phone will not allow me to block robo calls. As I am retired calls from unwanted vendors on my cell phone would be hell for me. Thank you for your consideration.
Michael	Salem	OR	Most of these calls originate overseas. It needs to end. It serves no purpose, exsept to prey on the elderly.
James	San Diego	CA	It should be illegal!!! Especially, if they do not have an option to opt out of future calls!!!
Linda	Arlington	TX	Stop the robocalls
Phil	Wellesley	MA	The constant robo sales calls are interrupting daily life at home. In fact they tie up our phone which we pay for personal use only. The number of auto calls is increasing especially for seniors who are the target of quick hustle calls and threats to your credit cards/ tax status. As tax payers and contributors to our committee and nation we deserve and demand protection. Please take action! Phil Jutras

Stephen	Evanston	IL	Stop robocalls to cell phones ASAP !
Lisa	Oyster Bay	NY	Robocalls are invasive, disruptive and can even be dangerous by the interruptions and distractions they cause - particularly on cell phones where most users are on the move. To date there is no way to stop them. A robocall can be multiple times per day and multiple days per week. Please don't allow robocalls to cell phones and require technology that we can opt out of robocalls on land lines as well.
Michael	Fresno	CA	No Robocalls to cell phones
BRUCE	ALFRED	ME	Greetings, FCC. I am asking you to vote against allowing debt collectors and similar businesses to push text messages and robocalls into our cellphones, at least without very strict regulation. I really like the idea I have read about in several places. "Allowed" calls or texts should be kept to no more than 3 per month, and only to the person who owes the debt. Trying to get at a debt holder by calling or texting a friend or family member is very invasive and unfair to that recipient since they don't own the debt. Having easily accessible and clear rules/guidelines would be a plus as well, and stopping the robocalls or texts upon request should be one of the guidelines. Robocalling is so unfair. An example: I have moved in with my mother because she is 90 and has dementia and needs someone with her to help her stay in her own home. I have blocked just under 130 phone numbers in 7 months from telemarketers who primarily work for not-for-profits or political campaigns. Most of this is robocalling and without the capacity to block, the phone would be ringing from 7 - 20 times a day. They were driving her crazy before I moved in and began this blocking effort. Thank you for considering my input on this issue.
Sara	Renton	WA	NO MORE ROBOCALLS FOR ANY REASON EVER AGAIN!!!!
Gerrton	Naples	FL	No robocalls to my cell phone without my permission. As my cell phone is part of me, my social me, I don't need a constant barrage of unnecessary calls, interfering with my basic life. As currently debt collectors are the premier offenders wanting to robocall cell phones, if anything, the following should apply: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available

Karl	Allen	TX	A very irritating activity comes from robocallers establishing "live cell numbers" for sale to other robocallers. Typically, a number without Caller ID will call, ring 3 times, and IF YOU ANSWER, the line drops - and your number is declared "live". Cell phone providers have been reluctant to provide us with anonymous call rejection, and automatic blocking of all calls that are not numbers in your contact list already. We need the ability to block all calls (regardless of time of day).
Elizabeth	Spokane	WA	Please eliminate Robo calls and solicitors too!! Invasion of privacy. Should be illegal. Do Not Call does work for lots of them! Even political campaigns use these!! No No No!
Suzanne	Greenville	TX	Any and all robocalls cause stress to older Americans, especially those to our cell phones; which are often reserved for family members and emergencies. Please do not allow ANY robocalls to cell phone numbers.
Charles	Odessa	TX	This needs to stop.
Fred	W. Melbourne	FL	These telemarketers have auto dial machines that dial out multiple calls at the same time. If you don't answer first you are not able to inform the caller that you are on the "do not call list" and want to be removed from your call list. The calls are numerous usually around dinner time. These unsolicited calls need to be stopped now! The do not call list is a joke, it is ignored by these incessant telemarketers and other unscrupulous people.
Michel	San Diego	CA	I am receiving 2 or 3 calls a week. It happens at the most inconvenient of times. Please make them stop.
robert	palm beach gard	FL	no robocalls
Richard	Whitmore Lake	MI	Robocalls on our home line have resulted in us never answering it- instead letting the calls go to the answering machine. Telemarketers don't usually leave a message. Friends do. But this compromises our ability to quickly and freely communicate with friends. If robocalls are allowed on cellphones not only will that further limit our freedom of expression but we'll be paying for the call we don't want with our minutes. Unacceptable!
Gregory	Lincoln	NE	Robocallers need to be stopped from calling cellphones. I have had this number registered with the National Do Not Call Registry since 2009 and I STILL get robocalls about credit card debt. They are using spoof numbers to spoof caller id so they can not be reported. Please make it easier to report the callers and block these numbers. Make it easier to file complaints. Thank You.
Charles	St. Louis	MO	Robo Calls are a Nuisance, especially to Seniors... Put an End to them..
Barry	Snow Camp	NC	Stop these annoying Robocalls! Please protect the American consumer from this scam-driven pestilence!
Leonard	Silver Spring	MD	I get lots and they are a nuisance. Get rid of them, please
chad	phila	PA	Please severely restrict robocalls to cell phones, especially since drivers are distracted when a cell phone rings.

ROBERT	NORTH ATTLEBORO	MA	I oppose robocalls to my cell phone without my permission, in general. In particular-Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available Please enforce the strictest possible rules
Martin	Chapel Hill	NC	What good is having a do not call list if it is ignored because there is no teeth in it and they know they can drive people nuts and not have to worry about penalties, etc.. I know it's a different world today, but common courtesy, common sense and privacy should not be discarded for profit.
T	New Richmond	OH	Stop the Robocalls. If I wanted to talk to robocall people I would call them. I'm not paying to be inconvenience by Robocalls. However, if the cell providers, Robocall people, and or the FCC step up and pay for my equipment and service then I'll consider Robocalls.
Jeff	Virginia Beach	VA	Besides the obvious annoyance, do we really need another distraction while driving? Just this week, a 5 month old baby as killed in a car accident caused by a distracted driver in Virginia Beach.
Dan	Gresham	OR	Don't tie up our phone frequencies with unwanted cell phone messages
Barbara	Norfolk	VA	While Robocalls are annoying to all, they are a financial burden on those with limited income and restricted cell plans, perpetuating the debt problem. Stop robocalls.
Dennis	Half Moon Bay	CA	I use my cell phone for emergencies primarily. I do not wish to receive any ads.
Michael	Salida	CA	Stop all robocalls.
Keith	Beatrice	NE	Please do everything you can to end robo calls to cell phones as well as home and business phones. They are so annoying and take up valuable time that should be used being productive in our lives and work.
B	Brooklyn	NY	Hate robocalls, wherever they are, whatever device they attack! On our house phone over 50% of calls are robocalls: junk calls, stupid, annoying, pesky interruptions of life; attempts to sell stuff WE don't want,or silent nothing calls checking to see if we're home. STUPID. For God's sake, make them STOP!!!
Jeanne	Woodland Hills	CA	It is incredibly annoying to constantly get robocalls on my cell phones, despite having listed them on the Do Not Call List. PLEASE do something about that!!
Bill	Milford	CT	I have a Tracfone and each time these thieves call me and I pick up it cost me minutes and the money I've prepaid for those minutes. Stop the SOB's now!
Corey	Sacramento	CA	Please help stop robocalls. Just Make them stop. Phones are becoming unusable.
C	RICHARDSON	TX	MY COMMENT ABOVE SAYS IT ALL.

Armando A.	Paramount	CA	I need to have the authorization to allow any business to contact me by mail, email, text, and phone calls; I do not appreciate random companies constantly calling me and I'm certainly not pleased that my government is allowing this type of nonsense and possibly expanding laws in allowing more and more companies to call my mobile. It's bad enough for companies to harass me on my landline but now on my cell phone...I don't think so!
Julie	Pawcatuck	CT	I am tired of thinking that my ringing cell phone is an important call, and finding out it is a not even a person doing the calling. Many of do not have unlimited calls and texts. The calls are costing us aggravation and money. I bought a cell phone for my convenience, not for the intrusion of unauthorized callers. I give my phone number out to those I wish to call me. Somehow, my number gets out and I am being constantly harassed by Carmen of Cardholder Services or Tim of Customer service. When I'm connected to a real person and start to say take me off your calling list, The person on the other end hangs up before I can finish my sentence. So, not only is my time and attention taken away from what I am doing, the person who wanted to speak to me hangs up!!!! There needs to be a way to block or stop these calls. Thank you very much
Maryann	Lake Park	FL	We've put our home and cell numbers on the Do Not Call list and it doesn't seem to make a difference. The amount of robocalls we still receive is unacceptable and an invasion of our privacy. The "press 2" to take our numbers off the list mean nothing and when you ask the caller to please remove our names from their list, they rudely hang up. I can't tell you how many calls we had gotten from a collection agency because the previous person that had our phone number had debt issues. It didn't matter that we told them this, they still called. We finally disconnected our number! Enough is enough. Make it STOP!
mar	Redondo bch.	CA	Can't answer phone any more. Must hear the clicks to know it was robocall - then have to delete. Can't answer calls from friends till i find out if its a sales call.
Flynt	Plano	TX	If our goverment wants to do something relatively simple to improve the lives of it's citizens, then it should eliminate Robo Calls. They are such a nuisance and invade our lives in such a pervasive way that it's ridiculous. Clearly a case of the need of the many outweigh the greed of a few! Please fix this!
Robert	Houston	TX	I want the FCC to push forward with strict guidelines regulating how and when I can be reach by ANYONE attempting to make rocalls. I do not want them to be able to contact me. I do not have debit, have never had it, and do not want those who might have it to be bothered by invasive calls. Getting them on my home phone drives me mad, and on my cell phone they would cost me and others.

Margaret	Durham	NC	...or so the call starts. If there's no problem, why are you calling? Daily?
Carl	kalamazoo	MI	Robocalls get worse every day. Hopefully the fcc can do something about it. Will it happen while the party of no is calling the shots though? Probably not- too much fear of obstructionists.
Edwin	Sunnyvale	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Louis	South Windsor	CT	I put my name on a list for do not call to no avail. I am getting at least 3-5 calls every night and now, I am getting them on my cell phone. ENOUGH!!!!!! Put an end to this.
Justin	SLC	UT	I think that Debt collection robocallers must notify us of our right to stop receiving calls. And the number of allowed calls or texts should be limited to no more than three per month and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available to anyone. Thank You,
Louis	Montebello	CA	I strongly encourage the FCC to adopt strong robocall rules as soon as possible as it is your responsibility to protect all consumers from these type of embarrassing and unwanted calls.
GREG	NEW HOPE	MN	Rules for ROBO calls must include the following: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Dr. Wayne	Shelbyville	KY	Robocalls make up more than 90% of the phone calls we get! This has got to be stopped! Not only is this a vast invasion of our privacy, but it also is costing us now that we switched our land line to a cell phone with the same number.
DEAN	Dresher	PA	I did not ask to be called and they are a waste of my time and my privacy. Please end these calls and make the illegal !
Richard	Olathe	KS	It's bad enough that I get robocalls on my home phone, but I really don't want them on my cell phone. I think I should at least have the right to opt out of them and put my cell phone number on a list to never receive any of them. However, just stopping all Robocalls to all cell phones would be the ideal solution.
Jeannie	Fremont	CA	Don't call me, I'll call you! Please block robocalls and anonymous solicitation calls from cell providers!
Stefanie	Raleigh	NC	Please don't violate my privacy by allowing robocalls to cell phones. It's bad enough to get them on landlines.
Pamela	Amherst	MA	Please act to give us the means with which to stop annoying and dangerous robo-calls. We need to stop this deluge of unwanted calls.

Shelleigh	Vancouver	WA	Please stop this madness of robocalls to our mobile phones along with stopping the robocalls on our landline phones. These calls are not only annoying, but in many instances they are costly on our part. We should have the right to have an ability to block these calls WITHOUT added costs to us.
Joanne	Tucson	AZ	I just had my second back surgery and I am at home all day right now. I am in pain and the last thing I need is to be bothered by these calls. I get calls for a vehicle I have not owned for a while now to get an extended warranty. WHY?? I also get constant political calls that I am so sick of. Why do they think they can bother us just because they are running for office. I hang up immediately so why do they keep bothering me. Now if they can do it on my cell too...that is just so wrong. I pay all my bills so I don't get calls..well I just pay them..but I get all these other calls. I'm so sick of it.
Marilyn	Pawnee Rock	KS	I'm asking you commissioners on the FCC to stop all robocalls to cell phones, land-line phones and robocall e-mails. This practice is a nuisance and doesn't result in these companies getting any more business. Instead it angers us and takes away our time because we have to delete these robocalls whether written or spoken. We deserve our privacy and ask you to guarantee it by passing very strict guidelines re debt collectors and companies who prey through these means.
Elaine	Baton Rouge	LA	These calls are terrible. Stop them, please.
Edward	Pittsburgh	PA	Robocalls are the bane of my existence. I have no interest in the things they are pushing. I end up running to the phone, since it might be important, listening for 5 seconds, and then hanging up. A complete waste of my time. I'm on every "do not call"list I can find, but still I get "Hello, Seniors..." or an offer to do something about the debt I do not have. I pay for my phone for my needs, not to be harassed.
Dolores	Hendersonville	NC	I only use my cell phone for emergencies, therefore when I receive a call, I am startled. I am no longer young, and I consider these robo-calls an invasion of my privacy. I request that they be stopped in the most definite way!
Sue	heathsville	VA	Please help me block unwanted robo calls. Actually, all of them are unwanted. If I want to hire a business, you can be sure it won't be through a robo call
ivan	Berkeley	CA	Please stop these damned Robo calls. You don't want them, I don't want them, and anyone who has a life doesn't want them. Forget their lobbyists. Do the right thing.
Kenneth	Tarpon Springs	FL	I am registering my complaint against all cellular robocalls with you and hope you will take the necessary steps to stop them. They are an unnecessary and unwanted intrusion into my privacy.

Richard	Whitmore Lake	MI	Robocalls on our home line have resutled in us never answereing it- instead letting the calls go to the answering machine. Telemarketers don't usually leave a message. Friends do. But this compromises our ability to quickly and freely communicate with friends. If robocalls are allowed on cellphones not only will that further limit our freedom of expression but we'll be paying for the call we don't want with our minutes. Unacceptable!
John	Skillman	NJ	Enough is enough!!! Please end robocalls. Not only are they annoying, they pose a risk to seniors like me. How many times must a senior be subjected to sham telemarketing calls? How many times must a senior have to run up and down steps or otherwise race to a phone to get a robocall? The FTC's do not call registry is useless. Now we have to endure robocalls to our mobile phones. Thank you.
Mark	Hollywood	FL	stop robocalls!
Ken	Lebanon	NJ	Please put an end to robocalls!
Jeff	Canonsburg	PA	Robocalls should not be used for unsolicited calls to cell phones. Since many have plans that charge per call, only real people should be allowed to place calls to cell phones. This will by itself limit the number of calls to cell phones.
Gloria	Greenwood	CA	No consumers want robocalls. I'm inundated with robocalls multiple times a day. I no longer answer my landline and most of my cell phone calls are spammers. I may be on the Do Not Call list, but they still call my cell phone and my land line. Robocalls are just like spam emails, but even more intrusive. They work just as spam does yet we have no way to end the calls, and no recourse. They send out thousands and thousands of robocalls in the hope that one person might actually connect. Block one number and they use another to call. Ban them completely. They should be treated as we treat spam and mailing lists. If someone wants to opt in that's fine. But I don't.
Justin	SLC	UT	I think that Debt collection robocallers must notify us of our right to stop receiving calls. And the number of allowed calls or texts should be limited to no more than three per month and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available to anyone. Thank You,
Tom	Roland	OK	Tell these people to leave me alone. If I want their services I will call them.
Fred	Sheboygan	WI	Like just about all Americans, I am sick and tired of the barrage of robocalls I am subjected to. There are at least two such calls every day, and sometimes many more. It's time to crack down of all robocalls, both to landlines and cell phones. Thank you.
Jerry	blauvelt	NY	Robocalls to cellphones should be catagorically forbidden, with serious penalties for violation and automatic blocking. Thanks!

Celia	Tuscaloosa	AL	I oppose robocalls to any cell phone without that person's permission. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family
Russ	San Clemente	CA	Please, Please, Please do something to end the numerous, time consuming and costly robocalls and texts received every day and all hours of the day. If someone wants to receive robocalls they should have to opt in to do so. Otherwise the default for all phone numbers will be opt out. Don't succumb to the the debt collectors and robo calling marketers. Resist political pressure from politicians and special interest groups representing robocallers. Make them pay pay pay for violations. Please stand up for the privacy of individuals.
Ian	San Jose	CA	Robocalls are a public nuisance and should be banned without exception.
Christine	Cape Coral	FL	I am tired of blocking unwanted calls to my cell phone. The consumer shouldn't have to pay for unwanted incoming Robocalls or lose valuable cell phone minutes addressing them! Debt collectors should not be allowed to harass people not personally responsible for a debt . There should also be a limit on the number of calls or texts to debt holders. Everyone should have access to FCC guidelines regarding the above. Thank you for your consideration of the above issues.
Richard	Olathe	KS	It's bad enough that I get robocalls on my home phone, but I really don't want them on my cell phone. I think I should at least have the right to opt out of them and put my cell phone number on a list to never receive any of them. However, just stopping all Robocalls to all cell phones would be the ideal solution.
Deanna	Apple Valley	MN	I would not like to receive any Robo calls that I have not provided permission for on my cell. There needs to be a way to report violations and that process needs to be publicized and easy to follow.additionally there needs to be a straight forward process to stop calls, just like the opt out functionality available on the WEB.
Angela	Austin	TX	I have 27 "Annoying Robocaller" entries in my cell phone directory. I would have more, but I gave up adding them. I have missed calls from my out of town doctors because I thought it was a Robocaller. I don't understand why I continue to be harassed and the why laws can't be enforced.
laurie	new orleans	LA	from before I wake up to well into the evening, my voicemail stuffed with a plethora of great opportunities! Hated my landline polluted with this, furious my cellphone is as well. It is beyond enough already!
Wayne	Duxbury	MA	Please put an end to the practices by businesses of Robocalling!
Mark	Uvalde	TX	NO robocalls to cell phone!
David	Dearborn	MI	I believe in the right to peace and quiet uninterrupted by sales a pitch.

Elizabeth	San Marcos	CA	Please stop these calls they are too invasive. The purchase of public office is offensive and I don't want to be a part of that by being a victim of the system.
Janice	Stonewall	LA	My phone rings all during my day and I'm unable to run for the phone to get nutty calls. Please make them stop.
Mike	Theodore	AL	These robo calls disrupt my life at all hours of the day and evening. I am on the FCC do not call list for all of my lines, but this seems to have absolutely no effect whatsoever. Can my elected officials not draft laws and policies to restrict use of my personal devices for the profit of scammers and fraud peddlers? Mike Williams
Thomas	Durham	NC	This is a matter of the most basic decency and courtesy. Everyone hates these calls. Please prevent the unprincipled and greedy people from trashing our phones with these calls.
Robert	Oregon City	OR	I don't want robocalls on my cell phone or landline. I already get too many on my landline now, despite having being on your do not call list. It does not work.
john	decatur	AL	this is getting out of hand please do something
Gregory	Miami Lakes	FL	please stop the robot calls.
Kevin	Lacey	WA	hey're unsolicited and if accidentally answered they encourage more. Also, they're dishonest. Many don't show a call number, and if they do, no one picks up on the other end. Let's get rid of these unwanted, unasked for pests. Thank you.
Morris	Rochester	NY	These calls border on abuse. Not one has ever been for something I needed or wanted. Virtually all are a scam! Stop it all!!!
Tom	Roland	OK	Tell these people to leave me alone. If I want their services I will call them.
Dolores	Nanuet	NY	It is very alarming to receive these calls especially if you are a senior. They are also very disturbing. They are also very constant sometimes from the same number all hours of the day and night. Please put a end to this crises.
tom	mason	OH	robo calls are an intrusion of our privacies. if you dont think, then give me your personal phone number.
Dennis	Napa	CA	My landline phone is always ringing from robocalls. My phone can block 250 numbers, It fills up quickly and I have to clear it and start over. I get unwanted calls and texts on my cellphone. When is it going to stop?
Lee	New Milford	NJ	Please do not allow robocalls on cell phones. When my cell phone rings, I run to answer it, usually to discover that it is a robocall.
Arthr	Estes Park	CO	If breaking into an iPhone when the owner is dead and clearly a mass murder then certainly Robo calling my phones when I am alive should be illegal.

Robert	Palatine	IL	To whom it may concern, Due to severe disability, I am generally bedbound but dependent upon the phone next to my bed as it is a lifeline. It requires a substantial effort on my part to answer the phone whenever it rings. Receiving unsolicited telephone calls is more than just an inconvenience or annoyance, it requires the energies I expense just to answer the call, not to mention the coordinated effort required. It is quite aggravating to me to discover that I am being required to make this effort for an unsolicited robotic device. I strongly urge you to curb this practice anyway you know how within your authority.
Richard	Denver	CO	I'm very annoyed by the robot calls that come to my and my wife's cell phones. We block calls from the robo-number so that I won't get repeats. They just use another of a block of numbers. I keep blocking but they keep annoyingly trying. My number is on the do not call list. Like that really helps, NOT! Please do something that stops these annoying calls that I have no use for.
Henry	Tazewell	VA	I believe that robocalls should not be allowed without the permission of the person who has the phone (either landline or cell phone). First, it is a nuisance - especially most suppress their identity on the caller ID, I must stop what I am doing to answer the call, which is annoying, especially when I am expecting an important phone call. And with cell phones, it is worse because the recipient has minutes added to their total phone bill. Ideally it this intrusion of privacy should be outlawed, except where express permission is given by the recipient to the specific caller.
Eric	Rocklin	CA	I want to be free from robocalls on both my cell phone and home phone. It is particularly galling to me to receive them on my cell phone. I have to spent too much of my hard-earned money to buy both the cell phone and the monthly service. The robocallers did not help me pay for my service. I should be able to be free from their very annoying calls.
Carol	Carrollton	TX	I have a phone number that apparently belonged to a deadbeat. I get robocalls all the time for her, they leave threatening messages. I'm very tired of it all. Please stop this craziness. Thank you.
Robert	Oracle	AZ	Please stop allowing robo-calls to cell phones
Kevin	Long Beach	CA	My wife and I receive up to 10 of these calls a day unsolicited. It'sounds gotten so bad that we usually let the answer machine pick up so we won'the have to listen to recordings, but we still hear them drone on, or hang up and call right back. They have no fear of being fined! Their call interfere with other calls we want to receive.

Gloria	Greenwood	CA	No consumers want robocalls. I'm inundated with robocalls multiple times a day. I no longer answer my landline and most of my cell phone calls are spammers. I may be on the Do Not Call list, but they still call my cell phone and my land line. Robocalls are just like spam emails, but even more intrusive. They work just as spam does yet we have no way to end the calls, and no recourse. They send out thousands and thousands of robocalls in the hope that one person might actually connect. Block one number and they use another to call. Ban them completely. They should be treated as we treat spam and mailing lists. If someone wants to opt in that's fine. But I don't.
Ray	Windsor	SC	Please give us the tools to permanently stop intrusive robo-calls. Robo-calls are an intrusion into our privacy and cost cell phone users money - for nothing.
Cynthia	Rancho Palos Ve	CA	Privacy! Spend money on emergency net works!
Roger	Corvallis	OR	Stop cell phone robo calls. It is an outrage to be barraged with these senseless calls
Robert	Oroville	CA	Since my last comment, the situation re: robocalls has actually worsened. On Wed. May 11 I received 22, (yes, twenty-two) robocalls! This of course doesn't happen every day but many days I receive multiple robo calls. My phone has the capacity to block 30 calls. This block list is always full and every week or so I have to delete the oldest blocks to enter new numbers to block. Can't something be done? Please help. Sincerely, RV Wade
Margaret	Sturbridge	MA	Unnecessary, and intrusive calls by robots need to stop. I pay for the phone, no one should use it but me.
Jay	El Sobrante	CA	Just ban ALL robocalls and all uninvited commercial, political, and financial calls
Rory	Texarkana	TX	Please stop robocalls completely, I get at times up to 10 or so robocalls per day. I hear at least 3 times every few days that this is my last chance to update my free google listing. it tells me to hit 9 to delete my number but i have been hitting 9 for 2 years now and still getting calls. i put important calls on hold to answer and it end up being robocalls. they have started showing local numbers on the caller ID and then surprise, it's a robocall. This should be stopped immediately. I understand the politicians probably line their greedy little pockets with money from these companies to allow them to harass people like this but it should be stopped. I know myself i have vowed to never buy anything from anyone that robocalls me.

Richard	Basking Ridge	NJ	It simply does not make sense to allow anyone to harass private citizens who do not owe debt. We have no control over what our friends and family might or might not do with respect to debt, and I am not interested in suffering because of another's actions, especially someone I may not have spoken to in years. This protection of rights is so fundamental. Please force anyone collecting money to do their own work. I have no intention of assisting them because I had nothing to do with the problem.
Nick	san antonio	TX	My cell phone is strictly for business only as it is provided by my employer. I receive multiple robocalls everyday from various types of organizations that totally waste my time.
Marvin	Newton	NJ	Robocalls are a very annoying part of my life. I can understand calls from humans, but allowing an automated device to pester me is unacceptable.
Tim	Keeseville	NY	Your public asks that you do your job and protect them from harassment. Stop all robocalls.
James	Sacramento	CA	Please prohibit companies from robocalling! This is an invasive and unwanted practice!!
Terry	Lakewood	CO	Stop allowing robo calls
William	Lynchburg	VA	BAN ROBOCALLS; THEY ARE A NUISANCE AND AN INVASION OF ONE'S PRICACY
Scott	Rockwall	TX	I get an average of 4 robocalls a day. Please do something to address this!
Fred	Phx	AZ	Drop ALL RoboCalls
Joel	Marshalltown	IA	Please force AT&T to end the constant and annoying robocalls like the one today asking if I wanted a security alert since I'm old.
Tony	Hopkinton	NH	We have a phone for our use - it is not in the public domain for any scam operation with a computer. Enough is enough. We have no phone privacy because of robocalls. Our government needs to protect us from this deprivation of our privacy.
Kevin	Lacey	WA	They're unsolicited and if accidentally answered they encourage more. Also, they're dishonest. Many don't show a call number, and if they do, no one picks up on the other end. Let's get rid of these unwanted, unasked for pests. Thank you.
Stefanie	Raleigh	NC	Please don't violate my privacy by allowing robocalls to cell phones. It's bad enough to get them on landlines.
Robert	Medford	OR	If the call isn't important enough to put a human behind it, then it isn't important enough for me to receive it. No robocalls for any reason whatsoever!
Craig	Las Vegas	NV	I don't need Robo calls calling me and asking me if I need service such as , carpet cleaning , apartment rental , computer service , home cleaning service and on and on . When I need something I'll find the service I'll contact them . So please Mr. politicians and FCC let's get it done , stop the Robo call with one button blocking .
Hans-Volker	Huntsville	AL	It is time to stop unwanted and life-interrupting annoying calls of all kinds, on top of all robocalls.

Chad	Oro Valley	AZ	No one should be calling me unless I gave them my telephone number directly. I worry every time I give out my number that it will end up on a call list. I had gotten a new telephone number after moving to a new home. I activated a gift card and immediately started getting solicitation calls after only about 8 hours. They had my name so it wasn't coincidence. This must stop. My time and privacy are valuable to me.
Gary	monroe	WA	When robocalls hit our cellphones, it costs us money. We're paying to listen to the company. This isn't fair. There has to be an opt-in with some kind of proof that isn't simply, you shopped in our store we we'll call you forever".
Tony	Hopkinton	NH	We have a phone for our use - it is not in the public domain for any scam operation with a computer. Enough is enough. We have no phone privacy because of robocalls. Our government needs to protect us from this deprivation of our privacy.
Robert	Oregon City	OR	I don't want robocalls on my cell phone or landline. I already get too many landline calls now, despite having being on your do not call list. It does not work.
Stanley	Phoenix	AZ	Why three? One call or text per month should be sufficient.
Robert	Medford	OR	If the call isn't important enough to put a human behind it, then it isn't important enough for me to receive it. No robocalls for any reason whatsoever!
Cheryl	Bedford	TX	Robocalls should not only be illegal; since telecommunications are governed by the FCC it should be the FCC's obligation to prevent them.
William	Lynchburg	VA	BAN ROBOCALLS; THEY ARE A NUISANCE AND AN INVASION OF ONE'S PRICACY
E. Richard	Saunderstown	RI	Daily Robocalls to my home landline are already making our lives miserable. The culprits are now commonly using a variety of CONUS locations to deceive our caller ID systems and then bombarding us with offers for health care, cruises we have won or bogus computer virus solutions. Please get these callers with foreign accents under control and stop them now from extending their harassing calls to our cell phones.
Kip	Perry	NY	I am tired of getting one to two computer calls a day. I wish you could put an end to this.
Gayle	Cabin John	MD	PLEASE do not permit robocalls to cellphones. We get plenty to our land line, and in fact are considering cancelling landline service because of the constant annoyance. (Thank goodness for Nomorobo, at least.) And now it's starting with our cellphones. This is even more aggravating, especially when we're traveling and received calls cost us money. I feel like my personal space is constantly invaded. These are sales calls, by the way, which should be totally prohibited. I can't even imagine how bad it would be if we also had calls from debt collectors (none to date, thank goodness).

Sue	Teaneck	NJ	<p>My home and mobile phone numbers are listed on the U.S. Do Not Call registry, but that seems very ineffectual. I also subscribe to NoMoRobo, which successfully limits the amount of robo-calls I receive on my land-line phone. The phone rings just once when it's a robo-call and I know not to answer. Unfortunately these calls seem to have transferred to my mobile phone. I can receive four or five a day offering to lower interest rates on my credit cards, advising me that I won a free cruise or vacation, threatening to notify my healthcare provider if I don't accept delivery of the medical alert system I did not order, or threatening legal action on behalf of the US Treasury for tax delinquency. I do not answer the calls from numbers I do not recognize. Nevertheless, the calls come from the same phone number or same location at different times of the day. I am convinced, based on the area code and ovation shown on my caller ID, that robo-callers and scammers may be co-opting telephone numbers without the knowledge of the "owner" of the number. Legitimate telemarketers may have the right to make these calls, but consumers should have the right to have these calls blocked by their phone companies. The Do Not Call Registry needs to be enforced and phone carriers should be required to provide the technology to stop these unwanted and incredibly annoying calls.</p>
James	Chapel Hill	NC	<p>We need to have strict limits on robocalls. They should be limited to no more than one per week, and the debt collection robocallers must notify us of our right to stop receiving these calls. Also, these new rules should be clear and readily available for all citizens to read and to use. Thank you.</p>
Jeff	Somers	NY	<p>We need to put a stop to this, Robocalls should not automatically be allowed to operate. In this day and age with all the technology going on, it can be done, STOP the ROBOCALLS Now!</p>
Margaret	Independence	MO	<p>The phone should be for the convenience of the owner, not some telemarker, etc.</p>
Anne	Lancaster	VA	<p>I continue to get them on my land line even though I register when needed to the "Do Not Call List" but now they are starting on my cell. I pay enough for my cell that I shouldn't have to put up with that. It is harassment pure and simple.</p>
Philip	Larkspur	CA	<p>Please eliminate robocalls to my cell phone as soon as possible!</p>

Gretchen	Pleasanton	CA	I am so tired of receiving robocalls on my cell phone especially when I am driving! I have registered all of my phone numbers including my cell on the National Do Not Call Registry but still receive these annoying and potentially dangerous calls through my bluetooth system. Still receiving these horrible calls!!! Please, FCC, make them more accountable! The fake IRS calls are very illegal and even when you report them, they move on! I try to block the individual phone numbers but they also just change them as needed! My home life is turning into a war zone with these unnecessary interruptions.
Charles	Northglenn	CO	I am sick and tired of phone call at all hours from strange caller ID's. I have even gotten calls from my own name. I am tired of call wanting to solve my credit card problems, I have none, calls wanting to sell me everything under the sun. calls wanting to buy my house, etc., etc., etc. It goes on without stopping. Someone with an accent so thick I can barely understand wanting "To fix my computer" or an equally bad accent claiming to be calling from Windows because I "have a computer problem" This is a MAJOR invasion of my privacy and it should be stopped at once. If I were to start molesting others with outrageous phone calls I would be arrested. So should these companies who persist in using "robo-calls" to, they hope, trap individuals into all types of schemes. This is wrong, PLEASE stop these phone calls
Hattie	Opelika	AL	Please do something about these robo calls. My cell phone is for my personal use as well as my landline phone! I'm so tired of the daily, nightly and weekend calls. Do something to protect us the consumers.
Emily	Niskayuna	NY	Please stop companies/people from being able to send landline or cell phones Robocalls. I receive so many on my cell phone and even at work. It's a nuisance and it isn't right that companies/people think it's ok to barrage a phone number with call after call after call. We, the American people, need the FCCs help with this. Please help us! Thank you.
jim	woodinville	WA	Please stop these call immediately, we get no peace because the calls are endless. Please..
Robert	Oregon City	OR	I don't want robocalls on my cell phone or landline. I already get too many landline calls now, despite having being on your do not call list. It does not work.
Stefanie	Raleigh	NC	Robocalls are annoying enough on landlines, but they absolutely shouldn't be allowed to go to cell phones.
DEAN	Dresher	PA	Stop Robo Calls. Did not ask to be called. Don't know these people.

Henry	Madison	TN	Robot calls are a daily disgusting occurrence on many days as many as 3 usually by the same company. Most of these come on our land line but now they are starting to come in on my wife and My cell phone. It's hard to believe at this day and time that something can not be done to stop this. I'm sure it's because of lobbyist and money. What a corrupt country we live in.
Alan	Commack	NY	The amount of automated calls is negatively impacting my quality of life.
Leroy	Worthington	OH	I support strong regulation to prevent or limit robocalls.
Bob	Bradenton	FL	Robo calls are demeaning and illegal. They need to end, now.
WINFIELD	DALLAS	TX	OUR CELL PHONE CHARGES US PER CALL, SO WE GET HIT DIRECTLY IN THE POCKET BOOK WHEN WE GET THOSE OBNOXIOUS ROBO CALLS PLEASE HELP BLOCK THEM !
Sophie	St. Augustine	FL	Please, please put a stop to robo calls this is a trespassing issue, they are trespassing on my phone and person.
Cherub	Spotsylvania	VA	Shouldering the cost of robo calls to my cellphone is 100% unacceptable I do not agree to this activity and want it stopped.
Barbara	Union	NJ	Robocalls are an invasion of privacy. Please stop them, once and for all. The people you were appointed to serve don't want to receive them. It's as simple as that.
craig	camarillo	CA	Our phone rings off the hook and we are on DO NOT CALL. Please prevent or PROSECUTE!
Jody	Pearce	AZ	I receive seven to ten Robocalls a day all from some company calling themselves "Online Pharmacy"...I answer my phone and then it rings to acknowledge to the caller that I am on the line...that's just to add insult to injury by making me wait for the forthcoming "hello, is this Jody? How are you today", like they really care. I had to update my Verizon phone plan and pay extra to have the privilege of blocking up to 20 numbers. The block only lasts about 90 days....I have probably blocked over 100 numbers from these miserable, Indian accented beings. (I won't give them the respect of calling them human.) I have begged them to stop calling, I have said that Jody died, I have said that Jody is in a nursing home all to no avail. My life has enough frustrations without these phone calls. I have blocked my phone number with the FCC...still get the calls...when aren't they fined? Is anyone listening and trying to help. Obviously I'm not the only one with this problem.
Marc	Millwood	NY	Robo calls are the worse - but also the fact that the source of the call - number and caller id - can be spoofed makes it difficult to ignore. At home call screening can be used - but on my cell phone! In my opinion, one thing to consider other than verified source identity for all calls is a tiny tax on each call - so small it means nothing to normal users but makes robocalls less economically useful. But whatever you do - do something. As long as robocalls are free they will keep coming.

Diane	Colorado Springs	CO	These calls are constant! I just got a call to lower my interest rate. Sounded like someone from India or Pakistan! My answering machine can. Lock up to 20 calls, but the phone still rings once. Century Link allows me to block up to 25 calls, but that is only 45 numbers that I can block. Not enough! I'm fed up with this crap!
Elizabeth	Carson City	NV	We're not only bombarded with daily robocalls to our home phone, but we are now receiving them on our cell phones. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. For the past several months we have not answered any phone calls that say anonymous, unknown caller, or numbers we do not recognize. We continue to receive calls from the same numbers, sometimes every hour or so. This is an intrusion, especially for people who are ill and sometimes need to sleep during the day.
John	Montverde	FL	Isn't it enough that I must disconnect my land line to avoid Robo calls? (95% of the calls are ROBO) Is disconnecting from cell service next?
Ronald	Portland	OR	I have requested companies take me off their lists. They haven't. I have enrolled for the Do Not Call List. They continue to call. I report each and every robo call but they continue. They spoof their id with area codes across the nation yet are the same companies regardless of the area code. They are using technology to disrupt our lives. Please demand technology to disrupt their illegal practices.
Judith	Denver	CO	Robocalls are intrusive, uninvited, unwelcome, annoying and violate my personal space and the sanctity of my home. I would like my home to be a little place where I have some control over a desire for peace.
Peggy	Flagler beach	FL	Please help stop the harassment that invades every household and is dangerous to those with seniors !
Bettye	New Orleans	LA	We seniors have plenty to deal with; please don't let robo callers make our lives any more hectic.
Dan	Carmichael	CA	My cell phone is for important calls, not machines.
Doris	Melrose Park	IL	The government has already let us down with the "No Call List". We thought we were protected by signing up yearly to not receive these troublesome calls that come before your awake, during your meals, or after a long day when you are trying to wind down. But instead without telling us the government just stopped policing this. We signed up to have a right to not receive these calls. Now it is up to the FCC to right the wrong. Please do the right thing and put in the strict guidelines to regulate robocalls.
Charles	Vista	CA	Please take whatever actions are necessary to end robo calls forever. Thank you.
Eugene	Worthington	MA	I ask the government to end this type harassment.

Gerald	Portland	OR	We had 8 robocalls in one day at our house and some of the numbers show up 3 or 4 times a day. I'm tired of being bothered both at home and at our business. A large percentage of the calls are outright scams such as those that are from Microsoft and Dell Computer (supposedly). My mother-in-law is 92 and gets bothered several times a day. She is unable to comprehend caller i.d. so she doesn't have it. Therefore, she picks up the phone every time! This has to stop!
Mark	San Antonio	TX	I truly believe time has come for once and all to put an end to this horrific practice of what is now known as "Robocalls". It is intrusive and upsetting, to have the phone ring at all in opportune times. This NEEDS to become a Criminal Offense with real consequences. Please Make This Happen!!!
Chuck	Turlock	CA	Stop all Robo Calls
Tom	Roland	OK	Tell these people to leave me alone. If I want their services I will call them.
Leroy	Worthington	OH	I support strong regulation to prevent or limit robocalls.
John	North Olmsted	OH	Morning,noonandnight and even Sunday mornings; can't you do something to STOP this incessant ring of my phone sometimes as many as 6 calls a day.....Do something please
Margaret	Staten Island	NY	No one should be harassed with calls, especially from cell phones, and I mean ANY calls from debt collections or anyone selling anything!! I don't pay for a cell phone for strangers to annoy with it!
Ronald	Beaver	PA	They never give up! I got put on some list and received over 10 calls in one hour from these people. I want it stopped. They never stop. they call all times of the day. Especially when your in a meeting or somewhere when you should not answer the phone.
Rolf	Cottage grove	MN	No robocalls on Verizon
Ronald	Zionsville	IN	Enough is enough. No more unwanted calls!
Larry	Cheney	WA	Robocalls come to our land line incessantly despite being on the no-calls list. Several calls come every day. We would like to retain our land line but this has made it difficult to consider. If the same thing happens to our cell phone I may give up calls altogether. This is not right!
Bob	Fort Myers	FL	Allow blocking of robo calls on cell phones the way you do on landlines.
Ronald	Portland	OR	I have requested companies take me off their lists. They haven't. I have enrolled for the Do Not Call List. They continue to call. I report each and every robo call but they continue. They spoof their id with area codes across the nation yet are the same companies regardless of the area code. They are using technology to disrupt our lives. Please demand technology to disrupt their illegal practices.

Patricia	Charlotte	NC	There is nothing more annoying than racing to the phone only to be greeted by a robo call! I have never, and would never, buy any products using this tactic. It is a useless option for anyone trying to sell something, garner acceptance, or enlist support. Please, make them stop!
Tom	Neenah	WI	Robocaller must tell the folks that we have a right to demand they quit calling. This isn't happening. A call to only those holding federal debt should be limited to no more than 3 per month. The guidelines should be written by an English teacher at an 8th grade level - not a bunch of lawyers.
Stanley	North Potomac	MD	I've stopped them at home with DoNotCall. There are even more disruptive on my cellphone, and I'm tired of having meetings interrupted because one of these unsolicited and unwanted calls arrives.
Allan	fort worth	TX	please stop debt collection robocalls. my current cell number was used by someone in the past and debt collectors keep calling it.
Samuel & Con	Cottonwood	AZ	No robocalls to land line phones or cell phones
Wayne	Fort Lauderdale	FL	Stop robocalls to cell phones
Joel	ORADELL	NJ	It's way past time to stop the annoying and flagrant RoboCalls. Increase the fines to a substantial amount.
Amy	Elysburg	PA	Every day I get calls on my cell phone from all over the country or the next town I google the number there are hundreds of complaints about that # so I block it the next day I get a call from almost the exact same number. It is never ending. My number is listed on the national do not call list. I have had the same cell phone # for years! I am not in debt so these are not debt collectors looking for me! I am sick of the calls!!!! Please do something! Thank you
Karen	Mount Prospect	IL	I have multiple "robo-calls" daily - to the point where I have turned off my land line call recorder. And, I just received one on my cell phone - obviously an "auto-dialer" since I have NEVER given my cell number to anyone except a very few people. PLEASE do something to enforce fines, etc. to stop the robo-calls! Thank you!
Lonnie	Weston	FL	I'm a senior with bad hearing who relies on my cell phone but it is difficult to use. Robocalls make my life miserable because it takes time for me to realize that it is not my family or friends trying to reach me. Please end robocalls on cell phones.
Kathy	Forest Hills	NY	Stop the incessant robocalls. I get them on my landline and now MORE AND MORE on my cell phone. Enough!!! This is harassment.
Orlando	Brooklyn	NY	I'm really tired of these robocalls using up all my minutes on my cell phone.

Robert	Valley Cottage	NY	Please do whatever you can to stop unwanted calls. Do not call is a joke. No one uses it. My home phone business phone, and business cell phone ring all the time with unwanted calls. Mainly it is robo calls, but there are some humans cold calling as well. I'm thinking of getting rid of my home phone for this reason as it rings all of the time and it is robo calls!
Marjorie	Greenport	NY	I vehemently oppose any robocalls to my cell phone without my permission. But if Debt collection robocallers are permitted to call people who have federal debt, they should notify me of my right to stop receiving calls and the number of allowed calls or texts should be limited to no more than three per month. Calls should be limited to those who directly hold federal debt - not friends and family.
Max	Long Beach	CA	End robocalls now! I don't no of anyone who wants to receive them.
Cliff	Edgewood	MD	I do not want cellphone robocalls. Please take action to this.
Michael	Kings Park	NY	You do not want these calls at dinner time; neither do the rest of us. Please stop or at least reduce them.
Cliff	Edgewood	MD	I do not want cellphone robocalls. Please take action to this.
marcus	birmingham	AL	Please implement strongest possible rules to prohibit robocalls to cell phones. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Thank you.
John	San Jose	CA	It is imperative to prevent robocalls to cell phones. They are extremely bothersome and provide no benefit to the user. Please do not allow this disruptive practice!
Velma	Kenwood	CA	Please eliminate these invasive, time wasting calls
Alan	Patton	PA	We must stop all unsolicited robocalls. I sleep during the day and they are always waking me up. Debt collectors are abusing them also; there should be clear guidelines for these debt collectors, including limits of 3 calls per month and advising us how to opt out.
Shirley	Florence	MT	Robo calls cost a lot in lost minutes. Cell phone companies charge you for ALL calls whether you initiate them or receive them. I don't want to pay for calls I don't want! This is a double penalty for me.
Mark	Voorheesville	NY	No Robocalls to Cell Phones

Kevin	Visalia	CA	Okay - this is getting to be nuts. Not only am I getting at least 2-3 robocalls PER DAY, ON EVERY PHONE LINE IN OUR HOUSE, now you're talking about allowing debt-collectors to add to that mess!? NO WAY!!! They should only be able to contact those who directly hold federal debts - not their friends and family, and then only a couple of times a month (text and call). We should have the right to STOP RECEIVING THOSE CALLS - and report anyone who does not honor that - and HAVE IT ENFORCED! I am so tired of all the robocalls already! At times I get more robocalls than business calls during a day! Nuts! It's time to take back our phones and cell phones. This is getting abusive
Curtis	Bridgeville	DE	These calls have disrupted medically necessary communications Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Helen	Niantic	CT	It directly affects the quality of our lives when this constant calling many times during family dinners and our quiet time happens! It is annoying and aggravating and brings perfectly peaceful people to become someone else..namely angry and frustrated! It must stop!
Donna	Downey	CA	Everyday from 9 am to 8 pm Robocalls come in on my cell phone, it's hard to conduct business & personal calls due to my phone being bogged down by the incoming Robocalls. They must stop!! Do your jobs & fix this!!
Kevin	Los Angeles	CA	I'm sick and tired of getting these nuisance solicitation calls. Outlaw them with penalties.
greg	NEWTOWN	PA	The Robo calls are ridiculous it is time to stop them NOW>
Joseph	Gardner	KS	Stop Robocalls! Why should people be interrupted with these call while eating and enjoying family life?
Robert	Duncan	SC	Stop these now!!!!
Gary	Danville	CA	These invasive calls have got to stop!!!
Edward	Raleigh	NC	One big problem with debt collectors robo-calling is that federal law doesn't require them to stop calling anyone but the debtor. The debtor can just tell them to get lost, but if the collector is bothering family members or neighbors, or just someone that inherited a phone number from the debtor, there is no recourse. So something really needs to be done to stop these robocalls. In fact all robocalls are annoyances, and the economy must lose lots of productive work hours from people who get interrupted to answer them. Stop robocalls now!
Gloria	Menlo Park	CA	No one has the right to disturb the peace at home with unwanted calls.
Nirav	Mooresville	NC	Please put a complete stop on robocalls
Lorraine	Pittsfield	MA	We must end robocalls. They are annoying and disruptive.
Wanda	Brooklyn	NY	Stop calling My Phone. PERIOD!

kimberly	Cedar Rapids	IA	When they call my cell it costs me money
Robert	Lantana	TX	Don't we deserve to be protected from callers we don't want to have pester us?
Eugenia A.	Kingston	WA	My cell phone is my private communications device for talking to friends, relatives or my medical staff. The number is not published on any phone directory (that I know of). I have to pay for minutes received as well as sent and I do not appreciate some person in India, Philippines or other Asian country making calls to get me to fork over my hard earned money. There is no excuse, with the technology available today, for these kinds of calls to any phone, cell or registered home phone. You guys make big money, so use some of it to develop security protection for the customer.
Harvey	New Prague	MN	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available We should be able to opt out and have more teeth when they violate to prosecute
Ray	Framingham	MA	Stop robocalls
chris	Royal oak	MI	sick of these calls especially between 4@6 pm dinner time and they call at least 6 to 10 times a day.
William	Columbus	OH	To whom it may concern, Despite being on a "Do not call" registry, I have been getting an increasing number of "robocalls". They are annoying. I set my ringtones on known junk calls to speaking out the "not so nice" names I give the calling sources, and when friends ask, I tell them about those companies. That's not especially good advertising, is it? I enjoy doing it, and not as politely as this message is worded. Please take away one of my little "fun & games" project, and END THE ROBOCALLS! . Thanks in advance, William Finzel Columbus
William	Herriman	UT	Please consider that a large portion of your constituency wishes to eliminate robocalls entirely--not just to confine them to a few exceptions. As one of that group, I urge you to permanently ban robocalling of any kind to both cellular and land-line numbers. Moreover, I call on you to implement a viable system of enforcement in addition to large penalties for infractions that will truly discourage abuse.
Pam	Pueblo	CO	I don't appreciate any unwanted calls rather it be on my cell or home phone. That includes calls from debt collectors, sales of any kind, politicians and charitable causes. I pay my bills, if I want to buy something I will call them, I will choose who to vote for and what causes to give to on my own. Robocalls are not helping their cause.
Maxwell	El Sobrante	CA	Robocalls and unsolicited calls take a heavy toll on our *daily* productivity. Please enact and enforce heavy fines for this type of activity.

Ray	Tallahassee	FL	FCC: please take action to help us common folk. Not corporations.
Mark	Brooklyn	NY	No one should be able to automatically intrude on personal life, whether it's automated doorbell ringing or cell phone calling.
Gary	San Diego	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Sandra	Cleveland Heights	OH	I am so very tired of receiving robocalls from a variety of sources. Even hanging up doesn't work and it ties up my phone and keeps me from being able to call out until their unwanted message is done.
Jacob	Bridgeport	CT	I've already gotten them on my cell, and they must be stopped.
Katherine	Lakeside	AZ	I am sick of having my phone ring and hearing the same message every day! Please stop this insensitive act or find a way to block these callers from all phone companies! We can only block 5 and that's not nearly enough!
Ross	Plymouth	MA	I pay for my usage, not yours!
Lynn	Sausus	CA	I am in favor of strict guidelines that would regulate how and when debt collections are allowed to contact us on cell phones. Debt collection robocallers must notify us of our right to stop receiving robocalls. The number of allowed calls or texts should be limited to no more than 3 per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
David	Hollywood	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Thomas	MAdison	AL	Please stop robocalls to my cell phone. They call all hours night and day! I have registered at www.donotcall.gov to noavail.
Barbara	Norwalk	CT	I receive so many robocalls each day! Yesterday, I got seven. If I don't pick up the phone, they just call again and again. Today it was for an electricity offer, but usually it's for credit card business which I don't want.
KEVIN	LEWISVILLE	TX	No Robocalls to Cell Phones!
Richard	New River	AZ	Please stop this unfair and annoying intrusion on our cell phones.
Sandra	Seattle	WA	Because cell-phone companies reassign phone #s almost immediately after an account is closed, I have received collection calls for people I've never heard of- -they're extremely annoying, and these companies use recordings to make their threats, so there's no way to even try and convince them they have the wrong number. I no longer answer the phone unless I recognize the caller.

Carlos	Tucson	AZ	Fed up with robocalls . The people want a fast end to them.
Janice	tucson	AZ	Robo calls are extremely annoying & even dangerous if one rushes to catch the phone thinking it might be an important call. I urge you to create strict guidelines for robocalls.
Phyllis	Nashville	TN	I hate having my privacy violated by robocalls. End them!
Nelle	Gainesville	FL	Dear FCC, Everyday I get two or three robocalls...phone calls placed by a computer. It is a constant interruption to my life and work. I do not want any of these calls, and think they should be illegal. Please do what you can to make it possible to stop robo calling. Thank you.
Latrell	Grass Lake	MI	It is not only annoying but incredibly inconvenient to receive robocalls on my cell phone, especially when I am at work. I can usually ignore or just not answer a call from a number that I don't recognize. However, I worry about my elderly parents or unsophisticated teens being manipulated. Let's just end these annoying ad calls once and for all, shall we? Thank you!
Barbara	Carlsbad	CA	I should not be harassed by robocalls especially when many of them are incorrect and actually are for someone other than me who at one time had my cell number. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Eloise	Roswell	GA	I hate the robocallers please stop them
Zoran	Bellevue	WA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
erich	peoria	IL	Please do us all a favor and end the abusive practice of robocalls.
Rebecca	San Jose	CA	Protect consumers - not companies! Without their consumers these companies can't exist - and consumers outnumber companies by thousands!
paul	southfield	MI	I am paying a fee not to have to deal with robocalls or advertising calls. No one should be allowed to send me messages that are unsolicited. I should never have to deal with calls coming into a line that may charge me for receiving it.
Michael	Rochester	NY	Please block robocalls. We need to avoid this nuisance on both land and cell phones! The do not call lists simply DO NOT WORK! In a given week, I can receive 30 to 50 of these nuisance calls. NONE of them are from someone I contacted first. This needs to stop! Thank you!

Karen	Pittsburgh	PA	Ironically should not be allowed on cell phone period. Some of us still pay for our minutes number 1 and number 2 cell phone numbers are not supposed to be listed. I for one do not give out my cell number to anyone other than family and friends, doctors and who actually needs it. I have no idea how or who gave my number out to receive these annoying calls and do appreciate them in the least! I signed up to NOT get them on the do not call list. Why bother. It works about as well as the one for your home phone. Not at all. Please stop these annoying unwanted calls. Thank you for listening
Genevieve	Austin	TX	No thank you to Robo calls!
William	Sonoma	CA	It is abhorrent anyone can call my cell for marketing or any other privacy invasion. The FCC is held responsible legally for any major invasion of this . HOW can you question this!!!(?)
AB	Wakefield	MA	Please stop the card services calls!!! And the energy calls!
April	Columbia	MD	I pay for my cell phone - all of the minutes, all of the texts, all of the data. I'd like to use it as I see fit, and that does not include listening to robocalls.
John	Mexico	MO	The use of robocalls on landlines and cell phones is an unwarranted abuse of our privacy and is a type of harassment. We need government action to stop the abuse and to insure our personal privacy and tranquility.
Krishnan	Englewood	CO	I am annoyed constantly by the robocalls to my cell phone. Please take action to stop these robocalls as soon as possible.
David	Tucker	GA	They seem to never stop. It makes those us with a landline phone a hostage to all sorts of businesses and so-called charities.
Gary	Alameda	CA	I get many calls per day on my land line. I don't need it on my cell phone too. Enough!
Cliff	Rockville	MD	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Lois	Pensacola	FL	Tired of robo calls! Please take action-
Elbert	Silver Spring	MD	Criminals are making a mockery of the Do Not Call law and the communications companies are accomplices to the crime by charging me for answering the call. I am fed up with people ignoring the Do Not Call law and pestering me with robo calls and other types of phone call scams where they invade my privacy and violate the law by using untraceable phone numbers so that civil authority is unable to track down the offenders. 1. Require the communications networks to block all calls that do not have valid, registered, traceable phone numbers so the people behind these calls can be prosecuted. 2. Punish the phone companies for each unwanted call that gets through to a registered Do Not Call Number.

E	Zephyrhills	FL	Very tired of the robo calls. They need to stop their unsolicited, unwanted, unwelcome and extremely interrupted.
Yona	Dalton	MA	Who pays for the accident when the robocall comes in to someone driving in traffic?
Rodger	Yardley	PA	I am currently on the "do not call" list, yet in the last several years the amount of robo-calls has increased significantly. The whole purpose of the "do not call" legislation is being negated with the onslaught of robo-calls. The number of these unwanted calls has escalated to the point where is disruptive and boards on harassment. Since I have made my preferences known and I am the one paying for my phone connection, it seems only fair that legislation be in acted that respects my preferences. Thanks for you attention to this matter.
Valerie	Selden	NY	Stop robocalls to mobile numbers
Laurie	Lodi	CA	Please help pass laws to end the constant interruptions and calls that are actually ruining the quality of life for many. Please pass laws that stop all Robo calls including political and so called "survey" calls.
Scott	Santa Clarita	CA	Please stop rob calls. this is an invasion of our privacy
Daniel	Cumming	GA	I am so sick and tired of all the calls from companies that I never contacted or requested information from. I would really like to redirect all of these calls to your private telephone numbers ,then maybe you would do something about them.
Katarina	Scottsdale	AZ	NO Robocalls to cell phones without permission, no exceptions, thank you.
Ron	Albuquerque	NM	Since I am billed the time for robocalls -- I don't want them!
STEVE	COLUMBIA	SC	I receive at least 2 or 3 robo calls per day. I have received these calls as late as 9:00pm. It is something that needs to be stopped. I have no past due accounts, I have no desire to lower my credit card payments. I do not want to buy a time share. I just want to be left alone. Even being on the no call list I still receive calls daily. Please make them stop now!!
Carl	Anderson	SC	I am opposed to having to deal with robocalls to my cell phone without my permission. This is an invasion of my privacy and interferes with the services I pay to receive. I would like to see clear, easily understood and readily available guidelines for such restrictions.
Mary	Chicago	IL	Please end this obnoxious behavior on the part of unscrupulous vendors or harassers. Some dubious fund seekers call my phone six or more times per day.
Mary	El Paso	TX	sick of calls I don' want
Peter	Mendham	NJ	I'm sick of robo calls. They start every afternoon to early evening and are now evading our cell phones. In one week I have had numerous calls on solar panels to winning a cruise. This is a nuisance.

Vicki	Kenner	LA	Not only are these calls/texts extremely annoying, but they sometimes call/text after midnight or early in the mornings. Please make them stop!!!!
Craig	Bryson City	NC	At this point, our landlines are for all intents and purposes COMPLETELY USELESS. We really only use them for outbound calls and keep it for emergencies, even though it's costing us \$75 a month to do so. This is because we receive an average 1-2 robocalls per hour starting at 8am and ending at 9pm, 7 days a week. So when the phone rings, if it's not a specialized ringtone that we've assigned to friends and family, we ignore the call. This has also made our voicemail unusable. It fills up daily with a half-dozen messages or more, and 98% of the time the message is from a robocall. Now, imagine - really imagine - and I really really mean this - seriously picture that same thing happening on CELL PHONES. Imagine that type of daily disruption OUTSIDE OF YOUR HOUSE. Imagine that happening to you and everyone around you outside in the real world. In movie theaters. In church. In school. At work. WHILE DRIVING. With one bad law, THAT COULD BE REALITY. Is that the type of world you want to live in? Of course it's not. As I hope I've made clear, this is not just some minor inconvenience or annoyance. Bringing this harassment public seriously affects an individuals quality of life. It follows that allowing this harrasment outside of the home will affect the quality of life of those around them. This harrasment happening constantly in cars all around the country will result in accidents and injuries and deaths from the additional and relentless distractions. Consider your own safety and quality of life and do the right thing: ban robocalls to cell phones outright, now and forever.
Charles	Coralville	IA	The number of unwanted phone calls continues to increase both on my landline and my mobile. I do not have any outstanding debts. These calls are merely an attempt to sell me something I don't need or want. As such, they are an invasion of my privacy and they nullify the appropriate use of my communication devices. I urge you to write rules that would eliminate all robocalls. Thank you.
Rita	Princeton	NJ	these calls are very annoying. they constantly call for the same thing, sometimes 4 times a day from the same company. they interrupt what I am doing, ex. working. stop this horrible interference in my life.
Jacqueline	Gig Harbor	WA	Stop the robo calls!
Renee	Los Angeles	CA	THIS IS LIKE A PLAGUE HITTING OUR PHONES. IT IS A HUGE NUISANCE, AN INVASION OF PRIVACY, AND THE "DO NOT CALL LIST" IS A JOKE. WHY IS THE FCC NOT PREVENTING THIS INVASION? TOO MUCH LOBBYING BT THE CORPORATE INTERESTS?

Terry Louise	Winston Salem	NC	This is my cell phone. I call who I want and I only give my number to people that I want to have it. I pay for the right to have it, not for robocalls, who shouldn't have them in the first place. I didn't give my number to them!
Gary	Salt Lake City	UT	Please do all in your power to end cell phone Robocalls. Thank you.
Judith	Mineral Ridge	OH	For a while my cellphone provided a respite from the landline robocalls that harass me; I get at least 5 to 8 landline robocalls a week sometimes. Now, however, my cellphone number has evidently drawn the attention of the robodialers. About a year ago, I started to get 2 to 4 robocalls on some days. I consider this an invasion of privacy. Also, being a senior citizen seems to attract the scammers I have noted. It would go along way towards providing some protection against scammers targeting seniors if ALL robocalls are stopped.
j	Los Gatos	CA	I pay for minutes used on my phone service and robocalls are unappreciated. I block the number once I'm called, but it's is an interruption and an annoyance. In addition, robocalls are more than futile because I would never avail myself of goods or services offered by a company that shows such disrespect. Please ban these things and make life a little smoother. thank you Dr. j hester
Linda	Austin	TX	Please help us stop robo calls both to our home & cell phones. We have registered on the National Do Not Call Lists... But nobody respects that. We get calls to help us with our student loans. (We are both retired. No student loans). Plus we win Caribbean Cruises all the time but never applied to win one either since my husband is ill. I could go on forever but you get my point. Please help protect us and the public from these robo calls. Thank You
Mark	Wauwatosa	WI	These are intrusive and unnecessary. They cause a hazard when driving! They should not be allowed at any time.
Michael	Salt Lake City	UT	robocalls are an extreme waste of time, at all hours of the day and a great intrusion to privacy
Chad	boise	ID	I receive multiple fraudulent robocalls every day. More than calls from real people. Failure to block these criminals allowed international harassment and attacks to reach every single person the the USA. It's past time you blocked them!
Karen	Park Ridge	IL	Please do not approve the proposed changes that would permit robocalls to cell phones. I am on a budget and closely control my cell phone minutes. Incoming calls are charged to my account and I feel that it is unfair to have to pay for unwanted calls. Although it currently seems that this is only for debt collections, it is only a matter of time before other companies will want to be able to make robocalls to cell numbers. Stop this before it gets completely out of control. NO ROBOCALLS TO CELL PHONES - NONE - EVER!!!!!!!!!!

pat	lancaster	PA	Whether it is a home phone or a cell phone I would like to be able to easily block incoming calls from all phone numbers I desire. Please make this happen.
Janis	Scotts Valley	CA	arghh,,,,rude and invasive
Carol	Lansing	MI	I get calls nearly every day from people offering their services to help pay off my student debt. The fact is, I have no student debt and never have had any! I am 71 years old and very frustrated that I seem to be on these call lists inappropriately and can do nothing that successfully gets me removed. Please do what you can to stop this extremely annoying practice. Thanks!
Kathy	Saint Augustine	FL	I don't want to be harassed on the telephone.
Peg	Centennial	CO	Having illegal robo calls at home is bad enough. The legal ones make it worse. We get average of 5 a day which interrupt work, meals, naps, and conversations. We DEFINITELY don't want any unwanted calls.
Loretta	Searcy	AR	Please discontinue the annoying robocalls to cell phones. Privacy is a major issue; some have cell phones for the purpose of retaining privacy. No one responds favorably to them, so please: No more robocalls. Thank you.
Kim	Saint Paul	MN	I've been harassed for years by a payday loan co about a loan I never took out. I never leave the volume on my phone because of this. Most calls say unknown and are robocalls. Please help stop this. Thank you.
Doug	Flagler Beach	FL	Please stop them
Robert	Palm Bay	FL	Waste of time and annoying,
Virginia	Barrington	NH	These calls are a constant nuisance, particularly during the political season in NH - which seems endless!
Michael	Bloomington	IL	I detest these people being able to enter my home without my permission. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Please stop Robo calls
EDWARD	LITTLE FERRY	NJ	EVERY SINGLE DAY I GET AT LEAST FIVE ROBOCALLS OR CALLS FROM PEOPLE ABOUT PURCHASING SOLAR POWER , NEW UTILITY SUPPLIERS,SUPPLEMENTAL HEALTH INSURANCE, LIFE INSURANCE. THE LIST GOES ON AND ON. THIS IS TOTAL BULLSHIT. I JOINED NOMOREROBO CALLS AND THE DONOTCALL LIST SEVERAL TIMES. IT HAS NO EFFECT. BECAUSE OF THIS I DON'T ANSWER NECESSARY CALLS FROM DOCTORS OFFICES , THIS INCLUDES OTHER LOCATIONS WHERE THEY PREFER NOT TO POST THERE ORIGIN OF CALL.
David	San Francisco	CA	These calls have a profound impact on the infirmed, elderly, those working odd hours and those that are simply annoyed.

Allenia	West Palm Beach	FL	I became 100% disabled when a school bus pulled in front of me in Aug 2014. Since then and even before then, I've received many repeated robocalls from various sources, everything from sales to debt collecting. Generally they call and wake me up and even when I answer most of the time they disconnect. I've even tried blocking the numbers but they just use another number to call again. I get the calls on both my home and my cell numbers. I'm very tired of having to deal with this problem. Please please put a stop to it!
Bobby	Kemp	TX	For gods sake, put a stop to all robo calls. I must get two or three a day, and it always interrupts when I'm busy. A robo caller doesn't care when he interrupts you, just as long as he can get his sales pitch to you. It's more than annoying.
Jane	Johnstown	PA	Stop these nuisance calls!!!! Take up time and use data! Send a flier in the mail instead!
Ray	Stuart	FL	Please stop Robocalls
Thomas	Traverse City	MI	I have signed up for every do not call list available yet but I am still bothered regularly. I will tailor my balloting to put a stop to the calls.
JANICE	Cobleskill	NY	I can't even brouse anymore, after I get 10's of calls. Why is it legal for the Government, Corporations, Hospitals, Doctors, Insurance Companies, to Buy and Sell my name. That is MY PRIVACY. No one has asked me for permission to use my NAME. I say OUTLAW ROBOCALLERS NOW!!!
Zenon	Clyde	NY	Please do something to stop these cell phone robocalls. Not a day goes by where I don't get these calls.
DONA	Maple Grove	MN	People trying to sell products with the canned commercial on my phones is a total invasion of my privacy, time and peace of mind. If I don't have a relationship with an entity, they have no right to contact me. Don't sick your robots on me. These guys try to sell to specific groups of people with their various products and unfortunately, at my age I fit into most all of the groups. I find it hard to hear my voice mail because of these pesky barbarians. Stop this nonsense now.
Robert	Canandaigua	NY	Enough already! Don't even think about allowing robocalls on cell phones! They are unwanted intrusions into my private life. As a consumer, I pay for a service that should be free from such calls!
michael	Camarillo	CA	Please curtain robocalls. These callers do not respect the Do Not Call lists, so, stronger measures are required.
richard	etowah	NC	My wife and I are sick of robot calls, many of them at inopportune times of day and evening. This stoppage should should apply to political robot calls as well, especially all the way through th presidential election in November.
Joan	Crystal Lake	IL	No Robocalls To Our Cell Phones!!!

Bernice	Richmond	CA	To Whom It May Concern: These folks call you all the time. They can call you whenever they want. They don't care ANYTHING but harassing people. If you're sick, an insomniac, just got out of the hospital THEY DON'T CARE. I'm elderly and I get them at my home after when I'm asleep. They call me when I don't feel well. They call my cell phone as much as they call my house phone. I could be in the middle of a medical emergency since I live alone and won't be able to get help because of a robocall. IT SHOULD BE ILLEGAL!!!!!!!!!!!!!!
Rob	Great Falls	MT	I am a Chaplain in the USAF, and pretty much whenever my phone rings I am required to answer it. I often receive phone calls from out of state numbers so every time it rings I answer it because it may be one of my Airmen in need. These constant calls (as many as 1-3 a day) are a significant disruption to my day. This takes away time from what I am payed to do, which is help Airmen!
Bruce	Indian Trail	NC	This is the single most disruptive and annoying intrusion into our lives. The mere fact we have a phone - landline or cell - subjects us to indiscriminate calls whether we place our phones on the Do-Not-Call-List or not. This has to stop. Debt collections or solicitations. this makes no difference. Stop this intrusion into our personal and business lives.
Patricia	Tucson	AZ	I already get calls at work when I am with children and the ringing is annoying and distracting, even if only one ring for a text. Calls/texts for rx's are ready, stop NRA, etc. I don't have any money and cannot pay for products or services from telemarketers or to pay outstanding bills. They cannot harass me at work or while I'm volunteering.
Stu	GILBERT	AZ	I am sick of robocalls on my Cox Cable land line!
Ted	Charlotte	NC	Allowing any robo calling business to have access to Cell Phone numbers is an invasion of my privacy as well as a huge cost to my monthly phone bill. These calls come as an interruption during business hours, traveling, in meetings at night and most anytime and for one reason and one reason only to sell me junk or as a scam. There is no reason to allow for these private numbers to be released to the public. Robo callers have almost destroyed regular land line privacy do not let this happen to the Cell Base of Phone Numbers. Let me ask you..... your in an important session working on an important issue and you get a robo caller wanting to scam you or sell you a hearing aid or a medicare supplement , how will you handle this call maybe FCC and Congressional special Americans will get exempted otherwise your cell will become full of junk traffic. Robo Calls are pure and simple fishing expeditions or just plain junk calls running up my monthly cost of a cell phone and only good for the Cell Carrier. Time to make the right decision NO ROBOCALLS Please.

Karl	Red Wing	MN	I've been targeted by Robocalls, and found them invasive, unpleasant, and obnoxious. Please take immediate action to ban this practice. Thank you
David	Williamsburg	VA	Robo calls constantly interrupt my life. I am on the Federal Do not call list, They continue to come. Even when I complain. I am a 75 year old man and getting to the phone to answer a robo call is a pain. Please STOP these calls.
Aroline	Atherton	CA	Across the board, robocallers and solicitors must be restrained. I now receive cell along with home phone calls day and night. The companies making these calls are literally laughing at any possibility of legal consequences. Make clear guidelines and make consequences clear and substantial enough to get the companies' attention--no little pats on the had, but fines that will make the companies stop their abusive practices. Sincerely, Caroline Beverstock
Kent	Longwood	FL	I have been getting 5-6 Robo calls per day at home even though none are debt collectors. This is disruptive of daily activities.
Jacqueline	Cambridge	MA	Dear FCC I receive uninvited robocalls on my cell phone every day. I don't know how they have my phone number. In about 25% of the cases the caller tells me that "I have a debt to pay" (which I don't) and that I must pay it immediately or I will "have serious problems". They are aggressive and intrusive. My phone number should not be used without my permission. Please act to stop it! I greatly prefer that they not be allowed to call my cell phone in the first place. And if they do, I think they should EXPLAIN CLEARLY AND SLOWLY how I can OPT TO NOT RECEIVE their calls. Thank you, FCC!
sharon	las cruces	NM	please stop the abuse of robocallers please protect our rights to say no more
Joseph	Lake Wales	FL	from 7am until 10pm the wife and I get 6 to 9 calls a day every day 7 days a week. I have updated no call 4 or 5 times and does nothing but waste my time.
Annemarie	Portland	CT	stopping unwanted robocalls is the ultimate consumer protection: it protects our right to privacy, to choose who we want to do business with, and - since many such calls are timed to coincide with dinner time - our ability to focus on family and friends, not unwanted strangers.
Carol	Lake Forest	IL	Please do not allow debt collectors to call our cell phones. As it is now, even though one signs up on the the government web site to have no sales calls at night, early in the morning, at dinner time, etc., it still happens on landlines and cell phones. The public ends up paying for others advertising with the minutes used up by these robocallers. Shady lenders call any one at any time, even if they owe no money. Please give the public guidelines, show us how to stop those calls and limit them.

Carlos	Lehigh Acres	FL	READ MY LIPS: NO PHONE CALLS, NO TEXTS!!! If information is required, send a request via "pony express" to the true recipient. DO NOT "shotgun" the request to everybody in the galaxy!!! UNDERSTOOD BUMS?????????
Patricia E.	Bodega Bay	CA	I find them very inconvenient and intrusive.
Tom	West Hempstead	NY	Please stop all robocalls to my cell phone as I only want to receive calls from people to whom I've given my unlisted number.
Barry	Jasper	AR	Please stop Robocalls to our Cell phones. They are more than a nuisance, they can interfere with emergency or other necessary calling. Thank you!
yosh	San Francisco	CA	they always call when we are trying to rest and when we are expecting a family call. soliciting for funds is too much. we are living on limited income. we have asked them to take us off their list,to no avail. surveys and political calls are annoying too.
Jennifer	Parkersburg	WV	I live alone, and I have severe arthritis. It causes me pain and annoyance to have to drop whatever I'm doing and walk as fast as I can to get to the phone before it goes to voicemail. I don't mind if it's a friend, or my doctor's office. But I'd say a third of the time it's a robocall from a company I have never dealt with before, wanting to sell me a cruise vacation or help me pay off my credit card debts. (I am not in debt!) Sometimes, they don't offer a chance to be put on their "no call" list. (I am on the national no call registry.) Some times they do offer the chance, and I ask to be put on the list. But they always start calling again, later. Sometimes I manage to talk to a real person, and they hang up in the middle of my request. One time, I told the woman that she was breaking the law, by calling me when I was not supposed to get calls like that anymore, and she said that I must be the only person in the country who didn't break the law. Whatever that means. One time, I was in a checkout line. I left the line to take the call, only to find it was a robocall. I pay for my phone. It is intended to benefit me, my friends, and those with whom I do business. I do not pay in order to open a conduit through which people can scam, insult, or inconvenience me. Please do whatever it takes to protect me from this invasion of my life.
David	Winchester	VA	Americans deserve to be free of unwanted cell phone calls. The question for our representatives is: Who should I put first - citizens or corporations? I trust you will make the right decision. Thank you.
edward	Katonah	NY	The barage of non-solicited calls to my cell and home phone are totally obnoxious. the National Do Not Call Registry doesn't work. Please regulate this very annoying situation.
Robert	Poland	OH	PLEASE, PLEASE STOP ROBOCALLS. THEY ARE TIMEWASTING, INTRUSIVE, AND GOOD FOR NOTHING! I AM SICK OF BEING A PASSIVE RECIPIENT JUST BECAUSE I HAVE A TELEPHONE.

Gregory	Baton Rouge	LA	I am constantly bothered at home by machines calling. I answer and no one is there. This needs to become a criminal offense and foreign calls need to go through a "clearing house". The do not call list is a joke.
Barbara	Dallas	TX	I oppose robo calls to my cell phone without my permission because of their predatory methods. They should not be allowed to use up minutes I pay for on my call/text plans. They should notify us of our right to stop receiving calls and those calls should not be made to anyone but the individual whom they are trying to collect from, not to family and/or friends. The guidelines should be clear and readily available.
William	Charleston	SC	I wish to add my name to the list of those opposed to robocalls to cell phones. I receive many of these calls and they are not just annoying, but they also use the voice minutes that I pay for every month. Cell phones should be exempt from any kind of unsolicited calls. Thank you.
Albert	Kill Devil Hills	NC	Do you have any idea how disturbing and disruptive these calls are? PLEASE STOP THE ROBOCALLS!!!!!!!!!!!!!!!!!!!!!!
Judith	Philadelphia	PA	I use my cellphone ONLY to talk to family, and my doctors. I use my land line for everything else. When my cell phone rings, I leap to answer it fearing a family crisis. Please stop these harassing calls.
Mary	Anna	IL	I think all robo calls should be illegal
Dorothy	Thornton	IL	My husband and I are retired. We have trouble getting around with all the difficulties old age brings. When I hear a car door, or the phone ringing I am hopeful that we are getting a call from one of our children. I try to answer phone calls as quickly as possible and hope it is at least someone we know. I use a walker and running is not an option. We are both dissappointed when "Brigit" or "Lisa" want to save us fom something or there is no one on the phone. What a downer. This is my phone and nooone other than myself should have the right to use it. My phone is for me and my family to use, and calls should be from those I know and care about.
Brad	Atlanta	GA	I hate when I get calls and there is only a recorded message. This phone beings to me, not to anyone that had junk to peddle or to tell me that I have debt with the IRS, which I don't.
GR	Canton	TX	I am very upset about all the robot calls that I get, First thing that need to he done is to cut all lines that go to India, I can't understand them when they call, Second, is to fine them for not obeying the law. I don't need anyone calling and telling me what I need.
Jon	Portland	OR	There is absolutely no reason that any business should be allowed to "harass" people through automated calling. This type of activity is very offensive. It should be illegal.
Robert	Louisville	KY	Please stop robocalls, they are very irritating and use up my minutes on my cell phone.

James	West Point	VA	Please end the ability for companies to robocall cell phones! My US Government-provided cell phone number formerly belonged to someone who has skipped out on their debts. I receive numerous (averaging between 6 and 9) calls to that cell number on a weekly basis. I travel overseas with that cell phone so I can make official calls, and I can tell you I'll be woken out of a sound sleep at least 3 times a week because of those calls. My voice mail outgoing message even states that the number is a US Government cell phone number...that doesn't stop a robocaller from leaving me a message about my need to call as soon as possible to discuss a serious financial matter. I agree these companies have a right to collect just debts; I don't agree that they should keep calling the last known phone number until they're told it no longer belongs to the person they're trying to reach. They can track these people down through their employment or other means - they don't need to use robocalls that border on harassment! So, please end the ability for companies to robocall cell phones! Thank you!
Frederic	Ann Arbor	MI	We have been getting a growing number of robocalls and it is interrupting our life as it occurs throughout the day, even at dinner time! They should have no right to access to our phone numbers for any reason. We want our privacy and they are taking it away from us. Legislation is sorely needed to stop this "home invasion" of useless calls.
Gerald	Bristol	DC	The robocalls are ridiculous. People can make up their mind without being harassed. People just have no common sense when it comes to making money. You need to help us by letting these dense people know how we feel. Have you received any pro robo calls? These would probably be the culprits, case solved.
George	Downingtown	PA	It's about time my government starts to represent me and the others that have elected them. Stop representing the lobbyist ,they may have money but we have the votes.
Norman	Charlotte	NC	I think it is scandalous that there is a provision in the Federal budget to allow robocalls to be made to a RELATIVE of someone who owes a debt.
Laurel	Clawson	MI	I get several robocalls every day, and want them to stop. Some of the callers change their names and the numbers they are calling from every day, so it's impossible to program my phone to block them.
Diane Carter	Roslindale	MA	I have had it with junk phone calls on both my landline and my cell phone. Both are on the DO NOT CALL list, but you'd never know it. I have even gotten repeated debt collection phone calls for a person I don't even know. Please make them stop!
George	Grand Rapids	MI	I believe robocall should be banned both for cell phones and for land lines. They take up an incredible amount of time, time that could be spent much more productively.

Charles	Altoona	PA	Scum call and feel so clever as they attempt to trick me into giving them control of my computer, access to my bank and credit card information, sell me car warranties, donating to police and fire company charities and more. They give honest causes a bad name.
Bill	Glen Allen	VA	It's ridiculous to receive unwanted robot calls on cell phones.
James	East moline	IL	The only calls I will answer is from known numbers or id's that I recognize We need to put all of these callers out of business.
Julie	Newnan	GA	I am plagued daily be robocalls of all kinds. Not only is this annoying but it is something that can be stopped easily stopped. Please take action on this matter that is very important to millions of Americans like me. Thank you,
John	Riverbank	CA	If I want to buy something ocer the phone, I will call them. Allow us to block these unwanted calls.
Norman	Miami	FL	I am against any robocalls, and especially to cell phones. In additions to the aggrevation to the receiver from such calls, they may also cause the receiver to incur additional costs.
Eric	Lakewood	WA	My wife and I are really fed up with getting Robo Calls at all times of the day and night. We ignore unfamiliar phone numbers and calls with the identifier UNKNOWN, BUT unfortunately we have to wait through the nearly unending rings that transpire. We are tired of being harassed, especially after we put our number on the DO NOT CALL LIST !! Prior to ignoring these calls, we did answer them, and consistently had a recording, and sometimes a real person, that was inevitably from a foreign country. There is no reason for this kind of operation, and it needs to be stopped. Further, some of those kinds of calls left a recording on our answering service...mostly the phishing type that is telling us the IRS, the FBI, or some other agency needs to be "contacted immediately" or we will be arrested. We know what this is, but there are far too many people who do not know any different. Isn't that a crime? Why are they allowed to do that? Stop this nonsense....NOW!!
m j	san francisco	CA	also dump the trump immigration reform now impeach arpaio
Michael	Sarasota	FL	I support the guidelines proposed in this petition. Having no guidelines opens up phone contact that can be abused by people who send unwanted calls and texts to cell phones. It is one thing to be able to call someone who has a debt, but there should be rules limiting calls to those who have no responsibility in repaying that debt. Once those who call are notified the person called has no responsibility for repaying the debt or for any other reason like a reassigned phone number, the calls should stop immediately. I recently bought a cell phone and was receiving calls and texts within 1 day from people who were trying to reach the owner of the previous cell phone number.

Antonio	Vacaville	CA	Please help me, and people like me. I don't think it's right that a machine can call my cellphone and use my minutes and money to try to scam me, sell me things I'm not interested in, or otherwise harass me for things I did not do. I have gotten to the point that unless I know the number calling, I just press to answer and then listen quietly. If a human speaks immediately, I feel more confident that it's not a robocall. If there's a delay, then it's likely a robocall and I am already alert that the call is probably a sales pitch. But why should I have to do that? What gives the robocallers the right to use up my minutes, at my expense, so they can push something or harass me? they shouldn't have this ability. they don't have the right! Please make them stop!
Sondra	Ellettsville	IN	Debt collectors should not be allowed to use robo calls.
Virginia	Hood River,	OR	Shortly after moving into a new home, we began receiving robocalls intended for the last person who had our new phone number. Repeatedly, all day long, for weeks, then months, the calls continued despite the fact that we explained repeatedly that we were not the person they were looking for, we had just "inherited" her old phone number when we moved and set up phone service in our new home. Nothing would stop them. Finally we had to cancel our phone service and rely on our cell phones to make and receive calls in order to stop the harrassment. It was all just too much!
Michael	Dayton	OH	I've really had enough of robocalls. I get them daily on both my landline and my cellphone. Yet all my numbers are on the Do Not Call registry. Why don't you penalize the robocallers to get them to stop! If you can't stop the calls, hit them in the wallet!!!
Margaret	McLean	VA	Robo calls are becoming more frequent, not less. Requests to stop the call, either digitally, or via voice, may stop a particular all for 60 or even 90 days, but then they call again. Sometimes a request is followed by another call to a different person in the same household. If I am particularly unpleasant, the result may be a call from the same number with a "hang-up", leaving its own particular feeling of privacy invasion. Not answering these calls is not an option because they appear to be the same as calls from a cousin who lives out of state, and whose 95 year old mother lives alone, ten minutes from my home. I have been told that giving up my land line will reduce robocalls, but I am reluctant to do so for the same reason I have two types of emergency detectors for fires, and natural gas -- one is connected to my electrical system (hard-wired, like my land line) and the other is connected to a satellite system, and battery operated. We are dependent upon government regulatory agencies to stop these "home invasions." It is easier to stop mail than to stop phone calls. Do your part. Please.

Jim	Cuyahoga Falls	OH	Please have these stopped immediately. There is no real good that they do, or benefit derived from them.
Suzanna	Westfield	MA	These are now becomming a problem.
Corry	Petaluma	CA	I do not appreciate my minutes being used against my wishes.
Becky	Austin	TX	Robocalling needs to be stopped. There is no good reason for them, except possibly in the event of a huge, widespread disaster. It's just a way for scammer and others to call you without investing any time. I personally think that if they're not willing to actually talk to you, they shouldn't call. This includes charities and politicians, such as Donald Trump, who dials me almost daily to play a recording that tells me what a wonderful president he would be.
Tom	Albuquerque	NM	Even with the Do Not Call registers I am constantly bombarded on my land line with robo calls. The people used the robo calls method clearly value their telemarketers time more than my time. I think it is grossly unfair for them to be able to use the public phone land line or cell to take advantage of the general public. We need rules and regulations which only allow the robo caller to call numbers from an approved list of people who specifically ask to be put on the robo call list.
Huy	Santa Ana	CA	Please, enough is enough. Our freedom to peace should not be violated by profiteers.
Christopher	Pittsburgh	PA	Debt collection robocallers must be required to notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt -- not their friends and family. Furthermore, these guidelines should be clear and readily available. Americans have a right to peace and privacy, regardless of whether or not they're carrying debt.
Robert	Shelton	CT	About 95% of all the calls I receive on my land line are robocalls. These crooks should be silenced!
Nagavarapu	Torrance	CA	This is getting worse...now they're invading our cell phones; this wasn't true until recently.
max	matthews	NC	tired of robocalls!!!
Dolly	Springfield	OR	These are a tremendous nuisance
Tasha	Harvest	AL	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt, not friends and family. The guidelines should be clear and readily available.
Harris	Doylestown	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Kathleen	Lincoln	CA	These often come when I'm driving and are distracting. I have to pull over. They are a problem in general because of unnecessary interruption.
Edward	Delanco	NJ	Please consider prohibiting the use of fake caller IDs by robocallers. And increase the penalties steeply for this activity. It's not so much that these people bother you with their calls, it's that you can't trace them or get them to stop.
richard	fuquay varina	NC	End the robot calls
Thomas	Riegelsville	PA	Institute laws/regulations that puts monetary value and impetus into stopping Robocalls from any and all sources. Mobile phones are for personal use and free from abuse by unsolicited entities.
Gary	Zionsville	IN	My wife and I are constantly barraged with robo calls on our cell phones. One afternoon this week, we each had 3 robo calls within an hour! How disgusting. Please do something to stop these calls. We are on do not call lists and they are worthless.
Lloyd	Wilmington	DE	Especially some plans change for minutes or maximum calls, this practice must end! Please do whatever you need to to invoke penalties for those who abuse privacy!
Elizabeth	Anoka	MN	The Robocalls to Cell Phones are a real issue for users on limited plans because they can significantly increase Cell Phone bills. I do have one company that has my number listed for someone I have never heard of. I cannot get them to stop calling my phone. It is more than frustrating, it causes financial problems for me. I have had my phone number since 1997 and I don't think I should be made to get a new number to fix a credit companies error. If they were responsible for the overages they caused, it would help, but there needs to be some kind of penalty associated with it too.
James	Victorville	CA	Please let me do my work instead of picking up the phone for another interruption. I'm serious. It happens five to ten times a day and provides no service.
Graziano	Henniker	NH	Please stop robo calls to cell phones. They call me at all hours of the day and waste my time and money. Moreover, I have the same robocallers calling from all sorts of different numbers, as they cloak their number as if it were another number. So, even if I wanted to call back and tell them to stop calling me (because I have), the numbers never work. PLEASE HELP STOP THE MADNESS!

George	Happy Valley	OR	We've been on the Federal No Call list since 2003, but it is routinely ignored by many businesses. If I or my wife needs something we know who to contact, they don't need to bother us! Please, please, please put an end to robocalls! They are annoying, you have to drop everything to answer because you don't know if it's an emergency, and then you find it's a sales pitch for something you don't need. If by chance it would be something I want, I certainly would not buy it over a phone call. Who knows if it's even a legitimate business. Please listen to people like us that are annoyed at these calls. Put an end to robocalls for once and for all!
Rosemary	Pittsfield	MA	To save expense and because we don't like using cell phones, my husband and I find our Virgin Mobil pay as you go phone perfect for traveling. Few people even have the number. We have been shocked now by the number of robo calls that are now coming through on that phone and which WE are paying for. Please stop this practice.
Ken	Oxford	GA	So tired of getting Robocalls on my cell phone and land line phone. Invariably, the calls come at meal times and are so intrusive. Please stop them.
Sean	Concord	NH	No thanks.
Betsy	Gurnee	IL	Please stop robo calls
Sandra	Upland	CA	I spend the day answering call I do not want most are robo calls or call center calls from people wanting to sell me things (mostly services) I do not want. Often I will get several calls from the same "company" after I having told them NO! NOTHING STOPS THESE PEOPLE SOME OF THES COMPANYS HAVE CALLED ME 50-100 times in the last couple of years. I am 73 years I would like to relax and enjoy the time I have left, not provide what I do not know since I would never purchase anything from a cold caller.I am on all the .DO Not Call Lists.
L	Simi Valley	CA	I am absolutely SICK of all the robocalls!! They continually harass and upset us every day! What right have these people to continue to do this and get away with it, especially after they've been told to stop? They simply do not care. Nor do our phone service providers. They don't want to do anything to help their customers stop these calls from coming in. Instead, many of us are forced to spend money on individual phone devices to try and block these calls when we should have a way to do it through our phone service providers for FREE. Both the robocallers AND the phone companies are greedy and uncaring. Thus, we need the FCC to care about this enough to put an end to all of the robocalling insanity. Please! Enough is enough!
Fouad	Livonia	MI	Stop the robo calls! From all sources, including political. Also take control of cost of cable tv. The cost increase ten fold compared the rate of inflation

John	Benicia	CA	End ALL robo calls (not just cell calls) including political campaign robocalls. Pass a law that requires a living person to dial all telephone calls. Make carriers block all automated dialing. I call this the robo wooden shoes job incentive program.
Elaine	Oceanside	CA	I am so sick of my phone ringing constantly from no information on the Caller ID, no messages left. They must be recorded messages, or Robocalls. Stop this invasion of privacy. I also had blocked numerous phone numbers on my phone but they still keep on coming.
Loretta	Battle Ground	WA	Three years ago we discontinued the use of our land line telephone because 80% of the calls were robocalls or solicitor calls. Our phone number was enrolled on the national "Do not call" list but it was not effective. Now we're faced with the same situation again. Please rule that citizens be allowed their privacy by blocking the calls of solicitors and robocalls on their cell phones.
Wilfred	Indpls	IN	The no call list needs strengthening. When it first started it worked well, then foreign representative companies took over and do not have to answer to anyone, even though caller ID says it is either a local call or at least a US call. It needs to stop as now as my cell phone is getting many of these same calls.
Deanna	Brewster	NY	Re-occurring robocalls are equivalent to home invasion!!!
B	Minneapolis	MN	They interrupt my usage of my phone and make me lose calls and also use up my data on my cell phone which costs me. They are rude, also!
Jerome	Bellaire	TX	Too many robocalls! Enough already! Make them stop!
David	Los altos	CA	Please stop unwarranted robocalling for debt collection or other harassing activities
Robert	Falls Church	VA	It is my understanding that only firms you have previously done business with and charities are allowed to call. However, those restrictions are being ignored. We probably get ten calls on day on our land line and cell phones. They are a great irritant. I wish they could be eliminated.
Tony	Athol	MA	I have a disabled wife and to have these ridiculous calls coming in all hours of the day just isn't right. I feel like unplugging the phone but i can't and when I'm out in the yard doing something the damn phone goes off again and again. ENOUGH!!!
James	Corona	CA	Please stop all robo calls, including cells and homes
Bertram	Livingston	NJ	I am plagued at both lunchtime and dinnertime cold-calling strangers who want me to answer surveys or buy products I do not want. This is disruptive of my meals and conversations with my family, and is causing me and mine severe anxiety and anger. Please do your utmost to outlaw these disruptions of my life. They are shortening my life and hurting my family.
Sheldon	San Francisco	CA	Robocalls victimize the elder and other vulnerable persons. It subjects them to emotional abuse and trauma as well as financial and economic loss.

Davud	Cranston	RI	Please don't allow robocalls to my cell phone. I don't want to have to pay for getting annoyed, and robocalls make it very cheap for callers to annoy vast numbers of people.
tom	rochester	NY	do it
William	Amherst	NH	I receive at least 5 robocalls per day on my cell phone. The do not call list seems to be useless! Please help with eliminating these calls. Thanks
Howard	Columbia	MD	The FCC failed to protect us with the "no call listing of landlines". FCC only collect the taxes we pay, ALWAYS failed to protect us. Shame on Us!
P. A.	Waynesboro	PA	I do not welcome robo calls. I want them to stop. They are an imposition.
Hanns	Fall Creek	OR	On average I get 2 to 3 of these a day despite being on the "Do not call" list. When I'm away from home my answering machine is usually clogged with these calls. The situation, which has always been a nuisance, is now truly becoming intolerable. I have gotten to the point where I answer my phone with a surly snarl rather than a welcoming "Hello". The phone service providers seen unable or unwilling to take action. Clearly governmental involvement is needed.
Dan	Tallahassee	FL	My business phone is a matter of public record and the robocall industry takes advantage of that by repeatedly bombarding me with dozens of robocalls each day. Please help us to fight back against this unwanted pestering.
Catherine	East AMherst	NY	No robo calls to cell phones . Stop it because it racks up minutes \$\$\$ that are unintended.
Lee	Newark	DE	Please pass a bill that helps the people that elected you to your position. STOP ROBOCALLS NOW!
Carolyn	Waynesville	NC	Please block robocalls to cell phones. No one should be able to make these annoying calls. Require that: Debt collection robocallers must notify us of our right to stop receiving calls; the number of allowed calls or texts should be limited to no more than three per month TOTAL, and only to those who directly hold federal debt - not friends or family or phone number which used to belong to someone else; and the guidelines should be clear and readily available
Ray	Chelsea	AL	Do not call means exactly that. These callers should be fined based on recipients' complaints. Not only yes but HELL YES> Block these calls!
Bonnie	N Syracuse	NY	Please do not allow more robo calls to cell phones. It is bad enough that landline phones are getting robocalls, even with the DO NOT CALL system.

Richard	San Mateo	CA	We need legislation to ban Robocalls to cell phones. Don't let it get out of hand like it already has with landlines. I'm of the mind that there should be zero tolerance for Robocall and that they should be punished with stiff fines. The current no-call directory is a farce and pretty much useless. I urge you to take strong action now before it gets out of hand!
David	Louisville	KY	Put a stop to all robocalls.
Kenneth	Ames	IA	The number of robocalls I receive means that I ignore all calls that aren't from friends or relatives. Many times I don't even go to the phone when it rings.
Jeffrey	Cinna.	NJ	These robo calls to my cell phone are the pits! Not only are they as obnoxious as the ones at home, but I get charged!
Peter	Allison Park	PA	Getting robocalls on your landline is bad enough. I certainly don't want them wasting my minutes on the limited plan on my cell phone.
Patricia	Ormond Beach	FL	These calls are very distressing because my mother goes to bed early and they wake her.
Omer	Monroe	CT	We are 90 and sometimes we are not able to get to the phone on time and if we do its with great difficulty.
Jacqueline	Bronxville	NY	I strongly oppose robocalls to my cell phone. I do not wish to be harassed by these unwanted calls. We need strong guidelines to protect people from abusive debt collector robocalls.
Larry	Walnut Cove	NC	Please put an end to these bothersome interruptions to our daily lives. They amount to nothing more than harassment. Thank you.
Mark	Pearisburg	VA	Its time to shift the burden of responsibility to the caller. Make them ask our permission to robocall us at all, rather than just make it possible to stop them after they have already started the calling.
Howard	Charlottesville	VA	Stop all robo calls especially to cell phones.
Lisa	Ojai	CA	Robocalls consume our cell phone minutes, our attention, and our time; while the caller invests neither their personal time nor attention. Often, they are not on the line when we answer. As a result, it serves as a kind of harassment that costs the public money. This undermines social and economic good. Yet, companies will make their actions based on their profit motive. It is the role of to protect the good of the public. In this case, that good seems clear: ban robocalls to cellphones!
Nicole	Columbus	OH	Stop.
Nancy	Warrensburg	NY	As I am a senior citizen I have difficulty going to the phone to answer a call I don't want. I am especially annoyed when the person cannot pronounce my name or speak clearly so that I cannpt understand him. Please find a way to stop these calls.

Pyara	Bloomfield Hills	MI	Robocalls about emergency situations and public service announcements are reasonable and in the public interest. However, unsolicited political and commercial announcements are a nuisance and disturbing. The number of such calls or texts should be limited to no more than three per month, and only to those who hold federal debt--not friends and family.
herbert a	garden city	NY	the are not taking notice of my no call list there should be some way of jamming those calls
Diana	Austin	TX	Please do not allow robocalls to our cell phones. It is very irritating and unnecessary. We want robocalls outlawed for home or cell phones.
edward	norwich	CT	Please stop them from bothering me and my family. They are a nuisance.
Wayne	Williamsburg	VA	Please do what it takes to stop robocalls. They are significant public and private nuisance
Edward	Yorktown	NY	The number of Robo calls I receive daily has increased significantly. In addition, the times at which these calls are made are getting later and later. I am now having to disconnect my landline if I want to not want to be disturbed. I have entered the national "Do not call" database to stop these calls stopped, but they continue. In addition, the government sponsored calls are also not wanted. These particular calls are done over and over again. These companies, the government and individuals have no right to force me to disconnect my phones to have peace at home.
Frank	San Francisco	CA	I am outraged that robocalls are allowed. Blind numbers that change with every call make are impossible to deal with. Many of the numbers are blind numbers . My phone is paid for by me and should not be used as a free way to sell me things I don't want or authorized. they should be outlawed by the FCC. Companies that break the law need to be fined and the money used to lower the federal, state and local taxes we pay on our phone accounts.
Richard	Holtwood	PA	Please stop robo calls.
Susan	The Villages	FL	Please ensure that calls to my cell phone are governed by standard privacy considerations. Particularly important is that robocalls be restricted so that I am not forced to pay for calls I do not want nor authorize.
Donald	Ann Arbor	MI	There already ought to be a law on the books limiting, if not outright banning, robocalls, except in limited circumstances. They are an ungodly menace.
Phyllis	Plainfield	IL	ROBO calls for any reason should be banned. They are annoying, abusive, and absolutely unnecessary. For those of us who are seniors, it means getting to the phone and that usually is physically difficult. It certainly raises my blood pressure quickly. Get rid of ROBO calls.
Richard	E. Sandwich	MA	Please allow us one privacy in life. Stop Robo Calls

Val	Odenton	MD	Save our privacy and stop unwanted robocalls. They cost us minutes in usage on cell phones and we do not wanted to be bothered with nuisance calls.
Charles & Patr	Powell	OH	Please stop the robo calls. We are on the national do not call list, and still receive several each day. Thank you.
Daniel	Vancouver	WA	I thought that I had them blocked, but they're back. They are very disruptive.
k	orting	CA	NO Calls
Ruth	Tuchahoe	NY	NO NEED TO HAVE POLITICAL OR FUN-RAISING CALLS STARTING AT 9 AM STOP THEM FOREVER
Carmen	Lexington	MA	It should be against the law to receive calls from business who we do not even know, we don't want to hear from them even Charities who we never heard of before. End all robocalls. NOW No more excuses.
Bonnie	Avon	CT	Although I'm on the no-call list, I am bombarded with robocalls. Even though I block the numbers, they obviously have many more. Please stop these calls!
Randy	Ballwin	MO	They wake me too often for wrong number - MAKE THEM STOP!
Ed	Export	PA	every day multiple calls. please step up!
Jon	Pueblo	CO	Every night, after sitting down to watch some TV, the phone rings. Sometimes it's our home phone and sometimes, it's our cell phone. Either way, it's a big nuisance, disturbing our lifestyle. And as seniors, we have a limited number of minutes each month on our cell phone plan. We say "NO!" to robocalls of all types, but especially to our cell phone.
Ashok	Mission Viejo	CA	Always calls during lunch or dinner and frustrating. End up getting mad at genuine callers. These thugs should be stopped sent to prison to let them feel what happens when their rights are taken away to be at home with family. They are interfering in our rights to have peace and happiness.
Leon	Haysville	KS	Please count me in for supporting regulations to prohibit unsolicited robocalls to cell phones.
Don	Fort Wayne	IN	This is intrusive and adds risk to the cell phone user and they may be driving or other activities that this distracts them from.
CLARA	BOYNTON BEACH	FL	ROBOCALLS ARE AN INVASION OF PRIVACY, A WASTE OF TIME, AND MY MONEY. REGULAR PHONES AND CELLS A RE FOR PERSONAL USE AND FOR FRIENDS AND FAMILY . I PAY FOR THESE CALLS AND I SHOULD SAY WHO USES THEM. THESE PREDATORY COMPANIES DONT CARE HOW OFTEN THEY CALL AND LEAVE MALICIOUS TEXTS ROUND THE CLOCK

Samuel	Gainesville	FL	Because of the plague of Robo-Calls in the United States and the vast amount of time my family and I spend answering such calls, I urge the FCC to make a rule which prohibits Robo-Calls using both land lines and cell phone lines. For a senior citizen, like me, answering the phone and then having a blank-line at the other end, which expects to me to hold-on anywhere from a second or two to more than fifteen seconds, I find these calls objectionable. Why may you ask do I answer and then await the caller to pick-up. It is because I ask them never to call me again. That doesn't work all of the time. Please take action to stop this plague.
Wally	Houston	TX	I get robocalls to my personal cell phone, home and office numbers despite putting the numbers on the do not call list for the fed and state. They are a nuisance and an invasion of my privacy. I urge you to stop them.
Amy	10024	NY	Robocalls are an intrusion on my privacy and a pernicious waste of my time. I don't want them on my landline, and I don't want them on my mobile line. And for people who have to pay for calls received as well as calls made, they are more than just a nuisance, they are costly. Please STOP robocalls!
William	Ithaca	NY	I don't understand why robocalls are allowed at all. I have registered with the do not call organization, but it doesn't seem to matter. No one I know has anything but a hostile reaction to the feeling of intrusion they generate. These calls make people angry. Is this just so the phone companies can make more money? It really is outrageous. Once a day I get a call from someone saying this is my "last chance" to refinance my debt- which I don't have. When I once stayed on the line to tell them I didn't want these calls anymore, she said there was nothing I could do about it because I use a credit card. And so they continue to call. I block their number and they call the next day from ANOTHER number! Same message. I don't understand why we are held hostage to the intrusions of corporations with which we have no interest. At home! Is this what we want? More stress from unsolicited sources?
Ronald	ARLINGTON HEIGHTS	IL	Robocalls are annoying and to my way of thinking produce very little result except from the uninformed consumer who these vipers prey on.
Jon	Pound Ridge	NY	I get in excess of 30 calls a day that are all robo calls. It is so invasive. Please stop these people from doing this.
Kenneth W	Oakhurst	NJ	Robocalls are bad enough on land lines, but getting them on cell phones is worse because you're forced to pay for a call where someone can either try to scam you or sell you something. It's NOT right!
Bonnie	Downingtown	PA	My phone is for MY convenience - not yours! I pay for it. Your robocalls use up my valuable minutes/interfere with necessary and sometimes emergency calls. Stop now.

Belle	glendale	CA	Please, stop. Enough is enough. If I need something, I will find someone on my own.
n	Tempe	AZ	I strongly believe that robocalling should be ban and/ or allow the consumer to block them. Please implement the strongest possible rules against robocalls to cell phones and home phones. They are an invasion of my privacy and a distraction to my life. As well the rules against unsolicited sale calls should be more strongly enforced
Mark	Hooksett	NH	Twenty five percent of tv air time bombards me with unwanted ads so I definitely don't want unwanted ad or charity or financial calls coming to my cell or home phones especially if I'm charged air time. We don't want them so why do you allow them???
DANA	TRACYS LANDING	MD	IT'S NOT FREEDOM OF SPEECH IT'S HARASSMENT AND I'M SICK OF BEING A GUINEA PIG FOR THE NEW VERSION OF DON DRAPER.
Philip	New Orleans	LA	Please ensure the most sensible regulations that protect consumers from recurring and unwanted. I have personally received RoboCalls up to three times a day. The only way to stop these intrusions was to block them by paying extra for services at my own personal expense. The FCC should adopt the following recommendations for debt collection RoboCalls: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Thank you for your support of the everyday consumer.
Viv	Franklinton	NC	Please stop the robo calls, many of which are scams. We am on the do not call list but get robo calls from different numbers offering to lower the interest rate on my credit cards, claiming to be IRS, or to be Windows saying I have a virus on my computer. We try not to answer them but sometimes pick up before we realize it is a robo call. I do report them.
Lucia	Blairstown	NJ	I get at least 1-3 calls from numbers I do not recognize everyday. I don't answer them anymore but when I did it was always a recording trying to sell me something. My number is on the Do Not Call Registry but these call come just the same. Please please! Stop these annoying robocalls.
Santy	Novi	MI	I have absolutely had it with robocalls. I have signed up for the DoNotCall registry several years ago, but the robocalls have not stopped. Please put an end to them NOW!!
Russell	Wausau	WI	Do not authorize any robocalls of any kind.
Harvey	Marietta	GA	It is very disturbing to get these call at dinner time & at 9 pm.
Edward	Brooklyn	NY	Please end these unwanted calls

John	St Charles	IL	As a Realtor, my cellphone number is posted all over the internet so it's easy for spammers and spammers to call me to try to hook my=re in or try to sell me unwanted services. Often these are robocalls which I then have to save as a contact as SPAM CALL in my mobile phone, and then block. THE PROBLEM IS THAT ROBOCALLERS USE MULTIPLE NUMBERS FROM AROUND THE COUNTRY. So even if I block them from one number, I still get calls from the same "party". PLUS, I HAVE TO ANSWER AN UNKNOWN NUMBER, AS IT MAY BE A BUSINESS LEAD OR CLIENT. ONLY AFTER ANSWERING THE INTERRUPTION DO I FIND OUT IT'S SPAM! Other than appointment reminders and confirmations (eg doctors), I have never received a robocall that I wanted to receive. Please BLOCK SPAMMER ROBOCALLS!
Fre	Woodbury	MN	It is time to stop all robocalls. It's a total nuisance and waste of consumer's time. Getting the same robocalls over and over is driving us consumers near insanity.
Lori	Portland	ME	Please stop the robocalls. It's a waste of people's time and money. Please advocate consumer protection laws!
Thomas	Jenkintown	PA	I am outraged that the government is not protecting me against robo-calls that harass my household day and night. The do-not-call list is apparently ineffective. There needs to be a way to block these calls, with strong enforcement for violators. Failure to protect people against this abuse is an example of how inept our government has become.
Brent	San Diego	CA	Please do not allow robocalls.
Tom	Sunrise	FL	I have been inundated by these robocalls for over a year and signing up for "Do Not Call" has not stopped these egregious creeps. This has to stop!!
Wayne	Fort Walton Beach	FL	Don't let financial institutions block the end to robocalling.
Jill	Bolingbrook	IL	No, no, no, no, no!
Philip	Yuba City	CA	Robo callers must reimburse the public for time and expense associated with Cell Phone Charges A law stating the Robo Caller mst pay \$2.00 when the cell phone owner responds to the call. This fee could be activated thru Apple Pay, eBay or other such companies.
Vince	Marianna	AR	Night after night, day after day. Land line and cell phones. Enough is enough. Please stop these unwanted intrusions into our family home.

Lucienne	San Jose	CA	To whom it may concern, Please STOP ALL ROBOCALLS to CELL PHONES and Landlines for once and for all, enough is enough !! Also, as a general rule (for ALL Businesses, Companies, Financial Institutions, Phone Companies, Third Party Companies and the like) and this is what the LAW should be; One should be able to 'Opt in' to something if they so desire and Not Having to Have to 'Opt out'. Debt collection Robo Callers must notify us, and only those who directly hold federal debt not friends and family, of our right to stop receiving calls. And the number of allowed calls or texts should be limited to no more then three (3) per month. The guidelines should also be clear and readily available. Please make sure our Privacy is always Respected and Protected, it would be very much appreciated. Thank you for your time.
Manfred	Louisville	KY	I get bombarded every day with robocalls on my land line, and for some time now also on my cell phone. All my numbers are on the federal no-call-list. This has to stop. Do something about it.
Lynn	Centerport	NY	I am so tired of receiving robo calls to my cell phone. I receive at least 3 a day about while that might not seem onerous it is 3 too many!! It appears as if "Do not call lists" are useless.
George	Haymarket	VA	These calls are a nuisance to everyone who has a phone and needs to be stopped. NOW!
Stephen	Gilbert	AZ	Please eliminate robocalls. I get them on my landline and my cell all the time and I even get robocalls for the person(s) who had my numbers over five years ago. They start around 8 am and end around 9 pm. We even have our numbers submitted to the DO NOT CALL list. Even when we wait online until someone answers and we request that they put us on their do not call list, they just call us from a different number. Anything you can do would be very much appreciated!
warner	Atlanta	GA	Please do something to stop this abuse of telephone service.
Darin	Castle Pines	CO	Please put a stop to robocalls to protect our privacy.
Douglas	Brick	NJ	I am retired from a disability that hinders my getting up out of a chair and walking. Sometimes I get to the phone only to have the robocall hand up on 3 rings. I have also gone to the phone and seeing a New Jersey number answer the phone. I find out someone is trying to sell me an item, service, etc and they are in another state or out of the country. I have asked the caller on other occasions if they were a robot. I would ask them to say they are not a robot. They would only tell me that they have answers program into the computer. Now I am receiving robocalls on my cell phone. This has to stop.
Carol	Nazareth	PA	We moved recently thinking that the calls would stop since we had a new number. It only took a month for them to catch us.
Anthony	bodfish	CA	fcc please stop the robocalls

Richard	Peachtree City	GA	Please stop the robo call to cell phones. I was able to block them with my land line and I want to do the same with my cell. It would also be nice to prevent any telemarketers from calling cell phone numbers. It is quite annoying.
Judith	Phoenix	AZ	Highly annoying/unwanted calls need to stop.
Donald	Athens	AL	I get at least one Robocall per day on my cell. Most are repeats and always ignore opt out requests with an immediate hang up and a later call from a different number. It is maddening especially when driving or in the office.
Ethel	Bakersfield	CA	I receive up to a dozen "unavailable" "toll free" "private" type calls a day. They wake me up, cause me to pause for nothing, and often just take up space on my answering machine with silence or noise. If they are "unavailable" than so am I. I don't need any solar energy calls; if /when I decide to go solar I will follow up an ad I see or talk to people who have solar. I make it a habit not to give to solicitation calls; again when I do give it is through the mail or on line. Organizations calling for money need to just leave a message... and not keep calling. It's infuriating to see a number try numerous times in one day or over several days... and especially so if I call the number and find it's not in service. (I gather that there are some lines available at some times for donation calling.)
Honz	Tucson	AZ	The call robots are disturbing me. Please stop.
Richard	Wellington	CO	I am 73 years old with health issue's.The last thing I need is telemarketers calling me.I have enough to deal with right now!!!!!!!
cindy	thorndale	TX	robocalls waste our time and precious minutes!
Robert	Glastonbury	CT	We have a home business that regularly receives calls from our customers. Robo calls and other solicitors are a time wasting annoyance. We have a right to have our phone number limited to those whom we choose. The technology to have unwanted callers stopped from continually calling is available and should be used. Take action for the citizens and tax payers now!
David	Hamburg	NJ	I don't want to be bothered by unwanted calls on my cell phone. I use it only for important calls they cost me important minutes on my cell phone plan. I don't believe any robocall is important and they should not be allowed.

Joe	Palm Harbor	FL	One key activity of all government regulatory agencies should be to protect citizens against unwanted intrusion. The Federal Trade Commission's "Do Not Call" list is well intentioned but virtually useless as it has minimal enforcement and no teeth. Hopefully the FCC can do much better. Please do your job and implement regulations that actually favor citizens over intruders by enacting the strongest possible regulations against all robocalls, including those to cell phones. Please make the regulations very specific so that slimy organizations will not be able to sneak in under cover of the few legitimate robocalls from government agencies, doctor appointment confirmations, etc.
Sandy	Boston	MA	It is long overdue, please stop all those annoying, disrupting, time wasting robot calls now. THANK YOU!
Alan	Encino	CA	I am receiving robocalls on my cellphone on a daily basis now. Please enact rules and legislation to control this problem.
Art	Clarkston	WA	Please stop all telemarketing ROBOCALLS effective last year.
Christine	Santee	CA	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family
Kelly	MURRAY	UT	As an American, I value the right to pursue a life of happiness and joy -- isn't that what it's all about? When the time comes that the typical American -- or ANY American -- actually looks forward to having their dreamed-for life INTERRUPTED by a Robocall, I would love to be notified. If anyone has any ability whatsoever to put an end to this purely-criminal annoyance, they certainly ought to do whatever is necessary to put an end to Robocalls. We have a right to put a "No Solicitors" sign on the front door to our homes. What right does ANYBODY have to call and interrupt absolutely ANYONE, regardless of whether they are at home, in prayer, performing a live concert in front of a 15,000-member live audience, or driving down the freeway, without permission? Let alone, setting up a MECHANICAL DEVICE to make the call? This is an absolute violation of the rights of humankind to pursue their dream of seeking happiness for themselves, their loved ones, friends and fellow countrymen and women.
Linda	Carpentersville	IL	Not only do these calls wake me up on the only day I can sleep late, my phone constantly rings during the work day, sometimes when I'm in meetings with out Board of Directors. This is completely unacceptable! I'm on the "Do Not Call" list - how can they legally keep doing this to me? You need to stop these annoying, interfering calls that no one wants or appreciates.
Barbara	Austin	TX	These calls are so annoying. Sometimes the same number calls three times in one day! I am on two do not call lists but doesn't matter. Why even have them?
James	Sequim	WA	I am sick of getting Robocalls.

William	Redmond	WA	We have basically cut off all calls due to the gross FAILURE of the do not call list and implementation of robocalls. It is time for government agencies and even the dysfunctional Congress to think of and protect the citizens instead of those with deep pockets.
Linda	Alexandria	VA	Robocalls are a terrible nuisance. You simply can't get them to stop even when entering your name in a no calls list. If I want to contact an organization, I will call them directly. I can't stand being constantly bombarded with unwanted phone calls soliciting money.
Nancy	Romeoville	IL	We are bothered enough with our landline robocalls into all hours of the night & weekends. Please leave our cellphone alone.
Alysa	Weed	CA	Robocalls are an invasion of our privacy.
Richard	Madison	WI	Somehow I keep getting robocalls on my cell phone about lower interest rates for credit card charges. Since I have not carried over a credit card balance in probably 40 years, I am not interested. Why should they be allowed to hound me? Thank God I have not gotten tangled up with debt collectors (yet).
Ben	Magnolia	TX	To FCC: Please do something about the number of robocalls I have been getting lately. I have signed up for the government's "Do Not Call List", but this does not seem to stop the calls. When I tell them that I am on the "Do Not Call List", they immediately hang up and promise not to call again. However, I continue to get these calls, especially from some company dealing with student loans. I am retired and it has been 45 years since I was a student, and all of my debt has been paid in full long ago. Thank you in advance for your help in this matter and have a great day.
lynn	severn	MD	An unusually large uptick in annoying "junk" phone calls this year prompted me to see if my 'do not call' had expired. To my surprise it hasn't - so why so many calls every day? Thank God for caller ID, but still annoying when phone continues to ring interrupting our dinner and other family activities. Very frustrating that there's nothing we can do to stop it - please help.
Roswitha	Denver	CO	To the FCC: I strongly object to robocalls re debt collection and/or advertisement to cellphones without the explicit consent of the cellphone owner. These calls are not only annoying, but costly, intrusive, violating one's privacy and interrupting family life. The USA should join some European countries, in particular Germany, in regulating and restricting robocalls to cellphones.
Pat	New Orleans	LA	Number of robot calls continues to increase. I had one this morning at 7:49a.m.! Calling a home at that hour is really an invasion of my privacy.

Wayne	Lancaster	CA	Our priority is to go about our business without undue interruptions. Spammers' (and robocalls are just one more type of spam) priority is to make money. They attempt to do so by playing the statistical game of throwing out BILLIONS of messages to uninterested and busy recipients, in hope of a microscopic number of responses. The nature of our communications system today allows the spammers to do this at very little direct expense to themselves, while they do cost us all of us a severe load on our communications infrastructure, and our personal right to freedom from unwanted messages. The private sector is happy to pass these costs on to the consumers who are being distracted and annoyed, stressed-out and sometimes even duped by the spammers. Only the public sector can effectively address the problem, because only the public sector truly has the welfare of ALL the people as its top priority. Please do whatever it takes to reduce all forms of spam, especially cold calling, and most especially robocalls.
David	Janesville.	WI	Debt collection agencies should have to notify consumers of their right to stop receiving calls. They should be limited to just a call every two weeks and only to the person and not to family or friends. And these guidelines need to be clear and readily available. Thank you.
Daniel	New Berlin	IL	Mostly leave my cellphone off and use the answering machine on home line because of robo -calls and sale/political/charity/scam calls. I feel my free speech is being violated.
Neysa	La Puente	CA	It is so annoying for these places to keep calling you many times a day. Half of the time, you can't get their number. If you get the number, you don't get a live person on the other end. I have called many back and told them the person they are looking for does not live at my home. Have asked them to quit calling, but they keep calling. Very irritating. None of my family owe any money. I have had my number long enough for them not to be calling. Every few minutes is to the point of harassment.
William	Bolinas	CA	Please stop the robo calls.
donna	cave creek	AZ	No doubt collectors want their money but if an ex-lover called as often as they do it would be called HARASSMENT. REGULATE. Leave friends and family out of it.
William	Palm Desert	CA	The do not Call Registry does not work. Robocalls are a Scourge to our peace and quiet please kill robocalls
Walter	Half Moon Bay	CA	Please exercise your authority over phone service to end the practice of robo calling to both cellular, VOIP and local landline phone service. This technique renders the phone service unusable. It must be stopped to protect our privacy and peace. There is no useful purpose I can envision to continuing such abuse.

Jonathan	Honolulu	HI	Do you want robocalls to your cell phone? Neither do I or anyone else.
Ronnie	West Monroe	LA	FCC , please understand that I have no unpaid debts; however, I do not think you should allow invasive robocalls.
bruce	escondido	CA	Even when I register with the Federal "Do-Not-Call" registry, I still get such calls. There needs to be significant fines for such calling.
Ann-Marie	Frederick	MD	It is annoying and the majority of the time I wasn't the person that they are trying to reach. My phone is for my friends and family or personal business with whoever I gave my number out. In this time of scams, there is absolutely no way I would deal with anything over a phone anymore. While filling this out, I just received a robocall for setting up a business that wasn't requested. I have this happen several times a day.
James	Florence	SC	Since the do not call list is ineffective for both my home and mobile phone, the only way I can see this ended is through further legislation. Putting penalties on the abusers as well as compensation for the abused. I do not need credit protection, a home security system, and credit calls for people I have never heard. The number of calls continue to increase with nothing being done about it. The do not call list is not working.
Esther	Wellington	NV	Unwanted calls are rude and disrespectful.
Christopher	Kansas City	MO	The number, frequency and occurrence of unsolicited calls is out of control, past efforts to curtail this activity has been too ineffective. Let's shut this down now!
Birl F.	Chicago	IL	I don't want to listen to those robo calls that use my minutes
Courtney	Montville	NJ	I get at least 5 robocalls a day, many from the same sources using seemingly random numbers from all over the county. They interrupt meetings, and call late at night and early in the morning. Maddening! Please find a way to stop this abuse.
James	Tulsa	OK	The number of robocalls has skyrocketed. Not one day goes by when one of these calls comes to our phones. Many times no one is on the other end so it is questionable if it is a legitimate, non-legitimate, solicitation, or phishing call. The only answer is to enable the consumer to stop these in a simple and straightforward manner.
Bill	Austin	TX	No robocalls should be allowed to cell phones at all. I get several spam calls a week to my cell phone, sometimes several calls a day. None of these are legitimate, I'm on the do not call list, so these callers are not respecting current federal laws surrounding who can be called or which devices can be called. Please do not weaken existing prohibitions whether it's for debt collectors or anything else as that can only make things worse. I'd much rather see you increase policing and fines around unsolicited calls to cell phones.
Don	Bellingham	WA	Please give stronger laws to Robocalls
Danny	Orlando	FL	STOP the calls NOW!!!!!!!!

Jay	San francisco	CA	I am tired of being bothered by robocalls on my landline and mobile phones. Please help end this scourge!
ERIKA	Nazareth	PA	Please STOP ROBOCALLS.
Sandra	Humble	TX	I strongly oppose any Robocalls to cellphones without the owners prior approval. Cellphone plans are very expensive and intimate in nature. No one wants to receive calls from anyone they don't know. Whether they're at work, rest or play. The idea of having Robocalls made to my cellphone number is absolutely ridiculous. Then the idea that debt collectors are calling cellphone owners about someone else's late payments is simply bad form.
Grant	Norwalk	CT	Robocalls are nothing short of an invasion of the American home and the privacy of the American citizen. Please take the action necessary to prevent all robocalls.
Janet	Lanoka Hrbr	NJ	I DO NOT want ANY robocalls on my cell phone Or on my home phone! they are annoying, irritating and the DO NOT CALL line is ineffective!
Travis	State College	PA	I GET MORE ROBO CALLS ON MY HOME PHONE & CELL PHONE THAN ACTUAL CALLS
Mary	Los Angeles	CA	Unfortunately, there have been people that I don't know anything about that has used my address, I get these ROBO calls for people that has never lived in residence, lived here for 26 years, had the same telephone number from 1989 until 2008, the number was disconnected, got the same number back in 2015, so now I get all robo calls and debt collectors for people I don't know. I tell them I don't know them, have offered to send them notarized letters stating that, they still call, I take medication because of all the unwanted calls, I get panic attacks, I don't have an answering service on my home phone because of all the debt collection calls and robo calls, I don't owe anyone, and pay all my bills, don't have any outstanding bills. My cell phone, I get back to back robo calls, sometimes 2 or 3 min apart!
Carol	Bryson City	NC	Please stop Robocalls!
John	Brandon	FL	As a result of robocalls and political phone calls inundating my landline, my telephone has been rendered virtually useless. I receive so many calls from 8 am to 9 pm with caller ID's that are either "unknown", "out of state" or simply not recognized that I do not answer any of them. It seems that the "sanity of my home" has been invaded. It's bad enough that I have to listen to disgusting political attack ads on TV, I do not desire to waste my time answering unsolicited phone calls. Please do something!
David	Longwood	FL	Please enact legislation which prohibits companies from initiating robocalls of any type for any reason, including, but not limited to, political groups, non-profit groups and others that disturb and disrupt a normal day's routine. The allers are not identified in a manner that the calls can be selectively ignored. Thank you in advance for your concern and interest.

Will	Little Rock	AR	People that are being contacted by debt collectors are more likely to have limited cell phone plans. Please do not allow collectors to incur more charges for those who are least able to pay. Please make sure that the rules are clear and require that the collectors reveal those rules up front so that consumers know what their options are regarding controlling the contact.
james	Twinsburg	OH	I live in Ohio and already, I am receiving robocalls for political candidates. I am on the do-not-call list and this is ridiculous. Why should I be subjected to this harassment. Stop robocalls now!
Mike	Salem	VA	please no robo calls to my cell I'll end up burning up all my minutes
David	Marietta	GA	I have been getting an increasing number of solicitations and robo-calls on my cell. I am a dentist. The phone rings during the day at work and distracts us all since my # is the "Emergency" number for the office!!!!!! I had put my number on the "Do Not Call" list...but these horrible calls keep coming. PLEASE make this sort of thing illegal. I have NOT and WILL NEVER voluntarily agree to be solicited on my cell phone. Thank you
Mary	Bark River	MI	Please pass rulings that end robocalls to cell phones. It is bad enough to receive these call at home but now the harassing is moving to our cell phones. I've chosen not to answer my cell phone many times because I do not recognize the number. It is very annoying to be at work and have my cell phone constantly ringing for nothing. Many cell phones are on plans with limited calls or data and these calls rob them of the time they are paying for or adding additional cost to their plans. Thank you for listening. peoples
Donna	Palmetto Bay	FL	Why do these robocalls always call at dinner time? If you try to talk to them, they hang up, so now I just hang up first! Can't we put a stop to these unwanted calls, please? My 86 year old husband with hearing aids has problems communicating with them and gets upset, as do I!
Roland	Columbia	SC	Robo calls are intrusive, abrasive, and a marked nuisance ... even those from political organizations and parties. STOP them all. They add nothing and are just a bother. Your freedom of speech does not trump my freedom for silence. The ROBO call invites the uninvited into my home. I should be able to walk away, but, I become a captive audience. STOP them all.
Karen	Corona	CA	Please stop the Robocallers who call our cell phones!! I pay the cost of my cell phone bill and phone out of my own pocket, to talk to the people I WANT to talk to. Robocallers should not legally be able to call us trying to sell us stuff we don't want. They are rude, in addition to everything else.

Pat	Dawsonville	GA	Because of the incurred costs (money and minutes) of receiving calls and texts from unsolicited callers, I am NOT in favor of robocalls. In addition, they are INVASIVE and often occur at early or late hours of the day. As for debt collectors, they must notify us of our right to stop receiving calls, and the number of allowed calls or texts should be limited; I suggest 1 per week. That contact MUST be limited to the person who owes the debt...NO contact with family, friends, or co-workers. Any and all guidelines that are ultimately set need to be made CLEAR and be easily accessible/available. Thank you.
Jon	Arlington	VA	Robocalls of all types (not just bill collectors, but also telemarketers and politicians) are an obvious abuse to the peaceful hearth and home of Americans. Please use all the power and authority at your disposal to bring an end to ALL of them, from ALL sources, via ALL means of communication, at ALL times.
Chas	Germantown	TN	"Robocalls" call my home phone number from early morning till late night most every day, frequently interrupting meals, personal and family activities. Fraudulent and criminal activities are enhanced or facilitated using robocalling(ex. pretending to be the IRS, informing me that I owed money). AT&T and other carriers are profiting from this invasion of privacy by making available their subscribers and by severely limiting the number of "blocked callers" that I may designate from my home phone. I urge you as representatives of the American people to take responsible action to stop this harrassing practice, or to find someone who will.
calrolyn	locust grove	VA	These calls are not just annoying, they have me hopping up and going to the phone. That probably doesn't sound too awful but when you are a senior citizen with arthritis it is very, very worrisome. Please vote to stop them on landlines as well as our cell phones. Thank You.
Donald	Redmond	WA	Tired of receiving calls from all over at all times if day and night. I do not pay for my phone service to receive these calls.
Edee	Lauderdale	MN	Keep my cell phone # away from predator robo calls.
Leon	Medford	OR	Make robocallers and their supporters; businesses, funders, associates, shareholders, board members, guilty of a crime and punished in our courts. Otherwise, actions short of this amount to "whistling Dixie".
Daniel	Sherwood	AR	I wish to advise the FCC that there is nothing more obnoxious, wasteful of time, and a totally undesirable experience than to be on the receiving end of ANY robocall, irrespective of the reason or intention of the individuals responsible for their initiation. I am not in favor of the private sector having the legal right to invade my privacy on my equipment and believe that the major phone companies that profit from customer revenue should have a fiduciary responsibility for preventing this travesty.

Robin	Burleson	TX	Distracted driving is dangerous and we don't need to add Robocalls to distract drivers even more. I understand that Debt collectors have a job to do; however, that should only involve the person with the debt... it should not include relatives, neighbors, people who unluckily got the debtors old number.
Stephen	Palo Alto	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Judith	Naperville	IL	The guidelines for cell phone robocalls should be clear and readily available. Only those who hold federal debt, not family.or friends should be called. Robocalls are a nuisance.
Judith	Middletown	NY	I urge the FCC to eliminate robocalls to cell phones entirely including those now allowed such as people who owe back taxes or student loans - directly or indirectly. There was a time when consumers could opt out of all robocalls entirely. Your petition indicates that robocall companies later succeeded in inserting permission for robocalls to cell phones for back taxes & student debt. It is not right that now robocalls be allowed to continue even in a limited manner such as only for student loan borrowers themselves. If robocalls were not allowed at all before, they should not be allowed at all now. Moreover re taxes the IRS has always made known to citizens that the IRS only contacts citizens by mail, not by phone, & therefore citizens should assume a tax related call is probably bogus & illegal. Don't confuse citizens by allowing robocalls regarding taxes. Lastly in the last decade or so ownership of cell phones has increased substantially in that many people have given up owning landline phones & have cell phones only. Cell phones thus are no longer a luxury accessory. All the people should not subject to robocall harassment just because they own only a cell phone.
Mari	Kilmarnock	VA	Each time my cell phone receives a robocall, *I* have to pay for that call. The robo-creeps lose nothing. It's long past time to ban *all* robocalls of *all* sorts, not just debt collectors, from robocalling cell phones. Please make it so!
George	Clovis	CA	My wife and I are retired and unsolicited, robocalls, are unwanted and extremely annoying. They usually occur at rest or other "down" times. We oppose such calls. Thank you.
James	Conway	SC	We're begging you to stop robot calls to cell phones!
Betty	Manhasset	NY	I am harassed on my cell and home phones daily, averaging 8 to 15 unwanted calls a day. I am on the Do Not Call lists, and still get calls for sales and debt collection. Those related to debt collection are only for other people! Why should I have to deal with this daily? Please stop this insanity.

Steve	Pocono Summit	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Calls/texts should be only 9-5pm local time. No night or early calls/texts Penalties should be \$1000.00 per violation. Consumers should be able to forward violations and the FCC should enforce.
Larry	Ashland	ME	Tired of calls and losing minutes I pay for to non solicited phone calls especially when I'm on the National Do Not Call List and I continually receive calls on my home line and my cell phone that must end now it's my money I don't want it I should have an option to stop it
Ted	Greenfield	IN	Make robo caller pay for air time for number called. Notify us of right to opt out..if wrong party penalize robo caller for harassment. I'd of robo caller clearly displayed
Alan	Hoover	AL	I pay for a cell phone line reserved for incoming and outgoing calls of my own choosing. If a robocaller wants to sell me something, I believe my line should, by default, be seen by that robocaller's calling equipment as a toll call, billable to the robocaller and collected by my service provider. All costs for per-call collection, application development and associated IT and network maintenance costs should also be billed to the robocaller. Furthermore, if I choose to opt out of being visible to robocallers, I should have that option, with all associated charges also billed to the robocaller.
Lee	Palisades	NY	Calls all hours of the night selling credit cards and loans.
Madeleine	Seattle	WA	I strongly oppose invasive robocalls and texts. They are an invasion and abuse of privacy and should be stopped altogether. At the very least: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. Thank you, Madeleine Sosin
Annette	Northport	NY	Please help us stop this.
Sam	Richardson	TX	I, like millions of others, are inundated with unwanted robocalls. Please shut them down.
Marion	Sanford	FL	I was harassed by a collection agency because I had the same name as someone they were pursuing. It didn't matter that I had never heard of the company, have had excellent credit all my life, and didn't bear any resemblance to the person who had the debt.
Eileen	tucson	CA	It is a good thing to respect each one's free will election, personal space and personal time.
Carolene	Trenton	TX	I think my privacy is being invaded by ROBO Calls. I pay for my phones not ROBO.

Andrew	Highland Mills	NY	There are times when I get so many robocalls that I Ger no rest. Please stop them.
Pam	Bayonne	NJ	Please have these robot callers stop calling your cell phone you can have someone fired from a job and they are annoying that people will just let them go to voice mail. PLEASE STOP THESE CALLS people need there phone for emergency or jobs reasons and not to be annoyed5
Linda	Pasadena	CA	Debt collection robocallers should be mandated to follow clear and concise guidelines. Those guidelines should be available for review; the collectors must notify patrons of the right to stop receiving calls; the number of allowed calls or texts should be limited to no more than three per month; and they should only be to those who directly hold federal debt, not friends and family.
Javier	Oro Valley	AZ	Please take immediate action to stop annoying robocalls to cell phones!
Ashley	Virginia Beach	VA	End robot calls A waste of my time ,and why should I have my at home time be interrupted by calls that I have no interest in I really don't want polictians or anyone calling for them PACs etc
Wendy	Denver	CO	How maddening to have to pay for calls I don't want. I also have a non-solicitation number! No more Robocalls!
PETE	Sebastian	FL	The calls are now three or four a day, but a month ago I was getting ten. No messages just annoying busy signals. Ridiculous.
Ken	Rochester	NY	Please Stop the Insanity!! Please do the Right thing for improving our Society...
Todd	Asheville	NC	Give me a break! I'm tired of robo calls on my cell phone. They are disruptive, invasive and unnecessary. Dlitch them please.
Hugh	Norman	OK	You guys - Robo callers I mean - call at the worst possible times, like when I'm driving in heavy traffic., when I'm eating, and a host of other inconvenient moments. You interrupt my meals, important conversations, and on and on and on; ad infinitum. You don't care whether one is in a casino or in church making confession, whether one is driving in rush hour traffic in surgery. Or so I do believe. I don't believe half of what you say. You show no respect. This is what I wish you to tell those greedy hucksters who treat the masses, me included, as dumb suckers.
Steven	La Crescenta	CA	I am receiving robo calls to my cell phone at all hours of the day. Most irksome is when I am in a meeting and expecting an important call.
Barb	Geneseo	IL	Stop rpbo calls to cell phones.
John	San Francisco	CA	Please stop robocalls to my cell phone. I pay for those minutes, not those bandits wasting my time and money.

Molly	Evanston	IL	We are really tired of dealing with robo calls to our landline and cell phones. We ask that the FCC establish the following: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Elaine	Allen	TX	The irritation and abuse of phones that are privately owned by all kinds of companies, individuals looking for ways to bilk people out of their money and even, in some cases threaten them is a criminal thing, and should be penalized, and stopped. Collection of funds from these people is a rare thing; tie them up in the legal system and then send them to jail for a long enough period to make them think twice about what they are doing, and how it could impact them, for a change.
dan	boca raton	FL	I've was so barraged by robocalls on a new phone number that I had to change it and change the contact information I had given to friends, doctors, other places of business. The calls were targeted to the previous owner, but I got all the aggravation.
Martin	Las Vegas	NV	I have experienced robocalls for collections simply because I changed phone numbers to a number that had belonged to someone who allegedly had owed debts. There was no way to stop them and when I tried the calls only multiplied. Collection robocallers must notify us of the right to stop receiving calls. Calls should be allowed only to the person who holds the debt and limited to just 3 calls or texts per month.
Wally	Butte	MT	Robocalls are an invasion of privacy
Gloria	Santa Rosa	CA	Please stop this intrusive practice.
James	Valencia	CA	I have had to change my number due to two to four uninvited calls daily. Last week I did not accept a call from Columbia (+57 (0) (2) 352-720) ENOUGH AREADY!
Gerald	Larchmont	NY	Robocalls are a blight and should not be allowed on land or cell lines. They are inordinately intrusive and disruptive.
A.F.	MIAMI	FL	oppose robocalls to your cell phone without your permission, simply say why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Bill	Fullerton	CA	I am being constantly harassed by robocalls on my home phone and occasionally on my cell phone. The Federal No Call List is worthless without penalties for those that ignore the list. Please do not allow mobile carriers to share my mobile number with any advertisers.
chuck	oakland	CA	They are annoying.
Robert	San Tan Valley	AZ	Please make robocalls unlawful. This should be considered a nuisance and a violation of our right to privacy. Thank you.

Henry	Los Angeles	CA	It is quite annoying to receive unsolicited robocalls on our home phone. Please ensure that these calls will not be made to cell phones. The rules you establish should be clear to minimize "fuzzy line" litigation in the courts to resolve disputes. Apparently there are provisions to permit certain types of debt collection to use robocalling. Please make is such that only a specific maximum number of calls/texts can be sent per month directly to the phone of the person responsible for the debt. Also, require that each call/text includes information on how to opt out of further calls. Finally, do not allow this exception to the "no robocall policy for cell phones" expand to other industries or businesses.
Susan	Louisa	VA	My family gets robocalls from 0900 to 2100. This has to STOP! I have elderly parents and small children so I can't just turn the ringers off as some suggest. These calls are nothing more than a form of stalking! Take action and stop robocalls to landlines and cell phones!!!
Michael	Long Island City	NY	Please give this your prompt attention...
Patricia	Orwell	OH	Please stop the robocalls. They keep me in a constant state of nerves.
Rick	reno	NV	To whom it may concern, We need to do WHATEVER it takes to stop Robocalls on any device especially to cell phones. Just this morning i received two. I personally dont care about debt collectors as those folks need to pay their bills and the calls would stop. But just someone calling to "not sell me something butt", drives me nuts!!!! I dont get them often, but have signed up for and emailed everyone i can to keep from getting them but still do. Please lets stop this nonsense!! Thank You
Frank	Williamsburg	VA	Stop them, please !
Thomas	Washington	IL	I am really hopeful this campaign does something to stop these calls . My guess is the only way to stop them is to hit them in the pocketbook with a big fine. Apparently the telephone companies dont want to stop it.
Karen	Cheyenne	WY	is enough!
Evelyn	Rockville	MD	Being on the no-call list has no impact to deterring this annoyance
Meredith	Louisville	CO	None
Russell	Madison	WI	I want robo calls to stop.
Michael	NEW YORK	NY	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.

Diane	Monroe	GA	Our phone rings 10-15 times a day with calls that are annoying. We have put our number on the DO NOT CALL List and yet we get many calls to our number every day. We do not want their goods or services and would appreciate the inforcement of this list . Help us.
Charles	Montague	CA	Quit!
Robert	Sarasota	FL	This practice must be halted before robots take over all calling. It is disruptive and is intended to be disruptive.
Joel	Oakland	CA	Robocalls have become an unwelcome, omnipresent problem with all telephones, land lines and cell phones. There must be some technological solution that could be universally implemented to detect and prevent these calls from disturbing the peace of mind and wasting the time of America's consumers and businesses. Please help!
Jennifer	Gainesville	FL	Stop robocall to all phone numbers.
Betty	West Hills	CA	Robocalls are very irritating. Because we think they may be one of our family friends, or others we know, we normally stop what we are doing, find the phone, but quickly find out is not a call we want. We have been getting 7 to 10 calls a day normally (a little less on weekends). Because they are so frequent, we often do not answer the phone at all. If it is one of our friends or family, and they don't leave a message, it may be a day or so before we realize we missed their call. For us, they serve no purpose but irritation and lost opportunity.
Janes	Kailua-kona	HI	Add my name to the list of those who are sick and tired of receiving unwanted calls. Many ot these calls come from the same source repeatedly trying to sell a "fix" for a computer operating system that I don't even have.
Robert	Warren	OH	Robocalls to cell phones or land lines are most intrusive. One must interrupt what ever they are doing and answer a ring that may or may not have someone on the other end. This gets someone up from a dinner table or other activity, and may involve movement of a physical challenged person causing a trip or other accident. Ignoring the Robocall will just insure a callback. The intrusion/s is/are unacceptable.
April	Landenberg	RI	Robocalls should not be permitted to any phones, no less personal / cell phones.
Linda	San Pablo	CA	A day doesn't go by that I don't get several of these calls, many of them trying to fool you into thinking you are getting some sort of a deal, or even outright scams. One day I received four calls with the same message-- in one hour! My husband won't answer his cell unless he knows the number the call is coming from. The public shouldn't have to be annoyed by these calls and we shouldn't have to be responsible for for figuring out how to block them ourselves.
patricia	Norwalk	CT	The can come at a bad time and cause accident.We all Hate them.

Thaddeus	Tappan	NY	Please stop these robo calls on my cell phone. They are increasing in Frequency & are downright annoying not to mention a time waster
Carl	Harvest	AL	Robocalls to either our landline or cell phones are driving us CRAZY. Please implement clear and severely restrictive rules stating that robocalls should NOT be permitted.
Victoria	Oakland Park	FL	I owned a small apartment building for the 10 years I owed it I was continually harassed by debt collectors from early morning to late at nite, looking for previous tenants. All of them NEVER lived in my building while I owned it. It got so bad at one time I had to call an attorney to help me resolve getting these calls. I am "On Call" for my job and I can't put my phone on silent or turn it off. I finally got rid of my land land and that stopped the calls.
NC	Denver	CO	I have received a great many unsolicited calls to my landline and my cell phone, which are both registered on your Do Not Call Registry. I reported one particularly annoying one, and as far as I can tell, nothing was done. Spam calls (and now texts) to people's phones cost the spammers nothing - that needs to change. If every outgoing text or call cost a penny, or even half a cent, that wouldn't be troublesome for the average phone user - but the cost would mount quickly for spammers.
Andrew	Huntingdon Valley	PA	The video "Secrets Police Don't Want You To Know" at http://youtu.be/B3nok7Cby28 is 2.5 hours long but it's totally worth your time to watch the whole entire thing because it exposes how the cops, judges, prosecution attorneys, politicians, and car insurance salesmen have stolen BILLIONS from the common people as well as the secrets that anyone can follow to prevent them from stealing that money. Also check out the scripts related to the video at http://logosradionetwork.com/tao/ This video can help put a stop to tyranny and in turn bring freedom and higher consciousness to all! So please help me in my crusade to spread this info like wildfire on a global scale.
Chris	Oracle	AZ	My cell phone service is prepaid and by the minute, which means I pay for getting a robocall. This is disgusting. I have not received robocalls from debt collectors, but I do receive robocalls. These criminals should be prosecuted and they should pay their victims a large punitive penalty that will discourage this heinous practice.
Eric	Hilo	HI	Everyone hates robocalls, and one of the advantages of having a cell phone is freedom from them. Don't take away this freedom. If absolutely necessary, the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. Thank you for the opportunity to comment on this issue.

Ray	Bossier City	LA	These serve no useful purpose for the average citizen. Do the right thing and help rid us of this infringement on our privacy. Remember, that is why you were chosen ; to do the right thing.
Amanda	Montgomery	TX	This harassment must stop!
Kathleen	Windsor Mill	MD	I oppose robocalls to my cell phone without your permission!!!!!! I do NOT want to constantly have to screen my phone calls or be on the lookout for malicious texts!!!! Aslo, Debt collection robocallers must notify us of our right to stop receiving calls; The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family; The guidelines should be clear and readily available
Brian	Durham	NC	Stop
Victor	Clermont	FL	Robocalls are abusive and must be stopped. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than one per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Thank you.
Lynn	Stanwood	WA	I get enough robo calls and telemarketer calls to my home already....I don't want them coming into my cell phone too. Please put a stop to this as the stress in most peoples lives is far too high already without adding that into the mix. Thank you.
Heather and A	Waynesville	NC	Please adopt stronger rules for robocalls. They're annoying and not necessary. Even more irritating are the political robo calls.
Barbara	Austin	TX	PLEASE do not allow robocalls to cell phones for any reason, even for debt collection. I personally have no debt, but I have worked with people in homeless situations who have plenty of it. The last thing most people need when they are in stressful situations is a harassing robocall to their cell phone. The likelihood that such calls are even effective is probably not all that great anyway. Most people just hang up as soon as they know it's a robocall of any kind. This is just one more intrusion into people's privacy by corporations. We have enough of that already.
Geraldine	Albuquerque	NM	Harassing people by cellphone (or land line) is not an effective way to collect debts.
Denise	Bristol	IN	Robocalls are both a bother and expensive when it causes me to go over my limits of minutes.
Joel	Marlboro	NJ	Please act now to put a stop to the daily robocalls that have graduated from American;s land lines and jumped to our cell phones.
Richard	Sun City West	AZ	I purchased a new cell phone a month ago and with it I have started to receive many apparently robocalls. Some of them I answer to be sure I am not missing an important call. I am receiving 5 or 6 of these bothersome calls daily. Please get some legislation in place that will stop this irritation and usage of my cell phone time.

Matthew	New Lenox	IL	There is to be a Federal Collections Agency, overseeing all registered debt collections, not including real estate obligations. A.) Within First Year: NO PHONE OR MOBILE CALLS, PERIOD. One TEXT ONLY Message per day, per week, during normal business hours, for past due accounts totalling \$1,000 or above, past due within one year of due date. Maximum length of text message is 2 paragraphs. Debt obligations of \$300 or less, are free from any and all debt collection initiatives relating to Robo Calls. 2.) ONE MOBILE CALL and ONE HOME CALL PER WEEK, along with 5 Text Messages per week, during normal business hours, for Accounts Past Due over one year, \$1,000 +. Text length maximum of 4 paragraphs. 3). ONE HOME CALL DAILY, TWO MOBILE CALLS PER WEEK, ONE TEXT MESSAGE PER DAY, past due accounts \$1,000+, over 2 years past due. 4). All accounts 2-1/2 years delinquent subject to new federal collections agency mandates and percentages. All past due collection accounts meeting customized and/or mandated pay back programs and schedules for a period of 1 month or more, will be temporarily removed from Robo Call initiatives. 5). All individual debts not complying with with the federal agency's 2-year plan, will be subject to monetary, compensatory, or personal, physical, work-life pay back programs, as judicized by the federal collection agency, in alliance with the debt ownership company or individual.
Q. C,	Ashland	VA	We spend way too much time either answering or ignoring calls from unwanted sources. PLEASE let's make sure we can have some privacy and peace in our own homes. Debt collectors should have to make us aware of our rights to stop receiving calls, and the number of calls per week or month should be severely limited. I would like to see NO sales or robocalls on my cell phone at all, and no robotexts at all.
Anne	Mendham	NJ	They are more than a Nuisance -- they disrupt the serenity of my life (or what passes for serenity these days)!
GREG	NEW HOPE	MN	Rules for ROBO calls need to include opt out provisions when calls are from abusive robocallers and debt collectors. And home improvement shysters. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Tom	Watkinsville	GA	Please take steps to stop robo calls to cell phones and home phones. These calls are getting ridiculous.
Owen	Cayucos,	CA	My land line phone became impossible to use due to so many spam calls. I had to pay for caller ID to know when to answer. I then increased my cell phone coverage and for a while it was manageable. Now I receive more robocalls than personal. This has become a nuisance and an invasion of our privacy. And cost us more as well to avoid them.

Malc	Portola	CA	FCC=Effin' Corporate Colluders
Sue	Iowa Falls	IA	I bought this cell phone , paid for it monthly, it is for my use only. I have phone calls coming from people I do not know, I have never talked to them in any way. Please stop these everlasting calls three times a day. I would like to just throw the phone away. Cannot think, cannot keep listening to Tv. They ruin my day, everyday. If I want something, I will shop for it. I have never had a student loan. This is torment not good business.
Bernard	White Plains	NY	Please don't allow robocalls, even for debt collectors
jill	dallas	TX	Please stop robocalls.
Herb	Prairie Village	KS	Please protect my constitutional right to be free of unwanted outside harassment and interference with my well-being; please ban ALL robo-calling. There is enough legitimate interference made possible by current technology. More interference will immensely impact my productivity and quality of life negatively. All for less than a 1% commercial "hit rate" or "want rate". Do your job and protect the vast majority of citizens from this horrid intrusion on their LIVES. There is NO reasonable argument to allow robo-calling. NONE!!!!
Janet	Fernandina	FL	Please end robo calls on cell phones!
George	San Rafael	CA	I am unalterably opposed to the death penalty, but I would make an exception in the case of robocallers. It is a crime to kick someone's door down. Why is it not a crime to intrude on another's privacy by telemarketing and robocalling.
Richard	Philadelphia	PA	This is so annoying, you don't know who is going to waste your time next.....Ban the RoboCalls Thanks
Linda	Philadelphia	PA	Robocalls are an awful interruption to a peaceful home!!
Charles	Bovey	MN	I pay for my phone and the plan it is on. No one should have the right to disturb my privacy, at any time, for commercial, religious or political purposes..
Marvin	Waller	TX	Stop Robocalls A.S.A.P.
Mary Lou	Richmond	CA	Please prohibit debt collectors from using more than three robocalls, texts, or combinations of calls and texts a month to remind debtors of their obligations. Please forbid them from calling or texting anyone but the debtor - no family, no friends. Please require them to notify debtors of their right to stop receiving calls. Please make debt collection guidelines clear and readily available. Robocalls of all kinds are a plague. Our family has stopped using a landline - and voluntarily narrowed our communications options - to avoid them. Please don't let us become vulnerable through our cell phones.
Philip	Paterson	NJ	Please regulate robocalls

Kate	Columbus	IN	Not everyone has a data package to accept all the calls/texts these folks could make. - and be less able to pay their debts. Angry, threatening calls/texts - from anyone for any reason -should be considered harassment and be illegal. If these companies are calling/texting anyone but an actual federal debt holder, it should be considered illegal harassment, illegal invasion of privacy, and, possibly, defamation. If someone holds federal debt, can we not simply have it be part of their tax return - no calls, no texts, the IRS sends a bill, your name goes on a list until you pay it - no renewal of licenses (auto and professional), no new loans of any kind, wages garnished, etc., etc. We do not need an industry rising up whose sole purpose is to threaten and hound people when there are plenty of ways to be firm AND civil.
carolyn	Grayslake	IL	Please get rid of these calls. Or give me their number so I can call them back !!
Richrd	Lake Villa	IL	Names on the do not call list so far do nothing to stop constant unwanted calls. You have the power and duty to stop these calls as the public has so long demanded. Stop agreeing with the industry lobbyists and end robo calls for once and all.
Carolyn	Milton	DE	Consumers must be able to have control over our own lives, and be able to block unwanted robocalls with one click.
Barbara	Riverside	CA	We keep getting calls from the same venders week after week.
John	Cypress	CA	Do not allow any robot allspice to cellphones. This is an invasion of my privacy & is forcing me to pay a fee for something I don't want.
Harry	Naperville	IL	Robocalls are not a good use of time or money for cell phone customers who are charged for every call. They are also a nuisance. Only those who directly hold federal debt not family or friends should be called.
Don	Ladson	SD	I am sick and tired of answering my phone and learning it uis yet another robo call from some computer wanting to sell me something i don't want or need.. Please ST"OP.
Richard	Ocean	NJ	Land line Robo calls are not only an annoying invasion of privacy at all hours of the day but on a Cell Phone the receiver has to PAY FOR IT!
jack	West Monroe	LA	nd it irks my soul to know that our beloved congressmen have ever-so-self-servingly exempted themselves from the provisions of the Do-Not-Call list. I WILL STICK A LONG NEEDLE INTO A VOO DOO DOLL TO PUT A HEX ON ANYONE WHO DOESN'T SUPPORT PUTTING AN END TO THOSE DAMNABLE ROBOCALLS.
Ron	San Clemente	CA	Pls stop robocalls
Michael	Piscataway	NJ	intrusive
prakash	Johnstown	PA	Please stop all Robocalls

John	Whitwell	TN	Robocalls are unwanted as are other type calls so I do not answer my phone unless I know the party who is calling . I don't need these calls nor do I want them . My phone is my phone & is for my use only .
Richard G.	Charlotte	NC	We are flooded with automatic calls, most of them with a questionable background and possibilities of being criminal. Please, please stop them if you want us to continue being an ATT customer.
Norm	Mobile	AL	please stop robocalls to cell phones. thanks
George	Coral Gables	FL	Receiving robo calls on cell phones is particularly annoying because I only give my cell phone to persons from whom I want to receive calls. Unlike a land line which I can leave at home I carry the cell phone with my all of the time and I do not wish to receive unexpected calls especially when I am in meetings, at social events etc and be concerned about whether I am missing an important call by not picking it up. Furthermore, robo calls are hard to detect and it is difficult to know before deciding whether to pick up and answer a call whether it is from a caller to whom I have given my number or is a solicitation. For example, I do not keep my doctors office's phone number in my saved phone numbers but always give my cell phone number to my doctor as a contact. If the robo caller is using the same area code as the doctor's office I may think that this is a call form the doctor if I do not recognize the number. For all of these reasons, please put a stop to robo calls to cell phones.
Matt	Key Biscayne	FL	The telephone is being destroyed as a simple, reliable communications tool in much the same way as email has been degraded, Today email systems are burdened with powerful and expensive filtering software and hardware. If it weren't for this we would all be exposed to the fact that far more spam is sent in a day than desirable communication. A phone service that someone cannot confidently answer without undue concern that the caller is a machine designed to deceive and harass is not what we need and deserve. If you let this happen to the primary service for which you are responsible, you should be ashamed. At various times the FCC has been a force for positive change that has benefited the service providers -- so their reluctance should be ignored as they often don't know what's good for them. Happier users of their service is a good thing -- even if some increased costs are involved.

Joseph	Newark	DE	Commerce in the guise of constitutionally protected free speech is not the same as all other speech. It is a category that can be uniquely identified, and properly regulated. Spam in voice form is still spam, if the government won't let me protect myself from the onslaught of robocalls to my cell and home phone, what use is regulation? We need effective pollution controls of all types including this one. Robocalls simply reduce our collective quality of life. Please help now?
Jeff	Snellville	GA	Robo calls from predatory lenders and shady companies are invasive and create problems with call screening and individual privacy.
Diane	Louisville	TN	Only a few pests have gotten my cell phone number and I have blocked them. More and more will. These callers have abut driven me nuts on my land line. I finally broke down and bought new phones that had the capability to block them. So much better now.
Roger	Chester Springs	PA	Stop Robocalls to Cell Phones!
Jo	Joliet	IL	I consider Robocalls to be a constant harrassment in my life. They cause great inconvenience and worse, they cause me emotional problems trying to deal with the people who make them (or should I say machines?). My heart rate goes up, my blood pressure climbs, and my good mood is banished. I'm at the point that I think I should file harrassment charges against the companies who use them. No matter what, I would never use the services they offer. Any company that uses Robocalls cannot be an ethical compasny!
Harold	Springfield	MO	How can we be expected to be assured of privacy, when harassing robocalls follow us everywhere and intrude on our lives? Stop them now!
maurene	nlv	NV	end robo calls
Robert	Fletcher	NC	For the life of me I can't figure why our government can't stop unsolicited robo calls. Just simply prosecute those that violate government regulations.
Carole	San Francisco	CA	I have gotten calls from the internal revenue service saying that I am being sued. It is very annoying these calls are.
Judy	Pikesville	MD	I am an invalid and all those robocalls are extremely painful to keep answering. I do not answer calls without a return number listed on my phone but enough of them get by to totally inconvenience me and disturb my rest. All of these calls are of the nuisance variety and have nothing to do with my life. Most are from India.
Judy	Bozeman	MT	It's both annoying and expensive to receive robocalls. My cell phone plan charges for every call I receive. I try blocking them but new numbers take their place. Please help!
glenn	allentown	PA	Just today, I got 3 robo calls on my cell phone. This time last year none. This is getting out of hand.

Michael	Warren	NJ	Please implement a strict Do-Not-Call mechanism to prevent RoboCalls and telemarketers in general from bothering us day and night.
George	Crete	IL	My wife has received calls to her cell phone every week, several times a week, for 3 years., directed to a person we do not know. It is for a debt we know nothing about. We have had the number for 15 years. These despicable callers will not tell us who they work for or any details of the bill. This is harassment. Also getting calls claiming to be our electric company, and saying we have won a cruise. All not true. Time to put these people out of business. If coming from outside the US if the foreign officials do not cooperate, then they do not need help from our aid, military or mutual trade.
Jeffrey	SOUTHINGTON	CT	I don't see why this is such a hard problem to solve.
Darryl	Honolulu	HI	I am fed up getting calls all hours of the night and early morning from robots with no consideration towards time and sleep. It is an offense that needs to be squashed now! I get calls every damn night messing with my normal sleep pattern. Please help stop this invasion of our privacy.
Louis	Beaumont	TX	I do not to receive robocalls to my cell phone because I consider my cell private and I only want to receive calls from family. I still have a home phone and receive unwanted calls even with no call enabled
Edward	Huntington Stati	NY	Enough is enough - end these robo calls - these calls are very distracting and annoying. Expecting an important call (doctor, hospital, family member) and getting a robo call.
william	Watchung	NJ	My family's cell phones are the only privacy space we have left . We never answer our landline because of the huge volume of solicitation calls we get every day.Please keep cell phones protected from robocalls.
Scott	Highland	UT	I use my phone at work for patient care. I need to have my phone exclusively used for work.
Andy	League City	TX	Please end these incredibly annoying and intrusive calls!
Glenn	Boones Mill	VA	Robocalls are most annoying, unwanted and intrusive. It should be a simple matter to eliminate them from our lives, with effective regulation.
Raymond	Azle	TX	I should be able to opt out of robocalls. Friends, family and subsequent phone number owners should not be included.
Ron	Harker Heights	TX	STOP ROBOCALLS NOW! They are extremely annoying and are actually an invasion of an individual's privacy! I'm firmly convinced from discussions with friends and family members that the stress they generate for many individuals can end up impacting a person's overall health, to include causing periods of high blood pressure and violent periods of anger! STOP ROBOCALLS NOW!!
Marco	Kirkland	WA	As aUS citizen, I have the right of privacy on my phone - NOT - to be abused or invaded by ROBO-callers...

John	Plantation	FL	Useless, annoying, invasive. Need I say more?
Joan	Oakley	CA	Please do something about the robocalls I get every day. At least 6 times a day I waste my time and stop doing what I am doing and answer the phone to find a carpet cleaner, duct cleaner, etc. on the phone.
Eleanor	Eldridge	IA	I get these calls all day and evening just when I can least respond to them.
Selina	Worcester	MA	I rarely answer my home or cell phones anymore due to obnoxious robocalls. I receive several every day with long messages left promising to reduce my electric bill, send me a free medical help call device and many other spurious and deceptive sales pitches. I can only imagine what it must be like to get calls from debt collectors as well, quite upsetting I would think if the stories regarding abusive callers are to be believed. Our telephones are a service we pay dearly for, I don't believe it is right for robocallers to be able to hijack our lifelines with impunity.
John	Ambridge	PA	The FCC, along with PUC's across the country, need to crack down on all unsolicited ROBO calls on all phone lines, whether they be on cell phones or land lines. The currant DO NOT CALL List is a joke, as these companies pay no attention to it and generate calls via computer, aka ROBO CALLS. Why are you and the PUC's allowing this to happen with no one being held accountable at these companies. If I want someones services, I damn well am capable of picking up the phone and calling some company I wish to deal with!!
Andrew	Fairview	NJ	You are driving and you get into an accident because you were answering a robocall!!
Lee Ann	Sunnyvale	CA	Debt collectors have a bad reputation for exceeding the limits that are already on them, and for calling people who do not even have debt. Giving them free rein to be even more aggressive is a bad idea.
Jim	Bakersfield	CA	noooo! robocalls unless they go to my congressman first
Roger	Lewis berry	PA	Please issue strict guidelines to restrict robocalls and require debt collectors to inform us of our right to stop the calls
Victor L	Thousand Oaks	CA	Don't want calls other than family, doctors, and friends. I'm old, sick, and had a stroke and heart attack. I don't need or want disturbing calls or text.
John	Allen	TX	It takes away from your productive time to break away from a call only to get a robo call. You must stop this or everyone loses. I'm getting one that just keeps calling back. Help!

Susan	Deerfield Beach	FL	Robo calls come from area codes where I have family. I answer the call thinking someone local to my family trying to reach me or my family is in need my assistance. Please make the calls stop. Also I have 15 robo call numbers blocked in my phone, I am also on the no call list which was created by the FCC if I recall. Why am I still receiving these call if I'm on the no call list? What is it going to take from the FCC to stop these unwanted calls? At least 3 times a week I get a phone call about my CC having issues... These fraud callers can't even tell what name is on the account or what card (visa, master card etc) is in jeopardy. Come on man! Please do something!!! Please! Perhaps mandate that companies can not sell email or phone numbers. No exceptions!
PETER	Fairborn	OH	HOW DOES THE ELIMINATION OF ROBOCALLS WORK? NEVER CAN ID ROBOCALLS!! HOW WOULD IT BE POSSIBLE TO ID CALLS AND ID THEM AS ROBOCALLS?
Ron	Jacksonville	FL	I have no patience for uninvited solicitors of any kind so robo call solicitors are definitely a terrible nusense!
Donna	Delmar	DE	These calls are not only annoying, they become harassing and irritating. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available.
Fredric	Burtchville	MI	I am so annoyed and offended by these unwanted robocalls. I love the solitude of being home. I dislike being unnecessarily interrupted. I don't like the advertisers. I don't like the calls from politicians. I don't like the political surveys. I don't like solicitations for money from the non-profits and charities. Leave me alone!!!!
Romana	Fremont	CA	I don't know how this people get away with blowing up my phone, they need to be stopped.
Brigit	Dixon	CA	We are really tired of these calls. Not only do they interrupt our dinner hour regularly, they are a complete waste of our time
Lynn	mesquite	TX	Robo calls drive me crazy, getting numerous calls a day. In addition, my phone number was previously owned by a couple who have defaulted on many many debts. It's been over a year with this number, I still get calls, I tell them the 'skips' don't live here, yet these same collectors continue to call. When I tell them I've already informed them the parties they are looking for no longer have this number, they make some excuse about 'it takes time to get that in our system'. I'm tired of my phones (land and cell) being used for purposes I never intended, robo calls by charities/politicians/scam artists/marketers/debt collectors (not my debts).
Rod	Fairway	KS	Stop Robocalls on Cell Phones

Elaine	Brookfield	IL	Rgere is nothing more infuriating to answer the phone, receive no responseto your hello after 3-5 seconds, hang-up and have te call repeated!!! Respect my privacy and sleep schedule.
Greta	Calvert City	KY	Never a day goes by that we don't get at least two robo-calls. Usually it is for credit cards or time shares, but we have also been targeted by some scam calls. Please make it harder for these people (and recordings) to tie up our cell phones.
Cordis	Shreveport	LA	It is troubling enough to have to contend with the myriad of robocalls to my landline phone (even with call blocking), but it is significantly more annoying when it happens on my cell phone while driving or in meetings, etc. There is absolutely no reason for any organization or individual to make robocalls or any unsolicited call to a cell phone. Please help us and issue restrictions against such nonsense. Thank you for your consideration. C. Charles Bryant CDR USN (ret) Shreveport, LA
Anthony	Lansdowne	PA	Home phones are another matter but with cell phones think about this way.....one call could be a life and death matter yet could not get through because of robocalls(s). They take up a persons time and patience. I do not drive and take cell phone calls.....my phone does not text.
Eugene	Springfield	VA	I do not appreciate the number of calls that I get starting at 5pm to 10pm from people trying to sell me something. Mostly from companies that I do not know or want to do business. Please have them stop!
Edward	Villanova	PA	While I do not receive debt collection robocalls, I DO receive MANY robocalls asking for donations to widely varied causes. These calls are bad enough when they disrupt my daily life on my home land line phone but they are downright horrible when they occur at my doctors' office, while I am out for a peaceful walk with my dog, and pretty much whenever I just want not to be disturbed by calls I hang up on AFTER they have caused me embarrassment or otherwise negatively impacted my life. It's time to ban ALL robocalls to cell phones. Thanks for your consideration of stopping this rapidly expanding nuisance.
Janet	Naples	FL	Life is busy enough without answering calls you never asked for and have never engaged in their offerings
Bonnie	Tucson	AZ	Its hard enough in this economy to deal with having no money or losing a job due to cut backs and have predator collection agencies calling and harassing. This needs to stop!
John	Binghamton	NY	I don't have a cell phone but all of my friends do. I have one of the last landlines and I get robo calls everyday. One day this one company called me 3 times. It has made me not to want to answer the phone. People with cell phones not only have to put up with annoying calls they have to pay for them as well. The Do Not Call program just does not work. There must be a way to locate the offending caller and make them pay or at least bar any calls from their phone numbers.

Rose	Estero	FL	I'm tired of getting robo calls. Only saving thing is: If I don't recognize the number, I delete it.
David	Cary	NC	Please do not allow robo-calls to cell phones
Marsha	Los Angeles	CA	I'm so tired of getting 20 to 30 robocalls a day. I am not in debt. Who's calling Me? I screen my calls, but these robocalls are still interrupting meals, visitors, naps, etc. Enough is Enough.
Craig	Covington	LA	I am so tired of the robocalls. They are invasion of my privacy to put it mildly.
Gayle	Scottsdale	AZ	We pay taxes, we should have a right not to be harrassed by companies who lobby congress.
Elaine	Cocoa Beach	FL	We are paying for our cell phones and they are for private use only. No robocalls. Creditors trying to collect debts should send official written notice through the U.S. mail or email.
L	Bradenton	FL	As America get older there are a number of folks that are subject to robocalls, you can have call block on your landline but they get around. Many are not interstate calls and some you phone number that do not resemble any phone number. The folks who do this are not offering a public service or service to the public. People of all ages should be able to control what comes into their home. You have a public responsibility to keep these merchants of fraud off phone grid.
joseph	staten island	NY	dear politicians . please dont let these robocallers call our cell phones and ban them from calling our house phones. enough with the lobbyists by the way you caved to lobbyists with the loud commercials . they are back only gone for 1 year and you let the bill sunset. disgusting . auto level circuitry actually lowers the the commercials that are overly loud actually lower than the program so its having a negative effect as i dont hear most commercials because i cant count on my politicians doing whats right for the constituent.
Shelden	Bethlehem	PA	Robocalls are a wast of my time and cost me money. They are very annoying and can even come when I am driving. That can be dangerous to not only me, but others. It is NOT worth it to allow robocalls to cellphones.
John J.	Bellingham	WA	Speaking of cell phones as an emergency tool which they may become at any unexpected moment requires that Cell phones be free of interference by robocalls which is only one of many reasons to leave our cell phones robocall free.
Lori	Arrey	NM	Invasion of privacy nobody should have my number unless I give it to them
Johnnie	Virginia Beeach	VA	I must get 10 or morE automatic calls per day. Please stop all robot calls.
robert	levittown	NY	no more calls
Dorothy	San Diego	CA	Even with putting my #s on The No Call list I still got calls. I finally bought phones that display the # of who is calling so I don't pick up. I hate take jobs away but I really am bothered with robo calls.

Marilyn	Rio Vista	CA	PLEASE stop the annoying intrusions in my life every day of multiple phone calls from robocallers. I have to screen all of my calls now. We should have rights NOT to hear from those people.
MARGARET	COLUMBIA	SC	I AM SICK OF GETTING CALL EVEN WHEN I TELL THEM TO STOP
Hans	Cave Junction	OR	Please preserve the small amount of dignity we have on our phones.
Linda	Mooreville	NC	Stop robocalls to cell phones. I just reduced them to a land line before I became frustrated and discontinued my land line altogether. Lately, because of the election looming before us for the next 6 months, I am inundated on my cell phone. I don't want the bother and I don't want them using my phone resources that I pay for. Also, I used to just find calls from unknown numbers. Now they also leave a voicemail with no message in it. Very irritating and tiresome.
Joe	Athens	GA	We don't need these intrusions into our privacy!
Elizabeth	Cape Vincent	NY	I am getting regular cell phone calls about about debt I do not have. These calls are mass market recordings. Some I wait through and follow directions to be taken off the list. This advisory is not always honored. Some weeks this happens twice a day. I ask that action be taken to require clear options to discontinue these interruptions , early in any contact, at the beginning, and that effective penalties be levied for not so offering an option as well as persisting in this annoyance.
Bill	Montgomery	AL	Robocalls are very annoying and intrusive! They should be stopped immediately!
michael	Blacksburg	VA	no robocalls to cell phones
Joe	Bluffton	SC	Robo calls are one of the most irritating ACTIONS in todays society. Please take action to outlaw them and provide fines to those who insist. Your action would be greatly appreciated.
virginia	afton	VA	I feel that getting calls that I have not solicited is an invasion of my privacy. Robo calls don't even let me interrupt to ask to be taken off of the calling list.
Kathy	De Soto	IA	These calls always come at an in convenient time!
Mary	Mason	MI	Please ban ALL robo calls. Especially to cell phones. It wastes our minutes on the cell phone and it costs money to buy our cell phone minutes. Being retired and on only SSI, I do not have money to waste.
sharon	everett	WA	No more robocalls

Louis	The Villages	FL	<p>Here is the proof of robocalls from A-1 Diabetes Inc (same company and different numbers) 13-May UNAVAILABLE is calling you now! Clara	Lathrup Village	MI	<p>I prefer not to receive unsolicited calls to my cell phone from unknown and business sources. These calls are annoying and disruptive. I would prefer to make calls directly to sources that I wish to speak.</p>
Lynnda	Carmichael	CA	<p>Robot calls & debt collectors & telemarketers bombard me every day. In my own home I must now screen all calls. What happened to the "National DO NOT call list?" And why is it legal for the telephone company to charge me every month to keep my phone number UNLISTED, & then list my number in the "HAYNES Directory" & then sell it to the very people I NEVER want to hear from? Just the fact that these vultures invade my home daily, is the very reason I would never buy anything from them.</p>
Debra	Ambler	PA	<p>Robocalls cause me untold grief because they are useless and waste my time!</p>
Ray	Huntsville	AL	<p>Please do not allow robo calls to cell phones. The calls at my land line are bad enough.</p>

Ken	Redondo Beach	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Ruth	Bristol	CT	stop the harassing calls!
Gary	Alameda	CA	I have a pre-pay account, and its WRONG that I have to pay for each Robocall on my cell phone.
Dennis	Dallas	TX	Please halt or govern all robocallers from being able to continue their business as usual. Everyone is just plain sick of it. Devil be gone!
Tom	Scottsdale	AZ	MY wife and I are continuously harassed by robocalls interrupting our sleep or our activities. We already disconnect our landline phone most of the time to avoid robocalls. Our family and friends now call us only on our cell phones, so its not appropriate to also turn off our cell phones. Stopping all robocalls is a priority for us. In the meantime, we will shop for services and service providers who take steps to help us eliminate them.
Frank	Natick	MA	The calls against landlines are out of control. Many service plans charge per call, and it is ridiculous to allow numbers to be robocalled. Our cell phones are personal devices and need to be protected.
Charles	st joseph	MO	I am tired of getting phone calls that I have no interest in it seems they always call at meal times and I resent having to leave my meal to answer the phone tell them to quit calling I have name on do not call list that is a joke. If I want to order something I will inichiate the call .
Kathy	Woodbury	MN	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Susan	Sparks-Glencoe	MD	I don't think robocalls should be allowed to ANY type of phone. They are disruptive, often just this side of dishonest and, when you try to get off their mailing list by following their instructions, IT DOES NOT WORK. Often they call with information for items I don't own. This has to stop - I'm not paying \$100+ for a mobile phone AND monthly fees just so these people can annoy me with their unwanted calls. And let's stop the calls to land lines while we're at it.
harrison	memphis	TN	Please stop the robocalls. Robocalls are abusive to humans!
C	Chesterfield	MO	Stop all cell phone robo calls now. Thanks
Shirley	Reading	PA	These calls are very annoying. Especially since you cannot report the number. I tried a few times and always got a recording saying the number is not in service. You know some are scams. Like the people calling about your computer.

William	Murrieta	CA	It's rediculas to be inundated with un wanted RIBOCALLS you must get rid of all RIBOCALLS emideiatly
Lawrence	Captain Cook	HI	Aloha from Hawaii. For many years there have been restrictions on FAX advertising for good reason. For many of the same reasons, such as using a recipient's air time, text or data to send an unwanted message is interfering with the recipient's right to pay only for messages that are wanted. Any harassing messages sent at another person's expense should be disallowed.
Richard	Nutley	NJ	Please stop Robocalls. Why should I receive hundreds of robo calls that are annoying and time consuming. Most calls come during supper time or when most people are usually home. I am registered on the do not call list but the calls keep on coming.
Allen	Ambler	PA	These calls are annoying and time consuming and just wrong.
stephan	newton	NJ	stop robocalling now
Jeffery	Scarsdale	NY	We the people depend on our government to make life better, not worse. Please don't show us again that our government is owned by big money! It's time for the people to get a break from disruptive and abusive calls.
Tim	Sunnyvale	CA	So tired of these scammers calling my cell phone and my home phone 4 to 5 times a day and also I'm on the do not call list but all that does is increase the calls because they have figured out how to use other numbers than the one they are calling you from. Let's get these criminals behind bars and off the phone lines
Kathy	Austin	TX	I get robocalls constantly. Some from companies that I have never heard of and some from companies that I have a relationship with that refuse to end the barrage of calls. I even get robo text messages. They are eating into my minutes and my data. You can do something about this if you want to!
John	Towson	MD	Intrusive! Leave me alone.
Sherman	Leland	NC	They call me on my home phone and they call me on my cell phone. There seems to be no way to avoid them. This is especially bothersome on my cell at work and trying to eat dinner or relax at home is irritating. Please make it stop!
Janet	San Diego	CA	I'm sick and tired of all the robocalls I always get from unwanted solicitors! Please put a stop to these calls as they are totally unnecessary. Thank you.
Greg	Burlington	KY	Everyone knows the do not call list is a joke, and us ignored by callers and the justice department. The FCC can take steps to eliminate Robocalls and make blocking calls easy for everyone in the US. Please take the necessary action to help consumers!
ROBERT	Laguna Niguel	CA	THIS HAS BECOME A NIGHTMARE. WE GET AT LEAST A HALF DOZEN CALLS A DAY- IT HAS GOT TO STOP. AND THEY ALWAYS APPEAR AT THE MOST INCONVENIENT TIME. IT IS EXTREMELY IMPORTANT THAT THEY BE REGULATED AND MONITORED. PLEASE PLACE THIS ITEM AT THE TOP OF YOUR AGENDA.

Lynn	Valatie	NY	I do not answer my phone unless I know the caller. We are being held hostage by robocallers and scam artists. I have no credit card debt; if I did I would seek appropriate advice, not a random caller's. We should not be subjected to this type of abuse! If I "block" a caller, they should not be able to continue harassing me. The calls I receive have nothing to do with me; I do not have credit card debt, nor am I interested in any other services that have been offered. If I do not solicit information, callers should not be permitted to randomly call me.
Terrence	El Paso	TX	With the exception of our mortgage, and a couple of credit cards which are paid off monthly, my wife and I don't have any outstanding debt. We do, however, have a number of friends and relatives, any one of whom may debt-related issues at a given moment. We certainly don't need anyone or anything contacting us about debt that is not even ours. Do your jobs and stop this nonsense now!
Barry	Montague	MA	Cell phones should not be subject to robocalls. As many cell users know that firstly unless you have unlimited service, these calls can cost money. They are course and obnoxious. They are without advantage save to the sources of these calls. These calls are most often just phishing expeditions.
Marcia	Monroe Townsh	NJ	These types of calls are intrusive, annoying, and they call at very inconvenient time and they dont take NO for an answer. I would like very much for them to end
Aaron	Hollywood	CA	Please stop all robocalls to cell phones!
karen	audubon	NJ	NO ONE wants to be bothered by the constant ringing of their phones by strangers hoping to sell them something they don't want or scam them out of something valuable. The whole idea of robocalling should be outlawed.
Tasha	North Grafton	MA	I do not need any robocalls of any description on my cell phone. Plesse respect my privacy and prevent the intrusion of those who would persistantly annoy whomever they possibly can. Thank you.

Pat	Hawthorne	FL	We get robocalls from debt collectors for people we don't know. We beg the collectors to remove our number from their call list, but we are hampered at least another half dozen times by the same collectors. And the intrusions are from multiple sources! It's as though our cell phone numbers are being used indiscriminately by debt collectors, HOPING to get a correct number out of their calls. It's time-consuming and irritating. When the calling number is identified (usually "unknown caller"), we block future incoming calls. To us, it's an invasion of privacy, because when we DO answer, we are grilled with a series of questions about the intended person being called WHEN WE HAVE NO CLUE WHY WE ARE RECEIVING THE CALL. The collectors must understand "I have never heard of the person you are calling" means exactly that. To have to run to pick up your phone from a different room just to have the call be from a persistent mis-informed collector is intolerable.
Delvin	Victorville	CA	There are so many Robo Calls during the course of the day that we've decided to let all calls go to voicemail. If I dont answer the caller will hanf up. What an inconvenience that clutters our phone lines. I have to wade through calls to get to either family or friend calls. Stop these calls some way.
Deeann	oceanside	CA	Please, how can the FTC allow loosening of the laws concerning robocalls? Despite registering on the "do not call list" for more than a decade we receive daily scam calls. It is so bad. The calls were the deciding factor to discontinue our landline. One source in particular called every 6 months for 9 years looking for the previous owner of my phone number. Scam cc offers, solar panels sales(we rent), Canadian pharmacy calls, and my personal favorite "ma'am, I am calling about your windows system, it is receiving errors and if you let me in your computer....." While it has offered me an opportunity to practice my confrontation skills, I would prefer to do without. If the FBI can get into the unbreakable Apple encryption why can't they stop this piracy.
marie	milwaukee	WI	I hate to get up or to stop an activity to answer the phone and only to learn that it's a robo call.
Bessie	Dyersburg, TN	TN	Robocallers call several times a day and I've gotten where I have almost quit using the phone. I especially hate when they use up time on my cell phone.
Donna	Las Vegas	NV	I get robocalls from all over the country and the world on my cell phone all day long. These are not debt collectors. Sometimes they are asking for charity, sometimes for sales, sometimes claiming to be IRS and so on. I am on the do not call list. I hang up on these calls and hit Block. Robo interrupt my day in a way that is entirely unwelcome.

Richard	Willow Street	PA	Robocalls are taking over the airways, especially at mealtime. They are outrageously annoying, and in my experience accomplish nothing other than to raise the level of public anger. It is time to end them.
deb	reno	NV	please stop robo calls to cell phones, I get several a day and it makes me crazy!!
R	Ashland	MA	Robocalls are annoying, come at the worst possible time, cost my time and money, and add nothing to my life or society's.
Kathy	Portland	OR	I hate robo calls and they should not even have my number. I am on the no call list. They need to sort out my number before they call. There is no way to get off their lists. I have had to turn to the secretary of state a number of times to stop robo calls from the same company who was calling several times and day and even after being asked a dozen times to remove me off their list I would still get calls. One operator told me that even if she took me off her list, I was on lists at other offices around the country and would get calls. PLEASE STOP THIS
Steve	Long Beach	NY	No Robocalls to Cell Phones!
Winkle	McLean	VA	Debt robocallers need to be under serious restrictions, including notifying their victims they have a right to stop the calls. Only the person with the debt should be contacted. Calls to anyone else should be forbidden. All the guidelines should be clear and simple to understand.
Delia	Whittier	CA	Due to increase in robocalls being received, I have stopped answering phone calls from phone numbers I do not recognize. Consequently, I am sure I miss calls that may be important.
Edward	Huntington Beach	CA	I seldom provide my cell phone number to anyone because I fear that it will become a target for robocallers. It should not be a vehicle for harassment by debt collectors.
joe	toms river	NJ	they waste your mins when you have a pre-paid phone
Don	San Leandro	CA	I get up to 8 sketchy, unsolicited and annoying recorded calls for financial scams and salespeople per day, despite being on the Do Not Call List. These calls interrupt my workday and I've had enough! Please promulgate rules that restrict these sorts of robocalls in the interest of the cell phone owner, rather than in the interest of sleazy companies. Thank you.
Sarah	Ashland City	TN	I CANNOT afford a "smart Phone". I have a safelink phone for emergencies & ONLY so many Minutes. PLEASE DO SOMETHING ABOUT THESE STUPID WASTEFUL ROBO CALLS!

Dave	San Diego	CA	Unsolicited and unwanted robocalls are very similar to spam on the Internet. Most people agree that spam is an unwanted nuisance, wastes multiple societal resources, comes from unprincipled sources, and should be regulated and regulations should be enforced. But enforcing any regulation of spam is exceedingly difficult. Robocalls are essentially telephone spam. The great majority of people don't want them and shouldn't have to put up with them. The good news is that they can be regulated. The right to privacy of United States citizens should not be violated in favor of special interests.
Cheryl	New York	NY	Please block the use of companies gaining access to my cellphone for solicitations!
Kenneth	Winter Springs	FL	These callers are getting better all the time while we the public have no real response from the FCC or our phone companies. The last few weeks they are using local area codes to make it more likely we dumb telephone customers will pickup and get someone selling a security system. My phone system is Brighthouse and I have called them many times and cannot talk to anyone except a service rep who knows nothing and could not care less about my unwanted and robocalls. The technology is out there to block these calls. PLEASE give us a break and give us an option to block these calls.
Donald	New Bloomfield	MO	Mobile phones are mobile, with us in the car. How many have already died answering robocalls?djm
Margaret	Stratford	CT	Robocalls come in on my landline early in the morning, sometimes before I have had breakfast and gone to work, and late into the evening. I have signed up for Do No Call lists to no avail. These calls interrupt my home life and, because I am a pastor who relies on the telephone for conversations of a serious nature with congregants, the interruptions are more than a nuisance! They compromise the emotional connection between me and those I serve, and make me less effective at my job.
BYRON	EUGENE	OR	I hope this works, because others have not stopped robocalls.
William	prospect	CT	I am very disappointed in the Congress with respect to the lack of enforcement of the Do-not-call legislation. I often get up to 8 of these unsolicited calls per day. If I were home and my doorbell rang that many times by unsolicited people wanting to sell me something, I would call the police and have them escorted off for trespassing. How is this any different?
Randall	pac pal	CA	Please do not allow robocallers/telemarketers to call my phone numbers
William	whitefish	MT	Some of these calls are designed to trick old people into giving out personal info. While I can block them with a few clicks of my phone, most old people can't and it makes them very vulnerable to these phishing scams. So do the right thing and make these robo-calls a real crime!

Iris	Chestnut Hill	MA	My cell phone is for emergencies only. When it rings, it means one of my kids is in trouble somehow. Robocalls give me a fright I don't need!
Linda	Amherst	NY	Robo calls persist in spite of their option to opt out. I have received at least one call each day for a free phone. When I press the key to opt out, they call back anyway.
maier	Naples	FL	Many of us have elderly relatives, and each time our phones ring we have to be attentive for emergencies. Robo calls waste our energy and create stress. I have robo calls that leave a blank message on my voice mail.
Mary	Stillwater	OK	I do not give my cell phone number to everyone. I have a daughter in another state, relatives in another state and my job. When I receive a call or a text, I leave the room to take the call. I am very upset when it is a robo call, that is not important. My land line goes directly to voice mail, where I can delete the robo calls, sales calls but my cell is for important calls ONLY. Help! There has to be a way of enforcing the no call rules.
Richard	North Las Vegas	NV	Please stop robocalls - I am a 100 disabled veteran and need my phone to call for emergency medical help. These robocalls I get all the time a very dangerous for me as I have to run to the phone thinking it is my doctor. I already fell twice running to the phone. Please stop them from calling me.
mark	pulski	TN	leave us alone!
Demetri	Marianna	FL	Please end cell phone robocalls. They are a waste of personal time and money.
jeff	rogers	AR	I have no debt. I do NOT want to hear from anyone selling anything using my phone number or listening to their pitch via my voicemail! Do Not Call List obviously does NOT work. Why can't you fix this?
Jason	Chatham	NJ	Do you enjoy getting calls about putting solar cells on your home - when you rent a condo? How about lowering your credit card debt, when you don't have any? And were expecting an important call about the condition of your dad getting out of surgery? What about getting a call at 3:30a because you just landed overseas and forgot to turn off the phone. And my favorite is the harassing calls from debt collectors, when the person they are trying to reach put down your number instead of theirs, and you can't stop it because they're trying to reach Jane and will only talk to her, even though you are Jason.
Cheryl	Pac Pal	CA	Please do not allow telemarketers & robocallers to call my cell phone.
Steve	Long Beach	CA	It's bad enough that telemarketers and related ilk violate the Do Not Call law with impunity, but the idea of legalizing ANY robocalls or telemarketing calls against the will of the receiver is absolutely outrageous. Do real people have so few rights in comparison with the moneyed hucksters?
Cal	Kansas City	MO	Please block all cellular phone Robo calls

Jack	Holland	PA	Many times I have been interrupted by calls about the credit card I don't have etc. These calls are extremely annoying especially the debt collectors that have the wrong number. Please pass legislation that stops these calls to my cell phone.
Shirley	Sugar Land	TX	I find that robocallers are disruptive to my life and I have no interest in receiving unsolicited calls. Please stop these annoying calls.
Demetri	Minneapolis	MN	I don't have unlimited minutes on my cell phone. If you allow robocalls, they will essentially be using my money to call me.
Alban	San Jose	CA	Robocalls, even for good reasons, are extremely annoying. Their number should be limited and/or there should be an opt-out mechanism.
Gregg	Frankston	TX	Please abolish robocalls. We are either taxed to death, advertised to death, or called to the point of distraction. I want it all stopped. If I want to give money to the poor, I need to look no farther than my local village. If I want to buy something, I know where to look. I don't need anyone telling me what illness I might have, how my credit can be increased, or that The IRS is going to come and arrest me if I don't give ver them money right now!
Virgil	Beaverton, OR 9	OR	While I am old and sickly, I still like to talk to my family. I can't waste my energy answering the phone call from someone that I don't know!
Peter	melville	NY	Please identify yourself when you call me otherwise you've wasted your time.
Cornelius	Albany	NY	Take prompt action to stop Robocalls to our cell phones!
Bill	Troy	MI	Please stop robocalls; they are destroying my privacy and need for quiet.
Harold	Williston	TN	Randomly choosing my phone number for solicitation calls of any type, including political, is no different than entering my front door without my invitation or permission. Therefore, since physical entry into my living space is considered unlawful invasion, so should be robocalling my phone.
sharon	leroy	NY	Please uphold our right to not be harassed by robocalls
Sally	Scottville	MI	Please stop all the robo calls! It's worse than it has ever been!

Claudia	Upland	CA	I do not receive debt collector calls, but rather solicitor calls. HOME PHONE/LAND LINE: I have always had an unlisted phone number (for which I pay extra) and have been on the Do Not Call List since its inception. Prior to the spring of 2014 I received less than 5 cold calls per year--all from nonprofits. Since the spring of 2014 I have been besieged with unwanted robocalls. When I politely asked these callers to remove my phone number from their calling lists, I was told to "get used to it." I contacted Verizon (now Frontier Communications) and the CPUC with a written complaint, but the calls continue. Through NOMOROBO.COM I was able to block many of these calls on my land line; however, some of these companies have found a way around NOMOROBO and calls are coming through as a regular call. I now receive anywhere from 7 to 15 of these calls on a DAILY basis. CELL PHONE: Very few people have my cell phone number, but in the past few months, I am receiving approximately 3 - 4 of these calls on a weekly basis on my cell phone. Why can't Frontier Communications FiOS and Verizon Wireless do something to block these calls?
Richard	Morrisville	NC	QUIT KISSING UP TO BIG MONEY AND DO WHAT'S RIGHT FOR THE PEOPLE
Jere	Easley	SC	I am very opposed to cell phone robocalls and feel that they are very invasive and should be eliminated. Individuals should at least have the right and protection to stop receiving robocalls.
James	Philadelphia	PA	We have signed up on the "Do not call" lists for hard wired and cell phones and yet continue to get them When we request to be removed from their call list, it seems to make no difference. Please stop this once and for all.
Virginia	Tallmadge	OH	There is no logical reason these calls should be allowed!!! I pay my phone bill to get & receive the calls I choose - Not for someone else to take advantage!!!
Chelsea	Oakland	CA	Robocalls have gotten out of control. I often have calls for work from unrecognizable numbers, so I must answer every call. Now I get many robocalls a day, and it's having a huge impact on my workday. Enough already.
gary	Dunnellon	FL	I'm a retired 100% disabled vet and about 80% of my calls are ROBOCALLS. I don't want anything they are selling or offering. I shouldn't have to put up with this S___ T.
William	Baldwin	MD	Please use some common sense and disallow auto robocalls to cell phones! Our privacy is a priority, the cell providers profits and their lobbyists interest must not take precedence over taking advantage of millions of individuals privacy.
Gregry	Seattle	WA	I have been harrassed repeatedly by robocalls and they only seem to be increasing. There should be a way to prevent ALL robocalls as they are dehumanizing and invasive. Despite my call screening they are programmed to wait for a response. Please help screen all robocalls.

Mark	Monroe	MI	I am seriously considering disconnecting my home phone due to robocalls. I get 3 robocalls or more for every legitimate call.
Daisy	Jay	OK	I am older and infirmed. These unnecessary calls cause me frustration, and pain. I need only my necessary calls. Please help get rid of them if you can.
Robert	Westerville	OH	The number of unknown calls to our cell phone is already out of control. I, nor anyone that I know, wants this to continue let alone increase in volume.
lynn	cleveland heights	OH	I receive several robocalls every day, including on weekends. At least half of those calls come to my cell phone that I have for clients in crisis. I am a victim advocate, and my clients are often justifiably in fear and need advice or referrals or just someone to help them process what they are going through. I have had more than one client call blocked by incoming robocalls, which, by the way, all come from spoofed numbers (different numbers each time for the same nuisance caller. I have been on the Do Not Call registry since it started. That has become totally useless. MAKE IT STOP.
John	Harvard	MA	I'm getting more and more of them and even if you use the opt out option that some of them give you, they still continue to call.
M	anywhere	FL	They are driving me crazy. This has got to stop. They tell me if i buy sonmething they will stop for a while. Friends of mine have changed their phone numbers or got rid of their land lines. I have nomorobo and it helps but I still get a first ring and numbers such as 000-000-0000 still get through. I've called that number back only to get an international operator telling me thet cannot stop them. Fed up with this annoyance.
Alice	Catonsville	MD	I find unsolicited call hard enough to deal with on my land line. Since there seems to be no end in sight to that, I often ignore calls there and take all personal calls on my cell phone. Lately I've been getting unsolicited calls on my cell phone as well, and I'm fed up. I never respond to these calls, and it would be in everyone's best interest to just end them.
Alfred	Yuma	AZ	I want you to exploit every mean to prohibit anyone who is not acting in my own interest to approach me by phone. I have a right of privacy and do not lik to be disturbed anytime during day or night. My phone line is for my friends and for those businesses I have authorized to use it - nobody else.
Greg	Lyndhurst	NJ	No robocalls to cell phones
Judith	McLouth	KS	Most of the robocalls that I get are from people trying to scam me out of money. Even debt collectors should send letters. Phones should be for personal use.
Tonya	Edmond	OK	Anything we can do to get rid of these calls. It's even worse during this election season.

Owen	New York	NY	It's bad enough that we have to put up with this on landlines. Ringing phones in public places are also at epidemic proportions. So, why add to that with unnecessary and unwanted solicitations?
Cameron	Columbia	IL	Please put an end to Robo Calls. It is currently killing the phone business. Many people have stopped their landline due to all these aggravating calls. And they are also starting to call our cell phones. Please stop this NOW!
Dunstan	Lindenhurst	NY	Constantly getting up to answer the phone for no reason is hard for seniors.
Eva	New York	NY	Robocalls are the most annoying way for companies to push their products and services. These calls are always an imposition and are proving impossible to get rid of. I say, LEGISLARE AGAINST ROBOCALLS, PERIOD. NOT TO CELL PHONES, NOT TO LAND LINES. NOWHERE!
Vicki	Princeton	ID	Please send these calls. If we were interested in donating or buying their product, we would contact them. This is an invasion on all citizens 's privacy.
Margaret C.	Sparta	NJ	Increasing number of Service Departments calling about my credit card (not identified) -- no problem -- I hang up as soon as I hear that!. The other frequent call is to alert "seniors" and again I hang up.
doug	edina	MN	Please establish limits of the various entities i.e.-debt collectors and predatory lenders from making calls to cell phones
Donald	Sarasota	FL	As if we don't get enough robocalls on our home phones, now we are bothered by the same on our phones. This is not just annoying to the phone owner but can also be to those around him/her when the phone begins to ring with some robot call. For those of us with a limited cell phone service, this can be costly as well. Can we please get this annoying practice cut down.
Reilly	Fresno	CA	Robocalls are a waste of my time; they are a massive irritation. They need to stop
EDWIN	White Bear Lake	MN	Robo calls are an aggravation, especially during evening hours and weekends. No time seems sacred to those who grub for money. Where is the financial protection agency when we need them?
Peter	Ardasley	NY	I oppose allowing robocalls to my cell phone; it is an invasion of my privacy. New regulations should include the following provisions: a) Debt collection robocallers must notify us of our right to stop receiving calls b) The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family c) The guidelines should be clear and readily available Thank you for your consideration.
craig	denver	CO	It balances privacy and need to contact people in this point in time because many people only have cell phones now

Mike	Wichita	KS	PLEASE control ROBOCALLS. Stop them from calling at all hours of the day and night, and falsifying their identities on caller ID's.
Kay	Bartlesville	OK	I HATE THESE CALLS!!! I owe no one! They call my landline. As many as 10 or 12 a day. I am a caretaker of my husband who has alzheimers disease. These solicitors are using my private phone line. When I pick up and say "Hello" they speak to me in the friendliest tone trying to sound like my best buddy. My husband's name is Tracy so they always think I am Tracy and thus immediately reveal they don't really know me. I cannot adequately express my contempt for these wolves. I know you are trying to assess cell phone but I want to get help for landlines. Yesterday there was a call that said 800 Service on my ID but it was a lady selling Acorn Stair Lifts. I am on the Do Not Call list but this company maybe flies under the radar with using 800 Service! Thanks for reading my rant. HELP - HELP
Virginia	Northridge	CA	The robocalls on landlines continue, and that is very annoying. Now the robocalls are starting up on cell phones, and that is infuriating! Stop robocalls on cell phones!!!
Shawn	Ventura	CA	Please help stop the infringement on our lives.
Robert	Placentia	CA	This is a PRIVATE number. They have NO RIGHT to send me a commercial on my phone. Tell them to STOP...NOW!!!
Suzanne	Brandon	SD	YOU MUST end robocalls NOWWW! I pay my bills and see no reason we should be FORCED to accept this JUNK! Many are scams or unwanted solicitation calls. If you won't change this maybe we need to change the agency that oversees this problem!
Owen	New York	NY	
Joel	Flagstaff	AZ	It is not only annoying, rude and obnoxious to receive robocalls on my cell phone but it also costs me money and when receiving calls from different time zones is disturbing. They are also potentially dangerous when concentrating on driving or other activities that require concentration for safety. DO NOT ALLOW Robocalls.
James	Orange	CT	I am sick and tired of getting spam robocalls on my cell phone. The FCC needs to aggressively regulate this nuisance and invasion of my privacy.
Jack	Ontario	CA	Please stop robocall harassment.
Linda	Middlebu	CT	Please stop robocalls. It's intrusive and maddening - PLEASE
John	Folsom	CA	We all cherish our right to privacy, but that has eroded more and more lately. We all have the right to not be annoyed and harassed by unwanted solicitors on the phone - both landline and cell. We need them blocked. We did not ask for their services, and so they should not be allowed to interrupt our private time and lives with their unsolicited services and products. ENOUGH!
Carol	Kerrville	TX	I hate getting robo calls! Please make a regulation that all robo calls have an opt out included and the company HAS to abide by it.

Duane	Denton	TX	It is an invasion of privacy for calls to come in from people you do not know.
Frances	Omaha	NE	I have often ran up stairs to take a call only to have a silence on the line and then they speak. Selling something I do not want or have not asked for. Especially for a Medicare paid for BRACE (knee/back/anything). Who is paying for these calls to be made? Am I and others out of the Social Security bucket??? Waste of TIME and ENERGY. Even could be a health hazard for the elderly hurrying to collect a call that they end up hanging up abruptly.
Adina	Stanwood	WA	If robocalls are going to be allowed at all to cell phones, then the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt. There should be zero calls to friends and family. The guidelines should be clear and readily available and enforceable.
Frank	Warner Robins	GA	Please do not add to our confusion by allowing robocalls to cell phones. It's bad enough to get a robocall on my land line when I am at home during dinner.
Julie	McKinleyville	CA	Please ban robo calls to cell phones. They would be endless, taking up space on our cell phones and disrupting while at work or sleeping. I don't want any.
Dean	Charlotte	NC	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Dexter	Barrington	IL	FCC: Gentlemen; Please prohibit Robocalls to Cellphones. Eliminating ALL Robocalls woud be a serious public service as well. Thank you, Dexter S. Free 847-910-0181
KENNETH	ELGIN	SC	I'm a senior citizen living on limiyed income. I have NO credit card debt, despite this get incessant robo-calls wanting to lower my interest rate or other calls wanting dpnayions for causes that I do no support.
Bette	Waretown	NJ	Not only am I fed up with robocalls on my landline, I'm now getting them on my cell phone!

judith	polson	MT	these calls are beyond annoying. i have gotten calls for my 47 year old daughter for years. there is no way for me to remove my name and number from their list unless they offer it. one call actually gave me a choice to not receive any more calls but although i followed their instructions, they called again in a week without any offer this time. i am responsible for my own debts but not my family's. i have also received calls over the years for people i do not know and although i inform them on the calls that i'm allowed to say something they still keep coming. these companies should not be allowed to do this without controls. congress will not act because they accept money from these companies. i would like to have you do something to stop this abuse of the system. we should have an upfront option to refuse and/or take our name off their list when we are not the ones who are in debt. thank you for hearing me.
THEODORE	Tucson	AZ	ALL ROBOCALLS AND TELEMARKETING AND CHARITY CALLS AND POLITICALS SHOULD BE ILLEGAL. I pay for a phone for my own use, no one else's.
Karen	Crystal	MN	Robocalls....didn't solicit your call, don't want your call and will never, ever respond to a call of this nature.
Peggy	SCOTTSDALE	AZ	They are driving me CRAZY !!!!!
Steven	San Jose	CA	Even though both my landline and my cell phone have been on the Federal Do-Not-Call list since its inception, I have increasingly stopped answering both because of the huge numbers of robocalls I get. Even giving these debt collectors a whiff of permission will surely increase the tide of unwanted calls. Their actions consume my airtime, increasing costs to me without legitimate reason. Allowing any sort of texting, especially to third-hand contacts, will greatly increase the number of junk texts, similar to the spam issue in email. Please do not allow this expansion of intrusion into my life by debt collectors that I do not personally owe.
Sandy	Little Rock	AR	STOP STOP THIS INSANITY IT IS HARRASSMENT AND A VIOLATION OF PRIVACY....they just do it to invade and harass us no one buys their stuff....make this illegal and prosecute! FINE THEM OUT OF BUSINESS!
jack	san jose	CA	robocalls are an unwanted intrusion and the number per month should be no more than 3/month and only to the federal debt holder, no calls to family or associates. the guidelines that robocallers must follow should be readily accessible online to consumers
Lorraine	lakeland	TN	Please stop these unwanted solicitation on my cell phone.
Shirley	Fayetteville	GA	Please stop Robo Calls they're annoying and a waste of time.

Sonja	Manitou Springs	CO	I am a senior citizen and have trouble answering my phone when I am doing something else like cooking. I do not want to struggle with getting to my phone only to discover that it is a robo-call. I pay for my phone. It is a life line that should not be taken by commercial ventures. I ask for your help in seeing to it that it is my friends and family who can call me. I want to be shielded from other calls.
george w.	Jamestown	NY	Intrusive,unnecessary,invasive,annoying...need I say more ? Would you like it ? Please think and consider basic human rights.
Ron	Albany	NY	Please limit all junk calls to my cell!!!
Everett	Atlanta	GA	Robotic telemarketing calls to cell phones on the Do Not Call registry should be totally illegal. Currently, I get at least 2-3 a month to my cell phone and many more to my landline, which is also on Do Not Call
Michael	Encino	CA	Despite being on the National Do Not Call Registry, I receive several robocalls per day on my cell phone. I've tried blocking, but it doesn't always work. something must be done to stop this annoying intrusion.
Cheryl	Hugo	OK	The government needs to stop ROBO CALLS to our cellphones. Its bad enough that they call our landlines, they should 't be able to call our cellphonrs too. The calls to our cellphones need to stup. I put all our cellphones and landline on the Do Not call list but we still get Robo Calls too.
Dennis	Schenectady	NY	The existing DO NOT CALL program is a joke. The callers could care less about it, because they continue their calling and do not worry about enforcement. I have received calls from many other states, this must be another way to get around the rules. institute a program that works and punishment must be enforced.
Fred	Studio City	CA	Please stop these intrusive and annoying calls!
Mark	Tulsa	OK	I am a Robocall victim. I receive on average 10 to 15 calls a day that leave zero time voicemail messages or directly hang up after two or thee rings. The calling numbers that show up on my phone's caller ID can be local calls or calls from every corner of the country. I have called back the numbers that sometimes appear, to find the number is non real, disconnected or has been co-opted or spoofed. Some of the numbers belong to people unaware their phone number has been so co-opted.

Terry	Anchorage	AK	There should be no robocalls period. Debt collection robocallers must notify us of our right to stop receiving calls and be required to provide proof that they own the loan or the contract which gives them that right by registered USPS mail. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available The debt collector can be held liable for harassment after being told this number does not belong to the person who holds the debt . I see this as another opportunity for scammers All calls must be during normal business hours Have stiff penalties for those companies, owners and managers abusing the rules.
Adam	Phoenix	AZ	End Robo-calls, PLEASE!
Eric	Denver	CO	I've never been hassled by a debt collector and I probably never will because I'm responsible with my debts. But if you allow debt collectors to call friends and family, that's an invasion of privacy for both the people being called and the debt-owner themselves. It should not be allowed under any circumstance. And even for those who owe money, the number of times they can be called should be limited or it just becomes harassment.
Roy	Red Hook	NY	I am ready to cancel my POTS landline service because i am now getting 4-8 robocalls a day in spite of being on the do not call lists.
Rick	Portola	CA	We have gone to cell service only in the past 18 months. It was done for two reasons, to cut back on costs as we will try to do some traveling and cells are more needed and to stop the robo calls we were getting on our landline. I do not receive many but my wife is constantly being bothered by those annoying calls. PLEASE stop them. If we want a service we will be the one making the call. Thank you
Thomas	San Francisco	CA	No Robocalls to Cell Phones!
Gail	Malibu	CA	It's past due. Action is needed immediately
John	Fairhaven	MA	â€¢I don't pay minutes on my cellphone to have robocallers use my minutes..Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available
David	Port Jefferson	NY	I am tired of having my privacy disturbed by these senselessly annoying calls.

Linda	Romeoville	IL	I have,in spite of registering both my cell number as well as my land line,been harassed daily by robocalls. These vermin persist multiple times a day ignoring my demand that they stop.None of these calls are from debt collectors,they are various sales people,diabetic supply,timeshare offers etc. The diabetic supply in particular have made as many as 10 calls per week despite the fact that they've been informed my husband (diabetic) has been deceased for 5 months now! Needless to say these repeated calls are extremely upsetting for me. We've NEVER,at any time,utilized these companies for his supplies yet they will not stop calling. This has been an issue I've reported in detail for years now yet I see no relief. Please,Do something to make this stop!
Michael	Everett	WA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Loretta	Quincy	CA	If someone wants to interrupt my life to communicate with me, they should be a live human! If I have to spend my time on the phone, the person contacting me should have to invest their time as well!
Richard & Jean	Palo Alto	CA	We receive 4 to 6 robocalls every day on our land line. Our cell phone is used only when we travel. Still, we support any FCC attempt to curb these robocalls.
Robert	East Lansing	MI	I have a pay as you go mobile phone from ATT for which I pay 10 cents/minute for both outgoing and incoming calls. I use it for emergencies and family and have to only pay \$100/year. Robocalls rob me of the minutes I need to use and make me pay for unwanted calls. Please prohibit such calls to mobile phones. Thanks.
Randy	Pittsburg	CA	Stop to harassment.
Julie	San Diego	CA	Re robocalls -- don't want ANY of them including from politicians, who appear to be flouting the law or have conveniently exempted themselves. I still get them on my home phone despite being an original enrollee. Now I'm getting them on my cellphone despite enrolling that number too. As bad: faxes. For two years, I would dial the "remove me from this list" number only to continue to receive the same faxes. I finally figured out that these phone banks have literally dozens or hundreds of numbers so you get one number removed and will still be faxed by a different number. This time they are using MY paper and MY ink -- and these faxes need to STOP!

Leslie	Woodmere	NY	Random robo calls are unacceptable on cell phones. They are disruptive especially when calls come in when people are out or driving or on another call, possibly for business. There are people who have to pay for calls or texts and I'm sure they wouldn't be pleased.
Robert	Beverly Hills	CA	On many days I get more robocalls than legitimate calls from people I know. Tired of it.
Mark	Colfax	WA	CenturyLink finally got around to blocking robocalls on our land line, but they don't advertise that option. I tried to sign up with Nomorobo to block them, but was told CenturyLink was not participating with them. So then I called CenturyLink to ask them to work with Nomorobo, and then I was told that CenturyLink could block such calls. They did, and I am very happy that our phone rings so much less often. However, there are now more robo calls coming to my Verizon cell phone. These are not only annoying and disruptive, they can create a dangerous situation when I drive. When I get a call while driving, I think it might be my wife or our kids, so I look for a safe place to suddenly pull over and stop. Please do something to prevent these wholly unnecessary calls. Thank you.
Pauline	Barre	MA	Since the first of April 2016 I have received more than 100 unsolicited robocalls, and not one of them left a message when the answering machine picked up.
Jim	Dunwoody	GA	Sick and tired of these calls, that why I dropped my land line.
Joy	Coeur D Alene	ID	I and most Americans are tired of being bothered by these calls on our landlines or cells!!! NO MORE ROBO CALLS EVER!!!!!!
Marjorie	Waterford	MI	I just called the number to report an abusive phone caller who keeps calling me. They seem to be a mortgage company. However, because it's not a robocall but instead a live person calling, I was told nothing can be done about it. I've tried calling the number back, and they just hang up on me. I was also given the opportunity on some occasions to click on number 1 which would mean I don't want any more calls from them. I've done that, but nothing stops them from continuing to call and annoy me. Stopping robocalls isn't enough. I need help with live people calling, too! It's a business in Michigan: 248-639-4449.
Roger	Austin	TX	Stop Robo Call harassment
Susan	New York	NY	They are getting worse and worse. They are annoying and disruptive and NOBODY wants them. Even if I was interested in their product or organization, I would never buy or contribute to anything sold this way. They are more than a problem, they are a curse and must be stopped.

Kenneth W	Fort Wayne	IN	I am so tired of all these robo calls coming on my phone that it is not funny. We have the software to stop these robo calls and either our phone companies will not use it or tell you that you do not have voice mail. I have voice mail on both of my phone, cell phone and land phone. You need to pass a law that tells phone companies that they have to use software to stop robo calls now! When I researched this software call onmorobo, it did not say that u had to have voice mail on your phones, cell or land phone, it just said that it would stop the robo calls. So you need to tell all the phone companies in the United States that they have to use this software to stop these calls coming to their customers phones, cell or land phones. That is the only way you can stop this calling of their telemarketers to our private phones. Thank you, Kenneth W Christlieb
Scott	Mount Prospect	IL	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family
Stephanie	La grange park	IL	Please outlaw Robocalls to cell phones! Many of us still pay for our cell phones based on how many minutes we use. Why should I pay for daily Robocalls to my cell phone when I don't want them in the first place and most of them don't even apply to me? I currently receive at least one Robocall a day and most of them are about refinancing student loans or credit cards. The thing is, I've never had a student loan, am not currently enrolled in any classes and haven't been enrolled in any for more than 10 years, and don't have any credit card debt. I don't want these calls! In addition, I do use my cell phone for all of my business calls. So not only is this practice potentially costing me money in higher cell phone bills but it's also interfering with my ability to conduct business. Thanks for your time! Stephanie R.
Kim	Campbell	NY	No more robocalls ever. I don't care what kind I do not any type of unsolicited calls including robocalls.

Michael	Novi	MI	<p>Robocalls are a pure time waste against U.S GDP, at nearly zero-cost to the operator. Years ago, one could recognize an unknown number and simply ignore the call. However, more recently, robocalls have become more sophisticated, now matching the both the local area code and nearby exchanges. This makes it far harder to ignore unknown numbers, since they may be from children or other family members at local un-identified locations... With the low cost of voice calls, there is nearly zero incentive to discontinue the random use of widespread robocall sweeps. When a single "hit" can generate profits of 1000x (or more) the cost of the call, why would anyone in that business give up the chance for profit? Especially in the face of difficult-to-enforce no-call laws? The math is pretty straight forward. A single call per day of 15sec across the U.S. population = 0.25 min/people * 318M people = 795,000,000 wasted min / day = 13,250,000 wasted hrs/day. Wow. Even cutting this value by 50% (accounting for children, no cell phone citizens, etc.) - the net time and human attention loss across the population is incredible. And an obvious net loss for the society as a whole. Robocalls are a great way to take advantage of technology for economic gain. Unfortunately, this gain comes at a cost to everyone else in the society.</p>
George	Bensenville	IL	<p>Please do all you can to outlaw all Robo Calls. House Phones, Cell Phones, Internet Phones. They come at all hours, meal times, night time. It's ashamed that they can't be outlawed by the government.</p>
Ron	Macon	GA	<p>Robo scammers have now gotten my cell # and today received a call from Jamaica which of course I did not answer. Do something about these scammers now!!!</p>
Donald	Erwin	TN	<p>Please ban robocalls from all phones, especially cell and home phone. We maintain we have the right to select who and when we call someone or a business of any type.</p>
William	Bluffton	SC	<p>I have put our land line on the "do not call" list three times, but still get daily calls. When I called to register a complaint, I was told that no complaints would be processed. My wife and I are now getting robocalls on our cell phones, although we are at a loss to explain how they got our numbers, and of course they will not tell us. Why does the Government set up the "do not call" law, but then not enforce it!</p>

Gregory	Cleves	OH	Do not call lists are being routinely disregarded by companies either domestic, or using off shore phone resources. Currently no-call lists are overridden by so-called "allowable" contacts from companies with whom I have done business or which collect phone numbers for the alleged purpose of "product registration" but are collected for sale to other businesses, Enforcement of no-call lists should begin with an easy way for consumers to report such calls to the FCC and severe penalties for violation including requiring punitive damages be paid to the receiver of such calls.
Alvaro	Pembroke Pines	FL	No Robocalls to Cell Phones, lets end this violation to our privacy.
Thomas	Boston	MA	It's time that all those in office do something right for the people who sent you to washington. Put an end to Robocalls once and for all. Do your job!
Amy	Denton	TX	Despite putting my cell phone number on the "Do Not Call" list, I repeatedly receive unwanted robocalls from any number of marketers, especially home security systems vendors and companies offering financial/credit products. Although what these people are doing is illegal, they just keep doing it. Stronger legislation and penalties are needed, and I hope you will help protect the public. Thank you.
Jerry	Gordon	GA	Its about time
Darcy	calabasas	CA	My phones rings day and night. I care for elderly parents and work from home. I cannot go a half hour without someone trying to sell me home repair, solar, carpet cleaning, lower credit card interest rates or a free vacations to name a few. These are boiler room operations that advertise for callers on Craig's List. These can easily be busted just by answering an ad and finding out where they are operating out of. The phone company is not taking any responsibility including the cell phone companies.
Tim	Beaverton	MI	We are a small business in Michigan and between the crap robocalls I receive at work and then get home to receive even more of them it gets very old. Now I am starting to receive them on my cell phone which is even more frustrating because I usually only receive calls I can trust on my cell phone or misdialed phone calls. It is hard to block out all the bad calls and separate to only get the ones you really need. It is making harder for the legite calls to come in because it starts to feel like every call is just another scam or someone no one wants to talk to. We need to come down harder on these calls and stop them. When you get the calls on Saturday and Sunday mornings you really are not happy about the system we have today. Please do what you can to stop these calls from going out, everybody is sick of them.
Julie	Bloomfield	NY	If we don't fight back with these ROBOCALLS, we will continue to be bombarded by predatory lenders ad shady companies! Protect your people and don't consider PROFIT first!

cheryl	salem	OR	These are annoying and waste consumers' time. They always seem to interrupt me in the middle of a business meeting or especially when I am waiting for a phone call from my doctor.
Kamalesh	Claremont	CA	Please end this pernicious and disruptive intrusion.
Brian	Louisville	KY	Robocall must stop. They keep calling my numbers on teh no calls list.
Georgia	Lenox	MA	I consider Robocalls to be intrusive, an invasion of my privacy. NO to Robocalls. We are assaulted every day by someone selling something. Can't stand it. Thank you!
Darcy	Independence	MO	I get these all the time and they are hard to trace VoLP calls. Please stop them. I am on do not call lists which are a joke! I hate them . Some call two and three times in a row. Annoying. Please help. They call every day.
Judith	Barefoot Bay	FL	The credit card services calls are the worst. If you request an agent to remove your number they hang up on you and call back with a different phone number. Help please.
Sergio	San Mateo	CA	Please stop all intrusive and annoying ROBO CALLS
David	Cary	NC	I hate ALL robocalls; especially to my cell phone because I pay by the minute. Debts are not an issue with me, but telemarketers are; if I want to buy something, I'll initiate the call. I really wish someone would invent a device that would zap the caller when you pressed a button.
MaryJane	Lyons	KS	We are very busy people and when our phones ring, we want the calls to be from friends, or people notifying us of necessary events concerning family and known friends. Robo calls take up our time about unnecessary things or people that we do not know or even care what they are doing, or wanting money. They also interrupt family time at meals. The robocalls do not put their names on the answering identity place on phones. It is a very shady idea to let them call ordinary people. When asked their names or the company they are calling from, or the address, or even giving a legitimate number to call back, they usually say it is a one-time offer, or say the information so fast and in a foreign tongue we cannot understand. We cannot block the numbers, because they have so many machines calling so many people,I definitely oppose robocalls .
Carol	Nevada City	CA	Although our telephone is on the "do not call" list, we still receive an average of 3 robo calls a day, including weekends. I am caregiver for my Mom, who will be 98 next month and suffers from dementia, and the time it takes to answer the telephone takes away from her care The calls usually come at mealtimes, which makes them doubly inconvenient and trying.
Paul	Tifton	GA	No more calls to home phones that are not solicited.

Teresa	Los Angeles	CA	I don't answer my phone anymore unless it's a number that is recognized mlby my address book. I worry about missing a call from a loved one in the hospital, etc. but I just don't have the patience to deal with the sheer volume of carpet cleaners (I dont have carpet) and vacation timeshare companies that deluge me with unwanted calls. So are the harassing calls about a friend's debt (that I am in no way party to) and the occasional scammer. The Do Not Call list once worked well. It no longer does. Something needs to be done, and since the FCC seems to be playing whack-a-mole with too many offenders to make a difference. Now my phone is like an email account without a spam filter. It's obnoxious. Please give me a spam filter. I would like to be able to answer my phone and know it's someone with a legitimate reason to call me, and maybe an occasional wrong #. I want my phone back!!
Phillip	Newbury Park	CA	The phone companies could do something to stop this but are making money of the problem. Who leases the data and communication lines to the call centers that make the robo call? The phone companies now stand to make more profit off of the problem by adding debt collectors and predatory lenders to the mix.
Gary	Miami Beach	FL	I get four or five a day. They interrupt business calls, dinner, my sleep. They suck. They need to be stopped! And punished.
victoria	easton	MD	I just can't abide all the 6pm calls, not just from sellers of merchandise, but now the Doctors also. They all call either at 8am, noon, 6pm or 8:45pm. Yesterday I had nine!!! Just a real pain in the you no what. PLEASE STOP THEM
Pam	Monroe	LA	I do not approve of receiving robocalls on my cell phone because it's an invasion of my time, privacy, and I am also charged for the number of minutes and texts.
Carolyn	Pittsfield	MA	Please. Help us stop robocalls.
Thea	Albany	CA	I consider it harassment when I get multiple calls seeking some other individual (not me or anyone I know) without any convenient way to stop them. I have to call the companies, get through their voicemail and finally tell a rep that I'm not the person they're seeking. I shouldn't have to do all that. Please require limits on these calls, and easier options for individuals to say "I'm not the person you're seeking."
Barbara	Watertown	CT	Robocalls are intrusive. They come at inappropriate times and are not requested.
Elton	Los Altos	CA	I am sick to death of receiving robo calls that I answer and no one is there!!! I do not have "caller ID". I do not see what they expect to gain? I do not owe the IRS anything and I don't need their "HELP"!!!
JAMES	DANVILLE	PA	Robocalls are a waste of phone subscribers time and an invasion of privacy.

John	Minneapolis	MN	Why in the hell should my 96 year old mother-in-law have to tolerate 5 or so robocalls to her house every day with no possible means of avoiding them? CenturyLink has confirmed that she cannot get the "No solicitation " calling feature "because she doesn't have a fiber optic phone connection." WTF? There is NO technology available to prevent annoying calls to her house. AND, she needs her landline for her "lifeline " ("Help I've fallen and I can't get up!") Political BULLSHIT at its absolute worst.
Amy	Rockville	MD	I have a son with health problems. When I'm expecting calls from doctors, I have to answer every call because it may be from a doctor that I cannot call back directly. (All calls go through their answering service). I put other calls on hold "just in case it is a doctor" to discover a robocall. And when I'm not in crisis mode there is always the possibility that the call i'm ignoring because I don't recognize the call is a new crisis.
Georgia	Tomball	TX	Very irritating
F B	Orlando	FL	Robocalls are an abusive intrusion into a person's life. They should not be permitted under any circumstance.
Celia	Tuscaloosa	AL	I oppose robocalls to cell phones without the cell phone owners permission. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.
Elizabeth	Philadelphia	PA	Why should I have every dinner interrupted by a robocall? Why should I have to pay extra on my cell for robocalls? I resent their intrusion andthere is no effective way to opt out their harrassment. They keep on calling. If you answer and talk to a person and ask them to stop calling, they hang up on you. If you push the number they say will stop their calls, they continue to call. I will never buy any product hawker by a robocall so their calls serve no purpose except to harrassment and annoy. You can make them stop. Please do.
William	Waynesboro	PA	Nothing is as irritating as these unsolicited robocalls - despite bein on a "no-call" list.
calvin	Philadelphia	PA	Over and over, again and again. They just don't stop.
Anthony	Carrollton	TX	I am tired of being VIOLATED by ROBO CALLS to MY CELL PHONE! The DoNotCall.Gov program gets money for the violations, and WE as consumers (and the violated), GET NOTHING~!!
Peggy	Calhan	CO	Robocalls left on voice mail should be illegal. Robocallers should have to reimburse individuals for the cost and other expenses that their calls/text messages cause. The number of allowed calls and/or texts should be limited to no more than two per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Debt collection robocallers must notify us of our right to stop receiving calls. There should be stiff penalties applied for not complying.
Darla	Akron	OH	Stop these harassing robo calls.

Carole	Huntsville	TX	Please Block ALL robot calls to 936.662.5394.
frank	dubuque	IA	I oppose robocalls without my permission. This is what should happen: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Sandra	Edmond	OK	To the FCC: Please protect cell phone consumers by implementing strict guidelines regulating how often and when a debt collector can contact someone on his/her cell phone. Please include in your regulations that consumers should have an easy and quick way to opt out of robocalls and that the company calling MUST inform the consumer of this option and give them a chance to immediately opt out of further calls. If you do allow debt collectors to call please limit them to a maximum of 2-3 calls per month and make sure they cannot call anyone who actually has a debt - not relatives or friends of the debtor. We consumers need this protection now. No debt collector should be allowed to harass any consumer with unlimited phone calls to either a landline or cell phone. Please help by passing appropriate regulations. Thank You.
V. N.	Charlotte	NC	I have no debt, for which I am grateful. But for those who do, I can tell you that constant intimidation and harassment has no good result. Whether the debt is real or not, predatory lenders do not operate on honest principles. Please do not allow this horrific system to continue. Thank you.
Tracey	Bristol	TN	I don't trust any phone calls anymore unless I know the caller. I should be able to choose whom I receive calls from.
Harry	Clarkston	MI	We all know not to drive and use cell phones but many can't resist the urge to answer a ringing phone. Getting robo calls just adds to phone use behind the wheel. Even when using hands free devices, it diverts your attention and adds to the stress that contributes to road rage. Please ban such nuisance calls. They serve no useful purpose,
Stephen	Portland	OR	Bottom feeders and those willing to ignore current statute on robocalling should be not just identified, but prosecuted to the full extant of the law. I've filed over 150 complaints with the donotcall.gov site over several years and other than using nomorobo to intercept daily call attempts, the FCC has not secured my confidence that are doing ANYTHING to attack this plague.
Karen	San Diego	CA	Robocalls to cell phones cost me money. Please end them!
Mike	Elizabeth	CO	Please stop all robocalls as soon as possible

Pat	Bountiful	UT	Robo calls and texts need to be stopped from cell phones unless I give permission. FCC guidelines should make it clear to cell phone providers of their responsibilities to ensure legitimate and traceable numbers are being passed through to their customers. There needs to be strict penalties for those companies who disregard DO NOT CALL.
Kathleen	Decatur	GA	Please stop these calls. I am 66 years old. I have been threatened by these predators. They are using my personal information to frighten me into sending them money. They have claimed to be from the IRS, from Microsoft, from my credit card company, from resorts, from my doctors office, from Medicare and other places. Caller ID is no longer accurate due to these crooks. I pay a hefty amount with extra fees each month for local landline phone service that doesn't provide me with the tools I need to protect myself. I cannot understand why the phone company does not want to sell a quality product and safeguard their clients. I cannot block these calls or get the true origin of the phone call. Please help me and others like me.
Harvey	Porterville	CA	It is a privacy matter! Nobody should be able to continuously harass people on their cellphones.
arthur	prescott valley	AZ	Enough: I did not know that the phone system was created to aid robo callers in disturbing me with their peddling. PLEASE! Just once consider the little guys.!
David	Cotati	CA	Please act in the interest of the people, not the worst of the worst business of debt collection and other robot calling users.
Charles	Beaufort	NC	I am writing to oppose allowing robo calls to cell phones. I use my cell phone for work and do not wish to be interrupted by robo calls. Nor do I want the network to be clogged up by unwanted robo calls. Thank you
Michele	St. James	NY	Every day I get a call from either a business loan company or a guy here on Long Island, Garden City, who calls about re-setting my Microsoft account. He has an Indian accent and has been cited numerous times by local police and complaints on the internet. I told him he was a terrorist and he yelled....hung up
Margaret	San Marcos	CA	I do not have debt, and I feel sorry for anyone who is getting debt collection calls. I get undesired sales calls from morning into the middle of the evening that in- terrupt my work and startle me out of concentration on something productive For an older person, hurrying to pick up a phone can be dangerous. And the time wasted? I can only imagine the thousands of hours of productivity wasted in this country. These callers probably have the right to intrude on us this way, but only once. Each call should have a simple opt-out method, with a penalty if it is not honored.
James	Oconomowoc	WI	ATTN FCC: NO ROBO CALLS TO CELL PHONES-please

Karl	Three Rivers	MI	Charge the robocaller \$1.00 / call to initiate; Give this fee to the appropriate Government agency. Charge them \$.50 / minute for the duration of the call; Give this to their telephone carrier. Make them pay any fee's or minutes charged to the receiver of the call at full 'over my minutes' rate. I believe that this method will be easier to enforce (as the service carriers will jump at the income) and keep the robocallers from abusing the system. My 2 cents, --Karl.
Allan	Wadsworth, IL	IL	Stop Robo-Calls
Mary	Seattle	WA	I have a cell phone mainly because it gives me a degree of safety when I am away from home and may need emergency help. Its cost is worth it if that protection is reliable. But if unwelcome unsolicited and unSTOPable calls start using up my minutes, I could lose the safety I currently get from this phone. This is unacceptable, precisely the kind of threat a government ought to be able to protect taxpayers from.
david	Macomb	MI	I get just Robocalls now on my Cell phone, even that it is listed in the Do Not Call list, for years now, I still get calls. You should also make it illegal to use fake Caller ID names too. I even received calls from a Debt Collections, that was not even mine and it was hard to stop all the calls and now you want to give them a free hand to do what they want too. Debt collections do not follow the law now and you want to give them more rights.
ROXANNE	VALPARAISO	IN	Please stop these. I have 3 children and 8 grandchildren. I have to answer my phone. Please recognize my right not to be harassed. I shop online which means my name is being sold. I am 68 years old and my phone rings day and night.
Matthew	Columbia	MO	It is more than frustrating, these robocalls are downright angering. Please Stop these companies from ruining our peace of mind.
Brent	Van Alstyne	TX	Its about time for the FCC to step up and take care of the American People by putting a stop to ROBO CALLS to Cell Phones. We should be able to add our Cell Phones to the no caller list, debt collectors should not be able to make more then 3 calls a month to the cell phone user and it should only be to them and not their family and friends. These guidelines should be made clear and concise with server penalties not just a slap on the hand to those companies that violate the new law or regulation.
Patrick	East Aurora	NY	Please do all you can to prevent debt collection and similar companies from employing Robocall technology to call cell phones. These calls are very annoying and an invasion of privacy Thank you

Jackie	Yorba Linda	CA	I am on the National Do-Not-Call list, yet I receive a minimum of 5 calls daily on my home phone. Now they have started calling on my cell phone, a number I have never given to anyone except my immediate family! My cell is usually off as I have it for emergency only purposes. Still when I do turn it on my time is wasted listening to or just plain deleting the numerous unsolicited messages. Especially hate the ones on home phone that state this is your LAST chance, yeah, would be nice if you never called back to give me another LAST CHANCE!
Robert	Piedmont	CA	Do the right thing for a change, and stop Robo Calls once and for all to all land lines and cell phone lines!
Pamela	Asheville	NC	These endless and repetitive calls are at all times of day and night and are the equivalent of harassment. Please block or stop these unsolicited calls.
G	Morgan Hill	CA	I am charged a daily access fee when I use my cell phone in addition to the per call fee I pay to make or receive calls. I despise wasting money and minutes when my voice message is a robocall or a call I answer is a robocall. Robocalls must go.
Kay	Anoka	MN	It makes me angry when I answer my cell phone and for a seconds no one speaks. At that point I hang up but there are times when the call comes from a familiar area code so I do answer. These companies have no right to waste my time and cell minutes!
Tim	Mpls	MN	One day, doing my home blood test, the reading is at the level where I have been told to make an emergency call to my Doctor. But just as I go to do that, the phone rings. It is a "Rachel from Card Services..." robo-call. I hang up immediately, as I always do. ('Pressing 2 to discontinue future calls' does absolutely nothing.) Then I pick up the receiver again to call my doctor. But I can't -- Rachel is still on the line, spewing her lies about credit cards. So I have to wait a couple of minutes until that robocall finishes for them to disconnect, and free up my phone line, so I can make the emergency call to my doctor.
Brian	Nashville	TN	Please stop robocalls. They are annoying, frustrating, and in many cases illegal. It's a travesty that the telecom companies have allowed this practice to continue and lining their pockets with the theft of our time.
Ruth	Edina	MN	Please stop debt collection Robocalls.
Charlees	Costa Mesa	CA	I have done everything I can to stop robo calls, now it's your time to step up and do what is needed to end this problem. I am counting on your support as you count on mine at election time.
Dee	Phoenix	AZ	The fact that I am charged for their calls is nothing short of robbery! All cell phone calls should be identified by name and category of call!
Robert	Littleton	CO	Robocalls must be stopped. My cell phone is for MY use, not for the use of invasive robocallers. Please enact strict guidelines to regulate these unwanted and annoying calls.

Mark	Melbourne Beach	FL	Please regroup and stop the robocalls that have started up again. For a long time we had the peace of not being bombarded with sales pitches at any hour and in any place, but no more. Please reinstitute the laws and enforcement of them that will stop this harrying practice. This is much more important and useful than regulating the internet.
Donald	Northborough	MA	It is long past time to end these calls.
Robert	Southold	NY	Please, no Robocalls to cell phones. We have this problem on Land Lines which is a big problem don't want this on cell phones. In addition, while driving this is another distraction I don't want to have!! This becomes a safety issue while driving in addition to just a big problem and possibly costly.
Jana	Roseville	MN	I am tired of getting these calls. Sometimes there are up to 8 a day from 8 different numbers. And, I'm on a Do Not Call list. What gives?!?!?
Debi	Bensalem	PA	I am sick and tired of phone calls in the middle of the night or any other time!
Marie	Reedville	VA	Despite our land line and both cellphones being on the no-call list, we receive four or five automated messages selling something, or persons telling us they are "responding to our request" for computer assistance. It's extremely irritating! And we expect that some people fall for these scammers.
Thomas	Palo Alto	CA	Stop robo calls to my cell phone.
Gerald	Las Cruces	NM	I did not purchase my phone to have it used for advertising, sales or polling. Please put a stop these and all other ventures.
Linda	Southport	NC	Past time to end Robocalls!
Steve	Hemet	CA	Myself having been subjected to constant harassment by a debt collector during a period of extreme hardship, I know firsthand how frustrating and unnecessary robocalls are. Please help protect consumers!
Valerie	Lindenhurst	IL	There should be no robocalls to cell phones since many people have to pay for each call they receive on their cell phone. It isn't like a landline where I pay my service fee and then unless it is long distance it is a free call. They also shouldn't be able to text cell phones because some people don't have unlimited text and are charged for every text message.
Michael	El paso	TX	I should have a choice to receive or not receive robocalls. I am in the medical profession and get constantly robocalls on my phone which interrupted my patient care. I do think I have the right not to receive robocalls. Please do not allow any more robocalls.
Louis	Setauket	NY	I am a businessman who uses his cellphone for most of business-related work. When I am on a call, a robo-call may come in and I have to switch over, not knowing it is spam junk robocall. This disrupts the first, legitimate call and I sometimes lose the original call when switching. ROBOCALLS HURT MY BUSINESS. .
Simone	Phoenix	AZ	Stop sending these annoying calls to cell phones.

Earl	Tucker	GA	This issue of robo calls is a real safety issue. Calls could come when a person is driving and regardless of whether they answer or not it is an unnecessary distraction. We pay for our minutes ourselves. What makes those callers think they are entitled to use them.
Lynda	Berkeley	CA	ROBO CALLS ARE AN INVASION OF PRIVACY, COST CONSUMERS TIME AND MONEY, AND ARE PERNICIOUSLY FREQUENT !
Bruce	Canaan	NH	I have reported information on robo calls to the FTC numerous times, and I make sure all of my numbers are on the donotcall.gov registry list, yet my family and I still receive them. I work odd hours, and therefore sleep at odd hours. There have been days where I receive six or seven robo calls a day and get no sleep before work. These calls have gone beyond harassment (the number of times I have been threatened with arrest is ludicrous) to where they are a health issue. I have been actively seeking an effective means of stopping these calls for years, and have yet to find one. Life, liberty, and the pursuit of happiness is in jeopardy in my life due to this very issue.
Linda	Tully	NY	Bad guys seem to prevail. I wish the FCC would come more to the defense of the public and figure out a solid way of ending those senseless calls. Are there FCC members who are behind some of these worthless calls? How about coming to our needs instead of letting the bad guy keep sneaking in. When are you going to flex your power, if you have any, and stick with it? By the way as far as I am concerned it is an invasion of my space.
Donna	Mission	TX	Please do all in your power to stop robocalls to my mobile phone. Computer calling should be curtailed.
Morton	Los Angeles	CA	Without regard for Privacy, this invasion could only be likened to the "pox":
David	Sturgis	SD	We are bombarded with calls on both our land line and our cell, many with the same recorded messages. I have tried their options to be removed from call lists, "if you do not wish to receive calls for this offer, dial 2," but to know avail. The same calls continue coming in day after day, but from different phone numbers and locations. "Hello, this is Allie..." from a Florida area code, and then an hour later, "Hello, this is Allie..." from a New Jersey area code!" Apparently, this Allie really gets around!
Albert	Wytheville	VA	Robo calls be they to landlines or cell phones are a downright imposition on our privacy. They should be eliminated completely!
Martha	Hyattsville	MD	Robo calls of all types should be illegal. I pay for my phone services. My phone should not be used to harass me. It's bad enough that non-robo call telemarketing calls get through.

Dale	St. Louis Park	MN	My mother died in 2008. In the year after her death, I received endless calls from a debt collection agency. I was unable to opt out. It became clear over time that the agency had my mother confused with at least one other person with the same name. I had to patiently explain that my mother had never lived in certain cities or traveled to them. It took about a year for the calls to finally stop. I believe that people who receive robo calls from these agencies should be able to opt out easily and quickly.
Richard	Palm Desert	CA	It was bad enough that I don't answer my home phone at all anymore because of the invasion of privacy from endless Robo calls. Now it's starting to become a problem at my office and were screening everything because of the junk calls wasted time. It's getting even worse that I'm getting this crap on my cell phone which is a very expensive way to escape the other two options. This kind of invasion of privacy, uninvited waste of time and money and resources in general irritation should be a criminal offense.
Dave	Tigard	OR	t I am sick and tired of daily nuisance robo calls. Please do something to stop this problem as it is annoying, distracting and time consuming. The FCC has the power to put and end to this problem permanently so please act on this and get these calls to stop. Many thanks.
Richard	Belchertown	MA	Every day I receive scam calls from foreign based telemarketers falsely identifying themselves as Americans. All of my phone numbers have been registered with the "do not call" website...but..they still keep calling ? Do something to stop this.
Eileen	Aberdeen	MD	Robo callers are not bringing me information that can't be transmitted by using the U.S. mail. They interrupt my dinner, my driving, and my attendance at classes and meetings. My phone does not provide the number of the caller, so I am unable to ignore calls from numbers I do not recognize. My bills are paid on time and I conduct correspondence on products and services as needed by ME not the seller, promoter or a bill collector. When I need to reach someone, I know their number. I do not want to waste my time listening to sales pitches for things I do NOT intend to purchase. It seems to me these robo callers are infringing on my free exercise of my right to not be disturbed.
Joe	Brentwood	TN	I am now getting several calls a day from junk calls such as Rachel from cardholder services. These are extremely annoying and are illegal however the government does nothing to stop this blatant abuse.
george	spring hill	FL	then tend to call at supper times when they know you should be home. even when you are on a no-call list.
Judy	La Crosse	WI	Just stop.

Phyllis	Winfield	IL	When you pay for your cell phone calls by the minute whether you call out or someone calls in these calls should never be allowed. And this doesn't even measure in the annoyance that they present. Please do something.....
Joe	Spring Lake	MI	I have been called on a consistent basis for over two years, by a credit card service, whose service I do not qualify for. I don't understand why they continue when there is no chance for a sale. If you get a live person on the telephone, they hang up immediately.
Larry	San Martin	CA	I get at least 8-10 Robocalls per day. Many of them are on my mobile phone. PLEASE MAKE THEM STOP !
Greg	Kihei	HI	Please put an end to these never-ending, annoying calls. They have increased exponentially in the past few years.
jack	staten island	NY	stop robocalls
Philip	Pittsfield	MA	Please do not allow robocalls to cell phones! Also, please make sure debt collection robocallers notify us of our right to stop receiving call. The number of allowed calls or texts should be limited to no more than three per months, and only to those who directly hold federal debt - not friends or family. Guidelines should be clear and readily available.
glenn	deerfield bch	FL	Put a stop to ROBO CALLS
William	Houston	TX	I retired less than a year ago. I have been appalled as to the number of robo calls I receive each day. I know that they are robo calls because I have a system that disconnects them after one ring. Portfolio Recovery must call me at least twice a day and do not even have outstanding debt, much less being delinquent on debt. I have now started to receive robo calls on my cell phone. They interrupt everything. Apparently, in order to obtain peace and quiet in this wonderful nation of scammers I have to give up all in house means of communication. In addition, it costs me when people call me on my cell phone. It is time to stop this madness. If I am receiving calls that have absolutely no basis, I should at least know that an American is being paid to make the calls. Currently, we have invasion of privacy beyond all comprehension. Put an end to robo calls, especially on cell phones.
Brian	San Francisco	CA	It's irksome, wastes time, and can be a hardship for vulnerable populations that cannot afford unlimited calling plans.
Julie	Wellborn	FL	Please please please stop the madness!! It is of no benefit to allow these companies to call endlessly. It has gotten to the point where I no longer answer my phone!! I even turn my ringer off and pay for caller is every month.
SAMUEL S	DALLAS	TX	Please help your fellow citizens eradicate robocalls once and for all! What a nuisance, it bothers but NEVER benefits anyone!
Stephen	St. Paul	MN	Limit calls to those who actually have debt.
Lorna	Houston	TX	End robocalls to cells phone numbers

Gail	Santa Rosa	CA	I oppose robocalls to my cell phone without your permission, Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Stephen	York	PA	Robo calls are a major problem for cellular phones. They are not only annoying but they waste expensive call time.
Elizabeth	Raleigh	NC	Robocalls are a nusiance. Please don't allow companies to continue this harassment ability.
Nancy	Silver Spring	MD	My phone is something I have for my own convenience. It should not be a vehicle for the invasion of my life by robo callers.
Steve	Bradenton	FL	Robo calls suck!!!
John	Fort Morgan	CO	Though I personally only have credit card debt that is payed in full each month and my children also manage their debt - these rules could impact me. I only recently acquired my first cell phone (as a Senior) - which has a number previously used by someone else. Unlike land-lines, we carry cell phones on our person when driving and even though I choose not to use the phone while driving, it is a significant distraction when it rings. Also, most plans include a limited number of minutes meaning that excessive calls will lead to additional charges. For these and other reasons, the guidelines about robocalls for debt collectors should at least include the following provisions: * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available Thank you!
Spence	Rochester	NY	Stop Carmen from calling my AT&T land line and cell phone!
James	White Plains	MD	Unless that industry is going to pay my personal cell phone charges. I don't want their calls at all. Please put me on the do-not-call list.
Barbara	St Johnns	MI	For Pete's sake would it be too much to ask a federal commission to once look out for your citizens' rights rather than Big Money? No one wants Robocalls. If you don't do something to stop this, I want the phone number to call to get myself on the no robocalls list.

Earl	Charlevoix	MI	Robocalls are harassing, raises people's blood pressure, and on several personal occasions dangerous (my wife was uncharacteristically late from a trip and I had to climb down off the roof to answer a robocall). I rarely answer if I don't recognize the number but if I do there is rarely nobody on the line and a call back reaches a nonexistent line. My friend went on a bad date and every time the phone rang she panicked. We believe they were robocalls because her phone history showed different numbers. You must place one of your highest priorities on ending this menace.
Mary	Webster	NY	Stop the constant interruptions!
Margie	Spokane Valley	WA	Older people have a hard time getting up and down to answer the phone and have a limited income for cell phones. Thus all extra calls that take up my minutes are a large burden on my time and pocket book. Plus, if you don't want their call's they get very rude or abusive with you. Not nice, and it's my time and money. Who needs this!!
Pat	Denver	CO	This week, we had 13 calls in 10 minutes on our land line. Thirteen in ten. New record. If the thought is that these calls are profitable and help preserve land line service, rethink: we are likely to end our land line service because it subjects us to harassment. STOP ROBO CALLS NOW.
Sami	Ormond Beach	FL	Thank you for your time, and I hope you do the right thing and stop robocalls for good!
Esther	East Setauket	NY	Our land line gets between three and eleven robocalls a day and now they are leaving messages too.
diane	Greensboro	VT	Robocalls are are a tremendous nuisance and an invasion on our personal time with our personal devices. Please develop strict guidelines.
Argentina	Portland	OR	To be submitted to a daily doses of nauseous publicity is equivalent to torture and not acceptable in a civilized society.
kathy	mansfield	OH	PLEASE,PLEASE put an end to robocalls. I'm getting tired of these robocalls costing me when they call my cell phone. I have my cell phone for emergencies only and all I ever get are robocalls from someone wanting money for something! Is there no "Privacy" anymore?? Thank You....sincerely....kathy
Ravin	SC	CA	Stop the robocall nuisance.
Peter	Phoenix	AZ	Dear FCC : Please help us with this exasperating problem. I get anywhere from 1 to 5 robocalls a day. We need to put an end to this infuriating practice. Thank You in advance
Leo	Southfield	MI	These intrusive unsolicited calls are not only annoying, but violate Do Not Call rules.

Thomas	San Jose	CA	Robo calls are extremely invasive and a total waste of time.. I NEVER do business with any company that uses Robocalls so they are of absolutely no use to me. The are an invasion of my privacy. They use my phone that I pay for without my permission. They do not obey the "Do Not Call" Registry. The phone company has the ability to block these calls and should do so. They should also be illegal. Companies that use Robocall and spoof their phone numbers should be prosecuted as criminals, intending to commit fraud. Thomas Wahl
Bruce	Glendale	CA	FCC - In the past few months I and my wife (we have separate numbers) are receiving 2 to 3 robocalls a day. They are all scams - threatening lawsuits, dept collections for debts that don't exist, solicitations for all kinds of products from carpet cleaning to solar roof installations. How did we get here? Why do we not have a National Do Not Call registry for cell phones? We no longer have a "land line" in our home. We only have cell phones. Getting calls that have no interest or importance to us is frustrating beyond words. And there's no recourse, no true "opt out" mechanism. This is unfair. I have received dozens of calls, not once of which was of any value to me. Please do something to end this scourge on our lives. Thank you!
Rick	Glendale	AZ	I am so sick of solicitors and calls from people I have never heard of, how can you allow this except for greed!!! everything gets taken away from our freedoms, and yet these same people infringe on my rights to privacy with their recorded calls!!!
John	Newbury Park	CA	They're a simple and deep invasion of privacy -- and an unbelievable inconvenience. That's it. Does anyone have an unlimited right to poke their heads inside your front door and demand your undivided attention -- YOUR ATTENTION! -- any time they want, because they have freedom of speech???
Ursula	Wellsville	NY	Enough is enough. Stop Robocalls.
Terrence	Stamford	CT	I am sick and tired of the deceptive robo-calls. They are now using your local area codes which is very deceptive. I have told numerous callers to take me off their list numerous times to no avail. They hang up on you when you start telling them you are not interested. "Stop the harassment now."
Dororhty	West Valley City	UT	I was in the tub and the phone ring , I try to get to it and fell. it was a robocall.
Jason	Creswell	OR	No robo calls...minutes cost \$
Neal	Rancho Palos Ve	CA	We are bothered daily by a number of robo calls. It is very bothersome and a miserable nuisance. Please do something to end this unwanted practice.
brian	bROOKLYN	NY	I retired so I can sleep late and almost every morning I get waken by someone trying to fix my credit or give me a free obama phone.

robert	coralville	IA	I am pestered daily by unsolicited sales calls for everything under the sun both on my land line and our family cell phones. This wastes my time, patience, money and has interrupted my life so much that it distracts me from safely driving my car and doing my work. It is long over due that limits be placed on calls like these!!!
John	Lady Lake	FL	Was a retiree on small incomes I am disgusted to see my emergency cell phone minutes eaten up by senseless robo calls going into voice mail
Trish	San Francisco	CA	No robocalls. So annoying.
Renae	Chehalis	WA	End all robo calls.
Karen	Norwell	MA	It is time to stop robo calls. If you won't stop robo calls then you must require all phones numbers to have identification and to leave a message to let us know why they are calling. Please it is time to stop robo calls now.
Ruth	Sarasota	FL	Please protect us from robocalls! For some inexplicable reason a couple of months ago I started getting flooded with calls from Unknown caller, No caller ID, and multiple numbers from all over the country. I never answer these calls but they persist. You have to turn off your phone just not to hear the calls, which means you might as well throw the damn thing away. But it is my phone and I pay for the service. I should not be harassed with robocalls. This needs to stop. It is an invasion into my space and into my phone service. I don't pay the bill for robocallers. Please hear us and implement the strongest possible rules to protect us from robocalls to our cell phones.
Bettie	Spokane	WA	Please stop these calls. Guidelines should be clearly stated and calls limited if not stopped.
Charles	Carlsbad	CA	We receive 3-5 robocalls every day. They are a huge disruption Please stop them.
Gerard	CAPE CORAL	FL	phone rings in auto, I only use phone for emergency
Patricia	Los Angeles	CA	STOP ROBOCALLS NOW!!!!
Margaret	Chattanooga	TN	I despise robo calls. I am on both state and federal no call lists and still they call - over and over and over even after being asked to take my number off their calling list. They are a nuisance and total waste of time. Please stop robo callls to cell phones and land lines. Thank you, Margaret Dexter
patricia	montclair	NJ	i work from home and these calls interrupt me daily. i loathe them. i'm on the do-not-call list but they still come.
Lorene	Highland Hts	OH	We get these robocalls all the time. it's to the point that we do not answer our home land line and now they are coming through on my cell. It's very annoying. There has to be a law to stop these people. I would call it criminal.
James	Geneva	FL	Robo callers enable these parasites to annoy the voters. Stop them all.

Barbara	The villages	FL	I'm a retired widow and receive multiple calls per day. I answer none of the, never have. However, have multiple instances of threatening messages, i.e., "the sheriff is on the way to arrest you for past violations" or "the lrs will file a lawsuit if you dont call immediately.' I know they are scams, but unsettling and a huge nuisance in my life.
Charles	Greenville	SC	I have children living in five states outside of mine. One daughter suffers from health issues. The cell phone is a critical link to my children and their security. To receive robocalls is not only an invasion of my privacy, but a disruptive threat to the health and safety of my family. I want all robocalls prohibited.
Gary	Danville	CA	I am so sick and tired of getting these unsolicited calls. I beg you to bring this to an end!
Richard	Hampton	VA	I don't like receiving Robo Calls from sources that cannot be traced and I should not have to pay to block them, but in essence that is what I have to do. I'm limited by the number of calls I can block, but the robo calls can have limitless numbers to call the same advertising crap on. Stuff I don't want, don't need and won't buy. Please stop them. If people want something let them call the company to find out from advertising. Not from Robo Calls.
Ad	Wfield	NJ	Robocalls are an intrusion on my quality of life and interfere with my time and privacy. More important, I believe they are in violation of the U.S. Constitution. Please ban them
Steve	S. Hamilton	MA	Please stop robocalls to cellphones now!
Robert	Wilmington	NC	MOST of the time when my land line OR cell rings, it's a Robo Call. There are "public announcements", "this is not a sales call", etc., etc! There are recorded messages with no human introducing the call. Now I'm getting more and more Robo Calls on my cell phone, at MY expense. Please start enforcing the law. Please, no excuses about how difficult it is the find these people. You guys must get these calls, too, so why not just make contact like an interested customer to get to the source? It's no rocket science.
Donna	Downey	CA	It's happens everyday numerous robocalls to my cell phone. If it's not a robocall, it's a scammer call. It's so tiresome to have these type of calls coming in everyday, including weekends. Someone, somewhere has to stop this. The FCC really needs to crack down & help the people who keep them in there jobs, oh right. sorry, you aren't doing your jobs, so how about doing your jobs as it would be greatly appreciated!!
Ken	Kalamazoo	MI	robocalls are very annoying, and they fill missed call lists and voice mails. do not like stopping to check who is calling, then find it is a robocall. 60% or better of the calls on our phones are unwanted calls.

Larry	Soddy Daisy	TN	Cell phones and land lines are a link to safety for all of us if one is hurt, ill or in danger. Yet many of us cut off our phones to avoid these insane and constant invasions. If I had a dollar for every Rachel call I could make a very large contribution to the food bank.
Renate	Hudson	NH	I did not get a cell phone to be harassed by robo calls.
JOYCE	BROOKLYN	NY	BECAUSE ROBOCALLS ARE ANNOYING, UNNECESSARY AND BORDERLING ILLEGAL!!!
Jennifer	Rialto	CA	I am tired of been harassed by robocalls, and even if you tell them to stop calling, they continue to call.
Brian	Nashville	TN	Please stop robocalls. They are annoying, frustrating, and in many cases illegal. It's a travesty that the telecom companies have allowed this practice to continue and lining their pockets with the theft of our time.
Douglas	Ballston Lake	NY	Please continue your efforts to prevent robocall abuses, especially to our cell phones. We really appreciate your help!!!
Jim	Milton	GA	I am absolutely opposed to robocalls on any of my phones, but especially on my cellphone. Please take the actions necessary to see to it that predatory lenders, shady companies, and those who rely on random phone to solicit business are denied this possibility.
JUNE	West Hempstead	NY	I have been receiving robocalls almost daily - regarding education loans (I have none), asking for donations for bogus police organizations, offering to provide a lower interest rate on my credit card (no specific card mentioned), a free trip, etc. Fortunately, I have no massive debt and do not receive calls from debt collectors - but I know these calls can be extremely intrusive and abusive. These calls come to my landline AND my cellphone, which I use only for family, friends, and emergencies. Some of these calls originate from outside the USA, from the number that appears on my phone screen. I would like NEVER to receive any of these calls! Please set up some system to eliminate them completely!
John	LoBeing uisville	KY	Block all robocalls to cell phones. Being forced to receive them only makes me determined not to listen to them, anyway, so you might as well block them.
Michael	Luray	VA	I'm sick and tired of these entities wasting my time, please make it stop!
Madelyne	Shrewsbury	NJ	My day and mostly my evenings are repeatedly interrupted by these calls. I've put myself on "Do Not Call" registries and it doesn't stop the calls.
Judith	Phoenix	AZ	Why do I have to have my minutes used up by Robocalls!
Carolyn	Eugene	OR	Please do whatever you have to to stop all robocalls to cell phones. They are so annoying!
Dianna	houston	TX	When I want to make a purchase I know where to go. I do not appreciate being bothered with the calls.

Renee	Floralá	AL	I cannot stress strongly enough the level of harassment I feel each time my cell phone rings and I hear silence followed by the sound of a click as the transfer to a real person or taped message occurs. The calls are unsolicited and unwelcome! Calls during the daytime when I'm at work, calls when I'm trying to enjoy dinner with the family, calls after a reasonable time in the evening. You have the power and authority to stop this harassment by ending the ability to robocall cell phones. I don't want any of them, and certainly should be able to stop each and every one of them at the first call. This should also include political campaign calls! I am fortunate that I do not have the problem of debt collectors calling, but they should notify people of their right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to individuals who hold federal debt -- not their family and friends! The guidelines should be clear and readily available.
Rosemary	DeFuniak Springs	FL	I have to constantly answer the phone only to discover it is another "Unknown Caller." I am disabled and some days it rings constantly.
Alice	Eastaboga	AL	We are tired of all the calls we get from telemarketers etc. We can't sit down and have a meal because these people keep calling. Half of them sound like they are in another country. I have contacted the federal trade commission about this. All we want to do is hear from our family and friends and no one else. It is very annoying so I just hang up the phone or if I see the number I don't even bother answering it. Some of the numbers start with a v and about twenty numbers so we know this is a telemarketer or a scam.
cate	marietta	OH	I want the robot calls to stop on all phones, including landlines!
Robin	Oakland	CA	It isn't just debt collectors violating privacy and peace of mind! It is all those robo calls for carpet cleaning, surveys, even very good intitutions that I already send money to! The person or machine calling has no way of knowing what is being interrupted or what physical danger it might put to some elderly, like me, trying to get to the phone in time. Please help us!
Ellis	Shalimar	FL	Please stop these calls. When they call on my cell I get charged a fee and they call at all hours of the day and night. I have my phones on the "no call" list but this has not helped.
Anthony	Palatine	IL	Stop RoboCalls to my Cell Phone
Joe A	Orange Beach	AL	If you receive as many Robocalls as I receive, you would take immediate action to stop them! Please respect my privacy! Even one is too many!
David	Los Angeles	CA	To Whom It May Concern: I have recently received robocalls and telemarketing calls to my cell phone in the frequency of several per day. It is distracting me from my work, and it is happening despite my number being on the National Do-Not-Call List. Please help!

Dana	Austin	TX	Please stand firm and adopt strict guidelines that would regulate how and when debt collectors are allowed to contact me on my cell phone. I choose to pay for the expense of my cell phone with my hard earned cash because it is a tool I am willing to pay for to make my life more convenient and to more easily keep in touch with my family and friends. I do not pay for this expense to provide debt collectors a tool to carry out their business. Please require debt collection robocallers to notify us of our right to stop receiving calls and messages. Please only allow them to call or text those who directly hold federal debt, and please limit their calls or texts to no more than three per month. Also, please require the guidelines to be clear and readily available. I urge the FCC to stand firm and adopt strict guidelines. Thank you.
Omar	venice	CA	I've been getting a ton of robocalls lately, wasting my time and energy. Stop them!! I'm a voter and an activist. If you don't vote to stop them, we'll vote...you out of office.
Kerstin	VeromBeach	FL	This number calls me twice since Jan 2016 4345339028
Robert	Glendale	CA	We (a thousand plus citizens) have complained to you, the FCC, to stop robocalls to both our home and mobile phones. Apparently it has not registered. The rules you have set for these violators seem to have reached deaf ears. Their numbers are increasing. At my home we get four to five calls each and every day -- early in the AM, midday and late in the evening. They fail to stop even when pushing the 2 to be taken off the list. Others just leave a number to be called that cannot be reached. Surely with the technology in place today the FCC can regulate this abominable invasion into our lives. You should be able to contain this by compelling the phone systems to refuse service to these firms that do not obey the law. It is time that the FCC do the job that so many citizens have pleaded for.
Jon	Santee	CA	We receive calls (plural) daily from companies offering debt consolidation, home improvement services, solar services and any number of unsolicited business offerings to our home and cellular phone numbers. Each and every time I ask them to remove us from their calling lists, but they continue to call, many times multiple times in the same day. This annoyance is preventable, by your company, and should be blocked as a service to the fee paying subscribers to your company.
Richard	Lakeland	TN	I am tired of getting all these solicitation ROBO calls on my cell phone!
Richard	Los ojos	NM	Under no circumstances should subscribers to cell phone service have to tolerate robo calls. Personal phone line is just that. Personal. Stop this abuse now!!

Ralph	Raleigh	NC	No more robocalls to cell phones and time to enforce the do not call list for land lines. Hardly a day goes by that we don't get a call from "Rachael at Cardholder Services" on both cell and land line. We are averaging 8 to 10 robocalls a day on our land line even though we are on the Do Not Call list!
A Michael	Livonia	MI	-Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The gu
Sp	Moorestown	NJ	If we don't push back against the predatory phony charities, grifters, and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock.
Amelia	Robbinsdale	MN	Americans pay a lot of money to subscribe to home phone and cell phone services, and we have a legitimate expectation to privacy and freedom from unwanted interruption in our homes and in the use of our cell phones. This is why our country has established a national Do Not Call List. Robocallers have no right to interrupt our nights or our days. Debt collectors have other ways to notify individual debtors that someone wants them to pay their debts, like sending Certified Mail written notices to the individual. Debt collectors frequently call wrong numbers and old numbers no longer connected to debtors, as well as other individuals they believe to be connected to debtors but whose privacy they have no right to interrupt; I have received received improper repeated calls for all three reasons, and they refused to quit calling. I lived alone and found this very upsetting and felt that my safety and privacy were being threatened -- and I was not even a debtor. These debt collectors would even call from different phone numbers, making it hard for me to screen out or block their calls. Furthermore, debt collectors often are mistaken about whether the debt is owed or not, or how much is owed, because of the practices of the companies who sell or market information about debt. Please liberate American phone service consumers from harassment and unwanted interruption by robocallers, and especially from debt collector robocalls.
William	Lexington	SC	Stop robocalls now.
jesse	cincinnati	OH	.
William	New York	NY	We are intruded upon all day long in every way by greedy corporatist interests who think they own us and have a right to intrude, manage, and control us. Intruding on the privacy of personal mobile phones with robocalls is totally egregious, and we have to pay to be intruded upon. This is just plain wrong.
Renee	Gardena	CA	Since there is a decrease in land line phones, cell phones are use to call doctors and for emergency . These calls will load up our voice mail, so if your doctor wants to leave you a message, they can't because your MAILBOX FULL do to ROBOCALLS.

John	Deefield	IL	Please, need stricter regulations to stop robocalls to landlines and to cellphones. I pay for both phone systems and I do not invite these very unwanted calls. HELP STOP ROBOCALLS, please!
Clayton	and this	MN	I already don't answer my home phone because of the abusive marketing and even the charity calls. I would like to have my mobile phone be for communication in private without advertising and intrusive calls.
Jennifer	Centerville	UT	Please stop robocalls. I am constantly harassed with robocalls. I have the common last name of Jackson. We get easily 10 robocalls a week. I dropped my home phone and only use a cell phone, but I still get at least 10 calls a week. I pay my bills, but others with the last name of Jackson obviously don't. I don't want to answer these calls. I don't need to be harassed. They call at all times of the day. They call over and over. They never stop. Please make them stop. I've registered my cell number with the do not call registry, it helped, but did not solve the problem. The problem is the robocalls.
Caroline	Perkins	OK	Dear Sir or Madam at the FCC: It is mind boggling why robocalls to landlines or cell phones are allowed. And, why these unwanted callers who try to scam people by phone are not prosecuted with hefty fines or community service jail time. Senator Inhofe informed me that a federal law was passed in 2014 requiring written consent to "buy" or use my name to call or send emails. Really? It made no difference and obviously not enforced. We get as many if not more robocalls now. Give us a phone number or website to pass on those robocalls. Companies selling our information to companies who call or email us must also be prosecuted. The Do Not Call system is NOT working! The US Government need to hire hackers to protect us from hackers. This is a terrible sign of the times. It reflects that high grades/scores on tests is not the key to a better country or human being. Programs on the television reflect the interest and trend of killing without feeling or remorse. There is a play on hyping the ludicrous. Political commentators spewing out nonsense on the TV all day long are no better than the Wall Street money grubbers manipulating and driving the market prices. They all intertwine to make a nice mess for many.

Don	Shawano	WI	I believe that it is an essential element of personal privacy to be able to control incoming communications. This is especially true for robocalls that are, for the most part, unsolicited and unwelcome. Robocalls to cell phones are particularly obnoxious because they consume time on cell phone accounts and, if messages are left on voice mail, they take space in the consumer's cell phone voice mail boxes. In addition, robocalls intrude one people's personal time often when it is least desirable to be receiving incoming calls. None of this even considers the potentially abuse comments made by robocallers, which is another problem that needs to be eliminated.
Herb	Ojai	CA	My cell phone is predominately used for receiving medical emergencies. As a physician I cannot afford to have my cell used as an advertising instrument. Time is life and robocalls are creating a time distraction.
Nora	Hudson	NY	What's really annoying is when you have a pay as you go plan and get charged for these calls/texts!
Cecily R.	Brownsville	TX	Being a widow, living alone and living on social security, I would like to be protected from unsolicited calls.
GARY	TULSA	OK	This is a no-brainer. AT&T and other carriers should stop allowing telemarketers from hiding their identities from caller id - another no-brainer. Telemarketers are also ignoring the "do not call" lists - Feds need to step enforcement with "real" penalties. These telemarketers and robocallers are bottom feeders and scum of the earth.
Tracy	Corpus Christi	TX	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.
bruce	goleta	CA	It is not just Robocalls, also "spoofed calls" that do not show the callers real name , and correct callback number. If a person has an outstanding debt, cellphone or not, The debt collector must follow the fair credit rules about contacting the person. Since many persons have only cell service nowadays, a legitimate bill collector must be able to contact them that way,--- but--- following the required rules. There is NO reason the telco's can not block the spoofed junk spam fraudulent calls . The caller ID is either missing, or has an incorrect name and number, which is always "no longer in service" if you dial the number, you get the message "no longer in service" on the first or second ring. Surely, the phone companies can detect that when the call is coming to you, and block it... The "Do Not Call List" is escencially useless, the people do not care if you are on the list, they don't use the list, except maybe to get names and numbers to call !!
Laura	Punta Gorda	FL	Robocalls are annoying and a pain in the tush to receive by anyone. I only have a cell phone, not a land line and I hate my time being wasted by anyone. Please eliminate these, it isn't just debt collectors that use these calls.

Peter	Goodyear	AZ	Absolutely EVIL I get enough of that trash on my home (non-cell) phone. I sepnd a good deal of \$\$ & time setting ways to BLOCK junk robocalls YOU MUST Forbid these COMPLETEETELY on cell phones !! IDEALLY on all phones !! Peter Marikle
Michael	San Jose	CA	Please take whatever action necessary to stop all robe-calls to cell phones. This can be not only irritating but actually dangerous to those of us who must use our cell phones for emergency contact.
George	Delray Beach	FL	I have been getting survey calls for supposed government/political purposes even though I am on the 800 do not call list. I'm told the politicians are the ones that gave the Ok to do this. Just another unethical action from our elected leaders. Look ashamed!!!!
Barbara	Jurupa Valley	CA	Nothing is more frustrating than getting robocalls on your cell. It is bad enough to get them on your home phone but on you cell has to stop. Being called by someone selling a product you have no interest in is beyond annoying.
Tim	Melbourne	FL	Block all unwanted intrusions into private lives.
Marcia	Marshalltown	IA	I have had robocalls calling my cell and I pay for each minute I use. I even hate it when they call my home phone. I pay for these phones and the calls to and from them and others I have not authorize should not be able to call me and repeatively call me when I've told them to stop but they keep on doing it. I pay for these phone services not them and I shouldn't have to be bothered with these calls.
William	Pearl River	NY	Please stop the debt collection robocalls. when a person is financially down, please don't allow the debt collection agencies to do robocalls to further worsen the hardship of the person in debt by affecting the cellphone lifeline. That is clearly predatory practice in the worse sense. It is like kicking someone in the head when they are defenseless.
Nancy	Minneapolis	MN	I get calls from "card member services" telling me this is the last time to change my interest rate on my credit card, then I'm told to press 3 if I no longer want to be contacted. Of course I press 3, but I continue to get calls, sometimes more than 1 per week. I'm SICK of it!
Kenneth	East Brunswick	NJ	I've been on the do not call list for my landline and mobile phone for years now and the callers pay absolutely to it. As as matter of fact they have gotten more brazen. And it's not limited to debt collectors. Apparently there's no incentive, economic or something else for them to stop. I GIVE UP!!!
Barbara	Kingston	RI	I have been getting robo calls about debts of the former owner of my cell phone number which I have had for THREE years!! I called the phone complany and they said they cannot do anything about it. So, you have to!!! one even claimed to be a "Doctor" which frightened me because the call originated from the city where my daughter lives.

Joan	Hutchinson	KS	Please put a stop to all of the Robo calls. We have to pay for our phone service and should not have to put up with this. If we want any of this information, we can make our own phone call. Thank you for putting a stop to this.
Vladimir	San Diego	CA	I strongly oppose robocalls to my cell phone without my permission. I understand that debts must be paid and some contact is necessary, but these robocalls must be regulated. We cannot be in a situation where predatory and shady companies invade our privacy and right to be not harassed constantly by using these invasive robocalls. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Lisa	Longmont	CO	Please put a leash on these robo calls and texts. They are out of hand, suck minutes from our cell phones and are incredibly annoying. Please.
Lani	Ukiah	CA	I keep getting them while I'm trying to work. I pay for this service and do not want robot companies calling me!
Jim	Pewaukee	WI	Please stop robocalls to cell phones !
Emily	Yarmouth Port	MA	I totally oppose robocalls to my cellphone without my permission. Please restrict this practice.
R and A	Churchville	PA	Please put a stop to all robocalls to all cellphones. There is currently no means for a consumer to do so on his/her own. We need your help now. And put a stop, permanently, to robocalls to all landlines. There a currently a few modest ways to stop some calls to some landlines, but that's not enough. Please stop all robocalls, period. Thank you.
Chuck	Asheville	NC	Please set strong controls on robocalls
Paul	Bala Cynwyd	PA	Stop rob calls!
Boyd	Sarasota	FL	I have found a way to end Robocalls on my land line phone but want to be able to eliminate them on my Smartphone. I am tired of being annoyed with these calls. Immediate action is required to stop this annoyance.
a.	cary	NC	No robocalls to cell phones - or any phones!
Robert	Clovis	CA	I get more marketing call a day than business calls. NO MORE STOP THIS SHIT !!!!!!!
Susan	Tacoma	WA	As a cell phone consumer, we pay for incoming text, I for one would like to have a say in who I allow to send texts to my phone!

Michael	Omaha	NE	Debt collection robocallers must notify us of our right to stop receiving calls. Four years ago, I moved from Arizona to Nebraska, and upon arriving in Nebraska, I got a new cell phone number with my new cell phone service. Unfortunately, the person who previously owned my cell phone number skipped out on paying a lot of bills. It's been four years since I've had this cell phone number, and I CONTINUOUSLY receive robocalls which mention the prior owner's name and which demand that I contact them to discuss the debt. I can't make these calls stop, and they are nothing but harassment! When I'm fortunate enough to receive a call from a "live" person regarding the former owner's debt, I tell them that he has not had my cell phone number for four years, and I request that they remove my number from their call list. However, the calls continue to persist (both "live" and robocalls), and I'm certain no one bothers to remove me from their call list -- and for the robocalls, I simply can't get off their call list as there's no human to talk to. PLEASE STOP THIS INSANITY AND HARASSMENT!!!
arthur	mobile	AL	Robo calls interrupt my daily work every single day. At a minimum, 4-5 calls pper day , one yesterday from the Marianna Islands. My telephone is my primary phone and is used more for work than personally. Please put a stop to these unwanted calls.
Jim	Mobile	AL	I did not ask for them and I do not want them. They are bothersome at any time of the day and evening. Let them use the mail system to help support our postal service.
T	Lancaster	PA	This legislation could help the FCC regain public trust in the Commission's focus on the Public Interest. Please pass legislation that requires debt collection robocallers to limit these calls to no more than THREE PER MONTH -- and ONLY to those who directly hold federal (or commercial) debt -- NOT Friends and Family. For the past month, our household has received DAILY robocalls for debt holders who are not part of our household -- one call comes for someone whose name we cannot pronounce -- and WE CANNOT STOP THE CALLS because even when we pick up the phone, no one is there -- and the robocalls keep coming. It should NOT be our responsibility to spend time contacting the company to plead our case that the caller STOP == rather, the burden should be on the company. If this practice takes over cell phones, it is not just an annoyance -- it hurts us financially -- DEBT COLLECTION ROBOCALLERS MUST NOTIFY US OF OUR RIGHT TO STOP RECEIVING SUCH CALLS, AND GIVE US EASY ACCESS TO MAKE THEM STOP. These guidelines should be clear and readily available. Thank you

Sandra	Cedar Rapids	IA	I am tired of receiving unwanted calls to my cell phone. They are promoting a quick fix for my credit card debts. Fortunately I do not have any credit card debts. I got rid of credit cards years ago! Let's find a way to get rid of these annoying robocalls. HOW RUDE!!!
William	Pembroke Pines	FL	I've owned my home for the last 15 years & STILL get calls from collection agencies asking for the prior owner's daughter... who obviously stiffed someone. Each time, I inform the called of this fact. The calls keep coming. Since I have a home office as many others do, this is not only irritating.. it interferes w my ability to make a living. How much longer do we consumers have to put up with this before you so called "regulators" actually DO SOMETHING!
David	Belleville	IL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Deborah	Glasgow	KY	I am tired of getting robo calls and telemarketers calls please fix this because they only get hung up on anyway and they are taking up my time
Roy	Lunenburg	MA	Please prevent robocalls by requiring carriers to provide tools to consumers that allow them to prevent robocalls from reaching them on both land line and cell phones.
Larry	Cumberland	KY	To The FCC: Please do NOT allow robocalls to go to cell phones!
Walter	Mission Viejo	CA	Robo calls on our land already drive us crazy, but when we start getting them on cell phones things have gone too far. Stop these calls
Gary	Windcrest	TX	RoboCalls are a gross invasion of privacy and extremely annoying! I'm mature enough to know what I want and how/where to find it. STOP THE CALLS!
john	esperance	NY	Please make it stop.
tom	w columbia	SC	robocalls are a denial of a citizens rights.
William	Larkspur	CA	I'm sick of receiving robo calls of any kind. Receiving these obnoxious intrusions to my privacy would be especially unwelcome on my cell phone. Please take action to end this frustrating, offensive, unwelcome activity immediately.
Helen	Minneapolis	MN	There should be no robocalls to cell phones.
Bonnie	Colorado Springs	CO	I'm sick of unwanted cell phone calls. End it now.
Jack	Apalachin	NY	Especially lately, I have been swamped with calls from numbers I don't recognize and which do not leave messages.
Laurence	Tucson	AZ	Violently Intrusive
Helen	Minneapolis	MN	There should be no robocalls to cell phones.
David	Liberty Township	OH	Please do all you can to end robocalls to all phones.

Claire	Oakland	CA	I have a robocall every hour at home from all sorts of businesses. My cell phone was safe from those calls until recently. Now I am getting these robo calls on my cell phone which I consider a private phone. Please stop these calls. How do these businesses have a right to call and advertise or harass? If it is important, then call me in person. No Robocall.
Susan	Tucson	AZ	Currently my home phone is useless. I seldom answer it because it's usually telemarketers. I get debt collectors calling for the guy that had my phone number 10 yrs ago. Or it's a pollster. The "do not call" list is not effective. Now they want to make my cell phone useless, too. It usually does no good to tell them I'm not who they are looking for. It does no good to ask non-profits to take me off their call lists. The politicians are just as bad. We need a way to stop this nonsense. I pay my bills. I read newspapers & magazines so I know what the political issues are. I don't give my credit card over the phone. And if I want to make a donation, I'll let somebody know and do it myself. I shouldn't have to pay for a phone that only rings because the marketers, politicians, and debt collectors etc., pressure the FCC to allow them to call anyone.
Bruce	Summit	NY	My wife and I are constantly receiving these calls on our cell phones, particularly concerning our credit card account, which of course is a scam call. Please enact rules that will prevent this.
Henry	New Orleans	LA	i get somewhere between 3 - 5 robocalls a day. i have stayed on the line and informed the salespeople that i do not want their calls. i think that because my phone number ends with 00 they assume that i am some kind of business. i'm not! but, the calls come anyway. please help put a stop to these unsolicited calls.
Thomas	Lompoc	CA	I have two phones - a land line and a cell phone. Both numbers are on the no call list. However, I am getting more and more robocalls on both phones. The calls have nothing to do with debts I owe or other legal issues - at least that are legitimate. I view this as harassment. If someone is going to call, they need to call in person and hear my message about putting me on their no-call list if they are any kind of solicitation. I know that some have a number you can push to be put on their no-call list, but for that I have to answer their stupid calls! They also need to check the federal no-call list before calling and harassing someone.
Norman W.	Bolingbrook	IL	Strong rules against robocalls should include: 1 - Debt collection--robocallers must notify us of our right to stop receiving calls 2 - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3 - The guidelines should be clear and readily available.
James	Dublin	OH	I've tried to opt out of robocalls, but to no avail. No matter how many times you 'opt out' they continue. Please put an end to this. Thanks.

Roger	Bakersfield	CA	Pollinators are critical to our food supply! Don't ignore the increasing problem before its too late!!!!
wendyann	miami	FL	I am too disgusted in this government to write anything else
Ross	anywhere	MA	Get the fuck off my phone with your BULLSHIT!!!
Sharon	Erie	PA	I'm getting robocalls about my car and I don't even own a car!! That's not all. Everyday I get calls from all over the USA. Please stop these annoying calls.
Kathy	Moreno Valley	CA	They are so intrusive. I can get as many as 4 in a few hours. I just keep my answering machine on and answer only when I hear it's a friend. Many friends do that. Why should we have to go to that extreme when we are in our own home? I could be cooking or doing some other work in the house and it really annoys me to have to stop and pick up a sales call! Please end this intrusion in our homes, our private homes.
Bill	Roseville	MN	Please do everything you can to stop robocallers.
Priscilla	Estes Park	CO	I am sick and tired of all these robocalls - please end this scourge!
Daniel	San Francisco	CA	Robocalls are a complete invasion of privacy. Please do everything possible to stop them!
Nancy	New York	NY	Stop intrusive and annoying Robo calls.
Kristal	Thousand Oaks	CA	Please stop unsolicited sales calls also known as robocalls. I can no longer feel that I can answer my own telephone without screening calls first. Everyone I talk to has the same problem and I believe they have taken away OUR rights by this practice. Thank you.
Steven	Sarasota	FL	We no longer answer the home phone because it is always a telemarketer. We maintain it, and pay for it, to support our central alarm monitoring. If the TELCOs can't prevent robocalls to our home phone then they should have to provide these phone services for no charge. And now the #@%# telemarketers are starting to call our cellphones. The national do not call list is a joke - telemarketers ignore it because it has no teeth - no telemarketers incur any fines for calling any numbers. How about having the TELCOs implement a do not call function that automatically redirects the offending call to a system that automatically applies the fine - kind of like red light cameras. And, while we're at it, how about making it impossible to scam caller ID - as it is now it is a worthless feature that nobody should have to pay for.
Michael	Blauvelt	NY	It is disgusting to get constant interruptions by unwanted robo calls. My privacy should be protected from unwanted calls.
s	Oceanside	NY	Please put an end to all robocalls, both those going to home phones and to cell phones. I have been on the Do Not Call list since the beginning, but it doesn't help at all.
Stacy	Sacramento	CA	No more robocalls- especially when you have signed up for the do not call list.

dixie	los alamos	CA	Please do not allow robo calls to our cell phones!! Do something to protect us.
Brenda	Marshall	NC	Please stop them. I am so sick of them.
Bess	Cedar rapids	IA	Do not call list doesn't seem to be enough
Margaret	Colorado Springs	CO	Please stop bothering me and others with your robo calls.
stephen	bristol	TN	I am against robocalls - from any person or organization, even politicians - to my cellphone or my home phone. Please help protect my privacy.
H	Columbus	IN	I am older and have a metered-service cell phone to reduce total cost. THAT MEANS I PAY FOR EACH CALL. That means that robocalls would cost me money for each call, and as we all know it is impossible to shut them down. I only use the cellphone when traveling and for emergencies. My landline, which is my primary phone service, is so infested with robocalls that we do not answer unless we recognize the caller ID. otherwise we let calls go to the answering machine. That makes it difficult to get in touch with us, even legitimate calls. STOP ROBOCALLS!!!!
Emma	Roseville	CA	Robo calls are unwanted interruptions. I am not influenced at all by any of their subject matters. Robo calls are the reason I turned off the ringer on my home phone. I do not want to be charged for unwanted robo calls. Please stop the robo calls.
Mark	Carolina Beach	NC	Robocalls are an annoyance that should be stopped. I've received calls numerous times from the same company. Even after telling them not to call again numerous times. Please stop this invasion of my privacy.
stan	Oakland	CA	So, that I can give it to them time they call
leon	miami	FL	please stop nuisance robo calls
John B	Seattle	WA	My hours oblige me to sleep during the day sometimes. Robocalls can ruin a whole day, when you don't get enough sleep.
Anne	Palo Alto	CA	I'm sick of these robocalls. I get more of them than actual calls and they cost me money.
Martin	West Boylston	MA	I have an Android phone in which telephone calls can't be blocked so robocalls are an especial nuisance.
Michael	Aurora	CO	Robo calls from all sort of different sources seem to come to my cell phone daily ! When trying to "return" those calls, they are refused as "not an active number" !! Where those calls originally "swamped" my land line, for the last year or so the majority have come in my cell phone. I have had both numbers on the do not call list from the time those lists began.

James	Jacksonville	TX	As a consumer and customer I should be in control of all calls, texts, etc to and from my cell phone. I should not be bombarded by calls by companies legit or otherwise seeking to sell a product and/or scam me for money. The only time I should receive a call, text, etc. on my cell phone is if I personally know the party or have left my cell number for a call back. The Do Not Call register for both state and federal be meaningful. Also, there should be stiff penalties for robocallers. And for the phone companies who do not implement technologies to block calls when it is determined the caller is a "robocaller".
Ken	Demarest	NJ	Why do we still have this weird, intrusive method of "cold-calling" people who have little or not interest in these offerings?
Jocelyn	Boston	MA	Please make these people stop calling me. I get at least 3 - 4 anonymous calls a day, despite being on the Do Not Call list. I don't even know how they got my phone number!
Marie	Chandler	AZ	I get robocalls at inconvenient times about someone's debts.
Pame2409 la	Rocklin	CA	I don't have debt calls. I would just like for all robocalls to be stopped! I am charged for them on my cell & find them really annoying on my home phone!
John	Center Point	AL	Please stop robot all to all phones.
Gerhard	Abilene	TX	I support strict limits on ALL ROBOCALLS .
Bion	Sugar Land	TX	Any unwanted call is a nuisance. Robocalls are especially useless and a waste of my time. Except for a few emergency notifications from my municipality, I have NEVER received a robocall that was of any use whatsoever to me. They should all be prohibited. Debt collection is a particularly nasty business. I have been harassed by people trying to find my wife's deadbeat ex-husband, and I am currently getting calls relating to someone who used to have one of my phone numbers. Robocalls from debt collectors should be illegal. But if they are not, they should be strictly controlled and regulated.
candace	Port Angeles	WA	I do not wish to receive phone calls from collection agencies looking for someone I may or may not know. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Richard	Floral park	NY	They call all hours of night and morning this has to stop
F	Pearland	TX	So tired of getting anonymous or "caller unknown" or "blocked" number calls on my cellphone. Please change this!
Mark	Norman	OK	I am sick of these irritating calls which pitch a 'Caribbean Cruise' if i stay on the line for a survey. Problem is, these pitches are left on my answering machine, and do not give the option to rejecting these calls nor a number to call to be taken off their list. I am on the 'Do Not Call List', but it doesn't seem to matter

Ron	Carlsbad	CA	Please take strong action to limit the number of RoboCalls being sent out to the public.
Bernard	Columbia	SC	The issue is simple: given the pricing mechanisms of wireless telecommunication, the phone owner pays for all calls received, as well as those he makes. Thus, the "robocalls" are spending the phone owner's money - without permission.
Susan	Ridgeland	SC	I am writing to ask our legislators to protect our privacy from ntrusive robo cell phone calls. I keep my number very private; only giving it out to close friends and only certain family members. Therefor I was shocked and very irritated when I began receiving robo calls covering miscellaneous subjects from political endorsements to trying to sell me something. Please block these.
Christian	Annapolis	MD	It is time that the FCC takes substantial action to end the nuisance of robocalls. It is atrocious to receive several daily unwanted robocalls from entities that I have absolutely no business with nor any desire to. I have my phones registered on the Do Not Call list but it seems to be worthless. The FCC needs to pursue these law-breaking entities and also push the carriers to block these annoying calls. The technology is there but for some reason, the carriers don't do anything unless required to do so. It is unfathomable to me why nothing gets done about this.
Joseph	Beaumont	TX	Even though my phones are on the don't call list, I receive about one junk call per day on my home phone. I'm beginning to receive such calls on my cell phone.
Steven	Elkton	MD	I get at least 10 a day!! Its so bad I don't answer the phone and sometimes miss important calls. When I get through to a human and try to tell them to put me on their do not call list, they hang up before you can get it all out!
Karen	Corvallis	OR	I do not like robo calls. Our house phone receives 3-4 calls a day.
Jack	Pittsburgh	PA	The FCC has yet to succeed on halting the epidemic of robo calls to landline phones, so this may be in vain; nevertheless, please do NOT allow the same disease to plague cell phones. Act now and the entire nation will love you. Maybe. At least, like. - Jack Etzel
Erika	Las Vegas	NV	Please stop this.
TONY	ANDOVER	MA	Cut them out!!!!. Wastes thoudands of hours all thru the country.
Thomas	Sierra Vista	AZ	I do not appreciate someone calling me up asking if I want to purchase, lease, evaluate, etc. something. If I wanted that something, I would have called them up. No exceptions. This includes non-profits and political affiliations.
Ronald	Emerald Isle	NC	We have a business. Answering machine is our only escape to filter unwanted calls.
Kenneth	Phoenix	AZ	Robocalls are an unwanted intrusion into my privacy that should be stopped. The guidelines to regulate robocalls should be clear and readily available.
Jaime	Lutz	FL	Finish robocalls to cell phones????????????????

Carol	Wakeman	OH	Stop robo calls on mobile phones
Sharon	Atlanta	GA	The cell phone I carry is for the psychotherapy practice I work for. Because the practice wants to be responsive to patients in crisis, the phone is on twelve hours a day. At least twice a week I receive a robo call either early in the morning, or late at night. These are the standard, "Congratulations! You have just won..." or something about a credit card balance... or "I'm calling from Microsoft about your computer..." or the many other shady advertisements or out-right scams. I get off these calls as quickly as possible, but it haunts me that one time someone suicidal will pick up the phone and not get a prompt answer. Please do something about this problem.
Leah	Seattle	WA	Robocalls shouldn't be allowed, especially to cell phones, where people may be paying by the minute. Robocalls essentially steal from us in this manner.
Carol	Johns Island	SC	It is so frustrating! Please do something to stop robocalls to cell phones!
George	West Hartford	CT	Please take action now to prohibit unwanted, intrusive and invasive robocalls now. Please.
Denise	Redlands	CA	Please stop the annoying robocalls right now! I am sick of being interrupted constantly by these calls. If they do not stop I am taking out my phone. Please do not let these calls go to cell phones either. I should have the right to decide who call me on my cell phone not the other way around.
Vera	Horseshoe Bay	TX	These calls are SO ANNOYING and should be banned immediately.
Scott	Allentown	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Lloyd	South Bend	IN	Stop the calls that want to scam me by "fixing" my Windows computer (I have an Apple!) that repeat over and over. They waste my time and increase my anger. Thank you.
Reuben	Takoma Park	MD	Please change the rules so it is OPT IN, not OPT OUT. I don't want unwanted calls on my cell phone, landline, or any other number. Guidelines should be easy to follow, readily available, and clear. Please limit the number of calls for such things as federal debt to less than 4 per month. Finally, no calls at all to friends or family.
Richard	Dallas	TX	Please adopt strong rules against annoying robocalls.
sandy	berne	NY	it so intrusive, invasive, frustrating, annoying!!!!
Merv	Rancho Santa Fe	CA	More than annoying they wake up someone sleeping every time they call. Please end this nuisance

william	Mebane	NC	Telephone marketing is not, in itself, an offensive practice. But the technology which allows "robo calling" turns telephone marketing into an intrusive, annoying, and harmful practice. When a device is able to call several numbers at a time and only connect the caller to the first party that answers, that robo call has annoyed all the others which were called. There are days when I receive 3 or 4 calls from one caller, only to be hung up on or find a dead line when I answer. This goes beyond annoying. I think robo calls should be banned not only from calling cell phones, but from being used at all. I believe my right to privacy in my own home greatly outweighs any caller's right to conduct business by using a telephone line which I pay for.
Robert	Bethesda	MD	There seems to be no enforcement of the laws against robocalls. We get at least 3/day. Please pass a law prohibiting solicitation AND see that they are enforced. The FCC should be ashamed of its inaction...that's why we're being Trumped!
Charles	Knightdale	NC	I get these robo calls everyday, even as late as 9 or 10 pm. I've tried not answering if I don't recognize the number but there are times when your expecting a important call and you have to answer. They have even used my own phone number to call me on. Something has to be done. Enough is enough!
Reed	Spokane	WA	Stop the robocalls. They are infuriating!!!
John	Portola Valley	CA	Please.....NO ROBOCALLS Not for debt collectors, not for used car salesmen, not for general contractors, not for solar panel salesmen NOT FOR ANYONE!!!
Tim	Flower Mound	TX	Big Data treats humans as no more than a record of binary bits. Give citizens some protection from predatory practices, please.
daniel	seattle	WA	robo calls are annoying. Do not allow robocalls on my cell. Thank you
Robert	Austin	TX	I am sixty-eight years old and one would think that I should be entitled in a country like ours to be free from these intrusive, unwanted solicitations and attempts at identity theft. I am often awakened by these pests and have a dreadful time returning to sleep. Please do all you can to stop these intrusions into my privacy. At least I can block them on my iPhone (ex post). Thank for hearing me out. Best regards, Robert Martin, Ph. D.
robert	woodlandhills	CA	annoying and sometimes costly
Wilford	Edmiston	TX	No more robocallers!
Tim	Lakewood	OH	No one likes robocalls, and when they are reached via cell phone, people really don't like them. The number of allowed calls or texts should be limited, preferably at the most three times a months, and only to those who directly hold federal debt, not friends and family. Guidelines should be clear and available upon the call, and debt collection robocallers should notify us of our right to stop receiving them.
Robert	Knoxville	TN	What is the sense in having a do not call list if robocallers ignore it with impunity?

Jeffrey	Arlington, TX	TX	I receive 5 to 10 robocalls a day and evening. they are driving me crazy.
David	Akron	OH	Please put an end to these highly aggravating calls. Thank you. David J. Rocca
Jeff	Colton	CA	RoboCalls have proliferated, the the companies using RoboCalls have implemented technology to get around Caller-ID. Furthermore, these RoboCalls are being made despite phones being on the Do No Call lists. RoboCalls cost consumers money: each call to a cell phone costs the consumer money. RoboCalls tie up phone lines, thus preventing emergency calls and important business calls from coming in. RoboCalls are disruptive to important family time. RoboCalls, when accidentally answered, are often "dead" on the RoboCall end. My phones, both cell and landline, are not for hijacking by RoboCalls or any sales call for that matter. Return control of cell and landline phones to consumers.
T	Austin	TX	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Russell	Castro Valley	CA	I'd love to see broader, enforceable protection from robocalls, but this petition is specifically focussed on robocalls by debt collection agencies. I agree with the following: Debt collection robocallers must notify us of our right to stop receiving calls. Just enforcing this notification (if the agencies actually honor requests to stop calling) would tip the scales against abusive calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. It's terrible they also also harass friends and family. And limiting the number of calls also stops this from being overwhelming harassment The guidelines should be clear and readily available. Of course. No legal "boilerplate". Thank you for consider this comment. May the FCC render a fair and just decision that protects the vulnerable. (Something government should do).
George	Eastampton	NJ	I am getting as many as four and five calls FROM THE SAME ORGANIZATION each week. I'm ready to pull the phone out of the wall and live without a phone.
Georgia	Ball Ground	GA	Stop allowing robocalls to cell phones. Why do you think people are so willing to drop landlines? We do not want these parasites to be calling and wasting our minutes.
Stuart	Branford	CT	These calls are disruptive to our home life and family time.
Dwight	Tupelo	MS	STOP robocalls now. I find them very annoying and feel my privacy has been invaded when I get one

Lucie	San Gabriel	CA	These calls interrupt life, interrupt meals, interrupt conversations, interrupt even stressful, emergency moments when the last thing we need is advertising.
Jerry	Meriden	CT	It is very annoying to receive robot calls about solicitations of businesses, scam artists and donations to charitable organizations throughout the day especially during dinner time on my home phone and cellphone as well.
J	Honolulu	HI	Many phone companies charge the recipient of these calls! Talk about being unfair! Even when they don't, robocalls are interruptions at work and at home. And targeting friends and family of the debtor is unconscionable.
Max	Plymouth	MI	It would be greatly appreciated if you would wake whatever actions are required to END ALL ROBOCALLS to landline and Cell phones!! Thank you for your consideration and help regarding this issue.
James	Pittsburgh	PA	Most of the unwanted calls we get are fraudulent, preying on seniors. Please stop all of them.
Dana	Crescent	IA	Please do not reduce the usefulness of our cell phones by allowing computer generated junk calls. I have been called on my cell phone by a debt collector who had the wrong number. I blocked their call after checking my credit report for any erroneous debt. According to a Google search, the debt collection company does not bother to check the numbers they call. Please make it more difficult for these irritating calls, and ENFORCE your regulations for both cell phones and land lines. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Nicholas	Modesto	CA	I am very tired getting Robocalls. There should be a spam button as there is in email.
john	tequesta	FL	My right to privacy should not be infringed upon by robo-callers.
George	Grand Rapids	MI	PLEASE DO SOMETHING ABOUT ROBOS. Starting to get calls where name of caller shows, from places I know that are actual business numbers or from people that are not business, so I answer and the call is from a robo caller who is using the above numbers and identifications without their permission.
John	Downingtown	PA	The telcos can not have it both ways. They brag about being technology leaders with deep technical skills. Yet they claim they can not stop these calls. I do not believe them. And my suspicious side tells me they have a vested interest in continuing these calls. Robocallers are, essentially, criminals. The telcos are complicit in the crime by failing to apply reasonable controls to prevent these calls.

Tom	Mashpee	MA	For years I have used the govner's no call sign up, only to have calls get through. I recently had the same call two times a week while we were in Florida. They wanted to fix our unbroken computer. I asked them to stop calling to no surprise it never stopped. Please help us, stop these people. Thank you
William	Torrance	CA	By ROBO COP, I mean Cessation of Practice. The number of ROBO calls my number gets has reached a very annoying level. The Don't Call Registry I signed onto at its inception, has become a joke to all kinds of telemarketers. The communications industry needs to put controls in place that will end the abuse these marketers shower upon the public in violation of the law. As a paying customer I should be able to access such controls to bring peace and quiet back to my life both at home and on the road. Telemarketers clearly don't give a damn who they bother nor what system, hard line or cellular they use to push their products. Debt collectors are a mere dot on a much larger problem.
Jeannine	San Bernardino	CA	I get charged for every call I make and I get charged for every call I receive. If that is also true for everyone else then we are all being double billed. I don't want to see unsolicited calls on my cell phone. Answering the call to tell them I'm on a "do not call" list means it costs me for the effort and encourages them to keep on calling me. It's bad enough to get these on my landline, and believe me, telling them I'm on a list does absolutely nothing to stop them, but to get them on my cell phone? I feel like throwing the phone away. I don't want to pay for an inconvenience and/or annoyance. If I wanted to be bothered, I'd poke myself in the eye. There has got to be a fix for this.
Steve	Post Falls	ID	It amazes me that we the people of this country even have to petition our government to stop these Robocalls. End them now. people deserve common decency when dealing with lenders. They certainly don't need automated calls blasting them.
Dr. Darlene	Spokane	WA	I an an elderly disabled person on limited income. I have no funds nor time to cover the nuisance of robocalls. I am on a "no-call" list but that does not seem to matter, they come anyway. I owe nobody nothing, but calls come seeking other persons.
keith	skandia	MI	no robo calls to any phones including land lines
Michael	Camp Verde	AZ	Please establish some specific guidelines to stop ROBO CALLERS from annoying the heck out of us and wasting our cell phone assets! They can really get carried away and it also interferes greatly with those of us who depend on our phones for emergency and other vital communications. Thank You for the opportunity to give my opinion on this matter!

Kathy J	Lancaster	PA	<p>STOP ALL ROBO CALLS FOR ALL THE ABOVE REASONS TO CELL PHONES AND TO HOME PHONES. IT IS NOT RIGHT TO BE PLAGUED BY THESE CALLS AT WORK WHILE GETTING PAID BY YOUR COMPANY TO DO YOUR JOB. A REAL FAMILY EMERGENCY CALL COULD BE COMING IN AND BEING TAKEN UP BY STUPID ROBO CALLS. I AM DISABLED AND SO TIRED OF ALL THESE CALLS. I HAD MY HUSBAND TURN OFF THE RINGERS ON THE PHONES JUST SO I CAN GET SOME SLEEP. I PUT THE RINGS DOWN TO 2 BEFORE GOING INTO THE ANSWER MODE TO AVOID LISTENING TO THE PHONE RINGING WHEN I AM UP AND ABOUT. WE HAVE AN UNLISTED/PRIVATE NUMBER FOR WHATEVER GOOD THIS HAS DONE. JUST ABOUT THREE TIMES A WEEK/MORE A FAKE "NRA" CALLS TO TRY TO SCAM US. THE REAL NRA DOES NOT CALL OFTEN AND WHEN THEY DO THEY LET A MESSAGE. THIS IS SO UNREAL TO BE HARRASSED LIKE THIS. WE HAVE EXCELLENT CREDIT AT THIS POINT OF OUR LIVES AND DO NOT WISH TO HAVE IT RUINED BY SCAM ARTISTS. THERE ARE ENOUGH SCAMMERS TO WHAT OUT FOR ON OUR COMPUTERS!!!! SOMETHING HAS TO AND MUST BE DONE. THANK YOU FOR GIVING ME THE OPPORTUNITY TO GIVE MY OPINION. JUST ABSOLUTELY SICK OF THESE PARASITIC PEOPLE WHO WANT TO GET RICH OFF OF HARDWORKING PEOPLE BECAUSE THEY DON'T WANT TO WORK. I PRAY FOR GOD TO GIVE YOU A WAY TO STOP THESE SCAMMERS. I CAN'T EVEN BEGIN TO TELL YOU HOW MANY CALLS A DAY WE GET.....JUST UNREAL. KATHY J. SOURBEER, SENIOR CITIZEN HERE IN LANCASTER, PENNSYLVANIA!!!</p>
Steve	Darlington	SC	Please stop ALL robo calls.
Robert	New Tripoli	PA	I've gotten unwanted robocalls more frequently in the past 3 - 4 months. It seems that the randomness of the calls is increasing so it would be in the best interest of consumers in the FCC put some reins on this practice.
carol	Nevada City	CA	I believe and demand that the number of allowed calls or texts from the debt collection industry should be limited to no more that 3 per month and only to those who directly hold federal debt-not friends or family. Also, these debt collection robocallers must notify us of our right to stop receiving calls. The guidelines should be clear and readily available. Thank you
Robert	St. Maries	ID	No auto dialed recorded messages should be allowed on cell phones. Even political messages or other previously allowed charity groups should not be allowed to use auto dialed recorded messages on cell service. In short, it must be one-on-one conversation only.
Todd	San Clemente	CA	Please stop the onslaught of robot calls. It is unfair that all must receive these pandering calls when they were approved for debt collection. Abuse is always abuse. Please stop this before it gets totally out of control.

Cynthia	Alexandria	VA	I receive robocalls morning noon and night, often starting at 8 am. and going until 9 pm. I have listed my phone of the do not call list to no avail. I now screen all my calls and 95% of them and from unknown addresses or no address at all. I am 75 years old and in poor health and these calls are more than an annoyance. I urge the FCC to implement tough rules that close the loopholes to keep out these calls. Thank you.
Curtis	Goodyear	AZ	I have prepaid cellular and I am charged for every robo call. AI should not have to do that.
Eloise	OCEANSIDE	CA	PLEASE do not call and disturb our private time at home.
Marilyn	Torrance	CA	Please outlaw Robo calls to cell phones. I only want to receive phone calls from people and companies I know or have authorized to call me.
Richard	Oakhurst	CA	This is a no brainer people. Intrusive advertising lowers the quality of life for all human beings.
Susan	Rochester,	NH	Don't allow people to harass us on our phones. It is very intrusive and unpleasant.
Robin	Woodinville,	WA	The do not call list enforcement seems lax, and I'm considering giving up my land line because of the interruptions and annoyance of robocalls. At this point I get very few on cell phone, and want to keep it that way. I've never had a robocall that was of any use to me... pointless sales promotions, scams and fraud. Please protect us from all the unwanted calls.
Chris	Denver	CO	PLEASE, PLEASE, PLEASE Stop the Robocalls. They are so annoying and always at the wrong time. I use my cell phone for business and the Robocall is nothing but a distraction.
Ronald	Poughkeepsie	NY	ROBO calls are always an annoying nuicance, with no value to me, the targeted customer. Everytime I block a number, they make calls to me through diffferent unblocked number.
Jennifer	Manor	TX	These Robocalls are a disruption, a plague and a cause for concern when the perpetrators also seek to steal identities or money or both. As I write this a robo call started coming in which I find highly bemusing. Please stop these ridiculous and annoying intrusions on our time, privacy and personal devices.
Ronnie	Sarasota	FL	End robo calls even with the political calling our home looppoles
Fredrick	Frankfort	IL	I have blocked at least 500 calls from Indians trying to Sell me Viagra. Now they come in with No caller ID and I got one today with the Caller ID 054 This is almost an epidemic.
Dayle	Fontana	CA	It is time that my government protects me from the invasive robot calls that are not solicited! Please!!

Charles	Peaks Island	ME	<p>When a person purchases a phone, no matter what kind, "smart", "dumb", land or cell, it BELONGS TO THEM! It is no different than their computer, car, clothes, or house. It is their property, they paid for it, they OWN IT! It SHOULD follow that, like their house, computer car and clothes, they should have legal control over who uses it and when and for what purpose!! Why should a phone be any different. In fairly recent times (the word recent being relative to your age!) if you did not wish to be bothered be unwanted phone calls, you would pay a small additional charge to the phone company for an unlisted telephone number, and that was that. Privacy and control achieved !! That same control and protection from unwanted phone calls should be every persons' legal right. What is more intrusive than being in the middle of taking care of a terminally ill loved one, and have a robocall intrude at such a time! The Federal Government is grossly misappropriating taxpayers funds in using robocalling for any purpose whatsoever! It is tacky, crass, and smacks of low class, high pressure, business tactics! I am a realist, and don't wear rose colored glasses, so I don't expect all robocalling to stop, but there certainly should be limits on it's use. Those limits should be set by law and according to the wishes of the public. In a democratic republic, which we are supposed to be,(although sometimes it seem to be in name only) the people who are the public, are the source of ALL, All power, all authority, all money. The government is supposed to be the servant, and the tool of the people, not the other way around!! Yes let's put a big, fat check on robocalling!!</p>
---------	--------------	----	---

David	Burbank	CA	<p>I can't expect well-heeled politicians to really understand this, but there are a lot of middle class people my age in Social Security limbo. We've worked hard all our lives, paid our debts and lost our nest egg during a Recession we did not cause. The age for my retirement (now it's moved to 66 years old) was pushed back by politicians. I was told I could "retire" at the age I was, 63, but I had to take less of the money I had earned just to pay outstanding bills and keep from losing my home. I will now forever be stuck accepting this lower, inadequate early retirement figure until I die. Worse news: until I'm 66, I am penalized by taxes that I can't pay for accepting the social security checks when I do get the occasional freelance job. Currently, I owe the IRS money for the sin of earning more than my social security allotted \$15,000. There is no way to pay back the kids' college debts and the debts we've accrued before the Recession hit. Now to add insult to injury, the FCC is considering allowing Debt Collectors to Robocall me anytime they feel like it, whether I'm at a job interview or a social gathering or trying to get whatever sleep I can. I urge you to at least partially restore my dignity as I struggle to get out from under this huge financial burden by not allowing Robocallers anywhere near my cell phone. At least establish that Debt collection Robocallers must notify us of our right to stop receiving calls. The number of calls or texts should be limited to no more than three per month and only to those who directly hold federal debt – not friends and family. Finally, the guidelines for all this should be easily accessible and readily available. Thank you.</p>
Geraldine	New York	NY	My time does not belong to robot callers.
Rick	Myrtle Beach	SC	The fact is one or one hundred don't push a person to respond. Harassment is just an enabler and lacks professionalism. Especially if the information is incorrect.

Ann	Endicott	NY	I'm retired and a caregiver for my 93-year old mother. We have gotten hundreds of robocalls. My cable company lets me block 20 numbers. It was not enough. In particular one repeat caller who called scores of times claimed he was calling from Windows and my computer was in jeopardy. It was the same voice time after time, with an Indian accent. I couldn't even block his number because it did not appear on my caller ID. Moreover, when I asked for the number, offering to call him back, he recited: "Zero zero zero - zero zero zero - zero zero zero zero" and hung up. I now unplug my phone at night and don't plug it in until I have cared for my mother - taken her to the bathroom, given her medicines, made her breakfast, gotten her dressed, cleaned up the dishes.... Sometimes I've missed important calls (such as doctors canceling appointments - recorded as voicemails) because I've forgotten to check all because I have to UNPLUG my phone do to robocallers in the early morning. I'm on BOTH the national and the state no-call list. I once filed a complaint because in the middle of a bad thunderstorm with flood warnings I was getting calls that purportedly were about emergency but I gathered they too were robocalls... and I never got ANY response to my complaint because I heard there is no funding to follow up on consumer complaints regarding no-call list violators.
Alan	Haines City	FL	When my phone rings I don't answer unless I recognize the name and/or number. Unfortunatley I rack up a good dozen or more calls a week for numbers I don't recognize and I assume they are robocalls. It is irritating that when I am expecting an important call most of them are unknown names or numbers.
Richard	Ventura	CA	I get at least a dozen robocalls per day even after blocking many of the numbers. This cannot go on!
Vicente	Redwood City	CA	Every day I have had received about 5 to 7 robocalls , I blocked every single number in contact list and still coming calls with a different numbers. please help, passing a law to eliminate those callers.
Robert	Springville	CA	Robocalls are invasive and intrude on privacy. Even related to debt or other legal matters, they must be limited in some way. Please, craft guidelines that respect privacy and protect us from scammers and politicians (and others too numerous to mention). Thank you.
Michael	Central Point	OR	I'm getting killed with robocalls to my land line every day. Seems to be no way to stop them even though I'm on the Do No Call List. Please prevent this from happening to my cell service.
John	Chicago	IL	STOP ROBO CALLS. THANK YOU,
eileen	new york	NY	I constantly get robocalls on both my landlines and cell phone - not about debt collecting but every other subject. These are annoying, disruptive, and cost me money as well as good humor. We should have to opt in to receive these calls.

James	silver spring	MD	Please stop the robocalls
John	Peoria	AZ	When I had a landline the robo calls were almost constant now that I only have wireless there are none.
Joe	Poughquag	NY	Robocalls are intrusive, invasive, and can be a source of frustrations, not to mention pure annoyance. Unsolicited calls add to an already congested airwave traffic and they are an expense in the cost of time and effort. If individuals want knowledge of a product, service, or person the Internet is available. We don't need our lives disrupted by callers, especially recorded messages, interfering with our daily routines. So, let's not even consider giving this annoying, and self-serving , service any type of legitimacy. Also, lets extend this to political calls as they are by far the most annoying. I'll determine the merits of the candidates without being bombarded by negative unsolicited calls. Thank you.
William	Winfield	WV	First the Land Line and now the iPhone. PLEASE STOP ALL OF THEM!!!!!! I did not ask for them - I do not want them!!!
Faith	Glen Arm	MD	Robocallers are costing us money, sleep and health, disturbing us even in hospital as has happened to me, even when we have no debts, and we must pay for those calls. It is disturbing to think we have no way to prevent these intrusions without the government stepping in.
Richard	Redondo Beach	CA	Robocalls are worse than annoying. They interfere with our lives. Please help eliminate them. Thanks.
Robert	Bolingbrook	IL	Enough. If you don't act to stop robocalls, I will remember this at the ballot box.
Lee	Rapid City	SD	Many times besides being a needless and perhaps dangerous interruption, many times there is no one here. My wife has MS between her ability to get to the phone, her pain this is totally needless.
J.	Menlo park	CA	Dear FCC, I oppose robocalls to my cell phone and to my landline. Please take in to consideration requiring the following: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
John	Surry	VA	Please stop robo calls which always interrupt our daily activities. Now they are starting to come to our cell phones which uses our minutes.
Thomas	Mt Holly	NC	Robo calls are a hugh inconvenience and cost me time and money! They need to be stopped!

David	Fairfield,	CT	I'm on the national do not call list, and I get about 7 calls a day.! Not only is it a pain in the neck, but I work out of my house and if I'm on the phone, I put them on hold to answer the other call which you can guess is a Robo call that interrupts my work day that puts me behind my work, and not only that phone, but my cell phone as well. Here's what you call a good case of harassment and I'm hoping the FCC does something about these annoying calls, Thank you.
Linda	Spring Valley	NY	Please protect consumers from invasive robocalls from debt collectors, predatory lenders, and shady companies. I have seen a marked increase in robocalls to my cell phone in the last few months and feel frustrated that there aren't better guidelines regulating this practice.
Larry D.	Ellkview	WV	Get 2 To 4 a day please do something
Kenneth	Sun City West	AZ	I don't have student debts nor do any of the people I know. Yet I am bombarded with calls from debt collectors. Make them stop!,,,
Jennifer	Loveland	OH	I am tired of my receiving numerous, relentless solicitations on my cell phone.
Nancy	Hampton	NH	I'm a senior citizen living in NH. I do not need robocalls asking me to refinance my students loans or calls asking me to switch to another CT energy company or calls telling me not to panic my credit is ok but....
L	Morgan Hill	CA	Robo calls must be annihilated, no matter what their source. For six years my telephone line has been tied up with robo calls. In that time period, I have logged thousands of robo calls. Most of these robo calls are made in violation of California law. From 2010 through 2015, Verizon was my telephone carrier. When I complained to Verizon about these robo calls, I was told that Verizon could only block local telephone numbers. Few of these calls show local telephone numbers on Caller ID. Currently, my telephone carrier is Frontier Communications. Frontier has its hands full trying to handle and provide service to all of Verizon's California, Texas, and Florida customers. The switchover from Verizon to Frontier has not been easy or gone smoothly. Since the switchover, information given on Caller ID has changed for the worse. At this point in time, I feel as if I am paying my telephone carrier to be harassed by robo calls. Robo calls must be annihilated, no matter what their source.
Paula	Churchville	MD	Please stop robocalls to cell phones.
Earle	Cuyahoga Falls	OH	Please end Robocalls
Richard	Scarsdale	NY	I used to think that the "Do Not Call List" actually prevented solicitors from calling. Whether new technology has circumvented the law or offenders are just exhibiting a blatant disregard for the law because there are no penalties, the number of calls I now receive has risen astronomically. Please put some teeth into the enforcement of a law that is already on the books.

Judy	Denver	CO	Dear FCC, please make it illegal to place robo calls and solicitation calls (even though we're on a do not call list), on both cell phones and land lines. I cannot tell you how aggravating it is (as well as illegal, on our land line). We are often interrupted from important activities to answer the phone...from Rachel of Cardholder Services. Makes us want to scream.
Gary	Dayton	OH	Please stop ALL robo calls to my cell phone. They are unwanted, unwarranted, costly and, obtrusive. In addition, legislation for its needed for the following - - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. Thank you for your help.
Ricky	Lubbock	TX	I am on the Do Not Call registry, but that doesn't stop robocallers from calling my home phone AND my cell phone. I hate answering the phone with a "Hello" and having 2-5 seconds of silence while someone on the other end figures out they have a live one on the phone. Personally, I think robocalling technology should be outlawed, and anyone using it should be charged with a serious felony. Using technology to make peoples' lives better is fantastic, but using technology to bug the hell out of people should be criminal.
George	Omaha	NE	Keep my cell phone Robocall free!
Michael	Woodland	WA	Please take whatever action is necessary to stop and make illegal, the practice of "Robo Calls" made to cellular telephone numbers. This is both annoying and an unwanted invasion of our privacy. With marketing practices attacking we consumers from every direction, there remains almost no "safe haven" from these companies and individuals. As is almost always the case in our economic system. we, the consumers, are left to pick up the tab for this practice (and other marketing tactics) even though we may have no interest in, nor ever purchase their products. One reason for the demise of over the air broadcasting is precisely the availability of so many internet or cell phone based opportunities. Thus every aspect of our lives is filled with the constant noise of marketing and I, for one, am tired of it. Please do the right thing for the American consumer and cut off this practice now!! Thank you.
Bradley	Universal City	TX	Please end the incessant annoying abusive calls.
gena	port saint lucie	FL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Elaine	West Haven	CT	I'm so tired of having my phone ring with these phone calls wasting my time with something I'm not interested in. They call me just as I'm getting out of bed or at dinner time. They have been going on for years and too long. These calls must stop. They're very annoying and distasteful.
Carel	San Francisco	CA	Robocalls on Cell Phones are intrusive and invasive. Please ensure they are stopped.
I	bham	WA	I am constantly being harassed by robocalls. It is wrong. Please work on legislation to prevent further annoyances.
David	Santa Rosa	CA	Disabled man gets about 10 calls a day. Quit answering my phone. Have missed important calls.
Vicki	Waxahachie	TX	It is annoying and you receive scam calls. It is not right to allow citizens to be hounded by these calls and some are dangerous to the elderly.
Nancy	University Heights	OH	I find it extremely annoying to constantly receive robo-calls telephone calls from people whom I have never heard of, or individuals claiming they are from the IRS, or out-of-state telephone calls (again I have never heard of those individuals and/or calls from people who don't even list their names.
marianne	kent	WA	No Robocalls to Cell Phones!
Matthew	San Diego	CA	Please stop non-human calls to my cell phone
Demetrio	San Francisco	CA	Please stop these annoying phone calls, they take up our time and after a while we just STOP answering our phones. The good ones follow the BAD robo calls, it's just the shits. It should be AGAINST THE LAW for us to be harassed by these idiots.
Ivan	Erie	CO	Robocalls have become a quality of life factor. There are way too many & I should only be contacted by those I contact first - without any affiliate of that company or organizations allowed to phone me. All robocalls should be banned.
Marilyn	Berryville	VA	Please take action to end robocalls to cell phones. If that is not possible then limit calls to no more than 2 per month and then only to those that actually owe a Federal debt - do not allow calls to family or friends of debt owners and require callers to clearly identify themselves.
joe	lunenburg	MA	please stop the robo calls!
Gregory	Lexington	KY	Very few people and no companies have my cell phone number. These persons or companies are instructed to use my cell phone number only if I do not answer my landline or in an emergency. There is no justification for permitting these unwanted to continue. If individuals or companies have a legitimate reason to contact me via cell phone they should be required to dial my number directly. if I have disclosed it to them. Otherwise, it is an unwanted and unwarranted invasion of my privacy.
Jacquelyn	Miami	FL	These ro robocalls do nothing but irritate the recepiant. They are basically an invasion of privacy.
James	Fair Lawn	NJ	These calls are a nuisance and an unwanted intrusion.

Lloyd	Lk Stevens	WA	I am sick and tired of these asses and uncaring jerks calling my phone and my wife's phone only to hang up or not talk and when you call back the number does not exist. These people need the force of the US government to come down on their worthless asses and put them all out of business forever. The phone companies with only let you block five numbers for three months. This too must be changed. Most of us pay our providers between \$130 to \$400.00 per month for service. For that kind of money we should be able put a permanent stop to this kind of harassment and invasion of our privacy. This crap needs to end NOW!!!!!!
Donald	DesMoines	IA	My cell phone is used for emergency calls. My wife is paralyzed, I'am her sole caregiver. These bastards bother us enough on our landline, on a daily basis. If I ever have the chance to get my hands on Rachel, you know, "I'm Rachel, your credit card..blah,blah". I would personally take the phone and shove it up her ass until I reached my elbow. Don't you dare let this program get that far. Do your job.
Allen	Huntersville	NC	Please stop robo calls. While they "may" be profitable for business, it is using a common piece of technology to harass individuals
James J	Crystal Lake	IL	My cell phone is strictly for emergencies and close family use. My two YEAR average cost is \$50.00/year. I can not afford to pay for robocallers! I do not answer unknown numbers and report them to the Do Not Call organization.
Robert	Fair Lawn	NJ	Consumers do not deserve to be hounded on their cell phones.
John	Locust Grove	VA	I'm so sick of receiving robocalls on my cell phone about winning a contest I never entered. If I was interested in a cruise, or new roof, or hearing aid, or whatever, I would contact the provider of that service directly on my own. Things got so bad on my landline, I decided to give it up.
Britt	Mobile	AL	It's bad enough that (even after joining the govt. no call list) I get robo calls all day and night on my home phone, now there inundating my cell, too. I don't need calls from telemarketers, EVER!! If I want, or need, something, I'll go buy it or order it online. Please do something to put a stop to robo calls!! I don't owe any money to anyone so every debt collector call I get is a scam. If I block them, they're back within hours with the same message from a different number. If I could track some of these people down I'd wind up in jail for doing someone some physical harm! Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Many thanks, B. Meacham

John	Payson	AZ	Make the caller pay for the call, that way they will think twice about calling.
Dan	Columbia	SC	As cell phone users we have to pay air time for calls made and received. In essence, we users have to pay air time for the robo calls we receive. Unfair!
peter	chicago	IL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Ellen	Milton	FL	We receive six to seven robo calls some days. We often turn off the phone for relief from them. If you really cared about you bill paying customers, you would stop this harassment. If nothing is done, we will stop having a home phone. Please help.
Isabelle	Van Nuys	CA	Afraid to answer home phone (no call list does not work) now the cell phone is going to have same problem. PLEASE STOP THEM!
Randy	Wichita	KS	They are disruptive and invasive.
Andrew	Shasta Lake	CA	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
Carl	Mansfield	PA	Please take any action to stop the calls. What an inconvenience.
Douglas	Angwin	CA	I GET 5-7 CALLS A DAY FROM EITHER ROBOTS OR LIVE SALESMAN WHO SHOULD NOT BE CALLING ME SINCE I AM ON THE "DO NOT CALL LIST" I WILL SOON HAVE TO GIVE UP MY LAND LINE PHONES IF YOU DON'T DO SOMETHING. TELL THAT TO AT &T. I HAVE SEVERAL FRIENDS WHO HAVE ALREADY DONE THIS.
carol	Santa Rosa	CA	What is the Do Not Call Registry for when, despite registering my number years ago, I continue to receive up to 25 -30 robocalls on some days...and 5 -10 unwanted texts? Sometimes the calls and/or texts come in as early as 5:30 am in my time zone...or as late as 9:30 pm in my time zone. When people like me who cannot afford to have 'unlimited' calls, texts, etc. get barraged with all this incessant and intrusive contacts, the result can be an overage in our usage...and can balloon our phone bills. Enough!
John	Bayport	NY	Please stop robo calls to land line and cell phone. Have credit card service people arrested or fined. Lower the bill on the Cable companies. There is no competition and the price keeps going up.
Claudia	Fairfax	CA	They should be able to be blocked by a simple code.
Allison	Chino Hills	CA	Please protect our precious family time and the time dedicated to business by ending robo calls to cell phones without permission.
Julie	Albuquerque	NM	Annoying

Mark	Springfield	VA	Robocalls to cell phones are an abomination and must be stopped!
Tom	Torrance	CA	I'm paying for 3 cell phones and a single hard-wired phone, having dropped a second wired phone 1.5 years ago. I've signed up on the National Do Not Call Registry, starting years ago. I've paid for a phone with caller ID. Somehow it is ineffective in stopping Robocalls, computer generated from some fictitious number. I've called Verizon and AT&T. They say they are powerless to do anything about it. I've paid for a phone with caller ID. When I try to call the offending party back I get an "error message". I'm getting lots of calls for home repair. I've one trips and cruises . . . all of this on top of political calls around election time. Taking action to stop this frustrating waste of time “” the interruptions “” seems to be highly overdue. Stop the Robocalls! Or give me the tools to fight back.
Alan	Kentwood	MI	I'm all for banning robocalls altogether. Why should I be interrupted, when I'm only going to hangup, anyway?
Maxine	Marina del Rey	CA	Your efforts are good but do not seem to accomplish very much. My robocalls continue on both my land line phone and on my cell phone. I have signed petitions for more than a year. I'm totally frustrated and beginning to think that no one, including your group, is not able to do any kind of a job to get rid of these obnoxious calls. I have registered over the years to not want any kind of robocalls and yet, they continue on a daily basis. I registered with the US Govt. and still nothing has happened. What is the reality on this issue? I feel that all is in vain! I read what you write but everything still continues with many, many robocalls daily--5-6 daily on a continuing basis. I see no improvement and am thinking that my lack of trust is true
John	Kailua	HI	I get a number of calls every week. -They are intrusive and totally undesired. - Anything other than a bona fide debt collector should have no rights to call me - No tricks should be allowed to get me on a list. I must give my consent, knowingly, and in writing for each robocall "I understand i am accepting a call, commonly known as a Robocall, at this date and at this time only" -Consumers should have all the rights, not solicitors.
Llew	Darlington	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Darrah`	winterport	ME	It's bad enough that it's difficult to contend with robcalls on land lines. Let's not allow them to invade out cell phones. Thank you.
William	Wrightstown	NJ	Annoying
Gary	Conway	AR	I've usta NOT answer outa state calls, thanks to some phone company gadget or trick it now looks like a local call from a neighbor or something. This VERY BIG nuciance needs to stop!!

Wayne	Mount Laurel	NJ	You guys have got to stop being led by lobbyists and start listening to the people. Special interests have no right to trump my right to privacy! I demand that you follow what the people of this country want NOT the special interests. STOP THE ROBO CALLS NOW!!!
Mark	East Meadow	NY	I believe that Robocalls are pain the neck. They are disturbing when they call. Also they generally are a,waste of time.
steve	los angeles	CA	please i am my wits end. i receive at a minimum 10 calls a day which i have not solicited or want. it is annoying and a violation of my right to privacy.
Barbara	Forest Hills	NY	We don't need all these robocalls. There are families that have loved ones in hospitals and every time the phone rings, they get nervous.
Barbara	Encinitas	GA	We are bombarded by unwanted information. My only respite from unwanted communications is my cell phone. Please don't allow access to my cell phone from people who I have no wish to contact!!!!!!!!!!!!!!!!!!!!!!
Lemuel	Mill Spring	NC	Many cell phone users have contracts that charge by the minute used. It is very unfair for their time and money be wasted by getting unsolicited robocalls or mass marketing calls of any kind.
MICHAEL	PARKERFIELD	KS	THE ROBOCALL ABBUSE ON LANDLINES IS BAD ENOUGH. PLEASE STOP THEM ON CELL PHONES.
Ava	Vienna	VA	It is bad enough to get these on our landline, but even though I don't give my cell number to many people, I have started to get these calls on my cell also.
Mark	Providence	RI	We receive 10 annoying robo calls a day! Please make the phone companies stop these calls.
Fred	Penn Valley	CA	We are assaulted four to six times a day by robo calls, even though I use my phone company's limited blocking service (blocks up to ten numbers). We learned to dread the sound of a phone ringing.
Belle	Charlotte	NC	We pay by the minute for cellpphone usage. It doesn't matter if we choose to call someone or if someone else calls us. It is unfair for people we don't want to hear from to be able to use those minutes. It is also unfair for people we don't want to talk to to be able to call us whenever they want. We are senior citizens whose only income is Social Security. We are severely limiting our spending and still have a hard time. People calling cellphones others pay for is stealing from them and is just plain wrong. Please STOP ACCESS by robocallers and others who are unwanted callers. I don't want those people to call my home phone or a cell phone. It is intensely annoying. It is unfair. IT SHOULD BE STOPPED. You have the power to help everyone with this problem. Please, please, please stop these unfair calls. Thank you.
Ken	Philadelphia	PA	Don't need it when I want something I'll get it on my own

David	Bedford	TX	I receive numerous calls and text messages each week while I am at work and home that despite the fact my number has not changed in 4 years, are for persons unknown to me. I have about 10x the number of blocked numbers on my phone than I do of legitimate contacts. This increased the bills to all users. In the event that you at the FCC are ignorant of reality, calls, incoming and outgoing are not and never have been "free", despite what the contract says.
Mary Jo	Maplewood	MN	Sins I'm an elderly person and have a hard time getting around I wish u could help me out so I don't answer these robo calls even tho I have caller idea I can't always read it and would help many older people as well as outers eather trying to sleep or what ever. Just get this stopped.we pay for our phones and don't think we should have to put up with this
Nancy	Temple City	CA	I am elderly. I am getting very tired of having to get up to answer my Phone to hear a recorded message or someone selling me something I don,t need. Example " solar energy" It is very annoying since usually around mealtime. Please stop these calls. I am on the "do not call" and still I get these calls about five to ten a day.
Paul	Chapel Hill	NC	I get robocalls every day. I can't answer my phone anymore and I miss calls I need to get. Robocalling must be stopped!
Surya-Patricia	Phoenix	AZ	I am fed up with robocalls. I am hearing impaired plus use a walker to get around. It is irritating at dinner time to have to "sprint" to answer the telephone only to find it is a robocall; much of what they are saying is incomprehensible. Furthermore, I am on the Do Not Call List and yet I get calls about credit cards status (I don't have any credit cards!) among other calls that are useless to me.
Kate	Cincinnati	OH	They are a nuisance. They are intrusive. My land line and my cell are for my convenience and not for anyone else's. The people I have given implied permission to call me are my family and my friends and people and companies I do business with. I don't need solicitation calls for business or services. I will call them! When told to stop calling you do! The following are some guidelines I would like to see included in the regulation, especially for debt collectors: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available to the public and to the callers. No "spoofing" telephone numbers. Numbers must be actual, real and report-able/trace-able.
Nancy	Eules	TX	STOP ROBOCALLS. THEY ARE NECESSARY.
Neil	Tottance	CA	Unwanted, Robo calls would take huge economic loss for every one and unfair loss to Consumers without way of protection.

Richard	Waltham	MA	I am on the government's do not call list but to no avail. It's hardly beneficial to maintain a phone as the Robocalls are practically endless. You hold the power to put an end to Robocalls and return the peace and tranquility to your constituents. Please, the time has come for your action to put a stop to Robocalls and the resulting madness. Give your utmost attention to this matter. Thank you.
Sue	Darrington	WA	Please stop Robo Calls. They are very, very annoying. I get Greta, and Carol from card holder services two our three times a day. Some one has to stop this. The phone services should have some way to stop them
Elizabeth	Corvallis	OR	Despite repeated & polite refusal, I continue to get phone calls from "Technical Support" - an overseas computer company. These calls are to my personal cell phone. There must be some way to stop such calls.
Derrick	Semmes	AL	Robo calling has reached a whole new level of terrible as of late. I receive about 10 to 15 robo calls / spam scam calls everyday on my cell phone. Many of them do not adhere to proper times to call. They never remove from the list and ignore all federal regulations.
Tracy	Lakewood	CO	EVERY night after night my elderly friend refused to answer his phone due to robocallers as he was afraid! When the phone rings elderly people go through a lot of trouble to get to their phone; for what, an unwanted nusiance! It is abuse not being able to stop them!
James	Parkville	MD	I respectfully request that Federal legislation be enacted to stop ALL robocalls. These are not only distracting but can be dangerous, especially when directed to households where sick or disabled persons may reside.
Beth	Bedias	TX	I despise having to pay for unwanted, uninvited calls!
John	Orlando	FL	There are way too many robo calls.
Philip	Northford	CT	I am retired and the vast majority of phone calls on the hard line or my cell phone are from either computers constantly dialing my house/cell or THREATS from the IRS, lawyers, etc. stating I will face serious legal repercussions if I don't return the call immediately. This has to stop. Please take action to correct this problem.
Judith	Canton	MI	Even though we am registered on the Do Not Call List we are still receiving these calls.
Jeanne	Austin	TX	I continue to receive cell phone calls from student debt collectors. I have no student debt. I have repeatedly told these people I am not "Magenta" or whoever they claim to be calling. I have told them to remove my name; they promise to, but the calls keep coming. And I have already subscribed to the Do Not Call list!!! It doesn't seem to matter. I should not be subjected to these calls. I ask you to prohibit them.

Shari	Longview	WA	I am having high blood pressure attacks over these robocalls. They call me and I hear a click and no one is there and then they click off. Then they call back 10-20 times a day. It is making me sick. I also get calls that say that I gave permission for them to call with medical supplies for pain relief which I did not.
Deeva	Hamden	CT	It is very unsettling to get calls from robots , that are not asked for. It is an intrusion of my privacy> Please stop these unnecessary calls so that urgent important calls can come through.. Deeva Laubstein-
David	Lindsborg	KS	The "Age of Robocalls" has got to end! We receive several of these calls daily and are fed up with them. We don't answer our home phone unless we recognize the number. No, we don't owe money or have student loans.
Douglas	Racine	WI	Whatever happened to the Constitutional right of privacy?
Michael	Fernandina Beach	FL	I would like to request an end to allowing robocalls to cell phones. I HATE them!
Annette	Okemos	MI	I'm a senior citizen and fully two-thirds of our phone calls are robocallers! We sometimes get 15 to 20 robocalls A DAY. It's even worse during election season. We're at the point where we NEVER answer our phone unless we recognize the caller ID. In spite of not answering, these calls disturb our sleep and interrupt our meals and conversations. People can't walk into our homes uninvited. Why are they allowed to enter our homes this way? I urge you to pass stringent guidelines -- and include politicians and charities!
Robert	Ocean View	NJ	Please no robo calls to call phone. Robo calls are enough to drive you crazy. Enough IS enough!
T	Cupertino	CA	Please do what everyone wants. Stop the robocalls. Give users a choice between receiving them or not, DoNotCallRegistry. Enforce strict penalties on companies that don't honor that list. Also an option to also not receive calls from non-profits too.
Cynthia	North Hills	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Peter	Pomona	CA	Please prohibit the use of robot calls for political and marketing purposes to call cell phones because it's quite annoying and it's no different than any telemarketing call.
Declan	Baltimore	MD	There need to be some spaces where we can escape the constant bombardment of commercialism we are subjected to in America. We pay for our telephone lines. If companies want to use them to sell us stuff, we, the phone account holders, should have the right to charge them for the privilege.
James	Miami	FL	Privacy is something we all should have rights to.
Judy	San Diego	CA	it has long been recognized how invasive, annoying, useless and rude these calls are.

Rev. LeBaron	Bogalousa	LA	I am constantly getting calls from suspect pharmaceutical companies, loan companies and many after 8 p.m. CST. Most annoying, especially when I'm trying to enjoy dinner!
Greg	San Diego	CA	Please end the onslaught of unsolicited robo calls
Mary	Pepeekeo	HI	Hard working people who pay for a service should not be harassed by unsolicited phone calls.
Raymond	Sauk City	WI	I get enough robocalls that like most people I know I can no longer answer my phone unless it's identified as someone in my contacts list. That is just wrong. I don't want these companies adjusting my behavior, wasting my time and needlessly interrupting me. I'm on every do not call list available and it doesn't seem to help. Let's fix this please. Thank you, Raymond
Stephen	Los Altos	CA	The frequency of calls is increasing weekly. The same numbers call, at the same time each day. If we answer the phone, they sell our number to other robocallers and scammed. THIS MUST STOP.
ralph	youngstown	OH	the only time my cell-phone is on when I'm in my car driving! I basicly use my cell phone for emergencies! With these stupid robo calls I have to take time to answer and that requires taking my eyes off of the road to answer!!!!
james	Phoenix,	AZ	Stopping sales and marketing calls was a good thing and we rarely receive any but now the number of unwanted calls has grown to a point that we might get 8 or more every day. I think these organizations should be required to leave a message or an instruction as to how to get rid of them. Also, require the name of the organization that is calling along with the phone number.
Robert	Minot	ND	Did we not go thru this once before in the 1990's? Now you regulators/politicians just give give them another way to circumvent your own regulations. Enough! Stop!
Carolyn	Mebane	NC	I get at least calls each wanting to lower my credit card interest rate when I pay off my balance each month or IRS saying I owe money or I've won a trip. Please do not allow calls like this to be made.
Paul	Kennesaw	GA	My wife and I have never liked receiving robocalls. It forces the recipients to become rude by hanging up. Robocalls should be outlawed so that companies will not hire people to make such calls. I have NEVER, EVER bought anything from a robocall. If I need Insurance, I know how to pick up the phone and call. If I want to donate to a cause, I can call them at my leisure. Robocalls have zero value to my family. They can only be classified as a nuisance, a very large nuisance.

Shawn	Raleigh	NC	Our landline phone rings 20+ times a day with robocalls. We may get 1 or 2 real calls a day. This is a crazy situation. We are on every do-not-call list and yet they keep coming. We have even resorted to turning off the ringers and thus missing those 1 or 2 calls a day. Please help consumers out. Computers can dial away all day long and are clearly ignoring our repeated requests to "take us off your list" as well as our registry on the do-not-call list. This is very frustrating and seems always to interrupt us at dinner or other "family time". We never sign up or go through the surveys and would not buy anything from such inbound calls, so it is simply nothing other than a major problem for us, and I think for most. Consumers desperately need our government to put a halt to this entire practice.
Craig	Bethesda	MD	What happened to the "Do Not Call List"? Why doesn't it apply to Robocalls to my Cell and, increasingly, to my home phone as well. Where the hell are you? It doesn't seem you're working in the public's interest as this is out of hand. I receive 2 -5 Robocalls per day.
David	Glendale	AZ	Please limit the robocalls to no more than three per month. Debt collectors must notify us of our right to stop receiving their robocalls. I also ask that the guidelines be clear and readily available.
Sandra	Berkeley	CA	Robocalls are one of the most annoying aspects of the digital era. All such calls should be banned, including those to so-called debtors. Debt collection calls or texts should be limited and only to people who actually hold the debt.
Terry	Lansdale	PA	I signed up for the National Do Not Call List years ago. The number of automated calls has more than doubled. I don't know what the Do Not Call List is for. It certainly isn't reducing the calls. We need real leadership in getting them under control. Do it now!
Greg	Dallas	TX	Please do everything you can to protect Americans from Robocalls to your cell phones. Thank you.
Neil	Sea Girt	NJ	Please stop these costly nuisance calls!
Kathy	Plano	TX	It is pathetic that robocalls have taken over our cell phones. I receive about 5-6 a day. I have them blocked but I know that won't last. Please give us our cell phones back.
August	Kingston	NY	Please curtail the invidious power of commercial entities to continually send robocalls to plague our landlines and cellphones. I have asked certain companies - particularly one credit service company - to cease calling me as I do not want their services. They do NOT honor such requests and keep calling. The "Do Not Call" registry is a joke; it is worthless.

Kent	Austin	TX	We strongly urge you to support eliminating any form of robocalling to both land line and cell phones. The incessant calling violates our privacy as well as being a genuine safety hazard on cell phones when we try to answer while driving...thinking it's something important. Please use your authority to totally eliminate any and all types of robocalling!
Thomas	Louisville	KY	Sirs/Madames: It is indeed a time to end these non-stop robocalls that create a monumental waste of time and are hugely disruptive. Why is such a huge intrusion into our lives allowed to persist. Please do something to stop this abuse of the general public!
Patricia	Laguna Hills	CA	I am tired of paying for the telemarketers to annoy me on my cell with their robocalls for things I am not interested in.
Bill	Dubuque	IA	I, like many others, are constantly being bombarded with nuisance calls that I didn't request. My phone is listed on the Government do not call list, but that doesn't stop them. They know it is too hard to file complaints on them, so they get by with it and thus keep on going. It is time for you to step in and take action against this kind of abuse, they must be fined very severely for each violation they have committed. Please help put a stop to this now, thank You.
Theresa	Yonkers	NY	I am tired of answering the phone to find silence there or something that says wait. At least 5 times a day. I am 70 years old.
Mikael	Metuchen	NJ	Robotic calls have tied up my mobile business answering devices and are generally distracting and time-consuming. I now have to screen each call to ensure it has a legitimate business or personal purpose.
Ruth W.	Lacey	WA	We don't want to miss calls from family and friends, but it's a hassle to get up and grab a walker and hurry to the phone, only to find it's a robocall, usually the same one over and over. And if we are eating dinner, a common time for robocalls, we may stumble to the phone, risking a fall. Robocalls are unnecessary hazards for us old folks in our upper 80s.
Sheri	New Port Richey	FL	We are bombarded with robocalls on all three of our cell phones, one of which is our home phone. We want them to Stop!
Terri	Springwater	NY	Stop the nonsense! Stop the robocalls!
Michael	San Jose	CA	Dear sirs, Harassing robocalls about debt collection are very disruptive to the recipient. The calls should not be allowed to family and friends, it is not their matter. AND the number of personal calls and text messages about the debt should be limited as well, to one a week.
Marty	Royal Oak	MI	I'm tired of getting to ovals!

Nick	Dayton	NV	These a-holes are relentless, defiant and swine. The calls NEVER stop. The calls come at all times of the day every f*****g day. If it were possible to identify and locate the persons responsible for these calls, there would be the potential for great violence. Please put a stop to this moronic behavior.
steve	arlington	VA	stop the robocalls.
Douglas	Denver	CO	I choose who to give my phone number to and the unsolicited calls that are not wanted are an invasion of my privacy. The scam calls and the sales pitches are annoying and unwanted and I want them to stop.
David R.	Bear	DE	While I don't have a debt problem, fielding calls to my cell telephone from unsolicited vendors and firms wastes my time, and is just plain irritating. The vast majority of these calls come from entities with which I have had no prior relationship. I can easily image how irritating and frustrating robo calls from collection agencies could be form households struggling to make ends meet. Please help restrict collection robocallers.
Lawrence	Centerport	NY	I urge you to make clear, easily accessible limitations on robocalls from debt collectors. Those who owe federal debt directly should receive no more than 3 calls per month, and friends and relatives should never be subjected to such calls.
Julia	Seal beach	CA	Robo call's are annoying whether to landline or cell phone
John	Paradise Valley	AZ	In spite of me telling them to delete my phone # from their records, they repeatedly call me. This needs to be controlled.
Thomas M	Traverse City	MI	End robocalls to cell phones. Such calls are expensive and a continuing misuse of calls and cell phones and a source of unwanted calls.
Susan	Lakewood	NJ	Robocalls are the bane of today's society, particularly is they are done without an individual's permission. They are tantamount to harassment and a form of pollution in more ways than one. There should be provisos put into place, certain realistic restrictions..... for example: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. This is a privacy issue - privacy is becoming so rare it is a priceless commodity.
Emily	Freanp	CA	Stop the robocalls now.
Arnie	Pembroke Pines	FL	Robocalls are an invasion of privacy. It's time for common sense to prevail and limit the ability of predatory companies to make them.
Robert	Manahawkin	NJ	It is annoying enough getting them on home phone and now it's even worse on cell phones. nest they will be ribgibg door bells.....

Mark S	Austin	TX	I am extremely tired of having my day, REPEATEDLY interrupted by calls to my land line and my cell line with robocalls. I've stopped answering most calls. Make the use of robocalls, and especially fraudulent caller IDs illegal or at least where I can opt out easily.
Doug	Tucson	AZ	I receive multiple robocalls every day. I am on the "No Call" list, but this does not seem to help. We need to set new standards and punish those who violate them with heavy fines.
Tyrone	South Plainfield	NJ	I am so over joyed to hear something is getting done about this robocalls harrasement to stop these people.
Christine	Kensington	MD	Robocalls to any phone at any time should be illegal. I have no wish to talk to a computer. If you want to toalk to me and you not banned from calling my phone by the do not call registry then give me a call - yourself, not via computer. There is no reason that any robocall should be legal unless it is some kind of informative call from a group or list that I have signed up for like traffic alerts or information from my child's school.
Thomas	Forest Hill	MD	Please vote to block Robo calls to cell phones. It is bad enough that I have to put up with Robo calls on my home phone, I certainly don't need this on my cell phone. Thanks
Lawrence	LaGrange Park	IL	Simple - No Robo Calls !
John	Dallas	GA	Please support ALL efforts to stop robocalls! We appreciate your support on this very important issue!
Test	Test	TX	Testing II
Carol	Boonton	NJ	It's not fair to make the recipient of a robocall to have to pay to get an unwanted call, plus the inconvenience of the call. It just isn't fair.
Matthew	Warren	IL	I've had debt collectors call my number by mistake. It took me months to get them to stop hounding me for a debt that belongs to another person. These automated calls are threatening, intrusive, and need to stop. I've also received debt collection calls for a dead relative. Any automatic calling system needs to include information on how to stop the calls. The number of calls to legitimate numbers needs to be limited to no more than three per month. Family members and friends should NOT be called, that's harassment. Thank you.
Paul	Munroe Falls	OH	Eliminate ALL robocalls. Have an EXTREMELY (tied to the size of the company) stiff penalty for not following the rules.
Sally	Santa Ana	CA	Please eliminate robocalls
Daryl	Castle Rock	CO	WHY does FOX News use their ALERTS For basic news stories ?? An ALERT is a caution or Warning to the public. I like Fox News but, feel that this is misuse of this vocabulary to the public. On their screen it says ALERT in big letters When it's nothing to ALERT !!
Leslie	Lake Charles	LA	No Robocalls to Cell Phones!
John	Simi Valley	CA	Please, put a stop to robocalls to my cell phone, and cell phones of everyone! You have the power to do this! Thanks, John

Jackie	Albuquerque	NM	Please stop these-- CALLS.
Ann Marie	Worcester	MA	I strongly urge you to put an end to the practice of robocalls. The practice intrudes rudely on the recipient's privacy. On some days I receive multiple calls from the same party. This disruption via the cell phone can be hazardous if the recipient is driving. I paid for the insrtument and I pay for the service. Therefore I think MY interests should be served, not the interests of vendors who don't even have the courtesy to talk to me in real time.
Lena	Bowie	MD	Please stop ALL spam calls, both to cell phones and land lines. The current methods just don't work. It is far to profitable for the companies to stop, and many of them are from overseas and don't respond to US laws. We NEED our cell phone companies and land line companies to take action. The science is there and easy for them to implement. Please force them to do so! Thank you very much.
Mary	Seattle	WA	Why do we allow "advances" in technology to reduce our privacy? That is EXACTLY what Robo Calls do. They don't employ human beings they simply dial my phone number(s) and diminish my privacy. Once and for all, can we have a DO NOT CALL list for all phone numbers? Can we levy penalties on those who fail to observe these directives? I do not need calls announcing LOUDLY, "THIS IS YOUR FINAL CHANCE..." and then, more softly (what I already know) "There is no problem with your credit card account. I don't need political robo calls. If someone wants to give me their political opinion, let them have a human being do it. I don't want carpet cleaning calls. Please put tough laws in place to stop robo-calls.
Ward	LaVerne	CA	I no longer have a land line phone due to many "robocalls" even while on the no call list. My cell phone gets many calls that I do not answer as it has caller ID. This still uses valuable air time for a retired engineer on a limited budget. NO CALLS!!!
John	Palos Hills	IL	Sometimes I receive 4 or 5 robo calls a day a good percentage are someone trying to scam me. I purchased a phone system that allows me to block calls but it is not easy to use.
R	San Francisco	CA	I don't need to be bothered by robo calls
susan	dracut	MA	Can't afford to pay for incoming robocalls on my emergency only cell phone
Bonnie	Sorrento	FL	I am tired of all of the computer calls. If I want something I will call you! When I ask you politely to be taken off your list I expect you to do so instead, you start calling more frequently because you have determined when I am at home. You tie up my phone so important calls cannot get through. I get calls for people with debts that had my number 2 years ago and will not accept that I am not the person they are looking for because they keep on calling. I truly think that you all should be fined for harassment.

Joe	Woodbury	MN	It's just not right, to be getting robocalls. Even being listed on the "do not call" register, doesn't stop the calls. Please do the right thing!
Kirk	Villa Park	CA	I receive 4 to 10 call per day that are robocalls. Please stop them,
Ed	Plymouth	MA	Now it's going too far. My cell phone is personal to me. No one supports robo or unwarranted cell phone call phone calls.
Rich	Bodega Bay	CA	We, as a retired couple, are besieged by robos on daily basis, and we are not alone. This has literally become a quality-of-life issue. ACT NOW!
john	lomita	CA	Stop robo calls and: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family john The guidelines should be clear and readily available
gary	middle grove	NY	stop robocalls to cell phones.
Michael	League City	TX	The FCC should allow bothersome debt collector calls on personal cell phones.
NC	Colorado Springs	CO	I oppose robocalls to my cell phone, period. My cell phone is for personal calls and family communication. Infecting it with robocalls will make my now sacrosanct cell phone intolerable. Please respect my privacy and quality of life by keeping cell phones free from robocalls.
Yile	Coppell	TX	Dear FCC officers, Robocalls to cell phones must be banned! Unless it's for emergency notification purposes, there is absolutely no reason for me to receive a call from a machine! Enough is enough! Thank you, Yile
Jo	Hemet	CA	Please put an end to annoying and in some cases costly Robocalls to cell phones. For seniors on a fixed income, most affordable cell phone calls still charge for non-family calls or texts. Just say "No" to those who want to continue this practice!
William	Keystone Heights	FL	Don't call me! If I want to contact you, i will call you. Stop annoying my family at seemingly any time you feel like calling. We have put our incoming calls on our message machine. That doesn't seem to matter, the phone still rings. If something isn't done we intend to cancel our land line. Quite a few friends have already done so. This will cost the phone companies and eventually jobs at those companies. Computer calling should be outlawed, period. Having a number on the do-not-call list it doesn't seem to matter. HELP
Ken	Lenexa	KS	Unrequested calls are a waste of persons time and an invasion of privacy
Robert	Worcester	MA	The time is now. Robo calls must end. Even when you press the number they give you to stop them the calls keep coming. They are a pain in the "you know where". THEY MUST END NOW !!!

Henry	San Jose	CA	I don't know how many times I have been spending time with my family, only to be interrupted by a RoboCall. It is absolutely annoying to be constantly called everyday. Please stop this predatory practice and start hitting these businesses where it hurts, in their wallets. Thank you!
Robert	Peoria	AZ	On average I get 6-8 calls. I tried Century Links all rejection. I have listed seventeen numbers. I am still getting calls in which no one is there or a sales call. In fact I have received several on my cell phone. Can't I get relief?
sandra	Brooklyn	NY	I get 10 a week. I am on a limited plan. This costs me money and is unfair. I do not do business with any of these callers
Stanley	San Antonio	TX	Please, Please STOP the Robo Calls. I pay for phones to communicate with family, friends, emergencies and business. I do not want 10 to 15 Robo Calls a day telling me to update my insurance, That I have won a car, won a vacation, that I need siding on my home, or that I need to update my credit card. I am just plain sick of it all.
Ryna	Peabody	MA	Please stop Robocalls!!!
William	Deerfield	IL	Rightly or wrongly, regardless of one's political leanings, there seems to be a prevailing sentiment in the current political arena: that the Federal government has often lost touch of the concerns that are most important to consumers. Significant resources are devoted to many issues that are far down the list of the concerns of the average consumer. What should be near the top of the list is creating a simple means for consumers to block robocalls and other calls from known schemers (e.g., the "Microsoft virus" scammers who prey on the unsophisticated and elderly), without the consumer having to pay a charge to his or her telecom provider. The number of such calls we receive is absolutely absurd, notwithstanding that all of our phones are on the do-not-call list and that, in the past, we reported numerous of these at the FTC do-not-call web site until we realized (like so many others have ultimately) that such reports appear to be totally ineffective. It also seems that our elected officials and government agencies often are very responsive to the hoards of well-paid lobbyists who often emasculate consumers' collective efforts to bring about much needed change. We urge you to be responsive to what millions of consumers have for years been demanding: that the government do everything in its power to put an end to the absurd robocall activity and create mechanisms for consumers to block unwanted calls in a simple manner without cost.

Richard	Washougal	WA	I am sick and tired of getting robocalls trying to sell me something on my cell phone! Please make them either stop or adhere to the following guidelines.... >Debt collection robocallers must notify us of our right to stop receiving calls >The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family >The guidelines should be clear and readily available
Laurence	Silver Spring	MD	These robocalls represent at least 80% of all the calls I received per month. This NEEDS to stop. No need for this kind of abuse from anyone or any group. PLEASE, PLEASE stop this...
Cynthia	Mentor	OH	I am receiving robocalls from pizza companies in Florida and California. I live in Ohio! This is just harassment!
James	Marietta	GA	Please stop robo calls to our landline and cell phones. We receive 2 robo calls for every call the we will take.
Bonnie	Sarasota	FL	I get 4 or more robo calls everyday interrupting my life Usually there is a couple in a row with nobody on the other side if you answer.
Ann	Loudon	TN	I oppose robocalls to both my cell phone and my landline, regardless of the purpose. If calls are needed for debt collection, they should be sharply restricted in number and in the time allowed when the calls may be placed. Moreover, strict enforcement should be followed, with adequate budget and clear guidelines to limit any callers that violate the guidelines. I'm tired of robocalls for any reason, whether debt collection, political or business solicitation. Frankly, I would get rid of my landline were it not for the fact that someone in my household has medical equipment that needs to be monitored. I'm starting to get calls on my cell phone also, where it is easier to block them, but they are still a pain. The FCC needs to take a strong stand on these annoyances. Beyond a certain point, say, the third robocall, the call recipient is so insanely angry that little can be accomplished thereafter.
John	San Diego	CA	Sick and tired of 4-5 calls per day with nobody there or unwanted recorded solicitation . Please end the robo calls, now .

Helen	Claremont	CA	I am extremely frustrated at the robocalls I get. Some of companies who employ this method have many different phone numbers, so when you ask to be removed from the list, they may only remove you from that phone number, while the rest of the numbers are still open to that same company trying to call you. The reps, when you get past the silence from the computer call to the actual rep, are many times rude, some don't know what they are talking about, some are idiots. I also don't like being annoyed late into the evening, or early in the day. While I don't like any robocalls, being bothered in the early morning or late evening, is particularly infuriating. I don't want these calls on either my land line phone or my cell phone. Most annoying, and most unwanted. I feel violated because some idiot sells my information, or gives it up. I know who I give my number to, so all other types of solicitations are unwanted, unnecessary, and uncalled for.
Louis	Pearland	TX	The do not call list was a good first step, but we need to continue to strengthen and extend this to prevent robocalls to mobile phones. These robocalls have expanded in scope and frequency and now are a huge burden on everyone. Centralized action is needed now!
Barbara	Rockville	MD	I get at least 6-9 calls a day from all over the country between my land line and cell. I feel it has gone past self promotion and is an invasion of my privacy due. The Do Not Call is a joke and waste of time. The feeling of frustration is at it's limit.
Mimi	Las Vegas	NV	I resent having to put up with Robocalls, especially since I have subscribed to the 'No Call Service'. They are using up precious phone time for their unwanted attacks. Yes, I do consider these calls attacks and an invasion of my privacy!
Garrett	Marietta	GA	Please stop all Robocalls.
Gina	Dallas	TX	No company has the right to call me on my cellphone, because it costs me both time and money. Try it on Congress for one month.
Marlene	Pleasant Grove	UT	Robcalls are annoying and some can be dangerous and confusing to the elderly.
Bruce	Mountain View	CA	I rarely use my phone at home anymore, and I keep it mainly for emergencies. It's not a portal for marketing messages invading my home!
Robert	New York City	NY	These corporations need to stop robocalls for the purpose of collecting debt

Pat	Louisville	KY	These same "companies" are repeatedly calling us through the day and week. Our family does not even owe money. These computers generate numbers from the first name initial and last name of the actual person they are trying to request. One time a company called to ask us to get in touch with an individual who lived on our block! Any action you can take to bring down these time and telephone line scavengers would be greatly appreciated. With so many worthwhile services and needs in our community, these companies are noncontributing, nonproductive nonpurposeful leeches of the community.
Lori	Vancouver	WA	There is nothing more annoying than answering your phone and it goes to either a busy tone or there is just no one there!! Nothing more... except it happening four times within a fifteen minute period three or four times a day!! When you finally get a person they're just trying to sell you something.
Jack	Waynesville	NC	Please stop all this on my home phone and cell phone. I pay for my phone and only want calls from my contacts and business that I currently deal with. I get more and more calls. Please be as strong as possible and let me take control. I do not want the phone to ring and cause me to chase after it when I am asleep, busy, etc.
PAUL	Mount Sterling	OH	All mass communication phone calls need to be "opt-in" with clear 'plain English' provcay and contact terms as well as a clear way to opt-out. Additionally, wireless carriers need to provide call blocking capabilities like my VoIP service does. Presently, the big carriers like Verizon actually charge us to block these pests. My VoIP service is Callcentric, and it offers a telemarketing block feature that has blocked all but one of the 150 plus pest calls I've logged in the past six months. Callcentric can provide phone service with blocking for less than \$7.00 a month. If Callcentric can do it, wireless and POTS providers can do it.
Alan	Haiku	HI	All too often, be it while driving or cooking and just watching the kids, our time is interrupted by companies and people who have no business having my personal cell number. Then it seems, my Number is sold or passed around to others who are so rude to call early or during evening hours to sell a loan or some other stupid product that is irrelevant to my life. Please, let's put a stop to these thoughtless interruptions. Thank you
Kathy	Petaluma	CA	I am on do not call list and my phone still rings more than 10 times daily with unwanted solicitations. I want it stopped!

Penny	Sun Lakes	AZ	<p>I think robocalls are fair game for lenders, and not for any other reason. Marketers have entered every space there is in our world. The phones should be hands off, house and cell phones, since more and more people are asleep at different hours of the day, and the phone disrupts life. There should be a safe zone for everyone. When my mom had heart surgery, robocalls woke her up everyday and night after hours of trying to sleep. The manager couldn't even stop them. We moved three years ago and the other town's blood bank can't stop those calls. My spouse did give blood freely and he isn't going to drive two days to continue- they still call five times a day. They can't stop it. They didn't even need to call him to donate. There just isn't a good reason for a robocall. If you want to deal, you connect with the company. Stopping this event would also stop or reduce phone theft. People who default on a debt created the reason for the call and they can stop the phone ringing by repaying their debts or communicating. Advertising by phone is a horrible invasive intrusion on people's life's. More people are ill, including autistic children, older adults nap at different hours, students, or night shift workers do not appreciate ringing phones. Nor should they have to, so please protect the people this time. Thank you.</p>
Kathryn	Bronx	NY	<p>I am sick of getting these telemarketing calls, especially on my cell phone, where they use up my minutes.</p>
Aarica	Atlanta	GA	<p>I receive these harassing calls on a daily basis on both my land line and cell phones. The calls are now even routed to my work cell number. The caller doesnt leave a meaningful message but when messages are left, the message is always threatening. When I block the phone numbers, multiple additional, often related, phone numbers commence these calls to each of my phones. It is insane that our government allows this level of disruptive, harassing, and senseless abuse. These originators of these calls should be fined and charged using the same laws that are used to prosecute offenders who are charged with harassment, infliction of emotional distress and terroristic threats.</p>
Karen	Belleville	WI	<p>Please put a stop to them. They drive us insane!</p>
Paul	Fulton	NY	<p>We have been plagued with debt collectors' calls for the previous owner of the phone number assigned to us when we started a new phone service after moving. We explained to the callers that we do not know the persons they are looking for, but after nearly three years, we still got calls. This is in addition to the calls telling us that we have won prizes, that Medicaid will provide a medical device at no cost to us. And the list goes on. Please end robocalling</p>

Roy	El Paso	TX	I do not owe anything to any one and yet I'm getting robo calls for people with similar names. I'm told to report the "error" and it will be corrected. I'm still waiting. The only way to deal with this is to en ALL robocalls. They are nothing but harassment. If any business or non profit wishes to call me, they should deposit \$ 5.00 "entry fee" per call into my account plus a dollar a minute from the first ring there after.
Jerald	Oak Harbor	WA	Yesterday we received 7 robocall, and only one call from another party (not robocall). This is getting ridiculous. PLEASE put an end to ALL robocalls... Thank you.
David	Hickory	NC	I pay my bills responsibly. I shouldn't be subject to a shakedown or harassment because someone in my life owes money!
William	virginia beach	VA	Time to stop this junk. We have people sick in our housecall and these calls are alway distrubing them.
Anne	Cleveland	GA	Toni calls must be banned from cell phones!!!!
Don	Anaheim	CA	Robocalls are an invasion of privacy and time wasters. They should be illegal.
Jayne	Las Vegas	NV	I work 3 jobs since I am a widow, in order to survive. Having my phone blown up all day while I am at one of my jobs is not only annoying but invasive. Please, make it stop!!! These people have no respect for time and often call 5-10 times in a row but their number doesn't show up or they even text me 10 times a day! Some of these calls even interrupt when I am on the phone! I try and be polite and then when I don't give them the correct answer they want, they hang up on me or call me bad names! They call alll day and night!!!!
Maureen	Bellevue	WA	No robo calls to cell phones period. As a senior citizen, I have my phone for emergencies. It is really unnerving to get robo calls as I think it is someone trying to get ahold of me in an emergency like family.
Peggy	Clear Lake	IA	I would like to beg FCC to not allow robo calls on peoples cell phones or home phones. No one deserves that kind of harassment. Please put yourself in anyones shoes in this case. Texts are just as bad. Please Please do not let this pass.
Eugenio	Long Beach	CA	No Robocalls text or voice messages should be sent to Cell phones. Debt collection robocallers must notify us of our right to stop receiving calls prior to starting any conversation. The number of allowed calls, texts or voice messages should be limited to no more than two per month and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available to anyone searching for them.
Devin	Seattle	WA	It's time to protect consumers' cell phones and privacy. Please ensure strict, new guidelines.

David	Tacoma	WA	On a good day, I have a couple of valuable, limited evening hours to spend with my family. Unwanted callers interrupt that valuable time and destroy the mood. As one of the dinosaurs who gets punished daily by robocalls for keeping a landline, I can state with certainty that the public does not want to be harassed on our cell phones as well. We pay large sums of cash for our services, and robocallers freeload on our resources. If I want a service or owe money, I'll take care of it on my schedule and through the US mail.
Debra	Mountain View	AR	It's bad enough to get calls several times a day on my business phone but getting them on my cell phone is beyond irritating. These telemarketers are spending my money to call me for something I don't have the least interest in. Please put a stop to it. Thank you.
Brad	Tracy	CA	I am so sick and tired of getting robocalls on my cell phone. I thought that this practice was supposed to be illegal. I have never had a debt that ever went to collection. I have always paid all of my bills on time. However, I do have a family member who had had several bad debts, but this was more than 12 years ago. Somehow, the collection agencies call me. EVERY DAY! I usually receive 4 to 5 calls, every day. I have called them and asked them to stop, but they refuse. I especially hate getting the calls when I am driving in my car. I use a Bluetooth earbud, so I can't see the cell phone screen. The problem is so bad, I have thought seriously about changing telephone numbers, but that is a huge inconvenience. I have had this phone number for over 20 years and all of my family and friends know to reach me at this number. What am I supposed to do?
Paul	Ft Worth	TX	Please do something.....
THOMAS	MESQUITE	NV	Please end this practice since not only does it annoy but it can customers to receive these unwanted calls.
David	Placerville	CA	Who could possibly like robocalls. Then why are they allowed? Money, someone or ones make many for letting private interests dictate over the public good. It has become a way of life in America and the quality of life is on a steady decline for those who have less because of those who want more at their expense. Please take a stand that shows this is not always true when it comes to government or corporate America. I will be watching with great interest to see what you do.

Henry	Grinnell	IA	Robocalls consume vast amounts of time, energy, and resources. Further, they are disruptive for recipients --- often interfering with important personal and professional activities. Debt collection robocalls are particularly annoying when the caller has an incorrect number --- yet the calls can go on frequently for years. For example, I have been getting a dozen or more calls monthly from a debt collection for someone who apparently has the same initials as my wife, but is clearly someone else --- no relation to anyone I know. This has been going on for several years. A mechanism must be available to stop all robocalls. Debt collectors must be limited to a very few per month, and they must stop in the case of an incorrect number or mistaken identity!
William	Carmel	CA	With 3 ruptured discs it is hard to get to the phone. Robocalls are an invasion of my home and privacy
Jerry	Hilton	NY	I oppose robocalls to my cell phone because the are annoying and I have to pay for the minutes that are used.
Pat	San Jose	CA	There was a time when we were in debt up to our ears and got all kinds of threatening phone calls. Now we are debt free and don't appreciate these robocalls. We have paid our debts and don't want to be called any more. We don't own anything and are not trying to purchase anything so we want people to leave us the heck alone!
LAurel	Kailua	HI	Instead of opting out, I should op in if I want annoying calls. Any annoying calls. Do not allow robo calls for any6 reason.
William	n las vegas	NV	please stop all robocalls to landline and mobile phone devices. If they are allowed to call, the caller ID should clearly show who it is, so if we do need to call back we are not spoofed and misdirected or redirected to a source that does not work.
Anil	Missouri City	TX	FCC should ban ALL robocalls to cell phones and landline phones. They are demeaning and irritating. They waste consumers' time. I cannot fathom how FCC allows such things. Don't FCC board members get robocalls? Or are they in the pockets of the advertisers?
Joy	Bozeman	MT	Please do what can be done to prevent interminably arriving robocalls, which interfere with my right to privacy & peace in my own home, and to be free from harassment or unwarranted and unwanted solicitation.
Kevin	Austin	TX	If you don't push back against the predatory lenders and shady companies that rely on invasive robocalls, people will be stuck screening unknown numbers and malicious texts around the clock.
Michael	San Francisco	CA	I dropped my land line and switched the number to a cell phone to stop the calls. They're still coming. Please stop them. Thank you.

Vitaliy	Sacramento	CA	I routinely get robocalls to my cell phone while at work. Because I do on-call support during off hours, I never know who might be calling me and I cannot screen calls. Robocalls use up my cell phone minutes and distract me at work. Have them send a letter that I can respond to at my leisure. No calls to cell phones.
Sidney	Napa	CA	I pay per minute how much I get charged anything over my quota is very expensive. This is ridiculous. Enough of robo-calls.
Elizabeth	Chicago	IL	This is ridiculous. No one should have to pay for these things. Additionally, someone needs to make sure that these removal requests are being monitored and adhered to.
Haldor	Peekskill	NY	Please consider the following: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Peter	San Francisco	CA	At the very least the government can insist that AT&T implement 'NOMOROBO' to give subscribers a choice.
Richard	Bristow	VA	We have a right to live free of harassing phone calls. Especially if we're not the one with the outstanding debt. I should be free of these very annoying robocalls. Please help us maintain some peace and quiet in our lives. Put strong controls and penalties in place.
Debra	Modesto	CA	I get a lot of these calls, and if I don't recognize a phone number, and it has an area code I don't know, I just don't answer it. If they don't leave a message, then it isn't important.
Joel	York Beach	ME	I have made several written to the Dept. Of Trade, they have informed me that the reports have been forwarded to you. It's about time to do something!
Donald	Vista	CA	If you want to know why people are so disillusioned with Washington, this is a perfect example. My phone is registered on the "Do not call list," and still, I receive at least 5 calls each day. Start representing the citizens and not the crony capitalism of corporate interests and their lobbyists. It's not difficult to do the right thing.
Rev. Marv	Orange	TX	I am 84 years old and bed ridden. These calls really disturb me!!!
Richard	Sequim	WA	Enough is enough !!! Robocalls are harassment !!!
deborah	nyc	NY	No robocalls
Robin	Cary	NC	Starting to get calls at 8am in the morning ..Then every 45 minutes from so many Robocalls . Not enough that I block my calls or use Robocall .. Phone still rings once .Help me as I'm losing my patience . Enough already . Not a student nor do I owe taxes ..
tim	berkeley	CA	Please do not allow more robocalls to my cell phone.
N	NYC	NY	Stop the madness.....
Ann	Inverness	CA	I object to getting robocalls on my cell phone. Please eliminate these or at least limit the number.

Jeffrey	Maple Grove	MN	I receive at least 7 or 8 calls per week from each of 2 persistent robocallers. I have no way to tell them to stop it without acquiescing to play whatever their pitch is to sell their product. Both are scams that any infant can see through and there is no way I would ever provide them with any information and so I'm forced to simply hang up. This does not count the numerous other calls where no one is on the line but as I have a landline I have to interrupt what ever I'm doing to answer it. I pay a lot for phone service and believe that that creates a special interest between me and my telephone service provider, Verizon, whereby they should be protecting me from this annoyance rather than allowing some robocaller to perpetuate it
Edward	Akron	OH	We, the public are inundated with phone calls, texts emails and various legitimate, necessary communication throughout our day and there is virtually no time when we can be unavailable to this persistent intrusion because "it might be important". As a regulator of the airways and an arbiter of usage you have the right and obligation to the public good. Please consider limiting access and providing guidance for industries that are becoming invasive with the use of technologies on the American public. Please consider mandating that Cellphone callers be identified on caller ID so that the Cell customer can decide if they wish to accept the call. Other good sense guidelines should include the following: 1) Debt collection robocallers must notify us of our right to stop receiving calls. 2) The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. 3) The guidelines adopted should be clear and readily available to all.
Ed	Pacific Palisades	CA	Although my phone numbers (both my land lines and cell) are all on the federal "Do Not Call" list, I receive at least four or five robocalls per day from "cardholder services" and others with whom I have no prior relationship and who want to sell me something I don't want. Some calls go to my answering machine (filling it with unwanted solicitations) and some just hang up. All are unfair intrusions on my and my family's time and life. Robocalls and commercial solicitations should be prohibited. The rules should be clear. There should be easy enforcement mechanisms (including the ability to mount a class action) against violators. In those cases when calls are allowed (such as from a vendor with whom one has a prior relationship), the number of live calls should be limited, to say no more than one per week. FCC: please do all you can to put an end to this daily abuse of the phone system. Thanks!
Ignacio	Mill Valley	CA	We receive an average of 3-4 robocalls daily in our home phone. And starting to get them too in our cell phones.

Robert	Pearland	TX	i didn't acquire my telephone service to be an open door through which any and all wanting to sell, service, solicit, or seek something from me through Robo Calls. I think the FCC should step in and outlaw these intrusions on my ability to use my phone as it was originally designed to do - and that was to offer communication to me on a basis determined by me and not some someone intruding on my life.
Kathleen	Woodstock	IL	Debt collectors are not an issue with me. My phone is necessary for contact with my employer, especially when I am on call to report to work. The Robocalls disrupt my sleep which due to my unusual hours may be during the daytime hours they relentlessly call from 9:00-9:00. My parents are elderly and they have calls that they hurry unnecessarily to answer. This industry needs to be controlled.
Richard	Santa Fe	NM	I have received a steadily increasing number of robocalls on both my landline and my mobile phone, frequently interrupting sleep or work. Requests to be removed from call lists don't seem to work. Please enforce do-not-call regulations.
Sharon	Minneapolis	MN	My husband and I are senior citizens and it is a total inconvenience for us to have to answer our phone every time some inconsiderate company relies on the robocall system to try to sell us something we neither need nor want. And as for bill collectors calling via robocalls for information on people we may or may not know, this is totally idiotic. Please, FCC do not allow this to happen. One of the reasons we ditched our landline was because we were getting way too many robocalls. We don't want the on our cells either.
George	Astoria	NY	If they think Americans will allow them to stay employed if they vote YEA.
Jim	Trinity	FL	Please do not allow robocalls to cell phones!
Lynn	Santa Cruz	CA	I hate them.
pat	albuquerque	NM	These calls are very disrupting and need to be stopped. PLEASE>
Becky	SLC	UT	I receive 3 or more robocalls on my cell phone every day. My number is on the do-not-call list; I reject each robo number on my phone; still 3 or more robocalls every day. The most disgusting calls are from debt collectors concerning people I don't even know. I am tired of this invasion of my privacy! I urge the FCC to enact strict guidelines that would regulate how and when debt collectors are allowed to contact someone on his/her cell phone. Debt collection robocallers must notify me of my right to stop receiving calls and allow me to do so. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends, family and strangers. No calls between 8:00PM and 9:00AM. The debt collection industry is pressuring the FCC to back down. Of course they are. But they do not have the right to harass someone or invade privacy with robocalls!

Linda	Topanga	CA	Racing to phone thinking family emergency nearly sprained limbs Sleep loss due to interruptions Had to stop one whole service
Ralph	Escondido	CA	We receive 4-8 robocalls every day. I know there is additional action for cell phones but I also would appreciate any help you can give us for home land lines. The callers are rude and call all hours of the day. I have put my number on do not call lists but without help. I verbally ask the callers to take us off their list and they agree to do it with no results. Please help us end this invasion of our privacy.
ALAN	CENTERPORT	NY	debt collection companies stop calling upon my request. I would like clear and concise guidelines without wiggle room to avoid requirements. number of calls or texts should be limited to 2-3/month unless I request to stop receiving calls sooner. calls to my phone must be related to me specifically not for friends or family
Robin	Ithaca	NY	Please do not allow debt collectors or other businesses to use my essential property "my cell phone" to harass me.
Candis	Camano Island	WA	I have a hard time understanding why this is even an issue. That you need to keep spending time on it seems a waste. Please consider doing what the greater consumer voice has requested. Make a difference, get some positive press for once and move on to more important issues. No one wants these calls not even you. Your tasks are great. Put some positive into being great. Thank you for listening "again."
Drenda	Seminole	AL	I received 4 robocalls one Sunday afternoon - 3 from same number within a hour, and receive them almost daily. I don't answer calls now unless I know who is calling. PLEASE BLOCK THESE CALLS. It costs me time, money (minutes used), and aggravation.
Colleen	San Diego	CA	I'm sick of being disturbed from these Robocalls. They call at all hours of the day and night. Put a stop to these NOW.
Alvin	Honolulu	HI	These calls are a nuisance and I don't have time to waste or take up my phone time to deal with them.
brandon	burlingame	CA	When I call back someone who has called me, I shouldn't get a message telling me that they can't connect me to someone, end of call. I should be given an opportunity to have my number immediately deleted from their calling lists.

David	Collegeville	PA	There should be rules severely limiting robo-calls to land lines and cell phones. I must get 10-15 calls per day. Debt collectors abuse their calling rights and should have specific rules to follow. If you have the same name or similar name to someone with an uncollected debt, they feel that they have the right to call you and insist on your SS# to quit calling. If you do provide them with your SS# number to stop the calls, that does not stop them from selling the debt to another collector who gets free rein to call you again. I found out that I had no legal recourse to the second and subsequent caller. The following rules are workable: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. The technology should be made available to block robo-calls completely or limit them to a single ring.
Linda	Eastham	MA	I Had to turn off my hard line so it would not ring because I got robo calls all day long. I have to keep the hard line because Comcastt/Infinity makes me keep it or they will charge me \$30 more a month. Can you believe? We are being held hostage. They are selling our phone numbers or why would they care if I keep my hard line??
Rose	Prescott Valley	AZ	I am already starting to get warranty calls and solicitations for things I'm not interested in. Probably receive 3 or 4 calls a week. I certainly have no collection debts. Glad that I have unlimited calls on my cell phone.
Loretta	Franklin	NC	These people have no right to intrude into our lives.
Gary	Fullerton	CA	Robocalls are getting out of hand. They are bad enough on my home phone but now they are just as frequent on my cell phone. I only answer calls from people I know and/or recognize. My friends know to leave a message if they are calling from a number that is not recognized and I will call them back.
John	Bethesda	MD	Please intervene to reduce, if not eliminate robo calls to all phones, landline and cell. They are invasive and wasteful. Isn't it time to level the playing field between buyers and sellers?
Michael	Shorewood	WI	Robocalls to cellphones should not be legal
Seth	Fort Collins	CO	Robocalls and solicitors are almost 100% of my land line calls. Please do not allow the same predatory, invasive and disturbing callers access to my private cell phone.
Karen	Discovery Bay	CA	I do not have any outstanding debt, and don't receive calls from debt collectors. I do however, receive unwanted, unsolicited calls. Its unfair because it uses up my phone hours.

Victoria	Roanoke	VA	Please do something about all these phone calls I'm getting all day long. They aren't just robocalls - there are humans there sometimes too (although no debt collectors, as I have no debt). I'm tired of having to drop what I'm doing and run to the phone to see who it is! I would like some peace and an end to this complete invasion of privacy and hijacking of my time.
Peter	Beaverton	OR	I receive at least one robo-call per day on my cell phone, and sometimes up to three, with fraudulent caller-ID information. I further receive two or more per day on my land line. I have attempted to opt out which only appears to have increased the number of calls. Not only should this be illegal with deterrent penalties, but it disrupts my activities at various times throughout the day. Please stop robo-calls of all kinds permanently.
Gloria	Teaneck	NJ	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family; I have no debt, and my family does not. The guidelines should be clear and readily available. Importantly, please make all robocallers stop. I get a large number on my cell phone as well. Because of my children I have to leave the cellphone on at work. This is ridiculous and horrible. Does anyone protect the law-abiding citizens instead of criminals? The answer is no. Please stop all robocalling, cell and landline.
Lynda	DeLand	FL	I do not wish to receive any robocalls of any nature. Repeated calls during the day, afternoon, night on cell phones or landlines used to harass individuals is insane. If you choose to answer there is no one talking and then when they finally identify themselves it is usually for the wrong person or some ridiculous scam for something. I completely agree that these companies should be held accountable and pay individuals who have requested it to stop and are still being harassed.
Roger	San Jose	CA	I'm tired of paying cellular air-time minute charges for useless, irritating calls from people I have nothing to do with. Please do whatever is necessary to stop them.
Kenneth	Siloam Springs	AR	The robo calls are totally out of hand. They ruin my day....Every Day! Please make them stop.
Barry	San Francisco	CA	I hate the carpet cleaning lady, the no problem with your credit card lady, the microsoft third world guy, and the energy bill guy....oh, the free cruise to the Bahamas guy. KILL 'EM ALL.
Lynn	Ft Smith	AR	We don't want robocalls on cell phones or landlines! Help us!
Arnold	Wimberley	TX	Please take action to stop all robocalls, for any reason and at any time. The only exception should be emergency calls.

Sheryl	Sacramento	CA	A private phone is supposed to be a lifeline and a way to stay connected to friends and family. I hate the feeling of anxiety I have every time the phone rings questioning whether it will be someone I care about or another annoying robocaller or solicitor.
Thomas	Las Vegas	NV	Please contact by in the fight to stop RoboCalls on all communication outlets.
Robert	Wauwatosa	WI	These calls is an invasion of my privacy.
Keith	Chicago	IL	I find robocalls to my cell phone invasive and inappropriate. Please enact policies and guidelines to have this cease immediately. My phone is a tool and should not be a tether for unwanted solicitation or attempts to connect. Thank you for your consideration of my comments.
Harold	Port Townsend	WA	We pay for cell phones and for time they are used. It is wrong for others to use both our phone and time for their use. That is what all robocalls are doing is making people pay for their ads or any other reason!
Mary	Visalia	CA	If I want a product, I'll go buy it. I don't need someone repeatedly calling me for something I DON'T want or need. STOP. ROBO CALLS. NOW!!!!??
Anthony	Middletown	DE	Please stop Robocalls (and other soliciting calls) from avoiding the intent of the Federal Do-Not-Call list for all calls. I receive multiple irritating calls per day on both my house phone and smart(cell) phone usually at meal times. Most are Robocalls with masked Caller IDs or bogus area codes. The current regulations are vague, and many calls are from debt collectors
Joseph	Sunnyvale	CA	I have trouble walking; the phone rings and I think its my doctor or loved one. It ends up being an unsolicited robocall causing me great duress.
Elizabeth	Highlands Ranch	CO	Annoying, and inappropriate. I keep my cell phone for personal calls, mostly, and it alarms me to get a call from an unknown number. A huge violation of my privacy, and a major intrusion into my daily life.
JOHN	SUN CITY	AZ	ROBOCALLS INTERRUPT OUR MEALS AND QUIET ENJOYMENT - WIFE HAS MS AND IS SOMETIMES HARD TO FIND AND GET TO PHONE QUICKLY SO WE TRY AND REDUCE INCOMING CALLS TO A MINIMUM BUT IT IS IMPOSSIBLE DUE TO ROBOCALLS. PLEASE PLEASE PLEASE ALLOW A SIMPLE WAY TO STOP THEM - " DO NOT CALL REGISTRY" DOESN'T DO NEARLY ENOUGH. ALLOWING ROBOCALLS TO CELL PHONES MUST BE TIGHTLY LIMITED AND ENFORCED.
Denise	Bainbridge Island	WA	I am so over this robocalls. It's ridiculous. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Sandy	Pebble Beach	CA	I am handicapped with mobility issues. I get a lot of calls that I need to answer from health care personnel. The Robo calls are a huge inconvenience as I try to get to the phone before a caller that I want hangs up, only to find out its a robo call . Please stop these calls
Roberta	Newton Center	MA	I was still groggy post op in the hospital, after having had a hip replacement, when my cell phone rang. My family, waiting for me to become fully alert, handed me my phone thinking it was one of my other children calling to check on me. IT WAS A ROBOCALL ! I don't remember much but my family started to laugh. as they said I " gathered my strength and in an outraged voice, " told the caller to take me off their lists. This happened around 7 pm- the time frame for those cell phone robocalls. I've signed the Government "DO NOT CALL " lists since they were implemented. Although I'd get an infrequent "robocall" on land line,
Jerry	Marietta	GA	RoboCalls are a nuisance. Landline, Internet (Voip) and Cell calls should be blockable, period. The Do-Not-Call list is a bismal failure. It does not stop them. The latest efforts by the Republican Congress to allow even more is a travesty. I really hate those guys, they don't listen to anyone but the lobbyists. I suggest that there be a database clearing house for annoyance call numbers. Maybe just a *XX code to forward that last number to the clearing house. After XXX number of forwarded calls and that number is put on a research list where fines can be imposed, and at the very least the number can be wholesale blocked.
kristen	germansville	PA	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. These calls are offensive & annoying1

Diane	Southboro	MA	To Whom It May Concern: It would be a valuable help to all of us to end robocalls to cell phones, land lines, and Internet call numbers. The disruption that these calls entail is far more than just a nuisance, but can be life threatening. When trying to receive or make a call from both cell and landline phones for medical and emergency purposes, these robocalls interrupt the call, cut the line off temporarily, and cause great difficulty in hearing a response or giving a response. Important calls get dropped. It also costs the pay per minute customers to lose valuable minutes due to unnecessary, advertisement calls to their cell phones. Another problem with these robocalls, is that when obtaining a new landline/cell phone number, debt collectors continue to call that number looking for the previous owner or person associated with the number...and NOT for just a few weeks, but for YEARS! We continue to receive calls for an unknown person who may have been associated with the phone number. We have asked to be removed from their debt call list...MANY times, with little change to the annoying calls. Please pass stricter regulations preventing these disruptions.
Gary	Saint Louis	MO	The Do Not Call List is useless. Until we have stronger protections against Robo-Calls, the consumer is at the mercy of these CONSTANT intrusions. Please force the phone companies to put an end to these interferences with our lives. I already have Anonymous Call Blocking on my AT&T service, which doesn't work; unknown calls still get through. I also have Nomorobo on my line, which seemed to work for a while, but no longer seems to. There must be some type of technology out there to stop these annoyances. I would also like you to stop Political calls and surveys if I am on the Do Not Call List.
Nicholas	Syracuse	NY	We receive very few calls during the day but MOST of them are robocalls pulling us away from work important to us.
Michael	Nipomo	CA	End those annoying calls.
Dennis	Cotopaxi	CO	Tired of robo calls!
John	Lake Forest	CA	Please do something about the robot calls. We get 10 or so a day. . Please end the damned things!
Leah	Portland	OR	Robocalls to cell phones is not only annoying to the recipient, but also to everyone who hears the ring. Also, many people answer while driving which is a safety hazard, especially as many of these robocalls incite anger in recipients. Please strongly enforce that Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - NOT FRIENDS AND FAMILY. The guidelines should be clear and readily available

William	St Augustine	FL	We get far too many Robo Calls, 6 plus per day, from organizations we have no interest in and are not applicable to us. Only organizations we do business with should be allowed to contact us. If you want to sell us something, send a brochure in the mail. Don't call us offering debt relief, when we have no debt! Identify and prosecute fraudulent operators, the IRS calls for example. Maybe we should require a licence to make Robo calls. Only allow legit calls such as appointment reminders. I would ban political calls also
Carroll	Edgerton	WI	please stop these kind of calls
Patrick	Ventura	CA	Please do everything possible to stop robo-calls. You must know from your own experience how irritating and annoying they are. Make our world a saner place, rather than one that crazily kowtows to the marketers from robo-hell. Thanks
Billy	Arlington	TX	I am retired. I get more robo call than you can shake a stick. I have asked multiple times to be removed from the calling list. No such luck. For me this is a great annoyance. Thank you for your consideration.
Philip	Phoenix	AZ	Please consider blocking all such commercial robocalls to our private cell phones!
Stuart	Los Angeles	CA	I just can't answer my own home phone anymore. Interrupting peace at home one ring at a time, despicable!
Richard	Idaho Falls	ID	Please put a stop to robo calls! If I try to return their call, I get the message that # is not accepting incoming calls! If I accept their calls to me WHY shouldn't they be required to receive a returned call?
Dean	Miami	FL	Please preent anyone from making robo calls to my private phone lines, either cell or at home. I have phones for my personal use and emergencies. It is distressing that my phones are constantly bombarded by robo calls which are senseless to me and a waste of my time as well as causing me anxiety.
William	Chattanooga	TN	I receive at least ONE call per day from some unknown Robocaller Debt Service about "Reducing Your Interest Rate". I DO NOT HAVE ANY DEBT! I have NO Mortgage. MY car is paid for! I pay my Credit Card every month without any fees!! STOP these CALLS. It wastes my time and my Space on my answering Machine. Or my artery on my cell phone. It is INTRUSIVE, UNNECESSARY AND ANNOYING!!
Fitzpatrick	Cedar Falls	IA	I get 4 or 5 robocalls a day, everyday, as early as 9:00 am and as late as 8:00 pm. They are all annoying and most of all during meals time. I have to get up and go across the room to check to see who is calling while eating my food. I hope that is happening to you and that you feel how annoying this is everyday.
Jerome	Marlboro	NJ	Please stop robocalls to my cell phone! I am constantly interrupted at work and receive calls late at night after 9pm.

Murray	San Diego	CA	Please force the telecommunications carrier to put and end to the annoying robo calls. They are unwelcome and a drain on my time and patience. Thank you.
Erica	Lacey	WA	No Robocalls to Cell Phones!
Leon	Calabasas	CA	We get robocalls every day and is very disturbing.
Michael	Canterbury	CT	Please allow the consumer to be able to block robocalls and ensure our privacy. Why not prevent robocalls? Perhaps you receive them also.
Charles	Arlington	VA	Robocalls to my land line are bad enough, but at least I can use NoMoRobo to cut down on their impact. Unfortunately, I've recently started receiving robocalls on my cell phone as well, and NoMoRobo doesn't work for my cell phone. Since my cell phone plan is a pay as you go plan, each of those calls costs me money. My reaction is to refuse to answer any cell call for which I do not know the caller personally. That is a big detriment to use of my phone. Robocalls serve no purpose other than to irritate the recipient and waste money. I'll never buy anything from a robocaller or believe anything they tell me. Please take action to stop robocalls, to land lines and to cell phones. It is well past time to end this useless irritation.
S.	Bogart	GA	The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt--not friends or family. The guidelines should be readily available. Debt collection robocallers must notify us of our right to stop receiving calls.
J. Kenneth	Encinitas	CA	Please enforce strict standards for debt collection calls to cell phones. Creditors should not be allowed to use harassment against debtors.
Terry	Malden	MA	I'm sick and tired of getting calls with nobody on the line and then a robo call comes in. THIS IS AN INVASION OF MY PRIVACY AND AN ABUSE OF MY TELEPHONE LINE AND PERSONAL TIME. I WANT IT TO STOP NOW!
Thomas	St Paul	MN	I am increasingly receiving unwanted calls from businesses I have never done business with who should not have my cell phone number. If I block one number from my phone, they change the number they call from. I find it frustrating and annoying. I urge you to require robocallers to ask my permission before playing their message and if I decline, for them to permanently stop calls to my phone.
Jim	Anaheim	CA	I get an excess of robo calls on my land line and don't need or want them coming on my cell phone. I vote for ending ALL robo calls.
Philece	Roseburg	OR	I am so sick of the repeated calls from the same sources, day after day. It's getting to where I don't want to answer my phone anymore. I feel I have the right to peace in my own home without the continuous intrusion from robocalls.
Nicholas	Parlin	NJ	These calls eat up minutes and are unwanted!

Donna	Brooklyn	NY	I receive robo calls constantly, and they have nothing to do with me as I have no debts, need for a loan, do not want a free trip to the Bahamas etc. and much else. All these calls do is disturb me and call me away from what I need to be doing.
Diane	York	PA	Please block and end the robocalls. I've had a phone call from someone claiming to be from IRS and just a few weeks ago a man with a heavy accent claimed he was from the illegal affairs dept. This morning I wake up to another robocall. I am on the donotcall registry.
Clarence	High Point	NY	I get calls from Rachel at cardmembers services about reducing my credit card rate about two times a month from different states. I have talked to them several times to ask them to take my name off their list to no avail. This has been going on for years.
Cynthia	San Antonio	TX	I OPPOSE ROBOCALLS TO CELL PHONES WITHOUT PERMISSION.
Gregory	East Freetown	MA	Come on ! We pay your salaries & we want the calls to stop. Enough is enough !
John	Arlington Hts	IL	Stop all robocalls of any nature.
Lawrence	short hills	NJ	Dear Decision Makers at the FCC, The number of robocalls we receive at our home is outrageous. Typical the occur around dinner time or other inconvenient moment. As a citizen, I expect those in government with the levers of power to protect us against this unwanted intrusion into our life. Advances in technology will only allow for greater and greater capabilities for for increased intrusion into our personal lives. Please use your authority to minimize/eliminate this intrusion.
Francisco	Richmond	CA	Vote no to Robocalls on cell phones!!
Ed	Novato	CA	Robo Calls are disturbing the peace. Please help stop them.
GIL	PAHRUMP	NV	Absolutely, no robocalls.
Thomas	Boston	MA	It should be reverse. Same for Home landlines and cell phones. They should be required to sign you up to get Robocalls. Otherwise you'll get none.
Daniel	Philadelphia	PA	Robocalls to my cell phone cost me minutes that I have to pay for. I don't want them.
Steve	Lenexa	KS	Please stop or at least control invasive robocalls. If we cannot stop them then put strict rules and/or limits on them.
Jim	Columbus	OH	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Ralph	Bethesda	MD	I get a couple of Robocalls a day. I've stopped answering my phone unless I know the caller; I figure a real person will leave a message. I should not have to treat phone calls this way.

Audrey	Reno	NV	Six in the morning and my cell phone rings and it is someone telling me they can fix my credit. There is nothing wrong with my credit I keep telling them to stop calling me but I still get the call every other day. STOP THEM PLEASE.
David	Roswell	GA	Despite using several different apps and computer programs, I am still plagued with annoying robocalls throughout the day. The FCC needs to put a stop to this practice.
Joe	Orange	CA	My landline phone has been rendered totally useless by the daily robocalls I receive from companies who use abusive calling practices. Put an end to this annoying trend!!!
Kenneth	Lansdale	PA	Because of constant robo calls and my work schedule (to bed at 2 am up at 10am) I am forced to shut down my phone between those hours. If there is a family emergency (siblings in their 80's) or an emergency reverse 911 call (live near a nuclear power plant) I can't receive them!
Key	San Jose	CA	Please put citizens' welfare above the robocall debt collection industry!
Mary	Lucas	TX	I really resent the robo calls that come into my phone(s). Please stop allowing them to happen.
French	Dobbs Ferry	NY	Please outlaw computerized calling to cellphones. I need to be available at notice, without blockages or interruptions from commercial or political sources.
John	Oak park	IL	This is one of the great aggravations of modern life, and a major reason why my household, after paying over several decades for landline telephone service, is seriously considering cancelling our home telephone.
John	Denver	CO	Please stop all robocalls. These people should not be allowed to invade my home. My phone should not be used for their marketing access unless I explicitly approve. There should not be any loopholes in the law to allow passive approvals.
mike	Lake Elsinore	CA	No more robocalls
Jim	Stockton	CA	I am against robocalls because the companies behind them can take advantage of unsuspecting people through false advertising. These advertisers are more aggressive and unregulated since they are not made public wide.
Karen	Whitesboro	NY	I strongly oppose allowing robocalls to cell phones without my permission. I already endure numerous robocalls daily to my land line from "Private" and "Unavailable." Guidelines should be readily available, for example, debt collection robocallers must notify us of our right to stop receiving calls, and the number of allowed calls or texts should be limited to no more than 3 per month, and only to those who hold federal debt, excluding friends and family. Thank you!

Helen	Oregon City	OR	So we're not screening unknown numbers and malicious texts around the clock, establish guidelines limiting robocalls. Those making these calls must notify us of our right to stop receiving them. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. Finally, the guidelines would be clear and readily available. Thank you for your attention.
Dan	Anacortes	WA	Robo calls waste a lot of time and use valuable air space. Some know how to scam the system such that they can't be blocked. They must be making money somehow and therefore are stealing from the vulnerable. It must be stopped. None of it has any socially redeeming value. Please do what you can to stop this waste of energy.
Jay	Lansdowne	PA	Please strictly limit (to, say, 3) the the number of calls or texts a debt collector can make to a cell phone per month.
Tim	San Francisco	CA	Do your job. Honor the privacy of Americans.
Richard	Astoria	NY	We are besieged by multiple daily robocalls. They ignore our being on a Do-Not-Call list, and are evidently not fined or given other punishments or disincentives. Consumers need a way to take control and stop this harassment.
Robert & Mar	Los Angeles	CA	My cell phone is for my use not theirs
Ann	houston	TX	GADS! Why do you allow this??? You have me paying to be annoyed? Are you insane?
Gerald	Amarillo	TX	I hate these calls and have never had a positive experience with them.
Dolores	Redmond	WA	I am a senior citizen who has had a lot of protocols and hangup calls. As I get older I can see that these calls are increasing, why? It is obvious that target senior citizens, because we might not be able tell they might be scams. Also it is hard for me to get up out of the chair to go and answer the phone. I can't tell you how frustrating it is to get to the phone only to find out it is a robocall. Please stop this now.
B.	Meford	OR	I don't expect much from this since you could not seem to reduce or stop robocalls to our house fone ... HOWEVER ... I can hope that you actually intend (or hope) to stop these leeches from occupying another moment of my life!!!
Dan	Anacortes	WA	Robo calls waste a lot of time and use valuable air space. Some know how to scam the system such that they can't be blocked. They must be making money somehow and therefore are stealing from the vulnerable. It must be stopped. None of it has any socially redeeming value. Please do what you can to stop this waste of energy.

Richard	Southfield	MI	Harvard University concludes the FCC is a "captured agency." That means it's corrupt. See the report: "Captured Agency: How the Federal Communications Commission [FCC] Is Dominated By the Industries It Presumably Regulates." The FCC does not effectively control landline Robocalls. You think they will be effective with cell phones? Note that telecom carriers generate revenue (maybe even commissions) from Robocalls - and I suspect the major carriers influence the FCC so that things won't change.
Myra	Norwalk	CT	They are an assault on personal privacy
Paul	east palo alto	CA	Hi, With the rise in seniors being robbed of their hard earned nest egg typically through calls on their land line, part of the responsibility to curb these atrocious crimes lies on the phone service providers. Please insist that the phone companies that do not provide a robo call blocking service to either provide this or at least support 3rd party software such as nomorerobo and others.
Kathleen	Oakland	CA	Please make the laws strong. These robocalls have ruined so many times in our family's life - meals at home, days at home sick and recovering and makes us all hesitant to answer calls from any number we do not recognize. This is a big problem when we need to be contact about legitimate issues.
John	Longview	TX	Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available
Hannah	Myrtle Beach	SC	Stop all robocalls!
Carol	Tarzana	CA	I am & have been on the DNC list for years. I am still getting deluged with robocalls, both on my landline & some on my cell phone. Who is in charge of blocking these calls, the FCC or my phone company?
s	Valley mills	TX	Protect My privacy...no robot calls.... Make guidelines & rights clear
Joseph	Birmingham	AL	As a hospice chaplain, my phone is a link to my terminally ill patients and their families. I am often drawn away from a bedside conversation with a patient or a grieving family member to answer a frivolous robocall. This is not why I pay for phone service. Robocalls detract from the care my patients and their families deserve.
Thomas	Mesa	AZ	Please implement the strongest possible rules against robocalls to cell phone as soon as possible. I receive on average 1 call a day to my cell phone. I already get way more robocalls to my land line and do not want to receive any more - especially to my cell phone. Thanks for accepting input from cell phone users.

Don	Shreveport	LA	Stop unwanted Robo calls now. In the past 18 months my wife and I have received more than 150 of these calls, and it is time for action to eliminate this nuisance.
Dixie	McAllen	TX	STOP THEM!!
Jeanne	Dudley	MA	I've HAD it!! I get three to four robocalls a day, sometimes even from MY OWN telephone number on my landline phone. Now it starting on my cell phone. I have missed several very important calls from health providers because the unfamiliar caller ID was assumed to be from robocallers. Please stop these unwelcome, unsolicited invasions of my privacy.
Jim	Cumming	GA	Not only can they be misleading and threatening now, but calling a cellphone with a call that is certain to upset the person called can be especially dangerous if the person is driving - it is bad enough to answer a call while driving, even hands-off, but then to have the call upset you creates a doubly dangerous situation. Another problem is that some of the most vulnerable individuals are on limited cellphone plans in which they pay for the calls, so they are costing the callee money. Then they can be plain annoying when the caller gets the wrong person. I have gotten calls from bill collectors before, calling for companies with whom I have never done business, and I am absolutely positive that I don't owe anyone any money. But I get the calls anyway, and getting them to stop is almost impossible.
Heidee	Plantation	FL	It's bad enough that I get 3-4 robocalls at night on my home phone....I certainly don't need them on my cell phone. as well
Susan	Pleasant Hill	CA	Years ago, I rented my spare room to a student at the local community college. Rather than give his personal cell phone number, he used my phone number. For the last 10 years, I have been harassed about the debts of a young man I have not seen or heard from in a decade. Callers keep offering me the opportunity to resolve this matter by paying for him, but he left owing me money, We are not related, and we found each other through a campus referral service. When I tell callers that I don't know where he is, they assume that I am covering for him, so they continue to call.
Steven	Silver City	NM	These people should be banned from doing this. Telecommunications is one of our public commons and should not be used for stalking or spamming or promotion. It's an abuse of our personal space and need to communicate with friends and family.
Bryon	Campbell	CA	STOP THE HARRASSMENT OF ROBOCALLS
Diane	Miami Beach	FL	Having been repeatedly harassed by debt collectors who are looking for a person I haven't seen for 16 years, I know what a nightmare this issue is. It is simple enough to fix the problem & I urge the FCC to do so. Please protect the public. Thank you!
James	Topanga	CA	Robocalls seriously diminish my quality of life.

William	Pasadena	CA	Please take action to stop a further invasion of our personal privacy.
Terry	Port Angeles	WA	I am sick to say the least about receiving robo calls at any and all times of the day or night. This takes what little time I have and distracts me along with creating frustration in my life. HOW DO THEY GET AWAY WITH IT? Please help stop it..
Sherrin	Lafayette	CA	If the call is important enough to the caller, then they can physically make the call instead of having a computer make the call.
Russ	Minneapolis	MN	These calls come at dinner time and use phone numbers from my area code suggesting it may be from some I know.
Roger	Citrus Heights	CA	PLEASE FIX IT!!!!!!
Leona	Kingwood	TX	I pay for my minutes and I resent the carriers making my number available to sales people!
Robert	Myrtle Beach	SC	If my government agencies can't or don't want to protect me and all the law abiding citizens of USA, then it is time to vote out the these officials and get rid of their appointees. We need stronger laws to protect our rights. 1) Debt collection robocallers must notify us of our right to stop receiving calls 2) The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3) The guidelines should be clear and readily available Enough of your special interest groups! Just fix the loop holes and problems!
Jim	Camarillo	CA	DO YOUR JOB. Help the people.
George	Kingwood	TX	The robocallers have already destroyed the usefulness of my land line phones; between last July and today 46% - 48% of the calls I receive are nothing but scams or pitches for products or services that I neither want nor need. (I have documentation for these numbers.) I never gave my permission for these calls. I include all political calls and charities in the scammer category. I know this is currently legal but it shouldn't be. I think that everyone should be bound by the do not call list. Today congress wants to allow these bunch of scam artists to access my cellphone? Are you kidding me!!! This maneuver will totally destroy the usefulness of my cell phone which until recently was an escape from dealing with landline phone scammers. These scam artists are already pestering me on my cell phone and the situation is only going to get worse if they are given the legal authority to access my cellphone.
Bonnie	Flowery Branch	GA	I am so tired of calls that are not from people I know. They are trying to sell 'free' alarm systems, Medicare supplements, lower interest rates on cards, vacation plans, to name a few. If you try to call the number back, it is a non working number. One time the number was 000 000 0000. How bad. Another time it said I was the caller on my own home phone. This is fraud to the interview degree.

Mikki	Greensburg	KY	Yes
Courtney	Temple	TX	There should be no Robocalls to cell phones. They are an invasion of people's privacy. They need to stop now.
Samuel	Springfield	IL	Give me a break
Peter	Austin	TX	Robocalls are ruining my family's time together. We cannot sit down to dinner without multiple robocalls. I receive them every day. This is insane in 2016. Please take action immediately to allow me to terminate robocalls. The do-not-call list is being ignored. Stop these law-breakers for once and for all. Thank you.
gary	easton	PA	numerous calls nite & day & lvg no msg. needs to be stopped!!!!
Marie	Portland	OR	Robocalls are so annoying, and it's rude. I occasionally miss important calls because I don't answer my phone if I don't recognize the number.
Francis	San Jose	CA	Robo calls and calls from invalid phone numbers are becoming a large nuisance. I can block valid numbers but can not block calls with the wrong number of digits or from other invalid numbers
Linda	Houston	TX	It was very upsetting to find that Robocalls do not have to follow the "Do Not Call" rules. I find them to be irritating. They disguise their calls with identification as private call or unavailable. When I am waiting for a call I often do not know how their number will be identified and end up answering the call.
Ira	Sarasota	FL	Robocalls are an intrusion in every which way such as privacy, cost to us in cell phone data usage, time. Advertizing should be in a medium that is a choice of the individual to make such as reading, tv or the radio to mention a few mediums but my phone is private for my use and not a public domaine.
Betty	Redwood City	CA	Please stop all robocalls. They are an intrusion and should not be allowed. I don't care who they are from, I don't have deb collectors calling. I'm getting a lot of political calls, some surveys, charity calls. I don't want any of them. I am on the do not call list which doesn't seem to help.
William	West Carrollton	OH	Every night around dinner time, 6pm, the phone rings off the hook with robocalls.
Mark	Fenton	MO	Companies continue to call and always use a different phone number,I have 163 blocked numbers on my phone and still get calls.Im on my state and federal do not call list and they continue.Please help us!!!!
Richard	San Jose	CA	My number is unlisted for a reason and these annoying calls are really intrusive
Richard	Oakland	CA	Why should we be bothered by robocalls. I signed up for do not call. But they still call me. I don't think it is right.
Nancy	Olympia	WA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Nita	Cambridge	MA	Americans are already harassed by robocalls on their land lines. I repeatedly receive scam calls claiming to be from the IRS. Although I have not fallen for this trick, many other people have lost thousands of dollars to this very scam. As for debt collectors, six or seven years ago I allowed a neighbor to make some calls from my home phone. It turned out she owed money to a cell phone provider. To this day, I still receive debt collection calls, often early in the morning or during dinner. I personally do not owe money; I have an exemplary credit score. Robocalls on cell phones would be far worse, because people often keep and use cell phones for urgent business or family communication and carry them everywhere. Constant robocalls on cell phones would undoubtedly be a nuisance, but they could also be downright dangerous, causing a person to ignore or miss essential calls. In addition, allowing robocalls on cell phones would make elders, who often keep such phones for use in emergencies, more accessible to scammers and hence more vulnerable to their tricks. Please regulate these calls and do not give in to pressure from the industry. Millions of cell phone users will thank you. Public safety and the public good should be your first priority. Thank you for listening.
Joseph	Phoenix	AZ	Please adopt the strongest possible measures against all robocalls!
tony	chicago	IL	stop robocalls
Amir	Springfield	VA	Please AND all No Robocalls to Cell Phones and landlines.
gordon	Tucson	AZ	I get call from account payer services 3-4 time a day! STOP THIS NOW
Lauire	Encino	CA	Enough already. Bad enough that calls come to landlines over and over again and nothing is done about it. No one wants to be bothered on their cell phones either. Stop the madness now!
Danilo	Bedford	NH	Mobile phones need protection from robocalls just as landlines. I receive a robocall quite often on my cell phone. It's almost worst than the home phone because I assume any call directly to my cell phone has a certain level of urgency. Please add mobile phone support to nomorobo
Randy	Naperville	IL	I get between 2-6 robocalls A DAY on my cell phone and have been for over two years. It's a constant annoyance. I have no debt. None. I own my home, I own my car, and yet, daily, my life is a barrage of scam calls about me lowering my interest rates on my debt. I literally make threats to them over the phone, as they are flat-out illegal scams calling me, and my friends in law enforcement said that if they were to report me, they would be turning themselves in as scammers. PLEASE work to get these life-interuppting calls stopped.
FRANK	Chesterfield	VA	Please stop immediately - seems like the DO NOT CALL list is useless !! and it is no good wasting time to report these calls.

Robert	Oakland	CA	The FCC deregulated radio and TV. NOW we have more commercials than 'program content!' Really smart!! It is high time FCC members demonstrate some sense AND reason!! STOP ROBO CALLS!! PLEASE!!
Robert	Oceanside	CA	I am more concerned about the "ghosting" of disconnected phone numbers by telemarketers. As soon as you say: "please put me on your 'do not call' list, they hang up. Calling the number back, of course, reveals that the number showing up on caller ID is not valid. This is how the bad guys get around the laws created against unwanted soliciting.
Robert	Flagstaff	AZ	Getting several a day on both land-line and cell phone.
Ronald	Saint James City	FL	It is bad enough when you get robocalls on your line phone, but it is worse when they attack your cell phone. Under many plans, you are charged for both outgoing and incoming calls, so you are actually paying to be aggravated by these jerks.
James	Trophy Club	TX	Even though I am on the do not call list I get more spam calls than ever before. Please put a stop to this!
Joyce	Fontana	CA	Please stop all robo calls. I pay to have phone service, what an intrusion that companies may access robotically something that I pay for and are allowed to intrude into my home. I am 70 years old and really object to getting up to see who is calling on my own phone to find out it is an unknown sales person. I do not answer my phone any longer unless I specifically know who it is. How about protecting my right of privacy in my home on equipment I own..
Bob	Middletown	NY	Stop the unending invasion of my privacy by thone wanting me to spend money on things Noone really needs
James	Wallingford	PA	Robo calls show a complete lack of of consideration and represent an intrusion on one's privacy.
Patricia	Albany Twp	ME	My cell phone is my line to friends and family and no others. I oppose all calls from third parties who do not know me and whom I do not know. Please do not allow others to push their way into my life.
Marcus	Felton	CA	Stop robocalls!
Norma	San Anselmo	CA	Please cease and block all robo calls. Thank you.
Diane	Carmel	CA	Just this morning at 0900 I got a call on my cell and didn't answer it. Fortunately I was awake. I have autoimmune diseases and need my sleep. STOP ROBO CALLS please.
Roger	Ft Lauderdale	FL	Robocalls are run by computer and are not subject to any correction. I receive 1-3 calls a day on my cell from a collection dept of a company that I had never heard of for a person that I do not know. Telling them that they have a wrong number is useless. Such absurdities must end.
Doug	Knoxville	TN	Please stop robot calls. It is very dangerous for invalid people rushing to answer the phone thinking it may be an important call.
Dolores	Nanuet	NY	Being a senior citizen I found these calls very scary.

Linda	Albuquerque	NM	A personal cell phone should be that--personal. No one should have access to a person's cell phone number without that person's permission.
Doug	Otis Orchards	WA	Make it clear - Stop All Robo calls! Our 90 year old Mom uses her cell phone for emergencies. Robo calls are a danger for her.
Brian	Cumberland	MD	FCC, I am writing to express my strong desire for you to place strong regulations to prevent abuse of robocalls to cell phones. Often I receive up to thirty (30) calls from unknown numbers with caller ID indicating everything from Maryland to Colorado to Egypt and other foreign countries. I try to block these numbers, but they are back in days with a new number to try to block. Among rules for robocalls, I would like to see implemented: 1) Debt collection robocallers must notify us of our right to stop receiving calls 2) The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3) The guidelines should be clear and readily available and strongly enforced with stiff penalties This affects my work time, drive time and home time. Even if I am just refusing a call and blocking the number, it may take up to a minute to complete all those steps. Once you start adding up thirty wasted minutes a day times the days in a year, it amounts to a lot of time! Time that I can be working, with family and time not distracted in my car by an unknown caller. Thank you for your consideration,
Mary Wendell	omaha	CO	Stop all solicitation calls to my cell!
Tracy	Truckee	CA	Dear Sirs, I would like you to consider strict guidelines to regulate how and when debt collectors are allowed to contact me on my cell phone. * Debt collection robocallers must notify me of my rights to stop receiving calls. * The number of allowed calls or texts should be limited to more than three per month and only to those who directly hold federal debt - not friends or family. * The guidelines should be clear and readily available. Thank you for your kind attention to this matter. Sincerely,
Sarah	College Station	TX	No robocalls!
Laura	Thousand Oaks	CA	I detest that I get robo calls day and night. They disturb my peace, sleep and time. If I want to buy something I will go and get it. I do not want anything they have. Please stop robo calls!
David	Louisville	KY	The robocall problem is getting worse by the month. Now if they are not successful in getting to talk to me, they redial every hours or so.
Richard	Ormond Beach	FL	Stop these calls please
Jerry	Marietta	GA	It was bad enough getting sales calls on my home phone, but it's worse getting them on my cell phone. PLEASE stop them!
Ruth	Fort Collins	CO	I continue to get illegal phone calls from credit card companies, etc. (not from my credit card). And, I get at least one call a day from non-profits. Isn't there some way we can also outlaw these?

Carolyn	Soquel	CA	I consider it an unconscionable invasion of my privacy for anyone to access my phone without my permission, either given or implied via prior contact.
MaryAnn	London	AR	this isn't right that unknown parties call your cell phone, disrupting your life, costing you money, aggravating you.
Juliette	Pittsburg	CA	Getting daily calls from companies under the guise of major utilities companies for energy conservations etc..., also for senior life plan, funeral plans etc... These same energy companies are also calling on my cell phone which I am charged for (very frustrating!) as well as my home phone number, even though I am on a do not call list, I am getting bombarded daily with them. Please do something now!!!!
Tom	Chicago	IL	This has got to stop, calls,texts ect.
Karen	Dolton	IL	Stop robocalls to cell phones as I have to pay for them calling me. This is unfair. I don't want any texts for the same reason as above. The phone is for my use not for robocallers. Thank You
Douglas	Santa Rosa	CA	PLEASE STOP. That is all. For now. Thanks!
David	Chittenango	NY	Robocalls are dangerous. How many people have been injured or killed trying to answer their cell phone while driving. We have the power to eliminate this cause. Stop ROBOCALLS.
Connie	Coronado	CA	PLEASE stop companies from robocalling! These unwanted solicitations are a nuisance at the workplace and an invasion of privacy at home. I should be able to control incoming calls to my cellphone. I certainly pay enough each month to AT&T for cell service that they should protect ME from unsolicited calls.
Christopher	Aurora	IL	We have few places left to keep away from constant spamming of marketers, salesmen, and con artists. The cell phone used to be one of the only places you could be safe. We need to ensure that these companies cannot SPAM, PHISH, or intrude upon this last bastion. *Debt collection robocallers must notify us of our right to stop receiving calls *The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family *The guidelines should be clear and readily available
Thomas	Coldwater	MI	Really getting out of hand.
William	Paso Robles	CA	I'm very unhappy with the low-life robocallers disrupting my day, interrupting important incoming calls from medical care providers regarding my aged mother's deteriorating health or laughing at me when I politely ask to be placed on their Do Not Call database. It isn't working! We need tougher laws enacted including substantial monetary fines/penalties and jail time for any offenders. The public has a right to privacy and robocalls are an invasion and violation of this right. Thank you for reading my concerns.

Sharon	San Diego	CA	FCC, I cancelled my land line phone because I could not stand all of the telemarketing calls. Now I am getting them on my cell phone, and it costs me \$\$\$ when I answer. Is there no peace from these robocallers???? Please make them stop. I need a phone to keep in contact with relatives and legitimate people trying to contact me. I do not need harrasment from telephone scams telling me the IRS is after me or trying to sell me solar panels. Please make them stop the robocalls. Thank you.
Chris	Stevensville	MT	Some days, half the calls I get on my business land lines and pretty much ALL the calls I get on my cell phone are robocalls. They are like spam -- a waste of time and very annoying. There ought to be a way to get off of these lists.
Jean	West Chester	PA	I am sick and tired of getting robo calls on my phone. It seems outrageous to me that not only do I get unsolicited and unwanted advertising calls on my cell phone, but that I have to pay for the privilege. It's just appalling.
Stephen	Nevada City	CA	Is there anyone who's not irritated by unsolicited robocalls? And the counterbalancing social/economic gain is... what? Come on, FCC, most of us are struggling to get by and take care of our families out here; please give us this extra layer of protection from unneeded, unwanted stress!
William	Cary	IL	I average 5 calls each day from various machine callers. I have now reached the point where i do not answer calls unless the call has a recognizable ID. This does result in missing calls that are important. It is an annoyance that can be blocked if the phone companies would implement. The " Do Not Call " list only works for legitimate businesses, not the spammers.
Roger	Tequesta	FL	Stop the unwanted rob calls and the solicitations to private home phones
Lin	Seattle	WA	I am a remote worker and work from home. I have a number of conference calls during the day and my home phone rings at least 5 to 6 times daily. When I have the time and can look - all the calls are robocalls and no message is every left. This is totally disruptive. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available And there must be strong enforcement. I am on the do not call list and a few times I have answered and told them to take me off of the list and they are still calling. Make the do not call list work - these calls need to stop. And I should not be getting this calls on my cell phones or on my work cell phone and I do.

Jim & Diane	Baldwsville	NY	We are tired of being interrupted daily 4 or 5 times by those annoying calls. We have tried calling various numbers to stop the calls to no avail. Please do something to help people live in peace from the constant, assinine, annoying interruptions of our daily lives! Please helps us!
Paul	Dallas	TX	Computer robocallers are not people. Machines have no right to use my phone and need to be banned from their theft of my time and phone resources.
Mark	Alexandria	VA	I object to the FCC weakening in any regard the prohibition of Debt Collectors using cell phone numbers to call individuals without express prior permission for any debt - Federal or otherwise. Even with permission, calls must be permitted only during regular business hours (9-5) and only up to 3 times per month . In addition, it must remain absolutely forbidden to contact non-debtors (relatives, acquaintances, etc). Finally - in all cases, it must be obvious and simple for debtors to halt calls from debt collectors. Simple means a single telephone call or web form to be filled out.
Thomas	Honolulu	HI	Robotic phone calls are simply an example of misuse of technology. I find them offensive and specifically avoid companies/organizations from whom I receive such calls. As for phone calls pertaining to debt, more than a few telephonic notification becomes harassment and should be strictly limited.
Cornelia	Sunnyvale	CA	Please STOP robo calls on both landline and cell phones. I have limited minutes on my cell and these calls use up limits! It's also unnerving to receive these calls when you know you don't owe anyone.
Thomas	Ringwood	NJ	Automation, like the robocall process, enables a massive amount of abuse by debit collectors to hound people over past due bills. The FCC should set reasonable limits on when and how often debit collectors can call people over bills. Reasonable limits include a restriction of one call (either land line or cell phone) or one text message per week and only made during business hours and only to the person who owns the bill, not to any of their friends or family members and only for amounts totalling more than \$200. The caller or robocall should also be required to list a federal website where the rights of the person being called are listed and a website where the person can find specific information about the bill(s) which they are being called about, e.g. date(s), company(s), location(s), URL(s) if purchased via web, interest and instructions on how to dispute and/or pay the bill.
RODGER	LINCOLN	NE	I AM TIRED OF ROBO CALLS
Rudolph	New Port Richey	FL	The increasing number of Robocalls arriving on my cell phones is annoying and disturbing. This even though my phones are listed with the Do Not call Register. Please use the clout of your office to bring an end to this abuse.

Denise	Shaker Heights	OH	A private telephone should not be an instrument of torture. Calls from "windows," alleged utility suppliers, alleged credit card customer service, and especially politicians at all hours of all days of the week and under cover of lines that cannot be re-dialed or blocked, should be illegal. Make them all so.
Antointte	Oakdale	NY	I get robo calls every week. If I don't know who's calling, I don't answer. They don't leave a message. It is bad enough that I get them weekly at home, but now on my cell phone ... please, enough, already.
Katherine	Pompton Plains	NJ	I only use my cell phone to make personal emergency calls. I do not want the number available to anyone I do not know or to be bothered by sales or other calls.
Bob	Reading	MA	Nuisance calls are a most aggravating feature of modern life--and so preventable, if only governments and telecommunications providers would take the necessary legislative, executive, and technological steps. Please free my life from robocalls.
Charles	San Antonio	TX	As an older person I am particularly annoyed by having to go answer a robocall on a foreign subject from someone with whom I have had no previous connection.
Patti	Afton	MN	Please stop robocalls get. No only do I get them on my home phone but on my cell phone as well. I am stuck paying for those minutes.
Reinhold	San Diego	CA	The debt collection robocallers must limit their calls to equal or less than 3 per month; family and friends must not be called.
Bruce	Coal Valley	IL	Stop the damned robocalls to cellphones! I'm sick and tired of the constant barrage!! My credit card bills are paid in full each month and I hold no federal debt. Please stop the robocalls now!!!
Hickor	Lawton	OK	Robocalls are maddening telling them not to call does no good. Hanging up on them only gets multi-repeat calls. Registering a number on the no call lists is useless because it isn't enforced and they use other numbers. What I would love to have is a way to overload their systems so that they are disabled. So FCC I have little confidence that the agency will take decisive action but I make a request that you do.
raymond	manahawkin	NJ	i get from 20 calls a day robo most are for lowering my credit card debit of which i dont have 312 948 7554 they use mutiple numbers 290 6229 and even numbers frm my home area code at 7am eastern time to as late as 1am every damn day i have at&t wireless service and its scary at 1am thinking child may be hurt god for bid

Gordon	Monrovia	CA	I pay Frontier for landline telephone service. Robocalls are a nuisance that negatively impact my quality of life. Telemarketers and other robocallers are afforded access to my personal telephone by Frontier. Frontier has been asked to block them but has taken no action. I urge the FCC to require a customer-enabled means for blocking robocalls be provided by Frontier like that provided by my personal computer (Spam blocking). You should know that every product/service/candidate espoused by a robocaller is a product/service/candidate that I avoid like the plague!
Leslie	NYC	NY	You already know how sick and tired I am of being interrupted several times every day with unwanted robocalls...I have to listen to the entire message to know which button to press to 'be taken off the list'...and even then they sometimes call back. I know you understand NOBODY wants this intrusion into their lives!
Mark	Huntington Beach	CA	The FCC should take immediate action to prevent robocalling. Service providers should be required to take the necessary steps to end this unwelcome intrusion into our lives. Both mobile and landline phone customers should be protected. I have a landline and the only calls I get are from telemarketers and robocallers. If the phone and cable companies want me to continue to buy this service they need to manage this problem in a more effective manner. There is little evidence this problem will go away without the FCC taking significant steps to address this.
Kris	Alachua	FL	The number of calls I am getting from companies or robos has increased and is so annoying. I even get them on my work cell phone! It is all hours of the day and night. Please make them stop. I don't want to pay for minutes because of these calls. It is an intrusion.
Charles	Amarillo	TX	I get several calls a day on my cell phone that are probablr robo calls and that is very annoying . Ithink that my cell phone should not be used as to solicit business or harrase me in any way. Thanks
John	Pine Bluff	AR	I am sick of these calls and their disruption. Please help us to stop them.
Larry	Tiki Island	TX	I receive several robocalls every day on my land line and my cell phone. It's time to stop the robocalls.
Phyllis	Millstadt	IL	Stop robo calls to cell phones

Barry	Miami	FL	Robocalls are an invasion of privacy. The calling parties do not even know who they are calling and it makes no difference what time of day it is. It is rude and lacks the Human touch. It enables a company to reach as many people as possible because it is a "RoboCall" and robots and computers have no feelings. They can be hung up on millions of times and it does not get discouraged and has no Human feelings. It should be illegal. It is the lowest form of marketing and any company using it should be ashamed. No one should ever do business with these callers. If one hangs up on them they just call back again at a different time. I am disabled and must jump up and answer my phone. It disturbs me and I can receive many of these calls in one day. Why should I answer my phone for these unsolicited calls? They are not wanted . . . just an invasion of privacy.
Jim	Bay Springs	MS	Please take action against unscrupulous lenders and robocall techniques that are both extremely annoying at best and are undeserved harassment and intimidation at worst. Please require all debt collectors to be required to notify borrower on each call of the right to stop receiving calls. Also the number of calls or texts should be limited to a maximum of 3 per month and should never be legally allowed to contact anyone but the specified borrower. And lastly these guidelines should be crystal clear and available to all callers or those hired by someone to communicate with borrowers. I think this is nothing short of the minimum that should be in place and rigorously enforced. Thank you.
stan	annapolis	MD	We get annoyed constantly by advertisers, potential business partners and others throughout the day when we are in essentially private parts of our lives. We can turn off the TV but we can't turn off the cell phone. No robo calls to cell phones under any conditions. If it that important then have a real live person call.
Saul	Chicago	IL	I am debt free and yet I still get robocalls about how to get out of debt. I receive robocalls about many other topics which are extremely annoying. They should all be eliminated.
Paul	Dallas	TX	Computer robocallers are not people. Machines have no right to use my phone and need to be banned from their theft of my time and phone resources.
blakely	newark	OH	no robocalls period because I am on a limited call plan and this type of harassment is unwarranted

Katherine	Streetsboro	OH	For years, I have received robocalls from a debt collector, even after they took me to court, and lost, because I did not owe them any money! They call from spoof numbers, and I have saved over 50 of them in my phone and put them on silent ringer, so I am not disturbed when they call again from that number. I can only answer my phone if I already have the number in my phone, for fear of having to talk to a debt-collector! I shouldn't have to do this! They call several times a day, sometimes, from different spoof numbers. They call repeatedly during the week and month. They do not ever leave a message. The number of call permitted should be limited. Also, they should not be allowed to call friends and family. And if we have the bad luck of having a phone number that once belonged to someone else who had a debt, there should be a way to stop those calls. There must be some method devised by which debt collection robocallers must notify us of our right to stop receiving calls. It must be set-up so that asking the calls to stop does not count as communication that gives them the right to re-age the alleged bill. And new rules or guidelines should be very clear and available to all. Repeatedly telephoning someone, and never leaving a message is not a productive business practice, and is really only harassment, as they know it annoys the person called. I have heard from others that re-dialing the number does not connect them to anyone! I have sent a cease and desist letter, but still am called. Please, make them stop!
Linda and Pete	North Windham	CT	There should be NO! robocalls to anywhere anytime on whatever device! They should be illegal!
Edward	Ft Pierce	FL	Robocalls are very taxing to elderly people and it is uncalled for. A mobile phone is no longer a luxury and expensive to have. Please stop the harassment of Robocalls.
Jim	Bay Springs	MS	Please take action against unscrupulous lenders and robocall techniques that are both extremely annoying at best and are undeserved harassment and intimidation at worst. Please require all debt collectors to be required to notify borrower on each call of the right to stop receiving calls. Also the number of calls or texts should be limited to a maximum of 3 per month and should never be legally allowed to contact anyone but the specified borrower. And lastly these guidelines should be crystal clear and available to all callers or those hired by someone to communicate with borrowers. I think this is nothing short of the minimum that should be in place and rigorously enforced. Thank you.
Lewis	Northfield	MN	I am strongly opposed to regulations that would allow debt collectors to make robocalls to cell phones. I encourage the FCC to develop regulations that will prohibit robocalls by debt collectors, and all other robocalls, completely.

Christine	Lafayette	LA	Calls like this are so annoying. Especially when they happen at dinner time, which seems to be when we receive the most. We don't even listen to the message. Please put a stop to these calls.
Thomas	Sunnyvale	CA	I am so tired of getting called day after day for" Joan." There is no Joan living here, never has been a Joan living her and no Joan will ever be living here. I am on the do not call list but is a joke.It has been more than 6 months that i get a call asking for Joan three or more times per week.. I have threatened the callers, cursed them unmercifully, reported the number to the Do Not Call List but these blood sucker bill collectors never stop. We have regulations but it seems that these leaches have bought off our regulators and congress. It is sad that America only rewards the wealthy who buy their protection. Citizens be embed.
Earl	Bonnors Ferry	ID	I am on the "do not call" list but I continue to receive Robocalls from businesses that ignore the existing rules. They include all sorts of businesses that appear on the surface to be scams, "free vacations to the Bahamas", you have won the lottery, etc. It appears that since these businesses are not legitimate they will continue to ignore the existing rules or laws. Blocking their calls appears to be the only way to stop them. Please order the Telephone companies to offer an effective service. Some small charge to offset their expense may be appropriate. Thank you!
Peter	Minneapolis	MN	There is no doubt that creditors have a right to contact debtors, but harassment is not good public policy. Sensible guidelines limiting calls and texts to three per month are fair.
Steve	Boulder	CO	Tired of robocalls. It seems they are only predatory and have no real value, so they should be outlawed.
Richard	Solvang	CA	Please enact and enforce protections against aggressive robocalling by debt collectors. These companies thrive on achieving their goals through harassment. Please make them begin any calls with disclosure of the facts in a clearly understandable way that we have the right to stop receiving calls. Also ensure that only those who hold federal debt themselves be targeted NOT friends and family, and even then, that the calls or texts should be limited to no more than three per month. Finally make sure that these guidelines are clearly understandable and easily available. Thank you,Â Richard Jensen
Gerald	Berkeley Heights	NJ	We pay a lot of money every month for telephone service for us, not for telephone users trying to reach us to sell product and services. It ends up being a giant waste of my time and my wife's time. I will never favorably respond to any telephone solicitation ever, ever, ever. Please give me the tools to shut down telephone solicitations to my phone and cell phone.
Linda and Pete	North Windham	CT	There should be NO! robocalls to anywhere anytime on whatever device!

Linda	Detroit Lakes	MN	<p>Dear FCC, Please find a way to stop robocalls to cells phones and to our land line home phone. We want our phones to be used by friends and family, for services to our house and for emergency use only. There has to be strict guidelines put in place or laws to govern any use of automatic computer calls. I've never had debt collector phone calls but I'm sure that some of those phone calls border on harassment. I don't want to hear from every political candidate or even every charity. I don't want to hear about an "amazing offer", "a free trip to the Bahamas" or worse yet the scammers who want to steal money or identity by lies and thievery: "This is your final notice from the IRS". Senior citizens seem to be especially targeted. Please stop ALL robocalls or automatic computer phone calls. I want our phones used for our communication not for sales pitches. Furthermore, we pay for our own cell phone usage and land line phone so we should be able to determine if we accept robocalls or not.</p>
Lynne	Bronxville	NY	Please block all robocalls to cell phones!
Katherine	Streetsboro	OH	<p>For years, I have received robocalls from a debt collector, even after they took me to court, and lost, because I did not owe them any money! They call from spoof numbers, and I have saved over 50 of them in my phone and put them on silent ringer, so I am not disturbed when they call again from that number. I can only answer my phone if I already have the number in my phone, for fear of having to talk to a debt-collector! I shouldn't have to do this! They call several times a day, sometimes, from different spoof numbers. They call repeatedly during the week and month. They do not ever leave a message. The number of call permitted should be limited. Also, they should not be allowed to call friends and family. And if we have the bad luck of having a phone number that once belonged to someone else who had a debt, there should be a way to stop those calls. There must be some method devised by which debt collection robocallers must notify us of our right to stop receiving calls. It must be set-up so that asking the calls to stop does not count as communication that gives them the right to re-age the alleged bill. And new rules or guidelines should be very clear and available to all. Repeatedly telephoning someone, and never leaving a message is not a productive business practice, and is really only harassment, as they know it annoys the person called. I have heard from others that re-dialing the number does not connect them to anyone! I have sent a cease and desist letter, but still am called. Please, make them stop!</p>

Jim	Bau Springs	MS	Please take action against unscrupulous lenders and robocall techniques that are both extremely annoying at best and are undeserved harassment and intimidation at worst. Please require all debt collectors to be required to notify borrower on each call of the right to stop receiving calls. Also the number of calls or texts should be limited to a maximum of 3 per month and should never be legally allowed to contact anyone but the specified borrower. And lastly these guidelines should be crystal clear and available to all callers or those hired by someone to communicate with borrowers. I think this is nothing short of the minimum that should be in place and rigorously enforced. Thank you.
Richard	Whitmore Lake	MI	Robocalls are so pervasive to our home phone that we no longer answer it. Calls go to the answering machine and those that are not telemarketers leave a message. We get very few messages. So, we've lost our ability to talk to communicate on our home line unless we make the call. In fact, we are soon going to drop that line altogether and rely on our cellphone. If robocalls are allowed on cell phones that would be a real intrusion on our privacy. We'd be paying for these calls- calls we do not want. We don't have junk filters on our cellphones like we do on our email accounts so it would be hard to screen these calls and it would make our cellphones less useful.
diana	fayetteville	NC	We are sick and tired of receiving these calls especially when they come thru as restricted,unavailable and with a block of 000-000-0000. This is bull and your do not call list is worthless. Please do the job you were elected to do!! We've had enough
Kathleen	Roswell	GA	We are in our 80s, and seem to get 3-5 calls per day from computers or people we have no interest in talking to. PLEASE do all you can to bring this to an end!!!!
Brian	Arlington	TX	Please give us a way to block robo-calls.
stan	annapolis	MD	We get annoyed constantly by advertisers, potential business partners and others throughout the day when we are in essentially private parts of our lives. We can turn off the TV but we can't turn off the cell phone. No robo calls to cell phones under any conditions. If it that important then have a real live person call.
Mayme	Sand Springs	OK	It is a pain in the butt to have to answer unknown and unsolicited calls.
Dean	Boulder	CO	I oppose calls to my cell phone by Robo callers of all types! Reasons for no Robo calls to Cell Phones: 1) Invasion of privacy 2) Consumes resources that might interfere with emergencies 3) Totally annoying 4) Costs some consumers, depending on payment plan 5) Takes time to screen unwanted calls

Douglas	Santa Fe	NM	I would like to urge you to stop robo calls to cell phones. I would urge you to set strict guidelines to how predatory lenders and other companies that rely on robo calls as a way of marketing shady services or products (that is all rob call marketers) should be blocked from calling cell phones. At a very minimum all robo callers should have to notify the people receiving the calls of their right to stop receiving these calls and all guidelines should be clear and very easily available.
Steven	West Hartford	CT	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Kay	Bedford Hills	NY	Robo calls are annoying, time consuming and expensive. These calls are unwanted and come at the most inconvenient times. Please stop them!
Karen	Portland	OR	Please prohibit robocalls unless a person clearly affirmatively opts in to receive them. Thank you!
Mary Ellen	Orange	CT	We should not be harassed by debt collectors, especially if it is for someone other than myself. My ex husband is notorious for not paying his bills, and even after being divorced for 12 years, I still get harassed by debt collectors for his debts that I have had nothing to do with. I feel debt collection robocallers must notify us of our right to stop receiving calls and the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. PLEASE STOP THIS PRACTICE!
David	Surprise	AZ	Stop robo calls PLEASE
Martha	Centennial	CO	I get about 5 Robo calls a day! I can't stand this invasion of my home. I do not like what they are about on any level.....
William	The Villages	FL	Please take action to block all robocalls. We receive three or four such calls every day. They cause us to interrupt our activities to answer the phone. This is highly annoying!!
CARL	albany	OR	Please end all robocalls.
Donna	Yuba City	CA	I am sick and tired of receiving unsolicited sales calls - particularly Robocalls. Please end this! Currently there is one company that calls several times a week and "unsubscribing" does not have any effect.
Beverly	Greensboro	GA	A terrible invasion of privacy and extremely annoying.
Patricia	Chicago	IL	There should be no robocalls allowed. Period.
James	Bandera	TX	I am sick to death of receiving robocalls ! While I am not in a position to be getting calls from debt collectors, I DO get WAY too many calls purporting to offer me 'free' multi-day cruises and other supposedly desirable 'prizes.' PLEASE make telemarketers go away permanently, they are a parasite on our telecommunications.

Paul	Lewisburg	PA	I am in my late 70's and receive at least two robocalls per DAY. By the time I get to my phone they have hung up and, usually, my message/voice mail kicks in and then I must play back the message. They have no consideration of age, disability, or time of day and, most importantly, if the person is available to answer the phone. They are SO, SO inconsiderate.
Thomas	Sunnyvale	CA	I am so tired of getting called day after day for" Joan." There is no Joan living here, never has been a Joan living her and no Joan will ever be living here. I am on the do not call list but is a joke.It has been more than 6 months that i get a call asking for Joan three or more times per week.. I have threatened the callers, cursed them unmercifully, reported the number to the Do Not Call List but these blood sucker bill collectors never stop. We have regulations but it seems that these leaches have bought off our regulators and congress. It is sad that America only rewards the wealthy who buy their protection. Citizens be embed.
Dick	Roswell	GA	We are in our 80s, and seem to get 3-5 calls per day from computers or people we have no interest in talking to. PLEASE do all you can to bring this to an end!!!!
Austin	Malibu	CA	Can't government do anything right? I get five of these calls a day and have over 500#s blocked on my phone.
Fred	Phoenix	AZ	Block Robocallers on All Phones
Burton	La Jolla	CA	Please stop robo calls.
Kirk	Puyallup	WA	I strongly object to the practice of using robocalls to call cell phones. If a cell phone is the only method of reaching someone by phone, then an actual live person should make the call if the call is legally necessary. Debt collection agencies must notify us of our right to stop receiving calls. The guidelines should be clear and enforceable, with severe penalties for ignoring the guidelines. The offended parties who are called in circumvention to these rules should be reimbursed for their distress to the tune of \$1,000 for the first call and the amount doubling each time (\$1,000 to \$2,000 to \$4,000 to \$8,000 and so on, all reimbursements to be cumulative) {\$1,000+\$2,000+\$4,000+\$8,000 etc.).
Larry	Garden Grove	CA	Its bad enough the FCC doesn't appear to have much control over the Verizon's and such to force them into blocking robo calls on landlines, now the invasion on cell phones. Its just plain annoying and rude.
Jenifer	Santa Clara	CA	Robocalls are costly, not to mention an annoyance. And in this age of phone and online scams, this is not the best way to get or give information about owed debt anyway. There needs to be a moratorium on robocalls, especially from shady companies; and legitimate businesses need to rediscover proper customer service and communication!
steven	wisc. dells	WI	please stop these stupid calls and do your job right

Ronald	Thatcher	AZ	Please stop all robocalls. I pay for phone service, but not to be pestered year round by all this trash. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Douglas	Rancho Palos Ve	CA	Robocalls have become a major nuisance even though I am on both "Do not Call" lists. I will soon have more blocked number than contacts. It is a gross intrusion on my privacy to accept this garbage because i do not want to miss a legitimate call.
Dale	Redmond	WA	Continuous calls, midday, dinner time and into the late TV time are definitely unwanted. To have to answer a phone, say HELLO and never anyone there for a time and then a recorded message....PLEASE OUTLAW this huge nuisance. Thank you!!!!
John	Issaquah	WA	It's time for the FCC to put an end to robocalls of all sorts, especially those received on cell phones. They are an invasion of privacy at the very least and an gross pain in the a..! Do your jobs. Put an end to robocalls!!!
Charles	Tehachapi	CA	Stop these calls. They have no useful function in our society or economy. They are theft, of our time and money.
Steve	Encinitas	CA	The title says it all: crack down on robocalls once and for all.
Karen	Reading	MA	I am tired of robocalls disturbing me at work. My phone is for my personal use and not theirs. I pay for service for my convenience, not theirs. I don't need them using up my minutes for unsolicited calls.
DANNA	CHILDRESS	TX	For the elderly climbing out of a chair only to get to the phone to receive anonymous robo call is cruel and unusually punishment please stop robo calls.
Teresa	LaVale	MD	Please take whatever measures you can to STOP robocalls to my cell phone! This is an invasion to my privacy that is outrageous! Thank you!
Charles	New York	NY	As a physician who receives calls regarding patient consultations from physicians around the country, I need to answer my phone, even if the number is from out of town and unknown. I am frequently in an operation or seeing patients in the office when the absurd and repetitive calls come in. This breaks my concentration, interrupts surgical procedures, and increasingly irritates me. In addition, I travel internationally, and these calls come in while I am sleeping overseas, awakening me and my wife. Given they are illegal, and given the technology exists to stop them, I think the cell phone companies should at the least block them, and at best, should be held financially liable for the fines for allowing them to come through.

Richard	Newville	PA	We are bombarded daily by the same robocall numbers. Surely our representative government can do something to eliminate this nuisance that is harassing the folks who are theoretically represented..
jance	santa cruz	CA	Robo calls must stop
Charles	Naples	FL	Please take action to stop robocalls to cell phones. I prefer that they be stopped entirely but at a minimum the number of allowed calls or texts should be limited to a maximum of 3 per month and only to people who directly hold Federal debt - not to friends/family of debt holders. In addition, the caller should be clearly identified.
jance	santa cruz	CA	Robo calls must stop
Harriet	Ringwood	NJ	These are an invasion of PRIVACY!!! Even with years and multiple times of adding landline and cell phone numbers to DO NOT CALL, nothing has changed. Being handicap, as well as dealing with an elderly mother, mother in-law, and aunt, it's extremely frustrating and exhausting, dealing with this issue. STOP THEM IMMEDIATELY!!!
William	Blue Ridge Summ	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
James	Fort Myers	FL	The robo calls to cell phones (any phone for that matter) are annoying and waste valuable cellular band width. Please stop them.
Stavros	Cary	NC	Robocalls force me to not answer any phone calls... and makes my phone useless... and cause problems in jeopardizing the proper attention that is needed in case of emergency calls. Instead of a phone I use email, or phone messaging for my communication... because I have means of filtering the messages that I receive. The robocalls basically are forcing the telephones to become useless and obsolete.
Christina	Katy	TX	My husband has had 10 surgeries and 3 job layoffs in the past 6 years. We have had to pay high fees to change our phone numbers to maintain our sanity from being harassed all day and night. There is no peace early in the morning, throughout the day, late at night, and the same on weekends. We can't continue to pay for a new phone number and update it with our children's school, along with everywhere else from the doctor's office, pharmacy, college, and family. Resorting to the silence setting on the phone doesn't work either because important calls from the kid's school, doctor, or an emergency are missed. We can't afford an attorney to make it all stop.

Barbara	Flat Rock	NC	It's enough that even though I have continually put myself on the National Do Not Call list for my home phone, every day I get a minimum of five to seven robocalls which, of course I do not answer, but nonetheless have to check the caller ID which is mostly "unidentified." I have absolutely no debts and owe no one money, but I can't bear to think that potential scammers disguised as debt collectors can have access to my cell phone as well. PLEASE, PLEASE do not allow deb collectors to contact anyone on their cell phones.
Diane	Windsor	SC	Please stop calls to cellular and all phones. There is nothing more annoying than to have to stop what I am doing to find that it is a robocall that I don't want. In addition, my call plan has a number of minutes associated with it that I do not want to have used by these annoying calls.
Wilhelm	Dunwoody	GA	I receive telemarketing calls on my cell phone almost daily. Asking the caller not to call again rarely works.
GLEN	Uncasville	CT	Please stop the insanity! These pests should not be allowed to use the consumers own name as the Caller ID, nor should they be able to use town/city names with states, or to use Local Call when it's not, and all the other phony & irritating acronyms. They also indiscriminately call with no consideration to what shift a person works or whether it is an inconvenient time for any reason. It should not matter from whom they purchased your phone number, i.e. a company with whom we legitimately do business - stop the sale of our privacy! GR\$SD is suffocating the American working class!!
Tom	Alamo	TX	Debt collectors must be put on strict restrictions to prevent abusing privilege of telephone calls. Require them to notify debtors of their right to stop receiving calls at all! Require them to call ONLY the debtor, not their friends/families/neighbors, and limit to 3 calls/month! Rules must be stated clearly and provided immediately
alwen	palos verdes esta	CA	we do not need these calls,invasion of privacy
Michele	Edgewater	FL	Stop the madness!
William	Lafayette	LA	Robocallers are multiplying like roaches and rats, for every imaginable purpose or pretext. We are all in need of protection!
John	Houston	TX	My phone rings every day at least once and frequently several times with a Robo Call. They prey on Seniors particularly on the assumption that Seniors are more susceptible to their pitch. I have listened to some calls and requested removal from their call list to no avail as the same Robo call just calls again. Caller ID is useless as they ignore the do not call list and they fake the caller display. This is a theft of my time and my phone service with unwanted calls. Please require phone companies to enforce prohibition on all Robo Calls.

Alice	Poughkeepsie	NY	I get at least one a day of these calls every day. Sometimes as many as 4. . I check the caller ID and if I don't know the number, I don't answer, but why should I have to put up with all these unwanted calls? They are invading my territory. I really hate them. "Do not call" list is a joke.
larry	Greenwood Villa	CO	Robocalls destroy US economic competitiveness. Robo calls forced hundreds of millions to change numbers, then terminate their land line and flee to cell phones. We have no where else to run. If you can't 100% end robo calls, put the strictest limits on them, the strictest bonding and registration for use and massive fines for violations. Force all cell companies to provide easy REAL TIME FCC VIOLATIONS REPORTING so local police can raid the source of mass violations in real time, when the calls are being made.
Jay	Moundsville	WV	Do not give in to these companies to call and text msg.This should be a black and white issue. No gray area.every person deserves there own privacy.especially those not directly connected to the person who carries the debt.These companies will go around any laws passed down and take advantage of any loopholes period.
Frank	Hayward	CA	I pay for every minute on my cell phone, and don't want to receive robocalls for any reason.
Edwin	Menlo Park	CA	Please stop or at least limit robocalls on both cells and land lines. 90% of my home land line calls are from nobody--and there are a lot of them. They drive us crazy.
Leeee	Broken Arrow	OK	Please put an end to Robo calls. I pay for the phone service and wish not to have these calls made to my Cell and land line. They are so annoying and a waste of time We don't even listened to their Bull and hang up as soon as we can. Makes me want to cancel phone service because of their calls.

George	Springfield	VA	I'm tired of companies robo calling my Work cell phone. I have a company cell phone that is only for work but yet I get daily calls from companies and organization that have nothing to do with the business I'm in robo calling my work cell phone. These robocall companies have no idea that this is a work phone nor what our company does. I don't feel like a free person if my phone is being held hostage to these predatory robo call companies. Now I know the FCC is being pressured by the companies, organizations, industry, and lenders who profit from robocalls... but the FCC needs to think of the victims of these predatory shady practices such as robocalls! ROBOCALLS are not wanted by normal people... and we should be protected from them. With that said, if the FCC is not going to stop robocalls altogether than they should limit how these calls are made and put in place the following bullet points into the law: * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available
Annette M	Vineland	NJ	Stop all robocalls on cell and land lines. THIS Is HARASSMENT and the Do Not Call system is a joke.
Richard	Weaverville	NC	No more robocalls!
John	Woodinville	WA	After years of having to deal with this sh!t during dinner or whatever, now I get interrupted at work, sometimes during critical meetings or customer engagement, because of some assclown who wants to sell me something. It has to stop (while I'm at it...why is junk mail still legal?).
Dominic	Napa	CA	Please stop intrusive and invasive morning to night repeated Robo calls. Most are marketing at it's worse. Many are scams. Some are even illegal accusatory calls from unknown sources. As a senior citizen this borders on elder abuse for me and my wife.
Ivan	Erie	CO	Robocalls have become a quality of life factor. There are way too many & I should only be contacted by those I contact first - without any affiliate of that company or organizations allowed to phone me. All robocalls should be banned.
Sunny	Marietta	GA	I truly despise Robo call's coming into my phone which I pay for. This infringes upon my time and I want to start ASAP. Thank you!
Barry	Lakewood	NJ	TO many calls with no return numbers - or the numbers left or not returnable, or auto matic hang ups.
Elsie	Peoria	IL	We get at least 3 robocalls a day. It is so infuriating to be bothered because it most likely is a scammer. I recently got a call that went to my answering machine. It was a threatening call from a "David Grace". He said something about the US Treasury and a federal criminal offense. The call back number is 1-626-739-3024. This call went out to several people that posted it on Facebook; same call back number, different name, same threat.

Michele	Edgewater	FL	Stop the madness!
Ellis	Coldwater	MI	One should have an option to declare their telephone numbers as "Unlisted." It should be illegal to make sales calls and robocalls to such "Unlisted" phone numbers
Dominic	Napa	CA	Please stop intrusive and invasive morning to night repeated Robo calls. Most are marketing at it's worse. Many are scams. Some are even illegal accusatory calls from unknown sources. As a senior citizen this borders on elder abuse for me and my wife.
Joseph	San Marcos	CA	I tired of answering robocalls on my cell phone. I no longer answer my house phone because of it. I should not have to pay for robocalls I receive on my cell phone. Please pass a bill to stop this!
Alvin	Broderick	CA	Stop these calls!!
George	Springfield	VA	I'm tired of companies robo calling my Work cell phone. I have a company cell phone that is only for work but yet I get daily calls from companies and organization that have nothing to do with the business I'm in robo calling my work cell phone. These robocall companies have no idea that this is a work phone nor what our company does. I don't feel like a free person if my phone is being held hostage to these predatory robo call companies. Now I know the FCC is being pressured by the companies, organizations, industry, and lenders who profit from robocalls... but the FCC needs to think of the victims of these predatory shady practices such as robocalls! ROBOCALLS are not wanted by normal people... and we should be protected from them. With that said, if the FCC is not going to stop robocalls altogether than they should limit how these calls are made and put in place the following bullet points into the law: * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available
Gladys	Oklahoma City	OK	I am sick & tired of space being wasted on answering machine, interrupted calls and inteference of privacy by all the Robocalls.
Patricia	Albany Twp	ME	My cell phone is my line to friends and family and no others. I oppose all calls from third parties who do not know me and whom I do not know. Please do not allow others to push their way into my life.
Montie	Lawton	OK	I and my family have had it with robocallers interrupting our family life. They call at any time of the day or night placing unnecessary strain on our family privacy. I have no idea how to ban robocallers but in this age of technology there has got to be a way to identify who the robocallers are. I would strongly support any action that would ban their access to our family privacy including imposing imprisonment on the company heads and any individuals who participate in this invasion of privacy business.

Joan	West Hartford	CT	Despite the fact I am on the Do Not Call list - I am still getting these irritating calls....interrupting my work, eating, relaxing and sleep.... Please Do what you have to do to end this abuse!!
Mark	Berkeley	CA	Please stop the invasion of robocalls. They're making people crazy and adding to our stress level.
Brynne	Nashville	TN	I receive at least 6 robo calls per day between my house line and cell phone. It's extremely disruptive when calls come through at work besides being totally annoying. I can't imagine this type of marketing is successful at all, so why do they keep trying? They are very deceptive in the delivery as well. When you say "hello" the robot on the other end actually sounds like a live person at first, and makes you think you are speaking to a human. Its not for a few seconds you realize you are having a conversation with a bot. The "Do Not Call" lists do not work at all. I am so tired of being bothered by these jerks and would never ever buy what they are selling based on principle alone.
Dominic	Napa	CA	Please stop intrusive and invasive morning to night repeated Robo calls. Most are marketing at it's worse. Many are scams. Some are even illegal accusatory calls from unknown sources. As a senior citizen this borders on elder abuse for me and my wife.
Alvin	Broderick	CA	Stop these calls.
Ellis	Coldwater	MI	One should have an option to declare their telephone numbers as "Unlisted." It should be illegal to make sales calls and robocalls to such "Unlisted" phone numbers
Elsie	Peoria	IL	We get at least 3 robocalls a day. It is so infuriating to be bothered because it most likely is a scammer. I recently got a call that went to my answering machine. It was a threatening call from a "David Grace". He said something about the US Treasury and a federal criminal offense. The call back number is 1-626-739-3024. This call went out to several people that posted it on Facebook; same call back number, different name, same threat.
Patricia	Surprise	AZ	It seems once a robocaller gets your phone number it is then sold to multiple others to use. I have filed many complaints to no avail. Sometimes we'll get five or six in a day and our average is fiur; to both our cell phones and to our home phone. It has to stop. We are seniors and don't need the aggravation getting telephone calls about merchandise and services that we don't need.

George	Springfield	VA	I'm tired of companies robo calling my Work cell phone. I have a company cell phone that is only for work but yet I get daily calls from companies and organization that have nothing to do with the business I'm in robo calling my work cell phone. These robocall companies have no idea that this is a work phone nor what our company does. I don't feel like a free person if my phone is being held hostage to these predatory robo call companies. Now I know the FCC is being pressured by the companies, organizations, industry, and lenders who profit from robocalls... but the FCC needs to think of the victims of these predatory shady practices such as robocalls! ROBOCALLS are not wanted by normal people... and we should be protected from them. With that said, if the FCC is not going to stop robocalls altogether than they should limit how these calls are made and put in place the following bullet points into the law: * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available
Ralph	Charlotte	NC	There are so many robo calls that they are tying up my land line, even if I do not answer. Now, they have started on my cell phone.
Gladys	Oklahoma City	OK	I am sick & tired of space being wasted on answering machine, interrupted calls and inteference of privacy by all the Robocalls.
Deborah	Oakland Pk	FL	This should be a no brainer...
craig	garland	TX	I do not want robo calls to my cell phone.
Murray	Hilton Head Island	SC	I am fearful to turn on my cell phone in the morning, because I will have at least 6 robo calls urging me to lower my interest rate or some other unwanted and unneeded credit scam.
Sue	Bishop	CA	I receive about 5 robo calls a day. I work out of my home office and this is a real invasion of privacy and a distraction from work. Please protect our privacy!
JAMES	HUDSON	FL	constantly receiving unwanted calls its very annoying and unnessacery
Stephen	Greensboro	NC	Stop the robocalls!
Selena	Somerville	MA	Debt collection robocallers must notify people of their right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Harry	Casper	WY	I live on a fixed income, and while I do not get debt collection calls I do get many more from other sources. Those calls burn up precious minutes that I can ill afford, and have even cost me overage. Even though I am registered on the " do not call" list I am still called. So much for the phony list enforcement.

Melvin	Phoenix	AZ	I receive daily several RoboCalls, some I attempt to block, but they keep calling back. Some even change numbers to get by the block set up to stop all RoboCalls. I am tired of the calls and the interruptions they create. No more, we need to stop RoboCalls effective immediately.
George	Springfield	VA	I'm tired of companies robo calling my Work cell phone. I have a company cell phone that is only for work but yet I get daily calls from companies and organization that have nothing to do with the business I'm in robo calling my work cell phone. These robocall companies have no idea that this is a work phone nor what our company does. I don't feel like a free person if my phone is being held hostage to these predatory robo call companies. Now I know the FCC is being pressured by the companies, organizations, industry, and lenders who profit from robocalls... but the FCC needs to think of the victims of these predatory shady practices such as robocalls! ROBOCALLS are not wanted by normal people... and we should be protected from them. With that said, if the FCC is not going to stop robocalls altogether than they should limit how these calls are made and put in place the following bullet points into the law: * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available
Gary	San Francisco	CA	This industry (Robo Calls) has gone. Far beyond debt collection, i.e. Timeshare sales, charitable giving , computer software repair services ,and many others. I have personally received calls for person I have never heard of. The Robo Calls are irritating and disrespectful, and abusive and should be STOPPED . The National Do Not call system doesn't work.
Amy	Ny	NY	Tired of dealing with the invasive robocalls tp my cell.
Christina	Katy	TX	My husband has had 10 surgeries and 3 job layoffs in the past 6 years. We have had to pay high fees to change our phone numbers to maintain our sanity from being harassed all day and night. There is no peace early in the morning, throughout the day, late at night, and the same on weekends. We can't continue to pay for a new phone number and update it with our children's school, along with everywhere else from the doctor's office, pharmacy, college, and family. Resorting to the silence setting on the phone doesn't work either because important calls from the kid's school, doctor, or an emergency are missed.
Cynthia	Glen mills	PA	MOST calls to my cell are now from robo calls- not from my kids or family. I got a cell phone for them to reach me. This is a repetitive and unwanted harrassment

B	Reno	NV	THERE SHOULD NOT BE ANY DEBT ROBOCALLS TO CELLPHONES! WE SHOULD BE NOTIFIED OF THE RIGHT TO STOP RECEIVING CALLS. I DON'T FEEL THERE SHOULD BE ANY, UNLESS THE DEBT COLLECTOR DOES NOT HAVE A LAND LINE NUMBER. THE GUIDELINES SHOULD BE CLEAR & READILY AVAILABLE.
Linda	Findlay	OH	PLEASE stop robocalls to my cell phone!! They even use an area code and 3 digit exchange that looks like a cell number! I don't pay for cell service to get unwanted calls!!!
Michelle	Syracuse	NY	No one should have access to my phone, cell or land line, without my permission!
Kevin	Alexandria	VA	FCC please stop any and all robocalls to cell phones. Cell phone use should be only by the direction of the phone owner who is responsible for the cost of the airtime on the phone. No debt collector or any other commercial caller should be allowed to call and should be strictly prohibited. Unless the phone owner explicitly gives them the privilege to call, they should be prohibited, and that permission by the owner should be revocable at anytime. Debt collectors can certainly use the USPS and certified mail to notify debtors. Harassing calls should not be allowed. This also applies to data communications including e-mail, text for which the phone owner must pay for usage as well.
Ann	Port Ludlow	WA	I hate getting robot calls. It is bad enough to get them on our home phone. The do not call list does not seem to be working well. But, on my cell phone is a particularly obnoxious intrusion. For those not on unlimited minutes it is even an expense incurred. All robo calls should be stopped.
Gladys	Oklahoma City	OK	I am sick & tired of space being wasted on answering machine, interrupted calls and interruptions in my privacy by all the Robocalls.
B	Reno	NV	THERE SHOULD NOT BE ANY DEBT ROBOCALLS TO CELLPHONES! WE SHOULD BE NOTIFIED OF THE RIGHT TO STOP RECEIVING CALLS. I DON'T FEEL THERE SHOULD BE ANY, UNLESS THE DEBT COLLECTOR DOES NOT HAVE A LAND LINE NUMBER. THE GUIDELINES SHOULD BE CLEAR & READILY AVAILABLE.
kathleen	Duluth	MN	Stop unsolicited calls to cell phones.
william	oakland	CA	See Germany's restrictions
Richard	Palm Bay	FL	Consumers pay for mobile service, as everyone knows. Unscrupulous robocallers should be constrained from using our need to stay connected for their own profit.
Elizabeth	Livonia	MI	My cell phone number is only given out as an emergency contact. I pay by-the-minute, by choice, and I don't need MY minutes being eaten up by someone else's "commercial". I don't need the fact of it ringing without really being for me to disrupt my day. A couple of years ago, when it was ringing all the time due to the school shenanigans of my hyperactive son, my blood pressure spiked EVERY single time the dang thing rang.

Michael	Albuquerque	NM	It is monumentally annoying and abusive when you receive robocalls. It is getting stuck in the endless loop of voicemail trees without having initiated the call! This must not be allowed. I urge the FCC to enact the strongest possible limitations on robocalls. In accordance with other federal law (the FDCPA) only the actual holder of federal debt should be permitted to call. Additionally, the holder should be limited to calling the debtor and prevented from calling family or friends. All guidelines should be clear and easily available to all.
James	Cypress	TX	I have the right to remain silent. I have the right to not have my privacy invaded by unsolicited and unwanted robocalls. Please stop the robocalls.
Melissa	Setauket	NY	9 out of 10 calls I receive are JUNK! Yes, I have been on the Do Not Call list since its inception. I get junk calls on my cell and my VOIP number and I'm sick of it. My father almost gave private information to a junk call. Had my mom not been listening, he would have given his credit card and SSN number to this person.
Rose	Medford	NJ	I am incensed that recently the number of robocalls to my cell phone has increased. In no way do I think that I should be inconvenienced with these unwanted calls. Even if I answer a call, there is no one on the line that I can ask to remove my number from their list. By the way, I do not have outstanding debt so I am assuming these robocalls are most likely scams. Please do not allow these invasive robocalls.
Louis	Aliquippa	PA	I have had the same phone number for 12 years. I get phone calls on a 2 or 3 times a monthly basis for someone who either had my number previously or used it for the purpose of fraud. I constantly tell the individuals calling that I have no idea who that person is and that I've had the number for over a decade and get my number off their call list. The next month the calls start again.
Charles	Richmond	MI	Please stop the robocalls to our cell phones.
Anne	Fairfax	VA	Robocalls are intrusive, all the more so when made to cell phones.
John	Fairlee	VT	Do not allow robocalls on cellphones
Flavio	San Jose	CA	Every day ...multiple call a lot w/o even an answer ...impossible nowadays to have a land line !!!!
James	Arlington	WA	If only cell phone minutes were without cost, however, they are not. Folks like me with a cell phone has to pay handsomely for each minute of usage. And, if we are over our planned minutes of usage we get to pay even more. Now envision that you are over your limit and you get an unsolicited advertising call for you have to pay a premium. Would this make you unhappy perhaps even angry? You betcha! It's simply wrong to be forced to pay for advertising that you never wanted.

Mary	Willaimstown	MA	I pay too much money to have robocalls to my home phone and now to my cell phone. I pay for this phone service and robo-callers are not doing business with me. The FCC has to authority to stop this. DO SO NOW!! Thanks,
SUE	Georgetown	TX	You haven't stopped robo calls to my home phone so we are thinking of dropping it. (Goodbye money for phone companies and taxes for you!) Now they are calling my cell phone! I have listed both on Federal "do not call list" and send complaints regularly - which does NO good. Please - Please MAKE THEM STOP!
Lynn	Humble	TX	WE pay for these phone, WE pay for the use, WE pay for the minutes. Our phones are private. NOBODY has the right to use OUR things to annoy us.
Rose	Medford	NJ	I am incensed that recently the number of robocalls to my cell phone has increased. In no way do I think that I should be inconvenienced with these unwanted calls. Even if I answer a call, there is no one on the line that I can ask to remove my number from their list. By the way, I do not have outstanding debt so I am assuming these robocalls are most likely scams. Please do not allow these invasive robocalls.
David	Los Gatos	CA	Robocallers must: - Use their actual number when calling (not faking a number, or hiding it). - Accurately identify the organization that is calling. - Only call during business hours of the callee. - PAY for the call or text message. - Debt collectors may only call those responsible for the debt (not friends, family, or employers) - STOP calling when the number has been reassigned to a new person. - Have a human on the other end of the call. - Make it easy to remove a number from their call list
Larry	San Jose	CA	I am on the do not call list. almost every day and night until 9:30PM last night I get Robo Calls. Pl;ease do something. Who do I give my list of 45 callers in the past 30 days to? The do not call list is not working... Thanks for your help.. Larry Hedberg
JOhn	Lafayette	CO	Please stop 'robo calls'. I get 10-20 a week and they mostly are computer scams or bogus demands to "pay now before we litigate" scams.
Richard G	Madison	WI	Robo-calls are a techno nightmare. Eliminate them!
Crystal	San diego	CA	I moved to a new house and did not install a landline simply because of all the sales calls. I rely on my cell phone, yet I still get a few sales calls. I end up turning the phone off. Since I am old and have a hearth problem that is not a good solution. I want a REAL DO NOT CALL LIST THAT WORKS.
Suesie	Bowmansville	PA	No more robocalls to cell phones!
Alexander	midland	MI	enough is enough..... Please stop these NOW!

John	Raleigh	NC	Over the last 12 months, I have received over 100 calls from robo dialing to my cell phone and to my home phone, even though my numbers are listed on the national do not call list. "Hello, this is Rachel, please hit (a certain number) to talk to us regarding you credit card account" or "You have just won a cruise. All you need to do is complete a brief survey". I have connected with "Rachel" to speak to someone live who had a very heavy middle eastern accent and asked to have my name and number removed. The person got ugly on the phone and said they can not remove my name and number. These companies use various numbers across the country and even from my own area code in NC to call my cell number. I have instituted a practice of not answering my cell, even from the NC area code. If the call goes to my voice mail and leave a message, I will call them back. If the call drops before leaving a message, I then call it back where I find it is a non-valid number or I get a Verizon message that this number is disconnected. I immediately then block those numbers from my cell phone. Please end these type of calls as they are scams and cost me cellular minutes and cost me time and frustration.
m. lee	eugene	OR	It's both an invasion of privacy and a nuisance
Sylvia	Indianapolis	IN	Please eliminate ALL robo-calls from your permissible list. People can't think when they are constantly pestered by unnecessary distractions. On the basis of mental health alone, not to mention other reasons, like privacy, please ban them. Thank you!
Kelley	Atlanta a	GA	I want robo calls to stop. All together
Neilia	Cave Junction	OR	I don't want robo calls.
Fred	Port Hueneme	CA	Unlike calls to landline phones, calls to mobile phones often result in charges or use pre-paid minutes. And since debt collectors often use outdated lists, many of the calls are to incorrect numbers. Ban all debt collection calls, including "robocalls," to mobile phones, and prohibit calls to any other parties for collection purposes. Make the regulations clear and readily available, and reinforce the provision that calls for notification of the right to stop receiving calls. Thank you for your consideration.
J Wesley	Renton	WA	Please do NOT authorize Robo-callers, especially debt collectors to call on cell phones! Besides invading our privacy, we are forced to subsidize these callers by paying for their cell phone air time.
Jack	Baton Rouge	LA	Use of cell phones in cars has already caused an increase in deaths and injuries on the nation's highways. Please, don't let debt collectors exacerbate the problem!

Elizabeth	Livonia	MI	My cell phone number is only given out as an emergency contact. I pay by-the-minute, by choice, and I don't need MY minutes being eaten up by someone else's "commercial". I don't need the fact of it ringing without really being for me to disrupt my day. A couple of years ago, when it was ringing all the time due to the school shenanigans of my hyperactive son, my blood pressure spiked EVERY single time the dang thing rang.
Bruce	Castro Valley	CA	Robo Calls have gotten out of control . Getting called at all hours, people calling not identifying the company they represent, faking phone numbers.
Michael	Brooklyn	NY	I've had to call the FCC too many times to file complaints. They keep changing their numbers?
Lynn	Portland	OR	I've had it with robocalls -- and especially the ones that come to my cell phone. Our landline and cell phone numbers are all on the Do Not Call Registry, which should make these numbers off-limits but they keep coming! We use prepaid cell phones and pay by the minute, so every call that comes to our cell phones that shouldn't isn't only irritating -- it costs us actual money. Enough is enough!
James	Arlington	WA	If only cell phone minutes were without cost, however, they are not. Folks like me with a cell phone has to pay handsomely for each minute of usage. And, if we are over our planned minutes of usage we get to pay even more. Now envision that you are over your limit and you get an unsolicited advertising call for you have to pay a premium. Would this make you unhappy perhaps even angry? You betcha! It's simply wrong to be forced to pay for advertising that you never wanted.
Gwen	St george	UT	Of robot calls. They are annoying, disruptive and offensive. I would NEVER buy anything from a robot call. Why have you not acted sooner to take care of this odious problem?
mattey	la Quinta	CA	it is bad enough that even signing up for "no Robo calls for our landline that we continue to get them. We pay a premium to have a cell phone and Robo call's are not only an invasion of privacy but abusive and drive up our bills. there is absolutely no justification for Robo calls of any kind, unless it is for a civil or medical emergency.
Gary	Edmond	OK	My cell phone service is with AT&T. I get calls all the time from credit card companies that want me to change companies. I don't answer calls from areas codes that I don't recognize. They have started sending calls from my 918 area code that my phone number is in. I did get these on my home phone but now I am getting them on my cell. I have got all my numbers on the no call list but I still get them. They mainly say "This is Rachael with Credit Card Services". I don't answer a out of area call or call back unless they leave a message. They should be required to leave a company name or not be able to make these calls. I have tried to take me off their no call list but I still get calls.

Keith	Concrete	WA	I use my phone for work, so I need to answer it at work. Because I am often wearing gloves and handling candy for work, it is highly disruptive to my chocolate making when a call comes in. When the call is a telemarketer, it is seriously annoying. Please make them stop! Why should they be allowed to waste my time at work?
James	Arlington	WA	If only cell phone minutes were without cost, however, they are not. Folks like me with a cell phone has to pay handsomely for each minute of usage. And, if we are over our plan minutes of usage we get to pay more. Now envision that you are over your limit and you get an unsolicited advertising call for you have to pay a premium. Would this make you unhappy perhaps even angry? You betcha! It's simply wrong to be forced to pay for advertising that you never wanted.
Carol	Westbury	NY	Please do not allow these robocallers to call me. They disturb me while I am sleeping, reading, cooking, cleaning, watching children, etc., etc. Enough!!!
Daisy	Miami	FL	I live in South Florida where Robocalls hound us night and day in various languages, from various sources. We work hard at our jobs all day, only to come home to be accosted by Robocalls! On our few days off, we cannot get piece and quiet because of these constant calls! They come on our land line, as well as our cells. IT NEVER STOPS!!! We are so frustrated! I have a very elderly mom, as well as a mentally and physically handicapped sister, so NO; turning off my phone, is NOT an option. They have to be able to reach me at all hours in case of emergency. Please Stop Robocalls!
Lynn	Portland	OR	I've had it with robocalls -- and especially the ones that come to my cell phone. Our landline and cell phone numbers are all on the Do Not Call Registry, which should make these numbers off-limits but they keep coming! We use prepaid cell phones and pay by the minute, so every call that comes to our cell phones that shouldn't isn't only irritating -- it costs us actual money. Enough is enough!
Tom	Collinsville	IL	Please end robo calls the no call list is a joke. I have turned calls in to no call list many times. Also do something about SPAM emails
Carol	Westbury	NY	Please do not allow these robocallers to call me. They disturb me while I am sleeping, reading, cooking, cleaning, watching children, etc., etc. Enough!!!
lisa	No. Richland hills	TX	The most annoying and intrusive invasion into your personal choice space is when you have people calling at all late hours (5:00 pm to 10 pm) and they are asking you to donate or buy something that you do not choose too nor want.
D Serrie	Chicago	IL	Robocalls are an outrageous intrusion on privacy and dealing with them is a huge waste of one's precious time--while costing the sender nothing.

Sheila	Merced	CA	STOP ROBOCALLS TO CELL PHONES!
Albert	Lansing	IL	I HATE robocalls.
(Ms.) Carlyle	Chapel Hill	NC	Locally, the only calls that require me to struggle to get to the phone are important to my life and welfare. I am more weary than I can convey to you that I have a most negative reaction to robocalls that require me to struggle to reach the phone and then offer me NOTHING other than the necessity to terminate them. At one time in the past they were successfully restricted. I do not know how they managed to get around the ban, but they are unwelcome in my life! Ban them again, please.
Thomas	Sugar Land	TX	Please stop all robocalls to cell phones. They can be distracting while driving and a nuisance at other times.
Doug	Crown Point	IN	I am bombarded by debt collector calls to my cell phone. The debt is not mine (nor anyone I know), but the collector was given my phone number and relentlessly pursues me assuming I am lying. This makes my phone near useless as I need to keep it turned off most of the time to avoid the harassment. Please limit the calls or better still stop them all together.
Ronald	Poughkeepsie	NY	ROBO calls are always an annoying nuicance, with no value to me, the targeted customer. Everytime I block a number, they make calls to me through diffferent unblocked number.
richard	seaside park	NJ	please do something to end all robocalls to cell phones!
Mary	Sioux City	IA	Please , help the People by regulating these collectors!! I have been fortunate all my life , but not so all my children. The people who do the calling are "nasty" at times and upset the lives of those who are less fortunate. Please make the regulations very strick, but still be able to collect their due. Thanks
Karen	Tonawanda	NY	I have never had debt collectors call me for my debts, but have recently received calls from them for other people. Even after assuring them I was not the right person they continue sending the robocalls. I pay for each call on my cell & feel this is a theft from me. I should be able to block them or have a way to stop them. Federal debt calls should ONLY be to directly responsible debtors. Calling others is a violation of privacy and just plain wrong as there are often errors. Stop the robocalls on cell phones. Only 1 call should be allowed.
Patricia	Seminole	OK	The "Rachael" call have plagued me for the last half of the year. Once I get the call, I block the number but they use another number. Also, I am on the national do not call list. Please help.
Marie	Mounds View	MN	Please end ALL the robocalls.
Stanley	New York	NY	Stop robocalls to all telephone devices.

(Ms.) Carlyle	Chapel Hill	NC	Locally, the only calls that require me to struggle to get to the phone are important to my life and welfare. I am more weary than I can convey to you that I have a most negative reaction to robocalls that require me to struggle to reach the phone and then offer me NOTHING other than the necessity to terminate them. At one time in the past they were successfully restricted. I do not know how they managed to get around the ban, but they are unwelcome in my life! Ban them again, please.
Mary Louise	Eugene	OR	I am currently receiving - and have been receiving for the past two years - at least 3 robocalls a day! They are titled as "PORTFOLIO RECOVERY' or 'TOLLFREE". The area codes are 877, 888, and 859. The calls occur from 8:30 a.m. up to 10:45 p.m. The calls are on my land line, and I have blocked up to 30 callers; that is the limit on my phone line. I have had to silence the ringers on my phone so if I have house guests they are not disturbed early in the morning or late at night. I have written down the date the calls come in, the phone numbers and the time of day or night. I started keeping this list in August 2015 and now have over SIX pages of numbers written down. These calls are very annoying as well as time-consuming. PLEASE HELP!!
James	Arlington	WA	If only cell phone minutes were without cost, however, they are not. Folks like me with a cell phone has to pay handsomely for each minute of usage. And, if we are over our plan minutes of usage we get to pay more. Now envision that you are over your limit and you get an unsolicited advertising call for you have to pay a premium. Would this make you unhappy perhaps even angry? You betcha! It's simply wrong to be forced to pay for advertising that you never wanted.
Michael	Coral Springs	FL	Please take the appropriate actions to prevent the annoying practice of Robocalling to cell phones.
Susan	Farmingville	NY	Enough already with the Robocalls! The worst is at election time you can't eat a descent meal without interruption.
Deborah	Oakland Pk	FL	This should be a no brainer...
Penelope	Torrington	CT	Please do whatever is necessary to end these annoying calls. As a senior with severe arthritis, it is very annoying to have to get up and get to the phone assuming it is a call that is appreciated only to find out it is a robocall. They just shouldn't be allowed to disturb people. In today's technological world I am sure there is a way to do it. Thank you.

Rich	Harvard	MA	My home (landline) phone has become largely a medium for commercial and other automated callers. We have received debt collection calls for my ex-wife as well as adult step-children. I would hate to see this practice be extended to cellular phones. Debt collectors should be banned outright from calling people who do not hold the debt on cellular phones (or landline phones, for that matter). We should have the right to be informed of our rights to stop receiving "robocalls" from debt collectors. To summarize: * Debt collection "robocallers" must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available Thank you,
Roy	Snellville	GA	The original point of government was to support the citizens of this country. Instead, the government has almost become the enemy. I implore you to become an agency that considers the people rather than the businesses.
Ronald	San Diego	CA	I get at least 2-3 calls per day on each of my two cell phones.It is very annoying and I feel that I should have some way of blocking them. Please do everything within your power to stop this.
James	Seattle,	WA	Please pass legislation to stop robo calls on our cell phones. Keep these tools for personal communication needs, not commercial. America is being destroyed by advertisers.
Stanley	New York	NY	Stop robocalls to all telephone devices.
Gloria	Greenwood	CA	No consumers want robocalls. Personally I'm inundated with robocalls multiple times a day. I may be on the Do Not Call list, but they still call my cell phone and my land line. They are nothing but an annoyance on a par with spam emails. They work just as spam does, send out thousands and thousands of robocalls in the hope that one person might actually connect. Block one number and they use another to call. Ban them completely. Allow me to opt in, the same as with merchant emails, or opt out completely as the default option.
Joseph	Thornton	IL	Have been receiving robocalls from my own phone number. Even my name is on the Caller ID with the exception of a different middle initial. How can they do this?
Ronald	San Diego	CA	I get at least 2-3 calls per day on each of my two cell phones.It is very annoying and I feel that I should have some way of blocking them. Please do everything within your power to stop this.
ROBERT	MIAMI	FL	I get 5 - calls a day from Debt collection robocallers for debts not owed or over 10 years old. I've requested to stop calls by phone & mail but they keep calling. The guidelines should be clear and readily available as well as enforced. Sales calls come all the time from internet usage supplied by sites visited or other 3rd parties. This should not be allowed at all. I never give permission to receive calls, period!

Russell	San Francisco	CA	Please stop robocalls to cellphones. It is an invasion of privacy and one's time to have to deal with these calls.
caren	Franklin	TN	I am in no way responsible for any debts other than my own and do not want or expect to be called if any of my many relatives and/or friends owes money to anyone. I already get enough robocalls from who knows who in spite of my efforts to prevent them. I pay an enormous amount of money for my phone services and resent these intrusive , unsolicited, and unwanted invasions of my privacy. I respectfully request that you consider my objections to allowing debt collection robocallers from contacting me due to the actions of my friends and/or family.
Glenn	Fairport	NY	I have two home phone lines and a cell phone, and I get robo calls on all the lines. It is becoming (has been) very annoying and I would like it to stop. I get a minimum of three calls a day.
Kenneth	Holyoke	MA	We all pay a lot of money for our cells, we did not get them to be solicited by these people. Please stop this.....thank you
Judy	Arlington	VA	All robocalls should be banned, but calls on my cell phone are particularly obnoxious. Please stop them.
Robert	Youngstown	OH	STOP ROBOCALLS.
Melvin	Phoenix	AZ	I receive daily several RoboCalls, some I attempt to block, but they keep calling back. Some even change numbers to get by the block set up to stop all RoboCalls. I am tired of the calls and the interruptions they create. No more, we need to stop RoboCalls effective immediately.
Edward	La Crescenta	CA	Robo calls invade one's privacy, and therefore should be regulated. At least with spam mail you can be marked so that one does not have to deal with it a second time. ET
linda	yreka	CA	Stop repeated calls!
Benjamin	Baton Rouge	LA	Please end robocalls - they take precious time away from people
Sharon	Lotus	CA	I don't have time or parience for these calls.
Stephen	Nevada City	CA	Is there anyone who's not irritated by unsolicited robocalls? And the counterbalancing social/economic gain is... what? Come on, FCC, most of us are struggling to get by and take care of our families out here; please give us this extra layer of protection from unneeded, unwanted stress!
Edward	Euless	TX	The endless Scam calls and unsolicited sales promotions are a disgrace to the FCC and the Phone Companies that allow it. As taxpayers we deserve better protection from such KNOWN SCAMS than we have gotten to date. PLEASE TAKE IMMEDIATE ACTION TO ELIMINATE THIS PROBLEM NOW!
linda	yreka	CA	Stop repeated calls!
Kenneth	Holyoke	MA	We all pay a lot of money for our cells, we did not get them to be solicited by these people. Please stop this.....thank you
Dean	Santa Ana	CA	It's annoying and should be illegal (I thought it was already).

Alan	Greer	SC	The unwanted calls for any reason by entities with which we have no relationship are very annoying and unwarranted. Your help in putting a stop to these calls would be very much appreciated. Thanks for your consideration!
Nora	Rio Rancho	NM	We receive robocalls from so many sources. The caller ID doesn't display info so I let calls go to voice mail and then find out I've missed an important call or the call is a scam from a company I have never dealt with. PLS PASS LEGISLATION TO STOP OR REDUCE THESE CALLS!!!
Stephanie	Ponte Vedra	FL	I hate them. They are worse than bothersome. I don't want unsolicited calls. The do not call list does not stop these. Please institute something that actually works to stop them! Maybe the companies should have to prove a reason in advance to the government why they are making the call and prove the receiver wants to be called. And get approval first before making the call! That should keep them busy instead of bothering people who do not want the calls.
Carl	Madison	AL	Robocalls are an unwarranted invasion of my privacy. The people of the United States own the electromagnetic spectrum and lease it to supposedly responsible people to provide telecommunications to us all. It is the responsibility of the FCC to regulate the use of the spectrum to ensure that it does what we want it to do. FCC, please do your job. I want and deserve strict control over the people who abuse my telephone number. Thank you!
Judy	Berkeley	CA	Please stop robocalls. They take up time; they attempt to mislead; they pretend to help with problems that don't exist; they pretend to offer lower rates on this and that when they probably are seeking to suck the unwary and gullible into financial mishaps. Please stop robocalls, and let us use our telephones again to call and receive calls from friends and legitimate business contacts.
Terry	Little Rock	SC	I am constantly being harassed by collection agencies because a man we barely knew gave our phone number when he went to the emergency room for treatment more than 20 years ago. He died several years ago, and I am still getting calls about his debts. I am adamantly opposed to robocalls on any phone for any reason.
Brent	Omaha	NE	These calls are very disrupting, plus many folks still pay for 'per-minute' charges to receive them ~ either make the 'RoboCallers' pay all fees for their unwanted/unsolicited calls, or in the case of the Debt Collection callers, make the Receiver's cost of each call PART of any Debt settlement...
Rich	santa Barbara	CA	Stop the criminal telemarketerrs.

Elaine	Palos Heights	IL	I receive many of these calls a day all hours of the day and I am so sick of it. I have tried everything possible now I am swearing at them. When they call now and hear my voice they hang us. But I have walked to the phone to answer it. At 81 this is a problem.
Caren	Franklin	TN	I am in no way responsible for any debts other than my own and do not want or expect to be called if any of my many relatives and/or friends owes money to anyone. I already get enough robocalls from who knows who in spite of my efforts to prevent them. I pay an enormous amount of money for my phone services and resent these intrusive , unsolicited, and unwanted invasions of my privacy. I respectfully request that you consider my objections to allowing debt collection robocallers from contacting me due to the actions of my friends and/or family.
John	Grand Terrace	CA	As a senior citizen I no longer answer my ringing landline, I do not have a cell or IP phones, because I dread 'how to' terminate robocalls without being rude. I'm being harassed, in my own home, between the hours of 7AM & 8PM PST, Sunday thru Saturday, with the swarm coming between 4:30PM & 7PM Monday thru Friday. I screen all calls by listening to the callers' messages before determining to answer or not answer my phone! Please provide relief from harassment from salesmen, surveyors, debt collectors, prospectors, and yes, con artists, foreign & domestic.
Susie	Sierra Vista	AZ	I am sick to death of getting robocalls on my cell phone and also on my landline. P L E A S E make it stop!
Raymond	Walnut Creek	CA	Robocalls are intrusive. Please stop robo calls and enforce the prohibition. Thanks do much
Jerome	Bellaire	TX	Too many robocalls! Enough already! Make them stop!
Jefferson	New Orleans	LA	They waste time and money and are annoying. Stop them now!
Robert	Chapel Hill	NC	PLEASE, PLEASE, PLEASE help us to stop invasion of our privacy by robocalls--- to both landlines and cell phones. Thank you
Lou Ann	Austin	TX	There are more than debt collection agencies using robocall.....stop them all!
Charlotte	Westport	CT	The idea that a machine is entitled to call a human being is, on the face of it, outrageous. Once programmed, machines never tire of dialing and never pick up on social cues or respond to polite requests. Taken to the extreme, people would be so inundated with unwanted calls that their cell phones would become unusable for their intended purpose, which is human-to-human communication. Cell phones have become a fixture of our personal and work lives. To subvert or replace those legitimate purposes is not only abusive, but undercuts our very notions of what people are. We are not mere consumers or cogs in an economic machine. Let's put people first for once. Let's recognize that cell phones are tools for human beings to use, not the other way around.

Melvin	Phoenix	AZ	I receive daily several RoboCalls, some I attempt to block, but they keep calling back. Some even change numbers to get by the block set up to stop all RoboCalls. I am tired of the calls and the interruptions they create. No more, we need to stop RoboCalls effective immediately.
Scott	SAN DIEGO	CA	I pay for phone service so that I can make calls to friends or businesses of my choosing and receive calls from them. All other calls are nuisances--robocalls particularly. Please do what you can to stop them.
Gerry	San Juan Capistrano	CA	Only calls from real people NOT hiding as "private".
Rita and James	Burlington	MA	Is there anything you can do to stop robocalls. They are happening a lot now, both to our home phones and our cell phones, and there is no way for me to tell them I am on the do not call list because there is no one on the other end to speak with. Please make robocalls illegal. If they want to call, they should have to be on the phone themselves, and they should not be calling those on the do not call list at all. Thank you for your help.
Andrew	Spring	TX	It's bad enough that I have to put up with endless calls from politicians looking for votes. Now there are multiple calls from scammers, such as the infamous IRS call - probably from Pakistan, based on the accent. In the last year, the robocalls are hitting my cellphone where I have to pay to listen to their junk messages. Please put a stop to all this!
Jean	Bluffton	SC	Robocalls are simply a disturbance that are not needed. Our cell phones are with us at all times, including times when we do not need to be disturbed--including work, dining, and vacation. Such robocalls should be ended on cell phones, period. Especially from debt collections for bills that are not mine!!
Andrew	Gainesville	FL	These calls are extremely annoying and sometimes malicious. They interrupt our lives and waste a lot of our time.
Caren	Franklin	TN	I am in no way responsible for any debts other than my own and do not want or expect to be called if any of my many relatives and/or friends owes money to anyone. I already get enough robocalls from who knows who in spite of my efforts to prevent them. I pay an enormous amount of money for my phone services and resent these intrusive, unsolicited, and unwanted invasions of my privacy. I respectfully request that you consider my objections to allowing debt collection robocallers from contacting me due to the actions of my friends and/or family.
William	Morrisville	NC	No Robocalls to Cell Phones!
David	Tempe	AZ	Is it alright to constantly disturb the ill? A phone is vital to ill people, but to have them disturbed by it at least once per day is not fair.
Joseph	Thiells	NY	I have installed software that allows the calls to ring once and then they go away, but even that becomes annoying especially if you are expecting calls from known people. This needs to stop.

CLYDE	madill	OK	I receive robocalls daily from people I donot know.I block their # and others call.
Stephanie	Ponte vedra	FL	I hate them. They are worse than bothersome. I don't want unsolicited calls. The do not call list does not stop these. Please institute something that actually works to stop them! Maybe the companies should have to prove a reason in advance to the government why they are making the call and prove the receiver wants to be called. And get approval first before making the call! That should keep them busy instead of bothering people who do not want the calls.
trina	federal way	WA	Right now, the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone. The debt collection industry is pressuring the FCC to back down, but they are required to review all public comments submitted through their website. We have a limited window to out-organize the robocallers. Send your comment to the FCC right now. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. We've included some bullet points for things you could tell the FCC, but it's important to give your thoughts in your own words. If you oppose robocalls to your cell phone without your permission, simply say why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Christian	Annapolis	MD	It is time that the FCC takes substantial action to end the nuisance of robocalls. It is atrocious to receive several daily unwanted robocalls from entities that I have absolutely no business with nor any desire to. I have my phones registered on the Do Not Call list but it seems to be worthless. The FCC needs to pursue these law-breaking entities and also push the carriers to block these annoying calls. The technology is there but for some reason, the carriers don't do anything unless required to do so. It is unfathomable to me why nothing gets done about this.
Jean	Bluffton	SC	Robocalls are simply a disturbance that are not needed. Our cell phones are with us at all times, including times when we do not need to be disturbed--including work, dining, and vacation. Such robocalls should be ended on cell phones, period. Especially from debt collections for bills that are not mine!!
Mary	Sioux City	IA	Please , help the People by regulating these collectors!! I have been fortunate all my life , but not so all my children. The people who do the calling are "nasty" at times and upset the lives of those who are less fortunate. Please make the regulations very struck, but still be able to collect their due. Thanks

BRUCE	ALFRED	ME	Greetings, FCC. I am asking you to vote against allowing debt collectors and similar businesses to push text messages and robocalls into our cellphones, at least without very strict regulation. I really like the idea I have read about in several places. "Allowed" calls or texts should be kept to no more than 3 per month, and only to the person who owes the debt. Trying to get at a debt holder by calling or texting a friend or family member is very invasive and unfair to that recipient since they don't own the debt. Having easily accessible and clear rules/guidelines would be a plus as well, and stopping the robocalls or texts upon request should be one of the guidelines. Robocalling is so unfair. An example: I have moved in with my mother because she is 90 and has dementia and needs someone with her to help her stay in her own home. I have blocked just under 130 phone numbers in 7 months from telemarketers who primarily work for not-for-profits or political campaigns. Most of this is robocalling and without the capacity to block, the phone would be ringing from 7 - 20 times a day. They were driving her crazy before I moved in and began this blocking effort. Thank you for considering my input on this issue.
Gerri	Apple Valley	CA	My phone is for my personal use. I'm tired of it being hijacked by endless robocalls. I'm tired of paying for my phone for the robo-companies benefit. So, enough!
Ann	durham	NC	They should be banned on both cell phones and land lines. They are maddening
Gloria	Greenwood	CA	No consumers want robocalls. Personally I'm inundated with robocalls multiple times a day. I may be on the Do Not Call list, but they still call my cell phone and my land line. They are nothing but an annoyance on a par with spam emails. They work just as spam does, send out thousands and thousands of robocalls in the hope that one person might actually connect. Block one number and they use another to call. Ban them completely. Allow me to opt in, the same as with merchant emails, or opt out completely as the default option.
Jaime	Fort Smith	AR	Plain and simple: Please do not allow debt collectors to use robocalling. It would be a dangerous path as debt collectors do not listen to reason even if you are talking to a person. Eliminate the root cause of the problem: Do not allow collectors to use robocalling, period!
Doug	Otis Orchards	WA	Make it clear - Stop All Robo calls! Our 90 year old Mom uses her cell phone for emergencies. Robo calls are a danger for her.
Elaine	Rockville	MD	Please stop the Robocalls!
Richard	Roseville	MN	please end robocalls
Cynthia C	Louisville	KY	I get several phone calls a week from RACHAEL AT CARD SERVICES - i She wants to lower the interest on my credit card. I ALWAYS PAY THE FULL AMOUNT - NEVER PAY A PENNY OF INTEREST Tell Rachael TO STOP BOTHERING ME.

Ted	Ludington	MI	The use of any robocalls to cell phones is beyond the pale. It should be curtailed as soon as possible
Jeff	Burbank	CA	I'm a senior citizen and several times a day I'm forced to get up to answer the phone, knowing ahead of time it's probably not a legitimate call from a friend. This is very distressing, not to mention difficult because of my arthritis. I pay for the line, only to have it abused by these callers. As I have been writing these words, my cellphone rang with a robocall from Marriott - please stop cellular robocalls as well as landline calls. It's my phone!
Mary	Granger	IN	Robocalls are an outrageous invasion of people's lives. Especially for those of us with no debt issues, the intrusion from sales and scammers seems to me to violate the American promise of life, liberty and pursuit of happiness. Please get these folks out of the lives of the everyday Americans who just want to have a phone for personal communication with chosen others. Thank you for your consideration.
Greg	Sarasota	FL	I am disgusted that robocalls are now permitted on cell numbers. If I had the desire to talk with one of these folks I would call them myself. It is very intrusive for anyone to call me on my cell unless they are family, friends or have my written express permission to call me on my cell phone. Please put a stop to this now! As it is we no longer answer our home landline, because 9 times out of 10 it's someone wanting to sell us something, asking us to donate or a scam. I do not want this same thing to happen to my cell phone. As far as I am concerned my cell phone is private and should remain that way unless I agree in writing to provide it's use to someone else. Please do what is in the best interest of the public instead of the promoters. Stop this intrusive calling immediately!
David	Lunenburg	MA	Receiving robocalls on our landlines, despite registering on the "Do Not Call" list, is very annoying to say the least. If we now have to think about getting them on our cell phones, it will be an atrocity. We take our phones with us all the time. Sometimes we forget to turn them off at church, the movies, meetings, etc. It is most disruptive to ourselves and others to receive calls we do not want and for which we have not signed up. Please consider how much the majority of people do not want to receive these calls, and do not allow them to be sent on cellular phones. Thank you for your consideration of this matter.
Terri	Coppell	TX	These calls are intrusive, annoying and unwanted. Please do not let these calls invade our cell phones.

Craig	West Friendship	MD	<p>Our family is cancelling our landline because robocalls--somewhere between 5-10 per day have defeated us. Calls soliciting funds, "surveying" whether we support Hillary, advising us to refinance our home "this is your final notice" or consolidate credit cards, offering contractor service and allegedly supporting vets, necessitate using our answering machine to screen calls. Unfortunately this frustrates family and friends with whom we wish to talk. We miss their calls or have to call them back. California had a "Do Not Call" list which seemed to work, but recently, the situation is progressively worse. It's a very annoying problem beyond the capacity of an individual consumer/voter to fix. Someplace where we rely on our elected and government for protection. Everyone talks about it. Everyone agrees its a problem. It's easy to guess why it doesn't get fixed. Yet this as much as anything contributes to the overriding sense that government no longer looks out for the average person.</p>
Jeff	Portland	OR	<p>To whom it may concern: I have grown up using a cell phone for most of my life. Until last year, I had never owned a home phone of my own. After learning about the potential limited functionality of cell phones in a regional emergency, I decided to purchase a home phone to only be used in emergency situations. While the idea seemed good at the time, I canceled my land line subscription after just one month due to the high number of robocalls I received. My number was part of the "Do Not Call Registry", but it didn't seem to help. Worse still, none of the calls I received were actually intended for me. While I'm still concerned about what I might use in an emergency, fortunately, I was able to disconnect my landline and cut out robocall interruptions. I am very worried about the day robocalls/texts can be sent to cell phones, as I keep my phone with me all the time for work. I hope that cellphones can never be used for robocalls/texts, but if new industries (like debt collectors) are allowed to begin using robocalls, I also hope strong restrictions are placed on their ability to do so. I would hope that the recipients of these calls would have the ability to opt-out of future calls, and that the robocaller would be required to disclose the right to be removed from such lists. I hope debt-collection robocalls would be limited to only those who are directly responsible for the debt--not friends and family of those in debt. And finally, I hope these new rules are made clear and well socialized both before and after the new regulations are put in place. As far as I'm concerned, robocalls have already placed me in a dangerous situation, since I do not have a backup form of communication in the event of an emergency. I am very concerned that *any* expansion of robocalls will cause significant life disruptions that threaten my health and safety. Thank you for your consideration.</p>

Yehudit	Pleasant Hill	CA	Please stand strong on imposing strict guidelines to limit or end robocalling to cell phones. They are a real nuisance, since I can't screen calls as I can with a land line and in-house voicemail system. It is infuriating to have to spend time going through voicemail messages that are basically spam, in order to be sure I didn't miss a call from someone I want to speak with. I consider these calls invasion of privacy. Please take steps to limit or eliminate them. Thank you.
John K	Yucaipa	CA	I have given my cell phone number to very few friends and family members. Despite that I am bombarded with phone calls from unknown persons from all over the country. This type of activity has to be prevented. My home phone situation is even worse. I am now considering cancelling my land line.
Carlyon	Andover	KS	Please stop them
Steve	San Diego	CA	Please do something to stop these annoying robocalls. I also think that these calls should be stopped regarding government elections. I propose that the receiver of these unwanted calls should be compensated--e.g., charge the annoying caller \$.25 and credit that \$.25 to my phone bill. Those annoying calls would end overnight.
Henri	west warwick	RI	They are becoming a real problem Also Companies are NOT respecting the 'Do Not Call'list
Marna	Beavercreek	OH	I only use my cell phone for personal phone calls and have been getting robocalls for months now. These are unsolicited and totally unwanted. I should only receive calls that I want not calls that are forced on me. Please stop robocalling now.
Stephen	Charlotte	NC	My phone is listed in the do not call registry. Robocalls calls, therefore, can't be legal. If they were find, as the gov't is suppose to do, there would be no for robocalls. Please put a stop to this extremely annoying practice.
Jordan	Greenbrae	CA	It's bad enough getting illegal calls on my home phone at ungodly times of the day or night. Now these rude and impudent people want to to badger people even more. Stop them now. Thanks.
Kenneth	Lenexa	KS	I am urging you to please take action against robocalls--they are a public nuisance, and I have noticed a decided uptick in the occurrence of these types of calls in the past couple of years. Thank you.
Richard	O Fallon	IL	Imagine how many new people would sign up for ATT, if you would help them block robocalls. The elderly would be particularly interested, to regain peace of mind and stop those who call with false claims and accusations. Help them live in peace and stop the hyenas that prey on them.

Robert	Sandy Springs	GA	Robocalls are a nuisance that is out of control. They call at the most inconvenient times and are relentlessly intrusive. All reasonable limits need to be placed on this activity to prevent excessive harassment and invasions of privacy. It is important that robocallers know and understand limits and acknowledge our rights to privacy and freedom from abusive harassment. The vast majority of calls that most of us receive are irrelevant, unwanted, and a significant interruption of our daily lives. I don't have any uncollected debts, yet I have been harassed with robocalls from debt collectors because I happen to have the same name as someone else on their lists. This is unacceptable. The DO NOT CALL list has become a sad joke.
Tom	Rochester	NY	Do it
Catherine	El Cerrito	CA	I am thinking of stopping my landline because of robocalls. All day long. It is disturbing my enjoyment of my house and even after I ask to be removed they continue nonetheless
Diane	Simi Valley	CA	It is time to put an end to this intrusive, annoying and disruptive practice! Robocalls are just so much pollution!
Lisa	Blauvelt	NY	Robo calls are out of control, the callers are relentless & at times downright nasty. The newest twist to these Robo calls are, scams that are bilking the elderly & otherwise unsuspecting individuals out of thousands of dollars! The Do Not Call registry worked for a little while however, now it seems like a moot point & is totally ineffective. These calls must be stopped now
Sandra	Wimauma	FL	Nobody should know someone's personal business, unless that information is provided by the individual. These robo calls are threatening, even if not you! Please make the strongest possible law with the strongest possible penalty for these carnivores.
Richard	ocean Isle Beach	NC	Please help to stop all the Robo Calls that I am receiving. Calls are averaging 2 a day. Do not call list is not working for me any longer. Please help!
Jordan	Greenbrae	CA	It's bad enough getting illegal calls on my home phone at ungodly times of the day or night. Now these rude and impudent people want to badger people even more. Stop them now. Thanks.
Marlin	Jackson	MI	Constant barrage of unsolicited calls, try blocking them but they keep changing numbers.

Robert	Sandy Springs	GA	Robocalls are a nuisance that is out of control. They call at the most inconvenient times and are relentlessly intrusive. All reasonable limits need to be placed on this activity to prevent excessive harassment and invasions of privacy. It is important that robocallers know and understand limits and acknowledge our rights to privacy and freedom from abusive harassment. The vast majority of calls that most of us receive are irrelevant, unwanted, and a significant interruption of our daily lives. I don't have any uncollected debts, yet I have been harassed with robocalls from debt collectors because I happen to have the same name as someone else on their lists. This is unacceptable. The DO NOT CALL list has become a sad joke.
Marvin	Newton	NJ	Robocalls are one of the most annoying things in my life. If a human calls, that may annoy me but it seems fair. Having a machine call me, without my permission, is unacceptably intrusive.
James	Clinton	SC	I am sick and tired of robocalls. Please help stop this nonsense!!!
Carole	Austin	TX	I have had the same landline phone number since 1978. I get 30-40 robocalls a day. Now they are starting to come on my cell phone and via texts. These are NOT debt collection calls. These are drugs from Canada, how to consolidate credit card bills, political causes, charitable causes, "the IRS", "surveys" -- it drives me crazy! I use NoMoRoBo to stop many of them, but it won't work on my AT&T cell. Yes, I've put my name on the Texas and the National do-not-call lists and that makes zero difference. And -- there's no point in changing my phone number because then I'd just get someone else's robo calls. PLEASE HELP!!!
Donald	Las Cruces	NM	Despite being on the do not call register, I continue to get robocalls from parties with which I have no prior connection . This is extremely irritating, and at my age, (79) I don't need the hassle, don't need to buy anything from strangers, and would not buy anything from a robocaller.
Glen	Edwardsville	IL	I have been on the "no call" list for several years now. I still get robo & unsolicited calls. I also get a combination of robo, then hang on to speak with an agent. As soon as they come on and you tell them your on the list they hang up. Some of the calls are masked to appear to come from "MY OWN NUMBER". These people are blatantly ignoring the FCC requirements. I am sure the phone companies involved can do something about it, but they ignore it also. The FCC needs to get serious and prosecute these people who blatantly ignore the no call list. Even the "politicians" who exempt themselves from the same laws others are required to follow.
Joseph	Moorestown	NJ	Allowing robocalls is evidence of the ownership of government by corporations rather than citizens.
Marianna	SOQUEL	CA	No to robo calls
George	Rancho Cordova	CA	no robocalls

Melanie	Syracuse	NM	Please protect my rights of not having to receive nor pay for unwanted Robo Calls.
Jeff	Alexandria	VA	The intrusion is so awful that my home phone is 100% lost to robocalls. I have measured that 85%+ of the calls to that line are unwanted solicitation. Political campaigns are the worst offenders. So if the FCC doesn't take action, we will know who is really pulling the strings on policy.
Gerilyn	Lakewood	CO	I am retired person so these calls affect the cost of my cell phone service. At this point I just ignore any number I don't recognize. However, as I get older and my memory fails me that may not be an option. Thanks for your consideration in this matter.
Yehudit	Pleasant Hill	CA	Please stand strong on imposing strict guidelines to limit or end robocalling to cell phones. They are a real nuisance, since I can't screen calls as I can with a land line and in-house voicemail system. It is infuriating to have to spend time going through voicemail messages that are basically spam, in order to be sure I didn't miss a call from someone I want to speak with. I consider these calls invasion of privacy. Please take steps to limit or eliminate them. Thank you.
Richard	ocean Isle Beach	NC	Please help to stop all the Robo Calls that I am receiving. Calls are averaging 2 a day. Do not call list is not working for me any longer. Please help!
Lou Ann	Austin	TX	There are more than debt collection agencies using robocall.....stop them all!
Terry	Timnath	CO	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Please no more robocalls!
Keith	Concrete	WA	I use my phone for work, so I need to answer it at work. Because I am often wearing gloves and handling candy for work, it is highly disruptive to my chocolate making when a call comes in. When the call is a telemarketer, it is seriously annoying. Please make them stop! Why should they be allowed to waste my time at work?
Al	Spokane	WA	I get very few cell phone calls. A cell phone call while driving is dangerous situation. Please do not allow calls under any condition to cell phones that are not personally dialed.
James	Clinton	SC	I am sick and tired of robocalls. Please help stop this nonsense!!!

D.	Bellingham	WA	QUIT REPRESENTING SPECIAL INTEREST GROUPS/BUSINESSES AT THE EXPENSE OF THE AMERICAN PUBLIC. We pay your salaries to fairly and equitably represent us, not harass and financially damage us. If you cannot do that get out of public service job sector - and this BEGINS AT MANAGEMENT - as lower classed employees simply are required to follow management direction. Get an attitude/work adjustment and start doing the jobs the American public pay you to do.
Ralph	Loveland	CO	The potential for abuse, harassment and intimidation by the debt collection interests is too high. I have little or no concerns for myself, but Americans should not receive or live in fear of such treatment.
Marianna	SOQUEL	CA	No to robo calls
Pamela	Charlotte	NC	I'm sick of getting calls from unsolicited companies, fake IRS agents threatening jail, fake credit card companies touting to lower my interest rate when I have none, wasting my time, threatening me, using my minutes, creating unnecessary aggravation! Shut them down!
Lara	Moseley	VA	Stop the robo calls. Enough already!!
Sandra	owensboro	KY	My husband and I are old and have enough trouble with out getting more unwanted phone calls. They call all times during the day and they call us up too 9:00 pm at night. We don't owe any money or sign up to get these calls so pleas give us a break. Life is hard enough as it is. Hard to believe anyone would okay letting these people call more than they do now. Thanks you from 2 old folks
Carol	Petaluma	CA	Robocalls are irritating, invasive, unnecessary, and a waste of my time.
Glen	Edwardsville	IL	I have been on the "no call" list for several years now. I still get robo & unsolicited calls. I also get a combination of robo, then hang on to speak with an agent. As soon as they come on and you tell them your on the list they hang up. Some of the calls are masked to appear to come from "MY OWN NUMBER". These people are blatantly ignoring the FCC requirements. I am sure the phone companies involved can do something about it, but they ignore it also. The FCC needs to get serious and prosecute these people who blatantly ignore the no call list. Even the "politicians" who exempt themselves from the same laws others are required to follow.
Edward	Granite Bay	CA	Stop the robot calls to both the cell phone and landlines.

Carole	Austin	TX	I have had the same landline phone number since 1978. I get 30-40 robocalls a day. Now they are starting to come on my cell phone and via texts. These are NOT debt collection calls. These are drugs from Canada, how to consolidate credit card bills, political causes, charitable causes, "the IRS", "surveys" -- it drives me crazy! I use NoMoRoBo to stop many of them, but it won't work on my AT&T cell. Yes, I've put my name on the Texas and the National do-not-call lists and that makes zero difference. And -- there's no point in changing my phone number because then I'd just get someone else's robo calls. PLEASE HELP!!!
Robert	Pensacola	FL	Freedom of speech shouldn't be the freedom to harass. Robo calls are pure harassment. Please consider the vast majority of people who don't want to be harassed during breakfast, lunch, dinner and evenings as late as 9-10p.m when making your decisions concerning robo calls, most of which are predatory. My wife and I get two to four robo calls each day. The latest one was supposedly from the federal government claiming fraud and the failure to contact them would result in a warrant for my arrest. Complete tripe.
Dennis	Clermont	FL	Please end robo calls. At best they are rude but most times they are intrusive and unwanted. They interfere with my right to a peaceful existence.
mike	mcpherson	KS	there is no way to verify who the robocalls are from and if it's actually something of value. i don't want robocalls wasting my time.
Linda	Magnolia	TX	FCC NO ROBO CALLS TO CELLS PHONES. DO YOUR JOB AND END ROBO CALLS TO CELL PHONES
Wendy	Aromas	CA	We have been subjected to robocalls, even though we are listed on the "National Do Not Call Registry". The frequent calls are obnoxious & harassing. We want them to stop!
Terry	Anchorage	AK	There should be no robocalls period. Debt collection robocallers must notify us of our right to stop receiving calls and be required to provide proof that they own the loan or the contract which gives them that right by registered USPS mail. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available The debt collector can be held liable for harassment after being told this number does not belong to the person who holds the debt . I see this as another opportunity for scammers All calls must be during normal business hours Have stiff penalties for those companies, owners and managers abusing the rules.
Loren	Louisville	CO	Robocalls to home and cell telephones are an egregious invasion of privacy, not to mention trespassing. Please halt this practice immediately, and comprehensively.

Keith	Kissimmee	FL	I'm on the Do Not Call list. I have a dozen numbers blocked - near the limit I am allowed to block. Still, I'm getting 5 or 6 robocalls every day. Imagine what life would be like if I didn't take these measures! Surely the technology exists to stop these robocallers. I no longer feel safe answering my phone without first screening every call with a taped message, but some of my friends don't like that.
Peggy	Penndel	PA	When I pay for a service, I do not expect that I am involuntarily harassed by others who choose to use it. I have an unlisted, private phone number that I pay extra for, and yet I still receive solicitations on MY phone. This is not like my TV where I expect commercials to help pay for the entertainment I receive. All our phones are on the do not call list, which has become a joke. I would also hope that stopping these robocall solicitations would also help get rid of some of the scams that are on the phone too. Way too many people are getting the calls threatening police and bankruptcy if the owner of the phone does not respond. This is a crime that is allowed with the robocalling as well.
Ellen	Placerville	CA	They are an invasion of my privacy. Who even listens to them?! They are annoying.
Johnny	Mesa	AZ	Enough with privacy intrusions! MO ROBO CALLS TO CELL PHONES
Ronald	Pebble Beach	CA	I am constantly interrupted by Robo calls on my cell phone. While I'm walking, driving, all the time. Ninety percent of the time no one is there when I answer the phone. All my phones are on the do not call list, but it seems to have done nothing to stop them. I pay for this phone line. I should have the right to prevent unwanted calls from invading my personal space. I ask you to ban ALL robo calls immediately.
Don	Olympia	WV	We ignore robocalls, but they still occur disturbing our day.
Katherine	Chico	CA	We are losing our minds over the INSANE TORTURE of robocalls. STOP IT NOW. Telemarketers, Politicians, charities and scammers have no right to invade our privacy.
James	South River	NJ	Why is it that although I'm on the "Do-Not-Call" list, I'm getting a barrage of robo-calls from scam artists?
Mary	Congers	NY	I do not want ANY robocalls on my phone! I do not care what company sends them!!
mittchell	ossining	NY	I am getting more and more robo calls, especially to my cell number. They are liars (saying I owe the IRS or my credit card is a problem). These calls come at all hours of the day and night. It is an invasion of privacy and causes my quiet lifestyle to suffer. It also costs money since these minutes go against my time
Barbara	Cadmus	MI	Getting robocalls on my cell is an invasion of my privacy. Please make them stop if not authorized by me.
Dennis	Richmond	TX	They're (I can provide a list of originating numbers) calling our cell phones as well as our home line, despite all being on the "Do Not Call" list. Please take action to prohibit & establish enforcement with heavy fines to stop these calls!

Glen	Edwardsville	IL	I have been on the "no call" list for several years now. I still get robo & unsolicited calls. I also get a combination of robo, then hang on to speak with an agent. As soon as they come on and you tell them your on the list they hang up. Some of the calls are masked to appear to come from "MY OWN NUMBER". These people are blatantly ignoring the FCC requirements. I am sure the phone companies involved can do something about it, but they ignore it also. The FCC needs to get serious and prosecute these people who blatantly ignore the no call list. Even the "politicians" who exempt themselves from the same laws others are required to follow.
Marvin	Newton	NJ	Robocalls are one of the most annoying things in my life. If a human calls, that may annoy me but it seems fair. Having a machine call me, without my permission, is unacceptably intrusive.
Milton	Wilmington	NC	I do not answer my land line anymore. I check about once a day for any personal calls. Do not let this happen with cell phones.
Douglas	Boulder	CO	Please stop these rude, annoying and disruptive invasions of our Privacy now!
John	Holland	PA	No Robo
Charles	Huntington Beach	CA	Please stop robocalls.
Carole	Austin	TX	I have had the same landline phone number since 1978. I get 30-40 robocalls a day. Now they are starting to come on my cell phone and via texts. These are NOT debt collection calls. These are drugs from Canada, how to consolidate credit card bills, political causes, charitable causes, "the IRS", "surveys" -- it drives me crazy! I use NoMoRoBo to stop many of them, but it won't work on my AT&T cell. Yes, I've put my name on the Texas and the National do-not-call lists and that makes zero difference. And -- there's no point in changing my phone number because then I'd just get someone else's robo calls. PLEASE HELP!!!
Lee	Wichita Falls	TX	There is nothing more annoying than unwanted calls by solicitors.
Dorothea	Hanford	CA	I have a pay-as-you-go cell phone plan. Each day my phone is used cost me \$1.00 plus \$.10 per minute. I seldom use my phone and this plan works well for me. Then I started receiving robocalls on my cell. Since I rarely use my phone every time one of these robocalls comes in it cost me \$1.10! I have only given out my cell phone number to a few people. I pay for this phone. I should be able to decide who has the ability to call me on my cell phone. It's only right. These robocalls are literally costing me a \$1.10 every time they call me. Why should I have to pay money for calls I don't want and didn't authorize? Please help stop this madness.

Martha	Palacios	TX	My cell phone is my personal property. I alone pay for the instrument and its airtime. No one should be able to access my personal property for their own use unless I have given explicit permission. No one should be able to access the property for which I pay in order to sell me goods or services I did not order. You have the ability to stop this. Act now on the concerns of millions of us that are accosted by these robo calls. If people owe unpaid debts, they should be reached by a person at a collection facility, not a robo call. Do your jobs - end this now.
Mary	Congers	NY	I do not want ANY robocalls on my phone! I do not care what company sends them!!
Jim	Ann Arbor	MI	It should be against the law for any one to Robocalls any one anywhere
Larry	San Diego	CA	I have my cell (Verizon) & land line (Cox) on Do Not Call list but get these annoying Robo Calls. Either trying to sell something I do not want, a pre-recorded voice that is not a live human but some kind of program that is keyed to my response, or just dead silence. These unwanted calls have increased to an all time high ! Please help us citizens from the invasion of privacy by STOPPING these unsolicited intrusions. Perhaps putting some Teeth in the Do Not Call program, huge fines against these offenders, or ????
James	Corpus Christi	TX	I have been divorced for over 10 years and I still get calls for debt for my ex-wife ALL THE TIME. There is no end to it. Please help to bring some peace to my life. These debt collectors use computers to call anyone and everyone that they think might have a small chance to collect. This is an infringement on my right to pursue happiness by not being harrassed for something I have no involvement. Where is the justice!
Robert	Kent	WA	My wife and I both have cell phones and we are paying for the time used. I always thought that robocallers were not to call cell phones for any reason.
Rita M	Biddle	MA	Please No more unwanted calls. Most people take their phones with them. Employer will not allow these calls to take place in the work place. What good is a cell phone than?
R.	creston	NC	Debt collectors should not have free and unlimited access to cell phones to harass customers and family members with calls and texts!
Joan	Osprey	FL	I'm tired of the pesty calls tying up my time on my phone where I must go in & Delete so many numbers.

Robert	Pensacola	FL	Freedom of speech shouldn't be the freedom to harass. Robo calls are pure harassment. Please consider the vast majority of people who don't want to be harassed during breakfast, lunch, dinner and evenings as late at 9-10p.m when making your decisions concerning robo calls, most of which are predatory. My wife and I get two to four robo calls each day. The latest one was supposedly from the federal government claiming fraud and the failure to contact them would result in a warrant for my arrest. Complete tripe.
Charles	Huntington Beach	CA	Please stop robocalls.
Carole	Austin	TX	I have had the same landline phone number since 1978. I get 30-40 robocalls a day. Now they are starting to come on my cell phone and via texts. These are NOT debt collection calls. These are drugs from Canada, how to consolidate credit card bills, political causes, charitable causes, "the IRS", "surveys" -- it drives me crazy! I use NoMoRoBo to stop many of them, but it won't work on my AT&T cell. Yes, I've put my name on the Texas and the National do-not-call lists and that makes zero difference. And -- there's no point in changing my phone number because then I'd just get someone else's robo calls. PLEASE HELP!!!
Douglas	Boulder	CO	Please stop these rude, annoying and disruptive invasions of our Privacy now!
John	Cashiers,	NC	robocallers to my cell phone are really bothersome! Hope you can do something about it
Richard	Fairfax	VA	We need to tightly regulate robocallers. Cell frequencies are a public resource licensed by the government and should be subject to strict regulation. Furthermore, the cell network should not be exploited to harass or otherwise victimize subscribers/consumers by allowing a barrage of robot calls.
peter	rockville	MD	please stop robo scam calls to to my cell phone
Stephen	Olympia	WA	No robocalls to cell phones for any reason ever! Got that? I didn't spend a lot of money on an iPhone to end up with the possibility of getting robocalls in addition to the junk calls I get already. While you're at it get rid of those damn robocalls to landlines, too.
Walter	Port Hueneme	CA	Robocalls are irritating. Someone demands your time with a robot.
Joel	Flagstaff	AZ	It is not only annoying, rude and obnoxious to receive robocalls on my cell phone but it also costs me money and when receiving calls from different time zones is disturbing. They are also potentially dangerous when concentrating on driving or other activities that require concentration for safety. DO NOT ALLOW Robocalls.

Les	Albuquerque	NM	Please stop robotic and other unsolicited commercial telephone calls to mobile telephones in the United States. The nuisance in my attempting to answer, avoid, or otherwise dealing with unsolicited telephone calls that only benefit the call sponsor and the call centers administering such calls is more than just aggravating, it is a waste of productive time and, I suspect, a drain on the national economy. I have unlisted telephone numbers, yet somehow these calls continue. Only the FCC can eliminate these intrusions. Please do so.
Sheila	Santa Clara	CA	I have started to get robocalls on my cell phone, way to frequently. It is never at a good time and I use my phone for business so it is really inconvenient. My business gets at least 4-5 robocalls a day, it is a land line, it is such a waste of time. I do not want my minutes on my cell phone to be used for a product I have no interest in, and I hate the intrusion. I am thinking of getting rid of my land line to just stop the robocalls.
Bob	Charlotte	NC	Robocalls to my landline and cell phone are very annoying and serve no legitimate purpose as far as I can tell. I get at least one call every day and often more, from some caller ID that I don't recognize. It usually shows some city and state on the caller ID. Do you have the power to stop these shady calls? If you have the power, please exercise it and make life better for us all by putting a stop to the robocalls.
Marvin	Newton	NJ	Robocalls are one of the most annoying things in my life. If a human calls, that may annoy me but it seems fair. Having a machine call me, without my permission, is unacceptably intrusive.
Cindy	Millcreek City	UT	Robo callers must inform us how to get off their calling list upfront.
Rebecca	San Jose	CA	Listen to your consumers! Without consumers, companies are worth nothing - and consumers outnumber companies by thousands!
Nancy	Pasadena	MD	A lot of cell phone subscribers have limited calls on their phones and will have to pay for these calls once the voice mail picks up or if they answer them. Even if their numbers are on the "Do Not Call List", this will not help. There should be a sensible way to stop this. I think Robocalls should be stopped altogether. I had the same Robocall number call my phone 6 times in one day and I am on the "Do Not Call List". Everyone I know ignores or deletes Robocalls so in the end they are a form of harassment and should not be used to collect debt or anything else.
Fred	Oak Park	IL	I am eighty- two and not in the best of health and am on the no call list more BS. It starts 8am till 8pm. I'am heaven bound because this is hell.

Mary Ellen	Painesville	OH	We signed all our phones up on the do not call list, house phone, and two cell phones. I am paying them, through minutes used, to harass me. I have been scammed by an outfit claiming to be Microsoft and it cost me \$89 to fix my computer. Now when the call I tell them to go F*** themselves. Enough is Enough !!! The do not call list is useless.
Glen	Placitas	NM	Stop rob calls to cell phones! Some woman gave out my phone number as hers and I have had dozens and dozens of calls from collection agencies. It's ridiculous to have that many calls to anyone and it wasn't even me who owes the bills or anyone I know.
Thomas	Folsom	CA	Do not cave in to the Robocall Lobby...cell phone charges for these unwanted intrusions are on me, the consumer...may as well be theft...end this practice now.
Robert	Painter	VA	We are on the "do not call list" and still receive 5 or six calls a day about credit card debt , advertising on Google , insurance , etc. please put a stop to this PITA.
Kindy	Port Townsend	WA	I do not want any robocalls to my cellphone without my permission. Regarding debt collection, no friends or family should be called, only the actual debtor, and no more than three times a month. There should be clear guidelines, easily accessed, and debt collection robocallers should notify us of our right to stop receiving calls.
Pat	Sebastopol	CA	Ban them. Invasion of privacy, harassing. Make them use the US Mail
nathan	san francisco	CA	no no robo
Rebecca	San Jose	CA	Listen to your consumers! Without consumers, companies are worth nothing - and consumers outnumber companies by thousands!
Ray	Framingham	MA	Stop robocalls
Art	Corona de Tucso	AZ	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available (Note: The FCC's disclosure differs from our standard privacy statement. Comments filed with the FCC are a matter of public record and will be viewable online, including name and address, after being submitted to the docket.)
Mary Ellen	Painesville	OH	We signed all our phones up on the do not call list, house phone, and two cell phones. I am paying them, through minutes used, to harass me. I have been scammed by an outfit claiming to be Microsoft and it cost me \$89 to fix my computer. Now when the call I tell them to go F*** themselves. Enough is Enough !!! The do not call list is useless.

HENRY	Williamstown	MA	Perhaps the most frustrating part of my day are the constant solicitation calls I receive, totally unsolicited. Also, when I ask to have my name removed, nothing happens. Even the "No Call List" doesn't work. Also, as far as collection calls are concerned, I do not have that problem but feel for the non holders of the debt that are called. This also should stop.
Noel	Tampa	FL	Those companies that use Robocallers should pay me for every time that I have to get up or run to the phone only to find that a machine is the one calling.
Robert	Painter	VA	We are on the "do not call list" and still receive 5 or six calls a day about credit card debt , advertising on Google , insurance , etc. please put a stop to this PITA.
Chuck	Aurora	CO	Please take action. I get calls all the time to lower my credit card rates. I DON'T WANT THEM.
Sara	Columbia	SC	We are on the "do not call" registry but it does no good. We are deluged with robocalls - a dozen or more a day. This is getting more and more out of control. We don't answer calls any more if we don't recognize the number. I can't spend part of every running to answer "garbage" robocalls (e.g. - "This is Rachel from cardholder services....") or robo hangups. My husband just got what turned out to be a robocall where the screen dispalyed MY cell phone number as the caller (so he answered it) --- but it was anther fake robocall about credit cards.
Richard	Brighton	MI	The number of unsolicited, irritating robocalls to our home phone, which is provided by Charter Commucation, continues in spite of "do not call" registry and personal please to cease this daily ntrusion to our lives. Please make robocalls illegal once and for all.
James	Tacoma	WA	Please take action to stop all robocalls, especially by requiring common carriers to block calls at the source.
ray	oakland	CA	I do not understand why the FCC would be considering a proposal to allow more automated calls. The policy trend recently, reflecting public sentiment, has been to reduce the number of automated calls. Reducing these programmed calls is the correct way to proceed and allowing a narrow segment of private interests to prevail over broad public opinion would just be another step in alienating the citizenry from the government that is suppose to be serving them.
Nolan	Placerville	CA	At least once every day I get an unwanted call disturbing my family dinner, my afternoon nap or even one early in the morning, I'm sick and tired of these calls. Wont you please have them stopped?

Nancy	Pasadena	MD	A lot of cell phone subscribers have limited calls on their phones and will have to pay for these calls once the voice mail picks up or if they answer them. Even if their numbers are on the "Do Not Call List", this will not help. There should be a sensible way to stop this. I think Robocalls should be stopped altogether. I had the same Robocall number call my phone 6 times in one day and I am on the "Do Not Call List". Everyone I know ignores or deletes Robocalls so in the end they are a form of harassment and should not be used to collect debt or anything else.
HENRY	Williamstown	MA	Perhaps the most frustrating part of my day are the constant solicitation calls I receive, totally unsolicited. Also, when I ask to have my name removed, nothing happens. Even the "No Call List" doesn't work. Also, as far as collection calls are concerned, I do not have that problem but feel for the non holders of the debt that are called. This also should stop.
Christian	Annapolis	MD	It is time that the FCC takes substantial action to end the nuisance of robocalls. It is atrocious to receive several daily unwanted robocalls from entities that I have absolutely no business with nor any desire to. I have my phones registered on the Do Not Call list but it seems to be worthless. The FCC needs to pursue these law-breaking entities and also push the carriers to block these annoying calls. The technology is there but for some reason, the carriers don't do anything unless required to do so. It is unfathomable to me why nothing gets done about this.
David	Urbana	IL	In the past several months my cell phone has rung about 3 times a day with robo calls. It is both frustrating and annoying that I keep getting them. I have no use or tolerance for them at all. Cell phones used to be a robo-free zone. Please make it so again.
Ellen	Placerville	CA	They are an invasion of my privacy. Who even listens to them?! They are annoying.
Kris	Springfield	OR	PLEASE stop robocalls. My 91 year old mother gets them at all hours of the day AND night. It wakes her up and scares her to death. Besides being annoying. If I had trouble with my computer I would call Nerds on Call, if I had trouble with my credit card I would contact my bank I don't need a call! Thank you
Tamara	Grass Valley	CA	I receive approximately 10-15 robocalls a day at our business. It interrupts and delays us while we are meeting with clients and servicing their needs. This must stop.
Rick	New Franklin	OH	Please stand strong and implement your proposed rules and guidelines to protect people against abusive debt collection robocalls to their cell phones.
David	San Antonio	TX	Robocalls are an unwanted, dangerous, and unwarranted intrusion. Stop them.
MIKE	ALTAMONT	NY	STOP ALL ROBOCALLS INCLUDING POLOTICAL CSMPAIAN ONES
Robert	Port Angeles	WA	Everyday I get unwanted phone calls from unidentifiable numbers. Please halt this nonsense!

M	Oakland	CA	After signing up years ago for the 'do not call' (a total ineffective effort from the git go) I urge you to crack down, eliminate all robo call, and prosecute companies and individuals who perpetrate these annoying interruptions to daily life. These cavalier and unconsciable entities that foist their calls on us are another example of the decline of civilized process in the modern world. Robo calls to land lines are bad enough, and cell phones are worse. Please, do something, won't you? Thanks
Lasse	Stafford Springs	CT	No robocalls to cell phone
Larry	Anniston	AL	We're on the Do Not Call list and still get 10-20 telemarketers robocalling us daily on our landline.. No way do we want this abuse to carry over to our cell phones!!! It's time that our government for the people and by the people actually stands up for the people it is supposed to represent.
Steven	Franklin	TN	The FCC should ban robocalls--my neighbor was terrorized by IRS-scam robocalls. No robocalls without permission. At the very least, consumers should be allowed to easily opt out of robocalls through carriers.
gilna	waynesville	NC	Please place every restriction possible on companies calling people on their cell phones. Isn't it enough that they continue to harass us on our land lines. This is outrageous.
Bob	Charlotte	NC	Robocalls to my landline and cell phone are very annoying and serve no legitimate purpose as far as I can tell. I get at least one call every day and often more, from some caller ID that I don't recognize. It usually shows some city and state on the caller ID. Do you have the power to stop these shady calls? If you have the power, please exercise it and make life better for us all by putting a stop to the robocalls.
Lynn	Foresthill	CA	I have recently received repeated calls from a recorded voice asking me to call back. The voice gave NO information as to who was calling, who the call was for, or the reason for the call. After ignoring many such calls, I finally received a call from a human being. It turned out the call was not even for me or my husband. These calls were made to our home phone, and that was bad enough; I don't want them coming to my cell phone while I'm driving. We use the cell only for urgent or emergency calls.
Tom	Rochester Hills	MI	Your duty is to regulate
Taras	Sunnyside	NY	Please do not provide legal exceptions to debt collectors with respect to robocalls. Please make sure the following is strictly adhered to in new legal framework: 1 Debt collection robocallers must notify us of our right to stop receiving calls 2 The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available

William	Missoula	MT	Robocalls on my land line are bad enough” particularly when they aren't required to use a real Caller ID” but I really hate them on my cellphone, which is even more "immediate" and costly to me.
Gary	Bellevue	WA	Right now my home phone is so swarmed with junk calls that it is almost useless as my primary phone. In order to keeping it from disrupting our lives we frequently ignore it when it rings. As a result we occasionally miss important calls. Even worse, these calls are creeping onto our cell phones where they can present a very real danger when they ring while we are driving. I ask you to take extreme measures in order to give us back our phones.
Peter	Kingston	NY	Robocalls should be considered an invasion of privacy for anyone who experiences needless calls wherever they are. Calls should only be received if the person expects them and wants them to come to them.
Rick	New Franklin	OH	Please stand strong and implement your proposed rules and guidelines to protect people against abusive debt collection robocalls to their cell phones.
Steven	Franklin	TN	The FCC should ban robocalls--my neighbor was terrorized by IRS-scam robocalls. No robocalls without permission. At the very least, consumers should be allowed to easily opt out of robocalls through carriers.
Tom	Rochester Hills	MI	Your duty is to regulate
suzanne	Bonita Springs	FL	These unsolicited calls are a mennace and must be stopped
Tom	Rochester Hills	MI	Your duty is to regulate
Catherine	Uniontown	OH	It is unconscionable to allow people or companies to consistently call us without our permission. This needs to STOP NOW.
Laura	Kearns	UT	I understand as I was once a debt collector, but now a days it has gone out of control. I get calls at all hours, even if the debt isn't mine! & The RoboCaller doesn't care, no soul. Please, control these calls. Also, make them leave a legitimate phone# to contact them back so we can tell them it's legitimately not us they are looking for.
Michelle	Richmond	CA	Robocalls are annoying enough. Getting them on something as dangerous as a cell phone that distracts from driving and other daily activities is beyond the pale.
jane	granger	IN	Please outlaw robo calls! Thank you.
David	Mesa	AZ	Very annoying getting these calls constantly throughout the day-everyday....
Michele	Dallas	TX	These calls are terribly disruptive especially when travelling overseas!!!
Thomas	Portland	IN	This practice is an invasion of privacy and a scam to collect fees for the cell phone providers! Please block this!
Bill	San Antonio	TX	Do everything in your power to stop robocalls to cell phones! There are still a lot of people who have limits on their minutes and they should not have to waste them robocalls. Not to mention the annoyance of the calls.

Paul	Fairfield	CA	Please do every thing that you can do to stop the calls.
Thomas	Portland	IN	This practice is an invasion of privacy and a scam to collect fees for the cell phone providers! Please block this!
Thelma	Reno	NV	There should be a limit to the number of robo calls to collect debts. Most people who owe debts would pay them if they could. Continued harassment won't change the amount of money they have.
Laurie	Lodi	CA	Please legislate some lawn legislate some laws that stop these intrusions into our lives. Please pass laws that stop them completely. I resent that they are still allowed to call for political reasons and to "take surveys". Please stop this
Eric	Narberth	PA	Please act to eliminate the ability of debt collectors to call our cellphones! This is especially needed to the error rate of such collection activities, and, frankly, the ferocity of the collectors.
Thomas	Baltimore	MD	I oppose robocalls to my cell phone without my permission. I carry my cell phone with me all the time, and I don't want to be interrupted by robocalls, which are a nuisance and in which I'm not interested.
Clayton	ASHEVILLE	NC	It amazes me that anyone can make robocalls on any phone number and never be prosecuted. The "Do Not Call" lists and useless and are ignored by robo and cold callers since they know that no action will be taken against them. These laws must be changed and enforced. I am especially concerned about cell phone cold and robo calls since I wast my time and I lose money. Please do something about this activity.
Rod	Nokomis	FL	This is an unwanted and intrusive invasion of our lives when companies can robotically call thousands of people at home and try to sell them something. If the situation were reversed, I'll bet these people employing robocall equipment would be asking it come to a halt too. Please stop this practice.
Dee	Upland	CA	We get three to four calls a day! We are supposed to be on the no call list! This is so disgusting, a waste of our time and an inconvenience! Stop the robo calls now! Especially to our cell phones?
Joseph	Delano	CA	Put an end to abusive rob calling & Fax's
Retta	Woodlands Texa	TX	Now they phone you using numbers that are not 1800 but with prefixes that either in state or outer states. They phone mutiple times back to back at all house of the morning g and night. Even with a block on these robot calls they find a way to continue to call your cell phone or land lines.
nancy	Treasure Island	FL	Because of the endless robo calls I receive on my cell phone, I am not able to set up voice mail which I would like to have because I would be paying for each voice mail left by robo callers on my pay by call cell phone plan. These calls must be stopped.

Margie	Pleasant Valley	NY	I'm already on the do not call list at home and on my cell. I get about one to two calls per day on my cell, and more at home and would like for this to stop. Please help us establish something so that I do not get these calls. Many senior such as myself, as well as other people, have phones where, in addition to the annoyance factor, they have to pay for these calls.
William	Pearl River	NY	Please stop the debt collection robocalls. when a person is financially down, please don't allow the debt collection agencies to do robocalls to further worsen the hardship of the person in debt by affecting the cellphone lifeline. That is clearly predatory practice in the worse sense. It is like kicking someone in the head when they are defenseless.
Peter	Boulder	CO	I hate robocalls.
david	Marietta	OH	I do not want robocalls ever
Donald	Fresno	CA	We DO NOT want them.....
Linda	Clackamas	OR	I am tired of being woke up every morning at 8am by robo calls! These call are nothing but scams. If I let the phone ring it wakes the whole house. I fell and injured myself trying to get from a dead sleep to the phone, as to not have it wake my ill roommate. We are to 69 and 74 year old ladies. There seems nothing to stop these people. The callers claim to have the right to do what they do. HOW ABOUT MY RIGHT TO REST AND PEACE IN MY OWN HOME?
Kathleen	Issaquah	WA	Incoming calls are still charged by the minute, even listening to voicemail. Robocalling in general is just another name for harassment, and should not be tolerated. Creditors owed money on a legitimate debt should not get to harass innocent family members; they shouldn't get more rights or the right to disrupt the peace of other people.
Diana	Philadelphia	PA	PLEASE do something to stop these constant interruptions. Robocalls are a public nuisance. I have to screen every call and am bmbarded with about 10 of these calls daily!
Gerald	Staunton	VA	The Federal Communications Commission needs to put the interests and wishes of the public at large ahead of the slimy desire of debt collectors to annoy not only persons owing money but their family members, employers, and acquaintances. Collection practices must be constrained within the bounds of reasonable hours and frequency of contacts. The proper role of government agencies is to serve the public, not to grovel before lobbyists.
Carole	Maplewood	MN	Robo call are a form of harassment!!!
Joel	Cornelius	OR	Extend the do-not-call list to all unsolicited robocalls, including sales, politicians and debt collectors. The do-not-call list should be more than 2 years. Also if there is an unsolicited call, there needs to be an option to say that you do not want to be called ever again, and the unsolicited caller must abide (whether a person or robocaller).

Linda	Atlanta	GA	No more robo calls, they call morning and evening! Very intrusive! I am 70 years old and I have calls to forgive my student loans!! Lower my interest rate (I have no debt). PLEASE stop these calls. I got rid of my land line, because robo calls were all I got on my answering machine.
John	San Antonio	TX	The Government is supposed to support the desires and needs of the people - NOT to let Business do what ever they want to foster their selfish, financial desires! STOP RoboCalls. I have my home and cell phones listed in the Government's Do-Not-Call program, but it does no good - Business continually call and do not stop when told to do so.
Steve	West Sacramento	CA	As millions of clearly-oppressed, financially-impooverished Americans have for some time, unfortunately, come to realize, government's best previous motivations and efforts to instill, rein-in, regulate, and restore the merest hint of common fairness, justice, honesty, and widespread respect for communal authority (legal), particularly amongst legions of otherwise-clueless; deliberately anti-social; contemptuous; egomaniacal; rude; insulting; unscrupulous; mendacious; shameless; unconscionable; scheming; conniving; DISREPUTABLE; duplicitous; immoral; unethical; criminally-bent; predatory opportunists, gleefully-discrediting and infesting both the ultra-contemptible; phony-as-can-be; arch-profiteering; 'anything-goes' "debt collection" INDUSTRY, as well as THAT SYNDICATE'S like-minded; conscience-less; self-stroking; self-enfatuated; rules-scoffing accomplices in the enforcement-lacking world of MARKETING INDUSTRY 'egotists', will continue to be problematic... i.e., largely unsuccessful in restoring the hoped-for cooperation and values of decency, honor, civility, respect for others and the rule of law, and integrity amongst such vulturous louses. Short of involuntarily rescrambling the cortical synapses of Rightwing-Repugnican, criminally-sociopathic, GREED-rationalizing worshippers, in this case amongst many WEALTH VULTURES who aided and abetted the Bush Adminstration's wholesale (criminal) war of deregulation and plundering against the middle classes, SHAMELESSLY STEALING BILLIONS of dollars from the tenuous and precarious securities of average people, simultaneously enriching themselves and their idols (their BILLIONAIRING-obsessed benefactors) with an anti-taxation cash haul unprecedented since the Great Depression itself, these KNOW-NOTHING, dogmatic perpetrators of the 'financial meltdown' continue propagandizing their shameless contempt for 'THE COMMON MAN'. Their brand of self-centered, conscience-less selfishness literally KNOWS FEW
john	Estherville	IA	They call my business line ALL the TIME and never leave a message if I don't answer. This needs to stop; calling at all hours, evenings, weekends, even Sunday night!
John H.	Rochester	NY	Sick and tired of robo-calls "eating up" minutes on my cell phone. Stop them now!!!!!!!!!!
Dr. Raymond L	San Diego	CA	Robocalls are an intrusion into my privacy. Solicitations are unwelcome as well as bothersome.

Pat	Vancouver	WA	I do not give my cell phone out yet I am getting robo calls every day. My phone is on the "Do not call" list and since registering it, I'm getting more calls than ever. We need some teeth put into the Do Not CALL lists and stop these unwanted calls.
Stephen	Aliso Viejo	CA	Please FCC, No More RoboCalls of any type! They are so unfair and so annoying! Thank You, Stephen Libin & Marylene Carrasquillo 30 Via Bacchus Aliso Viejo CA. 92656
Sharon	Portland	OK	My phone was on the do no^ call list, yet I am constantly getting calls about my credit card account. I do. Not carry a balance. They would call once a week and they kept calling. They were flouting the law. I had to get rid of my land line. Reporting them did no good. Please do something.
Pennelloppe	Beaverton	OR	As a poor person with a pre-paid phone card phone, I use it for only necessary communication. Unwanted calls cost me 'units' of use that I cannot afford to waste. Not only are scammer calls and debt collection for other people annoying to me, but it is like stealing money out of my pocket.
Gregory	Alexandria	MN	In my area, people have widely been receiving very threatening robocalls from people claiming to represent the IRS and Student Loan servicers. Imagine what will happen when it's no longer the case that such agencies will NEVER call you. How on earth will people, especially older people, tell the difference between a legitimate call and a scam? At the very least, new rules and guidelines must require that 1. robocalls proclaim clearly, at the beginning of the call, who EXACTLY is calling and what the purpose of the call is. 2. robocalls must give a clear method by which the receiver can require that the agency STOP calling them (regardless of whether or not they have paid the funds the calling agency is demanding). 3. the total number of calls combined with texts is limited to 3 per month (when the receiver has not forbidden such call/texts). 4. rules and guidelines are readily available to the public. and 5. methods for invoking enforcement action against agencies violating those rules and guidelines are made clear and readily available to the public.
Darrel	Shamokin	PA	Please stop these annoying and unwanted robocalls that we continually get at all hours !!
William	Pearl River	NY	Please stop the debt collection robocalls. when a person is financially down, please don't allow the debt collection agencies to do robocalls to further worsen the hardship of the person in debt by affecting the cellphone lifeline. That is clearly predatory practice in the worse sense. It is like kicking someone in the head when they are defenseless.
John	Oxnard	CA	I believe I should have control over the use of my cellphone. It is not a tv or radio. I don't want any robocalls and neither do the vast majority of people.
Douglas	Marshfield	MA	Please stop robo-calls

Benjamin	New Orleans	LA	Please further restrict the predatory calls and robocalls used to defraud and harm Americans daily.
samir	hasbrouck hights	NJ	please stop all robocalls , I have been receiving calls all the times and when I ask them to stop calling and take me off the calling list they call me a lot more .
Paul	Severna Park	MD	People deserve privacy and to harassment from automated callers and dialers.
EVE	PRESCOTT	AZ	THE MOST ANNOYING THIN IN MY LIFE AT AGE 80 IS ROBOCALLS OR STRANGER CALLS. I WILL NOT DO BUSINESS WITH ANY ONE WHO CALLS ME.UNLESS I HAVE ASKED THEM TO. IT IS HORRIBLE THE AMOUNT OF ADVERTISEMENT ON THE TV AS WELL AS THE INTERNET. I HAVE ALMOST STOPPED WATCHING TV BECAUSE I FALL ASLEEP WHEN THE COMMERCIAL INTRUPTS THE PROGRAM ANDI FALL ASLEEP MISSING THE END AND BEG OF NEXT PROGRAM. .
Julianne	Laguna Beach	CA	I get so annoyed getting calls from Solicitors offering services and goods I'm not interested in!
Neil	Jonesboro	AR	Please, please, please, STOP THESE CALLS! I get so many of these calls it's not even funny. They eat into my cell minutes (I have a pay as you go tracfone (not a government phone that I qualify for)) waste my time on products I neither need, want or asked for and are annoying beyond belief! I ask repeatedly to be connected to an operator, when finally that happens I ask to be taken off the list before I can get all the words out they hang up (so they can say I didn't ask to be removed). This is a frustrating daily occurrence and I would like it to stop. I am often on call as I am a special procedures tech working in a cath lab as such I must answer the phone just to keep the line clear. Neil Murray RT(R)(CV)
Thomas	San Pedro	CA	Please relieve us of this onerous burden. Restrict these unscrupulous bullies from making us their defenseless victims.
Darrel	Shamokin	PA	Please stop these annoying and unwanted robocalls that we continually get at all hours !!
Maureen	Mashpee	MA	Robocalls are intrusive. I have to put my phone on silence just to enjoy a robocall-free meal.
Neil	Jonesboro	AR	Please, please, please, STOP THESE CALLS! I get so many of these calls it's not even funny. They eat into my cell minutes (I have a pay as you go tracfone (not a government phone that I qualify for)) waste my time on products I neither need, want or asked for and are annoying beyond belief! I ask repeatedly to be connected to an operator, when finally that happens I ask to be taken off the list before I can get all the words out they hang up (so they can say I didn't ask to be removed). This is a frustrating daily occurrence and I would like it to stop. I am often on call as I am a special procedures tech working in a cath lab as such I must answer the phone just to keep the line clear. Neil Murray RT(R)(CV)

Wendy	Santa Barbara	CA	I do not want to pay for robocalls and solicitations. My minutes are for my use. Thank you for your consideration.
Thomas	San Pedro	CA	Please relieve us of this onerous burden. Restrict these unscrupulous bullies from making us their defenseless victims.
James	Memphis	TN	They are an annoyance, and I'm sure that they cause many that receive them while driving to be distracted.
Darrel	Shamokin	PA	Please stop these annoying and unwanted robocalls that we continually get at all hours !!
Jerry	Missoula	MT	Recorded phone calls should all be outlawed, they are really abused. Put some teeth in the law, & do it now. Thanks
Kenneth	Etowah	NC	I am angered and frustrated and the Government's apparent disinterest in thwarting robocalling harassment on both my home telephone and mobile telephone. What good this the "Do Not Call List"? I diligently report most of the harassing robo and telemarketing calls to no avail. I was one of the first to sign up to the "Do Not Call List". The FCC should be embarrassed to have this so-called service. Passing a law and then not enforcing it makes scofflaws and fools of all of us. PLEASE, respond to the requests you are receiving and do something tangible about these annoying and disruptive telephone calls.
harry	Burke	VA	Please take action to eliminate most and limit legitimate federal debt collection robocalls.
Karen	Clarion	PA	Robo Calls have no business making calls to me on my cell! You can stop this -- please do!
Garrett	Frederick	MD	Please help me block robocalls to my cell phone. Please help me prevent robocallers from ruining my life.
margaret	walton hills	OH	I pay for the ability to communicate privately on my cell phone and will never consent to unsolicited communications. The intrusion of these calls is an assault on my right to privacy and offends me deeply.
Evelyn	Napa	CA	FCC must find a way to eliminate this invasion of privacy.
William	Chattanooga	TN	Just do it
Gary	Corpus Christi	TX	They are constantly interrupting my work.
Frederick	Cheshire	CT	95% of the time our phone rings its people trying to sell us something or test to see if our line is answered so they can sell it to someone else. This is not just an invasion it's an attempt to scam us and you. Please shut them down today. You must get these calls as well. PLEASE HELP.
Pam	Lacombe	LA	We need to put an end to ALL robot calls! They are harassing and intrusive. I received 15 robot calls in one day this week from false IRS agents demanding money. These people had my name, address and telephone and when I challenged them they got abusive. I filed a complaint to https://www.treasury.gov/tigta/contact_report_scam.shtml . Enough is enough!
Jane	San Antonio	TX	No robo calls to cell phones or land lines
Suzanne	Ona	FL	I hate robocalls on my cell and cannot block or stop them.

Timothy	Chicago	IL	We have reached a point where the Do Not Call Registry is widely ignored (how many calls before "Rachel at cardholder services" is voted the most obnoxious person in North America?), and non-exempt calls either do not offer an opt-out option or just plain ignore it. The prohibition on calling cellphone numbers is continually ignored. This invasion of all of our lives is time-wasting and a widespread source of irritation, and we need both diligence on the part of the FCC to more strictly regulate the type and frequency of calls as well as vigorously enforce the restrictions. Please act decisively in favor of the public.
Thomas	San Pedro	CA	Please relieve us of this onerous burden. Restrict these unscrupulous bullies from making us their defenseless victims.
Ronald	Newtown	CT	Unsolicited telephone calls to my landline is bad enough, but increasingly I am receiving unsolicited calls to my cell phone. Please institute rules and harsh financial penalties for those the violate the rules for unsolicited calls.
Joseph	Moorestown	NJ	Allowing robocalls is evidence of the ownership of government by corporations rather than citizens.
Alan	Fleming Island	FL	Although we have an unlisted land line phone number, we were inundated with calls from "charities", from people who wanted to sell us something, etc. Fortunately we learned of a way to block most of these. So far, we have not received robocalls on our cell phones.....please do not allow these parasitic callers to gain access to our cell phones. They tend to call in the evening, at dinnertime, times when they assume we'll be home.....there is no way to determine which "charity" is real, so I will never donate to one over the phone. REQUESTING them to "take our number off your list" which we were originally told should block them, does nothing.....most calls are made by recorded messages and there is no way to communicate with them.....they are frustrating, time wasting, and pointless. Please do not allow them to slip into being able to call our cell phones or to again call our land line phone. Thank you, Mr and Mrs Alan Leveton
Eldin	Kawkawlin	MI	I have a prepaid cell phone and pay for every minute used so everytime I get an unwanted call it costs me money even if I hang up right away it still costs me a per minute charge.
Pam	Lacombe	LA	We need to put an end to ALL robot calls! They are harassing and intrusive. I received 15 robot calls in one day this week from false IRS agents demanding money. These people had my name, address and telephone and when I challanged them they got abusive. I filed a complaint to https://www.treasury.gov/tigta/contact_report_scam.shtml . Enough is enough!
Barbara Ann	Meadow Vista	CA	Robocalls are so annoying from anyone. Give me a real person or don't call. Enough!!

Duncan	Crossville	TN	Our phone is on the no call list (931-456-5578) but we keep getting calls from the following numbers : 615-843-9016--800-855-257-3160--1-407-334-2125--Not Available 114073342125--631-402-9343
Richard	Helena	MT	++ This is my phone. It's not yours, theirs or anybody elses. I don't own a phone so someone else can do any kind of business without my permission. I want control over my phone. Completely.
Carol	Hackensack	NJ	Stop Robocalls now!
Virginia	Salisbury	NC	My cell phone is paid by me. I use it for emergencies dealing with my family and listen to music. Nothing else. I don't pay for unwanted calls. It's that simple.
Norman	Chesterfield	MO	We would appreciate your help in stopping these unwanted calls which are coming with more frequency.
June	Mt. Laurel	NJ	Don't want those calls on home or cell phone. I get at least 5/day on home phone.
Suzanne	Ona	FL	I hate robocalls on my cell and cannot block or stop them
Larry	Tulsa	OK	Please take the necessary action to stop robocalls to cell phones.
john	tacoma	WA	It is about time our so called elected representatives called these actions to a halt!
Marilyn	Knoxville	TN	I do not want robo calls
Lynn	Irving	TX	I pay for the use of my cell phone. I DO NOT want robo calls using up the minutes I pay for to cover their ads. I don't want any of these at all.
Gym	Sarasota	FL	I receive on average two to three Robocalls per week.
james	belton	MO	stop all robocalls
Kalman	Somerset	NJ	There should be an easy way to reroute robocalls to the members of the Board of the FCC. This would result in an immediate solution of the problem.
Eldin	Kawkawlin	MI	I have a prepaid cell phone and pay for every minute used so everYtime I get an unwanted call it costs me money even if I hang up right away it still costs me a per minute charge.
Timothy	Chicago	IL	We have reached a point where the Do Not Call Registry is widely ignored (how many calls before "Rachel at cardholder services" is voted the most obnoxious person in North America?), and non-exempt calls either do not offer an opt-out option or just plain ignore it. The prohibition on calling cellphone numbers is continually ignored. This invasion of all of our lives is time-wasting and a widespread source of irritation, and we need both diligence on the part of the FCC to more strictly regulate the type and frequency of calls as well as vigorously enforce the restrictions. Please act decisively in favor of the public.

John	Kenmore	NY	I receive unwanted solicitation calls at least twice per week, and daily on some weeks. When I don't recognize the number I don't answer, but this causes the solicitors to continue calling every day; this lasts 1 to 2 weeks. I respectfully request that the FCC put in place a way for me to stop these calls from both in state and out of state solicitors. Thank you.
ROBERT	VILLA RICA	GA	STOP ROBO CALLS ON LAND LINES & WIRELESS PHONES
Nat	Mantua	NJ	Thank you for your help in keeping our cellphones from getting gummed up with garbage.
Robert	Sahuarita	AZ	There is not a day that goes by that I don't receive 8 to 10 robocalls on my cell phone and 5 or 6 on my landline. I have been signed up for the "Do not call" list for years, but they just keep coming and are now getting worse! I have never done business with these companies and they are not legitimate charities or political organizations. It is getting to the point where I am considering dumping my cell phone. I have already turned off the ringer on my land line, which I only keep for calling 911 if necessary. PLEASE try to do something to stop this!! If they are using spoofed numbers, try to set up a system where the call does not go through if the number is a fake. Or give us the name and address of the people/companies who continue to flout the law can be dealt with on a personal basis!
Lorraine	Chicago Heights,	IL	Please institute the strongest protections against the companies who robocall our cell phones. In the last 3 days I have received 5 robocalls on my cell. I have listed the cell phones and residential phone on the FCC DO NOT CALL listing but have started getting calls again. This situation is getting ridiculous. I have also filled out forms on the website listing the calls.
Robert	Lake View Terrace	CA	I was forced to give up my landline because of over 20 robocalls per day. If robocalls are allowed on cell phones i will be without a phone.
Paul	Dallas	TX	No Robo calls to cell phones
Bruce	Seaford	DE	I am tired of getting robo calls both on my cell phone and home phone. I just a second ago got another one telling me my business has been approved for a loan. Cell phone calls use time on my account and thus costs me money. Please stop this!
Ros	Bayside	NY	Robocalls use up minutes that you are paying for. They are most annoying and should not be allowed on ANY phone. They are also used for scamming people. This practice should be banned entirely. If this cannot be done, then the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
Aubrey	Lewes	DE	They start as early as 8:AM and go on through out the day and now my CELL phone is catching up with my Land Line.. Very, very annoying !! H E L P !!!

June	Mt. Laurel	NJ	Don't want those calls on home or cell phone. I get at least 5/day on home phone.
Gym	Sarasota	FL	I receive on average two to three Robocalls per week.
Robert	Sahuarita	AZ	There is not a day that goes by that I don't receive 8 to 10 robocalls on my cell phone and 5 or 6 on my landline. I have been signed up for the "Do not call" list for years, but they just keep coming and are now getting worse! I have never done business with these companies and they are not legitimate charities or political organizations. It is getting to the point where I am considering dumping my cell phone. I have already turned off the ringer on my land line, which I only keep for calling 911 if necessary. PLEASE try to do something to stop this!! If they are using spoofed numbers, try to set up a system where the call does not go through if the number is a fake. Or give us the name and address of the people/companies who continue to flout the law can be dealt with on a personal basis!
Judy	Irvine	CA	My cell phone rings at least five times a day with unwanted robocalls. The "do not call list" is ineffective in stopping these on either my cell or land line. Since most of my calls are from family, I always have to check and see that a family member is not calling about something important. This could be while I am driving, at an appointment or out shopping. I have to pull to the side of the road (not always easy on a freeway) to be sure the call is not important. I can lock my front gate to keep out unwanted solicitors, but I am unable to "lock" them out of my phone. Please make robo calls off limits. Debt collectors should call in person to discuss debts and not be allowed to harass debtors with robo calls at all.
Christian	Annapolis	MD	It is time that the FCC takes substantial action to end the nuisance of robocalls. It is atrocious to receive several daily unwanted robocalls from entities that I have absolutely no business with nor any desire to. I have my phones registered on the Do Not Call list but it seems to be worthless. The FCC needs to pursue these law-breaking entities and also push the carriers to block these annoying calls. The technology is there but for some reason, the carriers don't do anything unless required to do so. It is unfathomable to me why nothing gets done about this.
Marcia	Parker	CO	I have been on donotcall.gov for years, constantly turn in robocalls and still get them. It's abuse.
ROBERT	VILLA RICA	GA	STOP ROBO CALLS ON LAND LINES & WIRELESS PHONES

Joshua	Austin	TX	Please do whatever you can to stop robocalls. I am tired of random calls from salesmen and pollsters. I also do not believe debt collectors should be allowed to pester people excessively and they absolutely should be not able to hassle debtors' relatives, friends, housemates, etc. There should be fines for the callers who violate these rules and the fines should be high enough to strongly discourage such callers. The rules should be clear to anyone, not just a communications industry lawyer, and they should be available to the public. Thank you for your attention to this.
Judith	Barefoot Bay	FL	The credit card services calls are the worst. If you request an agent to remove your number they hang up on you and call back with a different phone number. Help please.
June	Mt. Laurel	NJ	Don't want those calls on home or cell phone. I get at least 5/day on home phone.
Harry J.	WEST LAWN	PA	Almost all townships and municipalities have ordinances against door to door solicitors, are robocalls and telemarketers any different? I remember decades ago when they were contemplating a no-brainers like caller ID- This is another no-brainer -- with many people in this country working non standard shifts, (factory workers, medical personal, retail stores, restaurants, etc.) who wants to get awoken by some rudely awakening nonsense call . Obviously "Do Not Call" is a failure - I have repeatedly registered and repeatedly received unsolicited annoyance calls - as if we are not subjected to enough sales pitches or I am too stupid to go shop for my own insurance, credit cards, health care , etc. that i need to call me at my most inconvenient times! I think this is a matter of security and privacy ,that the phone service providers should be held responsible for and to be made to monitor, and enforced with substantial fines and cancellation of services to offenders. Furthermore, companies that provide these services should be shut down . WHO have you heard say " I love getting these calls from either telemarketers or computers when I am taking a shower? sleeping? in the bathroom?, in the basement laundry area? What are the justifications for allowing the constituents to keep being intruded on by these home privacy invaders? That someone can make a buck over someones disturbances? And they have extended their invasions of our privacies to sending spam email and junk snail mail- just what I need to have people steal more time out of our busy days.Why do they assume then that they have the right to call me and then tell me I have the right to not recieve any more calls, I feel I have the right to not be called in the first place -- how many businesses are in thei scountry?- and I should get a call from each and every one of them before they are told to not call me? How absurd!

Ruth	San Jose	CA	I pay a higher rate to get anytime minutes on my cell phone because I objected to being charged extra for all the unsolicited advertising calls I get. Please do something about this tsunami of calls. Robocalls are the worst; they keep coming even after you "opt out."
Jill	Fort Oglethorpe	GA
Harry J.	WEST LAWN	PA	Almost all townships and municipalities have ordinances against door to door solicitors, are robocalls and telemarketers any different? I remember decades ago when they were contemplating a no-brainers like caller ID- This is another no-brainer -- with many people in this country working non standard shifts, (factory workers, medical personal, retail stores, restaurants, etc.) who wants to get awoken by some rudely awakening nonsense call . How absurd!
Edward	Sandy Hook	CT	Please take whatever action is needed to stop and prevent the annoying and sometimes threatening robo calls that have become very prevalent.
Peter	Williamsburg	VA	Please do everything you can to stop Robocalls to cell phones. They are intolerable.
diana	santa fe	NM	I am not interested in robo calls...impersonal and not provoked by me..
Carl	E Meredith	NY	I get charged for the frequent and totally unwanted robocalls to my cell phone. This should be illegal.

Tanya	Yellow Springs	OH	1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family (I can not tell you how many times we've received phone calls from debt collectors for an estranged family member. Even when we say we do not have contact with this individual ever, they still call back two days later! Who is that helping?) 3. The guidelines should be clear and readily available.
David	Carmel	IN	PLEASE adopt strong robocall rules right now, We're tired of getting disturbed by cell phone robocalls while working.
Paul	Dallas	TX	No Robo calls to cell phones
Frank	Obvious	OR	PUT A STOP TO THESE UNWANTED AND UNSOLICITED CALLS NOW!
Robert	Columbus	GA	Leave my cell phone alone! so called Debt collectors' bogus robocalls from an attorney's office in Detroit, Michigan hounded me for years ON MY REGULAR LANDLINE PHONE after I had already paid my balance directly to Dell Computer Finance FAR BEFORE ANY DEBT COLLECTION ACTION WAS LEGAL. It was bad enough to receive them on a landline phone. Anyone who receives debt collection calls of any time whether CELLPHONE OR landline IN ENTITLED TO BE PROTECTED FROM harassing practices. Callers who use harassing robocalls should be required to limit these calls. Further, any caller should be required to state exactly the full name of the person actually owing the deb; the name, city, state and telephone number of the individual entity actually having the right to contact, the the right of the person called actually owning the debt to limit these calls, AND the obligation to the person contacted, IF NOT the one owing the debt, to cease and desist calling them. to permanently remove such persons name and telephone from any related calling list, and for the entity to be subject to automatic blocking & forwarding of such company's call, calling number, and identifying information back to that company, its telephone number(s) and to a list maintained by the FCC of such numbers & organizations. Further, documentation of multiple harassing calls from same entities, numbers, dates / times be subject to be made available and summarized, and forwarded to individuals being harassed, forwarded to such harassing entities' point of contact, and summarized for appropriate action by the FCC.
Peter	Williamsburg	VA	Please do everything you can to stop Robocalls to cell phones. They are intolerable.
Harry	Boyce	VA	Enough is enough!
Joseph	Kensington	MD	Stop RoboCalls now!
Stefanie	Raleigh	NC	Please do not allow robocalls to cell phones. It's bad enough on landlines but cell phones should definitely be off-limits

Sally	Portland	TN	Was annoyed on my home phone so often by advertisers-in spite of "do not call"that I had phone disconnected-no tax dollars for you governments. NO MORE UNWANTED CALLS NEEDED!!!
Gretchen	Minneapolis	MN	I oppose all robocalls to my cell phone. Please do not allow debt collectors to robocall anyone with federal student loans or back taxes. Stay strong against debt collectors who want to open the floodgates to these calls. Please implement the strongest possible rules against robocalls to cell phones, limiting the number of allowed calls or texts to no more than three per month, and only to those who directly hold federal debt--not friends and family. The rules should also guarantee that anyone receiving a debt collection robocall is clearly told he or she can opt out, and is able to do so painlessly. Thank you.
Barbara	Whitmore Lake	MI	I am getting constant robocalls on my mobile. The FCC has the obligation to curb this menace! Thank you!
Kris	Darien	WI	Cellphone robocalls are more annoying than getting them on a home phone.
Joseph	Brooklyn	NY	Rob calls for solicitation should be prohibited without exception. No company, political organization, or charity should have the right to invade one's privacy. These calls have a recording that says if you want to eliminate our calls press 2. If you press 2 then they call from another number. Same message and same voice. They do not respect our privacy. I would NEVER patronize a company that redoes calls. This invasion of our right to quiet enjoyment should be respected. The lobbyist should not have a bigger say in government than the electorate.
Vicente	Miami Shores	FL	I want the strongest possible controls on robocalls extended to cell phones.
Michael C.	Roseville	CA	Who is in control ?
Frank	Obvious	OR	PUT A STOP TO THESE UNWANTED AND UNSOLICITED CALLS NOW!
Joe	Springfield	OH	All of sudden I am getting calls that the IRS is trying to collect money I owe. I don't owe IRS anything. There are many other calls with only numbers, there are no names! Such calls are increasing as time goes by. The IRS calls are new; they started last week.
Deborah	Hilliard	OH	I am inundated with ROBO Calls, 24/7. There are a variety of 20+ different Robo phone numbers that, even though I have them all blocked, they STILL continue to call my cell phone number ! I have a T-Mobile pay as you go plan, and T-Mobile tells me there is nothing they can (or will) do to eliminate these numerous ROBO calls ! ! They inconvenience and agitate me to no end ! ! :(
Robert	Valley Cottage	NY	Please do whatever is necessary to stop robocalls. The do not call list is a joke. No one adheres to this. My home phone, work phone, and work cell phones ring all day and it isn't calls for me. I'm actually thinking of getting rid of my home phone as robocalls and telemarketers are ruining our peace of mind!

Dorothy	Boynton Beach	FL	I get as many robo calls on my land line (which is business and always come in when I am on business call) on my cell I want it to stop
Zeenat	Orl	FL	Stop these calls that confuse seniors and trick them In to taking action that hurts them. I get calls telling me my computer has virus and I need to clean it they will help. At least 1 call a week. Get calls telling me this is IRS I owe back taxes.
Frank I.	Concord	NC	I have just contacted Verizon; requesting "do not call"; on all robocalls.
Ken	Redding	CA	Robocalls are quite intrusive. These folks should not be allowed to intrude into our homes uninvited.
S	ABQ	NM	I don't want robo calls annoying me!
Robert	Montclair	CA	Stop robo calls!
Michael	Phoenix	AZ	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Rick	Wilmington	NC	Fcc I constantly receive robocalls on my cell.asking the caller to stop does not work.please stop this disruptive behavior .
Susan	Los Angeles	CA	these calls are so annoying and now they want us to pay for them on cell time. It is a crime.....And what is with the calls that don't leave a message or don't speak when you pick up.....
Kathleen	Kensington	MD	This is a matter of good sense. Thank you for taking action -- no robocalls to cell phones.
Charles	Honolulu	HI	please take action to prevent robocalls immediately
Charles	Portland	OR	As a physician who is almost always available to my patients, I have to keep my phone on at all times. Robocalls interrupt my patient contacts and my personal time.
gary	carmichael	CA	Right now, the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact debtors on their cell phone. The debt collection industry is pressuring you to back down. You must push back against the predatory lenders and shady companies that rely on invasive robocalls or the American people will be stuck screening unknown numbers and malicious texts around the clock. I oppose robocalls to your cell phone without my permission. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Do it now! Thank you for your attention to this matter.
Margaret	Brookhaven	PA	These calls are invasive, generally a waste of everyone's time and in some cases exploit the elderly and special needs individuals
Jay	Marietta	GA	Can't we at least have a little peace in our own homes?

Natasha	Lathrup Village	MI	Please stop.unsolicited calls and harassment.
timothy	wellsville	OH	These India accent thieves continue to call and tell me they want to fix my computer. Microsoft does NOT make unsolicited phone calls to help fix your computer. I cuss these idiots out and they call back the next week. Caller ID shows unnamed caller and I think they are stealing numbers to mask their location. Probably illegal immigrants or overseas hackers. I am going to start making death threats to these hackers because they don't stop calling me. They can barely speak English. FUCKING BASTARDS...
Howard	Boca Raton	FL	Attention FCC: Please stop all robocalls to cell phones and home phones. Nobody, regardless of race, income or religion, should be harassed by unsolicited phone calls. I should be able to make the decision as to whom calls me.
Mark	Hollywood	FL	Stop Robo calls!!!
Robert	Virginia Beach	VA	The continued proliferation of ro calls is more than annoying. Routinely, even when I answer there is no one there. If I do not answer, it rolls and leaves a blank voice mail. Enuf is enuf
Gregory	Portland	OR	Please respect my right to privacy and keep my cell phone number off Robo call lists!
test	test	TX	test
Valdis	Northridge	CA	This is now out of hand. I receive some 10 or more calls a day with all kinds of requests and threats, including IRS, mortgages, etc. I am on the do-not-call list, but that does not seem to curb these activities. Please, stop this!
Arthur	Burlington	VT	Please help stop these unwanted, useless, aggravating, and waste of my time calls. They are interruptive with no consideration and disrespectful often focusing on dinner time which alienates me before I pick up the phone. I should be able to have my privacy withuout these harassing calls.
Robert	Glen Mills	PA	PLEASE CONSIDER ELIMINATING ROBO CALLS TO CELL PHONES, THEY ARE ANNOYING AND COME AT ALL HOURS OF THE NIGHT WHEN AN IMPORTANT/EMERGENCY CALL MAY BE COMING IN. I HAVE RECEIVED EIGHT THIS WEEK! THANK YOU.
Debra	Wakeman	OH	Please. please stop the madness! It's so rude and invasive.
Merlyn	Dyer	IN	I hate robocalls. There needs to be a way to block them.
George	CMCH	NJ	Please take any action necessary to STOP cell fon ROBO CALLS---thank you
nelson	steubenville	OH	no more
Neil	Irvine	CA	Please stop contrast Robo Calls!
Sam	Louisville	KY	Testing comments
Paul	Torrance	CA	I have put up with someone calling for someone that has my last name and the fist initial letter of the one who is still listed 16 years after his passing. They need to restrained.

Floyd	Cleveland	TX	<p>To Our FCC, Although my current credit rating is now up in the 800's it was not always there. I have worked diligently to keep get it there and keep it there I hope! However, at home I keep my landline constantly hooked up to my fax machine to properly reward solicitors and robocallers of all kinds with that sweet squelching sound they hear after the second ring! This should not be necessary yet it is. Although I can escape nuisance calls on my landline it is impossible to do so on my cell phone. I am retired, but have been an umpire for 15 years now, and the most irritating feeling is to be on the field, feel that buzz, and answer some random solicitor who has been given my cell phone number. FCC, your proposed rules set sensible guidelines for the types and frequency of calls and messages that debt collectors are allowed to make and send, but your guidelines are only good enough if they are enforced. Also I have a few helpful recommendations for you of my own. * Debt collection robocallers must notify everyone they contact of their right to stop receiving calls. * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. * The guidelines should be clear and readily available. * These types of regulations and guidelines should apply to all solicitor calls whether for sales, politics, contests, whatever! Dear FCC, please give us back the sacred element of privacy we all once enjoyed with our cell phones. Thank You Sincerely, Floyd Maples 281-659-3517 floydmaples@yahoo.com These are obvious and fair rules, but the debt collection industry is swarming the FCC to demand wide-open access to us at home, at work and on the go. We can win this tug-of-war if we out-organize the debt collection industry.</p>
-------	-----------	----	--

Tracy	Corona	CA	<p>I may be old-fashioned, but I am someone who believes that our phone numbers are information that we give to those whom we trust. When someone calls me, I would like to be able to answer and not be barraged with questions (polling calls) about my personal belief systems in the middle of lunch, or pressured into buying something that I'm not remotely interested in during dinner. I don't like having to try to politely turn down calls for charity. I don't know about you, but I get enough solicitations through my email...but there are buttons to click for that. I certainly don't want it live and up front on the telephone! It has gotten so bad on our home phone, that for a few years now, we have to wait (as do our kids, relatives and friends) for our phone to ring through four times, and then for the answering machine to pick up, before we know if it is someone with whom we want to speak. I don't own a cellphone (I know, I'm a cavewoman!) but my husband does. He has so many blocked/telemarketer numbers on his 'contact' list, you'd think he was the POTUS. It is almost a full time job clearing the answering machine of unwanted messages and hangup calls every day...it's ridiculous. Oh, yeah, not to mention the "phishing calls" from foreign countries, trying to scam us. We get about three or four of those a year, ranging from "your sister-in-law is in London and out of money...please help" to "we are calling from your local police agency and their is a tax judgment against you....call us before legal action will be taken against you". Those are always fun. We have called the FCC to report those, and actually have case numbers. We have put ourselves on the Do Not Call list more times than I can remember. That is a farce. It is toothless. It's time for some legal action.</p>
Elena	Friday Harbor	WA	<p>Robo calls come at any time and make me stop what I am doing, to answer an unwanted message. I am 86 years old and these calls demanding an answer upset my life. I am afraid not to answer them as one of the calls may be from a family member or a friend. These people have no right to impinge on my life, and need to be stopped. Thank you, Elena Thoms</p>

Bruce	Newtown	PA	After finally finding and implementing a service to eliminate numerous and unwanted robocalls on my landline, I understand that the FCC is considering allowing predatory lenders and other questionable companies to harass citizens like me with unwantedâ€”and unnecessaryâ€”cell phone calls and text messages. This would introduce the annoyance factor right back into the lives of many citizens. Assuming you approve strict guidelines to limit how and when debt collectors and others are allowed to contact me on my cell phone, you must require them to notify those they call of their right to stop receiving and/or limit calls on their cell phones (e.g., 2-3 per month), and calls should be limited only to the individuals who are the debt holdersâ€”not friends or family. The final guidelines the FCC approves should be both clear to the average citizen (not written in "legalese") and easy to find. Indeed, if possible, a copy of the guidelines should be included up front with any executed loan. One economic issue with robocalling/robo-messaging cell phones that does not apply to land lines but would affect people like me: my calling plan charges me for incoming texts. If I were bombarded with unwanted robo-texts on my cell, why should I have to pay for them, especially if they were unwanted or harassing? I respectfully urge the members of the FCC to narrowly constrain the ability of anyone, including debt collectors, to use robocalling to cell phones.
Terri	Montgomery	TX	Please prevent robocalls from calling my cell phone.
Bill	Oceanside	CA	I oppose robocalls to my phone without my permission! This is invasion of privacy and harassment! I am on the do not call list.
Robert	Los Gatos	CA	Please, no robo calls to cell phones. If a cell phone is on the "do not call list", there should be NO unwanted calls. Robo calls and other unwanted phone calls are form of terrorism.
Ken	Dayton	OH	We are in our 80's and receive robocalls plus other annoying calls at all hours of the day and night. You can stop so many other unnecessary things, why can't you STOP these.
C	Williamsburg	VA	It is important that I control my cell phone calls---outgoing AND incoming.
Sandra	Attleboro	MA	Robo calls are not only a nuisance and annoying...they can be hazardous to one's health. For example, I have an elderly person living with me who needs a quiet atmosphere. Robo calls wake and disturb him to the degree that it is a problem for his health. Please, please put a stop to these! I would even be willing to pay a small extra charge to make sure these calls do not come to our land and cell lines.
Lisa	Fort Wayne	IN	I get several calls per day from the same unidentified caller! Not just 3 per month, but several per day! And, that's just from 1 company, Yes, I block the number, but, seems it's like a fly - "kill one and 10 come to the funeral!" How do these people even get my cell number, anyway? Please make them stop!

Robert	Las Vegas	NV	In spite of registering out cell phones on the "DO NOT Call" list we still receive robocalls. Reporting them to the "Do NOT CALL" list accomplishes nothing. They are driving us crazy!!
Warren	Sedona	AZ	No Robocalls to Cell Phones!
Jeffrey	Richmond	VA	Enact the strongest rules possible to end Robocalls to cellphones.
Marge	Long Beach	CA	Let the predatory lenders obey the simple rules of civility and abide by regulations in place to restrain their harassment. The device we carry in our pocket or purses should not be turned against us!
Sally	San Mateo	CA	I have been on the do not call list since 2003 and the calls are getting worse. Whom ever is calling does not look at the list!
Richard	San Geronimo	CA	No robocalls!
John	San Diego	CA	We were unlucky enough to have a land line number that had formerly belonged to someone the debt collectors were trying to find. These robocalls came in constantly, and at all hours of the day and night. To have this happen on my cell phone would be a nightmare. The debt collectors have a legitimate job to do, but their robocalls must be strictly regulated. Please ensure that they must notify us that we have a right to stop receiving their calls, and exactly how to opt-out. They should not be allowed to call the debtor's family or friends, and they should only be allowed to call at most twice per month.
stefano	san francisco	CA	robocalls to cell phones are a nuisance and unfair, since the recipient is charged.
Deborah	New York	NY	No cell phone company should be allowed the ability to have their paid subscribers subj4cted to robocalls from any company; we don't pay for this kind of harrasment.
Robert	Bettendorf	IA	Too often while driving my phone rings and it is a sales pitch or other unwanted call. This has the potential to cause an accident. No Robocalls should be allowed for any reason.
Gary	Sparta	NJ	Please do the right thing
Joseph	Winfield	IL	Robocalls are intrusive, inhumane, and downright maddening and aggravating. No one has the right to send them; we the people all have the right to ban this intrusion on our privacy. Please act now to end this terrible plague of repetitious annoyance!
Pasquale	Arlington	MA	Robo calls have become a daily nuisance, even after repeated requests to the callers not to call back. We should not have to put up with an abuse of out civil liberties. Please do whatever you can to stop these calls.
Robert	Camas	WA	Please keep all our cell phones free of Robo calls- We ave already lost enough privacy without constant further invasions trying to sell us siding and roofing.

Martin	CO Spgs	CO	Debt collectors can do their business the way they always have, and the way others do business. They do not need access to cellphone numbers not provided by the phone owner. Draw a line. Set and maintain a limit. Our privacy and our time are paramount.
David	Humble	TX	FCC Chairman and Commissioners, As a US citizen and user of the vital US telecommunications networks, I implore you to protect all users from all robocalls to our phones, both wireless and wireline. We pay for these services to manage our private and professional lives. I am not interested in having someone else using the services that I pay for to try to conduct their business and I have never given anyone permission to do so. When 3rd parties use my telecommunications services for their benefit without my explicit permission, that is theft! My family & I constantly get dozens of robocalls daily coming to my cellular and landline phones for collection of debts that we don't owe, soliciting for sales from companies that we never heard of, to attempted scams, etc. These calls range from disruptive to scary and we do not want them! On quite a number of times I have told the callers that I don't owe this debt that apparently is in someone else's name, or that I am not interested in what they are pitching and to take my name & number off their list to no avail. In fact not only do they continue to call back but I think they sell my numbers as functioning numbers as the calls seem to increase. On one occasion I missed an emergency call from my child because robocalls were simultaneously tying up my phone and voice mail. We have been signed-up on the Do-Not-Call list for years but that has not stopped the calls. I even had one caller tell me that they actually use that list as a prospecting list. I am in the telecommunications industry and I know that the technology exists for our telecom carriers to block these calls. The FCC needs to mandate that all carriers immediately implement this technology and rid our networks of this criminal abuse. No one has the right to use someone else's property or services without the owner's explicit permission. That is theft!
Richard	Matawan	NJ	Please help stop the madness on cell phones. I get at least 4-5 robocalls a day on my cell phone! This has got to stop.
Martin	CO Spgs	CO	Debt collectors can do their business the way they always have, and the way others do business. They do not need access to cellphone numbers not provided by the phone owner. Draw a line. Set and maintain a limit. Our privacy and our time are paramount.
Christopher	Amityville	NY	I oppose oppose robocalls to my cell phone without my permission. The following should be required: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.

Mea	Eau Claire	WI	Robocalls (and texts) are intrusive and demeaning. They cost phone owners millions of dollars. They circumvent the Do Not Call list. Scammers use robocalls extensively. And they were supposed to have been banned. So, why do we still get these calls? We need to be protected!
robert	seattle	WA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Bonnie	Sierra Vista	AZ	It's an imposition to be bothered with unnecessary phone calls. Please stop this nonsense...t
Jeanette	Seattle	WA	Robo calls and for that matter all unsolicited telephonic intrusions are driving Americans crazy on both cell and land lines. However, seniors and other vulnerable populations of people (physically, mentally, emotionally) are especially challenged by these calls and in the case of unjustified contacts by debt collectors, it really should be viewed in the context of elder abuse. Callers should be prohibited from contacting anyone who is not the actual debt holder. These calls disrupt, confuse, emotionally traumatize and in some cases the stress of these calls result in impaired or catastrophic health events. The financial exploitation of confused or fearful seniors or others with disabilities is real as well. Calls result in threats or coercion that leads people to agree to pay debts they don't owe and never did owe because they are confused or frightened by what they are told or even just in desperation to get the calls to stop. Also make phone companies use their technology to combat all types of robocalls undesired by the customers providing their very considerable profits and dependent on their phones as lifelines to friends, family, and essential emergency services. Some seniors are actually placing themselves at risk by going without 911 access just to stop the nuisance calls from predators. I work in the arena of providing protective and long term services and supports to seniors and people with disabilities, and the ramifications of these calls are widespread and seen and heard about on a daily and national basis.
John	Wheat Ridge	CO	I don't want ANY robocalls to cells or landlines, Robofaxes are especially annoying since they use your ink & paper. Individuals should be able to opt out of ANY robocalls from ANY source!!! It is a huge invasion of privacy that should be stopped.

Floyd	Cleveland	TX	<p>To Our FCC, Although my current credit rating is now up in the 800's it was not always there. I have worked diligently to keep get it there and keep it there I hope! However, at home I keep my landline constantly hooked up to my fax machine to properly reward solicitors and robocallers of all kinds with that sweet squelching sound they hear after the second ring! This should not be necessary yet it is. Although I can escape nuisance calls on my landline it is impossible to do so on my cell phone. I am retired, but have been an umpire for 15 years now, and the most irritating feeling is to be on the field, feel that buzz, and answer some random solicitor who has been given my cell phone number. FCC, your proposed rules set sensible guidelines for the types and frequency of calls and messages that debt collectors are allowed to make and send, but your guidelines are only good enough if they are enforced. Also I have a few helpful recommendations for you of my own. * Debt collection robocallers must notify everyone they contact of their right to stop receiving calls. * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. * The guidelines should be clear and readily available. * These types of regulations and guidelines should apply to all solicitor calls whether for sales, politics, contests, whatever! Dear FCC, please give us back the sacred element of privacy we all once enjoyed with our cell phones. Thank You Sincerely, Floyd Maples 281-659-3517 floydmaples@yahoo.com These are obvious and fair rules, but the debt collection industry is swarming the FCC to demand wide-open access to us at home, at work and on the go. We can win this tug-of-war if we out-organize the debt collection industry.</p>
Kevin	Hacienda Heights	CA	<p>I get a least two robocalls to my cell phone a day and at least eight to my home phone. That is an average of 3650 calls a year. It is very intrusive, disruptive, and annoying. These calls often have no response when answered. Others respond with recordings about services such as credit card debt, home improvements, environmental systems, etc. that I have already opted out of several times. The calls continue to occur again and again and again! I always request that the callers remove me from their call lists, either by speaking with someone or selecting the appropriate option. But they take no such action. This is outrageous and I am pleading with you to take action to STOP these calls permanently. Thank you! Respectfully, Kevin Ewald</p>
Larry	Monrovia	CA	<p>Please allow people to opt out of receiving rob ovals. They are intrusive and disturbing and disrespectful.</p>
Mitch	Palm Springs	CA	<p>I'm tired of receiving call after call soliciting business on my cell phone.</p>

richard	manhattan Beach	CA	I oppose robocalls to my cell phone without my permission, and here's why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Helen	Olympia	WA	Robocallers/debt collectors must be limited to 3 times per month of calls or texts or emails. Harassing individuals that do not have money to pay is not helping the debt get collected, in fact is most likely a hindrance to them as multiple harassing phone calls can interrupt job hunting and/or get them in trouble with their job. Having a debt go to collections is already punishment enough as it ruins their credit and future ability to get needed things such as a car loan or even rental housing.
Fred	Huntington	NY	I get inundated with these unwanted calls every day at all hours. My friends and family have the same experience. In addition to legitimate organizations, I have been getting scammers calling me representing them selves as legitimate organizations. Help give us peace and safety by enabling the blocking of these calls.
Donald	Fort Worth	TX	Robocalls to my cell ruin my day by interrupting my activities!
Wim	Orchard Park	NY	I would like the FCC to enact the following: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available
John	Williamsport	PA	Stop all Robocalls !!!!!!! There is no need for them!!! Even if you sign-up at the no call list, they never stop! SO WHAT GOOD IS THE NO-CALL LIST!!!! THE GOV. DOES NOT DO ANYTHING THEY SAY!!!!
Soretta	New York	NY	Most robo-calls are nothing but scams, and cost seniors and other citizens millions of dollars. They are invasive, annoying, and sometimes abusive. I feel I have as much right to privacy on my phone as I do to privacy in my home. If you are uninvited, you cannot come in. Besides, I pay for my phone service. I do not see why the money I pay the phone company should go to receiving annoying, unwanted, unsolicited calls.
Gerald	Redondo Beach	CA	The calls that used to go to my home have been reduced, but the same people are now calling me constantly on my cell phone - interrupting meetings and my work. Please do your job and protect consumers from the barrage of unwanted telemarketing calls on cell phones.
Gerald	Redondo Beach	CA	The calls that used to go to my home have been reduced, but the same people are now calling me constantly on my cell phone - interrupting meetings and my work. Please do your job and protect consumers from the barrage of unwanted telemarketing calls on cell phones.

Pam	Round Rock	TX	I have put my cell phone and home land line on the "do not call" list, and I still repeated get robocalls purportedly from Microsoft and sales people. I am tired of getting calls from scammers and sales people!
Guy	Belmont	MA	Please help stop the proliferation of cell phone robocalls. The disrupt lives and families and very disruptive times. Thanks, Guy
Pam	Paul	ID	I feel it is my right to control who has access or uses items I have personally paid for. I should not be required to receive Robo calls I have not solicited. Where are my rights to privacy for something I personally pay for? Why do they have the right to make money off me and I have no control??? This is just not right.
Elizabeth	Richmond	CA	I receive robocalls any time of the day or night regarding someone I do not know, have never met and hope (for her sake) to never meet. I do not know if she had my landline number (the only phone I have, btw) over 5 years ago before I received it, but she is apparently still telling people it is hers, thus collectors of all kinds robocall me at all hours of the day and night. I stopped calling them back or even answering their calls long ago, after realizing they simply sell her name along with my phone number to someone else. I received threats when I returned the calls telling them to take me off of all their call lists--and that yes, according to law they had to do so when they argued with me--and told them all I am not Sylvia Snow, didn't know a Sylvia Snow and have never known anyone with that name. For more than 5 years I have been harassed and there is absolutely nothing I can do about it. STOP THE ROBOCALLS. THEY ARE NOT SIMPLY SOME KIND OF NUISANCE, THEY ABUSE!!! EVERY TIME THE PHONE RINGS NOW, IT MAKES ME JUMP, WHICH IS SIMPLY AWFUL.

Connie	Baton Rouge	LA	Please consider banning robocalls from cell phones. This could not BE more annoying. You think you may be getting an emergency call from a loved one since the area code is the same and lo! and behold! it's someone using underhanded means to try to sell you something. THIS SHOULD STOP! THERE SHOULD BE A LAW AGAINST THIS..... Thank you for your attentions in this matter..
Clay	rancho cordova	CA	Some sales people use extortion against the elderly, how can you not act to stop this. At the basic level it is evasion of privacy, please stop bothering us with these calls.
Hillel	Berkeley	CA	I should not be forced to receive an increasing number of robo calls. Please do something to help remedy this annoyance.

Michael	Coolin	ID	Why should I have to pay the cell company for calls I receive from a robot? For that matter, Why should I receive any calls that I am paying for from phone marketers and other commercial/political/religious entities at all? Expand and enforce the requirements of the "Do Not Call List"
Clement	Schererville	IN	Please disallow all robocalls, regardless of reason for the call. Any organization or entity using robocalls needs to be prosecuted.
Richard	Tucson	AZ	Please block ALL Robocalls, even on landlines. I get over 20 a day
Brian	St Petersburg	FL	I have had daily calls and request to be taken off their list but continue to received daily calls and I know it's robo calls the way it switches over at connection. All robo calls need to be stopped. Even after asking to stop I receive a call from a different number daily or I would not answer the phone. Very unwanted and annoying.
Lorraine	Madison	WI	Robo calls do nothing but waist time. I will never buy anything from, or even listen to a robo call. Most people feel the same way. Nothing is accomplished with these calls except to annoy and make angry. Out law them now.
Sandra	Crawfordville	FL	It's bad enough people use their cell phone while driving. along with regular call they get Robocalls for products, etc. Say No To Robocalls Congress

Bruce	Spokane	WA	<p>This comment comes to me as a ask the FCC to stop robo phone calls to cell phones. I do not have a cell phone, just a land line phone, and I still get robo phone calls. My email gets a lot of advertising too, and it is just too much. The special agenda of politicians who are just plain jerks and accomplish nothing for the 98% of Americans, so who do they really serve best? These things continue to happen, and only increase. It would seem that all those having cell phones, that the constant blitz of stupidity, is robbing them of their time to be productive working in some career, because of the natural tendency of people to constantly check on their toys, called cell phones. With my land line, if I go somewhere, I can get things done, and not be checking a toy cell phone. I do not live on batteries. That I get things done. When I return home, I check for missed phone calls. The phone calls from out of area, I just delete; however, I do still have my memory (mind) and can recognize phone numbers that I need to deal with. Most of my phone calls, I do not need to check because all those who I know, I tell them that when I get on my land line's Teller ID a call from a "no name" or from "some city" or from any other ID stripper or blank with or without a phone number, that I just delete it, and do not make attempt to phone back with a push of the return call button. That saves me time to get more accomplished. That I tire quickly of those kinds of phone calls. The same for emails. I have to delete about 300 emails without even looking at them, because they come to me, unsolicited. Things that I just do not need or want. COMMERCIALISM to the MAXIMUM. Let's see if we can screw him out of some money. Make him vote for our jerk. So it goes, with special agenda that serves their wants, but not mine. === I would favor all such contacts, be where the citizen contacts them by the citizen specifically going to them, and not the other way that is bombardment. That the technology have reasonable limits as to having their wants placed onto some sort of smorgasboard listing, say on</p>
Alice	Stone Mountain	GA	<p>My cell phone is very private and limited to people whom I know. I do not want robotcallers or anyone calling me on my cell if I have not given them permission to do so.</p>

Bruce	Spokane	WA	<p>This comment comes to me as a ask the FCC to stop robo phone calls to cell phones. I do not have a cell phone, just a land line phone, and I still get robo phone calls. Alice	Stone Mountain	GA	<p>My cell phone is very private and limited to people whom I know. I do not want robotcallers or anyone calling me on my cell if I have not given them permission to do so.</p>
Henry	Highland Park	NJ	<p>If you want to know why people loathe government, the failure to deal with robo-calls is a wonderful example. Does the FCC really need all this testimony to inform them of the numerous scams that a harassed public must endure? If the facts aren't clear to you now, you should all resign, sit home and welcome the endless robo-calls you will surely receive. Sorry, to be so negative, but we all know that this is an intolerable situation that should have been resolved years ago.</p>
Mea	Eau Claire	WI	<p>Robocalls (and texts) are intrusive and demeaning. They cost phone owners millions of dollars. They circumvent the Do Not Call list. Scammers use robocalls extensively. And they were supposed to have been banned. So, why do we still get these calls? We need to be protected!</p>
William	Altadena	CA	<p>This needs to stop - it's time consuming for recipients cuz the targeting is non-existing- they are in fact phone spamming us! It's an adv sector which is totally out of touch with the times!</p>

Malcolm	Spanish Fort	AL	I receive frequent Robocalls "congratulating" me for something. When I block the numbers, they use another number. Please stop the pestering Robocalls. Thanks, Malcolm Rex
Benjamin	Austin	TX	I receive robocalls every day on both my cell phone and my landline. I also receive important phone calls related to work, childcare issues, and running the household every day. I cannot ignore the phone when it rings in case it is important. The Robocall industry is completely abusive in their overuse of a communication network. There is a significant loss inflicted on me in terms of time spent responding to unwanted solicitations and invading my privacy and disrupting my focus. Robocalls are very much like disturbing the peace. Should I be allowed to park a van outside your house and blare advertisements through a PA system? I think not. I have the right to be unmolested. Imagine a constant barrage of sales people and solicitors constantly knocking on your front door. That is what robocalls are like. Robocalls for political campaigns and "debt relief" should be outlawed too. Yes there is freedom of speech. But that doesn't mean I can just walk up to strangers and start yelling in their ear. There is freedom of assembly too, but I am not allowed to hold a protest rally in your living room. I pay for my telephone line so it is mine. When someone uninvited calls me, it is like trespassing on my private property. Robocalls provide no demonstrable benefit to the recipient, are a form of constant harassment, and should be outlawed.
Amy	Iowa City	IA	Let's just outlaw robocalls altogether, PLEASE! I get calls from debt collectors who have been given a phony number, have never had my number, and just made it up to get the collector off their trail. Do you see how loosening the rules will hurt just about everybody?
Jacob R.	Bridgeport	CT	I want no robocalls unless I specifically OK them first.
Jacob R.	Bridgeport	CT	I want no robocalls unless I specifically OK them first.
Glenn	Missoula	MT	In a world of disappearing individual privacy rights, please allow U. S. citizens the right to cell phone privacy. Please ban the invasion of private phones by robocallers and unsolicited advertisers.
Al	Boise	ID	Robo calls on my cell, ridiculous. Stop it now. I do not want unsolicited phone calls. Driving up my cell phone bill ! Wasting my precious time in an already hectic way of life.
Jacques	Potomac	MD	I receive about 5 robocalls and about 5 unsolicited marketing calls a day on my business cellphone. I tried to filter them but they keep changing numbers. Furthermore, Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Roger	Converse	TX	Robocalls need to be stopped immediately. These calls are normally received during family time or whenever we are expecting an important call! Requesting to be removed from their call lists has no impact as they continue to make them. Often these calls are asking for donations to illegal organizations or illegal businesses. They need to be stopped now!!
Malcolm	Spanish Fort	AL	I receive frequent Robocalls "congratulating" me for something. When I block the numbers, they use another number. Please stop the pestering Robocalls. Thanks, Malcolm Rex
Glenn	Missoula	MT	In a world of disappearing individual privacy rights, please allow U. S. citizens the right to cell phone privacy. Please ban the invasion of private phones by robocallers and unsolicited advertisers.
Catalino	San Juan	PR	They, Robocalls, are a nuisance affecting our quality of life.
John	West Hills	CA	I agree with the efforts to control/eliminate robo calls
Eileen	Bay village	OH	We have our numbers listed with do not call services yet we are still bothered by robo calls. Please strengthen the law to make sure no cell phones can be reached. Cell phone calls have to be paid for by the recipient. They are forcing folks to pay for their marketing calls
Eileen	Bay village	OH	We have our numbers listed with do not call services yet we are still bothered by robo calls. Please strengthen the law to make sure no cell phones can be reached. Cell phone calls have to be paid for by the recipient. They are forcing folks to pay for their marketing calls
Melonie	Raleigh	NC	Robo calls are driving me to quit answer my cell. I am forced to send everything to voice mail to save time
Ken	Grapevine	TX	We receive many Robocalls to our cellphone which are a waste of time and irritation for us. We have Norocalls on our land line for years and it has been MUCH APPRECIATED. Request No Robocalls to cell phones be done ASAP. Thank you, Ken Anderson
Melonie	Raleigh	NC	Robo calls are driving me to quit answer my cell. I am forced to send everything to voice mail to save time
Ashley	San Antonio	TX	I get robocalls to my cell phone all of the time even though I am on the do not call list. They will not say the business name when they call and it is very hard to find out any information on who is actually calling. Please put a stop to these annoying calls.
Laura Ann K	Harsdale	NY	Keep my phones clear robo calls.They happen at my meal times.
mike	North Chesterfie	VA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Bruce	Newtown	PA	<p>After finally finding and implementing a service to eliminate numerous and unwanted robocalls on my landline, I understand that the FCC is considering allowing predatory lenders and other questionable companies to harass citizens like me with unwantedâ€”and unnecessaryâ€”cell phone calls and text messages. This would introduce the annoyance factor right back into the lives of many citizens. Assuming you approve strict guidelines to limit how and when debt collectors and others are allowed to contact me on my cell phone, you must require them to notify those they call of their right to stop receiving and/or limit calls on their cell phones (e.g., 2-3 per month), and calls should be limited only to the individuals who are the debt holdersâ€”not friends or family. The final guidelines the FCC approves should be both clear to the average citizen (not written in "legalese") and easy to find. Indeed, if possible, a copy of the guidelines should be included up front with any executed loan. One economic issue with robocalling/robo-messaging cell phones that does not apply to land lines but would affect people like me: my calling plan charges me for incoming texts. If I were bombarded with unwanted robo-texts on my cell, why should I have to pay for them, especially if they were unwanted or harassing? I respectfully urge the members of the FCC to narrowly constrain the ability of anyone, including debt collectors, to use robocalling to cell phones.</p>
Jon	Montebello	CA	<p>The proliferation of Robocalls we have been getting despite being on the "Do Not Call" list make it imperative to not allow any industry to use them including debt collectors, charities, and political parties. We get 12-15 calls a day on our house phone. Enforce what is already on the books instead of allowing more on cell phones.</p>
Jon	Montebello	CA	<p>The proliferation of Robocalls we have been getting despite being on the "Do Not Call" list make it imperative to not allow any industry to use them including debt collectors, charities, and political parties. We get 12-15 calls a day on our house phone. Enforce what is already on the books instead of allowing more on cell phones.</p>
Marian	Tempe	AZ	<p>Calls on cell phones while driving are dangerous enough and this is adding to it. On top of that I am on a limited call plan and pay for incoming calls..... this is a disgrace!</p>

We get 12-15 calls a day on our house phone. Enforce what is already on the books instead of allowing more on cell phones.</p>

Kay	Elkview	WV	Please do not allow robocalls or sales calls to cell phones. If we must have them, provide some method for the phone owner to stop them. I have had a call from the same phone number every day for 2 weeks, at all times of the day. It is a call trying to get me to allow access to my computer due to some problem. I have said no and I've asked for no more calls. I now just ignore the call, but it is disruptive. I'm older, and they have interrupted my sleep several times.
William	Fort Wayne	IN	If communication is so important, then the time and money for a person dialing and responding is certainly warranted. Stop use of Robocalls.
Francesca	Lubbock	TX	Just because someone is in debt, it does not mean that they give up their right to live their lives without harassment. In addition to that, debt collectors harass people who owe no debt at all--they might be friends or family of the debtor (and how does that make them responsible?), or they might be called in error, error that they have no way to correct because debt collectors aren't held responsible. Debt collection companies regularly lie and threaten debtors and their families. They must be held liable when they break the law, and they must be reigned in in their ability to ruin lives. It is time to crack down on these companies's inhumane practices.
William	South Lake Tahoe	CA	At times, I get up to 5,6 calls everyday....It's enough already! I signed up to the no call lists...This \$hit goes on and on because NOBODY really takes action. Telemarketers feel totally enabled and entitled in this country. It benefits phone companies but not the consumers who pay for these "Services"...Thank you so much...
Gloria	Oceanside	CA	Please write strong rules to prevent robocalls to cell phones. I can no longer answer my home phone as I receive numerous robocalls daily. They are all mostly scams. Elderly people are being besieged with these calls. the government should not 'be supporting criminals. Cell phones are now my only means of communication with my family. Please do 'not destroy this.
Karen	Jacksonville	AL	I am so sick of our home phone ringing at least 3-10 times a day, sometimes more. We screen our calls because of that and it is getting so old. most of them do not even leave a message. Normally our phone does not ring more than 2 or 3 times a week, but with calls from people who want donations or bill collectors or surveys, or robocalls. I really hate to hear our phone ring. Please make it stop!!!
Robert	Lexington	KY	Why does the United States of America's congress still allow political "Robocalls" while still allowing other types of "Robocalls" it seem to be more than a bit hypocritical.

Susan	Monticello	IA	As a senior citizen I find it particularly annoying to receive robocalls when I am driving, in a meeting, in the middle of a project, or any time really. I'm sometimes confused as what might be real information so now I just disregard all of it and hang up. Older seniors, like my mother, got very confused at the end and for those with no one to step in, the elderly can get very frightened and confused. It is not necessary!
Robert	Lexington	KY	Why does the United States of America's congress still allow political "Robocalls" while still allowing other types of "Robocalls" it seem to be more than a bit hypodritical.
steve	volente	TX	STOP ROBO CALLS
Jim	Deerfield	WI	Come on guys...
Marian	Tempe	AZ	Calls on cell phones while driving are dangerous enough and this is adding to it. On top of that I am on a limited call plan and pay for incoming calls..... this is a disgrace!
William	Sun City West	AZ	Everyone hates robocalls . The government is the only organization that can stop this. Please take action
robert	warwick	RI	not long ago I received daily calls from a doctors office about rescheduling my missed appointment. they left a number to call. when I called back I told them I didn't have an appointment and I didn't have relations with the doctor. they kept calling. I called back and complained. they replied that they couldn't help me, that they didn't have any time to waste trying to find my name. calls continued til I got a new phone.
karey	spokane	WA	Please provide reasonable restrictions on debt collector calls. Phone harassment is not a legitimate collection method just as standing at your front is not. Often, the types of people that fall prey to predatory lending organizations are not aware of their rights as a borrower. It should be the burden and responsibility of the "professional" creditor to even the playing field and inform borrowers of their rights, especially as they pertain to protections against harassment and options for repayment and relief. Please 1) say no to robocalls and 2) limit unconstructive harassing calls.
KATHLEEN	castro valley	CA	please be sure to correct this horrible mistake. we do NOT need this annoying policy to impose upon us at every turn of the day. NO ROBOCALLS TO MY CELLPHONE!!
Joanne	Lufkin	TX	We receive a minimum of four robocalls every day despite the fact that all of our phone numbers are on the Do Not Call registry. Lately, we have received at least one call a day from a group saying they are the IRS and they have filed suit against us which is not true. Please take action to stop this harassment!
Brian	Kent	WA	I do NOT have student loans or back taxes... BUT I DO HAVE ROBO-CALLS coming to my cell phone despite being on the federal do not call list. PLEASE STOP THE SCAMMERS.

Mary	Greensboro	NC	Predatory lenders use robocalls to frighten indebted citizens in an unethical and undemocratic way. The poor and elderly are most at risk. Please insist that such calls be limited to 3 per month and to the debt holders only; and that they include accurate information about the right to stop receiving such calls.
todd	signal hill	CA	Telemarketers and robocalls should be banned from calling cell phones!!!
Sun	Santa Clara	CA	Please stop robot call. Why FCC can't stop these guys ?
Wojtek	Knoxville	TN	Our phone is registered in the national No Call Registry, but we received more than five unwanted calls per day. Obviously no one takes it seriously. This should be stopped! Thank you
Donna	Knoxville	TN	I only use my cell phone for communication with my family and friends, to coordinate times and places for transportation, etc. As a new widow, I don't want other calls interfering with how I use the phone I pay for. I have only recently started getting unsolicited calls on my cell phone although I get unsolicited junk calls several times a day on my land line even though I use the "do not call" registry. Please keep these calls off my cell phone! Thank you.
Robert	New Bremen	OH	I don't like robo calls and think they should all stop now!
Michael	Fruitvale	ID	Most calls are either scams or GOP harassment on behalf of their candidates. All are highly annoying.
John	Fruita	CO	Simply---I opposed robocalls to my cell phone without my permission. Such calls are an unwelcomed intrusion, a waste of my time, and a nuisance. Whatever guidelines you develop must protect my civil rights, privacy and my need to select who contacts me.
David	Danville	IN	Robo calls are very annoying pls do something to cut down the number of calls...also I am on the do not call list and still get them. The law ?
Marco	Mitchellville	MD	It needs to stop.
David	El Dorado Hills	CA	Please take action to limit robocalls so I don't feel like I have to screen every call that comes into my phone. Getting calls on my phone regarding debt for other family members is especially annoying -- particularly when the debt collectors are not correct, which has been the case in the past. Thanks for protecting us cell phone users from the obnoxious and predatory practices of lenders.
DW	Mt Prospect	IL	Robocalls waste time and money and amount to verbal harassment.
David	El Dorado Hills	CA	Please take action to limit robocalls so I don't feel like I have to screen every call that comes into my phone. Getting calls on my phone regarding debt for other family members is especially annoying -- particularly when the debt collectors are not correct, which has been the case in the past. Thanks for protecting us cell phone users from the obnoxious and predatory practices of lenders.

Edward	Tidioute	PA	First of all I have no debt and have NEVER missed a payment for a bill in my life. The problem I have experienced is overly aggressive individuals attempting to collect a debt some one else owes. They don't believe you when you tell them they have the wrong person. The name is similar or the same but there investigation reveals little else so the wrong person ends up with a barrage of calls they don't deserve. If your cell plan has a fee for use of minutes you are charged un necessarily. Also, should you change phone numbers and you are assigned a persons old number who was being sought for non payment of incurred debt you get those calls as well. The elderly are easily intimidated by individuals working for these companies as well as criminals who would seek to scam money from the elderly using these same tactics. There are many other reasons to not allow these calls, these are jus a few. I stand with the majority of Americans in opposition to these calls
DW	Mt Prospect	IL	Robocalls waste time and money and amount to verbal harassment.
Donna	Knoxville	TN	I only use my cell phone for communication with my family and friends, to coordinate times and places for transportation, etc. As a new widow, I don't want other calls interfering with how I use the phone I pay for. I have only recently started getting unsolicited calls on my cell phone although I get unsolicited junk calls several times a day on my land line even though I use the "do not call" registry. Please keep these calls off my cell phone! Thank you.
P	Salem	OR	These can be very bothersome to many people.
Bill	Round Rock	TX	Please tell me what I need to do to stop credit card offer robo-calls to my cell phone. Thanks.
Judy	Anderson	SC	Have been harassed repeatedly by robocalls from out of country to fix my computer , get a free vacation, also by debt collectors for the people that had our number previously. This is not acceptable. We have no privacy or rights as these people call multiple times a day. When you are a caregiver of someone who is ill you should not be harassed by these nonsense calls
Karen	Vacaville	CA	We are really sick and tired of all of the junk calls and the fact that the do not call list is useless at this point.

Theresa	San Francisco	CA	Note: These comments apply to robo calls in general -- not just debt collectors. I can block unwanted numbers on my cell phone and my landline, but the robo calls still keep coming. On my cell, they don't ring but show up on my call log. Of course, the first time I receive a robo call, I have to take the time to block that number. On my VOIP landline, if not blocked they ring once when caught by NoMoRoBO (the best thing ever!!!!). However, on my landline, if I block an unwanted number, the phone still rings once - 9 times yesterday. I would suggest the following: -- provide NoMoRoBO on cell phones -- right now I can only get for my landline -- charge the company that places robo call \$10 per call - cell and landline -- fine the robo call offenders in addition to charging them for the call - cell and landline Anything you can do to stop these people would be greatly appreciated. In addition, putting pressure on the phone companies to take responsibility in controlling this activity would be helpful.
David	El Dorado Hills	CA	Please take action to limit robocalls so I don't feel like I have to screen every call that comes into my phone. Getting calls on my phone regarding debt for other family members is especially annoying -- particularly when the debt collectors are not correct, which has been the case in the past. Thanks for protecting us cell phone users from the obnoxious and predatory practices of lenders.
Mary	North Las Vegas	NV	Please put a stop to all the invasive robocallers to my land,cell and iPhone ! I get dozens everyday on all of them. And I resent this invasion on my privacy and time! This is being forced on us all. This once proud country is going to the dogs! STOP this invasion now!! Just like now, I will get email for ever for sending this,
Bob	West Allis	WI	I try to block rob calls on my cell but they just use a different caller ID. I have blocked over 125 numbers already. Please help!
John	Alexandria	VA	Robo calls are driving me nuts. So much so that I do not answer calls that do not have caller ID and I miss important calls as a result. Making a regulation will not do it. You will need the help of the FBI or NSA to track down and penalize the robo callers.
Geoffrey	Cary	NC	Robocalls to mobile phones should never be allowed if the mobile number was never provided by the callee to the calling entity.
Marie	Sedona	AZ	Please make it stop . Each morning , ar 7 past 8 am , I am disturbed and harassed by Æ debt collector robot call . They are e miracle 1 866 856 9607 . I am a 71 y old widow , I had never had any debt nor any member of my family . Our finances are in perfect order . I pay taxes , I even don't have any mortgage . I am a good citizen and I do not deserve to be treated that way . Please do not allow this to happened . Thank you Marie Concher

Edward	Richardson	TX	This disrupts my life, takes my time and is a constant nuisance to me and my family. There are enough stressors in this hectic age without rocallers interrupting everything I do.
Bobby	Kennewick	WA	I am sick and tired of these robo calls all the way from credit card lowering interest rates to student loan interest rates and cruise and vacation promotions. I have signed the do not call register and it makes no difference. I get these calls at 7:00 am to 10 or 11:00 pm.
Sara	Spring	TX	My cell phone gets at least one a day and sometimes 3. I hate to answer it and hear the computer trying to sell me something. These are never collection calls - i pay my debts. I also pay way too much for cell phone service and do not want the Robocalls invading my precious time everyday.
preston	birmingham	AL	I have to pay a premium price for something that I need to use for work. These people feel free to bombard my phone with robocalls. This is not only an invasion of my privacy but also interferes with the reason that I ma paying do much for the phone. Why do they have the right to do this?
Rod and Deb	Berlin	PA	We are tired of receiving call after call.. this is harassment and it needs to end!
Sara	Spring	TX	My cell phone gets at least one a day and sometimes 3. I hate to answer it and hear the computer trying to sell me something. These are never collection calls - i pay my debts. I also pay way too much for cell phone service and do not want the Robocalls invading my precious time everyday.
Allan	McHenry	IL	Stop Robocall now.
Pennelloppe	Beaverton	OR	As a poor person with a pre-paid phone card phone, I use it for only necessary communication. Unwanted calls cost me 'units' of use that I cannot afford to waste. Not only are scammer calls and debt collection for other people annoying to me, but it is like stealing money out of my pocket.
Cheryl	Fresno	CA	I have at least 15 to 20 calls on some days. They call my land line and now my cell phone. Please help me block these calls. I refuse to answer calls anymore. I can't depend on caller ID.. I feel my privacy has been invaded and I'm helpless to do anything about it.
Carol	Orland Park	IL	We're senior citizens, in our 80's, and very hard to answer these unnecessary phone calls. Most of us have disabilities and hard to get up to answer the phone. Please put an end to these types of calls.
Frances	Manati	PR	These so-called collection agencies use numerous numbers to harass anyone and everyone with constant robocalls on a daily basis, nights and weekends included. This is an abusive practice that must stop, because many times the people being harassed have no debt with the companies they represent and may even be attempts at phishing. Enough!
william	flushing	NY	robocalls are frequent and annoying.

Nancy	Santa Barbara	CA	I don't use my cell a lot, and it is amazing how many of these calls I get, despite holding neither debt nor interest in receiving spam. It is simply annoying and harassing.
Barbara	Portland	OR	Americans are being plagued by robocalls of all kinds. It's unbelievable to me that all sorts of bogus robot calls, especially to senior citizens, interrupt the lives and dinnertimes of millions of Americans, to the point where they turn off their phone. I support your efforts to stop robot calls at their source, by enforcing stringent requirements for robot calls by debt collectors.
Carol	Orange	CA	These calls come at all hours of the day and into the evening. They are so disruptive and annoying. They come both on my cell phone and land line. I have caller ID so don't pick up but still have to listen to hear if they leave a message in the off chance that it is a legitimate call. Errr.
Myrna	Battle Ground	WA	My sister is an older person and I am very concerned that she will fall victim to a scam via robocalls. My niece is working hard to get her life back in order and pay off her student loans, but a neighbor who used to live next door to her and hasn't seen her in several years recently received a phone call wanting to know where she was at. This is totally inappropriate and stressful for the former neighbor who didn't know where she was currently living. The information as to what can and cannot be done in these type of situations needs to be easily available for everyone.
Joan	El Cerrito	CA	I should not get unsolicited phone calls from anyone. They are invading my privacy and my peace of mind. They call and call and call.
Teresa	Longmont	CO	Robocalls to cell phones must be denied. We were able to opt out of calls to our landlines. Now the same should apply with cell phones.
Anna	San Francisco	CA	Please stop all Robocalls to cell phones
Bob	Berkeley	CA	The last thing anybody needs in this distracted society is another unwanted phone call. There are enough other ways to market products that are not as intrusive.
James	Casa Grande	AZ	I am a senior with many health problems and unwanted calling from people I do not want to talk to is really a problem. I have a hard enough problem using the phone when I need to but to have half or more of my calls from people that keep harassing me is a real problem for my wife and me.

Lee	Milford	CT	The individuals who pray on millions of Americans by illegally calling home and cell phones has long gotten out of hand and the FCC does nothing about it. For huge communications companies such as AT&T, a programming change would allow customers to block these calls. It is to the point that the robocallers have figured out a way to have my own name and number come up on call ID. That can't be legal. It seems fraudulent. I've been on the Do Not Call list for years. It means nothing. I encourage the FCC to once and for all do whatever it takes to put an end to this. Force the telecoms to give us free blocking. It costs them nothing.
maria	ancramdale	NY	very annoying must stop
Susan	Lake Oswego	OR	I am paying for my phone. I am judicious about who I give my phone number to. Then I get unwanted robo calls. They wake me up in the morning on my day off. I carry my phone at work for emergencies. They get me in trouble for my phone ringing at work. This is a travesty. I am on do not call lists. But I get calls anyway. This has to stop. That you. Susan Marsh
tom	gainesville	GA	Robo calls are an invasion of privacy and dangerous because people will try to answer them when they shouldn't.
Chris	Hartly	DE	We need strong consumer protection against robocalls. NO exemptions for political candidates or parties. We also need to have the phone companies use their system to find the offenders and prosecute them.
Robert	Sonoma	CA	The last thing That I want to hear is a call from either a machine, or some other telemarketer. I do not want to be solocited by my phone. Period!
maria	ancramdale	NY	very annoying
Geralyn	Tucson	AZ	No Robocalls -- Period
Seth	Los Angeles	CA	Debt collectors should know the correct phone numbers of their debtors and stop making these annoying phone calls to the wrong numbers.
James	Casa Grande	AZ	I am a senior with many health problems and unwanted calling from people I do not want to talk to is really a problem. I have a hard enough problem using the phone when I need to but to have half or more of my calls from people that keep harassing me is a real problem for my wife and me.
Joseph	Venice	CA	We all deserve peace, privacy and dignity. This peace comes from the empowerment of knowing that we control what finds it's way "in" to us.

John	Philadelphia	PA	The consumer should be able to contact the State's Attorney General to file a complaint against the business harassing the consumer, and the consumer should not need a lawyer to do so. Perhaps the FCC should establish a new regulation allowing the consumer to have the action noted above. More regulation of business acting as predators and practicing unethical, immoral, and fraudulent business practices should have their business licenses revoked for this inappropriate conduct. JL 051916
Lynn	Hamilton	VA	Robocalls to cell phones are an invasion, and cost extra money! Many people pay for service 'per call', and each call is a burden. I personally owe no debts, but the new proposed rules would allow people like me to be harrassed for the obligations of others. That is obnoxious and unfair!! I would like to know what justification the FCC could have for allowing these calls. Please vote down any provision to allow these calls.
Lee	Milford	CT	The individuals who pray on millions of Americans by illegally calling home and cell phones has long gotten out of hand and the FCC does nothing about it. For huge communications companies such as AT&T, a programming change would allow customers to block these calls. It is to the point that the robocallers have figured out a way to have my own name and number come up on call ID. That can't be legal. It seems fraudulent. I've been on the Do Not Call list for years. It means nothing. I encourage the FCC to once and for all do whatever it takes to put an end to this. Force the telecoms to give us free blocking. It costs them nothing.
Jennifer	Danville	VA	Just say NO to robocalls.
Debi	Fontana	CA	As someone who personally has struggled with debt that I couldn't pay due to the recession on 2008 & 2009 which I still have not recovered from. Once my accounts started getting past due the collection calls started at work and my landline at the time. I was receiving close to 38 robocalls EVERYDAY regarding this matter. I was written up by my employer due the calls that were coming into my place of employment. Had to send out many several ceast & desist letters to my creditors. It's stressful enough to be in that situation and you're WELL aware of the debt that you aren't able to pay and then the CONSTANT phone calls on top of it are ENOUGH TO MAKE YOU WANT TO DRIVE YOUR CAR OFF OF A CLIFF. FCC are you listening this is not ACCEPTABLE for ROBOCALLS including debt collectors to contact anyone on their cell phones!!!!
Chris	Hartly	DE	We need strong consumer protection against robocalls. NO exemptions for political candidates or parties. We also need to have the phone companies use their system to find the offenders and prosecute them.

Royce	Tucson	AZ	Within the last few weeks, my wife has been receiving daily robocalls on her cell phone. I am not yet receiving them on my phone. She is extremely annoyed by the calls and is interrupted at inconvenient times to check her cell phone to see who is calling. There is no way that we would remotely consider these type calls to be essential or even important. Action must be taken to stop these calls.
Roger	Converse	TX	Robocalls should be stopped immediately. Too many times they are seeking donations for illegal activities or business for bogus companies. When expecting an important call, they have interfered several times. Even with callblock, they continue to call our number and ignore repeated requests to be removed from their lists!!!!
Benjamin	Austin	TX	I receive robocalls every day on both my cell phone and my landline. I also receive important phone calls related to work, childcare issues, and running the household every day. I cannot ignore the phone when it rings in case it is important. The Robocall industry is completely abusive in their overuse of a communication network. There is a significant loss inflicted on me in terms of time spent responding to unwanted solicitations and invading my privacy and disrupting my focus. Robocalls are very much like disturbing the peace. Should I be allowed to park a van outside your house and blare advertisements through a PA system? I think not. I have the right to be unmolested. Imagine a constant barrage of sales people and solicitors constantly knocking on your front door. That is what robocalls are like. Robocalls for political campaigns and "debt relief" should be outlawed too. Yes there is freedom of speech. But that doesn't mean I can just walk up to strangers and start yelling in their ear. There is freedom of assembly too, but I am not allowed to hold a protest rally in your living room. I pay for my telephone line so it is mine. When someone uninvited calls me, it is like trespassing on my private property. Robocalls provide no demonstrable benefit to the recipient, are a form of constant harassment, and should be outlawed.
Keven	Champlin	MN	Getting more and more Robocalls. These must stop!!
Robert	Kansas City	MO	Stop all robo calls
Susan	Lake Oswego,	OR	I am paying for my phone. I am judicious about who I give my phone number to. Then I get unwanted robo calls. They wake me up in the morning on my day off. I carry my phone at work for emergencies. They get me in trouble for my phone ringing at work. This is a travesty. I am on do not call lists. But I get calls anyway. This has to stop. That you. Susan Marsh

David	Waynesville	NC	There is not a day let alone many hours that I do not get robocalls from security companies giving free systems, calls saying that they are the IRS and that they are filing a law suit and I need to contact them, credit card companies and many, many more. The phone in my house and my cell phone were purchased with my money, the monthly service is paid by me, I have the right to block calls that I do not want. I want my phone companies to develop a way to block all these unwanted calls.
Betty	Bainbridge Island	WA	Please STOP-BLOCK-BAN Robo call and make it a criminal offense
Tom	Atlanta	GA	The FCC does not enforce the no call list. 95% of my calls are robocalls, The Telcos have the technology to stop Robo calls. YOu as the FCC need to do your job and develop no robo calls rules and enforce them!
Andrew	Ft Worth	TX	Please stop these in wanted called from being legal as they disrupt our life and are annoying. I don't bother people in their homes and don't want to be bothered in mine. I use a cellphone and still receive these calls even though I'm on the "do-not-call" registry.
Hiram	Fremont	CA	Please stop the madness
Constance	San Anselmo	CA	It's obvious that the technology has outpaced our ability to constrain its applications. Debt collection robocalls, when made indiscriminately to family members, previous holders of a phone number, or more frequently than, say, three times per month, qualify as harrassment. Were a robocall a human, the law would intervene. But robocalls are instituted by humans, and so should be under reasonable restrictions.
Geralyn	Tucson	AZ	No Robocalls -- Period.
Dorothy Gae	Fliny	MT	I get very few calls on my cell phone, and lately even fewer are legitimate. I always try to answer, but it's hard to pull over on the expressway to get the phone out of my poket. I may have to start ignoring calls if it's not convenient to answer.
Robert	South Bend	IN	I am receiving more and more of these calls and even when you ask to be taken off their list they keep coming!
Barbara	Capitola	CA	It is bad enough that I need to screen every call on my home phone. My cell phone is reserved for my friends. I consider it a violation of my privacy to allow robocalls to my cell phone. Please help keep our privacy intact!
John	Avenel	NJ	Please stop Robo calls to cell phones. I get enough on my home phone even though I am registered for DNC.
Jim	Houston	TX	Name the two worst things.
Rita	Santa Rosa	CA	Please stop the Robocalls, we get 3 or 4 a day! We get tired of having to get up to answer the calls that is not for us. PLEASE STOP THESE CALLS
Brandon	Hull	MA	Stop the Annoying Calls !!!

Ron	San Diego	CA	I'm not currently on any robo call lists which have my cell number, but I am consistently harrassed on my wireline phone by credit agencies chasing someone who had the number previously. I get the calls even though I've had the number for more than two years.
Bruce	Moreno Valley	CA	Please consider a current and future problem, corporations use of robocalls in their marketing campaigns. I am firmly against this practice and have doubts that the law is not strong enough or penalties a deterrent to prevent this issue from happening on land lines. Action needs to be taken to protect cell phones!
Charles	Marietta	GA	As someone who is tired of receiving robo calls I beg you to do all possible to end this practice. No political,advertisements, scams such as I have won a free cruise or credit card problems. End them all. If someone dose not mind these calls, let them opt in. Stop the calls please.
Bobby	Gibsonville	NC	I am opposed to robocalls to my cellphone as I am obligated to pay for the time used on my cellphone. It is unfait that I should have to pay for time used by unwanted calls. Many of these calls are made by predatory lenders and shady companies whom I have no desire to communicate with.
john	glenshaw	PA	These have become quite a problem for me and my wife...Now we are getting calls impersonating the IRS..please do something to alleviate this nuisance
Laurentz	reseda	CA	Im to dam made to make a comment.
JACKIE	AUSTIN	TX	No Robocalls to Cell Phones!!! I DO NOT OWE THE GOVERNMENT OR HAVE ANY STUDENT LOANS BUT EVEN IF IDID THAT IS NO REASON FOR ANYONE TO ROBOCALL ME!!! IT IS AN ABUSIVE AND HARRASSING TECHNIQUE!!! I DO NOT WANT TO BE ROBOCALLED JUST BECAUSE SOMEONE I HAPPEN TO KNOW OR AM RELATED TO HAS DEBTS WITH THE GOVERNMENT!!! IT'S ASSININE AND CRUDE!!!
Dorothy Lynn	Arlington	TX	I do not want any robocalls to my cell phone. I have already taken steps to stop/reduce such calls to my land line. These calls are intrusive and obnoxious. They should not be allowed. I do not have debt, so am not affected as are some folks. No one should have to be interrupted by invasive calls and malicious text messages.
Geralyn	Tucson	AZ	No Robocalls -- Period.
Terrence	Delray Beach	FL	I'm fed up with robo calls and they should be outlawed.

Beth	Flushing	NY	I am sick and tired of hearing that there is no problem with my credit card, but. . . I don't have a credit card. If I can't afford it, I don't buy it. And when I try to talk to the people at the other end, they hang up. What they're trying to do is get my information and "consolidate" my "debt" at a lower rate. This doesn't concern any real debt, just an attempt to get me to have some. So far I've been contacted by fictional characters including Carmen, Bridget, Lois, and a host of others. It is a scam. It has to stop. I block one number after another, only to be contacted by yet another one the next day on both my home and cell phones. They use phony names to defeat caller ID. Enough is enough.
Stephen	North Little Rock	AR	My business phone is exclusively a cell phone. Although I do not get calls from bill collectors, I and others cannot afford to let a referral call go unanswered because some inconsiderate ass of a company is soliciting business and wasting my time on my business phone.
richard	Walnut Creek	CA	No need. No reason. Exploits the phone owner. Stop it, please.
Linda Rose	Seattle	WA	Please regulate robocalls! They should NOT be allowed AT ALL on cell phones--especially from predatory loan companies and debt collectors. Telemarketers should be required to show that in caller IDs, and when we should be able to opt out of their calling lists efficiently. Please protect our telecommunications from being taken over by huge corporations!!! Thank you.
Gary	Fort Bragg	CA	Even though I am signed up to NOT receive unsolicited or sales phone calls, I still get several a week. Our phones are a communication service we pay for and not a reasonable avenue for unsolicited intrusion into our lives. All unsolicited phone calls should be illegal, whether for selling, collecting or even for charitable organizations. Also, current enforcement of existing laws seems lax at best, the phone companies have facilities that can easily uncover the ones responsible for making the vast majority of them and they should be required to make that information available to law enforcement. They need to be shut down and have criminal charges pursued to the utmost.

Gwynne	Boston	MA	We are in our 60s and are fed up with the harrassment we receiv on both land and mobile phones from politicians, advertisers, fundraiser, and bill collectors--the latter to whom we owe NO money. As an example of the bill collector/lawyer scenario, we repeatedly receive calls and mail from lawyers for hospitals (2) that treated our adult son for work-related injuries despite his many, many efforts with hospitals and employer to set the record straight. . Apparently they got our phone numbers and address because he was living at our home at the time of his two work-related injuries, and/or because he listed us as next of kin. This kind of information should not be shared with robocallers or their employers, obviously, and constitute invasion of privacy by the hospitals involved. He notd when he was at the hospitals that these were both work-related injuries. He has asked the hospitals to requests to redirect the billings to his employer, which is simply ignoring its responsibilities to pay legitimate bills for work-related injuries,.
Frank	Wellington	FL	Please stop all robocalls and/or do as much as you can to eliminate them. The call centers habitually ignore all Do Not Call lists as you know. THE best way to stop these useless calls is for you the carrier to control them. Again PLEASE eliminate them.
C Roy	Palm Desert	CA	Stop the robocalls
Ken	Greensboro	NC	THE FOLLOWING POINTS ARE VERY IMPORTANT TO ME AND MY FAMILY. THE FCC SHOULD STUDY THEM CLOSELY FOR IMPLEMENTATION. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Lois	DENVER	CO	Enough is enough! We already have too much invasion of privacy and private space. Please do your part to show respect for and us help protect some remnant of a basic human need. Thank you.
Wayne	El Paso	TX	Robocalls should not be permitted. Period. We deserve some privacy. If somebody wants to contact me, they can write me a letter.
Hiram	Fremont	CA	Please stop the madness
Laurentz	reseda	CA	Im to dame made to make a comment.

Marie	Roseville	MI	<p>We are senior citizens who pay our bills and don't need debit calls. What we get are 'unavailable', "toll Call" from out of state areas, and 'no name listed' as well and blank ID--every single day, 3 x a day at different hours . Why are these allowed in the first place? Here's some I'd love you to delete: 866-410-0572 "toll free call", 586-536-6621 "unavailable", 248-504-2384 "VIG.INC" (never heard of it--56-9754 "Gordon Schwenkm" (never heard or met him),586-913-8235 "unavailable", 616-216-6859 "unavailable", 810-535-5486 "Unavailable", 231-331-8682 "Unavailable", 909-366-4126 "Anonymous" (cute), 313-335-9855 "Unavailable", 866-410-0461 "Toll Free Call, 513-229-9279 "Unavailable",313-265-2871 "unavailable".904-572-3498 "unavailable",313-309-3614 "Unavailable", 616-794-8616 "Unavailable",989-575-5266 "unavailable", ---these have all called during the last 7 days, about 6 calls a day. Please, stop them!</p>
Ray	Houston	TX	<p>I oppose any and all robocalls to my cell phone. My cell phone like my landline phone is my my private and personal phone number and should not be given access to by anyone without my personal permission. I pay for my phone service and not the robocall companies.</p>
Wayne	El Paso	TX	<p>Robocalls should not be permitted. Period. We deserve some privacy. If somebody wants to contact me, they can write me a letter.</p>
Amy	Milwaukee	WI	<p>Robocalls are invasive, predatory and intrusive. The United States government should protect it's citizens from these harassing vultures entities that pursue individuals opposed to assisting these vultures making it easier for them to be invasive. I am respectfully requesting that you protect the rights of your constituents and not that of these predatory businesses. No to cell phone robocalls!</p>

Carl	Glendale	CA	<p>All robocalls to cell phones should be illegal -- period. No one who pays a monthly cell phone bill should be asked to support, or tolerate, unwanted commercial, political, or charitable cell phone rings from robocallers. Additionally, enforcement of the Do Not Call List should be enhanced, not watered down. Many cell phone users no longer maintain a land line and have their cellphones activated all day for personal and business calls. Most often they also have their cell phone linked to their Blue Tooth or other hands free device while driving in a car. Receiving unwanted calls is a massive inconvenience and dangerous distraction for these cell phone users. Needless to say, robocall restrictions must apply to calls regarding collection of federal debt. Robocalls or text messages for the purpose of debt collection should be banned. Only live callers should be allowed to make these calls and they must be limited to NO MORE THAN THREE PER MONTH. Further, only debt holders would be called, not friends or relatives. The FCC should makes these rules clear and readily available to the public.</p>
Tim	Naperville	IL	Please do something/anything to stop Robocalls.
Paul	Austin	TX	<p>I get a number of calls every month to my cell phone telling me such things as "The IRS is suing me" or "Press 1 to learn about an investment opportunity". *EVERY* time I log the call with the FCC, usually with a *VALID* name and phone number, but *NOTHING* happens. Please fix this.</p>
Douglas	Brentwood	TN	<p>Probably 1 out of 5 calls are robo calls. Please do anything you can to stop these annoying calls. I am on the do-not-call list and it is apparently not working. Thanks</p>
Robert	Mount Pleasant	TX	Robocalls to cell phones are a nuisance and should be stopped.

Christian	Newton	MA	<p>Debt collection robocallers must notify us of our right to stop receiving calls. In my view this is non-negotiable. But more importantly, they should be held accountable. The brazen impunity and rudeness with which some of the robocallers, or for that matter some unsolicited callers telephone my residence is such, that I'm addressing this to you now. If no number shows in the caller ID screen, and as soon as I ask them for the number, some hang up or become combative. This is outrageous. I can understand the argument that jobs are at stake. Frankly, I value my privacy more. I'm paying for a service that provides for caller ID, but some of my friends and family who call from overseas use services that use "private caller" caller ID. It's reached a point, that unless I don't recognize the number, I don't pick-up. I shouldn't have to decide whether or not to answer a call simply because some parties choose not to honor my being on a "DO NOT CALL LIST". Getting back to debt collection robocallers; the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. So far, I have not been plagued with unsolicited calls to my cellphone. I'm very selective about giving out my cell phone number. My right to privacy should trump all unsolicited calls, period. As frequently inform most unsolicited callers, "I'm on the 'DO NOT CALL LIST'; please do not call here again" Thank you.</p>
Myrta	Rosedale	NY	<p>I'm retired and I received an abundance of robot call at all times of the day, and even when you press #2 to be taken of their calling list, they still call. This is nerve racking and we have to put a stop to this abuse!</p>
Ron	Albuquerque	NM	<p>I am tired of having to refuse calls just because the numbers are unknown, just to avoid the solicitors.</p>

Christian	Newton	MA	<p>Debt collection robocallers must notify us of our right to stop receiving calls. In my view this is non-negotiable. But more importantly, they should be held accountable. The brazen impunity and rudeness with which some of the robocallers, or for that matter some unsolicited callers telephone my residence is such, that I'm addressing this to you now. If no number shows in the caller ID screen, and as soon as I ask them for the number, some hang up or become combative. This is outrageous. I can understand the argument that jobs are at stake. Frankly, I value my privacy more. I'm paying for a service that provides for caller ID, but some of my friends and family who call from overseas use services that use "private caller" caller ID. It's reached a point, that unless I don't recognize the number, I don't pick-up. I shouldn't have to decide whether or not to answer a call simply because some parties choose not to honor my being on a "DO NOT CALL LIST". Getting back to debt collection robocallers; the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. So far, I have not been plagued with unsolicited calls to my cellphone. I'm very selective about giving out my cell phone number. My right to privacy should trump all unsolicited calls, period. As frequently inform most unsolicited callers, "I'm on the 'DO NOT CALL LIST'; please do not call here again" Thank you.</p>
Dorothea	Hanford	CA	<p>I have a pay-as-you-go cell phone plan. Each day my phone is used cost me \$1.00 plus \$.10 per minute. I seldom use my phone and this plan works well for me. Then I started receiving robocalls on my cell. Since I rarely use my phone every time one of these robocalls comes in it cost me \$1.10! I have only given out my cell phone number to a few people. I pay for this phone. I should be able to decide who has the ability to call me on my cell phone. It's only right. These robocalls are literally costing me a \$1.10 every time they call me. Why should I have to pay money for calls I don't want and didn't authorize? Please help stop this madness.</p>
Margaret	Drexel Hill	PA	<p>I think robocalls should not be allowed at all. Sometimes I get several a day to my cell phone (which I never answer and whose perpetrators rarely leave a message). I check the numbers online and can usually see it is a scam of some kind. My private phone number gets them and my listed one gets tons. They are a pain in the neck and I think the people who use them should be jailed. I am an "older person," but pretty savvy. Many of my age are not and they are prey to these calls.</p>
Thomas	Miami	FL	Including Home, Business, and Cel numbers

William	Saint Louis	MO	The home phone has been ringing for years with unsolicited and robocalls. Recently I have a new business venture that is largely conducted on a cell phone. The un-wanted have now found that number. A few now but more to come. Just like the home phone. You must stop these un-wanted, un-necessary calls. Stop the phone service provider from allowing the calls. Set rules/laws that will allow the offender to be prosecuted. If I want to talk with a politition, charity or any one I will call, email, mail. We have let users of the internet, airwaves, etc. to continue to ask for, sometimes, and do pretty much what they want. Stand up and make thing as they should be. Stop all unwanted calls. There must be no exceptions.
Paul	Austin	TX	I get a number of calls every month to my cell phone telling me such things as "The IRS is suing me" or "Press 1 to learn about an investment opportunity". *EVERY* time I log the call with the FCC, usually with a *VALID* name and phone number, but *NOTHING* happens. Please fix this.
James	Hampton	NJ	PLEASE - stop the robocalls to my cell phone. The "Do Not Call" registry has been a dismal failure, so we still need government action. We have the registry, but no one is monitoring it, and no one is levying penalties! There is no deterrent. Fix it!
John	Santa rosa	CA	Do not allow calls to those that owe no debt. We must have the right to stop calls when no debt is owed.
Harry	Boulder	CO	Please institute any procedure possible to stop all robocalls, to landlines and cell phones. In my case, they are extremely counterproductive; I not only refuse to listen to them, I also actively put them on my private list of organizations I will not patronize or support with contributions.
Rick	Venice	FL	These calls are a waste of advertising dollars. Check the real statistics (not those given you by robocall companies)
Barry	Los Angeles	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Paul	Chapel Hill	NC	Over the past few months I've seen a dramatic rise in the number of robocalls I'm getting on my cell phone. They are a NUISANCE! Please put an end to this practice.
Ted	Dravosburg	PA	I have gotten repeated calls from ADT offering free stuff despite asking to be removed MANY TIMES!
Harold	Caddo Mills	TX	Robocalls to landlines that are forwarded to cell phones or to phone numbers that simultaneously ring on cell phones MUST be blocked also!
Nathan	Kissimmee	FL	I'm sick and tired of those robocall, calling all time of day and evening too. Dinner time , bed time, no more call!!!!

Tom	Mesa	AZ	Robocalls have become a plague on society! Thankfully we have caller I.D. on many telephones today but robocalls keep coming even if we ignore them. Many of us do not have the latest and the greatest devices to screen such calls. Is the next call a nuisance or an important call? Do we answer and get stuck listening to some garbage or ignore it and miss a critical message from a loved one! The Federal Do Not Call legislation(s) does not stop the calls. Please help eliminate robocalls and protect the citizens of our country.
Fred	Houston	TX	I initially thought that I might be immune to these robocalls. But recently, I have been receiving more and more unsolicited calls from insurance companies, vacation and time share companies, and so on. It has gotten to the point that if I don't recognize the number or there is no caller ID, I simply cancel the call. But what if that unrecognized number or one without a caller ID is one that I really should take, such as family member with a new phone number? I would much prefer to reach out to these types of businesses and services on my own terms: THAT IS WHEN I NEED THAT SERVICE OR PRODUCT, not the other way around. FCC, please help us out. Put an end to robocalls
Jerome	Mission	TX	We receive 5 to 6 of these ROBO calls every day including Saturday and Sunday. It is about time that someone puts a stop to this.
Jeff	San Diego	CA	PLEASE take the strongest possible action to stop robocalls ASAP. They are an intrusive violation of our right to privacy, and EVERYBODY hates them.
Ardythe	Cherokee	IA	I've tried to stop Robocalls (mostly concerning credit card "information") myself, by following the path to a real person. I've been met with sarcasm, insults, & threats (to call more often & have used horrible language.) We carry no credit card balance, paying entire bill each month & have done this for years. We live in the country (farm), do not have caller ID. Every time the phone rings & we are home, we answer it. We're over 70 & it can be difficult to get to the phone, & we have good reasons not to ignore calls. We have livestock, live near a highway, & fear an animal may have gotten "out", or there may be a family emergency. We have no reason NOT to answer the phone. Totally raises the blood pressure, interrupts work, & so irritating when it is a nonsense call for no other reason than to annoy people. When we have an annoying & troublesome bug bothering us, we swat it. Please do the same to the robocallers!!! Stop them, please! Century Link is our phone company. Ardythe Urban

Tani	Clovis	CA	Please, please, don't give up fighting for us. Any kind of unwanted robocalls, texts and debt collection calls on cell phones are repulsive invasions of privacy, and an abuse of a service that I pay for. My phone service is my personal 'property', and I don't give permission to these abusers and shady people to call me. I have used the 'do not call' list for years with no success. I have tried everything, and nothing has worked. You are the next thing I have hope in. Don't give up, this is no small matter.
Ruben	Smyrna	SC	I don't know why this debt collection was allowed to be snuck in and done via robocalls, but it needs to be removed! Free our paid phones for our own use, and not for things that have no business driving us to run to the phone for such as this. USPS mail can handle such, and that will be limited due to the expense. Robocalls cost them nothing and drive us crazy.
Marvin	San Rafael	CA	You cannot be more immune to the unwanted and incessant interruptions from robo calls than anyone else. They are annoying at best, dangerous at worst and distract us from paying attention in critical situations. I personally have received them while caring for patients and have been awakened from sleep to be informed that I have just won a dream vacation or can refinance my home at some impossibly low rate. We need a way to be able to STOP what are clearly unwanted and escalating intrusions into our dwindling privacy. Even simply being able to press a button such as # on the phone to forever block that number would go a long way toward alleviating the problem. Action is required! This is a safety and privacy rights issue. Please do something positive to end this problem, one affecting everyone with a phone number, including vulnerable and impressionable kids with lifeline phones.
Harry	Boulder	CO	Please institute any procedure possible to stop all robocalls, to landlines and cell phones. In my case, they are extremely counterproductive; I not only refuse to listen to them, I also actively put them on my private list of organizations I will not patronize or support with contributions.
Thomas	Lorain	OH	My phones are a means of private communication between me and my acquaintances. I do not want unsolicited calls harassing my existence constantly.
Stuart	Atlanta	GA	I'm so tired of being interrupted at work, dinner and even sleep from these intrusive morons who have no right to do so! If they came to my front door, I might listen to them but they're too lazy and crooked! For goodness sakes knock these bums down and keep them away from us.
Toni	Tucson	AZ	It's unfair to ask consumers to pay for the calls that we are not interested in receiving; which is what happens when calls come into cell phones, and land lines for that matter. Nobody wants to get these invasive calls, and they shouldn't have to.

Sharon	Kennesaw	GA	I oppose robo calls to my cell phone because it is intrusive plus there is a cost to me to have this service and I should have control over how it is used. There seems to be so many errors in the debt collections industries data. I believe that the people they are trying to contact will just change their number while others who are not the focus and have phone numbers they don't change will be the victims of these policies.
ROBERT	NORTH ATTLEBORO	MA	I oppose robocalls to my cell phone without my permission, in general. In particular-.Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available Please enforce the strictest possible rules
James	Chapel Hill	NC	Please limit robocalls to our cell phones. New guidelines should be clear and easily available, calls should be limited to 1 per week, and robocallers must be required to notify us of our right to stop receiving their calls.
William	Saint Louis	MO	The home phone has been ringing for years with unsolicited and robocalls. Recently I have a new business venture that is largely conducted on a cell phone. The un-wanted have now found that number. A few now but more to come. Just like the home phone. You must stop these un-wanted, un-necessary calls. Stop the phone service provider from allowing the calls Set rules/laws that will allow the offender to be prosecuted. If I want to talk with a politician, charity or any one I will call, email, mail. There must be no exceptions. We have let users of the internet, airwaves, etc. to continue to ask for, sometimes, and do pretty much what they want. Stand up and make thing as they should be.
James	Austin	TX	Robo-calls to my landline have ruined it. I'm seriously contemplating dispensing with a landline. Robo-calls to my cell phone are even worse. They follow me wherever I am and whatever i'm doing. Please ban cell-phone robo-calls.
Dan	Stuart	FL	Just stop it! All you are truly accomplishing is alienating your company and products with the American public.
Kathi	Meridian	ID	My cell phone was being called from cities around where I live now in Idaho and around where I used to live in Colorado. I accidently answered one given I was doing business with someone who has their # blocked (doctors/nurse line) and couldn't miss the call given urgency for 6yo sick kid. They tried to say I had a computer problem and I am not stupid so hung up. If we as a nation can stop this fraud with one simple law/device DO IT! PLEASE!! I can't imagine someone with an even sicker child dealing with this call after call after call after call.
David	Palm Beach Gardens	FL	Please adopt policies to end these abusive robo call practices.
Robert	Powhatan	VA	Please stop all robocalls to cell phones

Cliff	Cypress	TX	Would like both land lines and cell phone stopped from Robo Calls
Alfie	New Milford	NJ	I'm tired of having to wake up early or very late at night, and been bothered at all times during the day, just because someone decided to use my number...I'm not interested in anything you are offering, and don't want to be bothered in my own house...I don't pick up the phone anymore, but hv to be listening to way too many phone calls!!!
Michael	Naples	FL	We can no longer answer our home (land line) phone. If it is someone we need to speak with, they leave a message and we'll call back. If it weren't for the fact my wife needs a land line for a medical device, we would eliminate it. For the past few years important calls from family and friends were easily received on our cell phones. I would readily answer my phone knowing my number was being used by someone I wanted to speak with. No more. Now 40% of incoming calls are from unknown numbers. I don't answer. It is rapidly becoming as bad as home phone calls. The calls can wake you in the morning, wake napping grandchildren in the afternoon, and are increasingly disrupting dinner. Please give us the tools to block these intrusions. Thus far we have found "do not call lists" to be highly ineffective.
Henry	Grinnell	IA	Robocalls consume vast amounts of time, energy, and resources. Further, they are disruptive for recipients --- often interfering with important personal and professional activities. Debt collection robocalls are particularly annoying when the caller has an incorrect number --- yet the calls can go on frequently for years. A mechanism must be available to stop all robocalls. Debt collectors must be limited to a very few per month, and they must stop in the case of an incorrect number or mistaken identity!
Katherine	Pagosa Springs	CO	I am getting more and more of these calls. PLEASE help us take back our privacy, out time and our sanity. PLEASE limit and eliminate these predators!
Henry	Fredericksburg	VA	Please stop robo calls. I get numerous ones each day. This must stop! I
Henry	Lawrence	KS	Please stop ALL Robocalls, cell and landline.
Gary	Gurnee	IL	I am receiving at least 10 robocalls a day. "Bridget from Cardholder Services" is the most annoying - someone must shut her down IMMEDIATELY. I don't have a problem with debt collectors unless they receive some improper information, which has happened in the past. Then there are surveys, polls, people asking for obscure donations, etc. I may just cancel my landline altogether. Enough is enough - the FCC is doing NOTHING and they are useless. FIX THIS!
Rich	short	NJ	These insurgents start early in the day and go to 9PM and later.They disregard time zones and call multiple times in a day.....please stop this unwanted intrusion. thankyou

Randall	Poway	CA	Please take whatever action is necessary to stop robocalls. Besides being annoying and counterproductive, they facilitate illegal activities. We have a small, home based business and have to respond to customer calls. It ruins our productivity to have to race through the house to answer the phone- only to find it is an illegal call from someone claiming to be from the IRS. How can anyone condone robocalls? Please take action to stop them. Best Regards, Randy Simpson
James	Golden	CO	In addition to the annoyance and my wasted time answering robocalls, they are using the minutes I pay for.
Chuck	Viera	FL	It's bad enough that I get calls on the land line that call and then no one is there but now it's starting on the cell phones. We can't have this happen to the cell phones. I leave my phone on at night as I have several elderly people that call if they have a problem. If I start getting more robo calls it's going to make my nights really bad.
Henry	Albany	OR	Robo-calling is a form harassment and it shall stop immediately.
James	Hampton	NJ	PLEASE - stop the robocalls to my cell phone. The "Do Not Call" registry has been a dismal failure, so we still need government action. We have the registry, but no one is monitoring it, and no one is levying penalties! Fix it!
Daryl	Valrico	FL	Sick of Robocalls. Please eliminate or give us control over receiving them.
Paul	Spring City	TN	I would like to see the FCC stop cellphone robo calls. It is very annoying.
Jack	Santa Monica	CA	Please enact rules to prohibit use of cell phones to collect debts, or for any purpose. Cell phone users pay for time as you know, so that is more than being bothered that is at issue.
Len	Van Nuys	CA	The robocall companies have no respect for a person's privacy, and there fore these calls should be against the law. We do not ask for or want these calls, but unfortunately are powerless to stop them since the FCC is unwilling to stand up for the rights of the consumer. We have purchased a Call Blocker to help mitigate this problem, & it works very nicely.
Linda	Bend	OR	They are disrupting and infuriating. Why have they suddenly increased so much that now I have more of them than personal calls? This is unacceptable.
Daniel	Seattle	WA	Robocalls are a nuisance and source of stress to nearly everyone who receives them. They serve no public benefit in almost every case (I except calls from school districts) but in many cases they are used for deceptive advertising. Stop them now.
barbara	los angeles	CA	enough of these non human robo calls...why not hire real people who you pay to make these ubiquitous calls
henry	buffalo	MN	just do it

margaret	E. Wakefield	NH	I'm tired of the constant, frequently same companies, trying to fix my computerâ€¦.that's not broken, get me to send money to the IRSâ€¦.only they aren't the IRS, and buy medical supplies that my doctor wants me to getâ€¦..he doesn't. Although I constantly report companies in violation of my do not call status, they continue to call. We need better enforcement of Do NOT Call, and ending robocalls will put a big dent in these companies. They don't pay for my phone. Why should they use it and annoy me for free?
Vicki	McKinney	TX	NO MORE ROBO CALLS TO CELL PHONES PLEASE!!!!!!
ROBERT	NORTH ATTLEBORO	MA	Debt collection robocallers must notify us of our right to stop receiving calls If you oppose robocalls to your cell phone without your permission, simply say why. I oppose robocalls to my cell phone without my permission, in general. In particular-.Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available Please enforce the strictest possible rules
Jim	Houston	TX	Name the two worst things.
jeri	lacey	WA	i screen all calls, often at an inconvenience for me and legitimate caller. this has to stop ---- NOW. i also receive these calls on my consumer cellular cell phone. also, there are the threatening calls attempting to frighten me --- i do not answer and these calls go to voice mail. customers pay for their phone services and the various taxes --- about 30% as best i can calculate. I HAVE SIGNED FOR THE BLOCKING AND EVERY OTHER SERVICE BUT THE CALLS HAVE NOT STOPPED. PUT A STOP TO THIS ONCE AND FOR ALL.
Marianne	Delaware	OH	No more robo calls!!!!
Linda	Bend	OR	They are disrupting and infuriating. Why have they suddenly increased so much that now I have more of them than personal calls? This is unacceptable.
Brett	Salem	SC	Robo calls should be banned in all cases. They are a serious intrusion of privacy and clog the air ways,
Virginia	Lamesa	TX	I don't know what you mean by Robo calls. What I get tired of is when I call AT&T I get this automated person asking who I want to speak to, is it customer service or technology help. I do not like talking to that automated person. I would rather talk to a live person and then I will get my answer much quicker. Right now I am not getting any of those but if I was I would tell them to take me off of there list.

Donna	Marshall	NC	Robocalls are annoying - more than annoying - an outrage to intelligent citizens - so many robocalls are done by scammers, looking to steal credit card#'s, money, personal information - these calls are from fraudulent concerns, the people who are in charge of placing these calls are thieves - thieves shouldn't be allowed to continue to bother citizens when the thievery can be stopped by the FCC. Please take action to stop these callers! It's also an outrage that citizens are charged for these calls! Please stop this! Thank you for your attention.
Ian	Little Canada	MN	My wife and I frequently receive robocalls. The only thing more intrusive would be people entering my home to pitch their sleazy products! Please protect us and other citizens from unethical advertising methods like robocalls.
Miles	Camp Hill	PA	Please put an end to robo calls and all non wanted sales calls. We are on the no call list. FCC should not be allowing these calls. We find these calls very annoying. FCC AND PHONE CONPANIES do something.
Robert	Rancho Mirage	CA	These robocalls are exremely annoying and occur at all hours! Please STOP THEM!
Robert	Powhatan	VA	Please stop all robocalls to cell phones
Rita	Ridgefield Park	NJ	NO MORE ROBOCALLS!!!!!!!!!!
James	Middletown	NY	Keep our cell phones Robocalls free. I don't need to pay air time to get a Robocalls, for any reason. If I want to deal with that company I will CALL THEM!
mike	North Chesterfie	VA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Nancy	Pacifica	CA	I am on the DO NOT CALL list and have been since its inception. I gave up my land line because all my personal calls came to my cell phone and the only calls I was receiving were robocalls or solicitors, despite being on the DO NOT CALL list. I now have as many blocked numbers on my cell phone as I do in my contacts. THIS MUST STOP!!!
Ron	Lower Burrell	PA	Looked into health care after my job was eliminated. My wife finally quit counting after we received 48 robocalls in one day. This continued for more than a week before starting to taper off. That was a month ago and we still get several calls a day. Please end this. Thanks
Bud	SF	CA	STOP ALL ROBOCALLING!!

Laurie	Grosse Tete	LA	Please end robocalls on cell phones, landlines, everywhere. And no exemptions for the politicians. I pay for these services, and should have the ability to not be bothered by these self serving calls. I have opted out of everything I can opt out of, and yet daily I receive many of these unsolicited and unwanted calls. Further, they should not be able to block the name of the caller. I don't have much faith in your ability to affect change, though, since putting my name on the opt out list every year, as well as my family members and 90 year old mother hasn't worked. And when I tried to report the companies that continue their unwanted calls, omg, getting through to you guys is all but impossible. My tax dollars at work, not.
Virginia	Lamesa	TX	I don't know what you mean by Robo calls. What I get tired of is when I call AT&T I get this automated person asking who I want to speak to, is it customer service or technology help. I do not like talking to that automated person. I would rather talk to a live person and then I will get my answer much quicker.
Barbara	Oroville	CA	Please stop all robocalls. As a very senior citizen, they are hazardous to my health--trying to get to the phone.
Frederick	Bonita Springs	FL	Stop robocalls now! I get at least 4 per day, always the same ones. It is very irritating. It is a violation of my privacy. It is something that government can stop now. Just pull the communications company's license if they don't comply.
Peggy	Kenton	TN	I get so tired of looking up numbers from far away area codes where I know no one. I've registered and registered, my house phone and my cell phone but it seems to make absolutely NO difference. I owe nothing so I'm not troubled with those kinds of calls but the calls to tell me there's something wrong with my computer, that the IRS is sending the FBI after me, those are highly annoying and cost me minutes on my cell phone and my time as well. Please STOP these calls.
Steven	Plano	TX	I use my cell phone mostly for business. I hate it when my conversations or presentations to a customer are interrupted by a robot call. I am in sales and this is NOT the way sales should be done.
Bud	SF	CA	STOP ALL ROBOCALLING!!
BETH	Boise	ID	i received 6 robocalls in 2 minutes at my office. that was just from one company. we get them all day who has time for this. make it STOP
susan	saline	MI	Please stop intrusive and unwanted robocalls. Thank you

Cheri	Hopkins	SC	<p>Most cell phones have limited voice, text, and data limits without added robocallers. Those of us who are on on fixed incomes without any chance of employment cannot afford to receive robocalls at our expense. It's bad enough that we receive calls on our landlines even though the Federal Do Not Call list has been used for not only our landline phones but our cell phones as well. I don't know how, but debt collectors find a way to obtain cell numbers.</p> <p>Happily both my husband and I have simple basic flip phones, and we still receive attempted texts. We have no recourse to stop these robocalls. We have told creditors to cease and desist for these calls, but it doesn't happen. We do monitor all our calls, but when a caller ID shows up as "unavailable," we are an object of abuse. we shouldn't have to monitor our calls all waking hours. Debt collection robocallers must notify us of our right to stop receiving the calls and then DO IT, following through</p>
Pat	West fork	AR	Get four to five robo calls a day. Have repeatedly told one co to take my name off their list; they still call.
Gordon	Woodbridge	CT	I have a child and a terminally ill mother. Whenever I get a call, I expect the worst! I answer the phone whether I am on ladder, crossing the street, driving...you get the picture. Please stop these unnecessary, unsfae robocalls!!!
hector	North Miami	FL	<p>All day long i receive robo calls. My business line (Actron Security 305-893-5388). is forwarded to my cell phone. I initially started ignoring out of area calls as a solution. When I'm in the middle of important calls i will get a call that i must answer because in today's world a client can have a phone # from any area code. I cannot ignore it because i have ignored an out of area call before and it was one of my clients. These robo calls are now coming from local area codes. And they are probably using caller ID spoofing. I have now resorted to instantly hanging up the moment i think it's a robo call. This causes a problem. If i am receiving a legitimate automated call from a doctor confirming an appointment. A pharmacy letting me know that my prescription is ready or that my bank has noticed unusual activity on my account i will not be listening because of these illegal calls that waste my time and productivity. Sometimes I'm on working on a ladder, sometimes i cancelling a false alarm dispatch. If the local police department is using automated calls about an emergency or an escaped felon in my area I will miss it. These companies should have zero right to invade my life. I think you should put a bounty on these companies. Anyone who supplies information that leads to the closing of these operations and or prosecution should be rewarded. Lets start the bidding at \$500. Lets see how long they last then. Please help.</p>
Faye	Decatur	AL	Please protect us consumers with very strong regulations/laws against robocalls to both our home phone and cell phones.

Doyle	Oceano	CA	Please help us STOP ROBOCALLS.
Cynthia	Rio Rancho	NM	Navient and its student loan debt collection affiliates already calls me on my landline phone DESPITE the fact that the calls are for a relative who lives 2,000 miles away, and DESPITE the facts that Navient etc. have the relative's phone number and address and DESPITE verbal and written notices to Navient etc. to never again call my landline phone or me. They now are calling relatives at my house, using my phone number, still trying to contact the relative who lives 2,000 miles away. Nobody at my house or who might answer my landline phone have any control over the relative, nor are we cosigners on any of the loans Navient etc. call here about. Even after letters to Sallie Mae and Navient and CFPB, Navient etc. still call here. Cell phones must be excluded from all robocallers! The debt collection industry continually proves itself to be UNCONTROLLABLE, DECEPTIVE, HARASSING, and INTENTIONALLY HARASSING. Phone service, especially mobile phone service, should be viewed primarily as a safety provider. How can we call for emergency or urgent care when robocallers have our phones tied up? And, robocalls that just ring and hang up, throughout the day, are dangerous (as people run to answer their phones), distracting, and so often not even to or for the recipient but, instead, for someone who no longer has that phone number (especially in the case of mobile phones). Only intentional HARASSMENT comes from robocalls!
Lana	Ballwin	MO	I'm beginning to receive more & more robocalls on my cell phone. I have a cell plan with a limited number of monthly minutes & I do not want to waste them on companies that are soliciting me to use their services. I should not have to be bothered with the extra expense if I do not want to. Please stop Robocalls. Thank you, Lana J Arbogast
Thomas	Sumner	IA	Privacy is more important than an organization attempting to make massive calls from whatever quality list they buy or create in order to try and achieve a 1% success rate. What the industry needs is a better business plan and model, not freedom to use a shotgun approach to achieving results. Slam the brakes on robocalls!
lisa	No. Richland hills	TX	The most annoying and intrusive invasion into your personal choice space is when you have people calling at all late hours (5:00 pm to 10 pm) and they are asking you to donate or buy something that you do not choose too nor want.

Bob	Austin	TX	Dear FCC: Please institute enforceable rules regarding calls to my cell phone: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends, family, or employers - The guidelines should be clear and readily available - The FCC should proactively publicize (to the public and telephone carriers) technologies and programs that will help reduce unwanted robocalls - Every robocall MUST offer the opportunity for us to "Opt-out" of future calls by touching a designated number on the touch-tone key pad - Robocallers should be prohibited from calling me unless I have specifically asked for their product or service. Thank you.
Lewis	Milton	GA	No call lists were established to inhibit non essential sales calls. I have all my phones on a no call list, yet I receive on average 5-10 calls per day. If a rule/law is in effect one would think the government. local, state or federal would manage it. Yet, there seems to be no management and no consequence to those companies that do not adhere to the law. Legislators wonder why the general public feel politicians and government employees are worthless; this is yet another reason to support their beliefs!! Foe once in your lives do something!!
Stephen	ARLINGTON	MA	Please stop Robo, telemarketing,political, it's getting Out of hand. The more I report on the not call list the more I seem to get. Does any one get fined? They should list the those that do get fined
Kim	Darlington1	PA	The robocalls need to stop. I don't pay for cell phone service so that I can get unwanted phone calls!! I give my cell phone number only to people that I want to have it.
Raymond	CAPE CORAL	FL	T
Alan	Wynnewood	PA	I despise Robocalls and believe that citizens should have easy access to opting out of them
Robert	Lander	WY	The robo calls have started to my cell phone and they are very intrusive. In the middle of meetings when I need to have my phone on for important calls I will receive these robo calls. Our phone system should be for our private use and we should be able to be protected from any unwanted calls. thank you for your help.
Jeffrey	New York	NY	Robocalls should be banned. It should be illegal to use phantom numbers and call without permission.
Karl	Cary	NC	Not only do I have to put up with at least a dozen robocalls on my land line each day, now I am getting three to five robocalls on my cell each day. These need to be stopped! Apparently the do not call procedures/processes do not work.

Edward	Omaha	NE	We receive so many of these calls a day that we purchased a new answering machine that has included a block caller built in. These machines come with the capability to block up to 30 calls. We only block repeat callers. We are now at 22 callers who call several times a day, and week. I know that people with the FCC are not immune to these robo callers so you must have some sense as to how it affects your daily life. I beg you, use your powers that be to rid americans of this abusive practice.
John	Norfolk	VA	PLEASE, please, please....stop robo-calls.
Marilyn	Long Beach	MS	I'm retired and use my cell for unexpected needs when away from home, typically. My low. usage plan and accorded fees are based on this. Free range for nuisance callers tying up my line and intruding on my privacy means I'd be paying for unwanted, bothersome robocalls with higher usage fees. I'm not the only retiree, or person using a cell phone judiciously, who'd wind up essentially supporting those "roborats" and their invasive practices. Don't let this happen!
Fred	Ajo	AZ	Robocalls are an unwanted disturbance. Please put an end to them.
Robert	Gainesville	FL	The FCC needs to correct the present freedom of companies using Robocalls to either stop or at least reduce the frequency, who they can call and giving receivers of such calls the option to opt out.
Kim	Darlington1	PA	The robocalls need to stop. I don't pay for cell phone service so that I can get unwanted phone calls!!
Jarrell	Appleton	WI	Of all of the irritations in life, there are few more irritating than a robocall. Stopping what I am doing, possibly running to the phone just to find a robocall makes me wish I could reach through the line and grab someone by the throat. I sincerely hope that the FCC will ban robocalls forever.
Charles	Bothell	WA	I don't give out my cell number to many people - but I still get unwanted robo calls almost every day from people trying to scam me out of money. Please make them stop!
anne	tijeras	NM	I reserve my cell phone for personal and emergency calls only. I don't want it tied up, and charged, by annoying junk calls.
J.	Lafayette	CA	Nearly 90% of the calls I receive to my home are uninvited solicitations and robocalls. I want it to stop.
Marc	Torrance	CA	Please block the robocallers who call my cellphone three or four times a day right now.
Frederick	Bonita Springs	FL	Stop robocalls now! I get at least 4 per day, always the same ones. It is very irritating. It is a violation of my privacy. It is something that government can stop now. Just pull the communications company's license if they don't comply.
Ron	Wichita	KS	please stop robocalls

Marti	Milwaukee	WI	Dear FCC people I'm certain you don't want to receive robo - calls to your cellphone, none of the rest of the population who are cellphone users want them either. The FCC is supposed to protect consumers from such harassment. Please do so. Thank you.
Charles	Homer	NY	Robo calls are more than an annoyance - they are an invasion of privacy
Jeff	Ocala	FL	I pay for my cell phone and I get call all the time about loan. I didn't apply for loan and I tire of it I told them to stop calling me and they still call me. And I get text for A William that so call apply for a loan. I text them back and ask them not to text me I not William. I prepay for my phone and I on A State and Government Do Not Call List . I told and text they that I on a Do NOT Call list and they keep calling and text me. In one day I have over Eight Nine call from the same guy asking for William. And I have Eight Nine E-Mail now on my pay and I don't check my voice mail. Because I have to pay to check them and they are from loan spam. Why would I check them and waste my money. Some thing have to be done to stop these call. If I don't know the number sent it to Voice Mail. Because I know it loan people. I don't give this number out only to Family, Friend and Doctor. They call and text me to just pis_ me off. There should be a law not to call or text Prepay Phone. Unless you give them your number. I report it and was told there nothing they can do about it. Why have a Do Not Call List if Government or State don't do any thing about it. What a joke Do Not Call List. It time for Government to do it job. Why do we pay Government to do a job. When they don't do their job. May be people in Government been there to long not doing their job right. If you may a law for a Do Not Call List then it go for all CALL and Text. Not just some.
William	Ansonia	CT	The system is broken. Caller ID is worthless. They spoof local numbers from my exchange so we answer the calls, Blocking lists are worthless as they keep changing the numbers. I try to run a small business with 3 phone lines. The frustration and wasted time answering these calls in becoming unbearable. We get an average of 7 of these calls a day. So many are not even selling services, they are just collecting the call connect fees. This has got to stop. The wasted productivity across America must be staggering. Time to make this a crime. Fix caller ID. Close the loopholes. Fix the damn phone system. Enforce the law. Shut these crooks down.
Craig	Warwick	RI	No Robocalls to Cell Phones! PLEASE
Rich	Timonium	MD	Please stop these invasive calls. Our privacy is already too public. Must be limited or eliminated. Use the mail.

Jennifer	Pepper Pike	OH	As taxpayers, we have a right to privacy and protection from robocalls and texts! We want protection from debt collectors, telemarketers, fundraisers, political campaigns and survey takers. We want the right to permanently opt out of these calls and texts. Thank you.
Molly	Haverford	PA	Robocalls to cellphones are even worse than those made to landlines. First, there's the question of safety. We carry our cellphones in our cars and calls we receive while driving, even if we don't answer them, are a distraction and can lead to accidents and deaths. Second is the question of cost. Calls received are included in the minutes we use and when we exceed the minimum allowed under our plans we have to pay for them; this is outrageous because what we pay may exceed the cost to the makers of the calls. We can avoid some of this by turning off our phones, but this makes the phones less useful to us because we need them to receive "real" calls, particularly if we have limited or dropped our landline service.
Michael	Naples	FL	I use NoMoRobo for my VOIP Lines. Please provide the same protection with an app for my cell phone numbers.
Elbert	Silver Spring	MD	Criminals are making a mockery of the Do Not Call law and the communications companies are accomplices to the crime by charging me for answering the call. I am fed up with people ignoring the Do Not Call law and pestering me with robo calls and other types of phone call scams where they invade my privacy and violate the law by using untracable phone numbers so that civil authority is unable to track down the offenders. 1. Require the communications network to block all calls that do not have valid, registered, tracable phone numbers so the people behind these calls can be prosecuted. 2. Punish the phone companies for each unwanted call that gets through to a registered Do Not Call Number.
Jeffrey	Scottsdale	AZ	Really? The # of robocalls we get on our personal cell phones already drives us nuts. By the way my cell # is 1 (888) 225-5322.
ron	greenbrae	CA	Please help the FCC to block robo calls to cell phones. I pay by the minute and each unsolicited call costs me money, this is unfair/
wendy	morris plains	NJ	As if we didn't have enough stress in our daily lives, we have to deal with annoying, unneeded, and stressful robocalls - not only to our cell phones, also land lines. Did you know that it's stress that kills, not disease? Stress causes it, and it builds up leading to all kinds of nasty physical problems. So for the sake of my health, not to mention millions of others, please, please, please, do your part to eliminate these harassing, interrupting, and extremely STRESSFUL robocalls!!!
Tom	Flower Mound	TX	How can a third party's intrusion to our personal communications tool be anything but theft?

Frederick	Bonita Springs	FL	Stop robocalls now! I get at least 4 per day, always the same ones. It is very irritating. It is a violation of my privacy. It is something that government can stop now. Just pull the communications company's license if they don't comply.
meir	cupertino	CA	Please do. They are a great nuisance.
Doug	Middleton	WI	Robocalls are not only annoying and unnecessary, they also consume minutes of call time. Please don't allow robocalls to cell phones.
Steven	Lakeside Park	KY	Please end all robocalls, including debt collectors, political messages, and sales calls.
rebecca	n kingstown	RI	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Elliott	Palm Springs	CA	I am sick and tired of getting these calls, especially on my cell phone. I travel frequently around the world and am sick and tired of getting these BS calls at 2, 3 or 4 in the morning because these idiots have no idea where I am. Please pass rules and regulations prohibiting them from continuing and imposing VERY hefty fines for violations of the rules. Thank you
Kenneth	Milwaukee	WI	I receive several robocalls per day on my cell phone even though the number is on the "no call" list. Almost all of them are from scammers as confirmed by an internet search for the number calling. This costs me money and endless annoyance as well as the potential for fraud by the caller. The FCC has the power to end this plague and MUST DO SO!
Mark	Leesburg	VA	I currently participate in the reporting of calls through the Do Not Call registry. However, often calls are untraceable, etc. This process also doesn't seem to be working. I receive calls on all my family cell phones as well as home number, even though all are registered on the Do Not Call list. Same goes for all my family members. I'm terrified that my elderly grandmother will slip up one of these days and provide these callers sensitive information. Please help us stop these robocalls.
Jason	Bonner Springs	KS	NO ROBOCALLS EVER!!!
Roger	Converse	TX	Robocalls should be stopped immediately. Too many times they are seeking donations for illegal activities or business for bogus companies. When expecting an important call, they have interfered several times. Even with callblock, they continue to call our number and ignore repeated requests to be removed from their lists!!!!

Carol	Piscataway	NJ	Friends and family of those that directly hold debt should not be getting calls or texts from lenders even for federal debt. Three times a month is plenty for any debt collectors. No one should be allowed to harass repeatedly. Any guidelines posted should be clear and available readily so both lenders and borrowers know what they are.
Kay	Hemet	CA	I pay monthly to have my phone number UNLISTED to eliminate unwanted phone calls. I STILL receive robocalls. These robocalls are invading my privacy. My monthly payment for an unlisted phone number is a waste of money as long as robocalls are allowed. I am a senior citizen and live on a very strict budget. I need every dollar and certainly don't need to waste any money on something that I'm not getting my money's worth. STOP THESE CALLS!!!!!!!
Rev. Dr. Raym	Ormond Beach	FL	It is time to take the lazy out of it. Automatic robo calls are the bane of nearly everyone .Cease now
Delby	Seattle	WA	ALL Robocalls should be restricted; debt collection calls should have the limitations.
Carolyn	Kissimmee	FL	PLEASE take action to end the annoying robocalls that we all get. I feel that it is an invasion of privacy and an unwanted irritation to my day.
Jeff	Ocala	FL	I pay for my cell phone and I get call all the time about loan. I didn't apply for loan and I tire of it I told them to stop calling me and they still call me. And I get text for A William that so call apply for a loan. I text them back and ask them not to text me I not William. I prepay for my phone and I on A State and Government Do Not Call List . I told and text they that I on a Do NOT Call list and they keep calling and text me. In one day I have over Eight Nine call from the same guy asking for William. And I have Eight Nine E-Mail now on my pay and I don't check my voice mail. Because I have to pay to check them and they are from loan spam. Why would I check them and waste my money. Some thing have to be done to stop these call. If I don't know the number sent it to Voice Mail. Because I know it loan people. I don't give this number out only to Family, Friend and Doctor. They call and text me to just pis_ me off. There should be a law not to call or text Prepay Phone. Unless you give them your number. I report it and was told there nothing they can do about it. Why have a Do Not Call List if Government or State don't do any thing about it. What a joke Do Not Call List. It time for Government to do it job. Why do we pay Government to do a job. When they don't do their job. May be people in Government been there to long not doing their job right. If you may a law for a Do Not Call List then it go for all CALL and Text. Not just some.
Cornel	Bronx	NY	Not on my minutes or on my TIME.

Guy	Leesburg	VA	I can't believe this robo call issue is on the table. Anyone with common sense should know that the debt collection companies keep their cost low by using computers to annoy anyone, even if they have the wrong numbers. I know from personal experience, when I got a new phone number and the previous owner of the number was apparently behind on their bills. I couldn't stop the calls, as the bill collection companies don't believe you when you tell them they have the wrong number. It is not my job to help them find that person, as I have no idea who or where they are. It makes you so mad, you want to get at whatever is on the other end of that line. Don't let these companies have free reign, as a certain percentage of them will abuse whatever power you give them.
Tommy	Steamboat Sprin	CO	To FCC, please get these phone giants to STOP ROBOCALLS. I NEVER ANSWER ANYMORE UNLESS I ALREADY KNOW THE NUMBER. I must look it up on reverse 411; 98% are scams or spam. The answer from the phone giants: CHANGE YOUR PHONE NUMBER. No, I will not. I will however, fire my carrier and find a cheap plan. Is this progress?? Get with it RIGHT NOW! Thank you.
Kay	Dallas	TX	You can do it! Make Americans happy. Pass the strongest rules to end annoying robo calls. None. Ever. The end.
Terry	Cowen	WV	If they want to bug me on my cell phone, let them pay for the phone. Fine them for making robocalls.
test	test	KY	test
Brian	Culver City	CA	Robocalls in general are out of control and permeate our days, all day without end. Allowing these people to take advantage of loopholes to antagonize and annoy people in the sanctity of their homes, businesses and daily interactions is a disservice to the community and yourselves. Please make sure that any leniency given to debt collectors is reasonable, legitimate and clear. But more importantly, you must implement an easy way for people to turn in abusers of the system, as well as include harsh penalties for those who abuse the system. Please keep us from having annoying and unwelcome calls drone our days to come.
Amy	Milwaukee	WI	Robocalls are invasive, predatory and intrusive. The United States government should protect its citizens from these harassing vultures entities that pursue individuals opposed to assisting these vultures making it easier for them to be invasive. I am respectfully requesting that you protect the rights of your constituents and not that of these predatory businesses.
Marlene	Walnut creek	CA	Respect for individuals and privacy is A right
Devin	Potomac	ME	The constant invasion of my house by robo calls is more than a nuisance. Please help return my home to me and my family. We are also about to discontinue our land line account altogether which I suspect will not be welcome news to the telecom providers. Signed. FED UP

Alison	Decatur	GA	I don't answer my home phone anymore. I keep the number so that I can put it on forms and such. But companies sell that info resulting in annoying calls all day long. I don't think business should be allowed to robo call cell phones. We should have the right not to be harassed in our homes, but that is definitely true when we are out and about. I don't want my cellphone constantly ringing. I should have the ability to block those calls. I should be able to tell the caller to stop making such calls.
Tracey	Somerset	MN	I was added to the do not call listing only to continue to receive these robocalls daily. It used to only be the home phone which I barely answer because they are all robocalls. They have even gotten smart and are calling within the same area code as it shows on the caller ID when in fact, they are in another state. One time they called with my full cell number, as it appeared on the caller ID as it rang. As you very well know, this has been going on for years and it is now getting worse. My question is, what is the FCC doing to control this? You have the authority and capability to put a halt to this type of harassment because that is exactly what it is. The calls start as early at 8:00 AM EST and last till 10:00 PM. This is ridiculous. The FCC needs to do something and do it quick. We should not be harassed on a daily basis. Like I said previously I no longer answer the home phone. What is the plan to address and resolve his matter for all of us? What actions has the FCC taken to gain control of this national situation?
Greg	Lee's Summit	MO	Having severe depression and anxiety disorder has ruined my life in so many ways - losing my job (I was a GS-11, step 8, CR for SSA) and subsequently my house were plenty to send me over the edge. Feeling suicidal is NO joke, and robo-calls only refresh my involuntary self-demolition urges. ANY POSITIVE help would be appreciated!
Mark	El Cerrito	CA	I am getting more and more intrusive cell-phone robocalls mostly for debt re-financing.....aaarggh! Who gives these sleeze balls the right to intrude on my life? PLEASE stop them.
BYRON	FREMONT	NE	I oppose all robo calls. It gets to the point, you don't answer your phone because there are so many unwanted calls.
Rick	Houston	TX	up to 100 calls a day. Then blocking every bad call takes a lot of time. Make it stop!
robert	steubenville	OH	hold back on robo calls
Bill	Colfax	NC	As a country, we have avoided robocalls to cell phones for years. Please do not open the crack to allow them in. Calls to my cell phone directly cost me. No company should be able to cost me in this way without my permission. We must be able to easily opt out of such calls if they become permitted. I do not have bad debts, but have adult relatives who do. Why should I get cell phone calls for their debts.

Seymour	Woodland Hills	CA	The incessant parade of unwanted robocalls has led us to not answer our phone, turn off our ringer, and hope friends will leave a recording. These annoying daily interruptions occur 3-10 times a day on the home phone and a few more on our cell phones. If something can be done to restore phone sanity it should be done. Can someone protect us consumers from scammers and predatory sales people?
Charles	Bothell	WA	I don't give out my cell number to many people - but I still get unwanted robo calls almost every day from people trying to scam me out of money. Please make them stop!
Susan	Albuquerque	NM	they're highjacking my phones, both cell and landline. most calls I receive are JUNK.
Doraine	Redwood city	CA	Beside the daily barrage of Donald Trump irritation, robot calls are the worse. Disruptive, annoying and a phenominal waste of time. Everyone wants them to stop...someone please do something about them...make them stop.
Elizabeth	Montpelier	VT	We get several every day. We are elderly and if we are in bed, the calls are actually a health hazard as we try to run to the phone. It would be wonderful if you could stop ALL robocalls to the elderly.
David	Union City	CA	Dear FCC. I don't want phone solicitations on my cell phone as they cost me money , in addition to wasting my time and being annoying. Telecom service providers have the technology to stop robocalls. Incent them to use ie. Fine them if they don't. And add some teeth to the law with mandatory jail time for the corporate executives of the companies violating the law. I'd like to see that added for "do not call" violators as well. Thank you.
Carl	So. San Francisco	CA	If we can find out how these robot call people get the phone numbers and sue them for invasion of privacy, is a good solution.
walter	poughkeepsie	NY	Every day from 8 am to 9 pm I constantly get annoying robo calls! HELP!
Robert	Houston	TX	I use my cell phone when travelling internationally. Unwanted robocalls will result in charges for an international call when a marketing cold call (for time share sales, for example) is received.
Allan	Merrick	NV	I get about 10 or 12 robocalls a week and always around dinner time. The 4 or 5 calls I get on my cell phone each week seem to be increasing as time goes on. Enough is enough. Every phone carrier, wether land line or cell, should provide a way to stop these calls. These calls are nothing more then infuriating especially the ones that say unknown name unknown number or private caller. These calls may have a person calling you but you have no way of calling them back to tell them to cut it out. Stop dragging this thing out. Stop it once and for all!!!
Dennis	SNOHOMISH	WA	FCC, please consider stricter guidelines that would regulate how and when debt collectors are allowed to contact us on our cell phones.

Joe	Vashon	WA	Stop the madness! Yesterday alone, I received two of these robo calls on my cell phone touting free cruises. These robo call scum have already turned my home phone into a joke, don't let them continue to do so with our cell phones!
Michael	Nashville	TN	There has been a dramatic increase in robocalls to my cell phone and I believe these should stop.
Harriet	Hyde Park	NY	Stop the robo calls. They are useless and annoying.
April	New Iberia	LA	My cell phone has limited minutes and overage charges for going over my limit and I'm sick of getting automated robocalls especially when they're looking for someone else or trying to sell something! Many times I tell them I don't know who they're calling for and to put me on their do not call list and they hang up only to call the next day! Robocallers should have to notify us and give us the option to stop receiving calls! The number of allowed calls and texts should be limited to only a couple a month and only to those who directly hold a debt, not friends or relatives! Strict, concise, clear guidelines should be put in place for them and they should be heftily fined for violating the guidelines!
Patricia	North Babylon	NY	My mom is 91 and has dementia. I came to live with her 5 years ago because she could no longer properly care for herself or her home. Over the time I have been here, robocalls have become an epidemic. If I lived alone, I would just let the phone ring. But I do not have that option because my mom will try to answer the phone if I don't do it. Or she will yell to me to answer it. In short, it will upset her if I let it go to voicemail. We have 2 lines in the house (hers and mine) and get robocalls on both of them, so I am getting twice as many calls as a family with one phone. Whatever you can do to eliminate these automated calls will give me relief from stopping in the middle of doing some task to run to the phone only to hear, "Hello, Seniors!" Or "this is Rachel from Card Services."
Robert	Houston	TX	I use my cell phone when travelling internationally. Unwanted robocalls will result in charges for an international call when a marketing cold call (for time share sales, for example) is received.
Joseph	BFLO	NY	No calls As I pay for my bill
Suzanne	Austin	TX	Please stop this madness!! I get calls starting at 8:00am to 10:00 pm, as many as 8-10 a day. It is time to end this. I have more important things to do in my life.
Chris	Cary	NC	Please do not allow these debt collectors to contact any and all types of communication to cell phones by robocalls or by person! Thanking you in advance,

Beth	Flushing	NY	I am sick and tired of hearing that there is no problem with my credit card, but. . . I don't have a credit card. If I can't afford it, I don't buy it. And when I try to talk to the people at the other end, they hang up. What they're trying to do is get my information and "consolidate" my "debt" at a lower rate. This doesn't concern any real debt, just an attempt to get me to have some. So far I've been contacted by fictional characters including Carmen, Bridget, Lois, and a host of others. It is a scam. It has to stop. I block one number after another, only to be contacted by yet another one the next day on both my home and cell phones. They use phony names to defeat caller ID. Enough is enough.
Edward	Naples	FL	I am fed up with unending calls from sales companies, benevolent organizations and charities to say nothing of the political calls that never end. I don't answer any call I don't know. Stop all unnecessary calls!
sTANLEY	Powell	OH	The users of robocalls have demonstrated their unwillingness to even follow Federal law. It is not reasonable to assume they will suddenly change. Please implement as strict regulations on the industry as you can.
Don	Grand Rapids	MI	I am receiving an increasing number of robocalls on my cell phone. Anything from alert systems to vacation cruises and more. Enough already!!!!
Michael	Ft Myers	FL	This being an election year can we eliminate or at least reduce the "Vote for me"calls. ?
Donald	Macungie	PA	Robo calls to sulfones and home telephones should not be legal. They are an invasion of privacy, are unsolicited, and disruptive
Lee	Canyon country	CA	Please do all you can to eliminate robocalls to cell phones! I signed all of our phones, landlines and cell phones up for the "Do not call list" yet continue to receive up to twenty unsolicited robocalls a day on my landline, most times there is no one on the other end. My service provider, at&t does not block spam calls on traditional land lines and this is a constant source of frustration to me as a retiree who is home most of the day, so you can imagine how I feel about unlimited robocalls to our cell phones..... I am extremely disappointed with the whole "Do not call" initiative, since I assumed that these types of calls would stop, but it hasn't even slowed them down.
Mary	Millington	TN	Im constantly being harrassed with unwanted calls if i block the number they start leaving voicemails it happens several times a day please put a stop to it
Judy	Southport	NC	Please stop these annoying calls. I've received two calls from prisoners in Brunswick County, NC among other ongoing "free" medical equipment/travel opportunity calls.

Celis	Pinedale	AZ	Even if we decide not to answer cell calls, it is still a distraction. We (at least) I reserve my cell phone use for calls to people I know and have called or have implied permission to use my cell#. When I do answer other types of calls, I am supremely annoyed, just like at home on my landline. CONSTANT intrusion into my daily life!!!
William	Clearlake	CA	Thank you for helping me save time and expensive minutes by banning robocalls.
Joseph	Wrightwood	CA	I start getting unwanted phone calls beginning at 8 am and throughout the day until about 8 or 9pm. It's very disruptive and wastes my time. Please put a stop to this practice.
Michael	Tucson	AZ	We have received thousands of calls, THOUSANDS, over at least 3 years, from "Community Services Bureau" about an "important court matter." We don't owe anybody anything. These vermin do not verify the identity of the people they are harassing. It is our phone. We pay the phone bill. All robocalls should be illegal, punishable by fines and restitution to victims of \$100/call. Legislators who vote to allow this, almost always Republicans, are also vermin.
Larryr	Cooper	TX	Telemarketers on my home phone are bad enough, but I pay for minutes on my cell phone plan. It's frustrating and infuriating for the robo calls to my cell. I don't want them, yet when I get one, I have to pay for it.
BETH	Boise	ID	i received 6 robocalls in 2 minutes at my office. that was just from one company. we get them all day who has time for this. make it STOP
barry	w. hollywood	CA	please stop this invasion of privacy. do not need any solicitors on phone especially tape recorded messages. stop this annoyance now!
Thomas	Escondido	CA	We average two to four robocalls a day. They are almost all from the same caller. It is a real nuisance and irritating.
Martin	Morristown	NJ	Please stop these Robocalls right away!
Joseph	BFLO	NY	No calls As I pay for my bill
Marjorie	Portland	OR	I recently had surgery and while trying to recover at home, I was harassed by 5 or 6 robo calls each day! Please protect us from this harassment! Being on the "no call" list does not help protect us from this abuse. I am begging you to please help protect us consumers!

Jean Marie	Hardy	VA	It has come to my attention through the Consumers Union that debt collectors are requesting the FCC to approve the use of robocalls to consumers' cellphones. To allow this would be approving harassment by debt collectors. I respectfully request the FCC to continue to prohibit debt collectors from using robocalls by enacting and enforcing the following guidelines: 1. Debt collection robocallers must notify us of our right to stop receiving calls. 2. Debt collection robocallers cannot contact family members or friends of those who directly hold the debt. 3.vvThe guidelines should be clear, readily available, and strictly enforced by the FCC.
Teresa	Lexington	KY	I believe debt collectors should be allowed to try to get their money rather than allow it to be essentially theft, but I don't think robocalls should be allowed for other things, including politics. I have foot drop and have trouble walking and I have had to stop what I'm doing to answer the phone for fear it is an emergency call. I can always tell when it is dinner time because my phone starts ringing off the hook! I'm sick of it. I pay my phone bill, and I've about decided that people who make calls to me should be paying it.
James	Golden	CO	In addition to the annoyance and my wasted time answering robocalls, they are using the minutes I pay for.
Martin	Morgan Hill	CA	Please stop robocalls on cell phones.
c	houston	TX	Here is the link to the proposed new rules: https://apps.fcc.gov/edocs_public/attachmatch/FCC-16-57A1.pdf Here is the title of the document requesting comments: In the Matter of Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991 CG Docket No. 02-278 My comments are the I get many calls calls from debt collectors, even though I have no debt, and haven't for many years. I also get two to four robocalls a day that are just hang-ups, with no message at all. The line is connected for ten to twenty seconds and then disconnects. The FCC and the telephone companies need to do something to stop all of this harassment, including the "lower your credit card interest payments;" "the IRS has filed suit against you;" "free air conditioner duct clean-out;" "this is microsoft and we have detected a defect in your computer;" etc., etc. We are bothered many times per day with such calls and no longer answer the phone.
Jacqueline	Petaluma	CA	especially to cell phones

Donna	Marshall	NC	Robocalls are annoying - more than annoying - an outrage to intelligent citizens - so many robocalls are done by scammers, looking to steal credit card#'s, money, personal information - these calls are from fraudulent concerns, the people who are in charge of placing these calls are thieves - thieves shouldn't be allowed to continue to bother citizens when the thievery can be stopped by the FCC. Please take action to stop these callers! It's also an outrage that citizens are charged for these calls! Please stop this! Thank you for your attention.
Jeff	Ocala	FL	I pay for my cell phone and I get call all the time about loan. I didn't apply for loan and I tire of it I told them to stop calling me and they still call me. And I get text for A William that so call apply for a loan. I text them back and ask them not to text me I not William. I prepay for my phone and I on A State and Government Do Not Call List . I told and text they that I on a Do NOT Call list and they keep calling and text me. In one day I have over Eight Nine call from the same guy asking for William. And I have Eight Nine E-Mail now on my pay and I don't check my voice mail. Because I have to pay to check them and they are from loan spam. Why would I check them and waste my money. Some thing have to be done to stop these call. If I don't know the number sent it to Voice Mail. Because I know it loan people. I don't give this number out only to Family, Friend and Doctor. They call and text me to just pis_ me off. There should be a law not to call or text Prepay Phone. Unless you give them your number. I report it and was told there nothing they can do about it. Why have a Do Not Call List if Government or State don't do any thing about it. What a joke Do Not Call List. It time for Government to do it job. Why do we pay Government to do a job. When they don't do their job. May be people in Government been there to long not doing their job right. If you may a law for a Do Not Call List then it go for all CALL and Text. Not just some.
Diane	Fort Collins	CO	Please tell me why we NO longer have any power or rights in the marketplace to protect us from harassing robocalls. This is insane and sooo irritating. Please provide some support to the consumers and LESS to the companies responsible for this access.
Ken	Oroville	CA	The very idea that anyone has the right to use my cell phone to try to sell me something I never asked for and absolutely do not want is an invasion of my right to privacy.
Russ	Tarrytown	NY	The blatant criminal activity of persons using robocalls as well as simple fraud and thieves of my time to deal with them makes using the phone almost not worth it. You need to do something to stop this or it will end the phone system as we know it. You need laws and guidelines to control what happens over the network you are supposed to control. Freedom of speech is one thing but blatant fraud and deception is illegal!
Bart	Portland	OR	Robocalls to my cell phone are a personal invasion

Cherub	Spotsylvania	VA	It is unacceptable for me to shoulder the personal cost of UNWANTED Robo calls to my phone.
Carlos	Rocky Point	NY	I am aware that you (the FCC) is currently considering strict guidelines that would regulate how and when debt collectors are allowed to contact individuals on their cell phones. In your deliberation I would encourage you to take the following steps: 1. Make sure the guidelines are clear and readily available. 2. Debt collection robocallers must notify cell owners of their right to stop receiving calls. 3. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.
Jeffrey	Cleveland	OH	Please do all in your power to end robocalls by debt collectors, marketing firms, and scam charities.
BILL	STAFFORD	TX	ROBO CALLS SHOULD NOT BE ALLOWED ON CELL PHONES AS THEY EAT UP MINUTES THAT I AM HAVING TO PAY FOR. STOP THEM NOW! I HOPE YOU ARE MORE SUCCESSFUL WITH THE CELL PHONES THAN YOU HAVE BEEN WITH LAND LINES AS COMPANIES HAVE LEARNED HOW TO BEAT YOUR SYSTEM.
Allan	Los Angeles	CA	Does twenty robocalls a day sound like too much? One is too much! I get these calls on my home and business phones and no amount of requesting removal from the list has had any effect. This is capitalism at its worst (almost). The phone companies have reaped a whirlwind for its customers and it's time for it to stop. I've threatened Verizon with quitting its service. NO EFFECT! Enough is Enough!
Samuel	Cottonwood,	AZ	5/19/2016 Plain and simple: PLEASE END ALL ROBOCALLS, INCLUDING ALL POLITICAL ROBOCALLS! We know it is not polite to send e-mails in Capital letters, but this is an exception. We, in the public, have been abused enough. Thank you for your attention to this matter. Sincerely, Constance B. & Samuel Winchester Morey
Wiiam	Hendersonville	NC	90% of calls to my residence are Robocalls. 8 to 10 every day. Please have them stopped.
test	test	KY	test
Hannah	Newton	MA	I enrolled my cell phone number on the Do Not Call database years ago. Although I have no student debt, I regularly get calls offering to help with them. Can you please make this stop? Thanks for listening. Hope you will take action on this.
Kathryn	Orchard Park	NY	I have a cell phone to avoid the robo calls I get on a land line. I expect my cell calls are important. No more robo calls now.
Sandra	Gardena	CA	Stop robo calls and all unsolicited calls.
Daniel	Harbeson	DE	Why do I still get robocalls when I'm on the do not call list
Kim	Columbia city	IN	I do not want robocalls. Please stop them now from all sources. It is my right to not receive these calls which invade my privacy and personal life. I should not have to download an app to take care of this, it should be not be allowed to begin with. If I need services, I will locate who and what I want myself. Thank you.

Mark	Pittsburgh	PA	Robocall technology is getting more and more sophisticated and able to fool people into thinking they're talking to real people. Unsolicited solicitations must be stopped above all; and robocalls must identify themselves at the very beginning that they are robocalls and not actual, live people.
Richard	Washington Dep	CT	We get unwanted and unsolicited robocalls 2-3 times every day despite having reported the numbers to AT &T and asked they be blocked.
Margaret	Glen Cove	NY	Please provide protection against abusive debt collection robocalls to our cell phones. We need, you the FCC, to stay strong against debt collectors who want to open the floodgates to these calls. A provision snuck into the federal budget last fall would change that, allowing debt collectors to robocall anyone with federal student loans or back taxes. Even if you don't owe money, but a relative does, or if your phone number once belonged to someone who does, you could be robocalled. Please hit robocalls at the source. You need to stop this practice.
Marian Linda	Gainesville	FL	Robocalls are disruptive and rude. The national do-not-call registry does not abate the harassment. I am tempted to drop the landline because of them. Please do not allow them to bombard out cellphones too!
Randy	Santa Rosa	CA	These robocalls have turned my landline into more of an annoyance than a useful device. Please do not allow this to happen to the cell phone. I might be convinced that debt-collection services should be able to attempt contact to collect a legitimate debt. Definitely, NO "cold-calls". Since some calling plans charge the user by the minute, I would think that un-solicited calls would be illegal, anyway. Thank you.
Shirley	Greensboro	NC	We receive numerous calls to our landline every day, sometimes several calls from the same number on a given day. Now I'm starting to get calls on my cellphone from numbers I don't recognize. Please stop this invasion of our lives! It is so obnoxious. We have to stop what we are doing to be sure the call is not from our son who is military or a friend. It is ridiculous!
Phil	Great Bend	KS	pLEASE STOP THESE CALLS asap.
Paul	Chapel Hill	NC	The number of robocalls I'm getting on my cell phone has gotten ridiculously high. I hate them. Please put an end to this nuisance.
Mike	Foley	AL	Please stop all Robocalls except public service announcements, i.e. hurricanes, tornados, etc.
Lila	Reno	NV	Stop
Jon	Ballston Spa	NY	Please: Require callers to inform customers of the right to block calls Limit calls to those with federal loans, not friends and family. The guidelines should be clear.

Marjorie	Portland	OR	I recently had surgery and while trying to recover at home, I was harassed by 5 or 6 robo calls each day! Please protect us from this harassment! Being on the "no call" list does not help protect us from this abuse. I am begging you to please help protect us consumers!
Dr. Paulette	Houston	TX	I get as many as 25 calls a week and some are abusive, I usually do not answer but if it is local number I must, since I have patients that call me at home. When I call that number back , it is not a working number...! I do not know how they can get away with calling my home and cell phone day and into evening! I have had them call on Saturday and Sunday mornings also! I need my peace and quite when I am home!!!!!!
Jim	Hopkinsville	KY	Robocallers don't get tired, and don't stop when they're on the attack - shouldn't be allowed to call cell or landline phones. Political calls should also not be exempt from numbers on the "do not call" list - now that Kentucky primaries are over our home phone ring count has gone way down.
Sara	Renton	WA	NO MORE ROBOCALLS ON OUR CELL PHONES EVER AT ALL!!!
Michael	Naples	FL	We can no longer answer our home (land line) phone. If it is someone we need to speak with, they leave a message and we'll call back. If it weren't for the fact my wife needs a land line for a medical device, we would eliminate it. For the past few years important calls from family and friends were easily received on our cell phones. I would readily answer my phone knowing my number was being used by someone I wanted to speak with. No more. Now 40% of incoming calls are from unknown numbers. I don't answer. It is rapidly becoming as bad as home phone calls. The calls can wake you in the morning, wake napping grandchildren in the afternoon, and are increasingly disrupting dinner. Please give us the tools to block these intrusions. Thus far we have found "do not call lists" to be highly ineffective.
Richard	Dublin	CA	Please put an end to annoying and unwanted robocalls.

Angelika	Converse	TX	I carry my cell phone with me so that my family members can reach me , but instead I receive (often while driving,) unwanted and extremely annoying robocalls from politicians of all parties, charities, investment companies, sales people and scammers of all types etc. and I am sick and tired of it !! Blocking numbers does not help, because they simply try a different one until they find one that I have not blocked yet !! So I have begun not answering my phone unless I recognize the number. But that means that friends who are using their work phone , or the hotel phone while traveling, or who do not call me very often , can not reach me! On our home phone I do not answer anymore at all, because we get up to 15 or 20 robocalls a day ! That makes life extremely stressful, especially if I know that I will be called by , for example, my AC repair guy, whose phone NEVER shows the Company's name .!! It means that I have to run into the bedroom whenever the phone rings, to see if he leaves a message on the answer machine. Then, if it is he, I pick up and talk to him. ALL OF THIS IS EXTREMELY ANNOYING , STRESSFUL, TIMECONSUMING AND EXPENSIVE AND NOT AT ALL WHAT I WOULD CONSIDER GOOD SERVICE !! WE HAVE AN UNLISTED PHONE, BECAUSE WE DO NOT WANT TO RECEIVE ANNOYING CALLS, NOW WE HAD TO PAY FOR A GADGET THAT BLOCKS CALLS, AND STILL WE RECEIVE ROBOCALLS DAILY !! PLEASE DO SOMETHING ABOUT THAT, BECAUSE WHAT GOOD IS AN EXPENSIVE PHONE IF I HAVE TO TURN IT OFF TO STOP RECEIVING ROBOCALLS ???
john	san francisco	CA	Don't let robocallers pursue me from my land line to my cell!
Suzanne	Austin	TX	It is time to stop this madness!! I have gotten as many as ten of these calls a day, starting as early as 8:00am to 10:pm. This is complete nonsense and totally unacceptable. Why should we have to put up with this. We have more important things in our lives.
David	Ann Arbor	MI	Everyone should be allowed the uninterrupted privacy of their own homes. It's gotten so one can't even take a nap in the day now. I think of Congress and their inaction on this issue every time it happens, or whenever my dinners are interrupted.

c	houston	TX	<p>Here is the link to the proposed new rules: https://apps.fcc.gov/edocs_public/attachmatch/FCC-16-57A1.pdf Here is the title of the document requesting comments: In the Matter of Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991 CG Docket No. 02-278 My comments are the I get many calls calls from debt collectors, even though I have no debt, and haven't for many years. I also get two to four robocalls a day that are just hang-ups, with no message at all. The line is connected for ten to twenty seconds and then disconnects. The FCC and the telephone companies need to do something to stop all of this harassment, including the "lower your credit card interest paments;" "the IRS has filed suit against you;" "free air conditioner duct clean-out;" this is microsoft and we have detected an defect in your computer;" etc., etc. We are bothered many times per day with such calls and no longer answer the phone.</p>
Robert	New Orleans	LA	2/3 of my calls are robocalls. Please stop them. If you don't catch them on the second ring they hang up
John	Omaha	NE	Please end robocalls from political organizations.
clay	pinole	CA	Please block ALL robo calls. It is so bad that I feel like a slave to my phone devices and I am actually considering disconnecting all of my devices, It's just not worth it. Thank You.
Chris	Cary	NC	Please do not allow these debt collectors to contact any and all types of communication to cell phones by robocalls or by person! Thanking you in advance,
Kathy	Littleton	CO	Please make robo call illegal if we so choose. We currently have no way to block these calls.
Wolf	Olympia	WA	Please put an end to Robo calls. I'm disgusted with getting Robo phone calls at most hours of the day. I'm paying my phone bill for my convenience. Thanks for listening, Wolf
Simon	Ann Arbor	MI	I am so tired of robocalls that I unplugged our telephone from the main line. I only check for messages perhaps once a day. When the government is willing to put on its big boy pants and enact legislation “with teeth” prohibiting robocalls or “at least” requiring the carriers enable applications like Nomorobo, I might plug my telephone back in.

Angelika	Converse	TX	I carry my cell phone with me so that my family members can reach me , but instead I receive (often while driving,) unwanted and extremely annoying robocalls from politicians of all parties, charities, investment companies, sales people and scammers of all types etc. and I am sick and tired of it !! WE HAVE AN UNLISTED PHONE, BECAUSE WE DO NOT WANT TO RECEIVE ANNOYING CALLS, NOW WE HAD TO PAY FOR A GADGET THAT BLOCKS CALLS, AND STILL WE RECEIVE ROBOCALLS DAILY !! PLEASE DO SOMETHING ABOUT THAT, BECAUSE WHAT GOOD IS AN EXPENSIVE PHONE IF I HAVE TO TURN IT OFF TO STOP RECEIVING ROBOCALLS ???
Danny	Collierville	TN	I am tired of being called several times a day by a robot call. Too often, there is no one on the other end.
Steven	Lakeside Park	KY	Please end all robocalls, including debt collectors, political messages, and sales calls.
Bob	Bradenton	FL	Robo Calls need to be stopped, now.
Ed	Mt Laurel	NJ	People keep their cell phones with them at meetings, doctors offices, while driving and do not deserve inappropriate robocalls. These callers whether marketers or debt collectors should have no right to access cell phones. Their is no urgency to their calls and they should have no access to cellphones period. I have put my phones on the No Call List and still get these annoying robo calls on my cell phones and it feels terrible that my privacy is so violated by these unscrupulous people selling scam vacations and such. Why should the FCC protect these scammers! Please stop them from invading my privacy.

Angelika	Converse	TX	<p>I carry my cell phone with me so that my family members can reach me , but instead I receive (often while driving,) unwanted and extremely annoying robocalls from politicians of all parties, charities, investment companies, sales people and scammers of all types etc. and I am sick and tired of it !! Please give us the tools to block these intrusions. Thus far we have found "do not call lists" to be highly ineffective.</p>

Katherine	Dallas	TX	<p>Comment in support of proposed FCC Rulemaking and Guidelines which regulate how and when debt collectors may contact me by cell phone. While I have no debts, I am receiving robocalls from debt collectors with threatening or suggesting messages which demand or imply that I must act and respond. I have given no permission to use my cell phone number to any creditor, more or less a debt collector. While I have the capacity on my cell phone to tag such calls with a "reject", they just use an alternate calling number. The FCC should impose the strongest possible guidelines and rules to protect consumers.</p> <p>These accurate information to notify me and other cell phone consumers of an accurate business name, physical business location, and real business phone number which can be used to stop receiving calls; strict limitation to the number of and time of calls; the actual creditor's name and account number for which the debt collection effort is being made; no debt collection calls by any business not owning the debt with the ability to provide the cell phone customer, upon request, with a paper copy of the document(s) supporting the claimed debt which contains the date, place, and description of the item/subject of debt, and original amount plus itemized fees/penalties/interest being claimed.</p>
Ralph	Bethesda	MD	I get a couple of Robocalls a day. I've stopped answering my phone unless I know the caller; I figure a real person will leave a message. I should not have to treat phone calls this way.
Madi	Cedar Hill	TX	They are a pest. Thank you for taking action.
Marilyn	Geneva	NY	<p>In my 70s, I have more i'd rather do than answer what I refer to as "junk calls". Thought I was safe on Sundays, but rec'd 2 calls same Sunday - 1st one I hung up on immediately. The 2nd one, I rec'd @9:15PM - she asked if I would answer a few survey questions and I said "ABSOLUtELY NOT! Do you. Realize it's 9:15 on a Sunday evening" and I hung up. I receive 0 to 6 calls daily. Reporting to FCC has done no good....and recently rec'd call on my cell phone. Go get 'em, PLEASE!!!!!!</p>
Gayle	Tucson	AZ	<p>I am a senior citizen and I am getting so annoyed with these calls. Telemarketer selling everything from funera,l services to time shares or waranty insurance for appliances and cars. They use local numbers or fake numbers in general. The worse are the politicians calling for votes. I've asked to be removed from their list but they just call back with a different number. This is so annoying and it needs to stop. My numbers were blocked and the blocks renewed yet they still get through. Just stop it.</p>
Cecil	Georgetown	TX	Please stop the annoying robocalls!
John	Daytona Beach	FL	No more ROBO CALLS on CELL PHONES.

Ken	Enumclaw	WA	Please limit the telephone advertising industry. They have rendered my home phone completely unusable with their constant calls, and now they call frequently on my cell phone! I need some way to block these annoying calls. Soon my phone will be as overloaded with advertising as my email account.
Peter	Yucca Valley	CA	The debt collection 'industry' is, by its very nature, all about intimidation; do not permit these bullies to push you and the rest of the American public around. American business has become primarily about making money and not about delivering a product or a service, so consideration of other people is not a part of their playbook. I strongly request that you institute, at minimum, the following: Debt collection robocallers must notify us of our right to stop receiving calls, The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family, The guidelines should be clear and readily available. Thank you.
Claudette	Deltaville	VA	Robocalls are such a nuisance that I no longer answer my phones.
Ken	torrance	CA	Please help stop the robo calls
Ed	Marietta	GA	I work from home. Even though I'm on the Do Not Call list I receive many calls throughout the day. I can't just turn off the ringer because I might miss a call I need. In addition to the DNC list I add as many new numbers to my blocked call list but I can only add 20 numbers and I cant just reject calls if they don't have caller id or if they have Unavailable or maybe just a few numbers, or even my own number. Stop the insanity. I've even tried to let them know I'm on a DNC list. In that case they just laugh and hang up. I think the only option is to cancel my home phone.
Wyatt	Modesto	CA	I don't want any robo calls, ever. There has never been a reason for me to receive a recorded message nor will there ever be so please put a stop to this invasion of my privacy and peach and quite in my home. Your help would be greatly appreciated. We all pay hard earned money for our phone services and receiving this garbage should not be included in our plans.
Adena	Washougal	WA	I believe it to be a violation of my civil liberties for someone to harass me with telemarketing calls.
dennis	mountain view	CA	please adopt the most strict rules to stop unwanted robocalls, especially to cell phones. Allowed calls should be limited to a small number of calls per month and only to folks directly involved, not their relatives.
Robert	Los Angeles	CA	Robocalls are driving me nuts. They come at all hours and most of the time there is no one on the line. STOP THEM!!!

Jean Marie	Hardy	VA	It has come to my attention through the Consumers Union that debt collectors are attempting to derail the current FCC guidelines on robo calls. To allow this would be approving harassment from debt collectors. I am respectfully requesting that the following guidelines be implemented to protect the rights of consumers from debt collectors: 1. Debt collection robocallers must notify us of our right to stop receiving calls. 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. 3. The guidelines should be clear and readily available. Thank you for your serious consideration of including and / or reinforcing these guidelines to protect consumers from harassing robo calls from debt collectors.
Carol	Piscataway	NJ	Friends and family of those that directly hold debt should not be getting calls or texts from lenders even for federal debt. Three times a month is plenty for any debt collectors. No one should be allowed to harass repeatedly. Any guidelines posted should be clear and available readily so both lenders and borrowers know what they are.
Clyde	Tucson	AZ	Our cellphones are simply too much a part of our lives to allow any intrusions. We must have some modicum of privacy. Please do not allow any further intrusions into our over-crowded lifestyles.
Rachel	Oakland	IL	No Robocalls to Cell Phones!
Edward	Hamden	CT	A terrible invasion of privacy!
Sherry	Littleton	CO	Nothing is more annoying than constant robocalls. I would prefer they be stopped all together, but at the least the law should change so that the debt collection robocallers must notify us of our right to STOP receiving calls, the number of allowed calls or texts should be LIMITED to 3/month and ONLY to those who directly hold federal debt, NOT friends or family and the guidelines should be very clear and readily available. Please STOP these annoying calls. Thank you for your help.
Jon	Ballston Spa	NY	Please: Require callers to inform customers of the right to block calls Limit calls to those with federal loans, not friends and family.
Marc	Bethesda	MD	It used to be, before the advent of mobile communications, that the only invasion of your privacy could take place via your home -- land line -- telephone. Now, with more and more people moving through life with their mobile devices with them at all times, there is no escape from the totally invasive quality of the robocall. Our Government makes every effort to protect us from many forms of harm; robocalls, while not life threatening, are in their own way harmful to our privacy and peace of mind. The FCC should, in accordance with it's mandate, take every means to protect this Nation's population from such unwanted harm.

Constance	San Anselmo	CA	It's obvious that the technology has outpaced our ability to constrain its applications. Debt collection robocalls, when made indiscriminately to family members, previous holders of a phone number, or more frequently than, say, three times per month, qualify as harrassment. Were a robocall a human, the law would intervene. But robocalls are instituted by humans, and so should be under reasonable restrictions.
Dana	Las Vegas	NV	I am tired of the thousands of times every day that I have to screen my calls because its someone too lazy to actually call the number and speak to me himself. He has a robocall machine that dials the number and plays a tape recorded message. Or worse still are these newer machines that speak to you like they're a human when they are not. It is shameful the way they waste peoples minutes dealing with fake and erroneous sales calls from salesmen and collections agencies. I am urging you to stop robocalls all together. Thank you.
Dorothea	Hanford	CA	I have a pay-as-you-go cell phone plan. Each day my phone is used cost me \$1.00 plus \$.10 per minute. I seldom use my phone and this plan works well for me. Then I started receiving robocalls on my cell. Since I rarely use my phone every time on of these robocalls comes in it cost me \$1.10! I have only given out my cell phone number to a few people. I pay for this phone. I should be able to decide who has the ability to call me on my cell phone. It's only right. These robocalls are literally costing me a \$1.10 every time they call me. Why should I have to pay money for calls I don't want and didn't authorize? Please help stop this madness.
Patrick	Amherst	NH	Please prevent groups from sending robo calls to our cell phones or to our land lines. Thank you.
Wesley	Monticello	GA	I had to turn my home phone off because of the quantity of Robo calls I received and now they will be able to call my cell phone. Please do whatever you can to stop this harassing behavior. Thank you
Carol	Gastonia	NC	Robocalls are invasive, demeaning and deceptive. Greed and scams at their worse. And to add insult to injury, these creeps are using telephone service for which I pay. Please block robocalls. Thank you.
Jamila	Villa Park	IL	End Robo calls!

Joseph	Mint Hill	NC	<p>The robocalls come almost hourly from 9 AM until after 9PM. Every day. Seven days a week. They used to come only to my home phone. Now they come to my cell phone, which used to be illegal. Not any more. The Congress, in their infinite stupidity, have given debt collectors and robocallers the authority to call my cell phone anytime, day or night. The definition of "debt" is so broad that I can be called if one of my sons or their wives have a student loan. Guess what? I'm getting called because my son had (note "had") a student loan that was repaid years ago. But that doesn't stop the robocallers. They call even if they aren't a debt collector, just using the list of people who had loans. Worse yet, they don't display their name in the caller ID, but steal other companies or person's names or no name at all. Sometimes they use RECEIVABLESPERF. Sometimes it just says TOLL FREE CALL or WIRELESS CALLER or OUT OF AREA. or AMERICAN SECURE. The number displayed in the caller ID is always spoofed. Here are some of them: 302-966-9323; 240-210-7120; 704-737-9342; 855-298-2545; 515-393-6436. When I call them back using a phone that hides my caller ID, I get a message: "The number you have dialed is out of service." Being a victim of the practices used by these companies I'd like to see them stopped, put out of business or that at least these measures be taken:. Debt collection and other robocallers must clearly identify their company name and registered phone number in the caller ID.. Debt collection robocallers must notify the person called in writing of their right to stop receiving calls.. In any case, the number of allowed calls or texts from such companies should be limited to no more than three per month, only between the hours of 9AM and 7PM local time of the called party, and then only made or sent to those individuals who directly and currently owe a federal debt - not friends or family and not to them if the debt payment is current or repaid.. The guidelines for all robocallers should be available upon demand and on their web site or social</p>
Sandra L.	Shelton	WA	<p>Our cellphones should not be a point of intrusion into our privacy. Please ensure the following guidelines are in place and in force. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available</p>
Jeanne	Germantown	MD	<p>Please pass the legisltion to end robocalls to cell phones. I receive these calls everyday and you can't just block them. If you block one number they just call back on a different number. I pay for my phone and I shouldn't have to field calls from machines or from solicitors I don't know. Help us take control of our communications and stop the robocalls!</p>
Joel	Davis	CA	<p>Respect long established privacy for cell phones. Please implement: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available</p>

DALE	ONTARIO	CA	STOP ALL ROBOCALLS ALTOGETHER!!!!
Wesley	Monticello	GA	I had to turn my home phone off because of the quantity of Robo calls I received and now they will be able to call my cell phone. Please do whatever you can to stop this harassing behavior. Thank you
Mary Ann	Neffs	PA	PLEASE I AM BEGGING you to find a way to stop these calls. I get calls ALL day EVERY day at all hours of the day or night. I get 10-15 calls from the same companies constantly and no matter what I do, they won't stop calling. These calls are not from debt collectors, they are robocallers selling services. When you try to call back, you are told the number is not valid. If you get to call back, 4 or 5 people from the same company are placing the same call and you can't find the person. Talking to a supervisor is pointless. Nothing seems to work!! Now they leave voice messages on my answering machine because we are literally afraid to answer our phone.
Robert	New Haven	CT	Receive repeated sales calls a day on both home and mobile phones. Has become a real nuisance.
Dave	Johnstown	PA	Robocalls are an invasion of my privacy, dangerous and a waste of my time. i'm afraid to answer the phone in fear of a scammer.
Miguel	Jackson Heights	NY	Don't let the big industries intimidate you we are the consumers and we have rights. Robocallers must notify us of our right to stop receiving such calls. The number of allowed call should be limited than no more than 2 per months and no text at all and only to those who directly hold federal debt not friend and family. The guidelines should be clear and readily available. High fines of at least five thousand dollars or more per violations should be imposed to those that violates the law.
Richard	Hollis	ME	I'm getting robocalls telling me I can get help with my student debt. I have no student debt. Never have. This is just another version of invasion of privacy based on more greed by companies supported by politicians who's campaigns are being financed by same. And I am on the DO NOT CALL LIST. ENOUGH!!! These folks want to play fast and lose with the law. Punch them so hard it really hurts. That might have an effect.
Philipp	San Francisco	CA	Please stop all Robocalls especially to my cell phone. They are unwanted and annoying. Thanks in advance
Kevin	Long Beach	CA	We get 10 or more Robocalls a day, obnoxious messages that interrupt our privacy! We rarely even bother answering the phone directly anymore, but have to listen to the messages come in, or the hang ups when the answer machine starts. Please stop tgesse!!!

Donald	Los Gatos	CA	I receive 7-15 robo calls every day. Even though my Caller ID service helps me to identify most incoming calls as robo calls, or telemarketing calls, frequently these calls use spoofed or otherwise faked area codes - creating the false impression that they are from my area code or from neighboring area codes. These calls are intrusive, disturbing, annoying and abusive! I want the FCC and all of the telephone companies to stop robo calls and area code spoofers in their tracks by simply cutting them off and making spoofing impossible. In principle there is no difference between robo callers and computer hackers trying to break into organizations' computer networks and also trying to break into and steal from personal computers. The methods are deceptive and the objectives are to steal.
Charles	Homer	NY	Robo calls are more than an annoyance - they are an invasion of privacy
Tony	Seattle	WA	I am a senior citizen on little income and have to pay 10 cents per minute. The Robocalls are costly and a real burden . Please stop them!
Susan	Simi Valley	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Jay	Susquehanna	PA	Stop all these robocalls if they can't do it with a live person they there should be none at all. Besides we should be able to stop them.
Normand	Bristol	TN	Robocalls to both landlines and cells phones are terrible and costly impositions. Please establish a rule that would let us opt our of such calls once and for all. Thank you!
Walter	Denton	TX	Please, please, please place some limits on debt collector's robocalls (and texts) to cell phones. Please make sure they notify us of our right to opt out of receiving them, and when we do, actually honor such requests.. Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available Thank you for your consideration.
Chuck	Turlock	CA	Stop all Robo calls
Paul	Aromas	CA	no robocalls!

James	South Bend	IN	These robo and scam calls must end. I get a dozen calls a day between my home phone and my cell phone from people trying to either scam me or sell me something. These people spoof numbers and caller ID's so you don't really know whose calling till you answer. It is getting so bad that I am seriously considering the disconnect of both my home and cell phone. If it wasn't for my health, I would have done it long ago. This has gone too far and needs to be stopped. I think over 50% of the scam and sales calls would be eliminated if it were no longer possible to spoof numbers. A technology made it possible to spoof caller ID name and number, simply reverse this technology.
Clyde	Kingston	TN	I strongly oppose robocalls to cell phones without owners permission!!!! I am sick and tired of screening unknown numbers around the clock on my landline phone so I can refuse to answer them!!!! I strongly oppose them on my cell phone!!!!
tony	lakewood	NJ	those calls are annoying and there is no reason for them
Christopher	Nyc	NY	Please ensure this new rule is strong and protects those of us with gov debt.
Sandra L.	Shelton	WA	Our cellphones should not be a point of intrusion into our privacy. Please ensure the following guidelines are in place and in force. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Fred	Savannah	GA	I have simply told robocallers that I have lots of cabbage I can send them to enable them to have a needed bowel movement. Most of them want to sell me health insurance. I am tired of giving them the dignity of a civil answer.
Heather	Cambridge	MA	The debt collection industry has a well-deserved reputation for shoddy recordkeeping and for harassing people without regard to whether they owe money or have the ability to pay debts they do owe. Adding the ability to make robocalls to people who may or may not even know the person who might or might not owe a debt is several bridges too far. Robocalls for scam artists (not debt collectors, for which I am grateful) interrupt my day more times than I can count. This is a plague on all of us and needs to stop. Let's start by telling debt collectors, who are presumably not spoofing their phone numbers and are actually located in the United States, that this kind of abuse is off-limits. Then we can move on to Card Services and Microsoft Tech Support and the other criminals who waste our time and energy trying to cheat us out of the money we work hard to earn.

Michael	Wood Ridge	NJ	Please help us to stop robo calls WITH NO STRINGS ATTACHED. No one would want to be stopped in the middle of the street and talked to by a total stranger selling me stuff...RIGHT. Why would we allow that to happen with our phones. Their has to be a level of trust when communicating with our phones. We want to talk only to people that we WILLFULLY gave our number to. Please help to establish trust with our phones again. Thank you for listening.
Dolores	Vancouver	WA	Please adopt stricter rules to stop robocalls.
Tony	El Segundo	CA	No Robocalls to Cell Phones!
Tony	North East	PA	Technology is available through all phone carriers to block Robocalls, except there always seem to be a charge. Also software is available to do the same thing. But it always seems the cost is put on the consumer to do something about it, even though we are already paying for a service that should be harassment free. Companies now able to read your personal number even if you have it blocked. Carriers are making money no matter what they say, or they would not continue to grow at the rate they are. They need to apply the technology so all of us can have a service that is free of these harassing calls.
Arthur	Canton	MA	Robo calls add to the problem distracted driving and other activities. Sensible rules must be adopted to protect the public from over aggressive and uncontrolled robo calls. These rules should include number limits, opt out feature and call free hours.
Johnny	Weston	MO	We are constantly getting calls saying that we applied for a pay day loan (didn't apply), or offering to lower our mortgage rate or to sign us up for a health care plan. Please provide your cell phone number and I'll ask these people to call you. I'm tired of the bogus calls. They are wasting my time. Thanks.
Wesley	Monticello	GA	I had to turn my home phone off because of the quantity of Robo calls I received and now they will be able to call my cell phone. Please do whatever you can to stop this harassing behavior. Thank you
Gary	Whittier	CA	That's annoying you answer and nobody talks
Henry	New York	NY	Please take action on a system of Do Not Call numbers for cellphones to permit exclusion of robocalls and, if possible, other mechanically generated advertising calls, from impinging on our cell phones. These calls are costly and annoying in time and money to professionals and business people, as well as interfering with privacy and intimacy in family life. We as citizens are entitled to our privacy and to bar intruders from trespassing on our lives.
Alan	Wynnewood	PA	I despise Robocalls and believe that citizens should have easy access to opting out of them

Ron	Pearland	TX	I am retired and have a phone to communicate with people I need to get information from and for emergency purposes. The large majority of calls I get are from what appears to be robot calls since I seldom have had any contact with those who call and I am usually not interested in what they are selling, collecting for or the information they offer. Over 80% of the call I get are the robot call type. The problem is so great that I have caller I.D. and do not even answer most of the calls but I am still subjected to multiple re-calls from the robot for days and weeks. Please do something to stop the irritating calls from the robot dialler to give some relief from the unnecessary calls. I already have renewed on the Do Not Call List so it would be even worse if I had not signed up for that service. I did not get a phone to be aggravated by unwanted call and I do pay the bill for the phone service and it is not paid for by those making the calls so I should have some way to filter my call other than ignoring those I do not want to talk to. Thanks for your assistance in correcting this irritating practice.
Michael	Iowa City	IA	I don't want any robocalls to my cell phone for any reason. I understand why debt collectors may want to do it, but I don't have any debt. When I was in Massachusetts, I was called all the time for someone who previously had my number, and even after 4 years, the calls continued....even though I told as many callers as possible that it wasn't that person's number any more. Cell phones are the last place where we used to be free from anyone calling that we didn't want to, and I want to keep it that way.
Samson	anchorage	AK	No Robocalls please!
Julie	Playa del Rey	CA	This is why everyone is dropping their home landlines. All phine companies should be leading this fight. They will be loosing billions of dollars.
Albert	Georgetown	SC	I can't believe our elected officials have again passed a law that is detrimental to their constituents. I can't think of anybody who would want this except for telemarketers. Please don't allow this to happen.

Heather	Cambridge	MA	The debt collection industry has a well-deserved reputation for shoddy recordkeeping and for harassing people without regard to whether they owe money or have the ability to pay debts they do owe. Adding the ability to make robocalls to people who may or may not even know the person who might or might not owe a debt is several bridges too far. Robocalls for scam artists (not debt collectors, for which I am grateful) interrupt my day more times than I can count. This is a plague on all of us and needs to stop. Let's start by telling debt collectors, who are presumably not spoofing their phone numbers and are actually located in the United States, that this kind of abuse is off-limits. Then we can move on to Card Services and Microsoft Tech Support and the other criminals who waste our time and energy trying to cheat us out of the money we work hard to earn.
Justin	Tucson	AZ	Because of robo calls, I do not answer either my land or cell phones, forcing legitimate callers to leave a message. Is this the America we want?
Pete	Austin	TX	As a senior citizen I receive dozens of robo calls a week trying to con me into buying or giving up personal information to someone. Please stop the robo calls.
Bruce	Red Lake Falls	MN	They are invasive and annoying.
Johnny	Weston	MO	We are constantly getting calls saying that we applied for a pay day loan (didn't apply), or offering to lower our mortgage rate or to sign us up for a health care plan. Please provide your cell phone number and I'll ask these people to call you. I'm tired of the bogus calls. They are wasting my time. Thanks.
Melvin	Sandy	UT	We need to stop telemarketing phone calls immediately. The political season is upon us also. These calls are a nuisance. These companies are infringing upon my freedom. If I don't want their calls they should respectacular my privacy.
L	Landing	NJ	Why can't ALL the phone carrier submit a list of all the numbers people flag ON THEIR PHONES as SPAM and submit this list to the FCC for further action and fines? How hard is this? All the offenders would be right on there...the more people flag these numbers on their phone, the more fines would be imposed. If someone is a repeat offender, the fines increase in ratio.
Myles Greene	Atlanta	GA	My wife and I are old folks who live in a Continuing Care Community (AKA an old folks home) in Atlanta. She has Alzheimer's. Each day about our nap time we get a robot call on the home phone 404-262-4698. It is very, very annoying. Anything you can do to stop this intrusion into our lives would be appreciated.

Michael	Sunnyvale	CA	<p>To FCC : I believe FCC should limit Robi-calls, even ones related to debt collection, and allow consumers to control if they can be contacted on their Cell-phones in such a manner. 1. Robo calls should not be allowed to become a way to harras a consumer. Even debt-collection calls should be allowed only as a way to *REMIND* a consumer about his debt, not to try and harras him into paying. For that reason, calls should be limited in quantity to no more than once a week, at reasonable times of the day (between 9 and 5). 2. Once reminded, a consumer should be able to ask the caller to not call him again about the same debt. 3. callers must be forced to clearly state the purpose of the call up front, and to inform the consumer of his right to ask for no more Calls about this matter. 4. It should be forbidden to call anyone who is not personally and directly a debt holder. Relatives, friends, employers etc. I suggest Only debt co-signers can be called. 5. calls to cell-phones cost the recipient money directly and indirectly, by consuming a part of their paid-for cellular plan. If callers Are allowed to call as much as they decide, and whoever they think is relevant, it amounts to letting callers force rcievers to pay For a service they dis not ask for, at a price and quantity they do not control. This has no parallel and no precedent.</p>
Harry	Kansas City	MO	<p>The worst ROBOCALLS are the ones that are calling just to see if your phone number is valid, by you answering the call. This ROBOCALL just wants to hear a voice to verify that it is a valid number to sell to other ROBOCALL companies. This type of call is the most disturbing because the ROBOCALLER doesn't say anything to you, this is especially disturbing to seniors and puts fear in their life because they don't know who it could be. Maybe checking to see if they are home creating major uncertainty in their lives. THIS IS NO WAY FOR THE AMERICAN SOCIETY TO LIVE!!! STOP ALL ROBOCALLS FOR GOOD!!!</p>

Jorge	Mystic	CT	<p>Dear Sir/Ms, I received approximately 3-4 robocalls every day, sometimes in the middle of the night. Quite often the person/computer calling does not say anything, just silence which I don't understand; others offer incredible credit card bargains, other IRS scam threatening me to be arrested if I don't call them back and pay whatever they think I owe to IRS (I religiously pay all my taxes); other offering help with my computer saying that I have a virus, etc, etc...So please do something to stop this nightmare. Now we are facing the possibility that debt collectors are allowed to contact us on my cell phone for any reason. So please do not allow that they will be able to call us any time Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available Thank you for your attention to my request, Sincerely, Jorge Funes</p>
John	Sierra Madre	CA	<p>Please adopt strict rules regarding the use of robocalls so that the callers must notify recipients of the right to stop receiving calls, so that only the debt holder can be contacted and so that there are clear guidelines available to protect consumers from aggressive and predatory collection companies.</p>
Edward	Sandpoint	ID	<p>Stop the harrasment now.</p>

Joel	Bellingham	WA	<p>Robocalls are a form of harassment and should be stopped. I am an intelligent and capable adult, if I wish to know more about politics, fund raisers, or anything else then I will take the time to research it myself. I do not need anyone, especially a computer, to call me and try to 'inform' or persuade me. That ties up lines of communication unnecessarily, and the information is both useless and unwelcome. I pay my bills on time so I don't have the bill collector issue, but any rational human being can identify the potential for abuse by allowing repeated calls, especially when such harassment can be done effortlessly by computer. Harassment of this kind directed at persons other than the subject of conversation should be strictly forbidden. It is not only an attack on the recipient, but also against the subject, and cannot be considered reasonable in any way, shape, or form. These are just some of the examples illustrating why robocalls and other forms of spam are unreasonable and harassing. We should have a reasonable expectation of being free of this form of attack, as harassment is indeed an attack. To protect the people there must be regulations in place that limit the number of calls one receives concerning any given subject as well as limiting the number of calls from any given entity. There must also be regulations requiring those who would contact us to provide us a clear and concise way to stop further contact except through legal paperwork delivered through the postal service. These regulations should pertain to all forms of communication, be they voice, texting, email, or otherwise. They should also be clear and concise and easily available.</p>
Alan	Wheaton	IL	<p>I'd like to add my voice to the topic of minimizing robocalls on my or anyone else's cell phone. Calls on cell phones are by their nature more invasive than calls to landline phones, since we carry our cell phones with us. So I'd like to see tight limits on debt collection robocalls to cell phones. Allowing robocalls for debt collection of student loans or back taxes via a provision in the budget bill is a typical underhanded way of doing things & is not the first time such a thing has been done.</p>
Harriet	Ringwood	NJ	<p>I get robo calls on both my landline and cell phone. It annoying and upsetting. I am handicapped, have an elderly aunt (she has no children, so I'm her only family member to rely on), I also have an elderly mother and mother in-law. Any calls I receive, especially in the morning or evening, causes a complete panic on my part. It's an issue to answer the phone quickly, because of my handicap, and then completely frustrating when it's these stupid robo calls. Although I have put all phone numbers on "DO NOT CALL", it doesn't seem to do any good. These robo calls need to be stopped ASAP!!!!!!! They should be considered a major "PRIVACY" issue!!!!</p>

Ramona	Elizabeth	CO	Robo calls waste my time and cell minutes, tie up bandwidth needed for other things and in general are just plan obnoxious. They should be banned.
Kathy	Milner	GA	Not everyone has or can afford unlimited voice plans or minutes that carry over from month to month, and unsolicited robocalls eat away at a resource I have paid for. Overages on my plan are 45 cents per minute, and I shouldn't have to pay for a call I never wanted to receive in the first place. I am trapped in my family plan with shared minutes due to a family member who has grandfathered unlimited data from Verizon, and changing our plan would cancel his data plan. A dozen or so robocalls over multiple lines on my plan utilizes our valuable minutes without my permission. Thank you.
Jerry	Irvine	CA	Please help stop these incessant phone calls as I cannot keep running to the phone all day only to hear a salesman/lady try to sell me something. In my final years can I have a little peace and quiet?
Tam	Austin	TX	To whom it may concern, We the citizens of the United States are sick and tired of paying to rates for promises of great service only to find the companies making these promises really don't stand behind them. They lobby behind our backs to gain every loophole to their advantage, which generally means consumers disadvantage; robocalls fall into this category. I fill out a warranty card that says, "No, I do not want to be contacted by your company for advertisements or special deals", I send it in. 3 months later, I'm getting phone calls from company reps. asking me to take a service survey, asking me to upgrade service, product, if I want to insure product, or...in the case of cell phones, in particular, I'm getting text messages (which I'm charged for) asking the same types of things. Then, there are the mysterious robocalls that interrupt my work, dinner, relaxation...all from people I don't know and don't want to know: scammers, thieves, phishers, you name it. There are even the ones who say NOTHING! What's that about? Give us a way to block these people! A REAL DNC LIST!? OR a law the says the phone companies MUST provide a legitimate way for customers to block incoming phone numbers...free of charge! We didn't ask for these people to call and interrupt and harass us. We didn't give them our phone numbers. More than likely, they bought it from some company we trusted not to do that, like...our PHONE COMPANY!
Wyatt	Modesto	CA	I don't want any robo calls, ever. There has never been a reason for me to receive a recorded message nor will there ever be so please put a stop to this invasion of my privacy and peach and quite in my home. Your help would be greatly appreciated. We all pay hard earned money for our phone services and receiving this garbage should not be included in our plans. Thank you,

Sally A	Westlake	OH	I think these robocalls on my land line and cell phone are very invasive and an intrusion on my personal privacy. They are most annoying. Political calls included and calls for my deceased husband of 16.5 years! Please stop these.
Catherine	Peekskill	NY	It is one thing to get robocalls on your landline and those I have blocked. Getting access to your cellphone means you are charged for the calls/texts pending on your plan. Why shouldn't you have to pay for unsolicited calls or texts that only harass you. Enough of the invasions into one's private life.
Tony	El Segundo	CA	No Robocalls to Cell Phones!
Mike	Gordonville	TX	Please adopt strong robocall rules. It's very annoying and intrusive.
Joel	Davis	CA	Respect long established privacy for cell phones. Please implement: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Michele	Fort Myers,	FL	Please end ALL robocalls to both home and cell phone!
William	Woodbridge	VA	It's bad enough that I get a lot of SPAM phone calls at home, which is on the Do Not Call registry. It's RIDICULOUS that I get MORE of them on my cell phone, which is also on the Do Not Call registry, and is supposed to be AUTOMATICALLY covered. I block one phone number, just to have the same SPAMMER show up on another number. This has nothing to do with existing contacts. It's about blatant offense of the law, and NO ENFORCEMENT!
David M.	Palm Harbor	FL	Please do whatever you can to put an end to unsolicited robocalls. They tie up a phone when an emergency may arise. They cost me money by using my cell phone minutes. And they are very annoying. I feel that robocallers do not have the right to tie up my phone or use my minutes. Respectfully submitted, David M. Bozarth
Bill	North Port	FL	that's all I get on my phone its gotta stop
William	Columbia	MD	Jail execs of companies that do this. Extredite if overseas.
Gayle	Tucson	AZ	I am a senior citizen and I am getting so annoyed with these calls. Telemarketer selling everything from funera,l services to time shares or waranty insurance for appliances and cars. They use local numbers or fake numbers in general. The worse are the politicians calling for votes. I've asked to be removed from their list but they just call back with a different number. This is so annoying and it needs to stop. My numbers were blocked and the blocks renewed yet they still get through. Just stop it.
Julie	Colwich	KS	Tired of them.. STRAIGHT UP ANNOYING! TIRED OF SOLICITORS PERIOD!
Scott	Rockwall	TX	Lately I have been getting an average of 4 calls a day from robocallers. It's unacceptable and annoying, please do something FCC

Kathryn	Johnson City	NY	I oppose robocalls to our landline and cell phones without our permission. It has become an invasion of privacy, and is extremely annoying. we are continually screening unknown numbers and malicious texts.
Dave	South Barrington	IL	Please do not allow Robocalls to be allowed on my cell phone. That would impact my phone plan and end up costing me money! Please protect the consumer on this one!
william	lady lake	FL	I average between 20-30 calls per week. The amount of times I have pleaded not to called is in the hundreds. I have endless report to the FCC, to no avail. PLEASE HELP!!
Larissa	Fairview	NC	I am strongly opposed to receiving unsolicited robo-calls/robo-texts to my cellular telephone number. Consumers should have a right to refuse such intrusions and be clearly informed of this right when a cellular number is provided to a merchant, credit agency, or other business. Aside from being intrusive and annoying, robocalls/texts can be a dangerous distraction to drivers and at other times requiring concentration.
henry	new york	NY	robocalls are an active aggression against the privacy of our homes, an unwanted and uninvited intrusion of commerce into our lives. While there are human beings somewhere behind these calls, the calls themselves pits robotic machinery against the efforts of mere human beings to protect their privacy and the sanctity of their homes. It's an unfair contest.
Danny	Wethersfield	CT	Don't want any calls.
Marvin	Charlotte	NC	I have endured extensive robocalls on home phones for years. They have deminished significantly with call blocker software and hardware. Now they are increasing on cell phones. Please stop this invasion and additional cost to me.
Nancy	Cleveland	OH	Robo calls are a huge INTRUSION in our lives and have no effect on my behavior. They have to stop
Michael	Saint Louis	MO	80-90% of the calls i get at home are Robocalls, I don't even want to answer any more.
Michael	Pompano Beach	FL	Please enable telephone users and/or telecommunication companies to stop robocalls. These calls are an abuse of our airways and neither companies nor individuals should be allowed to operate in such a way as to prevent consumers from preventing these unwanted calls.
Syd	Lakehills	TX	Please consider how junk mail clogs the postal system for legitimate mail, so too robocalls clog the cellular capabilities. If left free with no regulations the robocallers will automate to send thousands if not millions of calls a day. Your decision on this matter could actually cripple everyone's ability to make and receive cell calls.

Robert	West Palm Beach	FL	I am at my witts end every night when the robocalls start. They call just as you return from work or your cooking dinner or about to eat a nice quiet meal. Most often there is no one on the phone. However, on occasions there is someone asking your opinion on something of which you have no interest. In my opinion quiet time an important part of maintaining good mental and physical health. Robocalls are disruptive and therefore destructive to my right to enjoy peace and quiet. We need to deprive those people of their ability to disrupt our lives. We need to establish and enforce a no call list for mobile and land line phones. Thank you
Robert	Bozeman	MT	Things have gotten out of hand. We having been receiving so many calls this year that the land line has become a useless reservoir for these calls. Luckily we also have cellphones which has allowed us to only use the landline for voicemail. Better than 90% of these calls to the landline are out of state hang-ups.
Alan	Huntsville	TX	I already receive robocalls on my landline, even though I block most of them. I do not wish to pay for robocalls to my cell phone. Furthermore, if I receive them while I'm driving, the distraction can endanger my and other people's lives. For sanity and safety ban robocalls to cell phones.
John	Buena Vista	VA	I get robo calls daily. None are about legitimate matters, but are to try to scare me in order to get me to give them information that they can use against me. This system is inherently abusive, no matter who is using it and how they claim it will be used.
Sanford	Lubbock	TX	Please press forward with your efforts to end ALL robocalls. Aside from being a nuisance, these calls tend to clutter communications channels and cause legitimate and sometimes very important calls to be overlooked. /i would also urge you to consider requiring regulated communications companies to offer the option to block all unidentified or "private" calls if that is not already on your list of actions.
Paul	Flat Rock	MI	I pay each minute on my cell phone plan. Robocalls cost me money. They waste both my time and my money. Take the provision to allow Robocalls out; student loans from family members isn't my issue. Call them directly.
Michele	Philadelphia	PA	I have a limited yet some what affordable cell phone plan and have become increasingly annoyed by unsolicited texts and calls affecting my usage plan.
Corey	Sacramento	CA	Please help stop robocalls. I truly think they are an invasion of my life
Michael	El Paso	TX	Allowing these robo-callers to continually harass consumers without consequence is typical of American leadership- doing nothing for the constituency. Legislators/government agencies should stop this unmitigated violation of privacy NOW. Do something constructive for a change.

Bill	High Point	NC	I only want to hear from people I give permission to call me. That does not include any politicians, any marketing companies who bought my name on a list, or any third parties to a transaction.
Joanna	Seabrook	TX	We have eliminated our home phone due to robocalls. They were interminable. Constant and disturbing. It is very inconvenient not to have a home phone but it was the only way to put an end to the robocalls. Please do not force us to have no phone by allowing robocalls to our cell phone. We have no overdue debt. The calls are not even for us but still they continue even when we state that the person they are seeking is not at this number. There has to be a way to stop these calls. You hold that power. We need clear guidelines and a way to put an end to those that are in error as well as those that are abusive. Please limit calls to those who directly hold federal debt to no more than three per month. We want them to notify us of our right to stop these calls. Maybe this way, they will learn that we have rights.
TJ	pittsfield	MA	The robo call have gotten more frequent and bold. Most often when you tell them to put you on the no call list they just hang up on you. I've even had callers laugh when I say I'm going to report them!
Kevin	harrison	NY	No robocalls
Marge	Galion	OH	No robo calls on cell phones please!!!!
Thomas	Westborough	MA	I support the tenor of the FCC's proposed limitations on robocalls to cell phones, and specifically advocate that: debt collectors must notify the recipient of the right to stop receiving such cell phone calls (with enforceable penalties for violators); allowed calls or texts may only go to those who who DIRECTLY hold federal debt, and not to friends or family members; and guidelines must be clear and well communicated to the public and debt collectors. Unlike calls to a landline, calls to mobile devices reach the recipient any time and place, night or day. With the increasing integration of mobile communications with automotive management systems, I dread the prospects of a situation where a robocall about a relative's or friends (or my own) college loan debt comes in while driving at 75 MPH passing a 40-ton semi on a two-lane road. Similarly a 2AM robocall to a bedside cell phone is not only unnecessarily disturbing, but such a call at that time immediately creates the stressful reaction that it may be some family emergency. The FCC should place reasonable limits on the ability of debt collectors (and the like) to communicate with responsible debtors through what have become ubiquitous mobile communications devices grafted 24/7 to the hips (and autos) of tens of millions of our citizens.
Lorraine	New York	NY	Please do not allow any Robot Calls. They show not happen at all.

Robert	Stillwater	MN	We are sick and tired of calls to our iPhone that list the caller as "UNKNOWN". Sometimes when we answer we find it is a request for donations or a sales call or a scam. We would appreciate it if you could block these calls. However, sometimes we want to receive a call from a relative or friend who is not in our address book. Sometimes an unknown caller's phone number will show up but we are hesitant to answer for fear it is a scam. After we filed our tax return we received many calls from around the U.S. which we considered scams. That's when we stopped answering any unknown callers.
Mary	Springfield	MO	I get calls as late as 9:30 PM, in the middle of working on important things, AT&T has been the worst, you get on a no call list with your phone and 6 wks. later they release the numbers again, this is a service that you pay for.
Richard	Westminster	MD	Calls made by a person and not a robo caller are something we can live with, if they have a legitimate right to call. However, we are out gunned by these machines.
JAMES	ST.JOE	MN	STOP ALL ROBOCALL
Betty	Richland	WA	Please do not allow automated phone calls to cell phones. Thanks
Maren	Tucson	AZ	I have added my home and cell phones on the do not call list. I constantly get calls from area codes that I do not know anyone. I am tired of getting calls that do not interest me. I have to pay extra each month just to get caller ID so I don't waste my time answering the phone. The calls are irritating.
Larry	Huntsville	AL	Please do not allow robocalls to cell phones! Their calls consume minutes, calls cannot be blocked because they have access to so many numbers. They can now somehow have access to my own number so that when they call, the caller ID shows MY Number! There is no option to remove our numbers from their system. When we push the correct button to talk with a live person and try to tell them we are not interested and want our number removed from their list, they hang up!
Philip	Redlands	CA	Please implement and enforce rules and laws that would enjoin companies and individuals from using Robocalls to contact cell phone users. The current rules that attempted to control robo and marketing calls on landlines have proven to be ineffective and unenforceable the opportunity exists to stop the practice in the cell phone system before it becomes endemic.
Keith	Beatrice	NE	I am very annoyed by robo calls to cell phones and home and business phones as well. Please do everything in your power that you can to end these time consuming and annoying calls.

Doug	Havre De Grace	MD	The ROBOCALLS I get to my residence are relentless. I have requested they stop by any means currently available, to no avail. I hesitate to answer my phones at all anymore because of the utterly annoying banter that awaits me on the other end., Please do what is possible to stop, or at least provide an effective way for those of us who do not wish to receive these calls!
Wiliam	Columbia	MD	Require carriers to implement easy one-click blocking. Make all cellphone robocalls illegal with big personal fines for executives and jail time 10 time cumulative subscriber lost time except for official police and fire calls and opt-in health provider and emergency calls that can be easily opt-outted. No cell robocalls from commercial, bank, politics, nonprofits, military, IRS, government, etc. NONE!
Joseph	Tarzana	CA	Any organization using an automatic dialing system needs to be limited. I get many unwanted calls every day from "home contractors" and solar installers and others even though we are on the do not call list. Limiting all such calls is a good step toward eliminating them. I think the phone company or the federal prosecutors need to go after these operations, they are a significant nuisance.
BETTY	BAINBRIDGE ISLA	WA	It is an absolute intrusion into privacy, that ROBO calls are allowed into our homes and businesses. PLEASE STOP ROBO CALLS!!! USE all means possible.. to stop calls coming from USA as well as overseas!
Syd	Lakehills	TX	Please consider how junk mail clogs the postal system for legitimate mail, so too robocalls clog the cellular capabilities. If left free with no regulations the robocallers will automate to send thousands if not millions of calls a day. Your decision on this matter could actually cripple everyone's ability to make and receive cell calls.
Sharron	Augusta	GA	These calls are an aggravation for senior citizens. If we want to contact you, we will. Please don't call us!!
Ed	Westcliffe	CO	We, the public, are the ones who are paying for phone service and thus we should have the right and ability to limit who can access it. The debt collection industry has shown how abusive they can be when given even a small amount of approved access. Please protect consumer rights!!
Cheri & Jerry	Omaha	NE	We receive unwanted Robocalls everyday and most days twice a day on both our land line and our cell phone. They are about credit cards, mortgages, and insurance. Non of which we need or want. We are retired and have limited minutes on our cell phone. These unwanted calls use up our minutes that we pay for. Please put an end to these intrusive calls.
Normand	Bristol	TN	Robocalls to both landlines and cells phones are terrible and costly impositions. Please establish a rule that would let us opt our of such calls once and for all. Thank you!

Gabriel	NYC	NY	I'm sure y'all are annoyed and bothered by them too. Let's stop them....
Corey	Sacramento	CA	Please help stop robocalls
Barbara	Norfolk	VA	Please stop Robocalls to cell phones. While annoying to all, they are especially harmful to those with limited income, depleting their phone allowances and creating a snowball effect on finances.
Mac	Houston	TX	NO more unwanted solicitations OR ANYTHING!!!
Dorothea	Hanford	CA	I have a pay-as-you-go cell phone plan. Each day my phone is used cost me \$1.00 plus \$.10 per minute. I seldom use my phone and this plan works well for me. Then I started receiving robocalls on my cell. Since I rarely use my phone every time one of these robocalls comes in it cost me \$1.10! I have only given out my cell phone number to a few people. I pay for this phone. I should be able to decide who has the ability to call me on my cell phone. It's only right. These robocalls are literally costing me a \$1.10 every time they call me. Why should I have to pay money for calls I don't want and didn't authorize? Please help stop this madness.
Gary	Western Springs	IL	It would be so nice to be able to just answer the phone and know that it's a real person with a legitimate reason to be calling me. Let's figure out how to put some teeth in the Do Not Call list. Thanks for your attention to this!
April	New Iberia	LA	My cell phone has limited minutes and overage charges for going over my limit and I'm sick of getting automated robocalls especially when they're looking for someone else or trying to sell something! Many times I tell them I don't know who they're calling for and to put me on their do not call list and they hang up only to call the next day! Robocallers should have to notify us and give us the option to stop receiving calls! The number of allowed calls and texts should be limited to only a couple a month and only to those who directly hold a debt, not friends or relatives! Strict, concise, clear guidelines should be put in place for them and they should be heftily fined for violating the guidelines!
Jeri	La Grande	OR	Unwanted, I want to seek out businesses not have them seek me out on a service I Pay For. Enough!
Jonathan	Richmond	VA	There are only a few things more frustrating and infuriating than robo-calls! From financial companies harassing friends and families of alleged "debtors" to political actors undermining our privacy and productivity, these robo-calls have to stop. If our country is really going to be great, we must prevent special interest groups, like debt collection agencies, from invading our privacy and preventing productivity!

Doug	Havre De Grace	MD	The ROBOCALLS I get to my residence are relentless. I have requested they stop by any means currently available, to no avail. I hesitate to answer my phones at all anymore because of the utterly annoying banter that awaits me on the other end., Please do what is possible to stop, or at least provide an effective way for those of us who do not wish to receive these calls!
Kait	Albuquerque	NM	Please implement the strictest protections against any and all companies that robocall people. It's an invasion of privacy, and needs to be reigned in by the FCC.
Barbara	Norfolk	VA	Please stop Robocalls to cell phones. While annoying to all, they are especially harmful to those with limited income, depleting their phone allowances and creating a snowball effect on finances.
William	Port Angeles,	WA	No Robocalls on any phones !
Susan	Wexford	PA	stop all robocalls immediately. No exceptions.
Dee	Carolina Beach	NC	Please stop the robo calls to cell phones!
Lesle	Las Vegas	NV	My phone rings nonstop with robo calls. It's akin to being bullied incessantly.
A	White Oak	PA	i am a cardiologist and get emergent phone calls from other docs on my cell phone during business hours. i frequently get robocalls as well that i cannot distinguish from actual emergencies and have to interrupt patient care to answer and determine that this is the equivalent of phone SPAM! this affects the care of my patients significantly and should be outright banned. I cannot care for patients and address emergencies with ongoing robo calls to my cell phone. please address this problem immediately.
David	Tucson	AZ	I not only receive robocalls from telemarketers, I also receive several calls a day from out of state that have no one on the other end of the line, just dead air. This not only wastes my time, but also costs me money in the form of using my monthly allotment of minutes. I've put my phone on the do not call list but still receive these calls. It also interrupts my business. It has been very frustrating and needs to stop.
Rolf	Cottage Grove	MN	no robocalls
Pam	Pueblo	CO	I don't appreciate any calls that are not wanted from anyone rather it be debt collectors, political calls and charitable causes. All robocalls should be stopped to both cell phones and home phones.
Nora	Sacramento	CA	Stop Robo calls now!

Scott	Elk Grove	CA	Over the last several months the number of robocalls I receive has increased from 1 - 2 per day to as many as 8-10 per day, often the same caller 5-10 minutes apart. When combined with the number of robocalls I receive on my land line has made having a phone a nuisance. In fact, I no longer answer my phone until my answering machine kicks in. Please help stop this invasion of my privacy.
Carolyn	Royal Oak	MI	I don't want any kind of robocalls on my cell phone or landline.
Jonathan	Richmond	VA	There are only a few things more frustrating and infuriating than robo-calls! From financial companies harassing friends and families of alleged "debtors" to political actors undermining our privacy and productivity, these rob-calls have to stop. If our country is really going to be great, we must prevent special interest groups, like debt collection agencies, from invading our privacy and preventing productivity!
Elizabeth	Lehi	UT	This is such an invasion of privacy and a nuisance factor in life that we just don't need!
Joanne	Lufkin	TX	We receive a minimum of four robocalls every day despite the fact that all of our phone numbers are on the Do Not Call registry. Lately, we have received at least one call a day from a group saying they are the IRS and they have filed suit against us which is not true. Please take action to stop this harassment!
Mark	Mukilteo	WA	Robocalls are a GREAT BOTHER!
Douglas	Hanover	NH	No more Robo Calls, especially during election season!
Rashid	Oakland	CA	I have a cell phone for use in emergencies - I did not get a cell phone not for listening to recording, sales pitches, or political appeals! I had to use mine just yesterday, when I was injured, and waiting for a call back from the ambulance trying to stop arterial bleeding. I don't ever want to risk having some robot call me when I'm dealing with real-life problems!
Danny	Barnhart	MO	Robo Calls are so annoying. they come at the most inconvenient times.
Kathleen	San Francisco	CA	As a disabled person who receives an average of 5 to 6 robocalls a day, robocalls put me at risk for physical injury in the following way. Sometimes I am waiting for an important call from a doctor or someone who has limited time to call me. I have difficulty walking safely, particularly without my leg brace or a walker. The phone rings and I do my best to get there safely only to learn that it is another robocall. Robocalls outnumber my regular calls by about 6 or 7 to one. They interrupt needed rest. Please stop these robocalls. It is simple for you. Give us a little peace.
Joel	Marshalltown	IA	Nearly daily I get aggravating robocalls from companies, most wanting to talk to be about credit cards. My cell number is on the Do Not Call registry. You have the power to order AT&T, my carrier, to stop these calls. Please do so!
David	Newberry	SC	Stop ROBOCALLS now since adding one's name and phone numbers to the "do not call" list doesn't work.

John	Buckeye	AZ	I'm not on an unlimited talk time plan. So, Robocalls to my cell phone are not only annoying, they cost me minuets, which in my case, also cost me money. Please stop them. Thank you.
William	Lynchburg	VA	Robocalls are little more than annoying nuisances and invasions of one's privacy. They should be banned.
Ron	Las Cruces	NM	Unwanted robocalls and annoying and to make it worse, we have to pay for the minutes used to hangup.
Jerry	Barrington	IL	I have complained about these calls for years. You can't tell me that the FCC can't do anything about robo calls. Enough is enough.
Kevin	harrison	NY	No robocalls
Joe	Palm Harbor	FL	One key activity of all government regulatory agencies should be to protect citizens against unwanted intrusion. The Federal Trade Commission's "Do Not Call" list is well intentioned but virtually useless as it has minimal enforcement and no teeth. Hopefully the FCC can do much better. Please do your job and implement regulations that actually favor citizens over intruders by enacting the strongest possible regulations against all robocalls, including those to cell phones. Please make the regulations very specific so that slimy organizations will not be able to sneak in under cover of the few legitimate robocalls from government agencies, doctor appointment confirmations, etc.
JOSEPH	LEWES	DE	STOP THE USE OF UNWANTED ROBO CALLS!!!!!!
Wyatt	Modesto	CA	I don't want any robo calls, ever. There has never been a reason for me to receive a recorded message nor will there ever be so please put a stop to this invasion of my privacy and peach and quite in my home. Your help would be greatly appreciated. We all pay hard earned money for our phone services and receiving this garbage should not be included in our plans. Thank you,
Mark	Fort Pierce	FL	I've managed to block most robocalls to my landline phone, but tobocallers still find ways to call me on my cell phone. Let's face it: mobile phones are the future, and that future is clouded by robocalls. You have the power to stop this. Please do so, especially with sleazy debt collectors.
Elizabeth	Lehi	UT	This is such an invasion of privacy and a nuisance factor in life that we just don't need!
Jason	Bonner Springs	KS	NO ROBOCALLS EVER!!!
philip	chapel hill	NC	TERRIBLY AGGRAVATING. PLEASE STOP IT !!

Joanna	Seabrook	TX	We have eliminated our home phone due to robocalls. They were interminable. Constant and disturbing. It is very inconvenient not to have a home phone but it was the only way to put an end to the robocalls. Please do not force us to have no phone by allowing robocalls to our cell phone. We have no overdue debt. The calls are not even for us but still they continue even when we state that the person they are seeking is not at this number. There has to be a way to stop these calls. You hold that power. We need clear guidelines and a way to put an end to those that are in error as well as those that are abusive. Please limit calls to those who directly hold federal debt to no more than three per month. We want them to notify us of our right to stop these calls. Maybe this way, they will learn that we have rights.
Bill	Tucson	AZ	A phone should be a helpful device. Unfortunately, because of robocalls, it's becoming more of a liability than a help. I now unplug or turn off my phones when I am trying to work. Listen to the people--end these damn calls!
Carolyn	Royal Oak	MI	I don't want robocalls of any type on my cell or landline.
Ed	Marietta	GA	I work from home. Even though I'm on the Do Not Call list I receive many calls throughout the day. I can't just turn off the ringer because I might miss a call I need. In addition to the DNC list I add as many new numbers to my blocked call list but I can only add 20 numbers and I cant just reject calls if they don't have caller id or if they have Unavailable or maybe just a few numbers, or even my own number. Stop the insanity. I've even tried to let them know I'm on a DNC list. In that case they just laugh and hang up. I think the only option is to cancel my home phone.
John	Queen Creek	AZ	I constantly get calls that hang up when I answer and calls from companies trying to sell me extended warranty plans for my cars even after I have asked them to put me on their do not call list. It has gotten so bad that I have downloaded an app that blocks specific call numbers to stop the calls. I am on the donotcall list and still get calls. This is very frustrating and needs to be stopped.
Marilyn	Grandview	MO	Regulations are needed to protect people from being harassed on their phones by debt collectors and others making robo calls. Obviously, debts must be paid but the number of calls should be limited and the people who are called should be specific to the debt that is owed. The bombardment of calls does not do anything to produce the desired effect of a debt paid.

Bill	Leominster	MA	Please take the strongest measures possible to stop abusive robocalls to cell phones now. 95 percent of the calls to my landline every day are from robocalling telemarketers, phishers, and outright scammers and I absolutely do not want this same harassment to follow me everywhere on my cell phone. Thank you!
Elliott	Palm Springs	CA	I am sick and tired of getting these calls, especially on my cell phone. I travel frequently around the world and am sick and tired of getting these BS calls at 2, 3 or 4 in the morning because these idiots have no idea where I am. Please pass rules and regulations prohibiting them from continuing and imposing VERY hefty fines for violations of the rules. Thank you
Cheri & Jerry	Omaha	NE	We receive unwanted Robocalls everyday and most days twice a day on both our land line and our cell phone. They are about credit cards, mortgages, and insurance. Non of which we need or want. We are retired and have limited minutes on our cell phone. These unwanted calls use up our minutes that we pay for. Please put an end to these intrusive calls.
Frederick	Nashville	TN	I am so tired of getting these calls ! If the industry will not police itself (and it absolutely has not), then you must do it
ray	Bellevue	WA	Robocallers invade my privacy by not allowing me to block their calls to my cell.
James	Ann Arbor	MI	I believe that robocalls are an unwanted and unnecessary intrusion. With the ability to search the internet for products and services that I want or need there is no reason to receive unwanted calls on the off chance that I wight want what the caller as to offer. I also object to calls from charitable and political organizations. If I want to donate or share my opinion, I can do it under my own volition.
Keith	Beatrice	NE	I am very annoyed by robo calls to cell phones and home and business phones as well. Please do everything in your power that you can to end these time consuming and annoying calls.
jimmy	delaware	OH	no i do not want rococalls on my cell phone
Victoria	Cincinnati	OH	RoboCalls are annoying, disruptive and an invasion of privacy. These calls wake sleeping babies and shift workers, take up space on voice mail and are just plain annoying. I've gotten many of these calls, repeatedly, even after telling the callers they had the wrong number. The companies who initiate these calls often latch onto phone numbers only vaguely connected with the people for whom they are intended. It's bad enough when they come through on home phones but are especially irritating on cell phones. It costs money to maintain cell service and it is just wrong to allow robocalls on these devices. This practice needs to be stopped.
Keith	Beatrice	NE	I am very annoyed by robo calls to cell phones and home and business phones as well. Please do everything in your power that you can to end these time consuming and annoying calls.

Peter	Millburn	NJ	Robocalls are an absolute nuisance. Calls are made at all hours, day after day. Please take appropriate action to end robocalls and to heavily penalize violators (\$1,000 per number robocalled).
Linda	Keansburg	NJ	No one wants to be harassed with these invasive robocalls that always seem to come during meals or late at night when you are already in bed. There needs to be some kind of limit on how many calls they can make and they shouldn't be allowed to call anyone except the debtor.
Paul	Barrington	IL	Stop this madness - the number of robocalls I get now is beyond irritating.
Jennie	Lewes	DE	Please protect us from robocalls on our cell phones without our permission. This is an invasion of privacy and often reaches the level of harassment. Please help everyone know their rights to limit the number of calls to debtors and to eliminate them to friends and relatives. Thank you for your help on this very serious issue.
David	Calhoun	KY	I sincerely request that action be taken to eliminate or at a minimum limit robocalls. I daily receive several of these calls and have often tried to speak with them regarding having my phone number removed from their list and each time I do this they hang up on me,
Robert	Salem	OR	Hello, Robocalls should be blocked by default. The consumer should have the option to opt-in, not the other way around.
Anna	Canandaigua	NY	My personal phone should be just that...personal. I pay the bills and should decide who gets my number and uses my phone. Intrusions by lazy business people who continually harass my personal space for their monetary gain is outrageous and needs to be stopped. I don't even have any credit issues and am continually harassed for credit card consolidation, charities and politics on my personal phone and increasingly on my cell phone. When I block the number, another is used and this goes on every day. I have been on the do not call registry for years, but apparently that does not protect me. Shame on you, FCC, for allowing the American public to be harassed like this!
James	Chapel Hill	NC	End the harassment now.
Elizabeth	Syracuse	NY	We get robot all to lower our mortgage rate (we have no mortgage), give us a free cell phone if we qualify (we don't), and Rachel from card services wants to help us with non-existent credit card debt. I have hung up, pressed 3 to opt out, and pressed 1 and told telemarketers that we are on the do not call registry and to STOP CALLING. Nothing works. Sometimes we get 3-4 calls a day from the same people, different numbers each time.
Theresa	New York	NY	Please - No robocalls to cell phone. As a senior citizen, I want my cell to be used for emergencies.
John	Belair	MD	I shouldn't have to sustain an intrusive practice

Stephan	Watson town	PA	<p>Robocallers are running ruthlessly and lawlessly over the public's cellphone and landline systems. I discontinued my landline because of this issue, but they call my cellphone, anyway, requiring me to employ a call blocker, which causes me to miss important calls. The "no-call" list is useless. Please take these steps, at a minimum: Debt collection robocallers must notify us of our right to stop receiving calls, The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family, The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. There should also be a commonly easy way for users such as me, the average citizen and not an attorney, to enforce this law with accompanying serious and significant penalties.</p>
Howard	Charleston	SC	<p>TRUE STORY: ===== For months I was receiving unknown calls, day-in & day-out, several times a day and from the same calling party. When my answering machine answered the call, no message was ever left on my machine. As a rule, I never answer unknown/unrecognized caller-ID calls. One day, out of curiosity, I decided to answer that persistent & unknown call. It was a collection agency looking for a John Howard. But because my first name was Howard, they decided to include my phone listing in their RoboCall collection efforts. Their computer did a match on anyone with the name Howard as part of their full name. That's how I became a victim. That's just one of my stories on why I am STRONGLY against any and all RoboCalls. Consequently: ===== ALL of these desired and proposed rules apply to both any RoboCall, any Debt Collection call or any Telemarketing call - whether to a land line phone, mobile/cellular phone or other voice communication device (e.g. Internet Phone). These calls are hereinafter referred to as RoboCalls: [1] The number of allowed RoboCalls or texts should be limited: (A) To no more than three per month, (B) To those who directly hold federal debt (C) And MUST exclude friends, family, neighbors or any other persons not directly responsible for the indebtedness. [2] The RoboCall restriction & guidelines should be clear and readily available. [3] For each call that is answered, whether answered directly by a person or an answering device, the caller: (A) Must announce the name of the person for whom they are calling, (B) Must announce the name of their company, (C) Must announce their company's address, (D) Must announce their company's return phone number, (D) Must announce how to remove the called phone number from the caller's "call list." (E) Must announce to the called party their rights which includes their rights on how to stop receiving calls. [4] It should be against the law for a RoboCall or any form of Debt Collection call to disconnect the call once it is</p>

Elizabeth	Syracuse	NY	We get robot all to lower our mortgage rate (we have no mortgage), give us a free cell phone if we qualify (we don't), and Rachel from card services wants to help us with non-existent credit card debt. I have hung up, pressed 3 to opt out, and pressed 1 and told telemarketers that we are on the do not call registry and to STOP CALLING. Nothing works. Sometimes we get 3-4 calls a day from the same people, different numbers each time.
Alma	Glen Ellyn	IL	Please protect our privacy! Do not allow robocalls to our cell phones!
Francisco	Cypress	TX	Numerous calls from 602-888-7295. Regularly get these with a male voice and never says the name of the company. No opportunity to opt out or stop this. Can't block the number on my land line. Lots of promises about getting rich.
Leslie	Hermitage	PA	I applaud this agency for trying to implement rules to provide as much protection as possible against abusive debt collection robocalls to our cell phones. We need the FCC to stay strong against debt collectors who want to open the floodgates to these calls. I believe that the FCC's proposed rules set sensible guidelines for the types and frequency of calls and messages that debt collectors are allowed to make and send. The following points are especially important to me: 1. Debt collection robocallers must notify us of our right to stop receiving calls. 2. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. 3. These guidelines should be clear and readily available. The bottom line is that I simply do not want to be stuck screening these unknown numbers and/or malicious texts around the clock. Thank you for all efforts to implement strict guidelines regarding this issue.
Bryson	Lutherville	MD	I have repeatedly told these people to stop calling me, but they persist. some sort of scam operation I understand.
Joe	Palm Harbor	FL	One key activity of all government regulatory agencies should be to protect citizens against unwanted intrusion. The Federal Trade Commission's "Do Not Call" list is well intentioned but virtually useless as it has minimal enforcement and no teeth. Hopefully the FCC can do much better. Please do your job and implement regulations that actually favor citizens over intruders by enacting the strongest possible regulations against all robocalls, including those to cell phones. Please make the regulations very specific so that slimy organizations will not be able to sneak in under cover of the few legitimate robocalls from government agencies, doctor appointment confirmations, etc.

don	northborough	MA	The number or robo calls is now not only abusive but insane. They have no regard for the day or time they call. Sundays is now a prime target. We had at least 20 phones ring or vibrate during the service. Next week we are all being requested to turn them off completely and leave them with the greeters This is insane!! It must stop now!! I have changed my number to try to escape the nonsense..
Joyce	Copley	OH	Please help me to protect my privacy and my right to have a choice of whom I would prefer to receive phone calls from. If I have chosen to put my name on a do not call list, then I expect that request to be honored. Please help create guidelines that are clear and readily available and protect my privacy.
Kathleen	Houston	TX	Unsolicited phone calls are beyond annoying when you are paying for usage. It is bad enough when you are paying a flat rate for a land line.
TERRY	MARIETTA	GA	DEBT COLLECTION ROBO CALLS SHOULD BE STOPPED & MEANS TO STOP THEM SHOULD BE PROVIDED FREE.
Ian	San jose	CA	Robocallers are intrusive and should be banned as a public nuisance
Eugene	Allison Park	PA	The phone companies should be required to stop these calls and somehow stop the high jacking of phone numbers.to make it appear that the call is coming from someone in your area. I have received calls using my number. This to me is illegal.
John	Sierra Madre	CA	Please adopt strict rules regarding the use of robocalls so that the callers must notify recipients of the right to stop receiving calls, so that only the debt holder can be contacted and so that there are clear guidelines available to protect consumers from aggressive and predatory collection companies.
Jerry	Keller	TX	Robocalls are a major problem for my wife and me. We are senior citizens with health problems. We end up sleeping a great deal in the daytime. Robocalls are causing us health issues. Please stop all robocalls.
Valerie	Pacific Palisades	CA	Help us live better lives, please

Howard	Charleston	SC	<p>TRUE STORY: ===== For months I was receiving unknown calls, day-in & day-out, several times a day and from the same calling party. (E) Must announce to the called party their rights which includes their rights on how to stop receiving calls. [4] It should be against the law for a RoboCall or any form of Debt Collection call to disconnect the call once it is</p>
Charles	Guilford	CT	<p>Enough is enough. I can't believe that you will stand by and let millions of tax paying Americans be harassed by these intruders. I have already removed one land line from my house that was a magnet for these intruders and I am strongly considering removing my last land line. You are paid by tax payers to do something. Do Something!</p>
Paul	Flat Rock	MI	<p>I pay each minute on my cell phone plan. Robocalls cost me money. They waste both my time and my money. Take the provision to allow Robocalls out; student loans from family members isn't my issue. Call them directly.</p>
Sheila	Knoxville	TN	<p>Robot calls from my area code are often mistaken for doctors' offices or other important numbers - frustrating! I have to pay for these unwanted calls-expensive! Why should we be forced to receive unwanted calls?</p>

Deborah	London	AR	I GET SO DISGUSTED AT GOING TO THE PHONE ONLY TO HEAR BEEP, BEEP, BEEP. YOU KNOW IT IS A ROBOCALL. WHEN I RETURN THE CALLS, ALL I GET IS A BUSY SIGNAL OR A FAX MACHINE. IF I DO GET THROUGH TO THEIR MACHINE, PLEASE PUSH THIS NUMBER IF AND THEN AT THE END IF YOU WISH TO BE REMOVED FROM OUR LIST, PRESS #. THIS IS REALLY GETTING VERY IRRITATING TO SAY THE LEAST. OUTLAW ALL ROBOCALLS AND MAKE THEM PAY PEOPLE TO DO THE CALLING. OR BETTER YET, AREN'T THEY SUPPOSE TO CHECK THE DO NOT CALL LIST BEFORE CALLING? I AM SO TIRED OF THIS.
Sal	San Antonio	TX	Are there any of you fat cats in DC who might condescend to aiding the public who voted you in to your A-1 medical plan & automatic big bucks retirement? All we ask is for you to stop taking the big (and little) business hand-outs long enough to win one for the common public by giving us some peace. You are afraid to make the so-called "do-not-call list" work, you are afraid of business, you are afraid of losing your pensions & medical insurance...and the average American is backing Trump because he is nothing like you. He may not be "the" guy, but at least he has some (as we say in Texas) cojones...and we'd be pleased if you would grow a pair...even if you're a lady.
Terrance	Upland	CA	Please do whatever is necessary to stop these unwanted and very disruptive phone calls. It has gotten to a point of ridiculous! They are insidious as they are now using local numbers to trick you to answer. What more, most are just calling and capturing I go to sell on those that actually pick up. Stop this insanity!
Elizabeth	Syracuse	NY	We get robot all to lower our mortgage rate (we have no mortgage), give us a free cell phone if we qualify (we don't), and Rachel from card services wants to help us with non-existent credit card debt. I have hung up, pressed 3 to opt out, and pressed 1 and told telemarketers that we are on the do not call registry and to STOP CALLING. Nothing works. Sometimes we get 3-4 calls a day from the same people, different numbers each time.
David	Ocean Isle Beach	NC	Robo calls to my cellphone waste my time and money. Please put a stop to them.
Gordon	Woodbridge	CT	Having a child and a terminally ill mother, every time I get a call on my cell phone i expect the worst, stop what I am doing and answer it-no matter if I am on a ladder, have hands full, driving, etc. P-L-E-A-S-E help stop the Robocalls! I cant be alone in this request.

Sal	San Antonio	TX	Are there any of you fat cats in DC who might condescend to aiding the public who voted you in to your A-1 medical plan & automatic big bucks retirement? All we ask is for you to stop taking the big (and little) business hand-outs long enough to win one for the common public by giving us some peace. You are afraid to make the so-called "do-not-call list" work, you are afraid of business, you are afraid of losing your pensions & medical insurance...and the average American is backing Trump because he is nothing like you. He may not be "the" guy, but at least he has some (as we say in Texas) cojones...and we'd be pleased if you would grow a pair...even if you're a lady.
don	Frederick	MD	My wife and I are seniors who are also parents and grandparents. We love our families and cherish the technological devices that keep us both informed and united. The telephone is one such device. When the telephone rings, we jump to answer the call before the caller hangs up or the telephone switches over to voicemail. However, we cannot move with the same alacrity of our younger and healthier days. As a result, a variety of outcomes may result. The caller, thinking perhaps that we are not at home, hangs up and does not leave a message: either their call is urgent and they will try another way to contact us then or later, or they simply postpone the call and perhaps forget to call us back at all. For our part, to prevent the telephone switching over to voicemail, we rush to answer the call and physically injure ourselves by hitting some furniture or falling, and the damage is done, perhaps irreversibly. Missing urgent calls is one thing (our immediate response may be vital for another's welfare) but injury for ourselves is another (we could be permanently disabled or worse). ROBOCALLS CAN CAUSE SERIOUS INJURY TO SENIORS like ourselves; they are always non-essential, because if we need what they're selling we would already have reached out to them, and otherwise they are intrusively obnoxious.
Steven	Germantown	MD	Enough Robo calls. It's time to stop this unwanted intrusion. It is no longer FREE speech when I must pay for a call initiated by someone else!!! And it doesn't matter the Robo Calls are to my home landline or my mobile phones or to a VOIP line. No More Robo Calls! Thanks you
Victoria	Lincoln Park	MI	Robo Calls are aggravating and these calls cost money through the persons cell provider.
Margaret	Glen Mills	PA	This is to urge you to rule in favor of the following: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - Your guidelines should be clear and readily available I do not want to pay for calls that I do not want to receive!

Bob	Coppell	TX	There is no justification to expanding the role of robocalls! If businesses need to contact people they should not charge them (via cell phone tolls) to talk to a machine.
Carmen	Chandler	AZ	I do not like when I receive robocalls. I use a medical alert and when I get robo-calls until they hang up I cannot even use my phone. It doesn't matter what time of day or night I get calls (o.k. not so much late at night or in the very early hours of the morning. I pay for my phone and I believe I should not receive calls from a robot. I pay for a service for my benefit, not for the benefit of those whom I never wish to hear from. I want my dollar to work for me, not for them. I have kept a numerous amount of numbers that I don't want to hear from. Most of which is someone trying to scam me. It's past time for the FCC to make phone companies work for the people who are paying for their service. WE DON'T WANT ROBO-CALLS - WE DON'T NEED TO HEAR FROM SOMEONE THAT IS TRYING EITHER TO SCAM US OR GET MONEY FROM US - I AM PAYING FOR MY PHONE (and it's not a cell phone) AND I WANT THOSE THAT NEED TO CONTACT ME TO BE ABLE TO DO THAT WHENEVER THEY HAVE THE TIME. Help me get rid of the calls that are not necessary.
April	New Iberia	LA	My cell phone has limited minutes and overage charges for going over my limit and I'm sick of getting automated robocalls especially when they're looking for someone else or trying to sell something! Many times I tell them I don't know who they're calling for and to put me on their do not call list and they hang up only to call the next day! Robocallers should have to notify us and give us the option to stop receiving calls! The number of allowed calls and texts should be limited to only a couple a month and only to those who directly hold a debt, not friends or relatives! Strict, concise, clear guidelines should be put in place for them and they should be heftily fined for violating the guidelines!

J	Tomball	TX	Federal Communication commission, Commissioners, I respectfully request you take action at once to prohibit and block RoBo Calls, A MANs home is His Castle and His phone is a gate way to it, weather it is His home phone or a extension of it such as a cell or I-phone, RoBo callers have no RESPECT for the publics Privacy , they invade My Home / Castle Daily with their fraud and deception several times a day, most do not have a opt out provision and those that do, keep calling any way after you opt out, and NOW they are starting to use a trick that is or should be Illegal, they are transmitting the phone number of the person receiving the call in place of their phone number in CALLER ID display, which causes a person to let their guard down and answer just to see who is calling with their exact area code and phone number, Rather than opt out require all commercial callers to have written permission before they are allowed to make any calls unless you have done business with then in the last six months, and prohibit them from sharing this information for a FEE.
Pam	Springfield	MA	Unexpected, unwanted, frequently not pertinent to me, unwelcome, time consuming, irritating, etc. PLEASE STOP!!
Dennis	Whitmore Lake	MI	Stop robot call's.
Myra j	Tucson	AZ	I get several robot calls daily regarding my student loans. I am 77 years old and have not had student loans for 50+ years. These calls come in a group of 3 calls 5-10 mons apart.
Virginia	Minneapolis	MN	The public deserves protection from being scammed on a regular basis by the unscrupulous. Robo calls are a work-around the Do Not Call list. Please stop this contant interruption and dangerous practice.
Judy	Perris	CA	Please make the calls stop
Ruth	Arlington	MA	Every call to a cell phone costs the recipient money - or minutes - not to mention aggravation. My son started getting robocalls and debt collection calls when he got his first cell phone at the age of 11. He cannot stop them, even though they are probably aimed at the person who had the phone number before him. This is a violation, and must be stopped.
Fred	Sterling Heights	MI	Do what it takes to stop these pestering type calls that are flooded on the public.
KENNETH	ELGIN	SC	I'm a senior citizen living on limiyed income. I have NO credit card debt, despite this get incessant robo-calls wanting to lower my interest rate or other calls wanting dpnayions for causes that I do no support.
Bryson	Lutherville	MD	I have repeatedly told these people to stop calling me but they persist.I understand it is a scam of some sort.

Robert	Raleigh	NC	Not only are Robo calls irritating but also Robo messaging. When you ask the intruder to stop they simply change the source of the message and send more. If you happen to have a number that someone has maliciously or accidentally given out your contact information it is all but impossible to stop the calls or messaging. Please consider outlawing this procedure to prevent constant harassment and abuse.
Francisco	Cypress	TX	Numerous calls from 602-888-7295. Regularly get these with a male voice and never says the name of the company. No opportunity to opt out or stop this. Can't block the number on my land line. Lots of promises about getting rich.
Joyce	Universal City	TX	The calls from scammers pretending to be the IRS, the you have won a prize people, and hundreds of others that call and say nothing are a real nuisance for anyone that has any kind of phone. I don't give out my cell phone number because the robocalls would be more than I get. My landline gets the bulk of them.
Robert	Port Orchard	WA	Please, do not allow Robocalls to infect our Cell Phones! We pay for our cell phone time and need to be able to stop any Robocalls from forcing their way onto our phones.
Shirly	Castleford	ID	It is outrageous that a service we pay for (the use of OUR land lines) has been hi-jacked by invasive robocalls, just about the most useless business there is. I often get several a day! And now they want our cell phones too. That is so dangerous if one is in a vehicle, and another very irritating invasion of privacy. DON'T ALLOW IT! Please, Shirly Barron
Robert	Crozier	VA	As consumers and individuals, we have the right NOT to be solicited on our personal, private devices. It was bad enough when solicitors would personally call our homes and businesses to hawk their wares. It is now that much worse since we receive these calls at all hours from automated systems that re-dial as many as 30 times a month. The DNC list does not work, and the number to call and complain about these takes far too long to access. Our government should make it illegal, fine and restrictions law for offenders, and the telephone companies we pay for our service From should be required to block- not share- our information.
Karen	Gulfport	MS	This should be treated as a form of harassment & dealt with accordingly!
Ellen	Aurora	CO	ROBOCALLS to cell phones need to be stopped immediately. The owner of the cell phone has to pay for the cost of incoming calls, but many of us have a limit on the time which we are able to use our cell phones. It is not fair for those of us with limited incomes to have to pay for the cost of phone calls for which we have no interest.

Myra j	Tucson	AZ	I get several robot calls daily regarding my student loans. I am 77 years old and have not had student loans for 50+ years. These calls come in a group of 3 calls 5-10 mins apart.
John	royal	AR	no more robo call=not I do not call list
Barbara	Southfield	MI	Not only are these calls unwanted, unwelcome nuisance, they are costing me and other consumers valuable minutes on calling plans. I actually had to shut off one of my cell lines due to the costs I was incurring. Please act to stop this!
James	Bloomington	IN	I get an inordinate number of robocalls which are clearly scams. I can usually tell when the phone shows the incoming number is from out of state, especially from places I have no business or friends. Controlling these robocalls from my cellphones in my family would prevent possible successful scams and also reduce annoyances from these unwanted callers. Thanks.
Ronald	Tallahassee	FL	There is no reason why anyone should be robocalls if they don't owe money. I have no control over what my relatives do. Stop robocalls NOW!
Bryson	Lutherville	MD	I have repeatedly told these people to stop calling me but they persist. I understand it is a scam of some sort.
chris	new canaan	CT	Nothing is more sacred in our lives than freedom. My day is constantly robbed of the freedom when our phone rings 5-10 times a day by a Robocall. Shopping should be a personal choice. Robocalls rob us of our right to make our own choice as how we live our lives. Our freedom is under attack!
Marlene	Silver Spring	MD	I receive false claims of consolidating debt, paying off debt and false IRS scams. Why should I have to pay for these calls and/or texts on my cell phone? Robocalls will just increase this activity. Only true FEDERAL debt should be allowed and then on a VERY LIMITED basis. We should have the right to be told by the robocallers that we can OPT OUT of their calls and actually have it happen. My land line receives so many of these annoying calls and now cell phones are in the queue. STOP the madness.
Karen	Gulfport	MS	This should be treated as a form of harassment & dealt with accordingly!
Lonnie	Locust Grove	GA	Please stop the annoying Robocalls to cell phones. Thank you.
Steve	St. Paul	MN	Please, no more robocalls at all to cell phones.
David	Hummelstown	PA	My phone is to keep in touch with family and friends not to be bothered by others that do not have my consent to call me
James	Ann Arbor	MI	I believe that it is an unwanted invasion of my privacy to receive robocalls on my cell phone. With the ability to use the internet to search for products and services that I want or need, I do not need someone calling me on the off chance that I might be interested in what they have to offer.
Albert	Pacifica	CA	Let me eat my dinner in peace - and the rest of the day also.

Francisco	Cypress	TX	Numerous calls from 602-888-7295. Regularly get these with a male voice and never says the name of the company. No opportunity to opt out or stop this. Can't block the number on my land line. Lots of promises about getting rich.
David	New Canaan	CT	Sir/Madam, Robocall not only cost money when you receive them they make you hesitate to pick up your phone when I might indeed be a new business opportunity. It is abhorrent that you allow machines disrupt family/personal life and appalling that telephone companies do not use their technology to block them. DO WHAT IS RIGHT FOR THE AMERICAN PEOPLE.....NOT FOR CORPORATE AMERICA. IT IS TIME FOR ACTION.
Joe	Lapeer	MI	#NAME?
Walter	Rehoboth Beach	DE	As a cell phone owner and payer I am tired of receiving unwanted robocalls which cost me money. I want it to stop.
Gail	Commerce Twp.	MI	I have to pay for each minute of use on my cell phone, so why should I pay for unsolicited texts/calls. Not everyone can afford the luxury of Unlimited service. Debt collector robo-callers must notify us of our right to stop receiving calls. The guidelines should be clear and readily available. In your face contact is not professional.

Howard	Charleston	SC	<p>TRUE STORY: ===== For months I was receiving unknown calls, day-in & day-out, several times a day and from the same calling party. When my answering machine answered the call, no message was ever left on my machine. As a rule, I never answer unknown/unrecognized caller-ID calls. One day, out of curiosity, I decided to answer that persistent & unknown call. It was a collection agency looking for a John Howard. But because my first name was Howard, they decided to include my phone listing in their RoboCall collection efforts. Their computer did a match on anyone with the name Howard as part of their full name. That's how I became a victim. That's just one of my stories on why I am STRONGLY against any and all RoboCalls.</p> <p>Consequently: ===== ALL of these desired and proposed rules apply to both any RoboCall, any Debt Collection call or any Telemarketing call - whether to a land line phone, mobile/cellular phone or other voice communication device (e.g. Internet Phone). These calls are hereinafter referred to as RoboCalls: [1] The number of allowed RoboCalls or texts should be limited: (A) To no more than three per month, (B) To those who directly hold federal debt (C) And MUST exclude friends, family, neighbors or any other persons not directly responsible for the indebtedness. [2] The RoboCall restriction & guidelines should be clear and readily available. [3] For each call that is answered, whether answered directly by a person or an answering device, the caller: (A) Must announce the name of the person for whom they are calling, (B) Must announce the name of their company, (C) Must announce their company's address, (D) Must announce their company's return phone number, (D) Must announce how to remove the called phone number from the caller's "call list." (E) Must announce to the called party their rights which includes their rights on how to stop receiving calls. [4] It should be against the law for a RoboCall or any form of Debt Collection call to disconnect the call once it is</p>
Stephen	Kansas City	MO	<p>Please ban robo-calls. Here are some reasons: -Debt collection robocallers must notify us of our right to stop receiving calls -The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family -The guidelines should be clear and readily available</p>
Jim	Center Point	AL	<p>Robo calls interrupt my business on a regular basis. They are annoying and cost me time, which is money. Please provide a method to block robocalls.</p>
yitzak	nashville	TN	<p>Robo calls suck!</p>

David	Sunset	SC	Robocalls are intentional in nature. The phone numbers are gathered, profiled and sold often for profit. All businesses engaged in executing robocalls to any individual MUST HAVE that individuals expressed permission to do so. If the receiver does not desire the robocalls, then such calls will be not only intentional in their delivery, but they are also sent with malicious intent. This is MALICIOUS INTERFERENCE. Furthermore, any robocalls received without such permission are costly to the receiver: 1. Cell phone fees 2. Time lost in fielding such calls 3. Stress to the individual receiving the unwanted robocalls that interferes with his ability to work, relax and peacefully pursue the rights and privileges granted to him or her. 4. Time lost answering such calls at work. 5. Loss of sales, production, work efficiency caused by such calls. 6. Danger to drivers who become irritated and distracted by such calls.
Nick	El Dorado	AR	I am opposed and annoyed by robocalls to my cell phone. When I get to speak to a person, and I mention that my cell phone is on the "Do Not Call" list the person just laughs.
Daniel	Wilkesboro	NC	Please, please, please end robocalls to cell phones!
David	Arlington	VA	Its disturbing and annoying to receive robocalls to my cellphone and interrupts business. Please ensue that: 1. Debt collection robocallers must notify us of our right to stop receiving calls; 2, The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family; and, 3. The guidelines should be clear and readily available
Peter	Akron	OH	My mobile phone is a private contact for my family, friends and emergencies. It is not published in a phone book or public listing....it is meant to be private. These Robo Calls are not only annoying throughout my day, but take up my time, and many times don't even answer when you say 'hello' !!! I even have voice mail messages left on my mobile during the late evening or early morning. They need to be stopped Rude, Rude, Rude...and invasive.
Raymond	Ft Bragg	CA	Unwanted robo Calls are done at the expense of the receiver who pays for the time the robo calls consume. This is an unfair pressure tactic that says "You will pay one way or another."
Paul	Baldwin	MD	Unsolicited calls from a high speed computer on both my landline and cell phone are annoying. I have resorted to not answering calls unless I recognize the caller ID, but the sheer volume of calls is a problem. I have registered both my landline and cell phone on the "do not call registry" but this has absolutely no effect on the increasing volume of robocalls and my complaints are ignored. I pay for my phone service and should not be required to receive unwanted calls with no ability to stop them.

Frank	Anaconda	MT	I have been getting the same calls from debt collectors & credit card sellers for years now & damn tired of it My only defense was to get a phone that gives me the # & ID's the MFN caller! I signed on to this program at the FCC 10 years ago & it still persists to this fucking day!! Already this AM I have recd 3calls!
Raymond	Needham	MA	We get robocalls everyday (sometimes more than once a day) from "credit card services". They do not stop when requested, and are rude when we tell them we are on the do not call list. It has now become so pervasive that I rarely answer my landline anymore; I just let it go to the answering machine instead. This makes it difficult for people who legitimately need to reach me. Please make these harassing robocalls stop!
Paul	Belmont	MA	Please enforce the do not call directory- for landlines and cell phones. The utilities can do this with the right incentives- mostly sticks, a few carrots.
William	Chicago	IL	Please prevent robocalls to be made by anyone to my cell phone. It is an invasion of my privacy and wastes my time and money. In addition: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Tony	Brookline	MA	Please stop this abusive harassment of robocalling. Every year we register with the "do not call list" it does nothing! Where and when does somebody with half a brain protect the consumer and stop this BS.....you must include the other political, solar panel, vacation scams, loans, credit cards etc, robocallers. When are you going to do your job and protect the consumers rights from being harassed?
alan	Austin	TX	robocalls should be outlawed
James	Bloomington	IN	I get an inordinate number of robocalls which are clearly scams. I can usually tell when the phone shows the incoming number is from out of state, especially from places I have no business or friends. Controlling these robocalls from my cellphones in my family would prevent possible successful scams and also reduce annoyances from these unwanted callers. Thanks.
Barbara	Loganville	GA	I am receiving robo calls and unsolicited calls from companies trying to sell me everything under the sun. It is very annoying and we need it stopped.
Robert	Ocala	FL	Three calls per month to only the person involved would be a reasonable outcome.
Uriel	Cambridge	MA	Robocalls interfere with my day and are very annoying. Further, I have to pay for them - which is very unfair.
Willie	Pensacola	FL	I'm receiving four to five calls every day. Stop this from happening.
Helen	muskegon	MI	There must be strict controls over these bill collectors that bully and threaten.

Michael	Palm Springs	CA	I receive up to 12 of these a day on my home phone ... I definitely do not want them on my cellphone. Robocalls on the cellphone will cause enormous disruption to peoples' daily lives.
Elizabeth	Yonkers	NY	I receive a limited amount of calling minutes on my cell phone plan and I do not want to these used up by solicitation calls. Frankly, I do not want to be contacted with robocalls, period.
James	Bloomington	IN	I get an inordinate number of robocalls which are clearly scams. I can usually tell when the phone shows the incoming number is from out of state, especially from places I have no business or friends. Controlling these robocalls from my cellphones in my family would prevent possible successful scams and also reduce annoyances from these unwanted callers. Thanks.
Jeffrey	Westfield	MA	Please help.
Madelein	Westfield	NJ	They are a waste of time and money (with limited minutes/data plans).
Norman	Rockville	MD	Robocalls are a reflection of the decline in civility in our society that should not be tolerated. Stop it !
John	Sarasota	FL	This is an opportunity for the FCC to demonstrate that it works for the ordinary people, not the political money brokers. Please put a stop to these abusive practices once and for all! The greedy have been preying on the people long enough. And while you're at it, reign in the high-speed internet access monopoly that continues to gouge the people by grossly overcharging us for access to an essential service while being allowed to operate with no meaningful competition.
Steve	Woodstock	IL	No Robocalls to Cell Phones and any communication media!
Mike	Las Vegas	NV	This is such a huge invasion of my privacy. I share my cell number with a small group of people.
Larry	Sebastopol	CA	Please, please, please stop the robocalls. How much time do we collectively waste answering calls from robots or even more annoying a call that doesn't even answer when you do.
john	clarksville	NY	stop the robo calls
dorothy	rogers	AR	I am sick to death getting all those calls, I average about 4 per day. I have blocked their number, but the change it. It goes on and on. Please stop them. I am on the do not call list, but that is a laugh.
Ronald	Columbus	OH	I am already sick to death of telemarketers flouting the Federal Do Not Call Registry with Robocalls to my landline that require one to listen to a whole sales pitch before being given the opportunity to be removed from their list. If I simply do not answer, they keep calling incessantly. This is a huge invasion of privacy and would be even worse if they begin harassing people on cell phones. Enough is enough!
Lawrence	Middleburg	FL	These robo calls kind of make you think of turning your phone off permanently.

Elliott	Palm Springs	CA	I am sick and tired of getting these calls, especially on my cell phone. I travel frequently around the world and am sick and tired of getting these BS calls at 2, 3 or 4 in the morning because these idiots have no idea where I am. Please pass rules and regulations prohibiting them from continuing and imposing VERY hefty fines for violations of the rules. Thank you
Dorothy	Marshfield	ME	When I started receiving robo calls on my cell phone I got a bit angry. More than a bit, as probably everyone does. How do 'they' expect to get satisfaction from angry people?
Joanne	Needham	MA	Since I began using a cell phone as my primary means of business and personal communication several years ago, I have noticed an increasing volume of robo calls. This necessitates my placing the number on a block list, which I always do, despite the inconvenience. The calls still keep coming, often the same robo caller from a different number, which then has to be blocked, etc. This is invasive with respect to privacy since I only provide my cell number to those whom I want to call me. There is no public directory of cell numbers that I am aware of, and I have certainly never subscribed to one. It is also disruptive as these calls can come when I am in the middle of an important conversation.
Maria	Floral Park	NY	Please stop the robo calls to cell phones.
olle	Clemson	SC	Important to implement stronger rules and follow up procedures
Lin	Seattle	WA	I am a remote worker and work from home. I have a number of conference calls during the day and my home phone rings at least 5 to 6 times daily. When I have the time and can look - all the calls are robocalls and no message is every left. This is totally disruptive. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available And there must be strong enforcement. I am on the do not call list and a few times I have answered and told them to take me off of the list and they are still calling. Make the do not call list work - these calls need to stop. And I should not be getting this calls on my cell phones or on my work cell phone and I do.
saul	north garden	VA	We also need Freedom of Privacy...
Carol	Charlotte	NC	Robocalls and other unwanted calls have become such a nuisance and even a safety hazard that many seniors of my acquaintance no longer answer their landline phones when they ring but wait for a call back message. They only answer their cell phones because those calls are usually from someone they know. Please don't open cell phones to these nuisance calls!

Pablo	key biscayne	FL	Do not allow the debt collection industry to interfere (with their input) into what is a common sense issue. NOBODY should be calling us on our cel phones (or to any number for that matter,) with our express consent. -Debt collection robocallers must notify us of our right to stop receiving calls -The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family -The guidelines should be clear and readily available Thank you.
John	Auburn	NY	As of right now, the DO NOT CALL has no bite to it. I seem to be getting more calls than ever before.
Ronald	Columbus	OH	I am already sick to death of telemarketers flouting the Federal Do Not Call Registry with Robocalls to my landline that require one to listen to a whole sales pitch before being given the opportunity to be removed from their list. If I simply do not answer, they keep calling incessantly. This is a huge invasion of privacy and would be even worse if they begin harassing people on cell phones. Enough is enough!
Marlene	Silver Spring	MD	I receive false claims of consolidating debt, paying off debt and false IRS scams. Why should I have to pay for these calls and/or texts on my cell phone? Robocalls will just increase this activity. Only true FEDERAL debt should be allowed and then on a VERY LIMITED bases. We should have the right to be told by the robocallers that we can OPT OUT of their calls and actually have it happen. My land line receives so many of these annoying calls and now cell phones are in the que. STOP the madness.
Al	Richmond Hill	NY	Please stop this nightmare. I am being called three to four times a day from the same person trying to sell me something and no matter how many time I tell them to stop calling hi doesn't care. I discontented the land line since my family was calling me on mobile and only spam was calling me on then land line and for a while it was peaceful now even if I block the number they simply spoof the number or move on to a new number.
Alice	Ithaca	NY	We have lots of family members of varying ages and stages so when the phone rings, we "drop everything" and check who is calling. Dropping everything means drying my hands while I am cleaning vegetables, dashing from the shower, getting up from my chair, coming in from outside. We probably get 5-6 calls a day and we are on the Do Not Call List!! Fortunately, we are not disabled. I can't imagine how difficult it would be to have to struggle to get up from a chair to check the phone nor how angry I might be if awakened during a much needed sleep. These calls interrupt our lives and are an outrageous intrusion of our privacy!
olle	Clemson	SC	Important to implement stronger rules and follow up procedures

Janet	Arden Hills	MN	No robocalls by debt collectors should be allowed to me to cell phones. Guidelines should be easy to understand and easily available and we should have to be notified by debt collectors of our right to stop the calls.
Anne	Pensacola	FL	I've had two messages left on my cell phone this week alone, in addition to many others in the past that were similar, telling me I should call them right back because the IRS is filing an action against me. I know these calls to be fraudulent but many other recipients may not.
Ronald	Hebron	IN	I have a Trac Fone and it costs me money when I get or send a call. These Robocalls will cost me money and I do not want them, regardless of who they are from.
Paul	Paige	TX	I'm so sick of getting spammed with calls, not to mention live operators who talk over you and ignore your request to stop. It's time to do something about it.
Suzanne	Savannah	GA	I am tired of receiving unwanted calls to my cell phone.. Please put an end to it!
Coleen	East Weymouth	MA	All robocalling should be illegal! Why should these autodialers who then get another caller on the line and then hang up on us be allowed to repeatedly disturb us and waste our time going to the phone saying "hello? hello?" only to hear a click? It's ridiculous. We're paying for phone service that is turning around and being used by others to annoy us, instead of BEING a service. If we have to respond to the phone and walk over to pick it up, they should be able to at least have a person on the other end. Ideally, though, nuisance calls (i.e., telemarketing) would actually end.
Ernest	Jacksonville	AL	I am so tired of calls from people that I don't know at all hours. it also upsets me that if I'm not at home they will not leave a message so I have an unknown number on my caller ID. I even have a message on my voicemail telling them to leave a message. They never do. They just keep calling. If I don't know you and you don't want to leave a message or have a proper caller ID. STOP CALLING!
Terri	Dexter	MO	STop all robocalls including to cell phones
Gerald	Traverse City	MI	Rob ovals are bothersome enough at home and we do not need to get them on our cell phones too.
Johan	Grand Terrace	CA	The FCC must act quickly to stop the growing number of unsolicited calls and text messages being sent to cell phones. Many individuals use their cell phones for employment and these calls are an interruption and must be stopped.
Bertino	Brooklyn	NY	Rob calls on my land line are already a pain; on my cell, they're a pain in the wallet too. If it isn't important enough for a live person to call, then it isn't important enough to be bothered with. STOP!

Ron	Winston Salem	NC	Robocalls are a constant irritation and aggravation to my family. In the past I have asked to be removed from their mailing lists only to be ignored. About 50% of the calls we received are robocalls and they are not wanted. This needs to be stopped. It is abusive.
Joel	Allons	TN	I have had my home and cell phones registered on the National No Call List since it was created. I still get robocalls both at home and especially on my cell. I get 3-5 daily and sometimes more. I, like a lot of other people, are getting really tired of it. I block each number, but they simply move on to the next. Please do something to end this practice. It would be highly appreciated.
Glen	Lacey	WA	I get robo phone calls nearly every day. Often I need to sleep during the day, and these calls wake me up. When I tell them to stop calling me -- or press the phonepad number to stop calls -- they keep calling me anyway. The same companies call over and over. The FCC is GROSSLY NEGLIGENT in FAILING to protect consumers from these abuses!!!!!!!!!!!!!!!!!!!!!! As a governmental agency, you are supposed to serve the public. Instead, you seem to have been CAPTURED AND CORRUPTED by sleazy businesses that don't give a damn about the public. TAKE BOLD ACTIONS NOW!!!!!!!!!!!!!!!!!!!!
Jeannette	Fleetwood	PA	I believe so-called "Robocalls" should be strictly reserved for emergency services and instructions from the government in the event invasion or attack within our borders by declared war or terrorist attack threats., IT MUST BE STRICTLY RESERVED for use ONLY BY THE FEDERAL GOVERNMENT to individual federal debtors, or emergency personnel instructions only.
Ronald	Hebron	IN	I have a Trac Fone and it costs me money when I get or send a call. These Robocalls will cost me money and I do not want them, regardless of who they are from.
Marlene	Silver Spring	MD	I receive false claims of consolidating debt, paying off debt and false IRS scams. Why should I have to pay for these calls and/or texts on my cell phone? Robocalls will just increase this activity. Only true FEDERAL debt should be allowed and then on a VERY LIMITED bases. We should have the right to be told by the robocallers that we can OPT OUT of their calls and actually have it happen. My land line receives so many of these annoying calls and now cell phones are in the que. STOP the madness.
Al	Richmond Hill	NY	Please stop this nightmare. I am being called three to four times a day from the same person trying to sell me something and no matter how many time I tell them to stop calling hi doesn't care. I discontented the land line since my family was calling me on mobile and only spam was calling me on then land line and for a while it was peaceful now even if I block the number they simply spoof the number or move on to a new number.

Coleen	East Weymouth	MA	All robocalling should be illegal! Why should these autodialers who then get another caller on the line and then hang up on us be allowed to repeatedly disturb us and waste our time going to the phone saying "hello? hello?" only to hear a click? It's ridiculous. We're paying for phone service that is turning around and being used by others to annoy us, instead of BEING a service. If we have to respond to the phone and walk over to pick it up, they should be able to at least have a person on the other end. Ideally, though, nuisance calls (i.e., telemarketing) would actually end.
Robert	Oak Park	CA	Cell phones have become a crucial part of business and personal life. However, they are heavily used in public places versus the privacy of one's home. ROBO sales/solicitation calls have no place in this environment. For the sake of not only cell phone owners but all of us around them, don't allow unwanted calls to clutter this environment. Most cell phone owners are not in a position to stop to consider and respond to marketing calls "on the fly" on the fly anyway. Marketing calls are a nuisance that can be avoided. PLEASE HELD US PROTECT THIS ENVIRONMENT.
Elaine	Agawam	MA	Robocalls are more than annoying. I am recovering from a fall with some serious injuries and have trouble sleeping. The robocalls in the morning frequently wake me up after I have just gotten to sleep. When my phone rings, I want the call to be from someone I wish to talk with, and ONLY someone that I wish to talk with. That is why I pay MY TELEPHONE BILL.
Geraldine	Mableton	GA	As someone who receives work-related calls on my cell phone from multiple cities across the country, it is very disruptive and irritating to constantly answer the phone only to be greeted by a recorded message telling me there is nothing wrong with my account. The recorded message goes on to offer some service I do not need or want. I am now hesitant to answer phone calls from unrecognized numbers and have missed out on job opportunities as a result. These call are unwelcome and have caused me to lose income.
Virginia	Danville	CA	The Robocals are constant early morning through late at night. I am often woken up. I have turned my phone off to avoid the endless barrage of aggravation and as a result miss important calls. It feels like someone constantly knocking on my door. The Rocalls leave message signals and I must take the added annoying step to check and clear messages. This is a definite violation of my privacy. Please stop it.
Ron	Chicago	IL	I abhor receiving robocalls promoting products or soliciting money in other ways. It is bad enough to receive these at home, but being interrupted while in meetings or in public for these is especially offensive. I would prefer that robocalls be prohibited altogether, or at least that individuals could effectively prohibit calls from being sent to them.

Robert	Osseo	WI	I have my number on the No Call List and I still get many calls that sound like they are generated by a computer. Please help to stop them!
Shawn	Andover	MA	Eliminate robo calls to cell phones. I am tired of the constant interruptions when I am trying to conduct my life and business!
Gretchen	Windsor Mill	MD	My cell phone is personal and as such, is considered off limits unless I share the number with you. Please do whatever is necessary to end these robocalls to my phone. I have an app on the phone that catches these calls most of the time, but sometimes they get through. I receive these calls at least 4 times weekly and they're extremely annoying. They are not bill collectors because I don't have overdue debt. Please, please do something! Obviously the Do Not Call List doesn't work.
Burton	Wallingford	CT	It is obnoxious and annoying receiving these calls from places all over the country where no one would ever have my phone number. I'm tired of strangers calling and mispronouncing my name!
Mark	Mukilteo	WA	Robocalls are a GREAT BOTHER!
Craig	Bryson City	NC	At this point, our landlines are for all intents and purposes COMPLETELY USELESS. We really only use them for outbound calls and keep it for emergencies, even though it's costing us \$75 a month to do so. This is because we receive an average 1-2 robocalls per hour starting at 8am and ending at 9pm, 7 days a week. So when the phone rings, if it's not a specialized ringtone that we've assigned to friends and family, we ignore the call. This has also made our voicemail unusable. It fills up daily with a half-dozen messages or more, and 98% of the time the message is from a robocall. Now, imagine - really imagine - and I really really mean this - seriously picture that same thing happening on CELL PHONES. Imagine that type of daily disruption OUTSIDE OF YOUR HOUSE. Imagine that happening to you and everyone around you outside in the real world. In movie theaters. In church. In school. At work. WHILE DRIVING. With one bad law, THAT COULD BE REALITY. Is that the type of world you want to live in? Of course it's not. As I hope I've made clear, this is not just some minor inconvenience or annoyance. Bringing this harassment public seriously affects an individuals quality of life. Allowing this to happen outside of the home will affect the quality of life of those around them. Happening in cars around the country will result in accidents and deaths and injuries from the additional and relentless distractions. Consider your own safety and quality of life and do the right thing: ban robocalls to cell phones outright, now and forever.
Johan	Grand Terrace	CA	The FCC must act quickly to stop the growing number of unsolicited calls and text messages being sent to cell phones. Many individuals use their cell phones for employment and these calls are an interruption and must be stopped.

Mike	Roanoke	VA	Keep trolling for commerce off of our communications systems!
Albert	Windcrest	TX	My phone rings with two or three unwanted calls a day. Some are robocalls from marketers. Some are scam calls. Any caller who can interrupt my personal day with non-essential calls should be subject to regulation, including debt collection calls. Debt collectors must be required to let consumers know that we have the right to stop receiving the calls. Calls to people who directly hold federal debt must be limited to those who hold the debt, not friends and family. Also, the guidelines should be readily available and clearly stated so that consumers can respond appropriately.
Tamm	Plentywood	MT	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
Melissa	Central Square	NY	STOP ROBO CALLS for ever!!! So annoying and unneeded!!
Evelyn	Troy	MI	For those of us who still have a land line in addition to a cell line, please stop robocalls of all kinds. I answer my land line sometimes two or three times a day from robo-callers (non-debt related). What I particularly hate is their offer for me to opt out of their solicitations, but when I press the correct number, I just get sent back into the loop. There's no way to stop this! Please, please no robocalls of debt/or non-debt to either land or cell lines. What a waste of time and money for everyone.
Gena	South Lyon	MI	My husband who is from New Zealand was completely mystified to find out that I cannot answer my own phone out of a fear of phone harassment by a variety of entities that have no sense of shame about making repeated unwanted harassing calls to a private cell phone. This is an unacceptable situation, and citizens should be protected from this unwanted harassment.
Ron	Covington	GA	It's ceaseless. Every day I receive at least one robocall, usually from someone called card services. It is very important that these people be stopped and, hopefully, prosecuted Just tell India to stop it or we will restrict the number of visas.
Robert	Osseo	WI	I have my number on the No Call List and I still get many calls that sound like they are generated by a computer. Please help to stop them!
NICK	ALVA	OK	These clowns have NO respect as to when they call, day, early, late noon, supper even before 7:00 in the morning!!!!!!!!!!!!!! DO YOU JOB..
Julie	Reno	NV	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available

Ken	Sedona	AZ	I get more Robocalls than real calls. I am fed up with them. Please adopt some strong rules that seriously curtail or eliminate robocalls!
Diane	Vernal	UT	Stop these calls, we have the right not to be harassed
James	Hoover	AL	You have the opportunity to provide a service to your real customers, the American people, by implementing strongest possible rules against robocalls to our cell phones. I disconnected my home telephone, not for poor service, but to get away from constant calls, especially at dinner time from idiots trying to sell me a credit card or various other items. I have virtually eliminated their intrusion into my daily life via e-mail, using spam filter. How about suggesting they use the USPS, which needs the infusion of postage costs? Privacy in the USA has become a precious thing that is disappearing by the day. Please do your job and don't make our lives worse.
Margaret	Drexel Hill	PA	I think robocalls should not be allowed at all. Sometimes I get several a day to my cell phone (which I never answer and whose perpetrators rarely leave a message). I check the numbers online and can usually see it is a scam of some kind. My private phone number gets them and my listed one gets tons. They are a pain in the neck and I think the people who use them should be jailed. I am an "older person," but pretty savvy. Many of my age are not and they are prey to these calls.
paul	winchester	MA	Robo Calls are invasive. There is no reason to allow these unscrupulous businesses to invade our space that we pay for. We and YOU have better things to do with our time. This should include solicitations for political purposes too. Use the US mail. They need the revenue.
preston	birmingham	AL	I have to pay a premium price for something that I need to use for work. These people feel free to bombard my phone with robocalls. This is not only an invasion of my privacy but also interferes with the reason that I ma paying do much for the phone. Why do they have the right to do this?
Graham	Houston	TX	Please take action to protect the public from the organized harassment being perpetrated through the use of intrusive robocalls. These calls are engineered as a nuisance, to forward what are often nefarious agendas, and are an invasion of privacy with safety ramifications from unwanted distractions. Sincerely
Kimberly	Cedar Rapids	IA	My plan charges me for calls- every time they text or call. I have to pay for it. I've asked them to stop, but they don't
Marjorie	Greenport	NY	I vehemently oppose any robocalls to my cell phone without my permission. But if Debt collection robocallers are permitted to call people who have federal debt, they should notify me of my right to stop receiving calls and the number of allowed calls or texts should be limited to no more than three per month. Calls should be limited to those who directly hold federal debt - not friends and family.

David	Herndon	VA	Give us a way to stop all robocalls: if there's no one person on the line making the call from one number, it doesn't go through and is reported. No politics, no collections, no sales. Phone companies can and should detect a robocall as well as sources of such calls, even (especially) if from overseas and take action . Otherwise, I'll wish I could send a bomb through the line to the bastards making these calls!
Gary	Alameda	CA	It is bad enough to get these calls endlessly at home, but to have the same problem with cell phones would be unbearable. Please do not allow.
Pamela	Lakewood	CO	Do not allow automated solicitations and debt collectors to access and use mobile phones numbers!
Robert	Palmetto	FL	I keep getting robocalls telling me my business has qualified for a business loan. I get more than six a week. I am 66 years old, and retired. I have no business. These calls come to my cellphone and count towards my minutes used. Not fair, at all.
allison	freeland	MD	PLEASE HELP STOP ROBOCALLS.....IT IS A TERRIBLE INCONVENIENCE ON OUR FAMILY. AND NOW THEY ARE HARRASSING US!!
Diane	Winters	CA	Robotic telephone calls are a terrible invasion of privacy and a theft of personal time and energy. They disturb and degrade our home life and precious family time. Please adopt the most stringent possible regulations to stop this abusive practice!
Eric	New York	NY	Stop those intrusive and often expensive robocalls.
Robert	Tempe	AZ	Please do everything in you power to stop the annoying Robocalls. It's my phone, I pay the bill - I don't want Robocalls. You work for the PEOPLE not industry lobbying groups! Please act like it a bock the intrusion into our lives.
Eleanor	Henderson	NV	We have had enough with the robocalls to our land lines. Seems impossible to stop them and we certainly do not want them eating up our time on our cell phones. Please take into consideration that I get robo calls on debts that are not mine on my land line. Please do not allow these on our cell phones as well. I have called and called to the agency who is handling the debt on this person they are calling about but they seem to be powerless to stop them. This person gave our land line as her phone and we have spent years trying to stop these calls.
Phillip	Little Rock	AR	I have had the same cell phone number for over 15 years, with the same carrier. For every legitimate call I receive, I receive 3 to 4 spam calls, most of which are robocalls. I try blocking those numbers, but they still keep getting thru. They are also using spoofed caller id numbers. I had a robocall from a number that belongs to a friend of mine. The technology is there, but I don't see anyone trying to stop this illegal activity. My cell phone number has been on the do not call list since it started, but it appears the spammers actually use that list to make their calls. I am tired of it and want something done about it.

Fred	Santa Cruz	CA	Please stop robo calls to cell phones. A true invasion of privacy !!
Tamm	Plentywood	MT	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
Cyndy	Fort Wayne	IN	Please take into consideration the senior citizens who are becoming a larger group and as they age are often confused by the "robo call professionals" and unwittingly fall prey to purchases and even phishing scams. For the rest of us we are simply able to disconnect but as I learned from my parents friends and now our own friends, the majority of these calls are of no value to the citizens that the FCC works so hard to protect. Thank you.
Tom	Rome	GA	Why should I have to pay for, with my time and Money, someone to advertise to me?
David	Ogden	UT	Robocalls are wrong for so many reasons. If you have a phone with limited minutes, why should robocalls be allowed to use them? Even if you have unlimited minutes, I am paying for my cell phone and the time for calls and this doesn't entitle companies or debt collectors to use my phone to contact me. My phone was purchased for my use. Robocalls are also an intrusion on my privacy and in the world in which we live, it is sad to see our privacy open to these kinds of invasions.
preston	birmingham	AL	I have to pay a premium price for something that I need to use for work. These people feel free to bombard my phone with robocalls. This is not only an invasion of my privacy but also interferes with the reason that I am paying so much for the phone. Why do they have the right to do this?
Robert	Palmetto	FL	I keep getting robocalls telling me my business has qualified for a business loan. I get more than six a week. I am 66 years old, and retired. I have no business. These calls come to my cellphone and count towards my minutes used. Not fair, at all.
Christine	Newtown Sq	PA	I have a family member in the hospital. Since the hospital uses multiple numbers to contact me, I always answer. 90% of the time it's a robo call. This is very disruptive. Plus, who knows if I've added myself to some sort of call list since I answered.
Martin	West Boylston	MA	I have an Android phone in which telephone calls can't be blocked so robocalls are an especial nuisance.
Jan	Elsah	IL	Robocalls on my cell phone are the worst! I now have a call-blocker app, for which I'm thankful. But why is this necessary? It should be illegal for these calls to be made in the first place!!!!

Karen	New York	NY	In addition to the constant robocalls I get about credit cards I have also started to get fraud robocalls about owing the IRS money. When you don't answer or try to get them to remove you from the list they simply call you using a different number, so blocking the phone number does not work. In the case of the IRS call I knew it was a fraud call and called the number back to let the caller know as much. I was treated to a barrage of threatening, foul language and more robocalls. This practice should simply be illegal. It is designed to prey on people who don't know better and anyone should be allowed to "opt out" of a call list. These callers will NOT allow you to opt out and simply find a way around it. This harassment needs to stop!
Robert	Essexville	MI	Please put an end to robo calls they are a pain and waste valuable time and are annoying.
John	Mahopac	NY	Please ban all Robocallers. I receiving more then ten calls a day now. this is invasion of my private life. I now sometimes just shut my phones off for a little peace at night and then worry that I can't be reached in an emergency. No Charity, No Political, or sales.
Steve	orlando	FL	do not call list is a joke, I am on all of them and I still get tons of annoying calls! These parasites should be hung, drawn and quartered!
annette	new canaan	CT	Under no circumstances should I be solicited on my cell phone!
Robert	Cincinnati	OH	Robo Calls are nothing more than telephone harassment. Short and simple: unwanted calls by an anonymous person (business) at irregular times starting in the early morning and going into late night. As a consumer (victim) you have no form of reaction to get off the robo callers list, or lists shared by other robo caller telephone harassing companies. Having spent my career in law enforcement I know at a local level there are tools tools to find and arrest someone. With robo calls? Nope. You're out of luck. End the robo calls and protect consumers.
Rachel	Oakland	IL	No Robocalls to Cell Phones!
Ashoke	Orlando	FL	PLEASE stop all robocalls now.
Debra	Hollsopple	PA	Please stop the Robocalls to Cell Phones and home phones. Thank you.
John	Philadelphia	PA	Nothing is more annoying and dangerous. People receiving calls while driving, even though illegal is distracting
Jack	Bowling Green	KY	These really need to stop. The serve no good purpose and are nothing but annoying.
TJ	stow	OH	Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available Debt collection robocallers must notify us of our right to stop receiving calls

Bill	Eastchester	NY	My wife and I had to disconnect our landline phone more than ten years ago because 99% of the calls we received on it were robocalls. Now, we get these stupid calls on our cell phones at all times of the day or night. Thinking it must be something important, we interrupted other activities only to hear some ridiculous recorded advertisement. And, we have to pay for these outrageous disruptions! We should be allowed to indicate that we do not want to receive any calls from a computer - period. And, if we receive any, the caller should be sent to prison - period.
Michael	Naples	FL	My home and cell phones are for personal use, not for unknown and unwanted salespeople (or their robots) to call me. I pay for these lines. They are not part of some public service. Please create strong measures to prevent sales calls to my phones and to allow me to share in the monetary reward of strong penalties for violators. The calls not only waste my cell phone's minutes, but they disturb my working and family time.
ROBERT	LANGHORNE	PA	PLEASE STOP THOSE ANNOYING & COSTLY (I HAVE LIMITED MINUTES ON MY CELL PHONE PLAN) ROBO CALLS. THANK YOU.
William	Haddon Heights	NJ	Getting as many as 9 Robocalls/day is terribly annoying especially for someone who is at home most of the time. I can't tell if its one of my 4 grandchildren or 5 children is in trouble and desperately needs my help OR just some aggressive salesperson. I don't have ANY debt and definitely don't need to talk to any salespeople. PLEASE HELP US. Thank you.
John	Porter	TX	I constantly get calls on my cell phone from credit card companies purporting to be from one of my current credit card companies acting like they are going to tell me about a problem and then promptly switching to a pitch to offer their services to transfer balances. I can't make them stop calling even though I am on the no-call list. Please make these idiots quit calling me.

william	Austin	TX	Tell the FCC: No Robocalls to Cell Phones! Right now, the FCC is considering strict guidelines that would regulate how and when debt collectors are allowed to contact you on your cell phone. The debt collection industry is pressuring the FCC to back down, but they are required to review all public comments submitted through their website. We have a limited window to out-organize the robocallers. Send your comment to the FCC right now. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. We've included some bullet points for things you could tell the FCC, but it's important to give your thoughts in your own words. If you oppose robocalls to your cell phone without your permission, simply say why. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available (Note: The FCC's disclosure differs from our standard privacy statement. Comments filed with the FCC are a matter of public record and will be viewable online, including name and address, after being submitted to the docket.)
Mike	Roseville	CA	End robo calls - please. Harassment by any other name. It's a matter of privacy.
Karen	Windsor	VA	I continually get Robocalls throughout the day. I also get calls with no number except all zeros as well as blocked. Some are threatening and I know they are a scam but are upsetting nonetheless. Please find someway to stop this from happening. Their are so many elderly who are being hurt by these calls. Please do something to stop them and other intruding telephone calls.
Gary	Los Angeles	CA	I now receive more robocalls per day than legitimate calls and can't turn my phone off in case of family emergency calls. It's not right. Please help.
Donna	Harrisburg	PA	I use to slam the phone down, now I just tell them to take me off their calling list.
Heather	Greenwood	AR	These things are ringing in at very incorrect N eminent times. Please make them stop.
sheila	nyc	NY	please stop unsolicited robocalls to cell phones - they are invasive, intrusive, unwanted, cost me personal time and plan minutes
Gary	West Seneca	NY	They are not only annoying, they are also being used to run scams!
DARYL	Farmington Hills	MI	They call from 9 am to 9 pm daily, sometimes before 9 am and wake up my wife who is recovering from cancer, Stage 2, grade 3.

Richard	Southport	NC	Please do NOT allow robo calls to cell phones. Robo calls to our land line are BAD enough, but robo calls to our cell phone are NOT tolerable.
Elaine	Roanoke	VA	I have a pre-paid phone, so every call costs me - even stupid robo calls. Make them STOP! Thank-you.
Robert	Stafford	VA	Service providers have the technology to identify and eliminate unwanted robocalls. Please tell eliminate these vexing calls.
Marillyn	Bedford	NH	Please keep robocalls from infecting our cell phones. With minutes that we pay for, it is very upsetting constantly to receive unwanted commercial and political phone calls on our cell phones. There should be no more robocalls than one a week...and even that is too many. Thanks for your help with this.
Patricia	Mt. Kisco	NY	I am SICK OF THIS BLATANT INVASION OF PRIVACY AND WANT IT TO STOP!!! PLEASE DO YOUR JOB AND PROTECT US FROM THIS INSULT!!! THANK YOU....
Kathryn	Austin	TX	Stop this nuisance please.
Jeff	Visalia	CA	I get calls daily from telemarketers. I report them constantly and I am still getting them constantly. I tell them to stop calling and it doesn't do any good. These are not debt collectors, but just plain old telemarketers. I want this to stop now. These people are a constant thorn in my side! There is no reason to have telemarketers. We all have the Internet at our disposal now and can look up anything that we want whenever we want.....WE DONT NEED THEM CALLING US!!!
Benton	Milan	GA	An annoy interference that we should be protected from.
Clifford	Erie	CO	With so much crap on the phones, and seniors at hugh risks, give us the proper protection we deserve! The merchants are usually suspect and should have no right to disturb our schedules! Do your duty and stop these RoboCalls.
George	Randolph	NJ	I oppose all robo calls. 90% are hang ups.i don't even answer my regular phone any more, just listen to the answering machine hang ups at night. The unsolicited calls, are solar panel, auto warranty, some body else's debt collectors, (unknowns), lowering interest rate etc I also oppose them on cell phones
frank	canfield	OH	I am so sick of the constant harassment of these telemarketing firms. I thought that do not call list was supposed to end this crap. Looks like another useless goverment program run by useless goverment workers.
Roy	Houston	TX	Please don't allow anyone to harass me during my personal time. I deal with customers all day, and certainly don't want to deal with nuisance calls during my personal time. I can't afford to be harassed at work either. I don't owe money to anyone and certainly don't appreciate wrong number calls that are threatening or just annoying. Please let me relax in my own home and on my personal devices.

Francis	Gig Harbor	WA	Robocalling should not be allowed without the express permission of the person being called. I rarely, if ever, answer my cellphone if I don't recognize the number of the caller. Robocallers are trolling for victims. The FCC shouldn't be accomplices to these largely invasive and malicious robocallers.
Jim	Congers	NY	PLEASE PASS THE LEGISLATION TO STOP THE ROBOCALLS TO CELL PHONES. I use mine primarly for business and they are very disruptive and time wasting.
Jeff	Visalia	CA	I get calls daily from telemarketers. I report them constantly and I am still getting them constantly. I tell them to stop calling and it doesn't do any good. These are not debt collectors, but just plain old telemarketers. I want this to stop now. These people are a constant thorn in my side! There is no reason to have telemarketers. We all have the Internet at our disposal now and can look up anything that we want whenever we want.....WE DONT NEED THEM CALLING US!!!
Daniel	Newtonville	MA	Robocalls to cell phones should be illegal, period! Some of us pay for every call we receive.
Michael	Naples	FL	My home and cell phones are for personal use, not for unknown and unwanted salespeople (or their robots) to call me. I pay for these lines. They are not part of some public service. Please create strong measures to prevent sales calls to my phones and to allow me to share in the monetary reward of strong penalties for violators. The calls not only waste my cell phone's minutes, but they disturb my working and family time.
Simon	Albuquerque	NM	It's time to eliminate the digital pests Caleb Robocalls that feed of the uneducated and unaware. Stop them from wasting our time on this great earth.
Kevin	Alexandria	VA	FCC please stop any and all robocalls to cell phones. Cell phone use should be only by the direction of the phone owner who is responsible for the cost of the airtime on the phone. No debt collector or any other commercial caller should be allowed to call and should be strictly prohibited. Unless the phone owner explicitly gives them the privilege to call, they should be prohibited, and that permission by the owner should be revocable at anytime. Debt collectors can certainly use the USPS and certified mail to notify debtors. Harassing calls should not be allowed. This also applies to data communications including e-mail, text for which the phone owner must pay for usage as well.
Yolanda	Orlando	FL	So much of my time is spent answering Rob calls. More often than not, the calls are applicable to my household.

Debbie	Asheville	NC	Unlike landlines, many consumers have to purchase cell phone use by the minutes, including incoming calls. It is unfair to allow robocalls under any circumstances, but especially to force consumers with cell phones who must also pay for those calls. For legitimate calls, such as debt collection, there should be limits on how often they can call and forcing collectors not to call friends and family of those owing the debt. Please create clear guidelines for industry and individuals and require full disclosure. Also, please require an opt-in (for example when one applies for debt, they check a box that their cell phone number, if provided, can be used to attempt to collect that debt. All other robocalls should be illegal unless the individual clearly, and knowingly, opts in. Thank you.
Patricia	Oxford	PA	We are depending on the FCC to protect us from abusive debt collection robocalls to our cell phones. We need a way to opt out and be left alone at home, at work, while driving - anytime we need to be left alone. Robocallers should need clear, non-coerced permission to make any calls to cell phones.
Donn	Monument	CO	They call anytime of day, I need to be at work by 5:00 AM that requires me to be in bed by 8:00 PM. Sometimes I pickup the phone just to try to get them not to call and there is no one on the other end. Extremely FRUSTRATING.
Bill	Fort Wayne	IN	Receive Robocalls. A nuisance.
Pat	Powhatan	VA	Stop the calls...
Phillip	Little Rock	AR	I have had the same cell phone number for over 15 years, with the same carrier. For every legitimate call I receive, I receive 3 to 4 spam calls, most of which are robocalls. I try blocking those numbers, but they still keep getting thru. They are also using spoofed caller id numbers. I had a robocall from a number that belongs to a friend of mine. The technology is there, but I don't see anyone trying to stop this illegal activity. My cell phone number has been on the do not call list since it started, but it appears the spammers actually use that list to make their calls. I am tired of it and want something done about it.
Walter	St Petersburg	FL	Robocalls present a financial burden to many cell phone owners who have to pay for incoming calls. Many robocalls are directed to the wrong person or are unsolicited advertising or polling. I often receive as many as 100 such calls on my landline, even though I have registered for both the Federal and State No Calls lists.
John	Hoover	AL	We are sick and tired of of robo calls. the same calls day after day, multiple times a day. a real nuisance! Please, give us a means to stop these calls!!
Allan	Manassas	VA	I would add that provisions banning Robocalls should also cover landline calls (both wired and VOIP). The daily totals of these calls, invading our privacy is the sanctuary of our homes is outrageous!

Alan	Commack	NY	Please help us deal with the automated annoying calls.
Barbara	Rockport	TX	My business telephone is a cell phone. I am so tired and annoyed at getting many unsolicited calls a day from robocallers. They come from places all over the country and cannot be called back. I shouldn't have to put up with this and I would appreciate it if the FCC would place strict guidelines in place to restrict this random calling.
Margaret	Appleton	WI	Cell phones have so far been reasonably protected against various abuses by marketers, debt collectors and others. Some have to pay for every call they receive as well as make and robocalls could easily become a major financial burden in such a case. Some would be forced to give up cell phone service, likely the only telephone service they have. In this super-connected age, that could well make the difference between survival and destitution. No phone, no work. There are few enough protections for the poor, let's not add robocall harassment to the burdens they already carry.
Lew	Cambridge	OH	Please stop companies and individuals from making robo calls. They are frustrating and irritating. Not to mention that they burn valuable minutes for people with limited cell phone plans. They virtually steal money from people who are on limited or measured calling plans. Thank you.
Karen	Haslet	TX	Please do everything you can to stop robo callers!!!! It is so maddening to be interrupted, especially when no one is on the other end!
Rebecca	Reading	PA	I am FED UP with the perpetual, infuriating robocalls on my cell phone - which is registered, clearly to zero avail, on the Do Not Call list. These calls need to be shut down permanently - now! I must get 5-6 weekly. You need to protect consumers, not these reckless, irresponsible, invasive and disruptive corporations.
Richard	Saint Clair	MI	Please stop all robocalls to my cell phone and my landline. Robocalls are a nuisance and have no positive effect.
James	Moab	UT	These calls waste my time every day.
Karin	Miami	FL	It is out of control that calls come in at all times and disturb individuals. This needs to be taken seriously and stopped since the Do Not Call list seems pretty ineffective as I have not noted any slowing of the robot-calls or such, even with reporting and blocking. Thank you for positive action to end this abuse.
Richard	Duxbury	MA	I am so damn tired of answering my phone and hearing from "Rachel from credit card services"! It happens at least once a day, 7 days a week at all hours. More annoying is that I researched credit card services and it is a scam trying to trick you into giving out your credit card numbers.

Robert	Joplin	MO	Stop robocalls and also stop spoofing calls that our Missouri AG is unable to stop for us. They do a great job when calls can be identified. Have been responsible for well over \$100K in collections by MO AG reporting these calls. But spoofing calls are another matter. And most of these are robocalls as well. We pay for phone service, not for scams and advertisers.
Robert	Concord	CA	Please stop these calls
Melissa	Madison Twp	PA	Please! End the harassment of robocalls and predictive dialers. I'm tired of paying for telephone service (as well as Called ID service) to have the majority of our calls be dead silence or "Rachel from Cardholder Services"/Indian "need to get into my computer" type calls. I expect a live person ready to say hello when I pick up my phone.
Kirby	Somis	CA	Please stop all Robocalls.
Dennis	Harahan	LA	Please stop these unwanted calls. I cannot stand being disturbed by a call where I am unable to speak to a real human being in the United States.
Lisa	San Jose	CA	It can be dangerous to jump for a phone call and it is ridiculous to do it for no reason
Michael	Santa Cruz	CA	Please end these annoying robocalls!
Paula	Easton	PA	Sometimes I receive 3 calls a day not 3 a month! I've had it with these calls!
DL	Huntingdon	PA	Will you finally top this????
Marty	Austin	TX	It's bad enough that my landline constantly receives robocalls, so I need my cell phone to stay robocall and robotext free. But if they are allowed, there should be three or less that I get per month.
Robert	Middletown	CT	How is it possible that they can show a different number than the number they are calling from? I get phone calls that show my own number on the caller ID. I'm not calling myself. The phone rings between 6 and 8 times a day even though I'm on the do-not-call list. Most of the time it's just an automated message. This has to stop.
Jack	Queen Creek	AZ	Please put a stop to this aggravating invasion of privacy once and for all!!!!
Marianne	Rumford	RI	It is extremely frustrating when you get 10 or 12 of these calls a day, even when your phone number is on the DO NOT CALL LIST. Having quality time with my grandchildren is extremely important to me, however, I'm forever getting these call and have to answer, because I'm not sure it possible their parents may be calling. Help us please to stop such calls.
Beverly	San Francisco	CA	Hou dare you invade our Privacy.

Margaret	Shaker Heights	OH	As a cell phone user, I resent having to have my phone right invaded by the robocalls that come-either directly or into my voicemail. This is costly in terms of my bill as well as my time. I believe we should have the right to be on a "do not call" list just as land line users can. Although even that is not a perfect option, it far exceeds having no control at all short of hanging up and/or erasing the messages.
Beatrix	San Anselmo	CA	Robo calls add stress to our lives which is very unhealthy.
sup	Haverstraw	NY	Please prevent robo calls to cell phones!
James	Wilmette	IL	Cell robocalls have recently unmade my days. The worst offender is (212) 998-6883. Dozens of calls from this area code 212 number have arrived in the past weeks at all hours. I never pick up on these calls, just let them ring. I hope you'll let freedom ring in terms of silencing these telemarketers!
Kathy	Wilmington	DE	Robo calls are irritating at best and when it is debt collectors there need to be strict rules about when, how often and who can be called. The people receiving the calls need to be told about their right to stop receiving the calls.
Bonita	Monson	MA	Put citizens first, not corporations
B Wayne	Tampa	FL	Regardless of the cost involved, robocalls are nuisance calls and should not be allowed. I shouldn't have to ignore them or block them. I shouldn't have to delete messages left clogging my inbox so that I can get to real messages. These calls are pure harassment.
Sarah	Hoboken	NJ	This is a serious invasion of privacy. In addition, the calls are harassing and at all hours. We are genuinely concerned for our safety and privacy. Despite requesting to be removed from the call list EVERY TIME, they continue to call us. And from phone numbers that "look" legitimate. How do they do this? I'm very worried about my safety and that of my family. My husband uses his phone for work all the time and he cannot be dealing with these calls. Please make them stop. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
John	Southampton	PA	Block Robo calls
Edna	Saint Charles	MN	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Z. Michael	Louisville	KY	it is horrible to be awoken at night, repeatedly called while driving, only to deal with people or recordings calling you day in and day out. Please end this, stop all these calls

Gary	Snohomish	WA	The real question is, "Will you listen to the people?" The people hate robocalls. Please take the strongest measures possible to prevent them. Thank you.
james	gardnerville	NV	No Robocalls to Cell Phones
Mike	Fairway	KS	Please end ALL Robocalls
Charles	Loveland	CO	Would like to stop calls from the credit card security from all over the country. Have call the no call line repeatedly, but they continue from different locations.
Craig	Camarillo	CA	Please assist in the DO NOT CALL attempts. We get junk phone calls ALL DAY LONG and are so tired of it. Anything you can do to prevent or prosecute these people would be appreciated!
Seth	Somis	CA	Please put a tops to these robocalls. We did not ask for them and they do not have our permission to ring our phone.
Jill	Bokeelia	FL	It is constant - stop it! I am a care-taker and you wake my patient every darn time you ring us!
Charles	Gladewater	TX	Please do not allow intrusive Robocalls to cell phones.
John	North Little Rock	AR	There is no reason that robocalls should be legal. They are a nuisance . I don't think that charities and political organizations should use robocalls. Robocalls to cells phones are worse and should be forbidden
Sara	Yeadon	PA	I have been the subject of robocalls in spite of being on the no call list. Sometimes I have gotten 3 calls from the same number in one day. These are annoying and disturbing as they are for political groups and candidates that are not being voted on in my political area. Sometimes they are from people seeking my personal finance information. Please stop the robocalls!
Jill	Bokeelia	FL	It is constant - stop it! I am a care-taker and you wake my patient every darn time you ring us!
george	Miami	FL	It continues to be a horror! When you answer a call no ones there! only a harassing electronic sound. Robo calls detract from national productivity, violate human rights and FCC has to take charge. Pls do so.
Frank	San Marcos	TX	stop robo calls
Jill	Craig	CO	Robocalls are an invasion of my privacy. They skirt around the no call lists because there is no one to talk to and their phone number are hidden so that they cannot be reported nor blocked. I want them stopped!
Pam	Kountze	TX	Please put a stop to robocalls. I have a cell phone for personal use only, not for business. That is what I have a home phone for.
Roger	Solon	IA	My cell phone is hit with 20-30 robocalls per month. I block the phone number & it just calls from a different state & number. It's not debt collectors. I have no outstanding debts. It's most often Rachael from cardholder services saying "There's no problem with your current credit card, but...". There NEEDS to be a way to make this STOP!
Robert	Chippewa Falls	WI	Robo intrusion isn't what we are purchasing. Duh!
rj	gainesville	TX	NO ROBO CALLS TO CELL PHONES

Ronald	Portland	OR	My private personal cell phone number somehow got onto a robo caller list and I now receive multiple calls daily from area codes across the nation only to answer and find they are machines. Please bring an end to this invasion to my privacy and disruption to our economy every time a productive worker is disrupted.
Robert	Germantown	MD	Robo Calls are extremely intrusive and disrupting. If one has a legitimate debt, let the creditor collect it using all lawful means. Otherwise, leave people alone!
Marjorie	Rockaway	NJ	My cell phone does NOT have a publicly listed number and I do not give it out, yet telemarketers manage to find it anyway. I find these calls intrusive, annoying, and it costs me money each time I receive a call because of how calling plans are priced!
John	New York	NY	Robotic calls are a frequent nuisance. Everyone hates them. Please take the strongest possible measures to ban or limit such massive electronic pollution on our cell phones and landlines!
Susan	Charleston	SC	Every single day I receive several robo calls on my home phone. They are very disturbing and seem never to stop. Please do what you can to halt this menace. It really is an invasion of privacy.
Thomas	Phila.	PA	Everytime I use my cell phone it cost money. I don't need any robocalls on my cell phone. Please make it so it's illegal to have robocallers call my cell phone.
Kathleen	New Hyde Park	NY	I received a significant increase in robocalls for pharmacy, 'free' cruises and assorted other scams on my cell phone in the past 2 months. One even comes across as a 'friend' since he has called so often. Verizon does not participate in nomorobo.com. Why should citizens be subjected to this abuse. The phone is for OUR convenience. Since I started nomorobo on my landline I do not receive these calls any longer. There is a free solution and it should be available to us. Also, think of the senior citizens who have a cell phone with limited minutes being abused by these callers. There is a financial impact especially for cell phones in addition to the inconvenience.
Joel	Tyrone	PA	Robo-calls are at best a nuisance and at worst a violation of privacy! They need to be gotten rid of, if not MUCH more strongly and effectively regulated... NOW!!
Alexander	Lawrenceville	NJ	The tranquility of our household has been disrupted by all manner of identified, anonymous, and falsely identified robocalls. This must be stopped! It impairs the fundamental ability to reply to normal calls from friends and neighbors, and interferes with normal living. Please make your regulations as tight as possible so that companies are not able to sneak calls in under your radar. We rely on your good efforts to protect us.
Sandra	Cohoes	NY	No one should be allowed to do robocalls. They are especially unfair to consumers who have cell phones with limited minutes. They are an unjustified expense to limited income population. They are a supreme annoyance and need to be stopped!!!!

Stephen	Satellite Beach	FL	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Alfred	Biscayne Park	FL	I hate "robocalls." The instant I realize I've gotten one, I hang up. I don't want them on my mobile phone, and I don't want them on my landline. They are electronic junk mail, which I don't want in my mailbox or in my e-mail. If I want you, I'll find you. If you want to advertise yourself, find a way to do it that does not intrude upon me when I don't want to be intruded upon.
Merri	Lansdale	PA	I am a businessman and for thirty years I have never used automated systems to market. This practice is not only annoying but disruptive and an invasion of my private time. This must change and the carriers and the industry need to put a stop to it or consumers will boycott the industry. In addition their representatives in congress and senate may not re-elected.
Mark	Broken Arrow	OK	Please do something to stop the automated calls we get every day. I am tired of getting 5 to 6 calls per day of unwanted solicitations. There must be a way to stop them. Thank you for your help.
david	new york	NY	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Tim	Keeseville	NY	Just do your job. Stop the harassment!
Mary	Omaha	NE	I have limited minutes on my phone - anything over I need to pay extra. I don't need those minutes wasted by telemarketing calls!!! Unless you want to pay my cell phone bill, you need to stop this now! Thank you...
Ray	St Petersburg	FL	i am tired of getting unsolicited phone calls even though I am on the DoNotCall List.
Mike	Upland	CA	No more!
Gene	randolph	VT	The robocallers should have to pay 10 cents a minute or more, they are invading a person's privacy with this constant barrage
Dan	Rosharon	TX	We do not want to receive any robo calls to cell phones. Regardless of the reasons.
Mike	Upland	CA	No more!
Michael	Oak Park	IL	There is no reasonable justification for having to endure the baseless harassment of robocalls. Please end it.
erin	sherman oaks	CA	Enough with the robocalls.
Ashley	Tiburon	CA	Stop robo calls and all telemarketing calls! It is an intrusion on privacy.
Barbara	Staten Island	NY	Robocalls are annoying and irritating. AND we can do something about them! Make them unlawful both on cell phones and landlines.

Thomas	Eagle	ID	End Robocalls NOW! They are uninvited and intrusive and I do not want to receive them.
Katherine	Waitsfield	VT	We get endless calls from PortfolioReview -- for months now -- this has to STOP! They have no reason to call us, other than to harass us. Not to mention the other "Toll Free Call" numbers that are unidentified. Seriously, enough is enough!
ARTURO	doral	FL	The FCC is supposed to work for the people, please do your job and do something of value and regulate this disaster.
Scott	Albuquerque	NM	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Ora	newton	MA	please stop this damaging process
Rick	Havana	FL	I receive from zero to ten unsolicited, non-collection agency calls (I pay my bills) per day. The landline companies have been a dismal failure at preventing this disturbance of the peace inside my home. I have received a few unsolicited, non-collection agency calls (again...I pay my bills) to my cell phone. This crosses a line of decency which I expect my governmental agencies to handle. Let's defend the good people and filter the unwanted, ILLEGAL calls to the honest "Do Not Call" recipients of these obnoxious calls. Please act today to help us. Thanks. Rick Soskis, Havana FL
M	Lexington Park	MD	I oppose robocalls to cell phones without permission. I gave up my land line because the only calls I was receiving were political robocalls. They are intrusive and seemingly you can never get off these lists. Debt collection robocallers should be made to notify people of their right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Removing your number from robocalls should be made easy and should be final. You should not have to keep trying to remove yourself from these lists with no avail.
Kathy	Groton	CT	Between 2/19/16 and 5/19/16 I have received 15 spam calls on my cell phone. That's approx. a 3 month span. I check each one thru reverse phone lookup then put a block this caller on them. How are they getting my number? This is insane and then you have to listen to your land line do the same thing!!!! I have 20 pages worth of numbers I have blocked myself thru my phone, cable, internet company. This is ludicrous and so out of control it really isn't funny. We don't pick up the phone if we don't recognize the number and 9 out of 10 times it's a spammer. We've also had the same spammer keep calling from same number over and over until I block it. Please help!!! Something has to be done!!!!

Joan	Newton	NJ	We have received many unsolicited robocalls ; some of them were actually threatening calls telling us to call back or we would need an attorney. When we did call back they answered; we asked what it was in reference to and they just hung up. Yet the message told us it was urgent to call them back. These calls are very annoying . Also many calls offering lower rates on credit cards. We are on the do not call list; to no avail! Please do something about these calls as some of them are very disturbing. Thank you.
Thomas	Barto	PA	Now is the time for the FTC to put limitations on Robocalls. These calls are very intrusive and sometimes threatening to those who receive them. They can also be costly to those who receive them via cell or text.Plese work for the people and end them now
John	Athens	GA	Robo calls are a serious attack on the quality of all peoples lives. Further, they provide criminals a tool for attacking and ultimately ruining the lives of elderly and vulnerable Americans. It is time for the FCC to do their most important job; protecting the American citizen!
Richard	Savannah	GA	they cost and no one wants them. why would they be allowed?
joel	hallandale	FL	to our elective law makers please stop robocalls
Harmony	Helena	AR	I have better things to do than listen to robocall or to write to you telling you how much I am against these robocalls, but my boss wants me to write so here goes. First if you are on the DO NOT CALL LIST they should honor your wishes. Second if they don't honor your wishes they should have to show a real (not phony) number in your caller ID so you can report and block the calls. Third you should be able to return the call to ask for them to not call again so you can then report them and maybe the Attorney General (who I am sure has better things to do also) can waste his valuable resources and time taking care of these nuisance calls.
Kay	Billings	MT	My cell phone rings 3+ times a day (or night) with robo calls. They are made to look like calls from local areas or areas where I have family so that I will answer, but it's always the same recording. Sometimes when I listen to see if a live person will eventually come on the line, the call is ended and I will immediately receive the same call from a different "location". I'm too old to have to jump up in the middle of the night thinking it might be an emergency call from a family member!!!
Bob	Pensacola	FL	Please stop this nuisance.
Richard	Grants Pass	OR	Robo calls are an infringement of my privacy and should be stopped. I don't care to hear anything these calls have to offer.
Terry	Arlington	TX	I receive 5-8 robo calls DAILY (from Payday Loans whom I have NEVER called, used or inquired about). I've kept track for the last 8 months and I have three (3) lines notebook pages of their numbers of origination - THREE pages. Please stop this!!!!

Pam	Edmond	OK	Robo calls are an invasion! The FCC should take immediate steps to block them. Cells phones should be protected from all robo calls and the invasion of privacy.
Fred	Springville	NY	My cell phone and home phone are for me to use. They are NOT to bug me with junk that I do not need or want. So, stop these calls please. Thanks you.
Lucy	Portland	OR	Dear FCC champions, I am writing to you for aid in helping America craft and enforce strong sensible robocall laws and rules. Let's take this opportunity to keep strong arm debt collection agencies from hounding us on our cells. It is impossible to live without a cell. School children have them in their backpacks, moms and dads have them at all times to stay in touch with their families, and all of us depend on them for emergencies. Allowing robocalls on cells, and especially strong arm debt collectors is an intrusion we can't allow in our daily lives. There are plenty of ways to collect debts without harassing calls that affect us all. We are doing all we can to speak out about this. Thank you for your attention and action. Lucy Baker
Terry	Kalispell	MT	I win at least 2 or 3 free trips to the Bahama's every week. I am sick of this. Make them stop, this is an invaision of privacy. I am tired of yelling at my phone, when the FCC can do something about this.
Juliet	Columbus	OH	These calls amount to harassment and need to be stopped!
Gary	Sparta	NJ	I am at my whits end, getting daily unwanted calls which seem to originate from automated sources. We hurry to the phone, often disrupting our normal business, only to find an often lengthy delay before a solicitor begins to speak about an offer we did not request and have absolutely no interest in. We have come to learn to simply hang up during that dead time before a person begins to talk and you would think the computers would learn to give up but it just doesn't stop. I recently have found I cannot get three or four neighbors to answer phones over the course of four days of calling when trying to get their suggestions for a plumber, which I suspect is due to their frustration with answering these robo calls. I've even started to received these calls on my cell phone which would cost me actual money during a month when I exceed my allowance of minutes. This has risen beyond the level of nuisance to downright disruptive and invasive interference,amounting to a breaking and entering into our iives using the telephone system. I respectfully request that you consider sensible options for recipients like me to be able to opt out of these practices as well as a vehicle to trap offenders violating the rules for subsequent prosecution.

Connie	Hammond	LA	I have received several calls regarding student loans! I have never borrowed any money for college. Explain to me why I should have to listen to a call that concerns something I have never done and don't owe any money to. It seems to me a good way to scam money from unsuspecting cell phone owners!! Why do they call me and harass me? How did they get my private phone number
Don	North Kingstown	RI	When are you people going to do your job and END ROBOCALLS?
Ann	Colebrook	NH	I am already considering ending home telephone service due to the harassment of endless unwanted calls from supper to 9PM, and I have no dept to collect! I now let answering machine get all my calls. Please support cellphone users on preventing robocalls on our cells as this is additional unwanted harassment!
Mary	Montrose	CO	We get many calls on our land line phone and cell phone daily - if we don't recognize the number we just don't answer the phone. It's very aggravating hearing the phones ring, check out the calling number, before we answer the phone. We are in our late 70's, get few important calls but do need to check each time the phone rings. Now that election time is approaching once more, there will be even more calls coming in. Two & four years ago it was a constant stream of robo calls from every source you can think of, calls starting at 7am & ending at 10pm, one call came as late as 11pm! ENOUGH IS ENOUGH! We surely don't need to hear from collection agencies calling about the money owed to them by family & friends! This is an invasion of our privacy as well as well as the privacy of our family & friends. PUT A STOP TO THIS, NOW!!!
Gary F	Redwood City	CA	Harassment via cell phone cannot be allowed, because in order to provide the personal security and convenience that cell phones offer, a citizen cannot be inundated with computer generated calls from businesses that are soliciting purchases or are harassing the citizen. Excessive cell phone distraction causes automobile accidents and leads to degraded family life, neither of which helps the citizen to resolve financial problems.
Tina	Montgomery	TX	I don't answer my cell if I don't recognize the phone number due to Robocalls. This needs to end.
Peter	Columbia	MD	I think all Robo Calls, including to cell phones for any reason, should be completely outlawed.
Christine	Venice	FL	Please, please, please end the practice of robocallers to all phones including cellphones. It is very disturbing and disappointing that the FCC does not put an end to this problem. Please help us.
michael	ridgefield	CT	I oppose robocalls to cell phones for debt collection or in fact, for any reason. I oppose robocalls to land lines as well. Robocalls are an intusion to privacy and are disruptive enough to everyday life that they constitute harassment. End ALL robocalls.
Mark	Runnemede	NJ	It's about time these parasites were stopped.

diana	lewiston	NY	I do not have debt collectors calling but do have scammers and businesses trying to sell. It is bad enough I get about 5 -7 calls a day on land line, a daily nuisance and frustrating, cannot stop it.
Ron	Prospect	CT	My landline phone has been rendered all but useless by constant robo calls. The same situation is starting on my cell phone. In with both phones we are now fearful if we answer an unknown call, something bad will happen. What so we do if an actual medical or other emergency call comes in form an unknown number??? (note many of these medical calls are caller ID blocked) We have no way of knowing if the emergency or important call is genuine!!!!
Anne	Silver Spring	MD	Because of so many robocalls, I have had to monitor my calls instead of just answering the phone. Even though we are on the do not call list, they still come. Please do something to make them stop.
dick	merr	NH	stop this
Sheryl	Indian Trail	NC	I am disabled and it is effort consuming for me to answer the phone and at times dangerous. Pleases stop all robocalls and unsolicited calls.
Juliette	Fairfield	CT	There is no good, appropriate time to receive 3 or more unwanted soliciting calls on a daily basis. Please , put an end to this intrusive practice. Juliette & Gerard Coulombe
Rochelle	Indianapolis	IN	I shouldn't have to be pestered by unsolicited calls at all hours. Stop this invasion of my privacy.
Ed	Ballston Lake	NY	Please stop the intrusions that robocall makers are imposing on us! we are reluctant to answer our phone if we don't know the calling source and have missed some important phone calls as a result.
Fran	Naples	FL	Every single day my home phone receives numerous robocalls. If I answer, no one is there. If I don't answer, no message is left. One caller is 1-800-SERVICE, and there are many others from all over the United States. My cell phone also receives robocalls, though not as many. Still, certainly more than 3 a month. I have had debt collection calls where the caller had the wrong person (me) and I had to convince him I wasn't involved. He never said I had a right to stop receiving calls. Often the calls are in Spanish, and I don't understand a word. I am asking that you act against these callers. Life would be much less stressful! I would love to have phone calls from friends, family and businesses that I know instead of being badgered by strangers.
Margaret	HAMPTON Bays	NY	No Robo calls. I receive them while driving. It's a problem because I have a bed bound husband & concerned call maybe important. I'm constantly disturbed at home also. Who gives these predators the right to harass me on my phone? I'm a very senior citizen & want this stopped.
Barry	Berea	KY	Please put a end to robo calls make At&t install call Blocking Free of charge and reverse number calling

Jo Anne	Reno	NV	We should be able to opt out of these annoying calls.
Shelley	Carmel	NY	It is MY phone, it is MY money that pays for the phone!!! You are not allowed to spend my money for me. Your calls are annoying at best. I am 80 years old, I cannot put siding on my house, I do not own a house, I am not interested in upgrading anything. I do not have children under any age. Stop calling me. If I need you, I do know where and how to find you.
Donna	Seal beach	CA	No no no
David	Sudbury	MA	I pay a significant monthly fee for my cell phone in order to take advantage of its conveniences. Robocalls can now use my phone to impose upon me a significant inconvenience, disruptions, annoyances, and unwelcome invasions of my privacy. It is outrageous to permit any entity from auto-phoning me without my express permission. Please do not allow a handful of paid commercial lobbyists override my exclusive rights to control my own property, time and attention.
Amanda	Cudahy	WI	Our business receives 3-5+ robocalls daily, from automated messages, to persons who hang up immediately when asked not to call, to no one on the other line. This not only is extremely annoying, but also takes up time which could be used productively. PLEASE do something to change the rules!!!
Ed	Livonia	MI	In addition to robots, I am tired of unwanted calls from direct phone contact....
Melinda	CHARLOTTE	NC	I hate debt collectors (although I have never been the target, some of my family has). but these people are the scum of the earth and should have strict guidelines regarding their ability to call/text you continually. I pay for my minutes and if I had these people calling all the time, my cellphone might become unfeasible. Please implement the following rules: >Debt collection robocallers must notify us of our right to stop receiving calls > The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family >The guidelines should be clear and readily available
George	Maywood	NJ	I am fed up with the constant unsolicited, unauthorized calls that are made to my cell phones. They are not only annoying but they have a negative effect on my health. I sleep during the day and these calls interrupt my sleep.
yan	marlboro	NJ	Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available
Chad	Wrentham	MA	I am disgusted with the lack of action by the FCC on robo calls. Nothing new, Obama could care less about the American citizens.

John	Fort Wayne	IN	We receive several calls a day on our landline phone and I cannot deal with cell phone interruptions. Please prevent this
Paul	Shrub oak	NY	Stop allowing people access to my peace and quite.
Tom	Overlans park	KS	Stop the random and unwelcome intrusion of robocalls.
Larry	Union City	TN	I do not want any robocalls to my cell phone. It is an invasion of my privacy to allow such calls. My cell number is not listed in a public directory like a land line. Therefore it is not a public number. I have my cell number on the Do Not Call which has proven to be totally ineffective as I continue to get robocalls. I'm 66 years old and haven't been in college for a very long time but I'm continually harassed by robocalls offering to lower my student loan rate. That is only one of many robocalls. I get a lot of robocalls where there is no one there when I answer. I suspect they are just validating that my number is an active number and if I'm correct the FCC should not allow this for any reason. Please step up and protect our right to privacy by stopping robocalls to cell phones.
Patricia	Ocean View	DE	I have recently moved and am receiving constant robo calls from a debt collector - I owe nothing and believe it is associated with someone else and cannot get them to stop accept to no longer answer the phone. This has to stop.
Robyn	greenland	NH	Please stop this endless intrusion into my home and personal life. Those robocalls from politicians, timeshares, people peddling things that have no value to my life..... I have the right to peace and quiet..... I spend so much time deleting the messages they leave on my machine. People I WANT to hear from can't leave a message because the machine is full!!!!
Lisa	Elizabethtown	KY	Please enact strict, very strict guidelines for these calls. It is particularly annoying getting calls at work that are not for me! They have a wrong number and refuse to acknowledge they are wrong and continue calling, sometimes every day for weeks.
David	Kettle Falls	WA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Pamel	Ridgefield	CT	Though debt collectors are not a problem for me, robocalls claiming to that my cards have been compromised or offering better credit car rates, etc... are a daily nuisance. They use a variety of numbers, often ones similar to mine making you think it's a neighbor or friend. Guidelines must be in user friendly English and readily available. PLEASE, PLEASE, PLEASE get control of this madness. Tighten the rules and significantly increase the penalties. Thank you.

Stephen	Naples	FL	Please make the robot-call outfits stop disturbing the peace that I am entitled to in my own home. That's the only place these days that we can have any chance of having that necessary component to a healthy life.
Sharon	Canoga Park	CA	Thank you!
Susan	Nashville	TN	Your records are a matter of public record and viewed online, including my name and address; therefore, I would appreciate it if you put strict restrictions on organizations using my cell phone as a ROBO call receiver. Please consider: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Thank you for your assistance in protecting my privacy.
Larry	Somerville	AL	Please block all robocalls to my cell phone. They bother me.
Roseann	kentwood	MI	I am writing this for my husband. We get robo calls all the time and it is a health hazard to my husband and I. My husband has acute bronchitis, emphysema, diabetes and heart failure. I am also suffering from Arthritis, back pain, fibromyalgia. My husband is on oxygen also ventilator. He cant walk and I have to take care of him full time. Plus my 87 year old mother lives next door and is in bad condition and I cook her meals and take care of her. I have sleeping disorder and I am up half the night and half the time I just get to sleep and they call and wake my husband and I up then I cant get back to sleep and then Im real sick all day. These calls are so annoying. My mother also gets them all the time and she is very ill. Why cant someone stop these?
t	san diego	CA	please stop robocalls to my cell phone, i pay .10 cents a minute.
Edmund	Rancho Mirage	CA	It is illegal to harass a person with phone calls in California, so it should similarly be illegal to harass a persons's cell or home phone repeatedly with sales that they don't want.
Lucille	Yakima	WA	For twelve years, I have been fighting against ironically. I ask my phone company what I could do. They said for \$6 a month they could block them until I had 20 names on my list. Then, I would have to delete some of the names in order to block more calls. I finally gave up on that and just started hanging up the phone when I realized who they were. Then, I got a cell phone and the nightmare started all over again. One in particular has been annoying me for more than 9 years. The recording goes like this: Hi, this is Rachel from Card Services. We can lower your interest on your credit card... I' m 76 years old and that recorded call wakes me out of a much needed sleep continuously. When will it ever stop? I don't know, but I feel "Rachel" Will be with me until I die. I hope she doesn't know a phone number for Heaven!

Roslyn	Tustin	CA	Please stop this assault on my privacy. Robocalls are an invasion. In a shotgun manner, calls are made without any concern for the recipient. It does not matter whether or not I want the call, or even if it is of a matter that has no relation to any activity of mine. In my pursuit of happiness, as guaranteed by the constitution, I should be allowed privacy and be shielded from unwarranted and undesired interruptions by those who have no right to access my life.
Cynthia	San Jose	CA	Please! No more!
Walt	Three Springs	PA	Instead of opting out of the text messages, we should have the option to "OPT IN" to receive the text messages or calls, and at our discretion, set the number of texts and calls permitted by who we choose. In other words, We as the consumer need to have the right to manipulate the way we receive the texts and calls prior to the texts and calls! I do not appreciate receiving solicited texts and calls that I have to opt out from in order to stop receiving them. This costs me time, money, and aggravation! Additionally, if these solicitors insist on sending texts and calling our cell phones, then they should be willing to pay us for wasting our time and aggravating us! Filling in my name and address does not mean that I am willing to receive additional solicitation. I don't appreciate trying to research something like health care and having to fill in my contact information in order to proceed with researching only to be called or e-mailed 30 to 40 times through out the day by several different companies. It is ridiculous!!! Good Gawd, I just wanted to look to see what was available, and it is still not showing what I want to see!!! Instead I am patronized and harassed!!! The health care insurance is so out of wack, un-affordable, and full of predators, that it is unbelievable!!!
Correna	Vestal	NY	These calls are so obnoxious. With some phone plans, the person that is receiving the call is charged for each unwanted call. These calls are intrusive and a total waste of time as you try to work around these useless interruptions. Please put a stop the abuse and misuse of consumers cell phones.
Jonathan	Snellville	GA	Please stop robo calls to cell phones... It interrupts me during all that I do!!! Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Help us regain control!
Connie	Placerville	CA	Ninty percent of my landline calls are robo or some like call. Close to that number are on my cell phone. It has reached criminal proportions. Help!!!!!!!

Judith Marx	Los Altos	CA	I strongly request that robocalling be stopped to home phones and cell phones. As soon as I block one number a call comes in on another. I am in my mid 70s and not well and this is very annoying and disturbing. Have some compassion. I have never given my permission to have these calls go to any of my phones and wish them to be stopped immediately. Otherwise I may stop using my AT&T and Comcast landlines altogether. Thank you. Judith
Steve	Schaumburg	IL	I am absolutely FED UP with sales and fraud calls that waste my time and steal bandwidth from the wireless networks. Stop these people now. Stop them at their provider point.
Sarah	Felton	CA	First they bug you constantly, and when you keep telling the same thing - "I can't pay right now" - they sell it off to an agency which has no compunction about annoying you further. Harassment, plain & simple - hallowed be thy name.
Patrick	Lenoir City	TN	Please continue on your efforts to restrict the ability of companies and organizations who use a robocall system to access/use cell phones as means of marketing or contact. I strongly urge the FCC to resist the pressures and promises of those in the debt collection and other industries which seek to persuade the FCC to soften their regulatory efforts in regard to robocalls. Thanks.
Robert	Kansas City	KS	PLEASE PUT A STOP TO all ROBOCALLS FROM ANY SOURCE TO ANY PHONE, ANYWHERE I RECEIVE ROBOCALLS CONSTANTLY AND THEY INTERRUPT WHEN ONE IS BUSY
Gail	santa rosa	CA	I know there is a way to stop these endless robocalls and I ask that you put into place something that will end them asap. There is no reason why I should receive endless calls daily. Now I do not answer a call until I have identified who is calling. Thank you.
ALLAN	WOODLAND HILLS	CA	I have no debt, period. I'm a cash-only person now. Yet, I'm still getting robocalls to either pay off non-existent debt or face immediate imprisonment! So now what? Do I leave the country of my birth to get away from these financial thugs? Is this why I spent four years in the U.S. Marine Corps? To defend some slim-ball's right to harass me for no reason? The World Wonders...
Carol	Kansas City	KS	I am 58 years old I pay for my home phone and my cell phones I pay all the fees associated with I should have a say as too whether I want all of these stupid robo calls to my phones!!! If these people are not legit why are they getting away with calling people who abided by the rules and does nothing to deserve this crap
Arthur	Wellington	FL	No more robo calls

Elizabeth	St. Petersburg	FL	Allowing these business's to invade our Privacy is just another ploy for someone to make more money. It's a marketing maneuver that should be illegal. If only these robocalls would invade the members of Congress and Supreme Court and their families especially when they are trying to have dinner with their families. Medical institutions must abide by Privacy restrictions , but these **holes have free reign? We need a big change of lawmakers...impeach them all and start all over again and factor OUT the greed element. Maybe before an asteroid blows up the earth again, we'll get it right. There's always hope.
Hugh	Salt Lake City	UT	Please end robocalls to ALL PHONES, not just cell phones! If someone's time isn't worth making a call, the call recipient's time is worth no less! I can't keep track of all the times I have been pulled away from another phone call or from an important use of my time, just to be bothered by a robocall, often calls about a credit card emergency for a card I don't even carry, or about a problem with my Windows software, when I don't run Windows on any of my computers. Phishing criminals use robocalls to prey on the old or feeble minded, and others use it to drum up leads or sales. ALSO, get rid of the expiration of opting out of solicitation calls! Let those who use phone solicitations, rely on a less intrusive form of marketing. That goes for political and other "surveys." Please stop these intrusions into our lives on our private phones and on our business lines as well.
Jane	Vienna	IL	I appreciate that FCC wants to implement strict guidelines to regulate how and when debt collectors can contact folks on their cell phones. Please don't submit to the pressure being exerted by the debt collection industry to back down. My cell phone is a prepaid plan, and every time someone calls me, I pay for that. I assume lots of others have similar plans, especially those who borrow from predatory lenders. They shouldn't be permitted to call me more than 3 times per month, and they shouldn't be able to call friends and family, they should only be able to call those who directly hold debt. Also, guidelines need to be clear and readily available, and there needs to be convenient recourse for those who are called in violation of the rules.
Jan	Santa Cruz	CA	Bad enough that my landline is being used more by robo-callers than actual friends and acquaintances but now my cell phone, too?
Greg	Portland	OR	Robo calls are annoying, disruptive and an unacceptable invasion into American citizens personal space...their homes. Put an end end to this invasion of privacy. There is no inherent right to allow this nonsense!

Ramona	Sebastopol	CA	My private landline phone rings at least 10 times a day where the calls are intercepted by NOMOROBO. This, however, does not apply to my cell line. I consider robocalls on either OR even unsolicited text messages to be harassment I have not solicited these calls but the caller(s) seem to believe that they have the right to intrude into my home - albeit by phone and not physically. In addition, they are using my data allowance and they have no right to that - this is NOT freedom of speech. This is a violation of my privacy! WHY DO I HAVE TO PUT UP WITH THIS? Please take action to stop this abuse. Thank you.
Vernon	Sun City West	AZ	I'm retired and I don't like calls waking me in the morning. Retirement is for sleeping in. You'll find out some day. LOL
CLAUDIA	gold beach	OR	WHEN YOU CALL ME WITHOUT MY PERMISSION OR INVITATION, I FEEL THAT YOU HAVE INVADED MY PRIVACY. YOUR UNWANTED AND UNSOLICITED CALLS ARE INSULTING, AN INTRUSION AND A VIOLATION OF MY PERSONAL SPACE
Hassan	Montclair	CA	Let us live in peace, please.
Peggy	Phoenix	AZ	It's time to stop the harassment and annoyance of to ovals.
Robert	Hartland	WI	Robo calls are an invasion of privacy in our Home. We get robo calls thru-ooought the day every day. They should be outlawed. The phone companies won't stop them because they make money on these calls.
Michael	Great Falls	VA	
George	Phoenix	AZ	I demand my privacy.
Robin	North Richland H	TX	My cell phone is for emergency calls ONLY! Incoming and Outgoing. Robocalls to my cell phone = a very angry customer.
Mary	Sebastopol	CA	There must be a limit to Robocalls - i.e., no more than 3/month & only to the direct person who holds the debt; absolutely no family or friends! There must be clear & concise readily available guidelines.
THERESA	SUMMERFIELD	FL	NO ONE AND I MEAN " NO " ONE HAS A RIGHT IN THIS GREAT COUNTRY TO THINK THEY CAN " HARASS & BULLY " PEOPLE INTO DOING WHATEVER THEY WANT, BY SIMPLY " ROBO " CALLING THE HELL OUT OF THEM. THE LAST TIME I KNEW, WHEN, SOMEONE SAID " NO " THAT ' S ALL THERE WAS TOO IT. WE NEED TO START REMINDING OUR BIG COMPANY " BULLIES " OF JUST THAT VERY THING, CALLED " NO " !!!!...
John	Acworth	GA	We should not have to spend our time fielding calls from robots. Please let calling be restricted to human interaction unless specifically authorized.
Hannah	Altadena	CA	I've been subjected to several very annoying robo calls, one of which contains two minutes of loud beeping. I've talked with ATT, who can do (or will not do anything) nothing about them, outside of suggesting that I contact my local sheriffs' office. FCC must require the phone companies to block this calls.

CAROL	GOLDN	CO	THESE CALLS ARE ON MY HOME PHONE. I DO NOT LEAVECELL PHONE ON EXCEPT TO MAKE A CALL. THEY DISRUPT MY DAY. SOMETIMES THE SAME NUMBER WILL CALL AS MANY AS 4 TIMES. I NEVER PICK UP THE CALL BUT THEY KEEP IT UP EVERY DAY. I AM 80 YEARS OLD AND REALLY UPSET. CAN YOU DO SOMETHING. THANK YOU.
Kari	Eden Prairie	MN	Robocalls should be illegal. They are intrusive, annoying, and unnecessary - an affront to privacy laws. Stop this deorable marketing ploy immediately!!!!
Peter	Tahoe City	CA	Regarding debt collectors, I oppose that any robocalls from them can ever come to my cell phone (or my home phone). The way of contacting me is via USPS Mail, because that is the only way I can have a paper trail for this interaction which might have legal consequences. I also don't want to be forced to have to answer to messages left with robocalls, and then having to wait in line on the phone for hours until I get to the supposedly right and informed person.
Jan	Milwaukee	WI	Dear FCC, I "vehemently" oppose robocalls to my cell phone without my permission !!!! If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. More REASONS WHY TO STOP ROBOCALLS "DEAD IN THEIR TRACKS: -- Debt collection robocallers must notify us of our right to stop receiving calls -- The number of allowed calls or texts should be limited to "0" per month, and only to those who directly hold federal debt - not friends and family -- The guidelines should be clear and readily available
Robert	Scottsdale	AZ	Robocalls are a annoyance I can do will out. I will not buy or use any products or services that robocalls represent. Plus robocalls effect my cell call usage.
Melanie and A	Atlanta	GA	The daily interruptions must end. Constant disturbances from prerecording and solicitations are relentless on our land line and sometimes on our cell phones. Unless I personally give out my contact information I expect that private information to remain just that. We do know owe any money and are not on any debt collector's list, nevertheless the calls don't stop. We must give the option to the consumer to end any unwanted phone call somehow someway.
Larry	My. Pleasant	TX	Robocalls are a problem! Kill robocalls.

Michael	Bethel Park	PA	Why should these robo-call companies be allowed to intrude into my privacy? If my cousin is in debt or whatever, why am I being dragged into it? Why am I being called? How is that fair to me? STOP ROBO-CALLING MY PHONE. Why can't I "opt out" from receiving robocalls? I have registered all of my phones with the National Do Not Call List. They don't care. They just keep calling. LET ME OPT OUT OF ROBO-CALLS. And another thing. Why aren't these robo-calling companies punished when they get caught breaking the rules? PENALIZE THE RULE-BREAKING ROBO-CALLERS.
Eugene	Aurora	IL	Robo-calls are a nuisance for me. They interrupt my concentration when I am working, and yet, I need to answer my phone when it rings. I never buy anything by telephone. Your help ould be appreciated.
Margaret	Manhattan	KS	Robocalls of all types should be limited. Don't we have a right to privacy? I don't know about calls to collect debts, but certainly they should be forbidden entirely if friends and family are called about some other person who owes the debt. Even if a person owes a debt, s/he should not be called UNLIMITED times.
Josh	Chicago	IL	I'm getting 2-5 calls most days, and almost all are robocalls these days. You can tell when the phone is answered and there's initially no one there. Some will comply with being asked to remove the phone number from their call list, some hang up when I start to ask. Some will allow an opt-out when you call back. Most though, when called back immediately will be met with a recorded "this number is not in service" ... what!! they just called me... it's out of control. I'm considering getting rid of my landline just because we get so many calls. There should always be a way to opt-out, and the calling number should always be identified and real!
Dick	Bellevue	WA	I get robocalls on my mobile and my landline at least 3 times each week. They interrupt me at home and at work. It's usually an advertisement from some unknown company, even though I am registered with Do Not Call. I really don't see how they can be allowed to make these calls and save themselves marketing dollars by taking time from millions of people.
Joshua	Atlanta	GA	Stop the harassment! Stop robo calls!
Karla	Westminster	CA	Unsolicited sales calls and Phishing needs to be stopped, period.
Karin Sherman	Cherry Hills Village	CO	PLEASE help us block RoboCalls. I don't understand what debt collectors have to do with solicitors fishing for business. More often than not, there's no one on the other end anyway. Whenever I get one of those calls I save the number in my contacts called DO NOT ANSWER so if I get it again I know not to bother. And it's surprising how many of them are repeat callers. Obviously, the do not call registry is it working. But it's just not fair. Please help solve this problem.

Diane	Belleville	IL	I do not like getting any robo calls especially when I am out and about with my cell phone. Since I don't talk while driving, I have to stop, pull over and answer. Inconvenient.
Susan	Adamstown	MD	The time has definitely come for the FCC to take action & bring about the STRONGEST RULING POSSIBLE TO PROTECT AMERICANS from RECEIVING ROBO CALLS on their CELL PHONES!!!
Dorothy Rose	Bayonne	NJ	To harass someone by phone to pay a debt does not make the person pay it. Rather it is harassment and should be stopped. One will only pay what they choose to , not forced to pay. This needs to end.
Maureen	Albuquerque	NM	I'm sick of these annoying interruptions. Half the time I leave my phone off to avoid these nuisance calls. Why have a cell phone? You pay for service and fall prey to those robocallers. Maybe we should use tin cans instead.
Bill	Melbourne	FL	I oppose robocalls to my cell phone without my permission because I feel cell phones are personal communication devices that the owner should be able to decide who they receive calls from and when they want. *Debt collection robocallers must notify us of our right to stop receiving calls *Only texts should be allowed and limited to no more than two per month, and only to those who directly hold federal debt - not friends and family *The guidelines should be clear, easy to understand and readily available
Kathleen	Wappingers Falls	NY	Enough is enough! Make the telemarketers cease their persistent, annoying calls assault on consumers! If we want a product, we can make our own inquiries without the unsolicited actions of telemarketers. Make laws to fine them severely and make the crime serious enough a penalty that they cease this method of false sales. Thank you.
James	Holiday Island	AR	My wife and I are retired and on a fixed income. We receive several calls each week on our cell phones concerning student loans, credit card, home loan refinance and several others. None of these calls pertain to us and just eat up our cell phone minutes. Our only defense is to not answer incoming calls, then check the missed call and return the call if we recognize the number. My wife has asked these callers to please remove our numbers from their list but they keep on calling week after week. Some times they will call using a long distance number and then later from a local number. Your help to eliminate this nemesis would be greatly appreciated.
Tim	poway	CA	Would you like some one to call you at home and bother you after working 12 hours a day? I did not think so. And they invariably call during dinner. Stop these calls ASAP. Thank you.
Himavat	Cincinnati	OH	now would be good
Ronald	Darien	IL	Please take action to stop robocalls to cell phones

Dail	Henderson	NV	Who in America thinks this is the way to treat the Americans? We'll let you treat the russian communists and the waring pricks in the east if you want. I find this trash highly offending, people in the FCC must be getting a huge \$ cut back under the table. They must be linked with our politicians. Dail Jordan
Kristen	West Des moines	IA	Please consider our needs of privacy and uninterrupted time, and do NOT allow debt collectors to harass Americans. For those of us with no debt, we do not want to be contacted by debt collectors who are trying to track down other family members or friends who have debt. Please also give us the opportunity to OPT OUT of receiving these calls, We are already harassed by unscrupulous marketers, political groups and other nuisance calls. Please do not allow debt collectors to harass us even more with unlimited calls. Please develop clear guidelines that are readily available to Americans, and allow us to opt out of these type of indirect calls.
John	Arvada	CO	There should be a very easy way for owners to block or stop robo calls to land line phones and also cell phones!
Hans	Greenbrae	CA	Nothing is more annoying to me and my wife than receiving robocalls right at dinner time. For any other advertising method I have a personal choice to watch or to listen. Robocalls are imposed on me. Please set up strict guidelines to protect my privacy. Thank you
Sherry	Rio Vista	CA	We get 3 or 4 robocalls a day from vendors who use different phone numbers to sell their services and to avoid phone blocking. Please stop these calls. They don't work. They make life miserable and interfere with important calls from doctors, friends and family members who need to reach us. I would never buy from a company who robocalls me obnoxiously so make them stop.
Leonard	Fremont	CA	Dismantle Robocallers access to ALL telecom providers. To function, Robocallers require subscriptions to a telecom provider. Telecom providers service Robocallers by providing a telecom connection assigned with a 3-digit Area Code, a 3-digit prefix and a four-digit subscriber number. Robocallers subscribe to major telecom providers like AT&T, Verizon, Sprint. They also subscribe to smaller lesser-known telecom providers like a VoIP providers such as Vonage. Rather than targeting the Robocallers, consumers might consider taking a few simple steps. File a complaint with the FCC. Contact the telecom provider. Give the complete number of the offending Robocaller, the date and time of the call and the FCC complaint number. A convenient online tool to help identify Robocallers telecom service providers may be found at https://fonfinder.net .

M	Georgetown	MA	I am sick and tired of robo calls on my cell that I have to pay for as these unwanted calls use up minutes for which I am charged.. I respectfully request tat the ffCC mandate a total ban on all non governmental calls with the ex c period of EMERGENCY calls by government agencies
Keith	Bothell	WA	Please take action to aid in stopping these invasive robo calls
Jim	Portage	MI	They tie up my phone and use up my minutes! I'm a Senior Citizen AND SHOULD NOT BE FORCED TO RECEIVE THESE UNWANTED CALLS FROM PEOPLE, COMPANIES, ORGANIZATIONS I DO NOT KNOW ! ! ! ! !
Steve	San Jose	CA	I'm sick and tired of these calls every night during the dinner hour. I'm on the national do not call list and am unlisted, but still get them
Pedro	Jurupa Valley	CA	PLEASE STOP ALL ROBOT CALL THANKFUL
David	Burbank	CA	Please no mor robocalls on my cell phone (work phone) and personal phone.
mira	Portland	OR	No business has the right to intrude on the privacy of a person's telephone whether a land line or a cell phone. Stop this abuse.
Wanda	Burlington	IA	These calls come all hours anytime, 7 days a week. Even the hospitals are doing it every time there is a visit there from my household, even the doctors office is doing it now for stupid surveys. I was trying to dial 911 once when my son was in a Grandmall Seizure & a telemarketer kept calling me over- riding my dial pad on my cell phone, so had to scream at him to stop it & quit calling in, he thought it was a joke (his words). I don't have the lifestyle to sit around on my cell phone for telemarketers or for them to interrupt & invade my privacy for rediculous crap, especially during emergencies!
Holly	Iron Mnt.	MI	Until the robocall people pay my phone bills they are not allowed to use my phones. Fair enough?
Suzie	Zephyrhills	FL	I absolutely refuse to answer ANY calls from people I do not know! If you do not leave a message, your number is blocked! Keep calling and I will SUE you! In Florida, thank GOD, they MUST stop calling or you can get \$1,500 per call!
J.	Southampton	MA	It's bad enough when robocalls are harassing us at home, do we really need them to harass us on our cell phones too? What if someone commits suicide from relentless harassment, and the last number the authorities find on the person's cell phone is a robocall? Who's going to be responsible for that? The FCC? Granted that is an extreme case scenario, but it could happen. It's just something to consider.
Frank	Katy	TX	I am very tired of continually receiving these calls over and over. There seems to be no way to stop them as usually it is a computer that we cannot communicate with. Please put a stop to this madness

Mike	Vista	CA	No Robocalls to Cell Phones! The ability to opt out should be available on all robocalls! Severe penalties should be imposed for violators!
Cheryl	Lodi	CA	Stop all robocalls calls to both landlines and cell!
Arthur	Muskegon	MI	I receive at least 10 calls a day on my cell phone, and as many calls a day on my office landline. I try not to answer the calls if I don't recognize the incoming number. Recently I had a major customer call me from another phone. I didn't answer because I didn't recognize the number. These calls are a serious distraction at a minimum, and interrupt my work process throughout the day. I long for the day when these calls will be stopped.
Pat	Willmar	MN	I recieve too many of these calls and am inconvenienced each time throughout my busy work day.
jerry	berlin	MD	I hereby object to robocalls to my cellphone. I feel there should be a no call list and I would like to be included in that list. Debt collectors, sales organizations, credit card salespeople and politicians should be limited or even better, restricted to calling only those with permission. And they should be required to offer us the opportunity to opt out.
Loran	Texas	TX	We get 8 to 10 of these a week, sometimes two a day from the same entity. They are getting smarter now by making the call appear as though it originates form my local area code. Getting to a person and asking to be removed from the call list is a waist of effort. They call back in a day or two. Frustrated.
Kay	Donoma	CA	Please stop these unwanted intrusions to our everyday lives!
robbie	marquette	MI	these thing are like electronic harassers
Ray	Fort Collins	CO	I receive constant robocalls on my home phone. I can truthfully state that all these calls do is harass me especially at meal times. I strongly believe that my home is my castle and that I have a right to not have be invaded by unsolicited calls.
Robert	Wheatfield	IN	--Debt collection robocallers must notify us of our right to stop receiving calls -- The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family --The gui
Ed	Redmond	WA	We have all dealt with robocalling at home during meal time, and finally getting relief was wonderful. Please grant us the same relief by voting against any move to allow robocalling to cell phones. I already get them (unfortunately; I'm not sure how they got the number) and I am required by my work to answer calls 7 x 24 from my clients. The robocalls just confuse the issue and frustrate us all. Thank you for your support.
Sondra	Ewing	NJ	I have gotten calls re my student loans(I don't have any), IRS debt and constant repetitions even when I click the button for not receiving them and when I hang up.

Mary	Gig Harbor	WA	Robocalls are a menace and no one should have to put up with the harassment. Having these calls charged against one's plan, especially for the low income persons, adds insult to injury. Say no to the robocalls industry.
Carol	Fort Worth	TX	I receive at least 5 to 6 robo calls a day, and I don't have a single overdue bill! Folks just call for some obtuse reason, using those stupid machines. * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available YOU have the power to change things. Do something, please, for the sake of the American people.
Paul	Bella Vista	AR	I hate robocalls, please find a way to block them. Thank you.
Ed	Berkeley	CA	No Robocalls to Cell Phones!
Sally	Bowling Green	KY	Robocalls are a big deal-- persons with disabilities, those who must sleep during the day are hurt by these calls. The interruption of important business can be as serious as texting and driving. And persons with early stages of dementia are victimized. This is not a trivial issue. Stop the robo calls.
Patrick	Patterson	CA	The practice of unwanted calls from computer generated and cold sales is exponentially increasing and these intrusive actions are costing consumers time and money. Please enact policies and procedures to stop these practices
William	Tulsa	OK	Folks, please end this crap. It is not only annoying, in many cases it is the first step in criminal acts attempting to defraud millions of Americans out of their hard earned retirement money. Please do your job and protect Americans from this trash.
paul	Providence	RI	I receive at least 3 ROBOCALLS from the these outfits with siimilar lines. about credit card interest rates. I hang up each time till the next day. I actually called them to stop calling. I filed with FTC w/o success. Reiterated do not call list. This is a pest/vermin to be extinguished an crushed. They scare and bully the elderly!!!
Dennis	Des Moines	IA	No rob ovals on phones, cellphones, or any other communication device. Completely remove these vermin immediately by totally eliminating their ability to harass any US citizen by these cursed evil means of disturbing the peace. Do it now!
John D	Centerville	MA	There is a growing annoyance from Robo Calls now to cellphones. I have a pay as you go phone and when I get calls, I have to pay. It is grossly unfair as 1) I'm over 65. 2) I'm on disability payments. 3) I don't have a mortgage, loan outstanding, or Medical bills. STOP THESE CALLS NOW!!!

Gary	West Decatur	PA	The most annoying issue I deal with on a daily basis is unsolicited and unwanted robocalls. The only saving grace is the caller ID feature that I purchase from my service provider. This feature allows me to not answer the call but does not eliminate the annoyance or cost of unwanted calls. I am paying for the service and believe I should be able to have the ability to limit the calls I desire to receive and deny those I do not want to receive. Please establish clear guidelines that would regulate how and when robo calls or texts are allowed to contact my cell phone.
Phyllis	Longview	TX	Please stop the robo_calls. Some days, I get several. They are a total nuisance and nothing seems to get rid of them. I don't want or need to have my day disrupted like this. I don't have debt calls, simply nuisance sale calls. Please stop them!
Duane	White Oak	PA	ROBOCALLS are an annoying nuisance as well as an invasion of privacy and should be policed by the FCC not ignored
Vicky	New. Braunfels	TX	One of the reasons I love my cell phone is that I don't answer calls I don't recognize. I can also block calls of those who don't respect my privacy. For these reasons, I oppose robocalls to any phone bot especially cellphones
Wallace	Fernandina Beach	FL	My cell phone is the only line I have. I receive upwards of 6 recorded calls per day. All of them regarding something that does not apply to me. All of them offering relief for problems that I don't have. Anything you can do would be greatly appreciated.
ELI	marco island	FL	There must be a way for the government to stop these un-solicited phone calls
Crista	Gilbert	AZ	I oppose robocalls and texts because I find that they interrupt my day with information that doesn't relate to me. I consider it a major intrusion on my time! Should there be a time that I fall victim to a predatory lender I believe that there should be regulations for their use of call to my telephone and texts: a debt collector my notify me of my right to stop receiving calls and texts, the calls and texts should be limited to no more than three a month, the calls should relate only to my debt and not to that of my friends or family, and the guidelines should be clearly written and available for me to see. Thank you for seeking comments on this important issue!
Joseph	Mtn Lake Park	MD	I receive 2 different robocalls 5-6 days a week, one between 10am-12pm and another between 4-7pm. In both instances, I have tried pressing the number they say will remove me from the list and I have tried taking to real people, neither of which worked. These calls have been going on for over 6 months. I have tried talking to Verizon (my landline provider) who says that the only thing that I can do, that won't cost me anything, is to subscribe to what they call 3rd Party Block of Collect Calls, which might result in calls that I do want. How is this right?

jonelle	decatur	GA	Please do not allow robocalls to cellphones. My phone is for my family & friends to contact me regarding personal matters. It is not for a corporation or politician to use for their purposes. After I pay for it, I should be the one to say how it is used. People I have not authorized to use my phone should be prohibited from taking a portion of my phone service. Also, My family needs to get in touch with me frequently, and I do not want them blocked by a robocall on their phone or mine. In an emergency, I want use of my phone, too, and not to be blocked by someone stealing part of my phone service.
Elaine	Banning	CA	They are a nuance
Jim	North richland hi	TX	No one seems to address the issue of number 'spoofing'. Blocking the number is meaningless when every call is from a different area code.
Frank	Simsbury	CT	Stop wasting our time and money with these useless calls.
Karen	Chapel Hill	NC	PLEASE implement the strongest possible rules against robocalls to cell phones. The FCC's proposed rules set sensible guidelines for the types and frequency of calls and messages that debt collectors are allowed to make and send and would also guarantee that anyone receiving a debt collection robocall is clearly told he or she can easily opt out. These are obvious and fair rules so don't let the debt collection industry demand wide-open access to us at home, at work and on the go.
David	Lexington	MA	I am so tired of receiving robocalls - especially on my cell phone. Please make then stop! Make strong rules, but also mandate the use of technology to stop the calls.
Gary	Plymouth	MN	Please begin the process to end robocalls. Most of the population dislikes them. It is your job via taxpayers money to do the will of the people, not just the ones with money or squeaky wheels. They are annoying and disrupt our lives, especially when they occur at mealtime.
Ted	Boynton Beach	FL	It's bad enough that the marketers are skirting the do not call list on landlines by taking a survey. I don't need or want any more calls on my cellphone. The next invasion of privacy will be mass texting when they confirm my number is a cellphone. Please stop it.
Duane	Lincoln	NE	Please tighten the restrictions on robocalling as recommended by Consumers Union. No one should be allowed to harass someone by continually calling them.
Arlene	Berthoud	CO	Tired of robo calls taking away minutes for important calls.
Marianne	Lilburn	GA	Stop robo calls to all phones especially cell phones!! Very annoying getting them at our family meal time & also using minutes that I paid for!! When I want or need something I purchase it & never buy anything from a phone call!!!!
David	Oceanside	CA	Please stop the robocalls.
Howard	Belding	MI	Please put an end to Robo-Calls.

Ron	Hammond	IN	My cellphone is my job ...I don't have TIME to respond to repetitive BS...Get ROBOCALLS out of my LIFE!!!!
Claudia	Chico	CA	Do not allow any kind of robocalls to be made to cell phones!Life is crazy enough without having to put up with robocalls Day and Night!
Sandra	Centerville	OH	Total invasion of privacy. No one should have to take robo calls. They are not debt collectors they are sales calls!
Barbara	Alabaster	AL	NO ROBO calls
Harry	Delray Beach	FL	I oppose all robocalls to my cell phone that are made without my permission. I should not be subject to the disruption of my right to the quiet enjoyment of life.
Patricia	Seaside	CA	Robocallers affect peoples lives in a negative way always trying to scam someone.... they're motives are not good. Please put an end to them because it does not do any good to give them rules !!! They don't follow respect or follow rules !!!
valedal	beverly hills	CA	I am a senior citizen and find it stressful to rush to my cell phone just to be approached to buy something or service. I thought that with no phone list for cell phones my number would be private. I ask that robocals be prohibited to preserve my right to not be bothered by having to answer calls I do not wish to receive.
gary o	pinehurst,	NC	Please include the politicians in the ban...
Ellen	Lexington	MA	To those at the FCC: Please do all you can to protect our privacy on our cell phones by implementing the strongest possible restrictions against robocalls. On my land line, they've become so frequent that I assume a ringing phone is best ignored. I can leave the house to avoid hearing the land line ring; I need to have my cell phone with me, and I need to answer it. I don't have any outstanding debt, but increasing robocalls on my cell intrude on my life.
John	Urbana	IL	Twice I have had to change numbers because debt collectors wouldn't stop calling for people I did not know at all. Presumably they had my number before me, but explaining that to the debt collector is futile.
Ronald	Tom's River	NJ	I'm tired of getting them, all of my phone are on the do not call list since 2004 and I still get them on all phones, cell and house. It doesn't do any good to report them.
Jeff	Charlotte	NC	No Cellphone Robocalls! Here's a few pointers: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available
Carolyn	Bay City	MI	Please no more robocallers. I don't need 15+ calls every day for things that I am not interested in. Please, please stop these calls.
Valerie	Tyler	TX	Please stop Robocalls to cell phones, immediately.

Roderick	Virginia Beach,	VA	Please stop the annoying and intrusive phone calls that harrass us routinely, particularly at meal times. One must stop whatever one is doing, go to the phone to see if a legitimate call is there, interrupting meals, etc. I feel that the phone lines, cellular and land line, are our property, we pay for them and should have some control over them/
Ira	Albuquerque	NM	My cell phone is plagued by unwanted robocalls. Please take the strongest action possible to require robocallers to notify recipients of our right to stop receiving calls (including a number or other pathway to accomplish this); to limit the allowable number of calls or texts; and to permit cell phone users to block robocalls. Thank you.
Richard	Independence	MO	Robocalls are infuriating!!
Primula	Branford	CT	Many cell phone users have to pay to receive calls adding injury to insult! It is bad enough to get a robocall on a "land line", but even worse on a cell phone. I also agree with Consumers Union's 3 important requirements if the FCC cannot stop ALL robocalls.
norm	glendale	AZ	End robocallers it's an invasion of privacy let alone a nuisance!
Chuck	LAKE LOS ANGEL	CA	Why do we have these so called protections, if they are worthless?
Thondikulam	Hudson	FL	agree with the move for robocall blockage
Phillip	Wetumpka	AL	robocalls are despised by most Americans. Stop them especially from my cell phone, I pay a lot of money for my phone for MY use not someone trying to sell me something I didn't want to start with.
Carey	Jackson	NJ	Please stop all robocalling companies to house and cell phones
Alfred	Bend	OR	We are considering eliminating our landline because solicitation calls are the majority of calls we get anymore, now they're coming in as late as 11:00PM. Very troubling.
Pat	Pompton Lakes	NJ	I am sure all of you live with the same annoying advertising calls I live with. I contract with the phone company, pay my bill monthly to provide me service. Annoying calls should not be a part of that service.. Total restrictions should be implemented to protect us, their valuable customers.
Alan	Sebastopol	CA	Please further your efforts to end the robocalls. End the provision for debt collectors ability to make calls to our cell phones even if our number belonged to another at one time. Not right.
Jonathan	west columbia	SC	Please limit the use of robocalls in relation to debt collection. Without reasonable restraints and accountability, this technology can easily be abused, due to its low cost. There is also risk that the innocent relatives of debtors or people who are targeted by mistake will receive unwanted calls with no recourse for correcting it. Anyone receiving these calls should be able to opt out in a simple way (during the call), and there should be clear and meaningful penalties for companies that are not in compliance.

Dal	Imperial	MO	Just stop it
Randy W.	Wheatley	OH	Stop Robo calls NOW!!
Pam	Wesson	MS	Please stop Robocalls. The American family struggles to gather and visit with family and Robocalls only interrupt this time.
ramiro	whittier	CA	i't is wrong for the government to allow this practices on personal issues thank you
carol	Bloomfield	NY	Please put a stop to robocalls. Many of us lower income folks can't afford to answer these unwanted calls - it burns through our minutes. sometimes they call back a few times a day and then a few times a week, a few times a month! Yes, really true!
N.	Paterson	NJ	No robocalls to cell phone. Thank you for your consideration in this matter.
Deana	Tecumseh	KS	I'm retired and 95% of all the calls I receive are ironically. Many are repeat calls no matter how many times you ask them to stop. They won't take no for an answer. Many claim to be returning an inquiry that I never made, etc. Many try to sell Medicare products when I'm not on Medicare and those extra "free" sales cost taxpayers a lot of extra money. Please limit these calls and stop the harassment.
Margaret	Athens	TX	Please block robo-calls from cell phones. Unwanted calls on cell phones are annoying and disruptive. I believe that the number of debt-collector calls or texts should be limited to no more than three per month, and only allowable to persons who directly hold federal debt - not to their friends and family. Calling guidelines should be clear and easy to access. Robo-callers should be required to notify us of our right to stop receiving their calls.
Randy	Iowa City	IA	Please do whatever it takes to block robocalls for all phones.
John	Midland	MI	Robocalls are an invasion of our time and an interruption of our daily life. Please end robocalls. Thanks for your time. John
L.	Midland	TX	Please end Robocalls to cell phones.
David	Troy	MI	It's wrong to allow debt collectors to contact you, because you are friends with or have family who have federal debt. It's bad enough I currently receive numerous robo calls a week, even after enrolling on do not call lists, and repeated complaints to the FCC, (waste of time). Please stop this nonsense!
LINDA	DAPHNE	AL	stop these robocalls now. calls now.
Richard	Florence	OR	Am signed up with the Feds to prohibit robocalls, but this is ignored. Get four or five a day on home phone and now getting some on cell phone, which costs me money as I have limit on cell phone use. Big waste of time and money!!! These companies should obey the rules or be fined!
Philip	San antonio	TX	Dear FCC, Please do not allow predatory lenders and shady companies to make invasive robocalls
Ann	So. Portland	ME	Please do all you can o stop robocalls to cell phones. I am already inundated with robocalls to my landline! Thanks for any help you can give a s.

james	hingham	MA	I continue to get robo calls on my home, business and cell phones in spite of constantly adding my numbers to do not call list. I have seen no impact on these calls with these efforts. Just do something please.
Andy	Pleasanton	CA	Debt collector calls should be limited in number and length and restricted to only those that hold that debt, no family or friends. Penalties that escalate for frequent abuse should be implemented and utilized.
Grace	Nokomis	FL	Robocalls are a total nuisance and a danger to older folk who, fearing some important news, tax their joints to get to the phone in time. Please do your utmost to STOP this plague.
Npn	Saratoga	CA	These are not harmless advertisements, they catch people doing things like driving and other things that interruptions cause problems!
Mary	Brown Deer	WI	I have Brigit or Rachel or whoever call here almost every day from "card holder services" and it is extremely annoying. Yesterday I had someone from "Windows" calling about my computer. Another day, he said he was from "Geek Squad." I called Geek Squad and it was a false number. I do not have caller ID and pick up every time. I hate the robocalls. Please make them stop!
rosalie	oconomowoc	WI	please I work 330 am to 1130 am, these calls always wake me
Bo	Smyrna	GA	I am so sick of robocalls, I get at least one a day from credit card companies wanting to lower my rate. I have a list on my phone which is at least 5 robocalls to every good phone call. That is not even mentioning the political calls.
Dorothy	Visalia	CA	Robo calls allow unscrupulous scammers to reach seniors who may be totally unprepared to thwart their devious scam! In one day I received 13 robot calls and 9 were scams. The rest were for things I do not want nor appreciate the invasion into my day. Please stop this nonsense. It's horribly invasive!
Glavaun	Burleson	TX	Dear Sir, Please do all possible to end robocalls. They are an invasion of my privacy and call up to 9PM after we have gone to bed. When they arrive to my cell phone, it costs me minutes. Thank you
Greg	Broomfield	CO	Please pass regulations and rules that will halt robocalls being made to cell phones. Some calls are using local prefixes to make it appear to be a local call. I would like to have the freedom to restrict all robocalls to my phone without permission.
Nancy	Murrieta	CA	There should be NO Robocalls to cell phones, PERIOD!

Steven	Wheaton	IL	No, I'm not talking about illegal immigrants I am referring to the unwanted calls on my cell phone. I used to know if a call came to my cell phone it was business associates, friends, or family. Now nearly half of my incoming calls are robocalls from unwanted sources. Blocking numbers doesn't help because they just use different numbers to call. I cannot believe that our legislators would make this activity legal. WHO do they serve, the public, I know no-one that wants these calls, or the special interest groups that lobby for this type of advertising and collecting?
Scott	Norwalk	CT	I urge you to protect individual rights and privacy against the predatory and intrusive practices of robo callers.
Robert	Arlington	WI	I am tired of being interrupted at my meals in the car when I'm trying to drive it's getting very old please stop these Robo calls
Owen	Lincoln	NE	Telephones, whether home or cell are purchased and services paid for by private individuals. They are NOT paid for by commercial companies, debt collectors who do not have a right to robocall someone for their business purposes. Doing so is the same as an anonymous person throwing a brick through a home owners window. If anyone wants to contact a firm they can exercise their right on equipment they possess. Simply by virtue of my having a cell phone does not grant anyone the right to annoy, harass or interfere with my individual privacy. It is not a business corporations right. Just like the police and laws protect us from bricks through windows, so too should laws and enforcement be focused on anonymous vandalizing of personal time via phones! Government function is the protection of the public interest; the FCC has a functional responsibility to people across the nation to provide essential protection.
Warren	Los Altos	CA	I ignore calls to my cell phone from numbers I don't know but receiving them is still a hassle and annoyance. I strongly support the following points to reduce this nuisance: - Debt collection robocallers must notify us of our right to stop receiving calls - The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family - The guidelines should be clear and readily available
Tim	Cathedral City	CA	If unlimited robocalls are allowed to people who owe back payments on student loans or taxes, it will be just another form of harassment. Once a person is aware of their debt, harassing them won't accomplish anything constructive. At least limit the number of robocalls that can be made in a period of time, like Consumers Union suggests. And just like debt collectors are required to inform us that a call is being recorded, shouldn't they also be required to inform us that we can request they cease calling?

Brenda	Bear	DE	FCC.... Stop these Damn calls! Enough is enough! They are targeted at the elderly and all of them are scams. I have resorted to cussing them out, when I get a real person, and let them know, I may be old, but far from being "brain dead". This can be stopped, so do your job, on cell and home phones. This is an invasion of our privacy!
Tom	Wakefield	NE	I oppose robocalls of any kind to my cell phone! I see no reason I should put up with the annoyance to satisfy the desire of marketers to make a cheap sale or solicitation.
Tony	Whitakers	NC	We don't need unsolicited, unwanted calls on our phones. End them now!
B	Conway	SC	I receive up to 6 robocalls a day even though I am on the do-not-call list. It's gotten so I don't answer the phone if I don't see a name I know, which sometimes means that I miss important valid calls. I even use a masked number (free Google number) instead of my home phone number to try to stop these pests from getting my real number, but it isn't working. Enough is enough. It's time to give consumers an easy way to end these calls, which should be illegal in the first place.
James	Las Vegas	NV	It is unfair that I have no recourse to callers that are programs. I deserve the chance to tell someone to stop calling me, or to tell them they have the wrong number. Without a person on the calling end, it is harassment.
Kevin	Dandridge	TN	Once I am on their list, I get at least 10 calls a day supposedly from all over the country. And if they get your other phone number....my god I am on the phone all day. I can't answer the legitimate long distance calls I get. This is insane.
Roger	Poquoson	VA	In the past 3 months I have personally blocked 160 robo calls on my land line. I do not have a count of those calls automatically blocked by the device . Now it starts on my cell phone . The last call looked like a Va, call , but googled turned out to be a Seattle ,Wa robo call..FTC.. you know I do not want robocalls on my cell phone. I get enough scam calls on the land line to infuriate me..
leslie	long beach	NY	Stop the robo calls It's bad for my health and it is an invasion of privacy in my home
Lonnie	Loudonville	NY	Please take whatever action you can to stop robocalls. Our phone rings all day with unwanted calls, and on occasion we have missed an important call because it was "lost" in all of the annoying calls we get. Our phone is supposed to be for our benefit, not hucksters, and we'd like to regain some semblance of privacy again. You have the power to help us. Thank you.

Graham	Sarasota	FL	I am a business man, with no student debt ever I use my cell phone for 85% business, selling Jet aircraft, only to be called & harassed by these people, causing me in many instances, to lose my customer when the robo- call came in & cut me off, with no way to be able to call my unknown customer back, I am a Verizon customer, but have no idea how to solve this problem, I have no past due creditors and have my home and automobiles paid for, so no one should be calling me, I also am on the do not call lists and current with that.
Ralph	Bainbridge Island	WA	We get any number of call from 800 service. We don't answer these call anymore because in the pass they are unsolicited sales calls or political calls asking for money. I would welcome an end to these ty0e of calls.
fabien	el sobrante	CA	Here's what I'd like to see happen: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. I'm tired of being interrupted in the middle of my day for the totally useless calls I get. I thought we were able to opt out years ago. What happened to that? I get bombarded endlessly and it's not cool. I've missed important person calls because I thought they were robocalls. I only have one phone, my cell phone. It's private. It's mine. I don't want strangers calling it. Ever. Thank you, f
Kay	Parachute	CO	There must be a way to block unwanted calls!
peg	corea	MD	ROBO calls deceptively use local caller ID information to fool us into picking up the phone These calls are intrusive and more than annoying. They make us not want to pick up the phone
LARRY	BASTROP	TX	STOP ROBOCALLS, VERY ANNOYING....
Bobby L.	Las Vegas	NV	For years now we have been constantly belted with Robo calls even though we used the Don't Call List from time to time. These calls start very early in the day and continue even until as late as 10:00pm--variously. The vast majority leave no message, and they list on our Caller ID as: not available, not identified, 000 and all kinds of devious entries except a viable contact name. I treasure my personal time and my family, and don't care for the bother of devious callers occupying time and s;pace that legitimate callers could be using. Your interest and help is critically needed in the resolution of this Public Menace! Thanks very much.
edna	Oakland	CA	The number and timing of robocalls has become abusive. You would not allow other businesses to do this why can't you move to stop them. I get about 4 a day on my land line and cell phone. One came at 7 AM! Please take action

kirk	panama city	FL	My house phone rings all day. Only calls I receive for me are family, friends and doctor reminders which I can annually count on 1 hand. All my other calls are scams and callers that won't even leave a message so assume they are scam calls too. I don't have the finances to buy anything. I don't need anything and I'm not even lonely because I have plenty to do to keep busy. I know some are just trying to make a living. Leave a message I may call you back.
Jean	Sebring	FL	Unknown calls do not get answered, but they sure interrupt your privacy!
Ronald	Mound	MN	We get calls telling us that they can help refinance our credit card debt almost every 2 weeks, we have "never" had card debt!!!! Our vehicles and house are paid off. Different fund raisers for cancer, veterans, etc. IRS scam calls! Many times it's the same person! We keep telling them to take us off their list! Do not call lists are worthless!!!!!! "DO SOMETHiNG"!
Al	Port Washington	WI	These folks are SCUM and should be put in a facility where they eat off the floor I SPIT ON!!!!
Dale	NO	NE	I don't welcome dog dung in my front door, nor do I welcome robocalls on my cell phone for the same reason-They STINK, and have no useful purpose,
Carl	Bella Vista	AR	Please stop the Robo calls that use others phone numbers . I'm on no call list but that does no good.
Brian	Thornton	CA	As a hard working American who values giving my job the best attention I can, it is extremely disruptive to get repeated robocalls on my personal and my work cell phones. It takes away from my productivity, costs the taxpayers and customers who pay my salary money, and diminishes the effectiveness of our business on the economy as a whole. Please push hard to limit or ban disruptive robocalls, and make the penalties for violation so severe the companies paying to have those calls made will start losing money. If that is the only way to get their attention then please do it. This country needs more productive workers and less stress on the citizens. Most of us take care of our obligations, and such robocalls are insulting, annoying and costly. Many of the robocalls coming to my cell phone are solicitations in the name of FBI reports, child abusers in the area so please buy our abuser spotting apps, etc. I urge you to take a responsible step to protecting our citizens against such abuse. Thank you for your attention and support of this critical abuse legislation.
Douglas	Eagan	MN	It's time to regulate now and when debt collectors can contact people on their cells phones. Please implement the following guidelines: 1) Anyone calling must clearly explain at the beginning of the call that we have the right to stop receiving the calls. 2) A maximum of 3 calls or text messages per month. 3) Make sure the guidelines are publicized so that people know what is and what is not allowed.

Charles	Tampa	FL	The "Do Not Call List" does not control the telemarketers and the phone companies are making money of the robocallers. Lets try taxing every call till we reach a level that it becomes unprofitable for these calls to be made. It's all about the money!
Beerry	Athens	OH	FCC: No Robocalls to Cell Phones!
Robert/Linda	Sloansville	NY	Robocalls are the bane of our existence. They arrive during our dinnertime and nap time. The calling robovoice grates on our ears, and the verbiage insults our intelligence. Even hanging up does not stop them, and trying to block the calling number only makes the robocaller switch to another number. We are still sane enough to withstand these calls. Heaven help those who are not! The robocalls need to stop!
Frank	Linn Creek	MO	Please stop all unwanted robo to cell phones !
Paula	La Vegas	NV	My phone numbers are registered with the federal DO NOT CALL registry yet I continue to receive Robocalls. When I call the number back (it shows on caller ID) a message states the number is not in service. How do I report a number that is not in service so these people can be fined? Something is wrong when you think you are safe from bombardment by registering your phone numbers and the Robocalls keep coming.
Denise	Bedford	TX	I get 3 sales robo calls every day 7 days a week. I closed my business in 2009 and the calls keep coming. Sometimes 5 per day. Please HELP!!
Tom	Gray	TN	Robocalls are more than annoying they are dangerous to those than fall for them. I have "Bridgett" call me almost every day for months with a different number even including MY own number to try to get me to answer the phone. The do not call list can not stop them apparently because I've been on the do not call list for years. I'm waiting for them to try other ploys to trick me into their scam. They must be stopped! Many are more gullible than I am and I don't want to see anyone suckered into their ploy.
Linda	Toivola	MI	My cell phone minutes cost me money. These companies don't have the right to use my minutes for unsolicited sales pitches. I don't want to be bothered.
Donna	Ridge	NY	Stop the annoying robo calls for once & for all!!
Terry	Spring	TX	I oppose robocalls to my cell phone without my advance permission. I work around the clock so there is never a good time to be bothered with a robocall.
george	dayton	NV	No Robocalls to Cell Phones

Lucas	New York	NY	Robocalls must stop going to our cellphones! It wastes our minutes which is unfair to us as consumers. If robocallers really want to reach us they should be only allowed to make a certain amount of calls to our cellphones each month, for example three. It wastes our time and often wakes us up in the middle of the night because the robocalls can happen anytime in 24 hours. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Ray	Nebo	NC	I'm on a do not call list and I get 5 robot calls a night! All looking for donations. Sheriff's and State Police are the worst!
Catherine	Blanco	TX	There is nothing like settling in for a nap, until the phone rings with yet another robocall. We would just be settling in for the evening, and yet again we receive a robocall. Now we just hang up. But we shouldn't have to get calls during our nap or during a relaxing evening. I urge you to implement the strong, strict guidelines to end most of the robocalls.
Daniel	Oconomowoc	WI	Tell the cell companies, no more intrusive robocalls.
Linda	Fresno	CA	I hate having to screen 5-10 calls a day that I don't want. Please make it a finable offense to send these unwanted and resented calls to your customers.
Chad	Tiffin	OH	Please do not allow robocallers free reign. It won't make any more money and just irritate cell phone users. When the only people who like a bill is the debt collectors and for-profit universities, you know there's something wrong.
patricia	benton	IL	stop all call, i'm old an don't need the hassling.
Lesley	North garden	VA	Robocalls are sanctioned harassment and disrupt every day activities. They should be banned and illegal, with recourse for those who are harassed.
Abraham	Agoura Hills	CA	Please stop Robocalls which are terribly intrusive, disruptive, and annoying. Thank You.
Richard	New Castle	PA	It is time that the general public has a say to insure that they can have a peaceful life. Telephones were developed for our personal use, not for the invasion of our privacy. STOP ROBO CALLS
Robert	Port St Lucie	FL	What a complete nuisance these calls are. We receive at least ten a week. If I need a product or a service, I'll call a vendor of my choice.
William	Lawrenceville	GA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Paul	Nashua	NH	No Robocalls to cell phones !
Helen	Indianapolis	IA	I don't want robo calls on my cell or land line.

william	Corsicana	TX	I want calls to stop and that is my bottom line. I get calls at 9:40PM at night.â€¢Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available. Phones listed on the Do-Not-Call lists are a joke as I get more calls after I listed my phones. Politicians and charities also do not need to call me all the time.
sharon	phoenix	AZ	Do not call or text me for anyones debt, or lending practices. The 800 toll free numbers calling is way out of control and if robo calls are allowed to call at any hour thats intrusive, just as the toll free calls are now--theres enough calls and scams going on we don't need any more
Gordon	CHicsago	IL	It is a big mystery that when you get an iphone you give the number to family only. All of a sudden you start receiving calls from strangers or peddelers. This must stop.
Linda	Decatur	GA	No Robocalls to Cell Phones!
Steven	Las Cruces	NM	Robo calls and unsolicited calls are invasive to my (our) privacy and intrusive to my right to a peaceful existence. All robo calls should be stopped including political calls and those from within your state or community.
Martin	North Garden	VA	As the recipient of many unwanted robocalls to my cellphone, including many when I am overseas on Federal Government Business and those cost a significant amount of money. I implore the Commission to end this practice. I would strongly prefer the end to ALL Robocalls, but in particular, I find the following particularly egregious: - Debt collection robocallers must notify us of our right to stop receiving calls. - the number of allowed calls or texts should be limited to no more than two per month, and it MUST ONLY be to those who directly hold federal debt - not friends and family. - the rules / guidelines should be clear and readily available. I hope you will carefully consider and then act to end these costly, invasive, and annoying practices.
Danielle	Santa Fe	NM	Stop robot calls now!
peter	midlothian	VA	please this is to much. our phone rings every night 5-6 times. do your job
Carol	Gilbert	AZ	For several years I was harassed by a bill collector for a student loan loan debt that wasn't even mine. This guy kept on insisting that even if it wasn't mine that I knew the person and how to get hold of that person. I finally had to threaten with a complaint to the state attorney general's office when he finally quit calling. It's been a year and a half of peace.
Eric	A. J.	AZ	I am beyond sick and tired of robo call b.s. ! For we consumer's have waited for you clowns to do something. The do not call list is a joke. It's time to truly do something about this problem NOW !!!

Danny	Reedley	CA	Theses Robo calls are sucking up my time and sleep. I'm getting very tired of this stuff just a while ago I was awake by a caller wanting money acted like I gave it all the time. This stuff needs to stop. I never know when to answer the phone if I don't recall the number whats if is an emergency about my wife. or a friend who broke down this needs to stop.
Mike	Burbank	CA	The relentless robocalls need to be stopped now! These obnoxious calls (in my case 5 - 10 calls received a day!) are overwhelming. Somebody in Congress needs to act now!
RAY	LA CRESCENTA	CA	DON'T LET THE CONGRESS PULL THE TEETH FROM THIS BILL. AND, WE'LL BE BACK FOR YOUR HELP WITH THE LAND LINES IN OUR HOUSES. THANK YOU FOR YOU HELP.
J.	Bronxville	NY	we receive approximately 10 robocalls per day on our landline. this is AFTER repeatedly registering with the do not call registry. we need stricter rules against ordinary people being pestered, harassed, and potentially duped by unscrupulous telemarketers. Please strengthen existing rules regarding landline privacy protection and please do not allow these exploitative practices to spread to cell phones. thank you!
Michael	Cherry Hill	NJ	Make it illegal and prosecute those that violate the law and regulations.
Efisio	El Paso	TX	This is a simple List of Robocalls coming from the same Number:1-269-775-0086 under the Name of HOME SECURITY. Every Day is the same story, over and over again. 3:48P - May 18 3:42P - May 18 2:16P - May 18 8:57A - May 17 8:44P - May 17 8:19P - May 17 8:14P - May 17 8:03P - May 17 7:29P - May 17 7:10P - May 17 12:39P - May 17 12:14P - May 17 8:46P - May 16 8:19P - May 16 3:19P - May 16 1:39P - May 16
Mary	Delavan	WI	stop those robo calls
David	Philadelphia	PA	I am sick of answering the phone only to learn a computer is on the other end. This insults the intelligence of all of us. Have the decency to have a real live human being call. That's what we deserve!!!
Barbara	Tacoma	WA	I want to block unwanted robocalls to my cell phone! STOP this please.
Kathryn	San Gabriel	CA	The calls are such a nuisance and disruption to our homes and lives. The problem is more compounded with the added solicitations and Robo calls on our cell phones too. Please stop the calls!
Jan	Alexandria	VA	There is no place in this world for the intrusion of robocalls on our landline or our cell phones.
Gerry	Sunnyvale	CA	please stop the intrusion of unwanted, robocalls
Erica	Anaheim	CA	Cell phones are for emergencies for many people. To use them as another marketing tool is a shame and unfair to those paying by the minute. Limit severely any debt collecting to calls
Patricia	Indianapolis	IN	Please help put a stop to these annoying calls - I must get ten a day! Help!

Joseph	Westville	NJ	The telephone is a valuable tool for the homeowner and should be viewed in that fashion in all legislation. Please stop the harassment, the disturbance of the peace and the invasion of privacy of the home by these obnoxious calls.
Bill	Sagamore Beach	MA	Why should I have to interrupt my day to listen to some telemarketer pitch that I am not interested in? I get three or four a day. THAT IS TOO MUCH. PLEASE STOP THEM!
Bryan	Babylon	NY	We've had enough with the cell phone Robocalls !! It has to stop!
Rosalie	San Francisco	CA	At age 90, I find it very difficult to respond to calls from strangers - please do all you can to stop unsolicited calls. Rosalie Sennett -
Anne	Swansea	MA	STOP robocalls to my cell phone. I am getting a number of robocalls to my cell phone. They are not from debt collectors because I have no debt. I DO NOT WANT THESE CALLS
Marlene	Laramie	WY	I am registered with the "Do Not Call" registry, yet I still receive calls from all over the country. I NEVER answer a number that I don't recognize, but they NEVER leave a message; they just keep calling back and not leave a message. It's very annoying.
john	spring valley	CA	I urge you to address the issue of auto calling/ robocalls that are getting out offhand. I am on a no call list. but I receive several unwanted robocalls on a daily basis, so that I no longer answer my phone unless I know the number. This hijacking of individuals private numbers has to stop, and there has to be legislation with a penalty for those companies that do not value an individuals privacy. Thank you for listening
Robert	Viburnum	MO	No way we should be getting spam calls to a service that we are paying dearly for. FCC this is in your court and what you are expected to regulate. Use common sense. I shouldn't have to take my time to send you a message which is obvious and you need to take care of NOW!
Karl	Venice	CA	I get about a dozen of these a week and it's getting worse. Robocalls are the reason I gave up my landline, but now, they've followed me to my cell phone. Help stop this scourge!
Martha	Aurora	NY	Debt collectors have misused the laws and abused cell phone owners. The pendulum needs to swing back to balance the rights of cell phone owners.
Norman	Encino	CA	We are 78 and 76 years old our phones are used for emergencies,please stop the spam calls.Our phone lines MUST be open for our use all the time for health reasons.

LINDA	BEAVERTON	OR	CELL PHONES ARE FOR PEOPLE'S PERSONAL USE NOT THE DISCRETION OF A MARKETING COMPANY. THIS IS AN INTRUSION TO THE POINT PEOPLE CALL A "NO CALL LINE" TO STOP ROBOCALLS. WHY SHOULD ANYONE HAVE ACCESS TO OUR CELL PHONES WITHOUT OUR PERMISSION JUST BECAUSE WE HAVE A CELL PHONE? CELL PHONES ARE PRIORITY FOR THINGS LIKE CHILDREN/PARENT/FAMILY COMMUNICATION, EMERGENCIES AND BUSINESS THAT THE OWNER OF THE CELL PHONE DESIRES TO MAKE. THIS IS INTRUSIVE, UNWANTED, PREDATORY AND RESTRICTIVE OF MY FREEDOM. DO NOT ALLOW ROBOCALLS ON CELL PHONES!
diane	waltham	MA	Get rid of all robocalls.
eileen	NY	NY	4 TIMES A DAY & OFTEN IF THEY REACH MY ANSWERING MACHINE, THEY SIMPLY DISCONNECT. The announcements make absolutely no sense & they are multi-multi repetitive.
Milton	Denham Springs	LA	Any phone call to my cellphone counts against the total minutes for which I'm subscribed. At this time, I receive an average of 1-2 robocalls per day. I have no outstanding debt, and no desire to talk to any robocaller. With no restrictions against these unwanted calls, I am responsible for paying for them, but have no choice/control over receiving them.
Mike	Westlake Village	CA	I do not want to have computers call me! These calls disrupt my life.
Lonnie	Savannah	TN	I have registered my cell phone numerous times and I still get these annoying calls some using my number, please do something or tell me what I can do
Richard	Guilford	CT	Not a day goes by that I don't get a "robo" call. I try to avoid them like the plague. They are a waste of bandwidth and my time.
Steven	Janesville	WI	Robo calls are certainly annoying, but they are also potentially dangerous. I do not appreciate the unnecessary distraction of a robo call when I am driving a car or doing anything that requires my full attention. Is the incoming call an important one, perhaps even an emergency? So I fumble for the phone! wonder how many accidents are caused by robo calls.
Timothy	Paragould	AR	Just do it
Kathleen	Watertown	NY	I am stalked by these calls. Now all calls are screened. I have stopped answering my phone. I am being held hostage by a phone service that I PAY for! Stop!
Judy	Grand Forks	ND	I am soooooo tired of all these calls on both our land line as well as cell!!! I do sign in with to do not call site, so I can't imagine how many more I would be getting if I hadn't done that much!! You have the power to do this; take care of it!!!
john	Albia	IA	Please stop all robo calls.

Catherine	McAllen	TX	Because of all the robocalls, some from where I live, I refuse to answer a call if there is no name attached or I don't recognise the number. I've had calls from Massachusetts, Georgia, California, the Carolinas, once from Alaska. I don't know anyone in Alaska. I have added a voicemail saying that if I don't know you, you must leave a voicemail as to why you're calling. Of course, they don't although some of my friends with private numbers or who have missed me laugh at the ending which says, 'If you're a robocall or marketer, leave me alone. I don't have any money'. My phone won't even block the number. Do I have to get a mortgage to buy an expensive phone that will block numbers? I signed up for the government's Do Not Call program. What happened to that? I was told I wouldn't get any calls of this nature. Of course, certain departments in the U.S. Government are famous for going back on their promises. How many times do I have to say STOP CALLING ME!!!!!!
Milton	Skokie	IL	You have a responsibility to stop the endless nuisance calls! How about doing your job!
Tim	El Cerrito	CA	The extensive use of robocalls is ruining the effectiveness of our telephone systems - cell systems and landline systems . I no longer answer the phone when someone I don't know calls me. #1 - Please enforce the current Do Not Call regulations. Companies are flaunting these regulations with impunity. #2 - Require phone service providers to install systems to detect and eliminate Robocallers from their systems. #3 - Implement regulations that limit harassing calls from those people permitted to call under the Do Not Call regulations.
Phillip	Muscle Shoals	AL	Since I pay for my phones ,no one should use it without permission.
kathy	Morgan Hill	CA	Stop unwanted calls. Please!
Melinda	TUstin	CA	Please stop the Robocalls to cell phones! It's extremely annoying! Unwanted texts and calls use up my data, which is precious!
Jim	Henderson	TN	It's disturbing to me to have to get up on my unsteady feet to answer a call. I am old and very hard of hearing. I can't hear out of portable cell phones and must depend on a wall phone with sound volume in my kitchen. My hearing loss is over 85 per cent. Please use all resources possible to stop these troublesome Robo calls. I sincerely thank you on your behalf of attempting to eliminate these sales pitches and Robo calls.
Maureen	Manchester	NH	I'm 82 and have one phone. Getting to it quickly is difficult and makes me prone to falling.
Marjorie	Longmeadow	MA	I am almost 80 years old and it is a struggle to get up and answer a phone. I am afraid of falling.

Michael	Shelbyville	KY	Robo calls are the most intrusive and time wasting thing ever. Half the time no one is there so you know they are just going to call again. Some offer a chance to opt out but it does no good they just call from another number. I have even had calls when my number shows up as the caller. How is this possible. We have a no call list we should enforce this and make fines so heavy that it will not be profitable to make these calls. Debt collection callers should have to identify themselves and notify of our right to stop receiving calls from them. Again the no call list should be harshly enforced. We also need the ability to have call block on cell numbers.
Ted	Sapulpa	OK	I don't think robocalls of any kind should be allowed. Especially debt collectors.
Darrell	Round Rock	TX	I'm mad a HELL because I keep getting robocalls on my cell phone. Let' stop this practice now.
Michael	Amityville	NY	Robocalls , both solliciters and debt collectors are a nuisance to cellphone owners. Solliciting via cell phone should not be allowed at all. As for debt collectors: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available thank you
Marion	Louisville	KY	To whom it may concern, Please in force the No Call List for all telephones (land lines) and cell phones listed. The easiest way would be stop all ROBO CALLS. This could be accomplished with software all ready in use today. Give American ingenuity a chance to be used for all those who are asking you to enforce the present rules. Thanking you in advance for your consideration in this matter. Marion Turley
judith	valencia	CA	Please stop these They are daily and causing a PROBLEM
Donald	W Falmouth	MA	Our household is being ravaged by Robocalls at all times of the day and particularly in the 5pm to 7pm timeframe. We even get calls where I am identified as the caller. Something has to be done about it. Don McInnes
Terri	Vista	CA	I oppose robocalls to my cell phone without my permission. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Rachelle	Marietta	GA	I do not want to receive any robocalls from anyone. PLEASE block them from my phones. Thank you. Rachelle Berliner
Marge	Huntington Stati	NY	Please stop these annoying phone calls.
Paula	Topeka	KS	Please put a stop ALL robot calls. We donot need this disruption in our lives. Also, how do these people get our phone numbers??
Carl	Beachwood	NJ	Stop robocalls on all phones.

Carl	Westerville	OH	I should be able to tell a caller to take me off their list and when they say OK, I shouldn't receive any more calls. That is NOT happening now.
David	Bisbee	AZ	These call can't be blocked. I feel my privacy rights are being violated.
Lesli	evansville	WI	Please end these robocalls
Leslie	Melbourne	FL	Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available
Albert	omaha	NE	I get 3-5 robocall every day its time to put an end to those annoying calls
Helmut	Memphis	TN	I take care of patients and am called often in the middle of the night even when away from home on a different continent. Recently, however, I had to turn off my phone because I got robo calls several nights in a row. Due to this, two calls from the intensive care unit went unanswered. Please ensure that robo calls do not interfere with my sleep and my patient care.
Theodosia	Nashville	TN	My husband and I receive many robo calls per day and even when they agree to stop, the same company starts up again in a few weeks. We can screen some because of our caller i.d. and note that we get 3 or 4 calls from the SAME number PER day--sometimes as late as 9 p.m. If there is any way to stop these calls, we would finally be able to watch a TV program in peace, read a book without an interruption, and generally live our lives without calls we neither want nor requested.
John	Lanesville	IN	Stop this NOW!!!
John	Atlanta	GA	There are so many things that interrupt us in our daily lives these day. We HATE commercial robocalls. Most of us will go out and research something we need, say a home alarm system and then make a decision about which REPUTABLE company we want to use. We don't need scammers calling us, disturbing the peace of our homes, and telling us about their home system for a company we've never heard of. AT&T, Verizon, etc SHOULD allow us to screen out all commercial robocalls. And violating the DO NOT CALL list should have some serious sting to it
Edna	Lawton	OK	Please do not allow Robo calls on cell phones. I do not want to waste my minutes on Robo calls.

Diane	Cottonwood	CA	Robocallers are flooding our phones with calls and although we bought a call blocker they just seem to change the numbers and continue the barrage. I believe there needs to be a DO NOT CALL LIST and extreme fines for those ignoring these lists. We have signed up for do not call lists but it makes no difference. Apparently these robocallers know there are no real repercussions for the continuous onslaught of unwanted calls. Something needs to be done about these robocallers. I believe I have a right to not be inundated with calls all day long everyday.
Anne	Bel Air	MD	Robo calls are a rude intrusion on our busy lives. They have no business invading our privacy and inconveniencing us. Please put an end to these annoying nuisance calls once and for all! Thank you!
Daniel	Allentown	PA	Please end now..
Maria-Cruz	Austin	TX	I have explained my phone bill to AT&T, that it's just my husband and me, so we don't make a lot calls so if that is the reason for the phone bill to be charged to us for all the unwanted calls, which are a lot, why must we be the ones that pay for the abuse, when the robocallers don't even put a name or a phone number, such as 'unavailable!' I had to go through several representatives when I requested a supervisor, so I could have my bill lowered, which took more than hour. I did get my bill lowered but now the condition on that is that I must not change my plan for a year because according to them my bill will end up being, "much higher," if I try to change! That was an exhausting ordeal!!
Jeanne	Havertown	PA	Debt collection robocallers keep calling my cell phone but the debt belongs to the man that had my number over 6 years ago!!! This is so annoying. Also we get all kinds of annoying robocalls all day long. It is very disturbing. My elderly Mother doesn't answer the phone because it is usually a fraudster and it causes us to have a hard time getting through to her. Stop robocalls now!!!!
Jennifer	Glendale	CA	No more robo calls. Inforce the do not call list. It is the LAW.
Ann	Los Angeles	CA	Just stop!!
Rene	Brookeland	TX	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
james	Montrose	CO	They are unwanted and would appreciate your help in ending them
Judy	Laguna Niguel	CA	No robo calls to land lines or cell phones!!!
marj	seattle	WA	What good is the 'No Call' list when robo callers abuse this? They should be prosecuted as criminals because that's what they are.

Raymond	Greencastle	PA	My telephone line (connection) is paid for by me and is strictly for my use, my family and friends and others that I or my family choose. The FCC, in my opinion, does not have the right to empower politicians and/or others to infringe upon my private life. They rudely interrupt at the most inopportune times. They do not even offer apologies for this bad behavior. Please stop the senseless and disrespectful use of the technology called "robo call!"
Jo	Fullerton	CA	This comment is not only for cell phones it is also for landlines. Tell AT&T to allow more than 20 blocks on their website. Twenty is not nearly enough as these calls keep coming as they only change their phone numbers daily.
Lloyd	Schertz	TX	In-wanted emails are the worst waist of time and cyber resources. It's like taking a break from s drowning person.
Franklin	Hilton Head Island	SC	Rob calls are an enormous invasion of privacy, and because I refuse to answer calls that I don't recognize, I have missed important calls from time to time. Robo calls to my mobile phone are, if anything, worse.
Kim	Orlando	FL	Please consider adopting strict guidelines to regulate how and when debt collectors are allowed to contact cell phones. I don't have any debt but still get at least a call a day on my cell phone from telemarketers (primarily robocalls). We are at the mercy of these callers, they are relentless and when you block one number they just switch to a different number - and they keep calling. I pay for my phone service, yet these unwanted calls are a constant interruption to my daily life. I pay for a cell phone to be accessible when/if I need to be, not to allow a constant barrage of unwanted robocalls that I have no power to opt out of. Often, when you do request to be removed from a list, the caller is aware that there is no consequence for repeatedly calling, so they can be disrespectful and rude (and can then 'punish' you by calling even more frequently or at all hours of the day or night).
Darlene	Little Rock	AR	Cel phones should be off limits to solicitors
Steve	Thompsons Station	TN	Tired of unknown marketers calling our home and now cell phones, these are unwarranted and unwanted. Using our paid minutes to answer these calls is a waste of our money. Please stop this and place a charge on these companies.
Jake	fresno	CA	I will boycott any robocall caller.
Michael	Waterford	NY	robocalls and unsolicited commercial calls are the bane of cell phone consumers. please protect us from useless noise.
Roy	northbrook	IL	Please help stop these calls I cancelled my art Land line because of advertising calls stop it for our cell phones
glenn	worcester	MA	6 calls in 1 day. 38 calls in 1 month. I didn't answer any of them. Sometimes when the phone rings my caller ID shows my phone number. ROBO call outfits by law, if they are to remain in business, should be required by law be ordered to show their legitimate name and their legitimate number.

Brenda	Clayton	CA	I am a handicapped individual and it's really hard for me to continue to race for the phone. I get it all...IRS (?), salespeople, hang ups, utility companies, charity organizations, etc. I can get up to 10-12 calls in a day up until 9:00 PM and on the week ends....this can be on my home phone or cell. Please help us end this annoyance! It's not fair when you've specifically asked them to take you off their call list and they just keep it up.
Jeffrey	Portola Valley	CA	Several robocalls daily despite being on the US Governments no call list is unacceptable.
Jeanette	Plano	TX	The robocallers call us all hours of the day and night, on our landline and our cell phones. Many of them use fake phone numbers on caller id. Please help the American people find a way to stop this intrusive practice. We pay for our phone lines and should have the right to limit who calls us. There needs to be a stronger deterrent/penalty to these robocallers.
Don	Fairfax	VA	I urge the FCC to make it illegal for Robo Calls to be made to our cell or home phones.
Peter	Seattle	WA	Texts are OK, but cell phones should be off limits for anything not directly requested by the person called. Permission must be explicit, not just implied by lack of objection.
John	Belchertown	MA	My home is the only place where I can relax and I do not want unsolicited people knocking on my door or calling me on my cell or landline. I have a right to privacy and those individuals who violate it need to be prosecuted, fined, and or put in jail.
ecindy	hicksville	NY	I've implemented an app for my home phone to stop the robocalls. However, I cannot use it on my cell phone. The number calls have increased on cell tremendously in the past couple of months. Even if I stayed on the line to get more information to report them to the "Do Not Call" organization, they hang up before I can gather the information needed. It is harassing, annoying and an infringement on my time. Stop these callers!
s	cambridge	MA	Robocalls are an invasion of privacy beyond annoyance
Evelyn	Clovis	CA	Protect cell phones from Robocalls!
Tom	Fayetteville	AR	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Peter	Tulsa	OK	Robo Calls have become a major hassle in our lives. Calls come in at all hours of the day and night and we now have to ignore our landline because of them. We could drop the landline but it is the number friends and family know and use. Although we don't answer the phone when we don't recognize the number occasionally one 'sneaks' by. Stop this invasion of privacy.
Norm	Woodstock	GA	I feel that harassment via robocalls should be outlawed. Such calls are a form of extra-legal punishment without due process.

christopher	green bay	WI	I demand that robocalls allowing debt collectors to call anyone with student loans or back taxes continue to be banned
Richard	Oakland	CA	Please pay attention to the majority of the citizens and stop the intrusive robocalls
Linda	Lehighton,	PA	I am 72years old trying to get by in the rest of my life. I pay "per call" . I only use my cell phone when needed. I don't yip yap. I was in a restaurant eating dinner when my cell phone rang . I answered the phone to find that out that it was a Robo call . It is very irritating that I had to pay for that. Thank you for hearing me out.
Philip	Commack	NY	Our privacy is being invaded more and more as time goes on. There are less and less places to escape. I should have the right to not have people invade my space without permission. I also pay for the use of my phone and the invasion of my domain by unauthorized people is unacceptable.
Frank	Fayetteville	NC	No robo calls for cell phones, please.
John	Laurium	MI	Please stop the robo- callers from invading the privacy of people.
Becky	Jasper	GA	With restrictions on the use of cellphones for personal business while on the job, robocallers are putting victims' jobs at risk by disrupting and distracting employees. Robocallers never leave a message asking for a return call. Robocallers never advise the intended receipt of said call that they have a right to request that the robocalls stop. Robocallers use 800 numbers or restricted numbers so it is impossible for the recipient to know who is calling or why they might be calling. If one does answer a robocall, one is left on hold until a live person is available and quite often no one ever picks up. Robocallers are annoying, disruptive, and are beyond any doubt whatsoever designed to harass recipients in the hopes of forcing same to take some sort of action. If a neighbor knocked on a door 47 times in 4 days without invitation and from 8:00 a.m. until well after 9:00 p.m., said neighbor would be charged with harassment and find himself in court. The laws should not be any different when it comes to robocalls...they are harassment plain and simple. I have received 47 robocalls in the past 4 days on my cellphone and not once has anyone left a message of any sort...they call, let the phone ring 3-4 times, hang up, and call back with a few minutes. I have no idea who they are or what they want and am now forced to turn off my cellphone while working which leaves a critically ill family member unable to reach me directly.
Steve	Dublin	CA	IT IS NOW TIME FOR THE FCC TO "FISH OR CUT BAIT"
Linda	Reno	NV	I get about 10 a day please stop this.
Barbara and R	Matawan	NJ	Eating dinner? Sleeping? Changing the baby? Say NO to home & cell robocalls!!!!
Andre	Woodbury	CT	If it were not for possible emergencies, the robo calls are enough to make me drop the phone service. And they are just scams. Surely you can do something to stop them. I can't.

CAROL	PALATKA	FL	PLEASE HELP US KEEP OUR SANITY BY LIMITING ROBO CALLS.
Paul	Lompoc	CA	On my Go Phone I pay for each call. I don't want to pay for robocalls!
Mario	Miami	FL	As an very senior but still active individual, I urge you to stop helping bandits criminalize us. How is it possible that a criminal calls me (unwanted and unrequested) to offer me with: a) help with the balance of my credit cards, b) a loan, c) analyse my retirement etc. AND NO PHONE NUMBER APPEARS ON MY PHONE SET? or. "unknown? Do not call list works only for real companies. Crooks, (your partners in crime) do not respect that and nobody prosecute.
Kenneth	Christiansburg	VA	Please help stop all of the many harassing robocalls that I receive on both my home and cell phones. I receive between 4 and 10 everyday from about 7 am to 10 pm. I understand that companies, legit or not, use robocallers because they are cheap employees that constantly work. But they ignore the fact that the machines are rude, inhuman, and very degrading to real humans. Opening the door to robocallers for one small industry will only make their use legitimate for all other "businesses" whether the law approves their use or not. It's akin to "If Johnny can use robocallers, so can I" and then will come the discrimination law suits. Legitimate and ethical businesses understand the impersonal and meaningless relationships that robocallers portray and the destruction of those relationships that follow and will avoid such self-destructive practices. But we need help to prevent fly-by-night and other scams from using these inhuman practices. Thank you.
Cherie	Marthasville	MO	My husband and I must screen all our phone calls because of constant robocalls. These calls are invasions of our privacy, demanding our immediate attention. Permitting unlimited debt collection robocalls to cell phones is unacceptable. Debtors, friends, and family could be persecuted day and night. Please issue strict guidelines for these calls, including notification of the right to stop receiving calls, limitation of the number of calls to no more than three a month, and calls only permitted to those who directly hold federal debt, not family and friends. Calls should be civil, including information as to how debtors can make a reasonable arrangement to pay their debt, not simply threats of dire consequences for non-payment. Cell phones have become a necessary part of modern life, keeping us in contact with not just with family and friends, but with employment, doctors, insurance agents, and other important contacts. We do not have the luxury of completely ignoring calls. To permit unlimited, unregulated robocalls to debtors, family, and friends, would turn them into instruments of persecution. You have a responsibility to protect citizens from such treatment. Please do so.

Stacie	La Plata	NM	End this Bull*\$#! Now.
Jean	Winnetka	IL	We pay for every fraction of a minute utilized by our cell-phone lines. As a result, unsolicited calls, including and especially, robo calls, are not only an insult, distraction and time utilizer, but an additional cost (tax) of maintaining that line. They are outrageous.
Linda	Phila.	PA	End calls !
gerald	west haven	CT	They just "troll" for working numbers. I have a pay as you go phone and resent that they cost me \$0.25 to call my number. I'd like it to be illegal.
Hazel	Apex	NC	If they are going to call me on my cell phone, they should have to pay for the service like I do. It's bad enough that I have no interest in whatever they are pedaling - a product, a religion, or a political party. Whatever it is - don't bother me - especially at meal time or after bedtime!
Richard	Castle Pines	CO	It's difficult enough for my 91 year old father to navigate the new technology world. He uses a cell phone so he can contact family or help in his time of need. He has begun to receive robocalls and scam perpetrators on his cell phone making him susceptible to abuse. PLEASE provide "no-call" protection for cell phones.
Andeea	Raleigg	NC	Stop allowing free hassles!
David	Patterson	MO	Please adopt the strongest possible limits on robotic calls to cell phones. They invade my privacy, are beyond annoying, and cost me money by wasting my minutes without my permission. Limiting them to business hours is not sufficient because I occasionally work nights and sleep during the day.
Lynn	Savannah	GA	It is ridiculous for me to be paying for a phone for unsolicited calls. Stop robo calls!!!!!!!!!!!!!!!!!!!!!!
Daniel	Los Alamos	NM	My phone is listed on the do not call list yet after a thousand last and final chances, extortive warnings about arrest warrants issued someplace or another, proclamations of IRS collection notifications, the caller ID showing a local number yet conveys a recorded message of a fantastic opportunity for a cruise, and the other six or seven times my phone rings each day with the caller ID saying "Toll Free," I don't find any upsides to having a telephone at all.
Sandra	Alhambra	CA	Robocalls to my land line have caused me to drop that service, but robo to my cell are still an annoyance and frequently come at terrible times and eat up my usage. Please do something to stop the robocalls to cell phones
Kim	Fairfax	CA	landlines or cell phones, unsolicited advertising is annoying. I let my answering machine take all my calls now.
Stephen	Grants Pass	OR	Dear Sir or Madam: My iPhone number is on the do not call list, but I receive robocalls almost daily. Please do something to make these calls stop.

ANITA	CHARLESTON	WV	Please adopt strong robocall rules. These calls needlessly interrupt our lives, and often you can't hear or understand the person calling. I am on the " No Call List" with all of my phones, yet I still get many of these annoying calls. If you make the mistake of talking to them, you have to be rude and just hang up, because they will do everything in their power to keep you on the line. Thank you for taking the time to listen to our side of this problem.
Anthony	Newton	MA	I have had to disconnect my landline because of the continual interruptions from Robo Calls. I still keep it active and pay a bill just in case FCC ever takes Robo Calls seriously and helps to stop them.
DOROTHY	ATCO	NJ	I PAY FOR THE SERVICES I WANT OR NEED. I DON'T WANT ANYONE IN PERSON OR BY PHONE DISRUPTING, DISTURBING OR INTERRUPTING MY PERSONAL SPACE.
Shirley	Alliance	OH	This has got to stop. All these calls are so annoying, especially during supper time. Hopefully our voice's will be heard soon!
William	Huntsville	AL	Stop robocalls period. I am on the don't call list but the calls haven't stop. So I want you to stop these calls.
Dorothy	Greenville	SC	I'm sick of receiving unsolicited calls frm politicians, persons selling, surveys, etc. Etc. Pls take whatever measures are necessary to stop such calls!
Dexter	Loveland	CO	It's not just the time spend on the phone figuring out that it's a robocall -- which is expensive enough -- it eats up time on my cell plan. This is a completely unfair use of my time and money.
Michael	Baltimore	MD	I am getting about 2-3 robocalls a WEEK on my cell phone. Also we don't answer the land line at home anymore because TOO MANY calls come in with lots of different caller ID's. Also, I have all our phones numbers on the Do-Not-Call list but this really doesn't stop them.
John	Moody	AL	Please STOP ALL Robo-calls!
Jerone	Ider	AL	Please quit invading my life.
Bob	Dallas	TX	Robo calls are a scourge worse than cock roaches. Disruption, distraction and harassment are their hall marks. Exterminate them!!!
William	Coatesville	PA	I get over a dozen robo calls a day. This is no less than abusive. There has to be some way to stop it!
Dorothy	Princess Anne	MD	Robo calls are an invasion
Kim	Easthampton	MA	Please stop all the robo calls- it seems most days the robo calls outnumber the real phone calls. It is very frustrating to own a phone! It used to be nice to hear the phone ring and expect to talk to someone. Now there is not even a person and it rings all the time- early in the morning until late at night. It is insane! Please stop the calls!!
Robert	Bloomington	MN	What a nuisance these calls are and in solicited. Please prevent them

Patricia	Land O Lakes	WI	I pay for incoming calls and text to my cell phone. I carry it with me at all times because I expect nothing but the occasional important phone call. I do not want to be disturbed during my activities by unwanted phone calls, especially robocalls.
Catherine	Salt Lake City	UT	FCC- I oppose robocalls to my cell phone without my permission. Debt collectors often intimidate, harass and threaten using robocalls. Often debt collectors contact someone who is not the debtor causing anxiety and distress (as a result of the debt collector's failing to perform adequate verification and research). Although I have no such debt, I was contacted by a collector repeatedly until I took extraordinary measures to locate the company, supervisor and responsible parties to have my number removed from the company's files. This took over a week and a few hours time. It was a nuisance and harm as well as a time suck. Not all consumers have the resources and time to respond, and unscrupulous debt collectors prey on the public without restriction or regulation. Please require specific notification by these callers to cell phone owners; place limits on those contacts--including use of the call method by collectors only to those who directly hold federal debt. Require the guidelines to be clear and readily available. Provide a remedy for those harmed by these calls. Unscrupulous debt collection entities want to protect their own direct business interests at the cost of cell phone owners privacy and peace of mind. Please take strict and clear action now. Thank you.
Nif	Holmdel	NJ	I recieve robocalls all day & night on my home & cell phone. This happens every day & are either scams or unwarented promotions. This needs to stop.
Gregory	Coshocton	OH	I've received hundreds of these calls...Constant interruptions for some BS reason...Having a phone shouldn't subject one to this harassment...STOP THEM !!!
Richard	Clementon	NJ	I am sick of getting calls from people I don't know, didn't ask to call and when I ask them to take my name off their calling list, I than get twice as many calls in the following months!!!!
Michael	Broomall	PA	All robo calls should be stopped including ones from politicians, paid solicitors for charities.
James	marine	MN	I am handicapped and struggle to get to my landline phone. A robo call is a terrible and inexcuseable.
Reva	Glenview	IL	Please stop the robot calls. They come at all hours and it is impossible to opt out. Bridget from credit services doesn't give up
Harold	Hillsdale	NJ	I receive 2 to 3 calls from a machine every day. Because it is a recording I cannot protest. The government protects me against breaking into my house. Why must I tolerate getting into my house via telephone??

Alfred	Erie	PA	Please disallow all annoying, persistent robocalls. We are both in our 80's and should not be receiving calls other than from our children and friends. We well remember the days when those were the only calls we received. Most people, regardless of age, are sick and tired of getting these calls, some of which are from the same number, several times a day. Another annoyance is that they come from just about every state in the union; guess they're hoping you know someone there and will pick up, which we never do.
Jerry	Arlington	TX	Every single day I get at least two robocalls on my cell phone. One around noon and the other around 5 pm. They come from every state in the union and are never ending. As soon as I see it is a number I don't recognize I go to silent and don't answer. Sick and tired of it. Knock it off. It's a waste of my time as well as the caller.
Trudy	Las Vegas	NV	My phone is for my personal use not for unwanted advertisements, or worse, for potential exploitation by those who seek to scam me. It is annoying to be disturbed from any activity by a Robocalls.
Marshall	Briarwood	NY	Robocalling is a crime. It is tolerated 100% by the very government that made it a federal crime! Therefore.... A large taskforce of both FCC investigators and FCC police need to be on standby, carefully investigating all robocalls on all levels (wire tapping, ip tracing) and a concomittant power of arrest, launching both civil AND criminal charges that are automatic and irrevocable. These criminals steal identities, hide in an unauthorized and untraceable way, and flagrantly break the law! IN addition, those civil charges I'm talking about? EACH person who gets a robocall gets a judgement for the max amount as per the law, as well as collection enforcement! They ENDLESSLY harass us. Now YOU should endlessly.. do your fucking job and endlessly GET THEM! Uncle Sam, you should be ASHAMED of yourself! PUT the CRACKDOWN on the SMACKDOWN AND STOP BEING PUSSIES.. Follow your own rules. Investigate, probe, interrogate and arrest these life ruining criminals IMMEDIATELY!
Trudy	Narragansett	RI	I am 69 years old. I have no carry over monthly debt. My FICO score is 825. YET, I receive 4-5 calls every day from credit card companies, get-out-of-debt-hawkers, computer fixers, etc,etc,etc. Where does it end. I BUY my cell phone minutes. So when these people call (and even more text or email) they are stealing from me. Please, take action. Make it STOP
David	Tallahassee	FL	I am retired and my phone rings 10 to 20 times a day. I don't know them and have never done business with them. Century Link will do nothing to stop them. Please help

Clarence	Bean Station	TN	Please STOP all Robo-Calls to Cell-Phones / Home Wireless (Home Phones) without ok authorizations from the owners. I am annoyed by the repeat calls with no obvious way to stop these unwanted calls. I would like to see Legal Ramifications on repeated undesired calls. HELP, please!
Bruce	Lake St Louis	MO	Please make robocalls stop. Why should I have to pay for a phone call that I don't want. I have a limited number of minutes on my phone monthly. Answering unwanted calls can cost me extra. Not to mention the sheer aggravation of the call. Please make it stop.
Wilson	San Jose	CA	Please rule against costly and disruptive robocalls to cellphones. Thank you, elected representatives.
gail	bethany beach	DE	I think these calls are an invasion of my privacy. I do not have debts that are in collection but I constantly receive calls about lowering my interest rates on my cell phone and home phone. This is an invasion of my privacy. They are usually very rude or hang up if you ask them to remove me from your list. They use phone numbers that cannot be redialed to say get me off of your phone lists.
Patrick	Hockessin	DE	Please make cellphone robocalls illegal. Also make cell phone numbers private. Thanks.
Mary	Newport Beach	CA	My husband is seriously ill. He needs a new liver. We live in a small apartment and you can hear the phone ring from any room. We cannot turn our phone ringer off because we could get a call at anytime, saying we need to get to the hospital ASAP if there is a Liver available for transplant. He is so ill and the only time he is out of pain is when he is asleep. It is not an exaggeration to say a Telemarketer will call as many as 6 times a day on some days. Even our friends and family are careful not to call in order not to disturb us. I bathe him daily and help him dress, but I must drop everything to rush to the phone "just in case".
Frank	Wayne	NJ	They are irritating, rude, obnoxious and selfish. They are totally self serving. They lie, cheat, and deceive.thy name is robocall.
Nathan	Staunton	VA	Their annoying as hell. And not everybody is in debt up to their eye balls. Please. We will say no to robo calls until the day we die. Good luck with the fight.
Edward	North Port	FL	These calls are an intrusion on people's time and they are unwanted and very unpleasant and disturb the tranquility of our home. Shame on those marketers who use such a sleazy tactic. I will never buy anything from a Robocaller and resent their intrusion on my time. We keep our phone line for important and family calls only.
Chris	Birmingham	AL	Liars, thieves, grifters, con artists and telemarketers. They are all unwelcome scoundrels. Please help us gain a small amount of control over these parasites.

Sheryk	Oakland	CA	These calls come EVERYDAY any where from 1 - 13 calls per day. This is VERY annoying, disturbing and bothersome to receive these calls. Askto be put on DO NOT CALL listing, but that is a JOKE. Can they PLEASE mandate some type of law to STOP!! these calls.
Lavoyed	Lexington	KY	Robocalls have become intolerable and I owe no money to anyone--yet I get 2-3 a day most days. Please help stop this!
Steve	Lexington	SC	Like many others, I am subject to numerous unsolicited robocalls that are costing me real money. The calls very often begin with "Hello, My name is Debbie and I am calling you from Credit Card Services about your account....." Enough to know to hang up, but that call counts against my plans allotment for minutes in a month. Many of the calls come with area codes that are ones I don't recognize, so I don't answer. But many of these calls, even if they originate overseas, will use a local phone number to get you to answer. I have health issues, including cancer, so I am expecting calls from doctors offices that I need to answer, therefore I am not always successful screening the calls. Before robocalls were legalized for cellphones, we would leave our cellphones on when we laid down to take a nap to receive calls from family members if they needed to reach us. We felt secure with the knowledge that our landline calls would take the brunt of the robocalls while our cell phones would only be receiving wanted calls. Please reverse the decision on robocalls on cellphones. Your Do Not Call list is worthless and does nothing to prevent these calls even though my cellphone and landline calls are both registered there.
Patricia	Dry Fork	VA	Please pass the strongest rules possible to eliminate robo calls to phones.
Jon	Oro Valley	AZ	I receive 2 - 4 robocalls a day! I have always paid my debts on-time. These calls are from people that "bought" my cell # and/or other info. from on line businesses that I have done business with. What has happened to our, the American citizen, privacy and security? Who does the FCC really work for? They seem to be for sale to the highest bidder. We, the American citizen pay their wages. Where is Congress? I have filed my NO CALL form, 6 months ago. What is the cost of that organization?
August	East Grand Rapid	MI	Please stop these robo calls.

Edith	Snohomish	WA	As a retired attorney, I still hear dismaying reports from former clients, friends and families about robo-calls to their cell phones from collection companies. Most are not the actual debtors. (I myself even got a call which was trying to reach my next-door neighbor!) Even when an "option" is given to stop the calls - it frequently does not work. It is beyond frustrating to have no control and no resource which will actually help. PLEASE protect individuals: Limit robo-calls/texts from debt collectors to cell phones to once a week or less; to the debtor only; create clear guidelines -- and put real teeth in any penalty the collector faces for violations. Thank you.
Audrey	Fridley	MN	We deserve to be protected from all robocalls. In most cases we have no way to stop them and they continue on and on. This needs to stop and it's your responsibility to give us the tools to stop these unwanted calls.
Miriam	Anthem	AZ	The number of calls received on a daily basis is ridiculous and people are being scammed every day by these calls.
Robert	Cambridge	MA	The FCC is not doing the public justice by allowing Robocalls unregulated calls. I am on the no call list,Huh!! That doesn't work let's see if YOU can get this right.
Jackie	Mission Vieño, CA	CA	Bought a new house in a new zip code. For five years I got robo calls from debt collection companies from prior owners of phone number and address. I would tell them I wasn't their party, but 6 months later they would resale debt and it would start all over
Kenneth	Mahwah	NJ	Robo calls to my cell phone if I do not have a student loan or owe back taxes but a relative does should be abolished. Ditto if the prior individual had my current cell phone number. My time is precious to me and I don't relish unwanted calls
Ralph	Wetumpka	AL	been trying to get rid of annoying robo calls but cannot as they just change to a different number. Please help me stop them. I do not owe anybody anything and I want to stop annoying sales, solicitation for donations and even political and polling calls. I do not need any help deciding who to vote for and who I am supporting is nobody else's business.
Brendan	Bronx	NY	The constant annoyance has to stop. All day everyday. It has to end
Friedhelm	Westwood	NJ	I hate robocalls! Luckily I have an answering machine and don't pick up those phone calls. However, when I'm away for a few days, my answering machine may overflow and stop receiving "good" phone calls. Please help in stopping robocalls!

Michael	New York	NY	I know you are reviewing the use of RoboCalls to Cell Phones, but I would like to see you ban all RoboCalls to anyone without their opt in permission! This would apply to any phone, cell or landline. I am not sure why email providers are technically required to get permission to email me, and yet marketers can just randomly call numbers to advertise their service. If you make the punishment great enough, I think you would be doing all Americans a huge service!
Rose	Bandon	OR	As a senior I know it is not always easy to get to the phone. It is not easy to get a cell phone out and answer it in a public place. With all the noise and whatever is going on there can be a lot of confusion regarding what the call is about. If I miss it I worry that it may have been important from one of our friends or relatives. If I get it in time I cannot always understand that it is just a robocall. It can be very frustrating. On top of that some of us pay for every minute we use our cell phones. That just makes me angry.
Fred	Coronado	CA	Please eliminate the cancer of robocalls.
Arthur	Germantown	TN	The fact that major phone carriers have allowed Robocalls and invasion of personal privacy to exist for their profit borders on criminality. Think of the myriad of individuals involved in medical care, infrastructure services such as firefighters and police who work shift work, only to have their rest repeatedly disturbed by invasive Robocallers. Many of these people are on emergency call and simply can't turn off their phones. This insanity has to stop!
Raphael	Atlanta	GA	Most of the robocalls were made during our dinner time that drove our family crazy even our home number was under Federal No Calls protection. Please stop any robocalls to minimize our family time and stress. Thanks.
Andrea	Ham Lake	MN	I am old. Many of my friends refuse to answer the phone because they think I'm another robo call. This is interfering with our social life! I recently cancelled by landline to get rid of the robo calls. Three things happened as a result: 1) The robo calls started on my cell phone. 2) I couldn't use the landline to help me find my cell phone when I keep misplacing it 3) I had an emergency and my cell phone was not charged and I had no landline to use to call emergency. Pleas for the sake of us older folk get rid of everything related to robocalls and those awful people who keep harassing us!
Jerry	Eugene	OR	Please stop these annoying and useless calls.
John	portsmouth	VA	take act to stop robocalls to cell phone, It cost me money every time I get one. I am on Fix income.
Shelia	Spartanburg	SC	I pay for the convenience of my phone. I do not want to hear from sales groups, beggers, etc. i would not have a phone were it not necessary for my family. Soon NO ONE will want phones.
Sandra	Cary	IL	Please save us the hassle of robocalls!

Suzanne	Thousand Oaks	CA	I am fed up with robocalls that plague me day and night. Now, even my cell phone isn't safe from these calls and texts from people I don't want to hear from and have put them on notice that my numbers are on the Do Not Call list. While I do not have debts that collectors are after -- I pay my bills -- others I know and care about do. I want you to make sure that debt collection agents who robocall notify us that we have the right to stop receiving robocalls. Limit the # of calls or texts allowed to no more than 3X/month -- and only to the person who directly has federal debt, not their friends and family. Furthermore, these guidelines should be extremely clear, easily understood, and readily available. Thanks.
Patty	Wheeling	WV	Robocalls are an invasion of privacy and annoying. And if I personally don't have an overdue student loan. DON'T CALL ME! Thank you.
James	Stanford	CA	E-mail as a useful communication method has nearly been destroyed by the HUGE number of junk mails one receives and not looking carefully amongst all the junk to find occasional important messages that were put in with all the junk. Allowing robocalls to cell phones will ultimately have the same effect as one will begin to refuse to answer any call not in your calling list and miss calls from people you really wished to talk to. Provide the greatest protection possible to prevent this oncoming disaster.
John	Colorado Springs	CO	STOP THE DAM ROBO CALLS I get sick of Rachel with Card Member Services, when you block one phone number they call on another phone number, sometimes two to four times a day. Also getting fed up with the callers that want t extend your warrenty on your (Ford) that you ha never owned. There are so many other callers doing the same thing. This is pure bull s***.
Joanne	Lady Lake	FL	Robocalls are not only annoying but it prevents other calls from getting through especially those calls that could be an emergency from a loved one! Please stop Robocalls also encourage scams to continue!!!
Wilma	Wheat Ridge	CO	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock.

Rick	Austin	TX	Please don't let debt collectors (or anyone else I don't give my number to) call or text me on my cell phone. I specifically limit the number of people I give my cell phone number to so I won't be distracted by incoming calls while driving. Even with hands free capability I still have to check incoming call IDs and reject the call. Phone carriers (cell and landline) should also make it easy for me to block robo-calls and the guidelines should be clear and readily available. Thanks for helping me control my incoming calls and remain un-distracted while driving.
Sara	Seattle	WA	Stop robocalls to both cell phones and land lines!
Cindy	Mooreville	NC	Robo calls are a gross violation of our privacy. No one should have to endure them. Stop them now.
Judy	Eagan	MN	I oppose robocalls to my cell phone (and my land line) without my permission because I don't know if they are true and honest and they are a poor use of my time.
Linda	Stillwater	MN	I am sick and tired of getting these calls. They call multiple times a day using different numbers and even using our own telephone number. Something has to be done to put a stop to this. They are even using our cell phone numbers so there is no way to escape them. This practice is intrusive and annoying and needs to be stopped. Please put rules in place to end this.
Gamal	Greenville	TX	I have been receiving robocalls and live calls despite being registered on the do not call list since 2005. Any relaxation of regulations will only make matters worse for consumers like myself. Please stop these intrusive calls.
Norman	Boxborough	MA	I average 1 to 2 robocalls a day. None of these calls show who the real caller is or their phone number. The most annoying are from Cardholder Services. I have tried unsuccessfully to contact the main office for Cardholder Services to request them to stop calling. Being list on the Do Not Call list has been unsuccessful. Please help stop robocalls.
Michael	Los Angeles	CA	My unlisted land line phone number is on a pirate phone number list that is repeatedly sold and resold to telemarketers and scammers who target me by my age and economic status. This has been going on for 3 years with up to 10 calls a day. I no longer answer my phone unless I recognize the caller. My message asks the caller to leave a message or their number will be blocked and the phone is set to automatically block calls that have no caller ID. The phone will block up to 250 numbers and I have to erase the older blocked numbers to add up to 2 or 3 new numbers a day. These phone calls repeatedly interrupt my wife's afternoon naps. Phone companies should offer unlimited call blocking..
Michael	West Allis	WI	Dear FCC, I receive 10 - 15 robocalls a week. Many of them repeat calls that don't give up when no one ever answers. Please provide us with laws so this nonsense can end.

Mark	Wampum	PA	FCC, Robocalls need to be stopped. It is out of control. State and Federal Do Not Call lists appear to be useless because there seems to be no meaningful enforcement of the laws. I believe it is possible they are now used by marketers to identify in use marketable phone numbers. The majority of calls I now receive are robocalls. It is getting to the point that having a phone wastes more time, is so annoying and is more hassle than it is worth. Smoke signals may be preferable. I got a new phone number a few months ago and since then most of the calls are debt collectors trying to reach the previous person who had that number. At a minimum the following should be done: Debt collection robocallers must notify us of our right to stop receiving calls and there should be one number or website for all debt collectors to be notified. The number of allowed calls or texts should be limited to no more than one per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear, readily available, easily instituted and easily enforceable with meaningful fines escalating to imprisonment. When someone is given a new phone number or when someone abandons their number, it should be the responsibility of the phone company to notify debt collectors and others that the phone number is no longer used by the previous person and is now in use by someone new and unrelated. I am sure the FCC will be told these suggestions are not technically feasible or unenforceable. Do not believe it, in the computerized telecommunications world virtually anything can be done if industry is simply forced to do it. They have created the problem and they can fix it if there is monetary motivation, either profit or avoided loss in terms of significant penalties escalating CEO imprisonment. Enough is enough. Mark Russell
John	Loves park	IL	I do not want unsolicited calls on my cell phone
James	Mt. Holly	NC	I have over 120 auto reject numbers in my mobile phone. These ARE NOT debit collectors but they are fake IRS, Credit card company's and or vacation scams. I believe some are from my own cell provider to get us to use up our data plans. One number calls 5 times a day and the number is 312-948-7554. I should be able get compensation for this.
Marian	Rancho Santa M	CA	Please adopt strong rules to end robocall right now.
Hillary	Kansas City	MO	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
DR KATE	NAHANT	MA	Wastes our time, interrupts our work & for those who have to pay per minute, it costs them to receive these calls. PROTECT US! NO ROBO CALLS ON CELL PHONES!!!
PATRICIA	QUINCY	MA	There is no public benefit to allowing this nonsense to continue to annoy and often defraud the public. Please protect the consumers of America.

ron	coatesville	PA	Same people every evening, almost naver person talking just silence. Need i say more?
Judith	Redondo Beach	CA	FCC, I hate the 5-10 phone calls I get on my Land Line through Frontier Comm. When owned by Verizon, I made the mistake of listing my phone No. which went on all the Robocalls lists. Now it is not listed and I still get many calls per day. Please find a way to eliminate these very annoying calls.
Barbara	Prescott	AZ	Just stop it
Darrell	Carnegie	PA	These calls should not come to friends and family of those who have a federal debt obligation but only to the person holding the debt and those calls should be limited to two per month.
Michael	Silver Spring	MD	Robocalls are a destructive and corrosive factor in communications. The FCC has an obligation to safeguard the national telecommunications system by regulating these calls. The FCC should provide opportunities and mechanisms to stop these unwanted automatic calls, and provide visibility as to who is making them. I am particularly opposed to robocalls to my cell phone without my permission, because these automated calls can be placed thoughtlessly, without any significant cost, and impose significant external costs and burdens on the recipient. Furthermore, there is no opportunity to obligate the business to stop calling me.
TED	MADRAS	OR	I AM ALMOST EIGHTY YRS YOUNG AND AND VERY TIRED OF RUNNING TO GET THE PHONE ONLY TO FIND IT'S ONE OF THESE ROBOCALLS "PLEASE DO SOMETHING ABOUT IT" ITS NOT RIGHT WE SHOULD NOT HAVE TO DEAL WITH IT. THANK YOU
CORDIA	OAKLAND	CA	THEY USE DEVIOUS WAYS TO GET YOU TO ANSWER THESE CALLS. SOME USE NAMES THAT YOU MIGHT RESPOND TO. SOME UNKNOWN CALLER, NAME NOT FOUND ETC. I SPEND MORE TIME ANSWERING THE QUICKLY STOPPING THE CALL.THESE CALLS ARE NOT JUST FROM BILL COLLECTERS BUT FROM ANYONE WHO FEELS THEY HAVE THE RIGHT TO CALL WHENEVER THEY WANT TO. I'M REALLY TIRED OF ALL THE CALLS FROM NO ONE I'M INTERESTED IN TALKING TO!
Michael	Lawrenceville	NJ	No more robo calls, please
Marcella	Maurice	LA	I am getting robocalls on my business line which frequently ends up being saved in voicemail. Becasue of this I have no way to unsubscribe. I am getting anywhere from 3 to 23 robocalls a day and it's not anything that even has to do with me. Further the person they are trying toreach is deceased. Grrrrrrr. I've had it!!! It's tying up my time and blowing my evenings to hell. It's got to stop!
Carolyn	Va. Beach	VA	You are wasting people's precious time by calling them on their cell phones without their permission in the first place. Cell phones are supposed to be private means of communication between one person who calls another. Invasion of privacy and private time should be the main consideration.

Steve	Bloomington	IL	No Robocalls for any reason. It's as simple as that. I am not wasting any of my minutes on any Robocalls from any one. Do not allow any.
Stephen	Macon,	GA	I get calls from collection agencies for people I don't know demanding that I put them on the line. I am told the conversation is being recorded and could be used against me in a court of law. I informed the agency I don't know the person and to stop calling me. I get a call the next day from a different phone number with the same message. I wish nomorobo was mandatory for all phone carriers. ie. at&t, cox, ooma.
Barbara	Old Hickory	TN	Please do everything in your power to stop this harassing and ill-timed calls. I get calls on my cell phone and home phone at 1 minute before 8 am and until 9 pm at night. The calls are for people I have never heard of and when I ask them to stop calling, I get replies from "okay I will take you off my list but there are many other people with the same list"; OR " You just want us to stop calling because you know the person I asked for"; or they just hang up. These calls are annoying, harassing and ridiculous. Here is a true example of how horrifying these calls are - my mother passed away and a few months after she passed I got a call from a debt collector telling me that I had to pay \$10,000.00 for a bill my mother supposedly ran up. I told the person she had passed away and he said he knew that is why he was calling family members to pay off this debt. When I asked him for details he said he did not have to provide me any and that I had to pay the bill. I told the scum bag what he could do with himself and the company he worked for, then hung up. I then called the rest of the family to tell them about this and found out that 2 more of my siblings had been contacted that same day by another collection company and they could not get any more information that "she racked up the debt and it is too bad that she died but the family has to suck it up and pay her bill". We went through everything and found nothing that showed she owed money to anyone; the bank suggested we contact the states attorney for where my Mom lived and file a complaint. We did that but the calls kept coming for several months.
David	Winston Salem	NC	Take whatever steps are necessary to end all Robo calls. They are harassing, invasive and cost money (air time). Make the rules applicable to domestic operations of all cell phone carriers. Please implement these rules as quickly as possible. Thank You.
virginia	houston	TX	All robo calls including political ones should be opt in only. I'm dreading what the fall will bring with political calls combined with the 5-7 robocalls I get per day. All are unsolicited and most from dubious sources.
Elmer	Aurora	CO	I like very much to be rid of the harassing Robocalls that constantly harass us . I have a phone for my use not for unknowns to access me and interrupt my rest and sleep.

Linda	Windham	CT	I am tired of receiving calls that are not warranted. Very annoying. Time something was done.
Kathleen	New Brighton	MN	Please limit or better yet eliminate robocalls to cell phones and landlines! They are a nuisance and are very bothersome! The guidelines for any robocalls need to be clear and readily available to all parties.
Herb	Los Lunas	NM	I have received many calls to my cell that are in fact for someone else, who may have given out this number. No mater how many times I have ask the callers to stop calling because I am not the person they are looking for they will call again and again.
Irene	Piqua	OH	I am very busy & do not want to answer calls from third parties that I want no contact with. I am not interested in anything that I didn't initiate first.
Beverly	Surprise	AZ	Please FCC do your job and make it impossible to robocaller our cell phones or any phone.
Arthur	Ripon	WI	Please end all robocalls to cell phones and land lines. They are an absolute nuisance on any phone at any time for any reason. I have no debt and most of these calls are political in nature or selling some product or soliciting funds. I do not want then at all.
David	Modesto	CA	I am astonished at the current volume of unwanted calls I receive on my cell phone from both illegal contact (fraudulent onshore and offshore calls) to illegal/legal but unwanted robocalls. As soon as I get off one list I am added to another. I am retired and must pay for each of these unwanted calls. Whether it is the fake IRS caller advising me of an alleged lawsuit, but I can pay now to advertisements to phishing. Please help stop this activity or give me the ability to stop them.
marie	dallas	TX	Please stop robo calls.
Jack	Columbia	TN	I have rights and one is NOT to be bothered with unnecessary phone calls interrupting my personal time and business. If I want something I will research on web and then call whom I wish to talk. Stop this ugly invasion of privacy now.
Millard	Charlotte	NC	Robocalls are a nuisance and the public should not have to tolerate it on such unwanted and unsolicited basis. I personally bought my cellphone for my usage and not for salepersons to interrupt my life with useless widgets and services. When I need something, the Internet is limitless.
Bruno	Princeton	NJ	Please say no to all robocalls: it truly is extremely intrusive and unfair. Thank you

Mary	Edina	MN	Please, please stop robo calls--business and political solicitations. They are deceptive (use my local area codes to disguise themselves), offer no value to the receiver, and are a flat-out nuisance. I get as many as four calls a day, seven days a week. Further, calls or texts to my cell phone are those that I could end up paying for--actually making ME pay for a call I didn't solicit and don't want. Robo calls invade my privacy. Currently there's no recourse on my part. Please, FCC do your job on behalf of all American citizens who ask that robo calls stop. Now.
Michael	Eugene	OR	Harassment is not a right. It has nothing to do with freedom of speech and it is never protected by any inspection of state or local laws. It is a form of terrorism. When you are constantly harassed your life is affected. Your work suffers from an inability to concentrate. Your family is constantly on edge because of the harassment and intimidating use of an invasive and privately owned family form of communication like your home phone. And on your cell phone it is worse. Please lets stop the use of unwanted communication from robots and bottom feeding blood suckers. Its bad enough to have to trudge through the vile texts when you go on the internet, it's a whole other thing to have them auto shipped into you life day and night. STOP the Robocalls.
elanor	piggott	AR	please stop the robocallers. i receive from 6 to 14 a day and i'm so sick of it. thanks
Harold	Harker Heights	TX	So far, I am able to block calls from robocall's on my iPhone. I have a home landline and can't stop the many robocalls I get on it. My provider TWC has not offered any solution. Please take immediate action on any way to restrict these day and night annoying calls.
Richard	Ozone Park	NY	I keep getting calls to my cell phone and I want to stop it NOW. They come all times of day or night.
Charlie	Providence	RI	Please do not modify your proposed rules for robocalls from debt collection companies and agents. They work for the consumer yet provide an option for the companies.
James	Henderson	NV	Please stop the unwanted intrusions on my privacy. If i want a company's service, I will call them, I don't need they violating my privacy.
Denise	Berea	OH	Robo calls are coming from politicians, companies claiming to be non-profit organizations and at a time when I am also receiving IRS Scam calls. My phone company AT&T refuses to block calls unless I buy a \$150/month package from them. I am a senior citizen on a fixed income but without debt and I have renewed my phone do not call status regularly. Robo calls are a harassment I should not be subjected tp.
Cynthia	Santa Monica	CA	I am so mad and frustrated with robocalls. I never answer any call that I do not recognize the number, but I still get at least 50/day. Nothing seems to discourage these callers.

Michael	Sterling Heights	MI	Debt collection robocallers must notify us of our right to stop receiving calls and honor that right. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. I am only responsible for myself, NOT others. The guidelines should be clear and readily available to all people and robocallers in ANY INDUSTRY should honor the guidelines and not use tricks to get around then. There should not be spoofing of the telephone number they are calling from.
Craig	Salt Lake City	UT	Please end robocalls. I get calls which are obviously not an actual person, but a recorded voice trying to sell something. I am not interested and have tried to put all my phones on the no-call list. PLEASE stop this unwarranted invasion of my privacy.
lucky	pasadena	CA	FCC please implement the strongest possible rules against robocalls to cell phones. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. STOP ALL UNWANTED CALLS TO LAND LINE PHONES!
Ruth	Newburyport	MA	I buy minutes for my phone and they are wasted by these unwanted calls. Please stop them!!
Jane	Sioux City	IA	Robo calls are distracting invasions of our privacy. No one should be allowed to have access to a large number of US citizens for the purpose of disturbing their lives. Stop access to lists and fine those organizations or businesses that use robo calls. Jane Hey
Gregory	Idaho Falls	ID	I get 2-3 of these phone calls a day
Robert	Morganton	NC	It frequently seems as though the "bad guys" rule America. They are smarter, faster, better funded, devious and without guilt. They are impervious to the pain, suffering and cost which they impart to society. We the honest, hard working citizens of this great country through our elected leaders must take a stand to eliminate these offensive robo calls. Why does our government stand idly by while the deviates invade our homes several times per day, every day ? Make something happen!!! Support the FCC.
WILLIAM	DAYTON	OH	I STRONGLY URGE THE FCC AS WELL AS ANY AND ALL ADVOCATES FOR THE PREVENTION OF ROBOCALLS AS WELL AS ANY AND ALL UNSOLICITED CALLS TO PLEASE TAKE THE NECESSARY STEPS TO DO SO. I BOUGHT "MY" PHONE FOR "MY" PERSONAL USE ONLY.
Stephen	Columbia	MD	I receive many unwanted calls that have no identifying ID. These calls can come in the early morning and are not welcomed. I should not have to be awakened by random callers.
Terry	Parker	CO	I am 80 and it is a lot of trouble to answer the phone, thinking it could be my family only to find out it is a robo call. Thinking it is something important only to find that it is the same group with a different id on phone. we tell them we are on the no call list but they still call.

stephen	bluffton	SC	calls done by machines that are done repeatably. this is harassment. Constant hang up when you answer. PLUS it uses MY phone gigs.
Evelyn	Massapequa	NY	It is absolutely infuriating that I am receiving robo calls 4-6 times per day that don't even apply to my needs. I have filed "Do not Call me" for all my phone #'s. BUT, companies have found a way around this resource. Voles see end ROBOCALLS !!!! Thank you
Fred	Kirkland	WA	The most disturbing invasion of privacy in our country today is not the Internet, Facebook or In, but rather the unwanted solicitations, typically at family and dinner time, by uncouth, impolite, hucksters trying to sell some unwanted product or even phony, solicitations for money. It can spoil the entire evening or a day off. Please help to put an end to this after years of our suffering. Thank you for making life a little better.
Heather	SHREWSBURY	MA	Please do anything, and everything you can to stop robocalls. They are an invasion of our privacy. And have caused many of us to no longer answer our phones unless we recognize the number calling, or wait for the caller to start speaking to our machine's so we know who it is first. Many robocalls even make the incoming call look like the caller is a recognized number. The no call lists are so disrespected. Please help.
John	Dayton	OH	Efforts to thwart unwanted robocall (and marketing calls in general) have resulted in robocallers using false phone numbers so that you can't even block them. Yes, robocalls are annoying and almost always unwanted, but if they forced to offer and "opt out" option and we're forced to stop fabricating phone numbers, I could live with robocalls. However, as it is now, the robocallers have all the advantage and recipients are truly unable to exercise any action to stop them.
Benedict	Ft. Worth	TX	I strongly oppose ALL robocalls. I am a senior citizen and probably receive 5 to 10 robocalls EVERY DAY. I suspect most of them are not legal. Why can't you arrest some of the people doing this - just give ONE of them a ten year jail sentence and the rest will probably stop. It's an invasion of my privacy, and this is one reason why (in case you haven't noticed) the electorate is fed up with Washington. Please do something about this.
Glen	New Madrid	MO	Stop robocalls !!!
Pamela	Fond du Lac	WI	The calls are annoying and disrupting in my otherwise calm world. Sooooo Please let's put a stop to them.
Ron	Long Beach	CA	Robocalls to cell phones should be strictly regulated and limited. The FCC should establish guidelines limiting robocalls as much as possible--no robocalls of any kind without permission would be ideal.
Diana	Bluffton	SC	I am tired of being harassed by callers on devices that we pay for. The fee we pay should ensure that the public marketers should not have access to these private phones. I pay the bills and am bothered by these pests. Stop the assault. I feel violated.

Gregory	Jonesboro	GA	I am receiving between 2 and 8 calls per day on my land line phone. If you allow this practice to occur on my cell phone I will not be able to afford the phone due to data charges. And since you cannot stop these calls on my landline I don't think you can stop them on my cell phone as well. Also I ask that debt collection robo callers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available for everyone to see and read. I would also like to see prosecutions for violations of the calling regulations and huge fines assessed. This is the only way you are ever going to stop these practices.
Steve	Las Vegas	NV	Please work on regulations to end robocalls. I receive many robocalls from parties I do not have a business relationship with even though I have an unlisted number. Some of these robocalls are repetitive and come 1-2 times a week. Obviously, the purchaser of my phone number comes from illegal means. Cox, my phone carrier does not care, even though they charge my a monthly fee for not listing my number. Do the right thing for Seniors.
Nancy	Pomona	CA	Please stop this intrusive, invasive and annoying practice. It should be our right as citizens to not be plagued by this!
JOHN	CLARK	NJ	STOP THE ROBOCALLS NOW PLEASE.
Jim	Blue Ridge	GA	No phone call, please.
Jack	Nashville	TN	We need peace. Please stop All robocalls!
Patricia	Titusville	NJ	Please stop these calls, they now come daily on my cell phone which costs me money!
Robert	Millers	MD	I did not purchase my cell phone with the understanding that it would be a platform for unsolicited sales calls, surveys and fundraising activities. Please give me back my personal communications device!
Joyce	Summerville	SC	If you don't want the robo calls to your home or cell phone, then don't do it to the rest of us. I never want to receive robo calls.
Maureen	Sunnyvale	CA	Just sick of them all the time. Call early a.m.,late p.m. Leave no message,when you answer they hang up. Call at the wrong time,breakfast,diner,helping kids with homework. I just hate it anymore when the phone rings. This morning at 9:00,one from m.s. society,another from Utah ,that was just this morning. Please do something.
peter	beaverton	OR	it's totally getting out of hand
David	Morrison	CO	Please take the strongest action possible to stop robocalls to cell phones. The only exceptions should be for emergency services. Though this is beyond the scope of this action, I strongly believe that robocalls should be prohibited to any telephone. Thank you for your consideration.

Linda	Deerfield Beach	FL	Robocalls are the majority of the calls I receive and I especially am unhappy when one comes to my cell phone. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.
Dave	Sacramento	CA	I use my cell phone for emergencies and urgent calls from immediate family. I do not want robocalls. I get several a week. They are very disruptive, unwanted, and unhelpful. Please end them!
Joseph	Barrington	IL	Please stop the Robocalls as soon as possible please
Nathaniel	Austin	TX	There's nothing worse than getting Robocalls on my cell phone, especially when I'm careful about who I give my number to and how I use it. So, just stop the Robocalls to Cell Phones, already!
Patricia	Huntington Beach	CA	How can access to a debtor's cell phone make life better or debt collection easier for debt collectors? It can't. But it can cause people who are in debt and miserable about it to take desperate measures, and I'm referring to a recent rash of college-age suicides by young adults in debt. Credit cards are now handed out like candy and they're even more destructive to our health than sweets, but our most vulnerable populations are targeted most -- the very old, the very young, the desperate. Stop predatory lending practices and then robocalls won't even be an issue for discussion.
Paul	Hillsborough	NJ	I have been plagued with constant phone calls both on my cell phone and land line. Most times the calls would just ring 4-5 times and hang up with no message. This happens 6-8 times a day. Please do something to end the aggravating non phone calls and being on the do not call register doesn't seem to help much.
Randy	Punta Gorda	FL	I Have signed up on the national "do not call" list and also on Florida's "Do not call" list, and it hasn't helped at all! In fact I seem to get more Robocalls when I send complaints to both lists! And now I am getting ROBO calls to my cell phone. Isn't there any way to stop this madness? I am sure that our current "Do Nothing" congress won't do anything, because it might cut back on all the financial support they get for campaign expenses, plus all the junkets they get to take at the expense of big donors.
Jim	sun city center	FL	Please stop them
Roseann	La Mesa	CA	I am old and I need naps. I can no longer race to the phone from my couch or from outside while gardening without actual strain and pain. Please leave me alone. If i want your product and can afford it, I can get it without you bothering me.
Terence	Cumberland	MD	I am getting calls to upgrade a credit card, purchase windows, go on a cruise and countless calls where there isn't even anyone there when I answer. I want it stopped now!

Jane	Loganville	GA	The debt collection robocallers currently do not leave any information so that we can tell them to stop calling. A family member receives several such calls per day and it is not even her name or a family member. Robocallers who are violating FCC rules and regs should be subject to stiff fines and penalties which can be gotten in small claims courts, no matter where they are located.
Walter	Burbank	CA	I receive up to 10 robocalls a day. It is very distracting interferes with my work and waste my time . These people who run these systems don't have any respect for the do not call list and the people they are calling. Please put a stop to this. Thank You
Charles	Racine	WI	Some of my children have debts, I constantly get calls related to these debts, It is almost a daily event, except it is more like HARRASMENT...even after I explain that I am not the debtor...the calls continue !
frank	delanco	NJ	no robo calls on cell phones. very distracting when driving a car!!!
Bob	Poughkeepsie	NY	Dear FCC, I would strongly prefer that the FCC do whatever it can to prevent any type of robo call or debt collector from making calls to cell phones. Legitimate debt collectors can use the US Mail to contact their customers. I especially do not want to see an increase in the quantity of unsolicited offers received on my cell phone. The robocalls to the phone in my house are enough of a distraction and interruption. I certainly do not want companies, scammers, people asking for donations, etc calling my cell phone. respectfully yours, Bob Wiggin
John	Edmond	OK	No robo calls on land or cell phones. I have already receive a few on cell phone. Now is time to stop it once and for all.....
Tammy	Memphis	TN	I have my phone for my friends and family to call me not someone or thing just to bug me or try to sell me something. I do not have money for this. It is very irritating.
Karen	San Antonio	TX	No robocalls to ANY phones - over 90% of my calls are unwanted robocalls!!!!
jonathan	westlake village	CA	And there is no way most folks can stop them. Do Not Call list is a joke. We have the telecommunications (who want to make more money) in cahoots with the scumbags of the world who want to fleece us. Lets stop it!!
Ed	Omaha	NE	Please put a stop to Robocalls as they are a constant annoyance on our family as they call day & night via our home and cell phones. They should be treated like the Telemarketer were.

Jeff	Randolph	MA	The Do Not Call list was good idea at the time but it does not work. After a while I started tracking who was calling on a spreadsheet. Since 2008 I have 1175 calls which were either robocallers or telemarketers. If you try to block them on your phone, they change the number, have numbers that do not exist such as 000-0000 or spoof other numbers. Today alone I have had 4 calls from one number and 3 from another. Now they've started calling my cell phone. The FCC needs to stop this waste of consumer time. You can google many of the numbers and find people complaining of same at www.800notes.com .
Richard	Millbury	MA	Please end robocalls
Keith	Bend	OR	I have been harassed by a computer tech company. They are a scam, I never signed up for their services. They keep switching phone numbers so I can't block their calls. This should be illegal! Please put a stop to this kind of harassment!
Sally	Berwyn	PA	Please stop the onslaught of robocalls! It's an annoyance and fills up my answering machine so that I can't get important messages while I'm away!! It's gotten so much worse in the past year!
Corbett	Corpus Christi	TX	on many occasions I have had to stop in the middle of work or play to answer a call that turns out to be a robocall. many times the caller disguises their identity to trick the owner into thinking it is someone they may know. it is a waste of my time and money as well as very rude. PLEASE STOP THEM NOW!
Robert	Salt Lake City	UT	These people invade our privacy and destroy our ability to have peace and quiet by sending us garbage messages take them away
Paul	Oakland Gardens	NY	Please put an end to these, I am on the National Do Not Call list, it doesn't stop these calls at all!!
Robert	Wynnewood	PA	Please stop annoying and threatening robocalls.
Donna	Holly	MI	I have a busy life. I not have time to answer Robocalls.
Roger	Nashville	TN	My cell phone is my lifeline for business and personal matters. The presence of constant robocalls is an interference with that. Please put a stop to robocalls today.
Ed	Raleigh	NC	Please restrict robocallers! Since they can't get a signature (or money) over the phone, the only reason to call is to hassle. That is not right, and it should not be legal.
David	Bakersfield	CA	Please adopt regulations to stop Robocalls to my cell phone. Dealing with them on my land line is frustrating enough. In this age of almost unlimited interconnection, a degree of privacy would be much appreciated.
Tod	Park Ridge	NJ	Please act quickly to stop robocalls to cell phones. They are an annoyance and an invasion of privacy.

Dennis	Greenacres	FL	Debt collectors assume that billing errors made by them is automatically consumer debt. Which when unresolved is their condemnation of the consumer. Then then use robo calls at 8am,12noon, 5/6&8pm daily.FCC need to five Land line companies to make call blocking free to their customers to level the field against robo callers. Cell phones need to be protected against robo callers that assume they have right to call individuals anytime day or night during work/church/emergencies, etc.
Ray	Richland	OR	I bought my cell phone for my use, not as a conduit to sell me something....
Bill	aledo	TX	Every month sees an increase in these abusive calls. Please take action now.
John	Danbury	CT	These calls take energy and space from our phones and invade our privacy. They are unwanted!
Elaine	Ft Myers	FL	I get these robo calls all day long. They come from area codes from all over the country. If you can stop them, why don't you?
Chris	Acworth	GA	Please consider enacting stringent no call guidelines for robo-callers. They are an annoyance that keeps getting more and more prevalent and they continue to call and are a major pain. Thank you.
Ernesto	Austin	TX	I have made the decision to automatically boycott any business that sends me a robo-call. They are obstructive and undesirable.
Denise	Upland	CA	I receive calls all day long on my cell phone that I haven't asked for from sales people and scam artists saying I owe a debt which is not so. Please stop this invasion into our privacy as I never give out my cell phone # to anyone I don't know.
Ralph	Surprise	AZ	I support the FCC efforts to regulate no robocalls to cell phones.
John	Fort Belvoir	VA	We are military and often change phones which means we often get someone else's old number and THEIR debt collectors. Please at least give me a person.
Robert	Houston	TX	For years I have endured robocalls to my land line, and therefore more and more I have given my cell phone number to personal and business contacts, thus obligating me to answer that phone. Now I find that those same robocalls (Rachel, cruises, etc) are coming to my cell phone. These are of course 'illegal', just as the spoofed numbers that hide their origin are 'illegal'. Obviously, more laws do not help. We are told that it is technically impossible to do anything about this, because of VoIP and other 'advancements'. I do not believe this. I call on the FCC to use the same techniques to find these crooks as they would to find terrorists or other criminals.

Norm	Olympia	WA	I oppose robocalls to my cell phone without my permission. The only exceptions should be from governmental entities for emergency notifications such as Amber alerts. Most importantly, the procedures for reporting violations of this policy should be simple and easily available. Otherwise, there is little incentive to try to report violators if the process is difficult, obscure and lacking in feedback to the user.
John	Culver City	CA	I've had the same phone number for decades. I'm on the no-call list. Yet, in the past couple of years, up to 90% of my incoming calls are unsolicited telemarketing and robocalls. I thought about changing my number, but the robocalls would obviously find their way to the new number. AT&T couldn't care less. It's intolerable and the government does nothing to enforce the no-call list. Give us the necessary tools to get our lives back! Thank you.
ADRIEN	CHICAGO	IL	A waste of my personal, private time. It's a repetitive process and must be terminated forever w/o renewal of privacy request. It must be considered as a given rule, ordinance and a privacy law.
Susan	West Seneca	NY	Please stop robo calls and debt collectors being able to leave messages on answering machines letting people in the home know someone's private business.
carol	newark	DE	why is this being aloud I dont owe or have these things they keep calling about Why is it aloud
Bert	Oklahoma City	OK	Probably half our phone calls are "Robo."
John	Marshfield	MA	Constant, unwanted harassment sales calls from 9:00 AM to 8:45 PM
Carol	Post Fakks	ID	It's past due for these companies to stop calling people. It's time-wasting, irritating and unwanted - to the max! STOP!
Dorothy	Bonnors Ferry	ID	Cell phone calls worse all the time. Requires stopping whatever we are doing (including driving). Many cell calls are between me and my husband, often business calls and occasionally emergencies. WHY does everyone else in the world have the right to use OUR phone?? You can stop this--probably many options. Oh, that's gonna cost you. Who cares? All this "privacy" stuff is hilarious. We have NO control over our phones.
Vera	Monrovia	CA	The unsolicited telephone calls are NEVER WELCOME and OFTEN DISRUPTIVE of our meals, restful periods, tasks requiring concentration etc. STOP THEM or AT LEAST REGULATE THEM as suggested above.

Paul	Bonita Springs	FL	I am now receiving an average of 2 robocalls per day on my cell phone. They interrupt my routine, and I never gave my number or permission to any of them asking them to contact me. I must answer, wait in the silence for a response at the other end which usually results in a disconnection or hang-up. I owe NO unpaid loans or debt and they are typically marketing or predator-type calls. These daily calls are useless aggravation and must be stopped.
John	Metairie	LA	Current legislation outlawing unwanted calls and solicitations is a sham. I have been receiving calls after my number has been placed on the "Do-no-call" list, and after notifying the appropriate authorities of these violations, am still receiving these calls with no enforcement action being taken by the US Govt. Now the worthless operatives are using the "Robocalls" to irritate and aggravate those of us with Cell and hardline phones, with no method of stopping this activity. I think that the FCC should require any and all agencies which make more than 50 unsolicited calls to cell phone (and landline phones) within a 6 month time span to be registered with the FCC, by way of organization, board membership, caller id, registration of those making the call (full name of operator and other vital information) and an FCC identification, along with a penalty for making unsolicited calls which result in complaints. Prohibit these organizations, companies or individuals from making such calls with a fine attached to each violation. Should these individuals, companies or corporations conduct such business or "Robocalls" without FCC identification then they would face a fine and imprisonment.
Joe	gardenerville	NV	The telephone is not a device which can be allowed to be used as a device of terror. The disruption the unwanted calls subject the victims of these calls to is unacceptable and any normal human being would think so. It is time that the purpotrators of such actions be brought to justice. Repeat offenders must be jailed, not just fined. The threat of jail time for these ruthless individuals will make them back off and prevent their disruptive activities.
Heidi	Lititz	PA	It is imperative that these calls STOP!!! I am a caregiver 24/7 to a 90+ year old and these calls are a huge waste of my energy & time! Please help us correct the flaws to this irritating and disgusting waste! My time & energy are worth much more than any of these constant calls all day/night long. Please STOP these calls immediately~! I beg of you to listen to us, the citizens of the USofA....
Charles	Daphne	AL	Please help us get rid of robocalls. My 92 year old aunt, who lives with us and has her own phone line, get as many as 5 a day. We receive about that many also.

David	Chaska	MN	Please, please do not allow robocalls to cell phones. It is invasion of privacy and harassment.
jay	nottingham	MD	PLEASE act to stop robo calls on my cell phone
William	Chapin	SC	I receive 2-3 per day, almost always in the evening, none of which are "overdue payments or debt related". I would expect to receive ZERO robo calls to either my land line or my cell phone. I particularly do not want ANY political survey calls, marketing calls, Nor do I want those placing theses calls to "sell" or "give" my numbers to any other person or organization.
Brigitte	Arlington	TX	please control these cell phone calls, it is very annoying
James	Pinson	AL	Tired of receiving these calls and I have to be rude and hang up to get them off the line.
Thomas	Lahaina	HI	No robocalls to cell phones ever!
David	Warwick	RI	Robocalls are disruptive and annoying. We receive 7-8 of these calls per day on our land line. Allowing this plague to spread to cell phones will double the annoyance and disruption. Robocalls should be banned, not expanded.
Ken	Bend	OR	Please stop robocalls PERIOD. I get several calls on my cellphone daily form "spoof" phone numbers. This is an intrusion on my privacy and valuable time. In addition to the robocalls themselves, the practice of "spoofing" telephone numbers should be illegal. If an individual or company wishes to use the nation's infrastructure they should not be allowed to hide behind phony phone numbers.
Susan	Tallahassee	FL	I cannot begin to express my frustration at this incessant action. To have to stop and answer the phone while I am busy as a wife and homemaker angers me beyond description. It is my opinion that if what they are trying to say is so VERY IMPORTANT then they would have a real person on that end of the phone. If they REALLY want the public aware of what they are trying to impart, they should take out a large ad in the media of their choice. I have always hung up on robocalls & I intend to continue this.
Harry	youngstown	OH	LEAVE ME ALONE. YOU ARE NOT WELCOME TO CALL ME OR USE MY PHONE NUMBER WITHOUT MY EXPRESS INVITATION. NO IFS, ANDS, OR BUTS. I WILL MAINTAIN MY RIGHT TO PRIVACY. END OF STORY.

James	Indianapolis	IN	I paid off my student loan in the early 1980s. Yet I keep getting robocalls telling me to consolidate my student loan which I do not have. I am on the Indiana No Call list and that does not help. I tell them I have no student loan and again and again I get the same calls over and over. I could write volumes on credit card consolidation and loans. I have zero balance on my credit card yet I get these calls 3 to 4 times a week, sometimes 2 or more times in one day. And the scams claiming to be Microsoft and they detected a problem with my computer. There is nothing one can do but to ban them completely. Otherwise you jerks will build in a loop hole that a fleet of mac trucks will be able to drive through.
Peggy	Henderson	NV	Years ago people with unlisted home phone numbers paid for their privacy but weren't getting it with Robocalls. Now people with cell phones, paid for their cells, and are entitled to the same privacy on their cells phones. Some people may still have services where they have to pay for incoming calls. Therefore, what right do these companies who generate Robocalls have thereby making people pay extra for these Robocalls violating a person's right to privacy. So, please do something to rid consumers the annoyance of receiving Robocalls since these Robocalls are violating a person's right of peace and quiet, the consumer did NOT invite these companies to contact them so the companies are invading a person's right to privacy.
Stan	Salt Lake	UT	Please block ALL ROBO CALLS!
Jack	Spring Hill	TN	In spite of enrolling on the "Do Not Call List" for both cellphone and landline calls, The robocallers now "spoof" who the call is from and continue calling with no fear of penalty. Reporting robocall violations from a spoofed number is a useless waste of time and energy for me, and for the departments charged with enforcement. Perhaps a requirement, similar to "Reverse DNS" verification, such as exists with internet email would help.
Norman	San Antonio	TX	Robocalls need to be outlawed on a Do Not Call list unless we opt in ! Heavy fines for violations, that are not tax deductible.
Tricia	Portland	OR	I have a voice disability. Answering the phone is never fun for me and many people have a hard time hearing what I have to say -- particularly when I say NEVER CALL ME AGAIN. PLEASE!
Frank	Iselin	NJ	Answered call. Said hello 5 times each one louder. Finally person answered and admonished me for yelling and then wanted donation. This has got to stop!
Eunice	Temple Hills	MD	Over all the years, I have always taken the advice of FCC and called the do not call number for both landline and cell. Nothing has ever deterred the robocalls except a free service that I received where the phones ring at least once, which is still a nuisance. Do you really want to help consumers?

Larry	Camano Island	WA	Robocalls are an intrusion of one's privacy; and, are an usurpation of another's personal time and right to avoid unsolicited noise via public telecommunication lines & airways.
Elizabeth	Castle Rock	CO	They are more than an annoyance. I get charged for incoming calls also.
Kimberly	Dunedin	FL	I give my cell phone number only to certain individuals, as I typically regard any call coming in to my cell as potentially important. I do not wish to be forced to dig my phone out of my desk at work and run outside to take a call, just to find out that it's a junk call. If I'm receiving a debt collection call, it's a hoax or scam. I agree with the case put forward by Consumers Union to require the following: 1) Debt collection robocallers must notify us of our right to stop receiving calls 2) The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family 3) The guidelines should be clear and readily available Please help protect consumers by putting these into place, especially those consumers who are not able to financially afford to receive these types of call on their phone plan. Thank you.
Michael	Okahumpka	FL	Dear Sirs, I am sick and tired of these 'ROBO CALLS' as they have been labeled. I have changed my number 3 times in the past 4 years to try and get away from them. They are annoying and I have had them harass me and my wife. I have added our numbers to the so called "Do Not Call" list and still get the calls. I should NOT have to pay for an attorney to stop them. I have even called them back and been cursed out with the "F" Bomb many times. I have asked them to remove my number from their calling list and informed them that my name is NOT Leutmala and I did not apply for a payday loan. I block the number they call from and within 2 days they're calling again through another number. I'm allowed to block so many numbers and my block list is almost full. When my phone rings I know by the number if it's a "ROBO CALL" or not. One day I received 5 calls from the same people different numbers in less than 5 minutes. I have a cell phone and a landline for MY convenience and personal use, NOT to be harassed by every bonehead who's trying to make a dollar BULLYING people into their scams. If this was happening on the Commercial and/or Amateur Radio phone patches instead of Cellular and Landline it would have been resolved of by now. Thank you taking the time to read my letter. Sincerely Michael
John	Brookline	MA	I have no outstanding debt, yet I regularly receive calls from people trying to collect money from other people - people I don't know and am not related to. In some cases the name may be remotely similar to mine. Please stop this practice with effective tools and enforceable laws. The number of robocalls severely interferes with my ability to use my cell phone and land line for the reasons I bought them.

Shirley	Elkton	VA	Stop the Robocalls. Nobody wants them coming in to disrupt their lives.
Linda	grand rapids	MI	I am sick and tired of the endless robocalls that are coming through my cell phone. Please put a stop to them.
Suzan	Golden	CO	Robo calls are offensive, intrusive and annoying. When they are made to my cell phone, I have to pay 25 cents per minute for a call that I do not want to get. Please help to protect my privacy by stopping the use of robocalls to any phone. Thank you, Suzan
Henry	Washington	NC	I am still bombarded by robocalls. PLEASE take action to stop them.
Thomas	Seneca	SC	I am receiving an increasing frequency of robocalls and unsolicited junk sales calls to my cell phone. Please stop them. They waste my time and money.
Don	Kailua-Kona	HI	Tired of screening unknown numbers and malicious texts around the clock,tired of robocalls like many others,especially with concerns about hacking prevalent. Calls should be very limited to those that hold federal debt.
Magdy	Manalapan	NJ	Life is a nightmare with these constant phone calls that disturb you all time of the day it like some one is hammering your head non stop with nothing you can do about it one feels hopeless to live in peace withing the wall of his own house and the only thing I have done is to connect a phone to my house. Please do something about this hell of nightmare please
evelyn	Edmond	OK	I receive 4-6 robo calls on my cell phone a week with offers to lower my credit card rate. I don't own a credit card. I ask every operator to remove my number and every time they hang up mid sentence. Why aren't these companies being fined and arrested for harassment? The Do Not Call Registry is ineffective if stiff penalties aren't handed down to those companies who ignore the list. The incoming number is close to my cell phone number, so I know it's a ghost number. But if the US government can crack an iphone without Apple's help, someone can certainly figure out how to trace these scammers down.
Loretta	Albany	CA	I truly hate robocalls. They are invasive and exploitive. They are frustrating. Please, I urge you to do something to end these calls.
David	Lewes	DE	I receive 10-20 bogus calls on my cell daily, as does my wife. Stop it!!! If you can't stop it, make it harder for them; and easier for us (the consumer) to report these persistent fools!!!
Johnny	Orange	TX	I get about 5 to 6 calls a day from all over the US. I don't answer. Every thing I have is paid for.
Anne	Downingtown	PA	I keep getting robo calls from the IRS telling me they are going to sue me. I know it's a scam but why does the public have to put up with calls they don't want and are not interested in. You are allowing people to be set up for scams.
Jim	Elgin	IL	Please put an end to robocalls now!!
Maureen	Garden Grove	CA	Please put an end to these annoying calls now. Just yesterday alone I received 5 such calls.

Larry	Cincinnati	OH	I'm so tired of getting these calls. I have a west coast area code but live on the eastern time zone, I get these unwanted calls waking me up every week. I should have the right to restrict access to my cell phone, please restrict these calls.
sandra	smyrna	DE	I have begun receiving Robocalls on my cell phone. Even though I have my phone on vibrate during sessions (I am a psychotherapist) I can still hear the calls when they arrive. It's annoying and I didn't get a cell phone to be harassed by telemarketers.
Gail	Golden	CO	I find robocalls intrusive, annoying and an invasion of my time and space!
Janice	Guilford	CT	I am tired of getting Robocalls on my personal as well as my work phone. I pay for these phones and should not have to pay for unwanted solicitations or waste my time screening the calls. I am a visiting nurse and I can't tell you how disruptive it is to remove my gloves to take one of these calls or driving on the highway and having to pull off the road and find out it is a telemarketer. Please put a stop to these unwanted calls. I am on the do not call list and it doesn't work.
Ann	Killingworth	CT	I have received several calls from a debt collector. They never identify themselves. I have tried to tell them this is not our debt, they should be calling my son. He live in Iowa, we live in Ct., but unfortunately he and my husband have the same name. When I told them this is not our debt, to call my son, the response is "how do you know? You are very judgemental ,(Obviously this person does not know the definition of judgemental or how to use it.)
Rebecca	Evanston	IL	Please put an end to all robocalls. Elderly people do not always know the difference between legitimate calls and those who only want their money! So annoying to be interrupted at any time even when all phones are on the do not call lists. And how do they get your phone numbers?
Joseph O	Anywhere	TX	Even though I have put our home phone number on a Federal no-call list it doesn't stop marketing calls. From fix my Windows computer, home security, to refinancing my home. How can I stop this? Do something. I get at least six calls a day and usually at dinner time. If it keeps up, I will get rid of my phone and go cell totally.
Sue	Crossville	TN	robocalls on cell phones can interfere with a driver when the phone rings and serves no purpsor other than to annoy people!
Tim	Oak Harbor	WA	When I say "No to robo calls that should mean NO and that's it!" I get charged for every text they send and that adds up. Unless it's my doctor or a friend or family member I shouldn't be receiving any other cell phone calls it's as simple as that. Besides they get enough advertisements in places like billboards TV and the like why should we be pestered where ever we go.

Cherry	Oro Valley	AZ	I am strongly opposed to robocalls to ANY phone! I believe it is an invasion of privacy to allow robocalls. If robocalls to cell phones by debt collectors are allowed (which I object to) there must be strict guidelines which should be clear, concise, and readily available to all. Calls should only be allowed to the person who actually owes the debt and no one else! And there must be a right to invoke to stop receiving such calls.
Brooks	Lafayette,	CO	We are fed up with the automated calls coming to our mobile phones from unknown locations and unidentified sources. If they are calling for a valid reason, the caller should identify themselves and advise us of our right to stop receiving calls. The caller needs to speak clearly so they can be understood. Also, calls should be limited to no more than three per month and only to someone who holds federal debt - not their relations. These guidelines should be made clear and easy to access in many formats.
Laurence	Nicasio	CA	Please give "we the people" protection from a constant annoyance from unwanted phone calls for entities that are trying to sell you something that you have not asked for, nor want.
Robert	Loudon	TN	Every day we get unwanted calls that have been from the same group. We have been getting them EVERY DAY for years. We are too old to have to deal with this
Julie	Santa Barbara	CA	We all love the convenience of a cell phone. We all boil at the intrusion of uninvited robo calls and sales pitches. Please do whatever you can to stop the angering and time wasting robo calls.
John	West Hollywood	CA	I'm on the national Do Not Call List, still I receive at least five robocalls a month on both my home and cell phone. I report ever call at donotcall.gov but the calls keep coming! I'm disabled out to AIDS and on a fixed limited income, every time I get one of these calls it sends me into a panic or worrying that this will be the beginning of some sort of Identity Theft, which would paralyze my financially.
William	Seattle	WA	We object to having our privacy invaded by robocalls. We do not pay for our telephone service to provide a free advertising medium for unwanted solicitations.
Geri	Burbank	CA	Robocalls are interruptive, assumptive, impersonal and rude. They break your focus on what you are doing with no benefit to you. They must be stopped entirely.

Mark Lawrence	Phoenix	AZ	I receive harassment calls from unknown callers every single day 24-7 and I have voice mail and the abusive caller(s) let the message line run and no message which is Elder abuse to all the senior citizens and also these purps steal money from Senior Citizens daily which is Elder Abuse as well. You MUST stop these criminals from destroy the United States and the Citizens thereof. No other political organization cares a rats tail for the citizens of the United States and I pray to Almighty God that the FCC will or Almighty God come down from heaven and destroy these criminals. The Senior population is susceptible to these criminals as they impersonate their relatives and convince these Seniors to drain their bank and savings accounts to assist a relative who the caller is not.
Byron	Pleasant Hill	CA	I am sick and tired of being interrupted by robocalls. Ban the practice all together. I am registered on the no call list but get them on a daily basis anyway.
Gerald	Santa Barbara	CA	Please, no robo calls.
Dean	Crownsville	MD	Please take the initiative and require cell phone providers to setup a way to block robocalls to our cell phones similar to Nomorobo that we use on our house phone. Those that initiate robocalls offer no social advantage to anyone and are just using them for their hurtful economic gain.
P	Weaverville	NC	I strongly oppose robocalls to my cell phone for any reason, especially for debt collection.
Sheldon Mase	Aventura	FL	Can't have a complete dinner without a phone call!
Randy	Fayetteville	AR	I am sick and tired of robocalls to my cell number. I am so angry I want to do harm to those companies who waste my valuable time!
Peter	San Francisco	CA	Please take measures to end ALL robocalls [NO EXCEPTIONS] to those who want NOT to receive them, including those who have a debt that robocallers call to try to collect. Perhaps you could establish an opt-out telephone and/or web site, or a place to register, to opt out.
Don	San Jose	CA	I get contacted from 8:00 am until about 7:00 pm. I. Am retired and I would love to sleep in without the rob calls or turning off my phones. I Don't have bad credit, they usually mess me by something. I am adult if I need work on my house or solar I will call you. We do not need robocallers.
Ellis	Leesville	SC	please do something.....
DAVID	Bar Harbor	ME	A great distraction and interruption to my days
Marcia	Boston	MA	Please enact strong provisions preventing debt collectors and all marketers from making unwanted robocalls to cell phones, and while you are at it, to the landlines of those of us who still have them (my landline got one every five minutes for several hours one day last week). Modern life has enough frustrations and interruptions without these awful calls!

Royce	San Diego	CA	They do no good here. I have an answering machine that requires them to identify themselves.
Joan	Laughlin	NV	Depending on your plan cell phone calls cost the cell phone owner money. It should not cost me money because someone who had this number before or who is related to me owes money. Cell phones go everywhere with us and robo call harrshment via s cell phone is an invasion and disruption of personal space and privacy.
Charles	Ooltewah	TN	Robocalls are destroying an important means of urgent (and other types) of communication. Please stop them. The callers have all the power.
Janet	Banning	CA	It is high time for the FCC to stop all unwanted robocalls. I cannot imagine anyone who would say they actually want to receive them. Take swift and decisive action against those who bombard us with robocalls. Make the punishment severe enough to be a real deterrent and not just a slap on the hand.
Frank	Kenner	LA	NO ROBO CALLS EVER... WE GET 6 - 8 ROBO CALLS PER DAY, SOLICITING ALL SORTS OF THINGS... I HAVE REGISTERED MY HOME PHONE & CELL PHONE THREE(3) TIMES ON NATIONAL DO NOT CALL TO NO AVAIL. THE DO NOT CALL REGISTRY STINKS, IT HASN'T EVEN SLOW THE CALLS DOWN. STOP THEM NOW PLEASE!!!
Gary	Hudson	FL	Please do not allow robocalls to people's cell phones. We are constantly bombarded by media and advertisements each minute. Please don't have unwanted calls sent to an individual's cell phone. Thank you for your time and interest.
Carol	Davis	CA	Please- no robo calls to cell phones. Dangerous and disruptive since cell phones are with us while driving and walking. Please, please allow us to have privacy with our cell phones.
Lisa	Bellingham	WA	I do not want Robocalls to my cell phone! Please stop robocalls now.
Feisal	Silve Spring	MD	Kindly have these calls stopped. This is cruelty to us the population of people growing old who are in desperate need of peace & quiet.
Deborah	Boyertown	PA	Please put a stop to robo calls that are being made to cell phones. I can't tell you how many of these calls I have received! I don't have any student loans. I am not interested in free federal grants that I don't have to pay back, ans I don't owe any money to the IRS. It's getting ridiculous. Please do whatever needs to be done to make these stop! Thank you for your time and consideration Deborah Lawhorne
Alice	Advance	NC	I gave up my land line because of robocalls. Now my cell phone is receiving them. I'm elderly and can't afford to be without a phone. Please stop this plague.
Jeff	Gualala	CA	While you are taking on AT&T and Robo Calls, which I support, tell Congress to stop discrimination of broadband in rural areas. In 1938 we got the Rural Electrification Act!!! Children here go home where there is no internet to do their homework.

richard	dana point	CA	I buy cell phone services from Verizon. I only give my cell phone number to family and a few friends. However, a few robocall organizations have somehow obtained my cell phone number. They call at any/all hours attempting to get me to buy something, take out a loan, take a survey or support some political group. My cell phone is for MY use and I don't want these interruptions!
Thomas	Leesburg	VA	First of all, I have no debt, but I continue to get calls on my cell phone offering to refinance my debt. I do not answer calls from numbers I don't recognize, and using the info. in the voice message just is a dead end. Appears as though just providing an option is enough for these people, not a working way to stop the calls. What is wrong with these people sending certified mail if they have to get a hold of a debtor. Seems like that would work just fine, unless of course these companies want to scam you as I believe the ones calling me do. I understand there are legit companies, but allowing the current system to run free, just provides a path for the shady side of the business to flourish. As far as number of calls, sending it certified mail would eliminate any calls. The government needs to remember who they work for, the people, not companies. Allowing companies to dictate government policy unfortunately almost always is manipulated by the companies to their advantage at the expense of the American people.
Clyde	Prescott	AZ	Every time they call it costs me \$1 as I have a prepaid (expensive) cell plan...and I get one a day!
Debbie & Lew	Woodland Hills	CA	We are so tired of unwanted robo calls and are seriously thinking of eliminating our land line because of it. We want these intrusions stopped!!!
pat	white house	TN	believe it or not there are still people like myself - retired or with a low income that use pre pay phones. these robo calls are not only invasive but costly. not to mention they could be using up minutes on completely wrong numbers. please limit or eliminate robocalls ,
Stephanie	Chesterton	IN	I oppose the sending of robocalls to my cell phone without my permission, because it wastes my time and is completely and utterly annoying.
James	Richardson	TX	A person should be contacted by any company giving the person the opportunity to stop receiving robo calls or texts unless that person is a direct holder of federal debt. A holder of federal debt should in no case receive more than three (3) calls or texts per month from any company attempting to collect such debt. Finally, the guidelines outlining collection efforts should be easily findable and be written in plain, unambiguous language.
Blythe	Corona Del Mar	CA	I give my phone number to those I want to call. I'm elderly & don't want to hurry to the phone for a sales, fundraising or political support call. It is a violation of privacy to use the number I pay to use!

Ryan	New Orleans	LA	Robocalls are an annoyance that needs to end. They interrupt us at home or work when we are busy with other tasks and take time away from our jobs and our friends and family. End them now.
BARBARA	RIDGECREST	CA	Previously, I could not qualify to stop Robocalls because Verizon did NOT support the feature but Frontier did. Frontier just took over Verizon so i again applied for ending Robocalls only to find that i AGAIN DID NOT QUALIFY BECAUSE I DID NOT HAVE FIOS. I cannot afford to have FIOS - So what do I do now? This is unfair in so many way and in my opinion, an ABUSE OF POWER by the phone providers to force you to get higher services if you want to stop this never ending source of calls - even on the weekends, Sunday included.
KL	Portland	OR	In the past three months my phone number, that I've had for 23 years has been added to the list of numbers targeted by scamming robocallers. I receive three to five calls a day beginning around seven AM and ending by 8:30 PM. Because the majority of my family lives out of state, and I have close members with health issues, when the phone rings at odd hours, it is alarming. I'm living on a fixed income and should not have to pay for caller ID to screen these scamming slime bags. More importantly, there are individuals who routinely fall prey to the scams. Perhaps they learn about and avoid one scam but new versions are developed all the time - targeting a very vulnerable population. Please create legislation that requires the telephone service providers to block robo calls - similar to the tools used in Canada . Thank you!
Prentice	Hendersonville	TN	please stop all robo calls. All this is does is upset everone that gets these calls.
Chris	Louisville	KY	Please put an end one-for-all to robocalls to my cell phone. They are a huge nuisance and interruption to my day. I work nights as a physician assistant and my cell phone doubles as my pager. I rely upon it for managing patient care and I do not want to be interrupted or disturbed by these nuisance calls. Pt care can suffer as well as my well-being. I plead with you to enact legislation to protect consumers like me. Thank you.
Frank	Richboro	PA	The ROBOCALLERS continue to call after being asked to stop calling time after time. As you try to tell them to stop calling they hang up on you in the middle of your conversation. They tie up the phone lines and prevent calls from Medical Facilities, Hospitals and Doctors being received. The calls should be directed to only those who actually hold debt, confirm that the information and phone numbers are correct before calling. Guidelines should be clear and made available to the person that holds the debt during the call. No threats of violence to the debtor or threats directed to family members.

Catherine	Northborough	MA	Robo calls should not be allowed to cell phones without express permission. These calls along with calls to a home phone are intrusive and extremely annoying. They are especially confusing to the elderly and open many possibilities of taking advantage of them. Please implement a process that tracks and punishes a robo caller for continually calling after a person has asked to be removed from further calls.
Paul	Herrin	IL	Even though I'm on the "Do not call list" for years now I still receive Robocalls from unwanted solicitors and debt collectors for debts paid up many years ago. Since I am not working, these unwanted calls absorb about 1/4 to 1/3 of my talk minutes costing me money I really don't have to spend. Please implement the following restrictions for Debt collectors and Robocalls: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than 3 per month, and only to those who directly hold federal debt - not friends and family members. The guidelines should be clear and readily available to all. The FCC has made the process of stopping Robocalls and Debt collectors MUCH TOO COMPLICATED. There must be a simpler way for the consumer to do these things by adding minimal information on an End Robocalls site and Stop Debt Collection calls site. Thank you for giving me a chance for consumer input. Paul Renfus
Gail	Garner	NC	Please end robocalls to all phones - cell phones and land lines also. Thanks.
George	Arlington	TX	NO No Robocalls to Cell Phones PERIOD!
Robert	Coeur d Alene	ID	We are asking, no demanding, that the FCC ban all manner of so-called robocalls. These invade the privacy of our home day and night and must be stopped. No robocalls should be allowed ever.
James	Rochelle	IL	The no call list is a joke. It amounts to a pee your pants feel good law that has no meaning and no enforcement. It was enacted as a way of making it appear something was done to stop the abuse but has no teeth. The Robo calls have just made it worse.
melissa	asutin	TX	end robocalls
George	Bronx	NY	Disgusting!
MARIO	OCEANSIDE	CA	I WANT TOO INFORM GROUP WITH THE F.C.C. AT PRESENT THIS IS BAD IDEA THIS HOW IDENTITY THEFT IS LEAKED TO PUBLUC WITHOUT YOU KNOWING MY EXPERIENCE AS MEMBER OF N.A.A.C.P. PARTIAL ABPUT MY S.S.I. NUMBER I NEVER AUTHORIZED NOT IN WRITING/VERBAL HAD GIVEN PERMISSION NOBODY HAVE MY S.S.I. NUMBER ROBO CALLS RETRIVE MY DATA UNAUNATORIZED HOW DID THEY HACK MY ACCOUNT NO PERMISSION?
Roger	Southbury	CT	Please set up rules to stop or at least let us easily block robocalls. I get them on my cell phone and me home phone, and they are extremely annoying, and sometimes intimidating. Thanks!

Melvin	Milwaukee	WI	Please put a stop to ROBO-CALLS. Or get rid of the do not call list, because every scammer in the WORLD is ignoring it. Plus the CHARITIES AND POLITICIANS are already loading my Mailbox, ENOUGH IS ENOUGH. Especially the CREDIT CARD SCAMMERS, WHO HANG UP AS SOON AS YOU ASK WHAT CARD THEY ARE REPRESENTING.
Peter	Hubertus	WI	When I changed my land-line phone number several years ago, I started to receive numerous calls from a collection agency directed to my number's former owner. Despite my best efforts to explain that I was not the person they were seeking, nor did that person live in my household, nor did not even know the person, the calls persisted for months. The calls were a nuisance, but cost me only my time. Should the same thing happen on my pay-as-you-go cell phone, I would have been out both time and money. Please provide protections in your debt collection robocall regulations to prevent or quickly address such cases of mistaken identity.
Nancy	Delray Beach	FL	Please stop robocallers who disturb us at ALL hours of the DAY and NIGHT! I don't need them and I don't want them! Please stop them. Thank you!
David	Doylestown	PA	Very disturbing to rush to pick up my cell phone only to find out it's another unwanted call taking up my time and minutes on my allowance
Kerri	Greenwood	IN	Please make the robocalls stop and do not let them call cell phones!!!
Ronald	West Chester	PA	My family is being overwhelmed with robocalls. It is rare that I get a call that is legitimate even though my name has been on the Do Not Call list for years. I'm not receiving calls from lenders, but from many other groups. Thank goodness for Caller ID. Please make this stop.
M.	Burbank	SD	This is long overdue. There has been rights trampled upon in today's society and right's that we do have, like the right to "privacy", that most young people aren't even aware of. Nothing positive comes out of threatening and harrassing people who cannot pay a bill nor want to be hounded about sales. In addition, cell numbers change all the time and these calls whether accurate to the person or mostly not, burn up our paid for time with incorrect calls and messages. Robo calls are have no business in a healthy progressive society. Power to the people!
eugene	irvine	CA	Signing up for the no robocalls option does not seem to be very effective. Anything you can do to resolve this problem would be appreciated.
Ronald	Hawthorne	FL	Do not call registry useless
Jim	Meredith	NH	ROBO CALLS ARE AN UNSCHEDULED AND UNAUTHORIZED INVASION OF PRIVACY AND SHOULD NOT BE PERMITTED AND SUBSTANTIAL PENALTIES SHOULD BE INFLICTED ON THOSE WHO ARE RESPONSIBLE FOR ROBO CALLS.

Al	Waldron	AR	These calls are extremely annoying, especially for a senior citizen. I keep getting yhem despite being on the "no call" list. Sincerely,
Joy	Rowland	NC	I do not owe the government or anyone money yet I get calls for all kinds of debts I don't owe or even know the people. I have stopped answering these call but it is a MAJOR annoyance! It needs to stop now!
Al	Wilmington	DE	I'm on the no call list but I continue to get from early morning up until nine at night.
Richatrd	Duluth	MN	Robocalls, 99% of which end up in the receiver hanging up are a total nuisance, an invasion of your personal space and privacy. Most of the time if you wait for a response after saying "hello" you get no replay anyway. When you take the time to research who is calling it is always a random nuisance call which is multiplied several times all over the country from different sites.
Lenore	Falls Church	VA	There is no sound public policy reason to permit robocalls to any telephoneat all. Those with a genuine relationship to the consumer (whether personal or commercial) can likely be more effective and less disturbing with an actual interaction, in which a person explains the nature of the call and what is requested. With cell phones, robocalls are even more disturbing: They may occur in environments where courtesy to others requires refraining from calls; depending on the consumer's plan, they may be costly to the consumer; they may interrupt other calls to which the consumer would rightfully give higher priority. Finally, as regards debt collection calls: Debt collection robocallers must be required to notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.
Eric	Burbank	CA	Please stop all robocalls.
Janice	Seattle	WA	Robocalls and robo-texts are annoying, seldom pertinent, waste my time, energy and battery. They are an invasion of my privacy, peace and life. Needed are ways to block unsoilcited calls.
Paulette	Salisbury	MD	Its bad enough that I get robocalls to my landline phone, so I certainly do not want them coming to my cell mobile phone too. I am against that practice and I urger you to Stop or Limit it Greatly so that unwanted calls do not flood our Mobile Phones.
Eugene	Fort Collins	CO	The number of scam robo-calls is steadily increasing and you need to take immediate steps to block this activity!
hal	sullivan's island s	SC	please do everything within your power to eliminate robo calls of all kinds. i am sick of the opportunity to have a free weekend at some condo in florida as well as the wonderful opportunity to get a better credit . please help

Carol	Mesa	AZ	Not only the robo calls but just as disgusting are the long long TV commercials. Why are we paying the cable companies high fees to see more and more TV commercials. Do something to help the American consumers.
Thomas	Marlboro	NJ	I receive daily robo calls from the same organizations but they change the calling numbers to appear to be local numbers that resemble my cell phone numbers or other local exchanges. This practice has resulted in my not answering any calls that I don't recognize. Due to this situation, I miss important calls which require me to call back provided the caller leaves a message. My wife experiences the same calls on her phone. We pay for this our cell phone service, and we pay by the call so these people are causing me to incur an expense based upon their greed. All my phone numbers are registered in the Do Not Call registry, I use NoMo Robo on my house phone but there seems to be no relief. FCC please take action and force the cell phone providers to provide a solution to this, and you FCC should take legal action to shut these spammers down
melissa	Austin	TX	End Robocalls
John	Lincoln	IL	I just lost my wife of 60 years, and if there's anything I don't need, it's a robocall with either a canned message or a person reading a canned speech that you can't shut up without hanging up.
Joe	Not your business	CA	All robocalls need to stop coming to my cell phone. It is disruptive to my daily life and activities. Calls to my cell phone cost me money and eat up my minutes each time I answer. I don't like talking to a machine, if a human being can't call me, don't call me at all! It is a waste of my time. I view it as an invasion of my privacy.
Paula	Wall	NJ	These calls sometimes border on harassment.
Bob	Janesville	WI	This week I've been threatened by the IRS I've been solicited for Legal Services and can you help out the Breast Cancer Society
Daniel	Chicago	IL	Stop unwanted calls that cost me from products that I don't need or want. That call all times of day and night.
Ron	Payson	AZ	We are sick and tired of receiving 3 to 5 calls daily from unsolicited callers trying to scam us into sending money, etc.
Richard	San Francisco	CA	On average we daily receive on our land line 7 to 10 robo calls. While we use our phone answering machine to screen most calls some fake their way through. The Do Not Call list worked for a while, now the robo calls violate this system. Some calls that fake their way through are scams such as two received saying they were from the IRS who is filing a lawsuit. Please stop robo calls. Robo calls to mobile phone are on the rise. Please stop them before they take off.

Leslie	Manhattan Beach	CA	It is an invasion of our privacy to be bombarded with robocalls on both land lines and cell phones. Our homes should be a place where we can relax and get away from things. Instead, we are interrupted by unsolicited and unwanted robocalls. When we shop, we have a choice to enter a store. These calls do not give us a choice. We are often interrupted from our activities at very inconvenient times for example, changing diapers, doing laundry, homework... These companies that do not respect the do not call list can not be trusted to do business with. Our homes and cell phones should be our sanctuary where we have a choice on who we want to talk with, not be a place for non-welcome people/business' to solicit us nonstop. I get 7-14 calls a day. I'm considering disconnecting my land line because of these unwanted calls. The only reason I've kept it is because of the safety to be able to use 911 and have responders know where to go.
Wm	Reseda	CA	Restrict these calls totally
Chris	Newtown	CT	None on cell phones or land lines!
Helen	Humble	TX	No Robocalls to Cell Phones!
Jeff	Whittier	CA	I get enough robocalls on my landline. I would really appreciate not getting them on my cell phone. Thank you.
susan a	chicago	IL	Esp' during political, the robocalls are non stop and horribly annoying. Pls discontinue the service nationwide.
Jim	Sulphur	LA	Please stop these annoying calls
Anthony	Humble	TX	No Robocalls to Cell Phones!
Ronald	Hale	MI	Automatic robocalls are a pain especially when you answer and nobody is there! Its and invasion whether it a robocall of a "canned speech" someone is reading and will not let you get a word in edgewise. PLEASE STOP THIS KIND OF COMMUNICATION all together1
John	Sarasota	FL	Please take action against "Robo Calls" to cell phone. It's not only expensive, it is a nuisance!
J	Knoxville	TN	My husband and I are retired. During the recession, our son was out of work and got behind on paying some of his bills. Debt collectors called our home over and over asking for our son, even though son lives 400 miles away and had not lived here for years. The stress of being out of work and in debt caused son's marriage to break up. After he and his wife separated, debt collectors began calling us trying to find our daughter-in-law. A friend's daughter used my name as a reference on her college entrance application, and a debt collector somehow got that information and called us about her student loan. This is ridiculous! Debt collectors should not be allowed to harass anyone they can find with a link to someone who owes money! Please outlaw this harassment!

William	Woodsboro	TX	I wish to add my name to the fast growing list of those that despise "robo calls". I now get them on my cell phone, home phone, work phone and most any other type of phone. They use up minutes that I have not authorized to be used. I ask you to move quickly to stop this plague on phone users. I will accept that those companies that I have had business dealings or those that I have given my number to, are more welcome to "robo call" me, but I still don't like it. We are bombarded with adds from the time we wake up to the time we close our eyes at night. Give us this one respite. It's just like "auto play" videos on the web, they STEAL data from me without authorization. Literally STEAL. They also should be banned.
stephen	albertson	NY	NO ROBOCALLS EVER
Tom	Coto de Caza	CA	I just received two more robo calls this morning.
Lee	Lawrence	NY	Robocalls are a true nuisance. They have never provided anything useful and they take up valuable time.
jt	port orange	FL	All robocalls shall list their city and state from where they are calling from.
Donald	Fort Worth	TX	It is very annoying to get robocalls that serve me no purpose. They call and ask if I want to lower my credit card rate when I don't even have one.
Mike	Huntington Beach	CA	Please assist in requiring ALL phone service providers to block/stop ALL unwanted robocalls to all US customers. Regards, Mike Clancy
Patricia	W Harrison	NY	Enough already. Why can't these annoying calls be stopped? Why can't a trace be installed on every phone and a fine for every robocall initiated?
M Wayne	Reno	NV	Too many calls on my cell phone that I know longer answer a call from a number I don't recognize. Scammers, "surveys", sales folk, all want me to pay for their nefarious activities.
Douglas	Canton	CT	Stop these debt collector bullies from breaking the law and harassing people on cell phones via robocalling. Stop robocalling period. Force the phone carriers to block robocalls. I get a call every day from (123)456-7890. How in the world is that a legitimate phone number? It's NOT! How hard would it be to block nonsense and spoofed numbers? It's NOT! The technology exists today! It's time to stop these illegal shenanigans. DO IT NOW!! Force the carriers to stop robocalls!
Janet	Portola Valley	CA	Please, please don't loosen rules against robocalls to cell phones. They remain our only sanctuary against unwanted intrusive phone calls.
Leo	Salamanca	NY	I am tired of salesman, contests and other types of calls to my phone. I am not interested in all these calls.
Clifton	Central	LA	Robo calls constitute an unacceptable invasion of privacy. Please stop this practice from all sources, political, commercial, etc. Thanks

Cornelius	encinitas	CA	not all cell phone plans have unlimited minutes. robo calls cost me money but they come unsolicited without any control by me the rate payer.
Michael	Daly City	CA	I am tired of constant robocalls. I receive more robocalls then personal calls. Don't I have rights too?
Sandra	Palmetto	FL	NO ROBOCALLS TO CELL PHONES!!!!!!
R	Saint George	KS	Please stop companies from doing Robocalls. They don't benefit anyone and are extremely annoying. Companies would stop if the FCC would make them. We all have better things to do with our time and money on Robocalls.
robert	boulder	CO	These annoying calls usually come at dinner time when enjoying a meal with family is suddenly broken, and answering is a burden. They now use local numbers rather than 800 prompting better odds that someone will answer. As seniors we are sensitive to getting calls from medical providers, ant these robocalls cause confusion and annoyances. Strangers are not allowed inside our home. These callers should not have unfettered access to our home either.
Christina	Kernersville	NC	Please help us by stopping robocalling and allowing us to opt out. Thank you
Scott	Coopersville	MI	Please stop this nonsense!
Micharl	Lakewood	OH	Please block ALL robocalls to cells and land lines. Michael Rand
Steve	Gilbert	AZ	It's not right, don't let it happen.
Janet	Little Rock	AR	PLEASE do not allow robo calling by debt collection agencies. I would like ALL robocalls to cease. I get anywhere from 5-10 of these calls daily. It is very annoying.
David	Venice	FL	Tired of calls claiming they can reduce my credit debt when I don't have any, free cruises, etc etc.
Jerriane	Oakland	CA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than two per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Laura	Clayton	NY	It is difficult for me to understand why, in this age of technology, I have to put up with these aggressive and disruptive robo calls at home, and on my cell phone. Please please allow me to block them, or better yet...hold Carmen from cardholder services accountable somehow. Put her and her cronies out of business! (Yes I know there is no real Carmen.) It is especially annoying when I pay for my cell phone usage and therefore they could cost me money if I mistakenly answer. This seems like a no-brainer. I don't owe money, so I am not called by the debt collectors, but I am called by everyone else, it seems. Please regulate this activity ASAP!
Bruce	Lake Linden	MI	Stop all the scam robocalls that are driving us crazy!!!!
David	El Paso	TX	We don't want this!

Julius	Georgetown	TX	It's time to stop wasting time and money for the consumer in these unwanted unwarranted robo calls.
Jeff	Ventura	CA	The federal do not call registry is a joke, something needs to be done as this is far above the annoyance factor. Some of the scams like IRS or other rip-off artists are costing some people serious money and are a drag on our economy. I use a VOIP provider (Ooma) that has a black list feature as well as an agreement to use Nomorobo screening technology and the scammers still get through several times a week. Then there is the whole problem of scammers calling our mobile phones too, both on Verizon and AT&T.
Richard	Terra Alta	WV	Please end robocalls by whatever means necessary.
Debra	Santa Fe	NM	Consumers need to be protected against the annoyance of robocalls to cell phones. Many people answer their phones while driving, using a Bluetooth or other hands-free device, but it is still a needless and dangerous distraction. People will answer the phone without looking at Caller ID if they are in business and think a real client might be calling. I also can't imagine that anybody actually listens to more than half a second of a robocall. I am against all robocalls to any phone whatsoever. My late mother used to ask, "Who would be responsible if I feel while rushing to pick up the phone to some junk call?"
ED	SCHAUMBURG	IL	Getting Real Tired of these
SANDRA	SAN ANTONIO	TX	Stop the robocalls, PLEASE.
Wesley	North Aurora	IL	Get rid of these robocallers. It deteriorates our quality of living.
Roz	Stratford	CT	I feel we have been victimized by robocalls on ALL phones for too long. ENOUGH!!!
Fred	Appleton	WI	I like the idea of no robocalls on my phone/cell. Please do not open the door to that irritation. If you allow it, then someone else should pay for my phone.
Robert	Overland Park	KS	Please support our desires to end robocalls to cell phones. I receive far too many to both my personal cell phone and my business cell phone.
Charlotte	Ft Worth	TX	I am very concerned with the number of unsolicited phone calls that I receive. I have received calls for my ex-husband's brother's debts. I've been divorced 14 years! Please have collection robocallers notify us of your right to stop receiving these calls. If I truly have a debt, which I don't, please limit the number of calls to no more than three per month and only to the debt holder. The guidelines for this should be available if I should wish to see them.

Sarah	Merritt Island	FL	I receive several calls almost every day that are computer virus people, IRS that is going to send the sheriff to arrest me in 45 minutes if I do not pay them over the phone, etc! I even stopped answering my phone if I do not recognize the number. The worst thing that has happened is that someone has hacked my phone and calls the emergency 911 number. The sherriff's office then calls me back and asks what was my emergency when I had not called. They even did this when I was at my daughter's house in North Carolina several times! When we got home to Florida we went to the sherriff's office to try to stop this. The also said it was NOT possible for a 911 call to be received by our local sherriff's office when we were in North Carolina, which we proved we were. 911 calls go to the nearest police department. They recommended we get a new chip for our iPhone, which we did that day. Please help stop these horrible people!!!
Phyllis	Clermont	FL	I have a list of 43 robo call numbers that I have been documenting since February 2016. There are many more than that, but lately I have just been ignoring them!. Have been reporting them to the DO NOT CALL list, but they still keep coming. I sure do hope that something is being done to stop these annoying calls. Most of them seem to come from Jamaica.
Theodore	McLean	VA	Please put a stop to these, especially Bridget of Card Services. They phone every other day! Verizon claims because we have a copper wire land line, they won't do anything to stop it. That is not good enough. Now Bridget is calling my Verizon wireless cell phone too. We are getting older and can't run to the phone all the time for predatory businesses. HELP!
Donald	Buffalo	NY	It's time
Larry	Saint Charles	IL	I just can't stand this invasion of my privacy! Please help to stop these!
Elvira	Logansport	IN	They make me angry! I get so tired of NOT being able to answer my phone. I have caller ID and if I don't know the number calling or it comes up as private or a bunch of crazy numbers across the top where a name would be I just don't answer it. But I get really tired of not being able to answer a service I am PAYING FOR!
Philip	Kathleen	GA	I am receiving telemarketing calls and robocalls despite the fact my mobile phone number is listed on the federal Do Not Call list. Many calls are a nuisance and occasionally becoming a harassment. I did not nor do not wish for any company under the umbrella of telemarketing or robocalling to call my mobile cell. This must cease. Tools have to be available and implemented.
Claudia	Wyoming	MI	All Robocalls need to stop no matter if it's to a cell or home phone.
Steve	Prescott	AZ	I am so sick and tired of hangup calls and people trying to sell me items I don't want and there is no stopping them. Please take immediate action to stop this invasion of privacy.

Rochelle	Los Angeles	CA	When I started getting the robo calls at 7:30 a.m., I had to disconnect the phone line because I had a heart attack and need my sleep. It scares me because the phone isn't available quickly in case of emergency. I receive a minimum of 7-10 robo calls per day. I don't answer but end up missing important personal calls. This has got to stop. It's absurd for many reasons: (1) they don't even say anything half of the time; (2) they have canned messages; and (3) it's nothing but sell, sell, sell at the expense of the poor homeowner and (4) it is affecting everyone I know. Even IF they were selling something I wanted, I wouldn't buy because of the invasion of privacy. This has been going on for YEARS and we need help. It's astonishing that the phone company will not help. I have a neighbor who changed her number and then got the robo calls for that number, so that won't help. I offered to pay almost anything to the phone company to stop them and they still wouldn't change their "policy". This has simply, at the end of the day, got to stop so that we - the public - have the right to happiness.
alfred	roseville	CA	Stop robot calls
Vicki	Delta	CO	I get so many unwanted calls per day on my cell phone. They are all calls to let me know I qualify to lower the interest rate on my credit card. I don't have a credit card. This has been going on for years. I don't know how they got my number. I continually ask if they will please remove me from their calling list but they simply hang up. What can I do? I would do without a cell phone but my husband thinks it is not safe and won't let me. Please help!!!!
Carol	Burlington	VT	Please block these robocalls. They are annoying and always make me angry as it is hard sometimes to get to a phone. Also they always have something I'm not able to donate or have an interest in, Thank you
walt	hamilton	NJ	intrusion on privacy, not relevant to my life, interrupts my day. At the very least they should be required to give their name and home phone when they call. How would we respond if strangers kept stopping us on street? How long would the last on the street?
william	iowa falls	IA	ENFORCE OUR LIES N STOP THIS CRAP!!
Teddy	Billings	MT	We own telephones for OUR convenience. Other than our obligatory connection to our carrier, NO ONE should be invading our private space. Unfortunately, we are subjected constantly to a predator v. prey relationship with persons with whom we have no personal connection. Having to fight strangers on our land line phones is bad enough -- but now the indignity is being to our cell phones. Robocalls, in ANY form, should be tightly controlled by the FCC. When they become predatory, they should be outlawed entirely.

eric	bluffton	SC	I am 89 years old and these calls create a huge disturbance to what remains of my life. I have opted out, but still they come. PLEASE do something!
Ricky	New Iberia	LA	Time to stop this unwanted nuisance to the American household.
chris	Felton	PA	Please insure no Robocalls to cell phones: 1. Debt collection robocallers must notify us of our right to stop receiving calls 2. There should never be cell calls; only US Mail to those who directly hold federal debt - not friends and family 3. The guidelines should be clear and readily available Thanks for your consideration
Robert	Lake Elsinore	CA	Years ago we agreed with the FCC that the unexpected interruptions by telemarketers and others were unacceptable. The FCC provided an avenue for the American Public to OPT OUT from being harassed by signing up on a "NO CALL LIST" that was supposed to stop these calls. Well. MANY years later, we still have the same issues that existed before the PUBLIC signed up to another government plan that failed to deliver. It's time now to "GET OFF THE DIME" and put it to work.... as advertised!! The Phone Is In YOUR COURT!! Please do what you said you would do before. IT'S TIME HAS COME!!
Lana	Austin,	TX	I completely agree with the terms listed above about robo calls.
Ilene	Albuquerque	NM	My cell phone number is only provided to immediate friends or family for emergency contact. I designed it that way intentionally, since I don't want constant calls and interruptions. It's bad enough I get those at home on my landline. Please do not permit RoboCalling on cell lines. It is an infringement on my privacy.
Heide	Angwin	CA	Please stop robocalls or limit them as much as possible.
Gary	Troy	MI	This is my own private cell number & I feel it is in violation to use my number without any consent of me. I am getting charged airtime for this nonsense! STOP USING MY PHONE NUMBER...
Duane	Brandon	MS	Please, PLEASE do something about the annoying robocalls. I get them practically every day. They either spoof their number on caller ID or block it completely. I've even received robocalls that showed my own phone number on the caller ID! Most of these are nothing but scammers looking to do identity theft. It's time to end this mess now.
Marilyn	Chicago	IL	Please stop unnecessary robocalls to cell phones. We should be able to opt out and block these harassing and annoying calls.
Grwg	Weatfield	NJ	Billions of dollars of productivity at work and billions of hours of previous leisure time are STOLEN by unwanted useless robocalls. Make them illegal with prison time for these criminals.
James	Watkinsville	GA	Robocalls to cell phones need to be stopped . We use our cell phone for emergency calls only. As a senior external call are upsetting and cut into our limited cell phone time usage. Please stop them!

Susan	San Diego	CA	I get calls at 8;00 in the morning and all day long. I'am a senior and it's hard for me to get to the phone. And once I do I can't even understand the people I'am thaking to.I saw almost scamed once and would like these calls to stop. Thank you for you'r help
John	Flagstaff	AZ	PLEASE put an end to the endless solicitation calls that besiege my phone DAILY! As a retiree I treasure my time, and spend many days volunteering in my community, and take comfort in my home, reading books, writing my memoirs about family to aide my grandchildren. Yet each day while I focus on my chores is interrupted by REPEATED calls soliciting for resort vacations, free dinners with financial advice, new credit cards, and solicitations for allegedly nonprofits that are not even in my community! If I wanted these robocalls to continue I would volunteer my phone number. I did not, so I am left to ponder discarding phones and obtaining an unlisted number. In the interim, I simply DO NOT ANSWER my phone, missing calls from dear friends!! PLEASE STOP THIS NONSENSE! The alternative is to simply no longer have a phone! Can we not have commonsense applied to rule-making? Otherwise, a phoneline is simply a happy hunting license to any legal and illegal solicitor. PLEASE protect my sanity!
Marty	Tucson	AZ	Only my friends and family have my cell number. I do NOT give it out to ANYONE else ! If I get robo calls or they are not in my address book, I do not answer them, but they ARE annoying. I also get unwanted texts from companies I know I have never dealt with. I never reply to any of them and BLOCK any further calls. But they do affect my data charges. Please make them stop this. I pay enough for my cell phone the way it is. Thank you.
John	Malden	MA	I have a land line call it 123-456-7890 name of Gzkoz M. Zderkl for this comment. In the past two months I have gotten 3-7 calls from one Gzkoz M. Zderkl from 123-456-7890, myself on my line line. Other times the name consists of 15 numbers preceded by a V. These are not Debt calls but from some Credit Company or from Flordia saying I have received a free cruise.
Sherrie	Knoxville	TN	Companies who do robocalling/telemarketing do little to add to our overall economy, create stress for those being called (I don't know anyone who actually wants to get robocalls for any reason), and are definitely a form of telephone harassment. The only real beneficiaries are the telecomm companies who provide this "service" to robocallers. Meanwhile, our cell phone minutes are being eaten up without our permission. Time to stop this practice, not just on cellphones, but altogether. The technology to do this has existed for some time. Thank-you.

susan	berkeley	IL	hate when i am interrupted from what i'm doing to answer my phone and it's just a recording. hate that my phone minutes that i pay for are wasted by robocalls. hate that i stopped answering my land line because it was always robocalls or someone wanting me to donate to whatever and now i can't even get away from them with my cell phone. we have the right to be able to live our lives without being harassed by the robocalls. they need to stop.
brian	duxbury	MA	No one wants rob calls. Period. The "guidelines" which should really be "regulations" should allow for easy reporting of violators and provide for a strong deterrent like significant fines for them.
Eileen	Round Rock	TX	These calls are so annoying, sometimes 2 or 3 per day. I don't answer numbers I don't recognize because of these calls. As a result I have missed important calls thinking it was a robocall. We pay a lot of money for our cell phones and they should be for our use and convenience only. They should not be turned into a nuisance by these people. I discontinued a land line because of this issue and now my cell phone is just as bad as the landline used to be. This really needs to end. Thank you.
Dan	Cherry Hill	NJ	Please stop Robocalls....
Michael	Scarsdale	NY	Robocalls waste the public's time, interfere with a private and personal resource, invade privacy and, by masking the source calling number, are admitting their fear of being identified.
Verna	Chatsworth	CA	Every week I receive a RoboCall from a debt collector trying to reach a former roommate who moved out a year and a half ago. I don't know where she is. It's about a hospital bill that she said her insurance had paid. I wish you would make it stop. Also the incessant RoboCalls from contractors. If I need a contractor, I will call somebody I trust, not some jerk who calls me out of the blue. The RoboCalls drive me crazy. I want to stop all of them.
Nancy	Toledo	OH	Debt collection robocallers must notify us of our right to stop receiving calls and make it easy to do so The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available (Note: Comments filed with the FCC are a matter of public record and will be viewable online, including name and address, after being submitted to the docket).
Mary	Bensenville	IL	I am strongly against receiving unwanted calls on my cell phone. Clearly an invasion of my privacy!

Bev	Mansfield	MA	I have had it. I put them on block until my block machine fills up at 99 calls. Then I have to start all over again. They never give up. They are still calling. Some of them call four times a day when I just don't answer the phone. Please you have to get rid of them. They call on very many different numbers. It is annoying. I am 71 yrs. old and I cannot stand it anymore. And to make matters worse they are now also calling on cell phones. How can they get my cell phone number when I can't get anybody's cell phone number!!!! Enough is enough it has gone on long enough.
Wanda	Cary	NC	I get calls and they are looking for relatives and no matter how many times I tell them they have the wrong number the call back
shelley	houston	TX	I am losing my mind with these calls. I answer my phone immediately because I think it is a call from my minor son, and it's a *#)% robocall. Help!
John	De Pere	WI	Please stop these unwanted , bothersome robo calls. I should not have to leave many of my calls go to voice mail because I do not know who is calling. We should not have put up with all these unwanted calls.
EF	Jacksonville	FL	Not only should robocalls be restricted to cell phone users but to ANY and ALL avenues that they use, ESPECIALLY TO HOME PHONES!!!!!!!!!!!! Cell phone users are not a "special class" of people last time I checked! I get them all day long on my phone phone sometimes 4 or more calls from the SAME idiots! From early in the mornings until very late into the evenings. It's a form or rape and harassment and none of us should be made to endure such torture! Have WE no RIGHTS?! What about US, the poor suffering person who're enduring this legalized form of RAPE AND TORTURE???? Especially when a remedy is available. AT&T are greedy buzzards and only want to make money! If AT&T would provide the suggested service you can BET they will charge as much as possible and that is why they have not heretofore voluntarily provided the service. The government doesn't care at all and that's the bottom line, which leads us poor consumers here in America to suffer with this hostage and nasty disgusting rape situation as best we can.

Richard	Quakertown	PA	I conduct legitimate business through my cell phone. Now I am the recipient of invasive and objectionable "robo-cell-phone-calls." In a country where our GNP is next to nothing and not gaining much strength - is it wise to further interfere with business? For my customers - I take calls at extended hours, offer excellent service, and not that's being unfairly jeopardized by these annoying robo-calls. There should be a "solid" way of "opting out" of receiving these unsolicited calls. Besides being annoying the times that these come (early morning, during family meals, late at night, etc.) make things even worse. I get the same calls day after day (and night after night as well). Asking them to stop is a waste of time. It's time for these to come to an end. You, the FCC, have the power to limit or abolish these robo-calls and I heartily encourage you to do so!
Joe	Warrenville	IL	Why hasn't this been done yet? These calls are intrusive and annoying. Sending back an opt out does absolutely nothing. There needs to be serious consequences in order to get these sleazy companies to stop.
BARBARA	LAGRANGE PARK	IL	i have no debts but there are some legit numbers who call me. not knowing everybody's phone number means i answer them. i live on social security and those robo calss that i answer offering get rich schemes and free stuff waste my precious minutes. that costs me money!!!!!!!!!! how dare a business waste my money in robo calls!!!!!!!! advertizing is one thing, but wasting my money so they can advertize is WRONG!!!!!! THANK YOU
Tom	Pleasanton	CA	I have been on the receiving end of debt collectors, who erroneously call me and accuse/harass/intimidate me. This happened, because they thought I was someone else. I strongly request that clear constraints be placed upon this "industry". There needs to be clear repercussions for violating Cell Phone calling laws. These laws should limit debt collecting robocallers to no more than 3 calls a month. That limit must be observed regardless of whether the debt account is transferred a different debt collection agency. In other words, the call limit counter doesn't reset just because a creditor moves the account through multiple debt collection agencies and subsidiaries. Debt collection robocallers must notify us of our right to stop receiving calls. With identity theft running rampant in this country, innocent people must be protected from the byproducts of this heretofore unstoppable crime and that means constraints on debt collecting robocallers.
Hazel	Aiken	SC	I do not have a smart phone - only a pay per call plan. These unwanted calls are not only aggravating, but can be expensive, especially to senior citizens. Please help.
Kate	Boulder	CO	they interrupt and annoy me. my phone is not for advertisers.

Stanley	Elkridge	MD	Please take whatever action necessary to end robocalls altogether. It is a form of harassment in that many have registered with the "Do Not Call List," indicating they do not want unknown, unnecessary phone calls that disrupt their day, only to find that there are so many exemptions that the "Do Not Call List" is essentially worthless, and completely ineffective. It is time to make and keep private lines private, and that includes both land lines and cell phones. It is not right that the various companies and organizations who make this kind of call should be given the freedom to harass people, with almost total denial of the people to have their privacy protected and to have freedom from unwanted calls. I urge the FCC to stand up for the people, and provide the necessary safeguards to protect us from robocalls and all other unsolicited, unwanted calls.
Charles	Los Altos	CA	Years ago, you would get products sent to you that you didn't order. Then you would get bills. Eventually the law was changed so that if you received a product that you didn't order, you could keep it! That ended the problem. If the FCC would adopt a rule that if you get a call from a telemarketer you get to keep whatever you buy without paying for it. That will stop that. Regarding other robocalls to scam you, get your information, etc., the FCC not only needs to implement technologies to stop this, the fines needs to go to \$5000 first call to \$100,000 second call, to jail for continuing calls.
Nina	Centerport	NY	Robocalls are annoying. No one should have the right to have a machine disrupt my life. Pass a no robocall to cell phones and landlines today.
Terrye	Eugene	OR	I received 10 or more robocalls PER DAY for several weeks last year. Every caller number was different, but the message was the same: Free transportation and lodging at a resort location if I would remain on line to answer a few questions. Even if I spoke to a real person, I could not get my number taken off their call list(s). I begin to dread answering my cell phone and considered getting a new number. Bummer!! Finally, I turned off my flip phone and put it away. A month or so later, realizing the necessity of a cell phone in my life, I purchased a smart phone. I kept my old number, fully prepared to have to change it, but the robocall assault was over! I never want to experience harassment like that again!!
Rick	Columbia	SC	Robocalls waste our time and are very disruptive. We pay for the convenience of having a cellphone and end up paying extra in precious time spent responding to (or if lucky enough to recognize nuisance calls then ignoring) robocalls. Please stop shady companies and predatory lenders and out and out fraudsters from having this easy access to our cell phones (and land lines for that matter). This is a very real problem that needs addressing.

Michael	Aurora	TX	Please help stop the robocallers. We already gave up the extra security of our land line phone because of this issue. In addition, I am 100% reliant on my cell phone for my employment. I can't afford the daily intruptions from robocallers. My cellphone plan is expensive enough and I do not understand why we need to pay for minutes of usage for unsolicited calls. This is not fair to the consumer. In today's times there are several options other than robocallers, such as phone apps advertising and all the social media formats to broadcast their message or advertising. I sincerely appreciate your attention to the serious problem.
Frank	Westfield	MA	Please stop ALL robocalls to any phone listed on the Do Not Call List! The phone is for the owners convenience and they should not be bothered by Robocalls by ANY organization, political, charitable, or otherwise.
Marta	Wrentham	MA	Tired of the interruptions from robo calls. These companies should be fined heavily for violation of the do not call list.
Marva	Kennett	MO	Senior citizens have a "BIG" problem with this. By the time you are over age 65, you have obviously know someone or rented to someone with federal debt. If I answered my phone, I would never get anything else done. I have friends that I know are honest that have been threatened with all sorts of things, if they did not pay credit card debt. They have phoned police who said "there was nothing they could do" because they were operating in off shore islands.
John	Holmdel	NJ	Stop STOP stop , please stop the ROBO calls. I get at least three or four FOBO calls a day. How would you like it if those calls came in to your phone ? I don't have a secretary or office staff to answer these irritating calls. Please do whatever you can to eliminate this blight on our phone system. Thank you , THANK YOU
Peter	Lawrenceville	NJ	As a person who has a phone number previously assigned to someone who was on debt collector lists, I am bombarded with robocalls. As someone who works out of my home and relies on calls from client contacts throughout the US, it is difficult to know which long distance calls are legitimate business and which are robocalls. Changing phone numbers is problematic and can't be the practical long-term solution. Whether technically or legislatively, there has to be a better way to deal with abusive calling practices that harass innocent people and cut into business productivity. DON'T BACK DOWN! End robocalls to cell phones!
Nancy	Milwaukee	WI	We need to stop all of these calls. So many of them are scams. Why isn't the FCC willing to stop all of these scams? Most of these are targeting older people and many have fallen victim to those scams and are now out thousands of dollars.
Thomas	Carson	CA	I'm getting more and more of these robo calls to my cell phone and I don't owe anyone any money! Robo calling is invasive and annoying, they must be stopped!

William	Garden City	MI	They charge me for 1 minute everytime one of those 800 or other 8 numbers and I'm tired of rushing to my phone thinking it might be an actual emergency and its one of those 800 calling. Please take them away from cell phones!
Thomas	Mission Viejo	CA	Please ,Please do whatever is necessary to end Robocalls. This is an invasion on my privacy.
Mark	Kemah	TX	In the last months it has gotten to be real bad, also when they call it does not show the whole number it misses the last digit so you cant call them back to complain. it need to stop
Greg	Encinitas	CA	I presently have 10 to 15 'robo-calls' a day. I am ready to close down my "unlisted" number. Please stop this annoyance.
Diane	Bothell	WA	Just recently, I have been besieged by robocalls on my cell phone. It's bad enough that this happened on my landline. I don't even answer it any more until I know who is calling. But now, I have a serious illness, and I am bothered by robocalls on my cell phone that come during important doctor appointments, when I'm driving, and when I am trying to sleep. When I block the numbers, they just call from a different number. This is harassment and needs to be stopped.
Richard	Memphis	TN	These calls are annoying to say the least, I feel that these companies are phishing and it needs to stop. I recently got a call telling me they were putting me on a no call list, ironic. eh?
Howard	Salisbury	NC	PLEASE stop/prohibit all robocalls! they are distracting, wasteful and annoying. They are an invasion of privacy and serve absolutely no benefit to our society. Thank you, Howard A Grabow
William	Upper Marlboro	MD	Please stop, it is almost non-stop all day for me.
Willis	Edmond	OK	Last night I was trying to give a friend information on my sisters funeral. I began receiving a call and looked down to see that it was my wife calling. Well, she was sitting at the other end of the table so I knew it wasn't her calling. An automated message was left wanting me to lower my interest rate. I really wish I had taken the call being as our home is paid off. I would have given them an ear full. I don't have time to keep blocking unwanted calls as I already have over 100 numbers currently on my block list. Please! Cut these people off!
kenneth	palm harbor	FL	Please Please stop spam and robo calls... I get 1 to 5 per day now.

Jon	Novato	CA	The "Do Not Call" list has proved to be an ineffective tool with no enforcement mechanisms. In one month, I received over 300 abusive telemarketing calls (from the same company); logged and reported every one of them to the phone company service provider, FCC, FTC and State Attorney General. None of these agencies provided me any relief whatsoever. I had to, at my expense, change phone numbers, phone carriers and pay for a black list/white list blocking service. All this, despite being on the "Do Not Call" list and carefully documenting and reporting violations of same. I know of local seniors who receive over 20 calls per day and have a very high potential to be scammed; I do what I can to help them. I completely oppose all types of telemarketing and robocalling unless I have specifically opted-in to receive them. Thank you for your time.
Hector	Reno	NV	I am receiving robo calls daily, for months now, from solicitors, collection agencies and lawyers who have the wrong number/wrong person. I should be able, just as I can on wrongly directed emails on the Internet, to enter a code after the unwanted call and "SPAM" it so it generates an automatic response back to the robo caller to cease and desist, or face severe penalties by the FCC for doing so. The ineffectual system in place right now is a dismal failure and our government bureaucrats need to get their collective heads out of their backside and address this over-grown monster problem.
Randi	Denver	CO	Robo calls to cell phones cost us time. money, and business disruption.
john	media	PA	please stop annoying robocalls
Earlene	Pawtucket	RI	I am a senior who has a plan which charges \$2 for unlimited calls only on days when the phone is used. I rarely use the phone and consequently pay little to have it for emergencies. However, recently I have been charged \$8 for robocalls on 4 days. I can't afford to keep my phone if this continues.
Chas M	Ocala	FL	I am receiving more and more mobile Robo calls each and every day.
Michele	Fairfield	CA	The phone rings all day long. Usually there is no one on the other end. If there is, it is a scammer trying to get me to pay my taxes that I have already paid, or a social security scam. It never ends. Michele Kitts
Mark	Hampton	NH	I am writing to express my interest that Robocalls NOT be allowed to call cell phones. At a minimum, debt collection robocallers must notify everyone of their right to STOP receiving all robocalls. Robocalls should only be allowed to people who have Federal debt and not any family or friends. These companies must also be held accountable if they break the rules through fines at a minimum.
Vic	Bowie	MD	Please help and stop RoboCalls!
Gayle	Elizabethton	TN	Please rule against all robocalls. Thank you.

Carolyn	Hartselle,	AL	These calls are not only debt collectors ,but also shady scam artists, and businesses . I get calls from "disconnected" numbers which are "disconnected" because they don't want me to call them back to warn them not to call my number anymore. One of these numbers is 540-341-1021 on which there is no message left, just the number. The no call feature does not work with such numbers. The phone companies should be responsible for developing a system by which an individual can block such calls.
Claudia	Midlothian	VA	Please impose restrictions on the use of robocalls to cell phones. A day does not go by that at least one trash call arrives at my phone
Donald	Albiion	NY	I would like a way to stop all unwanted advertisement/solicitation type calls on all my phones. It makes it very difficult for younger and older people to not taken advantage by some of these callers.
James	South Elgin	IL	Dear Sir, Please enforce the "do not call list" law and stop these annoying calls to my home phone and my cell phone. I am not sure what the best way to stop these criminals is but a start would be making the phone companies allow people to block an unlimited number of calls. Comcast currently allows only 25 number to be blocked. After all I pay for these phone services not the scammers. Thank you James Rynes
Nancy	Bethpage	NY	Stop the unnecessary Robocalls that can dirupt a persons day/life.
John	San Francisco	CA	I am getting many robocall on my cell phone (as well as my landline) and I have no debt. What these people are doing is clearly illegal and very annoying.
Elmer	San Diego	CA	There is no reason to allow robocalls except for the p[olitical donations you receive. Please think of the U.S. citizens and say no!
Kingsbury	Golden	CO	This is one of the highest irritations for me, answering multiple spam solicitation calls every day, despite being on the no caller list for the last nine years. I would support any and all measures to end these practices and stop the invasion of my privacy. PLEASE make it stop!!
Margaret	New York	NY	Because I no longer answer calls when I don't recognize the number on my caller ID, I often miss calls that I should have picked up, including offers of work. So the ubiquitous robocalls have cost me money.
Gary Robert	Crestone	CO	It's an inherent Constitutional Right for any USA citizen to engage in privacy! The incessant robotic calls is a vituperative violation of one's personal space and Being, thus it's paramount that my rights be recognized upon my non-consent notification, which hereby (legally) & herein is stated accordingly. Electronic signature applicable-Gary R Tubman MS DDS.

Leah	Morrison	CO	I urge the FCC to put into place strict guidelines regarding robo calls and text messages to my cell phone. Although I am not hounded by debt collectors, I am annoyed to receive unsolicited robocalls to my personal cell phone. I don't usually answer calls I don't recognize, but am frustrated that I still have to deal with the calls and text messages. I pay for my cell service and expect privacy and piece of mind and should not have to endure unsolicited calls. I urge the FCC to remain firm in their protection of consumers right to privacy and piece of mind.
Linda	Syracuse	NY	I receive robocalls frequently, and they have nothing to do with debt. Several colleagues, family members and friends also receive them. They need to stop all robocalls!
Niles	Townsend	MA	I am a real estate broker of many years, one of our best sources of business was "cold calling". Usually we had to make about a hundred (person to person calls....no robocalls!) to earn a piece of business. Then all the robo-callers jumped in and aggravated the public, especially at dinner time. Our Commonwealth to Massachusetts recognized the difference in our direct marketing, and exempted real estate agents from the no call restriction. This was all later upended by Federal regulation, and no one outside politicians and non profits are allowed to bother the public, with out a prior business relationship. So here we are with "card holder services" calling 3 times a day, from the "you can't touch me financial institutions". I guess it depends on if you have enough money to hire lobbyist to curve things your way. How about we make it so that NOBODY gets to call anymore....PERIOD!
Brian	Warrenton	VA	Consumer Union put it well... Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
C	Worcester	MA	Please stop the incessant robocalls. We should not have to get rid of our landline to stop the calls that come in all day and evening. The biggest nuisances are energy, credit card and fundraisers who claim they're calling because we gave last year. Our provider should be able to block them as our ability to do so is either limited or would block some wanted calls in the process. We are on Do Not Call lists to no avail!

Kenneth	Johns Island	SC	I pay for my cell phone service and resent strangers, both debt collectors and all subject to the Do Not Call list, using a service I pay for to repetitively invade my privacy, waste my time and possibly add to the cost of my of my cell phone service. These calls help to use up a finite service, i.e., the radio spectrum for cell phone service. I strongly object to calls that violate the DO Not Call laws and would greatly like to see these laws enforced instead of ignored. These calls may prevent my receiving an important--perhaps urgent--call in a timely fashion, thus putting me, my family or my property in jeopardy.
Ron	Philadelphia	PA	No Robocalls to cell phones
Sharon	Ridgeland	MS	Receiving robocalls on my cell phone is extremely annoying. Please, please, please do something to stop these calls. They serve no good purpose! If these companies were legitimate, they'd advertise like any good business, instead of issuing blanket calls.
JoAnn	Elk Grove	CA	STOP Robo calls to cell phones!
James	Dacula	GA	Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family.The guidelines should be clear and readily available
Victor	Valencia	CA	Robocalls steal my time and invade my privacy. I will not buy or support anything that is brought to me in that manner.
Thomas	Chicago	IL	they also can eat into your minutes
James	Tucson	AZ	I don't like wasting my time listening to a robot calling me with some message I didn't want to hear. Hanging up does nothing as these people keep calling back. Please STOP this crap now.
Georges	Asheville	NC	Please consider the following reasonable items in limiting Robocalls to cell phones: Debt collection robocallers must notify us of our right to stop receiving calls; The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family; The guidelines should be clear and readily available; Thank you.
m.l.	peoria	AR	My husband and are elderly. It is extremely inconvenient and irritating to have to answer ROBOCALLS. Always they are things we are not interested in.
Charles	Nashua	NH	I have to turn my ringer off because autodialers call me every night. I am on the Do Not Call list, but they call anyway without permission selling and scamming.
LORETTA	Normal	IL	I DON'T USE MY CELL PHONE A LOT BUT I'D SAY HALF THE CALLS I GET, OFTEN AT VERY BAD TIMES, ARE ROBOCALLS.
David	Livermore	CA	End robocalls to cell phones, PLEASE!

Rod	Richmond	VA	I don't know how you got my phone number but I didn't give it to you so you're not invited to call me. Just like if you walked into my home uninvited! If you're not invited don't come by, or call. I have a right to my privacy. Additionally, you're wasting your time because my home phone has an answering machine and I don't answer that phone if the screened call isn't someone I know. When my cell phone rings I don't answer it if the call is identified as unknown or someone I don't know and again I don't answer the call. So stop wasting your time and mine!
Allen	Baltimore	MD	Monday through Friday, not a single day goes by when myself or my wife gets a robo call to our cell phone. It interferes with my work, my lunch, my dinner, and my evening relaxation. Not to mention the distraction when driving. Do your job so that I can do mine!!!! Stop the calls.
RICARDO	WINSTON SALEM	NC	I purchase one or two times from this company and I made the mistake to give them my telephone number, since 5 years ago, they call me 15 times a day, seven days a week offering me Viagra, Cialys or any type of medicaments, I tried to talk to the manager to take my phone out of the marketing list and nothing work, the last thing I'm doing is ignoring ALL PHONE CALLS THAT I DON'T KNOW WHERE COME FROM, some time they use a California area code, some time they use a UNKNOWN source but, anyway, this does not happen just to me, if you see Google you will find out that there are a lot of persons with my problem, changing my phone? that is not an option because this is my business line for more than 20 years and all my family and friend know it.
Dale	Oceanside	CA	I have a cell-phone number once owned by someone that had unpaid debts. Because of this I get robocalls looking for that person. I have told them many times that I am not that person. The calls stop for a few weeks and then start again. We need stronger rules to stop this abuse. These would be a good start: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Robert	Louisville	CO	Hi, I am so tired of being plagued by these. We should have the right to privacy. Please take the strongest possible action to end them!
Kyaram	Rockford	IL	They serve no purpose other than to annoy people. Please have them stop.
Ric	Kennewick	WA	Even though it is supposedly against the law, I still get several robocalls, from various sources, each week. Even when I ask companies to not call, they still do so. This is harassment, pure and simple, and if you do not stop it, we will.

Richard	Midland Park	NJ	Robocalls to our HOME phone is an INTRUSION into a citizens privacy, now our FAMILY is GETTING CALLS on our CELL PHONES! PLEASE, make these calls stop! You have my grateful support. Thanks in advance.
Sharo	Carlisle	PA	I am a receptionist at the local unemployment office. Every Monday there are numerous robocalls in the voice mail. Last Monday there were 19 robocalls and the mailbox was full. So anyone calling for assistance couldn't leave a voice mail. I also get them at my home all of the time. I am on the Federal and State do not call lists.
Marilym	Metairie	LA	I am very upset to know that others will get my cell phone number to make "robo" calls! Please put an end to this!!
Michael	los altos	CA	the frequency of unsolicited robocalls is both annoying and disruptive. Many occur during mealtime which is even more disturbing.
Sam	Fernandina Beach	FL	I consider Robocalls to be an invasion of my privacy, and I need you to guarantee me the right to prevent robocallers from calling me. I don't owe anyone any money, but I could still get robocalls from debt collectors if my friends or family do. Please implement the strictest possible guidelines that protect me from robocalls.
Roberta	Springfield	MO	Primary reason for getting rid of our landline was robocalls. PLEASE assure us that our cell phones will be free of these nuisance calls!!! Would hate to get rid of cell phones too!!!
Murat	los angeles	CA	I don't want to receive any call on my cell from people that I don't know. I might be driving, sleeping, in a meeting or not doing anything at all. I just hate it when I receive a call and hear the other person saying that they can save me money on my electric bill or loan me money. My first thought is "I don't remember asking you" I didn't give you my number or request a call back, yet you're still calling me and maybe interrupting my lunch or business meeting for your own selfish reasons. I'm sure there's a way to know if the number is a mobile number or a landline so please make it illegal and assess a big fine to people who call these numbers for solicitation.
Lyndon	Charlotte	NC	My phone gets Constant Contact from robocalls belonging to the Do Not Call List is not help please take action thank you
Gregory	Shelton	CT	I need your protection against abusers of my privacy. My carrier likes the robomans cash better than mine. Because it is more. That sure is a conflict, that which is right vs. the cash!
W.W.	Atlanta	GA	The election season has added an already steady volume of such calls. Rules do not apply. calls come many hours of the day. PLEASE HELP!!!!
Jack	San Diego	CA	Please do not permit robocalls to cell phones.

Alex	North Pekin	IL	Robo calls are a nuisance. Probably 50% of the calls I get are robo calls. The only telephone I have is the cell phone. My Parents are 93 and 87 so I keep my phone on all the time in case of an emergency. I would hate to miss an emergency call due to a robo call.
Ira	Denver	CO	Stop the ROBO calls.
Sharon	Camarillo	CA	Please stop. The calls are so disruptive. Interrupting lives. Whether you're sick. Disabled or dealing with your own life issues. We don't need to have to deal with people invading our privacy.
Tiom	Fremont	OH	Please get rid of these annoying unrelenting calls!!!!
Sue	Bowling Green	OH	No to rebocalls to cell phones. We have worked for privacy--don't ruin it.
betty	morro bay	CA	As cell phones are replacing land line phones the same protections that apply to land lines should be applied to cell phones. One of those protections is no robocalls without permission. And permission should not be assumed but asked for.
THOMAS	COATESVILLE	PA	PLEASE DELETE THE ROBOCALLERS FROM MY PHONE. THI IS NOT NECESSARY.
Rick	New York	NY	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock. *Debt collection robocallers must notify us of our right to stop receiving calls *The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family *The guidelines should be clear and readily available
Zorina	Memphis	TN	Stop robocalls to cellphones & home phones, especially if they are on the do not call list. They are excessive & annoying.
Allan	Summerfield	NC	Please give us relief from this awful nuisance. Robocalling has risen to the status of making me consider removing my telephone, even considering the resulting inconvenience! These calls are an unwarranted disturbance to whatever one is doing; they are uninvited and definitely unwelcome. Most of them originate with businesses with which we have NO RELATIONSHIP. They are "fishing expeditions" by entities who probably get a low percentage of new customers, but do so at low cost to them and a degradation of our quality of life. As an electronic engineer, I know that providing telephone subscribers with an easy way of blocking robocalls is feasible given the computer-implemented nature of circuit switching, and I suspect that the telephone companies' inertia is part of the problem. What we are asking is CLEARLY IN THE PUBLIC INTEREST. That public interest is a key part of the FCC mission and our request is reasonable.

JOHN	GERMANTOWN	TN	PLEASE END ALL ROBO CALLS. WE HAVE TRIED NUMEROUS TIMES TO JOIN EFFORTS TO END THIS PRACTICE. WE HAVE TEMPORARY SUCCESS BUT THE CALLS RETURN AT A HIGHER VOLUME. IT IS ELEVEN O CLOCK A. M. AND WE HAVE ALREADY RECEIVED TWO ROBO CALLS
Peggy & Charl	Vidalia	GA	It has been brought to my attention that there are loop holes in the no Robo call regulations. It seems totally un fair to put collection calls on any one, but especially if there are no assurances that money is stilled owed and that the number being called is actually associated with the person being contacted. It appears to be way too easy to be added to a Robo list, but much too difficult to be removed from calls that are not legitimate once any money has been paid off, or a relative not living there, or other error. Make the collection companies actually have people call so at least one can refute or redirect erroneous calls.
Donald	Bainbridge Is	WA	Robocalls are bad enough on land lines, but they are worse on cell phones. People engaged in meaningful and/or demanding activities are disrupted when the cell phone rings. I hope strong, enforceable, legislation can be enacted to stop them not only on cell phones, but completely. At the least, they should be easily recognizable so the person receiving has a basis to decide whether on not to answer.
John	Worcester	MA	These calls are just becoming constant during the day, and if you ask them not to call, especially off-shore operations, they not only refuse, but will call back and jam your phone with extremely loud noises. They need some checks and balances.
Jerry	Rockford	IL	I get numerous unwanted and often distracting robocalls from marketing companies. No matter that I am on the "do not call" list they still call. The numbers are from all over the country, so blocking them is futile. You have the power to stop this nuisance intrusion into our lives, so do your jobs! Thank you. Jerry Swanson, Rockford IL
Norman	Amenia	NY	A few times per week I get robot calls. Since my daughter is ill, these calls always frighten me into thinking there is a medical emergency. Please stop these companies from calling! Thank you.
Vanessa	Boston	MA	Sick and tired of arguing with robots on the phone because they sound so real!!!
BILL	MT. PLEASANT	SC	PLEASE DO NOT ALLOW ROBOCALLS TO CELL PHONES. I AM CONSTANTLY BOMBARDED BY THEM.
Donald	Columbus	OH	Do this please
Mack	Ames	IA	I believe the FCC should set up a rule to block the robocalls to cell phones. Please do it.

Darlene	Wauconda	IL	I receive several of these calls daily. I've politely answered the calls and notified them that any debts are not mine, and to please remove my number from their list, they either hang up on me, or actually laugh then hang up, or say ok then still keep calling. I pay to have a private unlisted phone number, and they still get the number. I'm to the point of not answering calls that I don't recognize, but in doing this have also hung up on calls that are relevant because I didn't recognize the number. I truly feel these are invading my privacy and on a daily basis, I want these robocallers out of my life for good.
Gary	Carrollton	TX	Stop robocalls, NOW!!!
Lou	Modesto	CA	No more Robo calls!
Shellie	Laguna Hills	CA	If we don't push back against the predatory lenders and shady companies that rely on invasive robocalls, we'll be stuck screening unknown numbers and malicious texts around the clock.
Barbara	Houston	TX	There should be at a minimum an opt out prohibition against robocallers as there is for land lines. Some of us are economizing by having just a cell phone, but these unwanted robocalls are costing us. Please consider some way to stop or at least put the brakes on this unwanted expense to consumers.
Janet	Capo Beach	CA	ROBOCALLERS MUST NOTIFY US OF OUR RIGHT TO STOP RECEIVING CALLS.
Kevin	canadian lakes	MI	I ask that you consider either limiting the times per year a robot caller can call a number (per year), or make them participate in an opt-out program. The best option would be to have the phone companies block them totally when asked. The calls through the years have been unwanted, untimely, and offered no desired services. If I desire something I call them not the other way around. Your consideration is greatly appreciated.
Joel	Orlando	FL	Please stop cell phone robo calls
John	Bradenton	FL	It happens at night at dinner, lunch, first thing in the morning, you answer nobody there, put that number in the block numbers with my phone company and they call back with another number and call again and again with another number, 3-4 times a day. Not one of them has anything I want and yet they persist in calling, by their logic they guess I will give in and listen to the bullshit they have to spew. Wall street killed our retirement, the government killed our health insurance, no part of the system we help setup works for us, it better start doing so or there is going to be hell to pay, how long can people live suppressed by one group and harassed by another.

Gregory Scott	Seattle	WA	Like most American citizens I use my mobile phone (cell phone) as my primary phone. I DO NOT WANT ROBOCALLS to my mobile phone or any phone for that matter. I get enough of those already by my office line being forwarded to my mobile phone. I have learned to not answer any number for which I don't recognize: that's what I have voice mail for. But the problem remains that even with that personal protocol I still have to mentally and physically process the call and WHY should I have to do that? Why should I allow someone's idea of business be able to have a computer call me? Where is the benefit to me? What is the public benefit to robocalls to mobile phones? I don't see any. So, no robocalls to mobile/cell phones. And no robocalls to any phone. And if, in a temporary lack of judgment, you do decide to allow robocalls to cell phones, you should make the rules so onerous that it highly discourages companies from doing so. Some ideas would be only between the hours of 9 am and 5 pm Monday through Friday in the mobile phone owner's time zone. Have a standard requirement for an automated entering of a code, maybe 0, to be automatically connected to an automatic disconnect, an increasing level of significant fines for repeat offenders, and special caller id codes so that we know who is calling.
James	Fairfield	CT	Robo calls are good only for information about dangers to the public (i.e. storms, fires and public hazards. They should not be used for selling, advertising or as junk notifications. Robo calls represent a public disturbances of the worse kind because they invade private space. Please get rid of these unwanted disturbances of the peace. These uninvited calls should result in a criminal prosecution of the caller (just like if I was calling a police or fire department with false information) and a huge monetary fine to the company they present. We have the means to track these culprits. Thank you.
Jack	Savannah	GA	Robocalls are a direct threat to our privacy. I implore you to outlaw these calls. This goes for hard line phone connection s, as well as cellular connections.
Barbara	Belmont Shore	CA	How about some freedom of privacy?
Al	Louisville	KY	NO robocalls should be allowed on cellphones!!

Bob	Bradenton	FL	I closely guard my cell phone number. It is only for sending personal and private communications with family and my best clients. I answer it 24/7 and I can't be rejecting calls based on the number calling. In this day and age, customers and family don't necessarily call me on a number that I recognize. Robo Calls are interrupting meetings, waking me in the middle of the night and it is beginning to damage my health. Please ... Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available Thank you
Doneta	Chico	CA	Robot calls have become the biggest nuinance in our everyday lifes. Receiving several a day on both our landlines and Mobil phones, takes are time and cost us financially. Now the debt collectors want to be allowed to harass us over other people's issues. Why should I have to pay to listen to these calls? PLEASE STOP ALL ROBO CALLS!!!!!! Doneta Hunter
Allison	Pleasanton	CA	Telephones should be an instrument of legitimate communication for business and personal use. Not the instrument of torture that have become in the hands of criminals and debt collectors. Please consider carefully the rules you put in place.
Gary	Plymouth	MI	Robocalls have become an increasing nuisance to not only landline phone but also now my cell phone. I never answer a call anymore unless I recognize the phone number or the number is in my contacts list. The unidentified or unknown phone numbers are becoming an ever-increasing problem. Something must be done to stop them. Please do something, now!! Thank you.
Don	Fort Myers	FL	Please pass & enforce rules to protect my privacy by requiring Phone companies to block "Robocall".
Bruce	Towanda	PA	It is very annoying to be getting robo calls to refinance my student loans (which i have none) or to say you won a free cruise(yea right nothing like that is free) I am on the federal do not call list but I still get the calls any way. Why should I use up my cell phone minutes to listen to a con story?
FJ	Jjacksonville	OR	Public should be advised of rights and the process to stop receiving calls related to debt collection. The maximum number of robo calls or texts per month should be limited to a total of three. Clear and readily available guidelines should be provided to all.
William	Arlington	VA	Robocalls are a serious invasion of privacy. I am 78 years old and 90% of the sites I'd calls I receive are unwanted robocalls. They draw on my limited patience and energy. Please stop them ALL. PROHIBIT ROBICALLS! THANK YOU. William H. Robinson; Arlington va

Patricia	St. Petersburg	FL	Robo calls are a constant source of irritation in my home. Half of them are hangups, but the rest are very annoying. It has led me to wait until my message machine takes over, which is also annoying. Please shut down this ability of companies and/or politicians to disturb my home life.
Glenn	Long Beach	CA	I pay my phone bill every month, although as many as 80% of the calls are unwanted "sales" calls. Anywhere else they would have to pay to market their product. Congress should pass a law such that each marketing call would make the organization put a small fee into my phone account. (NOT bank account.)
David	Manteno	IL	The do not call registry was created for a reason. This situation completely negates that
Jack	Evans	GA	My wife and I just started getting robo calls on our cell phones. Its bad enough on my home phone but now cell phones. I don't owe any unpaid debts. Due to medical needs we feel we have to keep a land line. I have gotten debt collection calls on the land line for almost five years on my home phone with threatening messages. We have told the callers that the person they seek has not had the number for five years but they continue to call. I signed up for Nomorobo and it worked well for several months but not any more. The phones should be a tool used to communicate with people or companies you choose and not be subject to harassment by strangers. There has to be a solution.
Jose	Maywood	NJ	I want a telephone that I can program to filter out or reject these calls, as well as calls from unknown etc, so my phone never rings on such calls. This will stop the practice and require no enforcement mechanism.
Joyce	Sioux Falls	SD	The invasion of privacy can be curbed by putting "brakes" on robocalls. I am a sr. who last week received calls from "the IRS", a person from India saying I had serious computer problems, an offer of a "free" medical monitor, and also the credit card curse. This, unfortunately is true. These low life's prey on vulnerable people, and must find some success, or they wouldn't persist. PLEASE ASSIST US WITH AN OPTION OR OPTIONS TO CURB THIS HARASSMENT. Thank you.
Frank	San Rafael	CA	I have been getting HUGE numbers of RoboCalls in recent years. Last year, when my older Panasonic cordless phone ran out of blocking capacity, I upgraded to a Panasonic KX-TGE233B that will allow me to program 250 BLOCKED calls. Of course MANY Robocalls do not use Caller Id, instead showing up as 'Out of Area' or 'Private Caller'. So far this past year I have identified and blocked 126 known Caller ID numbers, and now block 'No CID' numbers too. I have filed complaints with the FCC but they are useless and powerless. Please do what you can to stop the swarm of killer Robocalls

James	Morehead City	NC	I have started receiving robocalls of all kinds on both my wife's and my cellphone. This not only disrupts our lives it is dangerous when it happens when you are driving. Add to this the mental tress when the debt collection call has nothing to do with you is even worse. We support the Consumer Union's position: * Debt collection robocallers must notify us of our right to stop receiving calls * The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family * The guidelines should be clear and readily available I also believe that spoofing their numbers should not be allowed.
Josephine	Milan	NY	I get so many of these calls on my cell while I am at work.
Larry	Carriere	MS	We recently ended service on our home phone, in part because we received so many robocalls almost every day. Now we are beginning to get them on our cell phones. If left unchecked, robocalls will eventually disrupt our days as much as landlines did. There is a place for some robocalls I'm sure (emergency notifications, amber alerts, etc.), but not to sell me things I do not need or can shop for myself. Most of these calls depend on business from the elderly and/or uneducated, so they are far more than just an inconvenience. PLEASE limit them as much as possible! Thank you for listening (I hope) to me and others on this matter.
Jeffrey	Vienna	WV	Card Services is now using phone numbers of neighbors that show up on our caller id. The no-call registry is not working for us!
Joseph	Lake Hopatcong	NJ	It is a invasion of privacy
Maria	Orange	CA	Please stop Robocalls, they are nothing but bullies and harassers, if I want a service I will do my research and go find it. I will never, ever, give service to some robot who calls me over and over and over when I did not sign up for anything to allow them to do so. I joined the Do Not Call list on the original signup and have reenlisted as needed. When you do get a person they say, "so what I can still call you as the Do Not Call List is a joke". Please stop these calls or make our phone companies give us unlimited blocking of these numbers.
Marianne	North Arlington	NJ	I get more telemarketing calls on my cell phone than I do legitimate calls. I don't answer calls that I don't recognize; however, it is still annoying to receive these calls. If my cell phone rings while I am driving, I try to pull over as soon as I can so that I can answer the phone as I have elderly relatives and need to be available at all times for them. Nine times out of ten, the calls are bogus and are putting me at risk in my effort to answer the phone.

Carl	Clarksville	TN	I have never had any outstanding student loan bills, nor are we in arrears on any loan repayments. But, we still receive reoccurring calls for refinancing our nonexistent bill payment. These callers constantly roll their caller IDs to different area codes, both local and out of state. Even after pressing the designated keypad number and requesting that my name/number be removed from their list/data base, the calls continue, or the person on the other end argues with me over my right to end these calls. Frankly, I feel any request for removal just puts me on their "verified" list for future calls.
LILLIAN	BLUFFTON	SC	THE STRESS THESE CALLS CAUSE IS OVERWHELMING. PLEASE STOP THEM
Dave	N. Yarmouth	ME	I am sick of having my time and privacy invaded.
Francis	Palmer	TX	Unsolicited calls that are a form of harassment on the recipient! Especially those trying to sell you something or support a giving candidate. The fake surveys that try to entice you to buy products or services that you do not need. It is an intrusion on one's privacy.
Larry	Mountain View	CA	About 95% of the incoming calls to our LAND line are commercial and of no interest to us. Our number is unlisted, and yet... We also signed up with a do-not-call registry several years ago, and yet... When asked for a mandatory phone number on the web, I provide a wrong number, and yet... How do these people get our phone number?
Joy	Stanley	NY	Robocalls are disruptive of family life and should not be allowed at all. Our telephones are for us to communicate with the outside world, not for the world to follow us around.
Connie	Dulzura	CA	I do not want any calls to my cell without my express permission. RoboCalls or not. I want protection of my phone.
Michael	Merritt Island	FL	My home phone has been rendered nearly useless by Robocalls, up to four per day, often with fraudulent caller IDs. In the last two years I have started to receive similar calls on my cell phone. I can block them, but the callers often use rotating false caller IDs, sometimes from my own area code. Lately I have received false caller ID FaceTime calls. Make it stop. FCC rules are destroying the USA telephone communications system.
Charles	Pensacola	FL	In the last month I have added 17 ROBOCALLS TO MY DO NOT CALL REGISTRY ON MY COX COMMUNICATIONS PHONE SERVICE. I am BEGGING YOU to PLEASE do something to PREVENT THEM! Thank you, Charles
LaVonne	Weeki Wachee	FL	NO ROBO CALLS PERIOD !!!!!!!!!!!!!!!

Julie	Idaho Falls	ID	I receive at least 8 robocalls per day. On a worse day I receive a dozen. I never answer them. They seem to come in waves. One day last week, for the first time in a year, I received none. My all time personal best. These are intrusive and disruptive. Plus it makes me very angry. I pay for this phone service and I should decide how it is used. I should be able to levy a \$10 fine for each time I receive a robocall. At that point and not until then I would welcome these calls. My provider Cable One allows the blocking of only 8 phone numbers and I cannot keep up.
Alison	Campbell	CA	PLEASE help to end robocalls as soon as possible.They are terrible &constant.
Janet	Pinson	AL	I fully support the blockage of robo calls. Every day, paricularly between 11:00 a.m. and 2:00 p.m., I receive calls from all over the United States. I do not answer any call from a number that I don't recognize, but this problem has gotten out of hand!
Dale	Lee's Summit	MO	I oppose all robocalls to our regular and cell phones.
Brian	Tomball	TX	Although I don't have any debt collectors currently bothering me, I detest having to constantly screen calls on my cellphone from robo callers on a daily basis. I am on the 'do not call' list and still I am interrupted 4 or more times a day.
Shirley	King City	CA	Robocalls are expensive and annoying. Home Land lines are so frustrating. Continuous call are not good. We have to spend too much time answering calls that are import and. I don't like to waste money and time with this kind of call. I think Political and Charity calls should be banned also.
John	Atlanta	GA	FCC, I am sending this email to express my total resistance to this issue of opening up cell phones to any form of ROBO calls. I find it an intrusion and its very irritating receiving these calls, which are the equivalent of junk mail. I urge the FCC to not approve this action.
Eric	Morro Bay	CA	Please regulate how debt collection companies are allowed to contact people on their cell phones. Their calls are out of control. I don't owe anyone any money but have received calls over and over again. It is abusive and uncalled for. Please limit how they are allowed to call people. Thank you!
Carol	Brooksville	FL	robo calls cost money for cell phone users. Why should we pay for unwanted costly calls? Stop this madness NOW
Stephanie	Northampton	MA	My husband and I are 82 and 79 years old respectively, and getting up out of a chair to answer the phone is not easy for us. Imagine how frustrating it is when it turns out to be a robocall selling us something we don't want or scamming us about our credit rating, etc. these calls happen sometimes 3 or 4 times a day. Consumers should have a choice about receiving these calls.
Leah	Green Bay	WI	Since they became allowed to call cell phones, I have received AT LEAST 1 call every single day! It is getting ridiculous. Half the time they're not even for me, but for the person who had my number before me! Please make it stop!!!!

Mark	Santa Fe	NM	I strongly oppose ANY robocalls to private cell phones. These have occurred on my 2 phones, and I owe no money to any person or company. The calls I received were for vacations in the Caribbean. Thank You Mark Gall
Donna	Frisco	TX	Please stop robo calls to ALL phones
Phyllis	Hillsboro	OR	Intrusive unwanted called must end.
Charles	Baltimore	MD	For a nation who values privacy, the robocalls on both cell phones and landlines is outrageous. It is incredibly disruptive and annoying and should be allowed--please do something!
Richard	Annandale	NJ	Gotta go.....NOW!!!!
Virgil	Louisville	KY	Please end all robocalls immediately, it's bad enough that I get commercials constantly. Whether it's on television, billboards, radio, etc. I pay for the service on my phone, I should not have to listen to sales calls. Also debt collectors should have to notify us of our right to stop receiving calls. I want an opt out by default, and limited permission to call the consumer only if they ask to be called! The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available. Thank you for your time,
Beverly	Lucama	NC	The robo calls are especially detrimental to the elderly who do not understand what is happening. Both my mother and mother-in-law have been fearful after getting these calls. We can control this unnecessary fear and preying on the elderly.
garry	thousand oaks	CA	Please prevent robocalling! In fact, the phone system should be changed to prevent spoofing the caller ID.
Kimberly	Frisco	TX	My cell phone is area code 734. I live in area code 972. When a 734 call come in, I expect it will be a friend from Michigan. More often than not it is a robo call. I am one of the few lucky Americans with no debt. These calls are coming from banks offering lower interest cc rates. I do not want these solicitations. I back the number, and they continue on new numbers. Please help.
J.L.	Lake Forest Park	WA	I receive numerous calls every day and I don't even owe anyone anything. If I answer and request that they not call my number, the caller hangs up. These calls are disrupting and annoying. Do I have the right to privacy? Please stop these calls!
Sterling	Kirkwood	MO	I am angry that businesses and corporations are calling me on my cell phone at my expense. I get calls to pay off student loans, credit card debt, both of which I have NONE, and unwanted solicitations for ridiculous products and numerous SCAM calls. Robot callers are allowed too much latitude and lassitude to use the telephone networks to invade my privacy. It is necessary for the FCC to reign in these abusers.
Richard	Annandale	NJ	Please stop these maddening calls.....please....

William	Plainfield	IL	As a concerned citizen and a cell phone user I urge you to adopt legislation to stop the Robo Calls. Even though the new cell phone plans do not charge for calls it is still very annoying and time consuming to answer a useless and unwanted phone call soliciting some plan or something I really am not interested in. Also if I miss the call and try to return it the number is spoofed so when I dial it it is not a working number. This is very frustrating! It is in all of our best interestes for these calls to stop Thank you
David	Campton	NH	I am on the do-not- call list but I get unsolicited calls and robocalls constantly. I asked my phone company to provide caller ID but they said I had to pay for it. If I had reliable cell phone service at my house and access to highspeed internet I would cancel my landline due to all of the calls.
ROSE MARY	Murrieta	CA	It is the same company they have ghost phone numbers they called 4 times a day I have kept all the numbers.
Mary Ann	Pompano Beach	FL	Robocalls are an invasion of privacy using a service that I pay for with my dollars for my convenience. These calls need to stop.
Dee	Phoenix	AZ	I paid off \$48,000 student debt and don't owe back taxes. But I think robocallers are scavengers.
Herbert	Lynnfield	MA	I want privacy which means no robocalls to my phones.
Claudia	Safety Harbor	FL	I oppose robocalls because they are annoying and use up my limited minutes on my fixed income.
Tomas J	Henderson	NV	Advertising is one thing, and we can tune off as we want. Robocalls are unwanted and invasive. There must be steps taken to curb these unwanted calls. Do your job. I do mine every day.
Rene	N Chesterfield	VA	we get so many robo calls. we have taken action now by blocking 100 phone numbers. It appears to us the phone company should do something to stop the robo calls from connecting to our phone number rather than us having to block the numbers on our phone. It also appears robo calls are coming on our cell phones now. This should stop. Please do something for us to resolve this problem. Thank you
Mark	North Haven	CT	Ban all robocalls except for doctors appointment reminders or subscribed emergency messages. Make it a felony to purchase or arrange the use of automatic dialing equipment by any for profit entity, unless subscribed by the recipient. Prosecute violators under RICO and allow govt seizure of all revenue and all assets derived from revenue from this activity.
Thomas	Dubuque	IA	Our phone is no longer our communication device- its been taken over by robo-callers and other fraudulent callers. I want my phone back, force our phone company to provide call blocking software so we can stop annoying calls in their track- ESPECIALLY POLITICAL HUCKSTERS!!

Susan	Mission Viejo	CA	Cellphone service is a privilege, not a right and we pay a lot of money for the service. My private cellphone should be for my private use only; as such, I should be able to choose who I call and to whom I give my number. Unfortunately, robocalling has become an epidemic; I am receiving so many robocalls on my cellphone that I won't answer it anymore unless the caller ID is someone in my phonebook. Please stop unsolicited and unwanted calls to our cellphones.
Charles	Orange	TX	Please make the salesmen and politicians quit calling my house. I am sick of being bothered in my home, when I am trying to relax.
Wayne	fallbrook	CA	The FCC must put a stop to anyone using robo calling techniques to call Cell phone numbers. In fact, robo calling to land lines is a big problem. and a invasion of privacy. I urge you to stop or put a strong limit to this practice.
Les	Columbia	SC	I don't want to receive any robocalls. It's my phone. I pay for it. They ignore pleas to be added to the do not call list. I have given up reporting abuse to donotcall.gov because it fixes nothing. The percentage of unwanted marketing calls and robocalls has exceeded 50% of all my incoming calls.
Mavis	Chaplin	CT	I am so tired of receiving robocalls. They are annoying @ a total waste of my time.
Andree	Denver	CO	I think that robocalls are an invasion of privacy. It is almost like leaving the front door to your home unlocked for anybody to come in whenever they feel like it. They don't care if they wake people up or disturb them at any time. Please end this very disturbing practice.
Elizabeth	Jacksonville	FL	Please be firm with not allowing debt collectors to robot all or Robotech a cell phone without getting prior consent from the individual who has that phone number. Thanks.
John	Canton	IL	I am tired of receiving unwanted calls from robot dialers. Make it illegal.
Carherie	Bethesda	MD	As senior citizens we are the recipients of too many robocalls disrupting our medical routines and daily life. We answer because we think it might be a family member. Congress should pass legislation that requires the blocking of robocalls by companies who can do so (ATand Tetc)
lane	chesterfield	MI	If a company can not at least put a live person on the call, they have no business calling me.
Lynnette	Durand	MI	They are a major nuisance and they waste my phone minutes as well as my time.
Timothy	Grand Junction	CO	As a pre-paid subscriber, this is money coming directly out of my pocket for each call!
Martin	Wallington	NJ	Please stop these annoying calls as soon as possible. They always seem to come at the worst time.

Barbara	Hollister	CA	I dropped my home phone due to the volume of Robocalls we received despite being on the Do Not Call list. I feel our privacy was being invaded by people selling products I'm not interested in, soliciting money without my interest or request and receiving calls attempting scare tactics to solicit payment for bogus debts. I block unwanted calls on my cell phone but don't think I should have to. I don't pay for a phone for the benefit of telemarketers.
William	Wake Forest	NC	I have had a good dozen unwanted calls on my mobile phone in the past 10 days. This is a total irritant and everyone I know is disgusted with this nuisance. Put a stop to this!
T.	Baton Rouge	LA	I oppose robocalls in all forms to cell and land phones. This is an invasion of my privacy and should not be allowed. Debt collectors should use the mail to demand payment.
Donna	Corrales	NM	My cellphone is not for robocall use! If they wish to do that each call should pay my account \$1!!
Michael	Palm Coast	FL	Robocalls are offensive and an invasion of privacy. Surely, you can stop them if you put aside the lobbyist influence and act in the best interest of the citizens.
Donna	Corrales	NM	My cellphone is not for robocall use! If they wish to do that each call should pay my account \$1!!
Laura	Panama City	FL	Please end this nightmare! My cell rings day and night. Sometimes the same number calls 10-15 times in one day. Please help!
Peter	Mesa	AZ	Cellphone calls are charged per minute of air time. I totally resent ANY robo call using my paid for air time on my cell phone. Only direct debt collection calls can be made if the caller notifies me of my right to stop receiving calls. Guidelines must be clear and readily available.
Betty	Collegeville	PA	Please stop the abuse of robo calling from debt collectors and sales people. Anderson Windows calls me four times a day trying to sell their windows to me. I say no and they call back anyway. I tell them to stop calling my number and they call anyway!
Jim	SD	CA	I am sick and tired of receiving unsolicited robocalls on my personal cell phone. If I am interested in contacting someone, I will do so at my own convenience.
Timothy	Honesdale	PA	PLEASE STOP ROBOCALLERS !???? THANK You.

Rosemarie	Pittsburgh	PA	The other day I was on an important call and was interrupted 7 times in 20 minutes by a returning robocall. Even though I didn't answer, the repeated calls from the same # were placed seconds apart. Upon completing my phone call I entered the offending # onto my 'BLOCKED #' list; however, the annoyance I experienced during my chosen call was unnecessary, unprovoked, unwanted, and unneeded. I receive an average of 3-5 robocalls from around the country and the globe daily. As I prefer to use my land line, I haven't pulled the plug on this 'convenience', yet....but am close. Why are land line owners/users permitted to be tortured by these horrific interruptions of our privacy???????? STOP ROBOCALLS!!!!!!!!!!!!!!!!!!!!
Harriet	Tuscaloosa	AL	Please help us! I don't know of one single person who enjoys getting robocalls. NOT ONE. And have you ever had a conversation with ANYONE who said "I got a robocall the other day and decided to buy the product they were selling." "I am so glad they called." I know I certainly haven't. If I want to purchase a product the robocalls are selling, I will initiate the transaction.
John	Seattle	WA	I urge the FCC to apply the maximum effort needed to stop unwanted robocalls. Since acquiring my current phone in October 2015 I have received 235 unwanted robo-calls. The technology to stop them exists, and the penalties for non compliance should be extensive, \$10,000 per call would be good number to start with.
Michael	Omaha	NE	Enact the strongest possible legislation against all robocalls and scams perpetrated on US citizens. This is criminal behavior and disruptive to family and peace of mind.
Premlata	San Leandro	CA	I receive calls stating they are getting error reports of my computer and they want yo fix it. These calls are coming from India and the rep tells me that they have to have income for living and company is asking them to do this job. Once I had fallen for their sweet talk and they had erased all my data. After repeated request to delete my name from calling list, they continue to call
Michael	San Jose	CA	I get at least 3-4 robocalls a day, which is extremely annoying and would like the FCC to put an end to this.
William B.	Plainsboro,	NJ	If I didn't call you, don't call me!
K	Lynbrook	NY	Sick and Tired of my home phone and now my cell phone ringing off the hook with all the unwanted calls. This most be stopped.
Sheri	Englewood	CO	Please stop the annoying and time consuming robocalls I get almost daily!!
Dale	Williamsburg	VA	This has got to stop as one of biggest wastes of time anywhere.

Gary	Casa Grande	AZ	Our home phone is registered with the US gov't Do Not Call list and has been since it's inception. Yet, we are bothered by approximately 6-8 marketing calls each day ! This disregard for what is law must stop immediately. It's not just robo calls but also live marketing calls which are unsolicited. Please play a huge role in helping millions of Americans who are scammed every single day. Stop these calls by making an example of some of these people. I would urge you to make a number of stern 30 second PSA 's that would air free of charge all over America. Eventually, with arrests resulting in stiff fines & your help, this activity can be can be reduced a great deal.
Debbie	Jennings	OK	I have had a stroke. I lay down frequently. My husband calls a couple times a day to check on me to see if I'm alright. I get Robocalls from Vacations I've won, Credit Card Companies trying to lower my interest rate and more. Sometimes I get several calls a day. They are disruptive to my rest. I have asked them to remove me from their call list and they tell me to "F....off". I am 65 and do not appreciate that language from an oversea's foreigner that is an interruption of "my time" from an unsolicited phone call. Please, please, please stop these harassing phone calls.
Gary	Highland	MD	Because the robo calls are so annoying, I am considering giving up my home phone. I will not support any business that robo calls, nor will I give money to any charity that harasses me by phone.
Erika	Chicago	IL	I have limited texting and high priced calling on my cell phone. I pay for incoming calls and texts as well. Imagine how thrilled I am about receiving unsolicited, junk calls and texts. At the very least, I need a way to opt out of receiving calls, and/or severely limiting the number of calls. I would not like to receive calls about others' issues; call them, not me. And, in any case, I would like to see written and enforceable guidelines.
Thomas	Williamsburg	VA	My phone is private and is paid monthly by me. The callers who annoy me by calling, do not pay my bill. Therefore, I want this stupid practice stopped. All of us have put up with this for years, since the government wants to control our lives, they can start by putting a stop to these calls.
Scott	Dallas	TX	Please stop robo calls on cell phones. It is highly annoying to get calls from unsolicited parties.
Stephen J.	Laguna Niguel	CA	My cell phone is a private personal tool - I carry it for emergency situations. Very few people in my life know my cell phone number. I receive calls - almost daily - some days several from unknown sources and unknown area codes. This is disruptive when I am driving, in a meeting, When at home I go to see the phone and who is calling me - disrupting what ever I am doing. I have never given any company permission to call me on my cell phone. My land line is driving me crazy enough.

Dick	Burr Ridge	IL	We get robocalls day and night , both on land lines and cell numbers. These people do not respect databases, nor cell rules. It is not right to have our house invaded by these greedy people and have no effective way to stop. My personal feeling is that the owners of these businesses should be shot. They are pure evil and Congress is complicit and bought off in allowing it. Make it so they can sued for civil damages. Let the lawyers make millions suing them. That would be a better use of the money.
Loretta	New York	NY	I get robo calls both on land line and cell. I turn my cell off when home and delete in the morning. My biggest problem is the house phone. They are extremely persistent, I never answer. They call all hours seven days a week and call late night. I have one caller that calls at least five times a day. These calls drive me crazy, truly
Michael	Rockville	MD	Robocalls to my cell phone are not only annoying, and an invasion of my privacy, but they are also costly, since they come at my expense. I have signed up on the no more calls list but continue to get unsolicited calls. Please stop this gross invasion of my privacy.
Joshua	Grapeview	WA	Please stop debt collection companies from calling phones numbers that are no longer used by the debtor and have been reassigned to another. This occurs even though the debt collection company has been told that the phone number is no longer for the person they seek.
shirley	New Caney	TX	Please, no robocalls to any phone, cell or home! They are not fair to consumers, they harass anyone without consideration if they have the right number or not! You can not call them back, if you do it tells you it is not a working number! They totally disregard any decency and you continue to get the calls, one right after another, even though it is not you and has nothing to do with you! You can not complain because you do not have a good phone number for them! This should not have ever been approved! You can not stop the calls because you can not prove where they come from not do you have anyway of contacting them nor can you block the calls! We have totally gone back in time as this allows total disregard for common courtesy and total disregard for your rights as a citizen of this country!
Marjorie	Tucker	GA	Please outlaw all robocalls - debt collectors or anyone else. I pay my debts and do not want any collectors scamming me. I pay for my phone and the usage of it. I only give my phone numbers to those I want to have my phone numbers. The robocallers do not pay for my phones or my phone usage. The robocalls are an invasion of my privacy and I want these calls stopped. These robocalls should have never been allowed. I appreciate you for your consideration. Please STOP THESE SCAMMERS and RESPECT MY PRIVACY and the privacy of all US citizens! Thank you.

Vince	Richmond	VA	Dear Sir or Ma'am, Please stop all Robocalls and especially Robocalls to cellphones. Thanks in advance for your support, V. Ashley
Eileen	Oxnard	CA	PLEASE Stop the annoying Robo calls on my cel phone.
Gerald	Clinton	MS	All of the day light hours I receive them on a land line phone. Even the return number is mine, me calling me. Please stop this ridiculous allowance.
John	Williamsburg	VA	If I wanted a grave site. If I wanted a credit card. If I wanted life insurance or a trip on a cruise ship ... I will call you. Don't call me. Get it? Don't call me I'll call you. That is how I feel about robocalls. They are annoying. Time consuming. Irritating. And an over all waist of the airwaves. You can stop it. So please do.
William	Rochester	NY	Please help stop robocalls to ANY phone for ANY reason. I am constantly harassed by identity thieves and various other scams, including bill collectors regarding distant relatives that I have absolutely no contact with or even knowledge of. The present system makes no sense and is entirely unfair to consumers. I can no longer tell if I am receiving a legitimate call or not! The technology should exist to track down and put a stop to robocalls permanently.
Doug	Sterling	VA	Please invoke strong rules against robo calls and solicitation by phone. It is intrusive and for us Seniors downright scary. Our phone that we pay for should be only for calls we welcome. Our home phone gets 4-6 unwanted calls per day, some after 9 pm. I feel helpless to stop it. Please end this practice. At least every robo all should have iron clad do not call again, so if a call comes in we can hit a button and never hear from that company again. Also these companies should have to publish statistics of turn downs and if they are high, stop the practice. My neighborhood has no solicitation rules phones should too.
Franklin	Falls Church	VA	Robocalls from unknown numbers or from sources that refuse to provide a name of a company or an address, or that use false identification on caller ID should be illegal both on cell phones and land lines. In addition, phone companies should be required to implement technologies that make it possible to trance to actual source of all calls when required to investigate illegal robocalls.
Martin	Pleasant Hill,	CA	These calls invade my privacy and disrupt my day. You are expecting an important call. You drop what you are doing, hurry to answer, only to find a robocall.
Philip	Milton	FL	I have received 3 to 7 Robo calls every day for the past 4 years they will never stop. I have done everything possible and they refuse to stop

Thomas	Wildwood	MO	My view may be the extreme, but I would encourage the FCC to ban all robo calls. I am registered on both the MO state and Federal no call lists for our land line, yet I still receive these unwanted calls. They exhaust the 20 call phone number limit on my Uverse call blocking feature. We owe no debts, and certainly no student loans and have nothing to talk to any of them about. If I want to talk to someone, I will initiate the communication.No robo call has ever influenced me to do anything except hangup. My wife and I both use the program NoMoreRobo and will continue to do so. We appreciate the FCC effort to encourage this program and Consumer Reports to publicize it. We would encourage you to take strong measures to thwart /eliminate this practice while the current Administration is in office.
willis	darnestown	MD	Not enough is being done to block unwanted calls. I have no debt, I've put myself on the DO-NOT-CALL list, and I don't give out my cell phone number, but I receive a constant barrage of calls. WHO DO YOU SERVE?
iris	delray	FL	How annoying to have your time imposed upon by someone, or company, uninvited to your phone. Why are they being allowed to rob us of our time and energy?
Lynn	Ashland	OR	As I age, these class become more of a problem. It takes time, energy and can pose safety issues for seniors who might have difficulty getting to these useless calls
Bill	Florence	SC	Robo calls are a nuisance already on land lines but to allow Robo calls on cell phones would be a game stopper. Please don't let this happen.
Jl	Lutz	FL	Please do something to stop the onslaught of daily Junk calls I am receiving.
George	Springfield	VA	The first wave of calls came on hard line, then expanded to cell line. I get calls from 7:30 a.m. to 9:30 p.m. And I pay for this!
Greg	Valley Center	CA	We receive several call a week in spite of being on the do not call list. The calls are at all hours and days of the week. They are not invited, nor encouraged. I personally refer to this activity as " Electronic Trespass" because if these enmities intruded to this extent in person, they could be arrested.
Robert	Wallingford	CT	The incessant robo calls to both land line and cell numbers are tying up my phone lines. Please prevent them from happening
James	Dana Point	CA	We recently heard that you may be allowing more robocalls. We believe that any robocaller should be required to tell people that they have the right to stop getting calls and that any call recipient should be able to access clear and easily found guidelines. No person should receive any more than 3 calls per month. I a person does not have federal debt, they should not be called. And while you're working on killing these excessive robocalls, do us a favor and allow us to buy cable boxes from other than cable TV companies.
lin	lewes	DE	these calls are disconcerting & annoying.

Jeff	Cary	IL	Please stop the annoying robocalls. They are not supposed to call numbers on the do not call list. They are mocking the do not call list.
George	Byram Township	NJ	it is so ridiculous that i can put all my phone numbers on a Do Not Call list, and then I have to still work to either report a robocall or i have to block the individual numbers. And it gets worse when the same "company" uses different numbers in different zips -- sooner or later i will wind up blocking a number that will later be assigned to someone i need to talk to. I take robocalls as an impersonal invasion of privacy. Please do everything you can to stop them now.
Allen	Duncan	SC	we Americans should be left alone if we want it. Phone calls as a means of communication should be handled just like speech, if we do not want to discuss something we have a right to this. We did not give permission to these organisations To bother us at home. If we wish to attend where these situations arise and talked About, fine, but if we do not care then just leave us and our families be. I as an individual do not force myself, my views on anyone. I leave people alone unless they want my company for talks etc.
Michael	Slinger	WI	These calls clearly violate my rights as a consumer. I own a computer that detects spam and keeps it from entering my e-mail messages. These robocalls are the same thing to me only coming through the phone. Please make it stop.
Bruce	Shingle Springs	CA	Please force AT&T to allow us to have simultaneous ringing so we can use the nomore robo call service.
Theodore	Philadelphia	PA	Please establish controls over robo calls PARTICULARLY POLITICIANS. They should be outlawed at election time. No calls, but limited text messages.
Ken	Westlake Village	CA	I am ready to surrender my cell phone number which I have had for 10 years! I hate to give it up because so many friends and clients have used this number and know it, it is a big pain to change it. The robo calls originated when I ordered medication on line a had the misfortune to give them my cell phone number. I still get at least one per day, but sometimes three.
Eric	Carrollton	TX	As my cell phone becomes my primary phone, I am experiencing increased number of unwanted robocalls. Please do something to alleviate the problem.
frank albertt	plano	TX	I probably get at least 15 of these types of call per day. It is time consuming and definitely annoying! Please help me as an older American, who is retired and a Vietnam Vet, who proudly sacrificed five plus years of his life for the USofA. Many of these calls are NOT only annoying but harassing! They will NOT take NO for an answer!! Please do what you can to help. Frank Albertt Hopkins

Cynthia	Silver Spring	MD	We are inundated with ROBOCALLS of all types, many of which are downright offensive. We should have available a one click blocking feature which permanently blocks a company from calling either home or cell phones. There's absolutely no reason for every meal and every evening to be interrupted by unwanted phone calls. It's inexcusable that such calls distract drivers, interrupt meetings and interfere with our quality of life. Please, please put in place strong, explicit, protective laws which prohibit such calls to either home or cell phones. Thank you, Cynthia Morton
Thomas	Mystic Isl	NJ	I'm real tired of getting robocalls on my cell phone. Just an hour ago I got robocalled to get help with my student loan. Problem is I do not have student loan debt. As a matter of fact I never had a student loan. Stop the insanity.
Lawrence	merritt island	FL	Pls make them stop. They are annoying and cost me minutes!!
Rae	Agoura	CA	Robocallers attempt to collect on debts that don't exist. The door is currently wide-open for scams that prey on uninformed consumers through official sounding threats. It's bad enough that they relentlessly disrupt us several times a day, but the fact that they successfully rip people off so easily calls for responsible controls.
Janet	Norman	OK	I oppose robocalls to my cell phone without my permission. It is my right to refuse to give my phone number to any person or entity that I choose. If I do not hold any federal debt, but happen to be related to, or acquainted with someone who does hold such debt, I should not be subject to calls from the FCC. I'm not responsible for the actions of my family and friends. I strongly believe that debt collectors must be held accountable to notify consumers of our right to stop receiving these calls. Please hold them accountable!
Robert	Prescott	AZ	Please let technology work for us and stop the Robo Calls. As a retiree from the phone company, I know it can be done. With today's computers the consumer should not have to put up with land line or cell calls from anyone other than who they want. No Robos, no selling, no surveys, NO junk calls.
janet	brighton	CO	Put and end to the calls. The false caller ID they use make a mockery of the caller ID function, Find out who is doing it and prosecute them to the fullest.
Judith	Fayetteville	NC	I have stopped answering the phone except for identified family, because of continuous calls from the same sources. These robocalls are actually controlling a portion of my life.
Vaughn	Huntertown	IN	I am fed up with Robo calls, I have no credit problems, and continually get calls from some outfit that calls themselves Warranty Update their numbers are 412-275-1482 and 260633-7541. Please put a stop to this intrusion.
SUSAN	LOS ANGELES	CA	THESE CALLS ARE INTRUSIVE AND FRUSTRATING
Andrei	Herndon	VA	Please make them stop!

Mary	Alliance	OH	I do not have debt. But I do not want mistaken robocalls that think I do. Please prohibit this and make it easy and quick to stop them if they start.
Jana	Monument	CO	Please, please implement your strongest rules against robo calls. They are not only annoying but a huge waste of time and an invasion of privacy.
Nick	West Allis	WI	There are no more acceptable excuses for not taking effective action on this important issue.
Sona	Burbank	CA	I have received as many as 12 robocalls of all types in 1 day. They have occurred even on Sunday. There must be a way to stop this happening!
Debbie	Park Ridge	IL	Very disruptive during my business when I am helping someone I am trying to run a business and make money and I am constantly interrupted on robo calls for things I care nothing about
Frank	Los Alamos	NM	We consumers need less robocalls, not more. How much time and aggravation is wasted because of them.
Robert	Westchester	IL	Please do what you can to eliminate sales robocalls from cell phones and landlines. Not only are they very annoying, but they usually violate the "do not call list" requirements.
Juley	Estes Park	CO	We have the right to remain silent, untouched by predatory harassing robocallers.
lisa	Centennial	CO	Stop all robocalls
Stephen	Menlo Park	CA	Please take strong action to curtail the user of Robocalls. The only exception I can think of is the use of reverse 911 calls from authorized emergency information providers such as local emergency response agencies, your employer, or an educational institution that a household member is actively enrolled in. Any commercial use of robocalling, including political and non-profit organizations, should be strictly prohibited.
Sarah	Lincoln	CA	To receive ROBOCALLS is an invasion of privacy over which we are powerless in spite of TWO (2) requests to be put on the Do Not Call list.
WILLIAM	PINELLAS PARK	FL	ROBO CALL MACHINES ARE TO ME AN INVASION OF PRIVACY. THEY SHOULD BE TAXED BY THE FTC TO THE HILT (\$AY IN THE AREA OF \$10,000 EACH).
Jeff	Salinas	CA	Please create, communicate & enforce clear and restrictive regulations on all robocallers: debt collectors, vendors, service providers, politicians, charities, and etc. Limit the phone numbers that may be called to those whose current owners have opted in. Allow phone owners to select the frequency and only hours of day they may be called. Thank you. L
LaNell	Willmar	MN	Please put and end to robocalls. They are a nuisance and interrupt my workday.
Carol	Portola Valley	CA	It is costly, time consuming and most of all annoying to be bothered with robocalls.
IRENE	Alhambra	CA	im sick and tired of telemarketers calling my home phone and cell phone!!! THIS MUST STOP!!! FINE THOSE BASTARDS!!!

Glenn	Los Angeles	CA	Enough is enough. Please do want you can to stop unwanted and unneeded robocalls both cell and landline
Kathy	Benson	NC	Robo calls, whether cell or landline, are awful, intrusive and endless! Please do whatever you have to stop try them!
Fred	Lusby	MD	Don't stop at cell phones. We need rules against Robocalls and unwanted calls to any number. Rather than a convoluted system of "opt out" with enough exemptions as to be more than useless, the system needs to be "opt in". If I want called, I'll give my consent. If I don't want called, then I should have to deal with a constant stream of unwanted calls from organizations that exploit every loophole available in an "opt out" system to call me regardless of my clearly stated preferences. The enforcement needs to be simple as well. I show a call log with an incoming call from an unwanted number and the owner of that number gets fined. Period. No muss. No fuss. No calls.
Anthony	Temperance	MI	Please STOP ROBOCALLING---There using up my cell time. I m retired and calling my grandkids is more inportant then robocalling callers taking up cell time.
Tony	Canon City	CO	I get 1 or 2 of these robocalls every single day. They are driving me nuts. Please put an end to this madness!
Ronald	Oviedo	FL	It's about time the very annoying robo calls stop. please do whatever it takes to accomplish this.
Yvette	Gaithersburg	MD	Over the past week not only are to ovals coming to my home at ALL hours of the day, but now they are coming to my cell phone. These have included text messages advertising a new business venture. I thought it was bad enough when the calls were coming to my home phone with an ID that said I was calling myself, but when they started calling my cell phone I decided this is way too much and something needs to be done. I have to pay for text messages that someone that I don't know to advertise their product? STOP the rob calls.
Abbigail	Greensboro	NC	Please take a firm stand against Robocalls, especially to cell phones. Many seniors, like myself, have cell phones just for emergencies and many are prepaid "by the minute" plans. Robocalls should be stopped completely!
Carol	El Cajon	CA	I receive 8 -10 Robos calls a week. Enough of this - I am seriously considering getting rid of my landline. But now I'm getting Robos and other unsolicited calls on my cell. I am registered with do not call and that isn't working!
Sena	Blanchard	OK	i DON'T WANT CALLS FROM SALES PEOPLE, i GET 3-4 A DAY. i AM ANGRY ABOUT THIS.
Patti	Ringgold	GA	It is way past time that people should be able to block robocalls. In addition, there are callers trying to get information from phones that need to be blocked. Please encourage the phone companies to implement one button blocking on cell phones.

Catherine	Boise	ID	Please make it required to tell consumers how to opt out of these calls. The calls should also be limited to those who MAY owe the debt directly. The callers are often calling the wrong people anyway.
Claudette	Modesto	CA	Each month I pay the full amount on my credit card statements, household bills, doctor bills, etc. At least two to three times a week I get phone calls on my cell and home phone from companies telling me they can lower my monthly credit card payments. The recording also warns me that my account is in jeopardy and this is my last chance to take advantage of this offer. At the end of their spiel they say "press 2 if you no longer want to receive these calls" which I always do. I'm still getting them. Please do what you can to stop these annoying phone calls.
Calvin	Mechanicsburg	PA	DO SOMETHING!
David	New Berlin	WI	I'm calling for common sense to prevail and stop bothering relatives over debt owed to government by someone that is dead. guidelines should be set to leave cellphones off limits to robocalls being they are a why we dropped landlines.
H K	Athens	GA	Any debt robocalls MUST be to a person AND THAT PERSON ONLY holding such debt
David	Portland	OR	Right now my employees waste enough time answering robocalls. I can't imagine how much more will be wasted answering calls from debt collectors for everyone that at one time used their work phone number on a credit account. Some of our driver phones have been in use for years and have had multiple users over the years. Wasted employee time costs everyone.
Deborah	Jacksonville	FL	Please stop robot calls to cell phones.

William	Ogden	UT	<p>My wife and I are over the road truck drivers. We need private cell phone numbers that we can limit to trucking business only. Phone calls of any sort are distracting but some are necessary. Robo calls are not just unnecessary, they are dangerous. My business partners know when to call us And when not to. Calls can and do wake us up when we are by law required to be undisturbed, we cant turn off the phones because it is necessary to have emergency contact. These do not disturb times do not fall in to normal 8 to 8 time frames because our schedules change as needed to meet customer service needs, Robo calls violate my right to privacy, violate federal law governing HOS rules and rest periods, add to the distraction of all drivers on the road this can and will cause accidents and deaths. If calling my phone is important enough to risk a traffic incident that could become a death, there should be a life on the other end of the phone. It is bad enough, to allow my private phone number to be used by anyone.... But computers robo calling are not people. And the companies bothering me have no right to attack me just because they want to sell something. I view robo calls as just that, an attack on my sleep rest and safety. My life might be ended or a child run over on his bike because the car next to one of us might be listening to computer saying " you have just been chosen to receive a free Vacation! Or vote for me or you or someone you might know owes the Irs and we can help " End the madness end robo calls</p>
Faye	Burbank	CA	<p>Now that a Senator has been inundated with these abusive calls, there is some movement toward ending this relentless annoyance that the rest of us have been dealing with for YEARS (despite repeated calls to FCC and FTC and all phone providers)!! The phone providers say they can't stop these "paying customers and block their business opportunities" and if WE want to TRY to block their calls WE need to pay the phone companies more -- so they make more money for worse service. The FCC points to the FTC and everyone has several files/cases going to prove we're getting annoying calls daily/constantly. When is someone going to STOP this (I've not heard anything from my file reporting)? I can look up and find anyone I want to do business with; I don't need robocalls to figure it out -- in fact I will NOT do business with anyone that robocalls me and many of the robocalls are SCAMMERS!! STOP THE INSANITY NOW!!</p>
Lawson	Clarksville	TN	Please stop them.
Ginger	Phoenix	AZ	<p>Please stop robocalls they are annoying some people have limited minute plans and the constant calls run up your minutes. They have tactics that border on and sometimes are illegal. They often use threats and people are not really aware of their rights in this area please stop them from constantly calling.</p>

Michael	Frankfort	KY	I have received 3 robocalls a day from a group called Cardholder Services for about 10 years...I do not know their phone # but if i could locate them, i would certainly want to do them harm! Would you please help me get them to stop calling my # (502) 875-4319
kristin	sugar land	TX	I get robocalls all day long every day at my place of business and it interrupts the flow, takes away from other calls, keeps me away from patients who need my attention and is absolutely ridiculous. It should be illegal to allow these calls to be placed.!
DORETHA	SAINT LOUIS	MO	MY PHONE RINGS THROUGHOUT THE DAY WITH ROBOCALLS. EXTREMELY DISTURBING.
Howard	Provo	UT	Please outlaw robocalls to cell phones and thereafter enforce that law!
Carrol	Warner Robins	GA	I am on the no call list for both landline and cell phones yet still receive robocalls. I sometimes substitute teach and some of these calls on my cell come thru when I am in class. Please enact whatever regulations would end these calls. Thank you.
Nancy	Houston	TX	I find robocalls intensely frustrating, as I am in poor health and make great efforts at times to answer the phone, only to find it is a robocall. The credit card services one is annoying enough, but if I start getting calls from debt collectors because someone I know has a debt, that will be outside of enough! I think debt collectors should be able to call debtors only, not friends and family, and even then I think they should not be able to call more than once a week. Debt collection robocalls should include in the calls information on how we can stop receiving the calls (other than the debtor paying the debt). The guidelines should be clear and readily available. Please do not allow debt collectors to harass me (thankfully, I have no debt at all so should not be getting such calls). "Rachel from Cardholder Services" calls me several times a week, and I leaped out of the shower yesterday to answer the phone, expecting it to my oncologist's office returning my earlier call. It was an emotional let down to get the usual overly cheerful voice announcing it was Rachel, blah, blah, blah, not to mention the mess in my bathroom from me dripping water everywhere. I have no credit card debt, and I have connected to representatives several times to explain that and to ask that I be removed from the call list. Either they hang up on me or they tell me to call my bank, that it is my bank's fault that I am being called. Bogus! Please, please do whatever you can to stop this harassment!
Art	Prescott	AZ	Help stop the invasion of my privacy. No Robocalls!
Michael	Wichita	KS	I get those annoying calls everyday and I've opted out, supposedly. FIX IT!

Philip	Los Angeles	CA	Please do everything you can to research and implement technologies and practices that stop robocalling, Caller ID spoofing, and unwanted telemarketing calls. Sadly, the Do Not Call List initiative has failed - most illegitimate callers simply don't care to wash their calling lists, and Caller ID spoofing makes any identification of the caller impossible anyway. And although all telemarketing and robocalling to mobile telephones is banned, I suffer about five robocalls or telemarketing calls during every work day. As a result, nowadays I simply never answer my cellphone, and as my blocked caller list has grown into well over a thousand numbers (many of which could be legitimate numbers for all I know), I worry that potential clients may never reach me. Adding debt collector robocalls to a 'permitted' list simply adds angry fuel to an already furiously raging fire. The telephone system is broken, and to consider allowing the known-aggressive debt collector industry to start calling us is horrifying. If they are to be allowed, a WORKING system to remove oneself from their calling lists MUST be implemented, and any guidelines should be clear and publicly available. Thank you,
Barbara	Fayetteville	AR	Please stop robo calls. They are invading our privacy and NEVER effective in delivering the intended message! I either hang up or refuse to answer an unidentified call.
Jane	Independence	MO	Please end robocalls to cell phones. They are dangerous when driving and can be very annoying which drivers don't need to be to begin with. I wish robocalls were ended period!
Brian	Gaydlor	MI	Please end robo calling
Patrick	Frisco	TX	There must be no exceptions. Any loophole will be an excuse for shady merchants to bypass the law, as they are doing RIGHT NOW.
Randall	Godfrey	IL	We need the unwanted calls stopped. We the people formed the FCC to act on our behalf to affect the change that we the people (Tax paying law abiding people) need. I pay for my phone and phone bill. It is here for my benefit not phone marketers and scammers. The NoCall list was the best thing I can remember my government doing for me. That didn't last long. If the FCC can allow spying on our phone calls surely they can stop unwanted phone calls. Thanks for hearing me out.

Wendi	Ashland City	TN	I would really like to see more done about these calls. I don't have any debt that needs collected, but I get calls about distant relatives. If I answer the people are rude and insistent that I know people that I don't. One example was a step sister that I had never met or cared to ever meet. I got calls for over a year; being harassed that I had to know her or someone that I could give them the number for. Basically it was if I don't help them find her they would continue to bug me. This is wrong. Send a letter. These companies can just as easily send a letter and get off my phone. Think of how much that would help out our postal service. I like to keep my cell open for emergencies and family. I don't use my cell phone number on the internet or anywhere else and still I am starting to get these robocalls. I always fill out info with my home phone which 90% of the calls are robocalls. It's pretty sad that we have hit the age where we can't answer our phones anymore! We have to screen every call. What is our country coming to the we allow and condone this type of harassment, because that is what all this is, HARASSMENT. I think we should add that anyone we supply our personal info to cannot share it. I don't think they should be allowed to call or text our cell phones period. There should also be a way to track and prosecute offenders.
theresa	haverhill	MA	As an 85 year old woman who hardly uses her cell phone, I find it maddening to be disturbed by these intrusive calls which I've been receiving lately.
Jerome	Amelia	OH	Please end robo calls.....on ALL phones.
george	gardner	MA	Robo calls are an annoying interruption anytime. I do not want to speak with anyone about buying or joining anything. If they would like to get in touch with me they can send me a letter through the US Mail. I don't want any emails either but I suppose that is not the battle here.
Judith	Cape Coral	FL	These robovals are extremely annoying!!! I do not know how many times I have reported these calls to the Mational Do Not Call list??!!! Nothing being done and my number should not be out there for anyone to call!! I do not have a home phone per say as I use my cell for everything. Another thing tired of these cons getting numbers off job sites as well. These sites are for people looking for work. Not cons going on them to get phone numbers. This has to stop as sooo many people are FED UP with all of this. Just like people hijacking your e-mail address than you have to "unsubscribe" to something you never subscribed to in the first place!! And not know if these e-mails are phishing to get into your phone via "unsubscribing"?!! I report all mine to spam@uce.gov. But still continues??!!!
Marilue	Aliquippa	PA	I am so sick of getting unavailable Robocalls on my cell phone, this has got to stop. It is no different than getting them on the land line.

beth	hanover	PA	I have a cell plan that charges me for minutes used. These calls cost me money as they use up my minutes. please stop these money wasting calls.
ronald	sugar grove	OH	these people are pushy even when you hang up on them, i could hear one guy swearing at me.
Frank	Lakewood	CO	I am left side paralyzed and have enough difficulty using a cell phone, let alone answering robo calls
Lila	Flower Mound	TX	Please STOP ROBOT calls.
James	Denison	IA	We all depend on our cell phones to stay connected, but we should be able to control who has access to our phone numbers. Robocalls are intrusive and can be dangerous if the person receiving the call is driving or performing a task that requires concentration.
John	San Antonio	TX	PLEASE,PLEASE,PLEASE, Put a stop to these worthless SOB's. There are so many scammers and thieves wasting our time at least try to muzzle those who respect the do not call list.
Mikel	Big Spring	TX	Monday I got eight calls in ten hours. If I hear one more call to lower my credit card interest rate When I Don't HAVE A Credit card, I May Go postal.
bueford	roswell	GA	I am tired of robocallers calling my cellphone with ads, political solicitations and various other solicitations. I only desire calls and texts from friends and family.
SHERRY	LAKE CITY	FL	PLEASE STOP ALL ROBO CALLS PERIOD. MY HOME PHONE RINGS CONSTANTLY MORNING TIL NIGHT. I HAVE TO UNPLUG MY PHONE TO HAVE SOME PEACE.
Sabrina	Pasadena	CA	To the FCC: I urge you to adopt the strictest limits possible on robocalls, to landline phones and to cell phones. thank you. Sabrina Peck
KAREN	NAPLES	FL	Robocalls to home and cell phones are intrusive and frustrating, seeming to interrupt at the worst possible moment. Please eliminate these nuisances and restore our peace and quiet.
Larry	Austin	TX	Robo calls are a scourge to the public. They should be eliminated or strongly curtailed. I personally view them as stalking by telephone, or invasion of privacy. Our privacy (and the activity we're doing in our own home) is invaded each time a call is received. Our lives are interrupted, but the robo callers are not bothered at all. It is unfair that their lives are not interrupted, but ours are. No one should have the right to interrupt someone's else's privacy, and do it automatically. The scale of this problem has grown way out of proportion. It should be curtailed strongly now!
Elizabeth	Avenel	NJ	These calls are becoming more frequent, and they are an extreme nuisance. Sometimes you can't distinguish between what is legitimate and what is a robo-call. If I'm not soliciting their services, I don't want to be bothered with their invasion of my privacy and their continual use of my number for their bottom line, or scam.

Farrell	Albuquerque	NM	These calls are annoying, disruptive, and result in lost productivity. Most are a complete waste of valuable time. I consider them to be an invasion of my privacy. My phone is for my convenience. I pay for it, and I should be able to easily block annoyances and scams.
Sandy	Spring	TX	These calls are a continual nuisance, disturbing ones privacy at home, at work, & now on my cell. It is so annoying, & frustrating from 8am till 10pm. This ROBO calling should be banded immediately
Donald	Running Springs	CA	Last year and the year before we had been harassed by a fake company that was constantly calling us even though we had told them not to call anymore and we finally their phone number blocked. That has seemed to work because we don't get practically anymore calls from them. It was extremely annoying.
Jack	Bloomington	IL	PLEASE, NO MORE ROBO CALLS!
Suzanne	Anniston	AL	PLEASE HAVE THIS HARRASSMENY STOPPED!
steven	houston	TX	I must get 40 CALLS A DAY TO MY BUSINESS i'M TIRED OF IT. It's a wast of mine and my employees time.
Laura	Kings Park	NY	8AM or 10PM- Robo calls come in at all hours even though we are on the Do Not Call list and have an unpublished number. On several occasions, the same supposedly charitable groups called several times a day, day after day, even though you tell them that you are not interested in making a donation over the phone. We have been called "stingy, cheap, uncaring, unpatriotic" among others things. We pay for phone service not to be verbally abused by fraudulent groups. (I researched three of these online and learned that they have been known for fraud.) These phone calls must be stopped!
Gordon	PORTLAND	OR	Stop robocalls now!
David	Cherry Hill	NJ	I am receiving more and more unwanted calls from robots and live persons that are looking to sell or solicit. They are distracting me while I am driving and otherwise. They produce an unneeded hazard and time waster for all. Please stop robocalls.
philip	butler	PA	ban robo calls
Horst	Jamul	CA	I don't believe that robocalls are even effective since nearly all people hang up, except a few dim-witted. They are definitely a nuisance if not a harrassment
james	hillside	NJ	please put an end to robo calls. i receive on average seven to ten a day.they are totally an annoying nuisance
David	Pittsburgh	PA	I strongly oppose allowing robocalls to my cells phones, and any phones in general! In addition, any proposed rules or changes should maintain that anyone employing robocalls must notify me of my right to stop receiving the calls. I want to be able to limit and restrict any unwanted calls to my phone. Please make these guidelines clear and stick up for the consumers and not cave to the demands of the debt collection machine. Thank you!

paula	greenville	NC	As I am elderly, unwarranted/unsolicited calls have become a health problem. As other family members are also elderly. i race to the phone when it rings for fear that there has been an emergency with family or friends only to find out that it is a robocall or marketing issue. Please severely restrict such nuisance calls and reduce my chance of falling
Michael	West Bend	WI	Cell phones, as well as landlines, were never intended to be used for solicitation and fund raising enterprises. Please stop this abuse on the public. Thank you.
Jim	townsend	MA	End unwanted calls from rob callers and add stiff fines for those who ignore list of those not wanting them.
bob	shaker hts	OH	stop robocalls. all sales robocalls are annoying, but especially calls to cellphones. stop them!
Shawna	Makawao	HI	I am so sick of these calls, and I am suppose be be on a no call list and I still get them.
Paul	Manitowoc	WI	I pay my phone bill to use as I feel it should be used. Robocalls are not on my agenda for using what I pay for this is the most annoying for anybody especially elders who can get stressed from this practice. Now that you have my email I expect the same will happen with emails.
Sharon	Notasulga	AL	Please stop Robo calls
David	Austin	TX	Please end robocalls to cell phones!
Beth	Orleans	MA	Sick of the nuisance phone calls on the phone I pay a bill to use.
Michael	Atascadero	CA	Stop robocalls they are costing us money and wasting our time
Judith	Lake Forest	IL	My husband and I are in our seventies and retired. We are besieged by multiple phone calls every single day. It is as if an unwanted intruder entered our home without permission and we beg you to make this stop with NO EXCEPTIONS made for charities, political organizations, current vendors wishing to sell upgrades to services, etc. PLEASE HELP STOP THESE CALLS!
JAMES	Orlaando	FL	PLEASE! STOP ALL ROBOCALLS PERMANETLY! I answer more of these than calls I want.
Dr. and Mrs. J.	Lancaster	PA	Dear FCC: We are being inundated and harassed by robocalls daily. Please act now to stop the invasion of our privacy. We receive calls about debts owed to people who don't even live here. We do not want ANY robocalls. Thank you for you cooperation.
Henry	Revere	MA	PLEASE fix this problem ASAP. A majority of cell phone providers DO NOT give unlimited minutes and these types of calls actually harm the consumers. Those in the lower pay scales have a finite amount of minutes per month and need them for emergencies and to contact family members.

Pat	Edina	MN	<p>Please use your authority to strictly regulate robo-calls and robo-texts to cell phones. . Concerning debt: Lenders and collectors should only be allowed to contact (voice or text) the debtor, not people who know the debtor. Contacts need to be limited to no more than 3-4/month and also limited to business hours or to the person's stated preference (since not everyone works during the day and sleeps at night). The company initiating the contact needs to provide proof of debt validity to the call recipient. The calling company needs to provide the callee with opt-out info upon request, and the opt-out process needs to be easy to implement. There needs to be a significant penalty for companies that don't fall the rules. . Robo-callers should not be allowed to mask or change their phone number. I have had dozens of robocalls to my cell phone from the same company, with each call being from a phone number the same as my cell number except for the last 2 digits. No matter how many calls I block, I get more because they change the calling number with every call. I have also had calls to our landline where the calling number displays as our landline number/name. It's gotten so bad that I no longer answer the phone unless I know the caller. Thank you for your help.</p>
LEE	Wallkill	NY	ROBOCALLS WOULD SERIOUSLY COMPROMISE MY USE OF MY CELL PHONE.
Alan	Pasadena	TX	Robocalls are frustrating and useless. They waste large amounts of a person's time. Even being on the US no-call list and my state (Texas) no-call list doesn't seem to matter to them. Stop this invasion of our privacy!
james	lincoln	NH	i consider these robocalls to be an invasion of my privacy. they continue to call even after being requested to stop.
EDWARD	FOXBORO	MA	Robocalls to cell phones have become more frequent and more annoying. They use spoofing addresses so we cannot list them. They use valuable minutes on my plan, and they call at inopportune times. They are expensive pests. My Verizon landline has Nomorobo, which has essentially eliminated these calls to that line. I do not understand why Verizon Wireless cannot offer its customers the same screening.
Raymond	Silver Spring	MD	I support these guidelines but don't understand why these calls are needed at all. They are unsecured, I can't verify who is calling and would never respond to one. THERE IS NO NEED FOR THESE CALLS!!! This a good step but they should be stopped totally.

Ted	Washington	DC	Dear Commissioners: Thank you for standing up for the American people by working to reduce the gross amount of Robocalls. Congress caved to the immoral, error prone, out of control debt collection industry by allowing Robocalls to Cell Phones for Federal debts. Please do the right thing and protect innocent cell phone users by enacting regulations including notification of the right to stop receiving calls; limiting the number of calls/texts allowed to no more than three per month and only to the actual holder of the debt, not their family or friends and require that these regulations be clear and readily available. Please do the right thing and protect the American citizenry from the predatory, unconscionable actions of the debt collection industry and their illegitimate step-siblings, the scam artists behind so many of the robocalls our fellow citizens receive everyday! Thank you!
Cornelis	Cumming	GA	Robocalls are extremely disturbing Daytime as well as during evening hours.
VA	Albuquerque	NM	They are a nuisance and cause many interruptions and you do not why or who is calling. They also do not respond but harass you many times after being told to stop. Please stop this invasion of privacy and violation of due process
karen	whately	MA	I keep my phone's ringer turned off and the volume of incoming voices low. The robo calls most often terminate as soon as the outgoing message begins. A few times a week an incoming voice message is recorded. There are often more than a dozen a day. Whichever the case may be it's an intrusion into my privacy, my space, my peace of mind - and most of all it's a great annoyance, very irritating. At the very least, the companies, agencies and individuals doing the calling should have a system which removes names of people from their call list, who haven't answered their phones after five? ten? twenty attempts?
Max	Athens	GA	Please do everything possible to stop all robocalls, not just those from debt collectors. Almost daily I get calls offering a free security system and another "your payday loan application has been approved." I have never applied for a payday loan and am on the no-call list. Violators of the no-call list should prosecuted.
Lawrence	Vancouver	WA	We have been plagued by debt collector calls for a Jackie Hendricks ever since we moved to Vancouver, Wa. Apparently, she used to have our number or fraudulently used Ut to get credit. The phone companies have become fronts for illegal businesses. We shouldn't have to pay to block numbers when companies just get access to unlimited amounts of numbers. It's not like we can change phone companies. CenturyLink is all there is in our area. Horrible way to treat customers. Please make sure phone companies are not aiding and abetting illegal and aggravating businesses.
George	Wellington	FL	Need some peace

Richard	Plymouth	MA	Please stop all Robocalls asap
ira	carlsbad	CA	I'm retired, and home a lot. I get 2 or 3 robocalls a day. I tripped while trying to answer the phone and broke my wrist. It was a robocaller . Now I don't answer my own phone. Please put a stop to this
Sondra	Greenville	MI	Get rid of cellphone robocalls. Everytime I answer on my track phone, I am charged minutes. I am sick of these using up my minutes.
David	Bronx	NY	The title says it here. The Federal Do Not Call list is useless. The callers just spoof another number. Please kill this scourge on my phone.
george	weeki wachee	FL	i am tired of turning my cell phone on, only to find it full of robocalls and it is just as bad on my home phone. i keep telling these stupid S.O.B. i don't have a credit card,and i really don't.caller say they will take me off mailing list,then 2-3 hours later they call again.and again,and again,get my point ? the S.O.B. who gave permission for robocalls should have his head ripped off and shoved up his back side.
Beverly	Lake Mary	FL	I am so tired of robo calls everyday at all hours. Also the UNKNOWN calls everyday. They are computer scam artists etc.. I also want them to quit calling and texting my cell phone number. How did they get my cell phone number? I don't give it to everyone and it is not set up for texting. I have to pay for all these people sending text messages and I don't know them or read their messages. They use up my cell phone minutes. I have call block on my home phone - it doesn't work. I always get the message that this number cannot be blocked. Why offer call blocking if it doesn't work? I have A T & T for my home phone and Consumer Cellular for my cell phones. Please help us.
Shannon B.	Hixson	TN	I have applied for every list, but our cell phones and our internet land phone all get robo calls. I even get voice mails from one company iwthout the phone ever ringing. It is very annoying, and there must be a way to block these calls.
Skip	Pittsford	NY	The "Do Not Call" List is a joke! 90% of my cell phone calls are robo calls! These calls are automated sales calls. Put a few people in jail. Fines will do nothing.
Pat	Albertville	AL	Stop all Robo calls to Cell Phones and land line phones.
Gene	Plymouth	MN	Dear FCC, Over the past year I've been hit with repeated Robocalls on my cell phone that just won't stop. I block the number and then a week later the same Robo calls me from a new number. I find these terribly intrusive and disruptive to my personal and work life. Please help end this trash. thanks, gene

Raymond	Buffalo	NY	I am sick and tired of running for the phone only to find advertisements, charity collections and collection agencies fishing for similar names. My poor 92 year old mother in law answers numerous calls and gets totally confused on what these people are talking about. No wonder so many people get scammed.
Debbie	Anaheim	CA	Can't stand being bothered by those unwanted calls! It's a pain in the rear. Seems that it's an invasion of our privacy! People only get angry when they get them, they can't possibly gain anything from making them!
Greg	Prescott	AZ	I am tired of over half of my calls being from telemarketers and robots. Please do something....tech wise, or penalty wise to stop this invasion wherever I go.
Larry	Mission Viejo	CA	End this annoying senselessness of Robocalls. It's an intrusion on our privacy and an annoying interruption of the peace and quiet in our home.
Robert	Mason	OH	My wife and I get literally dozens of unwanted phone calls a day from people hawking everything from home security services to bogus IRS schemes. It is maddening. You are doing something and the phone rings, you drop everything and run to answer only to hear a dead air while the system is connecting you to an operator. As unbelievable as it sounds, I received a sales call while typing this comment from some screwy number in NY. It's like they know when the most inconvenient time is to call. Please HELP! I pay a ton of money for my phone service. Companies and scammers should not be allowed to use it as a vehicle to harass me and my family. We have been on the National Do Not Call Registry for years. It does not help. I'm begging you. I'm getting ready to rip out my phones and go back to letter writing as my primary means of communication. They've even started calling my cell. When will the madness end? I should not have to be subjected to these constant unwanted calls. It is nothing short of harassment. Even when you tell them to take our number off their list, they don't. Why does the government allow this to continue? Don't we as consumers, the people who are paying for our phones, have a right to privacy, a right not to be harassed every waking hour of the day, weekdays and weekends? We get calls on Sunday for cripes sake! It's ridiculous. DO SOMETHING!
jimy	pleasanton	CA	I am sick and tired of being harassed by daily robocalls. I block each number but they call from different numbers to throw me off.
Caroline	Dahlongega	GA	You can stop this if you want. It's time you did something for the citizens of this country and this is a beginning. Do your jobs. That's what you're elected to do.
jim	castaic	CA	no more robo calls ever

Maria	Ventura	CA	Robot callers should not just be restricted to cell phone numbers, but should also have restrictions to home phones (land lines) as well,
Judy	Studio City.	CA	Robo callers are not just annoying. They can cause accidents. Many times calls have come when we are in the garage or outside. We rush to the phone because we are waiting for important calls . Lucky that we have not fallen or gotten hurt in another way. Also these callers cause our phone to be busy so that important calls can't get through. They must be stopped.
Adam	Butler	PA	Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
David	Cambridge	MA	Robocalls are a personal danger since we sometimes ignore them, risking possible threats to ourselves or our loved ones; sick, broken down car, stranded without money, etc !!! Robocalls intrude, waste time, are NEVER WELCOME, always upsetting.
Caroline	Houston	TX	A private phone is just that, private. It's not for advertising, advancing political causes, or harassing citizens. We have to deal with these robo calls constantly on our home phone, despite being signed up for both the national and state do-not-call lists. It's extremely frustrating, exasperating and time consuming and they're completely ineffective. Please don't let these vultures also do this to us on our cell phones.
Mike	El Cerrito	CA	I live with someone who suffers with epilepsy & needs up to 10 hours of sleep Robo calls have repeatedly woken her up
Joy	Kennedale	TX	It is so ridiculous to receive 4 - 5 calls PER DAY from these various companies. I did an Excel spreadsheet to track for just one month and had hundreds of these calls. They call night and day. IF I wanted whatever product they are selling or to contribute to whatever charity, I am certainly capable of calling THEM at that time! HELP.
Asif	Edison	NJ	Please stop Robo Calls, all of them, and especially on cellphones.
Charles	Towaco	NJ	Outrageous and invasive, adding to the increasing incivility in our culture.
Adam	Bronx	NY	Please stop the scammers from using robocalls to cheat people. It is illegal and it uses the minutes that I pay for!!!! You know it is the right thing to do so do it!!!!
Charles	Boise	ID	Where is the leadership in our government? Why do you continue to let the Telecommunication Industry dictate the rules? After answering the sixth call yesterday, I find myself talking to a live person-robo call and when I tell him to take us off his list "or else", he challenges me with "why, what are you going to do?"

Alan	Livonia	MI	I am almost to the point of getting my phone taken out due to the amount of unsolicited phone calls. I complain to people that I am on the do not call list, and they tell me that I am not on their list. I pay for that phone, why should I have to pay to be harassed.
Jason	Oakland	CA	Robocalls are harassment by business too lazy or cheap to actually talk to people. I'm sick of them interrupting my day.
Judith	Gloucester	VA	For years I got debt-collection calls for someone who gave a false phone number, which happened to be mine. It didn't matter how often I pleaded with the callers that I wasn't that person, didn't know her, and didn't have any responsibility for her debt. The calls kept coming. Please institute regulations that will prevent this from happening, with severe penalties for callers who fail to follow the law.
Chris	New York	NY	I'm sick and tired of paying for robocalls and texts when I'm out of the country and my phone is roaming.
Jane	Somerset	NJ	We get several day, which is very disruptive. Please stop them!
Rose	San Diego	CA	Robocalls are invasions of our lives. At home or away, we have to stop what we are doing to answer a call from an organization or person we don't know and don't care to know. It is offensive.
BILL	WINDFALL	IN	THE INCREASE IN THE NUMBER OF ROBOCALLS TO OUR HOME PHONE AND CELL PHONES IS HARRASSMENT. THE DO NOT TAKE YOUR NUMBER OFF THEIR LIST. MORNING TO NIGHT. SOMETIMES IT IS UP TO 5 CALLS PER WEEK!!!
allen	E Setauket	NY	No Robocalls to Cell Phones!
joe	So. Elgim	IL	These calls are cranked up in the evening and even on Sundays. Not an enjoyable scenario at all.
Thomas	Nashville	TN	The onslaught of robocalls is a growing invasion of individual privacy. Please restrict them, or better yet: eliminate them!
Jack	Hillsborough	NH	These calls frequently occur when you are making dinner or eating or near bedtime.They intrude on the family life. All robocalls to cell or hardwired telephone should be banned. As to the cell phones it takes up minutes that the person has paid for.
Vicki	Dennysville	ME	The robocallers (Rachel from Card Services) has been harassing us for a long time. The calls come several times a day every day! I wait to connect to a live person and tell them that I don't want them calling me anymore and that their calls are harassing us. These calls are impacting my health! I wrote emails to the Better Business Bureau and the Do Not Call list to no avail. Please get them to stop!
CG	New York	NY	I do not appreciate receiving calls at inopportune times such as appointments, supermarket checkout etc. I've assigned my family personalized ring tones in the event of emergency other than that I will NOT answer and reject all other incoming calls. These are intrusive and unwelcome callers intruding on my personal space and time.

Carolyn	Palo Alto	CA	When my cell phone rings, I get anxious because I do not give my cell phone number to many people and m concerned that there is an emergency with a family member. Since cell phones are difficult to answer, there is not time to try to figure our who the call is from before answering.
Gerald	Daytona Beach	FL	I've been on the "No Call List" for many years and continue to get many robot and direct calls almost daily. Cell phones are supposed to be free from those annoying robot calls but that isn't so. I pay for the privilege of having and using a cell phone and don't want my minutes used by those robot as werll as other solicitation calls. Put an end to them.
Linda	Lutz	FL	Bad enough to be harassed on my home phone after being on no call list. Now am getting telemarketers and do is on cell phone. Unacceptable
Paul	Redondo Beach	CA	Please stop all robocalls to cell and landline phones. I would request the following issues be addressed in the final rules. Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Debbie	Centennial	CO	-I strongly oppose robocalls to my cell phone without my permission. They are invasive and infringe on my privacy. -Debt collection robocallers must notify us of our right to stop receiving calls.The number of allowed calls or texts should be limited t
Kaye	Edinburg	TX	It's bad enough to be bothered by robocalls on my landline. There is usually no way to respond to them except by a toll-free number given too fast to write down. and even if there is an option offered to "press 2 to opt out," I can't be sure that it isn't just proof that the number is "live." When I start getting calls on my cell phone from people I don't know, and sometimes in Spanish, I am further frustrated because I have to pay for those minutes. And they waste my time. I use a flip phone just for necessary calls. When my cell phone rings, I expect it to be important. I am an 77 years old and partly disabled. It's hard for me to get to the phone sometimes, and finding a robocall on the other end is very frustrating. I know that I agree to be contacted by people I do business with when I give them my cell phone number, but I expect it to be a necessary call if they do, and not an advertisement or a request for donations from someone they sold my name and number to.
Meg	Manchester	TN	I am sick and tired of getting robo calls to my home and cell phone. With everything else the government has it's hands in, you'd think they'd have their hands on this. Stop the insanity and give me peace and the freedom to receive calls from only those people I have shared my telephone numbers with.

Milton	La Mesa	CA	I have a landline and a cell phone. Out of 20 landline calls, I would say I get one legitimate call from someone who needs to speak to me. The other 19 are spam calls. My landline provider, Cox, does not automatically provide a convenient way to block these callers without a hassle and extra fees. I notice I get three or four spam calls on my cell per week and the number seems to be increasing. I can block the caller but there are getting to be more "contacts" for blocked callers than for my legitimate contacts. Make the spam callers stop. They are annoying and degrade the quality of life.
JIM	DECATUR	IL	ENOUGH IS ENOUGH STOP IT NOW.
dick	lewes	DE	3 to 5 calls a day, no relief, wonderful that the phone companies are being paid for each call,,,,,wrote my Congressmen no action,,,will vote against them next time.
Rita	New Port Richey	FL	They've gotten worse over the years, they ignore the governments national do not call list, they're becoming harassment phone calls and auto Robo calls. He gets to the point where I blocked all of them but they shouldn't be getting through. Should be illegal
Tom	Camarillo	CA	Hi I get calls all the time. Hi this is Rachel . Always trying to hook me on credit cards . Just wasting my time. Plus they are always from a different telephone number. They need to stop.
R	Tyler	TX	The unsolicited calls cost me money by using minutes I have to pay for and that should not be allowed. It is also a safety issue by distracting me while I am driving..
Carolyn	Milton	VT	I am tired of receiving robocalls to my phone without my permission. Nightly my phone rings with calls from numbers I don't recognize. These calls interrupt visits, conversations, meals, sleeping, and the privacy in my home. I do not want to elude legitimate calls from companies I voluntarily deal with, but I do not appreciate unsolicited telephone calls that have made me start to screen all calls and not answer unfamiliar telephone numbers. They can leave a message with my answering service. But they don't! Debt collection robocallers should notify us of our right to stop receiving calls. The number of robocalls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - NOT to friends or family or old telephone numbers. We received this present telephone number in 2006. Even as recently as this year, we are still receiving collection calls - despite numerous times of informing callers that we are NOT who they are calling. This borders on harassment! The guidelines should be clear and readily available.

Linda	Chapel Hill	NC	The Do Not Call list has become more and more ineffective. For both my land line and cell phone lines, we receive a number of unwanted calls on a regular basis. It is particularly distressing when these calls come in on my cell phone. As a Realtor who needs to answer all calls to make sure I don't miss a prospective client, I find it very disturbing to be interrupted by unwanted and unnecessary calls. Please pass a bill to stop ROBO calling and other sales and unwanted calls on all types of phones and for the Do Not Call list to be respected by marketers.
Mia	Claremont	CA	I have no debt, no mortgage, no student loans. The parasitic robocallers are effectively littering the electronic version landscape with trash in hopes they'll drop a flyer on one gullible person's head. These aren't targeted calls. They are noise. The American public is agitated enough already. Please stop these exploitive scammers from intruding on our privacy because they can. They're not collecting debt. They are trolling for suckers and you're allowing them in my front door. Alleviate unnecessary agitation. Contribute to world peace in your own jurisdiction! Stop robocallers!
Ted	Anniston	AL	I use my cell phone for family matters. I don't want calls from anyone I don't know, especially from machines. Thank you
James	Avoca	PA	Please stop annoying us with these ridiculous calls!
Samuel R	Pasadena	CA	I got no robocalls on my cell phone two years ago, although I got some almost every day on our landline. Now I average 3-5 robocalls daily on my landline, plus many overtly fraudulent calls claiming to be the IRS, Windows protection group demanding to clean up computer, city roof inspectors, etc. I average two robocalls daily on my cell phone. This atmosphere of unwanted and too often criminal calls is stoking hatred and extremism in America. I oppose any and all robocalls, including political calls which are increasing in number and stridency, to cell phones. I want to know why the FCC and NSA don't do more to control fraudulent calls on any phone- I have saved the numbers of crooks claiming to be the IRS or roof inspectors and see that the same number may last for weeks, with continuing calls. I don't owe money; the right of the people to a peaceful environment outweighs the rights of debt collectors. I say only two debt collection calls/texts each month and none to friends and family of debtors. Financialization is out of control in America, we must limit predatory lending and debt collectors and restore a friendly atmosphere. Thank you
Patrick	St. Paul, MN	MN	Dear Sir or Madam, I am recently retired and have gotten so many robo calls through out the day that it is maddening. I would hope that the FCC could do something about it. In fact I have asked my name to be put on do not call list for calls such as this but nothing has been done. Please, if at all possible do something to end this abuse!!!

EDWARD	RICHARDSON	TX	At 82 years of age I should not have to run to my telephone when I receive a robo call at odd hours of the day or night for fear my son 's or grandchildren are in a car accident or worse. My wife has limited movement and so I must respond al the time to the 'phone ringing. This is intolerable at our age. Please require the ATT's etc to respond to this nuisance. Nearly 80% of the calls we receive in a week are robocals.
Marty	Mira Loma	CA	I'm disabled and the only cell phone I have is my Onstar in my car and a landline. It is difficult for me to walk on crutches to answer a phone call only to find it is an undesirable call. My phones are private and paid for by me. No marketer calls or debt collector calls are welcome!!!! Keep our phones private and ban all robocalls.
Carl	Arlington	MA	Hi: Consumer Reports suggested I write you. The Robocalls that are unwanted are a pain, a waste of time and disruptive. However, it seems to me that rules governing robocalls should allow things like the following: Robocalls related to my daughter's organizations (soccer coach lets us know if games/practices are on or not) Robocalls related to the Commonwealth of MA, my town of Arlington or organizations that I already belong to (such as charities etc.) Robocalls that I have expressedly given an organization approval to send me. Thanks! Carl Wagner "I approve this message"
Leigh	West Columbia	SC	These calls are disruptive and unwanted. I pay for my phone service, and I don't think they should be able to take advantage of the phone service I pay for.
Kenneth	Vale	NC	Please stop allowing robo calls coming in on any phone (cell or landlines) It is pure harassment. Calls continue even after you ask them to remove your numbers. Peddling unwanted goods to anyone with a phone number.
Linda	Las Vegas	NV	I'm about ready to give up cell service and keep the phone for 911 calls only. YOU must do something to stop this harassment NOW!!!
David	Oakland Park	FL	I find the calls extremely annoying and I work off my cell phone and I don't like the interruptions nor do my clients.
Laurine	Marshall	WI	The robocalls come at all times of the day and night (I've had them at 3:30am). They interrupt your dinner, your visit with family, your chores and your first time to relax all day. I PAY FOR MY PHONE, they do not. I find it very unsettling that something I PAY FOR is being used against me. If they want to use my phone for their marketing, they can pay me for it, otherwise STOP>
ron	Dublin	OH	Can you imagine you are waiting for a call from your doctor to give you a life or death update on a loved one and you get a robo call that will not hang up and you are left wondering if you missed your doctor's call
Jan	Lakewood	NJ	Please stop this major annoyance
Jeffrey	Woodland Hills	CA	Unsolicited robocalls are an invasion of my privacy and time.

Susan	New river	AZ	Please, please put an end to robocalls to cell phones
Carol	Friendswood	TX	Please implement the strongest possible rules AGAINST robocalls on cellphones.
Thomas	Vestal	NY	It is not even 11am and I have already had 5 calls with spoofed numbers.
Margaret	Greeneville	TN	Stop robocalls! Citizens do not want them and should not have to pay for the transmission of them. Do the right thing and make them illegal.
Dennis	Meridian	ID	Please, Please, Please Stop Robo calls! We are helpless do do it ourselves. We need you, as our government representatives to end Robo calls.
Alex	Winter Springs	FL	I consider robocalls to be a severe violation of personal privacy. Please assure maximum transparency for me as a consumer in regards to rules, guidelines and consumer's rights. I would like to have the option to opt against robocalls on my phone on a central website.
Karen	Oakland	CA	Please do not allow robo calls to cell phones. This type of harassment is predatory . It uses up the allowance of texts and calls on my phone service. It invades my privacy.
Danny	Scottsboro	AL	I discontinued my landline because of all the Robo Calls. Now my cell phone has been muted for the same reason. There is no reason this crap calling can't be stopped. It's time for the FCC to force phone companies to stop allowing unwanted Robo Calls. I even get calls that show they are from ME on my caller ID. and I'm Sick And Tired of it.
Thomas	Blythewood	SC	My wife and I are in our 70s, a time we should be enjoying life. But that is impossible because of the barrage of robo-calls. Please stop this intrusion and assault on our Constitutional right to "life, liberty and the pursuit of happiness."
Ken	Wapakoneta	OH	We have been getting up to 3 scam calls a day including robocalls and callers asking for our personal information. We have learned to stop answering calls from numbers we do not recognize however this also stops legitimate and important calls. These calls are disruptive and we are tired of being bothered at all hours of the day when we are busy with work and important tasks.
Morton	Delray Beach	FL	I am a senior citizen and am constantly receiving these annoying calls at all hours of the day and night - when I answer the phone, 75% of the time, no one is there - please, can't you do something to stop this nonstop harassment ???
Eugene	Old Saybrook	CT	Please stop all robo calls on both landline and cell phones!
James	Jackson	NJ	Robo calls are a pain, both my wife and I aren't in the best of health, and try to keep in touch with family. Most of these calls are recorded so you can't tell them to STOP. Please ban these calls.

Chris	Crittnden	KY	These calls are very annoying, disturb meal and family time. Makes me mad when I get one. I have my phone on NO CALLS LIST, but still get them.
kevin	frankford	DE	I get at least 10 calls a day this is crazy
William B.	New York	NY	These calls waste everyone's time. Robocallers harass people randomly, whether or not "Do Not Call" anti-telemarketing instructions are in place. For those of us in creative professions who value uninterrupted concentration on our work, a robocall is particularly intrusive. (Can't turn the phone off or refuse to answer it: what if it's a friend or a relative? But no, it's another damnable robot. At least human telemarketers can be told to bugger off and delete my number.) Debt collectors are only one of many offending parties here -- I don't get that category of call myself, but I'm frequently bothered by robo-scammers offering me bogus vacations, fraudulently claiming I need their emergency computer-repair services, seeking donations for organizations I don't care about and have never signed up for, etc. Ban them all!
Carolyn J	Lexington	KY	i owe some money.....true; but the calls i get i just quit answering my phone.....it rings 10 plus times a day 8am to 9:02pm (last night-woke me up!!!!!!!!!!). i get 800 number sales calls; i get no number calls and more!!!!!!!!!! it is ridiculous.....my sister gets at least 10 a week and my brother 10 monthly! STOP these greedy unrulred leaches!!!!!!!!
Bill	San Angelo	TX	If you can in any possible way, Please outlaw ALL robo calls. I get two or three, and sometimes more calls a day on my telephone. I have tried just hanging up to no avail. Many times I will get the calls from the same place everyday for a week. Lately my wife has been getting calls from school loan organizations. We are in out late 60's and have NEVER had a student loan. Please help us stop this crap.
Dennis	Taylor	PA	Protect US
Sylva	San Dimas	CA	I gets calls a couple of times a day on all my phone lines and it is beyond annoying! I lose business because of this. I don't take the real call because I pick-up the B.S. call. Enough is enough!!!
Ken	Ithaca	NY	My right to privacy should outweigh any "right" to market to me via cell phone or to bother me for solicitations. Robo-calls are obnoxious invasions of my time and space. Even debt collectors or businesses with whom I have had transactions should be REQUIRED to observe "Do Not Call" rules with punitive fines.
Thomas	Malden	MA	Stop the robocalls.
Tom	Pottsville	PA	It is very annoying to be woken up only to have a robocall. I tend bar so I am not an early riser.
Donald	Raleigh	NC	Robocalls disrupt families and even the flow of business in our country. We must put a stop to them.

kim	kerhonkson	NY	There are companies that call my home and cell several times a day. There is never a person to talk to to stop them. They are distracting and use my minutes costing me money.
James	Miami	FL	If there was a survey of American's, I am sure that 95%+ would say that they would like the practice of receiving robocalls or solicitation calls illegal. Outside of being a nuisance some people are charged for these calls or text messages - i.e. an unwanted person or company is, in essence, charging Americans without their consent. Again, I'm sure that 95% of Americans would want the standard to be an opt-in process for any of solicitation calls - regular or robocalls - with no exceptions for political or special party interests. Do the right thing and have a website where anyone interested in marketing to you would register and the CONSUMER would make the choice as to whether they want a call or not.
Margaret	Mohegan Lake	NY	I am being subjected to unabated scam and robo calls. No sooner do I block a number than another number calls me. This is a daily occurrence. I feel that I have no protection, whatsoever as a consumer. Something needs to be done. My cell phone has become a medium for scammers to harass me.
Don	Dubuque	IA	To me, a do not call list means exactly that, DO NOT CALL. I don't care how the call starts, it's a call! When I register my cell phone on the do not call list, that is what I mean. DO NOT CALL!!!
Roger	Troy	MO	Please stop the robot calls to cell phones. I own a small business and I'm either working or on the phone scheduling appointments and I don't need more interruptions.
Frank	Richardson	TX	Please stop Robo Calls on all phones! I have all my phones on the do not call list, but I still get them! Please setup easy ways to track those who violate these rules and regulations and take actions against them
Robert	cincinnati	OH	I get 12 to 15 robocalls a day.....I never answer and there is never a message left. They use hundreds or even thousands of computer generated phone numbers. I finally subscribed to a nomorerobo website that shuts down the caller after the first ring. It is still annoying!
Ralph J.	Eastford	CT	Please work hard to prevent unwanted robo calls.
Brian	Hampton	CT	Please stop all robocalls...period.

Barbara	Sisters	OR	The robo calls have not only gotten more numerous, they have become frightening. We are now getting a robo call every other night between 10:30 and 11:00pm. My 90 year old mother is in a nearby care facility and each time the phone wakes me at night my heart races and I run to the phone thinking it might be about her. There is no way to get them to stop; I can't turn my landline or cell phone off at night because her caregivers need to be able to contact me. The calls I receive (2 to 5 daily!) on my cell phone and land line are intrusive enough, but the night time calls are TOTALLY unacceptable. Please, please put restrictions on these calls or force our phone companies to provide adequate blocking capability. Thank you
Jennifer	Highlands Ranch	CO	Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
Steve	Atlanta	GA	My mobile phone is my pager. I am continually interrupted, not for emergencies, but for robocalls. Blocking the number doesn't help they just change it.
Alan	Northbrook	IL	I get robocalls almost every day. Sometimes several a day. Years ago, I seldom had "hang up" calls. Now I understand that scammers routinely make these calls to determine if there is a live line for their scammers to call. The frequency of these "hang up" calls have increased to about once a week. I also regularly get robocalls. I would get almost daily calls from Credit Card Services. One time I they called my home and 20 minutes later called my cell phone! I always hang up so there is no way I have set myself up as a target. Yet they persist. It is sad that a country with the resources that it has, cannot stop these scammers!
Anne	Lexington	VA	Even though I have caller ID, most of the time who is calling is hidden and will only say "private caller" or call from Maryland or whatever state and not who it is. At the very least, make them say who it is on my caller ID.
Ralph	Jacksonville	FL	We should all have the ability to robocall the robocallers. Also politicians who call.
Martha	Bloomington	IN	There is no reason for robocalls, I pay to have a telephone for my use, not to be bothered by robocalls, whether they are for selling something or a scam. I do not want to be bothered and same goes for my land line. I pay for the services and do not want to be bothered or pay for robocalls. I pay for the time, not the robocaller. Please put an end to this nuisance.

Elizabeth	Eutaw	AL	I am elderly and have limited minutes on my cell phone (a Jitterbug). I have shared the phone number with a few selected family members and my best friend, to use in an emergency. Yet I regularly get robo calls at the most inopportune times (e.g., in doctor's or dentist's offices), usually telling me I won some contest or other (that I never entered) or a bogus message saying this was the final notice I'd get to reduce my credit card interest rate, etc. Something is horribly wrong with this picture and I'd be thrilled if somebody would finally do something about the problem.
Angela	Lexington	KY	I have a list of 73 blocked calls on my cell phone and there are many I haven't even added to my list. This also does not include calls I receive from myself!! Yes, I get calls that shows my name as the caller - how do they do this!! PLEASE put an end to this. Being on the National Do Not Call list is a JOKE!!
Henry	Millsboro	DE	Stop robot calls
Orrin	San Diego	CA	Unnecessary calls are a pain. Stop them now. We have the right for options to decline the calls. Take me off your list NOW.
Mellick	San Antonio	TX	I am a surgeon, and conscientious in answering and returning phone calls. In the past few weeks, I have received daily "junk" roboform calls from firms I have no connection with, on interest in. Please consider making this invasion of privacy technique, which only erodes the communication system in America, illegal if the user opts out. Many thanks, Mellick T. Sykes, MD, FACS
Trent	Las Cruces	NM	I was issued a phone number from Verizon that belonged to a barber shop in the past. Robocalls number in the 5-6 per day. I have used the DO-NOT-CALL REGISTRY, and it does NOTHING to slow the number of calls I get in a day. If I were guaranteed to not get the calls by changing my number I would do it, but no one at Verizon is certainly willing to make that guarantee.
Carolyn	Akron	OH	We finally were able to block robocalls on our regular phones and now we are being slammed with cell phone spam! Why is okay to be bombarded at all hours with total junk calls? VERY displeased!
GLENN	DRAYTON	SC	Blocking such calls often tedious, but if you clamp don't, WE won't be bothered with this junk.
Karl	Falls Church	VA	Please implement rules to halt annoying robo calls to cellphone numbers. They are an irritant to modern living.
Bob	Hilton Head	SC	I can't stand robocalls regardless of the source. Also, some block the caller ID so we can't determine who might be calling. Please HELP.
David	Sevierville	TN	Please work diligently to create and enforce strong laws to eliminate robo calls.

RUSSELL	Richmond	VA	I'm a small business owner who doesn't even answer my land line or cell phone because of the constant nagging from spammers and scammers. The DNC list is worthless. You should be able to block calls from these undesirables business owner or not.
Donald	Haverhill	MA	The FCC needs to crack down on all the telemarketers and all these robocalls, The people have had enough, we pay the Government to help the people and they do NOTHING about it, STOP!! the robocalls to our cell phones
Lois	Strestor	IL	I get way too many calls without a person at the other end. The need to be stopped.
Douglas	Benson	NC	No Robocalls to Cell Phones at all for any reason!!! I had to install an app on my cell phone called "Mr Number" that screens the incoming calls (about 20+ a week) that are a wide array of companies. First, why do need to add a app to stop these jokers from using Robocalls to contact me. They are unwanted and can be scam calls, trying to sell you something or many other reasons, Please stop Robocalls!!!!
Carl	Fort Worth	TX	As consumers we should have the ability to control who can/ and can not call and make contact by what ever source. It is a right to expect privacy and peace. There are many who believe they are above the laws and do not need to play by the rules. The "DoNotCall" is an example of lack of enforcement. Stand up and do what you agency is meant to do serve the citizens. Stop robocallers, debt collectors, and non-profits from making cell and telephone service virtually unusable. Making it a fear to pick up the phone. Stop or limit to make repetitive calls, allow for fines and remedies when they are told to stop and do not. Make them disclose a way or rules to limit contact. No exemptions! No text without invitation.
Janice	Rowlett	TX	I don't even answer my phone any more because 95% or the time is it Debt callers who are calling for someone with our same last name and that is all or Robo Sales calls. The sales calls are out of control. We get so many calls phishing for sales of products that we never even inquired about. Please make them stop, I don't owe anyone money for outstanding debt and I keep getting harassed about bills for someone who I don't even know and if I want to do business with a company then I will contact them. It is not even a good excuse to allow companies to conduct sales calls for other products they sell just because you use one of their services.
Raun	Brunswick	OH	In this day and age it is simply inexcusable to allow these robo call to keep happening! Stop this now! Senior citicens should have a way out!
Gerry	Penn Valley	PA	It is an invasion of privacy to have Robocalls use my cell phone.

Shirley	Memphis	TN	Robocalls are completely unjustified. Different agencies or organizations or even businesses, trying to sell your products that you are not interested in are bad enough, but the people who call trying to get you to respond to fake IRS debts, fake local debts or who claim that they are calling from local police agencies are the worst and they all need to be stopped with the strongest legislation possible.
frank	humble	TX	Please ask the phone companies to stop this invasion of our privacy.
Ronald	Berwick	PA	End the harassing, unwanted phone calls
Kenneth	Roanoke	VA	End Robo Calls!
Paul	Saint Paul	MN	Everyday at about 1:30pm I get two calls from "no name" about a credit account problem that does not exist. Real pain and worthless. Let's stop this before it proliferates.
John	Murfreesboro	TN	I am unhappy that robo calling is occurring on my cell phone. I pay the bill and solicit calls for a specific purpose, but never solicit nor seek robo calls. This must stop NOW! You have the ability to stop this unwanted contact modus.
Joyce	Vinton	IA	Please stop Robo calls and texts to my cell phone. This is added annoyance and harrassment. If you do not answer in fast enough they hang up and then they call again!
Heather	San Francisco	CA	I am disabled by arthritis and these calls are painful. I answer them and it causes me a lot of extra pain.
Edwin	Delavan	WI	Dear Members of the FCC- I write to ask you to implement the strongest regulations you can against rob-calls. I regularly receive these calls although I am on the "Do Not Call" registry. They interrupt the course of my life only to find I get a dial tone when I am not the fist person to answer. I consider them an invasion of my privacy. No one today can live a life in the USA without having a telephone. To have this necessity used as a ploy to get access to me and attempt to sell me various items and services is an unwanted intrusion into my life. Obviously there seems to be a place for rob-calls in the case of emergencies to notify the populace of an impending natural disaster or threat. These are life saving/sustaining measures. I do not consider call that want to sell me insurance, property, or a reduced credit card rate in this category by any means. There are many vehicles for these merchants to hawk their wares - radio, television, magazine, newspapers, billboards, etc. Please restore the security and privacy of the average citizen by limiting robocalls to use in emergency situations and banning them from commercial uses.
Beth	Overland Park	KS	Please stop robocalls to cell phones. I receive them all day at work, during the evening at home and now on my cell phone. It has gotten to the point where I don't answer the phone unless I know who is calling.

William	Prospect	KY	Please take action to end Robo calls for commercial, charitable, and political purposes. NO EXCEPTIONS! I have attempted to block robo calls on do not call lists but it is a continuous battle. Scammers are just one of the problems but admittedly a very serious one where the people who can least afford to be scammed are indeed scammed. How do you stop it? End ALL Robo Calls - When a Robo call is reported to the FCC the FCC should investigate immediately and shut the caller's number down and fine the owner of the site. A fine imposed on the telephone carier would add some policing from the commercial side and lessen the burden on the FCC. I know that politicians are probably some of the most proficient users of Robo Calls but they should be able to find more effective ways to market their political profile. In any case the calls antagonize the recipients and I believe that they are not effective.
James	Venice	CA	I have a psychology private practice. I get so many robocalls that I no longer answer my phone---I wait to see if a message is left first. (And even then, the robocallers leave messages.)
Ken	The Woodlands	TX	Robocalls are so numerous (and with fictitious caller IDs) that we are afraid to answer our phone unless we know the person calling. Stopping these would be a positive for all citizens.
Greg	Burlington	IA	STOP ROBOCALLS!
Michael	Glendale	WI	Working different shifts, it is extremely annoying to get these calls with no answering except recordings. I pay for every minute and feel I am being robbed by these people claiming to give me better interest rates. I think I am intelligent enough to seek out better interest rates if I do indeed need to. It is plain harassment and feel the vast majority of these calls are just to obtain personal info. At times when you mention to a human caller that you're not interested in their so called offers, they become rude and try to intimidate with obscene language. PLEASE stop these idiotic and harassing robocalls.
Lawrence	Durham	NC	Automated calls for solicitation or debt collection should not be allowed to cellphones. When they inevitably occur, there should be a simple mechanism to block them from repeating. Further, debt collectors should be limited to calling only debtors, not their family members.
Gay Nell	Austin	TX	Robocalls are equivalent to kicking down someone's door. These calls need to illegal.
Donald	Harrington	DE	The consumer should have a means of blocking all ROBO calls!
Karen	Scottville	MI	Please stop these robo calls. I am a senior citizen and these calls are a big annoyance to me as it is hard for me to get to the phone and then they want me to listen to their message. Many times they are now using the phase they are calling in reference to my call I had made to an advertisement, which I hadn't made.
Norm	Long Beach	CA	All robocalls should be illegal regardless if it's to a cell phone or land line phone.

Michael	Alexandria	KY	No robo calls period. One call a month for those who directly owe federal debt and are in arrears in paying it back.
Andrew	Huntsville	AL	I appreciate the FCC's efforts to implement strict guidelines regulating automated calls to my cell phone. I estimate that I get three of these calls a week. It has become so bad that I won't even answer a call from a different area code. This is my telephone and I should be able to restrict who calls me. Or at least be able to track down who is calling me if I want to report them for breaking the law. I understand that the FCC is considering further guidelines to regulate how and when debt collectors are allowed to call me. I do not think it is fair that it is permissible for these collectors can contact the friends and family of those who hold debt. Please implement the most restrictive guidelines available to you.
Michael	Vallejo	CA	Stop robo CALLS!
TERENCE	FRONT ROYAL	VA	STOP ALL ROBOCALLERS TO LINE AND CELL PHONES. WE THE CONSUMER PAY FOR CELL AND LAND LINES WE CALL WHO WE WANT AND SHOULD ONLY RECEIVE CALLS THAT WE WANT. I DO NOT WANT TO RECEIVE ROBOCALLERS OF ANY TYPE AND MOST YOU CANNOT OVER RIDE.
Ken	Kent	OH	I agree with these points: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available. We need to be protected from time-consuming, irritating, and annoying phone calls regardless of who originates them.
Jame	Mundelein	IL	No Robocalls to Cell Phones!
William	North Canton	OH	Please stop robo-calls to all phones not just land lines.
DANIEL	San Antonio	TX	I'm on the 'do not call' registry list and yet I am still getting robocalls both at my land line and mobile. Do something to end this practice.
Bob	Rockford	IL	STOP ROBOCALLS
Allen	Manila	AR	I feel that no robo calls should be allowed unless I sign up to allow them. If I want them ok but it should be against a law for unsolicited ones. Cell phones are used in autos and other areas that make getting unwanted calls no only an inconvenience but dangerous.
Reena	Austin	TX	It's gotten to where I'm scared to answer the phone unless it's a number I recognize. I get about four calls a day from Robo calls. I feel like it's not even my phone anymore and I have no control over it. This is ridiculous and must be stopped.

JIME	Lexington	VA	the daily phone calls are a real struggle. I am on the DoNotCall list. I have the ability on my cell to Block callers but they continue to come in. I also have placed a DoNotDisturb period on my cell phone, but I am concerned that I will miss an important call from a sick relative or the the hospital. Usually it is a hang up call to establish that there is a person there. It is tough because as a small business owner I depend on leads from around the country - so it pains me to let calls from locations unfamiliar to me just go to VM.
frank	humble	TX	Please press the phone companies to end these invasions of our privacy.
FRANK	LAKEWOOD	WA	PLEASE STOP ROBO CALLS
Nancy	Vancouver	WA	It's a violation of my privacy to be harassed by robocalling. I get multiple marketing and political calls daily which I feel violated. It's painful to usually ignore the call if it's not in my contact list and then I never know uf it's a valid call! It's aggravating to waste my time and energy. Please take action to eliminate that technology. Thank you
Joseph	Lander	WY	I know what I want, and I don't want a computer offering me "limited opportunities." Stop these calls!
Peggy	Kellogg	ID	I received a robocall yesterday morning at 6:13 am. Said I applied for a payday loan never have I applied for this type of loan. The call can from (806) 414-3536 and as I said 6:13 am.
Natalie	Moreno Valley	CA	My cell phone is also my work phone. Robocalls coming through on the line hinder my work productivity. Please stop this expense to consumers and businesses by ending robocalls.
James	Glendale	WI	It's about time that all unwanted calls to cell phones or for that matter any phone be heavily penalized. Also, these calls should not be allowed to hide behind a phony number.
Donna	Midland	MI	I pay good money to have a cell phone. I do not want unsolicited calls to this number. I limit who I give my cell phone number to so that I don't get unwanted intrusions. I use to work in the telecom industry and purposely don't want to be contacted via phone, pager, cell by strangers, business solicitations, debt collectors, surveys etc. Trying to preserve some sense of privacy and control over my own life.
Bill	Plymouth	MN	Please prohibit the abusive and annoying Robo calls to cell phones. You can block it. Have enough moral courage to do it. Now!!!
C	Pittsburgh	PA	I must get 3 to 4 robo calls a day. I have tried "do not call" and other means but it does not help. Make them stop!
Ronald	Lexington	KY	Please end this.
Natalie	Moreno Valley	CA	My cell phone is also my work phone. Robocalls coming through on the line hinder my work productivity. Please stop this expense to consumers and businesses by ending robocalls.

Bill	Munster	IN	I am on some robocall call list from hell! I cancelled my AT&T landline after and now us Ooma with Nomorobo protection and I still get calls, several a week. I blacklist new numbers, but they keep coming with caller ids from cities across the country. My only recourse is to not answer the phone unless I recognize the caller id, but this is still very frustrating as I have to get to a phone to check the caller id. I'm on do not call lists and have filed several FCC complaints, and the calls keep coming. Why can't this harassment be stopped once and for all?
Jeffrey	Little Rock	AR	For the last couple of years, our household has been plagued by robocalls at all hours of the day even though I signed up for the No Call Registry on my land line and our cell phones. We are sick and tired of being inundated by these calls on our land line. Now I hear that there is consideration for these invasive calls and texts to start hitting cell phones. Please halt this effort in its tracks. We do not want unknown numbers and malicious texts on our cell phones and we definitely do not want malicious and harassing calls on our land line. If we chose to do business with these shady predators, we would contact them -- not the other way around. Please stand up for individual Americans and stop these practices.
Donald	Harrington	DE	PLEASE STOP ANNOYING ROBO CALLS NOW AND MAKE IT ILLEGAL FOR TELEPHONE COMPANIES TO SELL OR GIVE OUT YOUR TELEPHONE NUMBER TO THESE JERKS!
krista	Seattle	WA	I receive 5-10 robocalls a day, despite being on a no call list. I just received one at 7:19 am. These calls must stop.
John	Aurora	IL	These calls are intrusive and totally annoying. The people need to quit with unsolicited calling. They disrupt meals, meetings, and social situations. Enough!
Dennis	Thiensville	WI	You wouldn't stand for someone walking into your home uninvited to discuss something - anything. That constitutes home invasion. Cell phones must be viewed as a technological extension of the privacy guaranteed us in our homes. That constitutional right extends to our cars. Why not cell phones? An unwanted call is simply someone in your home whom you do not want there.
C	Pittsburgh	PA	I must get 3 to 4 robo calls a day. I have tried "do not call" and other means but it does not help. Make them stop!
Charlie	Alpharetta	GA	I bought a cellphone to get away from telemarketers on my LAN line, but lately I have been harassed by telemarketers and robo callers despite the fact that I am on every do not call list available. Please take away the ability for these unsavory and illegal intrusions

carrie	austin	TX	I get daily calls from a credit card company who uses phones from many different locations in the US. I have told them several times to take my name off their list and they hang up on me. I have reported them but they keep calling, sometimes two to three times daily. Now if I get an out of state call I let it go to voice mail. I have missed several legitimate calls and I am beyond frustrated! Auto extended warranty companies are also harassing me! This situation is a nightmare, please make it stop!
Harry	Baltimore	MD	I got two calls yesterday on my cell phone and each one launched immediately into a recorded robocall I need some way to stop this please help by making it illegal and making a system to punish the people who are doing it thank you
Raul	Miami	FL	Here is what my feelings are about Robo Calls: Debt collection robocallers must notify us of our right to stop receiving calls. The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available
James	Rocklin	CA	Please stop the robo calls to our cells phones
Annette	Tustin	CA	These calls are not only annoying they are disruptive. Usually the robot hangs up in hopes that you will call them back, and now they have you on their list. The Do not Call registry is ineffective against these calls and needs to be ramped up to be able to handle them and hold phone provider accountable to meeting these laws. This is a cheap way to advertise and intrude upon someone who never asked for the call. If you do not answer they just keep calling back every few minutes. This should be considered harrasment. As the receiver of calls you do not have any recourse or speak to a real person to tell them to stop calling.
Sam	Lee's Summit	MO	I am bombarded by calls from a credit card solicitation company which uses random numbers to call on. Please stop this badgering aggravation.
JACK	BRONX	NY	All Robo calls are a waste of time and money!!!
Mark	Grayslake	IL	These calls are a terrible distraction and affect our quality of life. Not being able to quickly, easily and at no cost, stop this process of ROBO calls in todays technical environment is sad. Please help to allow the public to manage their own lives.
Joni	Westerville	OH	Please protect cell phones from robocalls - many of us (particularly seniors) have plans that require us to pay by the minutes used! We should not have to pay to be harassed by debt collectors or anyone else. It is particularly important that people WHO DO NOT OWE THE DEBT be protected from these unscrupulous collectors and scammers. Thank you for your consideration.
Charles	Louisville	KY	I'm sick and tired of all the robocalls that I get every day! I have to stop what I'm doing to answer the phone just to be upset to see that it is a robocall. I don't need these calls.

Tom	Burien	WA	From early morning to 8:30 PM. My wife is ill and this detestable business practice awakens her several times a day. Enough please!
jack	los angeles	CA	I WORK NIGHTS AND SLEEP DURING THE DAY. THESE PEOPLE WAKE ME UP. PLEASE STOP THESE CALLS. they are rude as well.
Harrison	Jenison	MI	They interrupt our quiet time, always call at meal time, a late evenings. We are retired and in our 80's and need our privacy.
Darrell	Dallas	TX	I receive several calls each week about reducing the interest on my credit cards. When I try to call the number back to insist that they remove my number I get a recording that that is not a working number. I want the calls to stop and no company should be able to call from a number that they manipulate to show a non-existant number on my caller ID.
Robert	Wonder Lake	IL	Robo calls are a nightmare for my business and personal life.
Charles	Chico	CA	Despite going to the do-not-call list website numerous times, we still get these calls, almost on a daily basis. There is a complete disregard for the do not call list.
John	Oklahoma City	OK	Robocalls steal my peace of mind as well as distract from my concentration. STOP ROBO CALLS PLEASE!! THANKS
Mark	REDONDO BEACH	CA	Stop robocalls!!
Robert	Berwyn	PA	I don't need more unsolicited calls on my cellphone. Please no more robocalls!
Rob	El Dorado Hills	CA	Stop the robo calls, I get them a few times a week about refinancing or some other financial scam. They disturb my day and drive me crazy. Currently I'm on the do not call list but this does nothing! I don't know of any way to get off their calling lists. Help me, ban this type of call
Thomas	Black Mountain	NC	Please implement the strictest guidelines against. These calls amount to an invasion of privacy. While debt collectors have a right to try to collect debts, they do not have any right to use machines to annoy us. Debt collection robocallers must notify us of our right to stop receiving calls. Please include these points as a minimum: Debt collection robocallers must notify us of our right to stop receiving calls The number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family The guidelines should be clear and readily available
Henry	Croton-on-Hudson	NY	Please.

Rob	Lake Worth	FL	I have call block from AT&T and only allows 5 numbers to be blocked and you cannot block out of your area code numbers. This is insane that as a customer for 35 years I have to be annoyed by robo callers at all times. AT&T could care less and does not provide any panacea to its customers paying for this service. I also got spoofed. I saw my name and telephone number on my caller ID. How is that possible with today's technology? I am tired of this angst. The FCC needs to step up and make landline providers protect their paying customers. This is what happens when a conglomerate owns it all!!!!
Jon	New Port Richey	FL	Robo calls are annoying, time consuming and ineffectual as even if you pick up there is silence at the other end for a few seconds...adequate time to hang up. Interestingly, I approach these calls with an attitude of whatever it is they're pushing...I DON'T NEED OR WANT IT!! Please stop these calls!!
Larry	Weaverville	NC	Please help stop these harassing phone calls
Leland	Cumming	GA	I reserve my cell phone for urgent calls and emergency use. It is more than annoying to receive robocalls on my cell phone. Please do not allow this intrusion on our privacy.
Martin	Hopewell Junction	NY	Robo and scam/"sales"/"survey" calls to my cellphone are so bad I keep my phone in do not disturb and I only accept calls from my contact list. In turn I cannot receive business calls as they come from people I don;t have in my contact list, including airlines for urgent calls.
Frank	Woodinville	WA	Please prohibit all robocalls to cell phones. They are an unwanted invasion of privacy. They can easily be misused for fraud and other illegal purposes. They should be banned entirely. Thank you.
Robert	Sarasota	FL	Citizens need protection against commerce that adversely affects their life, liberty and happiness. Debt collection calls should be limited to no more than one per month. Anything more is harmful harassment.
Wayne	Warrensburg	MO	I oppose robocalls to my cell phone because it wastes my money. I have a pay-as-I-go plan, and each time I received a call or check my messages, minutes are deducted from the minutes for which I have paid. The calls are annoying as well, usually coming at an inconvenient time, or causing me to pull over to the side of the road if I receive a call. My phone is for MY use, not some solicitor's use! If I'm interested in a service or product, I contact the company; I don't want someone wasting my money or my time.
Dale	Tampa	FL	what ever is done, there has to be some consequence to ignoring the laws. Please put some teeth into the legislation.
Michael	Jackson	MI	Robo calls, although irritating, just don't work. As a matter of fact, the reverse happens. Products and services represented fall off my list.

Joe	Scarsdale	NY	It is time we end the daily robocalls to our homes and cell phones, enough with the scammers.
Peter	Lebanon	CT	Robocalls should not be allowed at all. It's an intrusive invasion of privacy.
Gene	millburn	NJ	as each person pays for min's on their cell phone, getting advertising, telemarketing and other non personal or expected buisness calls costs that person unnecessarily. not only does those costs add up during the month, but they interrupt whatever that person was doing...like driving, or some other activity that requires attention.please BAN these type calls to cellphones. It's bad enough they interrupt your day on a home phone.
Hilary	Mundelein	IL	I have a cell that is on the Do Not Call registry and has been for years. I get several calls a week from robocallers that either drop when I answer or say this isn't a problem with my credit card. They're all from different local numbers
Rob	Centennial	CO	Total invasion of my privacy! I'll buy a service or and item on my own without continuous calls trying to sell me something.
Louis	Fayetteville	GA	Limit debt collections by robocalls. Those who owe the debts should have a limit to the number of calls received to no more than three per month.
Susan	Roswell	GA	I am tired of being harassed by robo calls. Not only from debt collectors, but from political candidates, charities, and anyone else. These calls come through as unavailable or name not found on called I'd. If I am on the federal no call list, I expect ALL of these intrusive calls to stop. They are an invasion of my right to privacy in my own home.
Orlando	Friendswood	TX	I work in Home Health and treat patients in their homes. Because of this, I do not have the luxury of ignoring any calls that I may receive as it may be a patient calling. The robocalls are a burden to me and a hindrance to providing the best care for my patients.
Sue	Pendleton	OR	My cell phone and number are my private property. I pay for it. No more robo calls!!!
Marilyn	San Francisco	CA	I continually get calls, from the same number, that my husband has won a prize. I have repeatedly told them my husband was deceased, but they continue to pester. I have tried blocking, but they use another number. I also am continually harassed by someone telling me the IRS has a warrant for my arrest. This is absurd that one cannot expect privacy on their own phone
Terri	Dallas	TX	Please rule in favor of the consumer. I receive so many Robocalls and many of them are solicitous in nature.
Jerry	King Of prussia	PA	These calls are annoying and when you tell them to stop calling they call you more times
Annette	Tustin	CA	Please stop robo calls. This is a very bad way to advertise and annoying to the recipient as they usually hang up when you answer. Or they call back repeatedly if you just do not answer the call. This is pure harrassment.

Camille	Cranford	NJ	Please outlaw all robocalls.
Bill	Saint Petersburg	FL	Please do whatever you can. The robocalls to both cell phones and land lines are way too frustrating!!
Ruben	San Antonio	TX	I have begun to receive robocalls on my cell phone at all hours. I have never been asked to grant that privilege and I hereby state that these calls are both unwanted and unrequested. I don't need them! Please FCC, help us stop them by all means! Thank you!!!
thomas	Mahwah	NJ	Do not want any robo calls!!
Karen	Champaign	IL	I am so tired of my suppers or other naps ruined by these annoying calls. Please stop them!
Kay	Brentwood	CA	We get 4-5 of these a day, sometimes 2 from the same # only 6 minutes apart! We are sick of being harassed like this and want it to stop. We screen all calls as a result and don't answer any 3's we don't recognize as friends.
Jan	B.P.	CA	So annoying
Douglas	West Springfield	MA	It's not fair that I have to pay for an unwanted call. They should have to pay for all calls made to cell phones. The only ones that are benefiting from these calls are the cell phone providers such as Verizon. Please make them stop. Thank You Doug Smart
Barbara	Ardmore	PA	Please block robocalls to cell phones. They are a bother and take up minutes on those phones with minimal minutes.
bruce	atlanta	GA	There is no reason why a strange "business" should be allowed to interfere with your life and day, and run up your cellphone bill, absent prior consent.
Marilyn	Spartanburg	SC	Nuisance calls are invasive to my privacy and interrupt daily living. I resent them and am angered by them. I rely upon my telephone id to avoid picking up the phone, but the calls are still disruptive.
Andrea	Memphis	TN	Calling from different numbers 2/3 times an hour is past rude and obnoxious. You will get paid
Helmut	Plymouth	MN	I recently lost my Dad and was very dismayed that I received repeated calls during this very stressful time from an unsolicited source. In spite of me asking politely that they stop the calls continued to come in. Please help to control these type of calls!!!
Michael	Glassboro	NJ	You must stop invasive robocalls. it is a violation of our privacy, an annoyance you are empowered to stop. Do it.
John	New York	NY	Why not all phones?
William	Millersville	MD	Please put an end to the annoying ROBO CALLS. They are also distracting while driving.
Sanford	Atlanta	GA	We get approximately 5 to 10 unsolicited calls everyday on our home phones, and now I am starting to get a few on my cell phone. This is not right. I have a right to my privacy without being disturbed by these robo calls and unsolicited callers. Please stop these callers, they are a nuisance.

Brad	Los Angeles	CA	Unsolicited call....whether by a person or robomachine, are disturbing. I almost never answer either my home or cell phone when I don't know the number.
marc	coral gables	FL	we must stop them. they are not only intrusive but dangerous. i have no debts and yet i get these calls constantly. as a physician they interrupt my day and my patient care. please help
Lee A	Quakertown	PA	I still get occasion nonsense on my cell phone about I have won a cruise, or some other automated nonsense. It is far worse on cell phones since it can interrupt work at the worse possible times.
patrick	rougemont	NC	If I want a service I will look for it - do not want to be hounded by these calls
Heather	Waddell	AZ	No more robot calls
scott	saddle river	NJ	I don't view my phone as a public service to be abused by anyone who feels like it. I view my phone as MY phone - only usable by those I give permission to. Please act to stop all of the abuses of our phones.
DENNIS	MORGAN	UT	PLEASE DO YOUR JOB
melissa	Austin	TX	Put an end to illegal robocalls
Sam	Oxford	MS	If debt collectors are allowed to robocall my cell phone, they should be a) regulated, b) monitored and c) penalized for violating the rules.
Sam	Louisville	KY	Please! I already receive numerous harassing phone calls from unidentified numbers.
Gregory	Austin	TX	It's clear that the FCC's new rule would make it possible for MORE robocalls to target mobile phones, and I already get too many. No thanks!
